## \* : CHAPTER - I :-

### INTRODUCTION :

1.1 Amravati district is one of the important districts of Vidarbha region, with its headquarter by the same name. Numerous legends are told regarding the origin of the name Amravati or 'Umravati'. According to one belief, Amravati district is said to have derived its name from the temple of Ambadevi situated centrally in Amravati city. According to another, the name Amravati has its origin in Sanskrit which means the abode of immortals or eternal city.

Amravati has been an important place throughout all the ages in the history for one reason or the other, right from ancient period to the modern times. It is believed that some of the significant events described in Mahabharata had occurred in Amravati district. Kaundinyapur, which is situated on the bank of the River Wardha in this district, was the capital of the Kingdom of King Bhimak, who was father of Rukmini, Royal families of Satvahans and Vakatakas were closely associated with some places in this district. One land grant has been found at Chamak in Achalpur tahsil of this district, which was made by Pravar, sen-II. It records the king's donation of 8,000 'Nivartanas' of land in the village Chamak which was situated in the Bhojakata division, Bhojkata, the Headquarter of the division goes now by the name Bhatkuli.

In the eighth century, Amravati was a part of the Kingdom of Rashtrakutas. One land grant by Govinda-III has

been found at Anjanvati in Chandur tahsil. The grant was made by Govinda III at his capital Mayurkhandi on the occasion of 'Tula-Purnima' at the time of solar eclipse in the Saka year 722 (800 A.D.)

In the mediaeval period, Achalpur city had been the capital of Madshahi of Berar. During the regime of Shahajan, Achalpur formerly known as "Ellichpur" was the capital of the 'subha' or division. In 1722, ~~subha~~ granted a sanad to Ranoji for Amravati. Madhorao Peshwa had a treaty with Bhosala of Nagpur at Nandgaon near Amravati in 1769.

Under the Company rule General Arthur Wellesley having defeated Marathas at Adgaon, Passed through Achalpur to take the fort of Gavilgad at Chikhaldara.

During the independence struggle of 1857, Tatyasaheb Tape forced his way through the Melghat and had raised Gondas, Bhils and Korkus against the British. In the struggle for freedom also the district played an important part under the leadership of Dadasahib Khaparde, a colleague of Lokmanya Tilak and Veer Wamanrao Joshi, disciples of Mahatmaji.

## 1.2 LOCATION:

Amravati district divided into 6 talukas lies between 20°- 22' and 21°-46' north latitude and 76°-37' and 78°-27' East longitude. It occupies an area of 12,210.0 square kilometers. This district of Nagpur division is situated right in the centre of northern border of the Maharashtra State.

## 1.3 BOUNDARY :

The district is bounded on the north by Madhya Pradesh for the greater part by Betul district, Nimar and Chinwada on

the North-West and North-East having a lesser extent of common boundaries with the district. It is bounded on the east by Nagpur and Wardha districts and on the south and south-west by the districts of Yavatmal, Akola and Buldhana.

The district boundary runs along the Tapi river on the north-west from point 1.6 K.M. north west of Bhokarbardi village as far as the village Kund and to a distance beyond it, and then divided, to the south of the river and after a general easterly course along the Satpuda upto the Khirsi river, follows a course close to the valley of that river upto point 3 K.M. east of the village Katkumbha. After a tortuous course along the Satpuda, it reaches the southern most slopes and thereafter has a general north-easterly course following in the beginning the southern most crests and then close to the base of the hills. The river Wardha forms the entire eastern boundary of the district. The boundary on the south is mostly one of administrative convenience except for western part where it runs along the course of the purna river. The boundary on the west stretch along the foot of the Satpudas. <sup>also is mostly administrative except for an</sup> east to west

#### 1.4 ADMINISTRATIVE SET UP :

Amravati district with the rest of Berar was assigned to the East India Company by the Nizam following the treaty of 1853, after the province was assigned to the company, it was divided into two districts, south Berar with its headquarter at Hingoli and north Berar with headquarter at Buldhana. Later on Hingoli with the neighbouring region was restored to the Nizam and North Berar was reconstituted into East Berar with headquarter at Akola.

In 1934, the district of Yavatmal was separated from Amravati. In 1867 the district of Ellichapur, which at first included the tahsil of Morshi, subsequently restored to Amravati was formed.

In 1903, the treaties of assignment were superseded by an agreement under which Nizam leased Berar to the Government of India perpetuity. Berar was jointed to the Central Provinces in 1903 to form the enlarged province of the Central Province and Berar.

With the Reorganisation of State in 1956, Amravati along with the other districts of the Vidharbha region, was included in the then bilingual Bombay State. Since the bifurcation of the bilingual Bombay State, into Maharashtra and Gujrat in 1969, Amravati alongwith other district of Vidharbha, is as integral part of Maharashtra State. In Feb 1981, New division named Amravati Division was carried out from the old Nagpur Division and Amravati was fixed as the Headquarter. Amravati, Akola; Yeatmal and Buldhana are the four districts included in this Amravati Division.

**1.5 AREA, VILLAGES AND TOWNS :-**

The district covers, total area of 12,210 Sq. Kilometer (or 469.0 Sq. Miles). There are, according to 1971 Census, 1978 villages, 1637 being inhabited and 341 being uninhabited. There are 12 Municipal towns in the district. The talukawise number of villages and towns is given below :-

| Taluka      | No. of villages |             | Total No. of villages | Town | Area in Sq. Kilometers |       |         |
|-------------|-----------------|-------------|-----------------------|------|------------------------|-------|---------|
|             | Inhabited       | Uninhabited |                       |      | Rural                  | Urban | Total   |
| 1           | 2               | 3           | 4                     | 5    | 6                      | 7     | 8       |
| 1. Amravati | 352             | 75          | 427                   | 2    | 2,142.9                | 53.4  | 2,196.3 |
| 2. Achalpur | 239             | 74          | 313                   | 2    | 1,249.2                | 26.9  | 1,276.1 |

|                 | 1     | 2   | 3     | 4  | 5        | 6     | 7         | 8 |
|-----------------|-------|-----|-------|----|----------|-------|-----------|---|
| 3. Chandur Rly. | 244   | 55  | 299   | 2  | 1,772.3  | 23.9  | 1,796.2   |   |
| 4. Morshi       | 246   | 85  | 331   | 3  | 1,585.9  | 28.2  | 1,614.1   |   |
| 5. Daryapur     | 248   | 25  | 273   | 2  | 1,313.0  | 9.4   | 1,322.4   |   |
| 6. Melghat      | 308   | 27  | 335   | 1  | 3,996.4  | 16.0  | 4,012.4   |   |
| -----           |       |     |       |    |          |       |           |   |
| District Total: | 1,637 | 341 | 1,978 | 12 | 12,059.7 | 157.8 | 12,210.5* |   |

\*(The district Total figures of Area may not tally with talukawise figures.)

In respect of area, the district ranks twelfth in the State and third in Nagpur division, next only to <sup>/Chandrapur and</sup> Yavatmal Districts. According to 1961 Census, the population of Amravati district was 12,32,780 (6,37,861 Males and 5,94,919 females) out of which the rural population was 9,10,586, the urban population being 3,22,194. Amravati district was at seventeenth rank by population in numerical order among the districts of Maharashtra. In Nagpur division the district occupied <sup>/fourth</sup> first place in respect of population. The first three being accounted by Nagpur, Bhandara and Chandrapur.

In the year 1971 Amravati district maintained seventeenth place in numerical order of the population of districts in Maharashtra and its fourth place in Nagpur, division changing the order of first three as Nagpur, Chandrapur and Bhandara. According to 1971, the population of Amravati district is 15,41,209 persons (7,98,073 males and 7,43,136 females) out of which the rural population is 11,16,526, the urban population being 4,24,683.

During the period of 10 years 1951 to 1961, the population of this district increased by 19.5%, while during the years 1961 to 1971 it increased by 25.9%. During last seventy years it has increased by 91.0%. The average density of

population for the district as a whole was 101 per Sq. Km. in 1961, and it increased to 126 during the year 1971.

The urban population as distributed amongst the different classes of towns during the year 1961 and 1971 is as under, in this district.

| Sr. No.  | Classes           | No. of towns |      | Population |          | % of population to the total urban population |        |
|----------|-------------------|--------------|------|------------|----------|---|--------|
|          |                   | 1961         | 1971 | 1961       | 1971     | 1961  | 1971   |

#### 1.6 HILL RANGES :-

With an exception of Melghat taluka, the Major Part of the district is a plain region, some hills of Satpuda ranges are extended and are known as Melghat. The Gawilgad hills of the Satpuda, being near the confluence of the Purna and the Tapi Rivers in the Nimar district of Madhya Pradesh and pass through the Melghat tahsil of Amravati district to Beitul District of Madhya Pradesh. In Melghat the crests of the range attain an average elevation of 1,000 metres the highest point being vairat at a height of 1,117.75 metres above sea level, the Chikhaldara and the Gawilgad plateaus being only slightly lower. The foot hill bordering the Tapi River have a mean height of 500 metres. The hills are composed of the Deccan trap except

that in south-easterly section along the scarp north and north-east of Achalpur, a line of fault has been responsible for exposing the sedimentary beds from beneath the Deccan trap the northern being the up throw side of the fault.

The only other range, is a low line of trap hills, latera-  
lised to some extent rising in the vicinity of Amravati city and  
extending eastwards for some distance beyond Chandur Rly., with  
a general average height of 50 to 100 metres above the surrounding  
sea level. Country or about 500 metres above the spurs from  
these hills extend northwards for some distance, and the barrenness  
of the land around them is in sharp contrast the general  
fertility.

#### 1.7 IMPORTANT RIVERS :

The Purna is the largest of all the rivers in the district  
which rises near Bhaidehi in Betul district of Madhya Pradesh at  
a height of just over 760 metres in the Satpudas and after flowing  
over some 50 Kilometers in a general southerly and south-easterly  
direction, through hills enters the district emerging into the  
plains and the district boundary here along the base of the  
hill. It traverses across the plains of the district in a south  
westerly direction dividing it into halves. First it flows  
through Achalpur tahsil and then along the boundary between  
Amravati and Daryapur tahsils. Then it turns west wards to  
join the Tapi in Jalgaon district.

The only important left bank tributary of the Purna is  
the Pedhi. It rises in the low hills near Ritpur and flows in a

general south-esterly course, passing by Walgaon Bhatkuli and Ganga (Dovi). After crossing the district boundary, it turns and flows westwards and north-westwards to join the Purna at point where the latter makes a very short sojourn outside the Amravati district, in Akola district.

The other tributaries of the Purna are the Chandrabhaga, the Shahanur and the Bordi. The Chandrabhaga river rises just below the Vairat point and after receiving a number of small streams, flows in the easterly direction. The Principal right bank affluent of the Chandrabhaga is the Bhuleshwari which passes by Shindi Bz., Kokarda and joins the Chandrabhaga near Daryapur east of Babhal.

The Shahanur rises in the Gawilgad hills near Jhireghat and after a fairly long and widening course enters the plains near Malkapur and flows southwards passing by Anjangaon and continues in this direction to join the Purna beyond the border of the district.

