INTRODUCTION

The Season and Crop Report is an important publication brought out by Department of Agriculture of Maharashtra State which presents facts and figures pertaining to Agriculture.

The present report gives districtwise data on area, production of agricultural crops and also rainfall data, farm harvest prices, agricultural wages and summary tables on these topics.

The rainfall data presented in the report is based on the daily rainfall figures received from revenue offices and from Indian Meteorological Department for few selected centres.

Data on land utilisation, sources of irrigation, areas under crops is received from the District Revenue Offices. The results of production estimates are based on the crop estimation surveys conducted on certain principal food and non-food crops. Particulars relating to agricultural wages are based on the data supplied by Revenue Offices, while the data pertaining to Farm Harvest Prices are based on the information collected from Agricultural Development Officers.

The report contains districtwise figures and also some summary tables which may prove helpful to the users of agricultural data.

SEASON AND CROP REPORT OF THE MAHARASHTRA STATE FOR THE YEAR 1983-84

CHAPTER I

EFFECTS OF RAINFALL ON SOWING AND CROP GROWTH

During the current year the commencement of the monsoon was delayed by about a week. The monsoon entered South Konkan region on 18th June and covered North Konkan and South Deccan region by 20th June. Further it covered North Deccan region on 21st June and Marathwada and Vidarbha region by the 26th June.

Besides delay in commencement of the monsoon it was feeble, hence sowing operations were not possible even till third week of June. However, paddy nursery sowing was taken up in Konkan districts and Ghat tract of Nasik, Pune, Satara and Kolhapur districts. With moderate to heavy rains received in the last week of June large scale kharif sowing operations commenced in all the districts of Vidarbha region; kharif sowing in other parts of the State were taken up on small scale in certain regions.

There were heavy and incessant showers during the period from 26th June to 29th June all over Konkan districts and in parts of Kolhapur district which resulted in considerable damage particularly to paddy nurseries in low lying areas.

On account of partial cessation of rains in the first week of July, the sowing operations which had already commenced, though late, received a set back. Considerable anxiety prevailed in the farming community at this particular stage. However, rains received from 9th July onwards, till 13th July were almost widespread and this helped in revival of the situation prevailing earlier to a considerable extent. Due to receipt of these rains, sowing of kharif crops was taken up on large scale. In the subsequent period till 8th August, intermittent rains were received in different parts of the State. However, these rains were short of requirement particularly in parts of north Deccan and Marathwada region and more rains were needed in these parts for proper growth of already sown kharif crops. Most of the sowing of kharif crops was nearing completion by this time. Only the transplanting of paddy was in progress in Vidarbha region. Again from 9th August to 15th August widespread rains were received in all the parts of the State. These rains, though, beneficial for improving the condition of kharif crops were rather heavy in certain parts of Konkan area; Marathwada and Deccan regions. Rivers in these areas were in spate causing damage to standing crops in low-lying areas and the bunds to some extent. Moreover, due to continuous rains for about a week the crops in some parts were showing signs of yellowing and break in rains with bright sunshine was needed for the proper growth of the standing kharif crops. Fortunately from 16th August onwards such situation prevailed, which continued practically till end of August with intermittent showers. This was helpful in improving the condition of standing crops.

In the subsequent period till 28th September widespread light to moderate rains were received in different parts of the State. These rains were beneficial for the satisfactory growth of standing kharif crops. However, the standing kharif crops of Bajari, kharif jowar and Cotton were affected to some extent in parts of Deccan, Marathwada and Vidarbha regions; due to continuous rains. In these regions break in rains and clear sunshine were needed for satisfactory growth of standing kharif crops. Incidentally the situation improved. Since 19th September in most parts of the State, and it was beneficial for satisfactory growth of standing kharif crops. However due to receipt of heavy rains in Parbhani and Nanded district of Marathwada region on 6th and 7th October, the standing kharif crops were damaged to some extent in parts of these districts.

