CHAPTER NO.1

INTRODUCTION

1.1 Location

Poona District lies between 17° 54' and 19° 24' North latitude and 73° 19' and 75° 10' East longitude. It is bounded on the North by Ahmednagar district; on the east by Ahmednagar and Sholapur districts and on the South by Sholapur and Satara districts; and on the West by Kolaba and Tehana districts. The area of the Dist. is about 15,600 sq.km. The main range of the Sahyadri runs along its western boundary. It lies in the Bhima and Nira Basin.

Topography

1.2 The main range of Sahyadri runs North and South for a length of about 117 km. The leading peaks in this range are Harishchandragad, Jivdhan, Dhak and Ahupe. The other system of hills includes the narrow ridges with flat tops that stretch eastwards and gradually sink into the plain.

Rivers

1.3 The main river of the district is the Bhima river, which has many tributaries. Approximate lengths of various rivers in

Poona district are given below:

| Sr. | Name of river | Length in km. |
|-----|---------------|---------------|
| 1. | Bhima | 344 |
| 2. | Ghod | 171 |
| 3. | Indrayani | 93 |
| 4. | Karha | 92 |
| 5. | Kukadi | 90 |
| 6. | Mula | 74 |
| 7. | Mula-Mutha | 64 |
| 8. | Pawana | 58 |
| 9. | Vol | 58 |
| 10. | Meena ? | 54 |
| 11. | Mutha | 52 |
| 12. | Gujawani | 48 |
| 13. | Pushpawati | 39 |
| 14. | Bhama | 59 |

The Bhima rises at Bhimshandkar in the Sahyadris in the west of the district and flows south-east through the central parts of the district. Its main tributaries are the Vol and Ghod.

on the left and the Bhana, the Indrayani, Mula, Mutha and Nira on the right. Kukadi and Meena are the tributaries of the Ghod; whereas Pushpawati and Pawana are respectively the feeders of Kukadi and Mula.

Soils

1.4 The soils of the district fall into three categories, viz. Black, red and brown. Black soil in layers of several feet deep is found in eastern parts of Khed, Sirur, Dhond and Purandhar talukas and the whole of Baramati and Indapur talukas. This soil is suitable for the rabi crops, such as wheat, gram, rabi jowar, and sugarcane., as it retains moisture for long time.

The brown coloured soil, commonly known as tambvat, is found in the eastern part of Khed and Haveli talukas and the western parts of Sirur, Dhond and Purandhar talukas. The soil is shallower and coarser than the black soils. If sufficient water is available, wheat, kharif jowar and kharif Bajari can be grown.

The red soil is found in Junnar, Ambegaon, Khed and Purandhar talukas. Bajari, groundnut and chillies are grown in this soil. Soil suitable for paddy is available in Mawal, Mulshi, Bhor and Velhe talukas and in western parts of Junnar, Ambegaon and Khed talukas. Minor cereals like Ragi, Vari are also grown in this soil.

The rich alluvial soil is deposited on the banks of the rivers Meena, Ghod, Bhi a, Mutha, Indrayani and Nira.

Minerals

1.5 The rocks in the district are hard and durable. They are, therefore, used as building stones, for macadam and tarred roads, and also as aggregates in cement concrete. Kankar and gypsum are found at a number of places, especially in the eastern part of the district. Kankar is used for lime burning. There are

no important mineral resources in the district.

Climate:

1.6 The district gets rain mostly from the south-west monsoons during the period ^{from} June to October. The ^aeastern-part of the district gets few erratic showers from the north-east monsoons.

The district can be divided into three regions according to annual rainfall. The western region, where there is heavy rainfall, comprises of Ambegaon, Bhor, Mawal, Mulshi, and Velhe talukas. Junnar, Khed, Haveli, Purandhar and Poona city talukas form the central region, having a fairly good rainfall. The lowest and uncertain rainfall is observed in the ^aeastern region constituted by Sirur, Dhond, ^aBaramati and Indapur talukas. The average rainfall varies from 4500mm in Lonvala region of Mawal taluka in the west to 750 mm in Poona area and less than 500 mm in Baramati, Indapur area. The degree of reliability of rainfall in ^aLonvala area is high, whereas that in Baramati and Poona area is moderate.

The Fact Finding Committee appointed by the Govt. of Bombay in 1960 had reported that rainfall is not dependable in the following areas and that they are likely to be affected by scarcity conditions frequently as detailed below:

| Grade | Estimated frequency of scarcity. | Area |
|-------|----------------------------------|---|
| A | Once in 3 years. | Sirur & Dhond talukas |
| B | Once in 6 years. | i) Northern part of Indapur taluka and part of Baramati taluka not protected by irrigation canals. ii) Eastern part of Purandhar taluka to the east of Rajewadi and Jejuri villages. iii) North east part of Haveli taluka. |

1.7 During the year 1971-72 , 437 villages in 3 tahsils were affected by chronic scarcity conditions and 77 villages in 4 tahsils were affected by conditions akin to scarcity. Total population affected by chronic scarcity and akin to scarcity conditions was 6,25,627 and 1,03,307 respectively. Thus total population affected was 7,33,934, which is about 40% of the total rural population in the district. Govt. have suspended collection of land revenue in 503 villages. In all 251 relief works were undertaken with a view to giving employment to the needy cultivators. Total employment on all these works was 45303 persons. In addition tagai loans of Rs.10,70,355/- were granted for purchase of fodder , bullocks etc. in the scarcity affected villages. The villages affected due to scarcity and akin to scarcity conditions during the last five year are given below:

| Year | No. of villages affected |
|---------|--------------------------|
| 1967-68 | 134 |
| 1968-69 | 41 |
| 1969-70 | 393 |
| 1970-71 | 386 |
| 1971-72 | 514 |

It will thus be seen that scarcity conditions were prevailing in the district from the year 1969-70. The position was more serious during 1971-72 as compared to earlier two years.

Territorial changes

1.8 During the decade of 1961-61, four villages from Ambegaon taluka were transferred to Junner taluka and 5 villages of Purandhar taluka to Bhor taluka.

Since 1947, the following changes took place: Bhinbhadi taluka was named as Baramati taluka after 1949. Petas of Ambegaon Dhond, Sirur, and Hulshi were raised to talukas in 1948-49. After the merger of former Indian State, a part of Bhor State was added to Poona district and one village was transferred to

Satara district. Taluka Bhor and Velhe mahal were thus newly formed in 1949. After 1961, Velhe mahal has been raised to full fledged taluka.

District Administration

1.9 The collector of the district, is in charge of general administration, law and order, land revenue and civil supplies of the district. The Collector is assisted by four Dy. Collectors, who are in charge of four sub-divisions, with head quarters, at Poona city, Khed, and Baramati. The district is divided into 14 talukas, now known as tahsils, for administrative purposes, each taluka being under the control of a Tahasildar.

The District and Sessions Judge is the head of the judicial department in the district. The Collector is the District Magistrate for the district except Poona City. The Resident Dy. Collector is the Additional District Magistrate, whereas, the Dy. Collectors and Tahsildars are also delegated with magisterial powers.

The District Superintendent of Police is in charge of the police force of the District except Poona city, where the Commissioner of Police is the head.

With a view to giving impetus to the development plans of the district and to promoting active participation of the people, Zilla Parishad at district level and Panchayat Samitis at Tahasil levels were formed in 1962. The area of operation of these local bodies extends to rural area of the district. The Chief Executive Officer, in the Indian Administrative Service cadre, is in charge of the general administration of the Zilla Parishad. He is assisted by various district heads of department. The Block Development Officers are in charge of Panchayat Samitis. Various departments, such as Agriculture, Animal Husban-

d-ry ,Minor Irrigation, Education, Social Welfare ,Public Health, etc. are under the control of the Zilla Parishad.

1.10 The following towns in the district have municipalities:-

1)Junnar ,2)Alandi,3) Sirur, 4)Lonvavala, 5)Talegaon, 6)Dhond, 7)Sasvad, 8)Jejuri, 9)Baramati, 10)Indapur, 11)Bhor,12)Pimpri-Chinchavad.

Poona city has a corporation. Cantonment Boards are also functioning at i)Poona camp ii)Kirkee iii)Dehuraod.

Public Bodies

1.11 The following public bodies are also functioning in Poona district:-

- a) Maharashtra State Electricity Board:- There are two Executive Engineers, and one Dy.Chief Engineer in charge for the district.
- b) Maharashtra State Road Transport Corporation:. The Divisional Controller is the head of the corporation for the district.
- c) Maharashtra Agro-Industrial Development Corporation .
- d)Maharashtra Industrial Development Corporation.
- e)Maharashtra Small Scale Industries Development Corporation.
- f)Maharashtra State Khadi and Village Industries Board- The District Organiser is working for the district.
- h)Maharashtra State Financial Corporation.: The office of the Regional Manager is functioning at Poona for Poona district.
- i)Maharashtra State Ware Housing Corporation: Poona district is one of the 3 district of Poona region covered by the corporation. Divisional Inspector is in charge of the division.
- j)Life Insurance Corporation of India.: The Divisional Office of the corporation looks after the work of 6 district(Ahmednagar, Poona, Aurangabad, Bhir,Nanded, Parbhani). Six branch offices under the control of Branch Managers,are functioning in Poona district.

1.12 Activities of Post are controlled by Sr. Superintendent of Post Offices and Sr. Superintendent of Railway Mail Service. The telegraph department and telephone department are under the control of Divisional Engineer and District Manager respectively.

In addition to the above, various Central Govt. Offices, viz. Southern Command Controller of Defence Accounts, Meteorological Department, Collectorate of Central Excise, Botanical Survey, Zoological Survey, National Chemical Laboratory, Overseas Communication service, National Sample Survey, Programme Evaluation Unit, etc. are situated at Poona.

Demography

1.13 The variation in population of Poona district since 1901 is as follows:

| <u>Year</u> | <u>Population</u> | <u>Rate of decade variation</u> |
|-------------|-------------------|---------------------------------|
| 1901 | 10,95,353 | - |
| 1911 | 11,77,233 | (+)7.43 |
| 1921 | 11,05,014 | (-)6.14 |
| 1931 | 12,75,382 | (+)15.46 |
| 1941 | 14,72,972 | (+)15.45 |
| 1951 | 19,50,976 | (+)32.45 |
| 1961 | 24,66,330 | (+)26.44 |
| 1971 | 31,73,029 | (+)28.60 |

It will be seen that the population of Poona district has increased by 28.60% during the decade 1961-71 as against the state average of 27.26 per cent and it ranks second in population size.

