CHAPTER : I

INTRODUCTION

1.1) Background & Location :

Ahmednagar which is popularly known as 'Nagar' in western Maharashtra is the seat of District administration of Ahmednagar District and is on the bank of river.

Sina : Which remains dry for nearly 9 months in a year. The city was founded in the year 1494 and till 1630 A.D. it was the main centre of administration of Southern India. Ahmednagar district came into being in 1818.

Ahmednagar district is located between 18.0° & 19.9° North latitudes and 73.9° & 75.5° east longitudes. It is surrounded by Bhir and Usmanabad district on the east, Poona district on South west, Thana on the west, Aurangabad & Nasik on the North and Sholapur on the South. This district is biggest in Poona Division, with an area of 16776 Km. and second biggest in the State, next to Chanda district of Nagpur Division.

1.2 TOPOGRAPHY

1) Soil : The soil of this district can be classified into 5 viz. 1) Black 2) Red, 3) Laterite, 4) Burad & 5) White known as Pandhari.

In Rahuri taluka the soil is mostly deep black & very fertile coupled with a fine perennial water system. Due to this very reason, the area is selected for Mahatma Jyotiba Fule Agricultural University in the State. In the hilly area of the west of Akola taluka red laterite soil is deeper on the slopes. The soil along with the bank of river Pravara is very rich & fertile. In Kopergaon and Shrirampur talukas we get very deep and fertile soil. The Southern portion including Ahmednagar, Parner, Shrigonda and Karjat is mostly composed of pethers and the plain land in this area is also ...

~~poor and shallow.~~ The soil in Jamkhed Taluka is reddish land mostly light and poor in fertility.

ii) Rivers : Godavari and Bhima constitute the major rivers of this district. Godavari flows along the north eastern boundry of the district, that is along the border of Shrirampur, Newase and Shaygaon Talukas. Pravara is a tributary of Godavari it passes through Akola, Sangamner, Shrirampur, Kopargaon and Newasa Talukas. Pravara originates in Akola taluka & then joins Godavari in Newasa taluka. A dam known as Bhandardara is built in 1926 in Akola taluka, From where Pravara originates Pravara Canals proved bounteous to the ~~people~~ famine stricker people of this area. Mula, Adhala & ~~Phalungi~~ Phalungi are important tributaries of Pravara.

The Southern half constituting Parner, Ahmednagar, Pathardi, Shrigonda and Karjat viz. in the Bhima basin & is drained by Sina Kukaadi and Ghod. The tributaries of Bhima. The river Bhima flows nearly 56 Km. along the boundry of Poona and this district.

iii) Hill Ranges : The main Sahyadri range touches only one taluka i. e. Akola in the west of this district. From this main range, there are three spurs viz. 1) Kalsubai, 2) Baleshwar & 3) Harichandragad. The Spurs of Kalsubai stretches out east-wards along the nothern border of this district & goes upto Dadheshwar hill in Sangamner Taluka. Kalsubai is the highest peak of Sahyadri (1654.15 meters) in this range and it serves as a water shed between Dharna & Pravara rivers. The length of Harichandragad spur is about 96 Km. and it branches run from Ratangad it also serves ^{as} water shed between Pravara and Mula rivers. The Baleshwar range is largest & it forms the boundary line between Poona and Ahmednagar districts. On entering Parner Taluka this spur formed a ...

Plateau from which two spurs branch off, one going through north of Ahmednagar town and it forms a watershed between Godavari and Bhima, another one turns southwards across. The North-east corner of Shrigonda taluka and then enters into Karjat Taluka.

iv) Minerals : There are no minerals, in this district except lime stone in Parner Taluka.

1.3 CLIMATE :

i) Rainfall : Ahmednagar district gets rain mainly from South-west monsoon but the distribution of rainfall is almost uneven. The major part of precipitation is experienced in western part of Akola taluka whereas rains in southern part of the district are most erratic.

The normal rainfalls at taluka head-quarters in Ahmednagar district vary between 500 m.m. to 700 m.m. approximately. This district can be divided into three Zones according to the rainfall at taluka head-quarters. The normal rainfall in 1st Zone comprising of northern part viz. Kopergaon, Sangamner, and Shirampur, is round about 500 m.m. Zone II comprises of southern part including Talukas of Shevgaon Nagar, Pathardi and Jankhed with normal rainfall upto 670 m.m. & in the third zone covering the remaining talukas with normal rainfall between 500 m.m. to 600 m.m.

As compared to normal rainfall, the actual rainfall appears to be satisfactory in Zone numbers I & II only during 1968. While in 1969 the actual rainfall ^{is} uniformly satisfactory in all zones as compared to normal rainfall. Pre-monsoon rain was scanty in all zones during both years. While post monsoon rain was poor in Zone No. I during both years it was satisfactory in zone II during 1968 ^{and} it was a half the normal rainfall during 1969.

11) Temperature :

The climate of this district is mostly dry. Monthly Temperature records are available for Ahmednagar city only. Table No. 2 of the abstract envisages that during 1968 & 1969 maximum temperature was recorded as 40.0 & 40.7 during May ^{respectively} whereas minimum temperature was recorded as 11.4 & 12.0 during January of 1968, 1969.

1.4 NATURAL ZONES

District can be divided into four natural zones according to topography and climate conditions of this district.

ZONE : 1 : Akola taluka is entirely different from all other talukas of the district and its western part is hilly and full of forest. It receives heavy rainfall. Kharif crops are sown in this area.

ZONE : 2 : This zone consisting of Ahmednagar, Sangamner, Parner, Shrigonda and Karjat talukas constitute ^{47.92} percent area of the district which receives very low and scanty rainfall and it is almost a scarcity zone.

ZONE : 3 : This zone consists of Kopergaon, Shrirampur and Rahuri talukas which also receives low rainfall but due to development of canal irrigation system, sugarcane factories are located in this area. The Soil of this zone is also very rich.

ZONE 4 : Jamkhed, Shevgaon, Pothard and Newasa constitute the fourth zone of the district. It receives regular rain and the soil of Newasa and Shevgaon is very very fertile.

1.5 : FAMINE & SCARCITY :

No villages were affected by famine and scarcity condition in the years 1968-69 & 1969-70. However, Kopergaon, Shrirampur, Newasa, & Shevgaon talukas were attacked by heavy floods during 1969-70. Nearly 69 villages with total

population 53,369 were affected..The total loss due to failure of crops and loss of livestock and other properties was estimated at Rs. 54.26 lakhs. The taccavi loan to the tune of Rs. 4.37 lakhs were distributed during 1969,70.

1.6 DISTRICT ADMINISTRATION

In 1891 Ahmednagar district had eleven Sub-divisions namely, 1)Ahmednagar 2)Akola 3)Jamkhed, 4)Karjat, 5)Kopergaon 6)Nowasa, 7)Parner, 8)Rahuri, 9)Sangamner, 10)Shevgaon & 11) Shrigonda.

Pathardi which was part of Jamkhed Taluka was formed into Pathardi Peta in 1913 and then subsequently up graded to as taluka in 1941. The remaining portion of Jamkhed taluka was then renamed as Jamkhed Mahal. Karjat taluka was down graded to Karjat-Pata and subsequently it was again upgraded as taluka in 1950-51.

For administrative purpose, Ahmednagar district is divided into four sub-divisions. Which together contains 12 talukas and a mahal. The following table shows the administrative set up of Ahmednagar district.

TABLE NO. 1.6

Table showing the administrative set up of Ahmednagar District and other details.

Sr.No.	Sub-division	Taluka	No. of Towns	No. of Villages		Population as per 1961 Census
				Inte-ribited	Des-erted	
1	2	3	4	5	6	7
1.	Ahmednagar	i) Ahmednagar	1	105	2	2,45,58
2.	Parner	i) Parner	-	114	-	1,31,00
		ii) Jamkhed	-	36	-	73,15
		iii) Karjat	-	31	-	50,00
		iv) Shrigonda	-	84	1	1,16,21

1	2	3	4	5	6	7
3. Rahuri		i) Rahuri	-	82	-	1,17,723
		ii) Newasa	-	130	1	1,17,706
		iii) Pathardi	-	92	-	1,10,905
		iv) Shevgaon	-	121	1	1,04,207
4. Sangamner		i) Sangamner	1	137	-	1,64,564
		ii) Akola	-	153	-	1,17,795
		iii) Kopergaon	2	100	-	1,26,512
		iv) Shrirampur	1	74	-	1,78,174
TOTAL			5	1312	5	17,75,969

The District administration can broadly be classified into three categories 1) State Govt administration. This includes Revenue Forest, Judicial, Cooperatives, B & C. Department, I & P. Department and Divisional Soil Conservation office etc.

2) Central Government Administration: This includes Income Tax and Postal department etc.

3) Local & Public Bodies: This includes Zilla Parishad, Panchayat Samiti, Municipalities, Maharashtra State Elect. Board and State Transport etc.

Collector is incharge of General Administration, Law and Order Land Revenue. He is assisted by Resident Deputy Collector and four other Deputy Collectors who hold charge, of 4 revenue sub divisions described above. Tahsildar is incharge of taluka/one Mahalkari looks after the work of Mahal.

In order to gear up the development activities & major participation by the people, Zilla Parishad & 13 Panchayat Samities were constituted under the Maharashtra Zilla Parishad & Panchayat act of 1962. Zilla Parishad has

an elected President, assisted by vice Presidents. The administration of Zilla Parishad is carried out through the Standing Committee and Six subject Committees. At Block Level, Panchayat Samiti consist of all elected and coopted members from the area of the block and is headed by Chairman. An I.A.S. officer works as Chief Executive Officer and he is assisted by various Departmental Heads. At Block level Block Development Officer, works as a Secretary to the Panchayat Samiti.

