1. CHAPTER - I.

1. Introduction :

1.1. Introduction and Location:

Beed district was known to history as Asmaka during Vedic, Epic and Puranic ages. Panini refers to Asmaka which included a portion of modern Beed district. In the days of Pandvas, it was known as Durgavati and later on during the regime of queen Champavati it was named as Champavatinagar. It was ruled by the Andharas, Chalukyas, the Rashtrakutes and the Yadvas and subsequently went under the rulers of Delhi. At the time of Mohamed Tughlak, the district was named as Bhir. The history of its name is rather shrouded in mystery. The district is strewn with ancient religious places, the notable amongst them being (1) Kankaleshwar temple (at Beed town), (2) Yogeshwari temple (at Ambejogai town), (3) Vajjnath temple (at Parali town). The Vajjnath temple of Parali referred to above is one of the twelve jyotirlingas,

At the advent of modern period off history Beed district was in the erstwhile Hyderabad State. Following the reorganisation of states in 1956, the district of Beed alongwith other districts of Marathwada became a part of the Bombay State, which was bifurcated in 1960 to constitute the present Maharashtra State.

The district is situated in the central part of Marathwada. It lies between  $18^{\circ} - 28'$  to  $19^{\circ} - 27'$  north latitude and  $74^{\circ} - 54'$  to  $76^{\circ} - 57'$  western longitude, with a total geographical area of 11,227 Sq.Kms.

1.2. Boundaries.

The district is bounded on the north by Aurangabad and Parbhani district and on the east by the southern portion of Parbhani district. On the west, lies Ahmednagar district. The district has natural boundaries carved by rivers, the Godavari in the north and Manjra on the southern side.

1.3. Important Economic Development:

The urge to catch up with other development parts of the state is an elemental urge and the anxieties were seen to be reflected in the development of agro-industrial sphere of the district.

1.3.1. Agro Industries :Dairy Development:

The dairy project will start functioning from 25th June 1978. The total area covered by the project is about 5 hectares of land. It was constructed at cost of Rs.96/- lakhs. The project has capacity to handle 1 lakh litres of milk per day. The project has potential enough to provide subsidiary occupation to the agriculturists and landless labourers and contributed in improving their lot. Agriculturists, small farmers and those who will be given cows through separate schemes shall be encouraged to maintain milch cattle for production of milk.

1.3.2. Sugar Factories :

Beed being a backward district, sugar factories in the district are eligible for share capital contribution to the limit of one crore Rupees. Ambejogai Sugar factory has already received its full share from the Government and has started crushing since October 1976. Similarly, Jaibhavani Sugar factory of Georai taluka. Jaibhavani Sugar factory has so far received Rs.92.57 lakhs towards, share capital contribution from Government and will start crushing since January 1978. It is seen that Kada Sugar factory from Ashti taluka has received its full Share capital contribution from the Government and the construction work is in progress.

1.4 Area.

Geographical area of this district as per 1971 Census is 11,227 sq.kms. Out of which 10,903 sq.kms.is rural and 324 sq.kms.is urban. The area under urban towns was more, prior to 1961 census, since there were 8 Municipalities. The Pangaon Municipality in Ambejogai tansil was deurbanised in 1961 census and thus the urban area decreased. This district ranks 14th and 4th in the State and Marathwada Region respectively in terms of area. Similarly, the district ranks 23rd in the State in terms of population. As compared the area under the tansils within the district Kaij tansil ranks first followed by Ambejogai, Georai, Patoda. Since a decade there were no territorial changes in the district and hence area of the district remained the same.

1.5. Topography:

The district is partly table land and partly in broken hilly ranges with elevations between 300 to 900 metres. The hill ranges of Balaghat are spread over the central part of the district. The geographical conditions in general in the western part of the district comprising, Beed, Patoda and Ashti talukas are not favourable as in the eastern part which possesses more fertile soils and receives assured rainfall. A portion of the district on north and south side is plain. Due to the ranges of Balaghat the district is divided into uplands locally called "Gangathadi" some portion of Kaij and Ambejogai taluka is touched by these ranges.

1.6. Hills, Rivers and Soil:

The central part of the district is a hilly tract occupied by Balaghat ranges and the major part of Patoda and Ashti talukas is covered by the hills and appears deserted, when compared with Kaij and Ambejogai talukas. The Balaghat ranges are spread over the northern part of Ashti taluka, most of Patoda and central part of Beed taluka. The main rivers of the district are Godavari, Manjra, Sindphana, Kundka, Bindura, Wan and Sina. Manjra rises from the hills of Patoda. Rivers Kundka, Wan, Sindphana rises from Balaghat hills. The small rivers in the district are Mehkari, Kampli and Kadi.

The entire district is situated in the trap region and its soil is mostly fertile in Manjlegaon taluka. Deep, medium and shallow soil is prevalent in greater part of the district. It is dark gray to black in colour. The soil is retentive of moisture. It becomes sticky when wet and cracks freely in the dry weather. The soil from the western part of the district indicates the existence of salt to the extent of 0.5%. The soil alongwith the banks of Sindphana, Godavari and Manjra is more fertile. Nearly half of the cultivable area of the district is generally cropped under kharif crops. Jowar, Bajra and Wheat are most important food crops of the district. Other crops included groundnut, rice, pulses, safflower, cotton and sugarcane.

1.7. Climate

The climate of the district is pleasant and agreeable during the greater part of the year. Patoda and Kaij talukas have cool climate even in summer. The village Chincholi in Patoda has highest elevation from the sea level and its weather in summer season is akin to that of hill station. Among all the talukas climate of Ambejogai is very pleasant. The climate of Beed, Manjlegaon and Georai on the low lands is warm.

1.8. Temperature

During the year 1975 the maximum temperature of 43.0 C° was recorded in the month of April and May as against the maximum temperature of 39.7 C° recorded in the month of May 1976. The minimum temperature during the year 1975 and 1976 was 6.4 C° and 15.1 C° respectively. The average temperature for the district was 25.4 C° during the year 1975 as against 25.0 C° in the year 1976.

1.9 Rainfall

As per the topography, the district is divided into high and low level tracts by the central ghats running through Beed and Patoda tahsils. The rainfall is not uniformly distributed during the monsoons. The average rainfall during the year 1976 was 511 mm. as against 964 mm. in 1975. The highest rainfall received at Manjlegaon during 1976 is recorded as 910 mm. whereas the highest rainfall recorded at Georai centre in 1975 was 1373 mm. Tahsils situated in eastern part of district, receive generally assured rainfall during the monsoon period which starts in June and continues upto the end of September. In the year 1975 the rainfall for the district on an average was 964 mm. whereas it was 511 mm. in 1976. The statement showing the, actual rainfall, recorded at the selected centres in the district during 1975 and 1976 is as under.

( 5 )

Statistics of rainfall recorded at the rainguage in the district during 1975 and 1976.

Sr. No.	Name of the selected centres	Rainfall in mm.	
		1975	1976
1	2	3	4
1.	Beed ..	1159	378
2.	Chousala ..	597	451
3.	Georai ..	1373	503
4.	Manjlegaon ..	1063	910
5.	Ambejogai ..	1100	391
6.	Kaij ..	1051	388
7.	Patoda ..	867	649
8.	Rooti ..	764	460
9.	Ashti ..	705	470
	Average rainfall	964	511

The above statement shows that the average rainfall in district in 1976 was less by 453 mm, as compared to that in 1975.

CHAPTER-II

Explanatory note on scope and limitations of Statistics presented in the District Statistical Abstract - 1976-77.

2.1 Introduction:

The yearly publication of the District Statistical Abstract for the year 1976-77 is the 15th issue since the 1st was published in 1958-59. This is a yearly publication consisting of exhaustive Statistics including Socio Economic indicators. The data in this publication is collected from the various departments of State Government, Government of India, Reserve Bank of India, Local bodies and corporations etc. A foot note to that effect is given at the bottom of each tables.

2.2. District At a Glance

The figures presented in the statement of district at a glance for this district are in comparison with the Maharashtra State. The reference period is same for the district & State.

2.3 The scope and limitations of the Statistical information presented herein is explained in brief in following paragraphs.

2.4. Area and Population.

2.4.1. The data of 1971 population census is presented along with the information relating to variation in population data in two decades i.e. 1951 and 1961.

