## CHAPTER NO. I

### INTRODUCTION

#### 1.1 Location :-

Solapur district is situated on the south-east fringe of Maharashtra State and lies between  $17^{\circ}.10'$  and  $18^{\circ}.52'$  north latitude and  $74^{\circ}.42'$  and  $76^{\circ}.15'$  east longitude.

#### 1.2 Boundaries:-

The district is surrounded by Ahmednagar and Osmanabad districts in the north, Osmanabad district and Andhra Pradesh in the east; Sangli district and the Karnatak State to the South and Satara and Pune districts towards the west.

#### 1.3 Topography:-

Hill Ranges:- There is no important hill system in the district. Only in the north of Barshi tahsil several spur of Balghat range pass south for a few miles. Of these, the chief is the Barshi ghat, about fourteen miles east of Barshi tahsil.

There are also scattered hills in Karmala, Madha and Malshiras tahsils, In Karmala, Baghoba hill about 210' high and Bodki hill about 190' high lie about sixteen miles south east of Karmala. The top of these hills is flat. In Madha tahsil, Chinchgaon hills, about 300 feet high, lie about four miles north of Madha Tahsil. The Gurnand hill is in Malshiras tahsil.

The low table-land and small separate hills in Karmala and Madha tahsils act as the Watershed between Bhima river and Sina river.

#### 1.4 River:-

The chief rivers are the Bhima with its right-bank feeders Nira and Man and left bank feeders the Sina and Bhogawati. The Bhima rises in the Sahyadries at Bhimashankar in Khed tahsil of Pune district. It runs south east through Pune, Ahmednagar and Solapur districts of Maharashtra State. The drainage area of Bhima within the district includes on the left bank western half of Karmala, Madha, Pandharpur and South Solapur tahsils and on the right bank, the Southern part of Pandharpur and Mangalvedha tahsils. The length of Bhima within the limits of the district is 289 kms.

The Nira rises in the Sahyadri in Pune district. It flows south east and east along the borders of Pune, Satara and Solapur districts. It falls into the Bhima about 8 km. south-west of Tembhurni in Madha tahsil.

The river Man on entering Sangola tahsil from the western border flows east-wards draining Sangola tahsil and part of Pandharpur and Mangalvedha tahsils. It meets Bhima near Pandharpur.

The Sina, which flows from north to south-east parallel to Bhima, drains the tahsils of Barshi and North Solapur on the left and part of Karmala, Madha and South Solapur on the right. Bhogawati rises in the Balaghat range in the north-east of Barshi tahsil and falls into Sina river near Mohol. For large part of the year the rivers are fordable, except for occasional pools of water found in the Bhima river during summer. During the south-west monsoon the smaller streams and the Bhima river are flooded by heavy falls in the Sahyadries. The greater part of Malsiras tahsil is drained by the river Nira which is the right bank feeder of the Bhima. Sangola, part of Pandharpur and Mangalvedha tahsils are drained by the Man river. The eastern part of Barshi and North Solapur and part of Karmala, Madha and South Solapur tahsils are drained by Sina river. Part of the Barshi and Madha tahsils lie in the basin of Bhogawati river. Thus, the water courses of the tributaries in the district may be reckoned at about 650 km.

#### 1.5 Soils:-

The geographical foundation of soil prevailing in Solapur district is mainly of Deccan trap of volcanic origin. The soil is underlain by partially decomposed basaltic rock, locally known as 'MURUM' which overlies parent material. On account of more or less complete absence of leaching, the soils are base saturated, the exchangeable calcium being the predominant claimant. The lime reserve is fairly high (3.5 to 10 p.c.). The soils exhibit varying degrees of erosion and truncated profile is a common occurrence. The soils in the district can be classified into four main categories on the basis of depth and structure namely:-

- a) Very shallow soils with depth below 7.5 cm.
- b) Shallow soils between 7.5 to 22.5 cm.
- c) Medium deep soils between 22.5 to 90 cm.
- d) Deep soils with depth more than 90 cm.

It is broadly estimated that out of the total cultivated area very shallow soils occupy about 10 p.c. of the area, shallow soils 20 p.c., medium deep soils 45 p.c. area and deep soils 25 p.c. area. In Karmala tahsil about 50% soil is black and the remaining is red and light. The soils of Sangola and Mangalvedha are mainly light brown or greyish black and are shallow. Madha tahsil has shallow soil having varying depth and quality. In Pandharpur, soil is poor capable of producing millets only. The soil in Malshiras is shallow and not retentive of moisture. Except along with the banks of the rivers and nallas and the few valleys where the soils are deep, district has shallow soils with low water holding capacity. Crops in this area, therefore, suffer the most during the drought conditions.

#### 1.6 Rainfall:-

Climatically the entire district falls in the rain shadow area. The monsoon period in Solapur district covers the period from mid-June to end of September. There are two peaks in the rainfall pattern of the district. The first in June-July and the second in September with a through in between. The rainfall throughout the district is scanty and annual average is 577 mms. for the district.

The meagre rainfall is received from south west as well as north-east monsoon. The paucity of total amount of rainfall and large variations both in extent and the distribution in different years makes the agriculture almost a gamble on the rains. The analysis of rainfall data since 1953 indicates that not only there are variations in the total rainfall, but also the distribution of rainfall was unevenly spread over the monsoon seasons. The number of rainy days varies very widely from year to year. During 1980 rainfall was less than the annual normal rainfall at Solapur, Madha, Malshiras, Jeur, Akkalkot, Mohol and Mangalvedha centres and it was more than normal rainfall at Barshi, Karmala, Pandharpur, Sangola and Akhus centres.

#### 1.7 Famine and scarcity:-

Agro-climatically, the entire district except Akkalkot tahsil falls in the rainfall shadow zone. The district witnesses recurrent scarcity conditions. The Faradasani Committee (1960) after considering the data on rainfall, annewari and declaration of scarcity for 30 years ending 1957, recognised all the tahsils

barring parts of Barshi tahsil and irrigated tract of Malshiras in Solapur district as drought prone area. The Irrigation Commission (1962) had also recognised all the tahsils of the district, except Malshiras as drought prone. The Sukhatkarkar Committee (1973) after studying the erratic behaviour of rainfall pattern and the frequency of a large number of deficient weeks, recognised the entire district except areas served by the protective irrigation system, as drought prone.

Solapur district passed through a period of drought for three years 1970-71, 1971-72 and 1972-73 in succession. In the year 1973-74, although the agricultural situation was normal in the state, scarcity of a lesser magnitude existed in few villages of the district. Due to frequent visitation of scarcity, the agricultural population in the district always suffers heavily.

However, during the years 1977-78, 1978-79 and 1979-80 none of the villages in the district was affected by scarcity condition.

1.8 Minerals:-

There are no minerals of economic importance in this district. However, minerals like building stone are found in sufficient quantity all over the district.

1.9 Forest:-

The total area under forest is 403.23 square km. All these forests are scrub forests growing thorny bushes. The forest area is much scattered. It may be classified roughly into two tracts, i.e. hills between Barshi and Osmanabad on the extreme north and east and hills to the south of Malshiras and Sangola in the extreme south-west.

The forest products of Solapur District are grasses, Tendu, gum, seedlings and agave. The value of forest products was Rs.48000 during 1980-81.

1.10 Area:-

Solapur district comprises of an area of 15021 sq.km. which is 4.88 percent of the total area of the state. Of this, urban areas account for 414 sq.km. and rural areas for 14,607 sq.km. In terms of area, Barshi is the largest tahsil with an area of 1,626 sq.km. and the smallest tahsil is North Solapur with an area of 735 sq.km.

### 1.11 Demography:-

Final figures of total population in each district in the state as per 1981 census have been published just recently by the Census Department. According to that publication, total population of Solapur district was 26.10 lakh. The population was 22.54 lakhs and 18.60 lakhs as per the population censuses of 1971 and 1961 respectively. In order to have an idea about growth of population during the last three decades, a table indicating total population of Solapur district and each tahsil and decadal percentage variation in population is given below.

Sr. District/ No. Tahsil	Population			Decadal percent variation (only *)			
	1961	1971	1981	1961	1971	1981	
1	2	3	4	5	6	7	8
District	18,60,149	22,53,840	26,10,144	23.57	21.17	15.81	
<u>Tahsil</u>							
1) Solapur North	4,05,833	4,87,134	6,15,608	24.63	20.03	26.37	
2) Barshi	2,20,895	2,62,716	2,76,757	18.27	18.99	5.34	
3) Akkalkot	1,75,335	2,06,678	2,35,510	17.16	17.88	4.27	
4) Solapur South.	1,12,504	1,33,343	1,51,031	20.32	18.52	13.27	
5) Mohol	1,23,073	1,42,334	1,58,630	20.53	15.65	11.45	
6) Mangalvedhe.	89,172	1,07,823	1,17,501	27.37	20.92	8.79	
7) Pandharpur.	1,53,915	1,87,613	2,37,680	19.73	21.89	25.69	
8) Sangole	1,28,012	1,55,516	1,82,063	23.10	21.40	17.07	
9) Malshiras	1,66,521	2,26,480	2,82,300	35.57	36.01	24.65	
10) Karmala	1,28,345	1,51,493	1,55,714	23.23	18.04	9.39	
11) Madha.	1,56,511	1,92,710	2,07,550	28.10	23.33	7.70	

Out of the total population of 26.10 lakhs in 1981, 18.43 lakhs (about 71 percent) lived in rural areas and the remaining 7.67 lakhs (29 percent) lived in urban areas. It was observed that the percentage of urban population increased from 27 percent to 29 percent during a period of 10 years from 1971 to 1981. As per 1961 census, about 28 percent population of the district was in urban areas.

### 1.12 Density:-

The density of population per square km. for the district was 150 in 1971 as compared to 124 in 1961. However, the same increased to 174 in 1981.

### 1.13 Decadal Variation:-

The figures of 1981 population census indicate that the growth of population of the district during a period of 1971 to 1981 was less in comparison with the growth rate observed during the previous two decades. As against the growth rate of 23.57 percent in 1961 over 1951 and 21.17 percent in 1971 over 1961, the population in Solapur district increased by 15.81 percent during the period of 1971 to 1981. It is <sup>also</sup> seen that increase in population in Solapur district during the last decade was on lower side in comparison with the growth of population of the state during the same period because the growth rate in population of the state was 24.54 percent.