Rains received during the month of September were also beneficial for undertaking the sowing of rabi crops. Sowing of rabi jowar and safflower was started in parts of Deccan region by the end of the September wherever vapsa conditions were available. The break in rains and bright sunshine prevailed during the month of October which continued thereafter was very much helpful for undertaking the sowing of rabi jowar and safflower on large scale. Sowing of these crops was over in Deccan and Marathwada regions. So also sowing of linseed and seamum was also completed in the State. Similarly the sowing of rainfed wheat and gram was also started in different parts of the State in middle of October and nearly completed. Germination and condition of already sown rabi crops was reported to be satisfactory, except in parts of Ahmednagar, Pune, Solapur, Satara, Sangli, Aurangabad, Jalna, Latur, where the standing unirrigated rabi crops on light soil were affected due to inadequate soil moisture.

In the last week of December scattered light to moderate rains were received in parts of Deccan, Marathwada and Vidarbha regions. These rains were beneficial to some extent for late sown unirrigated rabi crops.

Sowing of irrigated wheat and gram crops was completed by December in the State. Germination and condition of these crops reported to be satisfactory. Cold weather prevailing in the State since 6th November, 1983 was also beneficial to the standing rabi crops particularly wheat and gram crops.

During the period from January to 18th April the weather in different parts of the State was dry except first fortnight of January and February 1984 where scattered light to moderate rains were received in some pockets of Deccan and Vidarbha regions. Similarly, Deccan region experienced isolated light rains in the first week of April. However, these rains were not useful to standing rabi crops.

Sowing of summer paddy was also completed in the State in time and the condition of the crop was satisfactory in all the paddy tract. Similarly the sowing on summer groundnut and Vaishakhi mung was completed in different parts of the State in the first fortnight of April. However it was still in progress in parts of Ahmednagar, Pune and Solapur districts. Conditions of those crops was satisfactory.

The sowing of irrigated cotton was started in Deccan canal areas in the first week of April and was in progress thereafter.

On the whole the season suring 1983-84 was generally satisfactory in kharif as well as rabi season except few pockets where damage was caused to some standing kharif crops due to floods in August and September.

CHAPTER II LAND UTILISATION

(Table II, pages 48-49)

(Summary Table 'A' page 6 and Summary Table 'A-I' pages 7)

Number of Villages

The number of villages in the State was 40,291 as against 40,166 during the preceding year. The increase was due to formation of new villages.

Total Geographical area

The Geographical area in the State was 307.58 lakh hectares.

It can be seen from the Summary Table 'A' that out of total geographical area 180.39 lakh hectares was under net cropped area which has increased by 1.9 percent as compared to the net cropped area in preceding year. The total cropped area during the year under report was 195.53 lakh hectares as against 192.17 lakh hectares in the preceding year having increased by 1.8 percent. The area sown more than once also increased by 0.6 percent having gone up

from 15.10 lakh hectares in 1982-83 to 15.15 lakh hectares in 1983-84.

The increase or decrease in area under other categories is given below.

1. Forest	.. (-) 0.1
2. Barren and unculturable	.. (-) 0.6
3. Area under non-Agril. uses	.. (+) 6.7
4. Culturable waste land	.. (+) 4.2
5. Permanent pastures and other grazing land	.. (-) 9.3
6. Land under misc. trees	.. (-) 8.2
7. Current fallow	.. (+) 4.0
8. Other fallow	.. (-) 18.1

The Summary Table 'A-I' gives the districtwise details of percentage area under each of the categories under ninefold classification in each district of the State.

CHAPTER III IRRIGATED AREA

(Summary Table 'B' and 'C' pages 8 to 10)

3.1. During the year under report the number of wells used for irrigation purposes (other than tube wells) was 8,56,795 as against 8,32,885 in the preceding year. Thus showing an increase of 2.9 percent over preceding year. The number of wells used for domestic purposes decreased by 3.4 percent over preceding year.

3.2. The number of oil engines (used for Agril. purposes) increased from 123410 in 1982-83 to 128168 showing an increase of 3.9 percent over the preceding year so also there was increase in the number of electric pumps by 1.7% over the preceding year. The number of pumps increased from 413880 in 1982-83 to 421075 in the year under report.

