CHAPTER-I.

1. INTRODUCTION AND LOCATION:

The age long famous temple at Tuljapur town of this district enshrines the Goddess 'Bhawani' the popular deity of Maharashtra. The cult of goddess is very ancient one and finds mention even in 'Vedas' where she is called 'Aditi'. The earliest inscriptional evidence regarding its antiquity can not go beyond 1898 A.D. The Goddess was the principal deity of 'Chatrapati Shivaji', the other Chatrapatis' and Peshwas who donated quiet generously to the temple. The village "Thair" in the district is also an ancient place and was known as "Tagra". It also finds mention by Ptolemy in his work "Periplus of Erythraean sea" (1st century A.D.). Hence an ancient Buddhist caitya has been converted in later period into a Brahmanical shrine by installing the image of "God Vishnu" and is at present known as "Trivikrama" temple. Thair is also the native of poor saint "Gora Kumbhar". The Rashtrakutas who succeeded 'Chalukyas' of Badami in 753 A.D. had their epithet. "LATTALURA PURAVARDHISA" which implies that they were the inhabitants of Latur.

2. BOUNDARIES.

To the extreme south of Maharashtra Osmanabad district lies between 17° 35' and 18° 40' north latitude and 75° 16' & 76° 40' east longitude. Osmanabad district is bounded by Solapur district on the southwest on the northwest by Ahmednagar, on the north by Beed and Parbhani district on the northeast by Nanded district and on the southeast and south by Bidar and Gulbarga districts of Karnatak state.

Solapur city is the nearest town and it has therefore close commercial and social ties with it. Barshi taluka in Solapur district is almost surrounded by Osmanabad district. Nanded and Beed towns are about 218 Kms. and 128 Kms. respectively, a way from Osmanabad town and are directly connected by the State transport bus services.

The Solapur Aurangabad road passes through the district. The Latur Miraj Railway line (Narrow gauge) and Parli Hyderabad Railway line (Broad Gauge) now included in south-central railway zone) also pass through this district. Latur is the biggest Railway station in this district.

3. AREA.

The area of Osmanabad district is 14,117.0 Sq.Kms. according to figures furnished by the Surveyor General of India as per 1971 Census which is 21.88% of the area of Marathwada and 4.59% of the area of Maharashtra state. The rural area is about 391.2 Sq.Kms. The area reported by the Director of Land Records, Maharashtra State for Osmanabad district is 14,256 Sq.Kms. In Marathwada region, this district is next to Aurangabad.

In terms of area Osmanabad district ranks seventh among 26 districts of Maharashtra state. The average area of district in Marathwada region works out to 12,905 Sq.Kms. and the average area per district in Maharashtra state is 11,837 Sq.Kms.

4. TOPOGRAPHY

A major portion of this district is laterite plateau with an average height of 2,000 feet above the sea level. This district is covered with small hills and off shoots of the Balaghat. Parts of Bhim, Ausa, Kallam, Osmanabad, Tuljapu talukas are situated on Balaghat ranges and the rest on table lands.

The district lies partly in the Upper Godavari basin and partly in the Bhima-basin. Ahmedpur, Udgir, Kallam, AUSA, Latur and Nilanga talukas are situated on the plateau of the Balaghat and lie on the valley of the river Manjra, which is an important tributary of the Godavari. Osmanabad and Umerga Talukas are drained by the Terna and important feeder of the Manjra. Paranda and parts of Bhum, Tuljapur and Umerga talukas are in the basin of the Sina river which is a tributary of the Bhima.

Of all the towns in the district, Bhum commands the highest elevation of 2,500 feet from the sea level whereas Paranda has the lowest height of 1,735 feet from the sea level. The average height of the plateau is 2,000 feet above the sea level. The low land portion to the south of the plateau lies in the Bhima basin.

5. HILLS RIVER SYSTEM AND SOILS.

The main system of hills is the Balaghat and its offshoots from the north-west corner from Ahmednagar and stretches to the south-east. It divides the district into two portions, plateau to the north-east and low lands to the west, south-west and south. The general slope of the plateau is from south-west to north-east.

There are two broad natural zones in the district viz.
1. Balaghat plateau drained by the Manjara and the Terna river and their tributaries and 2. the southern low lands plain which is in the Bhima basin. The river Manjra flows on the northern border and demarcates this district from Beed district. In addition to hill ranges the district abounds in net work of rivulets running from all sides.

The Manjra which rises in Patoda taluka of Beed district runs towards the east along the northern boundary as far as the north eastern corner of Latur taluka where it takes southernly direction before entering Bidar district of Karnataka state. Its length in the district is about 104 Kms.

The Terna flows from west to east in Osmanabad, Ausa, Umerga and Nilanga talukas and meets the Manjra river near eastern boundary of the district. The Manyad is also a tributary of the Manjra. It flows towards the north-east through Ahmedpur taluka and enters Nanded district & to meet the Manjra on the eastern boundary of the district. The Tawarja which drains in Latur taluka joins the Manjra at Siwani village, on the western border of Paranda taluka. The sine flows from the north to the south. The Bori flows through Tuljapur taluka and joins the Sina river lower down in Solapur district. Even though there are number of small rivers and rivulets streaming in the district like the Bori in Tuljapur taluka or the Manyad in Ahmedpur taluka or the Bennitura in Umerga taluka of the Banganga in Bhum taluka, they remain practically dry for most part of the year as the water from them is drained out of this district from the high plateau resulting into considerable shortage of water in the district.

The soil can be divided into three zones 1. The eastern part consisting of Ahmedpur, Udgir and parts of Latur and Ausa talukas 2. Osmanabad, Kallam talukas and parts of Latur, Ausa and Umerga talukas 3. Tuljapur, Paranda and Bhum talukas.

The first zone consists in general of light & light medium soils; They are of inferior type, not retentive of moisture and is therefore, suitable only for the cultivation of Kharif crops. The soils in some parts of Nilanga are of laterite type.

The second zone consists of changing types of soils. Heavy deep black cotton soils as against shallow light soils are found in this zone. Due to this peculiarity of soil both kharif and rabi crops are grown in this area. Broadly it can be said that eastern part of Osmanabad, Latur, Ausa and Kallam talukas grow more kharif crops than rabi crops, while the western parts of those talukas grow rabi crops predominantly.

The third zone consists of heavy soils which is more retentive of moisture. Hence rabi crops are the major crops of this area. The mountaineous ranges in this zones have formed typical strips suitable for paddy cultivation. This is a peculiarity of this zone. Even though the types of soil are classified above on a broad basis varieties in soils, however are found within the talukas and more within the zones categorised above.

The forests allotted all over the district are some what dense in Tuljapur, Kallam ^{and} ~~and~~ Udgir talukas. They occupy too little portion of the total area in this district and have definitely resulted in soil erosion to a large extent.

6. CLIMATE TEMPERATURE AND RAINFALL.

Climate: As the district forms part of the Deccan plateau, its climate is dry and is subject to extremes. The year can be divided into rainy season from middle of June to the end of September, a sultry period from about the end of September, to the middle of November, winter from the middle of November to the end of January, dry period during February and March & summer during April, May and middle of June. Summer is in general full of gales and gusty winds. Even though the variations in temperature are large in general and the weather is subject

extremes of heat and cold, the summer season in the district is more cooler than in any other districts of Marathwada region, being at a higher attitude. In general the ^{climate} ~~climate~~ of Osmanabad district is considered to be bracing and salubrious.