Other important rivers of the district are the Wardha and the Tapi. The Wardha flows along the eastern border of the district for over 80 Kms. The tributaries of the Wardha are the Chudamani, the Belmund and Mula which drain Morshi tahsil. The Tapi flows along the north-west boundary of the district for about 48 kms., and receives through its tributaries the Kamda, the Kapra, the Sipna and Garga, a large ~~share~~ share of the rainfall from the Gawilgad hills.

#### 1.8 SOILS:

Decomposition of Deccan traps has given rise to either deep brown to rich red or black cotton soil (regur) which is widespread in the district. The regur is rich in plant nutrients

such as lime magnesia and low in nitrogen and phosphorus. Thus Amravati district is rich in fertile ~~xxxx~~<sup>black</sup> cotton and alluvial soil. The richest tracks are found in the vallies of the Purna, the Wan and the Wardha rivers. This soil is porous and sevels considerably on addition of water and dries up with distinct cracks on loosing the moisture. The whole of Melghat tahsil is a hilly part and contains very dense forest. The soil is generally of the poorest description with some small pockets of good soil found in parts of the vallies where kharif crops are mostly grown.

#### 1.9 CLIMATE AND RAINFALL:

The district being in the interior, far away from both the eastern as well as the western coast, its climate is dry and extreme, yet healthy. The winters are quite cold whereas the summers are extremely hot.

After October, the temperature decreases progressively till december which is the coldest month. The mean daily maximum temperature is  $12^{\circ}\text{C}$ . Temperature rises after February till at Amravati is  $41^{\circ}\text{C}$ . and the mean daily minimum temperature May which is the hottest month of the year. With the arrival of the south-west monsoon by about mid-June there is an appreciable decrease in days temperature and the weather becomes pleasant after the end of September.

The highest maximum temperature recorded in Amravati was  $46.7^{\circ}\text{C}$  on 25 May 1954 and 2nd June 1923. The lowest minimum temperature recorded was  $5.0^{\circ}\text{C}$  on 9th February 1887.

The average annual rainfall in the district is 877.4 mm in the plains. The rainfall at Chikhaldara, which is a hill station and tourists centre, is about twice of that in the plain. The rainfall during June to September constitutes 83% of the annual rainfall, July being the month of maximum rains. On an average

the number of rainy days in the plains of the district is 49 in a year. At Chikhaldara there are 77 rainy days in a year.

The heaviest rainfall in 24 hours recorded in the plains of the district was 292.8 mm at Badnera on July 23, 1921. The heaviest rainfall in 24 hours at Chikhaldara hill station was 431.0 mm on August 19, 1886.

Temperature records are available for Amravati station. The highest maximum temperature during the year in 1979 was 45.0 c in the month of April, May and June 79 while minimum temperature in the month of December of the same year was 12<sup>o</sup> c. The district receives a moderate amount of rainfall and comes under the assured rainfall zone. The rainfall is more or less uniform all around except in Melghat tahsil which receives a higher amount of rainfall. The rainfall recorded at Amravati station during the year 1980 was 745 mm.

#### 1.10 LATEST DEVELOPMENT IN THE DISTRICT.

The latest Development in the district may be mentioned as below:-

1) From the beginning of the Fifth Five Year Plan (i. e. 1974-75, 1978-79), the planning commission has laid emphasis on the need to adopt multi-level approach so far as planning at the state and sub-state level is concerned. The basic idea underlying this approach is that, from the point of view of both efficiency as well as equity, etc. it is not desirable to mechanically impose the hierarchy of programme priorities, determined on the National and state level, without taking into consideration, the peculiarities of different areas as regards levels of development, Physico-Geographical conditions, resources potential and the coverage and quality of economic and social services. The Planning Commission has also observed that involvement of the representatives of the people in the process of formulation and implementation of the plan at sub-state level is essential if the message of the class has to be translated in action at the sub-state level.

With the aforesaid underlying philosophy the district planning and Development Councils, in the state, were constituted with the functions of giving guidelines to various implementing agencies at the district level in regard to preparation and implementation of perspective, Fifth Five Year and Annual Plans and ensuring co-ordination between various implementing agencies. Besides the D.P.D.Cs., are expected to approve the perspective, Fifth Year and Annual Plans within the broad frame of National and State Five Year Plans and review the same from time to time and make recommendations to the State Government.

2. The major developmental activity worth mentioning in the district is that of major irrigation project i.e. Upper Wardha Project the work of which is in progress.

3. Besides the aforesaid major irrigation project one medium irrigation project is completed i.e. Malkhed tank and five medium Irrigation Projects are coming up in the district viz. Shakhalli Nallah, Shekadari, Shahnoor, Chargad Nalla and Kherkund Tank. On completion of these Irrigation Projects district will have an improved position in respect of Irrigation.

4. For the benefit of the small farmers, small Farmers Development agency has already been registered in the district. Subsequently the benefits of the agency were also extended to the marginal farmers too. The agency is doing exemplary work in the field.

5. For Live stock development in the district an intensive Cattle Development Project has come up and is catering the longfelt need of improving the Live-stock with its centres in the interior part of the district.

6. In the Tribal sub-plan area of the district viz., Melghat Taluka, Integrated Child Development Project scheme has come up to cater to the nutritional and ancillary needs of the fostering children and pregnant mothers. The location of the project in the tribal area presupposes the assistance to be given to backward tribals in the district.

7. With the introduction of the Lead Bank Scheme, the lead Bank of the district viz. :- Central Bank of India has prepared a "Credit Plan" for the district to cater the needs of institutional finance, particularly in the agricultural and industrial spheres alongwith expansion of the branches in a phased manner, in the rural areas so as to enable the rural population to fulfil the credit need.

/sponsored

Integrated cotton development Project, ~~xxxxxxx~~ by the Government of India, has been established at Amravati for the all rounded Development of Cotton Crop in this cotton growing area of the country alongwith a research Centre on cotton and grapes, which was a long felt need of this area.

8. Crop diseases controlling mobile unit is run by the P.K.V. to help and assist the cultivators to check the crop destroying diseases by modern methods.

**1.11 DEVELOPMENT OF THE DISTRICT IN AGRO INDUSTRIES SPHERE :-**

The district is mainly divided into two broad Division viz. :- The Ghat region comprising of Melghat and Northern part of Achalpur, Daryapur and Morshi and the plains of Achalpur, Daryapur and Amravati talukas. The district lies in the assured rainfall zone. The annual average precipitation is of 750 mm. The average size of the holding in the district is 3.75 hectares.

small cultivators owning less than two hectares constitute about 46 percent of the total holders. About 58 percent of the total geographical area is under cultivation. The crop pattern of the district is dominated mainly by cotton and Jawar crops, together accounting for about 75 percent of the net cropped area. Cotton crop alone shares 50 percent of the cropped area.

The total irrigated area in the district accounts for about 1.75 percent of the net sown area. With the increasing irrigation facilities in the district the proportion of irrigated crop may reach about 4 percent.

The report on the resources survey on agriculture for Amravati district has not visualised large scale changes in the existing cropping pattern during the next 15 years. However due to increase in area under irrigation the presently grown varieties may yield place to short duration high yielding varieties. However an increasing trend, both in area and production of groundnut crop is marked during the aforesaid survey.

As is evident Amravati district is predominantly an agricultural zone and is known for its irrigational and industrial backwardness. Though cotton and Jawar are the very prominent crops, groundnut and other oil seeds as well as the orange cultivation is fairly in large proportion.

As stated in the earlier paragraph the district is regarded as industrially backward district, though few cotton ginning and pressing units and oil mills, Dal mills etc. are established mostly in the Amravati city and adjoining places.

Out of the two textiles manufacturing units in the district Vidarbha textile Mills Achalpur is only in production where as the other unit at Badnera which was in the dormant condition has in the recent few years has partly started production. Besides, there is a spinning Mill in Amravati city being run on co-operative basis. In the recent years a fertilizer plant known as "Krishi-Deo" is established by the Vidarbha Co-operative Marketing society. Considering the availability of raw materials, infrastructure in the district, fairly large potential is available for the growth of agro-industries. Similarly, fairly large potential for the growth of forest based industries is also available in the district in view of the proportionately Vast area under forest. The coffee plantation, also though on small scale is being done in the Melghat hill ranges.

The existing agroindustries in the district area enumerated below :-

- i) Cotton ginning and spinning & Weaving mill.
- ii) Cotton delinting
- iii) Oil mills and Dal mills.
- iv) Poultry and live stock feeds.
- v) Dairy and Poultry units.
- vi) Seed production and processing.
- vii) Fertilizers, insecticides and pesticides.
- viii) Fodder cutter.
- ix) Manufacture of agricultural implements and appliances.

Besides the existing conventional agro-industries, fairly large potential for establishing technically feasible and economically viable units of modern Agriculture and forest based industries is available in the district.

### EXPLANATORY NOTE ON THE SCOPE AND LIMITATIONS OF THE STATISTICAL DATA PRESENTED IN PART - II (STATISTICAL ABSTRACT)

#### I. PURPOSE :-

The abstract part of this publication gives exhaustive statistical data on important Socio-Economic aspects of development. Tables on almost all important topics are presented in this part, so that the publication could serve as a reference book. Talukawise and wherever possible Panchayat Samitiwise data have been displayed as far as possible for inter taluka comparing. The available data for latest year has been presented, wherever the same could not be available for the year 1980-81. All the data has been collected from the State and Central Government Offices, Local Bodies and Other relevant agencies. The foot note below each table indicates the source from which the data has been collected.

#### II. DISTRICT AT A GLANCE :-

This table presents a birds-eye-view of the Socio-Economic indicators of development in Amravati district and Maharashtra state, under different heads such as area, population, agriculture, animal husbandry, education, transport and communication, plan and C.F. Programme, Local Bodies and other miscellaneous statistics. Reference year of the data is also indicated in the table.

#### III. CONCEPTS, SCOPE AND LIMITATION :-

The statistical tables presented in the district Statistical Abstract are grouped into 13 parts. The contents

of the tables and the scope and limitations of the data displayed under each group are explained below.

1. AREA AND POPULATION :

In all 7 tables i.e. table Nos. 1 to 7 are included in this section. Data for 1971 census has been indicated in all the tables as 1981 Census data are not available as yet. Table No. 1 indicates Panchayat Samitiwise area, houses and population according to 1971 census.

Table No. 2 indicates ( decadal variation ) sexwise rural and urban population enumerated in 1951, 1961 and 1971 Census alongwith variation between the three census. The population figures for 1951 and 1961 census shown in the table have been adjusted to cover the boundaries of area of the district and talukas as they existed at the time of 1971 Census. According to 1971 census, the term urban area as used in col. 6 of the table was defined as under :-

For any place to be recognised as an urban area (town) for the 1971 census, it was to have a municipal corporation or an area under a Municipal council or a cantonment or a civil line. If it did not have any of these urban local bodies to administer its affairs, the following copirial tests were applied, (a) a minimum population of 5,000 (estimated for 1971) (b) a density of not less than 400 per Sq. Km. (1000 per Sq. mile) (c) 75 percent of the male working population pursuing occupation as falling outside agriculture, (d) the place should have, according to the Director of Census Operations of the State, a few pronounced urban characteristics and amenities.

