SOCIO ECONOMIC REVIEW

1975-76

Contents of
SOCIO ECONOMIC REVIEW 1975-76

Sr. No.	Name of Chapter	Page Number
1	2	3
1.	Introduction	1
2.	Explanatory notes on the scope and limitations of Statistics presented in the District Statistical Abstract	6
3.	An analytical Review	13
4.	Plan Review 1975-76 (Planning)	27

Jaibhavani sugar factory has so far received Rs. 92.57 lakhs towards share capital contribution from Government. It has received 90 % of the machinery and is under erection. It is seen that Kada factory has collected Rs. 35 lakhs towards share capital and the Government has given Rs. 70 lakhs towards share capital contribution.

1.4. Area

Geographical area of this district as per 1971 Census is 11,227 sq.kms. Out of which 10,903 sq.kms is rural and 324 sq.kms is Urban. The area under urban towns was more, prior to 1961 census, since there were 8 Municipalities. The Pangaon Municipality in Ambejogai taluk was deurbanised in 1961 census and thus the urban area decreased. This district ranks 14 th and 4 th in the State and Marathwada Region respectively in terms of area. Similarly the district ranks 23 rd in the State in terms of population. As compared the area under the talukas within the district Kaij ^{taluk} ranks first followed by Ambejogai, Georai, Patoda. Since a decade there were no territorial changes in the district and hence area of the district remained the same.

1.5. Topography

The district is partly table land and partly in broken hilly ranges with elevations between 300 to 900 metres. The hill ranges of Balaghat are spread over the central part of the district. The geographical conditions in general in the western part of the district comprising, Beed, Patoda and Ashti talukas are not favourable as in the eastern part which possesses more fertile soils and receives assured rainfall. A portion of the district on north and south side is plain. Due to the ranges of Balaghat the district is divided into uplands locally called "Gangathadi" some portion of Kaij and Ambejogai taluka is touched by these ranges.

1.6. Hills, Rivers and Soil.

The central part of the district is a hilly tract occupied by Balaghat ranges and the major part of Patoda and Ashti talukas is covered by the hills and appears deserted, when compared with Kaij and Ambejogai talukas.

The Balaghat ranges are spread over the northern part of Ashti taluka, most of Patoda and central part of Beed taluka. The main rivers of the district are Godavari, Manjra, Sindphana, Kundka, Bindusara, Wan and Sina. Manjra rises from the hills of Patoda. Rivers Kundka, Wan, Sindphana rise from Balaghat hills. The small rivers in the district are Mehkari, Kambli and Kadi.

The entire district is situated in the trap region and its soil is mostly fertile in Manjlegaon, taluka. Deep, medium and shallow soil is prevalent in greater part of the district. It is dark gray to black in colour. The soil is retentive of moisture. It becomes sticky when wet and cracks freely in the dry weather. The soil from the western part of the district indicates the existence of salt to the extent of 0.5 %. The soil alongwith the banks of Sindphana, Godavari and Manjra is more fertile. Nearly half of the cultivable area of the district is generally cropped under kharif crops. Jowar, Bajra and wheat are most important food crops of the district. Other crops included groundnut, rice, pulses, safflower, cotton and sugarcane.

1.7. Climate

The climate of the district is pleasant and agreeable during the greater part of the year. Patoda and Kaij talukas have cool climate even in summer. The village Chincholi in Patoda has highest elevation from the sea level and its weather in summer season is akin to that of hill station. Among all the talukas climate of Ambejogai is very pleasant. The climate of Beed, Manjlegaon and Georai on the low lands is warm.

1.8. Temperature

During the year 1974 the maximum temperature of 42.0°C was recorded in the month of May as against the maximum temperature of 43.0°C recorded in the same month of 1975. The minimum temperature during the year 1974 and 1975 was 5.7°C and 6.4°C respectively. The average temperature for the district was 25.3°C during the year 1974 as against 25.4°C in the year 1975.

1.9. Rainfall

As per the topography, the district is divided into high and low level tracts by the central ghats running through Beed and Patoda tahsils. The rainfall is not uniformly distributed during the monsoons. The average rainfall during the year 1975 was 964 mm. as against 578.5 mm. in 1974. The highest rainfall received at Georai during 1975 is recorded as 1373 mm. whereas the highest rainfall recorded at Patoda centre in 1974 was 855 mm. Tahsils situated in eastern part of district, receive generally assured rainfall during the monsoon period which starts in June and continues upto the end of September. In the year 1974 the rainfall for the district on an average was 578.5 mm. whereas it was 964 mm. in 1975. The statement showing the actual rainfall recorded at the selected centres in the district during 1974 and 1975 is as under.

Statistics of rainfall recorded at the rainguage in the district during 1974 and 1975.

Sr. No.	Name of the selected centres.	Rainfall in mm.	
		1974	1975
1	2	3	4
1.	Beed	..	586.2
2.	Chousala	..	389.9
3.	Georai	..	572.1
4.	Manjlegaon	..	613.7
5.	Ambejogai	..	594.4
6.	Kaij	..	570.4
7.	Patoda	..	855.4
8.	Rooti	..	474.1
9.	Ashti	..	550.3
Average rainfall ..		578.5	964

The above statement shows that the average rainfall in district in 1975 was more by 385.5 mm. as compared to that in 1974.

CHAPTER - II

Explainary note on scope and limitations of Statistics presented in the District Statistical Abstract 1975-'76.

2.1 The yearly publication of the District Statistical Abstract for the year 1975-76 is the 14 th issue since the 1 st was published in 1958-59. This is a yearly publication consisting of exhaustive statistics including Socio Economic Indicators. The data in this publication is collected from the various departments of State Government, Government of India, Reserve Bank of India, and Local Bodies etc. A foot note to that effect is given at the bottom of each table.

2.2. District At a Glance :

The figures presented in the statement of district at a glance for this district are in comparision with the Maharashtra State. The reference period is the same for the district and the state.

2.3. The scope and limitations of the Statistical information presented herein is explained in brief in following paragraphs.

2.4. Area and Population:

2.4.1. The data of 1971 census population is presented along with the information pertaining to variation in population data in two decades i.e. 1951 and 1961.

2.4.2. The figures of 1971 Census population are presented in table no.1 giving talukewise figures of area, rural and urban population, number of occupied residential houses as well as total number of households, male and female population, population per square kilometre as well as percentage variations over 1951 Census are also furnished in table no. 1 and 2. The data on villages according to population ranges as per 1971 census is shown in table no.3. It also gives information in respect of villages inhabited and uninhabited separately. Towns classification as per population ranges are reported in table No.4. The talukewise figures of workers based on livelihood classification and non-workers existing in the district are presented in table No. 5

The figures are sub-divided in to rural and urban sectors. Distribution of population according to age group,mother tongue & religions etc.is indicated in table No.6 and population of scheduled castes and scheduled tribes and Nec-buddhists is presented in table no.7.

2.5.Rainfall and climate:

2.5.1. The data on actual rainfall recorded at the selected centres in the district and the number of rainy days is shown in table no.8. Monthwise details of the selected centres for (1)Beed,(2)Chousala,(3)Georai,(4)Manjlegaon,(5)Ambejogai,(6)Kaij,(7)Patoda,(8)Rooti and (9)Ashti are given.The normal rainfall recorded for each centre is the average rainfall of prolonged period usually of eighty years.

2.5.2. Figures are reported in table No.9 pertaining to monthly maximum,minimum and yearly temperature at one selected centre i.e.Beed in the district for the year 1975.

2.6.Agriculture:

2.6.1. Agriculture is predominant economic activity of the district. The statistical tables No. 10 to 23 ~~are~~ give total geographical area,area under different crops, area irrigated with the different sources,No.of irrigation wells in use,tanks,availability of groundwater,minor,major irrigation works etc.

2.6.2. Agricultural statistics is obtained ~~is~~ mainly from the annual season and crop report of the district for the years 1973-74 to 1974-75. All the figures in table No. 10 to 15 for the years 1973-74 are final and that of 1974-75 are provisional.

2.6.3. Land utilisation statistics is presented in table No. 10 and details of cropwise area in each taluka for both years i.e.1973-74 and 1974-75 are given in table No.11. Estimated information in respect of out turn and average yield rate per hectare of principal crops of the district is given in table No. 12. Net area irrigated with different irrigational facilities available in the district is indicated in table No.13, whereas irrigated area under different principal crops in each taluka is reported in table No.14. Number of wells in use/not in use and other wells are given in table No.15. (Contd..)

