C H A P T E R - I

I N T R O D U C T I O N

1.1 LOCATION :

The Satara district is situated partly in the Bhima river basin and partly in the Krishna river basin. The tahsils Khandaola, Ihaltan and Man are situated in the Bhima river basin while the rest of the tahsils are situated in the Upper Krishna basin.

The district lies between $17^{\circ} 5'$ and $18^{\circ} 11'$ north latitude and $73^{\circ} 33'$ and $74^{\circ} 54'$ east longitude.

1.2 BOUNDARIES :

The district is situated on the west of Deccan Plateau and is surrounded by the Poona district on the north, by the Sholapur district on the east, by the Sangli district on the south and by the districts of Ratnagiri and Kolaba on the west.

1.3 TOPOGRAPHY :

i) HILLS :- There are two main systems of hills in the Satara district. The Sahyadri range and its off-shoots and the Mahadeo range and its off-shoots. The main range of Sahyadri with a length of about 96 kilometres from north to south forms the western boundary of this district. The Mahadeo range starts about 16 k.m. north of Mahabaleshwar and stretches east and south-east across the whole breadth of the district. From this main range of Mahadeo hills three spurs stretch to the south. Hills in the district are very low, barren and rugged except near Mahabaleshwar and Koyana Valley. The top of Mahabaleshwar, the highest point in the district, is about 1,436 metres above mean sea level.

ii) RIVERS :- The Krishna is the principal river of the district. The other important rivers are the Koyana, the Nira, the Man, the Venna, the Kudali, the Urmodi, the Vasna, the Yerla and the Tarali.

The Krishna rises in the eastern brow of Mahabaleshwar Plateau with its source at about 1371 metres above mean sea-level. Several streams which flow from the valleys formed by the main hill ranges in the district make-up the headwaters of the Krishna river. The drainage system of the Krishna river includes, besides the drainage of central system, the drainage of seven feeders, namely, the Kudali, the Venna, the Urmodi, the Tarali and the Koyana on the right and the Vasna and the Yerla on the left. From the source, the Krishna flows for nearly 160 km through the Satara district and enters thereafter into the Sangli district.

The Koyna is the largest feeder of the Krishna river in the district. It rises in the Mahabaleshwar Plateau, runs towards south upto Helwak in Patan tahsil, where it changes its course and flows towards east and falls into the Krishna at Karad. On account of the Hydro-Electric project over it near Helwak village, the Koyna has become the most important river in the state of Maharashtra.

The Mira river which flows on the northern boundary of the district and the Man river which flows in the south-east are tributaries of Bhima which itself meets the Krishna.

iii) SOILS :- The soils of the district are observed to be of varied textures. In the west, the soil in Mahabaleshwar, Wai, Jaoli and Patan tahsils is formed from the red laterite of the ghats. It is thin and poor on the hill slope, but gets richer where natural or artificial terracing has accumulated soil with vegetable matter drained by rain waters. Rich black soil is found in the low lands of the valleys of Krishna, Venna, Kudali, Koyana and Kole rivers in Wai, Jaoli and Patan tahsils.

The central portion of the district consists of medium to deep black alluvial soils. Krishna Valley soils are said to be one of the richest in the Deccan and the portion which lies in Satara and Karad tahsils is reported as the richest in the Krishna valley. For the most part it is the finest

black alluvial soil highly retentive of moisture and very fertile.

The soil in Khandala and Phaltan tahsils is poor and stony in the vicinity of the hills but there are good black soils along the Nira and its tributary streams. In the eastern part of Khandala tahsil the soil is poor, shallow and whitish but is capable of growing wheat if adequate water is available.

Towards the east of the Krishna valley the soil is poor with the exception of wide stretches of good black soil along the numerous streams and rivers in Koregaon tahsil.

In the Khatav tahsil, soils are of intermediate depth and more widely spreading than Man tahsil but not as rich as in Koregaon tahsil. In Man tahsil, the soils are extremely poor and shallow. Good soil is found only in narrow strips along the streams.

1.4 RAINFALL IN GENERAL AND SCARCITY CONDITIONS :-

1) RAINFALL :- The rain starts by the middle of June and lasts till the end of September in the district. The rain fall is not uniform all over the district. It is very heavy in the western region and it goes on receding towards eastern part. The extreme west part gets over 5000 mm. rain fall, while the eastern part of the Sahyadri zone gets the rainfall between 1200 mm. to 2000 mm. The normal rainfall recorded at Mahabaleshwar centre is 6226 mm. while at Pachagani it is 1865 mm. The central zone gets rainfall between 600 mm. to 1200 mm. The district headquarter Satara has normal rainfall of 1025 mm. At other centres it is :- Koregaon 706 mm., Khandala 504 mm., Wai - 710 mm. and Karad - 713 mm. In the eastern zone average rainfall is below 600 mm. annually. It is as follows :- Phaltan - 473 mm., Dahiwadi - 462 mm., Mhaswad 473 mm. and Vaduj - 512 mm.

11) SCARCITY CONDITIONS :- The eastern part of the district is prone to scarcity conditions. The Fact Finding Committee appointed by the Government of Maharashtra under the Chairmanship of Shri S.R. Sukhatankar has opined that the tahsils of Khandala, Phaltan, Man, Khatav and Koregaon are the drought prone areas in the district. During the year 1973-74 the scarcity condition was extended till September 1973 under which 179 villages from Khandala, Koregaon and Phaltan tahsils were included. During this period scarcity works were continued.

1.5 MINERALS :

Except for building stone, lime stone and little iron deposits in about 20 villages of Jaoli tahsil and 30 villages of Patan tahsil, deposits of important minerals are not known to have occurred in any part of the district. Building stone, sand of good quality and lime stone is found to be available all over the district. Good clay for bricks and tiles is found on the river banks.

1.6 FORESTS :

An area of about 1515 sq.kilo meters or 14.4 percent of the total geographical area of the district is under forests. It is scattered over the entire district. These forests belong to three groups :- (i) the evergreen Sahyadri forests (ii) the slopes of the off-shoots of Sahyadri hills that run east and (iii) bush sprinkled hills to the east of Krishna.

The evergreen forests of the Sahyadri range form a belt along the west of the district 10 to 22 kilometres broad. These forests extend without a break through the whole length of the district. They contain many trees valuable both as timber and fire wood. The chief of these are Jambool, Anjan, Ain, Umber, Kenja, Hirda, Phanas and Nara. Teak mixed with brush-wood is found in the second group of forest lands, i.e. ranges which branch east from the Sahyadris. These forests are much broken by patches of cultivated land. The forests of the third group are only sprinkled with bush and are very much scattered.

1.7 A R E A : -

The district has an area of 10492.0 sq. kilometres out of which 10109.6 sq. kilometres is rural and 382.4 sq. kilometres is urban area. The district ranks 16th in area among the 26 districts of the Maharashtra State.

1.8 D E M O G R A P H Y : -

The Satara district ranks 13th in population among the 26 districts of the Maharashtra State.

The following table gives tahsilwise decadal variation for the last decade.

Sr. No.:	DISTRICT / Tahsil	P o p u l a t i o n		Decadal percentage variation
1	2	1 9 6 1	1 9 7 1	5
	DISTRICT	1490105	1727376	+ 20.79
1.	SATARA	191313	239984	+ 25.44
2.	WAI	104746	125099	+19.43
3.	KHANDALA	63164	71929	+ 13.88
4.	KOREGAON	138838	164455	+ 18.45
5.	PHALTAN	140102	186627	+ 33.21
6.	MAN	99410	120758	+ 21.47
7.	KHATAV	155930	177501	+ 13.83
8.	KARAD	251640	311026	+ 23.60
9.	PATAN	180501	207867	+ 15.16
10.	JACLI	80091	91939	+ 14.79
11.	MAHABALESHWAR	24370	30191	+ 23.89

From the above table it will be seen that the decadal variation (1961-71) in Satara district is less than the State variation which is 27.45

1.9 A D M I N I S T R A T I V E S E T U P :

The Collector is the administrative head of the district.

He acts as the head of the Revenue Department and also supervises the work of other offices. He is in charge of general Administration, Law and order, Land Revenue and Civil Supplies. He is assisted by a Resident Deputy Collector and three Deputy Collectors, who hold charge of the three revenue divisions in the district with Headquarters at Satara, Phaltan and Mahabaleshwar.

For facilitating the smooth and co-ordinated working of the administration, several offices of the State and Central Government are located at the district Headquarter and other places.

LOCAL BODIES :- Under the Maharashtra Zilla Parishad and Panchayat Samitis Act, Satara Zilla Parishad and eleven Panchayat Samitis have been established in 1962. The area and population covered by the Zilla Parishad and Panchayat Samiti corresponds to the area and population of the district and tahsil except the area and population covered by the Municipal Councils.

The Zilla Parishad is headed by the President elected from the elected members. He is assisted by a elected Vice-President and three elected Chairmen of different subject committees. To carry out the administrative and executive work of the Zilla Parishad an officer in the Senior scale of I.A.S. works as the Chief Executive Officer of the Zilla Parishad. He is assisted by various departmental heads for carrying out the developmental activities effectively.