Table No. 3 gives Panchayat samitiwise as well as Talukawise classification of inhabited villages according to different population ranges. The term village (i.e. rural area) used in the table denotes a statutorily recognised village having a well defined boundary and separate land records. Hamlets, wadies or padas have therefore not been shown as separate villages. On the other hand, statutorily recognised villages having no population have been shown separately as 'Uninhabited' villages also include forest villages comprising mostly of forest labourers and their families. Total population of the villages in each range is also indicated in the table. Table No. 4 gives talukawise classification of towns according to population ranges in 1971 census. The table No. 5 gives number workers and non-workers in each Panchayat Samiti as well as in each taluka of Amravati district according to 1971 census, and they are classified according to standard livelihood classes. The population according to livelihood classes is also shown separately for rural, urban area in tables and also for the district as a whole. The concept of dependancy has been abandoned for economic classification at the 1971 census. Instead, the population is classified into workers and non-workers, the emphasis is now on work and not on income or economic dependence. A person is defined as worker, if (a) in case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season and (b) in the case of regular employment in any trade profession, service, business or commerce, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers etc. who earn an income but who are not participating in any productive work in any occupation, have been classified as non-workers.

The table No. 6 gives distribution of population according to (A) Age group (B) Mother-tongue and (C) Religion separately for Rural and Urban areas and for the district as a whole. The table No. 7 gives Panchayat Samitiwise and Talukawise details of schedule castes, schedule tribes and Neobuddhist separately for rural and urban areas and also for the district as a whole.

The schedule castes/scheduled tribes notified for this district are as follows :-

I. Scheduled Castes-

(1) Bahna or Bahana (2) Basor, Balani (3) Basor (4) Bedar (5) Bhanji (6) Chamar (7) Dohar (8) Dom (9) Ghasi (10) Kaikadi (11) Katia (12) Khatik (13) Kori (14) Mahar (15) Mang.

II. Scheduled Tribes :-

(1) Andh (2) Bhil (3) Bhunjia (4) Binghwar (5) Gond (6) Halba (7) Kavar (8) Korku (9) Pradhan (10) Pardhi.

2. CLIMATE :-

Only two tables are included under this section pertaining to rainfall and temperature at the selected centres in Amravati district.

Table No. 8 gives monthly rainfall and number of rainy days in each month at the selected centres for the year 1981. The data has been collected through Revenue agency. A day is

treated as a 'rainy day' if during the 24 hours, the rain recorded a minimum of 2.55 MM of rainfall. Annual rainfall for each centre is also indicated in the table. Normal rainfall is the average rainfall over a period ranging from fifty to eighty years. But moving average rainfall of ten years is given in this table.

Table No. 9 gives monthwise 'Maximum, Minimum' and Annual temperature as recorded at selected centres for the year 1980. The data has been supplied by the Government of India's Regional Meteorological centre at Nagpur. The maximum and the minimum temperature denotes the maximum and the minimum temperature recorded on any day during the month.

### 3. AGRICULTURE :-

In all 14 tables i.e. tables No. 10 to 23 are included in this section.

The Table No. 10 indicates talukawise figures of land utilisation under the standard heads of land uses for the year 1977-78, 1978-79, 1979-80. The break-up for the total geographical area according to different types of land uses is shown. Major constituents of the Geographical area are forest land put to non-agricultural uses, barren and uncultivable land, cultivable waste, permanent pastures, land under miscellaneous tree crops not included in area sown, current fallows, other fallows and lastely net area sown. Under 'Forest' area included all actual forest areas or lands classed or administered as forests under any legal enactment dealing with forest whether state owned or private. If any portion of such land is

not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land as the case may be 'Land put to Non-agricultural uses' stands for all lands, occupied by buildings roads and railways or under water e.g. rivers and canals and other lands put to uses other than agriculture. 'Barren and unculturable land covers land like mountains etc. Land all barren and unculturable which cannot be brought under cultivation unless at a high cost, is classified as 'barren and unculturable land' irrespective of the fact whether such land is in isolated blocks or within cultivated holdings. 'Culturable waste' included all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and last five years or more, in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may or may not be assessed and may lie in isolated blocks or within cultivated holdings. Permanent pastures and other grazing lands cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under the head 'Land under miscellaneous tree crops etc. not included in the net area sown' includes all cultivable land, which is not included under net area sown, but is put to some agricultural use. Land under casuring tree, that ching grass, bamboo bushes and other for fuel etc., which are not included under 'orchards' are classed under this category. 'Current fallows' comprises

cropped areas, which are kept fallow during the current year. 'Other fallow' land includes all lands which were taken up for cultivation, but are temporarily out of cultivation for a period of not less than one year and more than five years.

The 'net area sown' consists of net area sown with crops and orchards, area sown more than once being counted only once. The gross cropped area represents the total of area under all crops. The difference between the total or gross cropped area and net area sown is accounted for by the area sown more than once during the same year with the same or different crops.

In table No. 16 the data about availability of under ground water survey for the year 1980-81 is presented Panchayat Samitiwise in the district.

The table No. 18 gives the Panchayat Samitiwise information on Major and Medium Irrigation projects in this district. Complete projects have been covered in this table. Position in this table is as it was on 30th June 1980. The cost of medium irrigation project ranges between Rs. 20 lakhs to Rs. 5 Crores whereas that of a major irrigation project is Rs. 5/- crores and above.

Table No. 19 deals with monthly agricultural wage rates in 1979. This data is collected fortnightly throughout the year from three selected Rural Centres viz. (1) Bhatkuli (2) Bhandaraj (3) Dharni. This data also do not represent the actual wage level in the district, but are useful for studying the general trend in agricultural wage rates in the district. Table 20 is included in the publication to indicate the tahsilwise date of agricultural operational holdings area operated, number of

holdings reporting irrigation and number and area of operational holdings by tenure according to the size classes. Table No. 22 deals with famine, scarcity and akin to scarcity and Table No. 23 indicates determination of precarious and other scarcity areas.

4. ANIMAL HUSBANDRY AND FOREST :

A. ANIMAL HUSBANDRY :-

In all 6 tables i.e. table Nos. 24 to 29 are included in this section.

Table No. 24 gives Panchayat Samitiwise and also taluka-wise number of various types of livestock and poultry as enumerated in the district in the livestock census, 1978. The census is conducted throughout the country on an uniform basis of concepts and methods of enumeration once in 5 years during the livestock census operations, the livestock and poultry were enumerated by house to house enquiry, particular care was taken to enumerate livestock in slaughter houses, stray animals and animals in transit. Sex and age-groupwise classification of the livestock is also indicated in the table.

B. FOREST :-

The Table No. 28(A) gives details of area under different types of forests during the year 1980-81. Data regarding forests under the control of the State Governments, Forest Department and those under the control of the State Government Revenue Department are shown separately. The area under forests are classified according to legal status i.e. reserved forests, protected forest and unclassified forests.

The legal status refers to the classification of forest under the Indian Forest Act, XVI of 1927. Reserved forest are those that are intended mainly for timber production wherein the rights of grazing and cultivation are seldom allowed. In protected forests, the restrictions are not so rigid. Right of grazing or cultivation is allowed but certain limitations and restrictions are imposed. The unclassed forest refers to the inaccessible forest or unoccupied waste. The forests which are taken by Government from local bodies or private individuals for management on lease basis are called 'Leased Forest'. There is no classification of expropriatory forests as such but in Nagpur division, some private lands containing valuable forest are taken over by Government under section 29 of the Indian forests Act, which are not yet classified as per tripartite classification and they are termed as ex-propietary. The forest area shown in Table No. 28(A) may not tally with the area under forest shown in Table No. 10. The two sets of figures differ due to following reasons.

- (i) In the Indian Forest Statistics Returns, the whole area including non-wooded are under the control of forest department is taken as area under forests, while in Agricultural statistics, it is classified according to its actual utilisation.
- (ii) The forest Department returns are to serve a definite administrative purpose and indicate the ownership of the forest areas and actual utilisation of these areas

is not so important from the point of view of Forest Department as it is in the land utilisation statistics under Agricultural Statistics.

(iii) The Forest Department returns relate to financial year and Agricultural Statistics relate to the agricultural year.

Table No. 29 (A) :- The information on inland fisheries is presented talukawise for the year 1980-81.

5. EMPLOYMENT INDUSTRY MINING ELECTRICITY :-

In all 10 Tables i.e. table No. 30 to 39 are included in this section.

The factory statistics shown in table Nos. 30-31 and 32 relate to the following types of factories registered under the factories act 1948.

- 1) Those employing 10 or more workers working with the aid of power (section 2 (ii),
- 2) Those employing 20 or more workers and working without the aid of power (section 2(ii), and
- 3) Those registered under section 85 of the Act under which the State Government makes applicable the provisions of the Act, even though the above conditions are not fulfilled. However, Statistics of the Defence Factories are excluded.

The table 34 deals with employment exchange statistics while, the table No. 35 gives occupational distribution of total registrations and placements in the employment exchange for the year 1980-81 according to standard National classification.

Table No. 36 contains the data on works under taken under Employment Guarantee scheme in the district during the financial year 1980-81 alongwith the information about employment generated and expenditure booked.

6. CO-OPERATION :-

In all 8 tables i.e. Table Nos 40 to 47 are included in this section.

Table No. 42 gives Panchayat Samitiwise and also Talukawise number of primary agricultural societies, their membership share capital, reserve and other funds, working capital, loans advanced and recovered loans outstanding and overdue and percentage of recovery to total loans advanced for the year 1979-80. Working Capital, includes paid up capital, deposits and borrowings. Loans outstanding includes outstanding in respect of loans, cash credits and over drafts and the amount of outstanding bills purchased or discounted. 'Overdues' refer to amount of loan or instalments which were due for collection but which were not actually collected and for the repayment of which no extention has been granted by a competent authority.

Table No. 47 gives Panchayat Samitiwise as well as talukawise number of registered money lenders and loans by them during 1980-81. Separate figures of loans advanced to traders and non-traders have been furnished in the table. The transactions of money lending in the state are regulated under the provisions of Bombay Money Lenders Act 1946. According to the Act no money lender shall carry on the business of money lending except in the area for which he has been granted a licence, and except in accordance with the terms and conditions of such licence.

7. MEDICAL AND PUBLIC HEALTH :-

In all 5 tables i.e. table Nos. 48 to 52 are included in this section.

Table No. 48 gives the information of Panchayat Samitiwise and also talukawise number of hospitals, dispensaries, maternity homes, Health Centres and Primary Health Centres, and doctors, nurses, vaidyas, beds and total number of indoor and outdoor patients treated for the year 1980. The table covers all the State and central Government medical institution, and also institutions owned by Municipalities. Private clinics run by private bodies or individuals are, however not included in the table.

Table No. 49 gives vital statistics such as number of registered births and deaths in this district for the year 1979. The table 52 deals with the number of family planning Centres operating in the district in the year 1980-81 ( as on 31-3-81) .

8. EDUCATION :

In all 7 tables i.e. Table No. 53 to 59 are included in this section.

Table No. 53 gives sexwise number of literates and percentage of literacy separately for rural and urban areas of each taluka according to 1971 population census. As per 1971 Census definition, a person was classified as literate if he was able to read or write a simple letter in any language. Educational levels in rural and urban areas are shown in table No. 54 and 55 respectively according to 1961 Census as these data for 1971 census are not yet available.