The table No.16 give the information in respect of availability of under groundwater in the district. The table No.17 and 18 give information about minor irrigation works as well as medium and major irrigation projects in each taluka. Agricultural wage rates presented in table No.19 are of the three selected centres i.e.(1)Umapur (Georai taluka),(2)Renapur(Ambejogai taluka), and (3)Kada (Ashti taluka) in the district and table No.20 indicates the data in respect of No.of operational holding and area operated No.of operational holding reporting irrigation and net area irrigated and number and area of operational holdings by tenure and by size class of operational holding in the district for the year 197#. The information on different types of agricultural implements/equipments and machinery in use in each taluka are presented in table No.21. The data on famine and scarcity is given in table No.22 and 23.

2.7.Animal Husbandry:

2.7.1. The table No.24 to 27 furnish the statistical data on different categories of livestock and poultry in the district as per quinquennial livestock census conducted in 1972. In table No. 24 livestock data of all categories is shown, while table No.25 furnish the information pertaining to veterinary facilities available in each taluka of the district during the year 1975-76. The details of diseasewise livestock mortality is presented in table No.26 and table No.27 shows data regarding the number of recognised slaughter houses and animal slaughtered therein.

2.7.2.Forest and Fisheries:

Data on forest area under different ranges, the quantity of minor and major forest product and estimated cost of forest produce of 1975-76 is presented in table No.28 and 29-A, B,C give the information in respect of quantity of fish.

2.8.Employment, Industry, Mining and Electricity:

2.8.1. Industry and Employment:- The data pertaining to factories registered under factory Act 1948 is presented in table No.30, 31 and 32.The types of factories covered with its detailles are as under.(1)Factories using power and employing 10 or more workers,(2)Factories not using power but employing 20 or more workers, and (3)Factories not covered in 1 & 2 but notified by the Government as covered under the factory Act.

2.8.2. The details of each type of Industry, the total number of working factories and number of mandays worked during the year under report as well as average daily employment classified by males and females separately are given in table No.30. The classification of Industries is based on standard classification. The information in respect of table No.31 and 32 give the distribution of factories according to their working strength and the distribution of the factories according to number of days worked respectively. The data on Annual survey of Industry is shown in table No. 33.

2.8.3. Employment Exchange Statistics:- Table No.34 and 35 give employment exchange statistics of the district while table No.36 indicates the data on works undertaken by Employment Guarantee scheme and expenditure incurred during the year 1975-76 in district. The table No.37 give the volume of different industries as on 31-3-1976.

2.8.4. Figures of electricity generated, consumption for domestic, commercial, industrial, public lighting and other purposes etc. are shown in table No.38, and number of villages and towns electrified and population covered upto the year ending 1975-76 are shown in the table No.39.

2.9. Co-operation:

2.9.1. This section deals with various activities of the co-operative movement. An abstract of the different types of co-operative societies in existence in the district is presented in table No.40, and number of co-operative Banking facilities with total number of membership, share capital, reserve funds and other amounts of loans advanced (short term, medium term and long term) etc. is given in table No.41. The details of primary agricultural credit societies functioning in each taluka are shown in table No. 42 and data about other co-operative societies of different types in the district is given in table No.43. Operations of the central and primary co-operative marketing societies are shown in table No.44 and details of other different types of societies in the district are reported in table No. 45.

Activities of the regulated markets in each taluka is presented in table No.46. The data on money lenders and loans advanced by them during the year under report is given in table No. 47.

2.10. Medical and public health :

2.10.1. The medical and public health statistics is presented in ~~xxix~~ 5 different tables. Medical facilities made available through public and public aided bodies are shown in table No.48. Number of births and deaths registered are given in table No.49 and number of deaths reported due to various important causes in table No.50. The information pertaining to vaccination statistics and family planning activities respectively are presented in table No.51 and 52.

2.11. Education:

Education statistics is displayed in 7 tables the total strength of male and female literates with percentages both for rural and urban parts is shown tahsilwise in table No. 53. The data on education in urban and rural areas is shown in table No.54 and 55. Information appearing in table No.56 indicates educational institutions of different categories catering the needs of the district alongwith total enrolment of boys and girls and number of teachers both trained and untrained. Information pertaining to beneficiaries from backward classes is given in table No.57 and concession of free education availed by the economically ~~xx~~ backward class communities is presented in table No.58. Amount realised to various primary educational institutions by way of grants-in-aids is shown in table No.59.

2.12. Transport and Communications:

This section deals with upto date statistics relating to facilities of various modes of transport available in the district. The details of railway length according to different types of rail guages in the district are presented in table No.60-A. The ~~xx~~ Road length according to different categories as well as types of surface of roads can be seen in table No.61. Number of motor vehicles operated in Aurangabad

division are presented in table No.62 as the separate information pertaining to Beed district is not readily available. The details of operational statistics is included in table No.63, giving nationalised road transport according to State Transport Divisions of Aurangabad and Nanded since Beed district is covered under the above two S.T.Division. The traffic census of important roads by Public Works Department in Beed is shown in table No.64, whereas growth of postal facilities availed by the rural and urban areas of this district for the years 1961-62, 1965-66, 1970-71, 1971-72, 1972-73, 1973-74 and 1975-1974-75 is given in table No.65. Development of rural broadcasting in the district is shown in table No.66.

2.13. Local Bodies:

The sub-section 'Local Bodies' deals with upto date statistics about village panchayats, municipal councils and Zilla Parishad of this district. Income and expenditure of the local bodies is given in table No.67 for the years 1965-66, 1968-69 to 1975-76. The total no.of Village Panchayats existing in the district alongwith the total no.of villages covered by Village Panchayat as well as income and expenditure of Village Panchayats is shown in table No.68. The upto date information of headwise receipts and expenditure of Zilla Parishad, Beed is shown in table No.69-A, 69-B and 69-C, while income and expenditure of seven Municipal councils is shown in table No. 70 for the year 1975-76.

2.14. Plan and community development :

2.14.1. Statistical data regarding plan and community development is presented in table No.s 71, 72, 73, 74 and 75. The details of expenditure and physical achievements under various schemes included in the Fourth Five Year Plan and during the Annual plan for the years 1974-75 and 1975-76 are shown in table No.71 and 72 respectively. The table No.73 gives particulars of C.D.programme implemented in the district. The entire rural area of the district is covered by C.D. programme.

Expenditure incurred out of C.D.schematic funds in different stages by the blocks is reported in table No.74 and the physical achievements under selected items by all blocks (stage-wise) operating in this district is presented in table No.75.

2.15.Prices :

This section gives details about fluctuations in the prices of essential commodities in the district. The wholesale prices of important agricultural commodities at regulated markets are indicated in table No.76. The prices are collected from three different rural centres and of the district headquarter, The prices of all such commodities at district headquarters are given in table No.77 for the year 1975. Details of consumer price index for the working class of the said year can be seen in table No.78. with 1961 as base year.

2.16.Judicial and Administrative :

Judicial statistics, existing strength of police force and crime statistics for the district is furnished in this section in table No. 79 to 81.

2.17. Miscellaneous:

Statistics relating to cinemas, Banks and Joint companies, insurance policies, small savings, land revenue, number of presses ~~xxxx~~ news papers and periodicals etc. are given in table numbers 82, 83, 84, 85, 86, 87, 88 and 89 respectively. Table No.90 is the summery table indicating trends in the selected items in respect of (1)area & population(2)Agriculture and irrigation(3)Soil conservation (4)Agricultural implements & livestock fisheries(5)factory employment (6)electricity(7)Co-operation(8)education (9)medical and public health(10)transport and communication (11)community development (12) Local self Government and Banking etc.

