CHAPTER-I  
INTRODUCTION

1.1 Location:-

Dhule District the then 'West Khandesh' lies between 20°-38' and 22°-03' North latitudes and 73°-47' and 75°-11' East longitudes and is located in the upper Tapi Basin in the North-West Corner of Maharashtra State. The District is spread over nearly 87 Kms. along Tapi River and 48 Kms. along Eastern parts of Surat and Baroch Districts of the Gujarath State. Breadth of Dhule district Varies from 52 Kms. to 122 Kms. District is bounded on the East by Jalgaon District, on North by Madhya Pradesh and on West by Gujarath State. Nasik District lies on it's South.

1.2 Topography:-

Dhule District is roughly, round shaped with a deep wedge line projection. The distinguishing feature of topography of the District is that, unlike Deccan Plateau, the gradient is from East to West. Taking into account, the height, climate, rainfall and soil pattern, Dhule District can be divided into 3 parts as under:-

- i) Wild and hilly forest area in the North.
- ii) Rich cultivated land on both the banks of River Tapi.
- iii) Low and scattered rocky hills, called the tail ends of Western Ghats.

The first part comprises of Akrani, Akkalkuwa and Northern part of Taloda Tahsil. The area of these Tahsils contains thick forest and hills which subsequently lack means of communications and is predominantly inhabited by 'Tribal Population'. The second part comprises of the track of rich Tapi valley, which includes Tahsils Nandurbar, Shahada, Shirpur and part of sindkheda and Taloda. This part is well served

(2)

by irrigation facilities. The third part consists of Tahsils Dhule, Sakri and part of Sindkheda. The area is affected by conditions of scarcity due to inadequate rains. Area in this part is plain and as such it has scope for development of irrigation from Panzara river. Nawapur Tahsil is on the South of Tapi river basin, which is partly hilly. An interesting feature in the topography of Dhule District is the occurrence of chain of dykes running nearly in the West-South-West to East-North-East direction to the South of Tapi river, dominating the Southern part of Mandurbar Tahsil and Western part of Sindkheda Tahsil.

### 1.3 Hills:-

The Satpuda hills, which are situated to the North of Tapi River, consist of several rugged mountain ranges. These hills stood as barriers in establishing swift communication links with the Gujarath State and Madhya Pradesh State. The Toranmal plateau lies in the North latitude  $21^{\circ}52'$  and east Longitude  $74^{\circ}30'$  and is about 130 Kms. from District Head Quarter Dhule. The South Western Corner of the District is bounded by the Sahyadri hills.

### 1.4 Rivers:-

Barring the relatively small area of Narmada drainage of the Northern part, the rest of the district is completely drained by the Tapi and its tributaries. The river Tapi flows for about 100 Kms. within the limits of Dhule District. Its banks rise high and are unprotected. The names of important rivers, their length within the District, and the Tahsils through which these rivers flow, are given in the table No. 1.1 given below. None of these rivers, is navigable.

Table No. 1.1

Rivers and their length.

Sr. No.	Name of the River	Length in Kms.	Tahsils through which the river flows.
1	2	3	4
1)	Panzara	136	Sakri, Dhule, and Sindkheda.
2)	Tapi	86	Sindkheda, Shirpur, Shahada & Nandurbar
3)	Burai	77	Sindkheda and Sakri.
4)	Goma	64	Shirpur, and Shahada.
5)	Arunawati	38	Shirpur.
6)	Aner	33	Shirpur.
7)	Bori	38	Dhule.
8)	Kan	35	Sakri and Sindkheda.
9)	Aru	32	Sakri and Sindkheda.

1.5 Soil:-

Soil in this District can broadly be classified into three Classes. i) Light, ii) Medium and iii) Deep black. Approximately 50 percent of the total area of the District, is of the lower type, 30 percent of the area is of medium black type and the remaining 20% is deep black soil. Light type of soil is largely found in Dhule, Sakri, and Akrani Tahsils, Western part of Nawapur Tahsil and Southern part of Nandurbar Tahsil. This type of soil is good for Kharif crops such as Bajara, Karif Jowar, Groundnut and Cotton. Medium type of soil is well-suited for irrigation, which covers the area in Sindkheda, Sakri and Western part of Dhule Tahsil. Area in Akalkuwa, Taloda, Shirpur, Shahada and Nandurbar Tahsils is covered by deep black soil. This type of soil is largely found on the banks of the Tapi river. This belt of rich fertile soil is about 16 Kms. Well irrigation, on both the sides of this belt is un-economical, due to depth of soil, and hence it is not practicable, however, lift irrigation schemes are attempted in this area.

