PART - II.  
SOCIO - ECONOMIC REVIEW  
OF  
KOLHAPUR DISTRICT

CHAPTER - I  
PHYSICAL FEATURES

1.1. Kolhapur was one of the numerous former princely states of India which merged with the Indian Union after independence. Kolhapur District was formed with some minor territorial adjustments in the former princely state. The Chandgad Taluka was added to the District at the time of formation of bilingual Bombay State in 1956.

1.2. The District lies between 15° and 17° North latitude and 73° and 74° East longitude. It is surrounded on the North by Satara District, on the South and East by Belgaum district of Mysore state. It has a fairly compact area and its major portion forms an irregular part of the South Deccan Plateau.

ADMINISTRATIVE SET UP

1.3 For administrative purposes the district is divided into three sub-divisions or "Prants". Each sub-division is under a Prant Officer of the Revenue Department. The Three sub-divisions are (1) Gadhinglaj (2) Karvir and (3) Shahuwadi. The Head quarter of Gadhinglaj prant is at Gadhinglaj itself, the Headquarters of Karvir and Shahuwadi are Kolhapur

The sub-divisionwise classification of Talukas and Mahals along with their areas, population, number of villages, towns etc. are given

in the following tables. Table No. 1. Revenue Divisions in the District.

Name of subdivision	Sub-divn Headqrs.	Name of Tal. or Mahal in the sub-division	Area in Sq.K.m.	No. of villages	No. of Towns	Population According to the 1961 Census
1	2	3	4	5	6	7
1. Karveer	Kolhapur	1. Hatkanangle Tal.	609.4	52	2	2,26,542
		2. Kagal "	549.1	80	2	1,28,980
		3. Karvir "	679.6	103	2	3,47,546
		4. Shirol "	527.8	46	2	1,51,101
Subtotal:-		4 Talukas	2365.9	281	8	8,54,163

Contd....

Name of sub-division	Sub-divisional Headars.	Name of Tal. or Mahal in the sub-div.	Area in Sq. K.m.	No. of villages	No. of Towns	Population According to 1961 Census
1	2	3	4	5	6	7
2. Shahuwadi	Kolhapur	1. Bawada Mahal	675.0	77	-	59071
		2. Panhala "	565.4	102	1	114076
		3. Radhanagari Tal.	892.3	101	-	100431
		4. Shahuwadi Tal.	1055.4	130	1	100566
Sub-Total-2		2 Tal & 2 Mahals	3188.1	410	2	3,74,144
3. Gadhinglaj	Gadhinglaj	1. Ajara Mahal	531.7	81	-	68,362
		2. Bhudargad Tal.	655.5	95	-	78,655
		3. Chandgad Tal.	1020.5	130	-	93,492
		4. Gadhinglaj Tal.	496.2	89	-	127677
Sub-total-3		3 Tal. & 1 Mahal	2703.9	395	1	368186
Grand Total		9 Tals. & 3 Mahals	8257.9	1086	11	15,96,493

It may be seen from the above, table that 8 out of the 11 towns in the District are in Karvir sub-division and that Karvir division covers more than half of the population of the district.

Zilla Parishad-

In accordance with the provisions contained in the Maharashtra Zilla Parishads and Panchayat Samitis act 1961, the Zilla Parishads and Panchayat Samitis started functioning all over the state in May 1962. In Kolhapur District there are twelve Panchayat Samitis within the Zilla Parishad. The jurisdictions of the Zilla Parishad corresponds to the Rev. District Boundary. Similarly the boundaries of the twelve panchayat samitis co-terminate with the boundaries of the Talukas/Mahals concerned. The Municipal limits, however are not covered by the Zilla Parishad or Panchayat Samitis jurisdiction. The Gandhinagar town which is urban area according 1961 census but has no municipality is included in the jurisdiction of the Zilla Parishad and Panchayat Samiti.

The Zilla Parishad covers 97.28 percent of the area of the Dist. and 81.08 percent of the total population.

The Kolhapur has 53 directly elected members. In addition to this a woman member has been coopted by the elected members. Besides, there are also five associate members who are Chairman of the five federal coop. societies in the district.

The Panchayat Samiti consists of all the elected and coopted members of the Block area and chairman of the Cooperative conducting business in the Block. Sarpanchas of village panchayat are also elected members of the panchayat samiti, their number is at the rate of two for each electoral division in the Block, area.

The Zilla Parishad has an elected president and vice-president from amongst its elected members. At panchayat samiti level, the samiti has an elected chairman, while the Block Dev. Officer, appointed by the State Govt. acts as the Secretary of the Panchayat Samiti.

An officer in Senior Scale of I.A.S. works as the Chief Executive Officer of the Zilla Parishad at District level. He is assisted by the heads of various departments at district level who are of class-I and II of the State Govt. All executive authority for the purpose of carrying out the provisions of the Maharashtra Zilla Parishad and Panchayat Samitis Act vests with the Chief Executive Officer at District level and with the Block Development Officer at Panchayat Samiti level.

#### Judicial Department

Since 1953, the judiciary is completely separated from the Executive.