The decadal growth rates were 21.0 percent between 1951-61, 18.6 percent between 1961-71 and 28.6 percent between 1971-81 in the urban areas as against 24.6 percent, 22.2 percent and 12.6 percent during the above quoted periods\* respectively. It can be, <sup>in</sup> <sub>rural</sub> <sup>areas</sup> therefore, argued that the population in rural areas of the district has decreased considerably whereas the same has increased substantially in urban areas during the last decade.

Intertahsil population variations reveal that except Solapur North and Pandharpur tahsils the growth of population was less in all other tahsils in the district during the last decade in comparison with the period of 1961-71. The lowest growth rate, i.e. about four percent only was observed in Akkalkot tahsil.

### 1.14 Occupational Pattern:-

According to 1971 census, out of the total population of 22.54 lakhs in the district, 7.59 lakhs <sup>were</sup> workers. The distribution pattern of workers in different categories reveals that 35 percent of the workers were cultivators, 33 percent were as agricultural labourers and remaining 32 percent were other workers. The percentages of cultivators and agricultural labourers to the total rural working population were 45 and 41 respectively as against the corresponding percentages 47.5 and 38.1 in the state. Thus, about 86 percent of the working population of the rural areas of the district sustain their livelihood from agriculture.

70.6 percent workers were engaged in the primary sector of the economy comprising of agriculture, agricultural labour, livestock, forestry plantation etc. while the secondary sector

comprising of manufacturing, processing and construction activities accounted for 14.5 percent workers. The tertiary sector, comprising of trade and commerce and other services had 14.9 percent workers. Thus it is evident that employment opportunities in the secondary and tertiary sectors have not yet developed. There is, therefore, much pressure on the primary sector. If higher employment in secondary and tertiary activities is taken as an indicator of economic advancement of a region, the tahsils of Mohol, South-Solapur, Sangola and Mangalvedha can be identified as more backward areas of the district having less than 15 percent of the workers engaged in the sectors other than the primary.

#### 1.15 Special Features:-

(i) Industries:- Due to Nira Right Bank Canal a large portion of cultivated land has been brought under irrigation for sugarcane cultivation in Malshiras tahsil. As such most of the sugar factories are concentrated in Malshiras tahsil. Out of eight sugar factories, in the district four are situated in Malshiras tahsil alone and one each is situated in North Solapur, Pandharpur, Mohol and Barshi tahsils. Due to availability of molasses from sugar factory, the Brahan Manarashtra sugar Factory Ltd. Sangur, (Malshiras taluka) manufactures rectified spirit and liquor.

Solapur city and Barshi are the important textile centres. In Solapur city there are in all four composite textile mills out of which Narsing Girgi Mill is run by Government. At Barshi there are three textile mills. So also two spinning mills in the cooperative sector are established at Solapur proper. Besides there are number of Handloom and Powerloom centres in Solapur city. There are about 8000 powerlooms in the district and all are situated in Solapur city. Jacquard chaddar and Dhoti and long cloth are weaven on them. There are about 15000 handlooms in the district. The handloom industry has provided economic subsistence to large population of weavers community.

(ii) Important crops:- Both Kharif and rabi crops are grown in Solapur district. But area under rabi crops is predominant.

(iii) Irrigation Projects:- There is only one major irrigation project, i.e. Ujani in the district. The work on the major components of the project viz. left and right bank canals and the distribution system of the left bank canal is in progress.

The work of dam has already been completed. The work of the aqueduct across Sina river and right bank canal has been taken in hand. Gross area commanded, cultivable area commanded and irrigable area by completed project are 1,53,530 hectares, 1,24,375 hectares and 1,12,940 hectares respectively.

(iv) Drought Prone Areas: - In view of deplorable conditions prevailing in the drought prone areas, the state Government has undertaken in the Fifth Plan, a programme for drought prone areas in 87 tahsils of 12 districts of the state, which have been identified by ~~identified~~ by the state Government as drought prone. Out of these 12 districts, two districts viz. Solapur and Ahmednagar have a massive drought prone areas programme for which assistance from the International Development Association, an affiliate body of the world Bank, has been negotiated. The programme is catalytic in character and is expected to generate complementary investment outlay from the financial institutions like the Maharashtra State Cooperative Bank, Maharashtra State Cooperative Land Development Bank and the nationalised banks. The strategy of development in the drought prone areas of Solapur district involves the various measures for land development and moisture conservations water harvesting and minor irrigation, dry land farming livestock development, forestry and pasture development.

The D.P.A.P. for Solapur adopted a watershed approach and initially 10 watersheds, one in each taluka excluding Pandharpur, comprising of 113 villages, were selected. Ten more watersheds were added in 1977-78 to utilise expected savings in the project outlay. The achievements are discussed in the Chapter IV.

(v) Integrated Rural Development Programme: - The integrated Rural Development Programme, launched in 10 out of 11 blocks of this district since 1978-79, now covers all the tahsils in the district and it aims at providing additional employment opportunities in the rural areas and to raise the level of income of the weaker sections i.e. small and marginal farmers, Agriculture and non-agriculture labourers and village artisans. Eleven blocks selected are categorised as under:-

<u>D.P.A.P. Blocks</u>	<u>C.A.D.A. Blocks</u>
1) South Solapur	1) North Solapur
2) Mangalvedha	2) Mohol
3) Sangola	3) Madha
4) Karmala	4) Pandharpur
5) Barshi	5) Malshiras
6) Akkalkot	

The Executive Director, D.P.A.P., Solapur is entrusted with the planning, implementation and monitoring of the I.R.D.P. in the 10 blocks selected under both the programmes. The Block Development agency is responsible for identification of beneficiaries, collection of loan applications from beneficiaries, submission of the loan applications to the banks and organising demonstrations on farmers fields.

As against the total provision of Rs.63.04 lakhs, an amount of Rs.45.43 lakhs was spent upto the end of March 1981.

(vi) Employment Guarantee Scheme:- The Employment Guarantee Scheme is being implemented since March 1972. The aim of the scheme is (a) providing employment to all rural adults seeking manual un-skilled work and (b) utilising the manpower so available for the creation of durable productive assets. The scheme has now been extended to the work seekers residing in 'C' class municipal areas also. The works taken up in the programme of Employment Guarantee Scheme are of productive nature viz. minor irrigation, land development, afforestation etc.

Further details of the work done under Drought Prone Area Programme and Employment Guarantee Schemes have been discussed in Chapter IV.

## CHAPTER - II

### EXPLANATORY NOTES

2.1 The data in respect of different important sectors of economy of Solapur district are presented in this Abstract for the year 1980-81. In case the information for the year 1980-81 is not available, the same for the latest available year is presented. In most of the cases, the reference period of the data is the financial year. The data on agriculture and cooperation, however, relate to the agricultural and cooperative years, i.e. 1st July to 30th June. The data on other important items like rainfall, temperature, civil and criminal cases, vital statistics are for the calendar year. The information, as far as possible, is presented tahsilwise for the sake of inter tahsil comparison.

District At-A Glance:-

2.2 Certain essential information relating to important spheres such as, (i) Population (ii) Agriculture (iii) Animal Husbandry (iv) Industries (v) Cooperation (vi) Medical and Public Health (vii) Education (viii) Transport and communication (ix) Plan expenditure etc. pertaining to the district is presented alongwith the corresponding figures for the state for the comparison purpose.

District Statistical Abstract:-

2.3 The data incorporated in the District Statistical Abstract have been presented in suitable tables, classified in appropriate groups. The concepts adopted in preparation of tables are summarised in the following paragraphs. The limitations of data are cited wherever necessary.

Area and Population :-

2.4 - The data of 1971 census mainly on population, area, houses and livelihood, occupation, rural urban break-up etc. are presented in the first seven tables for all tahsils in the district. Data on population per square kilometre, decadal variations during 1951-61 and 1961-72, classification of villages and towns according to population ranges, number of workers and non-workers, population of scheduled castes and scheduled tribes, distribution of population according to age group and religion are also given in these tables.

2.5(a) Urban Area:- The following places have been treated as urban areas (towns):-

1. Every place having a municipality or cantonment board irrespective of its population.
2. Every other place which satisfies the following three conditions:-
  - i. a population of at least 5,000
  - ii. at least three-fourth of its male working population engaged in non-agricultural pursuits and
  - iii. a density of population of at least 400 persons per square kilometre.
3. Any other place not falling under above two categories but which possesses certain district characteristics to qualify it being treated as urban area as it happens to be a project area or a developing township.

(b) Rural Area:- Those areas which do not satisfy the criteria prescribed for recognising urban area are called rural areas.

A census village in Maharashtra has always been a revenue village. A revenue village has well defined boundaries, a map and a separate set of land records irrespective of whether that defined area has any population or not.

(c) Worker:- A worker is defined as a person whose main activity is participation in any economically productive work through his physical or mental activity. Work involves not only actual work but effective supervision and direction of work.

A public or social worker engaged actively in public or social work or political worker actively engaged in furthering the political aims of a party was also regarded as a worker. In case of <sup>of</sup>perennial work, such as cultivation, Livestock, plantation, some type of household industries, a person was treated as a worker by ascertaining whether he had participated any time during the last one year, even if, he was not economically active in the week prior to enumeration. In case of regular work in trade, profession, service or business, a person was considered as 'worker', if he had participated in such regular work on any one of the days during the week preceeding the date of enumeration and that work has been returned as his main activity.

(d) Non-Worker:- Non-workers are those who are not mainly engaged in any economically productive work.

Persons primarily engaged in household duties or those who were students and helped in the family economic activity, but not on full time scale were treated as 'Non-worker' in respect of their main activity.

## 2. Climate:- -----

2.6 The rainfall and temperature have pronounced effects on climate. The rainfall data presented in table number 8 gives normal rainfall, monthly rainfall and number of rainy days during the calendar year 1980 for the selected centres. Normal rainfall figures are worked out on the basis of actual rainfall for the periods ranging from a minimum of 5 years and a maximum of 80 years. A day was treated as a rainy day if during the twenty four hours the rainguage recorded a minimum of 2.5 mm. of rainfall. The table number 9 gives actual maximum and minimum temperatures recorded during each month of the calendar year 1980 in respect of 2 centres viz. Jeur and Solapur.

## 3. Agriculture:- -----

2.7 Important tahsilwise statistics on agriculture such as, (i) Land utilization (ii) Area under different crops (iii) Yield per hectare and outturn of principal crops (iv) Irrigated area under different crops (v) Sourcewise irrigated area and (vi) Data on irrigation etc. are given in tables 10 to 14.

