SOCIO ECONOMIC REVIEW OF YAVATMAL DISTRICT

1980-81.

CHAPTER - I.

I N T R O D U C T I O N.

1.1 Location :-

Yavatmal District is one of the district of Nagpur Division of Maharashtra State lying between $19^{\circ}.26'$ and $20^{\circ}.42'$ North latitude and $77^{\circ}.18'$ and $79^{\circ}.98'$ East longitude. Most of the district belongs to the Balaghats i.e. the Southern plateau of Berar.

1.2 Boundries.:-

It is surrounded by Amaravati district in the North by Akola and Parbhani districts in the West, by Nanded and Adilabad (Andhra Pradesh) districts in the South, and by Chandrapur and Wardha districts in the East. The district is quite extensive in size ranking second in Nagapur Division while eighth in the State.

The district has natural boundary in the East and South. The Wardha river separates the district from Wardha and Chandrapur districts in the East, While in the South Painganga river separates it from Nanded district and Adilabad district of Andhra Pradesh.

1.3 Administrative Set Up :-

The Zilla Parishad and Fourteen Panchayat Samities have been formed in the district on 1st May, 1962. The Zilla Parishad is responsible for the development of the entire area in the district excluding municipal areas. The Panchayat Samiti covers the area of earst while community development blocks. There are eight municipal councils to look after the development of urban areas. There are 49 directly elected

councillors in the Zilla Parishad. Out of these two seats are reserved for Scheduled Castes and seven for Scheduled Tribes. In addition, there are five associated members who are the presidents of the five different Co-operative Societies. Two lady members have also been coopted. An elected Chairman of each Panchayat Samiti is also ex-officio Councillor of the Zilla Parishad. The Zilla Parishad is headed by President assisted by vice-president, both of them are elected from the elected councillors. The Chief Executive Officer, looks after the administration of the Zilla Parishad. For the administration purpose, there are various departments of the Zilla Parishad carrying out different functions. The Deputy Chief Executive Officer (General) works as a secretary to Zilla Parishad. The Zilla Parishad functions through a standing committee, presided over by president and seven sub-subject committees viz. 1) Finance,

- ii) Works
- iii) Agriculture
- iv) Animal Husbandary and Dairy Development
- v) Education
- vi) Health and
- vii) Social Welfare.

The Panchayat Samiti consists of elected and coopted councillors from the area of the Panchayat Samiti. The Panchayat Samiti has elected Chairman and Vice-Chairman. The Block Development Officer, works as a Secretary to Panchayat Samiti.

There are 1121 village panchayats in the district. There is a Sarpanch for a village panchayat who is elected the ^{elected} members from the village or group of villages in that village panchayat. The Sarpanch and in his absence Up-Sarpanch looks after the development activities at village level. The Gram-sevak works as Secretary of the village panchayat.

1.4 Area and Territorial Change :-

The area of the district is 13,925 Sq.Kms. It forms 14.28% of the area of the Nagpur Division and 4.53% of the area of the State. It's maximum length from East to West is 192 Kms. Whereas its maximum breadth from North and South is 160 Kms. Out of the total area, about 94.34% (13,833.9 Sq.Kms.) area belongs to rural part of the district.

Yavatmal District is among the four districts of the old Berar, handed over by the Nizam to the Govt. of India in 1853 A.D. It was a part of East Berar District upto 1963 A.D. A new Wun (Wani) district was formed by separating Yavatmal, Kelapur, Wani and Darwaha talukas from East Berar district in 1864 A.D. Pusad taluka of Basim district was transferred to this Wun district in 1905 and Yavatmal district was newly constituted in that year. There were no major changes in the constituents of the district till 1956, when the district was transferred from Madhya Pradesh State to the then bilingual Bombay State w.e.f. 30-11-1956, due to States Reorganisation. At present it is a part of Nagpur Division of the Maharashtra State since 1st May, 1960.

The earlier reference of Yavatmal is traced back in 'Ein-Akbari' as Yeot-Lohara, which was one of the mahals of Emperor Akbar. Lohara is a village situated on Amaravati road at a distance of 3 Kms. from Yavatmal.

