CHAPTER - I
I N T R O D U C T I O N .

1.1 LOCATION :-

The Satara district is situated partly in the Bhima river basin and partly in the Krishna river basin. The tahsils Khandala, Phaltan and Man are situated in the Bhima river basin, while the rest of the tahsils are situated in the Upper Krishna basin. The district has an area of 10492.0 Sq. Kms.

The district lies between 17° 5' and 18° 11' north latitude and 73° 33' and 74° 54' east longitude.

1.2 BOUNDARIES :-

The district is situated on the west of Deccan, Plateau and is surrounded by the Pune district on the north, by the Solapur district on the east, by the Sangli district on the south and by the district of Ratnagiri and Kolaba on the west.

1.3 TOPOGRAPHY :-

i) Hills :- There are two main systems of hills in the Satara district. The Sahyadri range and its off-shoots, and the Mahadeo range and its off-shoots. The main range of Sahyadri with a length of about 96 kilometres from north to south forms the western boundary of this district. The Mahadeo range starts about 16 k.m. north of Mahabaleshwar and stretches east and south-east across the whole breadth of the district. From this main range of Mahadeo hills three spurs stretch to the south. Hills in the district are very low, barren and rugged except near Mahabaleshwar and Koyana Valley. The top of Mahabaleshwar, the highest point in the district, is about 1,436 metres above mean sea level.

ii) Rivers :- The Krishna is the principal river of the district. The other important rivers are the Koyana, the Nira, the Man, the Venna, the Kudali, the Urmodi, the Vasna the Yerla and the Tarali.

The Krishna rises in the eastern brow of Mahabaleshwar Plateau with its source at about 1371 metres above mean sea level. Several streams which flow from the valleys formed by the main hill ranges in the district make up the head waters of the Krishna river. The drainage system of the Krishna river includes, besides the drainage of central system, the drainage of seven feeders, namely, the Kudali, the Venna, the Urmodi, the Tarali and the Koyana on the right and the Vasha and the Yerla on the left. From the source, the Krishna flows for nearly 160 km through the Satara district and enters thereafter into the Sangli district.

The Koyana is the largest feeder of the Krishna river in the district. It rises in the Mahabaleshwar Plateau, runs towards south upto Helwak in Patan tahsil, where it changes its course and flows towards east and falls into the Krishna at Karad.

The Nira river which flows on the northern boundary of the district and the Man river which flows in the south-east are tributaries of Bhima which itself meets the Krishna.

iii) Soils :- The soils of the district are observed to be of varied textures. In the west, the soil in Mahabaleshwar, Wai, Jacli and Patan tahsils is formed from the red laterite of the ghats. It is thin and poor on the hill slope, but gets richer; where natural or artificial terracing has accumulated soil with vegetable matter drained by rain waters. Rich black soil is found in the low lands of the valleys of Krishna, Venna, Kudali, Koyana and Kole rivers in Wai, Jacli and Patan tahsils.

The central portion of the district consists of medium to deep black alluvial soils. Krishna Valley soils are said to be one of the richest in the Deccan and the portion which lies in Satara and Karad tahsils is reported as the richest in the Krishna Valley. For the most part it is the finest black alluvial soil highly retentive of moisture and very fertile.

The soil in Khandala and Phaltan tahsils is poor and stony in the vicinity of the hills, but there are good black soils along the Nira and its tributary streams. In the eastern part of Khandala tahsil the soil is poor, shallow and whitish but is capable of growing wheat if adequate water is available.

Towards the east of the Krishna valley the soil is poor with the exception of wide stretches of good black soil along the numerous streams and rivers in Koregaon tahsil.

In the Khatav tahsil, soils are of intermediate depth and more widely spreading than Man tahsil but not as rich as in Koregaon tahsil. In Man tahsil, the soils are extremely poor and shallow. Good soil is found only in narrow strips along the streams.

1.4 Rainfall in General and Scarcity conditions :-

i) Rainfall :- The rain starts by the middle of June and lasts till the end of September in the district. The rainfall is not uniform all over the district. It is very heavy in the western region and it goes on receding towards eastern part. The extreme west part gets over 5000 mm. rainfall, while the eastern part of the Sahyadri zone gets the rainfall between 1200 mm. to 2000 mm. The normal rainfall recorded at Mahabaleshwar centre is 6182 mm. while at Pachagani it is 1865 mm. The central zone gets rainfall between 600 mm. to 1200 mm. The district headquarter Satara has normal rainfall of 1025 mm. At other centres it is :- Koregaon - 706 mm., Khandala-504 mm., Wai - 710 mm. and Karad 713 mm. In the eastern zone average rainfall is below 600 mm. annually. It is as follows :- Phaltan-473 mm., Dahiwadi-462 mm., and Vaduj - 512 mm.

ii) Scarcity conditions :- The eastern part of the district is prone to scarcity conditions. The Fact Finding Committee appointed by the Government of Maharashtra under the Chairmanship of Shri S.R.Sukhatankar has opined that the tahsils of Khandala, Phaltan, Man, Khatav and Koregaon are the drought prone areas in the district. During the year 1974-75 no scarcity condition was observed in the district.

1.5 Minerals :-

Except for building stone, lime stone and little iron deposits in about 20 villages of Jaoli tahsil and 30 villages in Patan tahsil, deposits of important minerals are not known to have occurred in any part of the district. Building stone, sand of good quality and lime stone is found to be available all over the district. Good clay for bricks and tiles is found on the river banks.

1.6 Forests :-

An area of about 1515 sq.kilo meters or 14.4 percent of the total geographical area of the district is under forests. It is scattered over the entire district. These forests belong to three groups :- (i) the evergreen Sahyadri forests (ii) the plantation on the slopes of the off-shoots of Sahyadri hills that run east and (iii) bush sprinkled hills to the east of Krishna.

The evergreen forests of the Sahyadri range form a belt along the west of the district 10 to 22 kilometres broad. These forests extend without a break through the whole length of the district. They contain many trees valuable both as timber and fire wood. The chief of these are Jambool, Anjan, Ain, Umbar, Kenja, Hirda, Phanas and Nara. Teak mixed with brush-wood is found in the second group of forest lands, i.e. ranges which branch east from the Sahyadris. These forests are much broken by patches of cultivated land. The forests of the third group are only sprinkled with bush and are very much scattered.

1.7 Area :-

The district has an area of 10492.0 sq.kilometres out of which 10109.6 sq.kilometres is rural and 382.4 sq.kilometres is urban area. The district ranks 16th in area among the 26 districts of the Maharashtra State.

1.8 Demography :-

The Satara district ranks 13th in population among the 26 districts of the Maharashtra State.

The following table gives tahsilwise decadal variation for the last decade.

