CHAPTER - I

INTRODUCTION

1.1 (1) Introduction and Location

In ancient times the town Parbhani was known as Prabhavati on account of the existence of beautiful and massive temple of Goddess Prabhavati. Out of the twelve Jotirlingas in the country and three in Marathwada region, the district is sanctified by the existence of one Jotirling namely Lord Nagnath at Aundha village in Hingoli taluka.

1.1 (2) Parbhani district with a east-west of 128.72 km. and north-south extension of 104.58 km. stretches between $18^{\circ}57'$ and $20^{\circ}20'$ north latitude and between $76^{\circ}70'$ and $77^{\circ}29'$ longitude. The district as a whole belongs to the Godavari peninsular basin situated on the northern side of Marathwada region. The Godavari has converted southern portion of the district comprising Pathri, Parbhani and Gangakhed talukas into a very fertile valley. The Purna which is a tributary of Godavari and the Dudhaha which is a tributary of the Purna drain the talukas of Jintur and Basmath.

1.2 Boundaries

In shape, Parbhani is compact district. It has natural boundaries of the Penganga river with a stretch of 160.93 km. in the north-east and of the Godavari river with a stretch of 64.37 km. in the south-west. Administratively it is bounded on the north by Buldhana, Akola and Yeotmal districts of Vidarbha region and on the east by Nanded district. On the south it is surrounded by Osmanabad and Beed districts and on the west by Aurangabad district.

Contd-

1.3 Area

1.3(1) : Parbhani district stretches over an area of 12,489.0 square kilometres of which 12,267.7 sq.kilometers is rural and the remaining 221.3 square kilometers is urban. In term of area and population respectively it is the eleventh and eighteenth largest district in Maharashtra State. According to 1971 Census the district accounts for 4.1% and 3.00% of the State's area and population respectively.

1.3(2): Territorial Changes

During 1905 the northern villages of Nanded taluka of Nanded district were added to Kalamnuri taluka of this district. Besides, eight villages from Ambad taluka of Aurangabad district were transferred to Pathri taluka of this district in exchange of six villages of Pathri taluka transferred to Ambad taluka of Aurangabad district. Thereafter there were no territorial changes till the end of 1955. Consequent upon the re-organisation of the States on 1-11-1956, the district was transferred to the then Bombay State. Since 1st May, 1960 it forms part of Maharashtra State and Aurangabad revenue division.

1.4 Topography

Being a part of the Deccan plateau, the land in the district has a general elevation of about 457.60 metres above the sea level, its highest and lowest level being 579.73 metres in Jintur range about 12.87km. north of Charthana village and lowest level being around 366.0 metres above sea level on the Godavari bank near the point where the river crosses over the district boundary. Topographically the taluka of Pathri, Ganga-khed, Parbhani and Partur (excepting northern part) are plain while the talukas of Jintur, Hingoli, Kalamnuri and northern parts of Basmath and Partur talukas are all hilly and mountainous in nature.

Contd

1.5 Hills

1.5(1) The main hill ranges of the district are Ajantha hills which emanate from the main Sahyadris. These run through Partur, Jintur, Hingoli and Kalamnuri talukas. The crest line consists of flat tops with an average elevation of 534 metres above sea level.

1.5(2) Malhura Hills

There are west-east hill ranges separating the Penganga valley from that of Kayadhu to its south. The tops record height ranging between 542 metres in the west and 488 metres in the east.

1.5(3) Balaghat Hills

A section of Balaghat range transverse member of Sahyadris stretches over the southern portion of the district comprising Gangakhed taluka. Its general elevation is 534 metres with few peaks, recording heights above 549 metres.

1.5(4) Isolated Hills

These stand mainly in the undulating black soil plain of the Godavari and the Purna rivers having an average height of 468 metres.

1.5(5) River System

(1) The Godavari is the most important river of the district. With its entrenched and meandering course it is the master stream that flows through Marathwada to enrich its economic resources but at the same time impeding its communication. It winds its course into the district from west and after running a distance of about 180 km. through Gangakhed taluka enters the adjoining district of Nanded.

The Purna rises from the Ajantha hills and enters the district from the north-west corner, makes its course in the south easternly direction for major length through Jintur, Hingoli, Basmath and Parbhani talukas and then falls into the Godavari.

(4)

The river Dudhana takes its rise in the amphitheatre of Khuldabad Mahismal range and runs into the district in the south easternly direction like the Purna for nearly 161kms to join it. The Panga-ga river also rises in the Ajantha hills a little to the south west of Buldhana town and winds its course in the likewise manner. Its distinctive feature over other rivers is that all along its course of about 80 kms. it acts as a district boundary. The river Kayadhu popularly known as Kayad enters the Hingoli taluka after rising from the hills scrap of Risod town in Akola district and covers a distance of about 113 kms. in Hingoli and Kalannuri talukas.

(2) Besides, there are several minor streams in the district, more important amongst which are the Karpara, the Kansur, the Wan, the Borna, the Machili, the Galati, the Indrayani and the Dhond all being the tributaries of Godavari.

1.5 (6) Soil

The soil of the district is known as "Black Cotton" soil of "Regur" as it is popularly called. The district is essentially a region of black soil gully erosion, uneven surface, furrowed by large and small streams and mending water course. The uneven black soil plain is, however, interrupted by occasional basaltic knolls. The soil is rich in plant nutrients such as Lime, Magnesia, Iron, Alkalines, it swells and becomes sticky on wetting by rains and develops several cracks while becoming dry. It varies widely in texture and depth from place to place. In the hilly tracks in the north it is shallow and poor, while towards the south it is relatively richer and deeper.

In the Godavari and the Purna valleys and especially along the courses of these rivers it is very deep and fertile making the central belt an economically well developed part of the district.

Contd-

1.5(7) Minerals

The district is devoid of any mineral wealth worth the name. Inferior quality of stone used for construction of buildings and other minor minerals are, however, extracted in this district. Black asphalt and granites are available every where and are used for building construction and road metalling.

1.6 Climate, Temperature and Rainfall

1.6(1) Climate: The climate in general is dry throughout the district except during south-west monsoon season. The year is divided into three seasons, rainy season starts from June and lasts upto the end of September. It is followed by cool-dry season from October to January and hot dry season from February to May.

1.6(2) Temperature

The meteorological observatory is located at the district headquarters only and the meteorological data regarding temperature etc. recorded at this station may be taken as representative on the climate conditions over the district as a whole. During the hot dry season the maximum temperature recorded was 42.4 centigrades in May 1980.

The minimum temperature during the cool-dry season was 14.2 centigrades in the month of December, 1980. The table below indicates the maximum and minimum temperature recorded during 1980 at Parbhani centre.

Monthwise Temperature during different seasons in 1980

| Sr. No. | Season | Month | Temperature (in centigrade) | |
|---------|------------------|-----------|-----------------------------|---------|
| | | | Maximum | Minimum |
| 1 | 2 | 3 | 4 | 5 |
| 1. | Warm west season | June | 34.2 | 23.9 |
| | | July | 31.4 | 23.1 |
| | | August | 29.5 | 22.2 |
| | | September | 32.3 | 22.6 |

Contd-

| 1 | 2 | 3 | 4 | 5 |
|----|-----------------|----------|------|------|
| 2. | Cool-dry season | October | 34.9 | 20.7 |
| | | November | 31.9 | 18.2 |
| | | December | 29.5 | 14.2 |
| | | January | 31.4 | 16.1 |
| 3. | Hot Dry season | February | 34.8 | 18.9 |
| | | March | 37.7 | 21.3 |
| | | April | 41.5 | 25.7 |
| | | May | 42.4 | 27.9 |

1.6 (3) Rainfall

The district gets the bulk of the rainfall from south-west monsoons. Generally, the monsoon starts in the month of June and lasts upto mid October.

But the district also receives rainfall from mid of October to December through north-east monsoons. All the parts of the district do not receive uniform rains. The normal rainfall of the district is 827 mm. The table below gives talukawise number of rainy days and rainfall during 1980.

Table No. 2

Number of rainy days and rainfall during 1980 in Parbhani District.

| Sr No | Name of the Taluka | Number of rainy days | Rainfall (in MM) |
|------------------|--------------------|----------------------|------------------|
| 1 | 2 | 3 | 4 |
| 1. | Parbhani | 60 | 961 |
| 2. | Jintur | 57 | 987 |
| 3. | Hingoli | 64 | 1,072 |
| 4. | Kalamhuri | 64 | 948 |
| 5. | Basmath | 47 | 818 |
| 6. | Gangakhed | 59 | 561 |
| 7. | Pathri | 56 | 1,114 |
| 8. | Partur | 46 | 996 |
| District Average | | 56 | 932 |

(7)

It is seen from the above table that the rainfall in only two talukas of Basmath and Gangakhed was below the district normal whereas it was above district normal in the talukas of Jintur, Kakkannuri, Parbhani, Hingoli, Pathri and Partur during 1980. The district when compared to the year 1979 had 56 rainy days in 1980, while in 1979 total number of rainy days were 54. The district average rainfall (932 mm.) in 1980 was considerably more than the average rainfall of the district recorded in 1979 which was 784 mm. The highest rainfall (1,114 MM.) in the year 1980 was found in Pathri tahsil while the lowest (561 MM) was observed in Gangakhed tahsil. During the year 1979, Parbhani taluka had received maximum rainfall (957 mm) while the lowest (661 mm) was found in Gangakhed taluka.

1.7 Important Economic Development

The Jalkwadi Irrigation Project, which is a major project is decidedly going to bring revolution in the overall development of Marathwada. The Parbhani district is getting significant share of benefits out of this project. The work of excavation of canal is in full swing. In order to accelerate the completion of the project, work under Employment Guarantee Scheme are also being undertaken. The project on completion will bring 1,62,235 hectares of land in Parbhani district under the command in the following talukas:-

| | | | |
|--------------|---|----------|----------|
| 1) Parbhani | = | 44,800 | Hectares |
| 2) Gangakhed | = | 72,535 | -do- |
| 3) Pathri | = | 38,900 | -do- |
| 4) Partur | = | 5,000 | -do- |
| <hr/> | | | |
| Total | | 1,62,235 | Hectares |
| <hr/> | | | |

Besides, the works on Masoli and Bournia Medium Irrigation Projects which are located in Gangakhed taluka and in Beed district respectively are in progress and would bring about 1,220 hectares of land under irrigation in Parbhani district.

Contd-

1.7(1) Industries DevelopmentLarge Industries

In Parbhani district now 3 large scale units of Sugar Factories have been established. Each factory has a production capacity of 1250 metric tonnes per day with an average employment of 180 to 185 and a total investment of Rs.1,442.49 lakhs. The other large scale unit is that of M/s Prabhavati Sahakari Sut Girni Ltd. at Parbhani which is coming up very fast which would have the capacity of 25000 spindles with an estimated investment of Rs.782.00 lakhs and ^{an} employment potential of about 750 workers.

Medium Industries

Besides, one medium scale unit of cotton seed oil of M/s Maharashtra Oil Seeds Corporation, Bombay is going to ^{be} set up very soon, 3 units, one each at Parbhani, Gangakhed and Hingoli which will produce 200 metric tonnes of cotton seed oil per day.

Small Scale Industries

The district which has entered the industries field recently is now moving fast. In the following table position of registration of small scale industries units in Parbhani district during 1979-80 and 1980-81 is shown:-

| Sr No. | Category | Position of Registration | |
|--------------------------------|-------------|--------------------------|-----------------|
| | | As on 31-3-80 | As on 31-3-1981 |
| 1 | 2 | 3 | 4 |
| <u>Small Scale Industries</u> | | | |
| 1. | Permanent | 110 | 120 |
| 2. | Provisional | 241 | 356 |
| <u>Medium Scale Industries</u> | | | |
| 1. | Permanent | 64 | 70 |
| 2. | Provisional | 64 | 96 |
| Total | | 479 | 642 |

The small scale industries and medium scale industries units which have gone into production during 1980-81 is given in the following table.

