CHAPTER I
INTRODUCTION

BACKGROUND :

1.1 Ahmednagar popularly known as Nagar, is the seat of district administration of Ahmednagar district and is situated on the bank of river 'Sina'. Ahmednagar district has rich historical, philosophical, political, cultural and religious background since ancient time and even in the recent days the district is on the forefront of co-operative movement. Saints like Dnyaneshwar, Eknath and Changadeo, who provided spiritual leadership to the people through their unique contributions hailed from this district. Similarly historical personalities like, Chand-bibi, Shahaji Raje, Malik-Ambar etc. have added to the glory of the area of this district. Ahmednagar town was founded in the year 1490 and till 1630, it was the main centre of administration of Southern India. The famous fort of Ahmednagar was associated with 1942 'Quit India' movement when the national leaders were detained in the fort. The present Ahmednagar district came into being in the year 1818.

LOCATION :

1.2 Ahmednagar district is located in the central part of Maharashtra between 18.2 degrees to 19.9 degrees, north latitude and 73.9 degrees to 75.5 degrees east longitude. The district is surrounded by Aurangabad and Nasik districts on the north, by Bhir and Osmanabad districts on the east, Poona and Thana districts on south west and Sholapur district on the south. Ahmednagar district with 17,035 Sq. Kms. is the biggest district in area in Poona Division and the second in Maharashtra first being Chandrapur district from Nagpur division.

TOPOGRAPHY : (a) Soil :

1.3 The district is situated on the Deccan plateau. Soil of the district is generally found responsive and fertile except...
(Contd)...

the hilly areas of Akola tehsil and some portion of the plains which have suffered heavy soil erosion. The soil of Ahmednagar district can broadly be classified into the following five categories, 1) Deep black Soil of Kopergaon, Shrirampur and Rahuri Tehsils with rich perennial water system, on account of which this areas has been selected for Mahatma Jyotiba Phule Agricultural University and Sugar Factories are located.

2) Red Soil of western and hilly areas of Akola tehsil.

3) Laterite.

4) Barad or gray inferior quality soil.

5) White popularly known as 'Pandhari'

1.4 The southern part of the district covering the tehsils of Ahmednagar, Parner, Shrigonda and Karjat consists of plain lands with poor and shallow soil. In the south west the soil of Jamkhed tehsil is light with poor fertility.

b) Rivers

1.5 The Godavari and Bhima are the major rivers of Ahmednagar district. The Godavari flows along the north eastern boundary of the district through the tehsils of Shrirampur, Newasa and Shevgaon. The Pravara is a tributary of the Godavari passing through Akola, Sangamner, Shrirampur, Kopergaon and Newasa, tehsils. The Pravara originates in Akola tehsil and further joins the Godavari in Newasa tehsil. The Bhandardara dam on the Pravara was constructed in the ^{year} 1926 and has become in the recent years tourists attraction. The Mula, Adhala, Mahalungi are the important tributaries of the Pravara. The southern area of the district comprising of Parner, Ahmednagar, Pathardi, Shrigonda and Karjat tehsils lies in the Bhima basin with the rivers Sina, Kukadi and Ghod the tributaries of the Bhima which flows nearly 56 Km. a along the boundaries of Poona and Ahmednagar district.

1.6 XXX In the following table information regarding the names of rivers their length and talukas in which they flow is given.

TABLE NO. 1

Names of the rivers in AHMEDNAGAR DISTRICT

Sr.No.	Name of river	Perennial or Seasonal	Length in Km.	Tahsils in which flows.
1.	Pravara	Perennial	200	Newasa, Akola, Sanganner, Shrirampur, part of Rahuri.
2.	Adhala	Seasonal	48	Akola, Sanganner.
3.	Mahalungi	-do-	13	Sanganner.
4.	Kalu	-do-	35	Parner.
5.	Kapari	-do-	35	Parner & Ahmednagar
6.	Hanga	-do-	65	Parner & Shrigonda.
7.	Sina	-do-	120	Nagar, Jankhed, Karjat partly.
8.	Mehkari	-do-	32	Ahmednagar.
9.	Ghod	Perennial	70	Shrigonda.
10.	Kukadi	Seasonal	28	Parner, partly
11.	Khamapari	-do-	22	Karjat.
12.	Dhor	-do-	70	Shevgaon.
13.	Simphana	-do-	23	Shevgaon.
14.	Deo	-do-	33	Shrigonda.
15.	Redi	-do-	17	Shevgaon
16.	Kas	-do-	23	Sanganner.
17.	Deo	-do-	13	Rahuri.
18.	Bhima	Perennial	36	Shrigonda, Karjat.
19.	Godevari	-do-	176	Kopergaon, Shrirampur, Newasa, Shevgaon border.
20.	Mula	-do-	150	Akola, Sanganner, Parner, Rahuri.

(c) Hill Ranges : 1.7 : The main Sahyadri range touches Akola Tehsil in the western part. From this main range three spurs namely i) Kalsubai, ii) Baleshwar and iii) Harishchandragad spurt out. Kalsubai is the highest peak of Sahyadri (1654 meters) and it serves as water shed between the Dharna and the Pravara rivers. Harishchandragad is 96 Km. long and its branches run from Ratangad, serving the water shed between the Pravara and Mula rivers. The Baleshwar range is the largest and demarcates ...

= 3 =

(contd)...

the boundary of Purna and Ahmednagar districts. On entering into Parner tehsil, the Baleshwar has two sub-branches one going through north of Nagar town and forms watershed between the Godawari and Bhima and another turning southwards across the north-east corner of Shrigonda tehsil and enters Karjat tehsil.

(d) Minerals : 1.8 : There are no mineral deposits located in Ahmednagar district except limestone in Parner tehsil.

Climate : 1.9 (a) Rain-fall : Ahmednagar district gets rain mainly from south-west monsoon but the distribution of rainfall is mostly uneven. It is concentrated and adequate in the western Part of Akola tehsil, whereas rains in the Southern part, are most erratic. The normal rainfall at tehsil head-quarter varies between 500 m.m. to 700 m.m. approximately.

1.10 Ahmednagar district can be divided into the following three zones according to the rain fall at tehsil head quarters:-

i) Zone - I : Northern part comprising of Kopergaon, Akola, Sangamner Rahuri and Shrirampur Tehsils.

ii) Zone - II : Consisting south eastern part including tehsils of Shevgaon, Nagar, Pathardi, Newasa and Jankhed.

iii) Zone III : Consisting of Karjat, Shrigonda and Parner tehsils.

1.11 : The following table gives idea about the annual rainfall during 1971 and 1972 and its percentage to the normal rainfall for the representative centres from the above three zones.

TABLE NO. 2

Rain-fall in selected centres of Ahmednagar District.

Period	Normal rainfall:	Annual rain fall:		Percentage to	
	in m.m.	1971	1972	1971	1972

Monsoon (Jun.-Sept.)	414.2	400.5	171.0	96.69	41.28
Post Monsoon (Oct.-Nov.)	98.8	81.2	38.0	82.19	38.46
Winter (Dec.-Mar.)	16.2	-	-	-	-
Pre-Monsoon (Apr.-May.)	27.7	15.0	59.0	54.15	213.00
TOTAL	556.9	496.7	268.0	89.19	48.12

(N.A. Means Not Available)

1.12 From the above table it will be seen that in the year 1971 rainfall in general in the three zones was rather satisfactory, (above 70 percent of normal rainfall). However there was no rainfall in winter & premonsoon period in Sangamner and in the winter season at Karjat and Nagar centres and also in 1972. Further the rain in post monsoon season in 1972 at Sangamner and Ahmednagar centres was very much scanty. It was not timely and evenly distributed, which has resulted into prevalence of Scarcity conditions in the entire district as there was loss to crops.

(Contd)...

b) TEMPERATURE :

1.13 Ahmednagar district is situated on the deccan plateau and as such climate is generally dry and pleasant during the greater part of year. The temperature data is available for Nagar town only and according to which maximum temperature of 42.1° c. was recorded in May-1972, whereas minimum temperature of 7.4° c. was recorded in February 1972. Maximum and minimum temperature at Ahmednagar Centre varied from 34.2° c. to 42.1° c. and 7.4° c. to 20.7° c. respectively in the year 1972.