Temperature. Previously there was no provision of recording temperature at Osmanabad station. From January, 1977 a instrument has been installed at Osmanabad station for recording the temperature. Monthly temperature records are available only for Osmanabad station. In the year 1977 the mercury touched the highest point i.e. 37.2 centigrade in the month of May and the lowest temperature recorded was in the month of December i.e. 13.5 centigrade. During the year 1978 highest temperature recorded in the month of April was 37.7 centigrade and the lowest temperature recorded in the month of December was 15.1 centigrade.

Rainfall. Osmanabad district gets rains from the south east monsoon like other districts of Deccan plateau and the rain starts in the middle of June, becomes intense in July and ceases by the end of September. The normal rainfall of Osmanabad district is about (787 Mms.) Tuljapur and Osmanabad talukas on the west usually get 1,016 Mms. to 1,346 Mms. of rainfall while Paranda and Bhim talukas get near about 762 Mms. to 888 Mms. of rainfall. This part comes in the shadow of western ghat and is therefore, called "Rain shadow area". Because of the low rainfall in Paranda and Bhim talukas there is always a fear of scarcity and shortage of water.

It may be noted that this area being adjacent to Ahmednagar district, is frequently hit by scarcity. These talukas as compared to the other talukas in Osmanabad district are backward. The northern part of Ahmedpur talukas is also some times affected by scarcity of water. In general, Osmanabad district is not considered as scarcity area.

Recently Government of Maharashtra had appointed committee under the Chairmanship of Shri Sukhthankar, the Secretary, Govt. of Maharashtra, Agriculture and Co-operation Department to look into the problem of scarcity ^{and} to identify areas which are more prone to scarcity.

Accordingly after deep study of the problems the committee has identified the following areas as drought prone, 1. Paranda ii) Bhumi iii) Part of Kalam, Osmanabad, Tuljapur and Ahmedpur talukas. This area is now being covered under drought prone area's programme.

7. RECENT DEVELOPMENT.

As per recent Govt. orders the Collector has been named as Member Secretary of the District Planning and Development Council in place of the Chief Executive Officer, Zilla Parishad. Now he is responsible for preparation of developmental plans in the district. He is assisted by the Deputy Chief Executive Officer (Planning) now designated as District Planning Officer in work of district planning.

With a view to utilise the surplus milk available in the area it is decided to set up a milk powder plant at Udgir.

-((8))-

For Osmanabad district, the State Bank of India is a lead bank is expected to estimate credit demand from the existing pattern of economic activities and also those emerging while growth oriented programmes are being implemented and to evolve schemes for meeting this demand in co-operation with other bank and financial institutions. For estimating the credit needs of this area deep studies of tahsils are being under taken by the state Bank. On the basis of deep studies credit plan suitable to the Economic conditions and unfracture facilities available in the district has been formulated by the Bank.

Osmanabad district has been selected for implementation of intensive electrification scheme under rural electrification programme. Accordingly the scheme of intensive electrification is being implemented in the district.

Under the Integrated Rural Development Programme seven Talukas viz. Osmanabad, Kallam, Udgir, Tuljapur, Ahmedpur Paranda and Umerga has been selected. Osmanabad, Kallam, Udgir Tuljapur and Umerga talukas are covered under central finance whereas Ahmedpur and Paranda talukas are taken up under state finance.

--(8)--

CHAPTER-II

Explanatory notes on scope and limitations on statistics presented in District Statistical Abstract.

--00--

PURPOSE:- This is the 16th issue of the District Statistical Abstract since its 1st publication in the year 1958-59, in this publication every attempt is made to include statistics about important Socio economic indicators of the district. The talukawise data is furnished wherever possible so as to enable the reader to have a clear picture of the achievements in various field in different talukas of the district. The data presented in most of the tables pertains to the year 1977-78 & 1978-79 (being a combined issue for two years). In case of few tables where the data for the year of publication is not available the data for the latest available year is furnished.

The statistical material presented in the publication is collected from various departments of the both state and central government offices, local bodies and other agencies. The source from which the data is collected is given in the foot note of the each table.

DISTRICT AT A GLANCE: In this statement basic statistics which brings forth the ^{salient} feature of the district e.g. Population Agriculture, Co-operation, Medical and Public Health, Education etc. in comparison with Maharashtra State level figures is presented. The reference period for the figures pertaining to this district and Maharashtra State are mentioned against each of the items. The scope and limitations of the information presented in this abstract is also discussed in the following paras.

I. AREA AND POPULATION.

In this section seven tables (tables from 1 to 7) are included. The table No.1 gives figures of areas, rural and Urban population, No. of houses and households, density of population of different talukas of the district as per 1971 census. The table No.2 gives talukawise figures since 1951 census. The talukawise classification of villages and towns according to the population ranges as per 1971 census in Osmanabad district is indicated in table No. 3 and 4. While the table No.5 presents the talukawise figures of number of workers according to livelihood / age group and religion wise classes, the Table Nos. 6(a) and 6(b) gives population of the district as per 1971 census. The table No.7 indicates talukawise scheduled caste and scheduled tribes population for the year 1977 and neobudhists population of the district according to 1971 population census.

II. CLIMATE AND RAINFALL.

The table No.8 gives monthwise information regarding rainy days and actual rainfall recorded at various taluka head-quarter in this district. Normal rainfall recorded at each tahsil place is the average rainfall relating to that place over a long period. The table No.9 gives temperature data for the selected centres viz. Osmanabad proper.

III. AGRICULTURE.:

The table No. 10 to 23 are on Agriculture and gives information about land use, area under different crops, area irrigated under different crops and by different sources, production and yield rate of principal crops, minor irrigation works, medium irrigation project, availability of underground water, Agril. wage rates and information regarding Agril. Census 1970 and 1976 etc. The data regarding famine scarcity and Agril. implements is also given in Table No.22.

Table No.10 gives utilisation of land according to the standard heads of utilisation for the year 1975-76, 1976-77, and 1977-78. The table No.11 indicates the area under different crops while the table No.12 gives the figures of out-turn and average yield rates of principal crops per hectare for the district. The table No.13 presents the distribution of net irrigated area by source of irrigation. The table No.14 indicates the area irrigated under different crops. The table No.15 gives the number of irrigation wells in use and not in use in each taluka. The table no.16 relates to the activities of the groundwater survey and development agencies in this district while the table No.17 deals with minor irrigation works. The table No.18 gives the data of major and medium irrigation projects. The table No.19 gives the information regarding Agril. wage rates for skilled and unskilled labourers collected from three different rural centres. The table No.20 gives the number of operational holdings and also the area operated, number of area of operational holdings by tenure and by size class of operational holdings in this district. The Table No.21 provides the data regarding Agril. implements in each taluka as per 1972 livestock census. The famine and scarcity data is shown in the tables numbering 22 and 23.