C H A P T E R - III.
AN ANALYTICAL REVIEW

3. This chapter deals with important selected indicators of the district for comparative study.

3.1. Percentage of gross cropped area to net area sown.

This indicator shows the extent of double cropped area in relation to net cropped area in the district. The double cropped area of the district increased in the year 1965-66 over the year 1961-62. It, however, decreased in the years 1973-74 and 1974-75 over the years 1961-62 and 1965-66. The percentage of double cropped area to net cropped area was almost the same in the years 1973-74 and 1974-75. The double cropped area decreased in Beed, Kaij, Patoda and Ashti in the year 1965-66 over 1961-62. It increased in remaining tahsils of Georai, Manjlegaon, and Ambejogai over the year. The double cropped area decreased in Gecrai, Ambejogai and Ashti in the year 1974-75 over the years 1961-62 and 1965-66. It, however, increased in Kaij over these years. The reasons for decrease of double cropped area over these years are inadequate facilities of irrigation, unassured rainfall and less fertile soil in the district.

Percentage of gross cropped area to net cropped area in the years 1961-62, 1965-66, 1973-74 and 1974-75.

Sr. No.	Tahsil	Percentage of gross cropped area to net cropped area.			
		1961-62	1965-66	1973-74	1974-75
1	2	3	4	5	6
1. Beed		111.2	106.7	103.5	104.0
2. Georai		106.1	108.6	102.0	100.0
3. Manjlegaon		100.9	108.0	104.4	107.6
4. Ambejogai		100.0	104.6	103.8	100.3
5. Kaij		103.7	103.0	101.9	104.7
6. Patoda		112.7	111.6	104.8	105.4
7. Ashti		110.2	107.2	103.9	102.7
Total	...	105.9	106.8	103.3	103.6

The percentage of gross cropped area to net cropped area in the year 1974-75 is the highest in Manjlegaon tahsil. It is, however, lowest in Georai and Ambejogai tahsils.

3.2. Production of important crops:

The following table shows the yield per hectare and production of important crops in 1961-62, 1965-66 and 1974-75.

Sr. No.	Important crops	Yield per hectare in Kg.			Out-turn in '00 m.tonns		
		1961-62	1965-66	1974-75	1961-62	1965-66	1974-75
1	2	3	4	5	6	7	8
1. Rice		603	341	406	49	34	39
2. Wheat		371	258	555	155	102	251
3. Kh. Jowar		542	408	(481)	455	334	{ 1497 }
4. Rabi Jowar		559	486	()	1459	1083	{ }
5. Bajara		286	206	252	256	215	342
6. Gram		346	232	294	119	58	95
7. Tur		252	205	319	59	39	76
8. Sugarcane		4638	8678	7259	111	153	196
9. Cotton.		108	64	120	464 (00 bales)	222 (00 bales)	363 (00 bales)
10. Groundnut		787	449	-	757	314	-
11. Chillies		481	499	490	27	29	26

3.2.2. The yield per hectare of rice, wheat, jowar(Kh.), bajra, gram tur and cotton increased in the year 1974-75 compared to 1965-66. The yield per hectare of jowar (Rabi), sugarcane and chillies is, however, decreased in 1974-75 compared to 1965-66. The yield per hectare is, however, decreased in respect of rice, jowar(Kh.&Rabi), bajra and gram in 1974-75 compared to the yield per hectare in 1961-62. The yield per hectare of wheat, tur, cotton and chillies is increased in the year 1974-75 compared to 1961-62. The out-turn of rice, wheat, bajra, gram, tur, sugarcane and cotton increased in the year 1974-75 as compared to 1965-66 whereas the out-turn

of jowar (kh.&rabi), gram and cotton decreased in 1974-75 as compared to 1961-62. The yield per hectare and out-turn of important crops were not satisfactory in the year 1974-75 as were in the year 1961-62.

3.3. Gross value of agricultural production.

The gross value of agricultural commodities was 15,57,70 thousand rupees in the year 1961-62 as per prices prevailing in the year. The gross value of these commodities increased to 18,34,70 thousand rupees in the year 1965-66 as per prices of the year. The gross value of these commodities in the year 1974-75 was 55,46,65 thousand rupees. This shows that the gross value of agricultural commodities increased to three times in the year 1974-75 compared to gross value of 1965-66. The gross value increased more than three and half times in the year 1974-75 than the gross value of 1961-62. There is not so much increase in the out-turn of these crops. The element responsible for increase of gross value of agricultural commodities is the prices. The prices of all the commodities have increased in the year 1974-75 than prices in the 1965-66 and 1961-62.

3.3.2. The average agricultural prices of commodities and value of agricultural production in the year 1961-62, 1965-66 & 1974-75.

Sr. No.	Commodity	Average price per m. tonnes (Rs.)			Gross value of commodities (in'000' Rs.)		
		1961-62	1965-66	1974-75	1961-62	1965-66	1974-75
1	2	3	4	5	6	7	8
1. Jowar		400	530	1,556	7,65,60	7,51,01	23,29,33
2. Wheat		586	1,114	2,103	90,68	1,13,63	5,27,85
3. Bajara		446	975	1,435	1,14,18	2,09,62	4,90,77
4. Gram		427	1,294	1,893	50,81	75,05	1,79,83
5. Tur		404	826	2,142	23,84	32,21	1,62,79
6. Sugarcane		388	483	1,590	43,07	73,90	3,11,64
7. Cotton		910	1,184	3,589	76,44	47,06	13,02,80
8. Groundnut		633	1,147	-	3,52,58	3,60,16	-
9. Dry-chilliies.		1,500	5,933	9,294	40,50	1,72,06	2,41,64
Total		xx	xx	xx	15,57,70	18,34,70	55,46,65

3.4. Percentage of gross irrigated area to net irrigated area.

The net area irrigated through all sources in the district in the year 1973-74 was 52,526 hectares. The net area irrigated in 1961-62 was 39,398 hectares and in 1965-66 was 51,527 hectares. There is increased in the net area under irrigation in 1973-74 over the years 1961-62 and 1965-66. The increase in the net area in 1973-74 is considerable compared to net irrigated area in 1965-66. The increase in net irrigated area in 1973-74 is, however, very small compared to 1961-62. It is peculiar to see that the identical trend is seen in the gross irrigated area over the years. The gross irrigated area, considerably, increased in the year 1965-66 over the years 1961-62. It, however, decreased in 1973-74 compared to 1965-66. The irrigated area under double cropping in the year 1973-74 was 'nil'. The irrigation sources are, therefore, utilised in this year either for perennial crops or for kharif or rabi crops in view of the inadequacy of water. This shows that area under irrigation is increasing with the decrease in area under double cropping. The double cropped area under irrigation was observed highest in Patoda and lowest in Manjlegaon and Ambejogai in the year 1965-66. The irrigated area under double cropping was also found highest in Patoda and lowest in Manjlegaon, Ambejogai and Georai in the year 1961-62.

The following table shows the gross irrigated area, net irrigated area and the percentage of gross irrigated area to net irrigated area in the district.

(Area irrigated in hectares)

Sr.Ta- No.lu- ka	Gross Irrigated area			Net irrigated area			% of gross irriga- ted area to net irrigated area			
	1964- 62	1965- 66	1973- 74	1961- 62	1965- 66	1973- 74	1961- 62	1965- 66	1973- 74	
1	2	3	4	5	6	7	8	9	10	11
1. Beed	10773	9361	20944	7728	7949	20944	139.4	117.8	100.0	
2. Geor- ai.	1904	3700	3331	1904	3626	3331	100.0	102.0	100.0	
3. Man- jle- gaon.	10037	10707	2677	10037	10707	2677	100.0	100.0	100.0	

1	2	3	4	5	6	7	8	9	10	11
4.Ambe-jogai.	2138	2357	5657	2138	2357	5657	100.0	100.0	100.0	
5.Kaij	2999	5043	2497	2554	4123	2497	117.4	122.3	100.0	
6.Patoda	6767	12909	5180	5484	10081	5180	123.4	128.0	100.0	
7.Ashti	9553	13881	12240	9553	12684	12240	100.0	109.4	100.0	
Total..	44171	57958	52526	39398	51527	52526	112.1	112.5	100.0	

The above table reveals that there is no irrigated area under double cropping in the district in the year 1973-74.

3.5. Percentage of net irrigated area to net area sown.

The net area irrigated and net area sown in the year 1973-74 are 52,526 hectares and 6,90,908 respectively. The percentage of net area irrigated to net area sown works out to 7.6 percent.

The following table shows the net area irrigated and the area sown with their percentage.

