CHAPTER I INTRODUCTION.

1.1 - Location

Jalgaon district, located in the north of Bombay Division lies between 20° and 21° NORTH LATITUDE and 74°55' and 76°28' EAST LONGITUDE.

1.2 - Boundaries

Stretching nearly 128-km. along the Tapi river and varying in breadth from 112-km. to 144-km., Jalgaon forms an upland basin, one of the most northerly sections of the Deccan table land. Along the whole northern frontier, the district is bounded by the Satpada ranges, a mountain tract from 48 to 64-km. wide. On the north-eastern side, the district is bounded by the territories of the Madhya Pradesh State. Quite a major portion of the northern boundary is marked by the tributary Aner which in the west continues to separate Jalgaon from Dhule district till its junction with the Tapi. On the east and south-east a range of low and detached hills and some major streams, without any marked natural boundary, separate Jalgaon from the districts of Vidarbha. To the south, the Ajanta, Satmala and Chandor ranges may roughly be said to mark the line between Jalgaon and the ^{Marathwada} Maharashtra territory. On the west, Jalgaon shares its boundary with the Nasik district over a stretch of about 40-km., and then with the Dhule district for about 80-km. The Panjhara river is the only natural feature demarcating it over a major stretch.

1.3 - Topography

Although Jalgaon district belongs to the Deccan uplands of the Maharashtra State, it is distinguished from the rest of the upland districts by its westward aspect. While the rest of the upland region is drained by the major rivers to the east, the Tapi and its tributaries

drain the Jalgaon region to the west towards Arabian Sea. The landscape is typically that of the Deccan lavas with residual hill ranges and broad valleys, with trap dykes introducing a sharp local contrast as small chains of hillocks. Thus Jalgaon includes varied topographical features and landscapes consisting of hills and wild forests, rich gardens and groves, stretches of barren plain, low rolling rocky hills and tensly gullied (bad land) topography near major river banks. Regionally, from east to west, parallel with the Tapi, are three well-marked belts of country; in the centre the rich Tapi valley, in the north the high and wild satpuda and in the south and south-west bare ridges and rich well-watered valleys flanked by the Ajanta range.

1.4 - Hills and Rivers

1.4.1 Within Jalgaon limits, there are three chief hill ranges, the satpuda in the north, the Hatti in the south-east and the Ajanta or Satmala in the south. The Satpuda, a broad belt of mountain land, stretching in a wall-like line along the north-bank of the Tapi, rise from the first range of hills, ridge behind ridge, to the central crest about 2000 feet high and then slope gently to the Narmada. Among the peaks that rise higher about 3000 feet the chief are, in the east, Pancha-Pandu and Mondhiamal looking down on Yawal. The Hatti hills bounding the Purna Valley on the east, run north-west and south-east, for and ~~and~~ about 32-km. pass through the south-east corner of Jalgaon. At first bare and rocky, as they near the southern limit of Jalgaon, their sides are in the places somewhat thickly covered with brush-wood and timber and give shelter to wild beasts. The Satmala, also known as the Chandor or Ajanta range, breaking off sharply from the Sahyadris in the north-west of Nasik, runs for about 80-km. east in the series of quaint basalt pinnacles and ridges within Jalgaon limits, beside several

footpaths, two roads cross the hills, one through the Ranjangaon pass near Chalisgaon and the other by the Ajanta pass above Fardapur.

1.4.2 The chief feature of the district, the line to which almost its whole surface drains, is the Tapi. Of the whole of its course, about 120-km. lie within the limits of Jalgaon. The water of the Tapi is hardly used at present for irrigation. A major project on Tapi is being constructed in Jalgaon district with an irrigation potential of about 40,000 hectares of land. During the course through Jalgaon, the Tapi receives many tributaries from both sides. On the right bank, beginning from the east are the Bhokar, the Suki, the Mora, the Harki, the Manki, the Guli and on the left, the Purna, the Bhogavati, the Vaghur, the Girna and the Bori. The Girna, the second important river of the district, rising in western hills of the Nasik district flows for about 120-km. in the Jalgaon district and joins the Tapi near village Nanded in Amalner tahsil, then passing eastwards through Nasik almost in a straight line. In Jalgaon, its course changes to north-east, flowing for several kms with many windings almost parallel to the Tapi. An irrigation project is also functioning on the Girna with an irrigable capacity of about 57000 hectares. In the Jalgaon district, the river Bori has a course of about 56-km. For about 16-km., it maintains an easterly course and with rather a sudden turn, flows north for about 40-km., then taking another bend, it sets to the north-west joining the Tapi about 32-kms. below the Girna. Like Girna, in its upland valleys the waters of the Bori are much used for irrigation.

1.5 - Soil

The soils of the district are essentially derived from the underlying basalt, which can be broadly classified into categories of deep black soil, Medium Black, Forest, loam and sandy. The central belt of the wide Tapi valley, about half of the whole area, consists either of

Black alluvial clay highly retentive of moisture, or of a loam overlying a stratum of yellowish clay of good depth. On this soil, which for richness cannot be surpassed, wheat is extensively grown in some places from year to year, without the aid of manure or change of crop. On the northern border lies the Satpuda Hill region with its characteristic feature of relief and drainage. Much of this region is under forest cover and substantial portion of these forests are under the management of forest Department. South of the main Satpuda range, lying within the district, there is a piedmont belt, outward edge of which is of interest from the point of view of Economic and human development. Soils are rich, cultivation is extensive, villages are large sized and better looking and means of communication are developed. South of this piedmont edge begins the Tapi valley proper. The well-developed alluvial soil supports extensive agriculture with cotton as a principal crop. The large sized villages reflect the economic prosperity of the land and this is further emphasised by the flourishing market centres like Raver, Savda, Faizpur, Chopda in the north and Amalner, Parola, Brandol, Dharangaon, Jalgaon, Nashirabad, Bhusawal and Varangaon in the south. The southern zone of the district again develops a hilly character, in which the Girna valley occupies a special position mainly on account of development of canal irrigation. Bordered on both sides by residual hills, the Girna has developed rich agricultural land on either banks, where Sugar-cane and horticulture are much in evidence. Bhadgaon is an important commercial centre and Pachora, its eastern counterpart serves as a collecting centre for the surrounding cotton zone. The region between the Tapi valley and the Ajanta range is a fairly well-tilled plain with Jamner and Bodwad as local commercial centres. The outskirts of the Ajanta ranges lying within the district are minor hilly features mainly given to ^{shrub} ~~shrub~~ and rough grass land.

1.6 - Climate

The climate of this district is generally dry except in the monsoon. The year may be divided into 4 seasons. The cold season ^{from} December to February is followed by the hot season from March to May. June to September is the monsoon season and October and November form the post-monsoon season. Jalgaon has the only meteorological observatory in the district. The data of this station may be taken to be fairly representative of conditions prevailing in the district. December is the coldest month while May is the hottest month. As the district is far away from the coastal track, large variation is noticeable in the day and night temperature.

1.7 - Rainfall

The average annual rainfall of the district is 826.8 mm. and about 75 percent of the same is received during the monsoons. The rainfall is not uniform in all parts of the district. The central part of the district comprising the talukas of Jalgaon, Bhusawal, Jamner and Pachora receives comparatively more rainfall followed by the talukas of the east and west of this central division. The district receives rainfall almost entirely from the south-west monsoon, which is very powerful during June-September.

1.8 - Minerals

Jalgaon district is composed entirely of trap rocks, which are generally barren of any economically useful and important minerals. However, being hard, dense and durable, the trap is most suitable for construction of buildings. It is also being used as road metal, railway ballast and in cement concrete.

1.9 - Forests

About 17 percent of the geographical area is covered by the

forests, which are mainly found on the slopes of Satpudas in Chopda, Yawal and Edlabad tahsils. There are also some forests in Jalgaon, Bhusawal, Jamner, Pachora, Chalisgaon, Amalner and Surdol tahsils, which are on the plains. The main species are teak, Tiwas Dhawda, Salai, Haldu, Sisam, Bibla, Anjan, Sissu.

1.10 - Area

The total geographical area of the district is 11771 sq.km. divided into 13 tahsils. The district consists of 1,423 inhabited and 23 uninhabited villages beside 15 urban areas. Since independence there was only one territorial change in the composition of the district, which took place in the year 1950, when 13 villages of Chalisgaon Tahsil were transferred to Aurangabad district.