IV. ANIMAL HUSBANDRY.

The table No.24 presents talukawise data relating to livestock population as enumerated at the time of quinquennial livestock census 1972, while table No.25 deals with the veterinary facilities available in each taluka of the district such as number of veterinary hospitals, dispensaries and aid centres etc.

The Table No. 26 shows the disease-wise livestock mortality in Osmanabad district. The table No. 27 gives details of the information of the recognised slaughter houses and number of animals slaughtered in them during the period under reference. The Table No. 27 28 gives details of area under forest and estimates of different forest products. Table No. 29 A, B and C gives the information regarding quantities of fish catch for the year under reference.

V. INDUSTRIES, EMPLOYMENT, MINING AND ELECTRICITY.

The factory statistics is presented in the table Nos.

30, 31 and 32 which cover the following types of factories registered under factories Act, 1948.

- i. Those factories using power and employing 10 or more workers.
- ii. Those factories not using power but employing 20 or more workers.

iii. Those factories not covered by (i) and (ii) but notified by Government as covered by the Factories Act, 1974. The Table No. 30 presents industrywise total number of factories, the total No. of mandays for which they were working during the years and the average daily employment classified by adults adolescents and children. The data presented in col. 5 to 17 of this table relates only to the factories submitting returns while the table No. 31 presents industrywise distribution of factories according to working strength. The table No. 32 gives distribution of factories according to the number of days worked. It may be noted that here the number of workers shown in these tables are the average number of workers working daily throughout the year and not the total number of workers on the register of factories.

The Table No.33 deals with the Annual Survey of Industries. The Table No.34 gives the registration of candidates, vacancies notified and number of candidates placed in employment etc. The table No.35 deals with the occupational distribution of total registration and placement. The Table No.36 gives the employment generated and expenditure incurred during the financial year under employment guarantee scheme. Table No.37 deals with the volume of employment in different industries. The tables numbering 38 and 39 presents the data regarding electricity. The generation and consumption of electricity as well as number of towns and villages covered under the electrification programme are indicated in the above two tables.

VI. CO-OPERATION.

In all eight tables are included in this section under which statistics relating to various activities of co-operative movement in the district is shown. The table No.40 presents different types of co-operative societies functioning in Osmanabad district. The table No.41 gives the figures in respect of branches of co-operative banks. The Table No. 42 deals with the talukawise primary agricultural credit societies, the table No.43 gives the data regarding other co-operative societies of different types. The Table No.44 indicates the operation of central primary co-operative marketing societies in each taluka, table No.45 deals with the operation of different co-operative societies. The table No.46, indicates the operation of registered regulated markets. The table No.47 shows the number of registered money lenders in different talukas of this district and loans advanced by them to traders and non-traders.

VII. MEDICAL AND PUBLIC HEALTH:

In this section five tables are included. The table No. 48 deals with the medical facilities available through public aided bodies in each taluka. The tables numbering 49 and 50 present the information about vital statistics. While the table No. 51 deals with the vaccination statistics and Cholera inoculation, the table No. 52 presents the number of family planning centres functioning in each taluka and the number of sterilisation operations done and the number of intrauterine contraceptive device insertions performed.

VIII. EDUCATION.

In this section seven tables are included. The table No. 53 indicates literacy in each taluka of Osmanabad district according to 1971 census. The percentage of literacy has been shown separately sexwise as well as for rural and urban areas. The tables numbering 54 and 55 deal with education in rural & urban areas in the district as per 1961 census. The number of institutions according to types, enrollment and the teachers employed in them is presented in the Table No. 56. The table No. 57 deals with the beneficiaries of backward class students of different categories in Osmanabad district. The table No. 58 indicates the number of students getting benefits of concessions under the scheme of concession of free education to economically backward class students. The Table No. 59 indicates the expenditure incurred on primary education by way of grants.

IX. TRANSPORT AND COMMUNICATION:

In this section the statistics relating to various modes of transport is given. The Table No.6 -A presents the total length of railway route in the district according to different types of rail gauges. The surfacewise and category-wise road length is given in table no.61. This table also includes roads constructed by different agencies such as Municipal councils, Zilla Parishad and the public works and Housing department. The Table No.62 gives statistics regarding the number of motor vehicles in operation in Aurangabad region. The table No.63 gives operational statistics of the nationalised road transport according to S.T. divisions viz. Osmanabad. The table No.64 gives the data of traffic census on important roads in Osmanabad district in 1977. The table No.65 presents postal, telegraphs and telephone statistics for 1961-62, 1965-66, 1970-71 1974-75 to 1978-79, the table No.66 gives the statistics regarding rural broadcasting in Osmanabad district.

X. LOCAL BODIES.

The statistics relating to local bodies such as village panchayat municipalities and Zilla Parishad is presented in this section, while the Table No.67 deals with income and expenditure of local bodies viz. village panchayats, municipalities and Zilla Parishad, Table No.68 deals with the income/ expenditure of municipalities in the district.

XI. PLAN AND COMMUNITY DEVELOPMENT.

In this section as many as five tables are included. The tables numbering 71 and 72 give plan expenditure under different heads of developments and important physical achievements during 1977-78 and 1978-79 respectively.

The table No.73 gives particulars of Community Development programme implemented in the district. In table No.74 expenditure incurred in different development blocks is shown and physical achievements of some selected items have been detailed out in the table No.75.

XII. PRICES.

The table No.76, deals with the monthly wholesale prices of certain agricultural commodities at regulated markets. The Table No.77 deals with the monthly average retail prices of important commodities collected from the district headquarters for the years 1977 and 1978. In the table No.78 price index for the working classes is shown for Aurangabad and Nanded centres. The consumer price index number for the working classes is based on the price level of 1961.

XIII. MISCELLANEOUS.

There are in all 15 tables in this section. The section deals with the statistics pertaining to police department, Judicial court and Revenue department and also on items like cinema, banking offices, joint stock companies, insurance, small savings and revenue printing presses etc. The table No. 79 gives statistical data about strength of police force while Table No. 80 gives crime statistics of this district for the calendar years 1977 and 1978. The table No. 81 deals with the work disposed of in civil and criminal courts. The table No.82 deals with cinema statistics while the tables numbering 83,84 and 85 gives the data regarding banking offices, scheduled banks and joint stock companies respectively.

-((17))-

The Table No.86 gives the number of insurance policies issued and amount insured while the Table No.87 deals with the collection of small savings. The Table No.88 presents the land revenue collection. The data regarding number of printing presses, news-papers and periodicals published is given in table No.89 while the table No.90 deals with the year wise quantity of Rice, wheat and sugar issued to fair price shops in Osmanabad district from 1971 to 1979, the Table No.91 presents the yearwise demand and procurement of levy in Osmanabad district. The table No.92 deals with the General Elections held in 1977 and 1978 for parliamentary and Assembly Elections.

I. AGRICULTURE.

1. Percentage of gross cropped area to net area sown.

This indicator spots light on the extent of double cropping in the district. In the table placed below the net cropped area, double cropped area and the percentage of the latter to the former are given.

TABLE No.1.