NATURAL ZONES : 1.14 : Ahmednagar district can be divided into following natural zones according to topography and climatic conditions. Zone I comprises of Mulshi tehsil which is different from all other tesils of the district. Its western part is hilly and full of forest. It receives heavy rain and Kahrif crops are sown. Zone II consists of Nagar, Sangamner, Parner, Shrigonda and Karjat tehsils comprising about 48 percent of area. This zone receives very low rainfall and is mainly a scarcity tract. Third zone consists of Kopergaon, Shrirampur and Rahuri tehsils receiving low rainfall but due to development of cannal irrigation system Sugar factories are located in this area. The soil of the zone is very rich and fertile. Zone IV comprises of Jamkhed, Shevgaon, Pathardi and Newasa tehsils, receiving regular rain and soil of Newasa and Shevgaon is fertile.

FAMINE AND SCARCITY : 1.15 : As stated earlier, rainfall in this district is erratic and as such the entire district was declared scarcity area in 72-73 for the third year in succession. On account of severe scarcity conditions, the entire administrative machinery in the district was geared up to meet this challenge on war-footing. Some important Statistics are given below.

(Contd)...

TABLE NO. 3

Scarcity conditions in AHMEDNAGAR DISTRICT.

Sr. No.	I	T	E	M	1970-71	1971-72	1972-73
					3	4	5

5.	No. of cattle camps.				-	-	4
6.	Cattle attendance (Average)				-	-	9,000
7.	Expenditure on scarcity (Rs. in lakh)				7.00	275.00	872.00
8.	Tagai for seed, fertilisers, electric pumps (Rs. in lakh)				16.00	15.00	50.00
9.	Fodder tagai (Rs. in lakh)				-	-	46.00
10.	Fodder distributed (Rs. in '000')				-	-	1,736
11.	a) Expenditure on dol (Rs. in lakh)				-	-	40.00
	b) Beneficiaries				-	-	20,250
12.	Special staff working				-	-	1,147

DISTRICT ADMINISTRATION : 1.16 : At present there are 13 tehsils in Ahmednagar district which are divided into four subdivisions for the purpose of administrative convenience. The following table indicates administrative set up of the district.

TABLE NO. 4

Table showing Administrative set up of AHMEDNAGAR DISTRICT

Sr. No.	Sub-division	Tehsil	No. of	No. of villages		Population as per 1971 census (in lakh)
			Towns	Inhabited	Deserted

4.	Sanganner Contd.	Akola	-	153	-	1.48
		Kopargaon	-3	100	-	2.03
		Shrirampur	1	74	-	2.47
Total			6	1312	5	22.69

1.17 The district administration can/be classified in to following categories.

- 1) Central Govt. Administration, consisting of Income tax, Post & Telegraph, Central Excise, Railways departments.
- 2) State Government's Administration with offices of revenue finance, Forest, Agriculture, Irrigation, Co-operation, Industries, Building & Communication, Home, Health, Education, Social Welfare and Labour welfare, Planning, Law Department.
- 3) Local Bodies such as Zilla Parishad, Panchayat Samiti, Village Panchayat, Municipal Councils.
- 4) Corporate bodies such as Life Insurance Corporation, Maharashtra State Electricity Board, State Transport, State Farming Corporation, M.S. Finance Corporation, Maharashtra Industries Development Corporation, etc.
- 5) Banking sector with offices of State Bank of India, Almost all Nationalised banks, Scheduled and Co-operative banks, Central Bank of India is the lead bank of Ahmednagar District.

1.18 There are six municipal councils, located in this district, viz. Ahmednagar city, Ahmednagar Cantonment, Kopargaon, Sanganner, Shrirampur and Rahuri. As per definition of 1971 population census Rahuri is treated as Rural area whereas the village Wari from Kopargaon tahsil is regarded as Urban area.

DEMOGRAPHY : 1.19 Population : According to the population census of 1971, total population of Ahmednagar district was 22,69,117 and the rate of increase in the population was by 27.77 percent during the decade 1961-1971 which was higher than that of Poona division and also that of Maharashtra, the respective figures being 25.64 and 27.45. The following table indicates the percentage variation in population of the district.

TABLE NO. 5

Decadal Variation in Population since 1901.

Y E A R	Population (In lakh)	Rate of variation
1	2	3
1901	8.20	-
1911	9.26	+ 12.86
1921	7.19	- 22.33
1931	9.69	+ 34.77
1941	11.23	+ 15.87
1951	14.11	+ 25.63
1961	17.76	+ 25.83
1971	22.69	+ 27.77

1.20 : From the above table, it would be seen that only in 1921 the district witnessed decline in population over that of 1911 by 22.33 percent due to the severe attack of influenza epidemic of 1918 and due to the severe famine conditions. Otherwise, increasing tendency in population is seen in all these years. Analysing the growth rate of population in the decade 1961-71 tehsilwise within district, it can be observed that Shrirampur tehsil recorded the highest increase (38.94 percent) whereas Parner, the lowest with (18.20 percent). The tehsils Rahuri, Sangamner, Kopargaon and Shrirampur are above district average, while the remaining except Newasa are below the district average. The population growth of Newasa tehsil was at the same rate as that of the district. Concentration of Sugar factories and extension of canal irrigation system have been the responsible factors for attracting the seasonal labour within and even outside the district. The tehsils of Nagar, Parner, Karjat, Jamkhed, Pathardi and Shrigonda which registered low growth rate than the district average are drought prone areas and as such the labour from these tehsils out-migrated to the Sugar factory areas for jobs.

ii) Urban and Rural Population : 1.21 : Ahmednagar district is less urbanised as compared to the State. The Urban population of the district as per 1971 census is, 2.51 lakhs which is only 11.08 percent of the total population. In the decade 1961-71 the proportion of urban population marked slight increase from 10.55 to 11.08 whereas the State figures for the same increased from 28.22 to 31.16 which clearly indicates the backwardness of Ahmednagar district in respect of urbanisation. Of the six urban areas in Ahmednagar district one i.e. Nagar is above one lakh population four viz. Sangamner, Shrirampur, Kopargaon & Nagar Cantonment are classified into population range 20,000 to 49,999 and one village Wari is in the population range of 5,000 to 9,999.

= 9 =

(Contd)...

iii) Rural Population : 1.22 : According to 1971 census there are 1312 in-habited and 5 uninhabited villages in Ahmednagar District. There are 13 tehsils in Ahmednagar district with 101 average no. of villages per tehsil which is more than Poona division average (94) and less than Maharashtra State average (154) On an average 6.2 persons reside in rural area and 6.7 in Urban area per occupied census house.

1.23 There are 33 percent villages in the population range of 500-999 and 31 percent in 1000-1999, but the concentration of population is more in the group 2000-4999 (30 percent) followed by 28 percent in the group 1000-1999.

iv) Density : 1.24 : Density of population of Ahmednagar district as per 1971 census was 133 per Sq. Km., 119 per Sq. Kms. for rural and 2234 per Sq. Km. for the urban areas. As compared to 1961 census, the density of this district has increased by 28. The density of this district is lowest in Poona division. The tehsil Shrirampur ranks first in the density and Karjat the last. Further tehsils Kopergaon, Shrirampur, Rahuri and Nagar are above the district average and the remaining below the district average.

v) Sex-Ratio : 1.25 : Since 1901 the sex ratio of the population of Ahmednagar district varied from 1005 to 956 while that of Maharashtra varied from 978 to 930. At each census the sex ratio of the district has been higher than that of the State. There has always been deficiency of females in the population except in 1901. The sex ratio has continuously fallen in the last seventy years and 1971 values are the lowest. It is due to the seasonal out-migration of male labourers to the Sugar farms and factories from the adjoining areas. According to 1971 census the sex ratio of the district was 968 and 866 for the rural and urban areas respectively.

vi)Literacy : 1.26 : As per 1971 census literacy percentage of Ahmednagar district is 36.23 as against 38.16 for Poona division and 39.18 for Maharashtra. In 1901 literacy percentage of the district was 4.67 and the same went up gradually in these seventy years due to the progress of mass literacy and various Adult literacy campaigns and Gram Shikshan Mohims under taken during this period. The percentage of literacy for rural and urban areas was 33 and 60 respectively in 1971. Analysing the literacy percentage tehsilwise within the district it is observed that Nagar tehsil with 49.71 ranks first and Akola with 27.61 stands last. Tehsils Rahuri and Nagar are above the district average whereas all other tehsils are below the district average.

vii)Workers and Non-workers : 1.27 : As per 1971 census there were only 8.04 lakh workers (about 35 percent) of the total population of this district. There were 51 percent male and 19 percent female workers. Percentage of cultivators to workers for Ahmednagar district was 46 and all tehsils except Kopergaon Shrirampur, Rahuri and Nagar are above the district average. Agricultural labourers of the district constitute 31 percent of the total workers and they are concentrated in Kopergaon, Shrirampur, Newasa and Rahuri tehsils.

viii)Scheduled Castes and Scheduled Tribes Population : 1.28

As per 1971 census 9.32 and 6.42 percent of the total population of Nagar district is scheduled castes and scheduled tribes. More than 90 percent of the S.C./S.T. population resides in the rural areas. The total S.C./S.T. population of this district is 2,11,443 and 1,45,783 respectively. The S.C./S.T. population is concentrated mostly in Akola, Rahuri, Shrirampur Taluka and the least in Parner, Pathardi and Nagar tehsils. The proportion of S.C./S.T. population in this district is very high as compared to that in Poona division.