Literacy

| <u>Item</u> | <u>Population of literates</u> | <u>Percentage of literacy</u> |
|-------------|--------------------------------|-------------------------------|
| 1. Males | 9,25,970 | 56.4 |
| 2. Females | 4,36,601 | 31.8 |
| TOTAL | 14,12,571 | 44.5 |

Density:

Population per sq.km.in Poona District as per 1971 Census is 203, as against 153 during 1961 census, and the district is one of the four in the State having a density of more than 200 per sq.km.

Sex ratio:

There were 932 females per 1000 males as per 1971 Census. The ratio was 944 during 1961 Census.

Working population

Working population as per 1971 Census is given below:

| <u>Item</u> | <u>1971 Census</u> |
|------------------|--------------------|
| Total population | 3,78,029 |
| Total workers | 1,63,642 |
| Cultivators | 39,786 |
| Agril. labourers | 1,43,712 |
| Other workers | 49,424 |

Percentage of workers to total population during 1971 Census is 32.42 as against 42.69 during the earlier census. The

comparative statement of percentage of workers is given below:

| <u>Item</u> | <u>1961</u> | <u>1971</u> |
|--|-------------|-------------|
| 1. Percentage of total workers to total population | 42.69 | 33.74 |
| 2. Percentage of cultivators to total workers. | 52.94 | 37.64 |
| 3. Percentage of Agril. labourers to total workers | 9.29 | 13.53 |
| 4. Percentage of other workers to total workers | 37.77 | 48.83 |

The decrease in the percentage of workers in 1971 is due to change in the concept of "worker" adopted in 1971. As per 1961 definition, all those seasonal workers who have some regular work of more than one hour a day throughout the greater part of the season were treated as workers. In 1971, however, the persons who had worked in the current or last working season for the greater part of the season were treated as workers.

CHAPTER-II

Explanatory Note

Purpose and scope

2.1 This is the issue of the District Statistical Abstract of Poona District for the year 1971-72. The purpose behind publishing the abstract is to present background statistical material on as many socio-economic characteristics of Poona District, as is possible, so that the data may prove useful for reference for research, planning or for further socio-economic studies of the Dist.

The information is, to the extent possible, presented tahasilwise for inter-tahsil comparison.

2.2 The present abstract relates to the year 1971-72 and detailed data for the year 1971-72 are published wherever possible. In case the data for this year is not available, the data for the latest available year is published. Generally the data is published for the financial year 1971-72. The data on agriculture relates to the agricultural year, whereas the data on cooperation is for the cooperative year. The data on rainfall, temperature, civil and criminal cases is for the calendar years.

District at a glance

2.3 Important information on various items under different heads such as population, agriculture, cooperation, education, etc. pertaining to the Dist. is presented in this table along with the corresponding figures for Poona Division for comparison.

The tables in the District Statistical Abstract have been grouped in suitable groups. The concepts, and limitations adopted in the preparation of tables are summarised in the following paragraphs.

(1) Area and Population:

2.4 There are seven tables in this group and they relate to various aspects of population data. The data in six tables pertains to 1971 census and that in one table-population according to age group, mother tongue and religion, to 1961 census, as this information for 1971 is not available as yet. The definitions adopted are given below:

(a) Village- It is a statutorily recognised village having a defined boundary and separate land records. (b) Urban area. It is a place which has (i) a municipality, a cantonment or civil lines or (ii) a population of 5000 or over and at least three fourth or more male workers engaged in non-agricultural pursuits. These definitions, which were adopted for 1961 census were the same during 1971 census.

The definition of a worker during 1971 census was different from that adopted during 1961 census. During 1961 census, all those seasonal workers who had some regular work of more than one hour a day ^{throughout} the greater part of the season were treated as workers. The 1971 instructions however, stipulated that a person primarily engaged in household duties or those who were students and helped in family economic activity, but not on a full-time ^{scale} should be treated as non-workers in respect of ^{their} main activity. The figures of workers during 1971 census are not comparable with these during 1961 census, as the basic classification of workers and non-workers is in respect of main activity.

(2) Climate:

2.5 The rainfall data presented in table No.B gives rainfall, monthly rainfall and number of rainy days during the calendar year 1971, for the selected 13 centres in Poona Dist. A day was treated as a rainy day if during the twenty four hours the raingauge recorded a minimum of 2.5 mm. of rainfall. The table No.9 gives actual maximum and minimum temperatures recorded during each of the months of the calendar year 1971, in respect of 3 centres in Poona District.

(3) Agriculture

2.6 Important tahsilwise statistics on agriculture such as land utilisation, irrigation, area and outturn, etc. are given in this group. The data is given for the years 1959-70 and 1970-71. The data for the year 1969-70 has been obtained from the Department of Agril. whereas that for the year 1970-71 has been taken from the Inspector of Land records and the latter is provisional. Data presented gives tahasilwise figures of break-up of the total geographical area according to different types of land used (table No.10), area under different crops (table No.11) ,yield per hectare and outturn of principla crops (table No. 12) .Area irrigated by different sources (table No.13) area under different irrigated crops (table No.14).

The geographical area shown is according to village papers, calculated from village returns prepared for revenue purposes, and as such it may be different from that according to Surveyor General. Under "forests" are included all actually forested areas or lands classed or administered as forests under any legal enactment dealing with forests, whether state-owned or private. Land put to non agricultural uses stands for all lands occupied by buildings, roads, and railways or under rivers, canals, etc. and other land put to uses other than agricultural. All barren and uncultivable land like mountains, deserts, etc. is classified under "Barren and uncultivable land", ^{it} covers land which cannot be brought under cultivation unless at a high cost. Culturable waste lands, WHICH may be either fallow or covered with useless shrubs and jungles, include all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once, but not cultivated during the current year and the last five years or more in succession. Current fallow lands are lands which are kept fallow during the current year. All lands which were taken up for cultivation but are temporarily out of cultivation for a period not less than one year and not more than 5 years ^{are} classed as other fallow". Total of area under all crops including area under crops sown more than once is Gross cropped area.

2.7 Statistics regarding number of irrigation wells, minor irrigation works, major and medium irrigation projects are given in tables 15, 16, and 17. In table No. 18 are given agricultural wage rates at centres (i) Nira (ii) Bhigwan and

(iii) Ghodegaon. The data is collected by the District Statistical Office through the Block Statistical Asstts. Figures of agricultural implements enumerated during Xth livestock census are given in table No.19 . Tahsilwise data on famine and scarcity is given in tables 20-A and 20-B for the year 1971-72.

(4) Animal Husbandry and forest

2.8 Typewise population of livestock and ⁴poultry as per Xth Livestock census 1966 is shown tahasilwise in Table No. 21. Veterinary statistics such as veterinary hospitals/dispensaries/aid centres (both of Govt. and of local bodies), staff, animals/poultry treated is given in table no.22. Data on diseasewise livestock mortality is given in table No.23. Table No.24 gives data on animals slaughtered in recognised slaughter houses in the district during the year 1971-72.

2.9 The data on area under forest and major and minor forest produce for the year 1971-72 have been depicted in tables 25 (a) and 25(b) respectively. Area under forests under the control of state Revenue Department and under State Forest Department has been shown separately. These areas may not tally with the area under forest shown in table no.10 due to different concepts of classification of land adopted by these two departments. Forests are classified into (i) Reserved (ii) Protected and (iii) unclassed forests. Reserved forests are intended mainly for timber production and grazing/ cultivation is generally not allowed in them. Rights of grazing/cultivation under certain limitations and restrictions are allowed in protected forests. The unclassed forests refer to the inaccessible forest or unoccupied waste.

(5) Employment, industry and electricity

2.10 The statistics relating to working factories such as average daily employment, mandays worked, classification of factories according to working strength and number of days worked are given for the year 1971 in tables 26, 27 and 28. Monthwise registration, vacancies notified, placements done, number on live register at the end of each month, and other data of employment exchange have been shown in table no. 29 to 31. The data is for the year 1971-72. The results of the census of State Govt. employees conducted as on 1.7.1966 by the Bureau of Economics and Statistics, Bombay have been given in tables no. 32 & 33. The data presented in these tables are restricted to class I, II, III and IV employees of the State Govt., and do not cover any employees under work changed establishment or those paid from contingencies, daily rated workers, part-time workers or honorary workers.

2.11 Results of the Survey of Industries conducted in 1966 by the Bureau of Economics and Statistics are given in table no. 34.

2.12 Data on consumption of electricity and villages/towns electrified during the year 1971-72 are shown in table nos. 35 and 36. The data are collected from Maharashtra State Electricity Board and private electric supply companies in the Dist. Viz. (1) Junnar Electric Supply Co. (2) Thopte Electric Supply Co. (3) Lonavala =Khandala Electric Supply Co.

(6) Cooperation

2.13 Statistical information on the cooperative institutions and their activities has been given for the year 1971-72 on the following items (i) Different types of societies, (ii) Cooperative Banks (iii) Primary Agril. Credit Societies (iv) Central and Primary

Cooperative Marketing Societies. Tahasilwise data regarding number of members, capital structure, loans advanced and recovered etc. have been given. Working capital includes paid-up capital deposits and borrowings. Loans outstanding includes outstandings in respect of loans, cash credits and overdrafts and the amount of the outstanding bills purchased or discounted. Overdues refer to the amount of loans or instalments which was due for collection but which was not actually collected and for the repayment of which no extension has been granted by a competent authority. Such data in respect of various types of societies have been shown in tables Nos. ^{37,} 39, 40 and 42. Data on cooperative banks have been given in table No. 38. Tables Nos. 41 and 43 depict respectively information about cooperative marketing societies and regulated markets. Information of registered money lenders and loans advanced by them is given in table No. 44.

(7) Medical and Public Health

2.14 Table No. 45 gives tahsilwise data about number of hospitals, dispensariaries, maternity homes, primary health centres/units, doctors and nurses, beds and indoor and outdoor patients treated in the year 1971. The vital statistics on births and deaths registered are given in table no. 46. ~~Table~~ Table no. 47 gives the number of deaths due to important causes, during 1971. Table: no. 48 shows vaccination statistics and cholera inoculations during the year 1971. Information of tahasilwise family planning centres functioning, operations (both tubectomy ^{and vasectomy} and number of I.U.C.D. insertions) has been shown in table no. 49.