2.8 The basic difinitions adopted are given below:-

(a) Geographical Area:- It is according to village papers, calculated from village returns prepared for revenue purposes and as such it may be different from that according to surveyor General.

(b) Forests:- It includes all actually forested areas or lands classed or administered as forests under any legal enactment dealing with forests, whether state owned or private.

If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or un-cultivated land.

(c) Land put to non-agricultural Uses:- It stands for all lands occupied by buildings, roads and railways or under rivers, canals etc. and other land put to uses other than agricultural.

(d) Barren and Un-Culturable land:- It covers land which cannot be brought under cultivation unless at a high cost, whether in isolated blocks or uncultivated holdings. Land like mountains deserts etc. is classified under this category.

(e) Permanent pastures and other grazing lands:- It covers all grazing lands and village common grazing lands. The grazing lands within forest area are also included under this head.

(f) Culturable waste land:- These may be either fallow or covered with shrubs and jungles which are not put to any use and include all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once, but not cultivated during the current year and the last five years or more in succession.

(g) Miscellaneous tree crops and groves not included in the net area sown:- This category includes all cultivable land which is not included in net area sown but put to some agricultural use.

(h) Current fallow lands:- These are lands which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

(i) Other fallows:- All lands which were taken up for cultivation but are temporarily out of cultivation for a period not less than one year and not more than 5 years are classed as other fallows.

(j) Net area sown:- This consists of net area sown with crops and orchards, area sown more than once being counted only once.

(k) Gross cropped areas:- Total of area under all crops including area under crops sown more than once is taken as gross cropped area.

Cultivable area is a sum of areas under (a) Miscellaneous tree crops and groves not included in the net area sown (b) Current fallows (c) Other fallows (d) Culturable waste land and (e) Net area sown.

#### 4. Irrigation Statistics

2.9 Important irrigation statistics regarding (a) Number of irrigation wells. (b) Activities of ground water survey and development agency (c) Minor Irrigation works (d) Major and Medium Irrigation Projects and (e) Area irrigated under major and medium projects are given in table No.s 15, 16, 17 and 18.

#### 5. Allied Agriculture

2.10 Agricultural wage rates at the selected centres viz. (a) Mandrup in South Solapur tahsil (b) Valrag in Barsi tahsil and (c) Modnimb in Madha tahsil, collected by the District

Statistical Office through the Block Statistical Assistants are given in table number 19. Number of operational holdings as per agricultural census, 1976-77 are given in table number 20. Information regarding agricultural implements enumerated at the time of the livestock census conducted during 1973 is given in table No. 21. The tahsilwise data of famine and scarcity are given in table No.22 for the year 1980-81 and in Table No.23 for the period from 1971-72 to 1980-81.

#### 6. Animal Husbandry and Forests:-

2.11 Population of livestock and poultry as per the livestock census, conducted in 1978(final data) is shown tahsilwise in table No.24. Statistics on veterinary facilities existed, animals treated in such centres and disease-wise mortality of livestock are given in table No.s 25 and 26. Table No.27 furnishes data on animals slaughtered in recognised slaughter houses in the district during the year 1980-81.

2.12 The data on area under forests and major and minor forest produce for the year 1980-81 have been shown in tables 28(a) and 28(b) respectively. Area under forest with classification into (i) reserved (ii) protected and (iii) Unclassed forest under the control of State Revenue Department and under State Forests Department has been shown. These areas may not tally with the area under forests shown in table No.10 due to different concepts of classification of above three heads. Reserved forests are intended mainly for timber production in which rights of grazing and cultivation are seldom allowed. Grazing and cultivation under certain limitation and restrictions are allowed in protected forests. The unclassified forests refer to inaccessible forests or unoccupied waste.

#### 7. Inland Fisheries:-

2.13 The statistics relating to total area suitable for fish culture, ponds, lakes and reservoirs, area under pisciculture, inland fish production and carp fry used for pisciculture are given in table No.29 (a).

#### 8. Employment, Industry and Electricity:-

2.14 The statistics relating to working factories under different groups with average daily employment, mandays worked, classification of factories according to working strength and

number of days worked are given for the years 1979 and 1980 in table No.s 30, 31 and 32. The term factory includes:-

- a) Those employing ten or more workers working with the aid of power.
- b) Those employing 20 or more workers and working without aid of power and
- c) Those registered under the factory Act 1948.

Even though the above conditions are fulfilled the Defence factories are excluded. Statistics regarding number of registered factories, productive capital investment, output and employment provided under different industries based on Annual survey of industries for the years 1978-79 and 1979-80 are given in table No.33. Monthwise registration, vacancies notified, placements done, occupationwise and sectorwise number of employment seekers on the live register at the end of the month, other data of employment exchange have been shown in table No.s 34,35 and 37. The information regarding the employment generated under Employment Guarantee scheme works is also given in table number 36.

2.15 Data on consumption of electricity under different categories during the year 1979-80 are given in table No.38 and number of towns and villages electrified during and upto the end of selected years are shown in table No.39. The data are collected from Maharashtra State Electricity Board.

#### 9. Co-operation:-

2.16 Statistical information on the cooperative institutions and their activities has been given for the year 1980-81 on the following items:-

- i. Loan advanced by Cooperative banks and primary agricultural credit and other types of societies and their memberships.
- ii. Total value of purchase and sales by the central and primary cooperative marketing societies and
- iii. Annual arrivals in the regulated markets in each tahsil of district. Data regarding number of members, capital accumulated, loans advanced, recovered etc. have also been given.

#### Working Capital:-

2.17 It includes paid up capital, deposits and borrowings, loans outstanding, cash credits and over-drafts and the amount

of the outstanding bills purchased or discounted. Overdues refer to the amount of loans or instalments which was due for collection but which was not actually collected and for the repayment of which no extension has been granted by the competent authority. Information of registered money lenders and loans advanced by them is given in table number 47.

2.18 The main functions of agricultural credit societies are to help members by way of providing short and medium term loans for meeting their agricultural necessities like improved seeds, fertilizers, agricultural improved implements etc. The help is also extended in the matters of storage, transportation and sales of the agricultural produce.

2.19 The agricultural non-credit societies look after the work of better farming by way of educating the agriculturists in the adoption of improved agricultural practices, crop protection etc. The societies also undertake educational, economical, cultural and house building activities so as to uplift the standard of living of the agriculturists.

2.20 The main function of the Urban Bank, Urban credit cooperative societies and salary earners' cooperative societies is to promote the qualities of economy, and cooperation among the members and also to make them industrious. They also augment the saving habits of the people by way of making the banking facilities easily available. They give loans to the members on the securities like gold, immovable property, Government securities, commercial goods, etc. They also provide loans to the artisans and small traders.

2.21 The main functions of non-agricultural non-credit societies are to run printing presses, to provide electricity to members and consumers for domestic, industrial and agricultural purposes, to run montessories, primary schools and educational institutions for educational spread and things of the kind.

2.22 The main function of Primary Cooperative Marketing Society is the purchase and sales of agricultural produce grown by its members or member cooperative societies in its area of operation.

#### 10. Medical and Public Health:-

2.23 In this section, data on medical and public health for the year 1980 is given. Table No.48 gives medical

facilities available through public and public aided bodies in each tahsil alongwith indoor and outdoor patients treated. Data on vital statistics e.g. tahsilwise births and deaths and infant deaths registered in the year 1980 with break-up into male and female and number of deaths due to important causes, from the years 1971 to 1980 are given in tables No.49 and 50 respectively. Vaccination statistics and cholera inoculation done in each tahsil during 1980 is given in table No. 51. Table No. 52 gives statistics on family planning during the year 1980-81.

#### 11. Education :-

2.24. The data on tahsilwise number of literates alongwith percentage of literacy as per 1971 census are shown in table No. 53. The data on education level of people in rural and urban areas are given in table No.s 54 and 55. The information regarding pupils and teachers with number of institutions in pre-primary, primary, secondary and higher categories as on 30th September 1980 are presented in table No. 56. The data on backward class enrolment and concessions granted to economically backward class students and expenditure incurred under normal and plan grants on primary education in the district is shown in table No.s 57 to 59.

#### 12. Transport and communication :-

2.25. Length of railway routes according to gauge is shown in table No. 60. The table No. 61 gives road length according to category and surface classification. Roads maintained by municipal councils/cantonment boards are also shown separately in this table. The data of number of motor vehicles in operation in Pune region covering Pune, Ahmadnagar and Solapur districts together are shown in table No.62 (Districtwise figures are not available ). Important operational statistics relating to Solapur division of Maharashtra state Road Transport Corporation are given in table No. 63.

2.26. Results of traffic census conducted in May 1980 and December 1980 on important roads in Solapur district are given in table No. 64. Statistics on Postal, Telegraphs and telephone facilities and on rural broadcasting are depicted in the table No.s 65 and 66 respectively.

### 13. Local Bodies:-

2.27. The financial position of village panchayats, Municipal Councils and Zilla Parishad is shown in this section.

2.28. The number of village panchayats includes number of independent village panchayats as also group village panchayats. Income and expenditure of village panchayats are exclusive of opening and closing balances respectively. Grants include grants from Government as well as from Zilla Parishad and Panchayat Samities for developmental activities. Government grants to village panchayats are mainly land revenue grants, equalisation grants and local cess grants. Government grants in respect of Municipal Councils are mainly grants on account of dearness allowances, grants for roads, for water supply, for educational purposes, for medical purposes and on account of percentage in land revenue. The receipts of Zilla Parishad are shown under four sub-heads, viz. (i) Self raised resources (ii) Government grants (iii) Grants for agency scheme and (iv) Debt section. The expenditure is shown under two heads Revenue Expenditure and Debt. section.

2.29. The data are collected from the Zilla Parishad Solapur and all the municipal councils in Solapur District.

### 14. Plan and Community Development:-

2.30. Data on plan expenditure under state and local sectors and physical achievements in important fields during the year 1980-81 are given respectively in table No.s 71 and 72. The table 73 to 75 on C.D. statistics are repeated from previous issue. Since C.D. schemes are discontinued, these tables are proposed to be dropped from <sup>the</sup> next issue.

### 15. Prices:-

2.31. The table No.76 gives monthly average wholesale prices of agricultural commodities transacted in regulated markets. The district average for each variety and for each month is also given.