CHAPTER NO. II

EXPLANATORY NOTE

2.1 The District Statistical Abstract for the year 1972-73 presents statistics on various topics, such as population, Climate, Agriculture, Animal Husbandry and Forest, Employment, Industries, Co-operation, Medical and Public Health, Education, Transport and Communication, Community Development and Plan etc. The data presented in various tables are collected from the concerned State and Central Government departments. The footnotes to the tables indicate the source from which data are collected. In most the tables excepting those on some topics like population and live-stock census, data pertaining to two reference periods, viz. 1971-72 and 1972-73 and Calender year 1971- & 1972 are presented. For the tables pertaining to Agrciulture and Co-operation, the reference years are respectively agriculture or Cooperative years. Whenever data are not available for the reference year that for the latest available year is given in the abstract. In each table district totals are given in the beginning & Tahsilwise break-up follows next. The concepts, sources and limitations adopted while preparing the abstract are given in the following paragraphs.

2.2 Area & Population : Under this head seven tables based on the final figures of 1971 census are prepared. These tables show the salient features of the district viz. 1) Area houses & population in rural & Urban areas of the district, 2) Decadal variation in population since 1951, 3) Tahsilwise classification of villages according to population ranges, 4) Tahsilwise classification of Towns, 5) No. of workers & Non-workers in each Tahsil, 6) Distribution of population according to age group, & Religion & 7) . of Scheduled Castes & scheduled tribes persons in each tahsil and in the district.

2.3 While referring the data on urban areas it should be noted that a Town or Urban areas is a place which satisfies the following items of characteristics.

1) The civic administration of such places is required to be governed by Municipality or Cantonment Board or Civil line or

2) Minimum estimated population for 1971 should be 5000

3) Density of such place should be 400 persons per Sq. kms.

4) 75 percent of male working population should be engaged in occupations other than Agriculture.

2.4 According to 1971 census definition of workers, all those persons who had worked in the current or last working season for greater part of the season were treated as workers. Thus 1971 census instructions stipulated that a person primarily engaged in household duties or those who are students and help in the family economic activity, but not on a full time scale should be treated as 'Non-workers' in respect of their main activity and the economic activity in which they were marginally engaged might be considered as their secondary work. Due to this changed concept decrease in the proportion of workers is observed as compared to 1961 census data.

2.5 Climate and Rain-fall : The data under this head are collected in 2 tables, one relates to rain-fall and the other to temperature. Table No. 8 presents normal rainfall and number of rainy days and actual rainfall at various stations in the Nagar district. Normal rainfall means average rain-fall over a long period which is usually 80 years. The data are obtained from the statistician Department of Agriculture and whenever the same were not available, data supplied by Tahsildars are taken.

*5) The place should have according to the Director of census operations, a few pronounced urban characteristics. (Contd)..

into account. Table No. 9 presents maximum, minimum temperature at Ahmednagar Station.

2.6 Agriculture : Under this head, important statistics pertaining to land utilisation, area under different crops, irrigation, yield rates and out-turn and agricultural wage rates, minor medium and major irrigation works etc. are presented. Information regarding famine and scarcity affected areas is also presented under this head.

2.7 Table No. 10 gives tahsil-wise figures of Land Utilisation under different heads of utilisation. Against each tehsil the break-up of the total geographical area according to different types of land use is shown. Area under 'Forest' includes all actually forested areas or lands classed or administered as forests under the legal enactment dealing with forests whether State owned or private. Lands put to non-agricultural uses cover lands occupied by buildings, roads, railways etc. Barren land and unculturable land cover area under mountains, deserts, river beds and areas of lands which cannot be brought under cultivation/or taken up for cultivation once but not cultivated during current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Permanent pastures and grazing lands cover all grazing lands whether they are permanent pastures and meadows or not and village common grazing lands within forest areas. Miscellaneous tree crops and groves not included in the area sown cover lands under casurina trees, thatching grass, bamboo bushes and other groves used for fuels etc. Lands which are not included under 'Orchards' are classed under this category. Current fallows comprise cropped / unless at a very high cost. Culturable waste (includes all lands available for cultivation whether not taken up for cultivation /

areas which are kept fallow during the current year. If any seedlings area is not cropped again during the same year it is also treated as current fallow. Other fallow land includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years. The net area sown consists of net area sown with crops and orchards area sown more than once being counted only once. The gross cropped area represents the sum of areas under all crops. The difference between total cropped area and net area sown is accounted for by the area sown more than once on the same land during the same year with same or different crops. The data on yield rates and out-turn are based on estimates worked out on results of crops cutting surveys and partly on 'Annewari' method.

2.8 Regarding irrigation works it may be mentioned that a work involving an expenditure of less than Rs. 20 lakhs is treated as 'Minor Irrigation work' that covering irrigable area upto 250 acres is entrusted to Zilla Parishad and works above 250 acres area implemented by the Irrigation Department of State Government.

2.5 : Animal Husbandry and Forest : Under this head, information regarding live-stock census, veterinary statistics, recognised slaughter houses and forest statistics is presented. Table No. 22 gives number of various types of Live-stock poultry etc. as enumerated at the time of 1972 live-stock census. The data are provisional. In this census all live-stock were enumerated by house to house enquiry. Particular care was taken to enumerate live-stock in slaughter houses stray animals and animals in transit. Table No. 23 gives the information regarding veterinary statistics in each tahsil, while table Number 24 gives diseases-wise live-stock mortality. The information

regarding animals slaughtered in recognised slaughter houses is presented in table number 25. Animals slaughtered by butchers in rural areas is not available. Table No. 26(A) gives figures of area under forest in the district. The forest area figures in this table are different from the figures in the table on land utilisation. The concept of classifying areas is different for the two departments. Table No. 26(b) gives the information regarding production and value of major and minor forest products in the Nagar district.

2.10 Employment, Industry, Mining and Electricity : Under this head, information on various items like factory statistics data furnished by Employment Exchange, census of Government Employees generation and consumption of electricity and number of towns and villages electrified is presented. Regarding factory statistics, it may be stated that the data covers factories registered under Factories Act 1948 viz. those employing 10 or more workers and working with aid of power and those employing 20 or more workers and working without aid of power. The results of the Annual Survey of industries are given in table number 30. The term productive capital used in that table consists of fixed and working capital. The gross out-put represents value of products and by products manufactured for sale, work done for customers and sale value of goods sold in the same condition as purchased and is adjusted for the difference in stock of semi finished goods at the beginning and at the end of survey year. Value added by manufacture is computed by deducting from gross ex-factory value of out-put, the gross value of input. Value added is net of depreciation. In electricity table information regarding type of generation and electricity used for different purposes is given.

(Contd)...

2.11 Co-operation : Comprehensive data on this subject are displayed in tables 38 to 45, which includes number of different types of societies, statistics relating to co-operative banks, primary agricultural credit societies etc. The co-operative year starts in July and ends in June.

2.12 Medical and Public Health : Under this head, information regarding medical and public health facilities is collected.

Table No. 46 shows the medical facilities available in the district. It shows the number of hospitals, dispensaries, maternity homes, primary health centres, doctors, beds available, indoor and outdoor patients treated. The material presented here includes data on civil hospital, Zilla Parishad dispensaries P.H.C. Municipal dispensaries and Private aided institutions. It does not cover Private unaided institutions run by individuals or association. Table No. 47 indicates the data about births, deaths and infant deaths. The figures of infant death relates to the death of Children below one year. In table No. 48 data of number of death due to principal census is shown. Table No. 49 gives information regarding primary vaccination, revaccination and Cholera inoculation in the district. In table No. 50 the data in respect of family planning centres operating ⁱⁿ the district is presented. This table is introduced since last abstract.