3.3. The net irrigated area in the State decreased by 1.2 percent having gone down from 19.26 lakh hectares in 1982-83 to 19.02 lakh hectares in the year under report. The gross irrigated area also decreased from 23.94 lakh hectares in 1982-83 to 23.87 lakh hectares in 1983-84 showing decrease of 0.3 percent.

3.4. During the year under report, the percentage of net irrigated area to the net area sown in the State was 10.5 percent while that of gross irrigated area to gross area sown was 12.2 percent. The corresponding percentages for the preceding year were 10.9 percent and 12.5 percent respectively.

Sourcewise net and gross irrigated area

3.5. The net irrigated area by surface irrigation showed a slight increase of 0.6 percent during the year under report as compared to the preceding year.

But the net area irrigated by well showed decrease by 2.6 percent during the year under report.

3.6. The gross irrigated area by surface irrigation in the State showed an increase of 1.9 percent and the gross irrigated area by wells showed decrease by 1.8 percent as compared to the preceding year.

3.7. The total irrigated area under surface irrigation constituted 41.2 percent of the total irrigated area while the total irrigated area by wells was 58.2 percent of the total irrigated area. The Table III-A gives percentage of net irrigated area to net area sown; and gross irrigated area to gross area sown in each district of the State. While Table III-B gives percentage area irrigated by surface irrigation and by well irrigation in each district of the State.

3.8. The cropwise irrigated area during 1983-84 is presented in summary Table 'C' along with the corresponding area in 1982-83. It can be seen that out of total irrigated area of 23.87 lakh hectares in the State the irrigated area under food crops occupied a larger share of 21.48 lakh hectares or 90.0 percent while the remaining area of 2.38 lakh hectares or 10.4 percent under non-food crops.

3.9. In the year under report the irrigated area is slightly decreased by 0.3 percent as compared to the preceding year. This decrease was noticed under almost all food and non-food crops excepting certain minor crops like minor pulses and vegetable crops.

CHAPTER IV CROPPED AREA

(Table IV-A, IV-B and IV-C' pages 66 to 89)

(Summary Tables 'D' pages 11 to 21)

4.1. Gross cropped area, area cropped more than once and area under various food crops and non-food crops are shown in Summary Table 'D'.

4.2. From this table, it can be seen that the gross cropped area has increased by 1.8 percent during the year under report as compared to the preceding year, having gone up from 192.2 lakh hectares to 195.5 lakh hectares. The net cropped area also increased by 1.9 percent during the year 1983-84. The area sown more than once remained almost the same as was in the preceding year 1982-83.

4.3. Out of the total increase in the gross cropped area during 1983-84, the increase was noticed in both food and non-food crops except in Rabi non-food crops. In Rabi area, there was decrease of 2.2 percent in non-food crops. There was an increase in the area under total food crops by 2.0 percent and by 1.0 percent in non-food crops as compared to the preceding year.

4.4. Though the area under total cereals, pulses and condiments has increased but in case of sugarcane there is decrease in area of 4.9 percent.

4.5 In case of non-food crops it was seen that there were no large variations in the area as compared to 1982-83.

4.6. Out of total cropped area in the State the percentage covered by certain categories of crops is indicated below :

Crop	Percentage area to total cropped area
Rice	7.6
Kharif Jowar	15.9
Rabi Jowar	17.8
Bajari	8.5
Wheat	4.8
Total Cereals	56.7
Gram	1.9
Tur	3.3
Total Pulses	13.1
Groundnut (kharif and summer)	3.1
Total Oilseeds	3.3
Cotton	13.1
Sugarcane	1.9

Thus it can be seen that out of the total cropped area in the State 69.8% area is covered under foodgrain crops. The cotton crop also occupies comparatively larger area of 13.1% of the total cropped area.