Contd.

Units gone into production during the year 1980-81.

| Sr No | Category | Number of Units | Employment |
|-------|---|-----------------|------------|
| 1 | 2 | 3 | 4 |
| 1. | Oil Mills and Oil Chgnis | 4 | 21 |
| 2. | Dal Mills | 2 | 13 |
| 3. | Manufacturing of paper products, Exercise Books | 2 | 6 |
| 4. | Manufacturing of bricks and limes | 15 | 105 |

| 15. | Processing of silver film | 1 | 5 |
| 16. | Polishing, cutting and decoration of stone | 1 | 5 |
| 17. | Others(Manufacturing of ball pen& refills, Photo State Copies, Decoration of groundnut Aluminium furniture, manufacturing of Nylon Button and carpet works and coal). | 9 | 45 |
| TOTAL | | 95 | 570 |

CHAPTER - IIEXPLANATORY NOTES ON SCOPE AND LIMITATIONS OF STATISTICS
PRESENTED IN THE DISTRICT STATISTICAL ABSTRACT 1980-811. PURPOSE

The present publication of the District Statistical Abstract 1980-81 is the 18th issue of the District Statistical Abstract. This publication presents statistics on important socio-economic indicators of development in Parbhani district. An attempt is made to present talukawise figures in a number of tables as far as possible so as to enable readers to have a clear picture of achievements in various fields among different talukas of the district. Statistical data for the present abstract is given for the year 1980-81, however, due to non-availability of data for the reference year in respect of a few tables, data for the latest year is incorporated.

The information presented in various tables of the abstract is collected mainly from the departments/offices of the State Government, Central Government, Local Bodies and Other Agencies. The source from where the data is collected is indicated in the foot note of each table.

2. DISTRICT-AT-A-GLANCE

The statement "District-at-a-Glance" appearing at the beginning of the Abstract gives broad features of the district on important items in comparison with that of the Maharashtra State. The year of reference is indicated against each item when the statistics is either not available for the year of publication or it is collected periodically (i.e for a particular year).

The scope and limitations of the data presented in various tables of the Abstract are explained in the following paragraphs.

Contd-

1. AREA AND POPULATION

In all 7 tables i.e table Nos. 1 to 7 are included in this section. Data for 1971 population census has been included in all the tables except table No.6. The table No.1 indicates area, houses and population according to 1971 Census. The term rural and urban area used in these tables are defined as under:-

For any place to be recognised as an urban area(Town) for 1971 Census, it was to have a municipal corporation or an area under a municipal council or a cantonment or a civil line. If it did not have any of these urban local bodies to administer its affairs, the following empirical tests were applied (a) a minimum population of 5,000(estimate for 1971), (b) a density of not less than 400 per sq.km.(1,000 per square mile), (c) 75 percent of the males working population pursuing occupations falling out side agriculture, (d) the place should have according to the Director of Census Operations of the State, a few pronounced urban characteristics and amenities.

The term village(rural area) used in the table denotes a statutorily recognised village having a well defined boundary and separate land records. Hamlets, wadis or padas have, therefore, not been shown as separate villages. On the other hand, statutorily recognised village having no population have been shown separately as "Un-inhabited" villages. Villages also include forest villages comprising mostly forest labourers and their families.

Table No.2 indicates decadal variations in population since 1951 to 1971. Table No.3 gives classification of inhabited villages according to different population ranges. Total population of the villages in each range is also indicated in the table.

The table No.4 gives population of urban areas according to 1971 Census. The table No.5 gives number of workers and non-workers in the district according to 1971 census and they are classified according to standard of livelihood classes. The population according to livelihood classes are also shown separately for rural and urban areas and for the district as whole. The concept of dependency has been abandoned for economic classification at the 1971 Census. Instead, the population is classified into workers and non-workers. The emphasis is now on work and not on income or economic dependence. A person is defined as worker if (a) in case of seasonal work like cultivation, livestock, dairying, household industry etc. he has some regular work of more than one hour a day throughout the greater part of the working season and (b) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the seven days preceeding the day of the enumerator's visit to the household.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, etc. who earn an income, but who are not participating in any productive work in any occupation, a person who had been offered work but who had not actually joined have been classified as non-workers.

The table No.6 gives distribution of population according to (a) age group and (b) religion separately for rural and urban areas and also for the district as a whole as per 1971 Census.

The table No.7 gives population of scheduled castes, scheduled tribes and neo-budhists separately for rural and urban areas and also for the district as a whole.

2. RAINFALL AND CLIMATE

The table No.8 gives monthly rainfall and number of rainy days in each month at the selected centres for the year 1980.

A day is treated as a "Rainy day" if during the 24 hours the rain-guage recorded a minimum of 2.55 mm. of rainfall. Annual rainfall for each centre is also indicated in the table. Normal rainfall is the average rainfall over a period ranging from a minimum of five years to a maximum of (10) years.

The table No.9 gives monthwise "Maximum", Minimum and annual temperature recorded at the selected centres for the year 1980. The data is supplied by the Meteorological Centre of Government of India. The mean maximum and minimum temperature denotes the average of the maximum and minimum temperature recorded daily during the month. The mean (average) temperature is the simple average of the mean maximum and minimum temperature.

3. AGRICULTURE

In all 14 tables i.e table No.10 to 23 are included in this section.

The table No.10 indicates talukawise figures of land utilization under the standard heads of land uses for the years 1977-78, 1978-79, 1979-80 against each taluka. The break up for the geographical area according to different types of land use is shown. Major constituents of the geographical area are forest, land put to non-agricultural uses, barren and uncultivable land, cultivable waste, permanent pastures, land under miscellaneous tree crops not included in area sown, current fallows, other fallows and lastly net area sown. "under forest" area included are actual forest area or lands classed or administered as forests under any legal enactment dealing with forests whether state owned or private. If any portion of such land is not actually wooded but put to some agricultural uses, that portion is included under the appropriate heading of cultivated land or un-cultivated land as the case may be, land put to non-agricultural uses" stands for all lands occupied by buildings, roads and railways or under water e.g. rivers and canals and other lands put to uses other than agricultural uses.

Barren and uncultivable lands covers all barren and uncultivable lands like mountains, deserts etc. Land which cannot be brought under cultivation unless at high cost is classed as "Barren and Uncultivable land" whether such land is in isolated blocks or within cultivated holdings. "Cultivable Waste" includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once, but not cultivated during the current year and last five years or more in succession. Such land may be either fallow or covered with shams and jungles which are not put to any use. They may be assessed or not assessed and may be in isolated blocks or within cultivated holdings. "Permanent pastures and other grazing lands cover all grazing lands whether they are permanent pastures and meadows or not village common and grazing lands within forest area are included under this head. "Land under miscellaneous tree crops etc. not included in the net area sown, includes all cultivable land which is not included under net area sown, but is put to some agricultural uses. Land under casurina tree, thatching grass, bamboo bushes and other for fuel etc. which are not included under "Orchards" are classed under this category. Current fallows comprises of cropped area, which are kept fallows during the current year. "Other fallows" land includes all lands which were taken up for cultivation, but are temporarily out of cultivation for a period of not less than one year and not more than five years. The net area sown consists of net area sown with crop and orchards, area sown more than once being counted only once. The gross cropped area represents the sum total of area under all crops. The difference between the total or gross cropped area and net area sown is accounted for by the area sown more than once during the same year with the same or different crops.

The table No. 16 is introduced from the year 1975-76 which gives the information on activities of the Ground Water Survey and Development Agency in the district such as number of bore holes drilled,

number of bore holes successful etc, during the year 1980-81.

The table No.17 gives the information of minor irrigation works excluding wells in the district. All sectors such as Zilla Parishad State and Private Sector(Co-operative) have been covered in this table.

The table No.18 gives information on the Major & Medium(both completed and incomplete) irrigation projects in the district. The cost of Medium Irrigation Projects ranges between Rs.20 lakhs to Rs.5 crores whereas that of Major Irrigation Project, it is Rs.5 crores and above.

Table No.19 deals with monthly agricultural wage rates during 1980. This data is collected fortnightly throughout the year from three selected rural centres.

The table No.20 is also a new table included from the year 1975-76 and gives the findings of Agricultural Census.

The table No.21 gives the data on agricultural implements.

The table No.22 and 23 deals with famine, scarcity, akin to scarcity data in the district.

4. ANIMAL HUSBANDRY AND FORESTS

In all 6 tables i.e table number 24 to 29 are included in this section.

A. ANIMAL HUSBANDRY

The table No.24 gives talukawise number of various types of livestock and poultry as enumerated in the district in the Livestock Census,1978. The Census is conducted throughout the country on an uniform basis of concepts and methods of enumeration once in five years. During the Livestock Census operations, the livestock and poultry were enumerated by house to house enquiry. Particular care was taken to enumerate livestock in slaughter houses, stray animals and animals in transit.

B. FORESTS

(16)

The table No.28(A) gives details of area under different types of forests during the year 1980-81. Data regarding forests under the control of the State Government's Forest department and those under the control of the State Government's Revenue Department are shown separately. The area under forest is classified according to legal status as reserved forests, protected forests and unclassed forests.

The legal status refers to the classification of forests under the Indian Forest Act, XVI of 1972. Reserved forests are those that are intended mainly for timber production where in the rights of grazing and cultivations seldom allowed. In protected forests, the restrictions are not so rigid. Right of grazing or cultivation is allowed but certain limitations and restrictions are imposed. The unclassed forest refers to the inaccessible forest on unoccupied waste. The forests which are taken over by Government from local bodies or private individuals for management on lease basis are called "Leased Forests". There is no classification of expropriary forests as such. The forest area shown in table No.28(A) may not tally with the area shown in the table No.10. The two sets of figures differ due to the following reasons.

(i) In the Indian Forests Statistical returns, the whole area including non-wooden area under the control of forests department is taken as area under the forests, while in Agricultural Statistics, it is classified according to its actual utilization.

(ii) The Forest Department returns are meant to serve a definite administrative purpose and indicate the ownership of the forest areas and the actual utilisation of these areas is not so important from the point of view of forests department. As it is in the land utilisation figures under Agricultural Statistics.

(iii) The Forests Department returns relate to financial year, while the Agricultural Statistics relate to the agricultural year.

Contd-

Table No. 29(A) is a new table regarding fisheries included from the year 1975-76.

5. INDUSTRIES, EMPLOYMENT AND ELECTRICITY:

The Factory Statistics shown in table No. 30, 31, 32 cover following types of factories registered under the Factories Act, 1948. (1) Those employing 10 or more workers and working with the aid of power (Section 2 n(1)), (2) Those employing 20 or more workers and working without aid of power (Section 2 m(ii)) and (3) those registered under Section 85 of the Act, under which the state government makes applicable the provisions of Act even though the above conditions are not fulfilled. However, statistics of the Defence Factories are excluded.

The table No. 35 gives occupational distribution of total registrations and placements in the employment exchange for the year 1980-81, according to the standard national classification. The table No. 36 indicates the progress of Employment Guarantee Scheme in the district. The table No. 38 gives the consumption of electricity. The table No. 39 indicates the towns and villages electrified as on 31-3-1981 in the district. Table No. 37 gives volume of employment in different industries as on 31-3-1981.

6. CO-OPERATION

In all 3 tables i.e. table Nos 40 to 47 are included in this section.

Loans outstanding referred in the table include outstanding loan in respect of each credits and over drafts and the amounts of outstanding bills purchased or discounted. Over dues referred to amount of loan or instalments which were due for collection but which were not actually collected and for the repayment of which no extension has been granted by a competent authority.

In table No. 47 number of registered money lenders and loans advanced by them is shown. Separate figures of loans advanced to traders and non-traders have been furnished.