(8) Education

2.15 The table No. 50 gives number of literates and percentage of literacy, as per 1971 census. Only district

totals are shown. Tables numbering 51 and 52 give tahsilwise literacy, education in rural and urban areas as per 1961 census. The data for these tables according to 1971 census is not yet available. Table no.53 gives tahsilwise data (wherever possible) on the number of institutions, enrolments of students and teachers during the year 1971-72. This data pertains to pre-primary, primary and secondary schools and higher institutions in Poona District. In table No. 54, data on backward class beneficiaries has been shown. Information on beneficiaries and concessions granted to economically backward classes has been shown in table no.55. Expenditure incurred under normal and plan grants on primary education in the District is shown in table no.56.

(9) Transport and Communication

2.16 Statistical information relating to various modes of transport is given in this section. Length of railway route according to gauge is shown in table No. 57(A). The table No.58 gives road length according to category and surface classification. The figures show extra municipal roads maintained by Building and Communication Deptt. and by Zilla Parishad. Roads maintained by Mun. councils are also shown separately in this table. Motor vehicles in operation as on 31-3-1972 in poona Region covering Poona, Anagar Satara, Sholapur districts are shown in table No. 59. Important operational statistics relating to poona Division of Maharashtra state Road Transport Corporation are given in table No. 60. Results of traffic census conducted in May, 1970 on important roads in poona District are given in the table No. 61. Statistics on postal, telegraph and telephone facilities and on rural broadcasting are depicted respectively in the table Nos. 62 and 63.

(10) Local bodies:

2.17 Financial position of all the local bodies in Poona Dist. is shown in this section. Income and expenditure of all village Panchayats (tahsilwise) has been shown in the table No.65. Headwise receipts, govt.grants and expenditure of Zilla Parishad is shown in the tables numbers 66A,66B and 66C. Income and expenditure of Municipal Councils, Corporation and Cantonment Boards is shown in the table No.67.

(11) Plan and Community Development

2.18 Information on Plan expenditure under state and local sectors during 1971-72 and physical achievements in important fields are given respectively in the table No.68 and 69. Statistics in respect of coverage of C.D.Programme, stagewise expenditure of various blocks, and blockwise physical achievements under Community Development Programme are shown in the tables 70 to 72.

(12) Prices

2.19 The table No. 73 gives average wholesale prices of selected agricultural commodities as quoted in the Agril. Produce Market Committee in Poona Dist. The table No. 74 gives monthly average prices of important commodities at Poona City during the year 1971. The information has been collected from one fixed shop in Poona City for the selected commodities and is restricted to only one quotation, and as such the averages shown for individual commodities cannot be said to be fully representative; but the data may prove useful as broad indicator of the trend in changes in retail prices over the period of time. Consumer price indices for working class in Poona and Solapur are given in the subsequent two tables.

These index numbers are calculated with 1961 and 1960 as base years for the two centres respectively.

(13) Miscellaneous

2.20 Statistical data pertaining to police force, crime statistics, work disposed of in civil and criminal courts, cinemas, banking offices, joint stock companies, insurance policies, small savings, land revenue collections, general elections etc. are given in the tables in this section.

2.21 In table no.87, data on certain important topics has been presented for the years 1960-61, 1961-62, 1966-67, 1969-70, 1970-71 and 1971-72, with a view to giving a series of data for comparison. After this table, tables of selected indicators of development for each taluka of Poona Dist. on important items are inserted. These talukewise indicators will prove to be useful for comparison between talukas. They also show the place of the taluka in development in Poona District.

An Analytical Review of Sectorial Trends.

3.1 Tahsilwise data on various itmes has been presented in the part II of this issue, under the heading District Statistical Abstract. An attempt is made in this chapter to give a comparative picture of the thasils in the District during the years 1960-61, 1968-69, 1970-71 and 1971-72. These indicators will show the position of each tahsil during the above period. Wherever data are available, the position of Poona District has been compared with Poona Division.

Population

3.2 Population of Poona Dist. as per 1971 census is 31,78,029 as against 24,66,880 persons during 1961 census. Increase in population during the decade was 28.83 %. The population of Poona Dist. has increased by about 3 times, as compared to that during 1901. Poona Dist. stands at second place in Maharashtra state in case of population, whereas its rank in Poona Division is the first.

3.3 The decadal variations in population of tahsils are given in the sub-joined table.

Table No.1

Decadal variations in population of tahsils.

| Sr. No. (1) | Tahsil (2) | Population 1961 (3) | Population 1971 (4) | Percentage variation (5) |
|-------------|------------|---------------------|---------------------|--------------------------|
| 1 | Junnar | 171838 | 208474 | 21.32 |
| 2 | Ambegaon | 118756 | 139324 | 17.31 |
| 3 | Khed | 157228 | 197080 | 25.34 |
| 4 | Sirur | 132471 | 149668 | 12.98 |
| 5 | Mawal | 116469 | 151322 | 29.92 |
| 6 | Poonacity | 722518 | 1000414 | 38.46 |
| 7 | Haveli | 248904 | 365765 | 46.95 |
| 8 | Dhond | 23543 | 145398 | 13.43 |
| 9 | Mulshi | 80373 | 91641 | 14.01 |
| 10 | Velhe | 40084 | 40509 | 1.06 |
| 11 | Purandhar | 126584 | 150340 | 18.76 |
| 12 | Baramati | 173817 | 227707 | 31.00 |
| 13 | Indapur | 153919 | 196204 | 27.47 |
| 14 | Bhor | 95376 | 112773 | 19.28 |
| | | 2466880 | 3178029 | 28.83 |

It will be seen from the above tables that the percentage increase was the highest in Haveli Tahsil and the lowest in Velhe Tahsil. The percentage of decadal variation is higher for Poona District than that for Maharashtra State, for which it is 27.45

3.4 The density of population per sq.km. for Poona Dist. is 203 during 1971 census, as against 188 during 1961 census. In case of density Poona Dist. has secured third place in Maharashtra State, Kolhapur and Thana Districts respectively being at the 1st and II places. The density of Maharashtra State and Poona Division is respectively 164 and 174.

3.5 Percentage of literacy in Poona Dist. in comparison with Poona Division and Maharashtra State is given in table below:

Table No.2

Percentage of literacy as per 1971 Census

| (1) | Poona Dist. | Poona Div. | Maharashtra State |
|-------------------------------|-------------|------------|-------------------|
| (2) | (3) | (4) | (4) |
| <u>Percentage of literacy</u> | | | |
| <u>1961 Census</u> | | | |
| Male | 46.2 | 42.0 | 42.0 |
| Female | 21.7 | 16.1 | 16.8 |
| Total | 34.3 | 29.3 | 29.8 |
| <u>1971 Census</u> | | | |
| Male | 56.3 | 51.1 | 51.0 |
| Female | 32.1 | 24.6 | 26.4 |
| Total | 44.6 | 38.2 | 39.2 |

It will be seen from the above table that percentage of literacy in Poona Dist. is higher than that in Poona Div. and Maharashtra State.

Agriculture

3.6 It is interesting to study the developments in agricultural sector during the last 11 years. The year 1970-71 was the drought year. The development can be well studied with reference

to the following indicators viz. percentage of gross cropped area to net area sown, percentage of net irrigated area to net area sown and production of important crops.

3.7 Percentage of gross cropped area to net area sown in various tahsils of Poona dist. has been given in the following table.-

Table No.2

Percentage of gross cropped area to net area sown in Poona District.

| Tahsil (1) | Percentage of gross cropped area to net area sown. | | |
|---------------|--|----------------|----------------|
| | 1960-61 (2) | 1969-70 (3) | 1970-71 (4) |
| 1. Junnar | 107.79 | 108.20 | 107.60 |
| 2. Ambegaon | 112.92 | 107.10 | 109.17 |
| 3. Khed | 107.67 | 106.93 | 106.10 |
| 4. Sirur | 134.24 | 113.14 | 114.61 |
| 5. Mawal | 103.27 | 100.81 | 100.54 |
| 6. Poona City | 101.26 | 105.80 | 106.22 |
| 7. Haveli | 103.36 | 115.99 | 110.25 |
| 8. Dhond | 113.45 | 111.20 | 109.59 |
| 9. Mulshi | 101.72 | 102.77 | 104.05 |
| 10. Velhe | 101.66 | 100.56 | 100.55 |
| 11. Purandhar | 111.23 | 110.64 | 111.41 |
| 12. Baramati | 105.00 | 103.40 | 103.73 |
| 13. Indapur | 104.71 | 107.24 | 105.20 |
| 14. Bhor | 121.02 | 104.57 | 104.67 |
| TOTAL | 110.91 | 108.37 | 107.86 |

The gross cropped areas during the above three years were respectively 10,92,684, 10,94,692, and 11,11,671 hectares, which shows an increasing trend. This increasing trend is visible in case of Haveli, Mulshi and Baramati tahsils. The percentage of gross cropped area to net area sown in the dist. has gone down to 107.86 from 110.91 in 1960,61 and 108.37 during 1969-70. This is because of the scarcity conditions prevailing in the district in most of tahsils during the year 1970-71. More land has been brought under cultivation,

as will be seen from the figures of net area sown given below:

| Year | Net area sown in Hect. |
|---------|------------------------|
| 1960-61 | 9,85,219 |
| 1969-70 | 10,10,058 |
| 1970-71 | 10,30,623 |

But gross cropped area could not be increased at the same rate for want of adequate, irrigation facilities. The same area can be utilised for taking crops more than once, when irrigational facilities are available.