The table showing gross cropped area, net cropped area and percentage of gross cropped area to net area sown in ~~197~~ 1960-61, 1970-71, 1976-77 & 1977-78

(In '00' Hectares)

Sr. No.	Items.	During the years			
		1960-61	1970-71	1976-77	1977-78
1.	2.	3	4	5	6
1.	Gross cropped area	10,714	11,082	12,333	11,786
2.	Net cropped area	10,373	10,585	11,196	11,071
3.	Percentage of gross cropped area to net area sown.	103.29	104.70	110.16	106.46

It is seen from figures given for different years that the percentage of double cropped area to the net area sown has shown an slight increase over a period of 17 years. Inadequate irrigational facilities had been the root cause of such a low proportion of double cropping. The extent of double cropping in Ausa and Nilanga talukas is the highest whereas Tuljapur, Paranda talukas accounted for very few area under double cropping during 1976-77. During 1977-78 Latur and Nilanga accounted highest area under double cropping whereas Umerga and Ausa talukas accounted for very few area under double cropping.

-((19))-

2) Percentage distribution of gross area under important crops to total gross cropped area.

TABLE No.2

Table showing percentage distribution of gross area under important crops to total gross cropped area.

(In '00' Hectares)

Sr. No.	Name of important crop	Percentage distribution of gross area of important crops to total gross cropped area			
		1960-61	1970-71	1976-77	1977-78
1.	2.	3.	4.	5.	6.
1.	Rice	2.73	2.96	3.08	3.12
2.	Wheat	5.01	4.56	5.29	5.47
3.	Jowar	40.77	35.72	38.48	41.92
4.	Bajra	1.94	2.70	2.41	2.23
5.	Total Cereals.	51.47	47.53	51.60	55.15
6.	Gram	4.60	4.83	5.19	5.44
7.	Tur	6.18	6.94	7.51	8.06
8.	Other Pulses	8.61	10.94	14.89	13.16
9.	Total Pulses	19.39	22.71	23.20	23.18
10.	Sugarcane.	0.54	0.76	1.79	1.24
11.	Total food crops.	73.59	73.12	77.50	81.68
12.	Groundnut.	11.33	11.31	6.80	4.93
13.	Cotton.	5.52	3.57	1.65	2.12
14.	Total non-food crops.	26.41	26.88	22.50	18.32

From the above table it is observed that Food crops still share the major area of gross cropped area from 1960-61 to 1977-78. In 1960-61 the area under food crops was 73.59 in 1970-71 it was 73.12, in 1976-77 and 1977-78 it increased to 77.50 and ~~31.68~~ 81.68 respectively.

Among the food crops Jowar crop is the main crop which accounts above 40% area of the total gross cropped area during 1960-61, 38% during 1976-77 and 41% during 1977-78.

Among non-food crops groundnuts is the major crop but it is observed that the area under groundnut is decreasing since 1976-77.

3. Yield rates and outturn of principal crops.

The yield rates and production of important crops for the years 1960-61, 1970-71, 1976-77 and 1977-78 are given in the following table.

TABLE NO.3.

Table showing the production of principal crops and their yield rates for the years 1960-61, 1970-71, 1976-77 & 1977-78.

Sr. No.	Name of crop	1960-61		1970-71		1976-77		1977-78	
		Yield per Hect. (are in Kg.)	Out-turn (in '00' tonnes)	Yield per Hect. (are in Kg.)	Out-turn (in '00' tonnes)	Yield per Hect. (are in Kg.)	Out-turn (in '00' tonnes)	Yield per Hect. (are in Kg.)	Out-turn (in '00' tonnes)
1.	2.	3.	4.	5.	6.	7.	8.	9.	10.
1.	Rice	553	162	447	147	676	265	817	318
2.	Wheat	561	301	209	156	699	467	664	454
3.	Jowar	796	3478	227	899	721	3539	770	3891
4.	Bajra	216	208	417	125	235	63	379	100
5.	Gram	327	161	245	131	292	185	316	208
6.	Tur	320	662	312	240	343	330	300	288
7.	Groundnut	781	948	536	673	440	355	465	308
8.	Seasamum	217	10	86	7	263	26	280	230
9.	Sugarcane in terms of Gur.	3190	185	7333	616	6140	1099	6274	916
10.	Tobacco	333	1	400	2	667	2	600	3

From the above table it is observed that the outturn of Tur and groundnut decreased during 1976-77 and 1977-78 as compared to the year 1960-61 whereas the production of sugarcane, rice, wheat, jowar, gram, seasamum and tobacco increased. The decrease in the production of tur and groundnut could be attributed to the scarcity and untimely rains for the last 5 to 6 years.

4) Net irrigated area to net area sown.

The following table gives the percentage of net irrigated area to net area sown during 1960-61, 1970-71, 1976-77 and 1977-78.

TABLE NO.4.

Table showing percentage of net irrigated area to net area during 1960-61, 1970-71, 1976-77 and 1977-78.

Sr. No.	Item	Percentage of net irrigated area to net area sown.			
		1960-61	1970-71	1976-77	1977-78.
1.	2.	3.	4.	5.	6.
1.	Osmanabad District.	4.54	7.84	12.66	12.30@

@ Net area irrigated figure is repeated for the year 1976-77 and 1977-78.

From the above table it is observed that the percentage of net irrigated area to net area sown showed increasing trend since 1970-71 to 1977-78 as compared to the year 1960-61.

5. Percentage of area under different irrigated crops to gross irrigated area.

TABLE No.5

Table showing percentage of different irrigated crops to gross irrigated area.

Sr. No.	Name of crop.	Percentage of irrigated area to gross irrigated area.		
		1960-61	1970-71	1973-74
1.	2.	3.	4.	5.
1.	Rice.	4.71	2.05	10.11
2.	Wheat	20.52	18.49	16.95
3.	Jowar	41.10	41.45	40.79
4.	Gram.	6.21	3.62	5.44
5.	Sugarcane.	10.92	9.61	7.74
6.	Chillies.	6.41	10.63	3.64

From the above table it is observed that major portion of irrigated area is covered under Jowar i.e. more than 40% during 1960-61, 1970-71 and 1973-74.

Next in order was wheat which covered 20.52, 18.49 and 16.95 percent of irrigated area during 1960-61, 1970-71 and 1973-74 respectively. Sugarcane covered 10.92, 9.61 and 7.74 percent of irrigated area during the period under reference. Gram accounted for 6.21, 3.62 and 5.44 percent of irrigated area during the period under reference. Chillies accounted 6.41, 10.63 and 3.64 percent of irrigated area during the period under reference.

6. Sourcewise net irrigated area.

TABLE NO. 6.

Table showing sourcewise net irrigated area during 1960-61, 1970-71 and 1973-74.

Sr. No.	Source of irrigation.	Net area irrigated in hectare during		
		1960-61	1970-71	1973-74
1.	2.	3.	4.	5.
1.	Govt. Canals.	2700 (5.73)	6431 (7.75)	13844 (9.77)
2.	Tanks.	100 (0.21)	2220 (2.68)	8356 (5.90)
3.	Wells.	44300 (94.06)	74323 (89.57)	119502 (84.33)
	Total.	47100	82974	141702

Note: Figures in bracket denotes percentage of total net area irrigated.