Sr. No.	Items	1961-62	1965-66	1973-74
1	2	3	4	5
1.	Net area sown (00 hectares)	8,239	7,526	6,909
2.	Net area irrigated(00 hectares)	394	515	525
3.	Percentage of net area irrigated to net area sown.	4.8	6.8	7.6

The above table reveals that the net area sown is decreasing whereas net area irrigated is increasing over the years. The percentage of net area irrigated to net area sown is increasing in 1973-74 compared to 1965-66 whereas it is increased in 1973-74 over the year 1961-62. Inadequacy of rains may be the probable reason for slow increase in the irrigation percentage in these years.

3.6. Change in crop pattern

3.6.1. The area sown is decreasing day by day even though there are attempts to bring additional land under cultivation. The area under double cropping is also decreasing. Naturally there is decrease in area under food-crops and non-food crops over the years. The percentage of food crops to gross cropped area is, however, increasing day by day with the corresponding decrease in the percentage of non-food crops to gross cropped area. The tendency to bring additional area under food crops is increasing as it is the need of the day. The area under non-food crops is naturally decreasing. It is being replaced by food crops.

The following table gives the figures of area under food crops and non-food crops with their percentage to gross cropped area.

Sr. No.	I t e m s	1961-62	1965-66	1974-75
1	2	3	4	5
1.	Total food crops (area in '000'hectares.)	651	611	568
2.	Total non-food crops (area in '000'hectares)	222	193	135
3.	Percentage of food crops to gross cropped area.	74.5	76.0	80.8
4.	Percentage of non- food crops to gross cro- pped area.	25.5	24.0	19.2

3.6.2. The percentage of area under food crops to gross cropped area is increasing in all the talukas in the district. The percentage of area under food crops to gross cropped area was highest in Patoda taluka and lowest in Ambejogai. The percentage of area under non-food crops to gross cropped area was highest in Patoda taluka and lowest in Ambejogai in the year 1974-75.

3.6.3. The area under cereals was 4,33,153 hectares and area under pulses was 1,24,536 hectares in 1974-75. The area under cereals of district is decreasing over the year 1961-62 and 1965-66.

The area under pulses is, however, increased over the year 1965-66 and decreased over the year 1961-62. The percentage of area of cereals to gross cropped area and pulses to gross cropped area have, however, increased in all these years.

The table gives the area under cereals and pulses and their percentage to gross cropped area in the district.

Sr. No.	I t e m s	1961-62	1965-66	1974-75
1	2	3	4	5
1.	Total area under cereals ('000'hectares).	508	478	433
2.	Total area under pulses ('000' hectares).	126	120	125
3.	Total gross cropped area ('000'hectares).	873	804	703
4.	Percentage of cereals to gross cropped area.	58.2	59.5	61.6
5.	Percentage of pulses to gross cropped area.	14.6	14.9	17.7

The percentage of area, under cereals to gross cropped area, was observed highest in Ashti taluka and lowest in Ambajogai taluka in the year 1974-75. So also the percentage of area, under pulses to gross cropped area was observed, highest in Patoda taluka and lowest in Ashti taluka in the year 1974-75.

3.6.4. The irrigation facilities have increased, in the district. The area under irrigation has also increased in 1973-74 compared to area in 1961-62 and 1965-66. The table showing the irrigated area under cereals, pulses, food crops and non-food crops with their percentage to gross irrigated area.

Sr. No.	I t e m s	1961-62	1965-66	1973-74
1	2	3	4	5
1.	Irrigated area under cereals ('00' hectares)	334	422	420

1. Irrigated area under boroniferous soils and non-saline soils is 15.5000000000000005 acres of land which is 100% of the total area of 15.5000000000000005 acres of land.

2. Irrigated area under pulses ('00' hectares).
 3. Total irrigated area under food crops ('00' hectares).
 4. Total irrigated area under food crops ('00' hectares).
 5. Percentage of irrigated area under food crops to gross irrigated area.
 6. Percentage of irrigated area under non-food crops to gross irrigated area.

3.6. The percentage of area under food crops to gross irrigated area in 1973-74 is slightly decreased over 1961-62. It is also the same in 1965-66. So also the percentage of area under non-food crops to gross irrigated area is slightly increased in 1973-74 over the years 1961-62. It is almost the same in 1965-66. The percentage of area under food crops to gross irrigated area is highest in Ashti taluka and lowest in Ambejogai taluka in 1973-74. So also the percentage of area under non-food crops to gross irrigated area is highest in Ambejogai taluka and lowest in Ashti taluka in the year 1973-74.

3.7. Agricultural credit dues outstanding and gross value of agricultural production.

3.7.1. The position of agricultural dues outstanding and the gross value of agricultural production is given in table shown below.

3.7.2. Agricultural credit dues outstanding in Beed district.

Sr. No. Name of taluka Agricultural credit dues outstanding

Sr. No.	Name of taluka	1961-62	1965-66	1974-75	1975-76
---------	----------------	---------	---------	---------	---------

1	2	3	4	5	6
---	---	---	---	---	---

1. Beed	31	37	64	73
2. Gecrai	15	50	156	146

1	2	3	4	5	6
3. Manjlegaon		8	26	71	68
4. Ambejogai		13	44	90	107
5. Kaij		15	48	98	90
6. Patoda		16	23	79	86
7. Ashti		10	54	64	84
Total		108	282	622	654

3.7.2. The outstanding dues of agricultural credit in the year 1961-62 were 108 lakhs. The same were observed to be 282 lakhs in 1965-66, 622 lakhs in 1974-75 and 654 lakhs in 1975-76. It is seen that the outstanding over the previous years have been increased rapidly. The main reason for increase of dues may be the increasing prices of various commodities. The increase of dues is as rapid as the prices. The outstanding due of agricultural credit were observed highest in Georai taluka and lowest in Manjlegaon taluka in 1975-76.

3.8. Agricultural wage rates:

The agricultural wage rates prevailing in three selected centres viz. Renapur in Ambejogai, Kada in Ashti and Umapur in Georai taluka were collected in the year 1975-76.

Average agricultural wage rates for 1963-64, 1969-70 and 1975-76 are given in the table shown below.

Sr. No.	Category	Centre	Wage rate in Rs.		
			1963-64	1969-70	1975-76
1	2	3	4	5	6
1.	Carpenter (Skilled Labour)	Umapur	2-75	4-27	7-00
		Kada	3-00	5-00	7-00
		Renapur	3-00	4-02	N.R.
2.	Blacksmith (Skilled Labour)	Umapur	2-57	4-27	7-00
		Kada	2-50	5-00	7-00
		Renapur	2-50	4-02	N.R.

1	2	3	4	5	6
3. Cobbler (Skilled Labour)	Umapur	N.R.	2-42	5-00	
	Kada	N.R.	5-00	7-00	
	Renapur	N.R.	3-00	N.R.	
4. Field Labour (Un-skilled Labour male)	Umapur	1-47	2-20	2-50	
	Kada	1-70	2-06	3-00	
	Renapur	1-56	2-92	3-00	

3.8.2. The wage rates of skilled and unskilled labour were observed to be increasing day by day, with the increase in prices of various essential commodities. The increase of wage rate is rapid. The wage rates were observed, almost double, in 1975-76, than the wage rates existing in 1963-64. The wage rates of carpenter and blacksmith were highest at Umapur and Kada centres in 1975-76. The wage rates of cobbler were highest in Kada centre and lowest in Umapur centre in 1975-76. The wage rate of field labour were observed to be ranging in between Rs. 2-50 to Rs. 3-00 in these centres.

3.9. Livestock per hectare of land:

Livestock is the only source of power in agricultural industry. It is bovine population which caters to this need of power in seasonal agricultural operations. The bovine population when compared with cultivable area, indicates the extent, this power is available for agricultural operations. The bovine and ovine population of the district in 1972 census was 9,73,145. It decreased by about 80,000 in 1972 compared to 1966 census. It decreased by about 74,000 in 1972 compared to 1961 census. The decrease in livestock population in 1972 may be due to scarcity conditions in the district. The cultivable area of the district was 10,08,100 hectares in 1974-75. The male bovine over three years in 1972 were 2,47,577. The cultivable area available, per pair of male bovine, over three years in 1974-75 was 8.2 hectares. It was 6.9 hectares as per 1966 census and 7.3 hectares as per 1961 census. The cultivable area observed to be increased for each pair of male bovine, over three years in 1972, than in 1961 and 1966. It is due to decrease of livestock population in scarcity period.

