SOCIO ECONOMIC REVIEW 1964-65 AHMEDNAGAR DISTRICT.

CHAPTER - I.

Introduction.

LOCATION

1.1 Ahmednagar district is situated more or less in the central part of the Maharashtra State. It is situated between 18.2° and 19.9° North latitudes and 73.9° and 75.5° East longitudes. The district has got common boundary with Bhir and Osmanabad districts on the East and South-East, Sholapur district on the south Poona district on the South-west, Thana district on the west, Nasik district on the North and Aurangabad district on the North East. This is the only district in the State which has got common boundaries with as many as seven districts.

ADMINISTRATIVE SET UP.

1.2 The district has been broken up into 12 talukas and 1 Mahal and they are put under four revenue sub-divisions as detailed below :-

TABLE NO. 1.

Table showing administrative set up of Ahmednagar district number of Villages & Towns & Population.

Sr.No.	Sub-Division	T A L U K A	(No. of Towns)	(No. of inhabited villages)	(Total population.)
1	2	3	4	5	6
1.	Ahmednagar	Ahmednagar	1	105	2,45,581
2.	Parner	Parner	-	114	1,31,039
		Jankhed(Mahal)	-	55	73,153
		Karjat	-	31	99,292
		Shrigonda.	-	84	1,18,313
3.	Rahuri	Rahuri	-	82	1,17,728
		Newasa	-	120	1,17,706
		Pathardi	-	92	1,10,905
		Shevgaon	-	121	1,04,207
4.	Sangamner	Sangamner	1	137	1,64,564
		Akole	-	153	1,17,795
		Kopergaon	2	100	1,97,512
		Shrirampur	1	74	1,78,174.

1.3 As the above table shows the district is composed of 5 town and 1,318 villages which are inhabited by population of 17,75,969 persons, as per 1961 census. There were also 5 deserted villages. It is interesting to note that the number of towns (i.e. 5) in this district is the smallest among the 25 districts excepting Greater Bombay.

1.4 The end of March-1964, there were 13 Panchayat Samities functioning in the district, under the Zilla Parishad. Ahmednagar City which had a population of 1,19,020 was completely left out of the Zilla Parishad, and community Development Blocks while all other towns although outside the jurisdiction of Zilla Parishad, were considered for fixing size of Block and their budget. The number of Grampanchayat functioning at the end of 31-3-63 and 31-3-64 was 662 to 700 respectively.

AREA.

1.5 In 1891 the district had following sub-divisions, Jamkhed, Newasa, Shrigonda, Sheggaon, Sanganner, Ahmednagar, Kopargaon, Akola, Karjat, Parner and Rahuri Pathardi Peta was newly formed in 1913 and the remaining area of the Jamkhed taluka was renamed as Jamkhed Mahal. Karjat taluka was also downgraded as peta ~~in~~ during 1931-41. Shrirampur taluka was newly formed in 1945, and Pathardi and Karjat petas were upgraded as talukas since 1941.

1.6 In 1950 twenty one enclave villages were transferred to this district from Bhir district while 26 villages from this district to Bhir district and to Aurangabad district.

1.7 As per 1961 census the district had an area of 16762 Sq. Km. The district was second biggest in the State, Chanda being the biggest with an area of 10,088.3 Sq. Miles. Area of urban part of the district was

merely 49.7 Sq. miles because there were only 5 towns in the district according to 1961 population census. Within the district, Parner taluka with an area of 690.2 Square Miles ranked first, followed closely by Sangamner (648.7-Sq. Miles) and Shrigonda (617.6 Sq. Miles). Shrirampur having an area of 311.3 Sq. Miles was the smallest taluka.

TOPOGRAPHY.

1.8 Most part of the district is plain. Though part of Akola taluka on the north-western side of the district is full of hills. Some ranges of the Sahyadri, which lies on the western side of the district, pass through Akola Sangamner and Rahuri taluka of the district while some ranges have spread into Nagar, Parner and Pathardi taluka.