2.13 Education : Under this head, information regarding progress of education in the Ahmednagar district is collected and presented in 7 different tables. Table No. 51 gives the number of literates as per 1971 census, sex-wise for rural and urban areas separately. Table No. 52 gives sex-wise literates with different levels of education (of rural population, etc.)

(Contd)..

It shows tahsil-wise break-up also. Table No. 53 gives the information regarding literates with different levels of education (Technical and non-technical) in Urban areas of the district. The data in tables 52 and 53 are as per 1961 census. As that for 1971 is not yet available. Table No. 54 shows the number of different types of educational institutions, pupils and teachers for each type in the district. The number of institutions relate to the academic year ending June and the number of pupils as on 31st March. In table No. 55 the total number of beneficiaries (Backward Classes) at each level of education is shown. Table No. 56 gives the information regarding total number of students taking benefits under the scheme of free studentship as E.B.C. students and total value of each concession for the educational levels for the district as a whole. Table No. 57 gives information about expenditure on primary education by Zilla Parishad and Municipal councils.

2.14 Transport and Communication : Under this head information pertaining to the length of railway route, road length according to different category and surface classification, operational statistics of Nationalised road transport., traffic census, postal statistics etc. is presented.

2.15 Table No. 58 presents the information on length of railway route in the district. There is only one broad gauge in the district. It is a single line starting from Manmad and ending at Dhond. In table No. 59 the figures relate to municipal roads and extra municipal roads maintained by B. & C. and Zilla Parishad according to category and surface classification. Table No. 60 presents data about motor vehicles as on 31st March-1973 in the Poona region. Poona Region comprising of Poona, Ahmednagar, Satara and Sholapur districts. Vehicles in operation means vehicles on live-register of

R.T.O. Table No. 61 relates to nationalised road transport. The information on number of routes, route distance, average daily earning etc. is given. The boundary of S.T. Division is not exactly coterminous with the district boundary. In table No. 62 the data of traffic census where information regarding number of vehicles, light motor vehicles, total traffic intensity in 24 hours is given. Table No. 63 gives some important statistics regarding posts and telegraph offices and no. of letter boxes, etc. in the district. Table No. 64 gives information where radio sets are installed. Here hamlets are separately counted where receiving sets are installed. Hence number of villages appear to be high.

* 2.16 (Contd on last page)

2.17 Plan & C.D. : Under this section five table are presented.

The first two table Nos. 69 & 70 give important Plan statistics viz. Plan expenditure under different heads, sub-heads of development and important physical achievements. The other three tables give data regarding C.D. programme and expenditure incurred in different states of blocks & physical achievements on selected items in all blocks.

2.18 Prices : Under this head, wholesale prices of certain Agricultural Commodities in selected centres, average retail prices of selected commodities prevailing at Ahmednagar during 1972 & the consumer price index for working class at Sholapur and Poona are presented. As regards the wholesale prices, the district averages of only important commodities are given while for the average retail prices, the information collected for the given commodities are restricted to only one quotation and that too from one shop at district head quarter. The average of individual commodities cannot be said to be fully representative but data may prove useful as a broad indicator of trend in changes in retail prices. The consumer price index number

for working class for Poona Sholapur for the year 1972-73 is presented in Table No. 76.

2.19 : Miscellaneous : The statistics relating to Police Force, Crime statistics, work disposed in Civil and Criminal Courts, Cinema Statistics, Banking Offices, Joint Stock companies, Insurance business, Collection of Small Savings, Land Revenue collection, Newspapers and General Election etc. is presented in 11 tables under this section.

2.20 : Selected Indicators : Important indicators for the district as a whole in different fields of development such as population, Agriculture, Live-stock, Factory Employment, Electricity, Co-operation, Education, Medical & Public Health Transport etc. are presented in table number 88. The period covered in this table is for the 5 years viz. 1950-51, 1960-61 1966-67, 1970-71 and 1971-72 and 1972-73.

* 2.16 Local Bodies : Under this head information regarding income and expenditure of various Local bodies viz. village Panchayats, Zilla Parishad and Municipalities in the district is presented. Table No. 65 presents the data on income and expenditure of village Panchayats, Zilla Parishad and municipalities for the year 1965-66 & 1968-69 to 1972-73. In table No. 66 break up of information on Income and Expenditure of village Panchayats is presented. It gives panchayat samiti-wise break-up on one hand and income and expenditure on the other hand. The total income and expenditure is further sub-divided into various major heads. Table No. 67-A, 67-B and 67-C give particulars of head-wise receipts Govt. grants and head-wise expenditure of Ahmednagar Zilla Parishad resp. Table No. 68 gives information on income & expenditure on different sub-heads in respect of municipalities. Under income information is separately shown under grants, taxes, other income. Under expr. further break-up into general administration, public safety and public works etc. is shown.

Analytical Review of Sectorial Trends

3.1 In this chapter an attempt is made to analyse the trends in various sectors such as Agriculture, Animal Husbandry, Cooperation, Education etc. For this purpose the tahsilwise data presented in the Part II i.e. District Statistical Abstract for the different periods are utilised and the progress of Ahmednagar district is compared to that of Poona division and Maharashtra State wherever possible.

Agriculture :

3.2 Agriculture is principal source of livelihood and as such assumes predominant place in the National economy. For better assesment of progress in Agricultural development indicators such as percentage of gross cropped area to net sown area, irrigation percentage, cropping pattern, yield per hectare, of principal crops are considered here. The data for the last two agricultural years i.e. 1970-71 and 1971-72 is presented with reference to year 1960-61.

TABLE NO. 2

Percentage of gross cropped area to the net sown area

Sr. No.	Tahsil	1960-61	1970-71	1971-72
1	2	3	4	5
1.	Kopergaon	104.74	105.82	105.22
2.	Akola	102.46	102.69	102.75
3.	Sangamner	108.75	103.70	103.34
4.	Shrirampur	102.00	103.27	103.22
5.	Rahuri	104.05	104.83	103.34
6.	Newasa	119.13	106.28	103.52
7.	Shevgaon	106.11	107.37	104.61
8.	Parner	104.22	106.57	104.06
9.	Ahmednagar	103.39	104.33	102.21
10.	Pathardi	104.81	105.23	102.26
11.	Shrigonda	106.47	104.54	105.17
12.	Karjat	110.87	105.82	104.87
13.	Jamkhed	105.02	107.70	102.62
	District Total	105.16	105.28	103.68
	Dist. Total	105.79	106.59	N.A.

3.3 From the above table, it would be seen that extent of double cropping is very small in this district as well as in Poona division. The percentage of gross cropped area to the net sown area in the district has declined in 1971-72 with reference to 1970-71 and also to 1960-61. During the year 1970-71 the the tehsils Kopergaon, Newasa, Shevgaon, Parner, Karjat and Jamkhed were above the district average and the remaining below the district average. So also in 1971-72 the tehsils Kopergaon, Shevgaon, Parner, Shrigonda and Karjat were above the district average and others below the district average. It is observed in the recent years that Tehsils Sangamner, Shrigonda, Karjat and Newasa, registered a decline in double cropped area. Irrigation helps to increase double cropping, provided it is not used for perennial crops. In this district Kopergaon, Shrirampur, Rahuri have large irrigated areas but most of the irrigated area pertains to Sugarcane, resulting into insignificant double cropped areas.

IRRIGATION

3.4 Our Agriculture is a gamble in Monsoon and as such lack of reliable irrigation facilities hamper Agril. development. The following table indicates area irrigated by different sources in Ahmednagar district.

TABLE NO. 3

Sourcewise area irrigated in Ahmednagar District

SOURCE	Net area irrigated in Hectares.		
	1960-61	1970-71	1971-72
1	2	3	4
1. Govt. Canals	43,510	43,644	45,900
2. Private Canals	1,745	255	259
3. Wells	89,452	(10,396)	109,805
4. Tanks	787	-	-
5. Other sources	382	-	-
Total	1,35,876	1,47,860	1,55,964

3.5 From the above table, it is revealed that in spite of prevalence of scarcity conditions in the district net area irrigated/ in the district in 1971-72 by all sources has registered increase of over 8,000 hectares over 1970-71. i.e. by 15.40 percent. Well irrigation forms 70 percent of the total irrigation of the district. There are 75448 irrigation wells in use in Ahmednagar district and 8,017 not in use in 1971-72. No. of irrigation wells in use are maximum 11,663 in Shrirampur tehsil and minimum in Akola i.e. 1736. No. of wells in use showed 6.40 percent increase over the previous year i.e. 1970-71.