3.10. Poultry population in the district :

The strength of poultry was observed to be 2,22,125 as per 1972 census. The strength of poultry increased in 1972 census than in 1966. It was found to be less than the strength of 1961. The ratio of poultry per thousand human population was observed to be 172 173 in 1972 census. The ratio was 156 and 239 per thousand of population in 1966 and 1961 respectively. The ratio of 1972 declined compared to 1961. It ,however, increased compared to 1966.

3.11. Consumption of Electricity:

There is rapid progress, in consumption of electricity, in the district. The electricity consumed, in 1961-62,1965-66 and in 1975-76 was 376, 2186 and 26896 thousand KWH. the consumption of electricity, was seventytwo times more, in 1975-76, than in 1961-62 and as comparod with the consumption of 1965-66 it increased to twelve times in 1975-76. The consumption of electricity per capita, was observed to be 0.4 KWH.in 1961-62. It was 2.2 KWH. in 1965-66 and it was 20.91 KWH.in 1975-76. The consumption of electricity for agricultural purposes was found to be the highest than for other purposes. The use of electricity for industrial purposes is next to agriculture.

3.12. Enrolment of candidates in Employment Exchange.

The enrolment of candidates in employment exchange is increasing day by day. As many as 5392 candidates have enrolled themselves in the employment exchange offices, in the district, in 1975-76 .The candidates enrolled in 1974-75 and 1965-66 were 5524 and 5076 respctively. The strength of candidates on live registry of exchange is increasing day by day. The placement of candidates is rather meagre. 831 vacancies were notified in 1975-76 as against which placement was 191 candidates only. There were 2000 vacancies notified, in 1965-66 and placement of candidates was 1432. The trend of notification of vacancies and placement of candidates is decreasing every year. The ratio of enrolment of candidates and that of notification of vacancies and placement of candidates is rather reverse. The employment problem is becoming severe day by day.

3.13. Indoor and outdoor patients in the hospitals and dispensaries

3.13.1. Indoor patients treated in the hospitals and dispensaries, in the district, during 1975, were 37,744. The indoor patients treated, in 1965 were 10,479 and in 1961 were 6,300. This shows that there is increasing trend of treatment of indoor patients. The medical facilities are increasing day by day.

3.13.2. The outdoor patients treated in the hospitals and dispensaries were 6,77,000 in 1975. The patients treated in 1965 were 6,51,873 and that in 1961 were 4,94,336. This shows that there is increasing trend of treatment of outdoor patients. This may be due to additional facilities provided for admitting them as indoor patients. As there are hospitals at Beed and Ambejogai, treatment of patients in these talukas is more, as compared to other talukas in the district.

3.13.3. The strength of beds, in hospitals and dispensaries, in 1975 was 688. The ratio of beds per lakh of population, in 1975 works out to 53. It was 45 beds in 1965 and 40 beds in 1961. The strength of beds per lakh of population is increasing day by day.

3.14. Enrolment of students in Educational Institutions:

Primary institutions:

3.14.1. There were 80,455 and 92,256 boys and 34,847 and 43,118 girls enrolled in , 1,546 primary institutions in 1974-75 and 1975-76 respectively. The strength of boys and girls was 71,325 and 27,022 respectively in 1,319 primary institutions, in 1965-66. So also, there were 50,443 boys and 14,912 girls in 933 primary institutions, in 1961-62. This shows tremendous increase, in enrolment of students and corresponding increase in the institutions also. The strength of teachers in these institutions has also increased from 1,874 in 1961-62 to 2,884 in 1965-66 and 3,995 in 1974-75 and 4,044 in 1975-76.

Secondary Education:

3.14.2. The strength of boys were 32,190 and 35,144 and that girls were 9,268 and 10,127, in 1974-75 and 1975-76 respectively in 152 secondary institutions. There were 25,656 boys and 6,342 girls in 108 institutions, in 1965-66. There were 9,801 boys & 1,874 girls in 38 institutions, in 1961-62. The enrolment of

boys in secondary institutions has decreased in 1974-75 and 1975-76 as compared to the enrolment in 1973-74. There were 531 teachers in 1961-62 in secondary institutions. It was 1,227 in 1965-66. It, however, decreased to 2,133 and 2,086 in 1974-75 and 1975-76 respectively compared to 2,167 in 1973-74.

Higher Education:

3.14.3. There were hardly two institutions in 1961-62. One more college was added in 1965-66. The strength of colleges in 1974-75 and in 1975-76 were 13. As many as 11,264 and 7,882 students were educated in 1974-75 and 1975-76. There were hardly 619 students in there two institutions in 1961-62. This shows that the college education has become very common feature in these days. The strength of teachers in colleges increased from 42, in 1961-62 to 70 in 1965-66 and to 368 and 351 in 1974-75 & 1975-76 respectively,

3.15. Road length in Beed District:

The road length, of all types of roads, in the district was 3,723 kms.in 1976. It was 1,084 kms.in 1965 and 762 kms.in 1961. The communication facilities are increasing day by day, making approaches, in rural areas. Easy approaches are made by constructing rural roads to villages and these roads are linked to the district roads..The road length per 100 sq.kms. of area in the district, is 33.2 kms. It was 9.9 kms.in 1965 and 7.0 km.s in 1961.

3.16. Banking facilities in the district.

The population of about one lakh was served by 9 banking office, in 1961. The population of 1,12,795 was served by 18 banking offices in 1966. The banking offices functioning in 1975,.were 71, serving population of 2,87,172 in rural and urban areas.

3.17. Retail prices at the district headquarter:

With the view to assess the trend of retail prices of the essential commodities, at the district headquarter, the average retail prices.of 1961,1966 and 1975 are given in the table, shown on next page.

Average retail prices of important commodities at the district headquarter.

Sr. No.	Commodity	Unit	Average retail prices for the year in Rs.		
			1962	1966	1975
1	2	3	4	5	6
1.	Wheat (medium)	Kilo	0-66	1-22	2-27
2.	Wheat (coarse)	"	0-63	1-19	2-11
3.	Jowar white	"	0-57	0-65	1-81
4.	Bajara	"	0-54	0-99	1-63
5.	Gramdal	"	0-64	1-84	2-64
6.	Arhar dal	"	0-83	1-29	2-99
7.	Mung dal	"	0-87	1-44	3-27
8.	Sugar	"	1-10	1-33	4-47
9.	Gur	"	0-68	0-77	1-94
10.	Groundnut oil	"	1-93	4-46	7-55
11.	Vanaspati dalda	"	3-33	5-82	11-35
12.	Goat meat	"	2-50	3-75	8-00
13.	Eggs (hen)	Dozen	1-80	2-34	4-37
14.	Dry chillies	Kilo	2-48	4-55	11-69
15.	Kerosene	Litre	0-32	0-52	1-14
16.	Challiya (Supari)	Kilo	7-25	9-05	9-44
17.	Cigarettes.	10 Nos.	0-31	0-39	1-18

It is evident, from the table, shown above, that there is tremendous increase, in prices of all commodities. The increase is almost double in 1966 and three times in 1975 compared to prices, in 1962 for most of the commodities. There is abnormal increase in the foodgrains. The price of sugar is four times higher in 1975 than the prices in 1962. The increase, in price is the highest in respect of dry chillies. It raised from Rs. 2-48 in 1962 to Rs. 4-55 in 1966 and Rs. 11-69 in 1975.

C H A P T E R - IV

PLAN REVIEW - 1975-76

4.1. After completing 20 years of planned development country is on the threshold of Fifth Five Year Plan starting from 1974-75 amidst a climate of great expectations. The plan processes which have been so far in operation during the last four plans have undergone a basic change as the district has been made the basic unit of Planning. The planning has now become two way process, from National level downwards and from District level upwards. This is a revolutionary approach which is aimed at removing imbalances between the district and district, for better utilisation of resources and for achieving better coordination in implementation of developmental programmes.

4.1.2. The Govt. of Maharashtra has already acted upon this major decision in the realm of planning and has constituted District Planning Boards in each district. State Govt. has laid down the functioning of the Planning Boards and has given guide-lines regarding formulation of the District Plan. It is of prime importance that the representatives of people are thoroughly associated with the various stages of planning to settle priorities to decide sectional allocation and also to know the limitations imposed on planning due to shortages of resources, while formulating this, plan should be in conformity with the state policies in the same way as the State plans are guided by the frame work of national policies.

