PREFACE

The season and crop report of 1998-99 contains various statistical information in respect of rainfall, land utilization statistics, irrigation, area, productivity and production of various crops, farm harvest prices, agricultural wages and agricultural stock in Maharashtra State.

The main source of the information collected is revenue record maintained at village level where talathi is the basic worker of the Revenue Department.

The main highlight of the report may be summarised as that the gross cropped area during the year 1998-99 was 215.89 lakh hectares which is more by 1.0% than the previous year i.e. 1997-98. The net cropped area during the year was 178.41 lakh hectares. The area under fruit crops increased by 2 % where as vegetable area increased by 5 % as compared to previous year.

The gross irrigated area was 38.58 lakh hectares and the net irrigated area was 34.70 lakh hectares.

The total food grain production during the year 1998-99 was 129.03 lakh tonnes. It shows 30 % increase over the previous year.

The production of sugarcane is increased by 40 % than 1997-98. The cotton production during the year was 26.3 lakh bales which recorded an increase of 55% over last year is production of 16.95 lakh bales.

The oilseed production increased by 60 % in the year 1998-99 compared to the previous year.

I hope that the report would be useful for various government officials, research workers and all the other concerned.

(Dr. Sudhirkumar Goel)
Commissioner (Agriculture)
Maharashtra State,
Pune - 411 001

PUNE- 411 001
Date- 01/03/2004

ACKNOWLEDGEMENT

The Season and Crop Report is an important report published by the Department of Agriculture of Maharashtra State. The present report pertains to the year 1998-99.

The rainfall data is based on daily rainfall figures received from Revenue Department and Indian Meteorological Dept. for selected centers. The data on land utilization, source of irrigation, area irrigated as well as total area under different crops and agricultural wages are collected from District Superintendent of Land Records. Where as the production estimates are worked out on the basis of Crop Estimation Surveys (CES) conducted on principal food and nonfood crops by the officers and Field staff of Argil. Department, Revenue Department and Zillha Parishad. The data on farm harvest prices are collected from Agriculture Development Officers. The livestock data is collected from Livestock Census conducted by Commissionerate of Animal Husbandry. I would like to express my thanks to all these officers and their staff.

I must express my gratitude to the Commissioner of Agriculture, Dr.Sudhir Kumar Goel for his regular encouragement and strong motivation to carry forward this publication.

I am grateful to Director of Agriculture (Extension and Training) Shri U.D. Thakare for his all time inspiration and valuable guidance in preparation of season and crop report.

The work of compilation and computerization was done under the able supervision of Mr. M. R. Mane (Statistician) and Shri. H. R. Mhaske (Asst. Statistician). The statistical data processing and compilation is done by Agriculture Officer Mr. H. B. Choudhari, with the assistance of Agriculture Supervisor Shri. V. R. Korhale. Computerisation and data entry work is done by Shri. P.R. Kharat (Verifire Operator) and Smt. S.K. Naik (Punch Operator) Shri.B. B. Pawar & Shri. R.B.Chavan, Agriculture Supervisor.have rendered their help forpreparation of graphical presentations.

I am also grateful to the officers of various departments who have directly or indirectly helped for preparation of season and crop report 1998-99.

M. S. Gholap

Chief statistician

Commissionerate of Agriculture
Maharashtra State, Pune – 411 001.

SEASON AND CROP REPORT 1998-99

CHAPTER -I

Effect of Rainfall on Sowing and Crop Growth.

In many parts of Nasik, Pune, Kolhapur & Maharashtra region light to medium Pre- monsoon rains were received in the first week of June.

Monsoon arrived in konkon region on 12th June and reached in Madhya Maharashtra, Marathawada and Vidarbha region till 16th June satisfactory rains were received in Kokan, Nasik and Pune division on 16th and 17th June and in the forth week of June. Good rains were also received in Kolhapur division. Normal rains were received in Aurangabad division till end of June. Intensity of rains was low in same parts of Amravati division. Rainfall was below normal in all the five district of Nagpur division in the month of June.

Due to satisfactory rains in the month of June sowing of paddy and Ragi in nursery was initiated in kokan division sowing of Jower, Bajri, Mung, Udid, Gr,Nut, Seasomum. Sunflower, Soybeen & Cotton was started in different parts of the state. Sowing of Kharif crops was completed to the extent of 44% in the state till end of June.

