SOCIO ECONOMIC REVIEW 1972-73

---

1. Chapter-I.

1. Introduction:

1.1 Introduction & Location:

Bhir district was known to history as Asmaka during Vedic, Epic and Puranic ages. Panini refers to Asmaka which included a portion of modern Bhir district. In the days of Pandvas, it was known as Durgavati and later on during the regime of queen Champavati it was named as Champavatinagar, it was ruled by the Andharas, Chalukyas, the Rashtrakutas and the Yadvas and subsequently went under the rulers, of Delhi. At the time of Mohamed Tughlak, the district was named as Bhir. The history of its name is rather shrouded in mystery. The district is strewn with ancient religious places, the notable amongst them being (1) Kankaleshwar temple (at Bhir town), (2) Yogeshwari temple (at Ambejogai town), (3) Vajjnath temple (at Parli town). The Vajjnath temple of Parli referred to above is one of the twelve jyotirlingas.

At the advent of modern period of history the Bhir district was in the erstwhile Hyderabad state. Following the reorganisation of states in 1956, the district of Bhir along with other districts of Marathwada became a part of the then Bombay state, which was bifurcated in 1960 to constitute the present Maharashtra State.

The eastern portion of the district is situated in the central part of Marathwada. It lies between  $18^{\circ} 28'$  to  $19^{\circ} 27'$  north latitude and  $74^{\circ} 54'$  to  $76^{\circ} 57'$  western longitude, with a total geographical area of 11,227 sq. kms.

1.2. Boundaries:

The district is bounded on the north by Aurangabad and Parbhani district, and on the east by the southern portion of Parbhani district. On the west, lies Ahmednagar district.

The district has natural boundaries carved by rivers, the Godavari in the north and Manjra on the southern side.

1.3. Administrative set up:

The geographical area of the district is 11,227.0 sq. kms. which is more or less distributed over 7 tahsils constituting the district. The district is divided into two sub-divisions namely Bhir and Ambejogai comprising four and three tahsils respectively. The details of distribution of tahsil, area and population according to 1971 Census are given as below:

Sr. No.	Sub-Division.	Tahsil	Area (Sq.Kms.)	Population (1971)
1	2	3	4	5
1.	Bhir	1. Bhir	1,439.2	2,06,173
		2. Patoda	69.2 1,321.2	1,20,638
		3. Ashti.	1,453.3	1,36,232
		4. Georai.	51.8 1,548.7 52.4	1,70,117
2.	Ambejogai.	1. Ambejogai.	1,599.8	2,64,004
		2. Kaij.	54.4 1,730.9	2,10,434
		3. Manjlegaon	60.9 1,504.7 35.3	1,78,523
Total	2	7	11,227.0	12,86,121

Since the total area figures in respect of district is supplied by the Surveyor, General of India while the total area figures in respect of tahsils are given by the State Land Record Department, therefore the total of Rural areas of the tahsils do not add up to the corresponding figure of the district.

The District Collector is the administrative head of the district. He also acts as the coordinating agency at the district level amongst different district officers. The Sub-divisions are under the control of Deputy Collectors. Besides this the Collector is assisted by Resident Deputy Collector and few more Deputy Collectors at the district headquarter. Tahsildars are in charge of Tahsil area.

The district comprises of seven towns (where local Municipalities are functioning) and 1,028 inhabited villages with a population of 1,49,301 and 11,36,820 (in all 12,86,121) according to 1971 Census respectively.

It can be seen that majority of the inhabitant villages fall under villages having less population upto 2,000 only. Every town has a Municipality and all the villages are covered by Gram Panchayats/Group Gram Panchayats. During 1972-73 there were seven Panchayat Samities and 906 Gram Panchayats functioning including Group Gram Panchayats in the district. The Zilla Parishad has 65 members out of which 47 were elected, 4 were associated 2 Ex-officio members and the remaining 12 were coopted. Every Panchayat Samiti had a Chairman and Deputy Chairman. The Chairman of the Panchayat Samiti is an ex-officio member of Zilla Parishad. The Zilla Parishad is divided into twelve sections and there were different committees to help the president of Zilla Parishad in discharging official duties.

1.4. Area :

The geographical area of this district as per 1971 Census is 11,227 sq.kms. out of which 10,903 sq.kms. is rural and 324 sq.kms. is urban. The area under urban towns was more prior to 1961 Census since there were 8 Municipalities. The Pangal municipality in Ambejogai tahsil was de-urbanised in 1961 Census and thus the urban area was reduced. This district ranks (14) th and (4) th in the state and Marathwada Region respectively in terms of area. Similarly the district ranks 23,rd in the state in terms of population. As compared the area under the tahsils within the district Kaij tahsil ranks first followed by Ambejogai, Georai, Patoda. Since a decade there were no territorial changes in the district and hence area of the district remained as it is.

1.5. Topography:

The district is partly table land and partly inbroken country with elevations between 300 to 900 metres. The hill

60  
ranges of Balaghat spread over in the central part of the district. Conditions in general in the western part of the district comprising, Bhir, Patoda and Ashti taluka are not favourable as in the eastern part which possesses more fertile soils and receives assured rainfall. A portion of the district on north and south side is plain. Due to the ranges of Balaghat the district is divided into uplands locally called "Gangathadi" some portion of Kaij and Ambejogai taluka is also touched by these ranges.

#### 1.6. Hills, Rivers and Soil :

The central part of the district is a hilly tract occupied by Balaghat ranges and the major part of Patoda and Ashti talukas is covered by the hills and appears deserted, when compared with Kaij and Ambejogai talukas. The Balaghat ranges are spread over the northern part of Ashti taluka, most of Patoda and central part of Bhir taluka. The main rivers of the district are Godavari, Manjra, Sindphana, Kundka, Bindusara, Wan and Sina. Manjra rises from the hills of Patoda. Rivers Kundka, Wan, Sindphana rise from Balaghat hills. The small rivers in the district are Mehkari, Kamli and Kadi.

The entire district is situated in the trap region and its soils are mostly fertile black cotton soils, especially so in Georai and Manjlegaon talukas. Deep, medium and shallow soils are also prevalent in the district. They are dark gray to black in colour, blacky in structure and clayey in texture. The soils are retentive of moisture. They become sticky when wet and crack freely in the dry weather. The soil from the western part of the district indicates the existence of salt to the extent of 0.5%. The soils along with the banks of Sindphana, Godavari and Manjra, are more fertile and are useful for any kind of crop. Nearly half of the cultivable area of the district is generally cropped under kharif crops. Jowar, Bajra and Wheat are most important food crops of the district. Other crops included groundnut, rice, pulses, safflower, cotton & sugarcane.

### 1.7 Climate:

The geographical and climatic conditions of the district have greatly influenced, its economic and social life. The climate of the district is pleasant and agreeable during the greater part of the year. Patoda and Kaij talukas have cool climate even in summer. The village Chincholi, in Patoda has highest elevation from the sea level and its weather in summer season is akin to that of hill station. Among all the taluka, climate of Ambejogai is very pleasant and Chest and General Hospital was started there mainly on climate consideration. The climate of Bhir, Manjlegaon and Georai on the low lands is warm and humid.

### 1.8. Temperature:

During the year 1971 the maximum temperature of 42.4 C° was recorded in May as against the maximum temperature of 43.4 C° recorded in the same month of 1972. The minimum temperature during the year 1971 and 1972 was 6.0 C° and 4.4 C° respectively. Thus the temperature for the district on an average was 25.8 C° during the year 1971 as against 24.4 C° in 1972.

### 1.9. Rainfall:

As per the topography, the district is divided into high and low level tracts by the central ghats running through Bhir and Patoda taluka tahsils. The rainfall is not uniformly distributed during the monsoon. The rainfall during the year 1972 was insufficient as compared with the past. The highest rainfall received in Ambejogai tahsil during 1972 is recorded as 466.2 mm. whereas the highest rainfall was recorded in Manjlegaon tahsil in 1971 was 729.9 mm. The insufficient rains in 1972 damaged the prospects of the crops. Tahsils situated in eastern part of the district, received generally assured rainfall during the monsoon period which starts in June and continues till October. In the year 1971 the rainfall for the district on an average was 528.7 mm. whereas it was 260.6 mm. in 1972. The

The statement showing the actual rainfall recorded at the selected centres in the district during 1971 and 1972 is as under.

Statistics of rainfall recorded at the raingauge in the district during 1971 and 1972.

Sr. No.	Name of the selected centres.	Rainfall in mm.	
		1971	1972
1.	Bhir	627.0	341.0
2.	Chousala	454.9	148.5
3.	Georal	526.7	314.4
4.	Manjlegaon	729.9	342.8
5.	Ambejogai	470.0	466.2
6.	Kaij	537.0	360.0
7.	Fatoda	543.6	198.4
8.	Rooti.	373.0	5.2
9.	Ashti.	446.2	168.6
Average Rainfall		528.7	268.6

The above statement shows that the average rainfall in the district in 1972 was lesser by 268.1 mm. as compared to that in 1971.