1.11 - Population

As per 1971 population census, the population of the district is 21.23 lakhs of which 51 percent is male and remaining 49 percent is female. According to population, Jalgaon district stands 6th amongst 25 districts of Maharashtra State excluding Bombay and Bombay suburban district. The percentage of scheduled castes and scheduled tribes was about 4% and 6%, respectively during 1971 census. No variation is observed in the percentage of male and female population, which remains to be 51 percent and 49 percent to the total population respectively. However, the percentage of urban population has increased by one percent in 1971 census over 1961 census. 24 percent population is residing in urban areas while 76 percent in villages. The percentage of literacy is also high in this district. The literacy percentage, which was already moderate (34% of total population) in 1961 has further gone up to 45 percent of the population in 1971. However there is a decrease in the percentage of working population. The percentage of working

population in 1961 has gone down by about 10 percent in 1971. (36% of the total population). This decrease in percentage can be attributed to the change in definition of the workers in 1961 and 1971 censuses. In 1961 census, all those seasonal workers who had some regular work of more than one hour a day throughout the greater part of season were treated as worker, whereas in 1971 census, the persons who had worked in the current or last working season for the greater part of the season were treated as workers. Thus in 1961, a number of housewives and students who helped in cultivation or other family business for an hour or more were included as workers, while in 1971 census, person primarily engaged in household duties or those who were students and helped the family in economic activity but not on a full time scale were treated as non-workers, as their main activity was other than economic activity.

1.12 - Cropping Pattern

The main food crops of the district are: Jowar, Bajri, Wheat, Ragi, Maize and hill-millests among cereals; black-gram, green-gram, horse-gram, gram, chavli among pulses; banana and lady's finger among fruits and vegetables and Sugar-cane. Among the important non-food crops, Cotton is important among fibres; groundnut and sesamum among oilseeds; tobacco and betel leaf among drugs and narcotics; coriander, chillies and garlic among condiments and spices. Changes are also noticeable in the composition of food-crops. Bajri, which was one time the staple food of the district, has given way to Jowar. Acreage under pulses has gone up considerably. Fruits and vegetable cultivation has also increased rapidly in recent years. Among fruits, banana has attained an enviable position and Jalgaon has become the most important Banana producing district of the State.

1.13 - Agri Industries

Looking to the importance of agriculture in the district, efforts have been made to establish the industries based on agriculture and allied activities. 3 Sugar factories have been established in this district under co-operative fold, while 2 Co-operative spinning mills are also functioning in the district. Cotton ginning and Pressing activities have also flourished under Co-operative fold beside already established factories in private sector. Increased milk production has also compelled the Govt. to establish a Govt. Milk scheme at Chalisgaon in 1969 with a handling capacity of around 15000 litres of milk per day, which is supplied to Bombay. Beside this Govt. dairy, Jalgaon District Dhadha Vikas Federation is functioning in the Co-operative sector with the help of National Dairy Corporation of India and world Bank with a capacity of handling one lakh litres of Milk per day.

1.14 - Industries

With the speedy development in all the other sectors, the Jalgaon district also marched towards speedy industrialisation. There are about 200 registered factories producing various types of products. Some of the important Industries which are functioning in the district are Cotton textile Mills at 3 places employing about 5000 labourers per day, 2 Hydrogenated Oil (Vanaspati Ghee) Mills, about 30 oil mills of medium size and large number of cotton ginning and pressing factories. One large scale and one Small scale defence project is functioning at Varan- gaon and Bhusawal respectively and a Thermal power station at Fekari near Bhusawal. Besides the above important industries, the Maharashtra Industrial Development Corporation has established Industrial Estate at Jalgaon and Bhusawal wherein about 38 units and 18 units respectively are actually functioning. Industrial estates at three other places are also being established in the near future.

1.15 - Infrastructure facilities

The length and condition of roads is somewhat better in this district. National High-way No.6 is passing through this district and the course of this road in Jalgaon district is 149 km. Number of State high-ways are also passing through this district with a total length of about 588 km. Sufficient length of Major District Roads and Other District Roads is existing in this district. Some of the important roads of this district are Dhule-Jalgaon-Nagpur, Jalgaon-Ajanta-Amalner-Chopda-Bhulkot, Parola-Brandol-Savda-Burnarpur, Bhadgaon-Pachora-Ajanta.

As regards railways, this district is served well since the latter half of the 19th century. Portion of Central Railway (Old GIP) falling in this district was opened for traffic, between 1861 and 1865. There are 4 Junctions, namely, Bhusawal, Jalgaon, Pachora and Chalisgaon. From Bhusawal emanates the broad-gauge Bhusawal-Nagpur-Howrah line and the Bhusawal-Itarsi-Delhi line, from Jalgaon, the Surat-Bhusawal line, from Pachora, the Pachora-Jamner line, and from Chalisgaon, the Chalisgaon-Dhule line. This district is linked with important cities like Bombay, Delhi, Calcutta, Nagpur and Allahabad. Total railway length thus available in the district is about 350 km. of which, 296 km. is broad-gauge and 54-km. narrow gauge.

Postal, Telegraph and Telephone facilities are available in this district since long and all towns and big villages have been connected by telegraph and telephone facilities.

1.16 - Special features of the District

1.16.1 - Mineral Springs:- In Jalgaon, hot springs have so far been recorded at Unabdev, Sunabdev and Najhardev in Chopda tahsil. The Unabdev hot springs lie about 5-km. north-west of village Adavad in Chopda taluka about 1.5 km. from the grit spur of Setpudas. Pouring in a rapid spring from the mouth of a carved head, fixed in a solid block of

masonry that forms the lower part of the old temple. The water flows into a cistern, which is about 4 sq. metres. As the ground near the pond is paved, the source of the spring is hard to trace. It has a temperature of 140° f. The water is tasteless with a peculiar but not sulphurous smell. It is reported to cure skin diseases.

About 12-km. west of Unabdev, in a narrow glen formed by two outlying spurs of the satpudas, lie the Sunabdev springs. The water is slightly sulphurous and has a temperature varying from 85° f. at dawn to 91° f. at noon. It is also reported to cure skin diseases.

Najhardev, within 2 to 3-km. of Sunabdev, has a hot spring flowing into a built pool. The water has a slightly sulphurous taste and varies in temperature from 100° f. at dawn to 103° f. at noon.

1.16.2 - Ordnance Factory:- A large size ordnance factory is functioning at Varangaon in Bhusawal tahsil of the district, wherein a number of labourers are working. Besides this, a small size unit is also functioning at Bhusawal.

1.16.3 - Power Station:- A thermal power station of the Maharashtra State Electricity Board has been functioning since long, employing about 466 workers.

1.16.4 - Radio Station:- A broadcasting station of the All India Radio has been established during the current decade at Jalgaon.

1.16.5 - Railway work-shop:- Bhusawal, an important railway Junction of Central and Western Railways, has a big work-shop and loco-sheds functioning.

1.16.6 - Irrigation Projects:- Girna project has already been completed and after the completion of Hatnur, Suki, Bari and Aner projects, the percentage of irrigation will be increased to a large extent.

1.16.7 - Rural Broad-casting Sets:- About 90 percent of the villages have been served by the Rural Broad-casting receiving sets.

CHAPTER - II EXPLANATORY NOTES

2.1 - Purpose and Scope

In this chapter, short notes on the tables presented in the abstract part are given indicating the source of the data, definitions of the terminology used, its scope, limitations etc. There are 93 tables presented in this statistical abstract. The present issue relates to 1976-77 and the detailed tables are given for this year in most of the cases. However, in some of the cases, the data for 1976-77 was not available. In such cases, data for the latest available year is given.

2.2 - Area and Population

There are 7 tables in this group and all these tables are based on data of 1971 Census. Table No.1 gives tahsil-wise area and population, while its break-up into Rural and Urban as male and female, decadal variation since 1951 to 1961 to 1971 is presented in table No.2. Figures for these two tables are given in thousand. Tahsil-wise classification of villages and towns according to population ranges is given in table No.3 and 4, respectively. Classification of towns according to population in table No.4, in which population figures are given in thousand. Distribution of population according to workers and non-workers, separately for each tahsil and according to age-groups, religions is shown in two tables viz,- Table No.5 and 6, respectively. Table No.7 gives tahsil-wise distribution of Scheduled Caste, Scheduled Tribes and Neo-Budhists (in thousand) in Rural and Urban areas of Jalgaon District.