The Judicial Deptt. at the District level is headed by the District and Sessions Judge. He is assisted by two Asstt. Judges and Additional Sessions judges. They have jurisdiction over the entire Dist. and they attend to Civil and Criminal work both original and appellate they have also special jurisdiction under the prevention of complian Act of 1947.

Contd.....

The Civil Judge (senior Division) attends to civil special original jurisdiction and civil ordinary original jurisdiction in the whole of the District. There are two Joint Civil Judges (Jr. Division) also. They have Civil ordinary original jurisdiction upto Rs.10,000.

There are also Ten civil judges and first class judicial - Magistrate with Head quarter at different Tal. places in the District. They deal with regular civil suits of value of subject matter below Rs.10,000. They also try ordinary criminal cases. Some of them deal with municipal appeals

There are three judicial magistrates first class with headquarters at Kolhapur. They have jurisdiction in municipal appeals. One of them has jurisdiction of juvenile court and another has appellate jurisdiction in municipal appeals.

#### Police -

The Police force in the District works under the District Superintendent of Police who is assisted by two Deputy Superintendents and two Circle Police Inspectors. There are 19 police Stations in the District.

Average number of villages and population per police station in the District is 58 and 84,026 against 69 and 62,547 in the State respectively.

#### Cooperation-

The District Dy.Registrar of Cooperative Societies is in charge of cooperative movement in the district. He is assisted by two Asstt. Registrars who have territorial jurisdictions and deal with all the aspects of the cooperative movements in the district. In addition an asstt. Registrar who has since been designated as cooperation and - Industries officer works under the Zilla Parishad. He carries out the duties of Registration, deciding appeals against non-admission of - members, approval to byelaws and administrative supervision in respect of cooperative societies whose working capital does not exceed Rs.5 lakhs and whose operations do not extend beyond the District. The Zilla Parishad also looks to the promotion and extension of the cooperative movement in the District.

Contd...

### FORESTS.

The district has an area of 1027 Sq. KMs under Forest. The Forest Deptt. is in charge of 979 Sq. KMs while the remaining portion of 48 Km sq to under the Revenue Deptt.

The Divisional Forest Officer with his Headquarters at Kolhapur is in charge of the Deptt. and works under the Poona Circle. The forests are divided into eight ranges and each range is in charge of a range forest officer.

The Forests under the Revenue Deptt. are looked after by the the Collector of the District

1.4 Territorial changes during the last 15 years since 1951.

As already stated in the introductory remarks the Kolhapur District was formed in 1948 after the merger of the former Kolhapur princely state with 8 Talukas and 3 Mahals. In 1956 the Chandgad Taluka of Belgaum District was transferred to Kolhapur District according to the recommendations of the States Reorganisation Commission. The Kolhapur District became a part of Maharashtra after the bifurcation of bilingual state of Bombay in May, 1960.

1.5 Geographically the Kolhapur district can be divided into three Zones viz. (1) Western zone comprising seven talukas or parts of talukas (a) Shahuwadi (b) Panhala (part) (c) Radhanagari (d) Chandgad (e) Bhudargad (f) Ajara and (g) Bawada. (2) Central zone comprising (a) Panhala (Part) (b) Karvir (c) Kagal (Part) and (d) Gadhinglaj and (3) Eastern Zone comprising (a) Hatkanangle (b) Shirol and (c) Kagal (part).

### 1.6 RIVERS

There are Six large rivers in the District, viz. The Krishna, the Panchaganga, the Vedganga, the Warna, the Dudhaganga, & the Hiranyakeshi. These rivers with their tributaries flow through and drain the district facilitating extensive irrigation of lands in several parts of the district.

Contd....

The Krishna is one of the biggest rivers that drain almost whole of western Maharashtra. Rising at Mahabalashwar in Satara Dist. it enters the Kolhanur Boundary when it turns more to the east at Kanwad village and then southwest upto Nrisinhwadi. The River's Warna, Panchaganga, Dudhaganga and Wedganga merge into the Krishna before it leaves the District. The Krishna has gifted Kolhapur District with big alluvial plain of Shirol and Ichalkaranji. The length of this River in the District is about 65 KM.

The length of Warna River is about 130 KM. The warna falls into the Krishna near Kothali village of Shirol Tal. Before its merge with the Krishna, the Warna has formed a large valley in the District in which rice and Sugarcane are grown.

The Panchaganga river is formed by the confluence of five rivers viz. Kasari, Bhogawati, Brahma, Kumbhi and Tulshi, near Kolhapur Town. In the valley of those rivers Sugarcane is extensively grown by lift irrigation system. The Panchaganga falls into the Krishna and at Nrisinhwadi. The length of the river is about 136 KM.

The Dudhaganga and Wedganga rivers flow in the North-Eastern direction and drain the South western part of the district and form two important valleys. The Dudhaganga rises in the Nandana Ghat and passes south of Kagal to meet the Krishna. Its total length is about 65 KM.

The Hiranyakeshi river rises near Awardi and after a serpentine course in the district <sup>enters</sup> the Mysore state and finally falls into the Krishna. Its course in the district <sup>is</sup> about 80 KM. Sugarcane is grown on the banks of this river by lift irrigation.