3.8 One of the main factors responsible for increasing agricultural production is irrigation. The indicator of percentage of net irrigated area to net area sown will be real picture of development of agriculture in this district. The following table gives the percentage of net irrigated area to net area sown in tahsils of Poona District:-

Table No.3

Percentage of net irrigated area to net area sown

| Tahsil | Percentage of net irrigated area to net area sown | | |
|---------------|---|---------|---------|
| | 1960-61 | 1969-70 | 1970-71 |
| (1) | (2) | (3) | (4) |
| 1. Junnar | 8.09 | 6.01 | 7.09 |
| 2. Ambegaon | 4.91 | 5.80 | 9.08 |
| 3. Khed | 4.57 | 4.24 | 3.20 |
| 4. Siur | 5.95 | 11.42 | 10.19 |
| 5. Mawal | 0.23 | 0.31 | 0.34 |
| 6. Poona city | 18.93 | 47.30 | 54.60 |
| 7. Haveli | 5.64 | 7.54 | 9.91 |
| 8. Dhond | 8.30 | 13.31 | 15.90 |
| 9. Mulshi | 0.66 | 1.19 | 1.42 |
| 10. Velhe | 0.03 | 0.38 | 2.39 |
| 11. Purandhar | 7.78 | 14.37 | 14.44 |
| 12. Bar amati | 32.12 | 30.13 | 35.59 |
| 13. Indapur | 27.45 | 16.98 | 22.82 |
| 14. Bhor | 2.44 | 1.33 | 1.36 |
| TOTAL | 10.35 | 10.16 | 12.05 |

From the above table it will be seen that the percentage of net irrigated area to net area sown has been increasing in

Purandhar, Ambegaon, Mawal, Poona City, Mulshi, Velhe, Haveli, :

and Dhond tahsils. Total net irrigated area of the Dist. during the years 1960-61, 1969-70 and 1970-71 is ^{to 2017,} 1,02,384 and 1,24,267 hectares respectively. It will also be revealed that there is still much scope to increase this percentage by tapping all the sources.

3.9 The percentage of gross cropped area to net area sown for Poona Division for the year 1970-71 is 104.91, as against 107.86 for Poona district. Also the percentage of net irrigated area to net sown for the year 1970-71 is 11.15 and 12.05 for Poona division and Poona dist. respectively.

3.10 Agricultural production is dependent on various factors such as natural conditions, input factors etc. In the following table are given yield rates and outturn of principle crops, for the years 1960-61, 1969-70 and 1970-71.

Table No. 4
Yield rates and outturn of principle crops.

| Crops | Yield in kg. per hectare | | | Outturn in hundred metric tonnes | | |
|------------------|--------------------------|--------------|--------------|----------------------------------|--------------|--------------|
| | 60-61 (2) | 69-70 (3) | 70-71 (4) | 60-61 (5) | 69-70 (6) | 70-71 (7) |
| 1. Rice | 1075 | 738 | 809 | 514 | 343 | 349 |
| 2. Jowar | 459 | 336 | 142 | 1269 | 1191 | 570 |
| 3. Bajara | 357 | 418 | 375 | 652 | 799 | 644 |
| 4. Gram | 326 | 291 | 209 | 87 | 47 | 32 |
| 5. total cereals | 484 | 410 | 287 | 2716 | 2612 | 1895 |
| 6. sugar cane | 2679 | 5947 | 7000 | 813 | 1060 | 1050 |
| 7. Ground nut | 976 | 839 | 1036 | 193 | 147 | 284 |

The above table shows that the yield rates are declining in the case of most of the crops during the year 1969-70, and 1970-71 as compared to those during the year 1960-61. This declining rate is due to scarcity conditions prevailing during these two years.

3.10 Cropping pattern of the district has undergone a considerable change during the last decade, as will be seen from the following table.—

Table No.5
Area under important crops in Poona District.
(Area in '00'hectres)

| Crops (1) | 1960-61 | | 1969-70 | | 1970-71 | |
|--------------------------|-------------|----------|-------------|----------|-------------|----------|
| | Area (2) | % (3) | Area (4) | % (5) | Area (6) | % (7) |
| 1. Rice | 521 | 4.8 | 465 | 4.2 | 439 | 3.9 |
| 2. Jowar | 4386 | 40.1 | 3547 | 32.4 | 3537 | 31.8 |
| 3. Bajari | 1806 | 16.5 | 1912 | 17.5 | 1759 | 15.8 |
| 4. Gram | 273 | 2.5 | 162 | 1.5 | 161 | 1.4 |
| 5. Total food grains | 7918 | 72.5 | 7037 | 64.3 | 6779 | 61.0 |
| 6. Sugar canel | 132 | 1.2 | 178 | 1.6 | 162 | 1.4 |
| 7. fruits and vegetables | 113 | 1.0 | 217 | 2.0 | 224 | 2.0 |
| 8. Cotton | 71 | 0.6 | 59 | 0.5 | 76 | 0.7 |
| 9. Groundnut | 228 | 2.1 | 175 | 1.6 | 275 | 2.5 |
| 10. Gross cropped area | 10927 | 100.0 | 10947 | 100.0 | 11117 | 100.0 |
| 11. net area sown. | 9852 | - | 10100 | - | 10306 | - |

From the above table it will be revealed that though the gross cropped area has shown an increasing trend, during this period, percentage of area under foodgrains has been reduced. General tendency of the agriculturists to take more cash crops is reflected in the increasing area under cash-crops such as sugarcane, groundnut and cotton. The percentage of area under food grains, which was 72.5 during 1960-61, has come down to 64.3 during 69-70 and to 61.0 during 1970-71.

3.11 Cooperatives play an important role in agricultural development. Loans are advanced through cooperative societies to the cultivators for purchase of seeds, fertilisers. The table given below gives particulars about agricultural credit facilities during the years under reference.—

Table No.6
Agricultural credit facilities available in Poona District.

| Item (1) | (Rs. in thousands) | | |
|---|--------------------|----------------|----------------|
| | 1960-61 (2) | 1970-71 (3) | 1971-72 (4) |
| 1. No. of agricultural credit societies | 851 | 895 | 892 |
| 2. No. of members | 106752 | 1165882 | 125462 |
| 3. Loans advanced Rs. in thousands | 28531 | 29847 | 38391 |
| 4. Loans outstanding Rs. in thousands | N.A. | 52932 | 52251 |
| 5. Overdues Rs. in thousands | NA | 26694 | 28265 |
| 6. Percentage of recovery | NA | 62 | 61 |

Number of agricultural credit societies has increased from 851 during 1960-61 to 892 during 1971-72. Number of members has also increased from 106752 to 125462 by about 17%. The percentage of membership to the number of cultivators as per 1971 census, was less than one. It is therefore possible to enroll more members in these societies. From the amount of loans advanced it is seen that members of the societies are taking full use of the facility. Average loan advanced per member works out to Rs.267/-, Rs.256/- and Rs.306/- during the above three years. It is also worthwhile to note that overdues are increasing, which cannot be considered to be a good indication.

3.12 Reviewing the tahsilwise position of agricultural credit it will be seen that the percentage of loans advanced in Baramati tahsil is about 55, and it is 18 percent in Indapur tahsil during the year 1971-72. This is because these tahsils have irrigated areas and have assured returns. Average of loan advanced to each member in these two tahsils comes to Rs.1493/- and Rs.585/- respectively in the year.

3.13 Wage rates

The data on agricultural wage rates are collected from three centres, viz. Ghodegaon, Nira and Bhgwan in Poona Dist.

The change in prices of essential commodities has direct effect on the agricultural wage rates. The average wage rates for the district have been worked out on the basis of the data and are shown in the table given below:

Table No.7

Agricultural wage rates (per day) in Poona District.

| Item (1) | 1963 (2) | 1969 (3) | 1970 (4) | 1971 (5) |
|----------------------------|-------------|-------------|-------------|-------------|
| <u>1. Skilled labour</u> | | | | |
| Carpenter | 3.23 | 5.00 | 5.62 | 6.22 |
| Blacksmith | 3.50 | 4.50 | 4.62 | 5.28 |
| Cobbler | 2.47 | 3.00 | 3.42 | 3.89 |
| <u>2. Unskilled labour</u> | | | | |
| Male | 1.47 | 2.46 | 2.41 | 2.56 |
| Female | 0.60 | 1.40 | 1.50 | 1.50 |

It will be seen from the above table that the wage rates of carpenters, blacksmiths and cobblers have increased during the year 1971, as compared to the earlier year, by about 10.7% ,14.3% and by 13.8% respectively. It is also revealed that wage rates are higher at Nira Centre, which is Kanai area and in the neighbourhood of Sugar factory.

Animal Husbandry

3.14 Livestock plays an important role in the economy of the state, since it is mainly useful for agriculture and also it provides subsidiary means of livelihood to the cultivators.

A comparative position of livestock during the year 1961, 1966 and 1972 (provisional) is given below:-

Table No.8

| Item (1) | 1961 (2) | 1966 (3) | 1972 (provisional) (4) |
|--------------------|-------------|-------------|---------------------------|
| 1. Total cattle | 7,41,596 | 6,81,996 | 6,37,568 |
| 2. Total Buffaloes | 1,49,414 | 1,50,127 | 1,61,239 |
| 3. Sheep | 3,20,030 | 2,99,976 | 3,06,257 |
| 4. Goats | 3,25,467 | 2,96,336 | 3,75,579 |
| 5. Poultry | 8,22,993 | 9,75,150 | 12,24,739 |

It will be observed from the above table that the population of cattle is declined during each census, while that of buffaloes has increased. Percentage of decrease in cattle population during 1961-66 was 8.0 whereas that during 1966-72 was 6.5. The increase in buffaloes during 1961-66 was negligible, whereas it was 7.4% during 1966-72. The population of sheep and goats was unstable during these three censuses, since it declined during 1966 and again increased during 1972 ^{Census}. The population of poultry has been found to be increased by 18.5% during 1961-66 and by 25.6% during 1966-72 period. The figures of livestock census of 1972 are provisional.

3.15. The position of livestock can be well reviewed by calculating indicators of milk animals per 100 persons and number of working bullocks per 100 hectares of gross cropped area. In the following table, the livestock population during 1966 has been compared with 1961 population and gross cropped area during 1970-71.