At the tahsil level, Panchayat Samitis have an elected Chairman and Vice-Chairman. The Block Development Officer works as Secretary to the Panchayat Samiti who is the administrative and executive head at the block level, under Zilla Parishad. The State Government officers continue to exercise technical supervision and give necessary guidance to the Zilla Parishad and Panchayat Samitis. The State Government have powers to issue directions to the Zilla Parishad in respect of any works and schemes in the interest of National and State Developmental Plans.

There are also other statutory bodies such as Maharashtra State Electricity Board, Life Insurance Corporation, Maharashtra State Financial Corporation etc. functioning in the district.

1.10 SPECIAL FEATURES :

SUGAR FACTORIES : - At present six sugar factories two each in Karad and Phaltan tahsils and one each in Patan and Wai tahsils are located in the district.

INDUSTRIES : - Though there is no industrial concentration of industries in the district some important factories apart from sugar factories are Cooper Engineering Works - Satara Road, Ogle Glass Works at Ogalewadi near Karad and some cement product industries at Satara and Karad are located in the district.

GENERAL :

2.1 The data presented in this Abstract pertains to the year 1973-74 or for 1973. In the case of Agricultural data, and for which data for 1973-74 are not available are given for the year 1972-73, or the data for latest available year. One of the purposes of the issue is to present Statistical material on as many topics as possible so that the Abstract may be useful not only as a reference book but also for research, Planning or further Socio-Economic studies. The data are given tahsilwise wherever possible. For some items for which tahsilwise data are not available figures for the district as a whole are incorporated in the statements.

DISTRICT AT A GLANCE :

2.2 In this table comparative data of Satara district and of the State of Maharashtra are given. The data on Location, Population, Literacy, Agriculture, Industry, Co-operation, Planning etc. of district and State are shown in this table for ready reference.

AREA AND POPULATION :

2.3 The data on area and population based on the final figures of 1971 Census are given in tables from 1 to 7. The data on houses and population, decadal variation in population, population of urban/rural areas, workers and non workers, etc. are presented under this head.

2.4 A town or an urban area as per 1971 Census is a place which has a municipality, a cantonment or a civil line or a population of 5000 or over, a density of not less than 400 persons per km. and at least 3/4th of male population dependent on non agricultural pursuits, the place should have according to the Director of Census Operations a few pronounced urban characteristics and amenities.

2.5 The population enumerated in urban areas is urban population and the population enumerated in all other places is rural population.

2.6 A "Village" is a statutorily recognised village having a defined boundary and separate land records.

2.7 A person is classified as worker if (a) in case of seasonal work like cultivation, livestock, dairying, household industry, etc. he had worked in the current or last working season for the greater part of the season, and (b) in the case of regular employment in any trade, profession, service, business or commerce, he was employed during any of the fifteen days preceeding the day of the enumerator's visit to the household.

2.8 A person who was working but was absent from his work during the fifteen days preceeding the day on which he was enumerated or even exceeding the period of fifteen days due to illness or other causes has been treated as worker.

2.9 A person who has been offered work but had not actually joined has been treated as a non worker.

2.10 The 1971 Census stipulated that a person primarily engaged in household duties or those who were students and helped in family economic activity but not on a full time scale should be treated as non workers in respect of their main activity.

C L I M A T E :

2.11 Normal rainfall and monthly rainfall data and temperature data from the selected centres in the District are reported in Table No. 8 and 9 respectively. Normal rainfall data are based on the rainfall over a period of five to eight years. A day is counted as a rainy day if the rain gauge records a minimum of 2.5 mm rainfall during the 24 hours of the day. As regards temperature, Mahabaleshwar is the only station in the district for which the data are available. The Directorate of the Indian Meteorological Department, Bombay

supplied this data. Mahabaleshwar is on a very high altitude of Sahyadri ranges and the data of this centre cannot therefore be said to be representative for the whole district.

A G R I C U L T U R E :

2.12 The agricultural and related statistics are presented in the tables 10 to 21. Land use, crop pattern, outturn of crops, yield rates, irrigation sources and area under crops irrigated, irrigation projects, wage rates, data on agricultural implements and scarcity and famine conditions are some of the salient topics dealt with under agricultural statistics. The data collected from the District Inspector of Land Records and Season and Crop Reports are of provisional nature. The Zilla Parishad the Panchayat Samities, The Executive Engineers of Irrigation Projects, the Collectorate and the Directorate of Economics & Statistics, are other sources for various tables on agricultural statistics. There are variations in the area figures obtained from the Surveyor General and those based on village papers. The later are sum total of data given by talathis whereas the former are calculated in blocks.

2.13 All lands actually afforested and lands classed and administered as forests whether state owned or private are termed as 'forests'. If any portion of such forests is not wooded but put to some agricultural use it is shown under that appropriate head.

2.14 Land put to non-agricultural uses stands for lands occupied by buildings, roads, railways, rivers, canals or other such purposes.

2.15 Lands which cannot be brought under cultivation except at a very high cost/^{are} classed as unculturable lands, whether in isolated blocks or in cultivated holdings.

2.16 Culturable waste includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year

and the last five years or more in succession.

2.17 Current fallow lands comprise cropped area kept fallow during the current year. Other fallows include all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years.

2.18 The net sown area consists of area sown with crops and orchards, area sown more than once in a year being counted only once. The gross cropped area represents sum total of area under all crops in a year. The estimates of average yields and production in respect of rice, bajara, jowar, wheat, gram, cotton, groundnut, tobacco, ragi and tur are based on the results of crop estimation surveys conducted usually by the Agriculture Department. The estimates of yields for the remaining crops are based on the anna valuation figures and normal yields reported by the Revenue Officers.

ANIMAL HUSBANDRY AND FORESTS :

2.19 Statistics on animal husbandry, collected through the 11th quinquennial census of 1972 are reproduced in table No. 22. The data collected from the District Animal Husbandry Officer, Municipal Councils and Veterinary dispensaries in respect of animal diseases, artificial inseminations, livestock mortality, slaughter houses statistics are shown in tables 23 to 25 on this subject.

2.20 The Statistician, forest department and Divisional Forest Officer provides data on forest area and forest produce which is shown in tables 26 (a) and 26 (b). Reserved forests are those that are intended mainly for timber production and in which rights of grazing and cultivation are seldom allowed. In protected forest, the restrictions are not so rigid, right of grazing or cultivation is allowed but certain limitations and restrictions are imposed. The unclassed forest refers to the inaccessible forest or unoccupied waste.

EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY :

2.21 Tables 27, 28 and 29 present data on registered factory statistics e.g. on daily employment, working strength of factories, days worked by the factories. The word "factories" here includes only the registered factories. They are of three types.

- i) Factories using no power but employing 20 or more workers.
- ii) Factories using power and employing 10 or more workers and
- iii) Factories not covered by (i) and (ii) above but notified by the Government as covered by the Factory Act.

2.22 On the basis of data collected through the Annual Survey of Industries a table No.30 is prepared on registered factories in various industrial classification groups showing their productive capital, employment, gross output and value added. The figures are of provisional nature and are based on actuals of reporting census sector factories and estimates of sample sector factories.

2.23 Tables 31, 32 and 33 are based on the data collected from the District Employment Exchange. The monthly registration of unemployed persons, notification of vacancies, placements as also volume of employment by type of industry is shown in these tables.

2.24 Tables 34 and 35 are included to show consumption of electricity and towns and villages electrified in Satara District. The data are collected from the M.S.E.B. All the electricity is now supplied by the M.S.E.B. and no electricity is generated or distributed in the district by any private company.

C O - O P E R A T I O N :

2.25 The table Nos. 36 to 43 on Co-operation are compiled from the data supplied by the District Deputy Registrar of Co-operative Societies and the Agricultural Produce Market Committees. Statistical information is shown separately for (1) Primary Agricultural Credit Societies (2) Agricultural Non Credit Societies (3) Non Agricultural Credit Societies (4) Non

Agricultural Non Credit Societies (5) Marketing Societies.

2.26 The District Central Co-operative Bank is covered under Agricultural Credit Societies and shown in Table No. 37. Urban Banks, Salary Earners Societies, factory workers societies are covered under Non-Agricultural Credit Societies.

2.27 Working capital includes paid up capital, deposits and borrowings. The break up of loan advanced by Co-operative Banks is shown by the term of loan, short medium and long term. All long term loans are given by the Land Development Bank, whereas both short term and medium term loans are given by District Central Co-operative Bank and Urban Banks. Overdue loans refer to amount of loan or installments which were due for collection but which were not actually collected and for the repayment of which no extension has been granted. The cooperative year starts in July and ends in June. Salient achievements of the Cooperative societies, such as marketing, fisheries, farming, irrigation, agricultural processing, sugar factories, consumers, housing are shown in Table No. 41. Commoditywise turnover in the regulated markets is shown in the Table No. 42.

2.28 A separate table No. 43 is given on registered money lenders and loans advanced by them. The data are collected from the Deputy Registrar of Co-operative Societies.

MEDICAL AND PUBLIC HEALTH :

2.29 Data on medical facilities and other vital statistics such as births, deaths are shown in tables under this section. The data are collected from Civil Surgeon, District Health Officer, Zilla Parishad, Municipalities and Director of Public Health, Poona.

2.30 Under medical facilities data in table No. 44 are given for hospitals, dispensaries, maternity houses primary health centres, medical personnel, hospital beds as also the No. of indoor and out door patients availing these facilities. In table No. 45 data on births, deaths, infant deaths are recorded. Table No. 46 shows causes of deaths, occurred in the District. Vaccination and family planning statistics are presented in table Nos. 47 and 48 respectively.