All the Urban areas and Cantonment areas excepting Wari village which is treated as town in 1961 census have been excluded from the purview of Zilla Parishad. Thus Zilla Parishad covers nearly 99.36 percent ^{of} total area, ~~total area~~ and 89.94 percent of the total population.

1.7 DEMOGRAPHY

1) Population : According to 1961 census total population of the district was 17,75,569 which indicates the rate of increasing of population by 25.88 percent during the decade which is more as compared with Poona division and also Maharashtra State. The following Table indicates the percentage variation in the population since 1901.

TABLE NO. 1.7 A

Y E A R	Population	Rate of variation
1	2	3
1901	8,20,346	-
1911	9,25,876	+ 12.86
1921	7,19,137	- 22.33
1931	9,69,209	+ 34.77
1941	11,23,040	+ 15.87
1951	14,10,873	+ 25.63
1961	17,75,963	+ 25.88

It would thus be seen from the above table that the district witnessed the decrease in population during 1911-21 by 22.33 percent, due to the severe attack of influenza epidemic of 1918 and due to Exodus of the population due to severe famine condition.

ii) Density : According to 1961 census, the density of the district was 105 per Sq. Km. which ^{shows} an increase of 23 as compared to the density of population during 1951. Due to rapid expansion of Sugar Industries and assured water supply the densities of population of Shrirampur and Kopergaon talukas are high and according to 1961 census, the density of Shrirampur was 220 while that of Kopergaon was 138 persons per Sq. Km. Average population per village in 1961 is 1205 in this district as against 752 in Maharashtra i.e. an average village in the district is almost 50 percent larger than an average village in Maharashtra State.

iii) Literacy : The district has made much progress in literacy and education. The following table indicates the percentage of literacy in the district since 1901.

TABLE NO. 1.7 'B'

Y E A R	Percentage of Literacy
1	2
1901	4.67
1911	4.65
1921	6.40
1931	6.02
1941	13.87
1951	18.80
1961	26.45

During the last three decades the improvement in literacy has been very significant mainly due to compulsory primary education by State Government. In urban areas, the literacy in the district was 51.12 percent while in rural areas, it was only 23.54 percent as against 49.27 & 23.58 percent in Poona Division and 51.07 percent and 21.46 percent for the whole of Maharashtra State.

iv) Agriculture Population :

According to 1961 Census 50 percent of the population was classified as workers, of which nearly 59 percent were engaged in cultivation and followed by 22 percent as agricultural labourers corresponding proportion in the State was 46 percent and 24 percent respectively. Eight percent of the population form industrial workers as against 11 percent in the State.

v) Schedules Castes and Scheduled Tribes population : Scheduled castes and Scheduled Tribes constitute 8.87 and 6.18 percent of the total population of the district respectively. The total population of Scheduled Castes was 1,57,500 of which 91.48 percent lived in rural areas while 8.52 percent lived in Urban areas. The total population of Scheduled Tribes was 1,09,827 out of which 98.23 percent were living in rural areas and 1.07 percent in Urban areas. The proportion of Scheduled Tribes in this district is very high as compared to whole of Poona Division.

CHAPTER II

Explanatory notes on tables presented in District Statistical Abstract 1968-69 and 1969-70.

2.1 The District Statistical Abstract for the years 1968-69 and 1969-70 presents official Statistics on various topics such as climate, Agriculture, Animal Husbandry and Forest, Employment, Industries and Mining, Cooperation, Medical and public Health, Education, Transport & Communication C.D. and Plan etc... The data presented in various tables as collected from concerned Departments of State and central Government. The footnotes indicate the source from which data is collected. In all tables except population and live-stock census data pertaining to two reference periods 1968-69, 1969-70 or 1968 & 1969 have been presented. Also for the tables pertaining to Agriculture and Co-operation, the reference years are either agriculture or cooperative years. Whenever data is not available, the nearest years have been considered. In each table district total are given in the beginning, taluka wise breakup follows next. The concepts sources and limitations adopted while preparing the abstract is discussed in following paragraphs.

2.2 Climate/Rainfall

The data under this head is collected in 2 tables one relates to rainfall and other is of temperature. Table No. 1 presents normal rainfall and the number of rainy days and actual rain-fall of various Stations in Nagar district. Normal rainfall means average rainfall over a long period usually more than 75 years. The data are obtained from the Statistician Department of Agriculture and wherever data was not available, data supplied by Tahsildars is taken into account. The maximum rainfall was recorded at Karjat Centre.

In 1967. The rainfall was 959.5 m.m. and the lowest rain-fall was recorded at Shrigonda centre in 1969. The rainfall was 287.2 m.m. Table No. 2 presents maximum minimum and mean temperature at Ahmednagar. Station. The mean maximum and mean minimum temperature are averages of maximum & minimum temperature observed and recorded. The mean temperature is the average of mean maximum and mean minimum. In 1969 Summer the mean maximum temperature was 40.8 C. (April 69) & mean minimum was 12.0 C. (Jan. 69).

2.3 Population

The data presented under this head are based as Govt. of India publication census report of X-Maharashtra Part II. In all Six tables are prepared to show the salient features of this district.

Table No. 3 depicts tahsilwise population classified into Urban rural and also males & females, The rural Urban and total densities and percentage variation over 1951 population are also shown Tahsilwise. Table No. 4 shows tahsilwise classification of villages according to population ranges less than 200, 200 to 499, 500 to 999 etc.. out of 1318 inhabited villages, 448 villages fall under range 500-999, followed by 353 villages in 1000-9999 population range. There are only 8 villages having population more than 10,000. Table No. 5 shows classification of towns according to population ranges. There are only 5 towns viz. Ahmednagar, Kopargaoon, Wari, Sangamner and Shrirampur. The Tahsilwise classification is as under :

<u>Tahsil</u>	<u>No. of towns</u>
1) Ahmednagar	1
2) Kopargaoon	2
3) Sangamner	1
4) Shrirampur	1
TOTAL	<u>5</u>

(CONTD)...

In rest of the tahsils, there are no towns.

Economic classification of population is given in table No. 6. The total no. of workers are 8.93 lakhs whereas non-workers are 8.83 lakhs. Table No. 7 gives classification of population by age group, mother tongue and religion. Table No. 8 gives tahsilwise scheduled Castes and Scheduled Tribes population. The scheduled castes population is 1.58 lakhs while scheduled tribes population is 1.10 lakhs.

2.4 Agriculture :

Under this head important statistics pertaining to land Utilization area under different crops, irrigation yield & outturn and agricultural wage rates have been presented. The information in this group of tables pertains to 1967-68 & 1968-69. The data is provisional as it is yet to be finalised by Agriculture Department.

Table No. 9 gives tahsilwise figures of land utilisation under different heads of utilisation. Against each tahsil the break up of the total geographical area according to different types of land used is shown. Areas under 'forests' included all actually forested areas or lands classed or administratives as forests under legal enactment dealing with forests whether state owned or private. If any portion of such land is not actually wooded but put to some agriculture use, that portion is included under appropriate heading of cultivated or uncultivated land. Land put to non agriculturing uses stands for all lands occupied by building, roads, ^{railways or under water i.e. Rivers,} canals. Barren and unculturable land covers all barren and unculturable land like mountain, deserts etc. Land which cannot be brought under cultivation unless at a high cost is claimed as unculturable whether such land is isolated blocks or within the cultivated holdings. Permanent pastures and grazing lands cover all grazing lands. Whether ^{there} are permanent pastures and -----

meadows or not, Village common and grazing lands within Forest areas are included under this head. Under miscellaneous trees crops and groves are not included. Lands under Casurina trees thatching grass, bamboo bushes and other groves for fuel etc. which are not included under 'Orchards' are classed under this category. Culturable waste includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation. Once but cultivated during the current year but last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Current fallows comprise cropped areas which are kept fallow during the current year. If any seedling area is not cropped again during the same year, it is also treated as current fallow. Other fallow land includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years. The net area sown consists of net area sown with crops and orchards, area sown more than once being counted only once. The gross cropped area represents the sum total area under all crops. The difference between total cropped area and net area sown is accounted for by the area sown more than once on the same land during the same year with same or different crops.

Table No. 10 presents tahsilwise details of area under different crops. Table No. 11 shows the cultturn and average yield per hectare of principal crops in the district. Table No. 12 gives the idea about gross and net irrigated area by different sources of irrigation in each tahsil. Table No. 13 shows tahsilwise hectrage of various crops under irrigation. Table No. 14 presents data on total no. of wells in each tahsil and further breakup of wells in use and not in use. Table No. 15 gives data regarding minor irrigation works in the district

under taken by Planning Commission, Government of Maharashtra and I & P. Department. Table No. 16 gives the information regarding major and medium irrigation works in Nagar district. It gives the idea of area commanded, irrigation potential, irrigated area and other items connected therewith. Table No. 17 gives information on average monthly wage rates collected by the Block Development Officers of Akola, Shrirampur and Karjat. Table No. 18 presents figures of Agricultural implements enumerated in 10th Live-stock census of 1966. Table No. 19 depicts the data on famines, scarcity and conditions akin to Scarcity in Nagar district during 68-69 and 69-70.