CHAPTER V

AVERAGE YIELD AND OUTTURN OF CROPS

(Table V-A and V-B pages 90 to 101)

(Summary Tables 'E' and 'F' pages 22 to 23)

The over all seasonal condition during the year 1983-84 found to be favourable as compared to the year 1982-83. As a result of this the production of foodgrains increased by 14.8 percent during the year 1983-84, as compared to the preceding year, having increased the same from 91.4 lakh tonnes to 105.0 lakh tonnes. This increase in production of foodgrain crops was due to increase of production of all main crops in kharif and rabi seasons, like Paddy by 26.8%, Wheat by 16.6%, Rabi Jowar 20.6%, Bajri by 84.5%, Maize by 5.7%, Ragi by 8.5%, Gram by 25.9%, Red-gram (Tur) 10.7%, Masur by 26.9%, and Mung by 3.9%. Kharif Jowar, Barley, Italian millets, little millets, black gram, horse gram however showed decrease by 1.6%, 30.0%, 2.0%, 20.0%, 10.2%, 2.9%, respectively.

Table below gives the contribution of various crops in the production of foodgrains during the year 1983-84.

Crop	% Outturn to total outturn of foodgrain crops
1) Rice	23.4
2) Bajari	8.2
3) Ragi	2.0
4) Kharif Jowar	31.9
5) Rabi Jowar	14.6
6) Wheat	8.7
7) Other cereal crops	1.2
8) Gram	1.5
9) Tur	4.0
10) Other Pulses	4.5
Total	100.0

CHAPTER VI PRICES

(Table VI, pages 102 to 105)
(Summary Table 'G' pages 24)

The districtwise farm harvest prices of the principal crops during the peak harvesting period in the year 1983-84 together with the corresponding prices of the last year are given in the main table *i. e.* Table No. VI.

The State level farm harvest prices of all principal agricultural commodities during the years 1983-84 was mostly of the same order as those in the preceding year 1982-83. However slightly down ward trend was noticed in case of prices of Bajari, Maize, Turdal and Wheat. The main reason is the increase in production of these commodities during the year 1983-84 as compared to these in 1982-83 which was a drought year. The main reason for slight increase in the prices of the gram is due to increase in demand of the commodity in the local market.

The main reason for slight increase in the price of Gur is slight decrease in the Production of Gur during the year 1983-84 as compared to that in 1982-83.

During the year 1983-84, the scheme for monopoly purchase of cotton was continued in the State and average monopoly purchase price during the year was Rs. 493.62 per quintal which was nearly same as that in the preceding year 1982-83.

The price of tobacco was reported only for one centre in Kolhapur district and was higher than that of the last year.

From the above, it can be seen that the major contribution to foodgrain crops comes from Jowar (both kharif and rabi) which accounts for 46.5 percent followed by Rice which accounts for 23.4 percent.

In case of Sugarcane the production in terms of Gur decreased by 6.2 percent during 1983-84 having gone down the same from 30.3 lakh tonnes in 1982-83 to 28.4 lakh tonnes in 1983-84.

The cotton production also decreased by 50.6 percent, having gone down from 16.1 lakh tonnes in 1982-83 to 8.0 lakh tonnes in 1983-84.

CHAPTER VII

AGRICULTURAL WAGES

(Table VII, pages 106 to 117)
(Summary Table 'H' pages 25 to 27)

According to the Revenue Accounts Manual Agricultural labours is classified under three categories *viz.* (i) Skilled labour (ii) Field labour (iii) Other agricultural labours. Skilled labour comprises of carpenters, black-smiths, and cobblers while field labour includes plough-man, sower, transplanters, weeders, reapers, harvesters. Other agricultural labour includes well diggers, load carrying hamals, assistants of masons and carpenters, earth workers etc. One more category of labour *viz.* herdsmen whose main work is to take the livestock owned for grazing is also included in the table VII on Agricultural Wages.

Main table of report gives districtwise and monthwise figures of average daily wages of different classes of Agricultural labours. Summary table 'H' gives the State level information for wages in the different months during 1983-84 along with the corresponding information for the year 1982-83.

The table below gives the daily wages of different types of labours at the State level for two years *i. e.* 1982-83 and 1983-84.

Agricultural Wages (Daily)

Year	Skilled Labour			Field Labour			Other Agri. Labour		Herdsmen
	Car-penter	Black-Smith	Cobbler	Male	Female	Children	Male	Female	
I	2	3	4	5	6	7	8	9	10
1982-83 ..	19.77	17.91	15.19	9.05	6.24	4.46	8.52	5.85	7.98
1983-84 ..	21.09	19.03	16.35	9.86	6.75	4.81	9.40	6.42	8.73

It is seen from the above table that wages for all the categories of labours during 1983-84 were on higher side than those of 1982-83.