\*\*\*\*\*

Chapter - II.

Explanatory note on scope and limitations of Statistics presented in the District Statistical Abstract: 1972-73.

\*\*\*\*\*

2.1 The yearly publication of the District Statistical Abstract for the year 1972-73 is the 11 th issue since the 1 st issue was published in 1958-59. The yearly publication consisting of exhaustive statistics about important features including socio-economic indicators of the economy have been presented. Since the District Statistical Abstract covers many important subjects it is very useful, for research and planning. The data in this publication is collected from the various departments of state Government, Government of India, Reserve Bank of India and Local Bodies etc. A foot note to that effect is given at the bottom of each table.

2.2. District At a Glance:

Figures presented in the statement of district at a glance for this district are in comparison with the Aurangabad Division. The reference period is the same for the District and the Division.

2.3. The scope and limitations of the statistical information presented herein is explained in brief in the following paragraphs.

2.4. Area and population:

2.4.1. The data of 1971 population census is presented along with the information pertaining to variation in population data in the two decades i.e. 1951 and 1961.

2.4.2. Figures of 1971 Census population are presented in table No.1 giving talukawise figures of area, rural and urban population, number of occupied residential houses as well as total number of households, males and females population, population per square kilometre as well as percentage variations over 1951 census is also depicted in the table No.1 and 2. Information of villages according to population ranges as per 1971 Census is shown in table No.3. It also gives information of total number of villages inhabited and uninhabited separately. Towns, classified as per population range are shown in table No. 4. Table No. 5 presents the tahsilwise figures of various

workers based on livelihood classes and non-workers existing in the district. The figures are sub-divided into rural and urban sectors. Distribution of population according to age group, mother tongue and religion etc. is indicated in table no. 6 as per 1971 Census, and population of scheduled castes/scheduled tribes is presented in table No. 7.

#### 2.5. Climate and Rainfall:

2.5.1. Information of actual rainfall recorded at the selected centres in the district and the number of rainy days ~~has~~ have been shown in table No. 8. Monthwise details of the selected centres for (1) Beoral (2) Manjlegaon (3) Ashti (4) Bhir (5) Patoda (6) Chousala (7) Ambejogai (8) Rooti and (9) Kaij are given. The normal rainfall recorded for each centre is the average rainfall of prolonged period usually of eighty years.

2.5.2. Figures reported in table No. 9 gives monthly maximum, minimum and yearly temperature at one selected centres i.e. Bhir in the district for the year 1972.

#### 2.6. Agriculture:

2.6.1. Agriculture is the predominant economic activity of the district. The statistical table No. 10 to 21 give total geographical area, area under different crops, area irrigated with the different sources, number of irrigation wells in use, tanks, minor/major/medium irrigation works etc. The cropping pattern can also be seen.

2.6.2. Agriculture statistics is obtained mainly from the annual season and crop report of the district for the year 1970-71 and 1971-72. All the figures in table No. 10 to 15 for the year 1971-72 are provisional.

2.6.3. Land utilisation statistics is presented in table No. 10 and table No. 11 gives details of cropwise area in each taluka for both the years i.e. 1970-71 and 1971-72. Estimated information in respect of out-turn and average yield rate per hectare of principal crops of the district is given in table No. 12. Net area irrigated with different irrigational facilities available in the district is depicted in table No. 13, whereas irrigated area under different principal crops in each taluka is reported in table No. 14.

102

Number of wells in use/not in use and other wells, such details are given tahsilwise in table No.15. The table No.16 and 17 give information about minor irrigation works as well as medium and major projects in each taluka. Agricultural wage rates presented in table No.18 are of the three selected centres from the district, and table No.19 indicates data relating to different types of agricultural implements/equipments and machinery in use in each taluka. Information on famine and history of scarcity is given in table No.20 & 21 respectively.

2.7. Animal Husbandry, Forest and Fisheries:

2.7.1. The tables 22 to 25 furnish the statistical data about different categories of livestock and poultry in the district as per the quinquennial livestock census conducted in 1972. In table No.22 livestock data of all categories is shown, while table No.23 furnishes the information regarding veterinary facilities available in each tahsil of this district during 1972-73. The details of disease-wise livestock mortality is presented in table No.24 while table No.25 presents statistics relating to number of recognised slaughter houses and animals slaughtered.

2.7.2. Forest:

Data on forest area under different ranges, the quantity of minor and major forest produce and estimated cost of the forest produce of 1972-73 is presented in table No.26-A and

26-B.

2.8. Employment, Industry, Mining and Electricity:

2.8.1. Industry and Employment:

Statistical information pertaining to factory statistics registered under factory Act 1948 is presented in table No. 27, 28 and 29. The types of factories covered with its details are as under (1) Factories using power and employing 10 or more workers, (2) Factories not using power but employing 20 or more workers, (3) Factories not covered in 1 and 2 but notified by the Government as covered under the factory Act.

2.8.2. The details of each type of industry, the total number of working factories and number of mandays worked during the Year under report as well as average daily employment class

ified by males and females separately is depicted in table No. 27. The classification of industries is based on standard classification. Information in table No. 28 and 29 indicates the distribution of factories according to their working strength and the distribution of factories according to number of days worked respectively. The information regarding annual survey of Industries is furnished in table No. 30.

2.8.3. Employment Exchanges statistics:

Table No. 31 and 32 gives employment exchange statistics of the district while table No. 33 indicates the volume of employment in different industries.

2.8.4. Information of total strength of state Government servants classified into Class-I, II, III and IV categories is presented in table No. 34 and 35. The information gives details of State Government staff categorywise as well as pay range wise for the district. The information is reproduced as per the employees census conducted by the Bureau of Economics and Statistics, Bombay in the year 1966.

2.8.5. Figures of electricity generated, consumption for domestic, commercial, industrial, public lighting and other purposes etc. is depicted in table No. 36 and table No. 37, gives number of towns and villages electrified and population covered in Bhir district upto 31 st March 1973.

2.9. Co-operation:

This section deals with various activities of the co-operative movement compiled in 8 tables which indicates the Progressive achievement of the cooperative movement. An abstract of the different types of cooperative societies in existence in Bhir district is presented in table No. 38 and number of co-operative Banking facilities with total membership, share capital, reserve funds, working capital and amount of loans advanced (short term, medium term and long term) etc. is given in table No. 39. Details of primary agricultural credit societies functioning in each tahsil is depicted in table No. 40 and table No. 41 gives data about other cooperative societies of different types in the district. Operations of the central and Primary cooperative marketing societies are shown in table

No. 42 and details of other different types of societies in the district are reported in table No. 43. Activities of the regulated markets in each tahsils are shown in table No. 44. Table No. 45 gives information regarding registered money lenders and loans advanced by them during the year under report.

#### 2.10. Medical and Public Health:

The medical and public health statistics is presented in 5 different tables. Medical facilities made available through public and public aided bodies shown in table No. 46. Number of births and deaths registered are given in table No. 47 and number of deaths reported due to various important reasons/causes in table No. 48. Table No. 49 and 50 presented information pertaining to vaccination statistics and family planning activities respectively.

#### 2.11. Education:

Education statistics are displayed in 7 tables. The total strength of male and female literates with presentage both from rural and urban parts is shown tahsilwise in table No. 51. The data on the education in urban and rural areas is indicated in table No. 52 and 53 as per 1971 Census. Information appearing in table No. 54 indicates educational institutions of different categories catering the needs of the district alongwith total enrollment of boys and girls and number of teachers both trained and un-trained. Information regarding beneficiaries from backward classes is given in table No. 55 and concession of free education availed by the economically backward class communities is presented in table No. 56. Amount released to various educational institutions by way of grants-in-aids is shown in table No. 57.

#### 2.12. Transport and Communications:

The section deals with upto date statistics relating to facilities of the various modes of transport available in the district. The details of railway length according to different types of rail guages in the district are presented in table No. 58. The road length according to the different categories as well as the types of surface of roads can be seen in table No. 59. Number of motor vehicles operated in

Aurangabad Division are presented in table No. 60, as the separate information pertaining to Bhir district is not readily available. The details of operational statistics is included in table No. 61, giving nationalised road transport according to State Transport Divisions of Aurangabad and Nanded since Bhir district is covered under the above two S.T. Divisions. The traffic census on important roads constructed by B. & C. Department in Bhir district is shown in table No. 62, whereas growth of postal facilities availed by the rural and urban area of this district for the year 1961-62, 1965-66, 1970-71, 1971-72 and 1972-73 is given in table No. 63. Development of rural broadcasting in the district is shown in table No. 64.