4.1.3. Planning operation at the district levels has actually been started with the preparation of the Fifth Five Year Plan (1974-75 to 1978-79), annual plan 1974-75 and annual plan 1975-76.

4.1.4. After the district was adopted as a unit of planning, the District Planning Board, Beed is doing this exercise for the second time to formulate the annual plan of the district for the year 1975-76. For the second year of the Fifth Five Year Plan, the annual plan of the district was adopted as it emerged from the State's Annual Plan.

4.2. This chapter comprises the Plan review of the first two years of the Fifth Five Year Plan. During the first year i.e. 1974-75, the local expenditure incurred was to the tune of Rs. 376.38 lakhs on the district level plan schemes. A total provision of Rs. 459.86 lakhs was made for the district level schemes out of which Rs. 438.98 lakhs have been spent during 1975-76. The percentage of expenditure was 95. An amount of Rs. 370.53 lakhs was spent on state sector schemes whereas expenditure incurred on local sector schemes is Rs. 68.45 lakhs. The percentage of expenditure on State sector schemes and local sector schemes works out to 84.42 % and 15.53% respectively.

4.3. District Planning and Development Council, Beed has taken up 120 schemes for implementation in the second year of the Fifth Five Year Plan as against 93 in the first year of the plan. Out of 120 schemes 78 schemes were under the control of State sector whereas 37 schemes were under the control of local sector. 5 schemes were found to common in state and local sector.

TABLE NO. 1

Major headwise plan expenditure on State and Local sector schemes and percentage of expenditure during the 1st & 2nd year of V th Five Year Plan period.

Sr. No.	Major head	Expenditure Rs. in lakhs					
		1 st year of Fifth Five year plan.			2 nd year of V th Five year plan.		
1	2	State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1. Agricultural programme	102.03 (27.11)	17.92 (4.76)	119.95 (31.87)	96.49 (21.98)	23.46 (5.34)	119.95 (27.32)	
2. Cooperation & community development.	30.91 (8.21)	3.13 (0.83)	34.04 (9.04)	79.39 (18.09)	5.12 (1.16)	84.51 (19.25)	
3. Irrigation & Power.	93.79 (24.92)	-	93.79 (24.92)	74.61 (17.00)	-	74.61 (17.00)	
4. Industry & Mining.	0.76 (0.20)	-	0.76 (0.20)	1.19 (0.27)	-	1.19 (0.27)	
5. Transport & communication.	9.77 (2.60)	2.71 (0.72)	12.48 (3.32)	9.47 (2.16)	17.54 (4.00)	27.01 (6.16)	

1	2	3	4	5	6	7	8
6. Social Services		33.50 (8.90)	26.04 (6.92)	59.54 (15.82)	47.53 (10.83)	22.33 (5.08)	69.86 (15.91)
7. Miscellaneous.		55.82 (14.83)	-	55.82 (14.83)	61.85 (14.09)	-	61.85 (14.09)
		326.58 (86.77)	49.80 (13.23)	376.38 (100.00)	370.53 (84.42)	68.45 (15.58)	438.98 (100.00)

Note:- The figures in bracket indicate the percentage of total expenditure.

4.3.1. The study of table no.1 reveals that the highest percentage of expenditure viz. 31.87 in 1974-75 and 27.32 in 1975-76 is booked on the schemes of Agricultural programme. In it, major portion of expenditure was shared by the schemes of state sector giving percentage of expenditure as 27.11 and 21.98 for the year 1974-75 and 1975-76 respectively. Major head of cooperation and community development stands second in term of percentage expenditure giving 19.25. Major head of Irrigation and Power ranks third in term of percentage expenditure registering 17.00. This expenditure is totally under state sector. The expenditure booked on the remaining major heads is comparatively less i.e. 15.91 % expenditure is registered on Social Services. Under the major head of Miscellaneous percentage expenditure is 14.09. It is due to implementation of employment guarantee scheme. Under the major heads of Industries and Mining and Transport and Communication share of percentage expenditure is as 0.27 and 6.16 respectively.

The sub headwise details of the schemes implemented are discussed below.

4.4. AGRICULTURAL PROGRAMME :

4.4.1. The amount of expenditure incurred during the first and second year of the Fifth Five Year Plan period under agricultural programme comes to the tune of Rs.102.3 lakhs and Rs.119.95 lakhs respectively.

The details of sub headwise expenditure incurred during the first two years of the Fifth Five Year Plan period are depicted in table No.2 below with the percentage (in brackets) to the total expenditure under agricultural programme.

TABLE NO.2

Sr. sub-head of No. Development.	Expenditure Rs.in lakhs					
	1 st year of Fifth Fi- ve yeat plan.			2 nd year of Fifth Five year plan.		
	State sector	Local sector	Total	State sector	Local sector	Total Exxax
1	2	3	4	5	6	8
1.Agril.pr- duction.	3.01 (2.51)	2.92 (2.43)	5.93 (4.94)	0.06 (0.05)	1.08 (0.90)	1.14 (0.95)
2.Minor Irrigation.	41.98 (35.00)	15.00 (12.51)	56.98 (47.51)	27.25 (22.71)	20.15 (16.80)	47.40 (39.51)
3.Soil Con- servation.	30.07 (25.07)	-	30.07 (25.07)	32.78 (27.33)	-	32.78 (27.33)
4.Ayacut Development.	15.55 (12.96)	-	15.55 (12.96)	19.80 (16.51)	-	19.80 (16.51)
5.Draught Pr- one Area Programme.	-	-	-	6.89 (5.74)	2.23 (1.86)	9.12 (7.60)
6.Animal Hus- bandary.	0.02 (0.02)	-	0.02 (0.02)	0.12 (0.10)	-	0.12 (0.10)
7.Dairy De- velopment.	0.09 (0.08)	-	0.09 (0.08)	5.99 (4.99)	-	5.99 (4.99)
8.Forest.	11.04 (9.20)	-	11.04 (9.20)	3.33 (2.78)	-	3.33 (2.78)
9.Fisheries.	0.27 (0.22)	-	0.27 (0.22)	0.27 (0.23)	-	0.27 (0.23)
T o t a l	102.03 (85.06)	17.92 (14.94)	119.95 (100.00)	96.49 (80.44)	23.46 (19.56)	119.95 (100.0)

The table shown above reveals that during the second year of the Fifth Five Year Plan period the highest percentage of expenditure of 39.51 is incurred on minor irrigation sub-head followed by 27.33 and 16.51 percent expenditure on soil conservation and Ayacut development sub-heads respectively. This shows that the highest priority is accorded to the minor irrigation sub-head followed by soil conservation and ayacut development sub-heads. Very negligible percentage of expenditure of 7.60 is booked on drought prone area programme. The sub-heads which have registered percentage expenditure between 1 to 5 are dairy development,Forest,agricultural production,fisheries and animal husbandary.

4.5. Agricultural production:

4.5.1. In order to promote agricultural production in the district, the schemes such as seed farms, plant protection, horticultural development, intensive cultivation of food crops were implemented during the first two years of Fifth Five Year Plan period. Under this sub-head of development Rs. 5.93 lakhs and Rs. 1.14 lakhs were spent during the years 1974-75 and 1975-76 respectively.

4.5.2. So far as achievement during the year 1975-76 of this sub-head is concerned improved of 4,716 quintals were distributed to the cultivators. The chemical fertilisers to the tune of 8,388 tonnes were distributed. Compost of 31,030 M.tonnes was prepared.

4.6. Minor Irrigation:

4.6.1. Irrigation is life belt of agricultural production and minor irrigation is considered as more, economic and suitable to agro-economic development. It is felt that imbalance in the development of irrigation can be corrected to considerable extent by creating minor irrigation facilities. With the aspect in view schemes of construction of tanks, bandharas, new and old wells and pumping sets were programmed and implemented during the year 1975-76. During this year an amount of Rs.47.40 lakhs was spent on this sub-head.

4.6.2. In all 4 new wells were constructed and 6 old wells were repaired and 90 pumpsets were installed during the year 1975-76. Total additional irrigation potential created is 180 hectares during this period.