(Contd)

The transaction on money lending in the state are regulated under the provision of Bombay Money Lenders' Act. The information for loans advanced to traders and non-traders, relates to those money lenders who have submitted the returns.

7. MEDICAL AND PUBLIC HEALTH

For presenting statistics relating to medical and health facilities available in the district and preventive measures carried out to control epidemic etc. 5 tables (Nos. 48 to 52) are included in this section. The table No. 48 depicts the talukawise dispensaries, hospitals, beds, number of doctors and nurses available and the patients treated during the year 1980, while table No. 49 gives the number of births and deaths registered in this year. The causes of deaths are mentioned in table number 50, since last 10 years from 1971 to 1980. In table No. 52 data regarding number of tubectomy and vasectomy operations carried out during 1980 is presented.

8. EDUCATION

The statistics relating to education is tabulated in 7 tables (Nos. 53 to 59). Table No. 53 deals with the literacy and its percentage in rural and urban areas as per 1971 Census. The figures of the educational standard of rural and urban population as available from 1961 Census are presented in table No. 54 and 55 respectively. Talukawise number of educational institutions, pupils and teachers during 1980-81 is indicated in table No. 56, while the data in respect of enrolment of backward class students during the years 1979-80 & 1980-81 is displayed in table No. 57. The concessions granted during the year 1980-81 to economically backward class students are shown in table No. 58. The expenditure incurred by local bodies on primary education in 1980-81 is given in table No. 59.

9. TRANSPORT AND COMMUNICATION

Under this sub-head 7 tables (Nos. 60 to 66) are compiled and presented in this Abstract.

In table No.60 railway length as it existed at the end of March 1981 is indicated. Categorywise and surfacewise road length maintained by Government and Local Bodies in the district as at the end of March, 1981 is shown in table No.61.

The total number of various types of motor vehicles etc. which are in operation in Parbhani district as at the end of March, 1981 is indicated in table No.62. While operational statistics on nationalised road transport as at the end of March 1981 is given in table No.63. Statistics relating to Traffic Census of December, 1980 is tabulated in Table No.64. The postal and telegraphic statistics for different 11 years i.e 1961-62, 1965-66, 1970-71 and 1973-74 to 1980-81 is presented in table No.65.

The data pertaining to rural radio receiving sets installed and population covered as at the end of March 1981 is depicted in table No.66.

10. LOCAL BODIES

All 4 tables (Nos.67 to 70) presented in this publication mainly deal with income and expenditure of different local bodies viz. Zilla Parishad, Village Panchayats and Municipal Councils. Table No. 67 gives figures of income and expenditure of village panchayats, municipal councils and zilla parishad for different 14 years viz. 1965-66, and from 1968-69 to 1980-81, while income and expenditure of village panchayats according to sources of income and items of expenditure for the year 1980-81 is shown in table No.68. So also, headwise receipts for 1979-80 (Actual), 1980-81 (Revised) and 1981-82 (Estimated) in respect of Zilla Parishad is shown in table No.69(A). The Government grants usually received by Zilla Parishad, Parbhani is indicated for the year 1979-80 (Actual), 1980-81 (Revised) and 1981-82 (Estimated) in table No.69(B), While the headwise expenditure of the Zilla Parishad, Parbhani is shown for the same years in table No.69(C).

In table No.70 income according to various sources and expenditure on different items of municipal councils for the year 1980-81 is indicated for each municipal council in the district.

11. PLAN AND COMMUNITY DEVELOPMENT

On plan and community development 5 tables (Nos.71 to 75) are appearing in this Abstract. Plan expenditure as per various heads and sub-headwise for the years 1979-80 and 1980-81 is shown in table No.71 while achievements in respect of various items concerning plan schemes are mentioned in table No.72 according to head and sub-head of development for these years. Table No.73 depicts the community development programme and its coverage as at the end of March, 1980 while table No.74 gives blockwise expenditure incurred till the end of the March 1980 during various stages of blocks. The Blockwise achievements under various sectors of development in 1979-80 are reported in table No.75.

12. PRICES

Three tables i.e. Nos.76,77 and 78 pertain to prices and index numbers. Commoditywise average wholesale prices prevailing in each agricultural produce market committee in the district for the year 1980 are reported monthwise in table No.76, while average retail prices of important commodities at the district headquarters for the year 1980 are presented monthwise and commoditywise in table No.77.

Monthly consumers price index numbers for working class for Aurangabad and Nanded centres for the year 1980-81 is given in table No.78.

13. MISCELLANEOUS

16 tables i.e Nos.79 to 93 are given in the Abstract to cover other important statistics not included elsewhere. Table Nos.79 and 80 deal with police force and crime statistics for the year 1980 while table number 81 show the disposal of civil and criminal cases in the courts during the year 1980.

Table No.82 to 92 deal with statistics relating to cinemas, banking offices, scheduled banks, joint stock companies, insurance, small savings, land revenue, news-papers and presses, fair price shops and procurement of levy and general elections. Trends in selected indicators are given in table No.93.

CHAPTER IIIAN ANALYTICAL REVIEW OF SECTORAL TRENDS

In this chapter an attempt has been made to bring out a comparative picture of development in the district during the past 19 years. Efforts have been made to indicate talukawise position as far as possible. Selected indicators relating to various developmental sectors are prepared and presented under 11 development heads.

1. AGRICULTURE

The agriculture is said to be the back bone of the Indian Economy. Since the inception of 5 Year Plans, it has occupied a prime place and is given due priority. The development in the field of agriculture can be assessed from the following indicators which highlight the level of development reached in Parbhani district in the matter of agricultural programme. The following table shows the percentage of gross cropped area to net area sown in each taluka of Parbhani district during the years 1978-79 and 1979-80 which has been compared with the years 1960-61 and 1970-71.

TABLE No. 3.1

Percentage of gross cropped area to net area sown.

| Sr No | Tahsil | Y E A R S | | | |
|----------------|-----------|-----------|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1978-79 | 1979-80 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Parbhani | 100.0 | 116.1 | 135.9 | 120.7 |
| 2. | Jintur | 107.6 | 117.4 | 107.6 | 105.9 |
| 3. | Hingoli | 104.5 | 104.6 | 102.8 | 104.9 |
| 4. | Kalamkri | 102.1 | 100.9 | 104.2 | 109.1 |
| 5. | Basmath | 100.2 | 107.6 | 116.3 | 119.8 |
| 6. | Gangakhed | 107.0 | 113.1 | 107.8 | 109.4 |
| 7. | Pathri | 106.0 | 118.8 | 120.8 | 110.4 |
| 8. | Partur | 106.4 | 113.3 | 107.2 | 119.2 |
| DISTRICT TOTAL | | 104.2 | 111.8 | 111.8 | 111.9 |

N.B.- Figures for the year 1979-80 are provisional.

Contd.

It may be seen from the above table that during the decade 1961-1971 the increase in the percentage was merely 7.6 in Parbhani district. But during the period from 1970-71 to 1979-80, the progress in the district as a whole is almost stagnant. As regards individual taluka, it is seen from the above figures that Basmath, Parbhani, Kalamnuri and Partur talukas have shown some improvement, while the position in respect of other talukas is more or less as it is even after a period of 19 years.

Another important indicator is regarding the changes in cropping pattern which took place from year to year since 1960-61. The following table will broadly indicate the trend in cropping pattern in Parbhani district.

TABLE NO. 3.2

Percentage distribution of gross cropped area under different important crops to total gross cropped area in the district.

| SR. No. | Crops | YEARS | | | |
|---------|--------------------------|---------|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1978-79 | 1979-80 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Rice | 1.34 | 1.18 | 2.08 | 2.27 |
| 2. | Wheat | 3.34 | 4.84 | 6.12 | 5.71 |
| 3. | Jowar | 38.63 | 31.80 | 34.43 | 36.93 |
| 4. | Bajra | 0.36 | 1.33 | 0.73 | 0.68 |
| 5. | Total cereals | 46.80 | 39.52 | 43.68 | 45.96 |
| 6. | Gram | 3.49 | 2.52 | 3.02 | 3.08 |
| 7. | Total pulses | 16.53 | 23.38 | 21.81 | 21.01 |
| 8. | Total foodgrains | 63.33 | 62.90 | 65.49 | 66.97 |
| 9. | Sugarcane | 0.23 | 0.34 | 0.45 | 0.54 |
| 10. | Total food crops | 64.56 | 64.27 | 66.93 | 68.78 |
| 11. | Cotton | 24.05 | 26.14 | 20.56 | 18.59 |
| 12. | Total fibres | 25.08 | 27.41 | 21.74 | 19.81 |
| 13. | Groundnut | 4.87 | 0.89 | 1.54 | 1.58 |
| 14. | Total oil seeds | 10.26 | 7.91 | 11.28 | 11.39 |
| 15. | Total non-food crops | 35.44 | 35.73 | 33.07 | 31.22 |
| 16. | Total gross cropped area | 100.00 | 100.00 | 100.00 | 100.00 |

N.B.: Figures for the year 1979-80 are provisional.

Contd.

It will be seen from the comparative figures given in the above table that during the decade 1961-71, no noticeable change is found in the area under total food crops, and also under total non-food crops as a whole, while the area under cereals recorded decrease and the area under pulses is found to have increased considerably during the said period. Similarly, the area under groundnut and oil seeds indicated decline. On comparing the figures for 1978-79 and 1979-80 with that of 1960-61 it will be seen that there has been steady increase under the food crops and decrease under the non-food crops as a whole. It will be further seen that the percentage of area under cotton and total fibres has gone down from 24.05 and 25.08 in 1960-61 to 20.56 & 21.74 in 1978-79 and 18.59 and 19.81 in 1979-80 respectively.

The following table indicates the yield rates and outturn of principal crops in the district.

TABLE NO. 3.3
Yield rates and outturn of important crops

| Sr. No | C r o p s | Yield per hectare (In kg.) | | | | Outturn (IN '000' Tonnes) | | | |
|--------|----------------------------|-------------------------------|---------|---------|----------|---------------------------|---------|---------|----------|
| | | 1960-61 | 1970-71 | 1978-79 | 1979-80@ | 1960-61 | 1970-71 | 1978-79 | 1979-80@ |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| 1. | Rice | 856 | 512 | 1,444 | 1,066 | 11 | 6 | 34 | 26 |
| 2. | Wheat | 533 | 316 | 820 | 832 | 32 | 16 | 57 | 53 |
| 3. | Jowar | 875 | 278 | 670 | 946 | 322 | 93 | 260 | 372 |
| 4. | Bajra | 233 | 414 | 512 | 472 | 1 | 6 | 4 | 4 |
| 5. | Total cereals | 822 | 295 | 724 | 931 | 366 | 122 | 356 | 459 |
| 6. | Gram | 308 | 245 | 306 | 310 | 10 | 6 | 10 | 10 |
| 7. | Tur | 442 | 665 | 694 | 781 | 14 | 29 | 36 | 41 |
| 8. | Total pulses | 329 | 264 | 354 | 357 | 52 | 60 | 87 | 85 |
| 9. | Sugarcane(In terms of gur) | 4586 | 6059 | 5059 | 5333 | 10 | 21 | 26 | 24 |
| 10.* | Cotton(In terms of bales) | 104 | 25 | 97 | 171 | 134 | 38 | 133 | 165 |
| 11. | Groundnut | 682 | 585 | 509 | 802 | 32 | 6 | 9 | 8 |

* Cotton production in terms of bales of 170 kgs. each.

@ Provisional figures.

Contd-

It may be seen from the statistics presented in the above table that the yield rates for almost all the crops during the year 1960-61 were at the higher side compared to the figures pertaining to the year 1970-71. But during the years 1978-79 and 1979-80 the yield rates have crossed the level which were in 1960-61. The yield rates of jowar, tur, cotton and groundnut went up high in 1979-80 compared to the last year 1978-79.