1.6 Climate:-

Climate of Dhule District is dry and generally very hot except in Mansoons and Winter Season, Normally Summer season starts from March to May, Mansoon from June to October and winter from November to February every year. In Dhule District, there is only one meteorological observatory centre, located at Nandurbar. During the calendar year 1980, maximum temperature recorded at Nandurbar centre is 41.0° in the month of April-80 and the minimum 16.2 in the month of December-1980.

1.7 Rainfall:-

In the table No. 1.2 given below rainfall data for the calendar year 1980, for each Tahsil in the District is given which further depicts the Normal Rainfall. The normal rainfall of the District is 713 Kms. Rainfall in the hilly ranges of Western Ghat and Satpuda ranges is heavier.

Table No. 1.2

Rainfall in 1980.

Sr. No.	Name of Tahsil	Normal Rainfall (Mms.)	Rainfall during 1980 (Mms.)
1	2	3	4
1)	Dhule	598	624
2)	Sakri	387	432
3)	Nawapur	1,116	722
4)	Nandurbar	595	614
5)	Taloda	793	709
6)	Akkalkuwa	952	799
7)	Akwani	627	N.A.
8)	Shahada	647	598
9)	Shirpur	724	571
10)	Sinckheda	595	584

It will be seen from the above table, that in comparison with the normal rainfall, Tahsils Nawapur, Taloda, Akkalkuwa,

Shahada, Shirpur, Sindkheda have recorded less rainfall due to the scarcity conditions or conditions akin to scarcity prevailed in the area, during 1980-81. As such the Govt. machinery was geared up to meet with the challenge of the Nature, by planning and undertaking Employment Guarantee Scheme Works in the affected area. Problem of drinking water supply in the difficult and scarcity-hit villages in the above area was solved by implementing water supply schemes and supply of drinking water through tankers. The table No. 3 below indicates the number of villages in the scarcity affected Tahsils during the year 1980-81.

#### 1.8 Area and territorial Changes:-

The Total geographical area of Dhule District is 13,143 square Kms. as per 1971 population Census, which is 4.27 percent of the total area of the Maharashtra State. Number of inhabited villages, including the forest villages, is 1,379 and uninhabited or deserted villages is 23 as per 1971 census. As compared to the position of 1961 population census it will be seen that the number of villages has increased in 1971 population census by 21, of which 19 villages are inhabited and 2 are deserted. There are 6 Municipal Councils viz. Dhule, Nandurbar, Taloda,

(6)

Shahada, Shirpur, Dondaicha and Nawapur village is declared as an urban area, having a Gram Panchayat. The total urban area in the District is 91.9 Sq.Kms. as per 1971 Census.

#### 1.9 Forest:-

The forests in the district, cover an area of 4,424.76 Sq. kms. out of which 274.77 Sq.Kms. is owned by Revenue Dept. and 4,209.99 Sq.Kms. is owned by Forest Department i.e. Divisional Forest Offices of North and West Divisions. The west Division comprises of area in Nandurbar, Dhule, Nawapur, Taloda and part of Sakri Tahsil and the North Division covers the Tahsils of Akkalkuwa, Akrani, Shahada, Shirpur and part of Sakri Tahsil.

The forest in this District contain many species of trees. The important species are Teak, Sadada, Khair and Shisam from the economy point of view. The important minor forest products are Gum, Mahu, Tendu leaves, Bamboo etc.

#### 1.10 Minerals:-

There are no valuable mineral found in Dhule District. However, the mineral activities are restricted only to those of quarrying of stones, clay and collection of sand from the river beds.

#### 1.11 Population:-

The total Population of Dhule District as per 1971 population Census, is 16,62,181 which comes to 3.31 percent of the State's population. Increase in the population of the District during last 10 years, is 5,10,945 which is 23.01 percent of the population in 1961 census. Decadal variation of 1951-61 showed 27.44 percent increase. Decadal variation during last two decades viz. 1951-61 and 1961-71 show that the population growth rate has been decreased and it can be due to family planning activities undertaken on large scale. The density of population for Dhule District and its Tahsils, as per 1961 and 1971 census, is given below.

(7)

Table No. 1.4

Population Density

Sr. No.	District/Tahsils	Density per Sq. Km. in population census	
		1961	1971
1	2	3	4
	District Total	108	126
1)	Dhule	154	196
2)	Sakri	77	97
3)	Nawapur	115	142
4)	Nandurbar	139	166
5)	Taloda	171	198
6)	Akkalkuwa	89	93
7)	Akrani	58	73
8)	Shahada	134	165
9)	Shirpur	63	77
10)	Sindkheda	135	153

From the above table, it will be observed that density of population of Dhule District as a whole is increased from 108 to 126. Within the District, Tahsils with high density are Taloda and Dhule while Akrani, Akkalkuwa, Shirpur and Sakri Tahsils have comparatively less density during 1971.