2.3 - Climate

In this group only two tables are included. In table No.8, No. of rainy days and total rainfall figures which are rounded to the nearest

integer for 13 tahsil head-quarters for 1976 and in table No.9, the maximum and minimum monthly temperature for Jalgaon centre for all the months of 1976 is given.

2.4 - Agriculture

There are 14 tables in this group. Provisional data about yield per hectare and out-turn of important crops in table No.12 is based on fully revised provisional data for the year 1974-75 and information of 1975-76 is based on revised final forecast. Land utilisation figures are given in hundred hectares in table No.10. Crop pattern for each tahsil(table No.11), Source-wise and Crop-wise irrigation(table Nos.13, 14,15) are provided for the year 1974-75 and 1975-76. Table No.16 gives the informations about availability of underground water for the year 1976-77. Table No.17 gives information regarding minor irrigation works(1975-76), while details about major and medium irrigation projects in table No.18 shows the position as on 30-6-76. Table No.19 indicates the agricultural wages rates at three selected Rural centres. Table No. 20 gives information pertaining to agricultural holding as per world agricultural Census 1971 for Jalgaon district, while in table No.21, the data about agricultural implements in each tahsil as per 1972 live-stock census is given. Table No.22 gives the famine and scarcity data for the district for the year 1976-77 and table No.23 gives Revenue circle-wise history of scarcity for the last seven years i.e. from 1970-71 to 1976-77 in each tahsil of this district.

2.5 - Animal Husbandry, Forests and Fisheries

There are six tables in this group. Out of which, table No.24 relates to tahsil-wise live-stock data as per 1972 live-stock census. Table No.25 and 26 include the information about veterinary facilities

available in each tahsil of Jalgaon district. Table No.27 gives the information about animals slaughtered in the recognised slaughter houses in this district. Total animals treated through hospitals, dispensaries and sub-centres (in table No.25) shows increasing trend in all tahsils except Yawal, Jamner, Chalisgaon, Bhadgaon, Parola and Erandol. The same table also shows the details about No. of artificial inseminations performed in each tahsil.

Table No.28-A gives forest area under revenue and forest departments, while table No.28/B gives details of major and minor forest products, of which value is given in thousand rupees.

Table No.29-A gives details about inland fisheries in each tahsil of Jalgaon district for the year 1975-76 and 1976-77.

2.6 - Employment, Industry, Mining and Electricity

There are in all ten tables in this group. First three tables (viz. Table No.30,31 and 32) give factory statistics for the year 1975-76. Total mandays (in table No.30) are given in hundred, while in table No.33, the information collected in Annual survey of industries for the year 1966 is given industry-wise. Table Nos.34,35 and 37 indicate the data about working of employment exchange for the year 1976-77, while table No.36 shows the details about works undertaken under E.G.S. in this district and expenditure incurred thereon upto March-77. In the last two tables viz. Table Nos.38 and 39, details about the consumption of electricity during 1976-77 and agency-wise number of towns and villages electrified and population covered in district as on 31-3-77 is given. Population figures in table No.39, are given in thousand.

2.7 - Co-operation

There are eight tables under this group. Out of which, first seven relate to data of co-operative sector for the year 1976-77, while

last table gives the information regarding the registered money lenders and loans advanced by them in each tahsil during the year 1976-77.

Amount shown in above tables is given in thousand rupees.

2.8 - Medical and Public Health

There are five tables in this group. The information in table No.48 gives medical facilities in each tahsil of the district and number of patients treated in the hospitals and dispensaries during the year 1976. Table No.49 indicates the statistics of birth and deaths in every tahsil during 1976, while table No.50 gives causes of deaths in the district as a whole from the year 1971 to 76. Vaccination and Cholera inoculation statistics during the year 1976 is given in table No.51, whereas in table 52, the information about family planning centres in Jalgaon district is given.

2.9 - Education

Out of 7 tables in this group, the first table viz. Table No.53 gives literacy percentage in each tahsil according to 1971 census. No. of literates are given in thousand in this table.

Table No.54 and 55 indicate educational level in rural and Urban areas as per 1961 census, as data pertaining to 1971 is not yet available. Table No.56 gives the total No.of various types of institutions in each tahsil of Jalgaon district, while table No.57 shows the data of enrollment of backward classes for the years 1975-76 and 76-77 is given and in table No.59, expenditure incurred on primary education in 1976-77 is shown in thousand rupees.

2.10 - Transport & Communication

There are seven tables in this group. Table No.60-A shows the information about railway routes as on 31-3-1977. while table No.61 gives type-wise & surface-wise length of roads in this district. Data

relating to motor vehicles of Nasik-Region as on 31-3-77 is given in table No.62. Maharashtra State Road Transport Corporation activities during 1976-77 are given in table No.63. Data of traffic census conducted in May-74 are presented in table No.64. Post & Telegraph information is presented for the year 1961-62, 1965-66 and from 70-71 to 1976-77 in table No.65, while table No.66 gives the rural broadcasting statistics for the year 1976-77.

2.11 - Local Bodies

There are four tables viz, - Table No. 67, 68, 69-A, B, C and 70 in this group. Out of which table No.69 is sub-divided in three table A, B & C. In table No.67, Income & Expenditure of Local bodies 1965-66 and 1968-69, 1970-71 to 1976-77 is given in Rs. lakhs. Table No.68 gives income and expenditure of village panchayats for the year 1976-77. Table No.69-A, B, C indicate Z.P.Budget, Actuals 1975-76, Revised for 1976-77 and Estimates for 1977-78, while in table No.70, Income and Expenditure of Municipal Councils for the year 1976-77 is given.

2.12 - Plan and Community Development

There are five tables in this group. Out of which, first two tables give the expenditure and physical achievements for district level plan schemes for the year 1976-77. Table No.73 gives stage-wise position of blocks and its population figures are given in thousand. Table No.74 shows the expenditure incurred in different stages of blocks, while table No.75 indicates the physical achievements on selected items in the year 1976-77.

2.13 - Prices

Table No.76 gives the wholesale prices of certain agricultural commodities during 1976 at 13 regulated markets of this district. Table No.77 gives monthly average prices for 1976 based on weekly retail prices

prices collected at selected shops at district head-quarters. Table No. 78 gives the consumer price index at Bombay and Jalgaon for the year 1976-77.

2.14 - Miscellaneous

There are 14 tables in this group. Table No.79 & 80 give information about police force and crime statistics respectively. Table No. 81 gives work disposed in Civil and Criminal courts in the year 1976. Table No.82 indicates Cinema statistics for the year 1976-77. In table No.83, Banking offices are given whereas in table No.84, total No.of scheduled Banks are given and No.of Joint-stock companies are mentioned in table No.85.

No.of Insurance policies are given in table No.86 and collection of Small Savings is indicated in table No.87. In table No.88, Land revenue collection is given in thousand rupees. Total no. of Presses and periodicals are given in table No.89 and in table No.90, quantity of rice, wheat and sugar issued to fair price shops from the year 1971 to 1977 are presented. Similarly table No.91 gives demand and procurement of levy for the period from 1970-71 to 1976-77. These two tables viz. 90 and 91 are newly introduced during the reference year. Table No.92 relates to General Elections showing list of candidates according to Party affiliations for 1977 Lok Sabha elections and 1972 Assembly elections. Table No.93 shows trends in selected indicators from the year 1950-51, 1960-61, 1966-67, 1970-71 and 1973-74 to 1976-77. These indicators are based on the information given in table Nos. 1 to 91.

-- X --

vbb/-*

CHAPTER - III

Analytical review of Selected Trends.

In this chapter an attempt has been made to present analytical review of some of the Socio Economic aspects over a period of time among the tansils of the district.

Indicator No.1 - Percentage of gross cropped area to net area sown.

3.2 Tahsilwise percentage of gross cropped area to net cropped area has been given below in table No.3.2.

Table No.3.2

Table showing the talukawise percentage of gross cropped area to net area sown in Jalgaon District.