The origin of the word 'Yeotmal' appeared in the grammar book 'Siddhaeim' written by Hemchandra (1088 to 1172 A.D.) and its meaning is hidden in mal i.e. Ghats or hillocks or mountains. Yeotmal is naturally surrounded by hillocks on all sides.

1.5 Topography :-

The district has an undulating topography. The whole district is covered by the Ajantha ranges broken by broad river valleys and partially surrounded by plains. The central portion of the district is a plateau with steep ghats with an elevations of 300 to 500 metres above mean sea level. Both Painganga and Wardha rivers with their tributaries provide strips of plains in many parts along their courses. The width of these plains varies from 5 to 15 Kms.

1.6 Hills, River-System, Soil etc. :-

The whole district is covered by small East-West ranges of the Ajantha mountains. The offshoots of the Ajantha ranges are, at places, broken by the broad valleys of the tributaries of Painganga and Wardha rivers.

Wardha and Painganga are the main rivers in the district, both of them flow along North-Eastern and Southern boundaries of the district respectively. They have numerous tributaries traversing in the middle of the district. The bed of the Wardha river is broad and deep still the banks suffer from floods many a times. Wardha has two tributaries viz. Bembla and Nirguda. Nirguda has its entire course in Wani tahsil, while the Bembla flows across the north of Yavatmal tahsil below the ghats. The other river Painganga has six important tributaries viz. Pus, Arunavati, Adan, Waghadi, Khuni and Vidarbha. Pus flows through Busad tahsil, Arunavati and Adan through Darwaha tahsil and Vidarbha flows through Wani tahsil. All the rivers with their tributaries maintain their flow for a greater part of the year and assist drainage system of the soil.

The soils in the district as a whole are uniformly good in texture, but in colour from black to dark brown. They are, however, slightly inferior in fertility to these in Akola and Amaravati districts. The soils of the district, mainly suffer from the mixture of pieces of Chukhadi (Limestone), sloping surfaces and excessive admixture of sand. However, the soil varies from very fertile alluvial tracts in the valleys to hills and hard parts on the plateaus.

In Wani taluka the soil is uniform but coarse in texture and of a redish colour. In Kelapur tahsil and Central Southern parts of Yavatmal tahsil and hilly parts of Pusad tahsil, the soils are coarse gravelly of loose friable texture and of colour varying from light brown to grey. The rich fertile alluvial soils are found in Western parts of Yavatmal tahsil and in middle of Darwaha and Pusad tahsils.

The district can be divided into three natural Zones, viz. 1) The Bembel-Wardha basin in the North, 2) The plateau part at the Central and in the South West part of the district and 3) The plain fertile lands of the Pus-Painganga basin in the South.

1.7 Minerals :-

Limestones and coal are the only important minerals found in the district. The limestone in cement grade variety is found near Chanakha in Kelapur tahsil. There is only one coal field near Pisingaon in Wani tahsil near Rajur.

1.8 Climate, Temperature and Rainfall :-

The climate of the district is in general hot and dry with moderately cold winters. The temperature ranges from 9.0°C to 38.4°C in Winter and 16.3°C to 45.2°C in the summer during 1980. Highest temperature for Yavatmal is 45.2°C and minimum is 9.0°C .

The South West monsoon brings rains to the district. The rainy season lasts from June to October. The intensity of rainfall is highest in the month of August. The normal rainfall varies from 918 mms. to 1146 mms. In the past few years the monsoon is not well spread through out the year and very irregular. It is also not uniform in the district. Pusad tahsil got lowest rains of 840 mms. While Yavatmal taluka got 1219 mms. of highest rains.

1.9 Demography :-

The total population of the district is 14,23,677 as per 1971 census. The percentage of increase in the population of the district works out to 29.61% in the last decade. The density of the population increased from 79 persons per Sq.Km, (210 persons per Sq.mile) in 1961 to 102 persons per Sq.Km. (272 persons per Sq.mile) in 1971. Similarly the literacy percentage also increased from 23.48% 31.56% during the decade. The progress made in the literacy is outstanding in contents to the large tribal population and a small (13.65% of the total population) proportion of urban population. As regards working force in the district, it is seen that there were 43.32% workers enumerated in the total population of the district at 1971 census. Out of the total working population in the district 26.50% are engaged as cultivators, 57.52% as Agricultural labourers and 15.98% in different services. The remaining 56.68% population of the district was non-workers including dependents.