The proportion of Urban and Rural population to the total population, as per 1971 Census, was 17.31 percent and 82.69 percent respectively. The corresponding proportion in 1961 Census was, 15.97 percent and 84.03 percent respectively. This also indicates <sup>the</sup> increase in the Urban population of the District.

According to 1971 Census, the number of workers and nonworkers was 5,94,691 and 10,67,490 respectively. The distribution of workers into nine fold classification is as below.

(8)

Table No. 1.5

Distribution of Workers

Sr.No.:	Category	No. of persons
1	2	3
I)	Cultivators.	2,12
II)	Agricultural Labourers.	2,81
III)	Livestock, forestry, fishing etc.	3
IV)	Mining and quarrying.	(Less than 500)
Va)	Manufacturing, Processing, servicing and repairs, household industry.	(Less than 1500) 13
Vb)	Other than household industry.	20
VI)	Construction.	5
VII)	Trade and Commerce.	23
VIII)	Transport, storage and Communication.	8
IX)	Other Services.	24
	Total Workers.	5,95

When Talukwise figures in the above table are observed, it will be seen that the ratio of Agril. Labourers to cultivators is high in the Tahsils of Dhule, Nandurbar, Taloda, Shahada, Shirpur, and Sindkheda, which are rich in Agriculture, whereas the same is low in the Tahsils of Akrani, Akalkuwa, Sakri and Navapur, which are mostly inhabited by Tribal population.

1.12. Special Features of Dhule District:-

A) Drought prone Area Programmes:-

This has been implemented in the four selected watersheds, with the State's assistance. At Mandre, in Dhule Tahsil, Hatti in Sakri Tahsils, Kakarde in Nandurbar Tahsil and Khatana in Sindkheda Tahsil. Activities under Minor Irrigation, Animal Husbandry, Agriculture and Forest are undertaken, in these watersheds.

B) Small Farmers Development Agency:-

This programme, with the 100 percent assistance from the Central Govt., is implemented in all Tahsils, except Shirpur which is covered under another scheme viz. Page Scheme, for the benefit of small and marginal farmers and landless Agril. labourers.

(9)

This programme is employment oriented in Agril.& allied sectors.

C) Tribal Areas:-

Dhule District has the largest population of Scheduled Tribes and it ranks first in Maharashtra State. Out of the total 1971 population of 16.32 lakhs, 37 percent population belongs to the Scheduled Tribes. The predominant tribal Tahsils are Akrani, Akkalkuwa and Nawapur. The other Tahsils viz. Predominant tribes observed in the areas of Dhule District are Bhil, Dhanka, Gamit, Kokani, Naikda and Paradhi. For welfare of the Tribes, many special schemes are implemented under the 'Tribal Sub-Plan' of the District, through the Integrated Tribal Development project at Nandurbar and Taloda, and also some welfare schemes are implemented by Tribal Development Corporation.

D) Dhule District is well known for 'Milk Production'. The Dairy Development Programme is well hettted through Dairy Co-operatives and chilling plants, functioning very smoothly. The average daily collection of milk in the Govt. Milk Scheme during 1980-81, was 1.24 lakh litres per day, which shows a slight increase in the last two years figures of collection of milk.

E) There are two Co-operative sugar factories and Khan-dsari factories are working in Sakri, Shahada, Dhule Tahsils.

F) One Spinning and Weaving Mill at Dhule is working with a strength of 2,612 workers.

G) There is a big Soil and Water analysis laboratory established at Dhule, for the benefit of the agriculturists.

H) There is one Agril. College and a School at District H. Q. Dhule.

(10)

I) There are 5 Medium and minor Irrigation Project in Dhule District Viz. Karwand, Malangan, Kanoli, Panzra and Aner.

J) Torenmal, in Akrani Tahsil, is a developed Holiday camp and Tourist Centre.

K) Village 'Prakash' in Shahada Tahsil is a religious Centre and it is known as 'Dakshin Kashi'.

Explanatory Note.