Sr. No.	DISTRICT / TAHSIL	POPULATION		Decadal percentage variation
1	2	1961	1971	3
	DISTRICT	1430105	1727376	+ 20.79
1.	SATARA	191313	239984	+ 25.44
2.	WAI	104746	125099	+ 19.43
3.	KHANDALA	63164	71929	+ 13.88
4.	KOREGAON	138838	164455	+ 18.45
5.	PHALTAN	140102	186627	+ 33.21
6.	MAN	99410	120758	+ 21.47
7.	KHATAV	155930	177501	+ 13.83
8.	KARAD	251640	311026	+ 23.60
9.	PATAN	180501	207867	+ 15.16
10.	JACLI	80091	91939	+ 14.79
11.	MAHABALESHWAR	24370	30191	+ 23.89

From the above table it will be seen that the decadal variation (1961-71) in Satara district is less than the State variation which is 27.45.

1.9 Administrative Set Up :-

The Collector is the administrative head of the district. He acts as the head of the Revenue Department and also supervise the work of other offices. He is in charge of general administration, Law and order, Land Revenue and Civil Supplies. He is assisted by a Resident Deputy Collector and three Deputy Collectors, who hold charge of the three revenue divisions in the district with Headquarters at Satara, Phaltan and Mahabaleshwar.

For facilitating the smooth and co-ordinated working of the administration, several offices of the State and Central Government are located at the district Headquarter and other places.

Local Bodies :- Under the Maharashtra Zilla Parishad and Panchayat Samitis Act, Satara Zilla Parishad and eleven Panchayat Samitis have been established in 1962. The area and population covered by the Zilla Parishad and Panchayat Samiti corresponds to the area and population of the district and

tahsil except the area and population covered by the Municipal Councils.

The Zilla Parishad is headed by the President elected from the elected members. He is assisted by an elected Vice-President and three elected Chairmen of different subject committees. To carry out the administrative and executive work of the Zilla Parishad an officer in the Senior scale of I.A.S. works as the Chief Executive Officer of the Zilla Parishad. He is assisted by various departmental heads for carrying out the developmental activities effectively.

At the tahsil level, Panchayat Samitis have an elected Chairman and Vice Chairman. The Block Development Officer works as Secretary to the Panchayat Samiti who is the administrative and executive head at the block level, under Zilla Parishad. The State Government officers continue to exercise technical supervision and give necessary guidance to the Zilla Parishad and Panchayat Samitis. The State Government have powers to issue directions to the Zilla Parishad in respect of any works and schemes in the interest of National and State Developmental Plans.

There are also other statutory bodies such as Maharashtra State Electricity Board, Life Insurance Corporation, Maharashtra State Financial Corporation etc. functioning in the district.

1.10 SPECIAL FEATURES :

Sugar Factories :- At present six sugar factories two each in Karad and Phaltan tahsils and one each in Patan and Wai tahsils are located in the district.

Industries :- Though, there is no industrial concentration of industries in the district some important factories apart from sugar factories are Cooper Engineering Works-Satara Road, Ogale Glass Works at Ogalewadi near Karad and some cement product industries at Satara and Karad are located in the district.

Power :- The reservoir of the Koyna Hydro Electric Project at Pophali in Ratnagiri district is located in this district.

CHAPTER - II
EXPLANATORY NOTE

GENERAL :-

2.1 The data presented in this Abstract pertains to the year 1974-75 or for 1974. In the case of Agricultural data, and for which data for 1974-75 are not available are given for the year 1973-74, or the data for latest available year. The data are given tahsilwise wherever possible. For some items for which tahasilwise data are not available figures for the district as a whole are incorporated in the statements.

DISTRICT AT A GLANCE :-

2.2 In this table comparative data of Satara district and of the State of Maharashtra are given. The data on Location, Population, Literacy, Agriculture, Industry, Co-operation, Planning etc. of district and State are shown in this table for ready reference.

AREA AND POPULATION :-

2.3 The data on area and population based on the final figures of 1971 Census are given in tables from 1 to 7. The data on houses and population, decadal variation in population, population of urban/rural areas, workers and non workers etc. are presented under this head.

2.4 A town or an urban area as per 1971 Census is a place which has a municipality, a cantonment or a civil line or a population of 5000 or over, a density of not less than 400 persons per sq.km. and at least 3/4th of male population dependent on non agricultural pursuits, the place should have according to the Director of Census Operations a few pronounced urban characteristics and amenities.

2.5 The population enumerated in urban areas is urban population and the population enumerated in all other places is rural population.

2.6 A "village" is a statutorily recognised village having a defined boundary and separate land records.

2.7 A person is classified as worker if (a) in case of seasonal work like cultivation, livestock, dairying, household,

industry, etc. he had worked in the current or last working season for the greater part of the season, and (b) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceeding the day of the enumerator's visit to the household.

2.8 A person who was working but was absent from his work during the fifteen days preceeding the day on which he was enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as worker.

2.9 A person who has been offered work but had not actually joined has been treated as a non worker.

2.10 The 1971 Census stipulated that a person primarily engaged in household duties or those who were students and helped in family economic activity but not on a full time scale should be treated as non workers in respect of their main activity.

C L I M A T E :

2.11 Normal rainfall and monthly rainfall data and temperature data from the selected centres in the District are reported in Table No. 8 and 9 respectively. Normal rainfall data are based on the rainfall over a period of five to eighty years. A day is counted as a rainy day if the rain gauge records a minimum of 2.5 mm rainfall during the 24 hours of the day. As regards temperature, Mahabaleshwar is the only station in the district for which the data are available. The Directorate of the Indian Meteorological Department, Bombay has supplied this data. Mahabaleshwar is on a very high attitude of Sahyadri ranges and the data of this centre cannot therefore be said to be representative for the whole district.

A G R I C U L T U R E :-

2.12 The agricultural and related statistics are presented in the tables 10 to 21. Land use, crop pattern, outturn of crops, yield rates, irrigation sources and area under crops irrigated, irrigation projects, wage rates, data on agricultural implements and scarcity and famine conditions are some of the salient

topics dealt with under agricultural statistics. The data collected from the District Inspector of Land Records and Season and Crop Reports are of provisional nature. The Zilla Parishad, the Panchayat Samitis, the Executive Engineer of Irrigation Projects, the Collectorate and the Directorate of Economics & Statistics, are other sources for various tables on agricultural statistics. There are variations in the area figures obtained from the Surveyor General and those based on village papers. The later are sum total of data given by talathis whereas the former are calculated in blocks.

2.13 All lands actually afforested and lands classed and administered as forests whether state owned or private are termed as 'forests'. If any portion of such forests is not wooded but put to some agricultural use it is shown under that appropriate head.

2.14 Land put to non-agricultural uses stands for lands occupied by buildings, roads, railways, rivers, canals or other such purposes.