Table No. 9₁

| Distribution of milch animals & working bullocks. | | | | |
|---|----------------------|---------------------------------------|-------------------------|--|
| Tahsil | Total milch animals. | No. of milch animals per 100 persons. | No. of working bullocks | No. of working bullocks per 100 hectares of gross cropped area (70-71) |
| (1) | (2) | (3) | (4) | (5) |
| 1. Junnar | 10134 | 59 | 36266 | 35 |
| 2. Ambegaon | 8711 | 73 | 28324 | 40 |
| 3. Khed | 13792 | 88 | 36037 | 34 |
| 4. Sirur | 9269 | 70 | 29887 | 21 |
| 5. Mawal | 11936 | 102 | 20936 | 33 |
| 6. Pooña city | 6816 | -9 | 2336 | 168 |
| 7. Haveli | 15604 | 63 | 27304 | 32 |
| 8. Dhond | 6724 | 52 | 20445 | 22 |
| 9. Malsi | 8874 | 110 | 16369 | 29 |
| 10. Velhe | 5506 | 137 | 17005 | 24 |
| 11. Purandhar | 6314 | 50 | 22816 | 30 |
| 12. Baramati | 8566 | 49 | 23904 | 22 |
| 13. Indapur | 8374 | 54 | 20458 | 17 |
| 14. Bhor | 9493 | 99 | 13558 | 24 |
| TOTAL | 130113 | 53 | 305645 | 27 |

From the above table, it is observed that milch animals per 1000 persons for the district works out to 53 as against 68 for Poona Division. Within tahsils, it is seen that number of milch animals per 100 persons is 137 which is the maximum in the dist. in velhe tahsil, followed by 110 in Mulshi 102 in Mawal and 99 in Bor tahsil. This is due to obvious reasons that grazing area in large proportion are ~~was~~ available in these tahsils. There are 27 bullocks per 100 hect. of gross cropped area (1970-71) for Poona Dist. This ratio for Poona Div. also works out to 27. Thus a pair of bullocks has to cover about 8 hect. of land. Maximum work load has been observed on the bullocks in Indapur tahsil (17) followed by Sirur (21) Dhond (22) and Bar^{da}mati (22). In Inda ur, sirur and Dhond tahsils, which are frequently famine-stricken, cutltivators do not ^{afford} effort to maintain more number of bullocks.

3.16 During the year 1971-72, there were 65 veterinary facilities including hospitals, dispensaries and veterinary aid centres and 88 Veterinary doctors/Stockmen. Livestock population as per 1966 livestock census : : was 14,46,893. Number of livestock population per veterinary facility and per veterinary personnel works out to 22260 and 16442 respectively.

3.17 Number of poultry in Poona Dist. as per 1966 livestock census was 9,75,150. Number of birds per 1000 persons works out to 395. The ratio for Poona Div. is 394.

3.18 The employment exchange statistics is given below:

Table No. 10

Employment exchange statistics of Poona Dist.

| Item | 1960-61 | 1969-70 | 1970-71 | 1971-72 |
|--------------------|---------|---------|---------|---------|
| (1) | (2) | (3) | (4) | (5) |
| Registration | 38501 | 43643 | 37521 | 44163 |
| Vacancies notified | 8611 | 11590 | 7610 | 6166 |
| Placement | 3531 | 3927 | 2932 | 3748 |

In comparison with registrations during 1960-61, the registrations were nearly 15% higher during 1971-72. Number of vacancies notified had declined to 6166 during 1971-72, as compared to 8611 during 1960-61. Percentage of placements to total registration was 9.2 during 1960-61 as against ^{8.5} during 1971-72.

Electricity consumption

3.19 During the year 1960-61, there were only 26 villages and towns electrified, now during the year 1971-72, the number stands at 599. Upto the end of the year 1971-72, 576 villages have been electrified. The percentage of electrified villages to total number of villages works out to 38.4. The following table gives the consumption of electricity during various years:—

Table No. 11
Consumption of electricity in Poona district
(energy in '000 kwh.)

| Item (1) | 1960-61 (2) | 1970-71 (3) | 1971-72 (4) |
|---|----------------|----------------|----------------|
| Domestic use | 18181 | 47074 | 52848 |
| Industrial use | 33559 | 294246 | 304012 |
| Agricultural use | NA | NA | 55210 |
| Others | 52698 | 119715 | 96084 |
| Total consumption | 104438 | 461035 | 508154 |
| Per capita consumption of electricity in watts/H | 42 @ | 145* | 160 * |

Note: @ as per 1961 population census figures.
* as per 1971 population census figures.

The consumption of electricity during 1971-72 had increased by more than four times of that during 1960-61. The increase in the consumption during 1971-72 over the previous year was 10.2%. Per capita consumption of electrical energy was 42W/H during 1960-61 which rose to 145 during 1970-71. This increase in per capita consumption during 1971-72, over its previous year was by 10.3 per cent. Consumption of electricity for industrial purpose was nearly 32% during 1960-61. It was 63.8% and 59.8% during 1970-71 and 1971-72 respectively. During the year 1971-72, consumption

of electric power for agricultural purposes was 10.8%.

Medical and Public Health

3.20 During the year 1961, there were 53 hospitals/dispensaries, which rose to 81 during 1971. Number of persons per hospital/dispensary works out to 46545 during 1961 as per 1961 census. During 1971, number of persons per hospital/dispensary is 39235 as per 1971 census. Considering all the facilities such as health centres, Primary Health Centres/ Units, the population being served by each of the facility was 20055 during 1961 as per 1961 census. Their ratio was 13640 persons per facility during 1971, as per 1971 census. There were 341 doctors and 611 nurses during 1961, as against 483 doctors and 777 nurses during 1971. Average population being served by a doctor was 7234 persons during 1961 and 6580 persons during 1971. Similarly average population being served by a nurse was 4037 persons during 1961, as against 4090 persons during 1971.

It may be mentioned here that the medical facilities available at private hospitals/ dispensaries are not included in the above analysis. Details of number of beds, indoor and outdoor patients treated are given in the table below: -

Table No. 11

| Items (1) | 1961 (2) | 1970 (3) | 1971 (4) |
|--------------------------|-------------|-------------|-------------|
| Number of beds | 4244 | 3198 | 3795 |
| Indoor patients treated | 166043 | 996752 | 45062 |
| Outdoor patients treated | 1756031 | 1606922 | 1810698 |

Number of beds during 1971 increased by 18.6% as compared to the year 1970. Number of beds per lakh of population works out to 119, for the year 1971. The trend in number of indoor and outdoor patients treated is unstable.

3.21 During the reference period it is observed that deaths due to cholera and shall pox were practically nil. From table No.47, it will be seen that number of deaths due to T.B., pneumonia, dysentery and diarrhoea, and cancer were more during the year 1971 as compared to that in 1970. About 3.6%^{deaths} during 1971 were due to accidents. The percentage was 3.2 during 1970.

Education

3.22 The position of Primary Secondary and Higher education during the last decade is given below:

Table No.12

| Progress of Primary Education in Poona District | | | |
|---|----------------|----------------|----------------|
| Item (1) | 1960-61 (2) | 1969-70 (3) | 1970-71 (4) |
| <u>Primary Education</u> | | | |
| Institutions | 1877 | 2300 | 2739 |
| Pupils | 318175 | 455200 | 458900 |
| Teachers | 7496 | 11639 | 11860 |
| <u>Secondary Education</u> | | | |
| Institutions | 153 | 303 | 312 |
| Pupils | 63708 | 132357 | 136601 |
| Teachers | 2325 | 4716 | 4172 |
| <u>Higher Education</u> | | | |
| Institutions | 30 | 34 | 39 |
| Pupils | 13147 | 29914 | 32329 |
| Teachers | NA | NA | 1666 |
| (256-1961-62) | | | |

Number of primary schools have increased by 22.5% during 1969-70, as compared to those during 1960-61. This percentage was 45.9 during 1970-71. Number of pupils also increased during these two years by 43.7% and 44.2% respectively, as compared to the year 1960-61. The ratio of number of pupils per teacher was 42 during 1960-61. This declined to 39 during 1969-70 and down further to 38 during 1970-71.

Number of secondary schools was slightly more than double during 1970-71, in comparison with the year 1960-61.

Increase in number of pupils during 1969-70 and 1970-71 was by 107.7% and 114.4% respectively. On an average a teacher had to teach to about 27 boys during 1960-61. But during 1969-70 this ratio works out to 28 pupils whereas during 1970-71 it was 33 pupils per teacher.

Number of higher institutions has almost doubled during 1970-71, as compared to the year 1960-61. The percentage of pupils increased during the period was 146. On an average about 19 students were taught by a teacher in higher education in 1970-71.

Transport and Communication

2.23 There is no increase in railway length during the last decade, except that the railway route of 78 kms. was converted from narrow gauge to broad-gauge. The total road length has been shown below:

Table No.13

| Total road length in Poona district (in km) | | | |
|---|----------------|----------------|----------------|
| Item (1) | 1960-61 (2) | 1970-71 (3) | 1971-72 (4) |
| National Highway | 339 | 327 | 314 |
| State highway | 207 | 660 | 648 |
| Major dist.roads | 947 | 1224 | 1310 |
| Other roads | 1561 | 3718 | 4823 |
| Total length | 3054 | 5929 | 7095 |
| Cement concrete | 155 | 154 | 130 |
| Block topped | 631 | 652 | 654 |

The road length of 3054 kms. in 1960-61 has increased to 7095km. during 1971-72. The road length per 100 sq.km. area during 1960-61 was 19.5 km. During 1971-72 it was 45.3 km. per 100sq.km. area. The length of National Highway is almost unchanged. The State highways increased during 1971-72 by about 213%. Increase in major district roads was by 38.9%. There is no significant variation in lengths of cement concrete and blacktopped roads.

3.24 There were 166 bus routes of Maharashtra State Road Transport Corporation during 1960-61. The number increased to 337 during 1971-72. The route distance which was 11611 km increased to 24904 km. by about 114 % .Number of passengers travelled per day were 41200 during 1960-61 increased to 102461 during 1971-72.

3.25 Other facilities of communication have also increased as shown below:-

Table No.14

Other facilities of communication in Poona District.

| Item (1) | 1960-61 (2) | 1970-71 (3) | 1971-72 (4) |
|-----------------------------|----------------|----------------|----------------|
| Number of post offices | 240 | 542 | 551 |
| Number of telegraph offices | 54 | 87 | 89 |

During the period from 1960-61 to 1970-71 number of post offices increased by more than 3 times, whereas the telegraph offices increased by more than 60%. The population being served by a post Office and a telegraph office was respectively 10278, and 45683 during 1960-61. During 1971-72, on an average population of 5767 was being served by a post office and population of 35708 by a telegraph office. These figures will ^{reveal} that the facilities have expanded considerably.

Banking Offices

3.26 During the year 1960-61, there were only 63 banking offices in the district, serving the population of all dist. Population per banking office was 39157. There were 226 banking offices during 1969-70 and 232 offices during the year 1970-71. Population being served by these banking offices ^{during} 69-70 and 70-71 comes to 10915 and 10633 respectively. The whole population of the district as per 1961 census has been considered in this case.

