SOCIO ECONOMIC REVIEW OF

SHOLAPUR : DISTRICT

1971-72

Chapter No.	Heading of the chapter	Page No.
I	Introductory	1
II	Explanatory note	12
III	An Analytical Review of sectorial trends	20
IV	Annual Plan progress	35

CHAPTER-I

1.1 Sholapur district lies in the Bhima and Sina basins between 17° and 19° north latitudes and 75° and 76° east longitudes has an area of 15021 square kilometres lying in the centre of a large plain 1800 feet above mean sea level. Of this, urban areas account for 414 Kms and rural areas for 14607 Kms.

The District is bounded on the North by Ahmednagar and Osmanabad districts, on the East, by Osmanabad and Andhra Pradesh, on the South by Sangli district and Mysore State & on the West by Satara and Poona districts. Sholapur city, the district Head quarter is situated at a distance of about 450 Kms from Bombay city which is the State Head quarter and -- about 265 Kms from Poona city, the Divisional Head quarter.

1.2 Topography:-

1) Soils:- The soil of the district can be classified into three kinds viz. Black Barad or Coarse gray and Tambadi or reddish. Except in Barshi, where black soil is the rule and coarse gray is rare, most of the district is either gray or red. The soils of uplands are shallow and more suitable for sheep grazing than cultivation. The soil is generally light and of moderate depth in North Sholapur taluka. Deep black soil of richer quality is however predominant between the two rivers Bhima and Sina. In Pandharpur taluka, the soil is generally poor. So also in most part of Sangola taluka, the soil is poor and shallow. The soil of Malsiras taluka is in general shallow and light in colour and not retentive of moisture. Large portion of Madha taluka has generally shallow soil with varying depth and quality. In Akkalkot taluka, the soil is rich in the vicinity of Bhima and Sina rivers.

In Karmala taluka, one half of the soil is black and the quarter each red and barad. The soils of Mangalvedla taluka are deep black.

2) Rivers:-

The Chief rivers are the Bhima with its right bank feeders the Nira and the Man and its left bank feeder, the Sina which receives the Bhogawati from the North. The Bhima and the Sina run South East, the Nira and the Man nearly East and the Bhogawati South East. During the dry season, all the rivers are fordable. Even in the Bhima except for occassional pools, the Stream dries up and runs only ankle deep. The geographical area of Sholapur district under Bhima sub-basin comprises of 14,99,616 hect. of which cultivable area is 13,26,809 hect. The length of the Bhima river is 289 Kms within the district.

3) Hill Ranges:-

There is no important hill system in the district Only in the North of Barshi taluka several spurs of Balaghat ranges are seen for a few Kms. There are also scattered hills in Karmala, Madha and Malsiras talukas. The district has in general flat or undulating terrain. The low table land and small separate hills in Karmala and Madha talukas act as the watershed between the Bhima river and the Sina river.

1.3 Climate:-

1) The climate is healthy and agreeable except from March to May. Climateically, there are three seasons i.e. Summer, rainy and winter. Summer starts from the beginning of March and lasts upto middle of June, during which the climate is hot during the day time though cool at night. The rainy season starts from middle of June and lasts upto end of October.

It is followed by winter, from November to February. During cold season, the air is generally bright clear and bracing. The hot season is marked by dry scorching heat, strong hot winds and occasional dust storms. Nights are however generally cool. In rainy season, the temperature is generally mild and even. Except hot months i.e March, April and May, the climate is free from extremes of heat and cold.

There are very little variations in the climate in different parts of the district. The climate is dry and hot in all parts except that portion of Barshi taluka which lies above the Ghats, where it is some what cooler than in the rest of the district.

2) Rainfall:-

Rainfall all over the district is uncertain and scanty with an annual average of 577.1 m.m. The district gets rain from South West as well as from North East monsoons. Throughout the district, the rain starts in June and continues upto October. The precipitation during June to August is rather precarious and of small magnitude. The showers in September and October are heavy and more assured.

The Fact Finding Committee appointed by Govt. in 1960 had reported that the rainfall is not dependable in the following areas and they are likely to be affected by scarcity conditions periodically as shown below:-

Grade	Estimated frequency of scarcity conditions	Talukas
A	Once in 3 years	Karmala, Sangola
B	Once in 6 years	Madha, Pandharpur & Small southern portion of Malsiras.
C	Once in 10 years	Mohol, Mangalwedha, Akkalkot, North Sholapur, South Sholapur & 18 villages in the North East corner of Barshi taluka.

Thus all the talukas of the district are generally scarcity areas.

3) Temperature:-

The temperature is generally mild and even except the hot months of March, April and May. During the year 1971 at Sholapur centre, the temperature was lowest in December and highest in April, the maximum and minimum being 43.0 centigrades and 10.3 centigrades respectively.

1.4 Natural Zones:-

The district can be broadly divided into three natural Zones. The eastern Zone comprising Barshi, North Sholapur, South Sholapur and Akkalkot talukas has medium to deep black soil, some what assured rainfall and grows Jowar, Bajra and pulses.

The Central or the transitional Zone comprising Mohol, Mangalwedha, eastern parts of Pandharpur and Madha taluka has uncertain rainfall, light to medium soil and grows kharif and Rabi crops.

The Western zone comprises scarcity areas of Karmala, Sangola and Malsiras talukas and Western parts of Madha and Pandharpur taluaks with light soil and uncertain rainfall. Mainly Rabi crops are grown in Karmala, Pandharpur and Madha taluakas and Kharif crops, such as Bajra and Groundnut in Sangola taluka. Large part of Malsiras taluka receives protection from scarcity due to irrigation provided by Nizam's Right Bank Canal and Sugarcane is the major crop of that area.

1.5 Famine and Scarcity:-

Since the average annual precipitation is very low (577.1 m.m.) and subject to a large amount of uncertainty, this district is exposed to frequent scarcities and occasional famines.

During the year 1971-72, 453 out of 946 villages in the district, covering a population of 5,56,358 were affected by famine and chronic scarcity. In all 153 relief works were undertaken during the year 1971-72, for which 16,062 persons were employed. The total expenditure incurred on these works was Rs.6,92,702. In Karmala and Akkalkot talukas, the percentage of villages affected by famine was more i.e. 67.7 and 75.4 respectively, as compared to villages in other talukas in the district.

1.6 Territorial changes in the district:-

The district of Sholapur was first formed during the year 1838. The district was abolished in 1864 and was again formed during 1875. Consequent upon the merger of the former Indian states, 80 villages and 2 towns of these states and a part of Akkalkot state was added in 1949.

Talukas namely Mohol, Akkalkot and Mangalwedha were newly formed and Sholapur taluka was split up into North Sholapur and South Sholapur talukas. In 1950, 53 enclave villages from Hyderabad state were transferred to this district and 12 enclave villages of this district were transferred to Osmanabad and Gulbarga districts. Also one village from Bijapur district was added to Mangalwedha taluka in 1950. At present there are 11 talukas in the district, with 953 villages and 10 towns as per 1971 census.

1.7 District Administration:-

1) State Government Administration:-

For administrative purposes, the district is at present divided into 11 talukas. The Collector is in charge of general Administration, Law and Order, Treasury, Land Revenue and Civil Supplies. He is assisted by a Resident Deputy Collector in his office and three Deputy Collectors who hold charge of the three revenue divisions viz. Sholapur, Madha and Pandharpur and have their head quarters at Sholapur, Kurduwadi and Pandharpur. Eleven Tahsildars are in charge of eleven taluka offices.

The District and Sessions Judge is the head of the Judicial Department in the district having his assistants at district and tahsil levels. The Judiciary is entirely separate from the executive. However, the Collector continues to be the District Magistrate and the Deputy Collectors and Tahsildars are vested with limited magisterial powers.

The District and Sessions Judge is assisted by two Assistant Judges and Additional Sessions Judge. They have Jurisdiction over the entire district. They attend to Civil and Criminal work, both original and appellate. The Civil Judge (Sr. Division) attends to Civil suits in the whole of the district.

