|---|-----------|
| Summary of the report on soil surveys of areas commanded by Purna Left Bank Canal. | I to VIII |
| 1. Introduction. | 1 |
| 2. Special features of the area under the command of Purna Left Bank Canal. | 2 |
| 3. Object of soil surveys. | 3 |
| 4. Method adopted for soil surveys. | 3 |
| 5. Brief details of items of work. | 5 |
| 6. Important details and observations of the areas surveyed. | 12 |
| 7. Details of various subcatchments. | 16 |
| 8. Existing crops in the area. | 30 |
| 9. Proposed cropping under canal irrigation. | 31 |
| 10. Data collected and recorded during the soil surveys and shown in various statements. | |
| (1) Statement No.1 showing the number of subcatchments, villages in the subcatchment and the gross area surveyed. | 35 |
| (2) Statement No.2 showing the village-wise distribution of soils in different subcatchments. | 40 |
| (3) Statement No.3 showing the number of wells villagewise in different subcatchments their water levels and composition. | 52 |
| (4) Statement No.4 showing the results of recuperation of wells. | 57 |
| (5) Statement No.5 showing the number of wells and areas irrigated on wells in different subcatchments. | 59 |
| (6) Statement No.6 showing the results of infiltration tests. | 60 |

| | <u>Page.</u> |
|--|--------------|
| (7) Statement No.7 showing the results of the studies of the existing natural drainage for different subcatchments. | 63 64 |
| (8) Statement No.8 showing distribution of major crops grown at present in the different subcatchments. | 64 65 |
| (9) Statement No.9 showing deductions in medium and deep soils in different subcatchments. | 65 |
| (10) Statement No.10 showing suitable areas for irrigation in different subcatchments with saline and alkaline profiles. | 66 67 |
| (11) Statement No.11 showing the number of samples with specific properties (Medium soils). | 67 68 |
| (12) Statement No.12 showing the number of samples with specific properties (Deep soils). | 93 94 |
| (13) Statement No.13 showing the distribution of different soils in each subcatchment and the areas under various crops proposed under irrigation in Medium and Deep soils in various subcatchments. | 114 115 |
| (14) Statement No.14 showing the details of auger pits excavated in different subcatchments. | 115 |
| (15) Statement No.15 showing the names of the staff members of different categories worked on the project. | 157 |