Table No. 56 gives information regarding number of educational institutions according to types for 1980-81. Sexwise enrolment and number of trained and untrained teachers in these institutions is also indicated in this table. The classification of institution according to type is slightly different from stage of education. There are at present many Secondary schools, which also impart education in primary course. Nevertheless, the entire enrolment of students is included under Secondary education. Primary institutions provide education for standard 1 to IV or 1 to VII/VII or less and teach the curriculum approved by the education department after Passing S. S. C. examination which leads to a Degree examination.

Table No. 57 presents data on backward class enrolment while table No. 58 presents data on the number of beneficiaries among backward classes such as scheduled castes, scheduled tribes and other Backward classes for the year 1980-81. Beneficiaries for this table are persons who are getting concessions of either type such as scholarships, freeships etc.

9. Transport and communication :-

In all 7 tables i.e. table No. 60 to 66 are included in this section.

Table No. 60 gives total railway length as at the end of 31st March 1981 according to type of route i.e. Broad Gauge, ~~Department~~. The secondary institutions coach students for standards VIII to X or XI/XII with or without lower standards. Higher education is the education,

Meter Gauge and Narrow Gauge. The information is compiled from the railway time table. The railway length is measured between the first and last stations within the district boundary. The figures of length of each types of route are, therefore, approximate and not accurate.

Table No. 63 deals with operational statistics of Nationalised Road Transport in Amravati division. For this table, the S.T. Division comprises of (1) Amravati and (2) part of Wardha district of Nagpur Division.

Table No. 64 presents the results of the traffic Census on important roads conducted in Building and Communication Department, Government of Maharashtra. Data on the number of vehicles is according to categories and location of countpost. Type of surface and total traffic intensity in tons per 24 hours are also indicated in the table.

10. LOCAL BODIES :-

In all 4 tables i.e. table Nos. 67 to 70 are included in this section.

Table No. 67 gives abstract of income and expenditure of local bodies such as village panchayats, Zilla Parishad and Municipalities for the financial year 1980-81. The number of village Panchayats includes number of independent village Panchayats as well as group village panchayats.

11. PLAN AND COMMUNITY DEVELOPMENT

In all 5 tables i.e. Table nos. 71 to 75 are included in this section.

12. PRICES:-

Only three tables i.e. table no. 76 to 78 are included in this section. Table no. 76 shows the wholesale prices of certain agricultural commodities at selected centres in the district.

Table No. 77 gives monthly average retail prices of various commodities at district headquarter Amravati. The average prices under each commodity are shown from the month of January to December for the year 1980 alongwith units and varieties of commodities for which price have been quoted. The data is regularly collected by District Statistical Officer every week on Friday by visiting the selected shops. The prices of each commodity for the year is also shown in the table. As the information collected for the given commodities is restricted to only one quotation and that too from only one shop at District Headquarter, the average price for individual commodity cannot be said to be fully representative, but the data may prove useful as a broad indicator of the trend of retail prices over the period of time.

The table No. 78 gives consumer price index number (revised series) for working class for Nagpur Centre published by the Office of the Commissioner of Labour, Bombay. Monthwise data for the year 1980-81 (April to March) commencing from April and also average for the year 1979-80 and 1980-81 have been given in this table. The base year for calculating price index (New series) is 1960. The index number of wholesale

prices are issued by the Economic Adviser to the Government of India. The base year for the same is 1961-62. The methods of construction of the index are given in Appendix to Index numbers of wholesale prices in India, Revised series (1961-62) issued by the Office of the Economics Advisor to Government of India.

13. MISCELLANEOUS :-

In all 12 Tables i.e. table 79 to 90 are included in this section.

Table no. 82 gives Panchayat Samitiwise and also Talukawise Cinema Statistics for the year 1980-81. Number of permanent, semi-permanent and touring theaters and their seating capacity per show has been indicated in the table. The talukawise information about no. of schedule Banks and their deposits and advances 1978 is presented in table No. 84.

Table No. 93 indicates important trends in selected indicators.

\*\*\*\*\*  
\*\*\*\*\*  
\*\*\*  
\*

- : CHAPTER - III : -

In this chapter, the pace of Development under various sectors has been reviewed in the following paragraphs by presenting sectoral trends, spot lighting the Development during the year 1979 - 80, in comparison with the position in 1960 - 61. The data for earlier years have been used in the cases wherever they were not available for the period under review.

1. AGRICULTURE :-

Percentage of Gross Cropped area to net area sown :-

The proportion of area sown more than once with net area sown in indicated with the help of percentage of gross shown area to net sown area in the district and hence the comparison over a period of time viz. 1960-61, 1970-71 and 1978-79 in the form of talukawise percentages of gross area sown to net area sown, as well as for the district as a whole, is presented in the following table.

| Sr. No. | Taluka   | % of gross area sown to net area sown |           |           |
|---------|----------|---------------------------------------|-----------|-----------|
|         |          | 1960 - 61                             | 1970 - 71 | 1979 - 80 |
| 1.      | Amravati | 100.57                                | 100.12    | 101.81    |
| 2.      | Achalpur | 100.65                                | 100.69    | 104.10    |
| 3.      | Morshi   | 100.33                                | 101.33    | 106.01    |
| 4.      | Chandur  | 100.54                                | 100.54    | 102.22    |
| 5.      | Daryapur | 100.28                                | 100.25    | 102.57    |
| 6.      | Melghat  | 103.45                                | 101.24    | 103.14    |
|         | District | 100.65                                | 100.41    | 103.21    |

It would be seen from the above table that in the district as whole percentage of gross cropped area to net cropped area which was 100.65 in 1960-61 decreased to 100.41 during 1970-71. However it increased to 103.21 during 1979-80. Since the entire Cultivation in the district is Rainfed, the increase in double cropped area during the year 1979-80 is 3%, over that in 60 - 61 and 1970-71. In between the tehsils, Morshi Taluka ranked first (106.01%) while Amravati stood last ( 101.81 %).

Percentage distribution of area under important crops to total gross cropped area :-

The cultivation in Amravati district is predominantly dependent upon rains. The Cropping pattern has, therefore, obviously been adjusted to conform it with the seasonal rainfall and climatic conditions. Due to lack of irrigation facilities, the Kharif crops are grown in major part of the cultivable area and Rabi crops are grown to lesser extent. Jowar, Cotton and Tur are the major crops of the district though wheat is also grown in some part of the district, it finds insignificant place in the agricultural produce of the district. In the following table percentage distribution of gross area under, important crops to total gross cropped area for the year 1960-61, 1970-71 and 1979-80 is presented.

Table No. 2.

| Sr. No.       | Name of Crop        | Year 1960-61            | Year 1970-71            | Year 1979-80            |
|---------------|---------------------|-------------------------|-------------------------|-------------------------|
|               |                     | % to gross cropped area | % to gross cropped area | % to gross cropped area |

| 1.            | Rice                | 1.04                    | 1.25                    | 1.64                    |
| 2.            | Wheat               | 6.13                    | 4.57                    | 5.61                    |
| 3.            | Jawar               | 26.90                   | 23.49                   | 24.08                   |
| 4.            | Bajra               | 0.83                    | 0.99                    | 0.97                    |
| 5.            | Total cereals       | 35.51                   | 31.04                   | 33.37                   |
| 6.            | Gram                | 1.09                    | 0.96                    | 1.63                    |
| 7.            | Total Pulses        | 8.97                    | 9.35                    | 11.10                   |
| 8.            | Total food grain    | 44.48                   | 40.22                   | 44.79                   |
| 9.            | Sugar Cane          | 0.00                    | 0.02                    | 0.02                    |
| 10.           | Total Food Crop     | 46.23                   | 42.44                   | 48.92                   |
| 11.           | Cotton              | 49.18                   | 51.27                   | 45.47                   |
| 12.           | Groundnut           | 2.66                    | 5.41                    | 4.83                    |
| 13.           | Total non food Crop | 53.76                   | 57.55                   | 52.42                   |
| Total Cropped |                     | 100.00                  | 100.00                  | 100.00                  |

From the above table, it will be seen that the area under Jawar has decreased as compared with that of 60 - 61. So also, in respect of Cotton, there is a decreasing trend during 1979 - 80

after showing increase in the year 1970 - 71. In case of wheat percentage has shown increasing trend during 1979-80 after showing decrease in 1970-71. In case of Groundnut however, the trend is decreasing though in 1970-71 to was increasing. Area under Bajra, Gram and Sugar Cane constitute very insignificant portion.

3. Yield rates and out turn of Principal Crops :-

In absence of adequate irrigation facilities, the Agril. production in this district, by and large, depends upon well spread timely rains. At the same time it also depends upon adoption of improved agricultural practices such as use of improved agricultural inputs viz. high yielding variety of seeds, chemical fertilizers pesticides etc. In spite of efforts made by the Govt. agriculture in this district continues to be vulnerable to the vagaries of the monsoon. It is therefore, imperative to see that the Yield rates, out-turn of principal crops etc. should be reviewed from that perspective.

Jawar, wheat, Bajra, Tur and Gram are the principal food crops while, Cotton, Groundnut are the major cash crops paddy is also grown in Melghat taluka and is a principal crop of that taluka. Orange, Bananas are also grown in some pockets but their contribution to the total agricultural production of the district is insignificant. The data on yield rates and out-turn of principal food and non-food crops mentioned above for the year 1960 - 61, 1970 - 71 and 1978 - 79 are presented in the following table, where in yield per hectre as well as the total production in 1978 - 79 is compared with that in the year 1969 - 61.

Table No. 3

Yield Rates and Out Turn of Principal Crops

| Srl. No. | Name of Crops                   | Yield per Hectre in Kg. during |         |         | Production in Metric Tonnes |         |         |
|----------|---------------------------------|--------------------------------|---------|---------|-----------------------------|---------|---------|
|          |                                 | 1960-61                        | 1970-71 | 1979-80 | 1960-61                     | 1970-71 | 1979-80 |
| 1        | 2                               | 3                              | 4       | 5       | 6                           | 7       | 8       |
| 1.       | Paddy                           | 578                            | 494     | 746     | 41                          | 44      | 85      |
| 2.       | Wheat                           | 361                            | 489     | 935     | 154                         | 161     | 493     |
| 3.       | Jawar                           | 677                            | 274     | 1150    | 1381                        | 463     | 2358    |
| 4.       | Bajra                           | 658                            | 225     | 400     | 42                          | 16      | 32      |
| 5.       | Total Cereals                   | 606                            | 310     | 1054    | 1632                        | 691     | 3000    |
| 6.       | Tur                             | 1812                           | 768     | 736     | 720                         | 308     | 340     |
| 7.       | Gram                            | 278                            | 285     | 380     | 23                          | 20      | 46      |
| 8.       | Total Pulses                    | 1113                           | 511     | 533     | 818                         | 344     | 452     |
| 9.       | Cotton (In terms of lint bales) | 95                             | 1730    | 530     | 2020                        | 354     | 1816    |
| 10.      | Groundnut                       | 603                            | 545     | 722     | 122                         | 173     | 223     |

From the above table, it is seen that there is increase in the Yield per hectre in respect of cereals in the corresponding year. Among cereals Jawar has recorded highest increase in the Yield per hectre while wheat and Paddy stood second and third.