2.4.2. The figures of 1971 population census are presented in table No.1 giving talukawise figures of area, rural and urban population number of occupied residential houses as well as total number of households, male and female population. Population per square kilometre as well as percentage variations over 1951 population census are also furnished in table No.1 and 2. The data pertaining to villages according to population ranges as per 1971 population census is shown in table No.3. It also gives information in respect of villages inhabited and uninhabited separately. Towns classification as per population ranges are reported in table No.4. The talukawise figures of workers based on livelihood classification and non-workers existing in the district are presented in table No.5. The figures are sub-divided into rural & urban sectors. Distribution of population according to age groups and religions etc. is indicated in table No.6 and population of

scheduled castes and scheduled tribes and Neo-buddhists is presented in table No.7.

### 2.5. Rainfall and climate

2.5.1. The data pertaining to actual rainfall recorded at the selected centres in the district and the number of rainy days is indicated in table No.8. Monthwise details of the selected centres for (1)Beed(2)Chousala(3)Georai(4)Manjlegaon(5)Ambejogai(6)Kaij(7)Patoda (8)Rooti and (9)Ashti are given. The normal rainfall recorded for each centre is the average rainfall of prolonged period usually of eighty years.

2.5.2. The figures reported in table No.9 gives monthly maximum, minimum and yearly temperature at one selected centre i.e. Beed in the district for the year 1976.

### 2.6. Agriculture

2.6.1. Agriculture is predominant economic activity of the district. The statistical table numbers 10 to 23 give total geographical area, area under different crops, area irrigated with the different sources, no. of irrigation wells in use, tanks, availability of groundwater, minor, medium and major irrigation works etc.

2.6.2. Agriculture statistics is obtained mainly from the annual season and crop report of the district for the year 1974-75 and 1975-76. All the figures in the table numbers 10 to 15 for the year 1974-75 are final whereas 1975-76 are provisional.

2.6.3. The data on land utilisation is presented in table No.10 and details of cropwise area in each taluka for both years i.e. 1974-75 and 1975-76 are given in table No.11. Estimated information pertaining outturn and average yield rate per hectare of principal crops of the district is shown in table No.12. Net area irrigated with different irrigational facilities available in the district is indicated in table No.13, whereas irrigated area under different principal crops in each taluka is reported in table No.14. Number of wells in use / not in use and other wells are given in table No. 15. The information pertaining to availability of under groundwater is given in table No.16. The table Numbers 17 and 18 give information regarding minor irrigation works as well as medium and major irrigation projects in each taluka. Agricultural wage rates presented in table No. 19 are of the three selected centres

i.e. (1)Umapur taluka Georai(2)Renapur taluka Ambejogai and(3) Kada taluka Ashti in the district and table No.20 indicated the data pertaining to number of operational holding and area operated. No.of operational holding reporting irrigation and net area irrigated and number and area of operational holding by tenure and by size class of operational holding in the district for the year 1970. The data on different types of agricultural implements/equipments and machineries in use in each taluka are shown in table No.21. Table Numbers 22 and 23 give the data on famine and history of scarcity respectively.

### 2.7. Animal Husbandry

2.7.1. The table Nos.24 to 27 furnish the data on different categories of livestock and poultry in the district as per quinquennial livestock census which is conducted in 1972. In table No.24 livestock data of all categories is shown, while table No.25 gives the information relating to veterinary facilities available in each taluka of the district during the year 1976-77. The details of disease wise livestock mortality as shown in table no.26 and table no.27 indicates data pertaining to the number of recognised slaughter houses and animals slaughtered therein.

### 2.7.2. Forest and Fisheries

Data pertaining to forest area under different ranges, the quantity of minor and major forest produce and estimated cost of forest produce during the year 1976-77 is presented in table No.28-A and B and 29-A give the information in respect of quantity of fish.

### 2.8. Employment, Industry, Mining and Electricity

2.8.1. Industry and Employment:- The data on factories registered under Factory Act 1948 is presented in table No.30, 31 and 32. The types of factories covered with its details are as under (1)Factories using power and employing 10 or more workers, (2) Factories not using power but employing 20 or more workers and, (3) Factories not covered in 1 and 2 but notified by the Government as covered under Factory Act.

2.8.2. The details of each type of industry, the total no. of working factories and number of mandays worked during the year under-report as well as average daily employment classified by

males and females separately are given in table No.30. The classification of industries is based on standard classification. The information pertaining to table No.31 and 32 gives the distribution of factories according to their working strength and the distribution of the factories according to number of days worked respectively. The information in respect of Annual Survey of Industry is shown in table No.33.

#### 2.8.3. Employment Exchange Statistics

The data pertaining to employment exchange statistics of the district and works undertaken by Employment Guarantee Scheme and expenditure incurred during the year 1976-77 in the district is indicated in table numbers 34,35 and 36 respectively, while table No.37 give the volume of different industries as on 31-3-1977.

2.8.4. The figures of electricity generated, consumption for domestic, commercial, industrial, public lighting and other purposes etc. are shown in table No.38 and number of villages and towns electrified and population covered up to the year ending 1976-77 are shown in the table No. 39.

#### 2.9. Co-operation

This section deals with various activities of the co-operative movement. An abstract of the different types of co-operative societies in existence in the district is presented in table No.40 and number of co-operative banking facilities with total number of memberships, share capital, reserve and other funds and other amount of loans advanced i.e. short term, medium term and long term etc. is indicated in table No.41. The details data on Primary Agricultural Credit Societies functioning in each taluka are given in table No.42 and data about other co-operative societies of different types in each taluka in the district is shown in the table No.43. Operations of the central and primary co-operative marketing societies are shown in table No.44 and details of other different types of societies in the district are reported in table No.45. Activities of the regulated markets in each taluka is presented in table No.46 and the data regarding the money lenders and loans advanced by them during the year under reference report is given in table No. 47.

2.10. Medical and Public Health

The data on medical and public health is presented in 5 different tables. Medical facilities made available through public and public aided bodies are shown in table No.48. Number of births and deaths registered and No.of deaths due to various important causes reported in table No.49 and 50 respectively. The information in respect of vaccination statistics is displayed in table No.51, while table No.52 give the information about family planning activities in the district.

2.11. Education

The details information about education statistics is displayed in 7 types of tables. The total strength of male and female literates with percentages both for rural and urban parts is shown tahsilwise in table No.53. The data on education in rural and urban areas is shown in table numbers 54 and 55. Information appearing in table No.56 indicates educational institutions of different categories catering the needs of the district alongwith total enrolment of boys and girls and number of teachers both trained and untrained. The data on beneficiaries from back-ward classes and concession of free education availed by the economically backward class communities is displayed in table numbers 57 and 58 respectively. Amount realised to various primary educational institutions by way of grants-in-aids is given in table no.59.

2.12. Transport and Communication

This section deals with upto date statistics in respect of facilities of various modes of transport available in the district. The data on railway length according to different types of rail gauges in the district are denoted in table No.60-A. The road length according to different categories as well as types of surface of roads can be seen in table No.61. Number of motor vehicles operated in Aurangabad division are presented in table No.62 as the separate information in respect of Beed district is not readily available. The details of operational statistics is included in table No.63 giving nationalised road transport according to State Transport Division of Beed. The traffic census of important roads

by public works Department in Beed district is indicated in table No. 64, whereas growth of postal facilities availed by the rural and urban areas of this district for the year 1961-62, 1965-66, 1970-71, 1974-75, 1975-76 and 1976-77 is shown in table No.65. The data on rural broadcasting is given in table No.66.

### 2.13. Local Bodies

The sub-section "Local Bodies" deals with upto date Statistics pertaining to Village Panchayats, Municipal councils and Zilla Parishad of this district. The information on income and expenditure of the local bodies is shown in table No.67 for the years 1965-66, 1968-69, 1970-71 to 1976-77. The total number of village panchayats existing in the district alongwith the total number of villages covered by village panchayat as well as income and expenditure of village panchayats is given in table No.68. The details of data on headwise receipts and expenditure of Zilla Parishad, Beed is denoted in table No.69-A, 69-B and 69-C, while income and expenditure of seven Municipal Councils is given in table No.70 for the year 1976-77.

### 2.14. Plan and Community Development

Statistical data relating to plan and community development is shown in 5 tables. The details of expenditure and physical achievements under various schemes are included in the Annual Plan for the years 1975-76 and 1976-77 are shown in table No.71 and 72 respectively. The table No.73 gives particulars of C.D. programme implemented in the district. The entire rural area of the district is covered by C.D. programme. Expenditure incurred out of C.D. schematic funds in different stages by the blocks is shown in table No.74 and the physical achievements under selected items by all blocks (Stagewise) operating in the district is presented in table No.75.