CHAPTER VIII AGRICULTURAL STOCK

(Table VIII pages 118 to 131)

(Summary Table 'I' pages 28 to 31)

Table VIII of this report gives the details of livestock, poultry, agricultural machinery and implements as per quinquennial census of livestock and agricultural machinery conducted in 1982 by the Director, Directorate of Animal Husbandry, Govt. of Maharashtra.

Summary table 'I' gives total number of livestock poultry, agricultural machinery and implements at State level and the comments on the same are briefly given below.

(1) *Cattle* :—The number of cattle increased to 1,61,61,807 in 1982 from 1,52,17,859 in 1978 or by 6.2%. The total number of males of age over three years also increased by 5.7%. Out of this the number of other males, those used for breeding only and used for breeding and work both; recorded decrease of 0.8% and 7.0% respectively. Among the females over three years and number of breeding cows recorded an increase of 9.5% while the number of the other females also showed an increase of 31.8%. The number of young stock upto three years recorded an increase of 2.9%.

(2) *Buffaloes* :—The total number of buffaloes recorded an increase of 1.9% during 1982 having gone up 39,71,676 in 1982 from 38,98,716 in 1978. Among the different categories of buffaloes the number of male and female over three years showed an increase by 7.9% and 7.4% respectively.

The female in milk decreased by 1.1%. The number of young stock also recorded decrease of 7.8% in the year 1982.

(3) *Sheep and Goats* :—The number of sheep and goats increased by 1.3% and 1.9% respectively, as compared to the corresponding number in the previous census during 1978.

(4) *Horses and Ponies* :—The total number of horses and ponies declined by 0.3% during 1982 as compared to that in 1978. The number of mules, donkeys, camels and pigs showed an increase of 34.3%, 15.8%, 33.0% and 33.3% respectively. The number of total livestock recorded an increase of 4.3% during 1982 over that of the last census year.

(5) *Poultry* :—The total number of poultry showed an increase of 5.8 percent.

(6) *Agricultural Machinery and Implements* :—The number of tractors increased by 62.3% also there was an increase of 107.6% in case of Ghanies. Similarly the number of wooden and iron ploughs showed an increase of 0.4% and 14.7% respectively. Sugarcane crusher, plant protection equipments and electric pump sets used for irrigation purposes also recorded an increase of 3.6%, 109.4% and 18.5% respectively; as compared to corresponding figures of the year 1978.

SUMMARY TABLE 'A'
Land Utilisation Statistics, 1983-84

(Area in '00' hectares)

Head of Classification 1	1982-83		1983-84	
	Area 2	Percentage to total 3	Area 4	Percentage to total 5
Reporting area for the Land Utilisation				
Statistics (Geographical area) ..	3,07,583	..	3,07,583	..
1. Forest ..	53,291	17.3	53,367	17.4
2. Barren and culturable land ..	17,371	5.6	17,263	5.6
3. Area under non-Agricultural uses ..	10,480	3.4	11,184	3.6
4. Culturable waste land ..	9,924	3.2	10,337	3.4
5. Permanent pastures and other grazing lands.	15,405	5.0	13,968	4.5
6. Land under Misc. tree crops and grooves not included in net area sown.	2,121	0.7	1,947	0.6
7. Current fallow ..	5,498	1.8	5,720	1.9
8. Other fallow ..	163,81	5.4	13,411	4.4
9. Net area sown ..	1,77,112	57.6	1,80,386	58.6
10. Area sown more than once ..	15,058	4.9	15,144	4.9
Total cropped area (9+10) ..	1,92,170	62.5	1,95,530	63.5

SUMMARY TABLE 'A-I'

Statement showing percentage area under each of the ninefold classification in each district of Maharashtra State 1983-84
(Area in '00' hectares)

Sr. No.	District	Forest	Barren & Uncul. area	Land put to N. A. use	Culturable waste	Permanent pasture	Land under Misc. trees & grooves	Current fallow	Other fallow	Net area sown