Besides these six rivers, there is one more river namely, the Ghataprabha which flows in the district for a length of about only 16 KM. Its course is however, not of much importance from Agriculture or economy point of view, so far as Kolhapur district is concerned.

Contd....

### 1.7 SOIL

Soils in Kolhapur district are mainly derived from trap rock except in the heavy rainfall area, that is, in the western part of the District. In this part, which is hilly and is mostly occupied by - Sahyadree Ranges, the soils are derived from laterite rocks. From the agricultural point of view, the following groups can roughly be made.

(a) Laterite soils found in the western part of the district which is hilly and has heavy rainfall.

(b) Dark brown soils found in the transitional tract, The soil is of medium depth showing inherent fertile status of soils.

(c) Greyishblack soil found in the Eastern part of the district It varies in depth, from shallow to very deep in river valley.

(d) Alluvial soil found in the regions locally known as Male lands. This type of soil is found along the banks of different rivers.

(e) Light soil or "Warkas" as it is locally known <sup>is</sup> found along the slopes on the tops of the hill in the western zone.

### Mountains

Main part of the district is traversed by the Sahyadree in the West. The Sahyadree has thrown several spurs in the east of the district and in this range some points are as high as 900 meters above the mean sea level. The major portion of the district is 390 to 550 metres above the mean sea level. The average height is about 560 metres above the mean sea level.

### Minerals

Major portion of the district is covered with Deccan trap. In these tracts there are very large areas containing deposits of high grade bauxite in sufficient quantities. Bauxite forms the chief raw material in Aluminium industry. The mineral bauxite is known to occur at several places like Radhanagari, Gargoti, Waki, Dhanagarwadi, Rangewadi and Ulegiri. The quality of bauxite is fairly good and is suitable for producing aluminium,

Contd....

Recent survey undertaken by the Deptt. of Geology and Mining near Udegiri has proved the presence of about 5.9 million tone of good quality of bauxite are. The total reserve of bauxite in the District - including Amboli Ghat is estimated at 40 million tons. The analysis of bauxite reveals that it is perhaps the purestore in India. A scheme of establishing an Aluminium Plant near Radhanagari Hydro-Electric works and at Koyna Hydro Electric works was under consideration of the - Ministry of Industries Govt of India and the State Govt. A Joint Stock company in the Private sector has however obtained the rights of exploiting bauxite mines near Radhanagari area. The ore mined in the area would be transported to the plant to be established ~~the~~ near Belgaum of Mysore State. Power for this plant would be supplied by the Sharawati Hydro Electricity works.

Apart from Bauxite, Gypsum is found in very small quantity in Bhudargad Taluka of the District. Besides minearls of lesser economic importance like building stone(trap variety) are found in sufficient quantity all over the District.

#### CLIMATE AND TEMPERATURE -

1.8 The District can roughly be divided into two zones marked by broad climatic difference (a) western mountaneans treat caused by the Sahyadree with its spurs with small valleys running in between these spurs and (b) the main eastern plain with little broken range hills. The height above mean sea level in the western Region ranges from 564 mtrs. in the valleys to 914 meters on the crest of Sahyadree. The elevation in the eastern plains varies from 500 Mts. to 580 meters.

Like rest of the western Deccan, the climate of the District being under the influence of Sea breeze is ~~under~~ mild and temperate. The range of temperatures between the minimum and maximum is comparatively small. In the hilly west, with large forest areas and heavy rainfall, the weather is always humid during the rainy season and cool in Summer. The hill-~~traps~~ temper the hot winds prevalent in April, May and June and maintain a pleasant climate.

Contd..

The

The great heat during these months comes occasional heavy showers with easterly winds, thunder, lightening and hail. These occasional showers become more frequent and heavy as the South west monsoon draws near. On the whole the climate of Kolhapur district is pleasant and agreeable during the greater part of the year. The climatic year may be divided into three short seasons name (i) a moderately warm wet season from June to October (ii) Cool dry season from November to February and (iii) Hot dry season from March to June. The Table below gives the season wise average of ten years minimum and maximum temperature at Kolhapur as compared with the temperature recorded during the year 1964

Table No.2.

Seasonwise Temperature of Kolhapur District...

Season	Month	Mean Temperature in Centigrade (Average)	Mean Temperature in Centigrade during 1964
1. Warm Wet Season	June	30.6	22.1
	July	26.0	21.3
	August	26.1	20.8
	Sept.	30.7	20.0
	Oct.	-	-
2. Cool Dry Season	Nov.	30.4	17.6
	Dec.	30.5	15.4
	January	31.0	15.1
	February	33.3	15.9
3. Hot Dry Season	March	35.8	13.5
	April	37.4	21.5
	May	36.1	22.5

It may be seen from the above Table that the maximum temperature in the Summer Season seldom rises above 37.5° C. while the minimum temperature in the winter rarely falls below 15° C. The rainy season lasts from June to October and though the climate is wet during rains the temperature does not fall below 17° C and normally ranges between 19° C to 32° C due to which the climate is warm during these months. The winter season which starts from Nov. and ends in February is dry. January is the coldest month of the year with the mean minimum temperature varying between 14° C to 18° C. It sometimes fall as low as 10° C. The hot season starts in March and ends in June. Though the days from 10 A.M. to 5 P.M. during the summer season are hot, the nights are fairly cool. The nights are very rarely sultry except in the far eastern part of the District.