2.15 Lands which cannot be brought under cultivation except at a very high cost are classed as unculturable lands, whether in isolated blocks or in cultivated holdings.

2.16 Culturable waste includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession.

2.17 Current fallow lands comprise cropped area kept fallow during the current year. Other fallows include all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years.

2.18 The net sown area consists of area sown with crops and orchards, area sown more than once in a year being counted only once. The gross cropped area represents sum

total of area under all crops in a year. The estimates of average yields and production in respect of rice, bajara, jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted usually by the Agriculture Department. The estimates of yields for the remaining crops are based on the annual valuation figures and normal yields reported by the Revenue Officers.

ANIMAL HUSBANDRY AND FORESTS :

2.19 Statistics on animal husbandry, collected through the 11th quinquennial census of 1972 are reproduced in Table No. 22. The data collected from the District Animal Husbandry Officer, Municipal Councils and Veterinary dispensaries in respect of animal diseases, artificial inseminations, live-stock mortality, slaughter houses statistics are shown in tables 23 to 25 on this subject.

2.20 The Statistician, Forest Department and Divisional Forest Officer provides data on forest area and forest produce which is shown in tables 26(a) and 26(b). Reserved forests are those that are intended mainly for timber production and in which rights of grazing and cultivation are seldom allowed. In protected forest, the restrictions are not so rigid, right of grazing or cultivation is allowed but certain limitations and restrictions are imposed. The unclassed forest refers to the inaccessible forest or unoccupied waste.

EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY :

2.21 Tables 27, 28 and 29 present data on registered factory statistics e.g. on daily employment, working strength of factories, days worked by the factories. The word "factories" here includes only the registered factories. They are of three types.

- 1) Factories using no power but employing 20 or more workers,
- 11) Factories using power and employing 10 or more workers and

111) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factory Act.

2.22 On the basis of data collected through the Annual Survey of Industries a table No. 30 is prepared on registered factories in various industrial classification groups showing their productive capital, employment, gross output and value added. The figures are of provisional nature and are based on actuals of reporting census sector factories and estimates of sample sector factories.

2.23 Tables 31, 32 and 33 are based on the data collected from the District Employment Exchange. The monthly registration of unemployed persons, notification of vacancies, placements as also volume of employment by type of industry is shown in these tables.

2.24 Tables 34 and 35 are included to show consumption of electricity and towns and villages electrified in Satara district. The data are collected from the M.S.E.B. All the electricity is now supplied by the M.S.E.B. and no electricity is generated or distributed in the district by any private company.

C O - O P E R A T I O N :-

2.25 The table Nos. 36 to 43 on Co-operation are compiled from the data supplied by the District Deputy Registrar of Co-operative Societies and the Agricultural Produce Market Committees. Statistical information is shown separately for (1) Primary Agricultural Credit Societies (2) Agricultural Non-Credit Societies (3) Non-Agricultural Credit Societies (4) Non-Agricultural Non-Credit Societies (5) Marketing Societies. / and

2.26 The District Central Co-operative Bank is covered under Agricultural Credit Societies and shown in Table No. 37. Urban Banks, Salary Earners Societies, factory workers societies are covered under Non-Agricultural Credit Societies.

2.27 Working capital includes paid in capital, deposits and borrowings. The break up of loan advanced by Co-operative

Loans is shown by the term of loan, short, medium and long term. Overdue loans refer to amount of loan or installments which were due for collection but which were not actually collected and for the repayment of which no extension has been granted. The cooperative year starts in July and ends in June. Salient achievements of the Co-operative societies, such as marketing, fisheries, farming, irrigation, agricultural processing, sugar factories, consumers, housing are shown in Table No. 41. Commoditywise turnover in the regulated markets is shown in the Table No. 42. A separate table No. 43 is given on registered money lenders and loans advanced by them. The data are collected from the Deputy Registrar of Co-operative Societies.

MEDICAL AND PUBLIC HEALTH :-

2.29 **D**ata on medical facilities and other vital statistics such as births, deaths are shown in tables under this section. The data are collected from Civil Surgeon, District Health Officer, Zilla Parishad, Municipalities, Aided institutions and Director of Public Health, Pune.

2.30 Under medical facilities data in table No. 44 are given for hospitals, dispensaries, maternity homes primary health centres, medical personnel, hospital beds as also the no. of indoor and outdoor patients availing these facilities. In table No. 45 data on births, deaths, infant deaths are recorded. Table No. 46 shows causes of deaths, occurred in the District. Vaccination and family planning statistics are presented in table Nos. 47 and 48 respectively.

2.31 The birth rate and death rate are given in the District at a Glance. Birth rate is the No. of births per thousand estimated population of the year. Death rate is similarly the No. of deaths per thousand estimated population of the year. The data on vital statistics are collected through revenue agency for rural area and for urban area it is the statutory function of Municipal Councils. The data presented on medical facilities are of State and Central Govt. institutions,

institutions owned and run by municipal councils and local bodies and public aided institutions. The private clinics run by individuals are not included in these tables.

2.32 The year of reference for medical and health statistics is the calendar year 1974.

E D U C A T I O N :-

2.33 Salient features of the progress of education in Satara district are presented in this section. Literacy in each tahsil as per 1971 Census, No. of educational institutions, pupils, teachers by type of education, B.C. beneficiaries, educational concessions, expenditure on primary education by various agencies, are the various subjects dealt with under the tables education.

2.34 The sources of data are the 1971 Census, the Directorate of Education and the Education Officer, Zilla Parishad, Satara.

2.35 The tahsilwise break up of data on institutions, pupils, teachers could not be obtained for publication. Only district totals are supplied.

T R A N S P O R T A N D C O M M U N I C A T I O N :-

2.36 Important statistics on different modes of transport, category of roads, traffic census, posts, telegraphs, telephones, radio licenses issued and rural broadcasting are given in this section.

2.37 The difficulty arises in getting accurate rail length in the district. The length had to be compiled by reference to railway time tables and railway map. The figures presented in table No. 56 are therefore, approximate to that extent. Information presented in this table pertains to broad gauge line. The road statistics presented in table 57 are for both extra municipal roads and roads within municipal limits, shown separately. The statistics of motor vehicles in the district are not available separately. Therefore, the statistics of motor vehicles in Pune Region, (comprising of Pune, Ahmednagar, Satara and Solapur districts) are presented in Table No. 58. Table No. 59 gives statistics of nationalised Road Transport of

the Satara S.T. Division. The Satara S.T. Division comprises of Satara District.

LOCAL BODIES :-

2.38 Financial position of Village Panchayats, Municipal Councils and Zilla Parishad is shown in this section for the year 1974-75.