2.31 The birth rate and death rate are given in the District at a glance. Birth rate is the No. of births per thousand estimated population of the year. Death rate is similarly the No. of deaths per thousand estimated population of the year. The data on vital statistics are collected through revenue agency for rural area and for urban area it is the statutory function of Municipal Councils. The data presented on medical facilities are of State and Central Govt. institutions, institutions owned and run by municipal councils and local bodies and public aided institutions. The private clinics run by individuals are not included in these tables.

2.32 The year of reference for medical and health statistics is the calendar year 1973.

E D U C A T I O N :

2.33 Salient features of the progress of education in Satara district are presented in this section. Literacy in each tahsil as per 1971 Census, No. of educational institutions, pupils, teachers by type of education, B.C. beneficiaries, educational concessions, expenditure on primary education by various agencies, are the various subjects dealt with under the tables on education.

2.34 The sources of data are the 1971 Census, the Directorate of Education and the Education Officer, Zilla Parishad, Satara.

2.35 The tahsilwise break up of data on institutions, pupils, teachers could not be obtained for publication. Only district totals are supplied.

T R A N S P O R T A N D C O M M U N I C A T I O N :

2.36 Important statistics on different modes of transport, category of roads, traffic census, posts, telegraphs, telephones and radio licenses issued and rural broadcasting are given in this section.

2.37 The difficulty arises in getting accurate rail length in the district. The length had to be compiled by reference to railway time tables and railway map. The figures presented in table No. 56 are therefore, approximate to that extent. Information presented in this table pertains to broad gauge line.

The road statistics presented in table 57 are for both extra municipal roads and roads within municipal limits, shown separately. The statistics of motor vehicles in the district are not available separately. Therefore, the statistics of motor vehicles in Poona Region, (comprising of Poona, Ahmednagar, Satara and Sholapur districts) are presented in Table No. 58. Table No. 59 gives statistics of nationalised Road Transport of the Satara S.T.Division. The Satara S.T.Division comprises of Satara District.

LOCAL BODIES :

2.38 Financial position of Village Panchayats, Municipal Councils and Zilla Parishad is shown in this section for the year 1973-74.

2.39 The No. of Village Panchayats includes No. of independent Village Panchayats as also group Village Panchayats, Income and expenditure of Village Panchayats are exclusive of opening and closing balances respectively. Grants include grants from Govt. as well as from Zilla Parishad and Panchayat Samities for developmental activities. Govt. grants in respect of municipal councils are mainly, grants of account of dearness allowances, grants for roads, for water supply, for educational purposes, for medical purposes, and on account of percentage in land revenue. The receipts of Zilla Parishad are shown under four sub-heads, viz. (1) Self raised resources, (2) Govt. Grants (3) Grants for agency scheme and (4) debt section. The expenditure is shown under two heads. Revenue expenditure and debt section.

2.40 The data are collected from the Zilla Parishad, Satara and all the Municipal Councils in Satara district.

PLAN AND COMMUNITY DEVELOPMENT :

2.41 The Table 67 included in this section gives details of expenditure under each sub head of development for State and Centrally sponsored programme for 1973-74. Important physical achievements are given sub headwise in table No. 68. These data are based on the progress reports received from various implementing officers.

2.42 The stagewise blocks under C.D. Programme are shown in

Table No. 69 while stagewise expenditure in each tahsil is shown in Table No. 70. Physical achievements of these C.D. Blocks are shown in Table No. 71. The data are compiled from the quarterly returns received from the Panchayat Samities in the district.

P R I C E S :

2.43 There are three tables in this section. The first table No. 72 presents data on wholesale prices of certain agricultural commodities at regulated markets. The table No. 73 is on average retail prices of important commodities at the District Head Quarter Satara. The data are presented for all the months of the year 1973.

2.44 The data are collected on every Friday from selected shops, for given specifications of the selected commodities. As such they cannot be said to be fully representative. However, the data may be useful as a broad indicator of the trend in changes in retail prices over a period of time.

2.45 In the Table No. 74 the consumer price index numbers for working class of Sholapur and Poona Centres are given. The index is compiled by the office of the Commissioner of Labour, Bombay.

M I S C E L L A N E O U S :

2.46 As the title indicates data on other various subjects such as police, crime, court cases, cinema theatres, Joint Stock Companies, Life Insurance, Small Savings etc. are presented in this section from table Nos. 75 to 84.

TRENDS IN SELECTED INDICATORS :

2.47 Table No. 85 shows important indicators in the various fields of development such as population, agriculture, live-stock, industry, electricity, cooperation, etc.

CHAPTER - III
AN ANALYTICAL REVIEW OF SECTORIAL TRENDS

3.1 Data on various items have been presented in part II of this issue, under the heading District Statistical Abstract. An attempt is made in this chapter to give a comparative picture of the tahsils in the district during the year 1960-61, 1972-73 and 1973-74 or 1960-61, 1971-72 and 1972-73 as the case may be. These indicators will show the position of each tahsil during the above period.

3.2 The development in the field of agriculture can be assessed from three main indicators. They are (1) Percentage of gross area sown to net area sown (2) percentage of net area irrigated to net area sown and (3) productivity of important crops.

TABLE NO. 1

Percentage of gross cropped area to net area sown in SATARA District during the years 1960-61, 1971-72 & 1972-73

Sr. No.:	TAHSIL	Percentage of gross cropped area to net area sown		
		1960-61	1971-72	1972-73
1	2	3	4	5
1.	SATARA	105	104	103
2.	WAI	115	110	112
3.	KHANDALA	116	110	111
4.	KOREGAON	109	108	109
5.	PHALTAN	105	108	108
6.	MAN	106	105	105
7.	KHATAV	107	107	117
8.	KARMD	104	103	102
9.	PATAN	114	110	111
10.	JACOLI	113	108	106
11.	MAHABALESHWAR	104	103	103
SATARA DISTRICT		108	107	108

3.3 The gross cropped area during the year 1972-73 has decreased from 7.34 lakh hectares in 1960-61 to 5.72 lakh hectares in 1972-73. This was mainly due to drought conditions in the district during the year 1972-73. The net cropped area has also decreased during the year 1972-73 as compared to the area in 1960-61. The percentage of gross cropped area to net sown area

however, remained the same i.e. 108 for the district as a whole

3.4 The percentage of gross cropped area to net area sown is highest in Khatav tahsil. The percentage of gross cropped area to net area sown is more than the district average in Khatav, Wai, Khandala, Koregaon and Patan tahsils, it is equal to district average in Phaltan tahsil, while it is below district average in remaining tahsils. It is lowest in Karad tahsil.

3.5 The gross irrigated area in the district has decreased from 1.01 lakh hectares in 1960-61 to 0.84 lakh hectares in 1972-73. This decrease was also mainly due to drought conditions.

3.6 The net area irrigated by different sources in the years 1960-61, 1971-72 and 1972-73 is given in the following table.

T A B L E N O. 2

Sr. No.	Source of Irrigation	Net area irrigated (Hectares)		
		1960-61	1971-72	1972-73
1	2	3	4	5
1.	Government canals	24880	18710	17198
2.	Private canals	16910	16669	10042
3.	Wells	34501	38805	31897
4.	Other sources	3290	6223	6988
	TOTAL	79581	80407	66125

3.6 From the above table it will be seen that the net area irrigated has considerably decreased during the year 1972-73 as compared to the previous years for the same reason of drought during the year 1972-73.

The following table gives net area irrigated and net area sown during 1960-61, 1971-72 and 1972-73.

T A B L E N O. 3

Net area irrigated and net area sown (in hectares)			
Sr. No.	Y E A R	Net area irrigated	Net area sown
1	2	3	4
1.	1960-61	79581	680356
2.	1971-72	80407	703342
3.	1972-73	66125	527237

3.7 The percentage of net area irrigated to net area sown comes to 11.70, 11.43 and 12.54 percent during the years 1960-61, 1971-72 and 1972-73 respectively.

3.8 The agricultural production depends on various factors such as natural conditions, input factors etc. The following table gives the yield rates and outturn of principal crops for the years 1960-61, 1971-72 and 1972-73.

T A B L E NO. 4
YIELD RATES AND OUTTURN OF PRINCIPAL CROPS

Sr. No.:	C R O P	Yield in Kg/Hectare			Outturn in '00 M.Tonne		
		:60-61	:71-72	:72-73	:60-61	:71-72	:72-73
1	2	3	4	5	6	7	8
1.	Rice	887	1076	275	229	313	75
2.	Wheat	865	597	519	118	105	67
3.	Jowar	766	480	232	1506	1021	502
4.	Bajra	232	259	171	353	324	109
5.	Gram	447	365	243	74	46	18
6.	Tur	657	676	533	50	48	24
7.	Groundnut	788	1104	311	753	743	195
8.	Sugarcane(Gur)	8510	6508	6150	635	859	738
9.	Cotton('00'balles)	262	260	323	37	88	97

3.9 The above table indicated that production of all the crops except for Sugarcane and Cotton has decreased during the year 1972-73 as compared to the year 1960-61. The yield rates also have been decreased except for cotton during the year 1972-73.