2.1 In this chapter contents of each table; which are further classified into I to XIII broad groups, in part II of this Publication Viz. District Statistical Abstract 1980-81, are explained. Certain significant aspects, important concepts, limitations etc. wherever necessary, are given in this chapter. Normally data is presented for each financial year. However, in certain tables, the data is presented for calendar year. Similarly, data for tables on Co-operation relates to the co-operative year i.e. from 1st July to 30th June. Agriculture data relates to Agricultural year. Data is furnished Tahsil wise, wherever it is available. Source of information and notes, wherever essential, have been given at the end of the table.

2.2 At the beginning of this publication, 'District At a Glance' is presented. This gives basic information on important items such as i) Population, ii) Agriculture, iii) Animal Husbandry, iv) Industries, v) Co-operation, vi) Medical and Public Health, vii) Education, viii) Transport and Communication, ix) Local Bodies and plan Expenditure etc. for the year 1980-81, for the Dhule District, compared with Maharashtra State.

#### 2.4 Climates:-

Tahsil wise and monthwise normal and monthly rainfall with number of rainy days and minimum and maximum temperature recorded at Nandurbar centre only, for Dhule District is given. The data is for the calendar year 1980 and is presented in the two tables under this broad group. 'Average or Normal Rainfall' are worked out on the basis of actual rainfall for the periods ranging from a minimum of 5 years to a maximum of eighty years. As regards 'Rainy Days' a day was treated as 'Rains Day' if during the 24 hours, the raingauge recorded a minimum of 25 m.m. of rainfall.

CHAPTER-IIIAnalytical Review of Sectorial trends.

3.1 In this chapter, trends in the statistical data presented in part-II of this Abstract in various sectors of developments such as Agriculture, Animal Husbandry, Co-operation, Education, Electricity, Public Health etc. are analysed.

3.2 Agriculture:-

Agriculture and allied activities being the principal means of livelihood, they find predominant place in our economy at all levels. To get a better idea of the progress in this important sector, some major indicators of development, such as percentage of gross cropped area to the net area sown and gross irrigated area to net area sown, cropping pattern, yield per hectare of principal crops in Dhule District are discussed here. The observations in the following paras are on Agricultural data for Land Utilisation and cropping pattern based on final figures for the year 1977-78 and 1978-79 and provisional figures for the year 1979-80. The data for sourcewise irrigation and crops irrigated are furnished for the years 1962-63, 1978-79 and 1979-80.

Table No. 3.1

Percentage of gross cropped area to net area sown.

The general index of Jalgaon is more than Bombay centre for the year 1980-81 as 402 Index for item food is slightly higher in respect of Jalgaon 441 as compared to Bombay 431 centre i.e. by 10 points. The District Statistical Office, Dhule is regularly collecting prices of important commodities for urban centres at District head quarter, Dhule from the selected shops for the fixed varieties and quantities indicating general price trend in the market.

Review of the average prices reported for the year 1980 reveals that there was marked increase in the prices of Rice, Wheat, Bajara, Pulses, Groundnut Oil, Vanaspathi, Goat meat, Fish, Eggs, Tea, Coffee, Potato, Onion, Sugar, Gur, Dry Chillies, when compared with the price of 1979.

Break up of expenditure of State Plan & Central Plan under Tribal and Non-Tribal areas is Rs.7.45 crores and Rs.6.75 crores respectively, which further means that expenditure under Tribal areas is more by 4.95% than the Non-Tribal areas. According to Major Heads of Developments, out of the total expenditure, during the year 1980-81, 35.63% of expenditure is booked under Miscellaneous programme viz. 2) Co-operation and Community Development:-

During the year under reference only Rs.0.19 lakhs and Rs. 28.00 lakhs, respectively have been spent under Non-Tribal Plan and Tribal sub-Plan, The same trend of expenditure is observed with in Tribal and Non-Tribal area when compared with the expenditure, during 1979-80. No loan was granted by any society under Non-Tribal Plan, and 127/ <sup>Agiwasi</sup> Co-operative Societies were assisted during the year 1980-81 under Tribal Sub-Plan. No expenditure was made towards community Development due to non-availability of grants under Annual Plan. Though all the areas of the District have been covered under C.D. Programme, which is now, Non-Plan activity.

3) Irrigation and Power:-

Under this Head of Development, Medium Irrigation Projects and Rural Electrifications Programme have been operated. An amount of Rs.2.06 crores has been spent, of which Rs.1.33 crores pertained to Tribal sub-Plan and remaining Rs.0.68 crores under Non-Tribal Plan. All this expenditure was incurred under State Sector on various medium irrigation-projects. As compared to the previous year's expenditure, it is less by Rs.33.89 lakhs. The expenditure was made for various works in progress under, Burai project, Rangawali Projects and Girna Panzara left Bank Canal, Amravti, sonwad Project(New Scheme.). Also as regards Rural Electrification Programme, expenditure made during the year under report, is significantly same under both, Non-Tribal as well as Tribal Sub-Plan. During the year under review 17 Tribal villages have been electrified and 408 pumps(Tribal) and 408 pumps (Non-Tribal) were energised. So also 5 Tribal and 11 Non-Tribal Harijan Basties have been provided with street lights. Progress of physical achievements under Rural Electrification Programme is considerably less than the progress of previous year due to acute electricity position.