2.32. The table No.77 gives the monthly average minimum and maximum retail prices of important commodities at Solapur head-quarters during 1980. As the information collected for the given commodities is restricted to only one quotation and that also from only one shop in the district head quarters, the averages shown for individual commodities cannot be said to be fully representative. But the data may prove useful as broad indicator of the trend in changes in retail prices over the period of time. The table No.78 gives consumer price index number for working class for Solapur and Pune centres for the year 1980-81. For the calculation of index, the years 1960 and 1961 are taken as base years for Solapur and Pune centres respectively.

16. Miscellaneous:-

2.33. Statistical data pertaining to police force, crime statistics, cases disposed of in civil and criminal courts, cinema statistics regarding seating capacity in different types of theatres, number of banking offices, number of scheduled banks, their deposits and advances and number of joint stock companies, insurance policies and amount insured, collection of small savings, land revenue collections, number of presses, news-papers and periodicals published etc. are given in the table No.s 79 to 89. Table No.90 gives information about the quantity of Rice, Wheat and Sugar issued to fair price shops. The demand and procurement of lavy in Solapur district are indicated in Table No.91. Statistics relating to General Assembly and Lok Sabha elections held in 1980 are presented in table No.92.

2.34. A table showing trends in selected indicators for Solapur district in the fields of development such as;  
(a) Agriculture (b) Livestock (c) Industry (d) Education  
(e) Health, etc. for the years 1950-51, 1960-61, 1966-67, 1970-71, 1974-75, 1977-78, 1978-79, 1979-80 and 1980-81 is appended at the end. These selected indicators are very useful for assessing progress in various fields over important periods in the recent past.

-o3 0 0 1 0-

## CHAPTER - III

### An Analytical Review of Sectorial Trends-1980-81.

3.1 The trends observed in various Socio-Economic Sectors during 1980-81 in Solapur district are analysed in this chapter.

The data for the year 1980-81 are compared with the past data for the years 1960-61, 1970-71 as also for some recent years which will indicate a trend over a period.

#### Agriculture

3.2 Like other districts of Maharashtra State, Solapur district is also an agricultural one and rural life in this district is mainly dependent on agriculture. Jawar, wheat, pulses, groundnut and to some extent sugarcane are grown on a large scale in the district. The main crop, however, is Jawar, which is mostly harvested in rabi season. About 70 percent of area under cultivation is under rabi crops.

3.3 The development in the field of agriculture can be assessed from three main indicators. They are as under:

- 1) Percentage of gross cropped area to net area sown.
- 2) Percentage of net area irrigated to net area sown and
- 3) Productivity of important crops.

The following table gives the tahsilwise percentages of gross cropped area to net area sown during 1960-61, 1970-71, 1977-78, 1978-79 and 1979-80.

Table No.1

Tahsilwise percentage of gross cropped area to net area sown in Solapur district.

Sr. Tahsil No.	Percentage of gross cropped area to net-area sown in Solapur district during.					
	1960-61	1970-71	1977-78	1978-79 (Revised)	1979-80 (Provisional)	
1	2	3	4	5	6	7
1. Solapur North	102.0	101.7	105.8	105.2		103.4
2. Barshi		104.0	102.2	103.4	105.6	100.6
3. Akkalkot		103.4	102.7	105.5	105.5	100.9
4. Solapur South	104.0	101.3	105.4	114.0		101.0

(Contd.)

Table No.1 (Contd.)

1	2	3	4	5	6	7
5. Mohol		102.1	102.6	104.3	104.9	101.5
6. Mangalvedha		101.7	100.0	107.8	109.1	102.3
7. Pandharpur		101.8	103.2	106.2	115.9	103.1
8. Sangole		103.4	103.8	105.1	106.2	102.9
9. Malshiras		104.1	107.7	115.0	120.4	110.8
10. Karmala		104.1	101.9	108.4	107.2	107.9
11. Madna		102.8	103.4	105.9	106.1	104.5
	Total	103.1	102.9	107.1	107.2	103.4

The above figures reveal that the proportion of double or multiple cropping is the highest in Malshiras tahsil from 1970-71 on-wards due to assured irrigation facilities on a large scale. The percentage was the lowest in North Solapur tahsil in 1978-79.

3.4 The area cropped more than once was 37 thousand hectares in 1960-61, 33 thousand hectares in 1970-71 and 82 and 35 thousand hectares in 1978-79 and 1979-80 respectively.

There was a considerable increase in the area sown more than once in the year 1978-79, as compared to the figures for 1960-61 and 1970-71. Figures for the year 1979-80 are provisional and hence no comments are therefore offered about that year.

Changes in cropping pattern

3.5 The following table indicates broadly the trend in cropping pattern in the district.

Table No.2

Percentage distribution of area under important crops to total gross cropped area in Solapur district.

Sr. No.	Name of crop	Percentage of area under crops to total gross cropped area during the years.				
		1960-61	1970-71	1977-78	1978-79 (Revised)	1979-80 (Provisional)
1	2	3	4	5	6	7
1.	Rice	0.79	0.54	0.59	0.51	0.46
2.	Wheat	1.79	2.45	4.34	4.18	4.72

(Contd.)

Table No.2 (Contd.)

1	2	3	4	5	6	7
3.	Jawar(K + R)	65.23	56.57	63.92	60.73	61.29
4.	Bajara	7.84	8.17	6.35	5.84	5.50
5.	Gram	1.86	2.27	2.55	2.58	2.73
6.	Tur	2.31	6.28	5.58	4.79	5.11
7.	Ground nut	6.43	6.09	2.72	2.49	1.95
8.	Safflower	NA	3.74	5.18	4.55	6.23
9.	Sugarcane	0.91	1.15	1.65	1.69	1.00
10.	Chillies	NA	0.66	0.34	0.30	0.36
11.	Cotton	0.90	1.14	1.05	1.13	1.01

The cropping pattern of the district does not show any significant change over different period of years. However, it can be seen that the area under Jawar decreased by about 5 percent in 1973-79 as compared to area under that crop in 1960-61 and the area under the crops like wheat, gram, tur, safflower, sugarcane and cotton was generally increasing. However, Jawar is the main crop in the district which accounts for about 60 percent of the gross cropped area.

Yield rates and outturn of principal crops

3.6 Trends observed in respect of yieldrates and outturn of principal crops in Solapur district are shown in the following table.

Table No.3

Yield rates and outturn of principal crops.

Sr.Crop No.	Yield in Kg. per hectare during.					Outturn in '00' metric tonnes during.					
	1960-61	1970-71	1976-77	1977-78	1978-79	1960-61	1970-71	1976-77	1977-78	1978-79	
1	2	3	4	5	6	7	8	9	10	11	12
1.	Rice	939	779	1926	2424	1694	93	53	147	160	105
2.	Wheat	716	708	631	840	816	159	206	329	410	417
3.	Jawar	466	183	444	321	490	3775	1395	3083	2303	3631

(Contd.)

Table No.3(Contd.)

1	2	3	4	5	6	7	8	9	10	11	12
4.	Bajara	68	282	188	171	203	65	268	136	125	146
5.	Maize	957	800	2477	1622	1916	45	40	322	240	274
6.	Gram	403	285	225	255	346	93	77	75	73	109
7.	Tur	537	169	164	289	368	154	126	102	181	215
8.	Sugar- cane (intorms of gar)	7368	8468	8718	8796	9010	840	1177	1761	1635	1856
9.	Cotton (intorms of bales)	250	157	268	1636	2138	28	66	158	193	295
10.	Ground- nut(pods)	593	579	588	524	579	474	453	210	165	175
11.	Chill- ies.	598	662	696	816	784	49	51	32	31	29

The study of outturn reveals that the production had been increasing continuously in case of only wheat and cotton. The production of Jawar, which is the principal crop, did not register any increase over the corresponding figures for 1960-61. There was however appreciable increase in case of sugarcane. The production of groundnut, which is the main cash crop in Kharif season, dwindled down sharply.

The analysis of the average yield indicates remarkable improvement in case of rice, bajra, maize, sugarcane and cotton. However, considerable decrease is seen in case of gram and tur which are important pulses in the district, ~~and~~ large variations are noticed in case of Jawar. Percentage of net irrigated area to net area sown.

3.7 In order to judge the extent of facility of irrigation available in the district, the tahsilwise percentages of net irrigated area to net area sown are given in the following table.

Table No.4

Percentage of net irrigated area to net area sown.

Sr. Tahsil No.	1960-61	1970-71	1976-77	1977-78	1978-79
1. Solapur North	8.29	9.29	6.40	5.82	5.07
2. Barshi	5.69	3.75	6.96	5.80	8.09
3. Akkalkot	8.82	7.19	7.11	5.33	4.47
4. Solapur South	3.76	7.13	4.80	4.83	5.42
5. Mohol	6.78	7.44	11.60	9.15	10.69
6. Mangalvedhe	5.58	7.68	7.71	5.56	6.67
7. Pandharpur	10.56	11.60	10.76	14.59	11.75
8. Sangole	13.64	13.38	13.87	10.89	12.43
9. Malshiras	28.22	39.57	34.36	35.87	36.46
10. Karmala	5.88	4.93	7.89	7.56	6.50
11. Madha	7.57	9.52	16.50	18.70	13.55
District Total	9.22	9.93	11.45	11.17	10.90

The above data shows that Malshiras tahsil accounted for the highest irrigated area in the district due to availability of canal irrigation from the Neera right bank canal. There is considerable increase in irrigated area in Madha tahsil since 1960-61. It can also be observed that the proportion of net irrigated area to net area sown decreased in recent period when compared with observed the proportion observed in 1960-61 and 1970-71 in respect of North Solapur, Akkalkot, Mangalvedhe and Sangole tahsils.

3.8 The area under different irrigated crops is compared with the gross irrigated area in the following table.

Table No.5

Percentage of area under different irrigated crops to gross irrigated area.

Sr. No.	Crop	1960-61	1970-71	1976-77	1977-78	1978-79
1	2	3	4	5	6	7
1.	Rice	2.15	1.38	2.74	2.2	2.46
2.	Wheat	10.35	14.04	14.05	15.08	15.43
3.	Jawar(K + R)	44.13	32.27	32.94	32.64	34.1

(Contd.)

Table No.5 (Contd.)