### 2.15. Prices

This section gives details information regarding the fluctuations in the prices of essential commodities in the district. The wholesale prices of important agricultural commodities at regulated markets are shown in table No.76. The prices are collected from three different rural centres and of the district headquarters

The prices of all such commodities at district headquarter are given in table No.77 for the year 1976. Details of consumer price index for the working class of the aforesaid year can be seen in table No.78 with 1961 as base year.

#### 2.16. Judicial and Administrative

The data on judicial existing strength of police force and crime statistics for the district is denoted in the table numbers 79 to 81.

#### 2.17. Miscellaneous

The information pertaining to cinemas, Banks and Joint Companies, insurance policies, small savings, land revenue, number of printing presses, newspapers and periodicals etc. are given in table numbers 82, 83, 84, 85, 86, 87, 88 and 89 respectively. Details information regarding the quantity of rice, wheat and sugar issued to the Fair Price Shops in the district is indicated in table No. 90 for the years 1971 to 1977 while table No. 91 gives the information on demand and procurement of levy in the district for the years 1970-71 to 1976-77, and table No. 92-A and 92-B gives the data pertaining to the result on General Election and candidates according to party Affiliation whereas table No.93 is summary table indicating trends in the selected items pertaining to (1)Area and population (2)Agriculture and Irrigation (3)Soil conservation (4)Agriculture implements and Livestock fisheries (5)Factory employment (6)Electricity (7)Co-operation (8)Education (9)Medical and Public health (10)Transport and communication (11)Community Development (12) Local self Government and Banking etc.

CHAPTER-III  
AN ANALYTICAL REVIEW

3. This chapters deals with important selected indicators of the district for the comparative study.

3.1. Percentage of gross cropped area to net area sown.

This indicator shows the extent of double cropped area in relation to net cropped area in the district. The double cropped area of the district increased in the year 1965-66 over the year 1961-62. It, however, decreased in years 1974-75 and 1975-76 over the years 1961-62 and 1965-66. The percentage of double cropped area to net cropped area was almost the same in years 1974-75 and 1975-76. The double cropped area decreased in Beed, Kaij, Patoda and Ashti talukas in the year 1965-66 over 1961-62. It increased in remaining tahsils of Georai, Manjlegaon and Ambejogai during the same period. The double cropped area decreased in Beed, Georai, Manjlegaon, Ambejogai, Patoda and Ashti talukas in 1975-76 over the years 1961-62 and 1965-66. It however, increased in Kaij taluka in 1975-76 over these years. The reasons for decrease of double cropped area over these years are inadequate facilities of irrigation, unassured rainfall and less fertile soil in the district.

The percentage of gross cropped area to net cropped area in the years 1961-62, 1965-66, 1974-75 and 1975-76.

Sr. No.	Name of Taluka	Percentage of gross cropped area to net cropped area.			
		1961-62	1965-66	1974-75	1975-76
1	2	3	4	5	6
1.	Beed	111.2	106.7	103.0	104.1
2.	Georai	106.1	108.6	101.6	100.0
3.	Manjlegaon	100.9	108.0	104.0	106.8
4.	Ambejogai	100.0	104.8	103.6	102.3
5.	Kaij	103.7	103.0	102.4	104.8
6.	Patoda	112.7	111.6	103.8	103.0
7.	Ashti	110.2	107.2	103.5	101.4
Total		105.9	106.8	103.1	103.2

The percentage of gross cropped area to net cropped area in the year 1975-76 was highest in Manjlegaon taluka and lowest in Georai taluka.

3.2. Production of important crops:

The following table shows the yield per hectare and production of important crops in 1961-62, 1965-66 and 1975-76.

Sr. No.	Important crops	Yield per hectare in kg.			Outturn in '00 m. tonnes		
		1961-62	1965-66	1975-76	1961-62	1965-66	1975-76
1	2	3	4	5	6	7	8
1.	Rice	603	341	590	49	34	62
2.	Wheat	371	258	772	155	102	407
3.	Kh. Jowar	542	408	531	455	334	564
4.	Rabi Jowar	559	486	362	1,459	1,083	851
5.	Bajra	286	206	242	256	215	318
6.	Gram	346	232	413	119	58	135
7.	Tur	252	205	259	59	39	73
8.	Sugarcane	4,638	8,678	7,510	111	153	368
9.	Cotton	108	64	46	464	222	71
					(00 bales of 180 kgs. each.)	(00 bales of 170 kgs. each)	
10.	Groundnut	787	449	496	757	314	145
11.	Chillies.	481	499	356	27	29	21

3.2.2. The yield per hectare of rice, wheat, jowar (kharif), bajra, gram, tur and groundnut increased in the year 1975-76 compared to 1965-66. The yield per hectare of jowar (Rabi), sugarcane, cotton and chillies is, however, decreased in 1975-76 compared to 1965-66. The yield per hectare of wheat, gram, tur and sugarcane increased in 1975-76 compared to the year 1961-62. The yield per hectare is, however, decreased in respect of rice, jowar, (kharif & Rabi), bajra, cotton, groundnut and chillies in 1975-76 compared to the yield per hectare in 1961-62. The outturn of rice, wheat, jowar (kharif), bajra, gram, tur, and sugarcane increased in 1975-76 as compared to 1965-66 whereas the outturn of jowar (Rabi), cotton, groundnut and chillies decreased in 1975-76 as compared to 1965-66. The yield per hectare and outturn of important crops were not satisfactory in the year 1975-76 as were in 1961-62.

3.3. Gross value of agricultural production.

The gross value of agricultural commodities was 15,57,70 thousand rupees in the year 1961-62 as per prices prevailing in the year. The gross value of these commodities increased to 18,34,70 thousand rupees in the year 1965-66 as per prices of the year.

The gross value of these commodities in the year 1975-76 was 42,75,10 thousand rupees. This shows that the gross value of agricultural commodities increased to more than two times in the year 1975-76 compared to gross value of 1965-66. The gross value increased about three times in the year 1975-76 than the gross value of 1961-62. There is no so much increase in the outturn of these crops. The element responsible for increase of gross value of agricultural commodities is the prices. The prices of all the commodities have increased in the year 1975-76 than prices in the 1965-66 & 1961-62.

3.3.2. The average agricultural prices of commodities and value of agricultural production in the year 1961-62, 1965-66 and 1975-76.

Sr. No.	Commodity	Average price per m. tonnes ( Rs. )			Gross value of commodities (in '000 'Rs.)		
		1961-62	1965-66	1975-76	1961-62	1965-66	1975-76
1	2	3	4	5	6	7	8
1.	Jowar	400	530	1,324	7,65,60	7,51,01	18,73,46
2.	Wheat	586	1,114	1,924	90,68	1,13,63	7,83,07
3.	Bajra	446	975	1,165	1,14,18	2,09,62	3,70,47
4.	Gram	427	1,294	1,352	50,81	75,05	1,82,52
5.	Tur	404	826	1,365	23,84	32,21	99,64
6.	Sugarcane	388	483	1,590	43,07	73,90	5,85,12
7.	Cotton	910	1,184	2,351	76,44	47,06	28,38
8.	Groundnut	633	1,147	1,556	3,52,58	3,60,16	2,25,62
9.	Dry Chillies.	1,500	5,933	6,039	40,50	1,72,06	1,26,82
=	Total	x x	x x	x x	15,57,70	18,34,70	42,75,10

#### 3.4. Percentage of gross irrigated area to net irrigated area.

The net area irrigated through all sources in the district in the year 1973-74 was 52,526 hectares. The net area irrigated in 1961-62 was 39,398 hectares and in 1965-66 was 51,527 hectares. There is increase in the net area, under irrigation, in 1973-74 over the years 1961-62 and 1965-66. The increase in the net area in 1973-74 is considerable compared to net irrigated area in 1965-66. The increase in net irrigated area, in 1973-74 is, however, very small compared to 1961-62. It is peculiar to see

that the identical trend is seen in the gross irrigated area over the years. The gross irrigated area, considerably, increased in the year 1965-66 over the years 1961-62. It, however, decreased in 1973-74 compared to 1965-66. The irrigated area under double cropping in the year 1973-74 was 'nil'. The irrigation sources are, therefore, utilised in this year either for perennial crops or for kharif or rabi crops in view of the inadequacy of water. This shows that area under irrigation is increasing with the decrease in area under double cropping. The double cropped area under irrigation was observed highest in Patoda and lowest in Manjlegaon and Ambejogai in the year 1965-66. The irrigated area under double cropping was also found highest in Patoda and lowest in Manjlegaon, Ambejogai and Georai in the year 1961-62.