Contd....

April and May are the hottest months of the year. The mean maximum temperature during these months varies from 35° to 38° C. the mean maximum even rises as high as 41.5° C. in the month of May.

During 1964 the climate was fairly normal. Maximum temperature of 38.7° C was recorded in April while the minimum temperature, which was observed in Jan and Dec was 13.8.

Rainfall

Topographically the Poona-Bangalore Road which passes nearly north to south through the District 48 to 64 KM east of the Sahyadree crest, divides the district broadly speaking into two unequal parts, the western and the eastern. The Western part consists of Sahyadree range and a series of small valley and is rugged and cut up. It receives heavy rainfall and has cool moist climate. The eastern part is an open tract, known as Desh which becomes more flat and plain as it passes into the hot and dry region of the Central Deccan. The western part comprises Shahuwadi, Panhala, Bawada, Radhanagari, Bhudargad, Ajara and Shahuwadi Talukas while the remaining talukas viz. Karvir, Hatkanangle, Shirol, Kagal and Gadhinglaj <sup>form</sup> ~~form~~ the eastern part. These two main parts are further divided into smaller climatic regions according to the topographical differences affecting the rainfall. Since the north-easterly winds blow up from the coast upto the crest of the Sahyadree, the rainfall increases. As the comparatively empty clouds pass on from the crest of the Sahyadree towards the desh the rainfall steadily decrease.

The table below gives Taluka wise normal rainfall as compared to the actual rainfalls during the years 1963 and 1964.

Table No. 3 Talu'awise Rainfall.

Sr.No.	Taluka/Mahal	Normal Rain fall: in Millimeters	Actual Rainfall in Millimeters	
			1963	1964
1.	Shahuwadi	2070	1962	1878
2.	Panhala	1345	1698	1551
3.	Hatkanangle	640	711	928
4.	Shirol	595	476	554
5.	Karveer	1031	1288	1038.1
6.	Bawada	7036	6056	5434
7.	Radhanagari	3876	3222	3223
8.	Kagal	719	1019	724
9.	Bhudargad	1582	1249.5	1716
10.	Ajara	2033	1937	2168
11.	Gadhinglaj	980	1353	1128
12.	Chandgad	3337	3065	3160

Contd.....

It may be seen from the above Table that there is a great ~~new~~ <sup>variation</sup> in rainfall from tract to tract. At Bawada in the western part of the Dist. more than 7000 m.m. rainfall is recorded while at the extreme east in Shirol the rainfall is only 595 m.m. This may be due to the fact that the moisture laden clouds in easterwad journey strike the crest of Sahyadree and release much of rains there. The less saturated clouds in their eastward journey are not obstructed and therefore the amount of rainfall goes on decreasing from west to east. It is also seen that rainfall decrease from south to North. Ajara in the North gets 2032 m.m. while Kolhapur in the North gets only 1031m.m. of rain.

According to the rainfall the District can be divided into three tracts viz. (1) Heavy rainfall tract where the rainfall exceeds 2000 m.m. (2) tract having rainfall between 1200 to 2000 (3) tract having rainfall between 900 to 1200 (4) tract having low rainfall between 650 to 900 m.m. and (5) the tract having rather poor rainfall below 650. Accordingly the tracts in the district can be classified into these three tracts as under.

1. Heavy Rainfall Tract:- Ajara, Bawada, Chandgad, Radhanagari & Shahuwadi
2. Large Rainfall tract:- Bhudargad and Panhala
3. Sufficient rainfall tract :- Gadhinglaj and Karvir
4. Rather insufficient rainfall tract :- Kagal
5. Poor rainfall tract :- Hatkanangle and Shirol

In the western heavy rainfall tract and in the large and sufficient rainfall tracts, crops do not generally fail for want of rain. Only in certain <sup>pockets</sup> ~~however~~ the harvesting season is disturbed arising to late arrival of monsoons. The eastern part also has fairly assured rainfall. It is significant to note that no part of the district was affected by scarcity during the last 30 to 35 years. The Fact finding committee appointed by the Govt of Bombay in 1960 had reported that the district should be considered as a scarcity free area.

Like any other western district of the state Kolhapur district receives its rain, mainly between Mid-June to December the greater part of the fall being supplied by southwest monsoons which is received between mid-june to mid-October. From about mid-October the eastern and central parts of the district get rains of the north-eastern monsoon only very little rainfall is recorded in the western <sup>region</sup> ~~during~~ this season.

During the years 1963 and 1964 rainfall was fairly normal and no scarcity was declared in any part of the Talukas of the District.

CHAPTER - II  
THIRD FIVE YEAR PLAN

Review of progress of District level Schemes in Kolhapur District for the year 1964 - 1965.

----- X -----

The State's Third Five Year Plan was started in April 1961.