1	2	3	4	5	6	7
4.	Bajra	3.89	4.85	5.04	5.02	3.95
5.	Maize	NA	4.22	6.69	7.80	6.72
6.	Gram	1.34	2.42	2.84	2.89	2.72
7.	Groundnut	NA	4.85	5.61	2.11	4.15
8.	Sugarcane	8.60	9.27	12.30	11.70	13.07
9.	Chillies	5.66	5.38	2.60	2.41	2.21
10.	Cotton	NA	6.00	5.36	5.59	5.80

It will be seen from the above table that the maximum irrigated area is under jawar which is the main crop of the district. Wheat and sugarcane follow in order.

Net irrigated area by different sources

3.9 The following table indicates the source-wise net area irrigated during the years mentioned below.

Table No.6

Source-wise net irrigated area in Solapur district.

Sr. No.	Source of irrigation	Net irrigated area (in hectares) during.				
		1960-61	1970-71	1977-78	1978-79 (final)	1979-80 (provisional)
1	2	3	4	5	6	7
1.	Surface irrigation.	25,567	29,073	27,025	31,023	32,573
2.	Wells	85,659	85,445	1,01,113	92,968	1,06,721
3.	Other Sources.	-	58	-	-	286
Total:		1,11,226	1,14,576	1,28,138	1,23,991	1,39,580

It is evident from the above figures that wells are still the main source of irrigation in the district. The canal irrigation, included under surface irrigation, is mainly available in Malsniras tahsil. However, with the progress in the work of the Ujjani Irrigation

Project, area in other tahsils will be brought under Canal Irrigation in the near future.

Co-operation

3.10 Agricultural credit : All the villages in the district are covered under co-operation. The following table indicates the position of agricultural credit societies and their working in the district for different reference periods.

Table No.7

Operations of agricultural credit societies.  
(Rs. in '000')

Sr. No.	Item	Achievement during				
		1960-61	1970-71	1978-79	1979-80	1980-81
1	2	3	4	5	6	7
1.	No. of primary agricultural societies.	857	883	870	813	849
2.	No. of members	93,777	1,39,913	2,12,191	2,14,016	2,17,187
3.	Share capital	6,088	25,195	41,136	44,499	48,852
4.	Working capital.	20,657	84,669	2,03,076	2,26,068	2,38,955
5.	Loans advanced	15,070	47,141	87,417	71,116	96,286
6.	Loans recovered.	NA	39,294	59,153	51,058	82,520
7.	Loans outstanding.	NA	73,123	1,65,866	1,87,139	1,96,499
8.	Loans overdue.	NA	28,818	87,186	1,14,608	1,06,915

3.11 It is observed that except for the year 1930-31, number of agricultural credit societies could be seen decreasing gradually since 1978-79. There was however appreciable increase in membership, share capital and working capital over a period of time. It is, however, discouraging to note that with an increase in advances over 1960-61, the amount of overdue was also increasing continuously with the passage of time. Due to improvement in the position of recovery during the year 1980-81, the amount of over due loans however decreased from 11.46 crores in 1979-80 to Rs.10.69 crores in 1980-81.

### Agricultural wage rates

3.12 The data in respect of agricultural wage rates is being collected from three agricultural centres in the district since July 1963. The selected centres are Mandrup from south Solapur tahsil, Vairag from Parshi tahsil and Modlimb from Madha tahsil.

The average wage rates for unskilled labourers at the above centres are as under.

Table No.8

Average wage rates of unskilled labourers(in rs.)

Sr. No.	Name of Centre	1963		1970		1979		1980	
		M	F	M	F	M	F	M	F
1	2	3	4	5	6	7	8	9	10
1.	Mandrup	1.50	0.81	2.42	1.27	3.54	3.04	4.00	3.19
2.	Vairag	1.54	0.82	2.12	1.08	4.83	2.33	5.01	3.04
3.	Modlimb	1.66	0.82	2.42	1.19	4.83	2.92	4.95	3.00

M = Male                      F = Female.

It is seen from the above figures that there had been considerable increase in the wage rates over those in 1963. The wage rates at Vairag and Modlimb were almost equal. The same were however low for male and rather high for female labourers at Mandrup. There was considerable disparity in the wage rates for male and female.

### Livestock

3.13 The comparative data of the livestock as revealed in the Livestock Censuses of 1972 and 1978 indicates that except cattle, there was an increase in the number of buffaloes, sheep, goats and poultry.

3.14 The density of bovine and ovine population per 100 hectares of cultivated land is recorded in the below mentioned table.

Table No.9

Bovine and ovine population per 100 hectares of cultivable land.

Sl. No.	Tahsil	Bovine & ovine population (1978)	Cultivable land (in '00' hectares) 1978-79 (final)	Bovine and ovine population per 100 hectares of cultivable land.
1	2	3	4	5
1.	Solapur North	62,318	624	100
2.	Barshi	1,55,726	1543	101
3.	Akkalkot	1,15,695	1281	90
4.	Solapur South	87,154	1125	77
5.	Mohol	1,24,393	1206	103
6.	Mangalwedhe	1,01,033	1076	94
7.	Pandharpur	1,35,841	1165	117
8.	Sangole	1,90,048	1355	140
9.	Malshiras	2,34,681	1253	187
10.	Karmala	1,23,666	1304	95
11.	Madha	1,26,704	1386	91
	Total	14,57,259	13318	109

It is revealed from the above mentioned figures that the bovine and ovine population per 100 hectares of cultivable land works out to 109 for the district. Similar figures for Pandharpur, Sangole and Malshiras tahsils were more than the one for the district. The remaining tahsils had less density of livestock as compared to the figure for the district.

### 3.15 Consumption of electricity

Out of 948 inhabited villages in the district, 860 villages were electrified till the end of March 1981. The tahsilwise distribution of these villages along with number of agricultural pumpsets energised is given below in the following table.

Table No.10

No. of villages electrified and agricultural pumps energised.

Sr. No.	Tahsil	Total no. of in-habited villages	No. of villages electrified upto 31 st March				No. of agricultural pump sets energised upto 31st March			
			1961	1971	1980	1981	1961	1971	1980	1981
1	2	3	4	5	6	7	8	9	10	11
1.	Solapur North	43	-	32	41	43	-	646	1942	2154
2.	Barshi	129	-	38	88	103	-	490	2795	3174
3.	Akkalkot	119	-	24	102	115	-	315	2151	2664
4.	Solapur South	80	-	38	62	69	-	645	1953	2189
5.	Mohol	88	-	48	77	80	-	957	3049	3279
6.	Mangalvedhe	71	-	19	64	68	-	264	1128	1255
7.	Pandharpur	83	-	66	83	83	-	459	3183	3390
8.	Sangole	68	-	43	62	68	-	817	2495	2731
9.	Malshiras	75	1	31	61	67	-	720	3349	3657
10.	Karmala	96	-	14	68	84	-	726	770	929
11.	Madha	96	-	20	69	80	-	263	2217	2560
District Total		948	1	373	777	860	-	6370	24957	27932

Only 88 villages were remained to be covered under the electrification programme. The entire district is expected to be covered under electrification programme by the end of March 1983.

From the above table it is seen that with the expansion of the rural electrification programme, no. of electric pumps energised increased rapidly from 6370 in 1970-71 to 27,982 in 1980-81.

### 3.16 Employment Exchange Statistics.

The employment exchange statistics give an indication of the magnitude of unemployment problem to a very limited extent because it does not include the large number of unemployed persons seeking manual work and also those who have not enrolled with the employment exchange. The position in respect of registration, vacancies notified, etc. in Solapur district, given in the following table, may be viewed in the context of the above quoted limitations in employment exchange statistics.

Table No.11

No. of candidates enrolled and vacancies notified in Solapur district

Sr. No.	Item	Years			
		1960-61	1970-71	1979-80	1980-81
1	2	3	4	5	6
1.	No. of registrations	9594	11527	19685	21902
2.	No. of vacancies notified	1612	1414	2517	1688
3.	No. on live register (at the end of March)	4475	9744	33713	40540
4.	No. of candidates placed	989	582	856	1680

It is seen from the above table that there was considerable increase in the enrolment of candidates in 1980-81 as compared to the enrolment in 1960-61 and 1970-71. The data relating to no. of candidates on live register also indicate upward trend. The percentage of placement to total registration decreased in 1970-71, 1979-80 and 1980-81 in comparison with the similar data for 1960-61. It was about 10 percent in 1960-61. But the same declined to 5 percent in 1970-71, about 4 percent in 1979-80 and about 8 percent in 1980-81.

3.17 Medical facilities

The following table gives the data about medical facilities and no. of patients treated in public and public aided institutions in Solapur district.

Table No.12

Medical facilities and no. of patients treated in public and public aided institutions.

Sr.	Item	Unit	During				
			1961	1971	1978	1979	1980
1	2	3	4	5	6	7	8
1.	Hospitals	No.	3	6	10	10	10
2.	Dispensaries	No.	35	41	40	43	49
3.	Maternity homes	No.	5	5	11	12	13
4.	Primary health centres.	No.	11	15	15	16	16
5.	Doctors	No.	64	96	138	274	269
6.	Nurses	No.	NA	316	548	563	678
7.	Beds	No.	687	905	1366	1472	1626
8.	Indoor patients treated	No.	23	84	56	62	59
9.	Out door patients treated.	No. in '000'	585	901	1396	1552	1623

It is seen from the above figures that the position of all types of medical institutions improved considerably within a period of 19 years. The increase in respect of no. of doctors, nurses and beds was quite significant. With the increase in medical facilities, no. of patients treated also recorded appreciable increase.

### 3.18 Education

The information regarding the educational facilities available in the district is given in the below mentioned table.

Table No.13

Educational facilities in Solapur district.

Sr. No.	Item	Unit	Years				
			1950-61	70-71	78-79	79-80	80-81
1	2	3	4	5	6	7	8
<u>1. Primary education</u>							
	a) Institutions	No.	1569	1817	1839	1893	1900
	b) Enrolment	No.	230	324	395	386	383
		in '000'					
	c) Teachers	No.	5782	8745	10585	10570	10451
<u>2. Secondary education</u>							
	a) Institution	No.	95	195	224	228	230
	b) Enrolment	No.	27	61	93	101	109
		in '000'					
	c) Teachers	No.	1023	2327	3384	3649	3816
<u>3. Higher education</u>							
	a) Institution	No.	6	18	21	24	24
	b) Enrolment	No.	3	13	19	19	20
		in '000'					
	c) Teachers.	No.	141	506	748	828	885

From the above table it is clear that there had been considerable increase in the educational facilities in the district over a period of 20 years.