There are also 15 Civil Judges (Jr. Division) and first class Judicial Magistrates who have their head quarters at different taluka places in the district. They deal with Civil & Criminal cases. Two special first class Judicial Magistrates deal with prohibition and Municipal cases. There is also one first class Judicial Magistrate for Sholapur taluka police station and Sholapur city Sadar Bazar Police station.

The police force in the district functions under the District Superintendent of Police who is assisted by two Assistants Superintendents and one Deputy Superintendent & two circle Police Inspectors at Sholapur and Pandharpur. There are 21 Police stations in the district.

There are two Divisional Soil Conservation Offices at Sholapur and Pandharpur to supervise the Soil Conservation activities under the Agricultural Department.

In addition to these, there are other officers representing various departments at district level like Malaria officer, Sub Regional Employment Exchange Officer, Govt. Milk Distribution scheme Officer, Factory Inspector, Labour Officer, Executive Engineer, B & C Division, Dist. Deputy Registrar of Cooperative Societies and Civil Surgeon. There are Govt institutions of North Cote Technical High School and the Polytechnic.

2) Central Govt. Administration:-

There are Divisional offices of the Posts and Telegraph Department and South Central Railway at Sholapur. There is also the office of the Superintendent of Central Excise.

3) Zilla Parishad and Panchayat Samities:-

Under the Maharashtra Zilla Parishad and Panchayat samities Act 1962, Zilla Parishad and 11 Panchayat samities have been established in the district in the year 1962.

The areas under the jurisdiction of the Zilla Parishad and the Panchayat samities correspond to the district and the taluka boundaries except in the case of Municipal towns which are not covered by them. The Zilla Parishad covers 96.50 percent of the area and 72.05 percent of the total population of the district.

The Zilla Parishad is headed by an elected president from among the elected Councillors. To carry out the administrative and executive work, an officer in the Senior scale of I.A.S. cadre works as the Chief Executive Officer to the Zilla Parishad. He is assisted by various departmental heads who are officers belonging to class I and class II services of State Govt. The Block Development Officer works as Secretary to Panchayat Samiti.

4) Local Bodies Administration:-

As regards the administrative set up under the local sector, there is a Municipal Corporation for Sholapur city. The Municipal Commissioner works as the Executive Head of the Corporation. There are nine municipalities in the district, under the administrative control of the Chief Officer of which Barshi and Pandharpur are city municipalities.

5) Public Bodies Administration:-

The Maharashtra State Road Transport Corporation has earned for itself a unique place among the public sector undertakings in the district.

It has maintained an efficient and economic road transport service throughout the district. The Divisional Controller functions as the Executive Head of this undertaking.

There are six depots under him, each under the charge of a depot Manager. There is also an office of the Maharashtra State Electricity Board entrusted with the work of electrification programme. The Executive Engineer, M.S.E.B works as the Executive Head of this office. There are two branch offices of Life Insurance Corporation of India at Sholapur and at Barshi. These branches are working under the control of Divisional Manager L.I.C. Satara.

1.8 Demography:-

1) General:- Census is the principal source of Demographic data in India as well as in Maharashtra. With an area of 15,021 Sq. Kms. and a population of 22,53,840, the Sholapur district ranks sixth both in area and population among the 26 districts of Maharashtra state, as per 1971 census, whereas it was third as per 1961 census. The 1971 population of the district shows an increase of 21.17 percent over the 1961 figure. The urban population forms 27.36 percent of the total population.

2) Density:- According to 1971 census, the density of population of Sholapur district is 150 Sq. Km. Within district, it varies from 660 persons per Sq.Km. in North Sholapur to 94 persons per Sq. Km in Karmala taluka. The density of population is higher in two talukas namely Sholapur North and Barsi, as compared to other talukas in the district, which is due to large urban centres like Sholapur city and Barshi town. Mangalwedha, Sangola, Karmala and Mohol talukas are having very low density because of the light and rocky soil existing in these talukas.

3) Literacy:- According to 1971 census, literacy in Sholapur district is 34 percent, which was 25 percent as per 1961 census. Growth of literacy in the decade 1951-61 in this district was 10 percent, while during the decade 1961-71, the same is 9 percent. Percentage of literacy in North Sholapur taluka is the highest (i.e 45 percent) amongst the talukas in the district due to its vicinity with the district head-quarter, Sholapur city and availability of extensive educational facilities. Literacy percentage of Barshi, Mohol and Pandharpur talukas is 32, 35 and 36 respectively, while in the rest of the talukas, the same is between 25 to 31.

4) Livelihood classification:- Of the total population of the district 33.68 percent population is engaged in work while remaining 66.32 percent population is non working or dependent, as per 1971 census. Among the workers, the percentage of workers engaged as cultivators and Agri-labourers ~~of-workers total~~ to total workers in the district is 35.58 and 32.78 respectively, which is higher than the corresponding figures of the state i.e 35.54 and 29.32 respectively. The percentage of workers engaged in household industry and manufacturing other than household industry is 3.60 and 9.41 respectively in the district. The percentage of workers engaged in trade and commerce and other services in the district is also significant i.e 6.06 and 6.44 respectively. The proportion of workers engaged in, Transport, Storage and Communication, Construction, Mining and Quarrying, Livestock Forestry, Plantation etc. is not significant.

Scheduled Caste- The comparative position of the scheduled caste population in 1961 and 1971 in this district is as under:-

<u>Year</u>	<u>Percentage to total population</u>
1961	12.84
1971	14.21

It is seen that the scheduled caste population has increased from 12.84 percent in 1961 to 14.21 percent in 1971.

Scheduled tribes:- The total population of scheduled tribes is only 8,608 or 0.38 percent of the total population. The scheduled tribes population of the district has decreased from 9,089 in 1961 to 8,608 in 1971.

Languages:- As per 1961 census in rural areas, Marathi speakers account for 80.1 percent of the population. They constitute 49.1 percent of the population in urban areas. Kannada has the second largest number of speakers. It forms 11.5 percent of the total population of the district. Urdu has the third largest number of speakers. It forms 8.8 percent of the total population of the district. It is spoken more in urban areas, where its speakers form as much as 16.3 percent against 5.9 percent in rural areas. The speakers of Banjara languages are concentrated in rural areas, so also Gujarathi speakers to some extent, Hindi, Tamil and Telgu speakers are mostly concentrated in urban areas.

Explanatory note:-

2.1 Introductory:- Statistical information regarding various aspects of development of Sholapur district is presented in the tables of this abstract.

The data has been compiled for the financial year 1971-72. For certain groups, such as Agril. and Coopetation, however, the data has been furnished for the Agril. year and Cooperative year respectively. Calendar year has been taken as reference year for presneting the data regarding meteorology, Vital Statistics and Statistics pertaining to Civil and Criminal Courts.

In the tables district total is given first followed by its tahsilwise break up. The order of tahsils is as per the order followed in the Census Hand Book. The source of information has been indicated at the bottom of each table.

A table 'District at a glance' giving comparative data of the district and the Poona division is given at the beginning of the abstract.

The concepts, sources and limitations adopted in the preparation of the abstract are summarised major groupwise in the following paragraphs.

2.2 Area and population:- Tables in this section give information regarding area houses and population (table No.1) decadal variation in population since 1901 (table No.2) villages classified by population (table No.3) population of urban areas (table No.4) workers and non workers (table No.5) and literate persons and Scheduled caste and scheduled Tribes (table No.7). The data in these subjects pertain to 1971 census Table No. 6 presents information on population according to age group, mother tongue and religion based on 1961 census as that for 1971 is not yet available.

During 1971 census, the definition of a worker has been modified to a certain extent and due to this, the proportion of workers in 1971 census is less than that of 1961 census. During 1971 census, a person, in the case of seasonal work is classified as a worker if he had worked in the current or the last working season for a greater part of the season. Thus unlike 1961 census, persons primarily engaged in household duties or those who were students and helped in the family economic activity but not on a full time scale were treated as non workers in respect of their main activity.