The following table shows the gross irrigated area, net irrigated area under the percentage of gross irrigated area to net irrigated area in the district.

(Area irrigated in hectares).

Sr. No.	Talu-ka.	Gross irrigated area.			Net irrigated area.			% of gross irrigated area to net irrigated area.		
		1961-62	1965-66	1973-74	1961-62	1965-66	1973-74	1961-62	1965-66	1973-74
1	2	3	4	5	6	7	8	9	10	11
1.	Beed	10773	9361	20944	7728	7949	20944	139.4	117.8	100.0
2.	Georai.	1904	3700	3331	1904	3626	3331	100.0	102.0	100.0
3.	Manjlegaon.	10037	10707	2677	10037	10707	2677	100.0	100.0	100.0
4.	Ambejogai.	2133	2357	5657	2133	2357	5657	100.0	100.0	100.0
5.	Kaij	2999	5043	2497	2554	4123	2497	117.4	122.3	100.0
6.	Patoda.	6767	12909	5180	5484	10081	5180	123.4	128.0	100.0
7.	Ashti	9553	13881	12240	9553	12684	12240	100.0	109.4	100.0
Total		44171	57958	52526	39398	51527	52526	112.1	112.5	100.0

The above table reveals that there is no irrigated area under double cropping in the district in the year 1973-74.

3.5. Percentage of net irrigated area to net area sown.

The net area irrigated and net area sown in the year 1973-74 are 52,526 hectares and 6,90,908 respectively. The percentage of net area irrigated to net area sown works out to 7.6 percent.

The following table shows the net area irrigated and the area sown with their percentage.

Sr. No.	Items	1961-62	1965-66	1973-74
1	2	3	4	5
1.	Net area sown ('00 hectares )	8,239	7,526	6,909
2.	Net area irrigated (00 hectares)	394	515	525
3.	Percentage of net area irrigated to net area sown.	4.8	6.8	7.6

The above table reveals that the net area sown is decreasing where as net area irrigated is increasing over the years. The percentage of net area irrigated to net area sown is increasing in 1973-74 compared to 1965-66 whereas it is increased in 1973-74 over the year 1961-62. Inadequacy of rains may be the probable reason for slow increase in the irrigation percentage in these years.

3.6. Change of crop pattern.

3.6.1. The area sown is decreasing day by day eventhough there are attempts to bring additional land under cultivation. The area under double cropping is also decreasing. But there is slight increase in area under food crops and decrease in area under non food crops in 1975-76. The percentage of food crops to gross cropped area was, however, increasing day by day with the corresponding decrease in the percentage of nonfood crops to gross cropped area. The tendency to bring additional area under food crops is increasing as it is the need of the day. The area under non-food crops is naturally decreasing. It is being replaced by food crops.

The following table gives of area under food crops and non-food crops with their percentage to gross cropped area.

Sr. No.	Items	1961-62	1965-66	1975-76
1	2	3	4	5
1.	Total food crops (area in '000'hectares).	651	611	679

1	2	3	4	5
2. Total non-food crops (area in '000 hectares).		222	193	131
3. Percentage of food crops to gross cropped area.		74.5	76.0	83.8
4. Percentage of non-food crops to gross cropped area.		25.5	24.0	16.2

3.6.2. The percentage of food crops to gross cropped area is increasing day by day in all the talukas in the district. The percent of area under food crops to gross cropped area was highest in Ashti taluka and lowest in Manjlegaon taluka, and the percentage of non-food crops to gross cropped area was highest in Manjlegaon taluka and lowest in Ashti taluka in the year 1975-76.

3.6.3. The area under cereals was 5,42,311 hectares and area under pulses was 1,22,096 hectares in 1975-76. The area under cereals of district is increasing over the years 1961-62 and 1965-66. The area under pulses is, however, increased over the year 1965-66 and decreased over the year 1961-62. The percentage of area of cereals to gross cropped area and pulses to gross cropped area have, however, increased in all these years.

The table gives the area under cereals and pulses and their percentage to gross cropped area in the district.

Sr. No.	Items	1961-62	1965-66	1975-76
1	2	3	4	5
1.	Total area under cereals ('000 hectares).	508	478	542
2.	Total area under pulses ('000 hectares).	126	120	122
3.	Total gross cropped area ('000 hectares).	873	804	810
4.	Percentage of cereals to gross cropped area.	58.2	59.5	66.9
5.	Percentage of pulses to gross cropped area.	14.6	14.9	15.1

The percentage of area under cereals to gross cropped area, was observed highest in Ashti taluka and lowest in Manjlegaon taluka in the year 1975-76. So also the percentage of area under pulses to gross cropped area was observed, highest in Raj taluka and lowest in Ashti taluka in the year 1975-76.

3.6.4. The irrigation facilities have increased in the district. The area under irrigation has also increased in 1973-74, compared to area in 1961-62 and 1965-66.

The table showing the irrigated area under cereals, pulses, food crops and non-food crops with their percentage to gross irrigated area.

Sr. No.	Items	1961-62	1965-66	1973-74
1	2	3	4	5
1.	Irrigated area under cereals ('00'hectares.)	334	422	420
2.	Irrigated area under pulses ('00'hectares).	28	35	33
3.	Total irrigated area under food crops ('00'hectares).	422	546	495
4.	Total irrigated area under non-food crops ('00'hectares).	19	34	30
5.	Percentage of irrigated area under food crops to gross irrigated area.	95.6	94.2	94.3
6.	Percentage of irrigated area under non-food crops to gross irrigated area.	4.4	5.8	5.7

3.6.5. The percentage of area under food crops to gross irrigated area in 1973-74 was slightly decreased over 1961-62. It was also the same in 1965-66. So also the percentage of area under non-food crops to gross irrigated area is slightly increased in 1973-74 over the year 1961-62. It was almost the same in 1965-66. The percentage of area under food crops to gross irrigated area was highest in Ashti taluka and lowest in Ambejogai taluka during 1973-74. So also the percentage of area under non-food crops to gross irrigated area was highest in Ambejogai taluka and lowest in Ashti taluka in 1973-74.

### 3.7. Agricultural credit dues outstanding and gross value of agricultural production.

3.7.1. The position of agricultural dues outstanding and the gross value of agricultural production is given in table shown below.

Agricultural credit dues outstanding in Beed District.  
(Rs. in lakhs).

Sr. No.	Name of the Taluka	Agricultural credit dues outstanding.			
		1961-62	1965-66	1975-76	1976-77
1	2	3	4	5	6
1.	Beed	31	37	73	71
2.	Georai	15	50	1,46	1,30
3.	Manjlegaon	8	26	68	60
4.	Ambejogai	13	44	1,07	1,30
5.	Kaij	15	48	90	93
6.	Patoda.	16	23	86	82
7.	Ashti.	10	54	84	1,15
	Total	1,08	2,82	6,54	6,81

3.7.2. The outstanding dues of agricultural credit in the year 1961-62 were 108 lakhs. The same were observed to be 282 lakhs in 1965-66, 654 lakhs in 1975-76 and 681 lakhs in 1976-77. It is seen that the outstanding over the previous years have been increased rapidly. The main reason for increase of dues may be the increasing prices of various commodities. The increase of dues is as rapid as the prices. The outstanding dues of agricultural credit were observed highest in Georai and Ambejogai talukas and lowest in Manjlegaon taluka during the year 1976-77.

### 3.8. Agricultural wage rates.

The agricultural wage rates prevailing in three selected centres viz. Renapur in Ambejogai, Kada in Ashti and Umapur in Georai taluka were collected in the year 1976-77.

Average agricultural wage rates for 1963-64, 1969-70 & 1976-77 are given in the table shown below.