SUMMARY TABLE 'B'

Sources of Water Supply and the Area Irrigated therefrom
in Maharashtra State during 1983-84

(Area in '00' hectares)

Item		1982-83	1983-84	Percentage increase (+) or decrease (-) over 1982-83
1		2	3	4
(I) Classification of Sources :—				
Tube Wells	Government	2,766	3,121	(+) 12.8
	Private	1,278	1,393	(+) 9.0
No. of Govt. wells used for irrigation purpose only	Masonry	3,838	4,081	(+) 6.3
	Non-Masonry	3,975	3,571	(-) 10.2
No. of Private wells used for irrigation purpose only.	Masonry	5,92,004	5,96,150	(+) 0.7
	Non-Masonry	2,33,068	2,53,013	(+) 8.6
No. of wells (other than tube wells) used for irrigation purpose only.		8,32,885	8,56,815	(+) 2.9
No. of wells used for domestic purpose only.		3,32,898	3,21,432	(-) 3.4
No. of wells not in use		1,19,872	1,28,060	(+) 6.8
No. of oil engines		1,23,410	1,28,168	(+) 3.9
No. of Electric pumps		4,13,880	4,21,075	(+) 1.7
(II) Area Irrigated by Sources :—				
Surface Irrigation	Net	8,073	8,144	(+) 0.9
	Gross	9,652	9,835	(+) 1.9
Well Irrigation	Net	11,184	10,874	(-) 2.8
	Gross	14,286	14,033	(-) 1.8
Total net area irrigated		19,257	19,018	(-) 1.2
Total gross area irrigated		23,938	23,868	(-) 0.3
Percentage of Net area irrigated to net area sown		10.87	10.54	..
Percentage of Gross area irrigated to gross area sown		12.46	12.20	..
Area irrigated more than once in the same year		4,681	4,850	..

SUMMARY TABLE 'C'

Area of crops under irrigation 1983-84

(Area in '00' hectares)

Crops	1982-83	1983-84	Percentage increase (+) or decrease (-) over 1982-83
1	2	3	4
(I) Food Crops :-			
Rice	3,900	3,697	(-) 5.2
Wheat	5,008	5,188	(+) 3.6

SUMMARY TABLE 'T'—Contd.

Number of Livestock, Poultry and Agricultural Machinery

Category and Description	1978	1982	Percentage increase (+) or decrease (-) over 1978
1	2	3	4
POULTRY :—			
(1) Fowls (Hens, Cocks & Chickens) ..	1,87,04,124	1,97,68,595	(+) 5.7
(2) Other Poultry (Ducks etc. and other)	46,693	75,191	(+) 61.0
Total Poultry ..	1,87,50,817	1,98,43,786	(+) 5.8
AGRICULTURAL MACHINERY AND IMPLEMENTS :—			
(a) Bullock and Manually operated implements—			
Wet and puddler	1,25,428	91,257	(-) 27.2
Clod crusher	60,895	53,139	(-) 12.7
Earth levelers or scrappers			
Ridgers	8,573	53,330	(+) 522.0
Ironpetari	6,237	9,772	(+) 56.7
Keni	33,687	43,621	(+) 29.5
Seed dressing drum	5,289	3,278	(-) 38.0
Seed drills			
Local	12,19,620	13,36,956	(+) 9.6
Improved with device	76,058	81,430	(+) 7.1
Maize sheller	562	806	(+) 43.4
Inter culturing			
Local hoe	29,48,329	31,88,766	(+) 8.1
Akola hoe	63,281	78,063	(+) 23.4
Rotary hoe	34,694	36,332	(+) 4.7
Threshers—			
Stone roller	16,659	12,740	(-) 23.5
Paddy threshers	8,420	14,193	(+) 68.6
Olpad threshers	2,000	2,479	(+) 23.9
Winnower	6,748	7,824	(+) 15.9
Chaff cutter	12,278	16,749	(+) 36.4
(b) Sugarcane crushers—			
Worked by power	7,467	7,228	(-) 3.2
Worked by bullocks	2,023	2,604	(+) 28.7