Sr. No.	Name of the tahsil	Percentage of gross cropped area to net area sown.				
		1961-62	1970-71	1973-74	1974-75	1975-76
1	2	3	4	5	6	7
1	Jalgaon	110.27	100.42	112.02	118.80	113.24
2	Chopda	123.23	116.60	112.07	119.78	115.18
3	Yawal	103.73	104.79	109.33	113.19	108.85
4	Raver	101.93	107.15	110.36	111.47	108.34
5	Eclabad	101.87	107.16	104.93	106.72	102.58
6	Bhusawal	101.99	100.29	107.35	107.75	101.17
7	Jamner	101.45	103.46	104.60	101.21	101.27
8	Pachora	104.37	104.65	109.27	108.24	106.77
9	Chalisgaon	102.68	106.81	104.30	105.24	102.52
10	Bhadgaon	107.43	111.18	117.66	116.36	107.30
11	Parola	105.38	104.57	111.07	108.64	110.58
12	Erandol	108.32	115.06	114.66	132.31	109.63
13	Amalner	122.38	105.92	114.33	102.07	118.25
District Total,-		106.66	106.61	110.20	111.21	107.94

It can be seen from the above table that the percentage of

gross cropped area to net area sown has been increased during the last 15 years. The tahsilwise percentages have ^{gone} ~~grown~~ up during last 15 years except that of Chopda, Bhusawal, Jamner, Chalisgaon, Bhadgaon and Amalner. During the years 1973-74 and 74-75 the highest percentage was recorded by the tahsil Bhadgaon and Erandol respectively. During 1975-76 the highest percentage was ~~rear~~ recorded by Amalner followed by Chopda tahsil. The lowest percentage was recorded by Jamner tahsil during 1974-75 and by Bhusawal tahsil during 1975-76.

Indicator No.2 - Productivity of Important Crops.

3.3 Estimates of production of important crops are available for the district, as a whole, and no tahsilwise figures could be built-up for want of required data and hence the position of the district has been reviewed.

Table No.3.3
Yield rates of Important Crops.

Sr. No.	Crop	Yield per hectare (in kg.) during :-				
		1961-62	1970-71	1973-74	1974-75	1975-76.
1)	Rice	836	662	750	1483	1060
2)	wheat	715	1113	1027	1084	1175
3)	Jowar	362	440	534	992	1216
4)	Bajra	287	507	532	400	518
5)	Gram	372	530	630	551	494
6)	Pur (Arhar)	645	504	535	962	833
7)	Sugarcane (in terms of Gur)	4801	7387	7657	9296	8471
8)	Cotton	113	45	90	140	104
9)	Groundnut	723	643	696	642	389
10)	Chillies	466	N.A.	848	1091	827

It can be seen from the above table that the yield rate of

Sugarcane and Chillies has roughly doubled during the subsequent years while a notable increase in the yield rate of wheat, Rice, Jowar, Bajra and Tur is observed over the yield rate of 1961-62. However, the yield rate of Cotton has come down during 1975-76 as compared to the yield rate of 1961-62 and 1974-75. The increase in the yield rates can be easily attributed to the usage of fertilizers, irrigation facilities and adoption of improved methods of cultivation.

Indicator No.3 - Value of Agricultural Production in Jalgaon * District.

3.4 The value of some of the important agricultural produce for the years 1970-71 to 75-76 at average wholesale prices prevailing during the year are given in the following table.

Table No.3.4

Value of agricultural production in Jalgaon District.

<u>Commodity.</u>	<u>Year.</u>	<u>Out-turn in</u> <u>Qtls.(000)</u>	<u>Price per</u> <u>Qtl.(Rs.)</u>	<u>Value(in</u> <u>Lacs Rs.)</u>
1	2	3	4	5
w h e a t .	1970-71	524	101	52.92
	1971-72	410	99	40.59
	1972-73	228	210	47.88
	1973-74	489	196	95.84
	1974-75	491	201	98.69
	1975-76	635	159	108.91
J o w a r .	1970-71	664	79	52.46
	1971-72	819	68	55.69
	1972-73	1033	121	124.99
	1973-74	888	140	124.32
	1974-75	1590	113	179.67
	1975-76	2374	117	227.76
B a j r a .	1970-71	454	66	29.96
	1971-72	197	51	10.05
	1972-73	301	158	47.56
	1973-74	702	146	102.49
	1974-75	403	137	55.21
	1975-76	524	105	55.12

Table No.3.4(contd.)

1	2	3	4	5
G r a m .	1970-71	32	87	2.73
	1971-72	19	89	1.86
	1972-73	16	220	3.52
	1973-74	46	148	9.11
	1974-75	49	184	9.02
	1975-76	42	123	5.17
P u r .	1970-71	56	108	6.05
	1971-72	58	233	13.80
	1972-73	44	161	7.03
	1973-74	53	210	11.13
	1974-75	102	178	13.16
	1975-76	85	138	11.73
Groundnut .	1970-71	430	149	64.07
	1971-72	213	160	34.08
	1972-73	341	241	82.18
	1973-74	495	261	129.19
	1974-75	532	243	134.14
	1975-76	323	200	184.60
S e a s a m u m .	1970-71	N.A.	239	-
	1971-72	17	240	4.03
	1972-73	5	375	1.37
	1973-74	17	399	6.73
	1974-75	26	367	9.54
	1975-76	2	374	0.75

It will be seen from the above table that the trend of wholesale prices is fluctuating in respect of a number of commodities, and out-turn of some of the commodities shows an upward trend resulting in the relative increase of the value of produce over different years. Special feature is a fall in prices of most of the commodities in 1975-76.

Indicator No.4 - Percentage of net irrigated area to net cropped area.

3.5 The district is benefitted by the Girna irrigation project which cover Brandol, Bhadrason, Parola and Amalner tahsils of this district. The number of wells being used for irrigation is also large and tahsils like Raver and Yawal are utilizing this facility on a large scale. The

percentage of net area irrigated to net area under crops is given below in the table.

Table No.3.5

Percentage of net irrigated area to net cropped area.

Sr. No.:	Tahsil.	Percentage of net irrigated area to net cropped area.					
		1961-62	1971-72	1972-73	1973-74	1974-75	1975-76
1	2	3	4	5	6	7	8
1	Jalgaon	3.00	3.16	4.08	5.99	6.09	2.48
2	Chopda	1.79	2.62	2.32	4.31	5.88	3.15
3	Yawal	8.87	12.74	13.04	31.98	20.77	13.07
4	Raver	10.89	25.13	20.61	22.17	29.39	19.42
5	Bclabad	2.37	6.84	6.31	7.91	7.79	6.04
6	Bhusawal	4.23	5.81	4.72	5.55	5.59	34.30
7	Jamner	2.29	2.79	2.69	4.32	4.10	1.67
8	Pachora	4.65	6.69	5.67	5.81	9.34	10.21
9	Chalisgaon	6.55	9.07	6.44	5.32	7.94	7.59
10	Bhadgaon	5.22	21.63	18.95	17.00	24.31	17.33
11	Parola	9.82	10.87	10.49	15.67	7.60	16.79
12	Erandol	3.56	18.92	13.79	15.64	18.14	11.50
13	Amalner	6.27	8.87	5.94	9.18	7.99	4.34
District total,-		5.10	9.63	8.26	11.64	10.98	10.84

It will be seen from the above table that the percentage of the district as a whole has increased to 11.64 in 1973-74/5.10 in 1961-62. A decreasing trend is however observed in the subsequent years i.e. 10.98 in 1974-75 and 10.84 in 1975-76.

Among the talukas it will be seen that Yawal, Raver, Bhadgaon, Erandol, Parola and Bhusawal are having highest percentage as compared to district percentage while lower percentage was observed in the remaining talukas of the district.

Although some talukas are reporting less percentage than the district level percentage it will be observed that there is a constant rise, in the percentage of net irrigated area in most of the tahsils.

Indicator No.5 - Change in cropping pattern

3.6 The cropping pattern of Jalgaon district shows predominance of food crops. The area under food and non-food crops and their percentage to total cropped area is given below in the table.

Table No.3.6
Cropping pattern in Jalgaon district.