1.9 Akola taluka is hilly and Kalasubai the highest peak (5,427) of the Sahyadri mountains is situated in this taluka. Due to hills and forests contained in this taluka most of it is difficult for communication. Excepting Akola taluka and parts of the talukas mentioned-above, the terrain in the district is fertile and plain.

1.10 Godavari, Pravara and Mula are the most important rivers of this district. Bhima flows around the boundary between the Southern part of the district & Poona District. In addition Sina, Mhalungi, Adhala, Ghod and Kukadi also travers through the district. Out of these rivers, Godavari, Pravara and Ghod have already been harnessed by construction of dams and irrigate large areas of Kopergaon, Shrirampur and Shrigonda talukas respectively. Construction of a dam on Mula river in Rahuri taluka is in progress and it will irrigate lands in Rahuri and Newasa talukas mainly.

1.11 Among the important types of soils that come in this district are black, red laterite, barad and the white

soils are poor in fertility. Red soil is found in hilly tracts of Akola taluka. In Kopargaoon and Shrirampur talukas there is deep fertile soil along the banks of Godavari and the Pravara. In the southern part of the district there are deep soiled table lands in the west. This soil is generally fit for growing millets. In Jankhed taluka the soil is light and is poor in fertility.

CLIMATE, TEMPERATURE AND RAINFALL

1.12 The climate of the district is generally dry. Rainfall is meagre in most parts of the district. The climate throughout the year excepting summer is moderate. In summer the mercury of ten shoots near the vicinity of 40° c and it is very hot during day-time. Summer, i.e. hot season continues for 4 months from February to May.

1.13 During 1964, maximum temperature recorded at Ahmednagar was 40.9° c. This was recorded in the month of May. In 1963 also the maximum temperature had been recorded in the month of May but the maximum point reached was 39.3° c. During 1964 minimum temperature of 10.9° c was recorded in December to Mean temperatures during 1964 fluctuated between 20.7° c to 31.5° c.

1.14 Rainfall during 1964 was not adequate in most of the taluka. In the talukas of Kopargaoon, Akola, Sangamner, Newasa, Parner, and Ahmednagar the rainfall during 1964 was less than the normal rainfall. However, there is one limitation of the data given in table 1.1 viz. that it gives rainfall only at the place where rain-gauge is located. Looking to the whole district, it is found that the distribution of rainfall is very uneven. In the western part of the Akola taluka, it is around 5000 mm. While in the southern parts, where scarcity is frequent, the rainfall is hardly 500 m.m.

CHAPTER II

Annual Plan Review of District Level Plan Schemes for the year 1964-65

3.1. There were 70 district level plan schemes in Ahmednagar District i.e. the scheme of which benefit accrues to the district only. For speeding up the implementation and also for facilitating the administration these schemes were grouped as State Sector schemes and Local Sector schemes. Out of the 70 schemes, 39 were in the State Sector, 25 in the Local Sector being implemented by the Zilla Parishad while 6 schemes were common in both these sectors. Total Plan provision for all the district level schemes works out to Rs. 740.23 lakhs, of these Rs. 443.70 lakhs (i.e. 60% of the total provision) were accounted for by the State Sector Schemes, while the Local Sector was entrusted with Schemes worth Rs. 296.53 lakhs. The per capita plan provision of district level schemes works out to Rs. 41.68, taking 1961 census figures.

3.2 Apparently the per capita figures of outlay appear low at first glance but then in addition, there are divisional level schemes benefitting the division as a whole and State level schemes which benefit the state as a whole. Thus for Poona division, per capita outlay of divisional level schemes works to Rs. 93.95.

3.3 Following table gives the break up of the plan provision of district level schemes as per State & Local Sectors and various Heads of Development.