From the above table it is observed that the net area irrigated under wells registered 94.00, 89.57 and 84.33 percent irrigated area of the total net area irrigated. Next in order was Govt. canals which accounted 5.73, 7.75 and 9.77 percent area irrigated out of total net area irrigated. Irrigated area under tanks registered 0.21, 2.68 and 5.90 percent area irrigated during the period under reference.

II- Co-operation.

Primary Agril. Credit Societies:-

Primary agril. credit societies are the backbone of Agril. credit.

This can be seen from the factual study of Osmanabad district, Primary Agril. societies, No. of members, loans advanced, loans overdues, loans outstanding as given in the table below.

TABLE NO. 7.

Table showing No. of primary agril. credit societies, number of members working capital, loans advanced, loans outstanding, loans overdues during 1960-61, 1970-71, 1977-78 and 1978-79.

Sr. No.	I t e m s	Unit	Y e a r s			
			1960-61	1970-71	1977-78	1978-79
1.	2.	3.	4.	5.	6.	7.
1.	No. of Agril. credit societies.	No.	913	967	961	960
2.	No. of members	'000' No.	55	148	207	222
3.	Working Capital	Rs. in '000'	11,828	1,17,265	1,44,835	1,48,118
4.	Loans advanced	"	10,131	55,638	22,009	31,061
5.	Loans overdues	"	5,400	36,448	87,035	84,749
6.	Loans outstanding	"	45,591	96,354	1,10,834	1,14,867

From the above table it is observed that the No. of agril. credit societies increased from 913 in 1960-61 to 961 in 1977-78 and 960 in 1978-79. Members also increased from 55,000 in 1960-61 to 2,07,000 and 2,22,000 in 1977-78 and 1978-79 respectively. Working capital, loans advanced, loans overdues and loans outstanding also showed remarkable increase during 1970-71, 1977-78 and 1978-79 compared to the year 1960-61.

III. AGRICULTURAL WAGE RATES.

This indicator spot light on the earnings of Agricultural labour especially in rural areas. The wages of skilled and unskilled workers are collected from three rural centres viz. Kingaon in Ahmedpur taluka, Killari in Ausa taluka and Murud in Latur taluka.

The wages of skilled labour at Kingaon centre for carpenters were Rs. 6.00 during the year 1977 & 1978. The wage of blacksmith and cobbler at Kingaon centre were Rs. 4.50 during 1977. During 1978 the wage-rates of blacksmith slightly increased to Rs. 4.70 that of cobbler increased to Rs. 4.56. The wages of unskilled field labour for males were Rs. 3.00 during 1977 and Rs. 3.12 in 1978 at Kingaon centre. The wage rates for unskilled females were Rs 2.00 during 1977 and Rs. 2.05 in 1978 at Kingaon centre. The wage rates of herdsmen were Rs. ~~2.00~~ 2.00 during 1977 and 1978 at Kingaon centre. At killari centre the wage rates of carpenters were Rs. 5.98 during 1977 and the same were increased to Rs. 6.58 during 1978. The wage rates of blacksmith at Killari centre were Rs. 5.17 during the year 1977, and the same were increased to Rs. 5.58 during the year 1978.

The wage rates of cobbler at Killari centre remained unchanged at Rs. 4.00 during the years 1977 and 1978. The average wages of unskilled field labour for males were Rs. 3.75 during 1977 & Rs. 4.00 during 1978. The average wage of female field labour were Rs. 2.27 during 1977 and Rs. 2.00 during 1978.

At Murud centre the wages of carpenters were Rs. 6.00 during the year 1977 and the same were slightly increased to Rs. 6.13 during the year 1978. The wage rates of blacksmiths were Rs. 6.00 during the year 1977 and the same were slightly increased to Rs. 6.27 during 1978.

-((24))-

The wage rates of cobbler remained unchanged at Rs. 5.00 during the year 1977 and 1978 at Murud centre. The wage rates of unskilled field labour males were Rs. 3.50 during 1977 and Rs. 3.69 during 1978 and that for females were Rs. 2.00 during 1977 and 1978. The wage rates of herdsmen were Rs. 2.00 during the year 1977 and 1978.

IV. LIVESTOCK.

Bovine and ovine population per 100 hectare of cultivable land.

Livestock plays a very important role in Indian Agriculture in absence of mechanical methods of cultivation, Osmanabad District has already established its name in the field of livestock. Of three breeds of cattle viz. Deoni, Redkhandari & Khillari in Osmanabad district, Deoni breed hails from Udgir & Ahmedpur talukas of this district, Khillari breed is mainly found in Paranda, Umerga and Tuljapur talukas of the district and Red Khandari in border areas of the district adjoining Nanded Dist. Among buffaloes Pandharur and local breeds are found in the District. The table below gives livestock (bovine and ovine) cultivable land in hectares and livestock per hectare of cultivable area in Osmanabad district as per 1972 livestock census.

TABLE NO.8.

Sr. No.	Tahsil.	Livestock bovine and ovine as per 1972 livestock Census.	Cultivable land in hectares during 1971-72.	Livestock per hectare of cultivable area.
1.	2.	3.	4.	5.
1.	Osmanabad	1,04,615	1,14,148	0.92
2.	Kallam	99,072	1,14,389	0.87
3.	Latur	85,757	95,710	0.90
4.	Ahmedpur	1,52,727	1,45,126	1.05
5.	Udgir	1,46,096	1,41,691	1.03
6.	Nilanga	1,34,339	1,29,596	1.04
7.	Ausa	95,116	1,14,839	0.83
8.	Umerga	1,22,428	1,41,757	0.86
9.	Tuljapur	1,13,449	1,45,341	0.78
10.	Paranda	75,337	1,01,914	0.74
11.	Bhoom.	72,861	78,773	0.92
	Dist. Average			0.91

(25))-

It is seen from the above table that livestock per hectare of cultivable area is more in Ahmedpur, Udgir, Nilanra talukas. The ratio is less in P. rand and Tuljapur talukas being 0.74 & 0.78 respectively.

V. ELECTRICITY.

Consumption of Electricity.

Per capita consumption of electricity is an good reflector of economic activity as well as standard of living. The consumption of electricity in the district is increasing at faster rate since 1965-66.

The table below gives the villages electrified pumps energised and per capita consumption of electricity during 1960-61, 1977-78 and 1978-79.

TABLE NO.9.

Villages electrified			Pumps energised			Per capita consumption		
1960-	1977-	1978-	As per	As per	As per	1960-	1977-	1978-
61	78	89	1961	1972	1978	61	78.	79.
			live-	live-	live-			
			stock	stock	stock			
			census	Census	Census			
1	2	3	4	5	6	7	8	9
1	859	977	57	7,785	15,717	0.65	31.40	36.52

The per capita of consumption which was at 0.65 KWH.in 1960-61 increased to 31.40 KWH.in 1977-78 and 36.52 KWH. in 1978-79. The increase in consumption of power mainly attributed to rural electrification programme for energising irrigation pumps and increase in industrial power consumption.

VI. EMPLOYMENT.

Increase in the candidates enrolled and vacancies notified during the years 1960-61, 1970-71, 1977-78 and 1978-79.