Sr. No.	Item	Unit	Year						
			1961-62	1970-71	1971-72	1972-73	1973-74	1974-75	1975-76
1	2	3	4	5	6	7	8	9	10
1)	Total cropped area.	Lakh-hect.	8.60	8.55	8.40	8.65	8.87	8.88	8.54
2)	Area under food-crops.	"	5.08	5.38	5.34	5.57	6.22	5.49	5.39
3)	Percentage of Item-2 to item-1.	Percentage.	59.07	62.92	62.90	54.39	70.12	61.80	63.11
4)	Area under non-food crops.	Lakh-hect.	3.52	3.17	3.14	3.08	2.65	2.88	2.62
5)	Percentage of item-4 to item-1.	Percentage.	40.93	37.08	36.98	36.61	29.88	32.47	30.69
6)	Area under Cereals.	Lakh-hect.	2.86	2.96	3.24	3.26	3.57	3.17	3.16
7)	Percentage of item-6 to item-1.	Percentage.	33.25	34.62	38.16	37.63	40.25	35.66	37.08
8)	Area under pulses.	Lakh-hect.	1.86	2.01	1.63	1.93	2.22	2.32	2.22
9)	Percentage of item-8 to item-1.	Percentage.	21.62	23.51	19.73	22.31	25.03	26.15	26.05

It will be seen from the above table that the percentage of area under food crops is slowly increasing, as the area under fruits and vegetables has increased during the last 15 years. Similar is the case with the area under cereals and pulses. This increase in food crops affected the area under non-food crops. The gradual increase in the percentage of crops is noticed because of the improved seeds, fertilizers and insecticides, so also increasing prices of food grains.

Indicator No.6 - Percentage of net sown area to geographical area.

3.7 The extent of net area sown to geographical area is discussed in this indicator compared to Bombay division and the state as a whole. The percentages of land utilisation during past few years is given below in the table.

Table No.3.7
Percentage of land utilization in Jalgaon District, Bombay Division and Maharashtra State.

Sr. No.:	Item	Year.	Jalgaon District	Bombay Division	Maharashtra State.
1	2	3	4	5	6
1)	Percentage of barren & Un-culturable area to total geographical area.	1961-62	6.91	12.64	5.81
		1971-72	7.23	12.64	5.80
		1972-73	8.39	12.41	5.72
		1974-75	6.89	12.43	5.65
2)	Percentage of fallow land to total geographical area.	1961-62	1.44	7.89	7.36
		1971-72	3.61	7.76	7.49
		1972-73	4.44	9.19	11.69
		1974-75	3.28	6.56	5.56
3)	Percentage of net area sown to total geographical area.	1961-62	69.26	45.94	58.69
		1971-72	67.30	44.65	56.21
		1972-73	67.73	41.31	52.21
		1974-75	63.40	44.63	59.16

It will be seen from the above table that the percentage of net area sown to total geographical area is more in Jalgaon district when compared to Bombay Division and Maharashtra State, as the lands are fertile in Jalgaon district and give adequate return. The percentage of irrigation is also more and hence cultivators do not like to keep the land fallow.

Indicator No.7 - Increase in agricultural credit, outstandings, dues, etc.

3.8 Loans advanced by the primary agricultural credit societies to the cultivators and repayment of loans has been discussed in this indicator. The loan advanced by the societies for the last few years and

outstanding loans at the end of the year is given below,-

Table No.3.8
Extent of Co-operative Finance

Year.	No. of members of primary credit societies.	Loan advanced by Primary credit Socys (Rs.000)	Outstanding. (Rs.000)	Advanced per member. (Rs.)	Outstanding per member (Rs.)
1.	2.	3.	4.	5.	6.
1961-62	1,24,000	3,74,04	4,38,74	302	354
1972-73	1,58,458	6,93,28	10,41,39	438	658
1973-74	1,58,596	7,15,88	11,97,09	451	755
1974-75	1,64,281	10,15,81	14,38,61	618	876
1975-76	1,77,128	8,37,05	14,30,91	473	836
1976-77	1,82,839	17,63,85	12,42,21	679	965

It can be seen from the above table that there is an increasing trend in the membership of the co-operative societies. The advances are also increasing during the succeeding years which is a good sign of achievement in the co-operative field. However, it is worth noting that the cultivators are not repaying their loans for one reason or the other. Consequently the out-standing loans are also showing increasing trend.

The amount of advance per member of society, which was Rs.302 in 1961-62 rose to Rs.618 in 1974-75 and further decreased to 473 in 75-76 due to outstanding loans and again increased to Rs.679 in 1976-77. However, there is a constant increase in the ratio of outstanding loans. The ratio per member which was Rs.354 during 1962 has reached upto Rs.965 in 1976-77.

Indicator No.8 - Agricultural wage rates at Selected Centres.

3.9 Wage rates for agricultural operation are being collected from 3 centres in this district namely Bhadgaon (Bhadgaon tahsil) Bodwad (Bhusawal tahsil) and Marwad (Amalner tahsil). The annual averages have

been drawn and are given below in the table.

Table No.3.9

Agricultural wage rates at selected centres.

Sr. No.	Centre.	Year.	Annual Average Wage rates for,-				
			Field Labour		Skilled Labour		
			Male.	Female.	Carpenter	Blacksmith	Cobbler.
1	2	3	4	5	6	7	8
1	Bhadgaon	1971	2.50	1.31	6.00	6.00	6.00
		1972	2.92	1.25	6.00	6.00	4.00
		1973	3.17	1.83	6.75	5.96	5.83
		1974	3.96	2.81	7.92	6.00	6.00
		1975	4.10	3.15	8.00	8.00	6.00
		1976	4.96	3.00	9.33	9.21	9.13
2	Bodwad	1971	2.46	1.09	5.10	N.A.	4.66
		1972	3.00	1.40	6.00	5.00	6.00
		1973	3.00	1.68	6.00	5.00	6.00
		1974	3.71	2.79	6.92	5.54	6.25
		1975	4.75	2.96	8.00	6.00	7.00
		1976	4.08	3.00	7.96	7.92	7.75
3	Marwad	1971	2.00	1.00	4.00	4.00	4.00
		1972	2.67	1.67	4.00	4.00	4.00
		1973	3.23	2.44	4.83	4.92	4.00
		1974	3.54	3.00	6.50	6.13	4.38
		1975	3.50	3.00	6.00	6.00	4.25
		1976	3.71	3.00	7.88	7.92	7.79

It can be seen from the above table that the wage rates of field labour have nearly doubled in 1976 over 1971 while that for the skilled labour has increased by about 50%. Among the 3 centres, the wage rates of Bodwad and Bhadgaon are higher, as these centres are having commendable area under irrigation including fruit crops.

Indicator No.9 - Livestock per hectare of cultivable land.

3.10. Talukawise cultivable area per pair of working bullocks is discussed in this indicator. The working bullocks as recorded at the time of 1972 live-stock census have been taken into consideration. Similarly cultivable area during 1971-72 has been taken into consideration for comparison.

Table No.3.10

Cultivable area per pair of Bullocks.

Sr. No.	Tahsil.	No. of working Bullocks as per 1972 Live-stock Census.	Cultivable area 1971-72 in hectares.	Cultivable area per pair of bullocks in hectares.
1	2	3	4	5
1	Jalgaon	17,304	65973	7.63
2	Chopda	19,479	64113	6.61
3	Yawal	15,998	53415	7.30
4	Raver	14,980	58535	7.82
5	Edlabad	11,024	41245	7.48
6	Bhusawal	15,085	63203	9.18
7	Jamner	26,645	111490	8.37
8	Pachora	19,876	72507	7.30
9	Chalisgaon	30,281	36617	6.38
10	Bhadgaon	11,305	40230	7.12
11	Parola	15,396	66234	8.60
12	Erandol	21,092	33377	7.95
13	Amalner	22,552	75769	6.72
<u>District Total, -</u>		2,41,017	904513	7.51

It will be seen from the above table that the cultivable area per pair of bullocks was 7.51 hect. for the district. However, the ratio was somewhat different in the talukas ranging from 6.38 hect. in Chalisgaon to 9.18 hectares in Bhusawal. The average of Jalgaon, Raver, Bhusawal, Jamner, Erandol and Parola was higher than the district average, while it was lower in the remaining tahsils.

Indicator No.10 - Poultry as compared to Population

3.11 Since the latest data of poultry population is not available the position of poultry as per 1966 live-stock census is compared to the human population of 1961 census and that of 1972 livestock census to the human population of 1971 is compared in the table given below.

Table showing the ratio of Poultry to Population in 1966 and 1972 Live-stock Census.