Sr. No.	Head of Development	Plan Provision					
		State		Local		Total	
		Rs. in lakhs	% to total	Rs. in lakhs	% to total	Rs. in lakhs	% to total
1	2	3	4	5	6	7	8
1.	Agri. Programme	305.92	69	28.91	10	334.83	45
2.	Cooperation & community Development.	24.02	5	145.91	49	169.93	23
3.	Industry & Mining.	15.90	4	0.67	-	16.57	2
4.	Transport & Communication.	29.45	7	49.35	17	78.80	11
5.	Social Services.	68.41	15	71.79	24	140.10	19
Grand total		443.70	100	296.53	100	740.23	100
		(70)		(40)		(100)	

Figures in the above table show the importance given to Agricultural Programmes in the Plan. 45% of the total provision has been allocated for this Head of Development. In the state sector percentage was 69%. Among the local sector schemes, Lion's share of provision is allotted to community Development and Cooperation the percentage to total being 49. Social Services which accounted for total Plan provision of Rs. 140.10 lakhs, was the next Head of Development in importance.

3.4 Now coming to the implementation of the schemes, tables 11.1 and 11.2 in the District Statistical Abstract give the expenditure incurred on each district level scheme, and targets achieved under various schemes respectively upto the end of 31st March-1965. Progress achieved under various sub-Heads of Development is described below :-

I. AGRICULTURAL PROGRAMME.

(a) Agricultural Production : This is the sub-head which is the most important at the district level. The economy of our country being predominantly agricultural maximum efforts must be made to develop it. Several schemes...

were undertaken in State and Local sectors for giving all possible assistance to cultivators such as provision of improved implements, supply of improved seed, chemical fertilisers, manures etc. Total plan provision under this sub-head was Rs. 75.39 lakh. During 1964-65 expenditure of the order of Rs. 17.19 lakhs was incurred on various agricultural schemes. This level of expenditure which is almost 23% of the total provision was quite satisfactory. But the total cumulative expenditure for the period of 4 years ended on March-1965 was only Rs. 27.24 lakhs which was not impressive. This means in the earlier years i.e. 1961-62, 1962-63 and 1963-64 the performance was not even average.

Considering individual schemes, it was noted that by the end of 1964-65, expenditure on the following schemes was more than the total plan provision.

i) Scheme for strengthening of existing Agri. School.

ii) Scheme for General Horticultural development.

Expenditure on following schemes was poor.

i) Scheme for propagation of improved Agril implements.

ii) Coordinated Cotton extension Scheme.

iii) Intensive cultivation of food crops

iv) Establishment of Taluka seed farm.

Physical Achievement.

During 1964-65 improved seeds measuring 3270 quintals were distributed to the cultivators, under the Kharif and Rabi campaign. This included seed of all food crops viz. Jowar, Wheat and Puri. 710 quintals of improved cotton seed was also distributed. Among improved implements, 218 iron ploughs 82 dry farming sets and 62 other ploughs were distributed. Details of quantity of fertilisers distributed during 1964-65 are as below :--

i) Ammonium Sulphate	9079 Tons
ii) Super sulphate	5391 Tons
iii) Fertiliser mixture	8320 Tons
iv) Urea	5711 Tons
v) Others	19366 Tons.

(b) Land Development : Under this scheme only one scheme for consolidation of land holdings was under-taken. This is a staff scheme and the plan provision of Rs. 1.61 lakhs provides for staff salary. The expenditure during 1964-65 was Rs. 0.36 while cumulative expenditure at the end of 1964-65 was Rs. 83000.

(c) Soil Conservation : Under this scheme plan provision Rs. 207.30 lakhs had been made. The scheme is of particular importance for Ahmednagar district which has very limited and unreliable rains. During the year 1964-65, 84000 acres of land was bunded and expenditure of Rs. 50.09 lakhs was incurred. By the end of the 4 years period as on 31-3-65, expenditure of the order of Rs. 150.96 lakhs i.e. about 72% of the total plan provision had been incurred, which speaks well of the progress achieved.