Satisfactory rains were received in many parts of the state in the first week of July. Intensity of rainfall was low in same parts of A'Nagar, Pune, Solapur, Satara, Sangli, Jalna, Beed, Osmanbad and Parbhani district. But satisfactory rains received in Vidarbha regin. Sowing of Kharif crops was in progress in all parts of the state. Germination & growth of sown Kharif crops was reported to be satisfactory.

There was inadegate rainfall in

different parts of the state in second week of July. Consequently the transplanting of paddy and Ragi was held-up and progress of sowing was retarded. Rains were needed in many parts of the state for eompletion of sowing and also for the proper growth of sown crops. Intencity of rainfall was low in Wardha and Nagpur districts as well as in other parts of state during the third week of July. Trans planting of paddy was heldup due to insufficient rains in some parte of konkan region and in Nagpur division progress of trans planting of paddy was slow in western parts of pune district. Kharif crops on light soils were withering in Amravati division. Rains were needed in all parts of the state for ever rains were received from 25th, 26th July in all parts of the state till end of July. These rains were beneficial for the survival of kharif crops on light and medium soils. However rains received in Nagpur division till the end of July was inadeguate for the growth of kharif crops. Growth of Cotton and Soyabean crops was stunted, Paddy seedling were drying. Rains were also needed in some parts of Thane and Nasik division also.

During the first fortnight of August heavy to very heavy rains were received in Konkan region light very heavy rains in Madhya Maharashtra and medium to very heavy rains were received in Marathawada & Vidarbha region. Rains were not received in few tahsil of Pune division rains received during the first two weeks of Augest was vide spread and beneficial for the proper growth of sown kharif crops and for the

completion of remaining sowing. However due to continuous rains growth of Kharif crops was stunted in Marathawada region. Kharif crops were damaged to some extent in same part of Latur and Parbhani districts. Interculture operations in Kharif crops were held up. Break in rains was essential in parts of Marathawada region. In general condition of sown kharif crops was satisfactory, more rains were needed for the completion of paddy transplanting in paddy growing district of Nagpur division. Sowing of kharif crops was completed to the extent of 98 % in the state till 15th August.

Light to very heavy rains were received in Konkan & Madhya Maharashtra while light to heavy rains were received in Marathawada & Vidarbha region in second fortnight to August. Due to satisfactory rains transplanting Paddy & Ragi was completed in Konkan division Nasik district and in Pune & Ahmednagar, Satara, Kolhapur districts. However transplanting of paddy was held up due to inadequate rains in some parts of Bhandara, Chandrapur & Gadchiroli districts. More rains were required in these districts for the paddy transplanting.

Sowing of remaining Kharif crops was nearly completed to the extent of 100% in all parts of the state till the end of August. Condition of Kharif crops was reported to be satisfactory. However Bajra crops were lodged in some parts of Ahmednagar & Pune districts due to heavy rains from 21st to 26th August. Production of Bajra crops may be decreased to some extent. Similarly production of many crops was also affected to some extent due to heavy rains. The colour & quality of kharif crops was affected

due to heavy rains in kharif crops was affected due to heavy rains in some parts of Solapur district. Break in rains was essential.

Interculture operation of kharif crops was held-up due to continuous rains in Marathawada. Growth of kharif crops was affected to some extent kharif crops were stunted and turn yellowish on light soil and in lowlying areas. Mung, Udid, Kh.Jowar & Cotton crops were damaged to some extent due to very heavy rains in Marathawada region. Late sowing of remaining Kharif crops and harvesting Mung crops was held up due to continuous rains, Break in rains and bright sun shine was required in those areas for the healthy growth of Kharif crops.

Heavy to very heavy rains were received in Konkan while light to very heavy rains were received in rest part of the state in the month of September rains received were above normal in all districts of the state except Sangli & Gadchiroli district very heavy rainfall was received specially in Thane, Dhule and Solapur districts paddy crops were damaged to some extent in some part of Thane and Raigad districts of Konkan region matured Bajra crop was lodged due to continuous rains in some parts of Madhya Maharashtra and Marathawada region grains of Bajra crop become blackish and production may be decrease to some extent. Growth of standing kharif crops was affected to some extent. Harvesting of Bajra, Mung & Udid crops was held up due to continuous rains Bajra, Groundnut, Tur & Cotton crops in lowlying areas turn yellowish due to continuous rains and cloudy weather. Growth of these crops was stunted. Decaying of groundnut pods was occurred & quality of grains of Kharif Jowar was

affected. Sowing of Rabi-Jowar & Safflower not yet started. Break in rains was urgently needed medium to very heavy rains in Marathwada & Madhya Maharashtra & light to medium rains in some parts of Vidarbha region during the first fortnight of October rains received in all district except Vidarbha region was above normal. Paddy crop was lodged due to continuous rains in some parts of Konkan, Kolhapur, Aurangabad & Latur division, Jowar, Bajri & Other Kharif crops were damaged to some extent.