Sr. No.	Category	Centre	Wage rates in Rs.		
			1963-64	1969-70	1976-77
1	2	3	4	5	6
1.	Carpenter (Skilled Labour).	Umapur	2-75	4-27	7-58
		Kada	3-00	5-00	7-60
		Renapur	3-00	4-02	-

1	2	3	4	5	6
2. Blacksmith (Skilled Labour).	Umapur		2-57	4-27	7-58
	Kada		2-50	5-00	7-00
	Renapur		2-50	4-02	-
3. Cobbler. (Skilled Labour).	Umapur		N.R.	2-42	5-00
	Kada		N.R.	5-00	7-00
	Renapur		N.R.	3-00	-
4. Field Labour (Unskilled labour male).	Umapur		1-47	2-20	2-88
	Kada		1-70	2-06	3-00
	Renapur		1-56	2-92	3-00

3.8.2. The wage rates of skilled and unskilled labour were observed to be increasing day by day, with the increase in prices of various essential commodities. The increase of wage rates is rapid. The wage rates were observed, almost double, in 1976-77 than the wage rates existing in 1963-64. The wage rates of carpenter and blacksmith were highest at Umapur & Kada centres in 1976-77. The wage rates of cobbler were highest in Kada and lowest in Umapur centres in 1976-77. The wage rates of field labour were observed to be ranging in between Rs. 2-88 to Rs. 3-00 in these centres.

### 3.9. Livestock per hectare of land.

Livestock is the only source of power in agricultural industry. It is bovine population which caters to the need of power in seasonal agricultural operations. The bovine population when compared with cultivable area, indicates the extent, this power available for agricultural operations. The bovine and ovine population of the district in 1972 census was 9,73,145. The population in 1966 livestock census, was more by about 80,000 heads, compared to 1972 Census. It was more by about 74,000 heads in 1961 census as compared to 1972 census. The population of livestock is decreased, in 1972 due to scarcity condition, in the district. The cultivable area of the district was 10,09,315 hectares in 1975-76. The male bovine over three years in 1972 were 2,47,577. The cultivable area available per pair of male bovine over three year in 1975-76 was 8.1 hectares. It was 6.9 hectares as per 1966 census and 7.3 hectares as per 1961 census. The available area observed to be increased for each pair of male bovine, over three year in 1972 than in 1961 and 1966. It is due to decrease of livestock population in the scarcity period.

3.10. Poultry Population in the district.

The strength of poultry was observed to be 2,22,125 as per 1972 census. The strength of poultry increased in 1972 census than in 1966. It was found to be less than the strength of 1961. The ratio of poultry per thousand human population was observed to be 173 in 1972 census. The ratio was 156 and 239 per thousand of population in 1966 and 1961 respectively. The ratio of 1972 decreased compared to 1961. It however, increased compared to 1966.

3.11. Consumption of electricity.

There is rapid progress, in consumption of electricity, in the district. The electricity consumed in 1961-62, 1965-66 & 1976-77. was 376, 2186 and 30,495 thousands KWH. units. The consumption of electricity was eighty times more in 1976-77 than in 1961-62 and as compared with the consumption of 1965-66 it increased to fourteen times in 1976-77. The consumption of electricity per capita was observed to be 0.4 KWH units in 1961-62. It was 2.2 KWH units in 1965-66 and it was 23.8 KWH units in 1976-77. The consumption of electricity for agriculture purposes was found to be the highest than for other purposes. The use of industrial purposes is next to the agriculture.

3.12. Enrolment of candidates in Employment Exchange.

The enrolment of candidates in employment exchanges is increasing day by day. As many as 7349 candidates have enrolled themselves in the employment exchange offices in the district in 1976-77. The candidates enrolled in 1975-76 and 1965-66 were 5392 and 5076 respectively. The strength of candidates on live registry of exchange is increasing day by day. The placement of candidates is rather meagre. 1051 vacancies were notified in 1976-77 as against which placement was 700 candidates only. There were 2000 vacancies notified, in 1965-66 and placement of candidates was 1432. The trend of notification of vacancies and placement of candidates is decreasing every year. The ratio of enrolment of candidates and that of notification of vacancies and placement of candidates is rather reverse. The employment problem is becoming severe day by day.

3.13. Indoor and Outdoor patients treated in the hospitals & Dispensaries.

3.13.1. Indoor patients treated in the hospitals and dispensaries in the district, during the year 1976, were 38,004. The indoor patients treated, in 1965 were 10,479 and in 1961 were 6,300. This shows that, there was increasing trend of treatment of indoor patients and that the medical facilities are increasing day by day.

3.13.2. The outdoor patients treated in the hospitals and dispensaries were 7,29,000 in 1976. The patients treated in 1965 were 6,51,873 and that in 1961 were 4,94,336. This shows that, there was increasing trends of treatment of outdoor patients. This may be due to additional facilities provided for admitting them as indoor patients. As there are hospitals at Beed and Ambejogai, treatment in these talukas was more, as compared to other talukas in the district.

3.13.3. The strength of beds, in hospitals, dispensaries, in 1976 was 688. The ratio of per lakh of population, in 1976 works out to 53. It was 45 beds in 1965 and 40 beds in 1961. The strength of beds per lakh of population is increasing day by day.

#### 3.14. Enrolment of students in Educational Institutions.

##### Primary Education.

3.14.1. There were 87,586 and 85,311 boys and 40,694 and 42,323 girls enrolled in 1,555 and 1,569 primary institutions in 1975-76 and 1976-77 respectively. The strength of boys and girls were 71,325 and 27,022 respectively in 1,319 primary institutions in 1965-66 so also, there were 50,443 boys and 14,912 girls in 933 primary institutions, in 1961-62. This shows tremendous increase, in enrolment of students & corresponding increase in the institutions also. The enrolment of students in these institutions has decreased during the year 1976-77 compared to last year enrolment. The strength of teachers in primary institutions has increased from 1,874 in 1961-62 to 2,884 in 1965-66 and 4,056 and 4,059 in 1975-76 and 1976-77 respectively.

##### Secondary Education.

3.14.2. The strength of boys were 33,200 and 31,521 and girls were 9,957 and 9,845 in 152 and 148 secondary institutions in 1975-76 and 1976-77 respectively. There were 25,656 boys and 6,342 girls in 108 institutions, in 1965-66. Similarly, there were 9,801 boys and 1,874 girls in 38 institutions, in 1961-62. The enrolment of boys in secondary institutions has decreased in 1976-77 compared to enrolment in 1975-76. There were 531 teachers in 1961-62 in these institutions. It was 1,227 in 1965-66. It, however, decreased to 1,837 and 2,082 in 1975-76 and 1976-77 respectively compared to 2,133 in 1974-75.

Higher Education.

3.14.3. There were hardly two institutions in 1961-62. One more college was added in 1965-66. The strength of Higher Institutions in 1975-76 and in 1976-77 were 13 and 14 respectively. As many as 8,773 and 9,072 students were enrolled in 1975-76 and 1976-77. There were hardly 619 students in these two institutions in 1961-62. This shows that the college education has become very common feature in these days. The strength of teachers in colleges increased from 42 in 1961-62 to 70 in 1965-66 and to 372 and 362 in 1975-76 and 1976-77 respectively.

3.15. Road length in Beed District.

The road length of all types of roads in the district was 3,654 kms. in 1977. It was 1,084 kms. in 1965 and 762 kms. in 1961. The communication facilities are increasing day by day, by making approaches, in rural areas. Easy approaches are made by constructing rural roads to villages and these roads are linked to district roads. The road length for 100 sq. kms. of area in the district is 32.5 kms. It was 9.9 kms. in 1965 and 7.6 kms. in 1961.

3.16. Banking facilities in the district.

The population of about one lakh was served by 9 banking offices in 1961. The population of 1,12,795 was served by 18 banking offices in 1966. The Banking offices functioning in 1976, were 72 serving population of 2,87,172 in rural and urban areas.

3.17. Retail prices at the district headquarter.

With a view to assess the trend of retail prices of the essential commodities, at the district headquarter, the average retail prices of 1961, 1966 and 1976 are given in the table shown below.

Average retail prices of important commodities at the District Headquarter.