Price index

3.27 The price index of consumer prices is calculated for Poona Centre with 1961 as the base period. General indices for Poona Centre for various years are given below:

| <u>Year</u> | <u>General consumer price index</u> |
|-------------|-------------------------------------|
| 1966-67 | 141 |
| 1967-68 | 154 |
| 1968-69 | 157 |
| 1969-70 | 163 |
| 1970-71 | 170 |
| 1971-72 | 176 |

The general index for the year 1966-67 shows 41% increase over the base year, 1961, whereas the increase is 76% during the year 1971-72.

Prices:

3.28 Since November 1962, prices of important commodities at District headquarter are being collected by this office. The average prices during the year 1963 and 1971 are given below:

Table No. 15

Average retail prices at Poona (Prices in Rs.)

| Item | Unit | 1963 | 1971 | % increase over 1963 |
|--------------------|-------|------|-------|----------------------|
| (1) | (2) | (3) | (4) | (5) |
| 1 Rice medium | Kg. | 0.84 | 1.17 | 39 |
| 2 Wheat | " | 0.57 | 1.20 | 140 |
| 3 Jawar | " | 0.51 | 0.98 | 92 |
| 4 Gram dal | " | 0.69 | 1.35 | 96 |
| 5 Tur dal | " | 0.94 | 1.98 | 111 |
| 6 Sugar | " | 1.18 | 2.00 | 69 |
| 7 Gyr | " | 0.78 | 1.55 | 99 |
| 8 Groundnut oil | " | 1.99 | 4.56 | 129 |
| 9 Vanaspati, loose | " | 3.00 | 5.51 | 84 |
| 10 Eggs | Doz. | 1.95 | 2.49 | 79 |
| 11 Chillies | Kg. | 3.00 | 5.26 | 75 |
| 12 Potato | " | 0.40 | 0.85 | 112 |
| 13 Plantains | Doz. | 0.47 | 0.73 | 66 |
| 14 Kerosene | Litre | 0.40 | 0.58 | 45 |
| 15 Shirting | Metre | 2.42 | 5.09 | 110 |
| 16 Brass | Kg. | 6.66 | 18.00 | 170 |

It will be revealed from the above table that prices of all the commodities have increased from 39% to 170% during the last 8 years. The commodities, prices of which have increased by more than 100% are wheat, Turdal, Groundnut oil, Potato, shirting and brass. Prices of Rice, which is a controlled item, and of kerosene have not increased by more than 50% over the prices in the year 1963.

CHAPTER-IV

Annual Plan Review 1971-72

4.1 The ⁴Forth Five Year Plan Period commenced from the year 1969-70 and the year 1971-72 was the third year of this plan. The budget provision for State Plan and Centrally Sponsored Schemes during the year 1969-70 was Rs.242.88 lakhs, against which an expenditure of Rs-228.93 lakhs (94%) was booked. During the year 1970-71, the budget provision was to the tune of Rs-246.92 lakhs and expenditure of Rs-246.19 lakhs. (almost 100%) was incurred on the state plan and centrally sponsored schemes. The budget provision for the year 1971-72 was Rs.434.45 lakhs, of which the budget provision of Rs.303.76 lakhs was earmarked for State Plan Schemes and remaining Rs-130.69 lakhs for the Centrally Sponsored schemes. The percentage of provision for the Centrally Sponsored Schemes, to the total provision was 30. The expenditure incurred during 1971-72, on the State Plan Schemes and the Centrally Sponsored schemes was Rs.342.84 lakhs (about 113% of budget provision) and Rs.123.41 lakhs (about 94% of budget provision) respectively. Total expenditure was Rs. 466.25 lakhs, giving the percentage of 107.3 to the budget provision.

4.3 Major headwise budget and expenditure on State Plan and Centrally Sponsored Schemes is given below:

Table No. 1

Major headwise expenditure in Poona District.
(Rs. in lakhs)

| Major head of development (1) | EXPENDITURE | | 1971-72 | | % of Expd. (6) |
|------------------------------------|----------------|----------------|----------------------------|----------------------------|-------------------------|
| | 1969-70 (2) | 1970-71 (3) | Budget (4) | Expd. (5) | |
| 1. Agricultural programme | 86.95 | 86.31 | 159.43 (62.00) | 168.30 (57.14) | 105.5 |
| 2. Cooperation and community deve. | 9.35 | 12.70 | 11.77 (0.88) | 10.91 (0.76) | 92.6 (86.3) |
| 3. Irrigation and power | 19.84 | 15.23 | 33.65 (-) | 53.87 (-) | 158.3 |
| 4. Industry & Mining | 0.54 | 2.04 | 1.69 (-) | 1.32 (-) | 107.7 |
| 5. Transport and communication | 13.08 | 22.72 | 16.59 (-) | 16.54 (-) | 99.7 |
| 6. Social Services | 99.06 | 106.13 | 298.13 (55.31) | 204.52 (55.31) | 103.2 (100.0) |
| 7. Miscellaneous | 0.11 | 0.46 | 13.19 (12.50) | 10.89 (10.20) | 82.6 (81.6) |
| TOTAL | 223.93 | 246.19 | 434.45 (130.69) | 466.25 (123.40) | 107.3 (94.4) |

Note: The figures in brackets shown in column 4 and 5 represent figures of budget and expenditure respectively for the centrally sponsored schemes.

It will be seen from the above table that the expenditure under (i) Cooperation and Community Development (92.6%) and (ii) Miscellaneous (82.6%) was not satisfactory. The expenditure on the State Plan Schemes had exceeded the budget grants. The expenditure on the Centrally Sponsored Schemes, was, however only 94.4% of the budget allotment. The budget for the year 1971-72 was slightly more than one and 1/2th times that for the earlier year. The expenditure incurred during 1971-72 corresponds approximately to total expenditure incurred during the years 1969-70 and 1970-71. Budget allotments under the major heads (i) Agricultural Programme and (ii) Social services had been increased considerably during the year under review, as

compared to those of 1969-70 and 1970-71.

Major headwise progress is discussed in the following paragraphs:-

I) Agricultural Programmes:

The sub-headwise expenditure during the year 1971-72 is shown below:

Table No.2

Sub-headwise expenditure under the major Agricultural programmes during 1971-72. (Rs. in lakhs)

| Sub-head (1) | State Sector | | Local Sector | | Total | | % to total expdr. (3) |
|-------------------------------|---------------------------|---------------------------|--------------------------|--------------------------|---------------------------|---------------------------|--------------------------|
| | B (2) | E (3) | B (4) | E (5) | B (6) | E (7) | |
| 2. Minor Irrigation | 1.21 | 1.65 | 7.72 | 5.94 | 8.93 | 7.59 | 4.5 |
| 2. Minor Irrigation | 42.71 (23.00) | 44.83 (23.00) | 49.00 (34.00) | 55.63 (29.14) | 91.71 (62.00) | 100.46 (57.14) | 59.8 |
| 3. Soil conservation | 44.25 | 40.96 | - | - | 44.25 | 40.96 | 24.3 |
| 4. Ayacut deve. | 4.66 | 4.56 | - | - | 4.66 | 4.56 | 2.7 |
| 5. Animal Husbandary | - | - | 0.24 | 0.24 | 0.24 | 0.24 | 0.1 |
| 6. Dairy Deve. | 8.55 | 12.94 | - | - | 8.55 | 12.94 | 7.7 |
| 7. Forests | 0.43 | 0.92 | - | - | 0.34 | 0.92 | 0.5 |
| 8. Fisheries | 0.34 | 0.31 | - | - | 0.34 | 0.31 | 0.2 |
| 9. Warehousing & marketing | 0.32 | 0.32 | - | - | 0.32 | 0.32 | 0.2 |
| Total Agril. programme | 102.47 (23.00) | 106.49 (23.00) | 56.96 (34.00) | 61.81 (29.14) | 159.43 (62.00) | 168.30 (57.14) | 100.0 |

Note: B= Budget E=Expenditure

Figures in bracket indicate budget and expenditure on Centrally Sponsored Schemes.

Under the major head of Agricultural Programmes, the

total budget provision was of Rs.159.43 lakhs, of which about 35% budget was allotted to the schemes under local sector and remaining to the State Sector Schemes. The budget grants allotted to the two sectors were more than fully utilised during the year 1971-72.

4.4 Agricultural Production

Under this subhead all are the State Plan Schemes. The expenditure incurred is about 85% of the budget allotment. Various schemes such as Taluka Seed farms, general horticultural development, Intensive cultivation of food crops, Integrated Area Development Programme are implemented. Physical achievements under the schemes are given below:

Table No.3

Physical achievements under the schemes of Agricultural Production.

| Item (1) | Unit (2) | 1971-72 | |
|--|-------------|---------------|--------------------|
| | | Target (3) | Achievement (4) |
| 1. Town compost | lakh m. ton | 0.92 | 0.94 |
| 2. Food grains distribution | quintals | NA | 1295 |
| 3. Green manure seed supplied | do. | 24.74 | 36.00 |
| 4- New plantation under horticultural development | Hect. | 121 | 100 |
| 5. Intensive cultivation of food crops (kharif) | lakh hect. | 3.09 | 1.63 |
| 6. Crop protection | do | 1.34 | 2.32 |
| 7. Works under integrated area development programme | | | |
| a) Lift irrigation | No. | 10 | 16 |
| b) Community Wells | No. | 4 | 4 |

4.5 Minor Irrigation:

The expenditure incurred exceeded the budget grants under both the State and Local Sectors. The schemes of subsidy to irrigation wells and agricultural pumps, and minor irrigation works are the schemes under the State Plan. The drought prone area programme (DPAP), implemented, under both the sectors, is the centrally sponsored scheme. This scheme had been implemented in Dhond and Sirur Tahsils, Northern part of Indapur tahsil, unirrigated tract of Baramati tahsil and in the eastern part beyond the railway line of Purandhar tahsil. The scheme envisages construction of minor irrigation works, soil conservation

measures and afforestation, with a view to minimising the severity of scarcity conditions in these areas. There is an allotment of nearly Rs.2 crore for this programme for Poona Dist. Physical achievements are given below:

Table No.4

Physical achievements under the schemes of minor irrigation.

| Item (1) | Unit (2) | 1971-72 | |
|-------------------------------------|-------------|---------------|--------------------|
| | | Target (3) | Achievement (4) |
| 1. Subsidy to new wells | No. | 1580 | 440 |
| 2. subsidy to pump sets | No. | 1440 | 145 |
| 3. percolation tanks | No. | 7 | 11 |
| 4. percolation tanks under D.P.A.P. | No. | 22 | 17 |

4.6 Soil Conservation

Out of the budget grants of Rs.44.25 lakhs, an expenditure of Rs.40.96 lakhs was incurred on the schemes under this sub-head. The percentage of expenditure was 92.5. Under this sub-head, all the schemes are of the State Plan and executed by the State sector. The schemes of soil conservation by contour bunding, nalla bunding and afforestation and reclamation of alkaline and saline lands are included. During the year under reference, an area of 9482 hectares was contour bunded against the target of 2400 hectares. Terracing in 130 hectares was completed, against the target of 579 hect. Both the achievements were far less as compared with the target.