Medium to heavy rains were received in some part of Konkan region during the 3rd week of October rains received were harmful for early and mid-late varieties of paddy crop. Intensity of rainfall was reduced in all parts of the state during the last week of October. Harvesting of Kh.crops was in progress in different parts of the state sowing of rabi crops in Rabi Jowar & Safflower was started in the state & it was completed to the extent of 21 % till the end of October.

Light to medium rains were received in some parts of the state during the first fortnight of November Heavy rainfall was also received in one or two places of Konkan, Kolhapur & Amravati division while there was break in rains from second fortnight of November. Harvesting of kharif crops was completed, picking of Cotton was in progress. Tur crop was started in some parts of the state.

Weather was dry in the month of December & January. Tur crop was in maturity stage & its harvesting was in progress, picking of Cotton was nearly completed sowing of irrigated Wheat, Gram Sunflower was in progress sowing of summer

crops i.e. Summer Gr.nut, Sunflower Vaishakhi Mung was started in some part of the state sowing of sum Paddy in nursery was started in parts of the Konkan region. Transeplanting of summ. Paddy crop was started in parts of Kolhapur district & Nagpur Division. Condition of Rabi- Crops was reported to be satisfactory. Sowing of Rabi crops was completed 93 % till the end of January 1999.

In the month of February the weather was cloudy in 2nd & 3rd week in 1st & 4th it was dry. In second week of February rains with hailstorm were received in some part of Pune, Aurangabad & Amravati division which affected standing rabi-crops. Harvesting of Rabi-Jowar & Gram was started. Condition of Rabi crops was satisfactory sowing of summer crop was in progress. Germination & growth of summer crops was reported to be satisfactory.

Weather was dry in the month of March, Harvesting of Tur & picking of Cotton was completed. Harvesting of Rabi-Crops was in progress, sowing of summer crops was in progress. Transplanting of Summer Paddy was nearly completed Summer Groundnut crops was in flowering stage. Germination & growth of summer crops was satisfactory.

Weather was dry in the month of April & intermittently cloudy weather was occur in may 1999. Light medium rains were received in same part of the state rains received was beneficial for the preparatory tillage operation of kharif season.

Sowing of summer crops completed in the state. Condition of sown summer crops was reported to be satisfactory.

CHAPTER II

LAND UTILISATION

(Table - II)

The number of villages in the state was 44430.

Geographical area.

Geographical area in the state is 307.58 lakh ha. It can be seen from Summary Tables "A" that out of the total Geographical area, 178.41 lakh ha. was net cropped area which showed an increase of 0.7 % as compared to the preceding year. The total cropped area during the year under report was 215.89 lakh ha. showing an increase of 1.0%. The area sown more than once, increased by 2.3 % i.e. from 36.62 lakh ha. to 37.48 lakh ha. during the year 1998-99.

The area under current fallow shows an increase of 4.7 % where as the area under other fallow shows a decrease of 10.7 % i.e.

- from 14.41 lakh ha. to 12.88 lakh ha. during the year 1998-99. The area under miscellaneous trees and grooves shows an increase of 0.9 % over the preceding year. The area under non agricultural use shows a slight increase of 116 hectares as against the preceding year, where as the area under culturable waste land shows a decrease of 0.5 % . The area under forest and barren land however compared to the last year. i.e. 51.50 lakh ha. and 15.44 lakh ha. respectively

The summary table "A -I" gives the districtwise details of percentage area under each of the category in nine fold classification in each district of Maharashtra state.

Season and Crop Report 1998-99

CHAPTER III

IRRIGATED AREA

(Table - III)

Irrigated area and source of water supply is mentioned in summary Table 'B'

Sources of irrigation:

During the year under report, the number of wells used for irrigation purpose (other than tube wells) increased by 1.10 % having gone up from 1276813 to 1290788 in 1998-99. The number of wells used for domestic purpose showed a decrease of -3.41 % as compared to 1997-98.