Sr. No.	Tahsil.	Poultry per 1000 Human Population.	
		1966-Livestock Census.	1972-Livestock Census.
1	2	3	4
1	Jalgaon	50	53
2	Chopda	86	104
3	Yawal	78	53
4	Raver	50	50
5	Edlabad	76	61
6	Bhusawal	61	60
7	Jamner	97	89
8	Pachora	110	107
9	Chalisgaon	157	95
10	Bhadgaon	119	99
11	Parola	95	90
12	Erandol	137	90
13	Amalner	77	93
District Total, -		90	87

It will be seen from the above table that the ratio in Jalgaon, Chopda, Yawal, Raver, Bhusawal and Amalner talukas has increased in 1972 as compared to the 1966 livestock census, whereas the same has gone down in the remaining talukas.

Indicator No. 11 - Per Capita Consumption of Electricity.

3.12 The consumption of Electricity can be treated as a barometer of the increase in the standard of living so also the industrial development of the country. The per capita consumption of electricity is showing continuous increasing trend. The per capita consumption of electricity in this district as compared to 1971 population census is given below for some of the years.

Table No. 3.12

Table No.3.12

Per capita consumption of Electricity in Jalgaon District.

<u>Sr.No.</u>	<u>Year.</u>	<u>Per capita consumption in Kwh.</u>
1	2	3
1	1971-72	57
2	1972-73	48
3	1973-74	78
4	1974-75	77
5	1975-76	93
6	1976-77	116

It will be seen from the above table that the consumption of electricity which was 57-Kwh.in 1971-72 and 48-Kwh.in 1972-73 has increased abnormally during last 4 years and has reached upto 116-Kwh.during 1976-77, which shows that the people are rapidly changing their habits and are utilising electricity for domestic, agricultural, as well as industrial purposes.

Indicator No.12 - No.of Candidates enrolled and Vacancies notified at Employment Exchange

3.13 There is one district employment exchange located at Jalgaon. The registrations and placements during the last few years have been given in the following table.

Table No.3.13

Table showing the No.of Registration and Vacancies filled-in through District Employment Exchange in Jalgaon District.

<u>Sr. No.</u>	<u>Year.</u>	<u>No.of Regis- -trations.</u>	<u>No.of Placements through Employment Exchange.</u>
1	2	3	4
1	1961-62	9,730	913
2	1972-73	12,667	969
3	1973-74	13,286	1106
4	1974-75	11,629	492
5	1975-76	15,274	547
6	1976-77	12,362	360

It will be seen from the above table that the number of registration during the last few years has increased considerably, while the placements do not show a similar trend due to various restrictions.

Indicator No.13 - Patients treated in hospitals and dispensaries and Primary Health Centres.

3.14 The medical facilities through Public hospitals and dispensaries so also through the Primary health centres are availed by a large number of patients. Due to opening of new dispensaries in the rural areas and providing modern techniques in the existing hospitals and dispensaries in the private sector, the number of patients in public sector institutions is decreasing year by year. The number of indoor and outdoor patients treated in the last few years is given in the table below.

Table No.3.14
Indoor and Outdoor patients treated.

Sr. No.	Item	Patients treated during the year				
		1971	1973	1974	1975	1976
1	2	3	4	5	6	7
1)	In-door patients treated.	40,284	92,604	88,604	55,213	78,287
2)	Out-door patients treated.	11,02,433	9,85,462	9,68,158	7,14,836	12,64,604

It will be seen from the above table that the patients who were diverted to private sector hospitals and dispensaries till 1975, have again been attracted towards public sector institutions in 1976, probably due to high cost of fees being charged by the private practitioners and also due to higher prices of drugs being recommended by these private practitioners. The other important reason may be improved service in the public sector being offered these days.

Indicator No.14 - Students enrolled in different educational institutions.

3.15 Data of institutions and enrolment at various levels is discussed in this indicator.

Table No.3.15

Sr. No.	Type of Institutions.	Year.	No. of Institutions.	Enrolment.
1	2	3	4	5
1	Primary	1961-62	1469	256767
		1972-73	1696	312333
		1973-74	1639	345415
		1974-75	1725	363453
		1975-76	1759	352184
		1976-77	1760	358661
2	Secondary	1961-62	117	37572
		1972-73	233	85573
		1973-74	232	96735
		1974-75	232	100589
		1975-76	232	98924
		1976-77	232	104772
3	Higher	1961-62	4	2411
		1972-73	15	10347
		1973-74	15	11428
		1974-75	15	11717
		1975-76	15	12141
		1976-77	15	12733

It will be seen from the above table that the enrolment of students has increased since 1972-73 continuously, although the number of secondary and higher institutions remained constant during these years. The people are realising the importance of higher education. In 1976-77 the number of students enrolled in Secondary institutions rose about 3 times and that in higher institutions about 5 times over 1961-62.

Indicator No.15 - Road length per 100 sq.km of area.

3.16 Ratio of Road length to the total Geographical area is a good indicator for comparison of development of transport in the district. Road length per 100 sq.km of area in the past few years is given below for review.

Table No.3.16

Table showing the road length and length per square km.

Sr. No.	Year.	Total Road Length(km.)	Road length per 100 sq.km of area
1	2	3	4
1	1961-62	2363	23.41
2	1972-73	3682	31.23
3	1973-74	3685	31.31
4	1974-75	4747	40.33
5	1975-76	4870	41.37
6	1976-77	4837	41.52

It will be seen from the above table that the road length has considerably increased in the year 1974-75 due to scarcity and Employment Guarantee schemes. Under these schemes lower type of roads were constructed. Since the construction of Roads involve huge funds and a long time, it becomes difficult to achieve more length in a span of one year. However, it can be observed that the road length per 100 sq.km, which was 23.41 km. in 1961-62 rose upto 41.37 km. in 75-76 and to 41.52 km. in 1976-77.

Indicator No.16 - Banking facilities

3.17 The growth of trade and commerce is always assessed by the availability of Banking services in any area. The table given below shows the growth of banking facilities in the last few years in Jalgaon District.

Table No.3.17

Banking facilities in the District.

Sr. No.	As on 1st January,-	No. of Banking Offices.	No. of Villages/Towns covered by the Banking Offices.
1.	2.	3.	4.
1	1961	62	43
2	1972	109	55
3	1973	128	63
4	1974	137	72
5	1975	165	87
6	1976	192	102

It will be seen from the above table that the number of Banking Offices, which were 62 in the year 1961 have increased to 165 in 1975 and to 192 in 1976. The rise in the banking offices is due to the opening of branches in rural areas by nationalised banks, as well as by Co-operative central bank. There were only 43 villages and towns, which were being served by these offices in 1961. The number increased to 72 in 1974, 87 in 1975 and 102 in 1976. The extension of banking facility shows the sound growth of trade, commerce and agriculture in the district.

Indicator No.17 - Retail Prices at District Head-quarter.

3.13 Prices are collected for the given commodities restricted to only one quotation and that too only from the selected shops at the district head-quarters. The average price shown in the table for individual commodity cannot be said to be fully representative but the data may prove useful as a broad indicator of the trend in retail prices over the period of time. The comparative prices of important commodities are shown in the following table.

Table No.3.13
Table showing prices at District Head-quarters.

Sr. No.	Commodity.	Variety.	Unit.	Monthly average prices (in Rs.) in Novem. in-					
				1962.	1972.	1973.	1974.	1975.	1976.
1	2	3	4	5	6	7	8	9	10.
1	Rice.	medium.	kg.	0.84	N.A.	N.A.	N.A.	N.A.	2.55
2	Wheat.	-do-	kg.	0.64	1.26	2.47	2.21	2.27	1.73
3	Jowar.	White.	kg.	0.37	N.A.	1.66	1.85	1.88	1.45
4	Bajra.	Local.	"	0.46	1.07	1.31	1.67	1.71	1.25
5	Tur-dal.	-	"	0.84	2.42	2.48	4.20	2.90	2.55
6	Gram-dal.	-	"	0.60	1.32	2.73	3.25	2.61	1.63
7	Mung-dal.	-	"	0.73	2.93	2.80	3.04	3.18	2.40
8	Udid-dal.	-	"	1.06	3.21	2.72	2.83	3.18	3.48
9	Groundnut-Oil.	-	"	1.87	5.31	6.84	8.46	7.80	6.63
10	Vanaspatti-Ghee.	-	"	3.00	6.25	8.17	12.37	9.60	11.59
11	Sugar.	-	"	1.14	3.60	3.78	5.34	4.74	5.10
12	Gur.	-	"	0.62	2.30	2.42	2.84	2.34	2.55
13	Dry-Chillies.	-	"	3.00	5.50	5.20	10.00	13.23	7.58
14	Mutton.	Goat.	"	3.00	5.50	7.00	8.40	10.00	9.00
15	Potato.	Nasik.	"	0.70	1.00	1.60	1.22	1.11	1.28
16	Supari.	Manglori.	"	7.00	9.25	10.00	11.00	12.00	12.00
17	Shirting.	Calicloth.	Mtr.	2.08	6.00	7.00	10.00	9.39	11.50
18	Charcoal.	-	40-kg.	8.40	15.00	15.00	25.00	25.00	24.00
19	Tea.	Orange-Piko.	kg.	8.50	10.60	10.20	14.00	14.00	19.50