In order to study availability of teachers in comparison with the pupils studying in different categories of education, teacher/pupil ratios in respect of primary, secondary and higher education are given in the following table.

Table No.14

Ratios of Teacher/ Pupil.

Item	Years				
	1960-61	1970-71	1978-79	1979-80	1980-81
1	2	3	4	5	6
<b>1. Teacher/Pupil ratio</b>					
a) Primary	40	37	37	36	35
b) Secondary	26	26	27	28	28
c) Higher	21	26	25	23	23

It is observed from the above figures that there was improvement in respect of availability of teachers in comparison with the students in case of primary education. In respect of secondary education, however, no. of teachers decreased with increase in enrolment of students over a period of 20 years. No. definite trend however was seen in respect of higher education.

3.19 Banking

The data regarding no. of banking offices in the district and no. of households served by each banking office are given in the following table for different years.

Table No.15

Banking facilities in Solapur district.

Item	Years				
	1961	1971	1977	1978	1979
1. No. of banking offices at the end of the year.	50	96	207	213	235
2. No. of households served per banking office.	6954	4039 (x)	1882 (x)	1881 (x)	1660 (x)

(x) Based on no. of households as per 1971 census.

The above figures reveal that there had been considerable expansion in banking offices over period of 18 years after 1961 and as a result the ratio of no. of households served by each bank reduced from 6954 to 1660 during the above reference period.

### 3.20 Transport and communication

The transport and communication facilities play an important role in the process of planned economic development because these facilities provide a vital media both for exchange of and growth in social and economic activities. Attempts are being made in development plans to develop these facilities. Railways and roads are the prime means of transport in Solapur district. The rail length in the district has not changed since long. However, the road length has undergone considerable change since March 1961. The road length per 100 km. of the geographical area of the district was 14.0 km. at the end of March 1961. The same increased to 21.4 at the end of March 1971 and 60.3 km. at the end of March 1981.

The postal and telegraph facilities also registered a remarkable progress during the period from 1951-62 to 1980-81 as no. of post offices and telegraph offices increased from 290 and 27 respectively in 1961 to 505 and 68 in 1980-81.

### 3.21 Prices

Since November 1952 the retail prices of important commodities are being collected by the District Statistical Organizations from the each district headquarter on every Friday. The following table shows the average prices of some important commodities collected at Solapur city for the years 1963, 1971, 1978 to 1980.

Table No.15

Trends of the prices of important commodities at Solapur City  
(in 0.00 Rs.)

Sr. No.	Commodity	Unit	Average retail price per unit for				
			1963	1971	1978	1979	1980
1	2	3	4	5	6	7	8
1.	Rice(Medium)	kg.	0.71	1.43	2.41	2.37	2.68
2.	Wheat (Medium)	kg.	0.53	1.21	1.84	1.84	2.17
3.	Jawar(White)	kg.	0.43	0.88	1.35	1.45	1.72
4.	Grendal	kg.	0.58	1.29	3.02	2.93	4.13
5.	Turdal	kg.	0.91	1.86	4.76	4.92	4.94

Table No.16(Contd.)

1	2	3	4	5	6	7	8
6.	Sugar (D)	kg.	1.19	1.93	3.09	2.76	6.84
7.	Gur	kg.	0.98	1.42	1.66	2.22	3.90
8.	Groundnut oil	kg.	1.85	4.42	7.67	9.22	10.70
9.	Vanaspati (loose)	kg.	3.59	6.32	10.22	11.56	12.98
10.	Potato	kg.	0.48	0.90	1.62	1.39	2.16
11.	Dry Chillies	kg.	2.66	4.79	7.68	8.27	7.56
12.	Tea (leaf)	kg.	7.31	12.21	21.21	21.58	24.20
13.	Kerosene	Litre	0.43	0.58	1.26	1.38	1.50
14.	Shirting cloth	Metre	1.45	2.02	4.57	4.65	5.03
15.	Cigarette	10 no.	0.34	0.65	1.14	1.16	1.10
16.	Washing Soap (501)	Bar	1.52	2.14	2.90	3.17	4.34

It will be seen from the above table that there had been rising trend in prices of almost all essential commodities since 1953. The price rise in respect of certain commodities like turdal, groundnut oil, vanaspati, tea, sugar, etc. was quite significant.

In this connection it may be noted that the above prices for the given commodities are restricted to only one quotation and that too from only one selected shop from the district headquarters. Hence the averages shown for individual commodities cannot be said to be fully representative. But the above data may, however, be useful as a broad indicator of the trend in retail prices.

The consumer price index for working class is worked out by the Commissioner of Labour. The same for Solapur centre reached the mark of 411 in 1980-81 with the base year as 1960.

-----oXo-----

## C H A P T E R No. IV

Annual plan 1980-81

4.1 Introduction:- The Government of Maharashtra adopted the policy of District Planning from the Fifth Five Year Plan with two main objectives viz., (i) Removal of the inter district and intradistrict imbalances in development, and (ii) To insure that the district will be given an opportunity to attain full development having regard to their potential, available manpower and other resources.

With a view to providing proper planning machinery at the district level for formulating development plans for each district in the context of the decision of Government to adopt the district as basic unit of planning, a District Planning and Development Council has been constituted for each district by amalgamating District Planning Boards and District Development Consultative Councils constituted in the year 1972. On this body, representation is given to the elected representatives of the people in the Parliament and State Legislature as also of the local bodies, viz., The District Central Co-operative Bank, the Land Development Bank, the Lead Bank of the District, which is the Bank of India, the Regional Development Corporations, Zilla Parishad and the Divisional Commissioner, etc. Besides, thirteen non-officials members representing various interests such as industry, trade and commerce, universities and Social Welfare are appointed by Government. The Minister in charge of the district is the Chairman of the District Planning and Development Council. The Collector of the District is Member-Secretary of the D.P.D.C.

The D.P.D.C. has been entrusted with the functions of giving guidelines to various implementing agencies at the district level in the task of formulation of plan and ensuring co-ordination between various implementing agencies including the Zilla Parishad. The day-to-day task of overseeing implementation of the annual plans is entrusted to a smaller committee consisting of some of the members of

the D.P.D.C. The Chairman and Vice-Chairman of the committee are the same as that of the council. The secretarial work is however entrusted to the District Planning Officer.

a

The D.P.D.C. has to meet twice/year mainly to review the progress of plan at the end of the year and to finalise and approve the Annual Plans of the District. The Executive Committee of the council is required to meet once in a month (1) to review monthly progress of plan schemes, (2) to identify the reasons for shortfall in financial and physical achievements, (3) to suggest measures for expeditious implementation of the programmes and (4) to propose reappropriation for approval of Government on the basis of proposals put up by the Member Secretary. The Committee has also been empowered to consider new schemes or works for inclusion in the District Annual Plan in case it is found necessary.

4.2 Annual Plan 1980-81 :- As per decision of the Planning Commission, the year 1980-81 will be the first year of the Sixth Five Year Plan, which covers a period from 1980-81 to 1984-85. A brief review of the progress of Annual Plan for 1980-81 is taken in the following paragraphs.

The Government had originally approved plan outlay of Rs.992.79 lakhs for the district level plan schemes for 1980-81. The major group-wise distribution of this outlay is as under. The similar data for the year 1979-80 is also presented for the purpose of comparison.

Table No.1

Distribution of original outlays

Sr.No.	Major sector group	Outlays (Rs.in lakhs)	
		1979-80	1980-81
1	2	3	4
1.	Agriculture and allied services including co-operation.	253.78 (26.40)	527.88 (53.17)
2.	Irrigation and power.	143.91 (14.98)	98.10 (9.88)
3.	Industry, mining, transport and communications.	112.58 (11.72)	97.99 (9.87)
4.	Social and community services.	245.70 (25.57)	268.82 (27.08)
5.	Miscellaneous including Employment Guarantee Scheme.	205.00 (21.33)	- (-)
Total		960.97 (100)	992.79 (100)

Note:-The figures in brackets indicate percentages to total outlay.

The above figures indicate that the outlay for 1980-81 was increased by about Rs.32 lakhs recording an increase of about 3% over the outlay approved for the previous year. Analysis of sectorial allocations reveals that the provisions for Agriculture and allied services including co-operation and community development were increased from 26 % to 53 % from 1979-80 to 1980-81. But such an increase was mainly due to change in the pattern of classification of certain schemes under different major sectors of development. The employment guarantee scheme, which accounted for the highest allocation amongst individual schemes and which was classified under the major head " General services " during 1979-80, was classified under Agriculture and allied services during the year 1980-81. Certain schemes such as Drought Prone Areas Programme and Integrated Rural Development Programme were included for the first time under the major sector Agricultural and allied services. The sectors viz. irrigation and power and industry, mining got more or less the same allocation during 1980-81. The share of social services indicates slight increase over the previous year.

During the course of the year, the District Planning and Development Council made readjustments in the plan outlay by considering the revised proposals of budget provisions of the plans made by the implementing officers and as such the information regarding the revised plan outlays vis-a-vis actual expenditure incurred during the years 1979-80 and 1980-81 is shown in the following table.

Table No.2

Revised outlays and actual expenditure in the annual plans for 1979-80 and 1980-81 (Rs.in lakhs)

Sr. No.	Sector	1979-80		1980-81	
		Revised outlay	Expenditure	Revised outlay	Expenditure
1	2	3	4	5	6
1.	Agriculture including allied services.	228.05 (100)	283.66 (124.4)	521.86 (100)	838.55 (160.7)
2.	Co-operation	2.44 (100)	2.44 (100 )	0.86 (100)	0.86 (100 )
3.	Irrigation and Power	138.81 (100)	144.44 (104.1)	101.10 (100)	111.25 (110 )

(Contd.)

Table No.2 (Contd.)

1	2	3	4	5	6
4. Industry and mining		38.18 (100)	37.07 (97.1)	36.37 (100)	34.23 (94.1)
5. Transport and communications.		80.66 (100)	80.07 (99.2)	62.19 (100)	56.44 (90.8)
6. Social services		254.16 (100)	245.38 (96.6)	272.50 (100)	272.53 (100)
7. Miscellaneous		205.00 (100)	476.11 (232.2)	-	-
Total		947.30 (100)	1269.17 (117.7)	994.88 (100)	1313.86 (132.1)

Note:- The figures in brackets indicate percentage of expenditure to revised outlays of the corresponding sector.