The following table gives the area and percentage figures regarding the net area irrigated to net area sown in the district.

TABLE NO. 3.4

Net irrigated area to net area sown (In hectares).

| Sr No | Year | Net area irrigated | Net area sown | Percentage of net area sown. |
|-------|---------|--------------------|---------------|------------------------------|
| 1 | 2 | 3 | 4 | 5 |
| 1. | 1960-61 | 12,228 | 9,13,241 | 1.34 |
| 2. | 1970-71 | 23,143 | 9,40,824 | 2.46 |
| 3. | 1978-79 | 60,301 | 10,07,309 | 5.99 |
| 4. | 1979-80 | 80,341 | 9,29,142 | 8.65 |

N.B:- Figures for the year 1979-80 are provisional.

From the above table, it may be seen that during the decade 1961-71, although an addition of 10,915 hectares was recorded to the net area irrigated in the district, it could improve the percentage of net area sown only by 1.12% during that period. Similarly, the position during 1978-79 and 1979-80 when compared to the year 1970-71 is not much improved, while the net area irrigated showed an increase of 37,158 and 57,198 hectares, percentage of net area sown recorded an increase of only 3.53% and 6.19% during the above two years over reference year respectively.

The table below indicates percentage of irrigated area under different crops to gross irrigated area.

TABLE NO. 3.5

Percentage of area under different irrigated crops to gross irrigated area.

| Sr. No | C r o p s | Y e a r s | | | |
|--------|----------------------|-----------|---------|---------|---------|

| 14. | Total non-food crops | 12.47 | 4.59 | 9.16 | 15.22 |
| TOTAL | | 100.00 | 100.00 | 100.00 | 100.00 |

N.B:- Figures for the year 1979-80 are provisional.

It may be seen from the above table that during the decade 1961-71, there has been considerable increase in the percentage of irrigated area to gross irrigated area of the district in respect of rice and cotton crops. However, fall in the percentage is noticed in respect of crops like wheat, jowar and sugarcane during the said period probably to some extent due to shift in the cropping pattern as some area under pulses is also reported during 1970-71 which was not found during 1960-61. As regards position during 1979-80, it can be seen that as mentioned earlier in this paragraph due to adoption of new cropping pattern, substantial increase is observed between the period 1970-71 and 1979-80 in the area under wheat and total oil seeds.

Contd-

On the other hand, there had been fall in the area under jowar and sugarcane during the same period. The overall result of these and other changes was that the area under total food crops was reduced from 95.41% in 1970-71 to 84.78% in 1979-80 while the area under total non-food crops shot up from 4.59% to 15.22%. About the changes that took place during 1979-80 over the year 1978-79 it was seen that area under jowar and total pulses was decreased while the area under oil seeds was doubled.

Net area irrigated by different sources during the year 1960-61, 1970-71, 1978-79 and 1979-80 is given in the following table.

TABLE NO. 3.6
Sourcewise net irrigated area.

| Sr. No. | Source of irrigation | Net area irrigated (In hectares) | | | |
|---------|----------------------|----------------------------------|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1978-79 | 1979-80 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Government canals | -- | 5,424 | N.A | N.A |
| 2. | Surface Irrigation | N.A | N.A | 28,539 | 38,549 |
| 3. | Private canals | -- | -- | -- | -- |
| 4. | Wells | 12,177 | 16,845 | 31,762 | 41,792 |
| 5. | Other sources | 51 | 874 | -- | N.A |
| | Total (All sources) | 12,228 | 23,143 | 60,301 | 80,341 |

N.B.- Figures for the year 1978-79 are fully revised and for the year 1979-80 are provisional.

It may be seen from the above table that the figures of area irrigated by Government canals is not available for the year 1978-79 and 1979-80. It may also be seen that there has been steady increase in the area irrigated by wells right from the year 1960-61. Obviously, due to increase in the number of irrigation wells. The area under this category increased from 12,177 hectares in 1960-61 to 41,792 hectares in 1979-80.

2. CO-OPERATION

The primary agricultural credit societies are the basic units of the co-operative structure operating at village level which have proved of their worth in helping their members by providing them short term credit. From the statistics tabulated in the table below, an idea about the growth of these co-operatives in Parbhani district can easily be formed.

TABLE NO. 3.7
Agricultural Credit Societies.

| Sr. No. | I t e m s | Y e a r s | | | |
|---------|--|-----------|----------|----------|----------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Number of primary agricultural credit societies. | 1,259 | 1,009 | 1,000 | 1,000 |
| 2. | Memberships (Nos.) | 76,755 | 1,12,112 | 2,24,880 | 2,37,479 |
| 3. | Working capital (Rs. in lakhs) | 210.72 | 301.65 | 1,407.76 | 1,760.02 |
| 4. | Loans advanced (Rs. in lakhs) | 191.03 | 502.19 | 585.10 | 967.87 |
| 5. | Loans over due (Rs. in lakhs) | N.A. | 208.28 | 309.31 | 624.22 |
| 6. | Loans outstanding (Rs. in lakhs) | N.A. | 677.47 | 786.43 | 1,339.54 |

It may be seen from the figures presented in the above table that the number of societies fell by 250 during the decade 1961-71. During the next decade i.e 1971-81, the number of primary agricultural societies remained almost stagnant. The membership of these institutions crossed one lakh mark at the end of the 1970-71 and in the next decade ending 1980-81 it even jumped more than double. As regards working capital, it is observed that from Rs. 301.65 lakhs in 1970-71 it has gone high to Rs. 1,760.02 lakhs during 1980-81 showing more than 5 times increase during the decade. Substantial increase is noticed in the amount of loans, advanced, loans over due and loans outstanding.

The increase during the decade 1971-81 was found to be of the order of 92.72%, 199.70% and 97.72% respectively.

On comparing the progress during 1960-81 with that of 1979-80, it can be revealed that the increase in the working capital was just 25.02%. The loans advanced, loans over due and loans outstanding recorded increase as high as 65.41%, 101.31% and 70.33% respectively.

3. WAGE RATES

The wage rates for agricultural labours, skilled labours and field labours etc. are being collected from 3 rural centres viz. Palam, Kanhergaon Naka and Mantha in Gangakhed, Hingoli and Partur Blocks respectively since 1963. The skilled labours include carpenters, blacksmiths and cobblers.

The average daily wage rates paid to the skilled labourers during 1980 are found to be between Rs. 7.33 and 8.33 at Kanhergaon Naka, between Rs. 6.33 and Rs. 8.33 at Palam and between Rs. 4.00 and Rs. 7.00 at Mantha centres, whereas the wages paid to this category of labourers during 1971 were between Rs. 4.50 and Rs. 5.00, between 3.00 and Rs. 5.00 and between Rs. 2.00 and Rs. 3.00 at these centres in the same order. The average daily wage rates in respect of other field labourers at the above 3 centres ranged between Rs. 3.50 and Rs. 5.00 during 1980. It is found that there is very little difference between the rates for male and female labourers during 1980 while during the year 1971 there was a difference of ^{Rs.} 1.00 between the rates paid to male and female workers.

4. LIVESTOCK AND POULTRY

The socio-economic conditions of the farmers particularly small and marginal farmers engaged in traditional cultivation can be improved by livestock and poultry development since they can get handsome additional earnings from rearing livestock and poultry keeping and hence the number of bovine and ovine population per 100 hectares is a good indicator to depict the stage of development in the rural areas.

In the following table talukawise figures of bovine and ovine population per 100 hectares of cultivable land are given.

TABLE NO. 3

Bovine and ovine population per 100 hectares of cultivable land.

| Sr. No. | Tahsil | Bovine and ovine population in 1973 | Cultivable land (In hectares) during 1973-79 | Bovine and ovine population per hectare . |
|----------------|-----------|-------------------------------------|--|---|
| 1 | 2 | 3 | 4 | 5 |
| 1. | Parbhani | 1,41,439 | 1,37,491 | 103 |
| 2. | Jintar | 1,46,008 | 1,43,975 | 101 |
| 3. | Hingoli | 1,74,672 | 1,62,773 | 107 |
| 4. | Kalamnuri | 1,57,529 | 1,32,781 | 120 |
| 5. | Basmath | 1,49,626 | 1,22,354 | 122 |
| 6. | Gangakhed | 1,66,215 | 1,52,814 | 109 |
| 7. | Pathri | 1,30,159 | 1,56,923 | 83 |
| 8. | Partur | 1,22,479 | 1,44,146 | 85 |
| District Total | | 11,38,127 | 11,52,267 | 103 |

It may be seen from the statistics presented in the above table that in Pathri and Partur talukas, the bovine and ovine population per 100 hectares is even less than 100. Only in 4 talukas viz. Hingoli, Kalamnuri, Basmath and Gangakhed the population is higher than the district average.

The poultry keeping can be the best source of income to the poor farmers which can bring quick returns to their families without investing much in this business. The poultry population in Parbhani district according to 1973 Census is 2,20,447 as against 1,58,262 in 1972, 1,18,482 in 1966 and 2,03,044 in 1961. It may be seen that the poultry population after having touched 2 lakhs number in 1961 had come down considerably in 1966. But thereafter, however, it has been steadily rising and once again crossed 2 lakhs mark in 1973.

Following figures give an idea about the poultry population per 100 persons according to quinquennial Livestock Census.

| Sr. No. | Livestock Census Year | Number of poultry per 100 persons | |
|---------|-----------------------|-----------------------------------|------------------------------|
| | | According to 1961 Population | According to 1971 Population |
| 1 | 2 | 3 | 4 |
| 1. | 1961 | 17 | 13 |
| 2. | 1966 | 10 | 8 |
| 3. | 1972 | 13 | 11 |
| 4. | 1978 | 18 | 15 |

It can be seen that there has been very low ratio and practically no improvement was noticed in the said ratio during the above period.

5. ELECTRICITY

In Parbhani district, no particular development was seen upto the year 1960-61 in respect of electrification when only 3 towns were electrified. It is after one decade i.e. in 1970-71, the number of towns electrified went to 11 and soon thereafter, all the 12 towns of the district were electrified.

As regards electrification in rural area, no village was covered upto the end of 1960-61. The table number 3.9(a) given below gives talukawise number of villages electrified and pumps energised in the district.

TABLE NO. 3.9(a)

Villages electrified and pumps energised.

| Sr. No. | Taluka | Villages electrified upto | | | | Pumps energised upto | | | |
|---------|-----------|---------------------------|---------|---------|---------|----------------------|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 | 1960-61 | 1970-71 | 1979-80 | 1980-81 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| 1. | Parbhani | -- | 49 | 117 | 133 | -- | 943 | 2,170 | 2,588 |
| 2. | Jintur | -- | 59 | 144 | 161 | -- | 639 | 1,985 | 2,411 |
| 3. | Hingoli | -- | 44 | 124 | 133 | -- | 910 | 1,908 | 2,370 |
| 4. | Kalamnari | -- | 58 | 130 | 146 | -- | 1,076 | 2,137 | 2,622 |
| 5. | Basmath | -- | 81 | 137 | 156 | -- | 1,641 | 3,298 | 4,041 |
| 6. | Gangakhed | -- | 16 | 116 | 134 | -- | 214 | 823 | 1,189 |
| 7. | Pathri | -- | 56 | 133 | 147 | -- | 1,059 | 2,440 | 2,847 |
| 8. | Partur | -- | 43 | 138 | 151 | -- | 841 | 2,312 | 2,720 |
| TOTAL | | -- | 406 | 1,019 | 1,161 | -- | 7,323 | 17,073 | 20,733 |

Contd.