It will be seen from the above table that much change has taken place in the prices of all the commodities during the last 15 years. The price of Rice which was 0.84 per kg. in 1962 has increased about 3 times and reached upto Rs.2.55 per kg. in 1976. The price of wheat in 1976 is about 3 times of the 1962 price, however has decreased from Rs.2.47 per kg. in 1973 to Rs.1.73 per kg. in 1976. The prices of Jowar, Bajra, Gram-dal, Tur-dal have also come down during 1976 as compared to previous years. The price of Groundnut-oil (edible oil) which was Rs.1.87 per kg. in 1962 rose to Rs.8.46 per kg. in 1973 and has come down to Rs.6.63 per kg. in 1976. The price of Sugar has also decreased from Rs.5.34 in 1974 to Rs.5.10 per kg. in 1976. The price of Gur has also come down to Rs.2.55 per kg. in 1976 from Rs.2.34 per kg. in 1974. The price of Dry Chillies which was Rs.3.00 per kg. in 1962 further rose to Rs.13.23 in 1975 and decreased to Rs.7.58 in 1976. However, a constant rise is observed in the price of Tea (leaf) which reached Rs.19.50 per kg. in 1976 from Rs.14.00 per kg. in 1975.

Chapter IV
Annual Plan 1976-77

4.1 The Annual plan 1976-77 for Jalgaon District as approved by the Govt. was of the order of Rs.6.56 crores as compared with plan outlay of Rs.6.99 crores for the previous year(1975-76). But the actual expenditure incurred as per L.P.D.C., Jalgaon during the reference year 1976-77 stood at Rs.9.29 crores, which showed about 40 percent increase in expenditure over the plan outlay. The expenditure during 1975-76 was of the order of Rs.6.36 crore, which showed shortfall in expenditure as compared with corresponding plan outlay in that year. A comparative statement showing major headwise expenditure incurred during 1975-76 and 1976-77 is given below.--

Table No.4.1

Major headwise expenditure during 1975-76 and 1976-77(Rs.in lakh.).

Sr. No.	Major Head of Development.	1975-76:	1976-77		Percentage to total.
		:Actual:	:approved:	:expendi- :ture:	
1	2	3	4	5	6
1.	Agricultural Programme.	89.17	142.88	163.85	18.16
2.	Co-operation and Community Development.	53.04	61.12	65.13	7.01
3.	Irrigation and Power.	247.17	149.00	322.85	34.77
4.	Industry and Mining.	17.35	13.57	24.75	2.66
5.	Transport and Communication.	24.06	30.00	36.56	3.94
6.	Social Services.	119.40	212.81	155.78	16.78
7.	Miscellaneous	85.60	46.62	154.83	16.68
		635.89	656.00	928.55	100.00

4.2.1 There were in all 41 district level schemes implemented in this district during the year 1976-77 under the head Agricultural programme. 12 schemes pertained to agricultural production, 19 schemes pertained to allied activities of agricultural programme viz, animal husbandry, dairy development and fisheries and the remaining 10 schemes were implemented under the subhead "Forests". The expenditure incurred on each of these

three groups of schemes was 152.62 lakhs, 7.70 lakhs and 8.33 lakhs respectively during 1976-77. Thus the total expenditure on the agricultural and rural programme constituted 18.16 percent of the total expenditure during 1976-77.

4.2.2 Under the agricultural production schemes, the important physical achievements were (a) under crop husbandry scheme, 45 thousand hectares of land was covered by the pesticides, insecticides and aerial spraying activity, (b) amounts amounting to Rs.3.40 lakhs were given for improved seeds(415 hectares), chemical fertilisers(469 hectares) and pesticides (469 hectares) under p.a.g.e scheme. Rs.61.21 lakhs were spent on Minor Irrigation works, which included construction of 15 minor irrigation works under state sector and 440 hectares of land under percolation tanks under local sector. Under soil conservation programme, works amounting to Rs.1.85 lakhs were completed covering 236 hectares of land under pre-monsoon works and 240 hectares of forest plantation. Under the scheme Ayakut development no headwise provision has been made even though the target was fixed for covering 6,000 of standard development units during 1976-77 but an expenditure of Rs.40.43 lakhs was incurred on staff during the reference period on this subhead.

4.2.3 Out of Rs.6.19 lakh incurred on Animal Husbandry sector during 1976-77, an amount of Rs.3.14 lakhs has been spent on establishment of 15 seasonal cattle breeding farms in the deep forests.

4.2.4 The scheme under the subhead forests were implemented at the cost of Rs.3.33 lakhs. The expenditure incurred on wild life preservation and nature conservancy was Rs.2.41 lakhs. Plantation of general utility timber and maintenance of the same was taken on 700 hectares of land during the year 1976-77. An amount of Rs.10 thousand was also spent on the welfare of forest labourers.

4.2.5 Managerial subsidy amounting to Rs.45 thousand was also given to 39 dairy co-operatives in Jalgaon district during the year 1976-77.

Under Fisheries, four schemes were implemented during 1976-77 and Rs. 1.06 lakhs were spent on them. Fish farming in pond/water is the main scheme under which 19.10 lakhs carp fry (baby fish) were stocked during 1976-77. Similarly 2 fishery cooperatives were also given assistance amounting to Rs.6 thousand during 1976-77.

Co-operation and Community Development

4.3 During the year 1976-77, the following three schemes were implemented under the subhead co-operation: 1) Out right grants amounting to Rs 6 thousand to village credit societies and co-operative banks for creation of bad debt reserves, 2) Grant of share capital contribution amounting to Rs.58.02 lakhs to three co-operative sugar factories, 3) Share capital contribution, managerial subsidy amounting to Rs.13 thousand to 2 labour contract societies during 1976-77. The community development programmes were also in progress through 13 C.D. blocks, which involved an expenditure of Rs.6.11 lakhs during the year under reference.

Irrigation and Power

4.4 A provision to the tune of Rs.135.00 lakhs was made in the budget estimates 1976-77 for the three irrigation project viz,- Suki, Bori and Amer. However, the expenditure incurred on the works pertaining to these projects stood at Rs.298.63 lakhs during the same year. Excess amounts were released during the course of the year by both the Central and state Govts. to meet the additional expenditure. Construction of all the three projects is almost completed and in case of Suki project, construction of canals is also in progress. An amount of Rs.10 lakhs was spent on construction of buildings and main works of Girna Project during 1976-77. During the period under reference, 215 pumpsets were

electrified under the programme of electrification in rural areas.

Industry and Mining

4.5 The total expenditure incurred was Rs.24.75 lakhs on the subhead Industry and Mining during the reference year. Under the scheme of assistance to educated unemployed, an amount of Rs.3.45 lakhs was spent and 266 persons were benefitted during the reference year. 409 weavers co-operative societies have been assisted in the form of share capital contribution amounting to Rs.4.36 lakhs. Similarly assistance amounting to Rs.2.80 lakhs was also given to one co-operative spinning Mill in the district. An amount of Rs.11.74 lakhs was also incurred on the package scheme of incentives to the industrial units for opting location in underdeveloped areas in the Jalgaon district. This scheme is sponsored by SLCOM and implemented through the District plans.

Transport and Communications

4.6 During the year 1976-77, under the scheme district roads, expenditure to the tune of Rs.18.15 lakhs was incurred in constructing 15.52 km. of new roads and 66 C.L.works under state sector. Similarly Rs.-12.40 lakhs were spent on construction of 22.80 km. of new roads under local sector.