However, Yield per hectre of pulses particularly crop, Tur is decreased as compared to the date for the year 1970-71. Eventhen, "Total Pulses" has recorded increase in the corresponding year. In respect of cash crops viz., cotton Yield per hectre has shown decrease while groundnut has shown increase.

Net Irrigated area to net sown area :-

Impact of irrigation development can also be judge by studying the percentage of net irrigated area to net sown area. Therefore, this percentage for the years 1960-61, 1970-71 and 1979 - 80 is presented in the following table :-

Table No. 4

| Sr. No. | Year      | Net area Irrigated (Hect.) | Net area sown (Hect.) | % of net area Irrigated to net area sown. |
|---------|-----------|----------------------------|-----------------------|---|
| 1.      | 1960 - 61 | 6976                       | 654998                | 1.06                                      |
| 2.      | 1970 - 71 | 14536                      | 715083                | 2.03                                      |
| 3.      | 1979 - 80 | 27880                      | 720400                | 3.87                                      |

From the above table it will be seen that percentage of net irrigated area to net sown area is gradually increasing since 1969 - 61. In 1960 - 61 it was 1.06% for the district as a whole while it went upto 3.87 % during the year 1979 - 80. This increase can be attributed to the craze of cultivators in Morshi Tahsil to bring more area under orange crop and to achieve this they tried to exploit all possible underground water sources. In Melghat tahsil also there is significant increase because the tribal population in this taluka is taking interest in growing irrigated crops and taking advantage of the various irrigation facilities being provided by the govt. in the tribal area. As result of these factors and also of the completion of some Irrigation projects the percentage is gradually increasing.

Percentage of area under different irrigated Crops to gross irrigated area :-

Percentage of irrigated crops (food and non-food) to gross irrigated area during 1960 - 61, 1970-71, 1976-77 and 1979-80 in the district is given below :-

Table No. 5

| Sr. No. | Name of Crops       | Year    |         |         |
|---------|---------------------|---------|---------|---------|
|         |                     | 1960-61 | 1970-71 | 1978-80 |
| 1.      | Rice                | 0.20    | 1.01    | 0.86    |
| 2.      | Wheat               | 7.15    | 26.53   | 45.41   |
| 3.      | Jawar               | 0.01    | 0.01    | -       |
| 4.      | Bajra               | -       | -       | -       |
| 5.      | Total Cereals       | 7.42    | 27.71   | 46.61   |
| 6.      | Gram                | 2.35    | 3.19    | 1.83    |
| 7.      | Total Pulses        | 2.40    | 3.23    | 1.87    |
| 8.      | Total food grain    | 9.83    | 30.95   | 46.61   |
| 9.      | Sugar Cane          | 0.93    | 1.13    | 0.54    |
| 10.     | Total Food Crop     | 83.81   | 94.63   | 93.15   |
| 11.     | Cotton              | 6.13    | 1.94    | 6.04    |
| 12.     | Groundnut           | -       | 0.27    | -       |
| 13.     | Total non-food crop | 11.16   | 5.02    | 6.85    |
| Total   |                     | 100.00  | 100.00  | 100.00  |

It would be seen from the above table that the percentage area under irrigated cereal crops increased from 7.42% in 1960-61 to 56.72 in the year 1978-79. If the area under total food grains is reviewed, there also an increase from 9.83% during 1960-61 to 58.09% during 1978-79. However, there was decrease in area under Non-food crop from 11.18% in 1960-61 to 8.77% in 1978-79, after an increase to 10.45 in the year 1976-77.

Sourcewise Net Irrigated Area :-

Inspite of number of irrigation scheme to increase Irrigation Potential, the irrigation potential did not show significant increase primarily because of non - available of suitable sites for major and medium irrigation projects. The well irrigation still forms the major source of irrigation the

district. Following table shows the sourcewise net area irrigated in the district during the year 1960-61, 1970-71, 1976-77, 1977-78 and 1978 - 79.

TABLE No. 6

| Sr. No.  | sources of Irrigation | Net area irrigated during (in Hect.) |         |         |         |
|----------|-----------------------|--------------------------------------|---------|---------|---------|
|          |                       | 1960-61                              | 1970-71 | 1976-77 | 1978-80 |
| 1.       | Govt. Canal           | 88.40                                | 35      | 106     | -       |
| 2.       | Private Canal         | -                                    | -       | -       | -       |
| 3.       | Tanks                 | 4.00                                 | -       | 379     | -       |
| 4.       | Other sources         | -                                    | 37      | 306     | 1448*   |
| 5.       | Wells                 | 6883.60                              | 14464   | 15064   | 26432   |
| District |                       | 6976.00                              | 14536   | 15855   | 27880   |

\*N.B. : This figure indicates total area irrigated by surface Irrigation. Breakup not available due to change in format.

It will be seen from the above table though the net area irrigated has increased from 6976 in 1960-61 to 27880 in 1978-80, well Irrigation is proved to be the main source while other sources have very little impact on the irrigation pattern of the district.

2. Co-operation :-

The information regarding number of Agricultural Credit Societies, their membership, working capital, loans advanced and Loans outstanding, overdues etc. for Amravati District is presented in the following table for the years 1960-61, 1970-71, 1977-78 and 1980-81.

Table No. 7

| Sr. No. | Item                            | During the Year |         |         |         |
|---------|---------------------------------|-----------------|---------|---------|---------|
|         |                                 | 1960-61         | 1970-71 | 1977-78 | 1980-81 |
| 1       | 2                               | 3               | 4       | 5       | 6       |
| 1.      | No. of Agril. Credit Societies. | 647             | 713     | 668     | 668     |
| 2.      | Member ship                     | 41349           | 103581  | 203192  | 223676  |

|                              |                          |                        |                         |                          |
|------------------------------|--------------------------|------------------------|-------------------------|--------------------------|
| 3. Working capital           | Rs. 183.96<br>(in Lakhs) | Rs. 86190<br>(in '00') | Rs. 183473<br>(in '00') | Rs. 255371<br>(in '000') |
| 4. Loans Advances            | Rs. 145.21<br>(in Lakhs) | Rs. 58840<br>(in '00') | Rs. 71935<br>(in '00')  | Rs. 78158<br>(in '000')  |
| 5. Loans Out<br>standing     | N. A.                    | Rs. 65181<br>(in '00') | Rs. 127629<br>(in '00') | Rs. 157842<br>(in '000') |
| 6. Over dues                 | N. A.                    | Rs. 23562<br>(in '00') | Rs. 28888<br>(in '00')  | Rs. 85115<br>(in '000')  |
| 7. Percentage of<br>recovery | N. A.                    | 65%                    | 35%                     | 35%                      |

It is needless to emphasize the role played by the Co-operative movement in respect of Rural credit in the district. It is true that due to this Co-operative sector, we could see development in Agriculture and allied sectors. So far as number of societies established and their membership etc. are concerned, this movement has achieved good progress as compared with that of 1960-61. Amount of loans advanced to the members is also considerably increased. However, amount of Loan outstanding and overdues have also gone up considerably. From the data given above, it will be seen that every year the amount loan outstanding and Loan overdue are steadily increasing. This clearly indicates that the Co-operative sector could not achieve the desired ~~xxx~~ results.

### 3. WAGE RATES :-

Wage rates of Agricultural Labourers are regularly being collected from three rural centres of this district since 1963. The average daily wage rates of male and female Agril. Labourers are given for these 3 centres in the following table for the year 1963 and 1980. These wage rates may not be representative of

the tehsil in which the centre is situated, as a whole, but they are useful for studying the general trend in the Agriculture wage rates prevailing in the district.

Table No. 8

| Sr. No. | Centre/Tehsil          | Male Wage rates in Rs. (0.00) |      |        |      |
|---------|------------------------|-------------------------------|------|--------|------|
|         |                        | Male                          |      | Female |      |
|         |                        | 1963                          | 1980 | 1963   | 1980 |
| 1.      | Bhandaraj<br>(Panipat) | 1.36                          | 4.85 | 1.25   | 2.33 |
| 2.      | Bhatkuli<br>(Annavat)  | 1.50                          | 4.29 | 1.75   | 2.33 |
| 3.      | Dhami<br>(Melghat)     | 1.50                          | 5.50 | 1.25   | 4.04 |
| Average |                        | 1.45                          | 4.88 | 1.08   | 3.08 |

From above, it will be seen that average wage rates for male worker has increase from Rs. 1.45 in 1963 to Rs. 4.88 in 1979, while in case of female workers, they have raised from Rs. 1.08 to Rs. 3.08.

Data presented in the table given below will indicate that there is a considerable increase in the wage rates of skilled labourer, viz. carpenter, Blacksmith, Cobbler etc., also at these three centres in the period of time.

| Sr. No. | Type of Labourer | Average for |       | Centre-wise average for 1980 |          |       |
|---------|------------------|-------------|-------|------------------------------|----------|-------|
|         |                  | 1963        | 1980  | Bhandaraj                    | Bhatkuli | Dhami |
| 1.      | Carpenter        | Rs. 4.00    | 12.05 | 10.00                        | 15.00    | 11.16 |
| 2.      | Blacksmith       | Rs. 4.00    | 9.72  | 10.00                        | 10.00    | 9.16  |
| 3.      | Cobbler          | Rs. N.A.    | 7.65  | -                            | 8.25     | 7.04  |

4. Live stock :-

Bovine and Ovine Population per 100 hectares of Cultivable Land :-

Animals besides providing major draught power for agricultural operations, are important source of food, Manure and other raw material.

The following table gives Livestock population (Ovine and Bovine) per 100 hectares of cultivable land in each Taluka as well as for the district as a whole as per 1978 Livestock Census.

Table No. 9

| Sl. No. | Taluka   | Cultivable land in Hect. during 1978 | Livestock per 100 hectares of cultivable land according to |                          |
|---------|----------|--------------------------------------|--|--------------------------|
|         |          |                                      | Bovine and Ovine 1978                                      | Livestock per 100 Hects. |
| 1.      | Amravati | 194900                               | 208400   | 107                      |
| 2.      | Achalpur | 113400                               | 132626   | 117                      |
| 3.      | Morshi   | 144200                               | 166486   | 115                      |
| 4.      | Chandur  | 163400                               | 191800   | 117                      |
| 5.      | Daryapur | 125400                               | 121255   | 97                       |
| 6.      | Melghat  | 118900                               | 124570   | 105                      |
|         | District | 860200                               | 945137   | 110                      |

From above Table, it will be seen that No. of Livestock per 100 hectares of cultivable land is identical in Achalpur and Chandur Tehsils and it is the highest among all the Tehsils in the district. These Tehsils are followed by Morshi, Amravati, Melghat and Daryapur respectively. Daryapur stands the lowest.