2.3 Climate:- The rainfall data (table No.8) gives information about number of rainy days and total rainfall in m.m. during each month of calendar year 1971, at the selected centres in the district. Figures of normal rainfall are worked out, on the basis of actual rainfall for the periods ranging from five years and a maximum of eighty years, except Mohol centre, for which normal rainfall is worked out on the basis of actual rainfall for the period from 1961 to 1970. A day is treated as a rainy day, if during the 24 hours, minimum rainfall of 2.5 m.m. is recorded. The figures of highest and lowest temperature in the month are given in table No.9. The data has been supplied by the Govt. of India's meteorological centre at Kolaba.

2.4 Agriculture:- Statistical information regarding land utilisation irrigation, area under different crops, yield per hectare and outturn of principal crops etc. is given in the tables under this head, for the agricultural years 1969-70 (final) and 1970-71 (provisional). The break up of the total geographical area according to different types of land utilisation is shown in the table No.10. Under forest, lands which are classed or administered as forest whether state owned or private are included.

2. **ANNEXURE - Statistical information regarding land**
In case, any portion of such land is put to some agricultural use, that portion is included under the appropriate heading of land use. Land put to non agricultural use stands for all lands occupied by buildings, roads and railways, rivers and canals and other lands put to uses other than agriculture. All barren and uncultivable land like mountains, deserts etc. which can not be brought under cultivation unless at a high cost is classified as barren and uncultivable land irrespective of the fact whether such land is in isolated blocks or within cultivated holdings. 'Permanent pastures and other grazing land' covers all grazing lands (whether permanent pastures and meadows or not) and village common and grazing lands within forest areas. 'Cultivable waste' included all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and last five years or more in succession. Such lands may either be fallow or covered with shrubs and jungles which are not put to any use.

Cultivable lands kept fallow during the current year only are shown as 'current fallows'. Other fallow land includes all lands which were taken up for cultivation but are temporarily out of cultivation ~~for~~ for a period between 1 to 5 years. The net area sown consists of total area sown with crop and orchards, area sown more than once being counted only once. Gross cropped area represents the sum total of the area under all crops, including area sown more than once. Table No. 11 gives details of area under different food crops (cereals, pulses and others) and non food crops (fibres, oil seeds etc.) Table No. 12 gives information about yield per hectare and output of principal crops. Table No. 13 gives information of area

irrigated by different sources i.e canals, tanks, wells etc. in each taluka while table No.14 gives information of area irrigated under different crops in each taluka. Table No.16 presents the no.of minor irrigation works and the net area irrigated. Minor irrigation works are in all the talukas except Mohol and Akkalkot. The table No.17 gives information about the major and Medium irrigation projects as on 30-6-1972 Table No.18 gives information about Agricultural wage rates, in respect of three selected centres viz.1) Mandrup(2)Modnimb (3) Vairag. Table No.20(A) pertains to famine, scarcity and akin to scarcity data. Table No.20(B) gives information about the total no.of villages(talukasewise and circlewise) affected by scarcity during the period from 1967-68 to 1971-72.

2.5 Animal Husbandary, Forest:-(a) Animal Husbandary:-

Table No.21 gives the no.of various types of livestock and poultry, as enumerated in the district during the 1966 Livestock census. Statistical information in respect of veterinary institutions and disease wise no.of attacks and deaths of livestock/poultry is given in tables No.22 and 23 respectively.

b) Forest:- Tables under this group furnish information on area under forests and production of major and minor forest produce. Information of Forests under the control of both the Forest Department and Revenue Department of the Govt. of Maharashtra is given separately. Areas under forest are again classified as reserved protected and unclassed forests according to legal status. Reserved forests are those that are intended mainly for timber production and in which rights of grazing and cultivation are seldom allowed. In protected forests, right of grazing or cultivation is allowed under certain limitations and restrictions.

The unclassed forest refers to the inaccessible forest or unoccupied waste. The figures in table No.25-A have been obtained from the Forest Deptt. and they do not tally with those given in table No.10, the figures for which have been taken from Revenue Deptt. This variation is due to the different concepts of classification of areas by the two departments.

2.6 Employment, Industry and Electricity:- Statistics relating to working factories such as average daily employment of workers, classification of factories according to working strength and no. of days worked during the year is given in three tables 26 to 28 for the year 1971. Tables 29 to 31 give important statistics of Employment Exchange in Sholapur district, including monthwise registration, vacancies notified and placements in public and private sectors and no. on live register at the end of each month for the year 1971. The data presented in the tables 32 and 33 are pertaining to the census of state Govt. employees as on 1st July, 1966, conducted by the Bureau of Economics and Statistics, Bombay. This data gives the no. of State Govt. employees under I, II, III, and IV classes only and does not include any other category such as work charged personnel, part time workers etc. The table 34 gives the results of Annual Survey of Industries 1966. The figures are based on actuals of census sector factories and estimates of sample sector factories.

The information regarding consumption of electricity in Sholapur district in the year 1971-72 is given in table No.35. This includes the consumption of electricity supplied by the Maharashtra State Electricity Board and the following private companies in Sholapur district.

- 1) Barshi General Engineering Co. Barshi.
- 2) Pandharpur Electric Supply Co; Pandharpur.
- 3) Karmala Electric supply Co; Karmala.

Information on towns and villages electrified is given in table No.36.

2.7 Cooperation:- The data on typewise cooperative societies in the district including Cooperative Banks are given under this group. Talukawise breakup of primary agricultural credit societies, with details of membership capital structure, loans advanced, recovered and outstanding is given in table No.39. Information in respect of Agril. Marketing societies and regulated markets is also given. The main function of the agril. marketing society is the purchase and sale of agril. produce grown by its members or member Coop. societies in its area of operation. In table No.43, the quantity and value of annual arrivals of various types of agril. produce are shown. The data regarding registered money lenders and loans advanced by them is given in table No.44.

2.8 Medical and Public Health:- Data on vital statistics e.g. talukawise births and deaths and infant deaths, with break up into male and female, medical facilities and amenities available in the district, indoor and outdoor patients treated etc. are given under this section.

2.9 Education:- Data regarding literacy, education in rural and urban areas in the district, according to 1963/1971 census is given in tables 50 to 52 (50: 1971 census, 51 & 52: 1961 census). Other statistics such as no. of educational institutions, enrolment of students, teachers (trained and total) No. of backward class beneficiaries at different

stages of education, achievements under the scheme of concessions to economically backward classes is also presented in this section. Normal and plan expenditure on primary education is shown in table No.56.

2.10 Transport and Communication:- Table No.57 gives gauge-wise total railway length in Km. in Sholapur district as on 31st March 1972. These figures have been compiled with the help of railway time table and map. The figures of extra municipal roads maintained by Buildings and Communication Department and Zilla Parishad are shown in table No.58. Roads maintained by Municipal Councils are also shown separately in this table. Table No.59 gives data regarding motor vehicles as on 31st March 1972, in the Poona Transport Region, comprising of Ahmednagar, Poona Satara and Sholapur districts. Operational statistics relating to Sholapur Division of the Maharashtra State Road Transport Corporation, results of traffic Census on important roads in the district, information of postal, Telegraph, Telephone and rural broadcasting statistics are also given in the section.

2.11 Local bodies:- Financial position of village Panchayats, Municipal Councils and the Zilla Parishad for the year 1971-72 is shown in this section. No. of village Panchayats include independent and group village Panchayats. The income and expenditure of village Panchayats are exclusive of opening and closing balances respectively. The receipts of the Zilla Parishad are shown under four sub-heads viz.) (1) Self raised resources (2) Govt. grants (3) Grants for agency schemes and (4) debt section.

2.12 Plan and Community Development:- Tables in this section give information regarding expenditure and physical achievements under district level plan schemes implemented in Sholapur district and Community Development programme in the district for the year 1971-72, which is the third year of the fourth Five Year Plan.