Social Services

4.7.1 Under the major head "Social Services" , an amount of Rs.155.78 lakhs was spent and as many as 52 schemes were implemented under 9 sub-heads of this sector. The sub-head(a)General Education constituted 35.5 percent of the total expenditure under social services. Important physical achievements under the sub-head 'General Education' were (1)Continuance of 109 classes of 5th to 7th standard attached to the existing schools. (2)Development of 509 part-time secondary schools (3)Inservice training to 60 primary schools teachers (4)Continuation of 96 higher secondary schools teachers (5)Open merit scholarships to 79 students of

higher secondary schools. (6) Educational facilities to 29647 students of economically backward classes. (7) Grants to 2 non Govt. colleges for their expansion. (8) extension of benefits of Book-Bank to 55,996 student beneficiaries.

4.7.2 Under the subhead "Technical education", an amount of Rs.2.36 lakhs was incurred on purchase of equipments and construction of buildings of Govt. polytechnics.

4.7.3 There were 6 schemes to be implemented during 1976-77 under health sector and the expenditure incurred on them was Rs.7.93 lakhs which also includes Rs.0.81 lakhs i.e. grants to S.A.N.P. blocks during the reference year 1976-77.

water Supply and Drainage

4.7.4 Next to General education the major expenditure was on the sub-head water supply and drainage. Under this, 4 schemes were implemented involving expenditure of Rs.47.27 lakhs. The water supply works at Chopda and Chalisgaon are in full progress. The drainage works at Municipal Councils, -Bhusawal and Jalgaon are also nearing completion. There are 23 piped water supply works completed in rural areas under local sector and Rs.3.14 lakhs were incurred on them during 1976-77.

4.7.5 - Urban Development and Housing - 5 Municipal Councils were given financial assistance to the tune of Rs.1.50 lakhs under the scheme of urban development. Similarly an amount of Rs.20.00 lakhs was incurred in providing 4,321 houses and housing sites to landless labourers in rural areas.

4.7.6 - Backward Class welfare:- 14 schemes were implemented under the subhead Backward class welfare involving an expenditure of Rs.15.46 lakhs during 1976-77. The important physical achievements were as follows:-

- 1) Special scholarships of Rs.10 thousand to 1178 Backward class students.
- 2) Grants for opening of 32 B.C. hostels.
- 3) Financial assistance amounting to Rs.0.70 lakh to 240 B.C. agriculturists.
- 4) Installation of 68 electric pumps in adivasi areas.

Labour and labour welfare.

4.7.7 During the year 1976-77 expenditure amounting to Rs.4.28 lakhs was incurred on the purchase of literature and equipments in I.T.I. for training industrial workers. Two schemes were implemented under this sub-head involving total expenditure of Rs.4.50 lakhs during the reference year:

Employment Guarantee Scheme.

4.7.8 Under the scheme, Rs.154.83 lakhs were spent for providing employment to the extent of 50.92 lakh man-days in Jalgaon District during the year 1976-77.

Statistical Abstract for the Year - 1976-77.

Sr.No. of Table.	S u b j e c t .	Page No.
1	2	3
<u>1-Area and Population</u>		
1	Tahsil-wise area, houses & population in 1971 Census.	1
2	Decadal variation in population since-1951.	3
3	Tahsil-wise classification of villages according to population ranges in 1971 census.	5
4	Tahsil-wise classification of towns according to 1971 Census.	7
5	Number of workers and non-workers in each tahsil according to 1971 census.	8
6	Distribution of population according to (a) Age-group (b) Religion.	12
7	Schedule castes and schedule tribes according to 1971 census.	13
<u>2 - Climate</u>		
8	No. of rainy days and total rainfall at selected centres.	15
9	Maximum and Minimum temperature at selected centres.	13
<u>3 - Agriculture</u>		
10	Land Utilisation .	19
11	Area under different crops in each tahsil.	21
12	Yield per hectare and out-turn of principal crops.	29
13	Area irrigated by different sources in each tahsil.	30
14	Area irrigated under different crops in each tahsil.	32
15	No. of irrigation and other wells in each tahsil.	38
16	Availability of under-ground water.	39
17	Minor irrigation works .	40
18	Major and medium irrigation projects.	41
19	Agricultural wage rates.	45
20	Agricultural census operational holdings 1970.	48
21	Agricultural implements.	50

1	2	3
22	Famine and Scarcity .	51
23	Determination of precarious .	52
	<u>4 - Animal Husbandry</u>	
24	Live-stock in each taluka.	55
25	Veterinary statistics .	58
26	Disease-wise live-stock mortality .	59
27	No.of recognised slaughtered houses and animals slaughtered in each slaughter house.	60
28(a)	Forest Statistics.	61
28(b)	Major and Minor forest products in district.	62
29(a)	Inland fisheries	} no applicable to this district.
29(b)	Marine fisheries	
	<u>5-Employment, Industry, Mining and Electricity.</u>	
30	No.of factories and wages daily employment of workers.	63
31	Industry-wise distribution of working factories according to working strength.	63
32	Distribution of factories according to no.of days worked.	70
33	Statistics relating to A. S. I.	72
34	Employment Exchange .	74
35	Occupational distribution of total registration and placement in employment exchange.	75
36	Works undertaken in E. G. S.	76
37	Employment in different industries .	81
38	Consumption of Electricity .	82
39	No.of towns and villages electrified and population covered in district.	83
	<u>6 - Co-operation</u>	
40	No.of different types of co-operative societies.	87
41	Statistics relating to co-operative banks.	88
42	Primary agricultural credit societies.	89
43	Other co-operative societies of different types.	90
44	Operation of central and primary co-operative marketing societies.	91
45	Operation of other co-operative statistics of different types.	93
46	Operation of regulated marketing.	94
47	No.of registered money lenders & loan advanced by them.	97

1	2	3
<u>7 - Medical and Public Health</u>		
48	Medical facilities available through public and Public aided bodies in each tahsil.	98
49	No. of births and deaths registered.	100
50	No. of deaths due to different causes.	101
51	Vaccination statistics and cholera inoculation.	102
52	No. of family planning centres operating in district.	103
<u>8 - Education</u>		
53	Literacy in each tahsil according to 1971 census.	104
54	Education in rural areas in each tahsil according to 1971 Census.	106
55	Education in urban areas of district according to 1971 census.	108
56	No. of institutions, pupils and teachers.	109
57	No. of backward class beneficiaries.	110
58	Economically backward class concessions of free education.	111
59	Expenditure on primary education by way of grants-in-aid to local bodies.	112
<u>9 - Transport and Communication</u>		
60(a)	Length of railway route.	113
61	Road length according to category & surface classification.	114
62	Motor vehicles in operation.	115
63	Operational statistics of nationalised road transport.	116
64	Traffic census of important roads.	117
65	Information of postal, telegraph & telephone statistics.	119
66	Rural broadcast statistics.	120
<u>10 - Local bodies.</u>		
67	Income and expenditure of local bodies.	121
68	Income and expenditure of village panchayats.	122
69(A)	Head-wise receipts of the zilla parishad.	124
69(B)	Government grants to zilla Parishad.	125
69(C)	Head-wise expenditure of zilla parishad.	126
70	Income & expenditure of municipal councils, corporations, etc.	127
<u>11 - Plan and Community Development</u>		
71	Plan expenditure under different development head/sub-heads.	129
72	Important physical achievements under plan.	133
73	Statement showing C.D. Programme.	137

1	2	3
74	Expenditure incurred in different stages of blocks.	138
75	Physical achievements on selected items in all blocks.	139
	<u>12 - Prices .</u>	
76	Wholesale prices of certain agricultural commodities at selected centres.	143
77	Average retail prices of important commodities at district head-quarter.	156
78	Consumer price index numbers(revised series) for working class.	159
	<u>13 - Miscellaneous</u>	
79	Strength of police force statistics .	161
80	Crime Statistics .	162
31	Work disposed of in civil and criminal courts.	164
82	Cinema Statistics .	165
83	No. of Banking offices .	166
84	No. of scheduled bank etc.	167
85	Joint stock companies .	168
86	No. of policies issued & /Life insurance/ statistics . amount insured.	169
87	Collection of Small Savings .	170
88	Land revenue collection in each taluka of Jalgaon District.	171
89	No. of Presses, News-papers and Periodicals.	172
90	Quantity of rice, wheat and sugar issued to fair price shops.	173
91	Demand and procurement of levy .	174
92-A.	Statistics relating to General election held in 1972.	175
92-B.	Statistics relating to Lok Sabha election held in 1977.	177
93	Trends in selected indicators .	178