2.39 The No. of Village Panchayats includes No. of independent Village Panchayats as also group Village Panchayats, Income and expenditure of Village Panchayats are exclusive of opening and closing balances respectively. Grants include grants from Govt. as well as from Zilla Parishad and Panchayat Samities for developmental activities. Govt. grants in respect of municipal councils are mainly, grants on account of dearness allowances, grants for roads, for water supply, for educational purposes, for medical purposes, and on account of percentage in land revenue. The receipts of Zilla Parishad are shown under four sub-heads, viz. (1) Self raised resources, (2) Govt. grants, (3) Grants for agency scheme and (4) Debt section. The expenditure is shown under two heads. Revenue expenditure and Debt section.

2.40 The data are collected from the Zilla Parishad, Satara and all the Municipal Councils in Satara District.

PLAN AND COMMUNITY DEVELOPMENT :-

2.41 The Table 67 included in this section gives details of expenditure under each sub head of development for State and Centrally sponsored programme for the Fourth Plan (1969-74) period and for the year 1974-75. Important physical achievements are given sub headwise during the fourth plan period and during 1974-75 in table No. 68. These data are based on the progress reports received from various implementing officers.

2.42 The stagewise blocks under C.D. Programme are shown in Table No. 69 while stagewise expenditure in each tahsil is shown in Table No. 70. Physical achievements of these C.D.

Blocks are shown in Table No. 71. The data are compiled from the quarterly returns received from the Panchayat Samities in the District.

P R I C E S :-

2.43 There are three tables in this section. The first table No. 72 presents data on wholesale prices of certain agricultural commodities at regulated markets. The Table No. 73 is on average retail prices of important commodities at the District Head Quarter Satara. The data are presented for all the months of the year 1974.

2.44 The data are collected on every Friday from selected shops, for given specifications of the selected commodities. As such they cannot be said to be fully representative. However, the data may be useful as a broad indicator of the trend in changes in retail prices over a period of time.

2.45 In the Table No. 74 the consumer price index numbers for working class of Solapur and Pune centres are given. The index is compiled by the office of the Commissioner of Labour, Bombay.

M I S C E L L A N E O U S :-

2.46 As the title indicates data on other various subjects such as police, crime, court cases, cinema theatres, Joint Stock Companies, Life Insurance, Small Savings etc. are presented in this section from table Nos. 75 to 84.

TRENDS IN SELECTED INDICATORS :-

2.47 Table No. 85 shows important indicators in the various fields of development such as population, agriculture, live-stock, industry, electricity, cooperation, etc.

CHAPTER - III

AN ANALYTICAL REVIEW OR SECTORIAL TRENDS

3.1 Data on various items has been presented in part II of this issue, under the heading District Statistical Abstract. An attempt is made in this chapter to give a comparative picture of the tahsils in the district during the year 1960-61, 1973-74 and 1974-75 or 1960-61, 1972-73 and 1973-74 as the case may be. These indicators will show the position of each tahsil during the above period.

3.2 The development in the field of agriculture can be assessed from three main indicators. They are (1) Percentage of gross area sown to net area sown (2) Percentage of net area irrigated to net area sown and (3) ~~PERCENT~~ Productivity of important crops.

T A B L E N O. 1
PERCENTAGE OF GROSS CROPPED AREA TO NET AREA SOWN IN SATARA DISTRICT DURING THE YEARS 1960-61, 1972-73 AND 1973-74

Sr. No.:	TAHSIL	Percentage of gross cropped area to net area sown		
		1960-61	1972-73	1973-74
1	2	3	4	5
1.	SATARA	105	103	105
2.	WAI	115	112	109
3.	KHANDALA	116	111	114
4.	KCREGACN	109	109	108
5.	PHALTAN	105	108	107
6.	MAN	106	105	106
7.	KHATAV	107	117	114
8.	KARAD	104	102	101
9.	PATAN	114	111	110
10.	JACLI	113	106	105
11.	MAHABALESHWAR	104	103	105
SATARA DISTRICT		108	108	108

3.3 The gross cropped area has decreased from 7.34 lakh hectares in 1960-61 to 6.09 lakh hectares in 1973-74. This was mainly due to drought conditions in the district during the year 1972-73 and the cultivators could not sow their lands for want of adequate livestock. The net cropped area has also proportionately decreased during the year 1973-74 as compared to the

area in 1960-61. The percentage of gross cropped area to net sown area however, remained the same i.e. 108 for the district as a whole.

3.4 The percentage of gross-cropped area to net area sown is highest in Khatav and Khandala tahsils. The percentage of gross cropped area to net area sown is more than the district average in Khatav, Wai, Khandala and Patan tahsils, it is equal to district average in Koregaon tahsil, while it is below district average in remaining tahsils. It is lowest in Karad tahsil as generally the cultivators grow Perennial crops such as sugarcane, turmeric etc. in irrigated lands.

3.5 The gross irrigated area in the district has decreased from 1.01 lakh hectares in 1960-61 to 0.95 lakh hectares in 1973-74. This decrease was also mainly due to drought conditions prevailed in the district in 1970-71, 1971-72 and 1972-73 which badly affected the water level in the soils.

3.6 The net area irrigated by different sources in the years 1960-61, 1972-73 and 1973-74 is given in the following table.

T A B L E N O . 2

Sr. No.	Source of irrigation	Net area irrigated (Hectares)		
		1960-61	1972-73	1973-74
1	Government Canals	24880	17198	16859
2	Private Canals	16910	10042	12166
3	Wells	34501	31897	39044
4	Other sources	3290	6988	7052
5	T O T A L	79581	66125	75121

3.7 From the above table it will be seen that the net area irrigated has decreased during the year 1973-74 as compared to the year 1960-61 for the same reason of drought during the year 1972-73.

The following table gives net area irrigated and net area sown during 1960-61, 1972-73 and 1973-74.

T A B L E N o. 3

NET AREA IRRIGATED AND NET AREA SOWN (In Hectares)

Sr.No.:	Y E A R	Net area irrigated	Net area sown
1	2	3	4
1.	1960-61	79581	680356
2.	1972-73	66125	527237
3.	1973-74	75121	563882

3.8 The percentage of net area irrigated to net area sown comes to 11.7%, 12.54 and 13.32 percent during the years 1960-61, 1972-73 and 1973-74 respectively. The increase in the proportion of irrigation indicates that all available sources of water were fully utilised in the drought year 1972-73 and subsequently in 1973-74.

3.9 The agricultural production, depends on various factors such as natural conditions, input factors etc. The following table gives the yield rates and outturn of principal crops for the years 1960-61, 1972-73 and 1973-74.