2.13 Prices:- The a table No.73 gives whole prices of important agril. commodities like rice, wheat, jowar, Bajra, etc. & at selected centres in the district i.e where market committees are established. Table No.74 gives monthly average prices of important commodities at Sholapur during 1971. The prices collected for the given commodities are taken from only one selected shop. The average shown for individual commodities can not, therefore be said to be fully representative. The data may however, prove useful as a broad indicator of the trend in changes in retail prices during the period. The table No.75 gives the consumer prices index no. of working class at Sholapur and Poona with the year 1960 and 1961 respectively as the base years.

2.14 Miscellaneous:- Statistical information on the subject like police force, crime statistics, banks, joint stock companies, insurance, Presses, News papers and periodicals, small savings, General Election etc. is included in this section.

2.15 Selected indicators:- Tables on selected indicators of development for each tahsil of Sholapur district are appended at the end. Topics like population agril, electricity, factory workers, road length, education, medical facilities etc. are covered. A comparative picture of tahsils in relation to their development under each item has been shown by way of ranking the tahsils on the basis of the latest available data.

An analytical review of sectorial trends :

In the following paragraphs, an attempt is made to review the progress of the talukas in the district and to depict a comparative picture of all the talukas of the district, along with the position of the district in Poona Division.

TABLE NO. 1.

Population of Sholapur district during 1961 and 1971 population census (population in '000)

Item	1961	1971
1	2	3
1. <u>Population</u>		
<u>Total:-</u>	18,601	22,538
Rural	13,402	16,373
Urban	5,199	6,165
2. <u>Literate & educated persons</u>	4,678	7,640
3. <u>Percentage of urban population.</u>	27.95	27.36
4. <u>Sex ratio</u>	936	933
5. <u>Scheduled caste population.</u>	12,389	13,203
6. <u>Scheduled tribes population.</u>	91	86
7. <u>Density of population per Sq. Km.</u>	124	150

3.2 The population of the district has increased by 21.17 per cent during the decade 1961-71. The urban population forms 27.36 per cent of the total population. This district is the 6th largest in Maharashtra State and occupied third place in the Poona Division in respect of popula-

The percentages of the scheduled castes and scheduled tribes population to the district's population are 14.21 and 0.38 respectively. Sholapur's present literacy rate of 33.90 percent compares favourably with the 1961 rate of 25.15 percent. Percentage of literacy for Poona Division and Maharashtra State is 38.1 and 39.1 respectively. The density of population per Sq.Km. has gone upto 150 in 1971 from 124 in 1961. The density of population for Poona Division and Maharashtra State is 174 and 164 respectively.

3.3 Comparison of the talukawise population in 1961 and 1971 shows that the highest percentage of increase in population is in Malasiras (36.03%) and the lowest in Mohol taluka (15.59%). The decennial growth rate in rural and urban population is 21.4 and 18.5 respectively.

As per 1971 census the sex ratio (Females per 1000 males) of the district is 936, which was 933 as per 1961 census. It is 958 for Poona Division and 933 for the State.

3.4 Growth in rural and urban population is shown in the following table:

TABLE NO. 2

Growth rate in rural and urban population of Sholapur district during the decade 1961-71 (population in '000)

Item	1961	1971	Growth rate
1. Rural population	13,402	16,373	22.2
2. Urban population	5,199	6,165	18.6

The growth rate in rural population is higher than that in urban population. Growth rates in Poona Dn. and Maharashtra State are given below:-

Item	Decennial growth rate	
	Poona Divn.	Maharashtra State.
1	2	%3
Rural population	22.2	21.9
Urban population	36.5	40.7

The decennial growth rate of urban population in this district is the second lowest in the State, and the lowest in Poona Division.

3.5 During the 1971 census, the persons who worked in the current or the last ^{working} ~~working~~ season for the greater part of the season were treated as workers.

TABLE NO. 3

Workers as per 1971 census in Sholapur district in comparison with Poona Dn. and Maharashtra State (Population in '00')

Category of workers	Sholapur SholDist.	Poona Dn.	Maharashtra State.
1	2	3	4
1. Cultivators	2702 (35)	19927 (45)	65724 (35)
2. Agril. labourers	2489 (33)	9493 (22)	54296 (29)
3. Other workers	2402 (32)	14399 (33)	67301 (36)
4. Total workers	7593 (100)	43819 (100)	187321 (100)
Percentage to total workers is shown in brackets			

Out of the total population of the district, 759263 are workers, who constitute 33.68% of the total population. Out of these workers, 35.58% workers are cultivators, 32.78% Agril. labourers and the remaining 31.64% workers are engaged in other activities, such as, Mining and quarrying,

'Trade and Commerce', construction' Fishing' Household industry' etc.

3.6 Agriculture:- During the year 1970-71 out of the total geographical area(1501069) hectares) of the district, 1354953 hectares of land was cultivable. But the percentage of net area sown to cultivable land was 85.19. A Statement showing percentage of net area sown to cultivable land and gross cropped area to net area sown for various talukas is given below

TABLE NO. 4

Percentage of net area sown to total cultivable land and percentage of gross cropped area to net area sown:

Sr.No.	Taluka	Percentage of net area sown to total cultivable land		Percentage of gross cropped area to net area sown.	
		1960-61	1970-71	1960-61	1970-71
1	2	3	4	5	6
1.	Karmala	92.2	92.4	104.1	101.9
2.	Barshi	94.0	94.6	103.6	102.2
3.	Madha	92.1	86.6	103.8	103.4
4.	Malsiras	81.2	58.4	104.0	107.7
5.	Pandharpur	90.8	87.4	101.8	103.2
6.	Mohol	93.5	90.9	102.1	102.6
6.	North Sholapur	99.2	79.9	102.1	101.7
7.	South Sholapur	95.1	95.7	103.9	101.3
9.	Sangola	75.7	70.3	103.4	103.8
10.	Mangalwedha	91.0	88.0	101.7	102.1
11.	Akkalkot	97.5	91.5	103.4	102.7
	District	90.9	85.2	103.1	102.9

3.7 From the above table, it is seen that all the cultivable land is not brought under cultivation. There is much scope to bring more land under cultivation in Malsiras and Sangola talukas. The available cultivable land has been utilised for cultivation to the maximum extent possible in Karmala, B arshi, Mohol, South Sholapur and Akkalkot talukas.

3.8 The area shown more than once constitutes 2.9% of the net area sown for the district during the year 1970-71. The percentage of gross cropped area to net area sown for the district is 102.9 for the year 1970-71.

3.9 The table showing percentage of gross irrigated area to net irrigated area and percentage of net irrigated area to net area sown during the years 1969-70 and 1970-71 is given below:-

TABLE NO.5

Sr.No.	Name of the taluka.	Percentage of gross irrigated area to net irrigated area.		Percentage of net irrigated area to net area sown.	
		1969.70	1970.71	1969.70	1970.71
1	2	3	4	5	6
1.	Karmala	133.1	138.0	4.77	4.93
2.	Barshi	67.1	160.1	5.88	3.75
3.	Madha	139.2	135.6	7.12	9.52
4.	Malsiras	100.0	119.5	29.22	39.57
5.	Pandharpur	122.5	127.9	9.67	11.60
6.	Mohol	93.1	135.9	11.12	7.44
7.	North Sholapur	110.1	111.1	9.14	9.29
8.	South Sholapur	261.2	118.9	3.52	7.13
9.	Sangola Mangalwedha	168.2	127.9	5.43	7.68
10.	Sangola	177.1	106.6	6.89	13.38
11.	Akkalkot	96.1	138.1	8.33	7.19
District:-		117.7	126.2	9.16	9.92

3.10 From the above table, it is revealed that percentage of gross irrigated area to net irrigated area was 126.2 for the district, during 1970-71 as against 117.7 for the earlier year. This percentage was the highest (160.1) in Barshi taluka, whereas the lowest percentage (106.6) is observed in Sangola taluka.

3.11. The percentage of net irrigated area to net area sown for the district during the year 1970-71 was 9.92. The percentage for the earlier year was 9.16. Irrigational facilities have been utilised to the highest extent (39.57%) in Malsiras taluka, where irrigation facilities from Nira Right Bank Canal are available. The percentage above that for the district is observed only in Malsiras, Pandharpur and Sangola talukas.