2.5 Animal Husbandry, Forest and Fisheries :

Under this head information regarding live-stock census, veterinary Statistics, recognised slaughter houses forest and fisheries statistics is presented. Table No. 20 gives the number of various types of live-stock; poultry etc. as enumerated at the time of 1966 live-stock census. At this census, all the live-stock enumerated by house to house enquiry. Particular care is taken to enumerate livestock in slaughter houses, stray animals and animals in transit. Table no. 21 gives the information regarding medical facilities available to the live-stock population in the district. Table No. 22 gives the information regarding attacks, of diseases. Table No. 23 shows the information regarding slaughter houses and animals slaughtered in the recognised slaughter houses in the district. The information regarding animals slaughtered in non recognised slaughter houses and those slaughtered by the butchers in rural areas is not available. Table No. 24(a) gives figures of area under forest in the district. The forest area figures in this table is different, from figures in the table on land utilisation. The concept of classifying areas adopted is different by two departments. Table No. 24(D)....

gives the information regarding production and value of major and minor forest products in Nagar district.

2.6 Employment, Industry, Mining & Electricity :

Under this head information on various items like employment industry, mining and electricity is collected. Table No. 25 gives average daily employment of workers in the factories. It also gives the break up of factories registered closed and the no. of working factories submitting the returns. Table No. 26 throws light on another important aspect of factory employment. The classification of factories according to working strength is denoted. Table No. 27 gives the classification of factories according to number of days worked during the year. Table No. 28 gives monthwise figures of registration, vacancies notified, placement done in public and private sector and live register at the end of each month. Table No. 29 gives the breakup of total no. of registration according to National classification. Table No. 30 gives the idea about changes in col. of employment. Table No. 31 shows the total no. of Govt. employees according to their basic pay and total emoluments ranges separately and also the break-up into class I to class IV servants. Table no. 32 shows the departmental-wise total no. of Government employees in the district. Table No. 33 gives information regarding generation and consumption of electricity in the district. Table No. 34 gives the progress of electrification in the district. The table includes villages and town which are electrified by Maharashtra State Electricity Board and private agencies. It also shows the population covered.

2.7 Co-operation :

Under this head, the progress of co-operative movement in the district is presented. Table No. 35 gives information

regarding total no. of each type of cooperative societies in the district as on 30th June-70. Table No. 36 gives information regarding different types of cooperative Banks in the district. It also gives the break up of no. of branches, no. of members and their capital structure. Table No. 37 gives tahsil-wise position regarding primary agricultural credit societies, members, capital structure, loan advanced & loans recovered etc. in the district. Table No. 38 gives information about other Cooperative Societies of different types other than agricultural credit Banks. It also provides break up of member societies, individual share capital, other reserve funds, and working capital. Table No. 39 displays the data on agricultural marketing societies. The tahsilwise information on value of purchase, value of sales of agricultural produce and agricultural requisites is shown. Table No. 40 shows the achievements of important activities of agricultural marketing, processing, Sugar Factories, handloom Societies and consumer stores etc. In table No. 41 the data on operation of regulated marketing is shown. Table No. 42 gives the information regarding money lenders and their loan activities in the district. Tahsilwise break-up is also given.

2.8 : Medical & Public Health :

Under this head information regarding medical & Public Health facilities is collected. Table No. 43 shows the medical facilities available in the district. It shows the number of hospitals, dispensaries, maternity homes, primary health Centres, doctors, beds available, indoor & Out-door patients treated. The material presented here includes only Civil Hospitals, Zilla Hospital, P.H.C. Municipal dispensaries and private aided Institutions.

It does not cover private unaided institutions run by individuals or associations. Table No. 44 indicates the data about births, deaths and infant deaths. The figures of infant death relates to deaths of children below one year. In table No. 45 data on number of deaths due to principal causes is shown. Table No. 46 gives information regarding tahsilwise no. of primary vaccination revaccination, and cholera ~~and~~ inoculation in the district.

2.9 Education

Under this head information regarding progress of education in Ahmednagar district is collected and presented in 8 different tables. Table No. 47 gives the number of literates sexwise for rural & Urban areas separately. Tahsilwise percentage of literacy is also worked out. Table No. 48 gives sexwise literates with different levels of education of Rural population. It shows the tahsilwise break-up also. Table No. 49 gives the information regarding literates with different level of education (technical and non technical) in Urban areas of the district. Table No. 50 shows the number of different types of education^{al} institutions, pupils & teachers for each type in the district. The number of institutions relate to the academic year ending June and the number of pupil as on 31st March of the respective years. In table No. 51, the total no. of beneficiaries (Backward classes) at each level of education is shown. Table No. 52 gives the information regarding total no. of students taking benefits under the scheme of free student ship as E.B.C. Students and total value of each concession for the educational levels in the district as a whole. Table No. 53 gives information about grants (Normal & Plan) given by Government to Zilla Parishad & municipal councils for primary education. Table No. 54

shows the total No. of villages having primary schools and those without primary schools. Further break-up of villages without primary schools is given in different population ranges.

2.10 Transport and Communications.

Under this head information pertaining to length of railway route, road length according to different category and surface, Operational statistics of Nationalised road transport etc is presented. Table No. 55 gives information on length of railway route in the district. There is only one guage viz. 'Broad guage' in the district. It is a single line starting from Manmad and ending at Dhond. The total length of this line in this district is 197 Kilometers only. In table No. 56, figures of road length as at the end of 1969 and 1970 are shown. The figures relates to Extra Municipal roads maintained by the Building and Communication department and Zilla Parishad. The roads maintained by Municipal authorities are given separately. Table No. 57 presents data about motor vehicles in Poona Region. The Region comprises of Poona, A.Naga Satara and Sholapur districts. Vehicles in operation means vehicles on live register of Regional Transport Office, are taken for this table. Table No. 58 relates to Nationalized Road Transport. The information on number of routes, route distance, average daily earnings etc is given. The boundry of S. T. division is not exactly co-terminus with district boundry. In table No. 59 the data of traffic census wherein information regarding No of vehicles, light motor vehicles, total traffic intensity in 24 hours is given. Table No. 60 gives some important statistics regarding posts and telegraph offices, No. of letter Boxes etc. in the district. Table No. 61 gives information regarding No. of radio sets and villages where radio sets are installed. Here hamlets are separately counted ...

wherein receiving sets are installed hence the No. of villages appear to be high.

2.11 Local Bodies.

Under this head information regarding income and expenditure of various local bodies viz. Village Panchyats, Zilla Parishad, and Municipalities in the district is presented. Table No. 62 presents material on income and expenditure of Village Panchyats, Zilla Parishad and Municipalities. In Table No. 63 the break-up of information on income and expenditure of Village panchyats is presented. It gives Panchayat-Samitiwise break-up on one hand and income and expenditure on the other hand. The total income and expenditure is further sub-divided into various major heads. Table No. 64, A and 64 B gives particulars of income & expenditure of Ahmednagar Zilla Parishad. The receipts are sub-divided into self raised resources, Government grants for various schemes and debt section. The expenditure is likewise divided into many heads of development. Table No. 65 gives information on income from and expenditure on different sub-heads in respect of municipalities. Under income, information is separately given for general administration, public safety, public works etc. and break-up into general administration, public safety, public works etc. is shown.

2.12 Plan and Community Development.

Under this head information regarding Plan expenditure and achievement under Community Development programme in the district is presented. Table No. 68 gives Plan expenditure under different development sub-heads in Nagar district. Table No. 67 gives the details about important physical achievements during 1968-69 and 1969-70. Table No. 68 shows the Community Development Programme in the district. The

The information regarding No. of blocks, of C.P.A. Pattern, in each stage, the population covered etc. is given. Table No. 69, gives information about expenditure incurred according to stages for the period up-to 31st March 1970. Table No. 70 gives information on important physical achievements on selected items in all blocks in Ahmednagar district.

2.13 Prices.

Under this head average retails prices of selected commodities prevailing at Ahmednagar during 1968 and 1969 and the Consumer ^{price} Index for working class at Sholapur and Poona are presented. Table No. 71 gives the monthly averages of important commodities at District Head-quarters. As the ~~xxxxx~~ information collected for the given commodities is restricted to only one quotation and that also from one shop at district Head-quarters, the averages shown above individual commodities cannot be said to be fully representative but data may prove useful as broad indicator of trend in changes in retail prices over the period of time. Table No. 72 A and 72B gives Consumer price index number for working class for Poona and Sholapur for the years 1968-69 and 1969-70 as no such index is calculated for Ahmednagar. It is expected that these will show general trend in prices in Ahmednagar also.

2.14. Miscellaneous.

Under this head, Statistics regarding miscellaneous subjects like Police force, Crime Statistics, Banks, Joint-stock Companies, Insurance, Small Savings etc. are included. Table No. 73 relates to the Police force in the district. Table No. 74 gives information regarding cognizable and Non-cognizable crimes in the district. In table No. 75, cases decided by court in the district are shown. The figures do not include cases decided by the District Magistrate and Executive

Executive Magistrates. Table No. 76 gives tehsilwise Cinema theatres, Permanent, Semi-permanent, Touring etc. in the district. Table No. 77 gives information regarding No. of banks and population covered by them in the district. In table No. 78, the data on companies limited by shares and companies limited by guarantees and associations not for profit are also given. Their further break-up into public and private is also given. Table No. 79 gives information regarding No. of Insurance policies issued and also amount insured in the district. Table No. 80 presents gross and net collection under different schemes of Small Savings. Table No. 81 gives information regarding demand, collection and arrears of land revenue. Table No. 82 gives information regarding No. of press: News-papers and Periodicals printed in the district. Table No. 83 gives information regarding General Election in 1967. In table No. 84 important indicators in the fields of development; such as Agriculture, Livestock, Industries, Education, Health etc. are indicated. These selected ~~xxx~~ indicators are very useful in assessing the progress in various fields over important periods in the recent past.

2.15 Selected Indicators.

Tables regarding selected indicators of development for each tehsil of Ahmednagar district, are appended at the end. The topics like population, agriculture, electricity, factory workers, road kilometerage, education and medical facilities etc. are covered. An attempt is also made to show the position of each tehsil in relation to its development under item by way of ranking them.