(d) Minor Irrigation : Out of the total plan provision of Rs. 104.68 lakhs under this sub-head, expenditure of Rs. 31.10 lakhs had been incurred by the end of 1964-65. During the year 1964-65 itself an amount of Rs. 18.36 lakhs was spent on the four schemes, which was improvement on the previous performance. Major portion of plan provision under this sub-head had been for the scheme for construction of Minor Irrigation works i.e. Tanks and Bandharas. An amount of Rs. 59.97 lakhs (i.e. about 57% of total plan provision under the sub-head) had been provided for this scheme. As against this expenditure of Rs. 12.97 lakhs only had been incurred on this

Scheme upto the end of 1964-65. Main difficulty in implementation was that no suitable sites were available under the schemes of construction and repairs of wells, 2645 new wells were constructed during 1964-65 while 314 old ones were repaired. 1381 pumping sets were also installed.

(e) ANIMAL HUSBANDRY : The scheme of District Premium Bull was only implemented. The expenditure of Rs. 29,000 was incurred during 1964-65 and total expenditure incurred by the end of 1964-65 was Rs. 86000/-

(f) DAIRY DEVELOPMENT : During 1964-65 loans worth Rs. 32000 were granted for purchase of cattle under this scheme. 3 Cooperative Milk societies and 1 federation were also assisted during the year.

(g) FORESTS : Out of the two schemes under this sub-head, the scheme of assistance to Village Panchayats for afforestation was implemented to the fullest extent. As against the plan provision of Rs. 18000 expenditure of Rs. 29,000 had been incurred by 1964-65. But the progress under the other scheme viz. afforestation for soil conservation could utilise Rs. 35000 only by the end of March-1965 as against the plan provision of Rs. 2.20 lakhs. During 1964-65 area of 2216 acres was brought under forests.

(h) FISHERIES : There is not much scope for fisheries scheme in this district. The response to various schemes under fisheries from the fishermen was also poor and hence as against the plan provision of Rs. 57,000, expenditure of Rs. 18,000 only had been incurred during the four years ending 31-3-65. During 1964-65, 8000 fingerlings were stocked in the water tanks while 3745 kilos of fish were netted.

(i) WAREHOUSING & MARKETING : As against the plan provision of Rs. 6.59 lakhs expenditure of the tune of Rs. 3.38 lakhs had been incurred under this sub-head during the first four years of the plan. Under one of the schemes under this sub-head, financial assistance was given to Market Committees for various amenities while under other scheme, provision for staff for grading work was done.

(ii) COOPERATION & COMMUNITY DEVELOPMENT :

(a) Cooperation : Under this sub-head are included the schemes which envisage strengthening of Agricultural credit structure, by giving financial assistance to societies. There are also schemes for helping Marketing and Farming cooperatives. Total plan provision for the schemes under cooperation was Rs. 50.94 lakhs. As against this the expenditure incurred during the 4 years period ending 31-3-1965 was Rs. 40.02. Expenditure of Rs. 18.19 lakhs was incurred during 1964-65 only. This shows that the progress of expenditure was fairly good. But most of the schemes under this sub-head are of granting of financial assistance.

During the year 1964-65 following progress was shown in cooperative sector:-

<u>Type of Society</u>	<u>Societies Formed</u>	<u>Membership Added.</u>
i) Agri. Credit	2	73
ii) Coop. Farming	5	81
iii) Processing Socys.	2	512
iv) Industrial Societies.	6	95

During 1964-65 short term loans of Rs. 608.90 lakhs and Medium term loans of Rs. 1.45 lakhs were granted by the Agri. Credit societies. Percentage of recovery of loans was 74.19%.

(b) COMMUNITY DEVELOPMENT : As against the plan provision of Rs. 146.67 lakhs, the expenditure under this sub-head upto 31-3-65 was Rs. 116.13 lakhs. Community Development projects was the most important scheme under this sub-head. By the end of 31-3-65 there were 13 C.D. Blocks and 2 T.D. Blocks in the district.