3.12. The following table gives the cultivable area per agril. worker and net area sown per agril. worker in the district, during the years 1969-70 and 1970-71.

TABLE NO. 6

Cultivable area per agril. worker and net area sown per agril. worker.

Sr.No.	Taluka	Cultivable area per agril. worker		Net area sown per agril. worker	
		1969.70	1970.71	1969.70	1970.71
1	2	3	4	5	6
1)	Karmala	2.62	2.65	2.44	2.45
2)	Barshi	1.97	2.00	1.82	1.89
3)	Madha	2.32	2.32	2.11	2.00
4)	Malsiras	2.31	2.31	2.09	1.35
5)	Pandharpur	2.89	2.88	2.75	2.52
6)	Mohol	2.30	2.15	1.96	1.95
7)	North Sholapur	2.36	2.35	2.01	1.88
8)	South Sholapur	2.39	2.38	2.27	2.28
9)	Sangola	2.75	2.84	2.37	1.90
10)	Mangalwedha	2.59	2.59	2.20	2.28
11)	Akkalkot	2.34	2.23	2.27	2.04
	District	2.40	2.39	2.18	2.04

(Note:- The total no. of agricultural workers used as basis for working out the above data are as per 1961 census).

3.13 Cultivable area in the district per agril. worker during the year 1970-71 works out to 2.39 hectares. It varies from 2.00 hectares in Barshi taluka to 2.88 hect. in Pandharpur taluka.

3.14 Net area sown in the district per agril. worker during the year 1970-71 was 2.04 hect. as against 2.18 hect. during the year 1969.70. The ratio varies from 1.35 hect. in Malsiras taluka to 2.52 hect. in Pandharpur taluka.

3.15 Yield rate of principal crops:-The rainfall in this district is very scanty and uncertain. Irrigation facilities have not developed to a degree as would significantly mitigate the natural disadvantages. The productivity of soil is poor. The following table gives the yield rates of important crops in this district.

TABLE NO. 7

Yield rates of important crops in Sholapur district
(in kg per hect.)

Sr.No.	Crop	Yield rate during the year		
		1961-62	1969.70	1970.71
1)	Rice	1146	665	779
2)	Wheat	577	582	708
3)	Jowar	369	364	183
4)	Bajra	44	165	282
5)	Maize	996	1062	800
6)	Gram	314	272	285
7)	Tur	538	222	169
8)	Sugarcane(Gur)	7318	6462	8468
9)	Cotton(bales)	148	175	157
10)	Groundnut	593	487	579

The production of food crops during the year 1970-71 was 2.28 lakh M. tonnes as against the production of 3.57 lakh M. Tonnes during the year 1969-70. As compared to the year 1961-62, the yield rates of wheat, Bajra, Sugarcane and cotton have increased, whereas those of Rice, Jowar, Maize Gram, Tur and Groundnut have decreased. The yield rates are fluctuating on account of many reasons such as rainfall, incidence of diseases, use of modern techniques and improved Agril. practices etc.

3.16 Agril. Wage rates:- The average wage rates during the years 1970 and 1971 for the three selected centres are given below:-

TABLE NO.8

Average wages paid to unskilled labour field labour in three selected centres

Sr.No.	Centre	Year	Field labour	
			Male	Female
1.	2.	3.	4.	5.
1.	Modnimb	1970	2.42	1.19
		1971	2.50	1.25
2.	Mandrup	1970	2.42	1.27
		1971	2.34	1.50
3.	Vairag	1970	2.12	1.08
		1971	2.50	1.50

From the above, it is revealed that the wage rates have shown an increasing trend during the two years. The wage rates are still higher in canal areas of Malsiras taluka and in areas nearby sugar factories and other industries.

3.17 Cooperation:- Cooperative movement has reached in the nook and corner of the district. Primary Agril. Coop. credit societies help in increasing the agril. production. They are the agencies at village level for propogating the schemes of

increasing food production. The following table gives the data regarding these societies.

TABLE NO. 9

Primary Agril. credit societies and loans advanced by them in Sholapur district.

Item	1970-71	1971-72
1) No. of agril. credit societies.	888	887
2) Members	1,39,913	1,46,691
3) Loans advanced (Rs. in lakhs)	471.41	428.47
4) Loans recovered (Rs./lakhs)/in	392.94	391.97
5) Percentage of recovery	57	54

All villages are covered by primary Agril. credit societies. According to 1971 census, 2.70 lakhs persons are cultivators and the percentage of cultivators as members of the credit societies is 54. Loan advanced per member works out to Rs.291/- during the year 1971-72, as against Rs.337/- during the previous year. The percentage of recovery has come down to 54, in 1971-72 from 57 in 1970-71.

3.18 Animal Husbandary:- According to 1966 livestock census, the livestock in the district was as under:-

<u>Item</u>	<u>Number</u>
Cattle	5,41,535
Buffaloes	1,31,976
Total:-	6,73,511
Sheep	2,66,268
Goat	3,36,462
Poultry	4,72,880

The table below gives the gross cropped area per pair of working bullocks as per 1966 livestock census. The gross cropped area during the year 1970-71 is 11,87,556 hectares.

TABLE NO. 10

of
Gross cropped area per pair/working bullocks and milch animals and poultry per 1000 persons (as per 1971 census)

Sr.No.	Taluka	Gross cropped area per pair of working bullocks 1970-71	Milch animals per 1000 persons	Poultry per 100 persons
1	2	3 *	4 *	5
1.	Karmala	9.5	52	231
2.	Barshi	10.4	51	101
3.	Madha	9.3	51	201
4.	Malsiras	6.7	53	310
5.	Pandharpur	12.7	59	304
6.	Mohol	11.3	60	181
7.	North Sholapur	9.9	19	51
8.	South Sholapur	14.4	78	111
9.	Sangola	11.6	75	683
10.	Mangalwedha	13.9	94	453
11.	Akkalkot	10.3	71	104
	District	10.6	53	210

(Note:- Figures of livestock census 1966 and population census 1971 are utilised for working out the above data)

3.19 From the above table, it is seen that the gross cropped area per pair of working bullocks for the district works out to 10.6 hect.s for the year 1970-71. This ratio is highest in South Sholapur taluka i.e 14.4 hect.s and lowest in Malsiras taluka i.e 6.7 hect.s. The talukas in which this ratio is less than that for the district, are Karmala, Barshi, Madha, North Sholapur, and Akkalkot. Since mechanical power is not utilised for agriculture on large scale, there is

pressure of work on the available bullock power. No. of milch animals (Cattle and buffaloes as per 1966 livestock census) per 1000 persons (as per 1971 census) works out to 53 for the district. This number is only 19 for North Sholapur taluka, which includes urban area of Sholapur Corporation. The highest no. of milch animals are observed in Mangalwedha taluka. No. of poultry per 1000 persons (as per 1971 census) is 210 for the district as per 1966 livestock census. The highest no. of poultry (683) is observed in Sangola taluka and the lowest (51) in North Sholapur taluka, comprising of urban area of Sholapur Corporation.

The following veterinary aid facilities have been provided in the district.

Veterinary hospitals	1971-72	2
Veterinary dispensaries	1971-72	10
Veterinary Aid centres	1971-72	42

Average number of livestock (as per 1966 livestock census) per veterinary aid facility works out to 24,074 for the year 1971-72.