4.7. Soil Conservation.:

4.7.1. The soil conservation is the other programme which helps to increase agricultural production. Exhaustive programme of bunding and reclamation was undertaken and expenditure of Rs. 32.78 lakhs was incurred forming 27.33 percentage on this sub-head to total expenditure during 1975-76.

4.7.2. An area of 1,417 hectares was banded in the year 1975-76.

4.8. Ayacut Development.

4.8.1. During the year 1975-76 ayacut development works were undertaken and expenditure to the tune of Rs.19.80 lakhs was booked covering an area of 5,589 hectares.

4.9. Animal Husbandry:

4.9.1. The programme of animal husbandry was implemented with the object of supplementary food requirement. The expenditure of 0.10 percent was incurred during the year 1975-76. During this year 16 artificial insemination centres were started in the district.

4.10. Dairy Development:

4.10.1. Dairy development is also one of the means to provide supplementary occupation to the rural population. In the year 1975-76 expenditure of Rs. 5.99 lakhs was registered.

4.11. Forest:

4.11.1. Under this sub-head expenditure of 2.78 percent was incurred during the year 1975-76. Afforestation for soil conservation was carried out in 200 hectares.

4.12. Fisheries:

4.12.1. The programme of fisheries is considered as supplementary food for human consumption. It is nutrition programme providing important proteins. The expenditure of 0.23 percentage was registered during the year 1975-76 on this sub-head. During this period, the fingerlings stocked and fish netted was to the tune of 1,025 thousands 475 quintal respectively.

4.13. Drought Prone Area Programme:

4.13.1. The Fact Finding Committee identified of 6 out of 7 tahsils of the district as Drought Prone excluding 2 revenue circles from Manjlegaon and one from Kaij tahsil. The programme aims at proofing of the selected watersheds in six tahsils of the district from recurring droughts. This programme includes schemes of land resources, land use capability survey land development, water conservation, ground water development, minor irrigation, dry land farming, strengthening of artificial insemination facilities and forestry. This scheme is introduced in the Fifth Plan. During the first year of plan no expenditure could be done because Project Report could not be prepared in time. During 1975-76 an expenditure of Rs. 9.12 lakhs was incurred striking a percentage of 7.60.

4.13.2. In the year 1975-76 soil survey was conducted in 31,618 hectares of land new bunding was taken in 120 hectares whereas rectification was done in 2,753 hectares of land. 66 electric motors were installed.

4.14. COOPERATION AND COMMUNITY DEVELOPMENT :

4.14.1. The expenditure on this major head of development during 1975-76 comes to Rs.84.51 lakhs forming 19.25 percent expenditure to the total expenditure. This programme is divided into two sub-heads viz. Cooperation and Community Development.

Table No. 3

Sub-headwise expenditure incurred on the programme of Co-operation & Warehousing & Community Development during year 1974-75 & 1975-76.

Sr. Sub-head of No. development	Expenditure Rs. in lakhs in 1974-75			Expenditure Rs. in lakhs in 1975-76		
	State sector	Local sector	Total	State sector	Local sector	Total
1 2	3	4	5	6	7	8
1. Cooperation & Warehous- ing.	30.91 (90.80)	-	30.91 (90.80)	79.39 (93.94)	-	79.39 (93.94)
2. Community Development	-	3.13 (9.20)	3.13 (9.20)	-	5.12 (6.06)	5.12 (6.06)
T o t a l	30.91 (90.80)	3.13 (9.20)	34.04 (100.0)	79.39 (93.94)	5.12 (6.06)	84.51 (100.0)

4.15. Co-operation.

4.15.1. To provide facilities to the agriculturists the activities of cooperation have been intensified the expenditure of 93.94 percent is incurred in the year 1975-76 under this sub-head.

4.15.2. During 1975-76 short term and ~~long~~ medium term loans to the tune of Rs.103.00 lakhs and 117.49 lakhs were distributed for undertaking seasonal agricultural operations. The percentage of recovery during 1975-76 was 44.2 percent.

4.16. Community Development:

4.16.1. There are 12^{1/2} C.P.A. unit blocks functioning in seven Panchayat Samities of the district during 1975-76. In addition to this, 5 applied nutrition blocks and 2 composite programme of women welfare and children are found to be functioning in the district. The expenditure incurred on this sub-head was 6.06 percent only.

4.17. IRRIGATION AND POWER.

4.17.1. Prior to formation of District Planning Boards execution of major and medium project was at the state level. With the functioning District Planning Board the execution of major and medium projects was transferred to the district and subsequently execution of major projects was taken up at state level District Planning and Development Council has registered expenditure to the tune of Rs. 74.61 lakhs under this sub-head of development forming 17.00 percent expenditure to the total expenditure.

4.17.2. During the year 1975-76 works on Manjra project (continuing major irrigation project) Ghatshil project (continuing medium irrigation project) and Jayakwadi Stage-II (New scheme) and Kundlika and Sarswati (new medium irrigation project) were in progress. In addition to this 30 villages were electrified and 90 pumps were installed on wells in the district during the year 1975-76.

4.18. Industries and Mining:

4.18.1. Small scale and Cottage industries programme was intensified in the district during V th Plan period as there was big factory established. The expenditure incurred on this sub-head was Rs. 1.19 lakhs which works out 0.27 percent to the total expenditure.

4.18.2. During 1975-76 two industrial cooperative societies were formed. 36 additional members were enrolled.

4.19. TRANSPORT AND COMMUNICATION:

4.19.1. Road Development :

The expenditure incurred on this programme during the year 1975-76 was Rs.27.01 lakhs forming percentage share of state and local sector as 2.15 and 4.00 to the total expenditure.

4.19.3. Under this programme the transe on modernising the existing roads was given in 1975-76. Roads of 81.36 kms. were modernised. 58 C.D.works and construction of 20 culverts were taken up in 1975-76. The length of roads constructed in hilly and inaccessible areas was 15 kms.

4.20. SOCIAL SERVICES: 4.20.S

4.20.1. This major head includes in all ten sub-heads. The percentage of expenditure incurred on the programme of this major head during 1975-76 was 15.91 percent.

TABLE NO. 4

Sub-headwise expenditure incurred under major head Social services during the year 1974-75 and 1975-76.

Sr. No.	Sub-heads of Development.	Expenditure Rs.in lakhs in 1974-75			Expenditure Rs.in lakhs in 1975-76		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	General Education.	3.62 (6.08)	19.60 (32.92)	23.22 (39.00)	1.48 (2.12)	16.45 (23.54)	17.95 (25.66)
2.	Technical Education.	-	-	-	0.25 (0.36)	-	0.25 (0.36)
3.	Health and Family Planning.	2.27 (3.81)	1.55 (2.60)	3.82 (6.41)	4.22 (6.04)	2.30 (3.29)	6.52 (9.33)
4.	Nutrition programme.	-	1.25 (2.10)	1.25 (2.10)	-	0.81 (1.16)	0.81 (1.16)
5.	Water supply & drainage	12.19 (20.48)	2.02 (3.39)	14.21 (25.87)	18.65 (26.70)	1.56 (2.23)	20.21 (28.93)
6.	Housing	0.44 (0.74)	-	0.44 (0.74)	11.16 (15.97)	-	11.16 (15.97)
7.	Urban Development.	-	-	-	1.00 (1.43)	-	1.00 (1.43)
8.	Welfare of Backward classes.	14.83 (24.91)	1.62 (2.72)	16.45 (27.63)	9.07 (12.98)	1.2 (1.73)	10.28 (14.71)
9.	Social Welfare	-	-	-	0.73 (1.04)	-	0.73 (1.04)
10.	Labour and Labour welfare.	0.15 (0.25)	-	0.15 (0.25)	0.98 (1.40)	-	0.98 (1.40)
Total		33.50 (56.27)	26.04 (45.73)	59.54 (100.0)	47.54 (68.04)	22.33 (31.96)	69.87 (100.0)

4.20.2. It can be seen from the table shown above that maximum expenditure of 28.93 percent is booked on water supply and drainage followed by expenditure of 25.66 percent on general education in the year 1975-76.

4.12.1.General Education:

All the schemes under this sub-head were implemented by the local sector except the scheme of development of technical highschool which is implemented by State sector. The expenditure on this sub-head is 25.66 percent to the total expenditure of this major head in the year 1975-76.