From the above table it can be seen that at the end of 1970-71, 406 villages had been electrified in the district. The number of villages electrified then rose to 1,019 by the end of 1979-80 and as on 31-3-1981 the total number of villages electrified stood at 1,161. The highest number of villages 161 was found in Jintur taluka followed by 156 in Basmath and 151 in Partur taluka. The lowest number 133 was seen in Parbhani and Hingoli talukas. The percentage coverage of villages electrified to the total number of inhabited villages worked out to 26.76, 67.70 and 77.14 as at the end of 1970-71, 1979-80 and 1980-81 respectively. In other words, out of a total inhabited villages (1505 more than 3/4 th villages (i.e 1,161) have been electrified by the end of 1980-81. It can also be seen that the number of pumps energised in each taluka kept pace with the increase in the number of villages electrified in that taluka. The highest number of pumps energised 4041 was found in Basmath taluka while the lowest 1189 in Gangakhed taluka.

The study of per capita consumption of electricity an important indicator of development as it reveals the pace of general economic development of an area and the people therein.

The table below gives an idea about the consumption of electricity in each taluka since 1960-61 and upto 1980-81.

TABLE NO. 2.9(B).

Consumption of electricity in Parbhani district.

| Sr No | Taluka | Per capita consumption of electricity (IN KWH) During | | | |
|-------|-----------|---|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Parbhani | N.A | N.A | 75.43 | 44.29 |
| 2. | Jintur | N.A | N.A | 16.61 | 18.63 |
| 3. | Hingoli | N.A | N.A | 27.00 | 21.78 |
| 4. | Kalamnuri | N.A | N.A | 24.68 | 17.62 |
| 5. | Basmath | N.A | N.A | 17.32 | 18.91 |
| 6. | Gangakhed | N.A | N.A | 21.33 | 14.87 |
| 7. | Pathri | N.A | N.A | 20.15 | 25.68 |
| 8. | Partur | N.A | N.A | 40.53 | 18.36 |
| TOTAL | | 0.29 | 15.27 | 31.59 | 23.28 |

Notes:- Talukawise figures for the years 1960-61 and 1970-71 are not available

It can be seen from the above table that the per capita consumption of electricity in Parbhanidistrict is all along increasing year by year. During the year 1979-80 it was 31.59 (KWH). During the last two decades, it jumped from merely 0.29 to 31.59(KWH) i.e an increase of almost 108 times compared to 1960-61 figures. During 1980-81, however, there has been slight decline in some talukas due to which per capita consumption also went down from 31.59 in 1979-80 to 23.28 in 1980-81.

6. EMPLOYMENT

The number of candidates enrolled at the Employment Exchange, the number of vacancies notified by various employers to the Employment Exchange and as against the notified vacancies, placements made by the exchange as tabulated in the below table will give an idea about the availability of potential and opportunities of employment and utility of the Employment Exchange in the district.

TABLE NO. 3.10

Number of candidates enrolled and vacancies notified in 1960-61, 1970-71, 1979-80 and 1980-81.

| Sr. No. | I t e m s | Y E A R S | | | |
|---------|---|-----------|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Candidates enrolled | 409 | 5,249 | 7,359 | 7,898 |
| 2. | Vacancies notified | 335 | 415 | 951 | 938 |
| 3. | Placement in vacancies | 38 | 278 | 836 | 520 |
| 4. | Percentage of placement to registration. | 9 | 5 | 11 | 7 |
| 5. | Candidates on live register at the end of the year. | 2,015 | 4,889 | 15,189 | 17,218 |

It may be seen from the above table that the number of candidates enrolled with the Employment Exchange has gone up as many as 12 times during the decade 1960-61 to 1970-71 and has been steadily rising almost every year since then. The increase in the enrolment during the period 1970-71 and 1980-81 (in a decade) is 40%.

It is observed that the number of vacancies notified (938) showed slight decline in 1980-81 as compared with the figure of 951 in 1979-80.

Compared to the previous year's figures the position of placement in the vacancies was slightly declined from 836 in 1979-80 to 520 in 1980-81 and the percentage of placement to registration was also found to have gone down from 11 to 7 during the same period. The number of candidates on the live register of the exchange was found to be steadily rising since 1979-80. The position during the year 1980-81 was found to be 8 times of the number found in the year 1960-61.

7. MEDICAL FACILITIES

The following table shows the number of patients treated in public and public aided institutions in Parbhani district.

TABLE NO. 3.11

Indoor and outdoor patients treated in public/public aided institutions.

| Sr/No | I t e m s | Y e a r s | | | |
|-------|--------------------------|-----------|----------|-----------|-----------|
| | | 1961 | 1971 | 1979 | 1980 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Indoor patients treated | 4,457 | 9,957 | 1,10,000 | 1,03,000 |
| 2. | Outdoor patients treated | 3,80,656 | 6,76,409 | 10,03,000 | 9,48,000 |
| 3. | Total | 3,85,113 | 6,86,366 | 11,13,000 | 10,51,000 |

It may be seen from the above table that during the first decade i.e 1961 to 1971 the number of indoor patients treated has gone more than double, while the rise in the number of outdoor patients treated was also found almost double. Thereafter the number of indoor patients and outdoor patients treated steadily increasing every year and has crossed one lakh and ten lakhs respectively during the year 1979. As far as the year 1980 is concerned, the number of indoor and outdoor patients has gone down from 1.10 lakhs and 10.03 lakhs in 1979 to 1.03 lakhs and 9.48 lakhs respectively.

8. EDUCATION

Increase in literacy percentage is indirectly related to the expansion of primary education. Therefore, expansion of facilities in education particularly primary education is of utmost importance. The table number 3.12 presented here indicates the expansion trend in education in Parbhani district.

TABLE NO. 3.12
Expansion of educational institutions.

| Sr. No. | I t e m s | Number during the year | | | | Percentage increase | |
|------------------------|-----------|------------------------|----------|----------|----------|-----------------------------|-----------------------------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 | During 1970-71 over 1960-61 | During 1980-81 over 1979-80 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| <u>I. INSTITUTIONS</u> | | | | | | | |
| i) Primary | | 1,044 | 1,493 | 1,700 | 1,710 | 43.4 | 0.6 |
| ii) Secondary | | 34 | 119 | 126 | 126 | 91.4 | -- |
| iii) Higher | | 1 | 5 | 11 | 11 | 123.0 | -- |
| TOTAL | | 1,079 | 1,622 | 1,837 | 1,847 | 50.3 | 0.5 |
| <u>II. ENROLLMENTS</u> | | | | | | | |
| i) Primary | | 61,425 | 1,17,575 | 1,65,297 | 1,76,407 | 91.4 | 6.7 |
| ii) Secondary | | 13,461 | 45,129 | 58,593 | 62,105 | 235.1 | 6.0 |
| iii) Higher | | 205 | 3,357 | 5,201 | 6,292 | 1537.5 | 20.9 |
| TOTAL | | 75,091 | 1,66,061 | 2,29,091 | 2,44,804 | 121.1 | 6.8 |
| <u>III. TEACHERS</u> | | | | | | | |
| i) Primary | | 1,684 | 3,754 | 4,645 | 4,665 | 123.0 | 0.4 |
| ii) Secondary | | 557 | 2,013 | 2,377 | 2,342 | 261.4 | 1.5 |
| iii) Higher | | 12 | 156 | 403 | 468 | 1200.0 | 16.1 |
| TOTAL | | 2,253 | 5,923 | 7,425 | 7,475 | 162.8 | 0.67 |

From the aforesaid table it can be seen that during the decade 1961-71, the increase in the number of primary institutions was 43% while the increase in the number of students and number of teachers was of the order of 91% and 123% respectively, while the over

all increase in the number of all institutions, their number of students and number of teachers was found to be, of the order of 50.3%, 121.1% and 152.8% respectively, while the increase during 1980-81 or 1979-80 was 0.5%, 6.8% and 0.67% respectively in the same order. Another table number 3.13 given below gives important ratios in education

TABLE NO. 3.13
Important ratios in education

| Sr. No. | I t e m | Y E A R S | | | |
|---------------------------|----------------------|-----------|---------|---------|---------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| <u>a) Institutions</u> | | | | | |
| i) | Secondary to primary | 1 : 31 | 1 : 13 | 1 : 13 | 1 : 13 |
| ii) | Higher to Secondary | 1 : 34 | 1 : 24 | 1 : 11 | 1 : 11 |
| <u>B) Teachers/pupils</u> | | | | | |
| i) | Primary | 1 : 36 | 1 : 31 | 1 : 35 | 1 : 38 |
| ii) | Secondary | 1 : 24 | 1 : 22 | 1 : 24 | 1 : 27 |
| iii) | Higher | 1 : 17 | 1 : 21 | 1 : 13 | 1 : 13 |

From the above table it may be seen that during the decade 1961-71, ratio of secondary to primary institutions improved from 1:31 to 1:13 and that of higher to secondary institution from 1:34 to 1:24 and during the year 1980-81, the ratio further improved to 1:11.

Similarly, the ratio of teachers/pupils during the decade 1961-1971 in respect of primary education showed improvement from 1:36 in 1960-61 to 1:31 in 1970-71 but later came down to 1:35 during the year 1979-80 and then again decreased to 1:38 in 1980-81. But in case of secondary education, the ratio between teachers and pupils was found at the same stage at 1:24 during 1960-61 and also in 1979-80 with slight improvement 1:22 during 1970-71. As regards higher education, the ratio which was at 1:17 in 1960-61 improved during 1979-80 when it was 1:13 and was found the same in 1980-81.

Growth of agriculture and industries require substantial increase in supply of credit. The expansion of commercial banks, therefore, is a vital factor in the progress of planned development. The number of commercial banks in Parbhani district is steadily increasing every year. In the following table, talukawise number of commercial banks during 1961, 1971, 1978 and 1979 are shown indicating estimated number of households served by them.

TABLE NO. 14
Increase in commercial banking.

| Sr. No. | Tahsil | Number of Banking offices as at the end of December | | | | No. of household served per Banking office. | | | |
|----------------|-----------|---|------|------|------|---|--------|--------|-------|
| | | 1961 | 1971 | 1978 | 1979 | 1961 | 1971 | 1978 | 1979 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| 1. | Parbhani | 1 | 2 | 12 | 14 | 35,705 | 11,902 | 3,869 | 3,258 |
| 2. | Jintur | - | 1 | 4 | 4 | -- | 28,794 | 10,993 | 8,758 |
| 3. | Kingoli | 2 | 3 | 5 | 7 | 16,489 | 16,489 | 7,549 | 5,758 |
| 4. | Kalamnuri | - | 2 | 3 | 4 | -- | 25,240 | 9,274 | 7,959 |
| 5. | Basmath | - | 1 | 6 | 7 | -- | 27,442 | 7,718 | 5,014 |
| 6. | Gangakhed | - | 2 | 7 | 8 | -- | 16,317 | 7,233 | 4,947 |
| 7. | Pathri | 2 | 2 | 7 | 8 | 16,429 | 8,214 | 5,289 | 5,036 |
| 8. | Partur | 1 | 1 | 5 | 5 | 27,901 | 27,901 | 6,143 | 6,712 |
| District Total | | 6 | 14 | 49 | 57 | 40,592 | 16,236 | 6,416 | 5,287 |

It can be seen from the above table that the increase in number of banks during the decade 1961-71 was only 8, whereas it jumped from 14 in 1971 to 57 in 1979. Parbhani being the district headquarters has got maximum number of branches 14 compared to other talukas. Due to expansion in the number of banking offices, the number of households served per banking office in the district showed steady decline. In the year 1961, the number of household served per bank was 40,592 which declined to 6,416 as a result of increase in the number of bank branches. It further improved in 1979 because of opening of more new bank branches.

10. ROADS

(38)

The increase in road length in Parbhani district since 1960-61 is shown in the following table.