3.6 In the following table tehsil-wise percentage of gross to net irrigated area and net irrigated area to the net sown area for years 1960-61, 1970-71 and 1971-72 is shown.

TABLE NO. 4
Percentage of Gross and Net irrigated area to the Net area sown.

AHMEDNAGAR DISTRICT

Sr. No.	Tehsil	1960-61		1970-71		1971-72	
		% of gross irrigated area to net irrigated area	% of Net irrigated area sown	% of gross irrigated area to net irrigated area	% of net irrigated area sown	% of gross irrigated area to net irrigated area	% of net irrigated area sown
1	2	3	4	5	6	7	8
1.	Kopergaon	107.06	31.76	104.82	42.17	106.89	41.13
2.	Akola	136.95	1.28	131.69	1.38	141.86	1.08
3.	Sangamner	124.11	7.42	131.81	9.15	122.62	11.75
4.	Shrirampur	103.66	33.05	104.44	43.30	104.54	44.16
5.	Rahuri	108.02	18.58	109.50	20.83	109.22	23.58
6.	Ncwasa &	121.48	5.56	115.80	7.67	110.59	8.33
7.	Shevgaon	121.74	4.26	166.21	4.46	136.49	5.14
8.	Parner	141.48	6.38	131.62	4.57	118.96	4.41
9.	Ahmednagar	104.21	11.40	130.72	7.23	107.85	10.61
10.	Pathardi	130.92	6.46	174.66	4.23	120.02	5.29
11.	Shrigonda	116.23	10.36	116.43	11.58	110.96	12.36
12.	Karjat	117.20	8.00	107.50	8.37	122.41	6.85
13.	Jamned	117.56	8.16	143.28	7.51	127.45	6.50
	Dist. Total	113.68	10.79	117.82	11.80	111.97	12.46
	Divi. Total	117.00	10.00	120.75	11.16	N.A.	N.A.

3.7 From the above table, it will be seen that percentage of gross irrigated area to net irrigated area for the district was less by about 6 percent in 1971-72 as compared to 1970-71. The same is also less than 1960-61. As regards the percentage of net irrigated area to the net sown area, position for the reference years. The increase for the district in 1971-72 over 1970-71 is very slight and as usual the tahsils Kopergaon, Shrirampur, Rahuri are above the district average and all other tahsils below the district average.

3.8 : Productivity of Important Crops : Principal crops of Ahmednagar district are Rice, Jowar, Bajara, Sugarcane, Groundnut and Cotton. In the following table yield rates and outturn of principal crops are given alongwith comparative position for Poona division.

TABLE NO. 5

Yield rates of principal crops and their out-turn in AHMEDNAGAR DISTRICT & Poona Division

C R O P S	Y E A R	Ahmednagar District		Poona Division	
		Yield per Hect.	Out-turn: 100 Tonne	Yield per Hect.	Out-turn: 100 Tonnes
1	2	3	4	5	6
1. Rice	1961-62	1,119	116	1,213	2,596
	1970-71	775	62	1,073	2,081
	1971-72	814	57	1,066	2,031
2. Jowar (Kharip. & Rabi)	1961-62	277	1,785	398	9,587
	1970-71	174	905	260	5,682
	1971-72	181	1,276	275	6,724
3. Bajara	1961-62	186	481	192	1,576
	1970-71	339	1,218	315	2,673
	1971-72	278	211	221	1,161
4. Sugarcane (in terms of Gur.)	1961-62	11,207	3,994	8,553	9,557
	1970-71	7,858	4,115	7,774	11,972
	1971-72	7,069	3,478	7,398	10,934
5. Groundnut	1961-62	418	130	796	2,740
	1970-71	558	150	716	2,386
	1971-72	638	60	899	2,268
6. Cotton	1961-62	71	31	114	86
	1970-71	103	165	141	464
	1971-72	221	107	222	456

(Out turn of Cotton is given in terms of hundred bales of 180 Kg. each.)

3.9 From the above table, it will be seen that as compared to the previous year i.e. 1970-71, the yield rates of bajara sugarcane declined whereas it is on higher side for other crops. The out-turn of all crops except Jowar has decreased due to failure of crops and general scarcity conditions in the district.

3.10 : Cropping Pattern : Perusal of the cropping pattern from the table given overleaf will indicate that both gross cropped and double cropped area in 71-72 has decreased as compared to the year 1970-71. Further analysis of this problem indicates that over the previous years' acreage under cereals has been increased whereas the same under pulses have been decreased in the year 1971-72. Though the area under total non-food crops is slightly increased it would be seen that area under Cotton Groundnut is declined.

TABLE NO. 6

CROPPING PATTERN

Percentage of Areas under various crops in
AHMEDNAGAR DISTRICT

Area under	Y E A R		
	1960-61	1970-71	1971-72
1	2	3	4
1) Total cereals	73.76	71.91	76.94
2) Total pulses	7.75	8.49	3.48
3) Total food grains	81.51	80.40	80.42
4) Sugarcane	2.73	3.95	3.79
5) Total Food crops	85.15	85.33	85.09
6) Cotton	2.45	2.19	0.67
7) Groundnut	2.37	1.61	0.78
8) Total non-food crops	14.85	14.67	14.91
9) Total food and non food crops.	100.00	100.00	100.00
Gross cropped Area in Hect.	1323643	1319173	1297467

3.11 Agricultural credit and outstanding dues : The position given in the following table, in this respect in the years 1961-6: 1971-72 and 1972-73 will speak of the cooperative credit structure in the district. There is increasing trend of loans and

percentage of recovery . Further position of overdues has fallen steeply alongwith the outstanding loans, which indicate improvement in the situation in 1972-73 as compared to 1971-72.

TABLE NO. 7

Agricultural Credit Facilities during 1961-62, 1971-72 & 1972-73

Sr. No.:	I T E M	1961-62	1971-72	1972-73	Percentage increase or decrease 72-73 over 61-62
1	2	3	4	5	6
1.	No. of Agril. Credit socys.	1040	1090	1094	+105.19
2.	Loans advanced (Rs. in lakh)	513.61	1464.40	2313.60	+350.45
3.	Outstanding loans (Rs. in lakhs)	566.29	1841.70	1673.50	+195.52
4.	Overdues of outstanding loans (Rs. in lakhs)	71.43	807.07	249.23	+248.92
5.	Percentage of recoveries to the outstanding loans.	66.7	93.8	105.4	+38.7

3.12 : Agricultural Wage Rates : Agricultural wages prevalent in the selected three centres viz. Akola, Belapur and Karjat are collected for different agricultural operations from the selected representative agriculturist. In the following table average annual wage rate for male and female in years 1968, 1971 and 1972 is given for the selected centres.

TABLE NO. 8

Agricultural Wage Rates (Rs. per day)

Centre	Category	1971	1972
1	2	3	4
1. Belapur	Male	3.00	3.00
	Female	2.00	2.00
2. Karjat	Male	2.50	2.00
	Female	1.50	1.00
3. Akola	Male	2.00	2.30
	Female	1.50	1.50

(Contd)...

3.13 From the above table it will be observed that the Agril. wage rates for the above centres varied from Rs. 2 to 3 for males and from 1.00 to 2.00 for females. However, within the years 1971 and 1972 the average rates in Karjat centres showed a little decline.

3.14 Animal Husbandry : It is a subsidiary occupation to Agriculture and as such this sector has important role to play. Every five years live-stock census is conducted. The data of quinquennial census of 1966 and 1972 of Ahmednagar district for certain important items is given below.

TABLE NO. 9

Live-stock in Ahmednagar District in 1966 & 1972

(figures in lakhs)

Category	1966	1972	Percentage increase or decrease
1	2	3	4
1. Cattle	8.76	8.16	(-) 7
2. Buffaloes	0.80	0.88	(+) 10
3. Total bovine	9.56	9.04	(-) 5
4. Total Live-stock	17.66	17.63	(-) 0.2
5. Poultry	6.90	7.73	(+) 12

3.15 From the above table, it is seen that buffaloes and poultry in 1972 census showed an increase over the figures of 1966, Cattle population of the district decreased by 7 percent. In respect of live-stock to the cultivable area in the year 1966, it was 134 as against Poona division figures per hundred of 121 hectares of cultivable land. For 1972 it is 133. Gross cropped area per pair of working bullocks in 1965-66 was 8.1 and it is 7.4 in 1972. Analysing the live-stock data within the district it is observed that as compared to 1966 census, in tehsils Akola, Sanganner, Shrirampur, Newasa, Shrigonda, Karjat & Jamkhed live-stock has increased while in the remaining tahsils it has declined.