CHAPTER III

An analytical Review of Sectorial Trends:

3.1 In this chapter, an attempt is made to present the facts & figures of Nagar district by giving certain indicators under Agriculture, Irrigation, Livestock, Road mileage etc. Tehsil is taken as unit for examining the disparities in a particular Sector at two different points of time. The reference period is taken as 1960-61 i.e. the end of the Second Five Year plan and 1968-69 and 1969-70. The position of Ahmednagar district is also shown as compared to Poona Division wherever possible.

3.2 Agriculture.

Agriculture is the backbone of our National Economy. This is also true in respect of Maharashtra in general and Ahmednagar District is particular. For assessing the agricultural development indicators like percentage of gross cropped area, percentage of irrigated area etc. are adopted. Double cropping is one of the methods of increasing the agricultural out-put. Table No. 1 given below shows the tehsilwise position of percentage gross cropped areas to net area shown during 1960-61 and 1968-69 & 1969-70.

Table No. 1.
Percentage of Gross cropped area to net sown area.

<u>Sr.No.</u>	<u>Tehsil</u>	<u>1960-61</u>	<u>1968-69</u>	<u>1969-70. *</u>
1	Kopergaon	104.74	105.25	103.63
2	Akola	102.46	102.66	102.96
3	Sangamner	108.75	103.47	103.54
4	Shrirampur	102.60	108.09	102.88
5	Rahuri	104.05	103.88	105.77
6	Newasa	119.13	103.33	103.16
7	Shevgaon	106.11	109.80	106.14
8	Parner	104.22	107.48	107.17
9	Ahmednagar	103.39	104.10	104.08
10	Pathardi	104.81	106.48	106.32
11	Shrigonda	106.47	104.47	104.39
12	Karjat	110.87	104.25	104.29
13	Jamkhed	105.02	103.17	107.46
<u>District</u>		<u>105.16</u>	<u>105.29</u>	<u>104.81</u>
<u>Division</u>		<u>105.79</u>	<u>105.25</u>	<u>N.A.</u>

* This is provisional.

It will be seen from the above table that there was no appreciable change in the percentage for the district as whole the percentage has remained almost stationary at 105. The percentage for Poona division is slightly more than the district percentage. In 1960-61 out of 13 tehsils seven tehsils were having in this percentages upto 105, four tehsils were upto 110 and only two tehsils were having this percentage above 110. But during 1968-69, the position was slightly changed as compared to 1960-61, 7 tehsils were having this percentage upto 105 and rest were below 110. The position was further affected in 1969-70. Out of 13 tehsils, eight were having this percentage upto 105 and rest below 110 percentage. There was not a single tehsil in year 1968-69 and 1969-70 having gross cropped area more than 110 percent. While comparing the gross cropped area to net sown area for 68-69 and 69-70 only 2 Tehsils namely Rahuri and Jamkhed have shown appreciable increasing trend. The highest percentage of double cropped area is as observed in Shevgaon tehsil during 1968-69, while Jamkhed was highest during 1969-70. Since most of the tehsils have percentage of gross sown area to net sown area below district average, double cropping appears to be casual in the district. Irrigation is one of the factors to increase double cropping activity provided it is not utilised for perennial crops. In Nagar district, Kopergaon, Shrirampur and Rahuri have large percentage of irrigated area, however most of the area is under Sugarcane and hence double cropping is insignificant.

3.3 Productivity of Important Crops.

Rice, Jowar, Bajara, Sugarcane, Groundnut and Cotton are some of the principal crops of Nagar district. The productivity of these crops can be assessed from their respective yield rates per hectare. The following table gives their yield rates and out-turn.

Table No. 2.

Yield rates and cut-turn of important crops (yield rates in Kg. and Cut-turn in 100 Tonnes.)

C R O P S.	Y e a r	Ahmednagar dist.		Poona Division.	
		Yield per hectare	Cut-turn '00' Tonnes	Yield per hectare.	Cut-turn '00' Tonnes
1	2	3	4	5	6
Rice	A	1119	113	1213	2596
	B	792	83	890	1823
	C	853	66	915	1798
Jowar	A	277	1735	398	9587
	B	432	2464	463	10371
	C	335	1861	403	8921
Bajara	A	126	481	192	1576
	B	173	624	205	1959
	C	244	856	239	2273
Sugarcane (in terms of Gur)	A	11207	3994	8553	9557
	B	7042	2456	7530	8727
	C	6434	3055	7230	10398
Groundnut	A	413	130	796	2740
	B	470	113	820	2330
	C	550	133	825	2323
Cotton '00' in bales	A	71	31	114	83
	B	704	233	163	596
	C	692	174	187	540

* A=1961-62 B =1967-68 C = 1968-69.

Data for 68-69 is provisional for Ahmednagar district.

It is revealed from the above table that yield rates of Rice and Sugarcane are declining as compared to 1961-62. The yield rate of Jowar, Bajara, Groundnut and Cotton have shown an increase in yield rates. Almost same is the position of Poona division also. The total production of food-grains during 1967-68 was 3.02 lakh tonnes while in 68-69 it was 3.43 lakhs. This means there was considerable decrease in production of food-grains during 1968-69. The Jowar is the important crop of this district.

3.4 Irrigation.

In order to raise perennial cash crops irrigation facilities are required. It would be interesting to study the irrigation data of the district, the tehsilwise position of gross irrigated area to net irrigated area can be seen from the following table.

Table No. 3

Tehsilwise percentage of gross irrigated area to net irrigated area.

Sr.No.	Name of Tehsil	Y e a r		
		1960-61	1967-68	1968-69.*
1	2	3	4	5
1	Kopergaon	107.06	108.40	106.15
2	Akola	136.95	116.86	151.29
3	Sangamner	124.11	146.14	126.98
4	Shrirampur	103.66	106.15	104.38
5	Rahuri	108.02	108.32	108.62
6	Newasa	121.48	131.64	126.03
7	Shivgaon	121.74	140.11	142.36
8	Parner	141.48	125.89	135.33
9	Ahmednagar	104.21	115.43	123.23
10.	Pathardi	130.92	152.03	145.77
11.	Shrigonda	116.33	102.29	108.84
12.	Karjat	117.20	156.71	120.20
13.	Wankhed	117.56	121.61	126.53
District		123.68	117.94	114.47.
Division		117.00	118.22	107.44

* figures are provisional.

It is seen from the above table that percentage of gross irrigated area to the net irrigated area during 1960-61 was 114. This has changed to 113 in 1967-68 and 114 in 1968-69. The figures for 1968-69 are provisional. The percentage of net irrigated area to net area sown can be seen from the following table.

Table No. 4.

Tehsilwise percentage of net irrigated area to net area sown

Sr. No.	Name of Tehsil.	1960-61	1967-68	1968-69.
1	2	3	4	5
1.	Kopergaon	31.76	39.23	43.67
2.	Akola	9.78	10.06	12.55
3.	Sangamner	7.42	5.10	6.96
4.	Shrirampur	32.05	31.23	42.81
5.	Rahuri	18.53	21.75	18.52
6.	Newasa	5.56	63.62	5.04
7.	Shevgaon	4.26	5.09	5.11
8.	Parner	6.23	6.01	5.26
9.	Ahmednagar	11.40	7.88	7.29
10.	Pathardi	6.46	5.24	5.34
11.	Shrigonda	10.36	13.90	13.42
12.	Karjat	12.69	7.49	9.13
13.	Jambhed	8.16	8.44	9.03
	District	10.79	11.26	11.90
	Division	10.00	10.27	10.70

It is thus revealed from the above table that position of Ahmednagar district in the division in respect of irrigation is better. Since the percentage of net area irrigated to the net area sown was higher for the years 1960.61 and 1968-69. While comparing the position of tehsils within the district, it is seen that Kopergaon, Shrirampur Rahuri tehsils have got higher percentage of net area sown to the net area irrigated. There was marginal decrease in Parner and Ahmednagar tehsils.

3.5 Changes in Cropping pattern:

The following table gives percentage of areas under cereals, pulses, total food-grains, Sugarcane, Cotton, Green-nut, and total Non-food-crops.

Table No.5.

Crop Pattern- Percentage of Areas under various crops.

Sr. No.	C r o p	Y E A R S.		
		1960-61	1967-68	1968-69
1	2	3	4	5
1.	Total Cereals	73.80 (6.13)	71.17 (7.24)	72.59 (6.78)
2.	Total Pulses	7.74 (4.42)	8.04 (4.87)	8.36 (3.70)
3.	Total food-grains	81.54 (6.53)	82.21 (7.72)	80.95 (7.16)
4.	Sugarcane	2.72 (2.72)	2.61 (2.61)	3.52 (3.49)
5.	Cotton	2.44 (0.25)	2.79 (0.57)	1.88 (0.64)
6.	Groundnut	2.37 (0.12)	1.80 (0.14)	1.76 (0.16)
7.	Total Non food crops	14.06 (1.44)	14.15 (1.32)	13.84 (1.42)

(Figures in bracket indicate percentage of area irrigated)

It is seen from the table that even though the percentage area under cereals increased from 6.13 in 1960-61 to 7.24 in 1967-68 and 6.78 in 1968-69. The total area under cereals as a percentage of total gross cropped area remained more or less the same. In fact it has declined in 1968-69 to some extent. The percentage area of total pulses showed an increasing trend and same is the case with Sugarcane also. It is also seen that the percentage of Cotton declined from 2.44 in 1960-61 to 1.88 in 1968-69 but percentage of area irrigated showed an upward trend. It is also worth noting that the percentage area of Groundnut is on declining position as compared to 1960-61 percentage.