T A B L E N o. 4

1. YIELD RATES AND CUTTURNS OF PRINCIPAL CROPS

Sr. No.:	C R O P	1960-61	1972-73	1973-74	1960-61	1972-73	1973-74
1	2	3	4	5	6	7	8
1.	Rice	837	272	1019	229	75	268
2.	Wheat	365	567	728	118	72	118
3.	Jowar	766	236	644	1506	523	1322
4.	Bajra	232	136	1388	353	97	481
5.	Gram	447	296	413	74	21	50
6.	Tur	657	220	1027	50	9	75
7.	Groundnut	783	307	836	753	189	495
8.	Sugarcane (Gur)	8510	5910	6892	635	857	827
9.	Cotton (CO Bales)	262	311	240	37	95	12

3.10 The above table indicates that production of all the crops except for Rice, Bajara, Tur and Sugarcane has decreased during the year 1973-74 as compared to the year 1960-61. The yield rates also have been decreased except for Rice, Bajara, Tur and Groundnut during the year 1973-74.

CHANGES IN CROPPING PATTERN :-

3.11 The following table will broadly indicate the trend of cropping pattern in the district.

T A B L E N. C. 5
PERCENTAGE OF AREA UNDER IMPORTANT CROPS TO
GROSS CROPPED AREA.

Sr. No.	C R O P	Y E A R S	1960-61	1972-73	1973-74
1	2		3	4	5
1.	Rice		3.52	4.82	4.35
2.	Wheat		1.85	2.21	2.01
3.	Jowar		27.95	45.22	32.67
4.	Bajra		20.53	14.90	23.08
5.	Total Cereals		56.75	69.64	64.68
6.	Gram		2.24	1.25	1.02
7.	Total pulses		9.46	7.09	10.07
8.	Total food grains		66.22	76.73	74.75
9.	Sugarcane		1.34	2.53	2.42
10.	Total foodgrops		70.07	81.37	79.05
11.	Cotton		0.34	0.96	0.20
12.	Groundnut		0.18	10.76	9.49
13.	Total non-food crops		29.93	18.63	20.95
	TOTAL CROPPED AREA		100.00	100.00	100.00

3.12 The percentage area under food crops shows remarkable increase which in other words ^{means} there is remarkable decrease in non-food crops.

The area under food crops has increased from 70.07 percent in 1960-61 to 79.05 percent in 1973-74.

3.13 The percentage of area under different irrigated crops to gross irrigated area shows that the percentage of total irrigated area under food crops has increased from 93.56 in 1960-61 to 96.37 in 1973-74 and to that extent the irrigated area under non-food crops showed decrease. The following table will give an idea, how the changes in irrigated area have occurred.

T A B L E N O. 6
PERCENTAGE OF AREA UNDER DIFFERENT IRRIGATED
CROPS TO GROSS IRRIGATED AREA.

Sr. No.:	Name of Crop	Y	E	A	R
1 :	2	1960-61	1972-73	1973-74	
		3	4	5	
1.	Rice	9.85	11.16	14.48	
2.	Wheat	10.91	13.01	11.29	
3.	Jowar	30.78	27.26	29.76	
4.	Bajra	6.39	8.87	11.38	
5.	Total cereals	53.57	61.23	67.98	
6.	Gram	6.64	3.29	3.34	
7.	Total Pulses	7.53	3.96	4.53	
8.	Total foodgrains	66.10	65.19	72.51	
9.	Sugarcane	9.73	17.15	15.55	
10.	Total foodcrops	93.56	92.01	96.37	
11.	Cotton	1.51	6.47	1.29	
12.	Groundnut	0.79	0.19	0.48	
13.	Total non-food crops	6.44	7.99	3.63	
TOTAL		100.00	100.00	100.00	

3.14 From the above table it will be seen that percentage of area irrigated to total irrigated area under Rice, Wheat, Bajra Sugarcane and Groundnut showed an increase, while the other crops showed decrease.

AGRICULTURAL CREDIT :

3.15 The co-operative Societies play an important role in the field of agricultural development by extending credit facilities on an extensive scale. The progress of facilities given by the agricultural credit societies during the years 1960-61, 1973-74 and 1974-75 are given in the following table.

T A B L E N O. 7
AGRICULTURAL CREDIT SOCIETIES

Sr. No.:	Item	Y	E	A	R
1 :	2	1960-61	1973-74	1974-75	
		3	4	5	
1.	No. of Agricultural Credit Societies	750	771	770	
2.	Membership	131956	185559	192131	
3.	Loans advanced (Rs. in lakhs)	185.61	1088.25	326.5	
4.	Loans outstanding (Rs. in lakhs)	204.29	1116.79	843.76	

3.16 From the above table it can be seen that the number of societies have increased from 750 in 1960-61 to 770 in 1974-75 and the membership increased from 131956 in 1960-61 to 192131 in 1974-75 which accounts to 45.5 percent increase in the membership during this period. The loans advanced shows remarkable increase which accounts nearly 76 percent during the period 1960-61 to 1974-75. The loan outstanding have increased which accounted more than four times during the period 1960-61 to 1974-75.

W A G E R A T E S :

3.17 The data on agricultural wage rates in rural areas are collected in three rural centres in Satara district since July 1963. These centres are Umbraj in Karad tahsil, Limb in Satara tahsil and Koregaon in Koregaon tahsil.

The average wage rates for field labour at Umbraj was found to be Rs. 3=50 while the same at Koregaon and Limb was Rs. 3=00. The average wage rates for females were observed higher at Umbraj Rs. 2=42. The average wage rate for females at Koregaon and Limb was Rs. 2=00.

LIVESTOCK AND POUULTRY

3.18 Livestock makes a substantial contribution to the economy by providing subsidiary income to farmers, food to human population and provides avenues of employment to landless labourers. A quinquennial census of livestock, poultry and agricultural implements is carried out all over the country. The 11th livestock was carried out in 1972.

The following table gives tahsilwise details of livestock per 100 hectares.

T A B L E N O . 8

BOVINE AND OVINE POPULATION PER 100 HECTARES OF CULTIVABLE LAND

Sr. No.	TAHSIL	Cultivable land in hectares during 1973-74	Bovine & Ovine population in	
			1972	per 100 Hectares
1	2	3	4	5
1.	SATARA	56682	98725	174
2.	WAI	39308	63101	161
3.	KHANDALA	36164	60864	168

1	2	3	4	5
4. KOREGAON	63544	90961	143	
5. PHALTAN	88495	136790	155	
6. MAN	104255	181825	174	
7. KHATAV	93774	123493	132	
8. KARAD	73868	159018	215	
9. FATAN	96363	116351	121	
10. JACLI	60864	59684	98	
11. MAHABALESHWAR	6559	11268	172	
TOTAL	719876	1102080	153	

3.19 From the above table it will be seen that the indicator in Jaoli tahsil is very low. It is below the district average in Koregaon, Phaltan, Khatav, Patan and Jacli tahsils while it is higher than the district average in Satara, Wai, Khandala, Man, Karad and Mahabaleshwar tahsils.