3.16 : Poultry per 1000 human population (1971 Census) in the district was 340 in 1972 as against 388 in 1966.

Electricity

3.17 : Electrification is an important factor to assess industrial progress. So far i.e. at the end of 1972-73, 54 percent of villages have been electrified. The following table indicates per capita consumption of electricity for domestic, commercial, industrial purposes etc.

TABLE NO. 10

Per Capita consumption of electricity in Ahmednagar District

(K.W.H.)

PURPOSE	1961-62	1972-73
1	2	3
1. Domestic	0.35	3.99
2. Commercial Light & Small power.	0.05	2.06
3. Industrial	0.95	30.48
4. Public Lighting	0.26	0.65
5. Agriculture	0.08	29.66
6. Other	-	33.27
7. TOTAL	1.69	100.10

Note : 1971 population is taken into consideration for working out per capita consumption in 1972-73.

3.18 : Employment Exchange Statistics : Problem of educated and uneducated unemployed persons is day by day becoming grave. At present data regarding vacancies, registration, placement etc. at district employment exchange is available. The same is however ^{having} limitation in that only a few educated persons only seeking employment register whereas the no. of unemployed persons who are uneducated (Agril. labour etc.) cannot be estimated correctly in the absence of data. The no. of registration decreased to 8,876 in 1972-73 as against 10262 in 1971-72. Persons on live register on March-1973 were 11002 and 418 candidates were

employed during 72-73 of which 73 were S.C./S.T. which was less than the year 1971-72. Out of the total placements in the year 46 percent related to clerical and related workers and 21 percent to technical and professional workers.

3.19 Medical and Public Health : Medical and public health facilities available in Ahmednagar district in the year 1961, 1971 and 1972 and no. of indoor and out-door patients treated is described in the following table.

TABLE NO. 11

Medical Facilities & patients treated in 1961, 1971 & 1972

I T E M 1	Position in the years		
	1961	1971	1972
	2	3	4
1. Hospitals	2	4	3
2. Primary Health Centres and sub-centres.	13	45	46
3. Doctors & Vaidyas	27	127	130
4. No. of beds	274	726	722
5. No. of patients treated			
a) Indoor	16607	70939	81514
b) Outdoor	221502	538581	539396
6. No. of family Planning centres.	N.A.	51	51
7. Sterilisation Operations	N.A.	16832	29465

3.20 It will be observed that there is substantial increase in all the amenities in 1972 with reference to 1961 as a result of which more than 4 times of indoor and 1/4 times of the outdoor patients have been increased. Compared year 1971 in 1972 no. of hospitals is decreased. As a result of family Planning propaganda through all agencies, over two years sterilisation operations have been significantly increased.

3.22 Education : It will be observed that as compared to 1970-71 primary schools in 71-72 have slightly decreased (less by 7) whereas secondary schools and higher institutes were increased

by 24 and 1 respectively ~~an~~ alongwith no. of students.(by 4508 & 1097 respectively). The ratio of students per teacher in 1971-72 remained stationery at 40 and 25 for primary and secondary schools respectively as in the year 1970-71. As compared to 1961-62 the increase in these ratios was by 33 & 25 percent respectively.

3.2² Transport & Communications : The rail length in Ahmednagar district was 197 Km. as on 31-3-1973 and it was broad gauge and there are at present 18 rail-way stations in the district. The following table shows surface classification of road length in the District.

TABLE NO. 12

Showing surface classification on roads in Km. as on 31-3-61
31-3-72 & 31-3-73 in Ahmednagar District

Surface type	31-3-61	31-3-72	31-3-73
I	2	3	4
1. Cement Concrete	108	115	115
2. Black Topped	106	437	523
3. Water bound macadam	1653	1608	1395
4. Others	1152	4779	6899
Total	3024	6939	8932

3.2³ From the above table it will be revealed that except water bound macadam all of the above types of road length has significantly increased from 61-62 to 72-73. The road length per 100 Sq. Km. area was 18 as on 31-3-61. It rose to 41 as on 31-3-72 and to 52 as on 31-3-73.

3.2⁴ Banking : Development of sound banking system in the district is an indicator of financial and economic situation. In the year 1961-62 the banking offices per lakh of population was only 2 which rose to 5 in 1971 as per 1971 population and in 1972 it was 6 .

(Contd)...

Prices :

3.25 These days rise in prices of essential goods and services has been alarming problem in day to day life. The cost of living index is compared at Sholapur and Poona centres in Poona division with reference to the base years at 1960 and 1961 respectively. The general index which was 176 and 198 in the previous year for Poona and Sholapur was 193 and 216 in 72-73. For food it was 189 and 214 for Poona / Sholapur centres and in 1971-72 and 212 and 236 in 72-73 respectively.

3.26 Retail prices are collected at the district head quarter since 1962 November for some selected commodities from the selected shops and the varieties are also fixed. Prices of some important commodities are given in the following table, for the years 1963 and 1971 & 1972 with base years.

TABLE NO. 13

Average Retail Prices of some important commodities at Ahmednagar

Sr. No.:	I T E M	Unit:	Average retail price at dist.H.Q.Naga		
			1963	1971	1972
1	2	3	4	5	6
1.	Rice (Medium)	Kg.	0.63	1.55	1.89
2.	Wheat	"	0.63	1.06	1.22
3.	Jawar	"	0.45	1.00	1.15
4.	Arhar dal	"	0.91	1.94	2.16
5.	Gram dal	"	0.61	1.25	1.52
6.	Gur	"	0.95	1.40	1.98
7.	Groundnut oil	"	2.03	4.75	4.82
8.	Vanspati	"	3.08	5.90	5.85
9.	Potato	"	0.41	0.76	0.92
10.	Chillies	"	2.84	5.58	4.33
11.	Plantain	Doz.	0.44	0.71	0.87
12.	Kerosene	Lit	0.41	0.59	0.63
13.	Shirting	Mt.	1.23	2.58	2.73
14.	Dhoti	Pair	11.00	14.05	16.48
15.	Sarees	"	19.00	46.00	47.38
16.	Brass	Kg.	7.06	20.75	18.00

3.23 : It will be revealed that the prices of all commodities of every day consumption showed steep rise in the year 1972 when compared to the base year 1963 and even within the two years prices have increased, except of Chillies and brass.

CHAPTER IV
ANNUAL PLAN REVIEW 1972-73

4.1 The year 1972-73 was the fourth year of the fourth five year Plan.

In 1971-72 the total expenditure of Rs. 596.32 lakhs was incurred and in 1972-73 the total expenditure of Rs. 495.34 lakhs were spent on various heads of development, which works out to per capita expenditure of Rs. 22/- as per 1971 census population. In all there were 91 schemes implemented during 72-73, out of which 55 schemes were from State Sector and 36 schemes were from Local Sector respectively in State Plan. Under Centrally sponsored Programme 21 schemes were implemented, 5 from State Sector and 16 from Local Sector respectively.

4.2 The following table gives major head-wise expenditure incurred during the year 71-72, & 72-73 in State & Local Sectors in Ahmednagar District.

Table No. 1

Expenditure incurred in 1971-72 and 1972-73 years (Rs. in lakhs)

Development Head	Expenditure					
	1971-72			1972-73		
	State	Local	Total	State	Local	Total
1	2	3	4	5	6	7
1. Agril. Programme	101.82	25.00	126.82	71.02	73.20	144.22
2. Coop. & C.D.	2.02	10.27	12.29	0.98	11.89	12.87
3. Irri. & Power	169.99	-	169.99	26.39	-	26.39
4. Industry & Mining	0.86	1.01	1.87	0.43	1.77	2.20
5. Transport & Comm.	0.32	14.52	14.84	3.23	12.84	16.07
6. Social services	165.69	46.08	211.77	115.39	64.89	180.28
7. Miscellaneous	0.43	-	0.43	5.92	-	5.92
Total State Plan	441.13	96.88	538.01	223.36	164.59	387.95
Centrally Spon.	0.02	58.29	58.31	24.91	82.48	107.39
Total State + C.S.	441.15	155.17	596.32	248.27	247.07	495.34

It is revealed from the above table that there is increase in expenditure under Agricultural programme, 2) Cooperation & C.D. 3) Industry and Mining, 4) Transport & Communication, & Miscellaneous. Increase under miscellaneous head is considerable due to the fact that employment guarantee scheme was implemented during 1972-73.