3.6 Agricultural Credit and Outstanding dues.:

At present the agricultural credit occupies an vital

position in our Agro-economic. The following table shows the agricultural credit facilities available during 1960-61 and 1968-69 and 1969-70 in Ahmednagar district.

Table No. 6.

Agricultural facilities given during 1960-61 & 1968-69 & 1969-70

I t e m .	Y e a r s .		
	1961-62	1968-69	1969-70
1	2	3	4
<u>Agricultural Credit.</u>			
1. No. of Agril. Societies	1040	1083	1088
2. Membership	1,35,293	1,89,703	2,00,378
3. Loans advanced (Rs. in lakhs)	513.61	1124.56	1117.35
4. Loans out-standing	N.A.	1316.29	1482.68

It is seen from the above table that as compared to 1961-62 the number of societies increased from 1040 to 1083 in 1968-69 and 1088 in 1969-70. The increase in number of societies is about 4.6 percent, while the membership increased from 1.35 lakhs in 1961-62 to 2.00 lakhs in 1969-70. The percentage increase in membership is about 48.1 percent. During 1961-62 the amount of loan advanced was Rs. 513.61 lakhs whereas the same amount stood at 1117.35 lakhs in 1969-70. This means the increase is about 117.54 percent. The loan advanced per society comes to Rs. 4.94 lakhs, 10.38 lakhs & 10.27 lakhs during 1961-62, 1968-69 & 1969-70 respectively. Also the loan advanced per member comes to Rs. 3736, 5928, and 5543 during the same period.

3.7 Agricultural Wage rates.

Agricultural wage rates in each district of Maharashtra State are being collected from 1962-63 onward. For each district three rural centres have been selected from which wage rate data

data is collected. As far as Nagar district is concerned the selected centres are 1) Belapur 2) Karjat & 3) Akola. As the price of essential commodities increase, it has a direct bearing on labour charges. The average wage rates during 1963, 1968 and 1969 are pooled from these three centres and given below.

Table No. 7

Wage Rates (Rs. per day)

(A) <u>Skilled Labour</u>	<u>1963</u>	<u>1968</u>	<u>1969.</u>
1) Carpenter	3.54	6.00	6.00
2) Blacksmith	3.37	5.00	5.67
3) Cobbler	1.44	5.00	5.00
(B) <u>Unskilled labour</u>			
1) Male	1.90	2.00	3.00
2) Female	1.23	1.25	2.00

The above table shows significant increase in the wage rates of skilled as well as unskilled labour over 1963 rates. While comparing the wage rates for 1968 and 1969 it is seen that there is increase in wage rate of Blacksmith under skilled category. While under unskilled category, there is increase in wage rates for both male and female workers.

3.8 Livestock.

The 10th quinquennial live-stock census was carried out in the state in 1966. Table No. 20 in the abstract shows tehsil-wise details of live-stock as per 1966 census. The comparison of 1961 and 1966 live-stock data shows that livestock population has gone up by 65704 during 5 years and the total during 1966 was 1702 lakhs. The following table gives data regarding cultivable land in the year 1961-62, 1965-66 and 1967-68, 1968-69 total live-stock in the years 1961 and 1966 and livestock per hundred hectares of land.

Table No. 8.

Live-stock per hundred hectares of cultivable land.

Sr. No.	Year.	Cultivable Land in '00' hectare	Total Live-stock '00'	Live-stock per hectare of cultivable land.
<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>
1.	1961	13455 (61022)	1700688 (7502700)	126 (123)
2.	1966	13436 (60876)	1809899 (7338703)	134 (121)
3.	1968	13296 (59094)	1766392 (7333703)	132 (124)
4.	1969	13276 (59207)	1766392 (7338703)	133 (124)

(Figures without bracket are for Nagar district. While figures in bracket are for Poona Division)

The above table shows that live-stock per hundred hectar of cultivable land has remained more or less the same in 1961 & 1969. It is also seen that live-stock per hundred of cultivable land in this district is more than in Poona Division.

3.9 Poultry.

The poultry is another industry which provides additional income to the farmer. The total poultry in the district as per 1961 census is 6.00 lakhs. In parner tehsil maximum number of poultry birds were located followed by Sangamber, Nagar, Shrigonda and Karjat. tehsils. The poultry per 1,000 human population is 383 for the district. It varies in tehsils from 191 in Sangamber to 730 in Parner tehsil.

3.10 Per Capita consumption of Electricity.

Ahmednagar district stands out as the most backward district in Poona region. As far as electricity consumption is concerned, Industrially Nagar district is not developed. (Consumption

(Consumption of electricity by Sugar factories is not considered here) Moreover it is far away from Konaya, Paras or Khaperkhed power stations and hence there was considerable delay in erection of transmission lines. The following table gives per capita consumption of electricity.

Table No. 9

Per capita electricity consumed (K.W.H.)

Purpose	1961-62	1968-69	1969-70
1	2	3	4
1) Domestic	0.35	1.97	2.77
2) Industrial	0.95	3.24	5.98
3) Commercial	0.05	1.40	1.69
4) Others	0.34	1.06	1.46
<u>T o t a l</u>	<u>1.69</u>	<u>1.77</u>	<u>2.56</u>

It will be seen from the above table that as compared to 1961-62 the total consumption of electricity in 1969-70 is more than one and half times. The marked increase is seen in consumption of industrial as well as commercial electricity. It is already pointed out in earlier para that electricity consumed by Sugar factories is not considered here.

3.11 Employment Exchange Statistics.

The Employment Exchange is the link between employer and unemployed but all unemployed do not necessarily register their names in Employment Exchange and hence the magnitude of unemployment as given by the Exchange cannot be considered as exact & representative problem. Moreover, mainly persons from urbana area register their names in the Employment Exchange. The Employment Exchange Statistics has to be seen with these limitations in view. The position of Nagar district as regards the registration in the Employment Exchange during 1968-69 and 1969-70 was 10,302 and 10576 respectively.

While the position of placement during the same period was 732 and 675 respectively. It is thus seen that position of placement is showing declining trend and the problem of unemployment is increasing as the years pass by. This will have adverse effect on Economy.

3.12 Indore and Out-door patients treated in Hospitals.

The following table indicate the position of Indore and Out-door patients treated in Hospitals in Ahmednagar district.

Table No. 10

No. of Indore & Out-door patients treated in Hospitals.

<u>I_t_e_m</u>	<u>1961</u>	<u>1969</u>	<u>1970</u>
<u>L</u>	<u>2</u>	<u>3</u>	<u>4</u>
1. No. of Indoor Patients treated	16,607	18,649	16,759
2. No. of Out-door patients treated	2,26,502	2,63,455	2,80,406
3. Total Patients treated	2,43,109	2,82,104	2,97,165

It would be seen from the above table the No. of Indoor patients have decreased during 1969-70 as compared to 1969, while No. of Out-door patients increased during 1970 as compared to 1969. Overall No. of patients treated have also been increased

3.13 Increase in Number of Students.

Education is one of the indicator to judge the Social elevations. The percentage of pupils taking education in Primary, Secondary and Higher has increased during 1968-69. The figures supplied below show the percentate increase in 1967-68 & 1968-69 over 1961,62.

Table No. 11

Percentage increase in 1967-68 & 1968-69 over 1961,62.

<u>Type</u>	<u>Year 1967-68</u>		<u>Year 1968-69</u>	
	<u>Boys</u>	<u>Girls</u>	<u>Boys</u>	<u>Girls.</u>
<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>
1. Primary	41	67	47	76
2. Secondary	100	145	115	156
3. Higher	220	270	285	207

It would be seen from the above table that in the field of Education (all types) Nagar district has made a good progress during last eight years. The percentage of boys and girls taking higher education increased to 285 and 307 respectively in 1968-69.

3.15 Road Mileage.

Transport is one of the important items in infrastructure of the economy. The increase in road mileage in 100 Sq.Km, during 1961 and 1969 and 1970 would be a good indicator of development. The following table gives surface typewise road length in Ahmednagar district.

Table No. 12
Surface type road length (In Km.)

Surface type	As on 31.3.61	As on 31.3.69	As on 31.3.70
1	2	3	4
1) Cement concrete	107.80	125.20	125.20
2) Black topped	105.73	283.44	317.64
3) Water bound Macadam	1658.39	1543.46	1578.67
4) Other types	1152.39	2139.89	2172.92
Total	3024.41	4090.99	4194.43
	(18)	(24)	(25)

Figures in Bracked show the road length per 100 Sq.Km.

It is seen from the above table that the road length per 100 Sq.Km. was 18 in 1961, it was 24 in 1969 and 1970 it was 25. The development of roads appears to be satisfactory during last 9 years. Considering the total road length, it is seen that as compared to 1961 the road length increased by 1170.58 Kms. in 1970.

3.15 Banking facilities.

Without sound financial system, the economic development is not possible. Hence in order to assess the development increase in banking facilities in proportion to the population would be a good indicator. In Ahmednagar district, there were only 41 banking offices in 1961-62 i.e. there were only 2

banking offices per lakh population. The same increased to 95 at the beginning of 1969. This means the banking facilities, increased to 5 (approximately) per lakh of population. This increase is 2½ times more as compared to 1961-62. It is also indicative of the fact that more and more people are availing the Banking facilities.