### 2.13. Local Bodies:

The sub-section 'Local Bodies' deals with the upto-date statistics about village panchayats, municipal councils and Zilla Parishad of this district. Income and expenditure of the local bodies is given in table No. 65 for the year 1965-66, 1968-69 to 1972-73. The total number of Gram Panchayats existing in the district along with <sup>the</sup> total number of villages covered by Gram Panchayats as well as income and expenditure of the Gram Panchayats is shown in table No. 66. The upto-date information of headwise receipts and expenditure of Zilla Parishad, Bhir is depicted in table Nos. 67-A, 67-B and 67-C. While income and expenditure of the seven Municipal Councils is shown in table No. 68 for the year 1972-73.

### 2.14. Plan and Community Development:

Statistical data regarding plan and community development is presented in table Nos. 69, 70, 71, 72 and 73 and the details of expenditure and physical achievements under various schemes included in the Annual Plan for the year 1972-73 are shown in table No. 69 and 70 respectively. The table No. 71 gives particulars of the C.D. Programme implemented in the district. The entire rural area of the district is covered by the C.D. Programme. Expenditure incurred out of the C.D. scheme funds in different stages by the blocks is reported in table No. 72 and the physical achievements under selected items by all the blocks (stagewise) operating in this district is presented in table No. 73.

## 2.15. Prices:

This section gives details about fluctuations in the prices of essential commodities in the district. The wholesale prices of the important agricultural commodities at regulated markets are indicated in table No. 74. The prices are collected from three different selected rural centres and of the district head quarter. The prices of all such commodities at district headquarter are given in table No. 75 for the year 1972. Details of consumer prices index for the working class of the said year can be seen in table No. 76 with 1961 as base year.

## 2.16. Judicial and Administrative:

Judicial statistics, existing strength of police force and crime statistics for the district is furnished in this section.

## 2.17. Miscellaneous:

Cinema statistics, Banks and Joint Stock companies, details of insurance policies, collection of small savings, collection of land revenue etc. are given in table No. 80, 81, 82, 83, 84, 85 and 86 respectively and number of votes polled by each party in the last general election and mid-term elections for State Assemblies and Parliament constituencies are reported in table No. 87. Table No. 88 is the summary table indicating trends in the selected items in respect of (1) Area and Population (2) Agricultural and Irrigation (3) Soil conservation (4) Agriculture implements and Livestock, fisheries (5) Factory employments (6) Electricity (7) Co-operation (8) Education (9) Medical and public health (10) Transport and Communication (11) Community Development (12) Local self Government and banking etc.

CHAPTER - III  
AN ANALYTICAL REVIEW

3. This chapter deals with important selected indicators of the district for the sake of comparative study.

3.1. Percentage of gross cropped area to net area sown.

The indicator shows the extent of double cropped area in relation to the net cropped area of the district. The gross cropped area went up steadily from 8,03,959 hectares in 1965-66 to 8,12,431 hectares in 1971-72. The gross cropped area of Manjlegaon, Ambejogai and Patoda tahsils show similar trend. On the contrary it is observed that the gross cropped and net cropped area have been decreased by 60,687 hectares and 37,912 hectares respectively in 1971-72 than in 1961-62. Inadequate irrigation facilities, unassured rainfall and less fertile soil were the dominant factors for low proportion of double cropped area.

Percentage of gross cropped area to net cropped area.

Sr. No.	Tahsil	Percentage of gross cropped area to net cropped area		
		1961-62	1965-66	1970-71
1	2	3	4	5
1.	Bhir	111.2	106.7	106.4
2.	Georai	106.1	108.6	100.0
3.	Manjlegaon	100.9	108.0	106.9
4.	Ambejogai	100.9	104.6	104.9
5.	Kaij	103.7	103.0	100.9
6.	Patoda	112.7	111.6	100.9
7.	Ashti	110.7	107.2	103.7

During 1961-62, 1965-66 and 1971-72 the percentage of gross cropped area to net cropped area sown of the district was 105.9 %, 106.8% and 103.4 % respectively. In 1961-62 & 1971-72 Manjlegaon tahsil has increased its gross cropped

area to net area sown from 100.9 % to 106.9% which is the highest in Bhir district.

### 3.2. Productivity of important crops:

The following table shows the yield per hectare and productivity of important crops in Bhir district.

Sr. No.	Important crop.	Yield per hectare in Kg.			Out turn in '00' M. tons		
		1961-62	1965-66	1971-72	1961-62	1965-66	1971-72
1	2	3	4	5	6	7	8
1.	Rice	603	341	268	49	34	11
2.	Wheat	371	258	376	155	102	254
3.	Jowar (K.)	542	408	273	455	334	1019
4.	Jowar (R.)	559	486				
5.	Bajra	286	206	145	256	215	27
6.	Gram	346	232	303	119	58	124
7.	Tur.	252	205	220	59	39	29
8.	Sugarcane	4638	8673	3913	111	153	90
9.	Cotton	108	64	85	464	222	72
10.	Groundnut.	787	449	226	( In '00' Bales )		
					557	314	53
11.	Chillies.	481	499	415	27	29	17

3.2.2. As a result of drought conditions and failure of kharif and Rabi crops, the productivity and yield per hectare of all the important crops except wheat shows decreasing trend in 1971-72 as compared to productivity and yield per hectare in 1961-62. An upward trend in productivity and yield per hectare is observed in respect of wheat and gram crops only in 1971-72. The yield of sugarcane per hectare went up steadily from 4638 Kg. in 1961-62 to 7261 Kgs. in 1970-71 while it has shown diminishing trend in 1971-72 i.e. 3913 Kgs. The yield as well as outturn of wheat crop went from 371 Kgs. to 376 Kgs. and 15,500 m. tons to 25,400 m. tons in 1961-62 and 1971-72 respectively.

3.2.3. The yield rate has been severely affected particularly of jowar. It is observed that the jowar yield ~~has~~ has diminished from 1101 Kgs. in 1961-62 to 273 Kgs. in 1971-72. Similar trend is noticed in respect of yield of cotton, tur and gram etc.

3.2.4. Outturn of sugarcane, rice, bajra has decreased considerably in 1971-72 as compared with the outturn in 1961-62. Outturn of the above crops registered in 1971-72 is 9,000, 1,100 and 2,700 metric tonnes as against 11,100, 4900 and 25,600 m. tons in 1961-62 despite of adoption of measures like improved agricultural practices etc.

### 3.3. Gross value of Agricultural Production:

3.1. The gross value of all the important agricultural commodities noted below went up from Rs. 15,57,68,900 in 1961-62 to Rs. 16,14,77,700 in 1971-72 <sup>despite of</sup> ~~of~~ low outturn of major commodities like jowar, cotton, rice etc.

3.3.2. Trend in the prices and gross value showing increase or decrease, commoditywise is given below :

Sr. No.	Commodity	Average price per metric tonne (Rs.)		Gross value in Rs. '00'	
		1961-62	1971-72	1961-62	1971-72
1	2	3	4	5	6
1.	Jowar	400	843	7,65,600	8,59,017
2.	Wheat	585	897	90,675	2,27,838
3.	Bajra	446	816	1,14,176	22,032
4.	Gram	427	1,341	50,813	1,66,284
5.	Tur	404	1,153	23,836	33,437
6.	Sugarcane	388	1,368	43,063	1,23,120
7.	Cotton	910	1,752	76,440	22,776
8.	Groundnut	633	1,241	3,52,531	66,773
9.	Chillies	1,500	5,500	40,500	93,500

It is clear from the above table that the price level of jowar, wheat, bajra, cotton, groundnut, chillies, gram, tur and sugarcane commodities has increased tremendously in 1971-72 as against the prices in 1961-62.

### 3.4. Percentage of gross irrigated area to net irrigated area

3.4.1. Taking all sources of irrigation, nearabout 52,747 hectares of land was covered under net irrigated area in 1971-72. The net area irrigated in 1961-62 was 39,398 hectares which means nearabout 13,349 hectares of land have been added. Net area irrigated in Ashti is noteworthy, as the net area irrigated in 1971-72 is 18,189 hectares as against 9,553 hectares which works out to 34.5 % of the district in 1961-62. Net area irrigated in Manjlegaon tahsil has shown decreasing trend. The net irrigated area in Manjlegaon tahsil has decreased from 10,037 hectares in 1960-61 to 4,121 hectares in 1971-72. The gross area irrigated in the district has increased from 44,171 hectares in 1961-62 to 65,739 hectares in 1971-72. Patoda tahsil ranks 1st by way of achieving 149.3 percent of gross irrigated area to net irrigated area followed by Bhir by 145.4 % in 1971-72. Georai and Kaij tahsils have shown decreasing trend in percentage of gross irrigated area to net irrigated area. The percentage of gross irrigated area to net irrigated area registered in 1961-62 was 112.1 % whereas it works out to 124.6 in 1971-72.