4) Industries and Minings:-

Under this programme, expenditure of Rs.25.06 lakhs was made during 1980-81. Rs.24.21 lakhs under Non-Tribal Plan and Rs.0.85 lakhs under Tribal Sub-Plan and this was all under State sector, for small scale industries. The expenditure is more by 46% than the expenditure during last year. The following table No.4.6 shows important physical achievements under this development head.

Under-Tribal Sub Plan, however, expenditure incurred is Rs. 9.81 lakhs less. It will also be seen that more expenditure is booked under all sub-heads excepting Minor Irrigation, Soil Conservation, Dairy Development, Forest, Ware Housing and Marketing. This difference is significant under animal Husbandry and Ware Housing and marketing have been spent in 1980-81. There was a new sub head of Development viz Integrated Rural Development Project for which Rs. 20 Lakhs have been spent.

During the year 1980-81 major expenditure is shared by Minor Irrigation Works, followed Drought Prone Areas Programme, Integrated Rural Development Project and very insignificant expenditure is booked under Soil Conservation i.e. towards expenditure made in the State and Local Sectors. There was no expenditure on Ware Housing and Marketing during 1980-81. It will be seen that under Tribal sub-plan, State Sector Schemes under Agricultural Programme showed decreasing expenditure by Rs. 9.81 lakhs though Local Sector Schemes showed slight increase in expenditure, by 1.3%. Under Non-Tribal Plan, State Sector scheme, showed increasing trends of expenditure in 1980-81 by Rs. 20.15 lakhs though Local Sector Scheme showed decline by 9.5%.

Transport and Communication:-

Dhule District is backward in Road Development. In the rainy season, routes connecting Akrani, Akkalkuwa, Taloda and Nawapur, Tahsils are cut off. There is a broad-guage rail link of 171.61 Kms. and 19 railway stations are located on this rail link. Bombay-Agra National Highway and Surat-Nagpur National Highways passes through the District area. There are State Highways, Major and other District Roads and village Roads whose total length in the District alongwith the National Highways as on 31-3-1981 is 7,636 Kms.

Under this Major Head of Development, expenditure on various road development schemes, Crash Programme, C.D. works, Minimum Needs Programme, during the year 1980-81 has been shown as Rs.1.01 crores of which Rs.43 lakhs under Non-Tribal Plan and Rs.58 lakhs under Tribal Sub-Plan. Out of total Rs.1.01 cores, Rs.9.18 lakhs have been spent under Local Sector-Non-Tribal Plan and rest of the Rs.91.80 lakhs are spent under State Sector, Non-Tribal and Tribal Sub-Plan. As compared to the expenditure during 1979-80, expenditure incurred during 1980-81 is less by more than 8%. During the year <sup>1980-81</sup> under Crash Scheme of Road Development, 20 Kms. in Tribal and 29 Kms. in Non-Tribal

(40)

Works respectively, were constructed. This progress is however more as compared to the progress during previous year. 15 kms. of rural and 4 C.D. Works have also been constructed under Rural Development Rural Roads.

Decreasing trend of expenditure is observed in respect of sub-heads, Nutrition Programme, Programme, Urban Development, Labour and Labour Welfare and Art and Culture.

Urban Development, Labour & Labour Welfare and Art and Culture.

The decline in expenditure of the above sub-heads is due to availability of less budget allotments under the Annual Plan 1980-81.

In the following table No.4.8 important physical achievements under the above sub heads are listed for the year 1979-80 and 1980-81 according to Non-Tribal Plan and Tribal Sub-Plan.

7) Miscellaneous Programme:-

Under this programme, Employment Guarantee Scheme is implemented with a view to provide employment opportunity to unskilled labourers and also thereby to create community assets. The scheme is operated in almost all the Tahsils of Dhule Dist. and is very useful for providing gainful employment to the needy persons, especially, from the Drought Prone Areas of Dhule, Nandurbar, Sindkheda and Sakri Tahsils.

Also Scheme of Rural Broad-casting under 'Publicity' is implemented by spending Rs.0.61 lakhs in the year 1980-81.