TABLE NO. 3.15
Increase in road length in Parbhani district.

| Sr. No. | Category | Extra municipal road length (in km.) | | | |
|---------|-----------------------|--------------------------------------|----------|----------|----------|
| | | 1960-61 | 1970-71 | 1979-80 | 1980-81 |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | National Highway | -- | -- | -- | -- |
| 2. | State Highway | 410.37 | 522.85 | 815.43 | 815.43 |
| 3. | Major District Roads. | 54.71 | 355.00 | 1,339.04 | 1,324.64 |
| 4. | Other District Roads. | -- | 33.20 | 846.82 | 382.03 |
| 5. | Village Roads | 9.65 | 591.00 | 1,362.90 | 1,436.46 |
| 6. | Others | -- | -- | 148.40 | 145.80 |
| 7. | Total | 474.73 | 1,502.05 | 4,512.59 | 4,604.36 |

From the statistics presented in the above table it can be seen that the total road length has increased from 474.73 km. in 1960-61 to 1,502.05 km. in 1970-71, recording three times increase during the decade 1961-71. The increase in the length during the next decade 1971-81 was more than 3 times. It can be further seen that during this period i.e. 1971-81 the length of major district roads jumped from 355.00 km. in 1970-71 to 1,324.64 km. in 1980-81. Similarly, substantial increase was seen in the length of other district roads and other roads. Compared to the figures of road length for 1979-80 no particular increase was noticed in 1980-81.

11. PRICES

The collection of data on prices, wholesale or retail, has now become regular feature since its aim is to watch the price trend which is a vital factor to know the level of economy and obviously the standard of living and the changes in income of the given State/Region/Country.

Contd-

Since November, 1962 retail prices of important selected commodities are being collected by the District Statistical Offices at the District headquarters on every Friday. These prices, although are retail and for selected commodities only, still may prove useful as a broad indicator of trend in changes of prices over the period of time.

The following table indicate the average prices of important selected commodities collected at Parbhani town for the years 1962, 1970, 1979 and 1980.

TABLE NO. 3.16

| Sr. No. | Commodity | Unit | Years | | | |
|---------|--------------------------|---------|-------|-------|-------|-------------------|
| | | | 1962 | 1970 | 1979 | 1980 [@] |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1. | Rice(Medium) | Kg. | 0.81 | 1.55 | 1.95 | 2.14 |
| 2. | Wheat Medium(Sharbati) | " | 0.65 | 1.28 | 1.95 | 1.87 |
| 3. | Jowar(White) | " | 0.54 | 0.83 | 1.41 | 1.55 |
| 4. | Gramdal(mill made) | " | 0.57 | 1.45 | 2.86 | 4.01 |
| 5. | Arhar dal(Tur) | " | 0.80 | 1.76 | 4.51 | 4.47 |
| 6. | Mungdal | " | 0.71 | 1.54 | 4.91 | 5.12 |
| 7. | Sugar(C-30) (O.M) | " | 1.10 | 1.58 | 2.75 | 6.65 |
| 8. | Gur(Local) | " | 0.73 | 1.81 | 1.92 | 4.04 |
| 9. | Groundnut oil(Mill made) | " | 1.93 | 5.24 | 9.52 | 11.23 |
| 10. | Vanaspati | " | 2.92 | 6.81 | 11.14 | 12.43 |
| 11. | Goat meat | " | 2.50 | 4.00 | 10.90 | 14.26 |
| 12. | Eggs | Dozen | 1.65 | 3.09 | 6.05 | 6.15 |
| 13. | Dry chillies(Red) | Kg. | 3.21 | 6.30 | 8.25 | 7.74 |
| 14. | Potatoes | " | 0.47 | 1.06 | 1.15 | 1.85 |
| 15. | Tea leaf(Brooke Bond) | " | 6.85 | 9.94 | 19.21 | 23.48 |
| 16. | Kerosene | Litre | 0.41 | 0.58 | 1.47 | 1.55 |
| 17. | Dhoti (Pair) | Pair | 11.55 | 13.32 | 26.96 | 36.39 |
| 18. | Sari | Single | 15.40 | 21.44 | 40.00 | 40.36 |
| 19. | Shirting | Meter | 1.57 | 2.13 | 6.40 | 6.74 |
| 20. | Cigarette-s | 10 Nos. | 0.30 | 0.59 | 1.28 | 1.53 |
| 21. | Washing soap(501 Bar) | Per Bar | 1.50 | 2.10 | 3.28 | 4.39 |
| 22. | Milk | Litre | 1.00 | 1.50 | 2.50 | 2.62 |

Note:- Prices for the year 1962 are based on average of two months viz. November and December, 1962.

It may be seen from the above table that the prices of commodities under cereals and pulses in 1970 (excepting jowar) have gone up and are doubled or more than doubled as compared to 1962 prices. Same was the case with other commodities like groundnut oil, vanaspati, goat meat, eggs, dry chillies and cigarettes. As regards prices of sugar, tea, leaf and milk it is found that the increase was 50% during the same period.

It may also be seen that the prices during 1980 of almost all the commodities were sharply increased when compared to prices of a decade back i.e 1970. Abnormal increase in the prices was noticed in respect of commodities such as sugar (420.89%), goat meat (356.5%), cigarettes (259.32%) and tea leaf (236.22%).

The statement also indicates that the prices in 1980 in respect of commodities such as gramdal, sugar, tea leaf etc. increased considerably over the prices in the year 1979.

)000(

DGJ/

With the launching of the First Five Year Plan in 1951, the planning process started in the country. The planners first focussed their attention on national level development of the states as a whole and, therefore, they aimed at a balanced growth of all sectors of the economy and full utilization of available resources in the country. Subsequently, on the directives of the Planning Commission, important change of decentralisation of the planning process was brought in and the State Government has adopted the principle of District Planning since the commencement of Fifth Five Year Plan in 1974-75. The striking idea behind the adoption of District Planning is that not only every district should get a specific plan allocation, worked out on the basis of certain parameters but also a select group of peoples representatives from the district should have a say in determining plan priorities and the way in which the plan allocation should be spent in the district on the schemes to be implemented.

In order to achieve the two fold objectives of the District Planning as stated above, the District Planning Boards and District Development Consultative Councils were constituted in 1972 for each district. These two bodies were amalgamated to form a new body known as District Planning & Development Council in 1974 which has been entrusted with the functions of giving guidelines to the various implementing agencies at district level in regard to preparation and implementation of the perspective Five Year Plans, Annual Plans ensuring coordination between various implementing agencies including Zilla Parishad, approve the perspective Five Year and Annual Plans of the district within the broad frame of the national and state Five Year Plan and reviewing from time to time, the

Contd...

progress achieved and bottle necks faced in implementation and make necessary recommendations to State Government in that behalf. For this purpose, a small executive committee of the District Planning & Development Council has also been constituted which meets every month to review and discuss the progress of various schemes taken up for implementation in the district.

The District Planning & Development Council consists of the following official and non-official members:-

1. The Designated Minister of the District. Chairman
2. The Commissioner of the concerned Division. Vice Chairman
3. All members of the Lok Sabha and Vidhan Sabha elected from the district. Members
4. All members of the Rajya Sabha & Vidhan Parishad residing in the district. Members
5. The Collector of the district Member
6. The President of the Zilla Parishad Member
7. The Mayor of the Municipal Corporation, Member or the President of the Largest Municipal Council in the district.
8. The Chairman, District Central Co-operative Bank. Member
9. The Director, Maharashtra State Co-operative Development Bank representing the District on the Board of the Directors. Member
10. The Regional Manager of the Lead Bank. Member
11. A representative of Regional Development Corporation. Member
12. Three non-official members of the former Dist. Planning Board nominated by Government. Members
13. Four non-official members of the former District Development Consultative Council nominated by Government. Members
14. The Chief Executive Officer, Zilla Parishad. Member,

The Draft Fifth Five Year Plan of Parbhani district was prepared during 1973-74 which had a proposed outlay of Rs. 36.41 crores. This Draft Fifth Five Year Plan was prepared on the basis of the guidelines issued by the Government and considering the requirements communicated by various development departments to the District Planning & Development Council which was obviously in pursuance of the policy of the Government underlying the national and State objective.

Cntd-

The following table gives yearwise expenditure during Fifth Five Year Plan period on each head of development as against the proposed outlay as earmarked by the District Planning & Development Council.

TABLE NO. 4.3

FIFTH FIVE YEAR PLAN EXPENDITURE IN PARBHANI DISTRICT. (Rs. in lakhs)

| Sr No | Head of Development | Fifth plan outlay earmarked by the DPDC | Expenditure on Annual Plan | | | | | Total |
|------------------|--------------------------------------|---|----------------------------|---------------|---------------|---------------|---------------|-----------------|
| | | | 1974-75 | 1975-76 | 1976-77 | 1977-78 | 1978-79 | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| 1. | Agricultural Programme | 419.00 | 119.18 | 110.51 | 170.85 | 174.32 | 203.76 | 778.62 |
| 2. | Co-operation & Community Development | 192.00 | 17.11 | 33.48 | 6.55 | 120.60 | 66.11 | 243.85 |
| 3. | Irrigation & Power | 1,615.00 | 63.38 | 72.22 | 136.95 | 141.11 | 110.64 | 524.30 |
| 4. | Industries & Mining. | 10.00 | 1.17 | 0.76 | 7.34 | 5.53 | 16.46 | 31.26 |
| 5. | Transport & Communication. | 165.00 | 7.36 | 18.70 | 25.14 | 71.10 | 97.18 | 219.48 |
| 6. | Social and Community services. | 972.00 | 70.88 | 104.87 | 150.85 | 155.33 | 168.67 | 650.60 |
| 7. | Miscellaneous (E.G.S) | 268.00 | 16.30 | 37.16 | 85.70 | 115.56 | 139.38 | 394.10 |
| T O T A L | | 3,641.00 | 295.38 | 377.70 | 583.38 | 783.55 | 802.20 | 2,842.21 |

It will be seen from the above table that out of Rs. 3,641.00 lakhs earmarked by the District Planning & Development Council as Fifth Plan outlay for the district, an expenditure to the tune of Rs. 2842.21 lakhs was incurred during the Fifth plan period. In fact, this expenditure represents the aggregate of the five Annual Plans implemented in the district during the five years of the Fifth Plan period which was subjected to ceiling prescribed by the Government for each Annual Plan considering the developmental aspirations of the district and the primary needs of the development of the state as a whole.

From the expenditure figures presented in the above table, it can be seen that maximum expenditure (Rs.778.62 lakhs) is incurred on agriculture programme followed by social and community services (Rs.650.60 lakhs) and irrigation and power (Rs.524.30 lakhs) which taken together forms 68.73% of the total expenditure incurred during the Fifth Plan period.

ANNUAL PLAN 1980-81

As regards Annual Plan for 1980-81, the approved outlay, considering the prescribed ceiling for Parbhani district was put at Rs. 731.00 lakhs as against Rs.781.00 lakhs provided for the preceding year 1979-80 when the total expenditure incurred during the above period was Rs.980.15 lakhs and Rs.877.36 lakhs respectively. The share of the local sector in the above expenditure was Rs.93.62 lakhs and Rs.109.51 lakhs respectively. The following table gives approved outlay and actual expenditure incurred during 1980-81 as compared with the year 1979-80.