The number of electric pumps showed an increase of 2.74 % having gone up from 1080954 to 1110561 during the year under

report.

Source wise Net and Gross Irrigated Area:

During the year under report the percentage of net irrigated area to net area sown was 17.7 % which was 18.8 % during the last year. While that of gross irrigated area to gross area sown was 17.9 % which was 17.9 % during 1997-98 remain same.

The net irrigated area by surface irrigation increased by 1.3% as compared to last year. Where as the net area irrigated by wells increased by 5.7%.

The gross irrigated area by surface irrigation nowever increased by 3.1% where as gross irrigated area by wells increased 5.1%

The area irrigated by surface irrigation constituted 31% of the total irrigated area where as area irrigated by well comprises of 69%.

The crop wise irrigated area during 1998-99 is presented in Summary Table-'C' along with the corresponding area in 1997-98 .It can be seen that out of total irrigated area

of 38.58 lakh ha. in the state, the irrigated area under food crops occupied a large share of 33.51 lakh ha. i.e. 86.87% while remaining 5.07 lakh ha. compuses of 13.13% under non food crops.

The Table III-A gives district wise information responding number of wells, oil engines, electric pump sets, and percentage of net irrigated area to net area sown and gross irrigated area to gross area sown, while Table III-B gives crop wise irrigated area and percentage to area irrigated by surface irrigation and well irrigation in each district of the state.

---0---0---0---0---

CHAPTER – IV CROPPED AREA

(Table IV -A, IV-B, & IV-C)

Gross cropped area, area cropped more than ones and area under various food and non food crops are shown in summary table ' D ' . it can be seen From this table that the gross cropped area increased by 0.9 % during the year under report as compared to the previous year i.e. 1997-98 having gone up from 213.39 lakh ha. to 215.89 lakh hectares. The net cropped area increased from 177.22 lakh hectares to 178.41 lakh.

The decrease in area of food crops was seen in cereals showing decrease of 2.3 %, having gone down from.99.81 lakh hectares to 97.48 lakh hectares. This decrease was seen

in Jowar(Total) 10.8% and Ragi 0.5% respectively. While increase in Wheat by 31.6% & Maize 32.0%.

In case of pulses the area increased slightly by 4.4 % over the preceding year. The area under condiments and spices showed decrease of 13.6 % during the year under the report.

In case of non food crops, the slight increase in area is observd. The area under edible oil seed increased by 2.5 %. Whereas area under coconut decreased by 4.3 % and Soyabean increase by 20.6 % respectively as compared to last year.

Out of the total cropped area , in the state, the percentage covered by certain categories of crops is indicated below.

Crop	Area ('00'ha.)	Percentage area to total cropped area.
Rice	15088	7.0
Kharif Jowar	19996	9.3
Rabbi Jowar	28165	13.1
Bajari	17691	8.2
Wheat	10201	4.7
Total cereals	97480	45.2
Gram	9049	4.2
Tur	10379	4.8
Total pulses	36067	16.7
Total Foodgrains	133547	61.9
Groundnut	4091	1.9
Total oil seeds	27161	12.6
Cotton	32245	14.9
Sugarcane	6112	2.8

The area cropped more than ones however decreased by 2.3% having gone up from 36.62 lakh ha. to 37.46 lakh ha. during the year under report.

During the year under report, The area under food crops increased by 0.2 % . So also the area under non- food crops increased by 2.5 % as compared to the previous year.

Thus it can be seen that, out of the total cropped area in the state 61.9 % area was covered under foodgrain crops. Rabi jowar and cotton covered comparatively larger area of 13.1 % and 15.0 % respectively to the total cropped area. The above categories put together covered about 90 % area to the total cropped area. While rest of the crops i.e. condiments and spices, fruits, vegetables, drugs & narcotics and fodder crops etc. covered remaining 10 % area.

Table 'D-I' gives district wise percentage of area under principal food grain crops to total area under food grain crops in each district of Maharashtra state.

Table 'D-II' shows crop wise percentage of area to total cropped area in each district of the state.

Districtwise percentage of area under principal crops to state level area under corresponding crops is shown in table 'D-III'.

The district wise area under food & Non food crops is presented in table 'IV -A' & 'IV-B' respectively. While table 'IV-C' gives season wise classification of area in each district of Maharashtra state.