Gross and net irrigated area in Bhir district  
(Area irrigated in hectares):

Sr. No.	Tahsil	Gross		Net		% of gross to net.	
		1961-62	1971-72	1961-62	1971-72	1961-62	1971-72
1	2	3	4	5	6	7	8
1.	Bhir	10,773	12,006	7,728	8,255	139.4	145.4
2.	Georai	1,904	3,671	1,904	3,671	100.0	100.0
3.	Manjlegaon.	10,037	4,302	10,037	4,121	100.0	104.4
4.	Ambejogai	2,138	5,894	2,138	5,799	100.0	101.6
5.	Kaij	2,999	4,483	2,554	3,946	117.4	113.6
6.	Patoda.	6,767	13,088	5,484	8,766	123.4	149.3
7.	Ashti.	9,553	22,295	9,553	18,189	100.0	122.6
Total		44,171	65,739	39,398	52,747	112.1	124.6

The above-figures give the picture of gross and net area irrigated and percentage of gross irrigated area to net area for the years 1961-62 and 1971-72.

### 3.4.2. Percentage of net irrigated area to net area sown

At present about 52,747 acres or about 6.7 % of the net cropped area have the irrigation facilities.

Net area irrigated and net area sown in '00' hectares

Sr. No.	Items	1961-62	1965-66	1971-72
1	2	3	4	5
1.	Net area sown	8,239	7,523	7,250
2.	Net area irrigated.	394	515	327
3.	% of net area irrigated to net sown area.	4.5	6.8	6.7

The net area irrigated has increased in 1971-72 as compared to the year 1961-62 due to construction of dams and digging of new wells in the district. Despite of reduction of net sown area in 1971-72 over the year 1961-62, i.e. near about 37,900 hectares, the percentage of net area irrigated to the net area sown has increased from 4.5 % in 1961-62 to 6.7 % in 1971-72.

### 3.5. Changes in the crop pattern:

The area brought under total food crops was 6,50,552 hectares in 1971-72 as against 6,50,689 hectares in the year 1961-62. The percentage coverage of the area under total food crops to the total gross cropped area works out to 80 % in 1971-72 as against 74.5 % in 1961-62. The table below shows the area under food crops, non-food crops and its percentages etc.

#### Crop pattern in Bhir district. (2000' hectares)

Sr. No.	Items	Area in		
		1961-62	1965-66	1971-72
1	2	3	4	5
1.	Total food crops	651	611	650
2.	Total non-food crops	222	193	162
3.	% of total food crops to gross cropped area.	74.5	76.0	80.0
4.	% of total non-food crops to gross cropped area.	25.5	24.0	20.0

The area under non-food crops has decreased in the years 1965-66 and 1971-72, over the year 1961-62. The percentage of total non-food crops to gross cropped area in 1961-62 was 25.5 % whereas it works out to 24.0 % and 20.0 % in the year 1965-66 and 1971-72 respectively. The area under food crops has increased in Manjlegaon, Patoda and Kaij tahsils while it has decreased in Georal, Ashti, Bhir and Ambejogai tahsils in 1971-72 as against 1961-62. Area covered by non-food crops has decreased in all the tahsils of the district in 1971-72 as compared with the area in 1961-62, the percentage being 27.2. The highest percentage of decreased non-food crops area is observed in Georal and Manjlegaon tahsils, i.e. 38.8 % and 38.2 in 1961-62 to 28.6 % and 35.5 in 1971-72 respectively and lowest in Ashti and Patoda tahsils, i.e. from 11.4 % and 15.1 in 1961-62 to 13.2 % and 8.4 in 1971-72 respectively.

3.5.3. The area under total food crops was three fourth in 1961-62 which increased to fourth fifth of the gross cropped area in 1971-72. Area under total food crops decreased considerably in 1965-66, i.e. from 6,50,689 in 1961-62 to 6,11,397 in 1965-66 over the area in 1961-62 but it has increased in 1971-72. Decreasing trend in respect of area under non-food crops is witnessed both in 1965-66 and 1971-72 as against the non-food crops area registered in 1961-62. It went down from 2,22,429 hectares in 1961-62 to 1,92,562 hectares in 1965-66, and again reduced to 1,61,879 hectares in 1971-72. The irrigated area under all food crops shows upward trend both in 1965-66 and 1971-72 as compared with the area irrigated under all food crops in 1961-62. Additional area brought under irrigation of all food crops works out to more than 12,000 hectares and more than 21,000 hectares in 1965-66 and 1971-72 than it was in the year 1961-62. The irrigated area covered under all non-food crops has increased in the years, i.e. 1965-66 and 1971-72 as compared with the irrigated area under all non-food crops registered in 1961-62. The irrigated area under all non-food crops in 1961-62 was 1,935 hectares which went up to 3370 in 1965-66 but decreased to 2239 hectares in the year 1971-72.

### 3.6. Increase in the agricultural credit outstanding dues and gross value of agricultural production:

An overall position of agricultural credit outstanding in the district and the gross value of agricultural production is given below :

Agricultural credit outstanding dues in Bhir district  
(Rs. in lakhs)

Sr. No.	Name of taluka	Agriculture credit outstanding.		
		1961-62	1965-66	1971-72
1	2	3	4	5
1.	Bhir	31	37	69
2.	Georai	15	50	137
3.	Manjlegaon	8	26	83
4.	Ambejogai	13	44	98
5.	Kaij	15	48	94
6.	Patoda	16	23	72
7.	Ashti	10	54	70
District Total.		108	282	623

3.6.2. The outstanding dues in 1965-66 are more than double than the dues in 1961-62 while the amount in 1971-72 is about six times more than in the year 1961-62. The dues against Georai tahsil works out to more than one fifth of the total dues of the district in 1971-72 followed by Ambejogai and Kaij tahsils.

3.6.3. Agricultural production as such has decreased considerably in the year 1971-72 as compared with the agricultural production in 1961-62. The gross value of agricultural production has increased from Rs. 15.53 crores in 1961-62 to Rs. 18.35 crores and Rs. 16.15 crores in the years 1965-66 & 1971-72 respectively. The increase in gross value of agricultural production is due to soaring prices.

### 3.7. Agricultural wage rates:

Agricultural wage rates prevailing at the three different selected rural centres (i.e. Renapur, Kada & Umapur)

in this district were collected.

3.7.1. Agricultural wage rates prevailing at the three selected centres of this district are presented below :

Average (categoriwise) of agricultural wage rates during 1963-64, 1969-70 and 1972-73.

Sr. No.	Category	Centre	Wage rates in Rs.		
			1963-64	1969-70	1972-73
1	2	3	4	5	6
1. Carpenter		Umāpur	2-75	4-27	7-00
		Kāda	3-00	5-00	5-00
		Renapur.	3-00	4-02	4-50
2. Blacksmith.		Umāpur	2-57	4-27	7-00
		Kāda	2-50	5-00	5-00
		Renapur	2-50	4-02	4-04
3. Cobbler.		Umāpur	N.R.	2-42	5-00
		Kāda	N.R.	5-00	5-00
		Renapur	N.R.	3-00	3-25
4. Field-Labour.		Umāpur	1-47	2-29	2-50
		Kāda	1-70	2-06	2-21
		Renapur	1-56	2-92	2-52

It is revealed from the above information that the Wage rates paid to the carpenters increased from Rs. 2-75 in 1963-64 to Rs. 7-00 in 1972-73 which is the highest wage rates prevailed at Umapur while Rs. 4-50 were paid at Renapur centre in 1972-73. Similar wages were paid to blacksmith. Wage rates paid to cobbler at Kāda and Umapur centres i.e. Rs. 5-00 is the highest wage rate in 1972-73 and Rs. 3-25 at Renapur. Wages to the male field labourers were paid @ Rs. 2-52 in 1972-73 at Renapur centre and Rs. 2-21, the lowest wage rates paid at Kāda centre in the same year. It is observed that even within the district, the average wage rates of different categories fluctuated very widely during the years 1963-64, 1969-70 and 1972-73.

### 3.8. Livestock per hectare of land :

Livestock is the major source of power in agricultural industry in India. Comparison of the cultivable area with the bovine population indicates to what extent the bovine population caters the needs of agricultural industry. According to the 1966 Livestock census, the total bovine & ovine population in the district showed an increase by 12.17 10.47 lakhs in 1961 to 10.53 lakhs in 1966 whereas it has decreased to 9.73 lakhs as per 1972 census. Although the bovine population had decreased from 7.45 lakhs in 1961 to 7.21 lakhs and 6.47 lakhs in 1966 and 1972 respectively. Cultivable area per pair of male bovine population over three years worked out to 6.9 and 8.2 hectares in 1966 and 1972 as compared to 7.3 hectares in the year 1961 in the district.