4.21.2. During the year 1975-76 construction of 34 school buildings with 53 rooms was completed. 9 Primary schools were started and 198 teachers were trained. 12,982 students were found to be increased in primary schools during the year 1975-76. Similarly 4,466 students were increased in secondary schools during the same period.

4.22.Health

4.22.1. During the second year of the Fifth Plan period total expenditure of Rs.6.52 lakhs was made and out of which Rs.4.22 lakhs were shared by the State sector where as Rs.2.30 lakhs were shared by local sector. The percentage share of expenditure was 9.33 to the total expenditure of this major head.

4.22.2. In the year 1975-76 facility of 86 additional beds was made with appointment of 4 doctors and 18 nurses. The construction work of hostel for nurses training was in progress.

4.23.Nutrition programme

4.23.1. For this programme is being implemented in five blocks. The expenditure booked on this schemes is Rs.0.81 lakhs.

4.24.Water supply and Drainage:

4.24.1. Under this sub-head of development the schemes of piped water supply are implemented by state and local sectors. In this year an expenditure of Rs.20.21 lakhs was registered achieving 28.93 percent expenditure to the total expenditure of this major head.

4.24.2. In all 46 drinking water wells were constructed during 1975-76.

4.25.Housing:

4.25.1. All expenditure of Rs.11.16 lakhs was booked on this sub-head in 1975-76 by way of implementing different schemes of housing. The weightage was given on the construction of huts for landless labourers. 4,006 huts were programmed and completed in the year 1975-76.

4.26.Urban Development:

4.26.1. Out of two schemes taken up for execution in 1975-76 only one scheme could be implemented. The expenditure incurred on this scheme was Rs. 1.00 lakhs. The loan and grant was provided to only one Municipal Council for implementation of development plan of council.

4.27.Welfare of Backward classes:

4.27.1. The schemes of welfare of backward classes have been implemented by the state and local sectors and the expenditure of Rs. 10.28 lakhs was booked in the year 1975-76.

4.28.Social Welfare:

4.28.1. Under this sub-head of development only three schemes were taken up but only one scheme could be implemented. The expenditure of Rs.0.73 lakhs was booked.

4.29.Labour and Labour welfare:

4.29.1. Only one scheme on craftsmen training was implemented in the year 1975-76. The expenditure of Rs.0.98 lakhs was incurred.

4.30.MISCELLANEOUS PROGRAMME:

4.30.1. Under this head of development information and publicity and employment guarantee sub-head fall. The expenditure incurred on this sub-heads was Rs.61.85 lakhs. Major expenditure is on the sub-head of E.G.S.under which work is being provided to all the able bodied and unskilled persons from rural areas wherever such demand is felt. Under this scheme works like community wells, percolation tanks, minor irrigation works, afforestation, market and other link roads are to be taken.

I. AREA & POPULATION.		
1	Talukewise area, houses & population in 1971 census	1
2	Decadal variation in population since 1951	3
3	Talukewise classification of villages according to population ranges in 1971 Census	5
4	Talukewise classification of Towns according to 1971 Census	6
5	Number of workers and non-workers in each taluka according to 1971 Census	7
6	Distribution of population according to (a)Age group (b)Religion.	9
7	Scheduled castes & scheduled tribes according to 1971 Census.	10
II. CLIMATE		
8	No. of rainy days & total rainfall in selected centres	12
9	Maximum & minimum temperature at selected centres	15
III. AGRICULTURE		
10	Land utilisation	16
11	Area under different crops in each taluka	18
12	Yield per hectare and outturn of principal crops	22
13	Area irrigated by different sources in each taluka	23
14	Area irrigated under different crops in each taluka.	24
15	No. of irrigation & other wells in each taluka	26
16	Availability of under ground water	27
17	Minor irrigation	28
18	Major & Medium irrigation projects	29
19	Agricultural wage rates	33
20	Agricultural census operational holdings 1970	35
21	Agricultural implements	37
22	Famine and Scarcity	38

(II)

1	2	3
23.	Determination of precarious & Other scarcity area according to history of scarcity.	40
	<u>IV. ANIMAL HUSBANDRY, FOREST & FISHERIES</u>	
24.	Livestock in each taluka.	42
25.	Veterinary Statistics in each taluka	45
26.	Diseasewise livestock mortality.	46
27.	No. of slaughter houses and animal slaughtered in each slaughter houses.	47
28.	Forest area in District.	48
29.	(A) Inland fisheries.	49
	<u>V. EMPLOYMENT, INDUSTRY, MINNING & ELECTRICITY</u>	
30.	No. of factories and average daily employment of workers.	50
31.	Industrywise distribution of working factories according to working strength	52
32.	Distribution of factories according to number of days worked.	53
33.	Statistics relating to Annual Survey of Industries.	54
34.	Employment exchange statistics.	55
35.	Occupational distribution of total registration & placement in employment exchange.	56
36.	Works undertaken in Employment Guarantee scheme.	57
37.	Employment in different Industries.	61
38.	Consumption of electricity.	62
39.	Number of Towns & Villages electrified and population covered.	63
	<u>VI. CO-OPERATION</u>	
40.	Number of different types of co-operative societies.	65
41.	Statistics relating to Co-operative Banks.	66
42.	Primary Agricultural credit societies.	67
43.	Other Co-operative societies of different types.	68
44.	Operation of central and primary co-operative marketing societies.	69
45.	Operation of other co-operative societies of different types.	71

(III)

1	2	3
46.	Operation of regulated marketing.	72
47.	Number of registered money lenders and Loans advanced by them.	76
<u>VII. MEDICAL AND PUBLIC HEALTH</u>		
48.	Medical facilities available through public and public aided bodies in each taluka.	77
49.	Number of births and deaths registered.	79
50.	Number of deaths due to important causes	80
51.	Vaccination statistics and cholera inoculation.	81
52.	Number of Family Planning centres operating to district.	82
<u>VIII. EDUCATION</u>		
53.	Literacy in each taluka according to 1971 Census.	83
54.	Education in Rural areas in each taluka according to 1961 census.	84
55.	Education in Urban areas of the district according to 1961 Census.	85
56.	Number of Institutions, Pupils and teachers.	87
57.	Number of Backward class beneficiaries.	88
58.	Economically Backward class concessions of free education.	89
59.	Expenditure on primary education by way of grants-in-aids to local bodies.	91
<u>IX. TRANSPORT & COMMUNICATIONS.</u>		
60.	() Length of Railway route.	92
61.	Road length according to category and surface classification.	93
62.	Motor vehicles in operation.	94
63.	Operational statistics of Nationalised road transport 1975-76.	95
64.	Traffic census on important roads.	96
65.	Information of Postal, Telegraph and Telephone statistics.	98
66.	Rural Broad casting statistics.	99

1	2	3
	<u>X.LOCAL BODIES</u>	
67.	Income & expenditure of Local Bodies	100
68.	Income & expenditure of Village Panchayats.	101
69.	(A) Headwise receipts of the Zilla Parishad.	103
69.	(B) Government Grants to the Zilla Parishad.	104
69.	(C) Headwise expenditure of Zilla Parishad	105
70.	Income & expenditure of Municipal Councils Corporations etc.	106
	<u>XI.PLAN & COMMUNITY DEVELOPMENT</u>	
71	Plan expenditure under different development head/sub-head.	108
72	Important physical achievement under Plan.	113
73.	Statement showing C.D.Programme	118
74	Expenditure incurred in different stages of blocks.	119
75	Physical achievements on selected items in all blocks.	120
	<u>XII.PRICES</u>	
76	Wholesale prices of certain Agricultural commo- dities at regulated markets.	122
77.	Average retail prices of important commodities at District headquarter.	128(A)
78	Consumer Price Index Number(revised series)for working class.	132
	<u>XIII.MISCELLANEOUS</u>	
79	Strength of Police force statistics	134
80	Crime Statistics	135
81	Work disposed of in Civil & Criminal Courts.	137
82	Cinema Statistics	138
83	Number of Banking offices	139
84	Number of Schedoled Banks etc.	140
85	Number of Joint Stock Companies	141
86	Number of Insurance Policies issued & amount insured.	141
87	Collection of Small Savings.	142
88	Land Revenue collection in each taluka	143
89	Number of presses, Newspapers & periodicals published.	144
90	Trends in selected indicators.	145