The table placed below gives number of candidates enrolled and vacancies notified during 1960-61, 1970-71, 1977-78 & 1978-79.

TABLE No. 10.

Sr. Item No.	Years					
	1960-61	1970-71	1976-77	1977-78	1978-79	
1.	2.	3.	4.	5.	6.	7.
1. Candidates enrolled	227	7,479	8,786	9,835	12,935	
2. Vacancies notified.	48	825	712	504	764	
3. Placement in vacancies	47	597	467	507	290	
4. Percentage of placement to Registration.	21%	8%	5%	5%	2%	
5. Candidates on liveregister as at the end of the year.	1,921	6,858	19,668	2,34,963	2,74,936	

Enrolment of candidates at the employment exchange showed an increasing trend. In the year 1960-61 the enrolment was 227 whereas in the year 1978-79 it increased to 12,935. The comparative figures of last 3 years reflect the magnitude of the unemployment problem. This does not include the unemployed persons seeking manual work and those who have not registered their names with employment exchange. The percentage of placement to total registration has decreased from 21% to 2% in 1978-79. The number of candidates on the liveregister as at the end of 1978-79 was increased more than 100 times as compared to that for the year 1960-61. The percentage of placement to total registration showed decrease since 1976-77 to 1978-79. due to the establishment of state selection board in November, 1976 i.e. in 1976-77.

VII. MEDICAL FACILITIES.

Increase in the Indoor and Outdoor patients in Hospitals, Dispensaries and Primary Health Centres.

There are three Hospitals in the district of which one is located at Osmanabad and two at Latur, one hospital at Latur is equipped with pathological laboratory and radiology unit. Further there are 53 dispensaries of all kinds located at other urban and rural centres and as many as 15 public health centres in rural areas of the district.

TABLE NO 11.

The table showing the No. of hospitals, dispensaries, primary health centres and indoor and out-door patients treated and beds per lakh of population, during 1961, 1971, 1977 & 1978.

Sr. No.	Year	No. of Hospitals.	No. of dispensaries.	No. of primary health centres	No. of indoor patients treated.	No. of outdoor patients treated.	No. of beds per lakh of population
1.	2.	3.	4.	5.	6.	7.	8.
1.	1961	2	14	8	8,617	5,40,396	21
2.	1971	3	32	15	87,248	12,09,138	20
3.	1977	3	53	15	1,09,000	8,57,000	43
4.	1978	3	53	15	1,28,000	9,14,000	43

From the above table it is observed that the number of indoor and outdoor patients treated are increasing at faster rate after 1961 i.e. in 1971 and 1978. No. of beds per lakh of population during the year 1961 was 21 the same was increased to 43 during 1977 and 1978.

VIII. EDUCATION.

1. Increase in the number of students in different categories (Boys and girls separately).

With provision of free education upto primary level and grant of concessions, scholarships etc. to eligible students in the secondary and higher education, the number of students both boys and girls recorded remarkable increase in recent years. The number of teachers and institutions also recorded simultaneous increase obviously due to increase in number of students. This can be seen from the following table.

TABLE NO.12.

Table showing the increase in the number of students in different categories.

Sr. Educational No. Institutions.	Position in the district.				
	1960-61	1970-71	1977-78	1978-79	
1.	2.	3.	4.	5.	6.
<u>I) Primary schools.</u>					
i) Institutions.	1,224	1,640	1,714	1,734	
ii) Boys	77,380	1,32,328	1,58,615	1,67,299	
iii) Girls	25,531	62,692	1,02,680	1,11,280	
iv) Teachers.	2,834	5,797	7,225	7,251	
<u>II) Secondary.</u>					
i) Institutions.	64	228	246	248	
ii) Boys.	16,445	62,070	67,356	70,662	
iii) Girls.	3,396	17,630	27,985	29,903	
iv) Teachers	886	3,057	4,022	4,093	
<u>III) Higher Institutions.</u>					
i) Institutions.	4	12	22	21	
ii) Boys.	346	6,645	12,934	11,648	
iii) Girls.	24		1,824	1,572	
iv) Teachers.	42	202	585	625	

In the primary section the number of institutions, boys and girls recorded remarkable increase. In the field of secondary and higher education also the increase is indeed remarkable. The glaring fact noticed is that there had been tremendous increase in the number of girls as compared to boys in the primary and secondary section.

2) Important ratios in Education.

The following table gives important ratios in education.

TABLE NO.13.

Sr. No.	I t e m.	1960-61	1970-71	1977-78	1978-79
1.	a) Institutions secondary to primary.	1:19	1:7	1:7	1:7
	b) Higher to secondary.	1:14	1:19	1:11	1:12
2.	Teachers/Pupils				
	Primary.	1:36	1:34	1:36	1:38
	Secondary	1:22	1:26	1:24	1:24
	Higher	1:9	1:32	1:25	1:21

From the above table it is observed that the ratios of secondary to primary institutions decreased in 1977-78 and 1978-79 as compared to the year 1960-61 due to increase in secondary schools. The ratio of higher to secondary also decreased in 1977-78 and 1978-79 as compared to 1960-61 due to increase in higher institutions. The ratios of teachers to pupils showed increase for primary secondary and higher institutions, during 1977-78 and 1978-79 due to increase in number of pupils.

IX. BANKING.

Increase in banking facilities in proportion to population.

Banking facilities play a significant role in developing economy. Since the nationalization of banks the various banks have brought the field of agricultural and Industrial development in their operation ~~xxxx~~ fold and are advancing loans to the agriculturist and units of small scale industries. The co-operative banks have succeeded to meet out the need of rural credit to a great extent by the establishment of number of branches in rural areas. However the number of branches opened so far were found to be inadequate as compared to the credit needs.

ing TABLE NO.14.

Table shows the No. of banking offices and No. of persons served per Bank.

No. of Banking offices.		No. of persons served per bank.			
1960-61	1970-71	1976-77	1960-61	1970-71	1976-77
17	84	124	86,920	22,583	15,306

The number of banks per lakh of population worked out to 1.15 in 1960-61, 4.39 in 1970-71 and 6.50 in 1976-77. The increase in the No. of Banks per lakhs of population as compared to 1960-61 is due to opening of additional branches of different type of banks in the district by 1977. There were as many as 124 branches of different banks in the district as at the end of 1976-77 with the result that the population served by each bank came down from 86,920 in 1960-61 to 15,306 in 1976-77.

X. ROADS. Road length according to category and surface.

Roads ~~may~~ play an important role in the developing economy.

The Latur-Miraj narrow and Vikarabad Parli-Vaijinath broad guage rail ay routes go through Osmanabad district with the total length of these routes being 54 Kms and 64 Kms. respectively.

At the end of the year 1978-79 total length of all types of roads excluding the municipal roads was 5026.82 Kms. Thus the total road length per 100 Sq. kms. of area increased from 5 Kms. in 1960-61 to 36 Kms. in 1978-79. The road length per 100 Sq. Kms. during 1970-71 was 12 Kms.

The table below gives the category and surface-wise road length per 100 Sq. Kms. during 1960-61, 1970-71, 1977-78 & 1978-79.

TABLE No.15.