(iii) INDUSTRY & MINING

(a) Small Scale Industries : Under this sub-head of development, plan provision of Rs. 16.57 lakhs had been made. The expenditure upto the end of 31-3-65 was Rs. 8.69. The progress thus was not up to the satisfactory level. One of reasons for this was that orders sanctioning the scheme of grant of rebate to Handloom weavers was not received in time.

(iv) TRANSPORT & COMMUNICATION

(a) Road Development : For economic development of the district roads must be in good condition and must traverse through out the district. For this programme provision of Rs. 73.66 lakhs had been made in the district plan. By 31-3-1965, an amount of Rs. 42.12 lakhs of these had been spent. This shows that the progress achieved was not satisfactory. During 1964-65 itself expenditure of Rs. 11.69 lakhs had been incurred. 3.37 miles of Roads were modernised during 1964-65 while 30 cross Drainage works were constructed.

(v) SOCIAL SERVICES

(a) General Education : Expenditure incurred on the schemes under this sub-head during the year 1964-65 was Rs. 16.84 lakhs as against the plan provision of Rs. 63.69 lakhs. Cumulative expenditure incurred up to the end of 1964-65 was Rs. 38.10 lakhs which works out to 60% of the plan provision. This proportion of expenditure at the end of 4 years was indicative of poor progress.

During 1964-65, 37 school buildings consisting of 91 class rooms were constructed. 472 teachers were trained during the same period.

(b) MEDICAL AND NURSING : Provision of Rs. 29.70 lakhs had been made in the plan for the construction of building of Civil Hospital at Ahmednagar. By the end of 1964-65 amount of Rs. 7.59 lakhs only had been spent and only the building of out Patients Department had been constructed. Reason for slow progress was that due to emergency all construction works had been suspended.

(c) PUBLIC HEALTH : Expenditure upto 31-3-65 under this sub-head had already exceeded the plan provision. From the point of view of expenditure, all the schemes under this sub-head, except Family Planning, had been implemented almost fully. Expenditure during 1964-65 was Rs. 9.81 lakhs.

(d) WATER SUPPLY & DRAINAGE : As against the plan provision of Rs. 2.15 lakhs expenditure of Rs. 0.97 lakhs had been incurred on the two schemes under this sub-head, upto 31-3-1965. The percentage of expenditure to plan provision was then only 45% which shows that the progress was far from satisfactory.

(e) HOUSING : During 1964-65 an expenditure of Rs. 1.80 lakhs had been incurred on this sub-head, As against the plan provision of 14.11 lakhs cumulative expenditure incurred by the end of 31-3-65 was only Rs. 4.90 lakhs i.e. 35%. This shows that most of the schemes under this sub-head had not satisfactorily progressed. The scheme of construction of houses for clearance of slum was however completed in Ahmednagar City.

(f) LABOUR & LABOUR'S WELFARE : One of the schemes under under this sub-head envisaged construction of building for the Industrial Technical Institute. This building was almost completed but for minor works. Intake capacity of the Institute was increased by 68 during 1964-65. Expenditure incurred during and upto the end of 1964-65 under this sub-head was Rs. 2.22 lakhs and Rs. 4.78 lakhs respectively, as against the plan provision of Rs. 8.46 LAKH

Considering all schemes together the total expenditure incurred by the end of 1964-65 was Rs. 520.58 lakhs which was 61.7% of the total plan provision of Rs. 843.24 lakhs. Since most of the schemes are implemented with full steam with the completion of 4 years it can be expected that during the last year i.e. 1965-66 of the plan, it will be possible to achieve the full targets.

P A R T II.

District Statistical Abstract
Ahmednagar District.

DISTRICT STATISTICAL ABSTRACT

1963-64 & 1964-65.

Ahmednagar District.

Contents.

Explanatory Note on the Tables.