C H A N G E S I N C R O P P I N G P A T T E R N

3.10 The following table will broadly indicate the trend of cropping pattern in the district.

T A B L E NO. 5

Percentage of area under important crops to gross cropped area

Sr. No.:	C R O P S	Y E A R S		
		: 1960-61	: 1971-72	: 1972-73
1	2	3	4	5
1.	Rice	3.52	3.88	4.82
2.	Wheat	1.85	2.16	2.21
3.	Jowar.	27.95	29.90	45.22

1	2	3	4	5
4.	Bajra	20.58	15.45	14.90
5.	Total Cereals	56.75	53.52	69.64
6.	Gram	2.24	1.28	1.25
7.	Total Pulses	9.46	7.41	7.09
8.	Total Foodgrains	66.22	60.93	76.73
9.	Sugarcane	1.34	1.79	2.53
10.	Total foodcrops	70.07	64.79	81.37
11.	Cotton	0.34	0.93	0.96
12.	Groundnut	8.19	8.87	10.76
13.	Total non-food crops	29.93	35.21	18.63
	TOTAL CROPPED AREA	100.00	100.00	100.00

3.11 The percentage area under food crops shows remarkable increase, which in other words means there is remarkable decrease in non-food crops. The area under food crops has increased from 70.07 percent in 1960-61 to 81.37 percent in 1972-73. This increase was mostly observed in case of Jowar.

3.12 The percentage of area under different irrigated crops to gross irrigated area, shows that the percentage of total irrigated area under food crops was decreased to a small extent from 93.56 in 1960-61 to 92.01 in 1972-73 and to that extent the irrigated area under non-food crops showed an increase. The following table will give an idea, how the changes in irrigated area have occurred.

T A B L E NO. 6

Percentage of area under different irrigated crops to gross irrigated area.

Sr. No.:	Name of Crop	Percentage of area under irrigated crops to gross irrigated area		
		1960-61	1971-72	1972-73
1	2	3	4	5
1.	Rice	9.85	14.31	16.44
2.	Wheat	10.91	13.41	13.00
3.	Jowar	30.78	29.93	27.26
4.	Bajra	6.39	6.10	3.87
5.	Total Cereals	58.57	64.52	61.23
6.	Gram	6.64	4.03	3.29
7.	Total Pulses	7.53	5.04	3.96
8.	Total food grains	66.10	69.56	65.19

1	2	3	4	5
9.	Sugarcane	9.73	12.73	17.15
10.	Total food crops	93.56	92.56	92.01
11.	Cotton	1.51	6.07	6.47
12.	Groundnut	0.79	0.32	0.19
13.	Total non-food crops	6.44	7.44	7.99
	TOTAL IRRIGATED	100.00	100.00	100.00

3.13 From the above table it will be seen that percentage of area irrigated to total irrigated area under Sugarcane and Cotton showed remarkable increase. The percentage of area under all the food crops except Rice, Wheat and Sugarcane has decreased as compared to the year 1960-61.

AGRICULTURAL CREDIT

3.14 The Co-operative Societies play an important role in the field of agricultural development by extending credit facilities on an extensive scale. The progress of facilities given by the agricultural credit societies during the years 1960-61, 1972-73 and 1973-74 are given in the following table.

T A B L E NO. 7

AGRICULTURAL CREDIT

Sr. No.	I T E M	Y E A R	Y E A R	Y E A R
1	2	1960-61	1972-73	1973-74
1.	No. of Agricultural Credit Societies	750	770	771
2.	Membership	13 1956	180165	185559
3.	Loans advanced (Rs. in lakhs)	185.61	890.77	1088.25
4.	Loans outstanding (Rs. in lakhs)	204.29	858.35	1116.79

3.15 From the above table it can be seen that the number of societies have increased from 750 in 1960-61 to 771 in 1973-74 and the membership increased from 131956 in 1960-61 to 185559 in 1973-74 which accounts to 40 percent increase in the membership during this period. The loans advanced shows considerable increase which accounts 486 percent during the period 1960-61 to 1973-74. The loan outstanding have also increased which accounted 447 percent increase during the period 1960-61 to 1973-74.

WAGE RATES.

collected in three rural centres in Satara district since July 1963. These centres are Umbraj in Karad tahsil, Limb in Satara tahsil and Koregaon in Koregaon tahsil.

The average wage rates for male field labour at Limb was found to be more Rs. 3=62 followed by Koregaon Rs.3=00 and Umbraj Rs. 2=75. The average wage rates for females were observed higher at Umbraj Rs. 2=13 followed by Koregaon Rs. 2=00 and Limb Rs. 1=87.

LIVESTOCK AND POULTRY

3.17 Livestock makes a substantial contribution to the economy by providing subsidiary income to farmers, food to human population and provides avenues of employment to landless labourers. A quinquennial census of livestock, poultry and agricultural implements is carried out all over the country. The 11th Livestock was carried out in 1972.

The following table gives tahsilwise details of livestock per 100 hectares.

T A B L E NO. 8

Bovine and ovine population per 100 hectares of cultivable land

Sr. No.:	TAHSIL	Cultivable land in hectares during 1972-73	Bovine & ovine population in 1972	Bovine & Ovine population per 100 hectares
1	2	3	4	5
1.	Satara	56696	98725	174
2.	Wai	39264	63101	161
3.	Khandala	29755	60864	205
4.	Koregaon	63546	90961	143
5.	Phaltan	84374	136790	162
6.	Man	104227	181825	174
7.	Khatav	93777	123493	132
8.	Karad	73884	159018	215
9.	Patan	88617	116351	131
10.	Jaoli	54271	59684	110
11.	Mahabaleshwar	6559	11268	172
TOTAL		694970	1102080	159

3.18 From the above table it will be seen that the indicator in Jaoli tahsil is very low. It is below district average in Koregaon, Khatav, Patan and Jaoli tahsils while it is higher than the district average in Satara, Wai, Khandala, Phaltan, Man, Karad and Mahabaleshwar tahsils.

3.19 The poultry population in the district in 1972 was 696273 as against 657771 in 1961 and 776198 in 1966. The human population according to 1971 census for the district was 1727376. The poultry population per 100 persons was 46 in 1961, 54 in 1966 and 40 in 1972 (population in 1966 assumed to be constant as that of 1961). Though the poultry population in 1972 seems to have increased it has not proportionately increased as compared to human population during the decade 1961-71 and hence the proportion of poultry population per 100 persons has decreased from 46 in 1961 to 40 in 1972.

CONSUMPTION OF ELECTRICITY

3.20 During the year 1960-61 there were only 7 towns and 30 villages electrified, while there were 14 towns and 565 villages electrified as on 31st March 1974. The percentage of electrified villages to total number of villages works out to 48. The per capita consumption of electricity in 1973-74 in Satara district was 35.28 Kwh. while the same was 4.53 Kwh. in 1960-61. The per capita consumption of electricity in 1973-74 has increased nearly eight times as compared to the per capita consumption in 1960-61. This increase is mainly due to increase in number of electrified villages.

ENROLMENT IN THE EMPLOYMENT EXCHANGE AND VACCANCIES NOTIFIED

3.21 The statistical data available in connection with the employment is given in the following table.

T A B L E NO. 9

No. of candidates enrolled and vacancies notified in 1960-61, 1972-73 and 1973-74.

Sr. No.:	I T E M	: Y E A R S		
		: 1960-61	: 1972-73	: 1973-74
1	2	3	4	5
1.	Candidates enrolled	6421	7300	11691
2.	Vacancies notified	1843	1247	2657
3.	Placement in vacancies	1149	533	1621
4.	Percentage of placement to Registration	18	7	14
5.	Candidates on live register at the end of the year	2398	9608	12989

3.22 Enrolment of candidates at the Employment Exchange is 82 percent higher in 1973-74 than that in 1960-61. The percentage of placement to total registration has decreased from 18 in 1960-61 to 14 in 1973-74. The number on live register at the end of the year has increased more than five times in 1973-74 as compared to that for the year 1960-61.

INCREASE IN INDOOR AND OUTDOOR PATIENTS TREATED :

3.23 The Medical facilities are being availed of by increasing number of people year after year. The following table gives the number of patients treated in public and public aided medical institutions in Satara district.

T A B L E NO. 10

Indoor and Outdoor Patients treated in Public/Public aided institutions in Satara District.

Sr. No.:	I T E M	Y E A R	Y E A R	Y E A R
1	2	1961	1972	1973
1	2	3	4	5
1.	Indoor patients	12994	66371	104091
2.	Outdoor patients	287101	562384	635797
	T O T A L	300095	628755	739888

3.24 The above table shows that the indoor patients treated in 1973 are nearly eight times more than the indoor patients treated in 1961. The outdoor patients have also doubled in 1973 as compared to the year 1961. This increase is mainly due to increase in medical facilities during the period 1961 to 1973.

INCREASE IN NUMBER OF STUDENTS IN DIFFERENT CATEGORIES :

3.25 The educational facilities have remarkably increased during last 10-15 years. At present all villages have been provided with Primary schooling facility. The following table gives the number of institutions, No. of pupils and No. of teachers in different categories of education.