There were in all about 500 schemes in the Plan. These Schemes were classified into District, Divisional and State level schemes. The Schemes, the benefits of which could be singularly assigned to a particular District were classified as District level schemes while the scheme which benefitted more than one district of a Division were treated as Divisional level schemes.

2. In Kolhapur District there were 76 District level schemes with a total outlay of Rs. 570.93 lakhs. The provisions under the different heads of development and their percentages to the total Plan provision were as below :-

Table-1

Provisions for different heads of development and their percentages in the total plan outlay.....

(Rs. in lakhs)

Sr. No.	Head of Development	Provision for the Plan period	Percentage to the total plan outlay
1.	Agricultural Programmes	162.99	28.57
2.	Cooperation & Community Development	162.70	28.67
3.	Industries and Mining	7.38	1.27
4.	Transport & Communications	71.96	12.60
5.	Social Services	134.95	23.89
T o t a l :-		570.98	100.00

It will be seen from the above table that almost equal priority was given to the heads "Agricultural Programmes" "Cooperation and Community Development" and "Social Services" and nearly 29 percent of the total outlay was set apart for each of these heads. For "Transport and Communication" nearly 13 percent of the provision was allotted while only 1.27 percent was allotted to Industries and Mining.

Contd..

In May 1962 the Zilla Parishad and Panchayat Samities were started and according to the provisions of the Zilla Parishads and Panchayat Samitis Act-1961, several District level schemes were transferred to the Zilla Parishad for implementation. Most of the District level schemes were implemented by the departments of the State Govt., while some schemes were jointly implemented by the Zilla Parishad and the State Govt. Departments.

By the end of March 1965, four years of the Third Five Year Plan were completed and roughly about 80 per cent of the Plan outlay should have been utilised by then. The actual expenditure till March 1965 was Rs. 385.67<sup>lacs</sup>, that is only 67.54 per cent of the outlay was actually utilised as against expected average of 80 per cent. This shortfall might be attributed to the economy measures that were forced to be taken on account of the less caused by Panshet and Khadakwasla Dams bursts during the year 1961. The Progress of Plan was further affected by declaration of National Emergency in October 1962, when the Plan had to be reoriented and certain restrictions were put on constructional work etc.

The details of expenditure under each head of development during the first four years of the Plan are given in the table below:-

Table No. 2

Details of Expenditure on Dist. level schemes during the year 1961-62 to 1964-65 in Kolhapur District

Sr. No.	Head of Development	Expenditure incurred during the year					Total Expdt. from 1961-62 to 1964-65	Percentage of total plan outlay
		1961-62	1962-63	1963-64	1964-65	1961-62		
1.	Agril. Programmes	162.99	10.72	11.97	24.08	60.69	107.41	65.89
2.	Cooperation and Community Devp.	163.70	23.13	30.62	22.58	52.86	129.19	78.91
3.	Industries and Mining	7.38	0.81	0.90	1.39	2.12	5.22	70.73
4.	Transport and Communications	71.96	15.30	3.07	7.46	9.72	35.55	49.40
5.	Social Services	164.95	26.54	20.35	24.27	37.14	108.30	65.66
T o t a l :-		570.98	76.50	66.91	79.73	162.53	385.67	67.54

Contd.,

It may be seen from the above table that the progress of expenditure under the head "Cooperation and Community Development" was almost upto the mark while in the case of "Industries & Mining" the expenditure was about 10 percent less than the expected norm of 80 per cent. Similarly the percentage of expenditure was less by nearly 15% than the expected norm of 80 percent under the Heads Agricultural Programme and Social Services. The progress of expenditure under "Transport and Communications" was slow and only 50 percent of the total Plan provision was actually utilised during the four years of the Plan.

By the end of March 1965, an amount of Rs.385.67 was utilised out of the total Plan provision of Rs.570.98 lakhs leaving a balance of Rs.185.21 to be spent during the last year of the Plan. The amount of Savings under different heads of development and its percentage to the Plan outlay was as below :-

Table No.3

Amount of Savings under the different Heads of the Third Five Year Plan.

Name of the Head	: Savings(Rs. in- : lakhs	:Percentage of savings :and total Plan provi- : sion
1. Agricultural Programme	55.58	34.11
2. Coop. and Community Development	34.51	21.09
3. Industries and Mining	2.16	29.27
4. Transport and Communication	36.41	51.60
5. Social Services	56.65	34.35
Total :-	185.31	32.46

The Progress of schemes under the different sub-heads of developments was as below :-

1. Agricultural Production :- There were 13 schemes under this sub-head with an allotment of Rs.15-60<sup>laks.</sup> Out of this, only about 38 percent was utilised by the end of March 1965. A sufficient progress was made under the three schemes viz. 1) General Horticultural Development in Maharashtra State " 2) Development of Manurial Resources(Common) and 3) Intensive cultivation of crops in selected areas and the actual expenditure under these schemes has exceeded the Plan outlay. But in the remaining schemes the rate of expenditure was below expectation.