3.20 Employment Exchange:- No. of registration during 1971-72 was 12,327 against which there were 1,033 placements. No. on livestock register as at the end of 31st March 1972 was 11,869. Out of the placement of 1,033, during 1971-72, 43 candidates (4.1%) were placed in private sector. Percentage of candidates of SC/ST to whom employment was given during 1971-72 was 15.2. The distribution of registration and placement occupationwise is given below:-

TABLE NO.11

Registration and replacement according to category of occupation during 1971-72

Category	1971-72	
	Registration	Placement
1	2	3
1. Professional Technical and related workers.	848 (6.88)	131 (12.68)
2. Administrative scientific and managerial workers	54 (0.44)	20 (1.94)
3. Clerical & related workers	1228 (9.96)	489 (47.34)
4. Workers in transport and communications	268 (2.18)	15 (1.45)
5. Farmers fishermen, hunters & related workers	183 (1.48)	7 (0.68)
6. Craftsmen, Production process workers, labourers not elsewhere classified	359 (2.91)	24 (2.32)
7. Service, sport & related workers	376 (3.05)	180 (17.42)
8. Others	901 (73.10)	167 (16.17)
Total:-	12327 (100)	1033 (100)

(Figures in bracket represent percentage to total)

Occupationwise distribution in the above table reveals that 9.96% of the registrations are for clerical jobs. The percentage of placements in clerical jobs is also the highest i.e 47.34.

3.21 Consumption of Electricity:- Out of 948 villages in the district, the villages electrified as at the end of March 1972 are 396 i.e 41.7 %. The consumption of electricity is 1,34,663 thousand K.W.H. Per capita consumption of electricity works out to 59.7 K.W.H. during 1971-72. The consumption of electricity by industrial concerns is also significant which is to the extent of 61.6% of the ^{total} consumption.

3.22 Medical Facilities:- The medical facilities available in the district are as under:-

TABLE NO.12

Medical facilities available in the district

Item	Year	
	1970	1971
1	2	
1)Hospitals	5	6
2)Dispensaries	40	41
3)Health Centres P.H.C. and Maternity homes	22	22
4)Beds	782	905
5)No.of doctors	85	96
6)No.of nurses	291	316

It is seen from the above table that more facilities for medical aid are being made available to the public, every year, in order to cope up with the increasing demand. In spite of this fact, these efforts fall short of the requirements for the increasing population. The number of beds per lakh of population works out to 40 during the year 1971. On an average a doctors serves a population of about 23,000, whereas population being served by a nurse is nearly 7100. In this case, the doctors, nurses in dispensaries/hospitals etc. run by Govt./Local bodies only are taken into account. The birth rate and death rate during the year 1971 considering the 1971 census population are 24 and 9 respectively. The total births recorded during the year 1971, are 57,129 as against 53,776 in 1970. Similarly the total deaths recorded are 16,168 as against 19,084 in 1970.

3.23 Family Planning:- Number of family planning centres as on 31-3-1972 in Sholapur district was 45. The number of sterilisation operations i.e both vasectomy and tubectomy done during 1971-72 was 20,191. The number of I.U.C.D. insertions during 1971-72 was 108.

3.24 Education:- During the year 1970-71, the number of institutions of primary education was 1817 in the district. Out of 3,23,596 pupils in primary schools girls constituted 1,23,312(38.1%). There were 8,745 primary teachers. On an average, a primary teacher had to look after 37 pupils.

3.25 During the year 1970-71, there were 195 secondary schools in which 46,134 boys(76.1%) and 14,509 girls(23.9%) were studying. On an average a secondary teacher had to teach about 26 students.

3.26 During the year 1970-71, there were 18 higher institutions, in which 12,997 students were studying.

3.27 Transport and Communication:- The following figures give the progress in these fields.

Item	1970-71	1971-72
1. Post offices	426	435
2. Telegraph offices	38	41
3. Length of road per 100 Sq.Km.	23.63	27.70
4. S.T. routes	303	324
5. Route distance in Km.	23209	24219

During the year 1971-72, 9 new post offices were opened. As per 1971 census population served by a post office works out to nearly 5181. Each telegraph office, on an average serves to a population of 54,971.

There is increase in length of road and hence there is corresponding increase in S.T. routes. During the year 1971-72, S.T. buses were plying on 324 routes covering a distance of 24,219 Kms.

3.28 Banking Offices:- The number of banking offices during the year 1971 was 96. Out of these banks, there were 51 scheduled banks and the remaining were cooperative banks. Population covered by the banking offices was 8,07,659. Population per banking office works out to 8,413. Population covered by banks is only 35.8% of the total population and hence there is wide scope for development of banking facilities.

3.29 Prices:-

General:- Consumer price indices for Sholapur for some of the previous years, are given below:-

Year	Average general index
1966-67	150
1967-68	155
1968-69	167
1969-70	176
1970-71	185
1971-72	198

From the above figures, it is seen that the general index has shown an upward trend during the last six years. The index for the year 1971-72 has increased by 13 points over that of the previous year. Comparing the indices for the year 1970-71 and 1971-72, it is seen that the index for food has increased to 214 from 198 and that for pan, Supari and tobacco has gone upto 178 from 171. The index for clothing bedding and footwear has also gone upto 188 from 173.

C H A P T E R - IV -
PLAN ACHIEVEMENTS DURING 1971-72

4.1 The year 1971-72 was the third year of Fourth Five Year Plan. An attempt has been made in this chapter to describe financial as well as physical achievements under various heads of development.

4.2 The State's Annual plan for 1971-72 was for Rs.196.52 crores. In addition to this, Rs.17.93 crores were provided for the centrally sponsored schemes. The above provision was for State level, Divisional level and District level plan schemes.

4.3 Budget provision for Sholapur district in respect of District level plan schemes for the year 1971-72 was of Rs. 332 lakhs. Out of this provision, about Rs.251 lakhs were under State sector and about Rs.81 lakhs were under Local sector. In respect of centrally sponsored schemes about Rs.43 lakhs were provided under state sector whereas the budget provision under local sector was of about Rs.46 lakhs. The following table indicates the expenditure incurred on major heads of development under State sector and Local sector with percentage of expenditure to total expenditure incurred both on state plan schemes and centrally sponsored schemes.

TABLE NO. 1.

(Rs. in lakhs)

Heads of Development	Expdr. during 1971-72			Total Expdr.	% of Expdr. to total Expdr.			
	State Plan schemes.	Centrally Sponsored schemes						
	State	Local	Total	State	Local	Total		
1	2	3	4	5	6	7	8	9

It will be seen from the above table that stress is given on schemes under Agril. programme as per object of the fourth five year plan.

The district level schemes are implemented through the implementing officers under state and local sectors. Expend. incurred by the M.S.E.B. has been included in state sector. The Local sector comprises of Zilla Parishad. Out of total expenditure incurred about 71 percent expenditure was incurred under State sector. Percentage of expenditure under local sector was about 29.

Some schemes are being implemented under important major heads such as Agril. programme and social services with the central assistance in recent times. Classification of such schemes has been, therefore, shown separately in the above table.

Minor headwise progress under major heads is given below:-

4.4 Agril. and allied programmes were assigned high priority in the Annual Plan of 1971-72. The strategy of emphasis on the use of hybrid and high yielding varieties of seeds, fertilizers and plant protection measures were vigorously pursued

during the year under review also. Attempts were made to increase area under irrigation by digging irrigation wells installing pumping sets on wells, Minor irrigation works such as irrigation tanks and bundharas were also assigned place of importance. In order to increase the moisture content of the soil and to protect soil from erosion the scheme of contour bunding was in progress.

Progress of expenditure, as compared to budget provision of minor heads under Agril. programme is shown below:-

TABLE NO. 2.

(Rs. in Lakhs)

Minor Head	Budget			Expdr.			Percentage of Expdr. to budget		
	S	L	T	S	L	T	S	L	T
Agril. product ion including land develop ment.	3.86	0.93	4.79	2.78	0.89	3.67	72	96	77
2.Minor irriga tion.	53.87	41.05	94.92	53.64	41.05	94.69	99	100	100
3.Soil Conserva tion.	55.95	-	55.95	50.38	-	50.38	90	-	90
4.Ayacut Develop ment.	0.70	-	0.70	0.59	-	0.59	84	-	84
5.Animal Husbandry	-	0.19	0.19	-	0.19	0.19	100	100	100
6.Dairy Development	0.31	-	0.31	0.33	-	0.33	106	-	106
7.Forest	0.32	-	0.32	0.32	-	0.32	100	-	100
8.Fisher ies.	0.20	-	0.20	0.17	-	0.17	85	-	85
9.Ware- housing & Market	1.00	-	1.00	1.02	-	1.02	102	-	102
Total:-	116.21	42.17	158.38	109.23	42.13	151.36	94	100	86

Note:- The figures are inclusive of data of centrally sponsored schemes as the expenditure incurred under centrally sponsored schemes is comparatively very less.