3.20 The poultry population in the district in 1972 was 6,06,273 as against 6,57,771 in 1961 and 7,76,198 in 1966. The human population according to 1971 census for the district was 17,27,376. The poultry population per 100 persons was 46 in 1961, 54 in 1966 and 40 in 1972 (Population in 1966 assumed to be constant as that of 1961). Though the poultry population in 1972 seems to have increased it has not proportionately increased as compared to human population during the decade 1961-71, and hence the proportion of poultry population per 100 persons has decreased from 46 in 1961 to 40 in 1972.

CONSUMPTION OF ELECTRICITY :

3.21 During the year 1960-61 there were only 7 towns and 30 villages electrified, while there were 14 towns and 606 villages electrified as on 31st March 1975. The percentage of electrified villages to total number of ^{inhabited} villages works out to 53.1. The per capita consumption of electricity in 1974-75 in Satara district was 41.7 Kwh. while the same was 4.53 Kwh in 1960-61. The per capita consumption of electricity in 1974-75 has increased more than nine times as compared to the per capita consumption in 1960-61. This increase is mainly due to increase in number of electrified villages.

ENROLMENT IN THE EMPLOYMENT EXCHANGE AND
VACANCIES NOTIFIED :

3.22 The statistical data available in connection with the employment is given in the following table.

T A B L E N O. 9

No. of Candidates enrolled and vacancies notified in
1960-61, 1973-74 and 1974-75

Sr. No.:	I T E M	Y 1960-61	E 1973-74	A 1974-75
1	2	3	4	5
1.	Candidates enrolled	6421	11691	8699
2.	Vacancies notified	1843	2657	890
3.	Placement in vacancies	1149	1621	481
4.	Percentage of placement to registration	18	14	6
5.	Candidates on live register at the end of the year	2398	12989	11509

3.23 Enrolment of candidates at the Employment Exchange is nearly 35 percent higher in 1974-75 than that in 1960-61. The percentage of placement to total registration has decreased from 18 in 1960-61 to 6 in 1974-75. The number on live register at the end of the year has increased nearly five times in 1974-75 as compared to that for the year 1960-61.

INCREASE IN INDCCR AND OUTDCCR PATIENTS TREATED :

3.24 The Medical facilities are being availed of by increasing number of people year after year. The following table gives the number of patients treated in Public and Public aided medical institutions in Satara District.

T A B L E N O. 10

INDCCR AND OUTDCCR PATIENTS TREATED IN PUBLIC /
PUBLIC AIDED INSTITUTIONS IN SATARA DISTRICT.

Sr. No.:	I T E M	Y 1961	E 1973	A 1974
1	2	3	4	5
1.	Inccr patients	12994	104091	69298
2.	Outccr patients	237101	635797	432237
	T O T A L	300095	739888	501535

3.25 The above table shows that the indoor patients treated in 1974 are nearly five times more than the indoor patients treated in 1961. The outdoor patients have also increased by 51 % in 1974 as compared to the year 1961. This increase is mainly due to increase in medical facilities during the period 1961 to 1974.

INCREASE IN NUMBER OF STUDENTS IN DIFFERENT CATEGORIES :

3.26 The educational facilities have remarkably increased during last 10-15 years. At present all villages have been provided with primary schooling facility. The following table gives the number of institutions, No. of pupils and No. of teachers in different categories of education.

T A B L E - N O . 1 1

Sr. No.:	I	T	E	M	Y	E	A	R	S
1 :	2	3	4	5	1960-61	1972-73	1973-74		
1. Primary Education									
Institutions		1453			1901		1930		
Enrolment		218102			296938		303745		
Teachers		5005			8919		10007		
2. Secondary Education									
Institutions		132			251		252		
Enrolment		23112			6104		68207		
Teachers		1009			2587		2903		
3. Higher Education									
Institutions		7			19		19		
Enrolment		1786			12755		13983		
Teachers		1130			545		551		

3.27 In case of primary education, there was an addition of 477 institutions and 39.3 percent increase in the enrolment during the period 1960-61 and 1973-74. The No. of teachers increased from 5005 in 1960-61 to 10007 in 1973-74.

3.28 The No. of secondary institutions has increased from 132 in 1960-61 to 252 in 1973-74 while the enrolment has increased from 23112 in 1960-61 to 68207 in 1973-74 and the teachers have increased from 1009 in 1960-61 to 2903 in 1973-74.

3.29 In case of higher education also the No. of institutions have increased from 7 in 1960-61 to 19 in 1973-74. The enrolment has increased from 1786 in 1960-61 to 13983 in 1973-74.

E **INCREASE IN BANKING FACILITIES :**

3.30 Since the nationalisation of the Banking business, the various banking companies have brought the field of agricultural and industrial development in their operation fold and are advancing loans to the agriculturists and small units of industries. The co-operative banks also have made remarkable progress by expanding their business in rural areas.

3.31 The banking offices have increased from 32 in 1960-61 to 139 in 1973-74 i.e. for every 12427 persons there was a banking office in Satara district. There were 53 places where these banking offices were located in the district.

INCREASE IN ROAD LENGTH :

3.32 The Poona-Miraj-Kolhapur-Banglore Railway route goes through the Satara district. The total length passing through this district is about 124 kms.

3.33 At the end of the year 1974-75 total road length of all types of roads excluding the municipal roads was 6517 kms. The road length at the end of the year 1960-61 was 2481 kms. Thus the length per 100 sq.kms. of area increased from 24 kms. in 1960-61 to 62 kms. in 1974-75.

P R I C E S :

3.34 The consumer price index for working class of Solapur centre will show that the general price index in 1974-75 shot up to 325 with the base year 1960. The general index for Pune centre for 1974-75 was 281 (base year 1961).

3.35 Since November 1962 prices of important commodities are being collected by the District Statistical organisation at each of the district head quarters on each Friday. As the prices are collected for selected commodities from selected

shops they will not represent the district position but the data may still prove useful as a broad indicator of the trend in changes in retail prices over the period of time in the district. The following table indicate the average prices of some important commodities collected at Satara town for the year 1963, 1973 and 1974.