1.10 Special features - Latest and Important developments in the District. :-

(1) Industry :-

Yavatmal is one of the industrially backward district of Vidharbha Region. Which itself is industrially under developed region of Maharashtra State. There is a meagre number of large sized industries in this district. The cottage and traditional village industries like Smithy, Carpentry, Pottery, Weaving, Oil crusing, Bockary, Shoe-making, Roap making Bricks and Tiles making are still existing. There are number of small industries like ginning and pressing, Oil mills, Saw mills established mostly at taluka headquarters. Lime factories are established at village Rajur in Wani taluka.

Major type of industries are agriculture based like Oil and Dall mills, Cotton ginning and Pressing and Food processing. The Forest based industries like Saw mills are seen mostly concentrated in Yavatmal, Darwaha and Wani talukas. The Lime manufacturing units are almost entirely concentrated in Wani taluka at village Rajur as Limestone deposits are found in its perryferry. The buildings material units especially brick kilns are also significant in Wani and Yavatmal Talukas. The engineering fabrication and structural industry mainly in the form of workshops including welding and other repairing units constitutes single largest group. These units seem to be located in semi-urban areas of Yavatmal, Darwaha and Fusad Talukas. The Oil mills and Cotton processing units providing business to these workshops. The food processing and beverage units mostly include manufacturing of Soda-Water & Bakery.

1) Yavatmal Zilla Sahakari Soot and Kapad Girni, Maryadit, Pusad, 2) Vasant Sahakari Soot and Kapad Girni Maryadit, Pandharkawada and 3) Vasant Sahakari Sakhar Karkhana, Pophali, Tq. Pusad are the only large industry units in this district.

(II) Forest :-

Forest occupy 3.72 lakh Hectares of area representing nearly 20 % of the total area of the district. Timber, bamboo, leaves, grass, firewood & gums are the important forest products. There is a large scope for establishing forest based industries in this district such as Saw mills, Furniture making, Door and Window frames and Pencils & Toy making.

(III) Minerals :-

Mineral resources of the district are limited to limestone and Coal. Extensive deposits of limestone of Cement and Flux grade occur in Rajur-Wani-Chanaka belt, Mukutban area and Gaurala belt, Chanaka-Bhivkund belt. Resources of coal are in the area beyond Pisgaon to Warora. Additional resources in Warud-Chincholi and Chincholi-Pisgaon blocks are also reported. Area covered by Kumbha-Astona, Kuned-Peteli, Wani-Paluda are also reported to be coal bearing deposits in these regions.

A cement plant is proposed to be set up at Chanaka in Wani taluka. The Development Corporation of Vidharbha Limited is actually promoting one mini-cement plant in this area. The Maharashtra State Mining Corporation (a State owned undertaking) has obtained a letter of intent for manufacturing dead burnt dolomite (used for lining of furnaces) near Wani. Thus, in the medium and large scale sectors, steps are being taken up for the exploitation of these resources. The small

scale units such as 1) Precipitated Chalk, 2) Dolomite Powder (mixed with detergents for washing utensils), 3) Hydraulic lime (as a substitute for cement), 4) Dis. tempers can be established based on the availability of limestone.

(IV) Irrigation :-

The works of i) Upper Painganga, ii) Arunavati major irrigation projects having gross command areas as 1230 Hectares and 30870 hectares respectively are in progress.

The work of i) Pus, ii) Nignoor, iii) Takhi and iv) Saikheda medium irrigation projects have been completed the gross command area of which is 44330 hectares.

The works of i) Waghadi, ii) Goki, iii) Lower Pus, iv) Sakhali, v) Deogaon, vi) Antargaon, vii) Adan and viii) Borgaon medium irrigation projects of which gross command area is 40260 hectares are in progress.

135 minor irrigation projects having gross command of 20370 hectares, have been completed and 135 minor irrigation projects having gross command of 12240 hectares are in progress.

Apart from this 9 lift irrigation projects having gross command of 2310 hectares have been completed.