4.5 From the above table it is seen that against the total budget provision, grants to the extent of 86 percent were utilised under Agril. programme. More than 100 percent amount was spent on Dairy Development and Warehousing and Marketing. The Whole budget provision was utilised in the case of Minor irrigation, Animal Husbandary and Forest. Expenditure of State sector under Minor irrigation was 99%. Expenditure in respect of Agril. production, Soil Conservation, Ayacut development and Fisheries was less than 100 percent but more than 70 percent.

4.6 Agril. production including land Development.

Major schemes under this sub-head were plant protection and horticultural development. Against the target of 2.16 lakh Hect.s, area to the extent of 0.65 lakh hect.s was covered under the programme of plant protection. The plant protection measures consisted of seed treatment and field treatment. The scheme of horticultural development includes plantation of orchards. New plantation was done in about 40 hect.s during the year under reference. Other achievements in respect of some schemes under this programme are as under:-

TABLE NO.3.

Item	Unit	1971-72	
		Target	Achievement
1. Production of town compost.	Tonnes in lakhs.	0.55	0.54
2. Plots under simple fertilizer trials.	No.	144	110
3. Area brought under green manuring	Hect.	2000	101

4.7 Minor irrigation:- Activities covered under this programme were grant of subsidy for construction of new wells undertaken by cultivators by obtaining loan from Land Development Bank, grant of subsidy for purchase of pump set, construction of irrigation and percolation tanks and bndharas. Subsidy was granted in respect of 552 new irrigation wells and 129 pump sets. Six irrigation tanks were undertaken in state sector, Works of seven bndharas, 13 percolation tanks and 22 lift irrigation works were in progress in local sector.

In addition to above, six tanks were in progress under State sector and twenty nine works were undertaken in local sector under the centrally sponsored schemes known as Rural work programme undertaken in areas which are chronically prone to scarcity conditions due to inadequate and uneven rainfall.

4.8 Soil Conservation:- This programme consists of contour bunding, reclamation of saline, alkline and water logged lands and afforestation for soil conservation. Information regarding targets and achievements of the above programme is as under:-

TABLE NO. 4.

Item	Unit	1971-72	
		Target	Achievement
1	2	3	4
1. Area banded	Hect.in '000'	34	32
2. Reclamation of saline, alkline & water logged area	Hect.	505	83
3. Afforestation for Soil Conservation plantation.	-do-	20	20

One important scheme in this district which requires special mention, is centrally sponsored scheme of Integrated Dry Land Agril. Development at Mandrup introduced by Govt. of India. Objects of this scheme is to popularise and promote the adoption of the following principal constituents of the new technology in dry farming areas(1) Soil Management(2) Harvesting of water(3) New crop varieties and (4) Agronomic practices. Against the provision of Rs.1097 lakhs an amount of Rs.5.42 lakhs was spent the provision of Rs.1097 lakhs on the activities such as distribution of improved seeds, boring of irrigation wells, renovation of old wells, water harvesting etc.

4.9 Animal Husbandary:- Aid was given to four veterinary aid centres started previously.

4.10 Dairy Development:- Against the target of 10 thousand liters of handling of milk per day, 11 thousands liters of milk was handled per day under the scheme of Town milk supply scheme, Sholapur.

4.11 Physical achievements in case of schemes under the minor heads Forest, Fisheries and Warehousing and Marketing are as under:-

TABLE NO. 5

Item	Unit	1971-72	
		Target	Achievement
1. Plantation and pre-monsoon works(each)	Hect.	50	50
2. Stocking of fish	No.in Lakhs	8.00	3.77
3. Stocking of fish	Kg.in'000'	60.00	52.00
4. Fishery Coop. Societies assisted.	No.	6	1
5. Market yards assisted	No.	8	7

4.12 Cooperative & Community Development:- Minor Headwise budget provision and expenditure incurred under the above major head is given below:-

TABLE NO. 6

(Rs. in lakhs)

Major Head	1971-72						Percentage of		
	Budget			Expdr.			Expdr. to budget		
	S	L	T	S	L	T	S	L	T
1. Coop. ration	3.32	-	3.32	3.06	-	3.06	92	-	92
2. Community Development	-	11.19	11.19	-	11.00	11.00	-	98	98
Total:-	3.32	11.19	14.51	3.06	11.0	14.06	92	98	97

Note:- There was no centrally sponsored scheme under the above heads in the year under reference.

4.13 Cooperation:- Cooperative movement in the District embraces several economic activities such as agril. credit, distribution of inputs, agril. marketing, farming, consumer's stores, etc. The table below indicates performance under various schemes under this minor head.

TABLE NO. 7

Item.	Unit	1971-72	
		Target	Achievement
1. Credit societies assisted	No.	255	255
2. Marketing societies -do-	No.	4	4
3. Cooperative farming societies revitalized	No.	19	13
4. Consumer's stores assisted.	No.	3	4
5. Labour contract societies assisted.	No.	34	46

4.14 Community Development:- Major scheme under this programme was community development project. Entire district has already been covered under this programme. Grant-in-aids were given to all blocks for carrying out various development works such as construction of school buildings, drinking water wells, roads and other developmental activities. One hundred & sixty one community works were completed during the year under reference.

Applied Nutrition programme was in force in Karmala, Sangola, Pandharpur and Madha tahsils. This programme provides training and education to improve local diets, protection and preservation of protective foods and ensuring effective utilization of these foods by pregnant and lactating women, infants, pre-school and school children.

The scheme of composite programme for women and pre-school children was in force in South Sholapur, Mohol and Akkal kot Blocks, the object of which is also similar to that of Applied Nutrition programme in general. Nine hundred and ninety five women were trained under this programme.

4.15 Irrigation and Power:- The schemes at district level under this head are that of rural electrification and normal development (urban and rural) Against the provision of Rs.56.99 lakhs, an amount of Rs.68.58 lakhs was spent. Twenty nine villages were electrified. The percentage of villages electrified till the end of 1971-72 was 41.86. Emphasis was on giving connections to Agril. pumps. One thousand and forty agril. pumps were energised.

4.16 Industry and Mining:- Handloom is an important industry in this district. A provision of Rs.49.56 lakhs was made for development of handloom industry and the whole amount was spent during the year under reference- Physical achievements of the schemes covered under this programme are as under:-

TABLE NO. 8

Item	Unit	1970-71	
		Target	Achievement
1. Handloom units assisted	No.	191	191
2. Societies of handicrafts assisted.	No.	19	34
3. Loanees under S.A.I. Rules.	No.	Not fixed	159

4.17 Transport and Communication:- Two schemes, viz. District roads including roads of economic importance and roads under public participation were in operation. Out of the provision of Rs.14.21 lakhs, an amount of Rs.16.68 lakhs was spent. Physical achievements under the schemes are narrated below:-

TABLE NO. 9

Item	Unit	1970-71	
		Target	Achievement
1. Bridges constructed	No.	3	3
2. District roads constructed	Kms.	6.5	1.6
3. Improvement of roads	Kms.	26.00	22.00
4. Total C.D. works	No.	Not fixed	14
5. Village approach roads	Kms.	-do-	69

4.18 Social services:- Important programmes such as General and Technical Education, Health and Family Planning, Water supply and Drainage, Housing etc. were under-taken/this major head. The table below shows the budget provision, expdr. and percentage of expenditure to budget provision of various minor heads covered under this programme.

TABLE NO. 10.