### 3.9. Poultry as compared to population:

The strength of poultry decreased in 1966 and 1972 over that in 1961. Diminishing trend of poultry is reported to 82,431 and 16,892 <sup>lacs</sup> in 1966 and 1972 than the poultry in 1961. The ratio of poultry per thousand of population declined from 239 in 1961 to 156 and 173 in 1966 and 1972 respectively.

### 3.10. Per Capita consumption of electricity :

It is observed that the consumption of electricity has increased from 376.1 thousand K.W.H. in 1961-62 to 2,225.7 thousand K.W.H. in 1965-66 and 12,370.0 thousand K.W.H. in 1972-73 due to demand from industrial sector, rural electrification and commercial purposes etc. The total consumption of electricity has increased by more than five times in 1972-73 over the electricity consumed in 1965-66. The per capita consumption of electricity rose from 0.4 K.W.H. in 1961-62 to 2.2 K.W.H. in 1965-66 and 9.6 K.W.H. in ~~1965-66~~ 1972-73. Electricity is being utilised for the agricultural purposes on a very large scale in 1972-73 whereas it was negligible in the year 1965-66.

3.11. Increase in the number of candidates enrolled in the Employment Exchange and vacancies notified :

There is an increasing trend noticed in the total enrollment of candidates in the year 1972-73 over the total enrollment in 1961-62 and 1965-66. In all, there were <sup>3,555</sup> ~~3,365~~ <sup>5,076</sup> and 5,251 candidates registered in 1961-62, 1965-66 and 1972-73 respectively. An upward trend in respect of percentage of vacancies notified to number of candidates placed in employment was noticed in 1965-66 as compared with 1961-62 but it has declined in 1972-73 as compared to 1965-66. In 1972-73 the percentage of vacancies notified to number of candidates placed in employment works out to 40.3 % whereas it was 71.5 % in 1965-66 and 63.8 % in 1961-62.

3.12. Increase in the indoor and outdoor patients treated in Hospitals and Dispensaries :

Number of indoor patients treated in 1971 has increased by more than thrice and double as compared with the indoor patients treated in 1961 and 1965. It is observed that more than half of the indoor patients treated in the district are from Ambejogai tahsil only. In 1972, there were in all 21,612 indoor patients reported to be treated in the district out of which 13,214 were from Ambejogai. Outdoor patients treated in 1965 and 1972 increased over the year 1961 but they have decreased in 1971. In all there were 6,51,373 outdoor patients treated in 1965 whereas the number has increased to 6,97,716 in 1972.

3.12.2. There were 40 and 45 beds per lakh of population in 1961 and 1965 respectively and in 1971 and 1972 there were 46 and 47 beds respectively per lakh of population. The ratio as regards beds per lakh of population is more in Ambejogai tahsil (i.e. 167) followed by Bhir (i.e. 34) tahsil in the district.

3.13. Increase in the number of students in different categories in Bhir District :

The literacy percentage has increased from 8.0 in 1951 to 15.0 in 1961 and to 24.0 % in 1971.

3.13.2. Primary Education:

By the end of 1966-67 all the inhabited villages were covered by educational facilities by opening primary school in each village of the district. There were 993 primary schools functioning in 1961-62 whereas the number has increased to 1,489 in 1971-72. The total number of students attended in 1961-62 ~~was 65,395~~ were 65,395 whereas the strength increased to 1,00,230 in 1971-72. In 1961-62 near about 23 % of the students were girls students of which the percentage has increased to 27.6 % in 1971-72.

3.13.3. Secondary Education:

Secondary education showed significant progress during the decade. Total strength of institutions in the district went up by four times in 1971-72 over the year 1961-62. Similarly the strength of students (boys and girls) has increased from 11,675 in 1961-62 to 42,724 in 1971-72. The percentage of girl students has increased from 16% in 1961-62 to 19 % in 1971-72. Similarly the strength of teachers increased four times more in 1971-72 than in 1961-62.

3.13.4. Higher Education:

Number of colleges functioning in 1965-66 were three and now there are 9 colleges having 5,540 students in 1971-72 as against 1,351 students in 1965-66. An increasing trend is observed in respect of female students in 1971-72 over the strength of female students in 1965-66. However percentage of female students increased to 6.2 % in 1971-72 as against 6.1 % in 1965-66. The ratio of

teaching staff with the strength of students comes to one teacher per 31 students in 1971-72 whereas it was one teacher per 19 students in 1965-66.

### 3.14. Increase in road length per 100 sq. kms.

Road construction activity shows significant achievement during the decade. In 1960-61 the total road length was 761.8 kilometres which is increased to 1,083.6 and 1,257.4 kms. in 1965-66 and 1970-71 and now it is 3,217.1 kms. in 1972-73. Thus the road length per 100 sq. kms. increased from 7.0 in 1960-61 to 23.6 kms. in 1972-73.

### 3.15. Increase in the banking facilities in proportion to population :

There were only 9 banks functioning in this district in 1962 with a coverage of 99 thousand population only. The number of banks increased to 18 in 1966 and 54 in 1972, which covered 1.13 lakhs and 2.70 lakhs of population in 1966 and 1972 respectively. The average population served per bank works out to 4,994 in 1972 as against 6,266 in 1966.

### 3.16. Average retail prices of Bhir Head quarters.

With a view to assess the trend of price level of all the essential commodities during 1962, 1966 and 1972 at the existing prices at the district headquarters, the following table is furnished below:

Table showing average retail prices of important commodities at Bhir district.

Sr. No.	Commodity	Unit	Average retail prices (in Rs.)			Increase in 1972 over 1962.
			1962	1966	1972	
1	2	3	4	5	6	7
1.	Wheat (medium)	Kilo	0.66	1.22	1.20	0.54
2.	Wheat (Coarse)	"	0.63	1.19	1.09	0.46
3.	Jowar white	"	0.57	0.65	1.09	0.52
4.	Bajra	"	0.54	0.99	1.09	0.55

1	2	3	4	5	6	7
5.	Gram Dal	Kilo	0-64	1-84	1-50	0-36
6.	Arhar Dal	"	0-83	1-29	2-20	1-37
7.	Mung Dal	"	0-87	1-44	2-36	1-40
8.	Sugar	"	1-10	1-33	1-96	0-36
9.					(Controlled)	
9.	Gur	"	0-68	0-77	1-75	1-07
10.	Groundnut oil.	"	1-93	4-46	4-43	2-50
11.	Vanaspati Dalda.	"	3-33	5-82	4-76	1-43
12.	Goat meat	"	2-50	3-75	5-92	3-42
13.	Eggs (Hen)	Dozen.	1-80	2-34	2-80	1-00
14.	Dry chillies.	Kilo	2-48	4-55	4-42	1-94
15.	Kerosene oil.	Litre	0-32	0-52	0-64	0-32
16.	Supari Challiya.	Kilo	7-25	9-05	8-22	0-97
17.	Cigarettes (Berkeley).	10 Nos.	0-31	0-39	0-74	0-43

In general, prices of all the commodities have increased by two times in 1972 over the year 1962. Prices of Arhar dal has increased nearly three times in 1972 as compared to prices in 1962 and more than two times in respect of groundnut oil and dry chillies in 1972.

CHAPTER IV  
\*\*\*\*\*  
P L A N N I N G  
-----  
PLAN REVIEW 1972-73  
=====

4.1. An attempt is made to take review of the Annual plan 1972-73. The year 1972-73 is the fourth year of the IV<sup>th</sup> Five Year Plan with a view to achieve over all development of the district. Five Year Plan are being implemented since 1951. The Budget provision allotted to this district was Rs. 361.44 lakhs out of which Rs. 349.98 lakhs is the expenditure i.e. 96.83 % during 1972-73. The amount of expenditure shared by state sector and local sector is Rs. 217.38 lakhs & Rs. 132.60 lakhs respectively. The percentage expenditure of the state and local sector works out to 62.11% & 37.89 %.

All the plan schemes previously implemented were continued during the year under report and no new scheme was added. In all there were 87 district level schemes of which 40 schemes were implemented through state sector and rest of the schemes through local sector.

4.2. A table showing major headwise expenditure incurred on state sector and local sector schemes during 1972-73 with Percentage expenditure of major head is given below :

TABLE NO. 1

Plan expenditure under major head of development on state & local sector schemes during 1972-73 and its percentage expenditure in Bhir District.