---0---0---0---0---

CHAPTER - V

AVERAGE YIELD AND OUT TURN OF CROPS

(Table V-A & V-B)

For most of the crops during the year 1998-99 the season was favorable as compared to last year. As a result the production of food grains showed an increase

of 43.09% having gone up from 90.36 lakh tones to 129.30 lakh tones during the year under report. This increase was seen in almost all food grain crops.

Season and Crop Report 1998-99

The table below gives the contribution of various crops in the production of food grains during the year 1998-99.

Crop	Out turn	Percentage out turn to total out turn of food grain crops.
Rice(Total)	25112	19.46
Bajari	15008	11.63
Ragi	1614	1.25
Kharif jowar	28697	22.24
Rabi Jowar	16985	13.16
Wheat	12929	10.02
Other cereals	5670	4.39
Gram	5634	4.37
Tur	8388	6.50
Other pulses	8993	6.97
Total	129030	100.00

From the table, it can be seen that the major contribution to food grain crops comes

from Kharif and Rabi jowar which accounts to 35.40% being the most important crop of the state ,followed by rice 19.46 percent.

In case of sugarcane, the production in terms of cane showed increased of 33.67% having gone up from 408.31 lakh tones to 545.82 lakh tones during the year under report.

However in case of cotton the production increased by 54.99 % as compared to the last year that is from 16.95 lakh bales to 26.27 lakh bales.

The total oil seed production increased from 15.5 lakh tones to 24.6 lakh tones ,showing increase of 58.71% as compared to the previous year. This increase production was mainly due to increase in productivity of soybean, sesamum, safflower and mostly groundnut.

---0---0---0---0---

CHAPTER - VI

PRICES

(Table - VI)

The state level average farm harvest prices of most commodities during the year 1998-99 was nearly same as that of preceding year i.e. 1997-98.

The scheme for monopoly purchase of cotton was continued in the state during the year 1997-98 and average monopoly purchase price of cotton during the year was Rs. 1511.00 per

quintal as against the preceding years price of Rs. 1463..00.

The price of tobacco was reported only from Kolhapur district and was slightly lower than that of the last year.

The state level farm harvest prices are given in summary table 'G' and district wise prices are given in table 'VI' for the year 1997-98 and 1998-99.

---0---0---0---0---

CHAPTER - VII
AGRICULTURAL WAGES

(Table - VII)

According to the Revenue Accounts Manual agricultural labor is classified under three categories viz. Skilled labour, Field labour and other agricultural labour.

Skilled labour comprises of carpenters, blacksmiths and cobblers while filled labour ploughmen, reapers, sowers, transplanter, weeders harvesters and other agricultural labour includes load carrying hamals, well diggers, assistants of masons and carpenters, earth workers etc. One more category of labour viz. Herdsmen whose main work is to take the livestock owned by different owners to the woodlands of forests for grazing is also included in table 'VII' on

agricultural wages.

Main table- VII, of the report gives districtwise & monthwise figures of average daily wages of different classes of agricultural labours, Summary table " H " gives the state level information on wages in the different months during the year 1997-98 and 1998-99 Summary table ' H-1 ' gives average daily wages paid to agricultural & skilled labour in each district of state for the year under report.

The table below gives the daily wages of different types of labours at the state level for the two years i.e. 1997-98 and 1998-99

AGRICULTURAL WAGES (DAILY)

Year	Skilled labour			Field labour			Other Agril. Labour		
	Carpenter Cobbler	Black smith		Male	Female	Children	Male	Female	Herdsmen
1997-98	70.79	63.87	55.10	43.84	32.01	21.04	40.31	29.76	36.30
1998-99	85.90	77.62	66.58	54.08	39.75	26.03	48.00	35.65	46.05

It is seen from the above table that wages for all the categories of labour during 1998-99 were higher than those of 1997-98.

---0---0---0---0---

CHAPTER – VIII AGRICULTURAL STOCK

(Table - VIII)

Table VIII of this report gives the details of livestock, Poultry, agricultural machinery and implements as per quinquennial census of livestock and agricultural machinery conducted in 1997 by the Director, Directorate of Animal Husbandry, Government of Maharashtra.

Summary Table – I gives total number of livestock poultry, agricultural machinery and implements at State level and the comment on the same are briefly given below.