During 1980-81, Rs. 64.43 lakhs which were received have been distributed to 4466 out of which 764 from Scheduled Castes and Scheduled Tribes families which were below poverty line in this District under I.R.D.P. for their economic uplift.

(V) Fishery :-

The total area brought under pisciculture in this district is 4450 hectares from which inland fishery production was 626 M.tons during the year under reference. The catch value of the producers was Rs. 31.25 lakhs. Carp fry used for pisciculture were 37.50 lakhs. The inland fishery is done in all 5 Tahsils of the district.

(VI) Electrification :-

Out of total 1931 villages 1617 villages are inhabited. By end of 1980-81, 1382 villages and 19305 agriculture pumpsets were provided electricity.

(VII) Tribal Sub-Plan :-

Tribals are the weakest amongst among the weaker sections of the society, and because of their poverty and seclusion they could not desire the benefits of the various schemes implemented during the past four five year plans to the extent desired. With a view therefore, to remove this shortcoming the Government of India have decided to ensure the development of the tribal people by formulating a special sub-plan for tribal area. According to the directions and guidelines received from the Government of India from time to time the State Government has prepared a separate sub-plan for tribals.

Accordingly, 285 villages in the tahsils of Pandharkawada & Wani are included in Tribal Sub-Plan and 189 villages in the tahsils of Yavatmal, Pusad and Maregaon Panchayat Samiti in Wani tahsil are included in Additional Tribal Sub-Plan. Thus, 474 villages and one Municipal town

of Pandharkawada are included in Tribal Sub-Plan for the uplift of the tribals in the district and as such separate plan provision earmarked. Removal of exploitative practices constitutes an important aspect in these tribal areas. With this object in view Government has recently taken steps through appropriate legislation to :

1) Prevent alienation of tribal's lands to non-tribals and 2) Return to the tribals their lands alienated to non-tribals. There is a Regional Office of the Tribal Development Corporation at Yavatmal which ameliorates the livings of tribals in the district through purchase of forest and agricultural products of tribals.

The money-lenders & traders have been exploiting the tribals; and this is one reason why the benefits of the plan efforts could not fully reach the tribals. Government has already taken steps to give total relief for debts to Scheduled Tribes & certain categories. Establishments of the Adiwasi Co-operatives to meet the credit, marketing & other requirements in the area will fill in the void created by the money lenders. The financial assistance is given to such Adiwasi Co-operatives.

CHAPTER - II.

EXPLANATORY NOTES ON THE SCOPE AND LIMITATIONS
OF THE STATISTICAL DATA PRESENTED IN PART - II
(DISTRICT STATISTICAL ABSTRACT).

I. Purpose :-

The statistical Abstracts part of this publication contains exhaustive statistical data on important socio-economic aspects. Tables on almost all important topics are presented in this part, so that, this publication could serve as a reference book for various purposes. Panchayat Samiti-wise and tahsil-wise information has been furnished where-ever possible for inter Panchayat Samiti or inter-tahsil comparison or finding out regional imbalance if any. The data presented in this publication pertains mostly to the year 1980-81 as per the requirements of the tables. The data for the latest available year have been given, where the data for the reference year could not be presented. The latest available data of population census 1971 and live-stock census 1973 have been indicated. Almost all data have been collected from the concerned State and Central Government Offices, local bodies and other relevant agencies. The foot notes below each table indicate the sources from which the data have been collected.

II. District at a Glance :-

This table gives a birds eye-view of important items relating to the Socio-Economic Development in Yavatmal District and the Maharashtra state under different heads such as area, population, agriculture, animal husbandry, education, health, transport and communication, plan and community development programme, local bodies and other relevant statistics at a glance. Reference year of the data is also indicated in the table.

III. Contents, Scope and Limitations :-

The statistical tables presented in the Statistical Abstract are grouped into 13 parts. The contents of the tables and the scope and limitations of the data displayed under each group are described here under :-

1. Area and Population :-

The data for 1971 census are furnished in all the seven tables. The reference period for the 1971 census was the sunrise of 1st March, 1971.

Table No. 1.

This table indicates Panchayat Samiti-wise area, density of population per Sq. Km., number of villages and towns, number of occupied houses and house-holds and sex-wise rural, urban and total population. The area figures are given in Sq.Kms. (1 Sq. Km. = 0.386 Sq. miles).