4.3 : The major head-wise expenditure and physical achievement are reviewed in the following paragraphs.

1) Agriculture Programme : About Seventy percent population of Maharashtra depends on Agriculture and its allied activities. The following table shows the expenditure incurred on district level schemes during 71-72 and 72-73 under various sub-heads of development under Agril. programme.

TABLE NO. 2

Expenditure incurred on various sub-heads of Development Under Agricultural Programme (Rs. in lakhs)

Sr. No.	Sub-heads of Development	1971-72			1972-73		
		State	Local	Total	State	Local	Total
1	2	3	4	5	6	7	8
1.	Agriculture Programme	1.47	9.34	10.81	2.38	7.05	9.43
2.	Minor Irrigation	20.26	15.45	35.71	35.27	65.92	101.19
3.	Soil Conservation	58.31	-	58.31	16.10	-	16.10
4.	Ayacut Development	18.78	-	18.78	14.49	-	14.49
5.	Animal Husbandry	-	0.21	0.21	-	0.23	0.23
6.	Dairy Development	0.08	-	0.08	0.13	-	0.13
7.	Forest	1.01	-	1.01	0.91	-	0.91
8.	Fisheries	0.29	-	0.29	0.52	-	0.52
9.	Ware housing & Marketing	1.62	-	1.62	1.22	-	1.22
	Total Agril. Programme	101.82	25.00	126.82	71.02	73.20	144.22

Over-all expenditure on Agril. programme has increased in the year 72-73 as compared to previous year. Analysing the

data on the sub-heads under Agril. programme, it is observed that there is sudden fall in expenditure under soil Conservation and Ayacut Development. It will be observed that the greater importance is given to minor irrigation, such as construction of percolation tanks, wells etc. Then there is increase under fisheries and also slight increase in Animal Husbandry and Dairy development sub-heads during 72-73 as compared to 71-72.

4.4 The progress under each sub-head is described below:-

1) Agriculture Production : Under this sub-head various schemes viz. i) Taluka seed farms, ii) General horticultural development iii) Construction of community wells, iv) Integrated development (small holders scheme) were implemented in State & Local sectors in the district. The expenditure incurred on this sub-heads was Rs. 9.43 lakhs in the year 72-73 which comes to 6.5 percent of total expenditure under Agril. programme.

The following table gives the important physical achievements of the above schemes.

TABLE NO. 3

Important physical achievements under sub-heads Agril. Production

I	T	E	M	Unit	Target	Achievements
1	2	3	4			
1.	Improved seed of food grains distributed.	qtl.	N.A.		36,023	
2.	Compost pits dug	No.	N.A.		4,302	
3.	Compost prepared	M.T.	41,000		46,850	
4.	Fertiliser distributed	M.T.	N.A.		33,390	
5.	Boring & Blasting of wells.	No.	547		436	
6.	Wells constructed	No.	31		118	
7.	Area under Plant Protection.	Hect.	15,000		9,678	
8.	Tractor Ploughing	"-	125		783	
9.	Cattle supplied (I.A. D.P.) Scheme.	No.	70		39	

2) Minor Irrigation : This sub-head consists of schemes, 1) programme of construction of wells, 2) Installation of pumping sets 3) Construction of percolation tanks, etc. The total expenditure on the sub-head was Rs. 101.19 lakhs out of which Rs. 65.92 lakhs were spent on the local sector schemes and the remaining Rs. 35.27 lakhs were spent on the State Sector schemes. The expenditure on the state sector was 35 percent and 65 percent for local sector respectively. 400 new wells were constructed and 844 pumps were installed by the implementation of schemes in state sector and 82 percolation tanks were completed by the local sector in the district.

3) Soil Conservation : The scheme of contour bunding, Nala bunding is implemented only in state sector. The amount of Rs. 16.10 lakhs was spent on this scheme which comes to 11 percent of total expenditure under Agril. programme 25,000 hectares of land was banded under this scheme.

4) Ayacut Development : Under this sub-head also only one scheme was implemented during the reference period in state sector. The expenditure of Rs. 14.49 lakhs was incurred as against budget provision Rs. 14.49 lakhs i.e. 100 percent expenditure was done. The land development work in 7292 hectares was undertaken in this scheme.

5) Animal Husbandry : The schemes under this sub-head consist of Local sector schemes implemented by Zilla Parishad. The programme includes the constructions of veterinary dispensaries & veterinary aid centres. The expenditure incurred was Rs. 0.23 lakhs as against the budget provision of Rs. 0.23 lakhs, i.e. (100 %). This expenditure is incurred on Rahata dispensary in Kopargaon block and Chichondi Patil Veterinary aid centre in Ahmednagar District.

6) Dairy Development : Two schemes viz. 1) Govt. milk supply, & 2) Financial Assistance to Dairy societies were implemented, which come under State Sector. As against the budget provision of Rs. 0.32 lakhs the amount of Rs. 0.13 lakhs was spent 10 new societies and 1 existing society were financially assisted under this scheme. Under Govt. Milk supply 5,000 litres of milk per day was distributed.

7) Forest : The forest sub-head contains 1) Development of minor forest produce, 2) Plantation of valuable trees, 3) Rural extension of forestry schemes. As against the budget provision of Rs. 1.01 lakhs the expenditure of Rs. 0.91 lakhs was incurred on these above schemes. Pre-monsoon work in 60 hectares and Agave plantation in 155 Hectares were taken during the year 1972-73.

8) Fisheries : The fisheries schemes pertaining to inland fisheries were implemented. The amount of Rs. 0.52 lakhs was incurred as against the budget provision of the same amount i.e. 100 percent expenditure was done on this sub-head. There is not much scope for fishery schemes in this district. 53,000 Kgs. netting of fish was done under the scheme.

9) Ware housing & Marketing : Only one scheme was implemented in the state sector under this sub-head. The expenditure of Rs. 1.22 lakhs was spent as against the budget provision of 1.22 lakhs during 72-73. 5 A.P.M.Cs. were financially assisted under this scheme during 72-73.

4.5 Co-operation & Community Development : Under this Major Head in all Rs. 12.87 lakhs were spent during 72-73 out of which 11.89 lakhs were spent on community development sub-head.

All the schemes under cooperation sub-head are implemented in state sector. The expenditure incurred was Rs. 2.02 lakhs and Rs. 0.98 lakhs during the years 71-72 and 72-73 respectively.

22 societies were assisted in 71-72 and 62 societies in 72-73 respectively. Also the sub-sidy to 27 godowns was granted in 71-72 and in 72-73 for two godowns.

ii) Community Development : The idea of community development came into existence from the first five year plan. In all there are 23,00 C.P.A. size blocks in Ahmednagar district, and all the area was already covered. In 71-72 Rs. 10,27 lakhs were spent and Rs. 11.89 lakhs were spent during 72-73. This comes to 96 percent of budget provision during 72-73.

4.6 Irrigation & Power : Under this head rural electrification scheme was mainly implemented for which Rs. 169.99 lakhs were spent, during the 71-72. The expenditure of Rs. 26.39 lakhs was incurred in 1972-73 as against the budget provision of Rs. 38.50 lakhs during 72-73. 52 villages were electrified and 14217 pumps were energised during 71-72 and 31-3-73.

4.7 Industry & Mining : Small Scale Industries : Development of Small Scale Industries helps dispersal of industries, provides avenues of employment & helps capital mobilisation. With a view to achieve these objectives the schemes under small scale industries were implemented. The total expenditure under this sub-head was Rs. 1.87 lakhs during 71-72 and Rs. 2.20 lakhs during 72-73. The expenditure incurred is 96 percent of the total budget provision. During 72-73, 183 artisans and 17 societies were financially assisted.

4.8 Transport and Communication : Dhond to Manmad is the only rail link in Ahmednagar District. Hence road development plays an important role in economic development of this district. Due to Sugar Factories and other developmental activities in the district, road development is necessary for the linking of villages and towns to market places. During 71-72 Rs. 14.84 lakhs were spent on the road transport while in 72-73, Rs. 16.07

lakhs were spent as against the budget provision of Rs. 18.95 lakhs i.e. nearly 85 percent expenditure was incurred during 72-73. 18 Kms. district roads and 5 kms. roads in hilly areas were constructed.