Sr. No.	Type of road category	Year				Road length per 100 Sq. Kms.			
		As on 31.3.61	As on 31.3.1970	As on 31.3.1978	As on 31.3.1979	1960-70	70-77	77-78	78-79

	Total	703.21	1723.49	4967.04	5026.82	5	12	35	36

XI. PRICES.

Prices of different commodities assume pivotal importance in developing economy. Prices of all commodities shot up spirally during the year 1977 and 1978 as compared to the year 1961 as can be from the below..

TABLE NO.13.

Table showing the average prices of important commodities during 1961, 1971, 1977 and 1978.

Sr. No.	Commodity.	Y e a r s				Percentage increase/decrease in 1978 over 1961
		1961	1971	1977	1978	
1	2	3	4	5	6	7
1.	Wheat (Medium)	0.56	1.17	1.66	1.74	210.71
2.	Gram (whole)	0.44	1.05	1.67	2.42	450.00
3.	Gram (dal)	0.61	1.24	2.17	2.86	368.35
4.	Arhar (dal)	0.90	1.91	4.05	4.95	450.00
5.	Moong (dal)	0.80	1.93	3.26	4.11	413.75

12.	Supari	7.00	9.56	11.99	9.72	38.86

CHAPTER-IV
PLANNING.

The concept of planning is a heritage from the pre-independence period. Upto the end of the Fourth Five Year Plan attempts were made to formulate the state plan on the basis of the resources and the requirements of the administrative regions so as to remove regional imbalances.

The emphasis on regional planning had however certain disadvantages and it was noticed that the disparities within the region in some cases tended to get accentuated. Plan expenditure was included to be regarded as an end itself rather than means to increasing output for the state as a whole.

In these circumstances and in furtherance of philosophy of multi-level planning the state adopted district as a unit of planning. The first conscious of detailed attempts to give district planning a reality was made at the time of the formulation of the Fifth Five Year Plan. The District Planning bodies were requested to prepare an integrated plan for the district taking into account local conditions and resources available and in conformity with the broad policy laid down in the national and states approach to the Fifth plan. In the light of the above draft Fifth Five year plan of each district was prepared by District Planning bodies. However in consequence of the National Fifth Five Year Plan not having been finalised, the State's Fifth Five Year Plan as well as District Plans remained exercise only.

During the year 1974-75 and 1975-76 i.e. 1st and 2nd year of the Fifth Five Year Plans/Annual plans of the district were formulated and implemented in the district as per the guidelines laid down in District Planning. Total expenditure incurred during 1974-75 and 1975-76 was Rs.1225.30 Lakhs. Since the third year of the Fifth Five Year Plan i.e. 1976-77 outlays for the District level schemes in the State Annual plans were determined with reference to the outlays provided by District Planning and Development Council for each scheme. This draft Annual Plan was discussed at state level meetings between State Government and Executive committee of district planning and development council of which representatives of Administrative Department were present. The Annual Plan 1977-78 and 1978-79 of the district thus incorporates the views of both the District Planning authorities and technical and administrative Departments. In the light of the above procedure the draft Annual Plans of the district for the years 1977-78 and 1978-79 were discussed and finalised. The total outlays thus approved for the district for the years 1977-78 and 1978-79 was Rs. 1210.05 and 789.05 lakhs, respectively. As against this the actual expenditure incurred during 1977-78 was Rs 1183.41 and Rs. 959.30 lakhs during 1978-79.

Taking into consideration the importance of the schemes included under different head/sub-head^s of development Govt. has decided to classify from 1976-77 onwards, the sub-heads into ~~two~~ two sectors viz. core and non-core sectors.

Core sector includes 1. Minor irrigation 2. Medium irrigation
3. Soil Conservation 4. Area development 5. Drought P-rone
Area's programme 6. Agriculture 7. Large and Medium Industries
and
8. Small Scale Industries 9. Power Development/10. Employment
Guarantee Scheme.

Non core sector includes 1. Education 2. Co-operation
3. Community Development 4. Ware housing 5. Fisheries 6. Forest
7. Water supply and drainage 8. Animal Husbandry 9. Dairy Deve-
and
lopment 10. Transport and communication 11. Health/12. Urban
Development.

In the District Planning Zilla Parishad has to play an impor-
tant role in the implementation of District level schemes
included in the Annual Plan of the District whose primary
responsibility is promotion of planned development of the
District by utilising local resources to the maximum extent.
Accordingly during the years 1977-78 and 1978-79 Zilla
Parishad has spent Rs. 114.30 lakhs and 125.60 lakhs respect-
ively for the implementation of the District level schemes
in the local sector. The sub-head wise distribution of total
expenditure into state sector and local sector is shown in the
table given below.

(Table No.1 showing actual expenditure

TABLE showing actual expenditure and percentages to total expenditure.
(Rs. in thousand.)

Sr. No.	Head of Development.	1976-77			1977-78			1978-79		
		State	Local	Total %	State	Local	Total %	State	Local	Total %

-(36)-

Agriculture and allied services received the highest priority. This could be seen from the fact that out of total expenditure of Rs. 1183.41 lakhs for the Annual Plan 1977-78 as a whole the amount spent for the above head was of the order of Rs. 320.43 lakhs, which works out to 27.08% of the total expenditure. Next in order was Water and Power Development which has registered an expenditure of Rs. Rs. 269.67 lakhs. Miscellaneous programmes accounted for an expenditure of Rs. 252.34 Lakhs as against the budget provision of Rs. ^{33.12} 275.00 Lakhs. "Social and Community Development" accounted for an expenditure of Rs. 223.53 lakhs as against the budget provision of Rs. ^{232.12} 275.00 Lakhs.

Transport and Communication accounted for an expenditure of Rs. 96.57 lakhs. Industries and Mining accounted for an expenditure of Rs. 20.77 lakhs as against the budget provision of Rs. 28.86 lakhs. Co-operation and Community Development registered an expenditure of Rs. 0.05 Lakhs. The respective percentages of expenditure to the total expenditure incurred during the year 1977-78 on "Agricultural and allied Services", "Co-operation and Community Development", "Transport and Communication", "Industries and mining", "Misc. programmes", "Social Community, and Irrigation and Power" were Rs. 27.07, 0.04, 8.16, 1.75, 21.92, 18.88 and 22.78 respectively.

During the year 1978, under Miscellaneous programmes expenditure on Employment Guarantee Scheme was of the order of the total expenditure on this sub-head.

Out of total expenditure of Rs. 959.30 lakhs for the Annual Plan 1978-79 as a whole, the amount spent on Employment Guarantee Scheme was of the order of Rs. 28.78 Lakhs. Next in order was Agricultural allied services which has registered an expenditure of Rs. 222.83 lakhs as against the provision of Rs. 189.87 Lakhs. Co-operation accounted for an expenditure of Rs. 0.54 lakhs as against the budget provision of Rs. 0.54 lakhs. Irrigation and Power registered an expenditure of Rs. 134.16 lakhs as against the budget provision of Rs. 154.77 lakhs. Industries and Mining accounted for an expenditure of Rs. 11.94 lakhs as against the budget provision of Rs. 15.94 lakhs. Transport and Communication registered an expenditure of Rs. 86.76 lakhs as against the budget provision of Rs. 88.64 lakhs. Social and Community Services accounted for an expenditure of Rs. 224.29 lakhs as against the budget provision of Rs. 224.29 lakhs. The respective percentages of expenditure to the total plan expenditure incurred during the year 1978-79 on Agricultural Programmes, Co-operation, Transport and Communication, Industries and Mining, Misc. programmes, Social and Community Services and irrigation and power were Rs. 23.23, 0.06, 9.04, 1.24, 29.37, and 23.07/and 13.99 respectively.