Sr. No.	Major head	Expenditure Rs. in lakhs			Percentage to total expenditure.		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	Agriculture programme	127.73	26.16	153.94	36.51	7.47	43.98
2.	Coop. & Community Development.	16.46	4.03	20.54	4.70	1.17	5.87

1	2	3	4	5	6	7	8
3. Irrigation and power.	-	-	-	-	-	-	-
4. Industries and Mining.	0.12	0.58	0.70	0.03	0.17	0.20	
5. Transport and communication.	-	18.15	18.15	-	5.13	5.13	
6. Social services.	72.38	83.63	156.01	20.63	23.90	44.57	
7. Misc.	0.64	-	0.64	0.12	-	0.12	
8. Total	217.38	132.60	349.93	62.10	37.00	109.00	

The above table reveals that highest percentage of expenditure incurred on district level schemes goes to social services programme i.e. 44.58 % followed by agri. programme i.e. 43.98 %. Most of the schemes covered under agricultural Programme are implemented by state sector and the 83.0% expenditure goes to state sector. Expenditure on social services is considerably more than the rest of the major heads. The schemes under social services are divided into state sector & local sector and the major share is covered by local sector schemes. Expenditure booked on coop. and C.D. is 5.87 % out of which 4/5 th share goes to state sector. All the schemes of transport and communications seem to be implemented by the local sector only <sup>and</sup> thus the local sector has incurred expenditure on road development to the tune of Rs. 18.15 lakhs during the year. As there were no district level schemes from irrigation and power ~~irriga~~ major head, expenditure to the at effect therefore is nil. Sub headwise details of all the schemes are given below:

#### 4.3. Agricultural Programme :

Total expenditure incurred on agricultural programme during 1971-72 and 1972-73 was Rs. 132.97 Lakhs and Rs. 153.94 lakhs i.e. near about Rs. 20.97 lakhs ~~wax~~ more expenditure than the previous year. The sub-headwise expenditure incurred in 1972-73 is as under.

Table No. 2

Sr. No.	Sub-head of development.	Expenditure in lakh Rs.			Percentage to total expenditure		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	Agricultural production.	0.12	7.23	7.35	0.08	4.70	4.78
2.	Minor irrigation.	109.21	18.74	127.95	70.95	12.17	83.12
3.	Soil Conservation.	15.08	-	15.08	9.80	-	9.80
4.	Ayacut Development	2.49	-	2.49	1.62	-	1.62
5.	Animal Husbandry.	-	0.19	0.19	-	0.12	0.12
6.	Dairy Development.	0.05	-	0.05	0.03	-	0.03
7.	Forests.	0.23	-	0.23	0.15	-	0.15
8.	Fisheries	0.10	-	0.10	0.06	-	0.06
9.	Warehousing & Marketing.	0.50	-	0.50	0.32	-	0.32
10.	Total.	127.78	26.16	153.94	83.01	16.99	100.00

It can be seen from the above figures that the highest expenditure is booked on minor irrigation sub-head which forms 82.12 % of the total expenditure of agricultural programme followed by soil conservation 9.80 % and agricultural production 4.73 %. The bulk of the expenditure is incurred by the state sector. The ratio of expenditure comes to  $\frac{85}{15}$  for state sector and local sector.

#### 4.4.1. Agricultural production:

Schemes like improved and high yielding seed, chemical fertilizers, local manures, plant protection, horticulture intensive cultivation and so on which help to give better yield were implemented in this year. The budgeted amount have been fully utilised. Majority of the scheme under this head are local sector schemes.

4.4.2. Reviewing physical achievement under this sub-head, it is observed that 8,496 quintals of hybrid jowar, 221 quintals of improved (variety) jowar 3,041 quintals of wheat, 77 quintals of gram, tur etc. 300 quintals of cottonseed, 99 quintals of oil seeds and 1,060 quintals of other type of seed have been distributed both in kharif and rabi campaigns in 1972-73. The quantum of distribution of hybrid jowar has decreased as compared with previous year while it has improved in respect of seed distribution of wheat, cotton, oil seeds, and bajra etc. With a view to obtain better yield, chemical fertilizers like ammonium sulphate 11 M. tonnes, Super phosphate 17 M. tonnes, Mixtures, 1,167 M. tonnes were distributed. In addition to this 40,570 M. tonnes of composts were prepared and made use of. Near about 43,000 hectares area was covered under seed treatment.

4.5. Minor irrigation:

4.5.1. Irrigation is the life belt of agricultural production and minor irrigation is considered as more economical and suitable to agro-economic development. It is also felt that the imbalance in development of irrigation can ~~xxx~~ be corrected to a large extent by means of creating more minor irrigation facilities. Minor irrigation works were undertaken during 1972-73 and this near about 2,432 hectares additional irrigation potential was ~~xxxxxxxx~~ created. The programme includes construction of new wells, repairs of ~~xxx~~ old wells, installation of pumpsets, construction and repairs of bandharas etc. 83.12 % of expenditure of total Agril. programme was incurred, on minor irrigation works during 1972-73.

4.5.2. As per the programme 28 new wells were constructed, 6 old wells got repaired, 119 pumps are installed and 7 bandharas constructed. The total coverage of creating additional irrigation potential by this programme is 2,432 hectares as against 2,156 hectares in the previous year.

4.6. Soil Conservation:

4.6.1. Bunding works have been carried out on a very large scale. An area of 1,12,505 hectares is bunded during the year.

Out of the total expenditure on Agril. programme 9.80 % of expenditure is incurred on soil conservation. Trees were planted in 73 hectares. / 4.7. Avasut development

4.7. / Programme of land development works was undertaken in 54 hectares and the expenditure incurred there on is 1.62 %

4.8. Animal Husbandry:

Animal husbandry programme was intensified with a view to supplement food requirements. The animal husbandry activities are production-oriented and expected to play a key role in economic uplift of masses. There were 3 Veterinary aid centres and 14 artificial insemination centres catering the needs of the district. The expenditure on animal husbandry was 0.12 percent.

4.9. Dairy Development:

Dairy has created potential for generating employment in rural and urban areas and provided subsidiary occupation. Nine new milk societies were organised and 463 members were added on account of which expenditure incurred was 0.03 Percent.

4.10. Forest:

Afforestation of soil conservation programme was undertaken in 40 hectares and plantation of valuable trees was carried out in 20 hectares. The expenditure incurred was 0.15 percent.

4.11. Fisheries:

The programme under fisheries is important in respect of securing protein and nutritious subsidiary food. Four lakh of carp fry fish were stocked in the tanks. With a view to intensity programme, loans were advanced and 22 Kgs. of nylon twine was distributed. Assistance to 4 societies for purchases of shares, and subsidy to 3 society was granted. Expenditure to the extent of 0.06 percent was incurred.

4.12. Warehousing and marketing:

In order to save the agriculturist from the clutches of the middleman and to provide better prices to the agricultural produce, the programme under warehousing and marketing

facilities was undertaken. Facilities such as market yards, office buildings etc. were provided for which expenditure of 0.32 percent was incurred.

4.12.2. One new market committee have been organised. Loans to two market committees and subsidy to 7 market committees was granted.

#### 4.13. Cooperation and Community Development:

This programme is divided into two sub-heads i.e. co-operation and community development.

TABLE NO. 3

Plan expenditure incurred under cooperation and community development during 1972-73.

Sr. No.	Sub-head of development.	Expenditure in lakh Rs.			Percentage to total expenditure		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	Cooperation	16.46	-	16.46	80.14	-	80.14
2.	Community Development.	-	4.08	4.08	-	19.36	19.86
	Total ..	16.46	4.08	20.54	80.14	19.36	100.00

#### 4.14. Cooperation:

Cooperative activities have been intensified during the year under review and 80.14 % of expenditure was incurred to meet the needs of the agriculturists.

4.14.2. Enrolment of 4,870 as additional members and 2 branches of cooperative financing agencies were opened in the cooperative fold. 31 new labour contract societies having membership of 1,529 were formed. Loans of short term, medium and long term were advanced amounting to Rs. 92.00 lakhs, Rs. 4.65 lakhs and Rs. 17.32 lakhs respectively and the recovery was effected to the extent of 76.3 %.

4.15. Community development:

There are 12  $\frac{1}{2}$  C.P.A. unit blocks functioning in seven Panchayat Samities. Four Applied Nutrition blocks are also in operation in Manjlegaon, Ashti, Bhair and Patoda Panchayat Samities. Composite programme for women etc. being executed in two blocks. Expenditure on community development was observed to 19.86 %.

4.16. Industries and Mining :

As there are no big factories in the district, intensified programme for development of small scale and cottage industries is taken up.

4.16.2. Financial assistance in the form of loans and subsidy was given to small scale industries and the total amount of advance was Rs.70,500.

4.16.3. Eight industrial cooperative societies were organised and 946 memberships were added.

4.17. Transport and Communication:

4.17.1. Expenditure booked on construction of roads was Rs.18.15 lakhs which comes to 5.19 %.

4.17.2. Under the programme roads to the extent of 474 kms. were constructed and 209 kms. of roads were modernised. Eleven kms. of village roads, 47 kms. roads of economic importance and 854 kms. rural roads were constructed. The programme also includes 46 roads provided with C. D. works.