3.16 Prices.

Last indicator is prices, the impact of which is felt in every day life. It is felt more since 1962. The work of Price collection of weekly retail prices at District Headquarter was started from November 1962. The prices are collected on weekly basis and hence a wide range of fluctuations are ought to be due to day to day market conditions and hence the consolidated effect of these price fluctuations can be seen from Consumer's price Index for the present. This index is computed for two places i.e. Sholapur and Poona in division with 1960 and 1961 as base years respectively. The general index during 1963-69 was 167 and 157 for Sholapur and Poona respectively. It stood at 176 and 163 during 1969-70 for these centres. The food prices have shot up from 171 in 69 to 190 in 1970 at Sholapur while at Poona the same increased from 171 to 177 from 26x 1969 to 1970.

Since the prices at District Headquarter are collected from November 1962 the average prices during 1963 are compared with the average prices during 1968 and 1969 in the following Table.

Table No. 13

Average Retail prices at Ahmednagar.

Item	Unit	1963	1968	1969
1	2	3	4	5
1. Rice	Kg.	0.63	1.38	1.53
2. Wheat	Kg.	0.63	1.36	1.17
				Contd.

1	2	3	4	5
3. Jo war	Kg.	0.45	*	*
4. Arhar	Kg.	0.91	1.73	1.47
5. Gram dal	Kg.	0.61	1.51	1.31
6. Sugar	Kg.	1.17	1.49	1.52
7. Gur	Kg.	0.95	2.18	1.09
8. Groundnut oil.	Kg.	2.03	3.45	4.46
9. Vanaspati	Kg.	2.08	4.64	5.52
10. Eggs	Dozen	1.63	3.00	2.37
11. Chillies	Kg.	2.84	2.35	4.17
12. Potatoes	Kg.	0.41	0.66	0.68
13. Plantains	Dozen	0.44	0.76	0.83
14. Kerosene oil	Ltr.	0.41	0.50	0.55
15. Sharting	Mtr.	1.23	1.35	1.35
16. Brass	Kg.	7.06	14.00	14.00

* Monopoly procurement price is available. Consumer price not available in open market.

It would be seen from the above table the prices of cereals and pulses have increased more than double. Same is the case of Groundnut oil also. The prices of another commodities have also shown a considerable increasing trend.

CHAPTER IV.

Achievements in Annual Plans 1968-69 and 1969-70.

4.1 INTRODUCTION.

The Third Five Year Plan ended in March 1966. The Fourth Plan was to be started in 1966-67 but it could not be started due to various difficulties. Without departing from the basic aim of planning, Annual plans were started. 1968-69 was the Third year of the Annual Plan though the year 1969-70 marked the commencement of the Fourth Plan, it was also implemented on the basis of Annual plan as the Fourth Plan was not finalized at State level.

4.2 The progress of Annual Plans 1968-69 and 1969-70 can be better judged by comparing the expenditure incurred during these years with the expenditure incurred during 1967-68. The following table gives the particulars of expenditure incurred during 1967-68 to 1969-70.

Table No. 1

Expenditure incurred during Annual Plans, 1967-68
1968-69 & 1969-70. (Rs. in Lakhs.)

Years :-	1967-68			1968-69			1969-70

		(22.25)				(30.22)			(37.60)
	<u>Total</u>								
195.71	94.05	289.76		322.84	117.25	440.09	123.26	102.06	301.11
		(100.00)				(100.00)			(100.00)

Figures in bracket gives the percentage of expenditure to the total expenditure, etc.

It is revealed from the above table the total expenditure incurred during 1968-69 and 1969-70 was more than the total expenditure incurred during 1967-68. It is also seen that during 1967-68 more emphasis was given on Agriculture, followed by Social services and Irrigation and Power. but during 1968-69 more expenditure was incurred on Irrigation and Power, followed by Social services and Agriculture. But during 1969-70 again priority was given to Agricultural Programmes, followed by Social services, Irrigation and Power. There is a declining trend in expenditure under Major head Co-operation and Community Development. Same is the case with Industry and Mining. The expenditure incurred under Transport and Communication was increased during 1969-70 as compared to earlier two years. The expenditure incurred on various Major heads of development and the important physical achievements are described in the following paras.

4.3 Agricultural Programme.

The contribution of Agriculture to the State Income of Maharashtra is little more than 33 percent of the total income. This contribution is derived by 70 percent of the population in the State which depends upon agriculture. Hence development of Agriculture is more important but difficult task. The following table shows the expenditure incurred on District level Scheme during 1967-68 and 1968-69 and 1969-70 under various sub-heads of development under Agricultural programme.

Table No. 2
Expenditure incurred on various sub-heads of development under
Agriculture programme.

Expenditure 1967-68		1968-69			1969-70		P.A. in Lakhs.	
S.	L.	Total	S.	L.	Total	State	Local	Total.
1) Agricultural Production.								
2.66	3.40	6.06	2.77	3.13	5.90	1.33	2.75	4.08
2) Minor Irrigation								
31.21	17.42	48.63	23.83	19.53	43.41	16.62	30.90	53.53

1967-68			1969-70			1969-70		
State	Local	Total	State	Local	Total	State	Local	Total
<u>3) Soil Conservation.</u>								
69.10	-	69.10	61.69	--	61.69	58.84	-	58.84
<u>4) Aycut Development.</u>								
4.42	-	4.42	5.36	--	5.36	3.25	-	3.25
<u>5) Animal Husbandary.</u>								
-	0.72	0.72	-	0.61	0.61	-	0.04	0.04
<u>6) Dairy Development.</u>								
0.02	--	0.02	0.03	..	0.03	4.72	--	4.72
<u>7) Forest.</u>								
1.84	--	1.84	1.74	--	1.74	0.87	--	0.87
<u>8) Fisheries.</u>								
0.05	--	0.05	0.06	--	0.06	0.03	--	0.03
<u>9) Ware-housing and Marketing.</u>								
0.70	---	0.70	1.80	--	1.80	0.52	--	0.52
<u>Agriculture Programme Total.</u>								
110.00	21.54	131.54	97.28	23.32	120.60	86.18	39.69	125.87.

It would be seen from the above table that greater importance is given to the programmes of Soil-conservation and Minor Irrigation during these Annual Plans, as development activities under these two sub-heads are considered to be the backbone of overall Agricultural programmes. The progress under each sub-head is described below in details.

1) Agricultural Production.

Under Agricultural production various schemes like Establishment of Taluka Seed Farms, Hy-bred Seed production, General Horticultural Development etc.were executed, Since Agriculture is as private enterprise the Governmental activities with regards to improvement in agricultural production consist of distribution of Improved seeds, Chemical fertilisers and Compost prepared etc..

The following table gives the idea about Improved seeds distributed, Chemical fertilizers distributed and Compost production etc.

Table No. 3.

I t e m	Unit	Target	Achievements.	
			1968-69	1969-70
1	2	3	4	5
<u>1) Improved Seeds distributed.</u>				
a) <u>Food-grains by type.</u>				
i) Jowar	Quintals	N.A.	1775	1039
ii) Wheat	--,,--	N.A.	740	635
iii) Bajra	--,,--	N.A.	nil	831
b) Oil seeds	--,,--	N.A.	101	121
<u>2) Chemical Fertilizers distributed.</u>				
i) Ammonium Sulphet	Met. Tonns	N.A.	70,569	53,898
ii) Super Phosphate	--,,--	N.A.	4,795	5,429
iii) Others	--,,--	N.A.	805	278
<u>3) Compost Production</u>				
i) Compost pit dug	Number	N.A.	5,567	4,757
ii) Compost prepared	Met. Tonnes	N.A.	44,220	25,691

In all Rs. 5.90 and 4.08 lakhs were spent during 1968-69 and 1969-70 respectively on the scheme under this sub-head.

Soil Conservation.

Low productivity in Agriculture is generally due to progressive deterioration of soil due to erosion. In irrigated areas soil deterioration occurs due to water logging and subsequently it results in salinity and alkalinity. Thus it was necessitated to take effective steps to stop further deterioration of soil. Hence various schemes like Contour bunding and Terracing of land were under-taken in State Sector. For these schemes Rs. 59.21 lakhs and Rs. 8.48 lakhs were spent in two years 1968-70.

In all 0.71 lakh acres was Contour bunded during 1968-69 and 0.54 lakh acres was Contour bunded during 1969-70.

3. Minor Irrigation.

Since minor irrigation yields quick results, a programme of construction of new wells, installation of pumping sets, constructions percolation tanks etc. was taken up. During 1968-69 Rs. 43.41 lakhs were spent. In all 801 new wells were constructed, 315 pumping sets were installed and 8 percolation tanks were constructed. While during 1969-70 Rs. 53.52 lakhs were spent. During this year 342 new wells were constructed and 302 pumping sets were installed and 11 percolation tanks were completed and work of 41 percolation tanks were in progress.

4. Ayicut Development.

This scheme was been introduced during Annual Plans on which Rs. 5.36 lakhs and Rs. 3.25 lakhs were spent during 1968-69 and 1969-70 respectively.

5. Animal Husbandry.

Animal Husbandry programme includes constructions of Veterinary dispensary and Veterinary aid centres. In all Rs. 0.61 lakhs and Rs. 0.04 lakhs were spent during two years under review.

6. Dairy Development.

The object of this scheme is to assist the milk societies and to supply ^{quality} milk to the consumers at reasonable rates. It also helps in increasing the income of farmers. Under this scheme Rs. 0.03 lakhs and Rs. 4.72 lakhs were spent during 1968-69 and 1969-70 respectively.

7. Forest.

The scheme for Forest include 1) Development of minor forest products 2) Plantation of Bamboos for Industrial and Commercial uses. 3) Development of fodder etc. . During 1968-69 and 1969-70 in all Rs. 1.74 lakhs and 0.87 lakhs were spent on these schemes.