Sr. No.	Commodity	Unit	Average retail prices for the year in Rs.		
			1962	1966	1976
1	2	3	4	5	6
1.	Wheat (Medium)	Kilo	●=66	1=22	1=75
2.	Wheat (Coarse)	"	●=63	1=19	1=63

1	2	3	4	5	6
3. Jowar (white)		Kilo	0-57	0-65	1-50
4. Bajra		"	0-54	0-99	1-22
5. Gramdal		"	0-64	1-84	1-91
6. Arhardal		"	0-83	1-29	2-42
7. Moongdal		"	0-87	1-44	2-81
8. Sugar		"	1-10	1-33	4-52
9. Gur		"	0-68	0-77	2-04
10. Groundnut Oil		"	1-93	4-46	6-31
11. Vanaspati Dalda		"	3-33	5-82	10-64
12. Goat meat		"	2-50	3-75	8-03
13. Eggs (hen)		Dozen	1-80	2-34	4-26
14. Dry Chillies		Kilo	2-48	4-55	8-97
15. Kerosene		Litre	0-32	0-52	1-26
16. Challiya (Supari)		Kilo	7-25	9-05	10-75
17. Cigarettes.		10 Nos.	0-31	0-39	1-01

It is evident, from the table shown above that there is tremendous increase, in prices of all commodities, The increase is almost double in 1965 and three times in 1976 compared to prices, in 1962 for most of the commodities. The price of sugar is four times in 1976 than the prices in 1962. The increase in price is the highest in respect of sugar . It raised from Rs. 1-10 in 1962 to Rs. 1-33 in 1966 and Rs. 4-52 in 1976.

CHAPTER-IV  
P L A N N I N G  
PLAN REVIEW 1976-77

4.1 After completing 20 years of planned development country is on the threshold of Fifth Five Year Plan starting from 1974-75 amidst a climate of great expectations. The plan processes which have been so far in operation during the last four plans have undergone a basic change as the district has been made a basic unit of planning. The planning has now become two ways process, from National level downwards and from District level upwards. This is a revolutionary approach which is aimed at removing imbalances between the district and district, for better utilisation of resources and for achieving better co-operation in implementation of developmental programme.

4.1.2. The Government of Maharashtra has already acted upon this major decision in the realm of planning and has constituted District Planning and Development Councils in each district. State Government has laid down the functioning of planning Boards and has given guide-lines regarding formulation of the District Plan. It is of prime importance that the representatives of people are thoroughly associated with the various stages of Planning to settle priorities to decide sectional allocation and also to know the limitations imposed on planning due to shortages of resources, while formulating this, plan should be in conformity with the state policies in the same way as State Plan are guided by framework of national policies.

4.1.3. Planning operational at the district levels has actually been started with preparation of the Fifth Five Year Plan (1974-75 to 1978-79), annual plan 1974-75, 1975-76 and 1976-77.

4.1.4. After the District was adopted as a unit of planning the District Planning and Development Council, Beed is doing this exercise for the third time to formulate the Annual Plan of the district for the year 1976-77. For the third year of the Fifth Five Year Plan, the annual plan of the district was adopted as it emerged from the State's Annual Plan.

4.2. This chapter comprises the plan review of the two years' periods viz. 1975-76 and 1976-77. During the year 1975-76 the total expenditure incurred was to the tune of Rs. 438.98 lakhs on the district level plan schemes, against the total provision of Rs. 459.98 lakhs, whereas the total expenditure of Rs. 67.24 lakhs

spent during 1976-77. An amount of Rs.582.53 lakhs and Rs.92.71 lakhs was spent on State and Local sectors schemes respectively during the year 1976-77. The percentage of expenditure on State sector schemes was 86.27 % whereas percentage of expenditure on local sector schemes was 13.73 % , during 1976-77.

4.3. District Planning and Development Council, Beed has taken up 119 schemes for implementation in the third year of the Fifth Five Year Plan as against 120 schemes in the second year of the fifth plan. Out of 119 schemes 80 schemes were under the control of State sector whereas 34 schemes were under the control of local sector. 5 Schemes were found to be common in State and Local sectors.

TABLE NO.1

Major headwise plan expenditure on State & Local sector schemes and percentage of expenditure during the Annual Plan 1975-76 & 1976-77

Sr. No.	Major head	Expenditure Rs. in lakhs					
		Annual Plan 1975-76			Annual Plan 1976-77		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	Agricultural programme.	96.49 (21.98)	23.46 (5.34)	119.95 (27.32)	127.86 (18.94)	32.91 (4.88)	160.77 (23.82)
2.	Co-operation & Community Development.	79.39 (18.09)	5.12 (1.16)	84.51 (19.25)	72.38 (10.72)	7.10 (1.05)	79.48 (11.77)
3.	Irrigation and Power.	74.61 (17.00)	-	74.61 (17.00)	68.61 (10.16)	-	68.61 (10.16)
4.	Industry & Mining.	1.19 (0.27)	-	1.19 (0.27)	14.55 (2.15)	-	14.55 (2.15)
5.	Transport & Communication.	9.47 (2.16)	17.54 (4.00)	27.01 (6.16)	14.12 (2.09)	15.87 (2.35)	29.99 (4.44)
6.	Social Services	47.53 (10.83)	22.33 (5.08)	69.86 (15.91)	56.21 (8.33)	36.83 (5.45)	93.04 (13.78)
7.	Miscellaneous.	61.85 (14.09)	-	61.85 (14.09)	228.80 (33.88)	-	228.80 (33.88)
T o t a l		370.53 (84.42)	68.45 (15.58)	438.98 (100.00)	582.53 (86.27)	92.71 (13.73)	675.24 (100.00)

Note:- The figures in bracket indicated the percentage of total expenditure.

4.3.1. The study of table No.1 reveals that, the highest percentage of expenditure viz.27.32 was booked on Agril.programme in 1975-76 whereas 33.88 % in 1976-77 is booked on the schemes under miscellaneous programme. In Agril.programme major portion of expenditure was shared by the schemes of State sector giving percentage as 21.98 % and 18.94 % in the year 1975-76 and 1976-77 respectively. The next major head on which comparatively higher percentage of expenditure incurred was co-operation and community development and Agricultural programme in 1975-76 and 1976-77 respectively and the expenditure incurred on these schemes was 18.09 % and 18.94 % in the same period respectively. Major head of irrigation and power and co-operation & community development stands third in term of percentage expenditure under State sector giving 17.00 % and 10.72 % in the year 1975-76 and 1976-77 respectively. The expenditure booked on the remaining major head in 1976-77 was comparatively less i.e.10.16 % expenditure was registering on irrigation & power. Under the major head of Industry & Mining and Transport and Communication share of percentage expenditure was as 2.15 and 2.09 in 1976-77 respectively.

The details of the schemes implemented are discussed below.

4.4. AGRICULTURAL PROGRAMME:

4.4.1. The amount of expenditure incurred during second and third year of the Fifth Five Year Plan period under agricultural programme comes to the tune of Rs. 119.95 lakhs and 160.77 lakhs respectively.

The details of sub-headwise expenditure incurred during second and third year of the Fifth Five Year Plan period are shown in table No.2 below with the percentage ( in brackets) to the total expenditure under agricultural programme.

TABLE NO. 2

Sr. No.	Sub-head of Development.	Expenditure Rs. in lakhs					
		2nd year of the V five year plan.			3rd year of the V five year plan.		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	Agricultural production.	0.06 (0.05)	1.08 (0.90)	1.14 (0.95)	5.91 (3.67)	4.29 (2.67)	10.20 (6.34)
2.	Minor irrigation.	27.25 (22.71)	20.15 (16.80)	47.40 (39.51)	51.46 (32.01)	22.68 (14.11)	74.14 (46.12)

TABLE NO.2 (Contd..)

1	2	3	4	5	6	7	8
3. Soil Conservation.	32.78 (27.33)	-	32.78 (27.33)	5.03 (3.13)	-	5.03 (3.13)	
4. Ayacut Development.	19.80 (16.51)	-	19.80 (16.51)	3.16 (1.96)	-	3.16 (1.96)	
5. Drought Prone Area programme.	6.89 (5.74)	2.23 (1.86)	9.12 (7.60)	20.36 (12.67)	5.94 (3.69)	26.30 (16.36)	
6. Animal Husbandry.	0.12 (0.10)	-	0.12 (0.10)	1.60 (0.99)	-	1.60 (0.99)	
7. Dairy Development.	5.99 (4.99)	-	5.99 (4.99)	37.23 (23.16)	-	37.23 (23.16)	
8. Forest	3.33 (2.78)	-	3.33 (2.78)	2.18 (1.36)	-	2.18 (1.36)	
9. Fisheries	0.27 (0.23)	-	0.27 (0.23)	0.93 (0.58)	-	0.93 (0.58)	
T o t a l	96.49 (80.44)	23.46 (19.56)	119.95 (100.00)	127.86 (79.53)	32.91 (20.47)	160.77 (100.00)	

The table shown above reveals that, during the year 1975-76 the highest percentage of expenditure of 39.51 was incurred on Minor irrigation sub-head followed by 27.33 and 16.51 percent expenditure on soil conservation and ayacut development respectively whereas 1976-77 the highest percentage of expenditure of 46.12 was incurred on minor irrigation sub-head followed by 23.16 and 16.36 percent expenditure on Dairy Development and Draught Prone Area Programme sub-heads respectively. This shows that the highest priority is accorded to the minor irrigation sub-head followed by Dairy Development and Drought Prone Area Programme sub-heads. Very negligible percentage of expenditure of 6.34 was booked on Agricultural production. The sub-heads which have registered percentage expenditure between 1 to 4 was soil conservation, Ayacut development, Animal husbandry, forest and fisheries.