Part II of this publication, viz. District Statistical Abstract presents 97 tables on different subjects. Most of these tables give taluka wise data for 1964-65 on selected items of importance, under that subject. For the sake of comparison data for previous year i.e. 1963-64 is also presented. As far as possible data pertains to the financial years 1963-64 and 1964-65 but in some cases where the concerned departments maintain the data according to some other year say calendar year or cooperative year, the data pertains to those years. Explanatory notes on different subjects are given below, which will bring out the limitations of data etc.

2.1 CLIMATE.

Two tables one on rainfall and the other regarding temperature are included on this subject. Both the tables pertain to calendar years. In case of rainfall, data in respect of all the 13 taluka places where rain-gauges are fitted is given. Hence the data will not represent the position obtaining in the whole district but is only indicative of rough trends over a period of time. Temperature data pertains to only one centre viz. Ahmednagar.

2.2 AREA AND POPULATION.

2.21 All the data included in the 7 tables under this subject represents data of census 1961. In table 2.1 variations of Rural and Urban populations during the inter census period 1951-1961 are given these are based on the position of areas as rural and urban as per 1961 census. Thus a place which was urban in 1961 was also treated as Urban during 1951 for the purpose of this table.

2.22 At the time of 1951 census ~~the definition of urban~~ area was this 'A town meant a municipal area, cantonment area or a place which had a population of more than 5,000 and which exhibited urban characteristic. For the 1961 census different definition was adopted for Urban areas. According to this, a place was treated as Urban if

- (a) It was a Municipal place or cantonment or Civil Lines or
- (b) If it had a population of 5,000 or more and at least 75% of its male workers were engaged in non-agricultural pursuits.

2.23 In the 1961 census, a person was classified as worker if

- (a) in case of seasonal work like cultivation, livestock dairying, household industry etc. he has got some regular work of more than one hour a day throughout greater part of working season and
- (b) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the 15 days preceding the day of enumerator's visit.

work includes not only actual work but effective supervision and direction of work also.

2.3 AGRICULTURE.

2.31 In all the tables under this subject areas have been given in terms of hectares. (1 Hectre = 2.47 acres) The compilation of agricultural statistics is a long process depending upon different departments. The final figures talukwise are therefore not available in time for this publication. Hence the figures pertaining to 1962-63 and 1963-64 agricultural years, are presented in various tables. Agricultural year starts from 1st July and ends on 30th June.

2.32 The distribution of households given in table 3.7 is based on 20% sample households for which information was collected at the time of census. In table 3.8 agricultural wage data collected at 3 centres viz. Akola, Karjat and Shrirampur is presented.

2.4 ANIMAL HUSBANDRY : Forests and Fisheries.

2.41 Data regarding slaughter houses and animals slaughtered pertains only to the Recognised slaughter houses.

2.42 In table 4.6 the Forest data could not be presented rangewise as it was not readily available with the Divisional Forest Office. The Akola and Rajur ranges of this district were formerly in Nasik division and hence that data could not be made available. Hence the district figures as provided by the Statistician, Forest Department Poona are included.

2.5 EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY.

2.51 Data on Factory statistics as presented in tables 5.1, 5.2 and 5.3 pertains to calendar years 1963 and 1964. The data in respect of Factories which did not submit returns was estimated and included separately in table 5.1. The data is presented not only according to working strength but also according to products.

2.52 In table 5.4 Industrial Production data is given. Since this data in systematic form is not available at district from any source, it is obtained from Central excise department. This department has to levy excise on production hence collects these figures for items of productions which are liable to tax. Hence such items only are included in the table.

2.53 In table 5.5 talukawise figures could not be given regarding Handloom and Powerloom since they were not available.

2.6 COOPERATION.

2.1 The cooperative year starts from 1st July and ends on 30th June, like agricultural year. As a matter of fact taluaka-wise data on all types of societies is always desirable. But in case of only Agricultural credit Societies this data is compiled at taluka level and hence is available in that fashion. For other types of societies figures are generally compiled directly at the district Office. Data in respect of Agricultural credit societies and Marketing Societies, which are of importance, is only presented taluka-wise in tables 6.3 and 6.4 respectively. Statistics on other types of societies is given for district as a whole.