TABLE NO. 4.5

Development Headwise expenditure incurred on Annual Plan in 1979-80 and 1980-81. (Rs. in lakhs)

| Sr/ No | Major head | 1979-80 | | | 1980-81 | | |
|--------------|--------------------------------|--------------------|--------------------|--------------------|--------------------|-------------------|--------------------|
| | | State sector | Local sector | Total | State sector | Local sector | Total |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| 1. | Agriculture & Allied Services. | 160.00 (20.84) | 54.54 (49.80) | 214.54 (24.45) | 226.51 (25.55) | 19.32 (20.65) | 245.84 (25.08) |
| 2. | Co-operation | 0.9 (0.01) | -- -- | 0.9 (0.01) | 1.52 (0.17) | -- -- | 1.52 (0.16) |
| 3. | Water & power development | 123.19 (16.04) | -- -- | 123.19 (16.09) | 140.94 (15.90) | -- -- | 140.94 (14.38) |
| 4. | Industries & Mining | 19.73 (2.57) | -- -- | 19.73 (2.58) | 45.07 (5.08) | -- -- | 45.07 (4.60) |
| 5. | Transport and Communications. | 86.17 (11.22) | 23.01 (21.01) | 109.18 (0.12) | 76.66 (8.65) | 31.78 (33.94) | 108.44 (11.06) |
| 6. | Social & Community services. | 378.67 (49.32) | 31.96 (29.19) | 410.63 (46.80) | 395.83 (44.65) | 42.51 (45.41) | 438.34 (44.72) |
| TOTAL | | 767.85 (100.00) | 109.51 (100.00) | 877.36 (100.00) | 886.53 (100.00) | 93.62 (100.00) | 980.15 (100.00) |

From the figures presented in the above table, it is evident that there has been slight increase (11.66%) in the expenditure on Annual Plan 1980-81 compared to the Annual Plan expenditure of 1979-80. The share of social and community services in the total expenditure of the Annual Plan 1980-81 is accounted highest (44.72%) followed by agricultural programme (25.08%), irrigation and power (14.38%), transport and communication (11.06%), industry and mining (4.60%) and co-operation and community development (0.16%). Thus it can be seen that on social and community services and agricultural programmes taken together nearly 70% expenditure was incurred during the year 1980-81. During the Annual Plan 1980-81, some sub-heads of development are regrouped bringing changes in some of the major heads of development. The figures for the year 1979-80 are, therefore, adjusted and shown according to new sub-heads/heads of development. The headwise performance is discussed below in detail:-

AGRICULTURE AND ALLIED SERVICES

On all the sub-heads of development falling under agriculture and allied services an expenditure of Rs. 245.84 lakhs has been incurred which forms 25.08% of the total expenditure which is slightly more than the expenditure incurred during preceding Annual Plan of 1979-80. The expenditure shared between state sector and local sector was of the order of Rs. 226.51 and Rs. 19.33 lakhs respectively. The sub-headwise expenditure incurred and percentage shared in the total expenditure on agriculture and allied services during 1980-81 is given below:-

TABLE NO. 4.2

(Rs. in lakhs)

| Sr No. | Sub-head of development | Expenditure incurred under | | | % to total expenditure on Agril. & allied services |
|--------|-------------------------|----------------------------|--------------|-------|--|
| | | State Sector | Local sector | Total | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | Crop Husbandry | 1.59 | 4.09 | 5.63 | 2.31 |
| 2. | Land Reforms | 2.25 | --- | 2.25 | 0.92 |
| 3. | Minor irrigation | 45.70 | 14.15 | 59.85 | 24.33 |

| 1 | 2 | 3 | 4 | 5 | 6 |
|--|---|---------------|--------------|---------------|---------------|
| 4. Soil conservation | | 24.92 | -- | 24.92 | 10.14 |
| | | 15.83 | | | |
| 5. Command Area Development | | | -- | 15.88 | 6.46 |
| 6. Ayacut Development | | 79.05 | -- | 79.05 | 32.16 |
| 7. Animal Husbandry | | 3.85 | 1.06 | 4.91 | 2.00 |
| 8. Dairy Development | | 16.51 | -- | 16.51 | 6.72 |
| 9. Fisheries | | 5.69 | -- | 5.69 | 2.32 |
| 10. Forests | | 0.33 | -- | 0.33 | 0.13 |
| 11. Ware Housing & Marketing | | -- | -- | -- | -- |
| 12. Community Development | | -- | 0.03 | 0.03 | 0.01 |
| 13. Special Programme (I.R.D.P.) | | 30.74 | -- | 30.74 | 12.50 |
| Total Agriculture & Allied Services | | 226.51 | 19.33 | 245.84 | 100.00 |

From the statistics presented in the above table, it can be seen that maximum expenditure (32.15%) was incurred on schemes under Ayacut development followed by minor irrigation (24.33%), special programme (Integrated Rural Development Programme) (12.50%), and Soil conservation (10.14%). On rest of the sub-heads, the expenditure incurred taken together was accounted (20.87%) of the total expenditure on the head of agriculture and allied services during 1980-81.

CROP HUSBANDRY

Under this sub-head the expenditure incurred was Rs. 5.68 lakhs during 1980-81. The amount was spent prominently on schemes relating to cotton protection and its development. Some expenditure was also booked on plant protection schemes. As regards physical achievements an area of 33,600 hectares was utilised to produce improved seeds of cotton such as H-4, Warlaxmi etc. For increasing the production of pulses, various programmes such as demonstration, subsidy on insecticides and subsidy on seeds, were taken up on an area of 8,700 hectares.

144 spray pumps were also distributed as measure of plant protection.

LAND REFORM

Under this sub-head only one scheme viz. financial assistance to holders who got land from the surplus acquired land is implemented. An amount of Rs.2.25 lakhs was spent on 476 beneficiaries.

MINOR IRRIGATION

The minor irrigation programme envisaged construction of minor irrigation tanks, percolation tanks, new irrigation wells, installation of pump sets and grant ^{of} subsidy on failed wells and subsidy to small and marginal farmers for construction of wells and pump sets. During the year 1980-81 an expenditure of Rs.59.85 lakhs was incurred on this programme. Major share in the above expenditure was on the works of construction of minor irrigation tanks under state and local sectors for which Rs.54 lakhs were spent. During the year 1980-81 5 minor irrigation tanks and 3 percolation tanks were constructed. Subsidy for 13 failed wells, 401 wells and 369 pump sets belonging to small farmers was given.

SOIL CONSERVATION

In order to prevent the soil erosion, soil conservation work such as contour & graded bunding are very useful. During the year under review, an expenditure of Rs.24.92 lakhs was incurred and an area of 13,900 hectares has been bunded, while an area of 2,550 hectares has been rectified.

COMMAND AREA DEVELOPMENT

Under this programme various measures for development of land falling under the programme "irrigation projects" are taken up. These works are recently undertaken in the district on which an amount of Rs.15.88 lakhs was spent during the year mostly on roads, buildings and other establishments.

AYACUT DEVELOPMENT

Ayacut development is a programme which aims at maximum utilization of irrigation potential created from various irrigation schemes.

~~In order to take the water over all fields under command, levelling~~ of fields and construction of field channels is done under this programme. This is the sub-head under the head of agriculture and allied services, which has incurred maximum expenditure of Rs.79.06 lakhs i.e 32.16% of the total expenditure of the head of agriculture and allied services during the year 1980-81. Land development works over an area of 6,000 hectares were taken up under this programme.

ANIMAL HUSBANDRY

The economic activities concerning livestock and those relating to agriculture are interdependent. For the development of cattle and improvement of breeds on scientific lines, various schemes like expansion of cattle breeding farm, artificial insemination centres, subsidy for rearing of cross breed heifer and construction of building of veterinary department and centres were implemented during the year under review on which an amount of Rs.4.91 lakhs was spent. Under this programme, 12,500 animals were vaccinated for foot and mouth diseases. 252 cross breeds heifers were produced under the special livestock production programme. Besides, 400 farmers were given training.

DAIRY DEVELOPMENT

Dairy development programme has its own importance in the whole programme in agriculture sector. Adequate consumption of pure and wholesome milk by the population has a great bearing on national health. Besides, Government is trying to encourage people to adopt dairy for earning additional income to supplement their livelihood. During the year 1980-81 an expenditure of Rs.16.51 lakhs i.e only 6.72% of the total expenditure on agriculture and allied activities was incurred mostly on the scheme such as Town Milk Supply and Dairy Co-operative Societies. Under this programme, 76 Dairy Societies were benefited by way of grant of managerial subsidy.

FISHERIES

The objective of fisheries development has been to augment fish production in order to meet the increasing demand of proteinaceous food and socio-economic upliftment of fishermen.

Contd...

In Parbhani in recent past, there have been better chances for planning fisheries development. In the annual Plan of 1980-81 an amount of Rs.5.00 lakhs has been spent on various schemes. During this period fish seed production over 3.25 crores was done and about 61 metric tonnes of stocking of fish was achieved.

FORESTS

Forest beside providing material benefits such as timber, firewood and a number of other articles of daily use, also play vital role in protecting land against soil erosion and floods etc. In Parbhani district total area under forests is around 38,000 hectares. During the year under review Rs.0.33 lakhs ^{were} spent. An area of 485 hectares was taken up for reforestation of degraded forests.

SPECIAL PROGRAMME (INTEGRATED RURAL DEVELOPMENT PROGRAMME)

The Integrated Rural development programme was taken up for implementation first in the year 1978-79 through Small Farmers Development Agency. This is centrally sponsored programme for which state Government shares 50% of expenditure while the 50% is borne by the Central Government. Under this programme not only small farmers and marginal farmers are assisted, but a sizable families of rural artisans and other small traders are also given financial assistance. Special care is taken to extend the help to the scheduled caste/scheduled tribes beneficiaries and other weaker sections. Under the programme, there are several schemes meant for farmers such as supply of bullock pairs/carts, demonstrations of raising high yielding crops on the fields of small farmers, distribution of agricultural implements, construction of wells and installation of pump sets, distribution of milch cattle, goats sheep etc. The families of rural artisans and small traders are also financially assisted after giving them necessary training for acquiring new skills and techniques.

Contd..

The whole programme is dependent on the loan given by the nationalised banks against which subsidy is admissible to the beneficiaries at the rate raising from 25% to 50% according to nature of scheme and considering the status of borrower, viz. whether he is small farmer, marginal farmer, or scheduled caste, scheduled tribe as the case may be. During the year under review an amount of Rs. 30.74 lakhs was spent as a state share from the annual Plan provision, an equal amount was spent for this programme from out of central shares. Following are the beneficiaries under this programme during the year 1980-81.

| Sr No | Sub-head | Number of beneficiaries |
|-------|---------------------------|-------------------------|
| 1 | 2 | 3 |
| 1. | Agriculture | 3,863 |
| 2. | Animal Husbandry | 1,614 |
| 3. | Minor Irrigation | 1,266 |
| 4. | Training | 516 |
| 5. | Co-operation & Industries | 288 |

Although it is a beneficiary oriented scheme, some amount is also spent for schemes to develop infrastructure in the area.

CO-OPERATION

After restructuring of the head of development with effect from Annual Plan 1980-81, the earlier head viz. co-operation and community development is bifurcated. The community development part is included under the head of agriculture and allied activities as a sub-head while the co-operation is made independent head. Under this head, an expenditure of Rs. 1.52 lakhs was incurred during the year 1980-81. On schemes such as assistance to Farmers Services Societies, Cotton Ginning and Pressing, Urban Consumers Co-operative Societies and Labour Contract Societies etc.

Following are the important achievements under this programme:-

1. Societies assisted

| | |
|--|-----|
| a) Farmers Services Societies | 2 |
| b) Urban Co-operative Societies | 2 |
| c) Ginning and Pressing Units | 1 |
| d) Labour Contract Societies | 7 |
| 2. Grant of interest subsidy to small farmers. | 832 |

WATER AND POWER DEVELOPMENT

Under water development, schemes such as medium irrigation projects including flood control are included. While under power development scheme, regarding rural electrification and other normal development programme and electrification of Harijan Basties are implemented. The total expenditure taken together on all above schemes under this head during 1980-81 was Rs.140.94 lakhs. During the year under review (3) villages were electrified, 989 agriculture pumps were energised, and 386 street lights were provided to Harijan Basties.