8. Fisheries.

No schemes under development of Fisheries worth mentioning could be undertaken in this district as there is a limited scope in absence of big tanks. However programme of inland fisheries could be undertaken in Bhandardara Dam, and Visapur tanks. Only Rs. 9000 were spent during two years under review.

9. Warehousing and Marketing.

Under this sub-head there was only one scheme in operation i.e. Development of agricultural marketing. During 1968-69 Rs. 1.80 lakhs were spent while during 1969-70 Rs. 0.52 lakhs were spent.

4.4 Co-operation and Community Development.

Under this head expenditure of Rs. 19.76 lakhs and Rs. 10.12 lakhs was incurred during 1968-69 and 1969-70.

1) Co-operation

Economic development and Social changes are the vital elements in the process of development and Co-operation is one of the important means by which it is possible to transform the present situations. The Co-operation, therefore, became the principal basis of organisation in many branches of Economic Life notably Agriculture Marketing, Supplies, Housing and Establishment of Agro-industries. During 1968-69 168 societies were assisted by way of granting them subsidies. During ~~1968-69~~ 1969-70 only 70 societies could be assisted. Loans and subsidy to ^{the} extent of Rs. 48.0 lakhs were granted for ~~set~~ down during 1968-69 and the equal sum was also spent during 1969-70.

2) Community Development.

The idea of community Development was mooted during the First Five Year Plan to gear up the people's contribution in transforming Social and Economic life of rural masses. During

During 1968-69 and 1969-70 in all Rs. 15.19 lakhs and Rs. 9.21 lakhs were spent, in 15 community development blocks of which two are tribie development blocks. Applied Nutrition Programme is also implemented in two blocks. This scheme is implemented by Zilla Parishad.

4.5 Irrigation and Power.

Irrigation and Power are most important aspects of Economic development. Expansion of irrigation facilities is an essential pre-requisite for diversifying agricultural activities and increasing crop yields, whereas the development of power helps to rebuild the agricultural economy and thus it paves way for rapid expansion. Under this sub-head, Rural Electrification scheme was mainly carried out at the cost of Rs. 183.39 lakhs and Rs. 33.70 lakhs during 1968-69 and 1969-70 respectively. Rural Electrification primarily enhances the employment opportunities thereby increasing income and ultimately the standard of living of the people. The Rural Electrification is used for irrigation pumping sets and development of Small Scale Industries in rural areas. During 1968-69, 233 villages were electrified and 3036 agricultural pumps were installed. While in 1969-70, 55 villages were electrified and 5387 agricultural pumps were installed. During 1969-70 more stress was given in installation of agricultural pumps than merely electrifying the villages.

4.6 Industry and Mining.

Since the possibility of increasing agricultural development is limited in the sense that irrigation not more than 80 percent of total culturable which can be increased, it is imperative to pay attention to the development of Small Scale Industries. With a view to achieve this objective, the scheme of development of Hand-loom Industry, ~~Rax~~ financial assistance to industrial co-operative were implemented in this district.

The total expenditure incurred on these schemes was Rs. 2.24 lakhs and Rs. 1.59 lakhs during 1968-69 and 1969-70.

4.7 Transport and Communication.

Dhond to Manmad is the only rail link in Nagar district. Hence the road development plays ^{an} important role in the Economic development of this district. Due to the expansion of Sugarcane industries and due to other developmental activities in the district, which ultimately contributed for increase in agricultural production and income of rural gentry. The need for development of road, transport is still in prominence, linking of market places and other important ~~villages~~ and towns in this district. Taking all these factors in to consideration Rs. 8.62 lakhs and Rs. 15.85 lakhs were spent during 1968-69 and 1969-70 for the development of District Roads, Roads in Sugarcane areas, Rural roads and roads in hilly areas.

4.8 Social Services.

This developmental head includes Schemes pertaining to 1) General Education and development of Technical Education., 2) Medical, Nursing and Public health, 3) Water supply and drainage, 4) Housing, 5) Welfare of Backward classes, 6) Social Welfare 7) Labour and Labour welfare. The total expenditure of Rs. 145.88 lakhs and Rs. 114.19 lakhs was incurred during 1968-69 and 1969-70. Of this Rs. 70.23 lakhs and Rs. 40.43 lakhs were spent by local sector. The following paras gives brief account of each sub-head.

1) General Education and Development of Technical Education.

Development of Education is the important ingredient of Economic development. It kindles the flame of awareness which ultimately creates social order based on values of freedom, Social justice and equal opportunities. According to 1961 census,

the percentage of literacy in this district/only 26% Literacy
-was -percent
education programmes includes normal expansion of primary
education, basic training to primary teachers, constructions of
primary school buildings, improvement of science education at
primary stage, development of non-government secondary schools,
scholarships in secondary schools, removal of 2 illiteracy and
e.b.c. concessions etc.. For all these schemes Rs. 45.51 lakhs
and 18.07 lakhs were spent during 1968-69 and 1969-70 respectively.
During 1968-69 1480 primary teachers were appointed while 477
teachers were trained. During 1969-70 in all 245 additional
teachers were appointed and 270 teachers were trained. E.B.C.
concessions were granted to 8021 and 1500 pupils during 1968-69
1969-70. More emphasis was also laid on constructions of primary
school buildings during 1969-70. In all 192 school buildings were
constructed during 1969-70 by giving grants to local bodies.

2) Medical, Nursing and Public Health.

Under the scheme of Medical and Nursing, a building for
Civil Hospital and staff quarters was constructed during 1969-70.
In all Rs. 6.87 lakhs were spent during 1969-70.

Public health includes scheme like National Malaria
Eradication, Small pox Eradication and Family planning Programme.
During 1969-70 Rs. 13.33 lakhs were spent on Malaria Eradication
scheme. Blood smears to the tune of 2.52 lakhs and 4.61 lakhs were
collected. While Rs. 8.03 lakh on Family planning. During 1968-69
6872 operations were carried out while during 1969-70 in all 703
operations were carried out.

Thus under the broad head medical nursing and public
health the expenditure was incurred was Rs. 28.23 lakhs and
Rs. 28.24 lakhs during 1968-69 and 1969-70 respectively.

3) Water Supply and Drainage.

Under this sub-head various urban and well as rural water supply schemes were undertaken. Most of the urban water supply schemes are in progress while under rural water supply scheme in all 134 and 278 new wells were constructed during 1968-69 & 1969-70. In all Rs. 54.76 lakhs and Rs. 55.79 lakhs were spent on these schemes during the years under review.

4) Housing.

Extension of village gaonthan and provision of housing sites and village housing projects are the main schemes included under this sub-head. During 1968-69 and 1969-70 Rs. 0.73 lakhs and Rs. 1.32 lakhs were spent. During 1968-69, 38 villages were provided with gaonthan while during 1969-70 in all 13 villages were provided with new house sites. Under Village housing project, the scheme was implemented in 11 villages and 165 houses were completed during 1969-70.

5) Welfare of Back-ward Classes.

Schemes under this sub-head include i) financial assistance to co-operative societies of scheduled castes, scheduled tribes and other back-ward classes. ii) Grant of scholarship, tuition & fees and examination fees etc. iii) Grant to backward class based hostels. iv) Distribution of improved agricultural implements. For all these schemes expenditure of Rs. 8.61 lakhs and Rs. 6.99 lakhs was incurred during 1968-69 and 1969-70. The Scholarships tuition fees etc. were given to 1762 and 1212 students during 1968-69 and 1969-70. During 1969-70 in all 147 new wells were also constructed for sch. castes and sch. tribes and other back-ward classes. This district is allotted two tribal development blocks for which Rs. 2.65 lakhs were spent during 1969-70.

6) Social Welfare.

Under this scheme 0.67 lakhs were spent. In all 19 and 11 Palwadies were started during 1968-69 and 1969-70 respectively.

7) Labour and Labour Welfare.

Under this sub-head, training for craftsmen was imparted. During 1968-69 and 1969-70, expenditure of Rs. 7.07 lakhs and 2.95 lakhs was incurred. In all 64 students were benefited by this scheme during 1969-70.

4.0 Miscellaneous.

Under this head of development, scheme to pertaining to information and broadcasting was implemented for which expenditure of Rs. 0.52 lakhs and 0.16 lakhs was incurred during 1968-69 and 1969-70 respectively. During 1968-69, 140 radio sets were installed while during 1969-70 in all 115 radio sets installed in this district.

PART - II.

DISTRICT STATISTICAL ABSTRACT

AHMEDNAGAR DISTRICT

1968-69 and 1969-70.
~~1968-69 and 1969-70.~~

C O N T E N T S.

Statistical Abstract for the years 1968-69 & 1969-70.

Table No.	S U B J E C T.	(Page Nos.)
1	2	3
	<u>1. CLIMATE.</u>	
1.	No. of Rainy days and Total Rainfall at selected centres	1.
2.	Mean, Mean Maximum, Mean Minimum Temperature at selected centres in Ahmednagar District in 1968 and 1969.	8
	<u>2. AREA AND POPULATION.</u>	
3.	Taluka wise Rural and Urban population in Ahmednagar district according to 1961 census and variation with 1951 census.	9
4.	Talukawise classification of Villages according to population ranges in 1961 census.	12
5.	Talukawise classification of Towns according to population ranges in 1961 in Ahmednagar district	14
6.	Number of workders & Non workers in each Tehsil of Ahmednagar district according to 1961 census.	15
7.	Distribution of population according to (A) Age-group, (B) Mother tongue and Religion in Ahmednagar district for 1961 census.	19
8.	Scheduled Caste and Scheduled Tribes in Ahmednagar district for 1966 and 1967.	20
	<u>3. AGRICULTURE.</u>	
9.	Land Utilisation in Ahmednagar district during the years 1967-68 and 1968-69.	22 ✓
10.	Area under different crops in each Tehsil of Ahmednagar district for 1967-68 and 1968-69.	26 ✓
11.	Yield per hectare and Output of principal crops in Ahmednagar district in 1967-68 & 1968-69.	32
12.	Area irrigated by different sources in each Tehsil of Ahmednagar district in 1967-68 and 1968-69.	33 ✓
13.	Area irrigated under different crops in Tehsil of Ahmednagar District in 1967-68 & 1968-69.	37 ✓
14.	No. of Irrigation wells in each Tehsil for 1967-68 and 1968-69	41 ✓
15.	Minor Irrigation works	42
16.	Major and Medium Project	43
17.	Agricultural Wage rates.	44

CONTD.