4.18. Social Services:

The programme implemented under this major head are education, health, water supply and drainage, urban development, housing, welfare of backward classes etc. Percentage expenditure booked on social services was 44.53. The schemes of water supply, housing, welfare of backward classes and our welfare were implemented in state sector whereas the schemes of education, simple measures of water supply and welfare of backward class were implemented in local sector.

4.18.2. The sub-headwise expenditure under major head is as under:

TABLE NO. 4

Sub-headwise plan expenditure under social services during 1972-73.

Sr. No.	Sub-head of development	Expenditure Rs. in lakhs			Percentage to total expenditure		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
	1. General Education.	0.12	44.86	44.98	0.07	23.76	23.83
	2. Health and Family Planning.	6.75	30.51	37.26	4.33	19.56	23.89
	3. Water supply & Drainage.	63.74	7.43	71.17	40.86	4.76	45.62
	4. Housing.	1.61	-	1.61	1.03	-	1.03
	5. Welfare of backward classes.	0.02	0.83	0.85	0.01	0.53	0.54
	6. Labour & Labour welfare.	0.14	-	0.14	0.09	-	0.09
	Total	72.38	83.63	156.01	46.39	53.61	100.00

The above table makes it clear that 45.62 percent expenditure was booked on water supply and ~~and~~ drainage followed by 23.83 percent on general education. Emphasis was laid for providing better schooling facilities in rural areas. Expenditure incurred on other sub-heads is comparatively less, 4.19. Under general education, 62 school rooms were constructed, 91 teachers trained and started 22 primary and 9 secondary schools. Enrolment of additional students, 5,360 in primary schools, and 982 in secondary schools have been registered. Development of 30 non-government secondary schools was undertaken and 15 additional teachers in the secondary schools were provided, and programme for upgrading 9 primary cum middle cum high schools was implemented. Loan scholarships to 93 teachers, scholarships to 82 secondary ~~and~~ school students, E. B. C. concessions to 15,661 students and concessions to

20 children of primary teachers were granted. Appointment of one teacher for Hindi and one for age group of 6 to 11, was made. 12 Head masters in primary schools also were appointed during the year.

4.21. Under the medical programme 16 beds were increased, 3 family planning units were started and 4 doctors and 19 Nurses were newly appointed. 24,604 ~~xxxxx~~ sterilisation operations were performed.

4.22. Under the scheme of water supply and drainage 52 drinking water wells were constructed and piped water supply made available to 32 villages. In all 70 villages were benefitted under the rural water supply scheme.

4.23. Twentyone low income groups were formed under the housing scheme benefitting 63 villages and the area covered under this scheme was 161 acres.

4.24. Under the provision of welfare of backward classes, scholarships, tuition fees, and examination fees were granted to 493 students, coming from backward and other backward classes. Financial assistance to 8 industrial cooperative societies of Vimukta Jatis and 2 labour cooperative societies were provided. Financial aid to individual members as well as share capital to cooperative societies of Vimukta Jatis was given. Similarly financial assistance to one Balwadi, 32 B.C. Hostels was granted and aid to 8 cottage industries run by the B.C. and O.B.C. persons was granted.

DISTRICT STATISTICAL ABSTRACT

OF

BHIR DISTRICT

1972-73

C o n t e n t s  
 District Statistical Abstract  
 for the year 1972-73.

Sr. No. of Table.	Subject	Pages Nos.
1	2	3
<b>I. Area and Population.</b>		
1	Talukawise area, Houses and population in 1971 Census.	1
2	Decadal variation in population since 1951	3
3	Talukawise classification of villages according to population ranges in 1971 Census.	6
4	Talukawise classification of Towns, according to 1971 Census.	7
5	Number of workers & Non-workers in each taluka, according to 1971 Census.	8
6	Distribution of population according to (A) Age groups; (B) Mother tongue & (C) Religion.	10
7	Scheduled Castes & Scheduled Tribes, according to 1971 Census.	11
<b>II. Climate.</b>		
8	No. of Rainy days and Total rainfall at selected centres.	12
9	Maximum and Minimum temperature at selected centres.	15
<b>III. Agriculture</b>		
10.	Land utilisation	16
11.	Area under different crops in each taluka.	20
12.	Yield per hectare and output of principal crops	23-25
13.	Area irrigated by different sources in each taluka.	26
14.	Area irrigated under different crops in each taluka.	27
15.	No. of Irrigation and other wells in each taluka.	31
16.	Minor Irrigation works.	32
17.	Major & Medium Irrigation projects.	33
18.	Agricultural wage rates	37
19.	Agricultural implements in each taluka	40
20.	Famine, Scarcity and akin to scarcity data.	41
21.	Determination of precarious & other scarcity areas according to History of scarcity.	44

	(ii) Petrol	116
	(B) Public Carriages.	
	(i) Deisel	2,260
	(ii) Petrol	130
7.	Ambulances.	14
8.	School Buses.	7
9.	Private service vehicles	2
10.	Trailors	847
11.	Tractors	1,105
12.	Others.	17
	<b>Total</b>	<b>16,560</b>

Note:- (1) The figure of taxi cabs is reduced due to the fact that some big taxies of old models have gone off the road.

(2) Region consists of Aurangabad, Parbhani, Bhir, Nanded and Osmanabad Districts.

SOURCE:- Regional Transport Officer, Aurangabad.

TABLE NO. 61

## NATIONALISED ROAD TRANSPORT.

Operation of Maharashtra State Road Transport Corporation during the year 1972-73 (According to S.T. Divisions).

Sr. No.	Item	As on 31-3-1973.	
		S.T. Division Aurangabad.	S.T. Division Nanded
1	2	3	4
1.	No. of Routes as at the end of the year.	405	452
2.	Route Distance ( Km. )	29,327	30,952
3.	Average Route Distance (Km.)	72.41	68.48
4.	Average per day effective kilometres operated.	81,613	97,235 <del>xxx,286</del>
5.	Average No. of Buses held during the year.	387	403
6.	Average No. of Buses on road per day.	321	316
7.	Average vehicle utilization (Km.)	254.36	278.21
8.	Percentage load factor	69.89	72.84
9.	No. of passengers travelled per day.	90,486	1,13,878
10.	Average distance travelled per passenger (Km.)	42.9	27.54
11.	Total traffic receipts during the year (000) Rs.	42,389	45,879
12.	Average earnings per passenger (in paise)	122	110

Note:- (1) The figures reported at Sr. No. 1, 2, 4, 5, 6, 7, (Nanded) 8 and 9 are less than the previous year due to the fact that the prevailing acute scarcity conditions no more routes were operated as well as reduction in schedules.

(2) State Transport, Aurangabad Division consists of Aurangabad district and parts of Bhir & Osmanabad district only. (i.e. Aurangabad-Depot I&II, Bhir, Dharur, Jalana, Osmanabad/Sillod & Vaijapur Depot.)

(3) State Transport, Nanded Division consists of Nanded, Parbhani and partly Osmanabad (five talukas) and Bhir (One taluka) district (i.e. Nanded Depot-I, II, Latur, Jintur, Parli-Vaijnath, Udgir, Bhokar and Kinwat Depots.

**TABLE NO. 70**

Important physical achievements under Plan in Bhir District during the year 1972-73.

Sr. Name of the No. Development sub-head	Items	Units	Physical Achievements.
1	2	3	3
<b>I. AGRICULTURAL PROGRAMME</b>			
1. Agricultural Production.	1. Improved seed distribution.		
	(a) Foodgrains by type	Quintal	3,496
	(1) Jowar	"	321
	*(2) Improved Jowar	"	3,011
	(3) Wheat	"	77
	(4) Others (Gram etc.)	"	300
	(5) Cotton	"	99
	(c) Oil seeds.	"	1,060
	(d) Others.	"	33,936
	*(1) Hybrid Bajra	Hectare	17,500
	*(ii) Hybrid wheat	"	100
	*(iii) Hybrid Maize	"	17,500
	*(iv) Hybrid Rabi Jowar	"	15,034
	*(v) Intensive cultivation practices (Kharif & Rabi)	"	2
	*(vi) Pilot Demonstration	Number	2
	2. Distribution of improved Agril. implements.		
	(a) Iron ploughs	"	-
	(b) Dry farming.	"	-
	(c) Others implements.	"	-
	3. Additional area covered by fruits.	Hectare	-
	4. Chemical Fertilizers distributed.		
	(a) Ammonium sulphate	M. Ton	11
	(b) Super phosphate.	"	17
	(c) Fertilizer mixture	"	1,286
	(d) Urea	"	1,167
	(e) Others.	"	185
	5. Compost production and other manurial resources		
	(a) Compost pits dug	Number	7,734
	(b) Compost prepared	M. Ton	40,570
	(c) Area covered by green manuring.	Hectare	-
	(d) Hand flush latrins constructed.	Number	-
	*(1) Town compost	Tons	14,168
	*(ii) Seed treatment	Hectare	43,000
	*(iii) Field treatment	"	3,500
	*(iv) New plantation.	Number	45
	*(v) Rejuvenation	"	131
	*(vi) Mangoside	"	235

TABLE NO. 70 (Contd..)