INDUSTRIES AND MINING

Under this head of development there are two components, one dealing with large and medium industries and another is small scale industries. The district is not a industrially developed one. No major industries have so far come up. Very recently a few large industries have started preliminary work for their units. Under small scale industries, however, the progress is comparatively better. During 1980-81, the expenditure on large and medium industries and small scale industries taken together was Rs.44.07 lakhs which is only 4.60% of the total expenditure of District Plan. As regards physical achievements of one large unit /spinning mill under co-operative sector at Parbhani has been assisted with the share capital contribution worth Rs. one lakh, 245 educated unemployed entrepreneurs have been assisted with seed money for opening their own units. 8 Block Level multipurpose co-operative village artisans societies have been assisted, while 4 industrial co-operatives are also given financial assistance.

Similarly, under Employment Promotion Programme, 112 persons are benefitted.

TRANSPORT AND COMMUNICATION

ROAD DEVELOPMENT

On road development work an expenditure of Rs.108.44 lakhs i.e 11.06% of total expenditure on District Plan for the year 1980-81 has been incurred. Construction and improvement of roads both under State and Local sector on Rural Roads and District Roads was taken up during the year under review. 107 kms. of rural roads and 170 C.D.works on these roads are completed. Similarly, work on 10 bridges and 40 C.D.works have also been completed during the year 1980-81.

SOCIAL AND COMMUNITY DEVELOPMENT SERVICES

Under this head of development more sub-heads have been included after restructuring the sub-heads and heads of development. Now there are 13 sub-heads under this development head. During the year 1980-81 the total expenditure of Rs. 438.34 lakhs has been incurred which forms 44.72% of the total expenditure of District Plan, the highest of all the heads of development during the year under review.

The details of sub-headwise expenditure both under State and Local sectors indicating percentage to total expenditure under the major head "Social and Community Development Services" are given in the statement below:

S T A T E M E N T

| Sr. No. | Sub-heads of Expenditure | Expenditure incurred in the year 1980-81 (Rs. in lakhs) | | | % to total expenditure on social & community services. |
|---------|--------------------------|---|-------|-------|--|
| | | State | Local | Total | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. | General Education | 1.72 | 12.80 | 14.52 | 3.31 |
| 2. | Arts and culture | 0.12 | -- | 0.12 | 0.03 |
| 3. | Technical Education | 0.45 | -- | 0.45 | 0.10 |
| 4. | Health | 5.06 | 15.60 | 21.26 | 4.85 |

Contd-

| 1 | 2 | 3 | 4 | 5 | 78 |
|--|---------------|--------------|---------------|---------------|----|
| 5. Water supply and Drainage | 84.76 | 8.00 | 92.76 | 21.16 | |
| 6. Housing | 90.00 | -- | 90.00 | 20.53 | |
| 7. Urban development | 27.60 | -- | 27.60 | 6.30 | |
| 8. Labour & labour welfare | 9.61 | -- | 9.61 | 2.19 | |
| 9. Welfare of Backward classes | 11.37 | 3.98 | 15.35 | 3.50 | |
| 10. Social Welfare | 0.39 | -- | 0.39 | 0.09 | |
| 11. Nutrition | -- | 2.13 | 2.13 | 0.49 | |
| 12. Employment Guarantee Scheme | 164.15 | -- | 164.15 | 37.45 | |
| 13. Information & Publicity | -- | -- | -- | -- | |
| TOTAL SOCIAL AND COMMUNITY DEVELOPMENT SERVICES | 395.83 | 42.51 | 438.34 | 100.00 | |

It can be seen from the table presented above that major expenditure of Rs. 164.15 lakhs or 37.45% was incurred on Employment Guarantee Scheme work. The other sub-heads which fared well were water supply and drainage and housing which taken together have shared 41.69% of the total expenditure of the major head of social and community development services. In other words more than 79% of expenditure has been shared by the above mentioned sub-heads taken together. Remaining expenditure of Rs. 324.19 lakhs was shared between other sub-heads.

GENERAL EDUCATION

Under this sub-head Rs. 14.52 lakhs (Rs. 1.72 lakhs under State sector and Rs. 12.80 lakhs under local sector) i.e. 3.31% of total expenditure on social and community development services are spent on the schemes included in the Annual Plan 1980-81.

Besides, a number of other schemes such as book banks, special facilities given to weakers section, open merit scholarship etc. were also taken up. As regards physical achievements, more than 27,000 books are supplied to libraries of primary and middle schools. 25 rooms were constructed in Zilla Parishad primary schools.

Special facilities to scheduled castes/scheduled tribes students were made available to 700 students. 45 science kit boxes were supplied under UNICEF aided programme. (4) primary schools in rural areas were awarded for ideal primary schools. 32 scholarships were given to post S.S.C. level under Adult Education Programme. 30 primary Adult Education Centres were established and 35 libraries were opened.

ARTS AND CULTURE

This sub-head is newly formed on deleting it from the earlier sub-head of general education on which an expenditure of Rs.0.12 lakhs was incurred during the year 1980-81. Under this scheme, one rural sports centre was started. Development of 3 playgrounds and 7 gymkhana were taken up in the district.

TECHNICAL EDUCATION

Under this sub-head Rs.0.45 lakhs were spent during the year 1980-81 on the scheme of opening of civil engineering for sub-ordinate services.

HEALTH

Under this sub-head important schemes particularly for rural areas such as strengthening of and providing of more medicine to public health centres, construction of buildings for primary health centres and rural hospitals, community level health workers schemes and schemes for urban and rural enhancement of facilities of ayurvedic etc. were under implementation during the year 1980-81 in the district.

A total expenditure of Rs.21.26 lakhs (Rs.5.66 lakhs under state sector and Rs.15.60 lakhs under local sector) has been incurred on the schemes under this sub-head. Under the scheme to supply more medicines, 14 primary centres and 177 sub-centres have been covered. Similarly, in 7 Ayurvedic dispensaries, more facilities were provided by way of giving more medicine and staff.

WATER SUPPLY AND DRAINAGE

Under this sub-head a number of schemes for improvement of augmentation of the existing water supply schemes mostly in urban areas, rural water supply scheme, digging up of tube wells and other wells were under implementation in the district, during the year 1980-81 on priority basis.

Total expenditure under this sub-head was Rs.92.76 lakhs (Rs.84.76 lakhs under state and Rs.8.00 lakhs under local sector) which worked out to 21.16% of the total expenditure on social and community development services. One scheme each from urban and rural piped water supply was taken up as augmentation work. Under one scheme of conversion of dry latrines into flush, 194 such latrines were converted. Similarly, 72 works of new and incomplete wells were got completed.

HOUSING

The programme of the rural housing is a part of the minimum needs programme formulated by Government of India, which envisages construction of huts for the rural poor who have no houses of their own. There is also one scheme regarding extension of gaathan in the villages. Total expenditure on housing programme during the year 1980-81 was Rs.90.00 lakhs i.e 20.23% of the total expenditure on major head of social and community development services. Under huts construction programme, 5131 huts were constructed during the year under review.

URBAN DEVELOPMENT

Under this sub-head total expenditure incurred was Rs.27.60 lakhs, schemes of financial assistance to municipal councils for carrying out development works and another schemes for providing amenities to develop huckments are the two important schemes under this programme.

LABOUR AND LABOUR WELFARE

Under this sub-head of development an expenditure of Rs.9.61 lakhs has been incurred in 1980-81 which formed only 2.19% of the expendi-

ture on its major head. Under the scheme of honoraria to educated unemployed about 2800 people were benefitted.

WELFARE OF BACKWARD CLASSES

Various schemes providing assistance to backward class students for payment of tuition fees, examination fees, scholarship and institutions running backward class hostels etc. are covered under this sub-head. On which an expenditure of Rs.15.35 lakhs (Rs.11.37 lakhs under state sector and Rs.2.98 lakhs under local sector) has been incurred during the year 1980-81.

393 backward class students have been awarded scholarship in high schools, 46 in Industrial Training Institute and post H.S.C. scholarship to VJ/NI/ST. One backward class hostel is started while 3 aided backward class hostels were given grant-in-aid. Backward class co-operative housing societies were provided financial assistance. Similarly, 160 individual and group housing schemes were financially assisted during the year 1980-81. Besides this, 4 couples were given incentives for inter caste marriage.

SOCIAL WELFARE

Under this sub-head schemes for expansion of Children Act, Probation of Offenders Act and International Year of Children were implemented in the district. Only Rs.0.39 lakhs was spent during the year 1980-81 under this sub-head.

NUTRITION

The scheme like mid day meal for school going children and applied nutrition programme are covered under this newly formed nutrition sub-head.

(57)

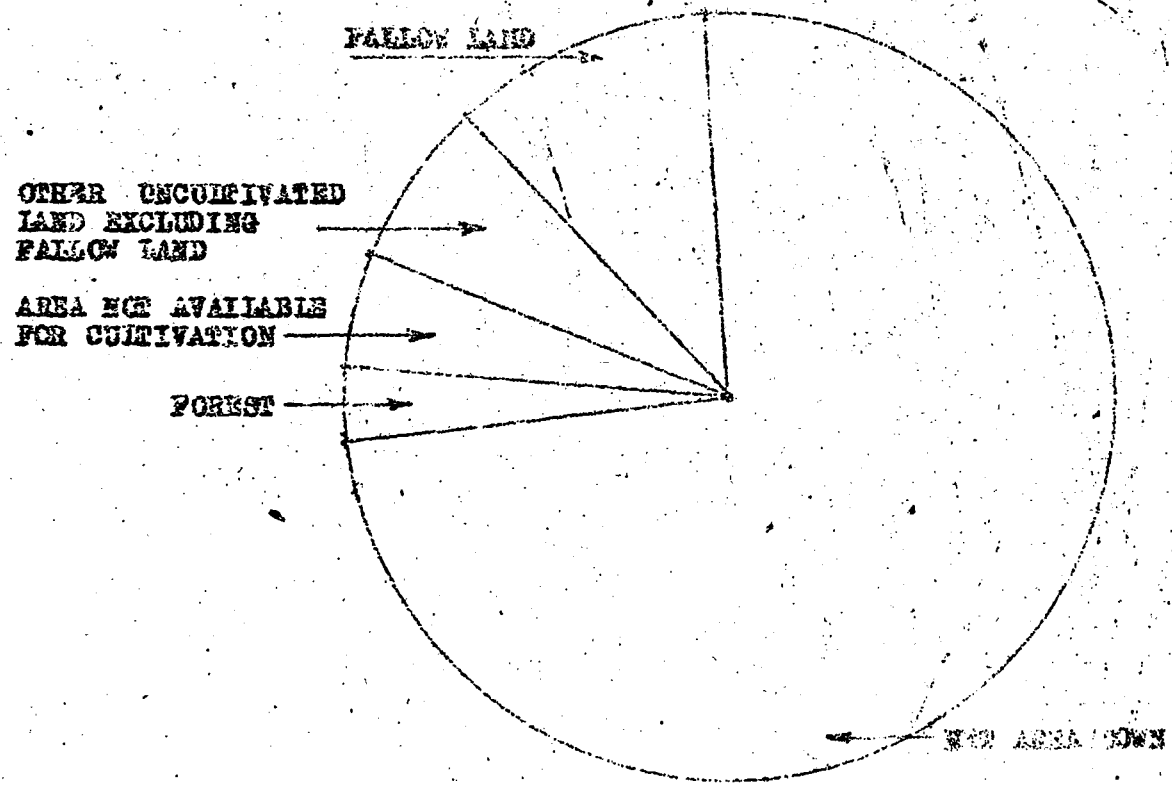

On which all the expenditure of Rs.2.13 lakhs has been incurred under local sector during the year 1980-81. For school feeding programme sukadi(49,238 kg.) and milk (2,946 litres) have been distributed in various schools.

EMPLOYMENT GUARANTEE SCHEME

The schemes taken up under Employment Guarantee Scheme programme have shared major expenditure i.e Rs.164.15 lakhs or 37.45% of the total expenditure under social and community development services during the year 1980-81. There had been under implementation more than 800 works in the district on which average labour attendance touched 12,500 mark.