4.7 Ayacut Development

Under all the State Plan Schemes, implemented in the state Sector of this sub-head, expenditure incurred was 97.8% of the budget provision. The Ayacut development programme taken up in the command area of Ghod Project, envisages various measures for removing obstacles to better and optimum utilisation of irrigational

potential. Under the scheme for the present the work of development of land had been undertaken. An area of 554 hect. was developed during this year. The achievement was about 34½ of the target of 1620 hect.

4.8 Animal Husbandry

Cent per cent expenditure had been booked on the scheme of provision of veterinary aid centre and dispensary, implemented in the local sector, under this sub-head. The expenditure was incurred on the construction of veterinary aid centre building at Pabal, on the pay and allowances of the staff and other contingent expenditure.

4.9 Dairy development

The expenditure has exceeded the budget allotment for the year 1971-72. There are only State Plan Schemes under this sub-head and all are implemented in the state sector. The main scheme is the Govt. Milk Supply Scheme at Poona, in addition to other supplementary schemes, under which financial assistance is granted to Milk Societies and their federations. Handling of milk per day in Govt. Milk Scheme at Poona had reached upto 52000 litres per day on an average, against the prescribed target of 62000 litres. Nine milk societies against the target of 12 soys. had taken benefit of the financial assistance, which was utilised by them for purchase of 224 milch cattle and three launches, for collecting milk in the villages surrounding Khadkwasla dam.

4.10 Forests

The scheme of plantation of general utility timber, implemented in the state sector is included under this sub-head. The expenditure is more than the budget. Plantation of such timber was done in 40 hect. of land and the target of 40 hect was fulfilled.

4.11 Fisheries

The expenditure incurred was 91.1 % of the budget allotment. Only State Plan Schemes are included under this sub-head and are executed by the State Sector. The Scheme of fish farming in impounded water was implemented under which 11.08 lakhs of fishes (target 9.00 lakhs) were stocked in various tanks. Also 1.01 lakhs of kg. of fishes were netted (target 0.80 lakhs of kg.) Under other schemes 386kg. of nylon yarn was supplied to fishermen for preparing fishing nets. The target of 367 kg. was exceeded. In addition two fishery cooperative societies, were granted financial assistance, thus fulfilling the target of 2 societies.

4.12 Warehousing and marketing

All the budget had been utilised, for the only one scheme of the State Plan. The Scheme envisages grant of loans and subsidy to marketing societies. During the year 1971-72, four marketing societies were granted subsidy (target 5soys.) The target for grant of loan was one society and it was achieved.

II. Cooperation and Community Development

4.13 The sub-headwise expenditure on the schemes of this major head is given below:

Table No. 5

| Sub-head | State sector | | Local sector | | Total | | % to total expdr. |
|----------------------------|----------------|----------------|-----------------|----------------|-----------------|-----------------|-------------------|
| | B | E | B | E | B | E | |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) |
| 1. Cooperation | 0.81 (0.02) | 1.18 (0.02) | - | - | 0.81 (0.02) | 1.18 (0.02) | 11.5 |
| 2. Community Devc. | - | - | 10.96 (0.86) | 9.73 (0.74) | 10.96 (0.86) | 9.73 (0.74) | 88.5 |
| Total Coop. and Comm. Dev. | 0.81 (0.02) | 1.18 (0.02) | 10.96 (0.86) | 9.73 (0.74) | 11.77 (0.88) | 10.91 (0.76) | 100.00 |

Note: B=Budget , E=Expenditure
 Figures in bracket indicate budget and
 expenditure on centrally sponsored schemes.

Under the major head, total budget provision was of Rs.11.77 lakhs, out of which Rs.0.81 lakhs, that is only 6.8%, were earmarked for schemes of the the cooperation. The remaining provision was allotted to the schemes of community development. The schemes of cooperation were implemented in the state sector and the expenditure incurred was more than the budget. The schemes of community development were implemented in the local sector and the expenditure incurred was 88.8 per cent of the budget provision.

4.14 Cooperation

Cooperatives play an important role in transforming the economy and in the upliftment of weaker sections of the community. The schemes such as grant of financial assistance to branches of central financing Agency, Cooperative farming, assistance to cooperative marketing societies, consumers cooperative stores and labour contract societies, included in the State Plan. only one scheme, viz. distribution of consumer articles in rural areas through marketing societies, is the centrally sponsored scheme. The physical achievements are shown below:

Table No. 6
 Physical achievements under the schemes of cooperation.

| Item (1) | Unit (2) | 1971-72 | |
|---|-------------|---------------|--------------------|
| | | Target (3) | Achievement (4) |
| 1. Marketing societies assisted | No. | 3 | 3 |
| 2. Farming Societies assisted | No. | 1 | 1 |
| 3. Cooperative consumer stores assisted | No. | 2 | 2 |
| 4. Labour contract societies assisted | No. | 8 | 7 |
| 5. Industrial coop.society assisted. | No. | 3 | 3 |

4.15 Community Development

The State Plan Scheme of Community Development programme is implemented in the local sector. All the Blocks are now in either stage-II or past stageII phases, and grants allotted by Govt. are limited. The other scheme of composite programme for women and children was started with a view to giving nourishing food to children between age group 3 to 6 and nursing mothers. This scheme was launched in Junnar Block. Four centres have been started. Two hundred and fourteen children against the target of 250 children took advantage of the scheme. The scheme of Applied Nutrition Programme, which is the Centrally Sponsored Scheme, was in operation in Khed, Sirur and Bhor Blocks. Under the scheme: 10 villages are selected in each Block. In all these villages cultivable land in the surroundings of the primary school is secured. The land is cultivated and fruits and food-crops, pulses grown in the land are to be utilised for serving a mid-day meal or a dish to the boys in the school. This is with a view to making use of available food-stuff to make delicious and nutritious food.

III-Irrigation and Power

4.16 The schemes of Rural Electrification and normal development, of the State Plan are included under this major head. The schemes are implemented through the Maharashtra State Electricity Board. The expenditure incurred during 1971-72 was Rs. 53.27 lakhs, against the budget of Rs. 33.65 lakhs. Due to inadequate budget provision at the disposal of the Maharashtra State Electricity Board, stress was given only on expansion of electrification in already electrified villages. During 1971-72 only two villages were electrified and 448 agricultural pumps were energised.

Targets were not fixed during the year.

IV Industry and Mining

4.17 Out of the budget provision of Rs.1.69 lakhs for the schemes under this major head, Rs.0.57 lakhs (23.7%) were allotted to the State Sector Schemes and the remaining to the schemes under the local sector. The expenditure incurred was Rs.0.71 lakhs and Rs.1.11 lakhs in the State Sector and Local Sector respectively. There are only State Plan Schemes under this major head. The important schemes are (i) grants of loans to individuals and industrial cooperatives and (ii) assistance to industrial cooperative societies. During the year 1971-72, the following achievements were made:-

Table No.7

Physical achievements under the schemes of Industry.

| Item (1) | Unit (2) | 1971-72 | |
|-------------------------------------|-------------|---------------|--------------------|
| | | Target (3) | Achievement (4) |
| 1. Handloom coop. soys. assisted | No. | 4 | 4 |
| 2. Industrial coop. assisted | No. | 10 | 10 |
| 3. Financial assistance to artisans | No. | 65 | 65 |

V-Transport and Communication

4.18 Road development is the sub-head under the major head "Transport and Communication". Out of the total budget provision of Rs.16.59 ; lakhs Rs.4.44 lakhs (26.8%) was earmarked to the state sector schemes and the remaining Rs.12.15 lakhs to the local sector schemes. The expenditure incurred by the two sectors was Rs.4.41 lakhs, and Rs.12.13 lakhs respectively. There is no centrally sponsored scheme under this sub-head. The schemes include construction of district roads, roads in hilly and inaccessible areas and village roads. The schemes aim at bringing every village within 6.44 km. of metalled road, and 3.41 km. of any road. Road length of 9.50 km. against

the target of 13km. was completed. Thirty cross drainage work on roads in hilly and inaccessible areas and 21 on roads in sugarcane areas were completed against target of 11 and 19 respectively.

VI-Social Services

4.19 Several measures have been initiated in this Plan, to improve the economic conditions of the weaker sections of the community. As a result, the plan allocations on the schemes under the major head of social services have been appreciably increased during 1971-72, as compared to that for the last year.

Sub-headwise budget and expenditure is shown in the table below:

Table No. 8

Sub-headwise expenditure under the major head Social Services during 1971-72 (Rs. in lakhs)

| Sub-head (1) | State sector | | Local sector | | Total | | %to total exptr. (8) |
|------------------------------------|---------------------------|---------------------------|--------------------------|--------------------------|---------------------------|---------------------------|----------------------------|
| | B (2) | E (3) | B (4) | E (5) | B (6) | E (7) | |
| 1. General education | 58.36 (0.12) | 68.26 (0.12) | 23.65 = | 23.69 - | 82.01 (0.12) | 91.95 (0.12) | 44.9 |
| 2. Technical education | 4.93 (1.50) | 4.11 (1.50) | - | - | 4.93 (1.50) | 4.11 (1.50) | 2.0 |
| 3. Health and family planning | 17.72 (9.72) | 17.67 (9.72) | 45.07 (40.87) | 44.95 (40.87) | 62.79 (50.59) | 62.62 (50.59) | 30.6 |
| 4. Water supply and drainage | 5.16 | 8.07 | 12.20 | 12.04 | 17.36 | 20.11 | 8.8 |
| 5. Housing | 13.91 | 10.78 | 0.15 | 0.14 | 14.06 | 10.92 | 5.3 |
| 6. Urban deve. | 5.00 | 5.00 | - | - | 5.00 | 5.00 | 2.5 |
| 7. Welfare of back ward classes | - | - | 3.94 (2.04) | 3.66 (2.04) | 3.94 (2.04) | 3.66 (2.04) | 1.9 |
| 8. Labour and labour welfare | 8.04 (1.06) | 6.15 (1.06) | - | - | 8.04 (1.06) | 6.15 (1.06) | 3.0 |
| Total social services | 113.12 (12.40) | 120.04 (12.40) | 85.01 (42.91) | 84.48 (42.91) | 198.13 (55.31) | 204.52 (55.31) | 100.0 |

Note: B=Budget E=Expenditure

Figures in bracket indicate budget and expenditure on centrally sponsored scheme.