T A B L E N O . 11
 RETAIL PRICES, AT SATARA, DISTRICT HEADQUARTER

Sr. No.	C C M C D I T Y	Unit	Prices during		
			1963	1973	1974
1	2	3	4	5	6
1.	Rice (Medium)	Kg	0.78	3.41	3.57
2.	Wheat (Medium)	Kg	0.64	2.21	2.29
3.	Jowar (White)	Kg	0.49	2.12	1.96
4.	Gram dal	Kg	0.64	2.26	2.97
5.	Arhar dal	Kg	0.97	2.73	3.29
6.	Sugar (D grade)	Kg	1.19	3.72	4.73
7.	Gur	Kg	0.94	2.23	2.22
8.	Groundnut oil	Kg	1.99	7.59	8.94
9.	Vanaspati (loose)	Kg	3.11	7.02	10.69
10.	Potato	Kg	0.42	1.20	1.22
11.	Dry Chillies	Kg	3.00	5.50	6.57
12.	Tea (leaf)	Kg	7.20	11.00	12.69
13.	Kerosene	Litre	0.43	0.69	1.02
14.	Shirting	Meter	1.44	4.01	5.85
15.	Cigar t'es	10 No.	0.34	0.86	1.07
16.	Washing Soap (501 Bar)	Bar	1.55	2.23	3.02

3.36 From the above table it will be seen that prices of all commodities have increased during the period 1963 to 1974. The increase in almost all the commodities is remarkable.

C H A P T E R - I V

A N N U A L P L A N : 1 9 7 4 - 7 5

4.1 As per the guide lines of the Planning Commission, the Maharashtra Government has adopted the district as the unit of Planning. Accordingly District Planning Boards, under the Chairmanship of the District in-charge Minister has been constituted in this District. The District Planning Board has finalised the District Fifth Five Year Plan 1974-79 and Annual Plan 1974-75 for Rs. 3657.0 lakhs and Rs. 411.42 lakhs respectively as per the guide lines of the Government.

4.2 While preparing the Fifth Plan and Annual Plan 1974-75, as far as possible due care is taken to remove backwardness of particular area and these Plans are formulated according to the needs of the local population.

4.3 The Annual Plan 1974-75 of the order of Rs. 411.42 lakhs was prepared and submitted to Government after the approval of District Planning and Development Council (D.P.D.C.). The Government of Maharashtra has sanctioned the Annual Plan for Rs. 630.76 lakhs by raising the district ceiling. The break-up of this amount is given below.

T A B L E N O . 4 . 1 (Rs.in 0.00 lakhs)

Sr. No.	HEAD OF DEVELOPMENT	Annual Plan 1974-75 provision	% to total provision
1	2	3	4
1.	Agricultural Programmes	109.22	17.3
2.	Co-operation and Community Development	7.00	1.1
3.	Irrigation and Power	346.58	54.9
4.	Industry and Mining	5.42	0.9
5.	Transport and Communications	21.58	3.4
6.	Social Services	8.103.39	16.4
7.	Miscellaneous Programmes including E.G.S.	37.57	6.0
T O T A L		630.76	100.0

4.4 From the above table it can be seen that Irrigation and Power, was given the highest priority keeping in view to boost up the agricultural production. The other sectors were also

given priority according to their needs. A brief description is given sectorwise in the following paragraphs.

4.5 During the year 1974-75 expenditure incurred under different Heads of Development is given in the following table.

T A B L E N O. 4.2 (Rs. in 0.00 lakhs)

Sr: No: 1:	HEAD OF DEVELOPMENT 2	Expenditure incurred		
		State Sector 3	Local Sector 4	Total 5
1.	Agricultural Programmes	52.79	17.54	70.33
2.	Co-operation and C.D.	2.60	6.12	8.72
3.	Irrigation and Power	337.33	-	337.33
4.	Industry and Mining	5.55	-	5.55
5.	Transport and Communication	10.40	8.95	19.35
6.	Social Services	38.71	48.32	87.03
7.	Miscellaneous programmes including E.G.S.	45.27	-	45.27
T O T A L		492.65	80.93	573.58

4.6 From the above table it will be seen that ^{59%} of the total amount was incurred on Irrigation and Power followed by Social Services 15. %, Agricultural Programmes 12.3 %, Miscellaneous Programmes (including E.G.S.) 8 %, Co-operation and C.D. 1.5% and Industry and Mining 0.9 %.

4.7 The following paragraphs gives headwise details of financial and physical achievements.

AGRICULTURAL PROGRAMMES

4.8 Under this head due priority has been given to Minor Irrigation and Soil Conservation which are the main factor for increasing agricultural production. The following table gives details of expenditure incurred under different sub-heads.

T A B L E N O. 4.3 (Rs. in 0.00 lakhs)

Sr: No: 1:	SUB HEAD OF DEVELOPMENT 2	Expenditure incurred		
		State Sector 3	Local Sector 4	Total 5
1.	Agricultural Production	1.62	2.76	4.38
2.	Soil Conservation	25.92	-	25.92
3.	Minor Irrigation	23.74	14.73	38.47
4.	Animal Husbandry	-	0.05	0.05

1	2	3	4	5
5. Dairy Development		0.33	-	0.33
6. Forests		1.00	-	1.00
7. Fisheries		0.14	-	0.14
8. Warehousing and Marketing		0.04	-	0.04
T C T A L		52.79	17.54	70.33

I. AGRICULTURAL PRODUCTION

4.9 Under the sub-head Agricultural Production efforts have been made to increase agricultural production by distributing improved seeds, chemical fertilisers and pesticides.

SOIL CONSERVATION

4.10 The Soil Conservation programme was implemented in the district under which 11052 hectares of land was bunded and 612 hectares of land was terraced at a cost of Rs. 25.92 lakhs.

MINOR IRRIGATION

4.11 Under Minor Irrigation works one bandhara & four lift irrigation schemes were constructed. Subsidy to 850 new wells 13 old wells and 500 electric pump sets was given. Apart from this 16 tank works and some bandharas were in progress. The expenditure incurred on these works was Rs. 38.47 lakhs.

4.12 DAIRY DEVELOPMENT

Under Dairy Development the work of Milk plant at Mahabaleshwar was in progress. Total collection of milk was raised from 4000 litres to nearly 7000 litres per day.

4.13 FOREST

At a cost of Rs. 1.00 lakh work of Plantation of valuable trees in 130 hectares and afforestation of 290 hectares was completed.

4.14 FISHERIES

Under this programme netting of 18500 Kg fish and stocking of 3 lakh fingerlings was achieved.

II. CO-OPERATION AND COMMUNITY DEVELOPMENT :

4.15 CO-OPERATION :

An amount of Rs. 2.60 lakhs was spent on this programme.

The membership of Agricultural Credit Societies was increased by 6572 and short term loans of Rs.264 lakhs, Medium term loans of Rs.22 lakhs and Long term loans of Rs. 29 lakhs were distributed.

COMMUNITY DEVELOPMENT

4.16 The existing 11 blocks were assisted by giving assistance of Rs. 6.12 lakhs.

III. IRRIGATION AND POWER :

4.17 IRRIGATION

The work of Major project located at Dhcm on Krishna River and medium project at Yeralwadi on Yerala River were in progress on which an amount of Rs. 318.20 lakhs was incurred.