#### 4.5. Agricultural production.

4.5.1. Under this sub-head of development Rs.1.14 lakhs were spent during the year 1975-76 forming 0.95 % expenditure to the total expenditure whereas expenditure of Rs.10.20 lakhs was booked in 1976-77 forming 6.34 % expenditure to the total expenditure. In order to promote the agricultural production in the district, the

schemes such as seedforms, plant protection, horticultural development, intensive cultivation of food crops were implemented during both the years.

4.5.2. So far as achievements during 1976-77 of this sub-head concerned improved seed of 6,586 quintals were distributed to the cultivators. The chemical fertilizers to the tune of 6,751 M. tonnes were distributed. The compost of 50,940 M. tonnes was prepared.

#### 4.6. Minor Irrigation:

4.6.1. Irrigation is life belt of agricultural production and minor irrigation is considered as more economic and suitable to the agro-economic development. It felt that, imbalance in the development of irrigation can be corrected to considerable extent by creating minor irrigation facilities. With this aspect in view schemes of construction of tanks, bandharas, new and old wells, and pumping sets were programmed and implemented during the year 1975-76 and 1976-77. During the year 1975-76 an amount of Rs. 47.40 lakhs was spent registering 39.51 % expenditure to the total expenditure where as expenditure to the tune of Rs. 74.14 was spent forming 46.12 % expenditure to the total expenditure, during 1976-77.

4.6.2. In all 90 pumping sets were installed during the year 1976-77 and total additional irrigation potential created was 319 hectares during this period.

#### 4.7. Soil Conservation

4.7.1. The soil conservation was the other programme which helps to increase agricultural production. Exhaustive programme of bunding was undertaken during the year 1976-77 and expenditure of Rs. 5.03 lakhs was incurred forming 3.13 % on this sub-head to the total expenditure. Similarly, an amount of 32.78 lakhs was booked during 1975-76 on this sub-head.

4.7.2. An area of 1846 hectares was banded in 1976-77.

#### 4.8. Ayacut Development

4.8.1. During the year 1975-76 and 1976-77 ayacut development works were undertaken and expenditure to the tune of Rs. 19.80 lakhs and Rs. 3.16 lakhs was booked covering an area of 5589 and 1646 hectares respectively.

#### 4.9. Animal Husbandry

4.9.1. The programme of Animal husbandry was implemented with the object of supplementary food requirement. The expenditure of 0.10 % and 0.99 % was incurred during the year 1975-76 and 1976-77 respectively.

During these years 16 and 17 artificial insemination centres were started in the district.

#### 4.10. Dairy Development

4.10.1. Dairy development is also one of means to provide supplementary occupation to the rural population. In the year 1975-76 and 1976-77 expenditure of Rs. 5.99 lakhs and Rs. 37.23 lakhs was booked on this sub-head.

#### 4.11. Forest

4.11.1. Under this sub-head expenditure of Rs. 2.33 lakhs and Rs. 2.18 lakhs was incurred on this sub-head during 1975-76 and 1976-77. Afforestation for soil conservation was carried out in 200 and 175 hectares respectively.

#### 4.12. Fisheries

4.12.1. The programme of fisheries was considered as supplementary food for human consumption. It was nutritional programme providing important proteins. The expenditure on this programme was 0.23 and 0.58 percent during 1975-76 and 1976-77 respectively. During this period, the fingerlings stocked and fish netted was to the tune of 1025 and 2017 thousand and 475 and 301 quintals respectively.

#### 4.13. Drought Prone Area Programme

4.13.1. The fact finding committee identified of 6 out of 7 tahsils of the district as Drought Prone excluding 2 revenue circles from Manjlegaon and one from Kaij tahsil. The programme aims at proofing of the selected watersheds in six tahsils of the district from recurring droughts. This programme includes schemes of land resources, land use capability survey, land development, water conservation, groundwater development, minor irrigation, dry land forming, strengthening of artificial insemination facilities and forestry. This scheme is introduced in the Fifth Five Year Plan. During the year 1975-76 and 1976-77 an expenditure of Rs. 9.12 lakhs and Rs. 26.30 lakhs was incurred forming percentage of 7.60 and 16.36 to the total expenditure respectively.

4.13.2. In the years 1975-76 and 1976-77 soil survey was conducted in 31,618 and 6,537 hectares of land. Nala bunding was taken in 120 and 734 hectares and rectification was done in 2,753 and 3,391 hectares of land. 66 and 45 electric motors were installed in the same period respectively.

4.14.

4.4. CO-OPERATION AND COMMUNITY DEVELOPMENT

4.14.1. The expenditure on this major head of development during the year 1975-76 comes to Rs.84.51 lakhs which works out to 19.25 % to total plan expenditure, whereas in the year 1976-77 the expenditure booked on this major head was Rs.79.48 lakhs forming 11.77 percent expenditure to the total expenditure. This programme is divided into two sub-heads viz.co-operation and community development.

TABLE NO.3

Sub-headwise expenditure incurred on the programme of co-operation and warehousing and Community development during the years 1975-76 and 1976-77.

Sr. No.	Sub-head of Development	Expenditure Rs. in lakhs					
		2nd year of Annual Plan i.e. 1975-76			3rd year of the V th five year plan (i.e. Annual Plan 1976-77.)		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	Co-operation & warehousing.	79.39 (93.94)	-	79.39 (93.94)	72.38 (91.07)	-	72.38 (91.07)
2.	Community Development.	-	5.12 (6.06)	5.12 (6.06)	-	7.10 (8.93)	7.10 (8.93)
	T o t a l	79.39 (93.94)	5.12 (6.06)	84.51 (100.00)	72.38 (91.07)	7.10 (8.93)	79.48 (100.00)

4.15. Co-operation

4.15.1. To provide the facilities to the agriculturists the activities of co-operation have been intensified during the years 1975-76 and 1976-77 and the expenditure of 93.94 and 91.07 percent was incurred in the same period respectively under this sub-head.

4.15.2. During the year 1975-76 short term and medium term loans to the tune of Rs. 103 lakhs and Rs.117 lakhs were distributed for undertaking seasonal agricultural operations. The percentage of recovery during 1975-76 was 44.2 %. In addition to this 2 Industrial co-operative societies were formed during the year 1975-76 . In the year 1976-77 the short term and medium term loans to the order of Rs. 129 lakhs and Rs. 85 lakhs were distributed for intensifying for the agricultural activities in the district. The percentage of recovery during 1976-77 was 27.4 %. In addition to this one co-operative lift irrigation society was formed during 1976-77.

#### 4.16. Community Development

There are 12½ C.P.A. units blocks functioning in 7 Panchayat Samities of the district in both the periods under consideration. The expenditure incurred on the programme during 1975-76 and 1976-77 was 6.06 and 8.93 percent respectively.

#### 4.17. IRRIGATION AND POWER

4.17.1. Prior to formation of Dist. Planning Boards execution of major and medium project was at the state level. With the functioning of District Planning Board the execution of major and medium projects was transferred to the district and subsequently execution of major projects taken up at the state level. Dist. Planning & Development Council had registered expenditure to the tune of Rs. 74.61 lakhs and Rs. 68.61 lakhs under this sub-head of development forming 17.00 % and 10.16 % to the total expenditure during the year 1975-76 and 1976-77 respectively.

4.17.2. During the year 1975-76 and 1976-77 works on Manjra Project (continuing major irrigation project) Ghatshil Project (continuing medium irrigation project) and Jaykwadi stage-II (New scheme) and Kundlika and Sarswati (New) medium irrigation project were in progress. In addition to this 30 and 22 villages were electrified and 90 and 90 pump sets were installed on wells in the district during the year 1975-76 and 1976-77 respectively.