1. Cattle : The number of cattle decreased to 15614653 from 17441008 in 1997 showing an decrease of 10.5 percent. This includes cross breed and indigenous cattle both of which the cross breed cattle showed an increase from 1769333 to 2456884 i.e. by 38.9 percent during the year 1997, where as the indigenous cattle decreased by 0.4 %. The total cross breed male increased from 383992 to 578137 showing an increase of 50.6 %. Similarly cross breed cows showed an increase of 35.6 % from 1385341 to 1878747. The cross breed cows in milk showed an increase of 33.7 % .

2. Buffaloes : The total number of buffaloes recorded an increase of 11.5% during 1997 having gone up to 6072688 from 5447238 in 1992. The number of male buffaloes also increased from 1001820 in 1997 to 1065010 or by 6.3%. Similarly female buffaloes showed an increase of 12.6%. The female buffaloes in milk showed an increase of 19.5 % from 1799093 to 2150753 during the livestock census conducted in 1997.

3. Sheep and Goats : The number of sheep and goats increased by 9.5 % and 15.0 % respectively as compared to the corresponding number in the previous census during 1992.

4. Horses and ponies : The total number of horses and ponies increase by 4.9 % during 1997 as compared to that in 1992. The number of mules, and donkeys showed a decrease of 2.6 % and Pigs 51.1 % respectively. Whereas the number of camels increased by 1036.3 %.

The number of total livestock recorded an increase of 8.9 % during the year 1997 over that of the census 1992.

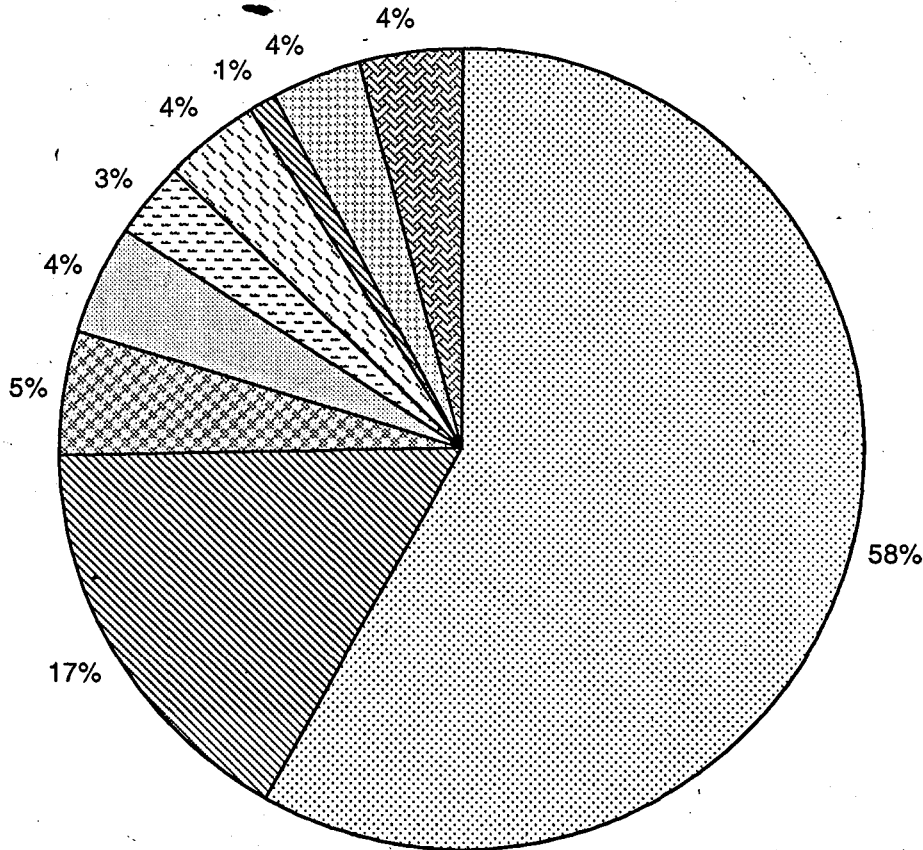

5. Poultry : The total number of poultry showed an increase of 10.0 %.

6. Agricultural Machinery and Implements : The number of tractors increase by 74.5 % so also the tractor operated implements decreased by 36.03% as compared to 1992. There was an increase in Ghanis (both power and non-power) by 56.4 % over that of the previous census. The number of wooden and iron ploughs showed an decrease of 27.9% and 36.86% respectively .

Sugarcane crusher showed an increase 17.45% while that of plant protection equipment's increased by 28.0% and electrical pump sets used for irrigation purpose increased by 12.9 % as compared to the corresponding figures of the census year 1992.