4.18 POWER

The programme of electrification implemented by M.S.E.B. has electrified 15 villages and connected 871 pump sets during the year 1974-75.

IV. INDUSTRY AND MINING.

4.19 Under this head an amount of Rs. 5.55 lakhs was spent. The expenditure was mainly on subsidy to new industries for rebate on power consumption. Under the scheme of Educated unemployed 204 persons were provided loans and subsidy.

V. TRANSPORT AND COMMUNICATION

4.20 Rural roads measuring 48 Kms and new roads measuring 12.43 Kms. were constructed by expending an amount of Rs. 19.18 lakhs.

VI. SOCIAL SERVICES

4.21 GENERAL EDUCATION

Under this programme 21 rooms for primary schools were constructed and 29 primary schools and one secondary school was started during the year. The amount spent on this programme was Rs. 29.73 lakhs.

4.22 TECHNICAL EDUCATION

An amount of Rs. 1.54 lakhs was spent for purchase of equipment for the Polytechnics at Satara and Karad.

4.23 HEALTH AND FAMILY PLANNING

An amount of Rs. 5.09 lakhs was spent for purchase of medicines and equipments for Rural dispensaries and Primary Health Centres.

4.24 WATER SUPPLY

The construction of 8 Municipal Water Supply Schemes and 133 Rural Piped Water Supply scheme and 60 wells was undertaken under this programme for which an amount of Rs. 44.97 lakhs was spent. Work of 6 Municipal and 56 Rural Pipe Water Supply Schemes is completed during 1974-75.

4.25 BACKWARD CLASS WELFARE

An amount of Rs. 2.69 lakhs was spent for welfare of the weaker section among the Backward classes.

4.26 VII. MISCELLANEOUS PROGRAMME

Under the programme most of the amount was incurred on Employment Guarantee Scheme. The object of the scheme is to provide employment to rural population. Under this programme productive works like Minor irrigation, Soil conservation, plantation of trees were undertaken.

4.27 CENTRALLY SPONSORRED SCHEMES

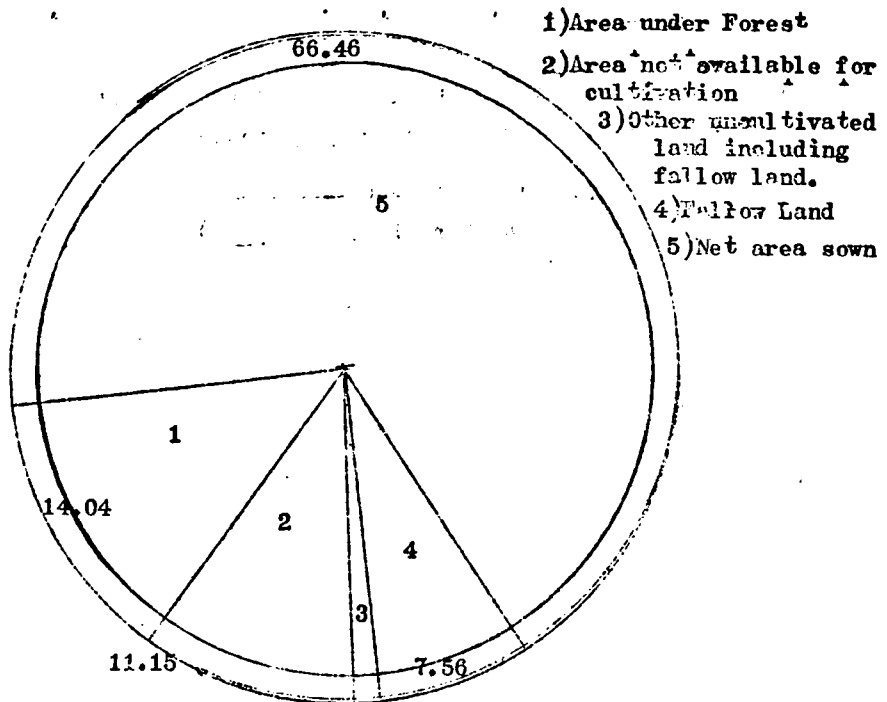

Apart from the District Plan implemented in the district an amount of Rs.38.48 lakhs was incurred on centrally sponsored schemes. The details are given below.

T A B L E No: 4.4 (Rs. in 0.00 lakhs)

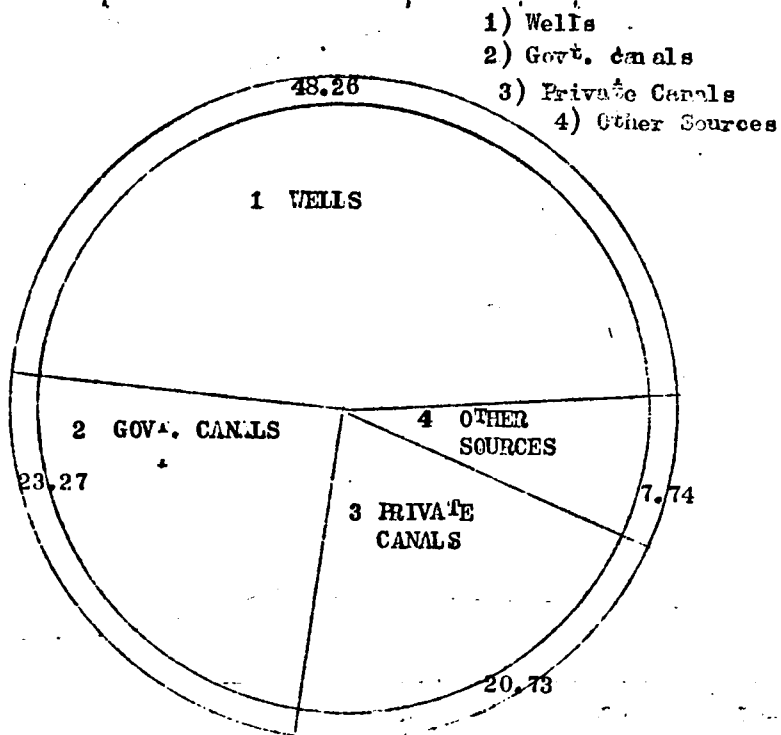

Sr: No:	HEAD OF DEVELOPMENT	Expenditure incurred		
		State sector:	Local sector:	Total
1:	2	3	4	5
1.	Agricultural Programmes	17.69	0.03	17.72
2.	Social Services	4.36	16.40	20.76
T O T A L		22.05	16.43	38.48

4.28 The above amount was spent on development of cash crops, 8 Minor Irrigation works under Drought area programme, eradication of communicable diseases etc.