Table No. 2.

This table presents sex-wise rural, urban and total population enumerated in 1951, 1961 and 1971 censuses alongwith the decadal percentage variations for the district as well as for each tahsil.

Table No. 3.

This table gives Panchayat Samiti-wise classification of inhabited villages according to different population ranges in the district. The term village (i.e. rural areas) used in the table denotes a revenue village having well defined boundaries and a separate set of land records irrespective of the fact whether that defined area has any population or not. Hamlets, Wadis, Padas have not, the refore, been classified as separate villages, similarly the Revenue villages which do not have any residential population are shown as un-inhabited or deserted villages. The term village includes

forest village comprising mostly of forest labourers and their families. The population of the villages in each population range is also shown in this table. The total number of inhabited and uninhabited villages are also indicated separately.

Table No. 4.

This table displays taluka-wise classification of towns in the district according to different population ranges. Total population of the towns in each population range is also given in the table.

Table No. 5.

This table gives Panchayat Samiti-wise classification of population into workers and non-workers according to standard livelihood classes. A person is defined as a worker if (a) he has had some regular work for more than ~~an~~ an hour for a day in greater part of the working season in case of seasonal work like cultivation, livestock dairying, household industry etc., and (b) in case of regular employment in any trade, a professional service, business or commerce, he was employed during any of the fifteen days preceeding the day of enumerator's visit to the household.

Beggars, pensioners, agricultural or non-agricultural, royalty receivers, rent of dividend receivers etc. Who earn an income, but who are not participating in any productive work in any occupation and persons who had been offered work but not joined the work, have been classified as non-workers.

Table No. 6.

This table indicates distribution of population according to (a) age group and (b) religion separately for rural and urban areas and for the district as a whole as 1971 census.

Table No. 7a.

This table presents the Panchayat Samiti-wise data of Scheduled Castes/Tribes notified and Neo Buddhists for this district in 1971 census.

The notified castes and tribes were as under :-

Scheduled Castes :-

1. Bajna or Bahana.
2. Balahi or Balai.
3. Basor, Bured, Bansor or Bansodi.
4. Chamar, Chamari, Mochi, Mona, Rohidas, Ramarami, Satnami, Surjavanshi, or Suryaramnami.
5. Daher.
6. Dam or Dumar.
7. Ganda or Gandi.
8. Ghasi or Ghasia.
9. Kaikadi.
10. Katia or Patharia.
11. Khatik, Chikwa or Chikvi.
12. Madgi.
13. Mahar or Mehra.
14. Mang, Dankhi-Mang, Mang-Mahashi, Madari, Garudi, Mang-Garudi or Radha-Mang.
15. Nant-ar or Bhahgi.
16. Sansi.

Scheduled Tribes :-

1. Andh.
2. Baiga.
3. Bhaina.
4. Bhatta, Bhunia or Bhunhar-Bhuria including Pande.
5. Bhattra.
6. Bhunjia.
7. Bhil.
8. Binjwar.
9. Birhul or Birhor.
10. Bhojwar.
11. Gadaba or Gadba.

- 12. Gond.
- 13. Halba or Halbi.
- 14. Kumer.
- 15. Kavar, Kanwar, Kanur, Gherwa, Gathia, Tanwar or Chettri.
- 16. Kharla.
- 17. Khairwar.
- 18. Konda or Khond or Kandha.
- 19. Koli.
- 20. Kolam.
- 21. Korku including Bopahi, Maussi and Bondhi or Bondiya.
- 22. Korwa including Kodaku.
- 23. Majhwar.
- 24. Muria.
- 25. Nagasia or Nagasta.
- 26. Mihal.
- 27. Oraon, including Dhanka and Dhangad.
- 28. Pardhan, Pathari and seroti.
- 29. Pardhi including Bajelia or Bahellia, Chita-pardhi, Langoti-Pardhi, Phas Paradhi, Shikari, Takenkhar, Takia.
- 30. Parja.
- 31. Saonta or Saunts .
- 32. Sawar or Savara.

PART - II Climate.

Table No. 8.