2.7 MEDICAL AND PUBLIC HEALTH.

2.71 Data in table 7.1 regarding persons engaged in Medical and Public Health professions is taken from census data and hence pertains to 1961.

2.72 Tables 7.4 and 7.5 give birth and death data. This data is based on the registrations made at village level by revenue agency. As is well known, the registrations in far from complete and hence this data has that limitation.

2.73 Data on Hygienic Drinking Water supply had been collected by the Zilla Parishad by conducting a survey for this purpose. The same has been included here.

2.8 EDUCATION.

2.81 Table 8.1 gives literacy in each taluka the reliable data on literacy is available at the time of census. Hence this table gives position at the time of 1961 census. Similarly tables 8.2 and 8.3 are based on 1961 census data. Table No. 8.8 is also based on the population as per 1961 census.

2.9 TRANSPORT & COMMUNICATIONS.:

2.91 Table 9.1 presents length of Railway route in the district. For this purpose the length of route between the last stations on each side has only been considered. The length from last station to the district boundary has been omitted since exact estimates cannot be found.

2.92 Road length of Municipal roads and other roads has been given separately in tables 9.2(a) and 9.2(b). It is not possible to obtain these figures talukawise since the ^{Taluka-wise} data is not maintained. Hence the data is given for district as a whole.

2.93 Motor vehicle data presented in Table 9.3 pertains to Poona Division which consists of districts of Poona, Ahmednagar, Satara and Sholapur. Districtwise data in this regard is not maintained by the Regional Transport Authority.

2.94 Data regarding State transport is given in table 9.4. It pertains to Ahmednagar Division of State Transport which consists of all the revenue talukas of Ahmednagar district except Sanganner and Shrirampur.

2.10 LOCAL BODIES.

2.10 Information on important items in the working of (i) Villa Panchayats (ii) Panchayat Samities (iii) Zilla Parishad and (iv) Municipalities is given in 5 different tables.

2.11 PLAN & COMMUNITY DEVELOPMENT.

2.11.1 Information in respect of district level plan schemes only is given in tables 11.1 and 11.2. Plan schemes under State sector as well as Zilla Parishad sector are included. Four tables on community development bring out activities under various items and expenditure incurred in various blocks.

2.12 PRICES.

2.12.1 The note given below table No. 12.1 makes it clear that the price data is expected to serve as a broad indicator of trend in change in prices rather than being representative of the general price situation. This is so because of the fact that the prices are collected from one shop only.

2.12.2 Table 12.3 gives consumer price indices of Sholapur City. Such data are maintained only for selected places in the state viz. (i) Bombay (ii) Nagpur (iii) Sholapur and (iv) Nanded and of late for Poona City. Since no data on this subject is available for Ahmednagar, data for Sholapur City which is in the same revenue division is given.

2.13 MISCELLANEOUS :

2.13.1 Under this group are presented tables on various subjects such as Court Statistics., Cinema Statistics, Banking and insurance statistics etc, which could not be classified elsewhere.

TABLE NO. 13.10

Receipts of Excise Revenue/Sales-Tax/Entertainment Tax in AHMEDNAGAR DISTRICT.

(Rs. in '000')

Sr. No.	Y E A R S	Receipts of in Rs.		
		Excise Revenue	Sales Tax	Entertainment Tax.
1.	2	3	4	5
1.	1963-64	223	2,357	429
2.	1964-65	139	2,653	416

* Revised figure.

NOTE : 1) The figure of Entertainment tax during the year 1964-65 is decreased since one theatre was closed during the year 1964-65.

2) The decrease in the Excise Receipts during the year 1964-65 is due to the restrictions imposed on export of Molasses and spirit and also due to the closure of Government foreign liquor Depot at AHMEDNAGAR.