5. CONSUMPTION OF ELECTRICITY :-

Following table gives data regarding number of villages electrified number of pumps energized as well as per capita consumption of the Electricity in Amravati district during the year 1960 - 61 and 1979 - 80 :-

Table No. 10

| S.No.    | Taluka | Villages electrified |         | Pumps Energized |         | Per capita consumption |         |
|----------|--------|----------------------|---------|-----------------|---------|------------------------|---------|
|          |        | 1960-61              | 1979-80 | 1960-61         | 1979-80 | 1960-61                | 1979-80 |
| 1        | 2      | 3                    | 4       | 5               | 6       | 7                      | 8       |
| District |        | 133                  | 1514    | N.A.            | 3367    | 24.62                  | 330.4   |

(Note :- Talukawise figures are not available)

It will be seen from the above table that electrification of 1514 villages has now been completed at the end of 1980-81 as against 133 villages during 1960-61. Per capita consumption of electricity has also increased from 24.62 KWH in 1960-61 to 330.4 KWH in 1980-81.

6. Employment :- Candidates Enrolled and Vacancies Notified :-

The sub-Regional Employment Exchange office is located at Amravati. The table indicates the comparative data on Registration Vacancies notified and the placements of the candidates through the sub-regional Employment Exchange in the district during 1960-61 and 1980-81.

| Sr. No. | Item                           | During the year |         | % Increase (+) / Decrease (-) during |
|---------|--------------------------------|-----------------|---------|--------------------------------------|
|         |                                | 1970-71         | 1980-81 |                                      |
| 1.      | Registration                   | 9209            | 16792   | (+) 182                              |
| 2.      | Vacancies                      | 763             | 1818    | (+) 238                              |
| 3.      | Placements                     | 570             | 895     | (+) 157                              |
| 4.      | % of placement to registration | 6%              | 5%      | -                                    |
| 5.      | Number on live Register.       | 10314           | 34387   | (+) 333                              |

It would be seen from the above table that the increase in the number of Registrations and on the live-register of Employment Exchange during 1980-81 over that of the year 1970-71 was 182 % and 333 %. The vacancies notified and placements show a percentage increase during 1980-81 by 238 % and 157 % respectively over the corresponding figures of 1970 - 71.

7. MEDICAL FACILITIES :-

Indoor and Out-door Patients treated :-

The following table indicates the number of indoor patients and out-door patients treated in the district as a whole during the year 1961, 1971 and 1980.

Table No. 12

| Sr. No.                | Item                    | Year   |        |        |
|------------------------|-------------------------|--------|--------|--------|
|                        |                         | 1961   | 1971   | 1980   |
| 1.                     | No. of Hospital         | 19     | 19     | 21     |
| 2.                     | No. of Dispensaries     | 22     | 137    | 141    |
| 3.                     | No. of Indoor Patients  | 17753  | 158512 | 119000 |
| 4.                     | No. of Outdoor Patients | 733483 | 581115 | 740000 |
| Total of Sr. No. 3 + 4 |                         | 756241 | 739627 | 859000 |

It would be seen from the above table that the number of outdoor and indoor patients treated in medical institutions during 1980 has shown decreasing Trend when compared with the figures of earlier year i.e. 1971. It therefore, appears that more people have developed the tendency of going to private practitioners. However number of Hospital and Dispensaries has increased, shown increase though number of Hospital was constant in 1971.

8. EDUCATION :- Increase in number of students in different Categories

According to 1971 census, 42.36% persons (52.23% Males and 31.69% Females) of the total population of the District were literate as against 37.85 % and 39.18 % literates in the Division and state as a whole respectively. According to 1961 Census 33.68% person (45.95% Males and 20.58% Females) of the total Population were literate. Thus in 1961-71 decade there has been considerable increase in the proportion of literates in the District.

The remarkable feature of educational growth in the recent years is due to spread of facilities in rural areas. The table given below indicates the number of boys and girls attending primary, Secondary and Higher Educational institutions in the District during 1960-61, 1970-71, 1978-79 and 1980-81.

Table No. 13

| Sr. No.                     | Item        | Year    |         |         |         |
|-----------------------------|-------------|---------|---------|---------|---------|
|                             |             | 1960-61 | 1970-71 | 1978-79 | 1980-81 |
| <b>I. Primary Education</b> |             |         |         |         |         |
| 1.                          | Institution | 1147    | 1402    | 1498    | 1509    |
| 2.                          | Enrolments  | 125060  | 187150  | 244972  | 253224  |
| 3.                          | Teachers    | 4521    | 6485    | 6388    | 6812    |

| Sr. No.                      | Item        | Year    |         |         |         |
|------------------------------|-------------|---------|---------|---------|---------|
|                              |             | 1960-61 | 1970-71 | 1978-79 | 1980-81 |
| <u>II. Secondary</u>         |             |         |         |         |         |
| 1.                           | Institution | 73      | 206     | 226     | 227     |
| 2.                           | Enrolments  | 30178   | 65341   | 101196  | 109917  |
| 3.                           | Teachers    | 1453    | 2862    | 3606    | 3617    |
| <u>III. Higher Education</u> |             |         |         |         |         |
| 1.                           | Institution | 12      | 23      | 32      | 31      |
| 2.                           | Enrolments  | 4684    | 11928   | 13710   | 17286   |
| 3.                           | Teachers    | 274     | 505     | 874     | 982     |

The growth of Primary education in the district had been not-worthy from the Third Five Year Plan onwards. The number of students attending primary schools increased from 125060 in 1960-61 to 253224 in 1980-81. Number of Primary Schools have also increased from 1147 in 1960-61 to 1519 in 1980-81. As regards Secondary Education good progress has been noticed regarding number of schools and enrolment therein during the period under review. 94% increase has been recorded in 1979-80 in respect of institutions and 194.70% increase in respect of enrolment during the same year. In case of Higher Education an increase of 255.56 % in respect of institutions and 216.61 % in respect of pupils during 1979-80 over 1960-61 has also been noticed.

Important Ratios Education :-

Following Table presents the data showing important ratios in the Educational field viz. Ratio of ~~xxx~~ secondary institutions to primary institution, Higher Education Institutions to secondary.

Education Institutions as well as proportion of teachers to pupils studying in various categories of the said institutions.

Table No. 14

| Sr. No. | Item                             | Ratio during the year |         |         |
|---------|----------------------------------|-----------------------|---------|---------|
|         |                                  | 1960-61               | 1970-71 | 1980-81 |
| 1.      | (a) <u>Institutions</u>          |                       |         |         |
|         | (i) secondary to Primary         | 1:10                  | 1:7     | 1:6     |
|         | (ii) Higher to secondary         | 1:19                  | 1:9     | 1:7     |
|         | (b) <u>Teachers to pupils in</u> |                       |         |         |
|         | (i) Primary                      | 1:28                  | 1:29    | 1:37    |
|         | (ii) secondary                   | 1:21                  | 1:23    | 1:30    |
|         | (iii) Higher                     | 1:17                  | 1:24    | 1:18    |

Tehsilwise information is not available and as such it would not be given.

9. Increase in commercial Banking :-

Banking facilities play an important role in the Industrial and commercial development of the district. Since nationalization of Banks, these institutions are helping the entrepreneurs and also extending credit facilities to small traders, small scale industries as well.

The following table indicates the number of Banking offices in existence during 1960-61, 1970-71 and as on 31-12-79 alongwith the number of households served per banking office.

Table No. 15

| Sr. No. District | No. of Banking Offices during |         |         | *No. of Household served per Banking Office in |         |                     |
|------------------|-------------------------------|---------|---------|--|---------|---------------------|
|                  | 1960-61                       | 1970-71 | 1979-80 | 1960-61  | 1970-71 | 1979 as on 31-12-79 |
|                  | 1. Amravati                   | 25      | 49      | 117  | 2013    | 2317                |

(N.B.) \*Estimated (ii) Tehsilwise figures are not available.

From the data presented in the above table, it will be seen that number of Banking Offices show a increasing trend since 1960-61. During 1960-61, there were only 25 Banking Office in the district while it has increased to 117 during the year 1979-80. Similarly, the banking facility was comparatively rarely available during the year 1960-61 as 3013 households were being served by one Banking Office. This position has considerably improved during the year 1979-80 as 842 households were being served by one Banking Office. This has not only helped to create banking habits in the rural measser, But has also trained them to avail the credit facilities offered by the banks for augmenting their means livelihood.

10. Roads :-

Road communication constitute an important item of infrastru-  
cture for progress of all development activities Amravati district  
enjoy comparatively favourable position in case of Railway routes  
and road links. The road development programme aims not only at  
completion of missing links but also to connect taluka and  
important market places under minimum needs programme.

Table given below indicates the road length of pucca roads  
per 100 Sq. Kms. of area in the district during 1961-62, and  
1980-81. So also it indicates the villages connected by roads.

Table No. 16

| Sr. No. | Tehsil   | Villages connected by |             | Road length per |         |      |       |
|---------|----------|-----------------------|-------------|-----------------|---------|------|-------|
|         |          | all weather roads     | Other roads | 100 Sq. Kms.    |         |      |       |
|         |          | 1960-61               | 1980-81     | 1960-61         | 1980-81 |      |       |
|         | District | N.A.                  | 509         | N.A.            | 261     | 8.84 | 22.17 |

Note :- 1) Road length of M.C. Roads and that of forest Roads is not considered for above mentioned road length.

2) Tehsilwise information is not available.

It would be seen from the above table that the pucca road length per 100 Sq. Kms. of area increased from 8.84 Km. to 22.17 Kms. during the period of time under reference. The road length maintained by forest Department and Municipal Councils in the district has not however been considered. Number of villages connected by all weather roads and other roads is 507 and 261 respectively.

## 11. PRICES :-

The District Statistical Office in each district has been assigned with the regular work of collection and compilation of weekly retail Prices of important commodities at the district headquarter on every Friday as a part of its normal functioning. The Price collection work has been started by D. S. Organisation since the declaration of the state of Emergency in the country. Consequent upon the Chinese aggression on our north-eastern border in October 1962, and the same has been continued with a view to facilitate the observation of the trend in price fluctuations at the district headquarter.

The retail prices of selected commodities under the various sub-Head such as cereals, pulses, clothing, utensil, fuel and beverages etc., are being regularly collected from the selected shops at the district headquarter. The varieties of the commodities which are most commonly used by the majority of the people have been considered for this study.

The annual average retail prices of some of the important commodities for the year 1962, 1977 and 1979 are presented in the sub-joined table.