(Rs.in lakhs)

Minor Heads	Budget			Expdr.			Percentage of Expdr. to budget		
	S	L	T	S	L	T	S	L	T
1.Gen.Edu.	30.71	25.00	55.71	30.00	24.93	54.93	98	100	99
2.Tech. Edu.	1.08	-	1.08	0.75	-	0.75	69	-	69
3.Health & Family planning	14.14	20.50	34.64	12.16	17.86	30.02	86	87	87
4.Water supply & drainage	14.50	13.45	27.95	14.08	13.45	27.53	97	100	98
5.Housing	2.08	0.28	2.36	2.07	0.28	2.35	100	100	100
6.Urban Dev.	-	-	-	-	-	-	-	-	-
7.Welfare of back ward class.	0.09	1.36	1.45	0.05	1.33	1.38	56	98	95
8.Social welfare	-	-	-	-	-	-	-	-	-
9.Labour & Labour welfare	0.61	-	0.61	1.60	-	1.60	262	-	262
Total:-	63.21	60.59	123.80	60.71	57.85	118.56	96	95	96

4.19 The above figures reveal that 96 percent amount of the budget grants under major head was utilised. Progress of Expdr. was satisfactory under General education, Water supply and drainage, Housing, Welfare of Backward classes and labour & labour welfare.

Comments on performance of minor heads are given

below:-

Note:- Figures are inclusive of data of centrally sponsored schemes)

4.20 General Education:- Fourteen and nine schemes were implemented in state sector and local sector respectively under this minor head. Some of the important schemes were expansion of primary education under which additional no. of primary teachers and Assistant Deputy Educational Inspectors were appointed to cope up with the increasing no. of pupils in primary schools every year. Grants were given to local bodies for construction of primary school buildings and also development of non Govt. secondary schools. The other important scheme which deserves special mention was educational concessions to economically backward class, students. Some schemes relating to primary and pre-primary training of teachers were also undertaken. Some of the important physical achievements of the schemes included under the above minor head are as under:-

TABLE NO. 11.

Item	Unit	1970-71	
		Target	Achievement
1. Non Govt. secondary schools developed & expanded	No.	14	12
2. Secondary school buildings constructed by Voluntary agencies.	No.	10	5
3. Students benefited in the age group of 6-14 in V to VII standard by way of free education	No.	1800	3087
4. Stipend to trainees of pre-primary teachers training	No. of trainees	64	11
5. School complex organised	No.	1	1

TABLE NO. 11 contd.

6. Beneficiary students under E.B.C concessions	No.	6300	6700
7. Additional primary teachers appointed.	No.	518	518
8. Primary school rooms constructed	No.	36	36
9. Scholarship in secondary schools	No.	150	150
10. Concession to children of primary teachers.	No.	Not fixed	2016

4.21 Technical Education:- Expenditure was incurred on consolidation of Govt. polytechniques. For this purpose grants in aids were given.

4.22 Health and Family Planning:- The scheme of expanding facilities in Civil and other Hospitals was in progress under which schemes such as construction of one ward in Civil hospital for additional beds and construction of staff quarters at Cottage Hospital, Karmala and Primary health centres were undertaken. To control communicable diseases such as Malaria and Small pox schemes were in operation with central assistance. Physical achievements of these centrally sponsored schemes are as under:-

TABLE NO.12.

Item	Unit	1971-72	
		T-target	Achievement
1. Blood smears of cases of Malaria collected and examined.	No. in lakhs	-	2.06
2. Small pox. a) Primary vaccination	-do-	0.96	1.17
b) Revaccination	-do-	1.77	3.91
3. Sterilization operations	No.	15750	20147
4. I.U.C.D.	No.	Not fixed	108

4.23 Water supply and drainage:- Four Municipal water supply schemes and one municipal drainage scheme were in progress. Thirty two piped water supply schemes were in progress in state and local sector. One hundred and five drinking water wells and 114 bore wells were completed and 543 well works were in progress in local sector.

4.24 Housing:- Under the scheme of Extension of village panchayats and provision of housing sites two villages were benefited. One society was assisted under subsidised industrial housing scheme. A new scheme for providing roof tiles to replace thatched hay roofs of huts in villages was introduced by the Zilla Parishad during the year under reference. Thirty two huts were covered by tiles under this scheme.

4.25 Welfare of backward classes:- In order to raise the social, educational and economic standards of backward class people's schemes of Educational and economic upliftment were undertaken. Important physical achievements of the schemes are as under:-

TABLE NO. 13.

Item	Unit	1971-72	
		Target	Achievement
1. Industrial cooperative societies assisted	No.	-	7
2. Individual assisted by way of share capital contribution	No.	50	13
3. Students benefited by scholarships, Tuition fees & examination fees.	No.	Not fixed	1271
4. Grants to hospitals	No.	-do-	3
5. Land developed	Hect.	-do-	10
6. Irrigation wells constructed/ repaired	No.	-do-	9
7. Beneficiaries of loan cum subsidy for industries professions	No.	-do-	105
8. Beneficiaries under housing aid.	No.	-do-	22

4.26 Labour and labour welfare:- Provision was made for appointment of staff, purchase of books for library and the expenditure was exceeded by 262 % as compared to the budget provision.

4.27 VII. Misc.:- Schemes of rural broadcasting was in operation under which 21 radio sets were installed against the target of 60 radio sets. The whole budgeted amount i.e Rs.27,000 was utilised.

STATISTICAL ABSTRACT OF SHOLAPUR
DISTRICT
1971-72

Contents

Statistical Abstract for the year 1971-72

Sr.No.of Table.	Subject	Page No.s
<u>I.</u>		
<u>Area and population</u>		
1.	Area and population in 1971 census	1
2.	Decadal variation in Population since 1951.	2
3.	Classification of villages according to population ranges in 1971 census	3
4.	Classification of towns, according to 1971 census.	4
5.	Number of workers & nonworkers according to 1971, Census	5
6.	Distribution of population according to (A) Age group, (B) Mother Tongue & (C) Religion <u>1961 census.</u>	7
7.	Scheduled Castes and Scheduled Tribes, according to 1971 Census	8
<u>II.</u>		
<u>Climate.</u>		
8.	No.of Rainy days and Total rainfall at selected centres	9
9.	Maximum and minimum Temperature at selected centres	12
<u>III.</u>		
<u>Agriculture</u>		
10.	Land Utilisation	13
11.	Area under different crops in each taluka	15
12.	Yield per hectare and outturn of principal crops	19
13.	Area irrigated by different sources in each taluka	20
14.	Area irrigated under different crops in each taluka	21

1	2	3
15.	No. of Irrigation wells in each taluka	24
16.	Minor irrigation works	25
17.	Major & medium irrigation projects	26
18.	Agricultural wage rates	28
19.	Agricultural Implements in each taluka	31
20.A	Famine, Scarcity & Akin to Scarcity data	32
20.B	Determination of precarious & and other scarcity areas according to History of scarcity.	34
IV.	<u>Animal Husbandary, Forest & Fisheries</u>	
21.	Livestock in each taluka	35
22.	Veterinary Statistics in each taluka	40
23.	Disease wise live stock Mortality	41
24.	No. of recognised slaughter houses and Animal slaughtered in each slaughter house.	42
25(a)	Forest Area in District	43
25(b)	Major and Minor, Forest products in District	
25(c)	Quantities of fish brought for curing, salt issued and fish removed	Not applicable.
V.	<u>Employment, Industry, Mining & Electricity</u>	
26.	No. of Factories & average daily employment of workers	44
27.	Industrywise distribution of working facoties according/working strength /to	48
28.	Distribution of factories according to No. of days worked	50
29.	Employment Exchange Statistics	52
30.	Occupational distribution of total Registration and placement in Employment exchange.	53

1	2	3
31.	Volume of Employment in different Industries	54
32.	Census of Govt. Employees(No.of persons employed).	55
33.	Census of Govt. Employees(No.of persons in each Deptt.)	56
34.	Statistics relating to Annual survey of Industries	57
35.	Consumption of Electricity	59
36.	No.of towns and villages Electrified and population covered	60
VI.	<u>Cooperation</u>	
37.	No.of different types of societies	61
38.	Statistics relating to Co-operative Banks	62
39.	Primary Agril. credit societies	63
40.	Other Cooperative societies of different types	65
41.	Operation of Central and Primary Cooperative marketing societies	67
42.	Operation of other cooperative societies of different types	69