1	2.	3	4
18.	Agricultural Implements in each Tehsil.	48	
19.	Famine, Scarcity and akin to Scarcity data.	49	
	<u>4. ANIMAL HUSBANDRY, FOREST AND FISHERIES.</u>		
20.	Livestock in each Tehsil.	52	
21.	Veterinary Statistics in each Tehsil.	55	
22.	Disease-wise Livestock mortality.	55	
23.	No. of Recognised slaughter houses and Animals slaughtered in each slaughter house.	59.	
24(a)	Forest area in Ahmednagar district.	60.	
24(b)	Major and Minor Forest products in district.	61	
	<u>5. EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY.</u>		
25 & 25 A	Average daily employment of workers in factory	62	
26 & 26 A.	Industrywise distribution of working factories according to working strength.	66	
27 & 27 A.	Distribution of Factories accoring to No. of days worked.	69	
28.	Employment Exchange Statistics.	72	
29.	Occupational distribution of Total Registration of Employment, Vacancies notified & placement etc.	74	
30.	Volume of Employment in different Industries.	75.	
31.	Census of Government Employees (No. of persons employed.)	76	
32.	Census of Government Employees (No. of persons in each department)	77	
33.	Generation and Consumption of Electricity.	78.	
34.	No. of Towns and Villages Electrified and population covered.	79	
	<u>6. CO-OPERATION.</u>		
35.	Number of different types of societies.	80	
36.	Statistics relating to Co-operative Banks.	81.	
37.	Primary Agricultural Credit Societies.	82	
38.	Other Co-operative Societies of different types.	86	
39.	Operation of Primary Co-operative Marketing Societies	88	
40.	Operation of different societies.	93	
41.	Operation of Regulated Marketing.	94	

1	2	3	4
42.	Number of Registered Money Lenders and loans advanced by them.	102	
	<u>7. MEDICAL AND PUBLIC HEALTH.</u>		
43.	Medical facilities available through Public and Public aided bodies in each Tehsil.	103	
44.	Number of births and deaths registered.	107	
45.	Number of Deaths due to important causes.	109	
46.	Vaccination Statistics & Cholera Inoculation.	110	
	<u>8. EDUCATION.</u>		
47.	Literacy in each Tehsil according to 1961 census.	111	
48.	Education in Rural areas in each Tehsil according to 1961 census.	113	
49.	Education in Urban areas of the District according to 1961 census.	114	
50.	Number of Institutions, Pupils and Teachers.	115	
51.	Beneficiaries and Concessions to Backward classes	123	
52.	Economically backward classes concessions of Free education.	125	
53.	Expenditure on Primary Education by way of grants in-aid to Local bodies.	126.	
54.	Classification of Towns and Villages without primary schools by population ranges.	127	
	<u>9. TRANSPORT AND COMMUNICATIONS.</u>		
55.	Length of Railway route.	129	
56.	Road length according to category & surface.	130	
57.	Motor Vehicles in operation.	131	
58.	Operational Statistics of Nationalised Road Transport	132	
59.	Traffic Census on Important Roads.	133	
60.	Information of Postal, Telegraph and Telephone Statistics.	136	
61.	Rural Broadcasting statistics.	137	
	<u>10. LOCAL BODIES.</u>		
62.	Income and Expenditure of Local Bodies.	138	
63.	Income and Expenditure of Village Panchayats.	139	
64-A	Headwise Receipts of the Zilla Parishad.	145.	

64-B	Headwise Expenditure of the Zilla Parishad.	147
65.	Income and Expenditure of Municipalities.	118
	<u>11. PLAN AND COMMUNITY DEVELOPMENT.</u>	
66.	Plan Expenditure under different Development sub-head	151
67.	Physical Achievements under Plan.	153
68.	Statement Showing Community Development Programme.	159
69.	Expenditure incurred in different stages of Blocks.	160
70.	Physical Achievements on selected items in all Blocks.	161
	<u>12. PRICES.</u>	
71.	Average Retail prices of Important commodities at District Head-quarter.	167.
72.A-	Consumer's Price Index for working class.	172
72-B	Consumer's Price index for working class.	173
	<u>13. MISCELLANEOUS.</u>	
73.	Strength of Police force and Crime statistics.	174
74.	Crime Statistics.	175
75.	Work disposed in Civil and Criminal Courts.	177
76.	Cinema Statistics.	178
77.	Number of Banking Offices.	180
78.	Number of Joint Stock Companies.	181
79.	No. of Insurance policies issued & amount insured.	182
80.	Collection of Small Savings.	183
81.	Land Revenue collection in each Tehsil.	184
82.	No. of Presses, Newspapers and Periodicals printed.	185
83-A.	Statistics relating to General Election 1967.	187
83-B.	Statistics relating to General Election 1967.	189
84.	Trends in selected Indicators.	190
-	Selected Indicators of Development.	197.

I. District				5	5	28	9	5	42	383	1,259	957	2,599
<u>Taluka</u>													
1. Kopergaon								1	1			268	268
2. Akola				1	1	1			1				
3. Sanganner				2	2	5	3	1	9		207	46	253
4. Shrirampur				2	2	3		2	5			443	443
5. Rahuri						5		1	6	383		200	583
6. Newasa						1			1				
7. Shevgaon													
8. Parner							3		3				
9. Ahmednagar							1		1		357		357
10. Pathardi													
11. Shrigonda						4	2		6		124		124
12. Karjat						6	3		9		571		571
13. Jankhed													

Note: Minor Irrigation works includes lift irrigation work also, 2) There are 26 percolation tanks under Zilla Parishad, 2) Shrigonda, 3) Rahuri, 4) Sanganner, 5) Parner, 3) Karjat, 6) Akola, 1) Shrirampur, 3) Newasa. The question of net area scope does not arise.

TABLE NO. 16 ✓

Major and Medium Irrigation Projects in AHMEDNAGAR DISTRICT
As on 30.6.1970

Sr. No.	I T E M	Major Project		Medium Project
		Bhandar dara Dam	Mula Dam	Visapur Tank
1	2	3	4	5
1.	Name of the project	Willson Dam	Mula Dam	Visapur Tank
2.	Location of the Project	Bhandar dara	Bargaon Nandur	Visapur
3.	A. Year of completion	1926	-	1927
	B. If incomplete, probable year of completion.	-	1974	-
C.	Estimated cost of the project (Rs. in lakh)	175.95	1611.00	40.44
4.	Dam			
	A. Height sanctioned (in Mt.)	82.29	46.63	25.60
	B. Height completed (in Mt.)	82.29	33.8	25.60
5.	Canal			
	A. Total length (in Kms.)	129.14	57.6	25.74
	B. Length completed (in Kms.)	129.14	52.8	25.74
6.	Maximum storage capacity (In million M ³)	315.40	735.8	34.46
7.	Storage capacity as on 31st March (Million M ³)	18.40	Nil	14.20
8.	Gross Area commanded (In hect)	79523.7	10074	39200
9.	Culturable area commanded (In Hect.)	62,975	65,498	32,000
10.	Irrigable area by completed project (In Hect.)	22,801	65,498	10,400
11.	Area Irrigated at present. (In hect.)	28862.62	Nil	1362.00
	a. Perennial	11744.80	Nil	188.40
	b. Seasonal	17117.82	Nil	1473.60

SOURCE : 1. Superintending Engineer (Irrigation)
2. Executive Engineer (Irrigation)
(Million M³) = Million cubic metres.

TABLE NO. 52

Economically backward class concession of ^{Free} education AHMEDNAGAR DISTRICT during 1961_62, 1966_67, 1967_68 & 1968_69

Sr. No.	I T E M S	Y E A R	Primary		Higher Institutions							Miscellaneous	Grand Total		
			Prima-ry	Seco-ndary	Arts & Science	Comme-rcial	Agri- (cul- tural)	Tech- nical	Veteri- nary	Medi- cine	Other Courses			Total	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	
1.	Beneficiaries (in numbers)	1961_62	-	14,583	515	183	-	16	-	-	41	-	755	397	15,735
		1966_67	17	31,233	2,008	1,346	-	-	-	-	74	-	3,428	814	35,522
		1967_68	29	31,353	1,890	1,491	-	-	-	-	35	362	3,758	150	35,250
		1968_69	92	34,635	2,323	1,729	-	-	-	-	46	5	4,608	547	39,832
2.	Concession granted in 1000 Rs.	1961_62	-	741	84	38	-	2	-	-	8	-	132	45	913
		1966_67	1	2,010	444	299	-	-	-	-	9	-	752	32	2,795
		1967_68	1	427	489	358	-	-	-	-	12	192	1,051	21	1,500
		1968_69	1	293	805	455	-	-	-	-	12	3	1,276	36	1,606

Note : As per new formula of grant in Aid, to the secondary schools tuition fees are not directly reimbursed, to the economically backward classes pupils in the year 1967_68. These fees are however, reflected in the Grant in Aid to the schools. Hence it appears that the concessions are reduced in the year 1967_68.