4.9 Social services : This development head includes scheme pertaining to 1) General Education and Technical Education, 2) Medical, Nursing, Public Health, 3) Water supply and drainage, 4) Housing, 5) Welfare of backward classes, 6) Social welfare, 7) Labour and Labour welfare, 8) Urban Development. The expenditure on these sub-heads under social services programme during the year incurred/71-72 and 72-73 is given in the following table.

TABLE NO. 4

Expenditure incurred under Social Services Programme

Sr. No.	Sub-Head of Development	Expenditure incurred					
		1971-72			1972-73		
		State	Local	Total	State	Local	Total
1	2	3	4	5	6	7	8
1.	General Education including Technical Education.	39.82	29.43	69.25	52.38	45.18	97.56
2.	Medical, Nursing & Public Health.	2.67	0.83	3.50	2.38	1.17	3.55
3.	Water supply & Drainage	11.26	13.65	124.91	58.63	15.98	74.61

	Total	165.69	46.08	211.77	115.39	64.89	180.28

From the above table it will be seen that during 71-72 Expenditure 211.77 was incurred and during 72-73 Rs. 180.28 lakhs were spent on the sub-heads under social services programme. Each sub-head is described below :

i) General Education : According to 1971 census the percentage of literates in this district was 36.29. The programme under general education includes, normal expansion of primary educa-

education, development of non-Govt. secondary schools, removal of illiteracy P.D.C. education etc. For these above schemes Rs. 69.25 lakhs were spent during 1971-72 and during 72-73 expenditure of Rs. 97.56 lakhs was incurred as against the budget provision of Rs. 99.17 lakhs which comes to 98 percent. During 71-72, 651 additional primary teachers were appointed and during 72-73, 1772 primary teachers were appointed, In addition to this 46 posts of Head Masters were created. The concessions to children of primary teachers were granted to 28,259 pupils in 72-73. 319 primary teachers were granted loans scholarships during 71-72 and in 72-73, 153 primary teachers were granted loan scholarships.

ii) Medical, Nursing & Public Health : The expenditure on this sub-head was Rs. 3.50 lakhs during 71-72 and Rs. 3.55 lakhs during 72-73 which comes to 97 percent of the budget provision Rs. 3.69 lakhs. This expenditure was incurred mainly on the facilities in Civil Hospital and for the construction of buildings of Public Health Centres.

iii) Water Supply & Drainage : This head covered the urban and rural water supply schemes. Ahmednagar water supply scheme has already been completed in all respects. The expenditure incurred on this sub-head was Rs. 124.91 lakhs and Rs. 74.61 lakhs during 71-72 and 72-73 respectively. Under Rural water supply 664 wells were constructed during 71-72 & 111 wells were constructed during 72-73. In addition to 274 Bores were taken up.

iv) Housing : Two schemes mainly extension of village gaathan & village housing project were implemented under this sub-head. The expenditure of Rs. 8.21 lakhs was incurred during 71-72 while in 72-73 the amount of Rs. 0.15 lakh was spent on these schemes.

v) Welfare of Backward Classes : All the schemes included under this sub-head pertain to development of Backward classes. The schemes covered 1) grant of scholarships, tuition fees etc. 2) Grant to B.Cs. Hostels, 3) Construction of new irrigation wells, 4) Housing aid to B.Cs. The expenditure incurred on these scheme was Rs. 3.47 lakhs and Rs. 2.41 lakhs during 71-72 & 72-73 respectively. 385 students were granted scholarships, examination fees etc. 27 Hostels were given grants, 83 wells, constructed for B.C. agriculturists and 30 Houses were constructed for B.Cs. during 72-73.

vi) Labour & Labour Welfare : Under this sub-head the scheme of Industrial Training Institute at 1) Ahmednagar, 2) Shevgaon is covered. During 71-72 Rs. 2.16 lakhs were spent and during 72-73 Rs. 1.39 lakhs expenditure was incurred as against the budget provision of Rs. 1.52 lakhs which comes to 91 percent of budget provision. The intake capacity of I.T.I. was 584 students.

vii) Urban Development : Financial assistance to the tune of Rs. 61,000 was given in 1972-73 to one municipal council for implementation of development plans. This expenditure was 76% of the budget allotment.

viii) Miscellaneous : Under this head ^{scheme} schemes of rural broad-casting and employment guarantee were implemented. The expenditure incurred was Rs. 0.43 lakhs and Rs. 5.92 lakhs during 71-72 & 72-73 respectively. 133 radio sets were installed during 71-72 and during 72-73, 11 radio sets were installed. The employment guarantee scheme was implemented mainly in Akola taluka of this district as the remaining tahsils were covered unless scarcity.

4.11 Centrally sponsored Schemes : In addition to the State Plan schemes, 21 Centrally sponsored schemes under various sub-head of development, at the cost of Rs. 107.39 lakhs were implemented during the year 72-73. Major head wise expenditure

is given in the following table.

TABLE NO. 5

Major Head-wise expenditure in 1972-73 under Centrally Sponsored

<u>Programme</u>		<u>(Rs. in lakhs)</u>		
<u>Sr. No.</u>	<u>Head of Development</u>	<u>Expenditure</u>		
		<u>State</u>	<u>Local</u>	<u>Total</u>
<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>
1.	Agril. Programme	-	-	-
2.	Minor Irrigation	24.72	25.37	50.09
3.	Coop. & C.D.	-	1.58	1.58
4.	Social Services	0.01	42.03	42.04
5.	Miscellaneous	0.18	13.50	13.68
	Total	24.91	82.48	107.39

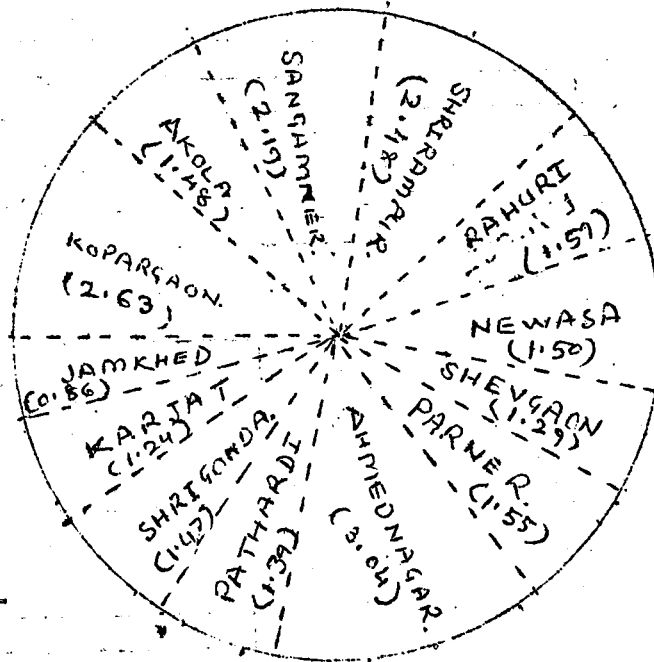

Some of with mentioning schemes are 1) Drought prone area programme, 2) Family Planning, 3) Crash Scheme for rural employment, which ^{are} reviewed below :

i) D.P.A.P. : This scheme comes under minor irrigation sub-head of development which is implemented in both sectors. The expenditure incurred on the scheme was Rs. 50.09 lakhs out of which Rs. 25.37 lakhs were spent on Local sector. 8 Irrigation tanks, 17 percolation tanks were completed under this scheme.

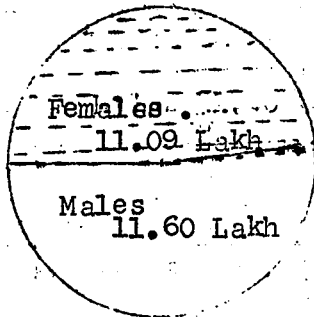

ii) Public Health : Under major head social services and sub-head public health schemes like family planning, small pox, eradication, Cholera control were implemented. The expenditure incurred on these schemes was Rs. 36.63 lakhs during 72-73 and 23739 family planning operations were performed.

Under the head miscellaneous 'Crash Programme for rural employment was implemented. This scheme is applicable to 6 blocks in this district. The expenditure incurred was Rs. 2 13.50 lakhs as against the provision Rs. 13.50 lakhs during 72-73 i.e. the whole amount is spent on this scheme.