Contd..

ii) Land Development:- Expenditure under this subhead was treated as Non-Plan expenditure upto March 1965.

iii) Soil Conservation:- Total expenditure under this subhead has exceeded the Plan outlay although the two schemes under this schemes were taken up for execution during the year 1963-64.

iv) Minor Irrigation :- Nearly 65 percent of the total provision of Rs.82.93 lakhs was spent by March 65. Good progress was made in the scheme of pumping sets installations. The expenditure under this scheme was more than double the plan provision.

v) Animal Husbandry:- Out of the 4 schemes under this sub-heads only three schemes were actually implemented and 70 percent of the total Plan outlay was utilised by March 1965.

vi) Dairy Development :- The programme of dairy development aims at supply of good quality of milk to Kolhapur town and organization of rural milk producers into cooperative Societies which would supply milk to Government in the different milk collection centres. Good progress was shown in two of the three schemes. The expenditure under the scheme of town milk supply had exceeded the Plan outlay and nearly 2000 litres of milk was being distributed in Kolhapur Town by March 1965.

The progress made under the scheme of organization of milk producers societies and Federat'on was slow.

vii) Forests :- The total provision under this head was Rs.6.02 lakhs out of which Rs.3.35 lakhs that is slightly more than 50 percent was utilised by the end of March 1965.

Good progress was made under the scheme Assistance for purchase of fisheries requisites and the scheme of "Stocking of Tanks with carp fry

ix) Warehousing and Marketing :- There were two schemes under this sub-head with a total provision of Rs.1.09 lakhs out of which Rs.86000 was spent by March 1965.

## (2). Cooperation and Community Development :-

Kolhapur district is one of the foremost districts so far as cooperative movement is concerned. In this District there were 5 levax dist. level schemes for development of cooperation. The total provision was Rs.44.21 lakhs. Nearly 33.4 percent of this Plan allocation for cooperation was utilised by March 1965.

Although good progress was recorded in three of the five schemes the scheme of organisation of coop. societies of persons dependent on transport services, was not implemented.

Contd..

Community Development :- The Community Development Programme was started in 1952 in the District with the object of bringing about extensive Social and Economic development of the rural population. The entire district was covered by the Programme prior to the commencement of the Third Plan. But by the end of the Second Plan four Block comprising 6 Community Project Administration pattern blocks were in Pre-Extension stage. By March 1965 all these 4 block had been converted into stage-I Blocks. During the same period two stage-II Blocks entered into stage-III. Out of the total Plan outlay of Rs.163.70 lakhs an amount of Rs.129.19 was utilised by the end of March 1965.

III. Industries and Mining (i) Despite the extension of modern industry in the urban part of the state, certain traditional industries giving employment and livelihood to thousands of persons, are still predominant in the rural and semi-urban parts of the state. In Kolhapur District two schemes for development of small scale industries were implemented. Under these schemes provisions of loan facilities and subsidy to the Handicrafts and Handloom societies had been made. By the end of March 1965 nearly 70 percent of the total provision of Rs.7.38 lakhs was utilised. Three sale depots of handicrafts were opened and about 170 societies were assisted with loan and subsidy under these schemes.

#### IV. Transport and Communication

The Programme of road development in the district includes constructions/ new roads, improvements to existing roads and provision of cross drainages. There was an outlay of Rs.71.96 lakhs under this programme out of which nearly 50 percent was spent by the end of March 1965.

#### V. Social Services

1) General Education :- A provision of Rs.61.20 lakhs was made for the 6 schemes included under General Education, out of these two schemes were not all implemented by March'65. Fairly good progress was made under the scheme "Normal expansion of primary education" "Basic training for primary teachers" and Constructions of Buildings for primary schools."

Contd.

(ii) Technical Education :- There were two schemes under this sub-head but only one was implemented. An amount of Rs.18.15 lakhs was spent as against the total provision of Rs.27.64 lakhs. Under the scheme one Polytechnic institution with an intake capacity of 120 students has been established.

(iii) Public Health :- There were five schemes under this sub-head but only 4 were implemented. Nearly 63 percent of the Plan allotment of Rs.30.67 lakhs was utilised by March'65.

Good progress was made in the scheme of National Malaria Eradication programme and the "B.C.G. Vaccination".

(iv) Water supply and Drainage :-

The expenditure on the scheme of village well water supply had exceeded the Plan outlay and 48 drinking water wells have been constructed.

(v) Housing :- Schemes of construction of housing colonies in urban areas and houses in villages were included in the Plan. 150 tenements in Kolhapur and Ichalkaranji towns have been constructed under the schemes of subsidised industrial housing scheme. Expenditure on the scheme has exceeded the Plan provision. Similarly fairly good progress was reported under the scheme of "village housing project".

(vi) Social Welfare :-

Under the scheme of "Welfare Extension Project" 6 maternity centres and 19 Balawadis were being run. Besides 9 literary classes and 15 <sup>Arts</sup> ~~arts~~ and crafts classes were also conducted during the year 1964-65 by the end of which nearly 65 percent of the Plan provision was utilised.