#### 4.18. INDUSTRIES AND MINING

4.18.1 Small scale and cottage industries programme was intensified in the district during the year 1975-76 and 1976-77 as there was big factory established. The expenditure incurred on the programme was Rs. 1.19 lakhs and Rs. 14.55 lakhs which works out to 0.27 and 2.15 percent to the total expenditure.

4.18.2. During the year 1976-77 one co-operative lift irrigation society was formed.

#### 4.19. TRANSPORT & COMMUNICATION

##### Road Development

4.19.1. The expenditure incurred on the programme during the year 1975-76 and 1976-77 was Rs. 27.91 lakhs and Rs. 29.99 lakhs forming percentage share as 6.16 % and 4.44 % respectively.

4.19.2. Under this programme the roads of 81.36 and 49.30 kms. were modernised during the year 1975-76 and 1976-77 respectively. 110 C.D. works also provided in the year 1976-77. 2 Bridges and 53 Culverts

were constructed in the year same year. The length of road constructed in rural area was 1 km. during the year 1976-77.

4.20. SOCIAL SERVICES

4.20.1. The programme implemented under this major head includes in all ten sub-heads. The percentage of expenditure incurred on the programme of this major head during 1975-76 and 1976-77 was 15.91 % and 13.78 % respectively.

TABLE NO.4

Sub-headwise expenditure incurred under major head "Social Services" during the year 1975-76 and 1976-77.

Sr. No.	Sub-heads of Development	Expenditure Rs. in lakhs					
		1975-76			1976-77		
		State sector	Local sector	Total	State sector	Local sector	Total
1	2	3	4	5	6	7	8
1.	General Education.	1.48 (2.12)	16.45 (23.54)	17.93 (25.66)	3.32 (3.57)	22.81 (24.51)	26.13 (28.08)
2.	Technical Education.	0.25 (0.36)	-	0.25 (0.36)	0.36 (0.39)	-	0.36 (0.39)
3.	Health & Family Planning.	4.22 (6.04)	2.30 (3.29)	6.52 (9.33)	6.08 (6.53)	7.71 (8.29)	13.79 (14.82)
4.	Nutrition Programme.	-	0.81 (1.16)	0.81 (1.16)	-	0.79 (0.85)	0.79 (0.85)
5.	Water supply & Drainage.	18.65 (26.70)	1.56 (2.23)	20.21 (28.93)	18.88 (20.29)	1.94 (2.09)	20.82 (22.38)
6.	Housing.	11.15 (15.97)	-	11.15 (15.97)	10.79 (11.60)	-	10.79 (11.60)
7.	Urban Development.	1.00 (1.43)	-	1.00 (1.43)	10.00 (10.75)	-	10.00 (10.75)
8.	Welfare of Backward classes.	9.07 (12.98)	1.21 (1.73)	10.28 (14.71)	4.75 (5.10)	3.58 (3.85)	8.33 (8.95)
9.	Social welfare.	0.73 (1.04)	-	0.73 (1.04)	1.19 (1.28)	-	1.19 (1.28)
10.	Labour & Labour welfare.	0.98 (1.40)	-	0.98 (1.40)	0.84 (0.90)	-	0.84 (0.90)
	Total	47.53 (68.04)	22.33 (31.96)	69.86 (100.00)	56.21 (60.41)	36.83 (39.59)	93.04 (100.00)

4.20.2. It is evident from the table shown above that maximum expenditure of 28.93 % was incurred on water supply & drainage followed by expenditure of 25.66 % on general education in the annual plan 1975-76. The expenditure on remaining sub-heads was below 16 % whereas in the year 1976-77 maximum expenditure of 28.83 % on general education followed by expenditure of 22.33 % on water supply and drainage.

#### 4.21. General Education

4.21.1. All the schemes under this sub-heads were implemented by the local sector except the scheme of development of technical high school which was implemented by State sector.

4.21.2. During the year 1975-76 annual plan period constructions of 34 school buildings with 53 rooms were completed. 9 primary schools were started and 198 teachers were trained. 12,982 and 4,456 students were found to be increased in primary and secondary school respectively, whereas in the year 1976-77, 218 rooms in building were constructed. 14 primary schools were started and 58 teachers were trained in the same year. The pupils are not increased in primary and secondary school during the year 1976-77 as the enrolment has been decreased over last year's enrolment.

#### 4.22 Health

4.22.1. During the year 1975-76 total expenditure of Rs. 6.52 lakhs was made and out of which Rs. 4.22 lakhs and Rs. 2.30 lakhs was shared by the State sector and Local sector respectively, whereas in the year 1976-77 total expenditure of Rs. 13.79 lakhs was made and out of which Rs. 6.08 lakhs and Rs. 7.71 lakhs was shared by State sector and local sector respectively. The percentage share of expenditure was 9.33 and 14.82 to the total expenditure during the year 1975-76 and 1976-77 respectively.

4.22.2. During the year 1975-76 facility of 86 additional strength of beds were provided with appointment of 4 Doctors and 18 Nurses whereas in the year 1976-77 facility of 20 additional beds was made with appointment of 20 Doctors and 46 nurses. The construction work of hostel for nurses training was in progress.

#### 4.23. Nutrition programme

4.23.1. For this programme is being implemented in five blocks.

F  
The expenditure booked on this scheme was Rs. 0.81 lakhs and Rs. 0.79 lakhs in 1975-76 and 1976-77 respectively.

#### 4.24. Water Supply and Drainage

4.24.1. In the year 1975-76 and 1976-77 under this sub-head of development the schemes of piped water supply were implemented by state sector and local sector. In this year an expenditure of Rs. 20.21 lakhs and Rs. 20.82 lakhs was registered achieving 28.93% and 22.38 % expenditure to the total expenditure respectively.

4.24.2. During the year 1975-76 in all 46 Drinking Water wells were constructed whereas in the year 1976-77, 56 drinking water wells constructed. Similarly, 3 villages were benefitted under rural piped water supply scheme and 33 villages benefitted under piped water supply scheme.

#### 4.25. Housing

4.25.1 All expenditure of Rs. 11.15 lakhs and 10.79 lakhs was booked on this sub-heads in 1975-76 and 1976-77 respectively by way of implementing different schemes of housing. The weightage was given on the construction of huts for landless labourers in both years. 4,006 and 4,458 huts were programmed and completed in the years 1975-76 and 1976-77 respectively. In all 21 low income housing group housing schemes were formed during the year 1976-77.

#### 4.26. Urban Development

4.26.1. Out of two schemes only one scheme was implemented by the state sector. The expenditure incurred on this scheme was Rs. 1.00 lakhs and Rs. 10.00 lakhs in 1975-76 and 1976-77 respectively. The loans and grants was provided to only one municipal council for implementation of development plan of council.

#### 4.27. Welfare of Backward classes.

4.27.1. The schemes of welfare of backward classes have been implemented by the state sector and local sector and expenditure of Rs. 10.28 lakhs and Rs. 8.33 lakhs was booked in the year 1975-76 and 1976-77 respectively.

4.28. Social Welfare

4.28.1 Under this sub-head of development only three schemes were taken up but only one scheme could be implemented. The expenditure booked on this scheme was Rs. 0.73 lakhs and Rs. 1.19 lakhs which works out to 1.04 and 1.28 percent to total expenditure during the year 1975-76 and 1976-77 respectively.

4.29. Labour and Labour welfare

4.29.1. Only one scheme on craftman training was implemented by the state sector. The training was imparted in the institute for rural artisans in the district. This scheme was common in both years i.e. 1975-76 and 1976-77. Expenditure incurred on the scheme was Rs. 0.98 and Rs. 0.84 lakhs respectively in the same period.

4.30. MISCELLANEOUS PROGRAMME

4.30.1 Under this major head of development information and publicity and employment guarantee scheme sub-heads fall. The expenditure incurred on the major head during the year 1975-76 and 1976-77 was Rs. 61.85 lakhs and Rs. 228.80 lakhs respectively. The major expenditure was on the sub-head of Employment Guarantee Scheme. Under which works was being provided to all the able bodied and unskilled persons from rural areas whenever such demand was felt. Under this scheme works like community wells, percolation tanks, minor irrigation works, afforestation, market and other links roads were to be taken.