1	2	3	4	5	
1. Agricultural production. (Contd..)	*(vii) Bore Bonding		Number	430	
	*(viii) Demonstration of vegetables		"	2	
	*(ix) Subsidy for seed.		Hectare	840	
	*(x) Purchase of cows.		Number	100	
	*(xi) Lift irrigation.		"	14	
	*(xii) Community Wells		"	40	
	*(xiii) Commercial crops demonstration-Niger		"	4	
	*(xiv) Commercial crops demonstration(Sunflower)		"	5	
	2. Soil Conservation.	6. Land Reclaimed		Hectare	-
		7. Soil Conservation.		"	1,12,505
(a) Area bunded			"	-	
(b) <del>Area bunded</del> Area terraced			"	-	
*(c) Nala bunding.			Kms.	150	
*(d) Fremansoon.			Hectare	60	
3. Minor irrigation.	*(e) Plantation.		"	78	
	8. New wells constructed.		Number	28	
	(a) Old wells repaired.		"	6	
	9. Installation of pumping sets		"	119	
	10. Bandharas constructed.		"	7	
	(a) Bandharas repaired		"	-	
	11. Additional irrigation potential created by item No. 9 & 10.		Hectare.	2,432	
	*(i) Subsidy cases of wells		Number	616	
	*(ii) Subsidy cases of pumping sets.		"	196	
	*(iii) Irrigation potential of pumping sets.		Acres.	6,849	
4. Ayacut Development.	*(iv) Irrigation potential of minor irrigation works.		Hectares	540	
	* Land Development works.		"	54	
	5. Animal Husbandry.	12. Veterinary dispensaries and veterinary aid centres started		Number	3(Aid centres)
		13. Number of Artificial insemination centres started.		"	14
14. Number of cattle breeding centres started.			"	-	
15. Number of poultry breeding centres started.			"	-	
16. Number of cattle breeding societies started.			"	-	

TABLE NO. 70 (Contd..)

1	2	3	4	5
6. Dairy Development.	17. Loans for cattle purchase.	Rs.	-	
	18. Co-operative milk societies and Federations started.	Number.		
	* (i) Organisation of new societies.	"	9	
	* (ii) Subsidy to old and new societies.	"	5	
	* (iii) Membership added.	"	463	
7. Forest.	19. Afforestation of area under soil conservation (Premanson).	Hectare.	40	
	20. Plantation of valuable trees.	"	20	
8. Fisheries.	21. Fisheries in land number of fish farms established	No.	-	
	22. Finger lings stocked.	In '000'	400	
	23. Fish netted.	Quintal.	214	
	* (i) Nylon twine.	Kg.	22	
	(ii) Organisation of new fishery societies.	Number	1	
	(iii) Membership added.	"	38	
	* (iv) Subsidy to societies.	"	3	
	* (v) Assistance for share capital to societies.	"	4	
9. Ware Housing and marketing	* (i) Organisation of new market committees.	"	1	
	* (ii) Loans to market committees.	"	2	
	* (iii) Subsidy to market committees.	"	7	
II. CO-OPERATION AND COMMUNITY DEVELOPMENT.				
1. Co-operation.	24. Agriculture credit socys.	Number		
	(a) Societies formed	"	-	
	(b) Membership added.	"	4,870	
	* (i) Number of branches to be opened.	"	2	
	* (ii) Subsidy to branches.	"	4

	(a) Societies formed	"	-	
	(b) Membership added.	"	-	
	* (i) Subsidy to societies.	"	1	
	26. Processing societies.			
	(a) Societies formed	"	-	
	(b) Membership added.	"	-	

TABLE NO. 70 (Contd..)

1.	2.	3.	4.	5.
1. Co-operation (Contd..)	27. Cooperative lift irrigation societies.			
	(a) Societies formed	Number	-	
	(b) Membership added.	"	-	
	28. Short term.	Rs. in lakhs.	92	
	*(i) Medium term	"	4.65	
	*(b) Long term	"	17.32	
	(c) Percentage of recovery.	%	76.3	
	*(c) Consumer co-operative societies.			
	(a) New societies formed	Number	1	
	(b) New membership added.	"	189	
	(c) Subsidy to stores.	"	2	
	*(ii) Share capital etc. to sugar factories.	"	1	
	*(iii) Housing co-operative societies.			
	(a) New societies formed	Number	8	
	(b) New membership added.	"	240	
	*(iv) Labour contract societies.			
	(a) New societies formed	Number	31	
	(b) Membership added.	"	1,529	
	(c) Managerial subsidy to societies.	"	6	
	(d) Share capital & contribution to societies.	"	4	
(e) Subsidy for tools	"	-4		
2. Community Development.	29. Number of blocks	"	-	
	30. Population covered.	"	--	
	*(i) Primary school rooms	"	27	
	*(ii) Applied Nutrition programme blocks.	"	4	
	*(iii) Composite programme for women etc. blocks.	"	2	
<b>III. INDUSTRIES AND MINING.</b>				
1. Small Scale and Cottage Industries.	32. Industrial co-operatives			
	(a) Societies formed	Number	8	
	(b) Membership added.	"	946	
	33. Handloom weavers co-operative societies.			
	(a) Societies formed	"	-	
(b) Membership added.	"	-		
*(i) Rebate to be sanctioned to institutions.	"	1

	* (iii) Share capital to Socys	"	4
	* (iv) Assistance to Societies	"	1
	<b>IV. TRANSPORT AND COMMUNICATION.</b>		
1. Road Development.	34. District Roads.		
	(a) New road constructed.	Kms.	474
	(b) Road modernised	"	209
	(c) Road provided with C. D. works.	Number	46
	* (i) Road constructed in hilly areas.	Kms.	20
	* (ii) Village roads	"	11
	* (iii) Economic importance roads.	"	47
	35. Rural Roads constructed.	"	851
	36. Bridges constructed.	Number	6
	37. Culverts constructed	"	6
	<b>V. SOCIAL SERVICES</b>		
1. General Education.	38. SCHOOL BUILDINGS constructed		
	(a) Building constructed.	Number	-
	(b) Rooms in buildings.	"	62
	39. Number of teachers trained	"	91
	40. Number of schools started	"	31
	(a) Primary schools	"	22
	(b) Secondary schools.	"	9
	41. Number of pupils increased in.		
	(a) Primary schools	"	5,260
	(b) Secondary schools.	"	982
	* (i) Development of non-Govt. secondary schools.	"	30
	* (ii) Additional teachers in secondary schools.	"	15
	* (iii) Upgradation of primary-cum-middle-cum-high schools.	"	9
	* (iv) Class rooms in former secondary schools.	"	2
	(v) Geep Drivers.	"	1
	* (vi) Loan scholarship to primary teachers.	"	98
	* (vii) Scholarship to secondary students.	"	82
* (viii) E. B. C. to students.	"	15,661	
* (ix) Concession to children of primary teachers.	"	20	
* (x) Appointment of Hindi teacher.	"	1	

TABLE NO. 70 (Contd..)

1	2	3	4	5
		*(xi) Appointment of teacher for age group 6 to 11.	Number	1
		*(xii) Head Masters in primary schools.	"	12
2. Medical and Nursing.		42. Buildings for Hospital and Dispensaries	"	-
		43. Additional strength of bed provided.	"	16
		44. Buildings for primary Health centres constructed.	"	-
		45. Primary Health centres started.	"	-
		46. Family Planning units started.	"	3
		47. No. of Doctors appointed.	"	4
		48. Number of Nurses appointed.	"	19
		*Family Planning.		
		(i) Sterilisation.	"	24,604
		(ii) L.U.C.D.	"	16
		(iii) Sub centres.	"	6
		(iv) Quarters.	"	14
6. Water Supply and Drainage.		49. No. of Drinking water wells constructed.	"	52
		50. No. of villages benefitted under Rural Water supply Scheme.	"	70
		51. Number of villages with piped water supply schemes and other plan schemes.	"	32
4. Housing.		52. Number of tenaments constructed.		
		(a) Industrial Housing scheme	Number	-
		(b) Low Income group housing scheme	"	21
		(c) Village Housing Scheme	Villages covered	63
		* (i) Area covered		
		(d) Slum clearance housing scheme	Acres.	161
			Number	-