Under the schemes of the major head "Social Services" total budget provision is Rs.198.13 lakhs. Out of this budget, Rs. 113.12 lakhs (57.1%) were allotted to the State Sector Schemes,

against which an expenditure of Rs.120.04 lakhs was booked. The remaining amount of Rs.35.01 lakhs was earmarked for the local sector schemes and an expenditure of Rs.34.43 lakhs was booked against this. The expenditure incurred in both the sectors is satisfactory. Out of the budget of Rs.198.13 lakhs for this major head, Rs.55.31 lakhs (27.9%) were provided for the Centrally Sponsored Schemes and all of this amount was fully spent.

4.2 General Education

The expenditure incurred on the schemes of this sub-head exceeded the budget provision. Important schemes under the State Plan include expansion of primary and secondary education concessions to primary teachers and their children, and grants for construction of buildings for primary and secondary schools. Appointment of Hindi teachers is the centrally sponsored scheme implemented in the district. It will be seen that about 45% of the total expenditure under the major head "Social Services" was incurred on the schemes of General Education, which shows the importance of the schemes under this sub-head. Physical achievements under the sub-head are given below:-

Table No.9

Physical achievements under the schemes of General Education.

| Item (1) | Unit (2) | 1971-72 | |
|---|-------------|---------------|--------------------|
| | | Target (3) | Achievement (4) |
| 1. Preprimary teachers trained. | No. | 32 | 20 |
| 2. Assistance to non-Govt. secondary schools. | No. | 16 | 16 |
| 3. Grants to institutions for const. of secondary school bl'gs. | No. | 14 | 5 |
| 4. Development of technical highschools | No. | 2 | 2 |
| 5. Concessions to sons and daughters of primary teachers. | No. | 2200 | 2200 |
| 6. Pupils benefitted by concessions under ERC. | No. | 14000 | 14000 |
| 7. Primary teachers appointed. | No. | 362 | 362 |
| 8. Rooms for primary schools. | No. | 43 | 43 |
| 9. Loans & scholarships to primary teachers. | No. | 231 | 153 |
| 10. Hindi teachers appointed. | No. | 4 | 4 |

It was observed that achievements under items 8 and 9 in the above table No. 9 were not satisfactory; since institutions and primary teachers did not come forward to take advantage of the facility of loan, which had to be repaid.

4.21 Technical Education

An expenditure of Rs.4.11 lakhs (33.4% of budget) was incurred on the schemes of this sub-head, against the budget of Rs.4.93 lakhs. All the schemes are in State Sector. The scheme of development of Government polytechnic of the State Plan is implemented. The scheme envisages construction of buildings, addition to the library and other contingent expenditure. The other scheme of provision of hostel facilities to Govt. engineering colleges and polytechnics, is the Centrally Sponsored Scheme. The construction works under both the schemes were not completed during 1971-72.

4.22. Health and Family Planning

All the provision under the sub-head was almost utilised. The schemes of Primary Health Centres, expansion of facilities in Aundh Chest Hospital and Occupational therapy practised at Yeravada Mental Hospital, are included in the State Plan. The Centrally Sponsored Schemes included, family Planning and family planning centre-buildings, eradication of malaria and small pox, and cholera control. The schemes are under execution in both State and Local Sectors. The achievements under the above various schemes are given below:

Table No.10

Physical achievements under the schemes of health and family Planning:

| Item | Unit | 1971-72 | |
|---|----------|---------|-------------|
| | | Target | Achievement |
| 1-Blood smears examined for malaria | Lakh no. | NA | 1.73 |
| 2 Family Planning operations | No. | 13232 | 29075 |
| 3. Leprosy cases treated | No. | NA | 2514 |
| 4. Family Planning subcentres bldg. No. | No. | 12 | 4 |
| 5. Small pox vaccinations | Lakh No. | 7.69 | 2.32 |
| 6. Cholera inoculations | do | NA | 1.80 |

The achievements of family planning operations :
during 1971-72 were slightly more than double the target fixed.

4.23. Water Supply and Drainage

Against the provision of Rs.17.36 crs. expenditure of Rs.20.11 lakhs had been incurred. The schemes for Govt. water supply, Municipal water supply and Rural piped water supply were implemented in the district. Water Supply Schemes at 1)Dhond 2)Indapur 3)Mulshi 4)Uruli-Kanchan . . . 5)Talwade 6) Donde 7)Pabal 8)Nimbut and 9) Loni Kalbhori were taken up in hand. The schemes at 1)Bhor 2)Bawada 3)Talegaon Dabhade 4)Talegaon Dhandhore and 5)Ghodegaon were in preliminary stages. The scheme of providing drinking water by simple measures, that is by wells, was in operation. Under the scheme, 260 wells against the target of 997 wells were renovated and 12 new wells were constructed against the target of 647 wells.

4.24 Housing

The expenditure incurred on the schemes of this sub-head is only 77.6 % of the budget provision . There are only State Plan Schemes such as housing for low and medium income groups , slum clearance, extension of village panchayat. The scheme of replacement of thatched roofs by tiled roofs was introduced from the year 1971-72. The construction works of 96 tenements at chinchwad and 64 at Hadapsar was completed. Under Slum clearance, construction of 216 tenements was undertaken and 32 tenements were completed. Under the scheme of replacement of thatched roofs by tiled roofs , 20 beneficiaries were benefitted, against the target of 20 persons.

4.25 Urban Development

Cent per cent financial achievement was observed under the sub-head. Under the scheme of financial assistance to municipal councils for implementation

of development plans, only one municipal council had taken benefit.

4.26 Welfare of backward classes

The percentage of expenditure on the schemes under the sub-head was 92.9. Schemes such as educational concessions, irrigation wells, agricultural implements, industrial cooperative societies, for the benefit of persons of scheduled caste/tribes are out of the State Plan Schemes. The schemes of educational concessions to vinukta jatis and tribal development blocks are the centrally sponsored schemes. The expenditure incurred on all the schemes of welfare of backward classes during 1971-72 was only Rs.3.66 lakhs, which works out to 1.9 per cent of the total expenditure of Rs.204.52 lakhs incurred under "Social Services". The per centage of the expenditure on schemes for welfare of backward classes was less than one per cent of the total plan expenditure, The physical achievements are given below:

Table No.11

Physical achievements under the schemes of welfare of backward classes.

| Item (1) | Unit (2) | 1971-72 | |
|--|-------------|---------------|--------------------|
| | | Target (3) | Achievement (4) |
| 1. Pupils benefited by education concessions | No. | 763 | 790 |
| 2. Grants to hostels | No. | 13 | 13 |
| 3. Cultivators benefited by improved implements. | No. | 23 | 23 |
| 4. Development of land of Backward classes | Acres | 20 | 15 |
| 5. Irrigation wells of B.C. | No. | 7 | 6 |
| 6. Beneficiaries under assistance for housing | No. | 41 | 41 |
| 7. Educational concessions to vinukta jatis. | No. | 150 | 150 |

Tribal Development Blocks are functioning at Junnar and Ambegaon Blokes.

4.27 Labour and Labour Welfare

The per centage of expenditure is just 76.5 of budget allotment. The scheme of apprenticeship training is under the State Plan. Under the scheme of pre-professional training centre, a centrally sponsored scheme, one centre was started during the year, as per target-.

VII Miscellaneous

4.28 Sectorwise expenditure on the schemes under miscellaneous is given in the table below:

Table No.12
Sectorwise expenditure under the major head miscellaneous during 1971-72

| Sector (1) | 1971-72 | |
|---------------|--------------------------------|--------------------------------|
| | Budget (2) | Expenditure (3) |
| State | 0.69 | 0.69 |
| Local | 12.50 (12.50) | 10.20 (10.20) |
| Total. | 13.19 (12.50) | 10.89 (10.20) |

Note: The figures in bracket indicate budget/ expenditure on Centrally Sponsored Scheme.

Under the scheme of Rural Broadcasting, under State Plan, Radio sets are supplied to village Panchayats. During 1971-72, 65 radio sets were installed against the target of 30 sets. The Crash Scheme for Rural Employment, is the Centrally Sponsored Scheme, being implemented in Khed., Junnar and Ambegaon Blocks. The scheme envisages undertaking construction works of labour intensive itmes, such as percolation tanks, roads, and to give employment to needy persons. The works of 5 percolation tanks and 52 roads, have been approved by Central Govt. against which 12 road-works were so far completed. Target for the year was of 25 roads.

General

4.29 The fourth five year plan was implemented from 1.4.1969 and the year 1971-72 is the third year of the plan. Since this is the middle year of the plan, the figures of 1971 population census have been utilised to work out per capita plan expenditure during the three years of the IV Five year Plan.

Table No.13

Per capita plan expenditure in Poona

| Year (1) | Expenditure (Rs-in lakhs) (2) | Per capita expendr. Rs (3) | Per capita State income at current prices. Rs (4) |
|-------------|-------------------------------------|-------------------------------------|--|
| 1969-70 | 223.93 | 7.2 | 752 |
| 1970-71 | 246.19 | 7.7 | 775 |
| 1971-72 | 466.25 | 14.7 | 303 |

(Note: Per capita state income is given as published in the Maharashtra-An Economic Review 1972-73)

It will be seen that the per capita expenditure during 1971-72 had doubled to that during the first two years of the fourth five year plan, when the figures of per capita expenditure are compared with per capita state income, it will be revealed that hardly one per cent of the per capita state income was utilised on District Level Schemes in Poona District. The per centage was less than 2 during 1971-72.