T A B L E NO. 11

Sr. No.:	I T E M	Y E A R	Y E A R	Y E A R
1	2	1960-61	1971-72	1972-73
1	2	3	4	5
1.	PRIMARY EDUCATION.			
	Institutions	1453	1861	1901
	Enrolment	218102	288049	296938
	Teachers	5005	8425	8919
2.	SECONDARY EDUCATION			
	Institutions	132	250	251
	Enrolment	23112	56768	61041
	Teachers	1009	2412	2587
3.	HIGHER EDUCATION			
	Institutions	7	17	19
	Enrolment	1786	9712	12755
	Teachers	130	457	545

3.26 In case of primary education, there was an addition of

448 institutions and 36.1 percent increase in the enrolment during the period 1960-61 and 1972-73. The no. of teachers have increased from 5005 in 1960-61 to 8919 in 1972-73.

3.27 The No. of secondary institutions have increased from 132 in 1960-61 to 251 in 1972-73, while the enrolment has increased from 23112 in 1960-61 to 61041 in 1972-73 and the teachers have increased from 1009 in 1960-61 to 2587 in 1972-73.

3.28 In case of higher education also the No. of institutions have increased from 7 in 1960-61 to 19 in 1972-73. The enrolment has increased from 1786 in 1960-61 to 12755 in 1972-73.

INCREASE IN BANKING FACILITIES :

3.29 Since the nationalisation of the Banking business, the various banking companies have brought the field of agricultural and industrial development in their operation fold and are advancing loans to the agriculturists and small units of industries. The co-operative banks also have made remarkable progress by expanding their business in rural areas.

3.30 The banking offices have increased from 32 in 1960-61 to 132 as on 31-3-73 i.e. for every 13086 persons there was a banking office in Satara district. There were 52 places where these banking offices were located in the district.

INCREASE IN ROAD LENGTH

3.31 The Poona-Miraj-Kolhapur-Banglore Railway route goes through the Satara district. The total length passing through this district is about 124 Kms.

3.32 At the end of the year 1973-74 total road length of all types of roads excluding the Municipal roads was 4521 kms. The road length at the end of the year 1960-61 was 2481 kms. Thus the length per 100 sq.kms. of area increased from 24 kms. in 1960-61 to 43 kms. in 1973-74.

P R I C E S :

3.33 The consumer price index for working class of Sholapur centre will show that the general price index in 1973-74 shot up to 277 with the base year 1960. The general index for Poona centre for 1973-74 was 239 (base year 1961).

3.34 Since November 1962 prices of important commodities are being collected by the District Statistical Organisation at

each of the district head quarters on each Friday. As the prices are collected for selected commodities from selected shops they will not represent the district position but the data may still prove useful as a broad indicator of the trend in changes in retail prices over the period of time in the district. The following table indicate the average prices of some important commodities collected at Satara town for the year 1963, 1972 and 1973.

T A B L E N O. 12

RETAIL PRICES AT SATARA DISTRICT HEAD QUARTER.

Sr. No.:	COMMODITY	UNIT	PRICE DURING		
			1963	1972	1973
1	2	3	4	5	6
1.	Rice(Medium)	Kg	0.78	2.22	3.41
2.	Wheat(Medium)	Kg	0.64	1.16	2.21
3.	Jowar(White)	Kg	0.49	1.35	2.12
4.	Gram dal	Kg	0.64	1.53	2.26
5.	Arhar dal	Kg	0.97	2.19	2.73
6.	Sugar(D grade)	Kg	1.19	1.95	3.72
7.	Gur	Kg	0.94	1.87	2.23
8.	Groundnut oil	Kg	1.99	4.63	7.59
9.	Vanaspati(loose)	Kg	3.11	5.61	7.02
10.	Potato	Kg	0.42	0.91	1.20
11.	Dry Chillies	Kg	3.00	4.44	5.50
12.	Tea (leaf)	Kg	7.20	10.56	11.00
13.	Kerosene	Litre	0.43	0.64	0.69
14.	Shirting	Meter	1.44	2.83	4.01
15.	Cigarattes	10 Nos.	0.34	0.74	0.86
16.	Washing Soap(501 Bar)	501Bar	1.55	2.10	2.23

3.35 From the above table it will be seen that prices of all commodities have increased during the period 1963 to 1973. The increase in almost all the commodities is remarkable.

CHAPTER - I V

ANNUAL PLAN 1973-74

4.1 The year 1973-74, under the review was the fifth and last year of the Fourth Five Year Plan. During the year 1973-74 an amount of Rs. 378.37 lakhs was spend on various district level schemes out of which Rs. 217.09 lakhs were spent in State Sector, while rest of the amount viz. Rs. 161.28 were spent in local sector. Apart from this an amount of Rs. 55.16 lakhs was spent on Centrally Sponsored Schemes.

4.2 The following table gives the major headwise expenditure incurred during the year 1973-74 and during the Fourth Plan.

T A B L E NO. 1

Expenditure incurred during the year 1973-74(State Plan)
(Rs. in 0.00 lakhs)

Head of Development	Expenditure incurred in: IVth Plan : (1969-70 to : 1973-74) : TOTAL	Expenditure incurred during 1973-74			Percentage to total expenditure
		State	Local	Total	
1	2	3	4	5	6
1)Agricultural Programme	675.87	69.70	28.04	97.74	25.8
2)Co-operation & Community Development	51.43	1.79	9.55	11.34	3.0
3)Irrigation & Power	94.89	28.89	-	28.89	7.6
4)Industry & Mining	62.02	35.65	-	35.65	9.4
5)Transport & Communications	187.89	18.08	21.48	39.56	10.5
6)Social Services	570.88	60.67	102.21	162.88	43.1
7)Miscellaneous	10.53	2.31	-	2.31	0.6
T O T A L	1653.51	217.09	161.28	378.37	100.0

4.3 From the above table it will be seen that out of the total expenditure incurred, 43.1 percent was incurred on social services followed by Agricultural Programmes 25.8 percent, Transport and communications 10.5 percent, Industry and Mining 9.4 percent, Irrigation and Power 7.6 percent, Co-operation and Community Development 3.0 percent and Miscellaneous programmes 0.6 percent.

4.4 In the year 1973-74 84 schemes were implemented out of

which 54 schemes were implemented in local sector and 5 schemes in both state and local sectors.

4.5 AGRICULTURAL PROGRAMMES :

During the year 1973-74 high priority was given to this major head of development under which important schemes relating to grow more food, Minor Irrigation Schemes, Soil Conservation etc. were executed in Satara District.

The following table gives the sub-head wise expenditure incurred.

T A B L E N O. 2

Sub-Head wise Budget and Expenditure incurred in SATARA District during 1973-74

(Rs. in 0.00 lakhs)

Sr. No.:		Budget Provision:	Expenditure incurred
1	2	3	4
1.	Agricultural Production	7.31	7.42
2.	Minor Irrigation	70.22	53.66
3.	Soil Conservation	37.90	32.87
4.	Animal Husbandry	0.34	0.31
5.	Dairy Development	0.89	0.81
6.	Forest	1.37	1.36
7.	Fisheries	0.13	0.07
8.	Warehousing & Marketing	1.25	1.24
T O T A L		119.41	97.74

4.6 From the above table it will be seen that nearly 82 per cent of the total provision was expended under this programme. The proportion of expenditure under Minor Irrigation and Soil Conservation was comparatively less than the budgeted provision.

4.7 AGRICULTURAL PRODUCTION :

Under this sub-head main physical achievements are (1) 10153 M.Tons of town compost, (2) 17820 hectares covered under intensive cultivation, (3) 210 hectares covered under horticulture and (4) Plant Protection demonstration plots in 37 villages.

4.8 MINOR IRRIGATION :

Under this programme subsidy to 474 new wells and 318

~~electric pumps was given.~~ Two lift irrigation societies were assisted by providing loans and work of one handhara and 25 percolation tanks was completed.

4.9 SOIL CONSERVATION :

Under this programme three schemes were implemented under which contour bunding in 5361 hectares, terracing in 712 hectares, reclamation of saline and alkaline lands of 12.5 hectares (IIIrd year operation) was completed.

4.10 DAIRY DEVELOPMENT :

During the year the Govt. Milk Supply Scheme, Mathabaleshwar had handled 2218 litres of milk daily. Financial assistance to 54 Milk Societies was also provided under this programme.

4.11 FORESTS :

In all four schemes were implemented under this sub-head. Works relating to Development of Minor Forest Produce, Farm Forestry, Plantation of bamboo and general utility timber and Fodder development were undertaken under these schemes.

4.12 FISHERIES :

Under the scheme Fish Seed Production of 31 lakhs of spawn was achieved. Under the scheme Fish Farming in Impounded Water 1.56 lakhs were stocked and 36000 Kgs. of fish were netted.

4.13 WARE HOUSING AND MARKETING :

Under this sub-head 3 societies were provided loan and 5 societies were provided subsidy.

4.14 CO-OPERATION AND COMMUNITY DEVELOPMENT :

Under this Major head, 6 schemes under Co-operation and 3 schemes under community Development were implemented. Important physical achievements under their sub-heads are given in the following table.

T A B L E N O. 3

Sr. No.:	I	T	E	M	UNIT	Achievement during 1973-74
1	2				3	4
1.	Share Capital/Subsidy to Co-operative Marketing				Societies	1/1
2.	Share Capital to Co-operative Consumer Stores				No.	2

1	2	3	4
3.	Loan to Farming Societies	Societies	2
4.	Share capital to labour Contract Societies	--"---	2
5.	Assistance to Block level societies of Balutedars	--"---	11
6.	Composite programme for Women and Children	Mahila Mandals assisted.	10

Apart from above achievements all the eleven C.D.Blocks were continued under the C.D. Programme.