It is seen from the above figures that the expenditure exceeded even the revised outlays in case of agriculture and allied services, irrigation and power during both the financial years under reference. The overall expenditure also recorded increase over and above the provisions made in both the years under reference. It was however equal to the outlays in case of co-operation in both the years and less in respect of industry and mining and transport and communications. In case of social services, the expenditure was slightly more during 1980-81. The percentage of excess expenditure in case of agricultural programme was rather high due to excess expenditure under employment guarantee scheme, soil and water conservation, command area development programme and ayacut development programme. Earlier the Employment Guarantee Scheme was classified under the miscellaneous head. Since 1980-81, it has been classified under Agriculture Programme and Allied Services. The expenditure under miscellaneous head was therefore nil during 1980-81.

The following table gives percentage distribution of the total expenditure incurred on different Major heads of development during the years 1979-80 and 1980-81.

Table No.3

Percentage distribution of total expenditure			
Sr. No.	Major head of development	Annual Plans	
		1979-80	1980-81
1	2	3	4
1.	Agriculture and allied services	22.35	63.81
2.	Co-operation	0.19	0.07
3.	Irrigation and power	11.38	8.47
4.	Industry and mining	2.92	2.61
5.	Transport and communications	6.31	4.30
6.	Social Services	19.33	20.74
7.	Miscellaneous	37.52	-
Total		100.00	100.00

It could be seen that major variations in percentage distribution were in Agriculture and Allied Services and miscellaneous which were merely on account of classification of Employment Guarantee Scheme under the former from the later.

4.3 Physical Achievements :- The details of physical achievements under different plan and non-plan schemes are given in table no.72 in part-II of this publication. However, a brief review of the important achievements under sub-heads of development of plan schemes is taken in the following paragraphs.

I. Agriculture and Allied Services:- This major sector is comprised of the following sub-sectors (1) Crop husbandry (2) Minor irrigation (3) Soil and Water conservation (4) Command area development and ayacut development (5) Animal husbandry (6) Dairy development (7) Fisheries (8) Forests and (9) Special programme for rural development. The important plan schemes viz. employment guarantee scheme, drought prone areas programme and integrated rural development programme are included under the sub-head special programme for rural development.

Information regarding important physical achievements is as under.

(i) Crop husbandry:- The annual target for construction of gobar gas plants was achieved fully by constructing 20 gobar gas plants. The targets of 17000 hectares of area to be sprayed by insecticides and 1333 hectares of area to be sown by treated seed were achieved fully under the scheme of financial assistance for insecticides, raticides, etc. Against the target of distribution of 10 sprayers, 8 sprayers were distributed under the scheme of subsidy for purchase of plant protection equipments. The annual target of 40 hectares under kharif season and 10 hectares under rabi season was set in connection with the scheme of oil seeds development programme and development of sunflower. However, an area of 26 hectares under kharif and 10 hectares under rabi seasons was brought under the oilseeds. Under the scheme of demonstration of oil seed plots, a target of 125 demonstrations of groundnut and 250 demonstrations of sunflower was fixed. Against these, 90 demonstrations plots of groundnut and 152 demonstrations plots of sunflower were taken during the year under reference. Targets of 43 hectares of area of demonstration, 7400 kg. seed distribution and 292 hectares of area to be covered <sup>by</sup> crop protection measures were set under the scheme of production of pulses. All these targets were exceeded because 44 hectares of land was brought under demonstration, 10032 kg. pulses seeds were distributed and an area of 751 hectares was brought under crop protection measures.

(ii) Minor irrigation:- Five percolation tanks, 8 lift irrigation schemes and 2 bundharas were to be completed under the local sector during the year under reference. However five percolation tanks, five lift irrigation schemes and two bundharas were constructed.

The works of 33 minor irrigation tanks were undertaken under the state sector, out of these, 10 works were completed and three works were nearing completion. The rest were in progress. Targets of 50 subsidy cases of

failed wells and 21 cases of pump sets were fully achieved.

iii) Soil and Water Conservation:- The data regarding targets and achievements under this programme is given in the following table.

Table No.1

Achievements under Soil Conservation

Item	Unit	1980-81	
		Target	Achievement
1. Contour bunding	hectare	1400	5947
2. Nalla bunding- old works completed	Number	723	660
Nalla bunding- New completed	-do-	249	258
3. Reclamation of water logged area	Hectare	250	298
4. Area to be maintained.	-do-	25000	10663

iv) Ayacut development:- Land development works under the major project Bhima-Ujjani were completed to the extent of 3356 hectares against the target of 9000 hectares. An area of 377 hectares was developed under the Ashti Medium Project.

v) Animal husbandry:- Against the target of supply of ten milch cows, eight milch cows were supplied to those belonging to weaker sections. A target of distribution of 500 cockerels was fully achieved. Twenty artificial insemination centres were to be established by the Indian Agro-Industrial Institution. No achievement was recorded.

vi) Dairy development:- Financial assistance for management purpose was given to 68 dairy cooperative societies and thus the target was fully achieved. Forty six buffalo calves were supplied under the scheme of supply of one year buffalo calves.

vii) Fisheries:- Only three youths were trained under fishing occupation against the target of 12 under the scheme of training to youths. The target of 2.62 lakh stocking of carp fry was exceeded as the actual stocking was 2.99 lakh. Nylon twine to the extent of 498 kg. was

supplied to nine co-operative societies. 210 fishermen were benefitted due to the supply of nylon twine.

viii) Forests:- Only one scheme, viz., wild life preservation and nature conservation was implemented and the provision under it was on account of establishment charges.

ix) Employment Guarantee Scheme:- The detailed information in respect of various activities under this scheme is given in the table no.36 in part-II of this publication. In all 80 works were in progress and 108 works were completed. Employment to the extent of 7.07 lakh mandays was generated due to execution of the works.

x) Integrated rural development programme:- The annual target of extending the benefits/7000 persons was fulfilled.

II) Co-operation:- Financial assistance in the form of managerial subsidy, share capital contribution, etc. was given to various co-operative societies. Information about such assistance given to co-operative institutions is given in the following table.

Table No.2

Co-operative Societies Assisted

Sr. No.	Item	No. of societies assisted during 1980-81	
		Target	Achievement
1	2	3	4
1.	Managerial subsidy to farmers' seva societies.	3	3
2.	Share capital to urban credit societies.	2	2
3.	Interest subsidy to small farmers.	-	428 (individuals)
4.	Share capital contribution to urban consumers' stores.	2	2
5.	Share capital contribution to labour contract societies.	1	2
6.	Loan for purchase of shares to labour contract societies.	2	2

III) Irrigation and Power:- Two medium irrigation projects, viz. Hingani Pangaon and Jawalgaon, both in Barshi tahsil, were in progress during the year under reference.

Achievements under the sector of power development are indicated in the following table.

Table No.3

Programme of electrification

Sr. No.	Item	Unit	1980-81	
			Target	Achievement
1	2	3	4	5
1.	Normal development			
	a) Connections to domestic users.	no.	5000	3401
	b) Connections to small-scale industries.	no.	450	480
	c) Connections to large-scale industries.	no.	6	2
	d) Connection to agricultural pump sets.	no.	300	37
2.	System improvement			
	a) H.T.line	km.	30	32
	b) L.T.line	km.	20	11
	c) Additional transformers	no.	40	51
	d) Increase in capacity	no.	30	11
3.	Rural electrification			
	a) Villages electrified.	no.	15	16
	b) Agricultural pumps energised.	no.	60	67
4.	Harijan basties electrified.	no.	30	22

IV) Industry and mining:- Schemes under this programme are implemented through the District Industries Centre. Progress under various schemes has been shown in the following table.

Table No.4

## Physical Achievements Under Industry

Sr. Item No.	Unit	1980-81		
		Target	Achievement	
1	2	3	4	5
1. Financial assistance to small-scale industries under state aid to industries act (interest subsidy cases)	no.	61	61	
2. Development of handicrafts - stipend to trainees to be trained by master craftsmen (trainees)	no.	-	12	
3. Seed money assistance to educated unemployed persons (cases of seed money)	no.	500	253	
4. Training programme for educated unemployed persons.	no.	300	173	
5. Training programme for entrepreneurs (beneficiaries)	no.	25	25	
6. Development of handloom industry - handloom societies assisted by way of share capital contribution, purchase of shares, interest subsidy, etc.	no.	26	26	

v) Transport and communications:- Under the scheme of district roads, three bridge works were undertaken under the state sector. Out of them, a bridge on Belwanalla on Nazare-Atpadi road was completed and the work of approach roads was in progress. A bridge on Madha-Wairag road near Undergaon was technically sanctioned and the quotation had been sent to Government. The bridge work on Sangola-Kadlas-Jat near Kadlas on Man river was in progress. Under the local sector, roads of 18 km. length were to be improved. Out of these, a road length of 10 km. had been improved. Out of a target of completion of 24 C.D.Works, 16 C.D.Works were completed. Under the scheme of minimum needs programme, a target of construction of new roads with a road length of 3.06 km. was completely achieved. Out of a target of improvement to 17 km. of roads; road-length of 15 km. was improved and 13 C.D. Works were

completed. Under the scheme of rural roads, a road-length of 29.15 km. and 79 C.D. Works were completed.

VI) Social and community services:- i) General Education:- The programme includes various schemes pertaining to elementary education, secondary and higher secondary education, teachers' training, university education, adult education, physical education, sports and youth welfare etc. Important items of achievements during the year under reference are given in the following table.