Contd..

vii) Labour and Labour welfare :-

There were three schemes under this sub-head but only two were implemented. Under the scheme of Technical and Vocational training the intake capacity of the Training institution was increased by 268 trainees ~~trainees~~. Under the scheme of evening classes for industrial workers 100 ~~admissions~~ ~~admissions~~ were provided. By the end of March 65 nearly 70 percent of the Plan allocation was spent.

New Scheme

A new scheme for providing employment to the unemployed and underemployed in rural areas and utilising their services for development of Agriculture and communication system in the rural areas was started in 1963-64. The Scheme was being implemented through the Zilla Parishad and by the end of March 1965 it was being executed in 5 Blocks in Kolhapur District.

EXPLANATORY - NOTE

The District Statistical Abstract for the year 1964-65 consists of three parts.

2. Part I of the Abstract gives the basic Statistics of various Socio-economic conditions in the District.

3. Part-II of the Abstract consists of Statistical Tables giving - statistics of various subjects viz. Agriculture, Cooperation, Industry, Transport, Communication, Education and other matters. This part - comprises 13 sections. In most of the Tables statistical information for the financial year 1964-65 is given while in certain cases information for the calendar year 1965 is given. Comparative statistics of the previous year are also given wherever possible. The salient features of the different tables are described below .

i) Section-1.

In this section there are two tables, one on Rainfall data and the other on Temperature for the calendar year 1963 and 1964. The rainfall was recorded in the different rain gauge stations in the District while temperature readings were taken from Kolhapur observatory.

ii) Area & Population.

All the figures quoted in the tables of this section are based on the 1961 Census. The table 2.1 of this section gives the Talu'awise rural and urban population according to the 1961 Census. Classification of villages and towns according to different ranges of population is given in Table 2.2 and 2.3 respectively. Talu'awise figures of - Workers and Non-workers (Rural & Urban) have been shown in Tables 2.4 & 2.5. Statistics pertaining to Scheduled Casts and Scheduled Tribes population in the District have been shown in Table 2.6. The list of

Scheduled Castes & Scheduled Tribes is incorporated in list No.13. The population of the Urban areas has been separately shown in - Table 2.7.

iii) Agriculture.

Data on Agriculture shown in Tables 3.1 to 3.5 were collected mostly from the Department of Agriculture and pertain to the year 1962-63 and 1963-64. The table 3.1 shows Talu'awise land utilisation statistics, whereas areas under different crops (also Talu'awise) have been reported in Table 3.2. Yield rates (per hector) of principal crops with total out-turn have been shown in Table No.3.3. Information regarding Talu'awise irrigation sources and areas irrigated under - different crops have been given in Tables 3.4 and 3.5.

Table 3.6'A' shows the number of irrigation wells in each Talu'a of the District, while in Table 3.6'B' data regarding minor irrigation works is given. Names of major & medium irrigation projects undertaken in the District have been given in table No. 3.6'C'.

Data showing distribution of cultivating households according to interest in land and size of land cultivated has been shown in Table 3.7. The data which was taken from the Census Hand-Book was based on the 20% sample.

Information regarding different items of agricultural implements based on the 1961 Live Stock Census is tabulated in Table No.3.9.

Information on Soil Conservation and land reclamation activities has been reported in Table 3.11.

iv) Animal Husbandry, Forests & Fisheries.

The Tables 4.1 & 4.2 give a summary of the Live Stock Census which

was conducted in 1961.

Veterinary Statistics of the District have been given in Table 4.3 & 4.4. The table 4.3 shows the particulars such as veterinary hospitals, dispensaries etc; while in Table 4.4 diseasewise livestock mortality in the District is given.

Number of recognised slaughter houses and the No. of Animals slaughtered therein have been shown in Table 4.5.

Statistics pertaining to Forests in the District such as forest area, forest produce and value thereof have been tabulated in Tables 4.6 & 4.7.

Statistics relating to Fisheries have been shown in Table 4.8.

v) Employment, Industry, Mining & Electricity.

The Table 5.1 relates to employment in factories, while distribution of working factories according to products and their working strength and also according to number of days worked have been given in 5.2 & 5.3. Employment statistics have been reported in Tables 5.6, 5.7 & 5.8.

Statistics on important industrial productions and Hand & Power-looms in the district have been shown in Tables 5.4 & 5.5.

Information regarding installed capacity of electricity generation according to different types of generation has been shown in Table 5.12. Actual consumption of electricity during the year 1964 & 1965 has been reported in Table No.5.10. The Table 5.11 gives the talukwise list of villages and towns electrified with their dates of electrification.

vi) Co-operation.

The Table No.6.1 under this section shows statistics relating to

The Central Co-operative Bank of the District. Information of Co-operative societies according to type with their membership, share particulars thereof and other details such as loans advanced, recovered etc. have been shown in 6.2. Similar details in respect of Agricultural Co-operative Societies and Agricultural Co-operatives have been tabulated in Table No. 6.3 and 6.4 respectively.

Particulars of licensed money lending transactions have been given in Table No. 6.5.

The information for the above Tables was obtained from the Department of Co-operation.

vii) Medical & Public Health.