4.15 IRRIGATION AND POWER :

Only one scheme viz. Rural Electrification was implemented under this head under which 7 villages were electrified and 448 electric pumps were connected during the year 1973-74.

4.16 INDUSTRY AND MINING :

Under this head three schemes were implemented during the year 1973-74 under which rebate for handloom cloth and share capital to two co-operative sugar factories was given.

4.17 TRANSPORT AND COMMUNICATION :

Under this head 5 schemes were implemented during the year 1973-74 . District roads measuring 18 kms. under local sector and 36 C.D. works was completed. Roads in hilly areas measuring 4.9 Kms. and 20 C.D.Works, under the scheme Roads in hilly areas was completed. Under the scheme Roads through public participation, 5 C.D. works and construction of 12 Kms of road was completed. Black topping of one road was also completed during the year.

Under tourism work of Development of Pratapshiha Park at Mahabaleshwar was in progress during the year 1973-74.

4.18 SOCIAL SERVICES :

This major head of development has significant place in the Annual Plan for the year 1973-74, and important schemes relating to General and Technical Education, Public Health, Water Supply, Housing, Backward Class Welfare etc. were executed through various implementing officers.

Sub-headwise budget expenditure incurred during the year 1973-74 is given in the following table.

T A B L E N O. 3 (Rs. in lakhs)

Sr. No.	S U B - H E A D	Budget 1973-74	Expenditure 1973-74
1	2	3	4
1.	General Education	93.72	96.42
2.	Technical Education	0.94	0.61
3.	Health & Family Planning	2.08	0.33
4.	Water Supply & Drainage	73.55	63.67
5.	Housing	0.34	0.26
6.	Urban Development	1.86	0.63
7.	Backward Class Welfare	0.54	0.52
8.	Social Welfare	-	-
9.	Labour & Labour Welfare	0.27	0.44
T C T A L		172.80	162.88

4.19 From the above table it will be seen that 94 percent of the total provision was utilised under various sub-heads during the year 1973-74.

4.20 GENERAL EDUCATION :

Under this sub-head schemes relating to primary education, secondary education, higher education, scholarships etc. were executed during the year 1973-74.

Following are the main physical achievements during the year 1973-74.

T. A. B L E N O. 4

Sr. No.	I T E M	UNIT	Target Fixed	Achievement
1	2	3	4	5
1.	Appointment of Primary Teachers	No.	1613	1613
2.	Development/expansion of non-Govt. Secondary Schools	No.	67	67
3.	Scholarships	Beneficiaries	116	116
4.	Loans to Primary teachers under Training	"	32	32
5.	Inservice training	"	357	192
6.	School Complex	No.	1	1
7.	Development of Technical High Schools	No.	2	2

4.21 TECHNICAL EDUCATION :

Under this sub-head two polytechnics were developed during the year 1973-74.

4.22 HEALTH AND FAMILY PLANNING :

Under this sub-head only one scheme was implemented under which one quarter for P.M.C. staff was constructed.

4.23 WATER SUPPLY AND DRAINAGE :

Under this programme 3 schemes were implemented during the year 1973-74 under which 93 wells, 17 piped water supply schemes were completed. In addition to this 27 water supply schemes in rural area and municipal water supply schemes were in progress during the year 1973-74.

4.24 HOUSING :

Under this programme two schemes were implemented. Work of extension of village gaothans in 9 villages was in progress and 45 houses were provided assistance for tilling of roofs.

4.25 URBAN DEVELOPMENT :

Financial assistance amounting to Rs. 1.30 lakhs was provided to municipal councils for their development plans.

4.26 WELFARE OF BACK WARD CLASSES :

Five schemes were implemented under this sub-head during 1973-74. Under this programme (1) 350 pupils were provided tuition fees (2) three persons of B.C. were benefitted from development of their land (3) housing aid for 21 societies was provided and (4) Share capital to 46 members of mixed co-operatives was given under this programme.

4.27 OTHER PROGRAMMES :

Under this programme two schemes were implemented. Installation of 56 radio sets was completed under the scheme Rural Broadcasting. The other important scheme under this programme is Employment Guarantee scheme under which 7 village tanks were completed and work of one percolation tank and 13 roads was in progress during the year 1973-74.

4.28 CENTRALLY SPONSORED SCHEMES :

Apart from the above schemes an amount of Rs. 55.16 lakhs was incurred under various schemes during the year 1973-74 under Centrally Sponsored Schemes.

The break-up of expenditure under various heads of development is given below :

T A B L E N O . 5
(Rs. in 0.00 lakhs)

Sr. No.:	HEAD OF DEVELOPMENT	Amount spent during 1973-74
1	2	3
1.	Agricultural Programmes	26.37
2.	Social Services	24.46
3.	Other Programmes	4.33
T O T A L		55.16

4.29 The schemes relating to cash crops such as development of Soyabin, Sunflower, Sugarbeet etc. and scheme for timely reporting of Agricultural statistics were implemented under the head Agricultural Programmes.

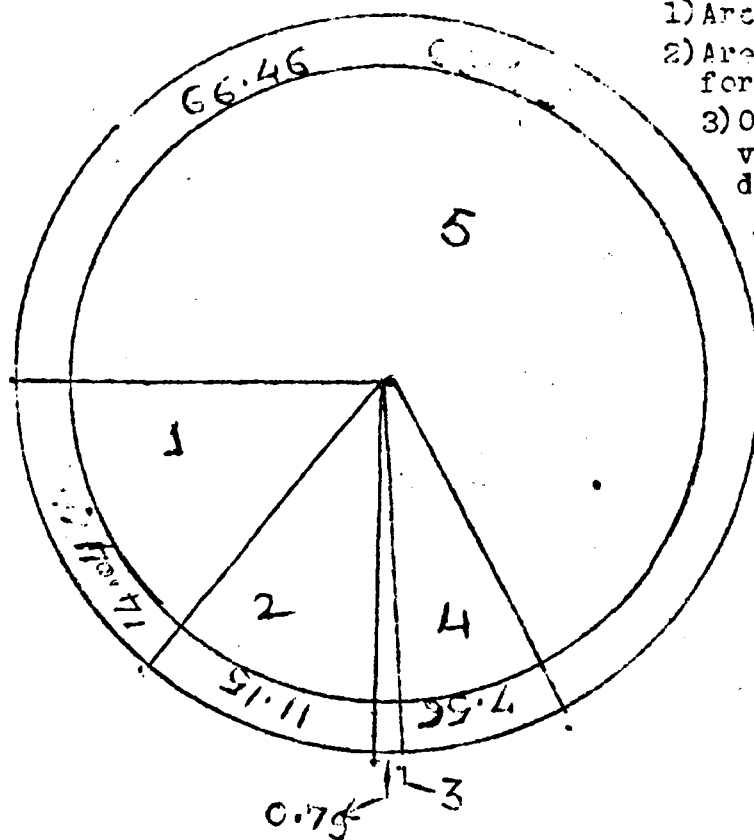

Under social services 252 educated unemployed were absorbed as Primary teachers, 700 teachers and 3 A.D.E.I.S. were also appointed under special scheme.

Schemes relating to health viz. Family Planning, Small Pox, Cholera and Malaria Control were implemented under the Programme Public Health. Under the scheme Family Planning 6537 operations were carried out during the year 1973-74

Under the programme welfare of Backward Classes 50 students were provided tuition fees, scholarships etc. and two V.J. persons each were benefitted for constructions of wells and development of land.

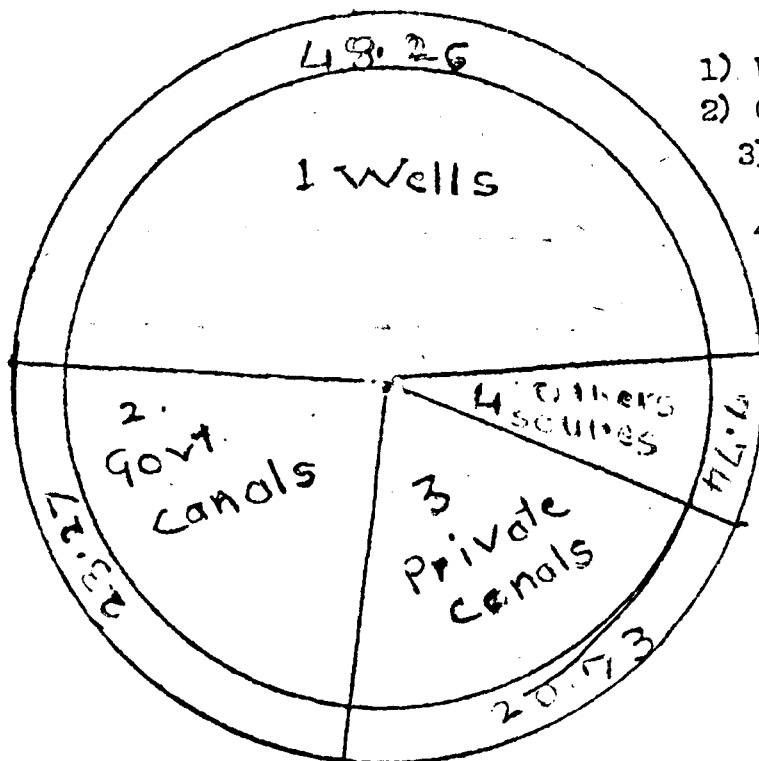

Under Crash scheme for rural employment work of 1 bandhara and 7 percolation tanks was completed during the year 1973-74.