Table No.5

Physical achievements under general education

Sr. No.	Item	Unit	1980-81	
			Target	Achievement
1	2	3	4	5
1.	Primary students benefitted under the scheme of book banks			
	a) Students	no.	980	980
	b) Sets of books	no.	6600	6600
2.	Students, belonging to SC/ST in primary schools, benefitted due to special facilities.	no.	980	980
3.	School buildings constructed under the scheme of grants to Zilla Parishad for primary school buildings.	no.	45	45
4.	Science kit boxes supplied under UNICEF aided programme.	no.	45	45
5.	Distribution of sets of books in secondary schools under the scheme of book banks.	no.	9868	11514
6.	Teachers trained for implementation of NCERT syllabus.	no.	180	180
7.	Rural sports centres established.	no.	11	11
8.	Organization of sports shibirs under the scheme of district coaching programme and establishment of district coaching centres.	no.	476	476
9.	Students benefitted under the scheme of concessions to EBC students.	no.	3946	3946

It is seen from the above figures that progress of all the schemes is quite satisfactory.

ii) Art and Culture:- Thirty three libraries were assisted under the scheme of grant-in-aid to public libraries.

iii) Technical education:- Three hundred and sixty four books were purchased under the scheme of establishment of book banks in government polytechnics. Five centres were established under the scheme of consolidation and developments of facilities for effective implementation of vocationalization at + 2 stage. 432 students were admitted in these centres.

iv) Health:- Construction of three primary health centres and two rural hospitals was in progress. 21,059 blood smears were examined under the national malaria control programme.

v) Water supply and sanitation:- Works of two old piped water supply schemes and three new piped water supply schemes were in progress under government water supply scheme. Similarly, four old works and one new work of piped water supply schemes were in progress under municipal water supply scheme. Under the scheme of rural piped water supply (special measures), 29 works were undertaken under the state sector. Out of these, 21 works were in progress and one scheme was completed and handed over to the Gram Panchayat for maintenance. Four piped water supply schemes were under execution under the local sector. Out of these schemes, the scheme at Gajgewadi part-I in Sangole tahsil was completed and the remaining three works were in progress. 170 drinking water well works were under execution out of which 38 were completed. Against the annual target of 329 bore wells, 323 bore wells were drilled out of which 284 proved successful.

vi) Housing:- The scheme of extension of village gothans and provision of house sites was implemented in ten villages. A target of 1744 huts was set under the scheme of provision of house sites to landless workers in rural areas and construction of huts. However, only

926 huts were completed..

vii) Urban development :- Six municipal councils were assisted under the scheme of financial assistance for implementetion of development schemes. Physical achievements under the scheme of environmental improvement in slum areas are noted below.

Table No.6

Physical achievements under slum improvement scheme

Sr.No.	Item	Unit	1980-81	
			Target	Achievement
1	2	3	4	5
1.	Construction of road	Sq.mt.	20,065	20,315
2.	Construction of latrines	no.	400	132
3.	Construction of guttars	Sq.mt.	20,279	20,779
4.	Provision of water taps	no.	90	34
5.	Provision of street lights	no.	120	17

viii) Labour and welfare of labour:- 48 additional seats were created in I.T.I. at Solapur under the scheme of consolidation and making good deficiencies in I.T.I. In all 3242 educated unemployed persons were benefitted due to implementation of the scheme of honorarium to educated unemployed for part-time employment.

ix) Welfare of backward classes:- The progre'ss under this sector is additive to the development programme under other sectors which directly or indirectly benefit the backward classes and weaker sections of the society. The important physical achievements under this sector are indicated in the following table.

Table No.7

Physical achievements under welfare of backward classes.

Sr.No.	Item	Unit	1980-81	
			Target	Achievement
1	2	3	4	5
1.	B.C. students benefitted by way of			
	(1) grant of tuition and examination fees.	no.	Not fixed	4352
	(2) award of scholarships to students studying in highschools.	no.	- do -	543
2.	Students belonging to denotified and nomadic tribes benefitted by way award of post - S.S.S. scholarship.	no.	45	45
3.	Irrigation wells constructed by B.C., S.T., etc. people.	no.	25	25
4.	Houses constructed under the scheme of co-operative housing societies.	no.	Not fixed	103
5.	Houses constructed under the scheme of individual and group housing.	no.	33	33

x) Nutrition programme: - Nutritious food like "Sukadi" and milk is distributed to students in the age group of 6-11-years under the scheme of school feeding (mid-day meal) programme and integrated child development programme. In all 40,465 students and 3,475 students took the benefit of "Sukadi" and milk respectively under the former scheme. Under the latter scheme, 42 centres were established and 8,400 students took the benefit of the scheme. The targets fixed for both the schemes were completely achieved.

4.4 Centrally sponsored schemes: - Besides the district level plan schemes, which are financed from the state funds, some central sector schemes were also implemented in the district. Information about the expenditure incurred during 1979-80 and 1980-81 is given in the following table.

Table No.8

Major head-wise expenditure on centrally sponsored schemes.  
(Rs. in lakhs)

Sr. Major head No.	Expenditure during	
	1979-80	1980-81
1. Agriculture and allied services.	112.35	121.97
2. Co-operation	1.00	-
3. Industry and mining.	3.65	1.86
4. Social and community services.	46.71	11.39
<b>Total</b>	<b>163.71</b>	<b>135.22</b>

The total expenditure on state plan schemes and centrally sponsored schemes, thus, works out to Rs.1432.88 lakhs and Rs.1449.08 lakhs during 1979-80 and 1980-81 respectively.

4.5 Physical achievements of centrally sponsored schemes:- Integrated rural development programme and the Drought Prone Areas Programme are important plan schemes which receive central assistance. Various schemes are under implementation under these programmes. Information in respect of major achievements under these programmes is given in the following tables.

Table No.9

Important achievements under I.R.D.P. during 1980-81

Sr. No.	Item	Unit	1980-81	
			Target	Achievement
1	2	3	4	5
1.	Construction of new wells	no.	208	1464
2.	Lift irrigation schemes.	no.	16	1
3.	Agricultural demonstrations held.	no.	475	254
4.	Agricultural implements distributed.	no.	866	57
5.	Milch animals supplied.	no.	3440	2857
6.	Cross breed calves supplied.	no.	370	219
7.	Goats distributed.	no.	2256	651
8.	Trainees trained under Trysen.	no.	200	153
9.	Rural artisans assisted.	no.	967	997

Table No.10

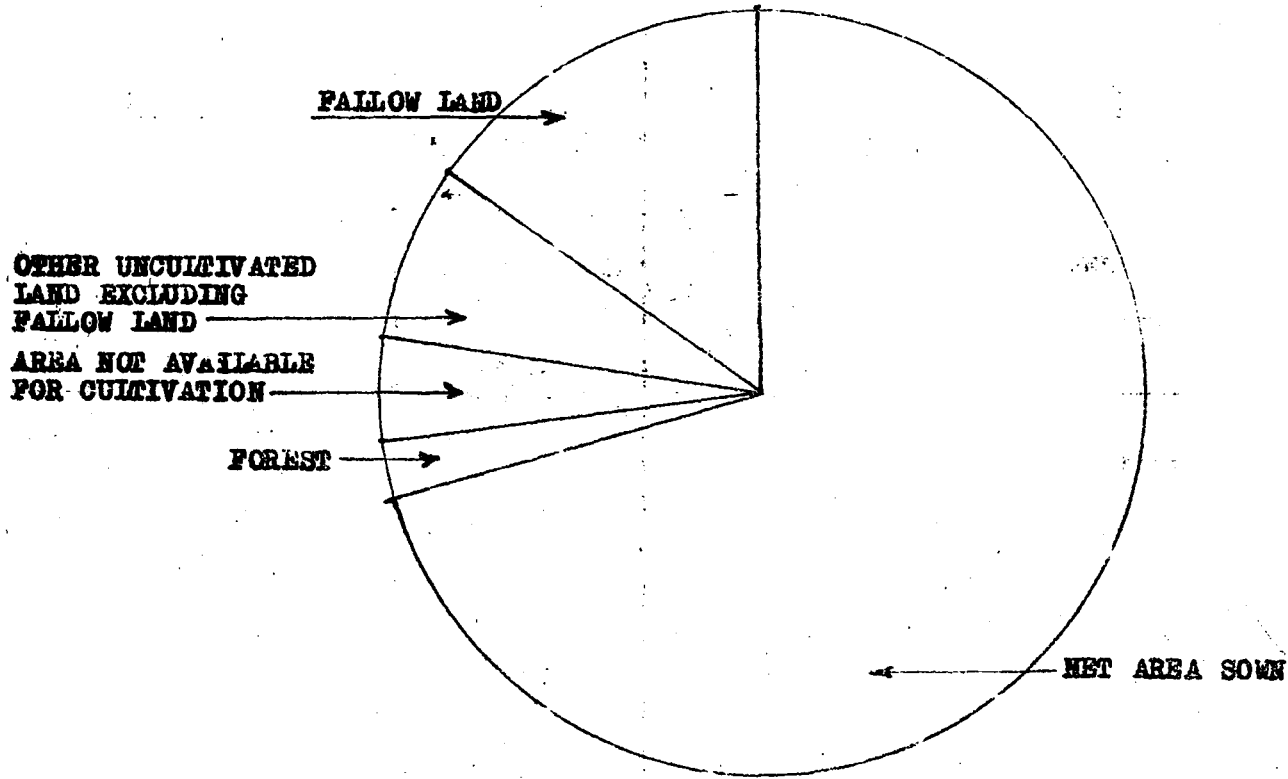

Important achievements under Drought Prone Areas Programme

Sr. No.	Item	Unit	1980-81	
			Target	Achievement
1	2	3	4	5
1.	Area contour bunded.	hectares	4000	4287
2.	Repairs of contour bunded area.	-do-	5000	4424
3.	Area covered under land drainage.	-do-	400	459
4.	Nalla bunding works.	no.	100	103
5.	Construction of new wells.	no.	50	55
6.	Repair/revovation of old wells.	no.	10	10
7.	Small and large demonstrations held.	no.	900	896
8.	Milch animals distributed.	no.	1700	622
9.	Fodder demonstrations held.	no.	20	20
10.	Chilling plants established (plant at Barshi)	no.	1	1
11.	Fish seed production.	no.in lakh.	18.25	17.73
12.	Wood lots.	hectares	50	40
13.	Wind breaks.	km.	60	60
14.	Area covered under tree plantation.	hectares	230	120
15.	Area covered under pasture development.	-do-	100	100

Progress under the Drought Prone Areas Programme can be stated as satisfactory since the annual targets has been achieved or exceeded in respect of nine items out of 15. In case of Integrated Rural Development Programme, out of nine items, the targets was exceeded only in respect of two.

Note:-(i)Min. price = Minimum price (ii)Max. price = Maximum price (iii)Ave. price= Average price. Average price is based on the weekly price quotation covering a month (i.e. Arithmetic mean) (iv) @ = Fair price shop. (v)As the information collected for the given commodities is restricted to only one quotation and that too only from one shop at District head quarter, the average shown for individual commodity cannot be said to be fully representative, but data may prove useful as broad indication of trend in changes in retail prices over a period of time.