In this section Statistics of persons engaged in medical profession and medical facilities available at different places of the District are given in Table 7.1 & 7.2. In 7.3, No. of indoor and Out-door patients treated (disease wise) in dispensaries and hospitals run by Government and Local Bodies are given. Vital Statistics of the district have been given in the tables 7.4 & 7.5. Figures for these tables were obtained from the Assistant Director of Public Health Poona. Information regarding vaccination & Cholera innoculation carried out by the Municipal and Zilla Parishad authorities is shown in Table 7.8.

viii) Education.

Figures of literacy in rural and urban areas of the District according to 1961 Census are given in Tables 3.1, 3.2 and 3.3 of this Section. Talukwise information regarding the educational institutions and number of teachers and pupils therein has been shown in Table 3.4. Information regarding No. of backward class students assisted during the year 1964-65, is given in Table 3.5, while the No. of students -

assisted during the year under the scheme of economically backward concessions has been reported in Table 3.6.

Expenditure on Primary Education by way of grants -in-aid to Local Bodies has been shown in Table No. 3.7.

The Table 3.8 shows the No. of villages and towns with and without Primary Schools classified according to population ranges.

ix) Transport & Communications.

Kilometrage of Railways in the district has been given in Table 9.1.

Similarly length of roads under different agencies has been shown in Table Nos. 9.3 A & B.

Table 9.3 gives the total No. of motor vehicles in operation in Poona Region.

Detailed information regarding the operation of nationalised road transport is shown in Table 9.4. The information pertains to the State Transport Division, Kolhapur, the jurisdictions of which is not co-terminus with the limits of the District. Results of the Traffic - Census Survey in non-urban roads conducted by the B & C Department has been given in Table 3.5.

Statistics of Postal & Telegraphic facilities are given in Table 9.6 and 9.7. However the figures reported in these tables pertain to Kolhapur postal circle, the boundaries of which are not concurrent with the district boundaries.

Table 9.8 depicts the progress made by the Rural Broad casting programme.

x) Local Bodies.

Figures of income & expenditure of different local bodies -

including the Milla Parishad are reported in Tables Nos. from 10.1 to 10.5.

xi) Plan & Community Development Programme.

Expenditure on the different district level plan schemes implemented during the Third Five Year Plan and Physical achievements under each district level schemes are tabulated in tables 11.1 & 11.2.

In these tables yearwise expenditure & physical achievement under each scheme for the four years 1961-62 to 1964-65 are also reported.

Figures of expenditure and physical achievements under the Community Development Programme are given in Tables from 11.3 to 11.6.

xii) Prices.

Average prices of essential commodities collected in the District Head quarters for the calendar years 1964 and 1965 have been given in Table 12.1. However, the prices may not be treated as fully representative as they were collected for one shop in the District Head quarters. The prices quoted in the Table may be treated as broad indicator of the trend of changes in retail prices for the period.

The volume and value of trade handled by the four regulated markets in the District have been reported in the Table 12.2. The information pertains to the years that is 1963-64 and 1964-65.

Average consumers price Index numbers of working class for the Sholanur Centre for the years 1949 to 1964 and Monthwise index numbers from January 1964 to March 1965 are given. Group of items considered for the calculation of price index were Food, fuel and lighting, Clothing, House rent and Miscellaneous.

xiii) Miscellaneous.

This section covers statistics of various miscellaneous subjects like Police-force & Crime, Cinema Statistics, Census of Government employees etc.

4. Part - III.

The Part III of the Abstract contains lists giving information regarding important aspects of social & economic conditions of the District. Lists showing medical facilities, educational institutions etc. are also included in this part. The information for these lists was obtained from the District Census Hand-Book and from the various departments of the State Government and the Zilla Parishad.

....

TABLE NO. 3.6

Major and Medium Projects in Kolhapur District.

Sr. No.:	Item	Medium Project
1.	2.	3.
1.	Name of the project	Radhanagari Hydro Electric Scheme
2.	Location of the project	Main Dam is constructed across Bhogavati River near village Phejiwade Tal.- Radhanagari.
3.	a) Year of completion b) If incomplete, probable date of completion.	Main Dam completed in the year 1954 Some minor items under lift irrigation and permanent buildings etc. expected to be completed by March 1966.
	c) Estimated cost of project (Rs. in lakh)	Rs. 261 lakhs (Revised)
4.	Dam	
	a) Height Sanctioned (in meters)	42.672 Meters (140 feet)
	b) Height completed (in meters)	-do-
5.	Canal	
	a) Length sanctioned (in Kms)	No canals hence question does not arise
	b) Length completed (in Kms)	-do-
6.	Max. Storage capacity (in Mft)	3450 M. ft.
7.	Storage capacity as on 31-3-1965	3393.13 Mft.
8.	Gross area commanded (in Hect)	As lift irrigation is practised, exact figure can not be given. Lift irrigation is practised on both banks of Bhogavati and Panchaganga River.
9.	Culturable area commanded (in Hect)	-do-
10.	Irrigable area by complete Project (in Hect)	8310 Hect (22000 Acres cane)
11.	Area irrigated at present (in Hect)	
	a) Permanent	8910 Hect (22000 Acres cane)
	b) Seasonal