1) LAND UTILIZATION FOR 1971-72 IN SATARA DISTRICT

- 1) Area under Forest
- 2) Area not available for cultivation
- 3) Other uncultivated land including fallow land.
- 4) Fallow Land
- 5) Net area sown

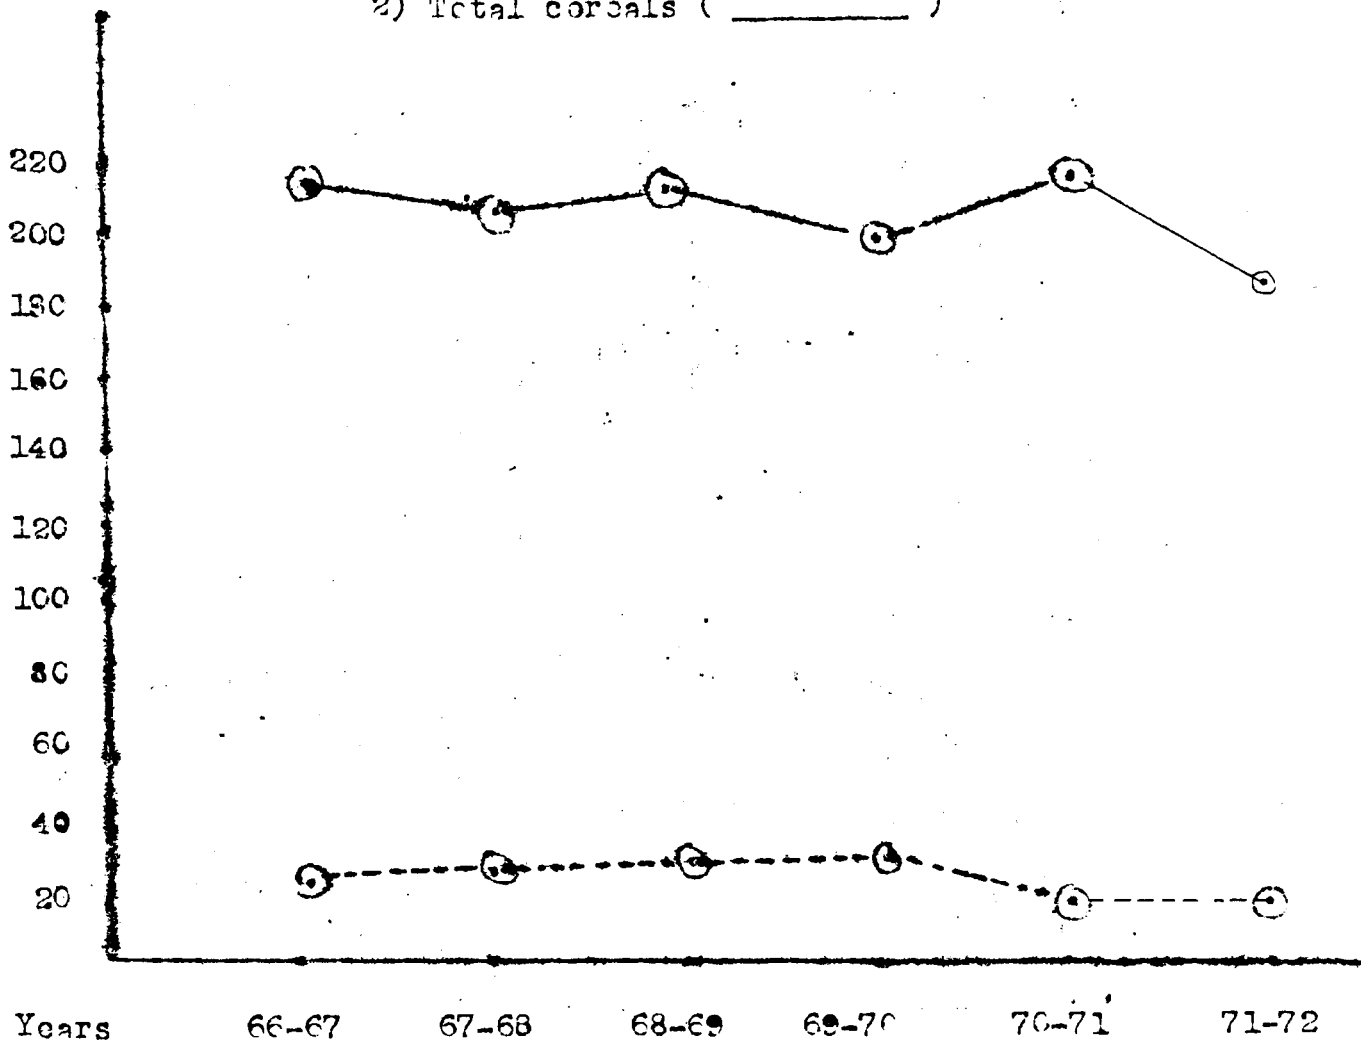

2) SOURCEWISE IRRIGATION FOR 1971-72 IN SATARA DISTRICT.

- 1) Wells
- 2) Govt. canals
- 3) Private Canals
- 4) Other sources

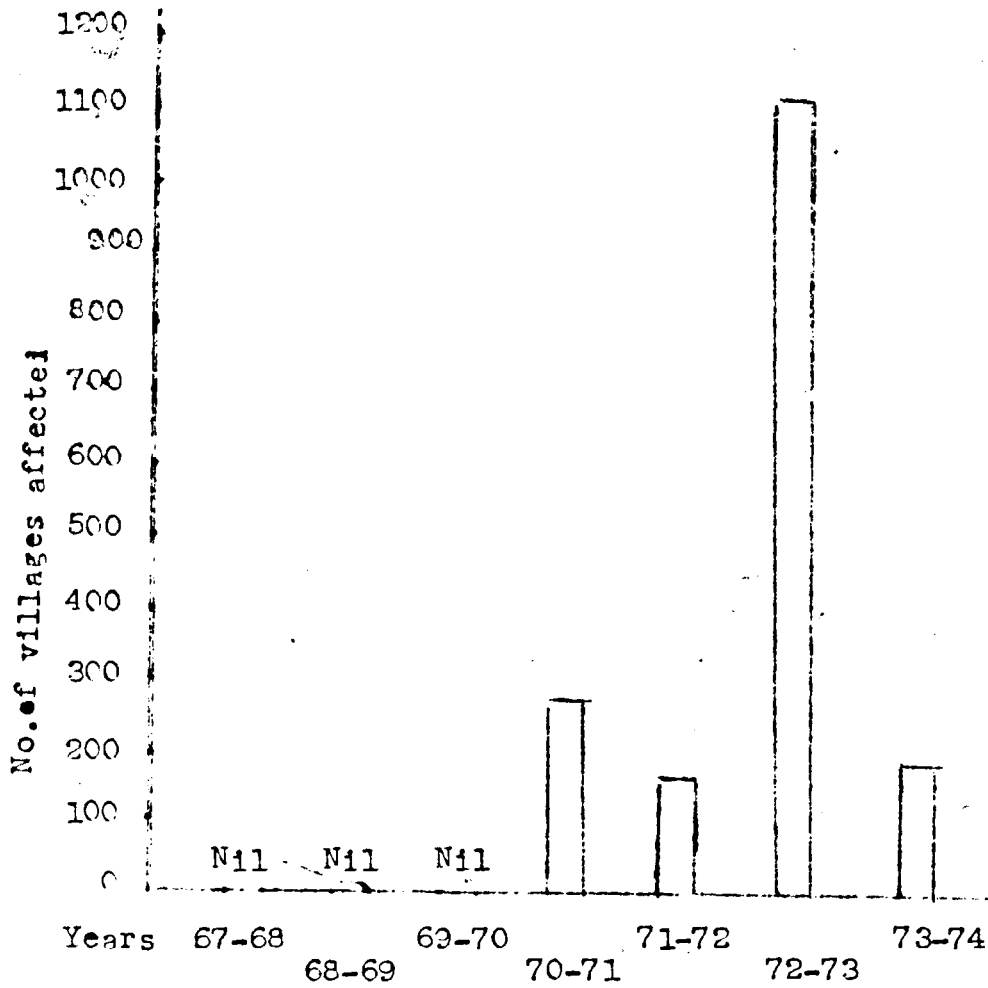

3) OUTPUT OF TOTAL CEREALS AND TOTAL PULSES FROM 1966-67 TO 1971-72 IN SATARA DISTRICT.