Table No. 17

| Sr. No. | Commodity              | Unit    | Average Price in during Year |       |
|---------|------------------------|---------|------------------------------|-------|
|         |                        |         | 1963                         | 1980  |
| 1.      | Rice (Fine)            | Kg.     | 0.75                         | 2.68  |
| 2.      | Wheat (Medium)         | "       | 0.61                         | 2.10  |
| 3.      | Jawar "                | "       | 0.37                         | 1.10  |
| 4.      | Bajra (Coarse)         | "       | 0.42                         | 1.50  |
| 5.      | Tur dal                | "       | 0.88                         | 4.93  |
| 6.      | Gram dal               | "       | 0.62                         | 2.86  |
| 7.      | Sugar                  | "       | 1.22                         | 6.01  |
| 8.      | Gur                    | "       | 1.05                         | 3.76  |
| 9.      | Edible Oil (Groundnut) | "       | 2.08                         | 10.74 |
| 10.     | Meat (Goat)            | "       | 3.11                         | 15.34 |
| 11.     | Eggs                   | Doz.    | 1.88                         | 6.00  |
| 12.     | Turmeric               | Kg.     | 1.85                         | 8.40  |
| 13.     | Dry Chilies            | "       | 3.10                         | 9.45  |
| 14.     | Bananas                | Doz.    | 0.39                         | 1.20  |
| 15.     | Potatos                | Kgs.    | 0.75                         | 1.95  |
| 16.     | Milk                   | Litre   | N.A.                         | 3.00  |
| 17.     | Tea (Leaf)             | Kg.     | 9.00                         | 20.91 |
| 18.     | Charcoal               | 40 Kgs. | 6.94                         | 40.00 |
| 19.     | Firewood               | "       | 3.03                         | 14.00 |
| 20.     | Kerosine               | Litre   | 0.63                         | 1.58  |
| 21.     | Washing Soap           | Bar     | 1.52                         | 2.09  |
| 22.     | Supari                 | Kg.     | 6.79                         | 19.16 |
| 23.     | Tobacco (Leaf)         | "       | 5.10                         | 14.29 |
| 24.     | Salt                   | "       | 0.15                         | 0.50  |

It would be seen from the above table that there has been overall increase in the average prices of all the commodities during 1980 as compared with these in 1963. The extent of increase

in the average prices has been more than double in the case of all essential commodities, in the year 1980 over the corresponding prices in 1963.

The average prices of Rice, Jawar and Wheat have shown an increase of 357%, 344% and 297% respectively during 1980. Pulses like Tur dal and Gram dal have shown an increase of 493% and 461% respectively during 1979. The average prices of other essential commodities like Groundnut Oil 516.34%, sugar 492.62%, Gur 358.09% indicate Galloping increase in prices of these commodities in the year 1980 over the year 1963.

## CHAPTER - IV

### Annual Plan - 1980-81

#### 4.1. (a) Principal of decentralised implementation of Plans :-

In accordance with the policy of decentralisation of planning effort, the Govt. of Maharashtra has adopted the principal of district planning since the commencement of the Fifth Five Year plan 1974-75. In order to maintain the tempo of growth, it is necessary to ensure the participation of a large segment of the population in the development process. In conformity with these objectives, the 5th Plan of the State of Maharashtra sought to achieve the following.

- 1) Acceleration of the growth rate of state income.
- 2) Promotion of appropriate technologies in Agriculture and Rural industries with a view to increasing employment opportunities.
- 3) Creating conditions favourable for the most vulnerable sections of the population in the benefits of the plan.
- 4) A guarantee of employment in manual work to all able bodied adults who are willing to work themselves for such work.
- 5) Provision of basic Minimum needs of life to people.
- 6) Removal of imbalances of development as between district and areas within district.

#### (b) Adoption of District as a Unit of Planning during the Fifth Plan :-

During and upto the end of fourth five year plan, the progress in implementation of the plans was reviewed at the district level by advisory committee appointed under Govt. Circular, Co-operation and Rural Development Deptt. dated 5th August 1964 and at the Divisional Level by the Divisional Advisory committee constituted under Govt. Circular Finance Department dated 13th December 1965.

Govt. has since decided that the District should be adopted as unit of Planning during fifth plan and that perspective five years and annual plans should be formulated for each district so that imbalances in development as between districts and the area within the same district are steadily removed to the extent possible and all the districts are given an opportunity to attain full development having regard to their potential, available manpower and other resources.

The very basic idea about district Planning is that every district shall get certain plan allocation worked out on the basis of certain parameters and broad cross section of the representative should have a definite say as to how this allocation should be spent in the best possible way.

(c) Objects of District Planning :-

The main object of the District Planning is to take into account the local resources, manpower, institutional funds and after careful consideration, formulate the district Plans in accordance with the requirements of the District and also to solve the various pressing problems of the District on priority basis, wherever required by providing adequate funds to that effect. While formulating the District Plan, it is presumed that active public participation is a must. It is desired by District Planning to achieve the rational utilization of resources, removal of inter tehsil imbalance as well as proper orientation and full utilization on development programmes.

4.2 Organisation of Machinery set up in the District for Monitoring and Overseeing of the District Plans :-

It has been decided by the Govt. of Maharashtra that there should be an agency or machinery at District level for formulation, Monitoring and overseeing of District plans, and accordingly as per Government Resolution, General Administration Department No. PD/SPM/1072/P-1, dated 20th October 1972 District Planning Board was constituted. The main function of the District Planning Board was to ensure Co-ordinated action by various implementing agencies including the Zilla Parishads and to give guide lines to the various implementing agencies in formulation & implementation of perspective and Five years Plans.

In the District Planning Board, there were in all 12 members out of which 3 were non-officials. To assist, the District Planning Board a District Planning team consisting of eight members was also constituted wherein Collector was appointed as Chairman and Planning Officer as Member Secretary.

In order to associate the elected representatives of the people in Parliament and State Legislative and the representatives of various interests such as industries, trade, commerce, universities and social welfare institutions in the District with the Planning process, Govt. under its Resolution No. DDC-1073/P/I(A) dated 20-6-1973 has set up a district Development Council in each District which would serve as a forum for ascertaining the view of the people in the matter of development of the district and their felt needs for periodical review of the District Plans.

(b) After reviewing the working of the District Planning Board and District Development Councils, Govt. has taken the decision to associate the elected representatives of the people more directly with the planning process. In view of the above decision, Govt. has decided to amalgamate these Planning bodies at the District level with immediate effect under its Resolution No. DPC-1074/P-I, dated 1-10-74. The functions of the District Planning and Development Councils are the same of that of District Planning Board, mentioned in para 4.2 (a) above.

To assist the District Planning and Development Council in the day to day planning and development activities Govt. in Planning Department under the said resolution has constituted a small Executive Committee of the council of 9 members, who were also the members of the D.P. & D.C. Designated Minister of the district worked as a Chairman, whereas the Deputy C.E.O. (Planning) would work as Secretary of this Small Executive Committee. The Executive Committee of the D.P. & D.C. can meet as often as required but at least once in two months.

(c) Organisational Set up for D.P. & D.C. and Executive Committee :-

In supersession of all previous orders issued so far, Govt. in Planning Deptt. under its Resolution No. DPC-1079/PRG-B/ dated 21-6-79, has fixed the composition of the D.P. & D.C. as follows :-

- |    |  |   |               |
|----|--|---|---------------|
| 1. | The Designated Minister of District                                    | - | Chairman      |
| 2. | Other Minister(s) of the District                                      | - | Vice Chairman |
| 3. | The Commissioner of the concerned Division.                            | - | Vive Chairman |
| 4. | All members of the Lok Sabha and Vidhansabha elected from the district | - | Member        |
| 5. | All members of Rajya Sabha & Vidhan Parishad residing in the district  | - | Member        |

6. The President of the A.P. - Member
7. The Mayor of the Municipal Corporation (if any) in the district. - Member
8. One of the President of 'A' Class Mpl. Councils in the District to be nominated by the Chairman of D.P.D.C. - Member
9. One of the President of 'B' Class Mpl. Councils in the district to be nominated by the Chairman of D.P.D.C. - Member
10. One of the Presidents of the (C) Class Mpl. Councils in the district to be nominated by the Chairman of the D.P.D.C. - Member
11. The Chairman, District Central Co-operative Bank. - Member
12. The Director, Maharashtra State Co-op. Land Dev. Bank representing the District on the Board of Directors. - Member
13. The Regional Manager of the Lead Bank. - Member
14. A Representative of the Regional Dev., Co-operation. - Member
15. Nine-Non-Official members to be nominated by Govt. - Member
16. The Chairman of the District Committee of Maharashtra state Khadi & Village Industries Board. - Member
17. The Supdt., Sr. supdt. of Post Offices - Member
18. The C. E. O. Zilla Parishad - Member
19. The Collector of the District - Member secretary

The Executive Committee of the D.P. & D.C. should consist

of the following members.

1. Designated Minister of the District - Chairman
2. Other Ministers of the District - Vice-Chairman

3. Divisional Commissioner - Vice Chairman
4. President Zilla Parishad - Member
5. One of the four representative of urban local bodies i.e. the Mayor of the Mpl. Corpn. and one president of 'A', 'B', 'C' class Mpl. Councils each to be nominated by the Chairman of the D.P.D.C. - Member
6. Collector of the District - Member
7. Chief Executive Officer, A. Z. P. - Member
8. Two other representatives of the council to be nominated by the council by consensus - Member
9. All Members of the Parliament and State Legislature from the district - Member
10. Chairman Central Co-operative Bank - Member
11. Manager, Lead Bank - Member
12. District Planning Officer - Secretary

Para 4.3 (a) - Draft fifth Plan of Amravati District

Draft fifth plan for Amravati District was prepared for the period from 1-4-1974 to 31-3-79, by the District Planning Board. The objectives set out by the state were taken into consideration while formulating the Vth Five Year Plan of Amravati District. In the draft fifth plan prepared by the District Planning Board more emphasis was given on minimum needs programme and productive schemes as well as employment oriented schemes. The board sectoral outlays proposed in the Vth Five Year Plan are indicate below :-

| Sr. No. | Major Head                             | Vth Plan proposed outlay 74-79 in lakhs | Percentage to total |
|---------|--|---|---------------------|
| 1       | 2                                      | 3                                       | 4                   |
| 1)      | Agril. Programme                       | 1120.00                                 | 28.41               |
| 2)      | Co-operative and Community Development | 153.61                                  | 4.00                |
| 3)      | Irrigation & Power                     | 1320.00                                 | 38.48               |

| 1           | 2                                | 3       | 4      |
|-------------|----------------------------------|---------|--------|
|             |                                  |         |        |
| 4)          | Industries and Mining            | 75.00   | 1.90   |
| 5)          | Transport                        | 323.00  | 8.19   |
| 6)          | Social services                  | 920.17  | 23.30  |
| 7)          | Miscellaneous Including E. G. S. | 30.22   | 0.72   |
| Grand Total |                                  | 3942.00 | 100.00 |

As the fifth five year plan was not finalised at the National and State level., the Draft Vth Five Year Plan of the District was also not approved and the process of preparing annual plan every year was evolved. Since it has already been presumed that year 1979-80 is to be treated as First year of Sixth Five year plan and accordingly Annual Plan of 1980-81 was prepared for this District. Therefore, it may not be out of place to give here broadly the financial provision and expenditure incurred during the year 1980-81.

Table No. 4.3

| Head of Development       | (Rs. in Lakhs)              |                                |                                |
|---------------------------|-----------------------------|--------------------------------|--------------------------------|
|                           | Revised Out Lay for 1980-81 | Expdr. incurred during 1980-81 | Expenditure to Revised Out Lay |
| 1                         | 2                           | 3                              | 4                              |
| 1. Agriculture            | 226.88                      | 249.12                         | 109.80                         |
| 2. Co-operation           | 10.21                       | 8.95                           | 87.65                          |
| 3. Irrigation             | 150.22                      | 157.06                         | 104.55                         |
| 4. Industries & Mining    | 20.48                       | 20.75                          | 101.31                         |
| 5. Transport              | 172.29                      | 135.79                         | 78.81                          |
| 6. Social services        | 301.26                      | 332.83                         | 110.47                         |
| 7. Misc. including E.G.S. | 79.89                       | 171.57                         | 214.75                         |
| Total :-                  | 961.23                      | 1076.07                        | 111.94                         |

4.4 In the Amravati District Agriculture is the main activity and therefore the Agriculture and Irrigation sector were allotted and share of 23.60 percent and 15.62 percent of the total outlay respectively. However "social services" took away the largest share which was to the tune of 31.34 percent of total outlay.