Agriculture and allied Services.

The expenditure incurred and the physical targets achieved under different sub-heads of the major head Agriculture and allied services during the Annual Plan 1977-78 and 1978-79 are given below.
below.
below.

CROP HUSBANDRY.

During the year 1977-78 an amount of Rs. 2.07 lakhs has provided in the budget against which Rs. 1.63 lakhs was spent. The percentage of expenditure on crop husbandry to the total expenditure under the major head agriculture and allied services was 0.51 and that to the total plan expenditure was 0.14. The physical achievements under this sub-head are as under :-

Under the plant protection campaign an area of 5206 hectares was covered under midgefly control and 5.00 tonnes of chemicals distributed under carbofuran treatment.

During the year 1978-79 an amount of Rs. 2.65 lakhs was provided in the budget against which Rs. 2.63 lakhs was spent. The percentage of expenditure of crop husbandry to the total expenditure under major head agriculture and allied services was 0.18 and to the total plan expenditure was 0.27. The physical achievements under this sub-head are as under:- Under the plant protection campaign an area of 2347 hectares was covered under control of midgefly and 1,083 tonnes of chemicals were distributed under eradication of white grub. Under rat control an area of 10,713 hectares of land was covered.

Warehousing and Marketing.

During the year 1977-78 and 1978-79 ^{an} amount of ^{were} Rs. 0.10 lakhs and 0.30 lakhs respectively spent for the development of warehousing and marketing. Financial assistance was given to 1 agricultural produce market committee in both the years.

Drought prone area programme.

This programme is taken up in 51 villages of six talukhs viz. Paranda, Bhoom, Kallam, Ahmedpur, Tuljapur and Osm-nabad. Under this programme an amount of Rs. 19.37 lakhs and Rs. 17.24 lakhs were spent during the years 1977-78 and 1978-79 respectively as against the budget provision of Rs. 19.35 and Rs. 20.45 lakhs respectively.

Minor Irrigation.

A budget of Rs. 147.58 lakhs and Rs. 123.55 lakhs were earmarked for minor irrigation works (both in the state and local sectors) during the years 1977-78 and 1978-79 respectively. The expenditure incurred during the year 1977-78 and 1978-79 was Rs. 143.56 lakhs and Rs. 123.98 lakhs, respectively. The physical achievements under this sub-head are as under.

No. of irrigation wells constructed during the year 1977-78 and 1978-79 were 104 and 88 respectively. Subsidy for the installation of pumping sets were given for 72 and 106 pumping sets respectively for the years 1977-78 and 1978-79. An irrigation potential of 436 hectares and 858 hectares was created for the years 1977-78 and 1978-79 respectively.

Soil and Water conservation.

The soil conservation programme which was initially undertaken in the Third Five Plan period and continued further was also included in the Annual Plans 1977-78 and 1978-79. The budget allocations were of the order of Rs. 25.01 lakhs out of which an expenditure of Rs. 25.35 lakhs was incurred during the year 1977-78. During 1978-79 an amount of Rs. 10.25 lakhs was earmarked for this sub-head out of which Rs. 35.10 lakhs were spent. The expenditure exceeded the budget provision as much as 15224 hectares and 17059 hectares of land covered under new bunding during the years 1977-78 and 1978-79, respectively.

Area (Ayacut) development.

Budget allocations to the tune of Rs. 6.79 lakhs were earmarked and spent during 1977-78 under this sub-head. During 1978-79 as against the provision of 4.00 lakhs, the amount spent on Ayacut Development Programme was Rs. 10.80 lakhs. The expenditure exceeded the budget provision. Under the item land development work an area of 2431 hectares and 2275 hectares land was covered under land development work during the years 1977-78 and 1978-79, respectively.

Animal Husbandry.

Under this sub-head an amount of as Rs. 5.12 lakhs were earmarked during the year 1977-78 out of which Rs. 5.00 lakhs were spent. During the year 1978-79 an amount of Rs. 4.35 lakhs were spent as against the earmarked amount of Rs. 4.22 lakhs.

Dairy Development.

An amount of Rs. 107.25 lakhs were earmarked for this sub-head ~~against~~ against which an amount of as Rs. 113.23 lakhs were spent. The expenditure exceeded the budget provision. During the year 1978-79 an amount of Rs. 11.10 lakhs were earmarked and against this ~~amount~~ as Rs. 11.96 lakhs were spent. During the year 1977-78 subsidy was given to 41 dairy societies.

C O N T E N T S
DISTRICT STATISTICAL ABSTRACT FOR THE YEAR
1977-78 & 1978-79.

Srl.No. of Table.	S U B J E C T	Page No.
1.	2.	3.
	<u>I- Area and Population.</u>	
1.	Talukawise area, houses and population in 1971 Census	1 to 4
2.	Decadal variation in Population since 1951.	5 to 8
3.	Talukawise classification of villages according to population ranges in 1971 Census.	9
4.	Talukawise classification of towns according to 1971 Census.	10
5.	No. of workers and non workers in each taluka according to 1971 census.	11 to 12
6.	Distribution of population according to (A) Age group (B) Religion.	13
7.	Scheduled caste and scheduled tribes according to 1971 census.	14 to 15
	<u>II. Climate.</u>	
8.	No. of rainy days and total rainfall at selected centres.	16 to 19
9.	Maximum and minimum temperature temperature at selected centres.	20
	<u>III. AGRICULTURE.</u>	
10.	Land Utilisation	21 to 24
11.	Area under different crops in each taluka.	25 to 32
12.	Yield per hectare and out-turn of principal crops.	33 to 34
13.	Area irrigated by different sources in each taluka.	35 to 36
14.	Area irrigated under different crops in each taluka.	37 to 42
15.	No. of irrigation wells in each taluka	43
16.	Activity of the groundwater survey.	44
17.	Minor irrigation works.	45 to 46

Contd.....

1.	2.	3.
18.	Major and Medium irrigation projects.	47 to 52
19.	Agricultural Wage rates.	53 to 55
20.	No. of operation holdings and area operated.	56 to 57
21.	Agricultural implements in each taluka.	58
22.	Famine, scarcity and akins to scarcity data.	59 to 60
23.	Determination of precarious and other scarcity areas according to the history of the scarcity.	61 to 63
24	<u>IV. ANIMAL HUSBANDRY FOREST AND FISHERIES.</u>	
24.	Livestock in each taluka.	64 to 66
25.	Veterinary statistics in each taluka.	67 to 68
26.	Disease-wise livestock mortality.	69
27.	No. of recognised slaughter houses and animals slaughtered in each slaughter house.	70 to 71
28A	{ Forest area in the district.	72
28B	{ Major and minor forest products.	73