- 1) Total pulses (- - - - -)
- 2) Total cereals (_____)

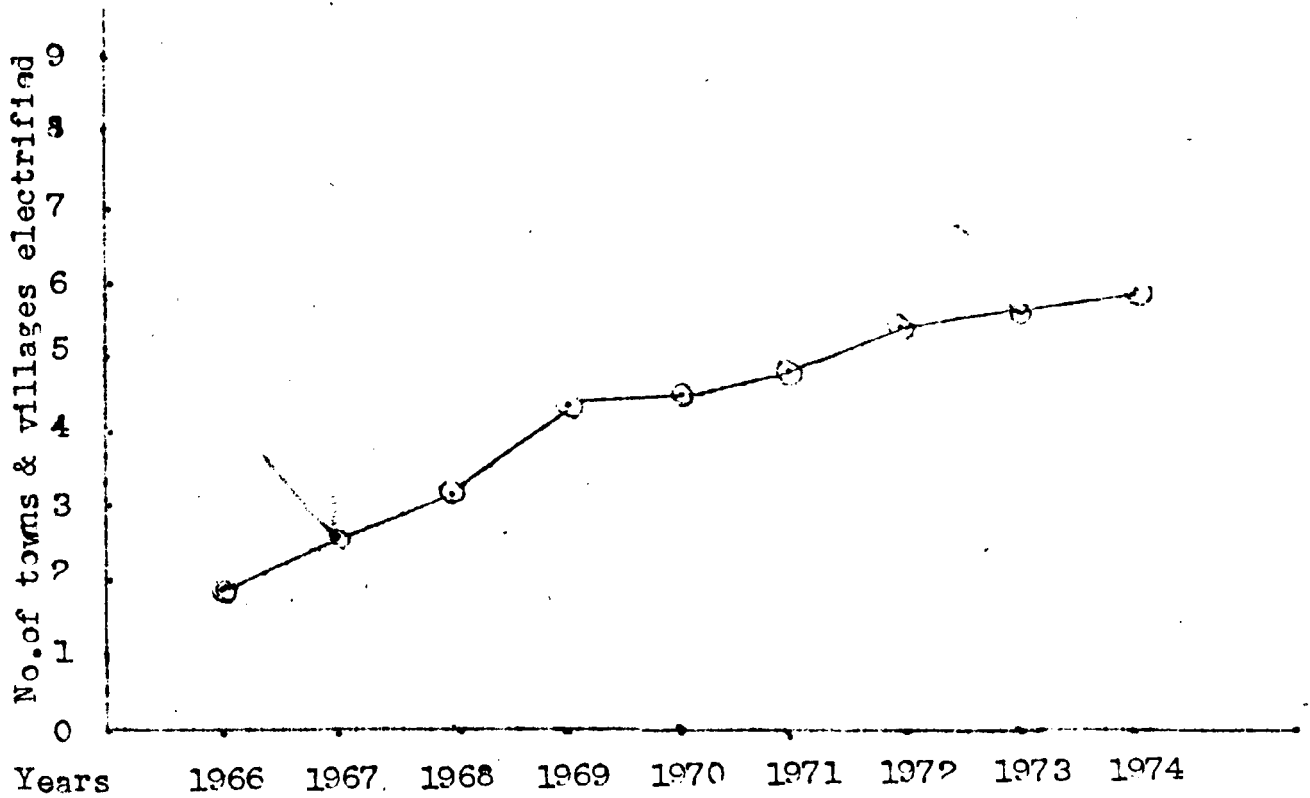

Scale : 1 cm. = 20,000 M.Tonnes

4) VILLAGES AFFECTED BY SCARCITY IN SARDAR
DISTRICT DURING 1967-68 TO 1973-74.

Scale : 1 cm. = 100 villages.

5) TOWNS AND VILLAGES ELECTRIFIED IN SATARA DISTRICT SINCE 1966 - 67 .

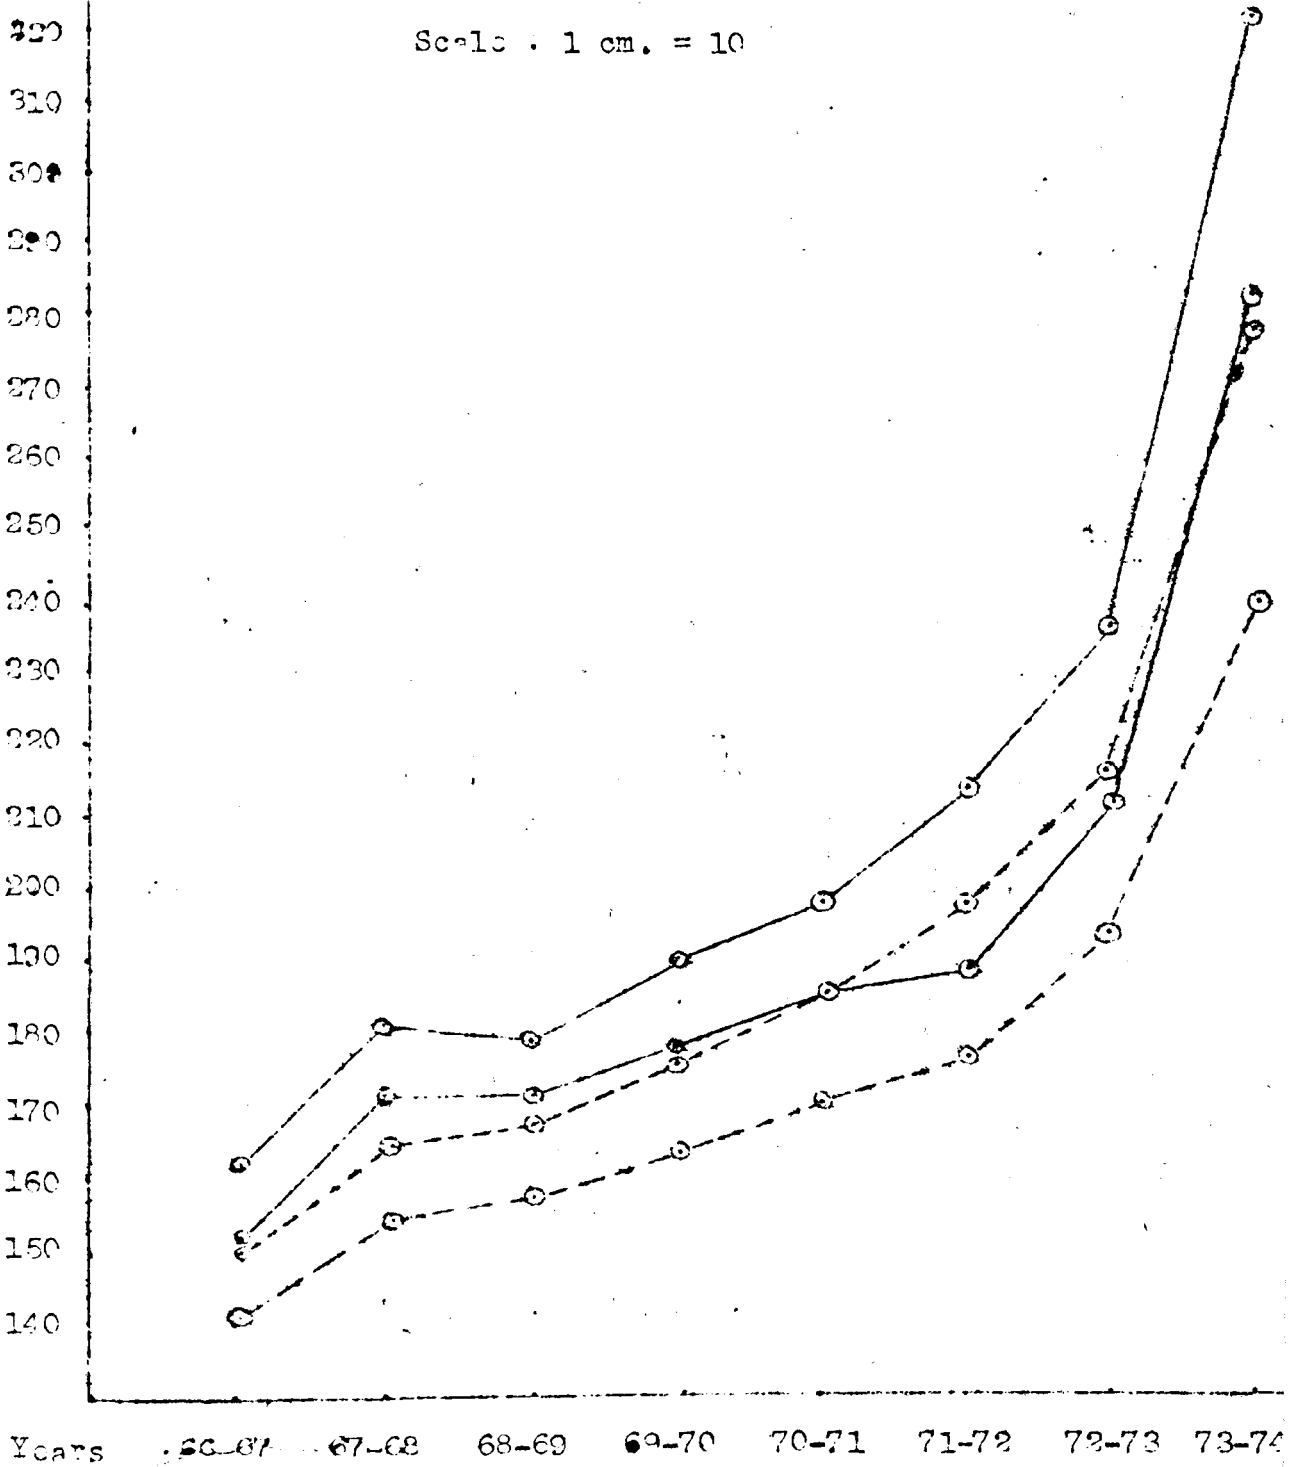

Scale :- 1 cm. = 100 Villages & Towns.