4.5 A) Annual performance of the plan for the year 1980-81 was quite satisfactory. Percentage of expenditure to revised outlay for was 111.94%.

B) The Annual Plan of the District was formulated on the basis of tentative financial ceilings communicated to the D.P.D.C.. At the stage of finalisation of the District Plans, some modifications were made by govt. according to financial resources and policies.

C) During the year 1980-81 the share of the local sector schemes was to the tune of Rs. 139.39 lakhs.

Table No. 4.5

(Rs. in lakhs)

| Sr. No.  | Head Development                      | Year    | Revised Outlay | Actual Expenditure | Percentage to total | Percentage of Expend. to Revised Outlay |
|----------|---------------------------------------|---------|----------------|--------------------|---------------------|---|

4.6 During the year 1980-81 the overall level of expenditure incurred was more than cent percent i.e. 111.94%.

Under the major head irrigation Power the percentage of expenditure incurred was 104.65. Similarly in respect of Agriculture section the percentage of expenditure was 109. In other sector such as social services, the percentage of expenditure was more or less the same as in agriculture. A significant position of expenditure was observed in case of E. G. S. wherein the percentage of expenditure was increased to 214.75%.

b) The percentage distribution of expenditure under various Heads of Development to total expenditure is indicated in Table 4.5 column 6. After carefully examining these figures it is observed that the highest percentage of expenditure was accounted for 'Social Services' sector. The Agriculture accounted for 23.16% and the irrigation & Power 14.50%. The lowest percentage is recorded against the Co-operative sector.

4.7 Various activities carried out and expenditure incurred on each head of Development under Annual Plan 1980-81 are summarised as follows :-

I. **Agriculture :-** Agriculture and allied programme have been given important place in the Annual Plan of the year. The schemes included under this sector were aimed at increasing agricultural production and these schemes were pertaining to (i) Agricultural production (ii) soil Conservation, (iii) Minor Irrigation, (iv) Animal Husbandry, (v) Dairy development (vi) Forest, (vii) Fisheries and (viii) ware housing and marketing.

Keeping in view the main objective of achieving a stage of self-sufficiency in foodgrain in the sixth plan, the programme of bringing larger area under Hybrid and High Yielding Varieties has been intensified simultaneously with the creation of irrigation potential from minor irrigation tanks.

The distribution of Improved varieties of seeds of wheat, Jawar, Cotton and pulses was made. Similarly the distribution of chemical fertilisers of various types has also been made during the period under report. Moreover the schemes relating to the intensive cultivation of food crops, various package practices of plant protection, Horticultural development etc., were continued to be implemented during the year 1979-80.

In order to boost up the irrigation potential the programme of minor irrigation, wells construction and Lift irrigation has always received priority in the state's Development programme.

Under the sub-sector Animal Husbandry there were continued schemes to extend for cattle wealth improvement. Improved birds were also supplied. The provision under Dairy development has been utilised for strengthening Amravati Milk Scheme. This district has also contributed its share to erect the plant at Nagpur.

Under Fisheries, the Provision has been utilised for assistance for fisheries requisites, Fish Farming in impounded water.

## II. Co-operation & Community development :-

The Co-operative sector has played and will continue to play a very significant role in the development of economy. It is a major instrument for implementation of rural development programme. It is the pivot around which all economic activities such as credit, marketing, processing Large and small Industries revolve. Therefore, efforts have been made from the first Five Year Plan towards building up strong Co-operative sector. In the begining, emphasis was naturally on rural credit. During the course of past 20 years, its scope has considerably widened. During the period under reference an amount of Rs. 8.95 lakhs has been spent under the sub-sector "Co-operation" on various schemes such strengthening of credit

structure, Development of Co-operatives marketing, Agricultural processing societies, Consumer Co-operative in urban areas and share capital contribution to the institutions. Under the sub-sector community Development large No. of C.D. Schemas such as distribution of hybrid/High yielding Varieties of seeds, chemical fertilizers, pesticides and insecticides, Veterinary Services and artificial insemination facilities, Family Planning programme, Public Health programme and Gram Safai Programme were taken through block agencies during the year under report.

III. Irrigation and Power:-

Irrigation & power is the backbone of agricultural prosperity and the general economic well being. Under this sub-sector total expenditure of Rs. 157.06 has been incurred during the year 1980-81.

IV. Industry and Mining :-

The industrial development in Maharashtra is not without its weak points. Amravati district has been one of the 13 district which have been indentified as industrially backward. Naturally under the sector industries and mining the schemes for development of small and cottage industries were implemented. Total expenditure of Rs. 2075 lakhs was booked on the schemes for development of small and cottage industries and package schemes during 1980-81.

V. Transport and Communication :-

The net work road has to be developed to meet the requirement of infrastructural needs for various growth centres.

An expenditure of Rs. 135.79 lakhs has been incurred on the road development during 1980-81 in the district. Under the road development, the construction of roads and completion of incomplete works were given priority. Besides, modernisation of culverts, incomplete in earlier plan period were also aimed to be completed.

VI. Social Services :-

Under the sector "Social Services" the various schemes pertaining to sub-sectors viz. (1) General Education (2) Technical education, (3) Public Health, (4) Nutrition Programme, (5) Water supply and drainage (6) Housing, (7) Urban development, (8) Welfare of Backward classes, (9) social Welfare, (10) Labour and labour welfare were implemented during the year 1980-81.

The sub-sectorwise total budget provision and expenditure under sector "social services", during 1979-80 are as follows :-

Under the sub-sector "General Education" total expenditure of Rs. 27.95 lakhs was booked during the year 1980-81. The scheme of attaching standards V to VII to secondary schools, building grants to Zilla Parishad for primary school buildings, grants to Municipal Council for Primary Teachers, increase grants to 'A' class Municipalities for Primary Education have been implemented during the Annual Plan period under reference.

Under the sub-sector "Technical Education" total expenditure of Rs. 5.06 lakhs has been booked during the year 1980-81. The scheme of re-orientation of Diploma Courses in Engineering and Technology has been implemented.

Under the "Health Programme" the scheme of training of Nurses, expansion facilities in Civil Hospital, Primary Health Centres, Sub Centres and Rural Hospital etc. increase in medical grants of public health centres and sub-centres, T.B. Hospital, Amravati were implemented during the period under reference with the total expenditure of Rs. 48.15 lakhs during 1980-81. Under this head, Massive family planning programme was also carried out under the sub-sector "Water Supply and drainage" total expenditure of Rs. 146.91 lakhs ~~xx~~ been booked during the year 1980-81.

△has

Under the sub-sector "Housing" the scheme in respect of subsidised industrial housing scheme for low income group, Basic Amenities to Zopadpatties, tiling of roofs of huts, extension of Village Gaathan and provision of house sites and constructions of huts for land-less labours have been implemented with total expenditure of Rs. 46.92 lakhs during 1980-81.

The Programme under "Welfare of Backward Classes" supplements the other development programme in other sectors which directly or indirectly benefit the members of the backward classes. It has been recognised that it is very important to increase the level of income of these classes by providing gainful employment. The programme under this sector, therefore, constitutes social and economic upliftment schemes for welfare of backward classes alongwith housing and other schemes under welfare of backward classes during the year 1980-81. <sup>As expenditure 30.73 lakh was incurred on the</sup> various schemes

Under the sub-sector "Social welfare Relating to non-institutional services to destitute children expansion of work under the children etc. rehabilitation of physical handicapped, rehabilitation of leprocy affected persons etc., have been implemented in the district during both the years under review.

#### VIII. Miscellaneous :-

Under the sector "Miscellaneous" the scheme of Employment Gurantee has been implemented during the period under reference with an expenditure of Rs. 171.57 lakhs during the year 1980-81. Soil conservation works, forest works and minor Irrigation works have been taken under this schemes.

Difficulties and bottlenecks experienced in the implementation of various schemes during the year 1979-80.

- 1) The budget provisions under most of the schemes were received late. In case of new works/items/schemes the provisions as proposed by the D.P.D.C. were remained unbudgetted for want of administrative or technical sanction.
- 2) In case of continued schemes the administrative approval and orders to continue the scheme were delayed by various heads of the Departments. Even in case of budgetted schemes/orders to release budget grants were considerably delayed by the head of the Department, resulting in failure to achieve the targets in the plan year.
- 3) The schemes were formulated without any study or survey but on the basis of the schemes implemented in other district and without studying the feasibility of the scheme in the district.
- 4) Roads were proposed without studying whether the land would have to be acquired or not. Normally the land acquisition process takes its own time. The provision under such works remained unspent under such circumstances.
- 5) The preliminaries required to be completed before implementation of such programme were never completed before the hand and these steps were taken after a major period was lapsed.
- 6) Phasing of programme in most of the schemes was not done which resulted in not achieving the desired targets.

- Foot Note :-
- 1) The area of district will not agree with the total of area figures of tehsils due to different sources of area figures used by census office.
  - 2) Total may not agree due to rounding of for col. 9,10,11,12,13.
  - 3) The total in Col. 4 may not agree when all Panchayat Samities added together because Area under Reserve forest in Melghat Tehsil is not included in any Panchayat samiti of Chikhalda and Dharni.

- Note :-
- 1) The figures for the year 1978-79 and 1979-80 are provisional.
  - 2) The geographical area for the 1978-79 & 1979-80 differs as compared with the year 1977-78 due to marging of Forest Villages.
  - 3) Totals may not agree due to rounding off the figures.
  - 4) The figures for the year 1977-78 are fully revised by the Director of Agril., Pune.

TABLE No. 63

Nationalised Road Transport Operations of Maharashtra State;  
Road Transport Corporation during the year 1980-81 in  
Amravati District.

| Sl. No. | Item   | As on 31-3-81 |
|---------|--|---------------|
| 1       | 2  | 3             |
| 1.      | No of routes as at the end of the year             | 366           |
| 2.      | Route distance in (Kms)                            | 17518         |
| 3.      | Average routes distance (Kms)                      | 47.8          |
| 4.      | Average per day effective Kms operated             | 61688         |
| 5.      | Average No. of buses held during the year          | 317           |
| 6.      | Average No. of buses on road per day               | 259           |
| 7.      | Average vehicle utilisation (Kms)                  | 238           |
| 8.      | Percentage load factor                             | 77.33         |
| 9.      | No. of passengers travelled per day                | 71908         |
| 10.     | Average distance travelled per passenger (Kms)     | 0.85          |
| 11.     | Total traffic receipts during the year '000' (Rs.) | 58052         |
| 12.     | Average earnings per passenger (in paise)          | 256.15        |

Note :- Reasons for increase and decrease compared to year 1979-80 for the item No. 3, 6, and 8 is as under :

- (1) It is reduced because many long distance routes are closed, for example Amravati - Bombay.
- (2) Due to above, average vehicle utilization is also reduced.
- (3) The fares were raised and hence the number of passengers were reduced. Comparatively, so percentage of load factors is also reduced.