This table indicates monthly rainfall and number of rainy days in each month at the five selected centres viz. Yavatma, Pandharkowada, Wari, Pusad and Darwaha for the year 1930. The data is collected through revenue agencies. A day is treated as a 'Rainy day' if during 24 hours, the rain gauge recorded a minimum of 2.5 mm. of rainfall. 'Normal rainfall' is the average rainfall over a period ranging from minimum five years to a maximum of eighty years.

Table No. 9.

This table gives monthwise maximum and minimum temperatures and also annual temperature as recorded at the two selected centres viz. Yavatmal and Pusad for the year 1980. The data are supplied by the Regional Meteorological Centre Nagpur. The maximum and minimum temperatures denote the average of the maximum and minimum temperatures recorded daily during the month. The annual maximum and minimum temperatures are simple averages of monthly maximum and minimum temperatures.

PART - III. Agricultural.

Table No. 10.

This table gives taluka-wise figures of land utilization for the years 1977-78, 1978-79, and 1979-80. Major groups in which the area is classified are forest, land put to non-agricultural uses, barren and unculturable land, culturable wastes, permanent pastures, land under miscellaneous tree & crops not included in area sown, fallow land and area sown. All forest areas classed or administered as forests under any legal enactment dealing with forests, whether state owned or private, are included under forest. If any portion of such land is not actually wooded but put to some agricultural uses, that portion is included under the appropriate heading of cultivated or uncultivated land as the case may be. The areas occupied by buildings, roads and railways or area under water tanks, rivers, nalas and canals and other areas put to non-agricultural uses. Barren and unculturable land, covers land under mountains, desert etc. which may be brought under cultivation but at a high cost. 'Culturable Wastes' covers all land available for cultivation whether not taken for cultivation or taken up for cultivation once not cultivated during the current and last five years or more in succession. Such lands may either be fallows or areas covered with shrubs. 'Permanent pastures and other

Grazing land' includes all grazing lands whether they are permanent pastures and meadows or not. 'Land under miscellaneous crops etc., not included in' net area sown' is the land under casurina trees, thatching grass, bamboo bushes and other used for fuel etc., and is included in cultivable land but not included in orchards. 'Current fallows' comprise cultivable areas which are kept fallow during the current years. 'Other fallows' includes all land which are once taken up for cultivation, but are temporarily out of cultivation for a period of not less than one year and more than five years. The 'net area sown' consists of area sown under crops and is being counted only once. The 'gross cropped area' represented the sum total of areas under all crops.

Table No. 11.

This table gives taluka-wise area under different major crops for the year 1977-78, 1978-79 and 1979-80.

Table No. 12.

This table indicates out-turn and yield rate per hectare of the principal crops in the district during the years 1977-78, 1978-79 and 1979-80.

Table No. 13.

This table furnishes the taluka-wise data of the area irrigated by different sources of irrigation during the years 1975-76 to 1979-80.

Table No. 14.

This table displays taluka-wise area irrigated under different crops during the years 1975-76 to 1979-80.

Table No. 15.

This table gives taluka-wise number of irrigation wells in use and not use during the year 1977-78, 1978-79 and 1979-80.

Table No. 16.

This table gives the Panchayat Samiti-wise data regarding availability of under-ground water during the year 1980-81.

Table No. 17.

This table furnishes the Panchayat Samiti-wise information regarding irrigation works (excluding irrigation wells) for the year 1980-81.

Table No. 18.

This table describes the major and medium irrigation projects (both completed and not completed) in the district as on 30th June, 1980. The cost of a medium irrigation projects is between Rs. 20 lakh to 5 crores, whereas the cost of a major irrigation project is Rs. 5 crores and above.

Table No. 19.

This table deals to the monthly average agricultural wage rates in the year 1980. This data are collected fortnightly through out the year from the three selected centres in this district viz. (1) Ner, (2) Kalamb and (3) Maregaon.

Table No. 20.

This table presents data regarding Agricultural census operational holdings for the year 1976-77.

Table No. 21.

This table gives Panchayat Samiti-wise data on agricultural implements as per Livestock census 1978.

Table No. 22.

The Taluka-wise information regarding famine, scarcity and akin to scarcity for the year 1980-81 is furnished in this table.

Table No. 23.

This table furnishes the taluka-wise information about the total number of villages regarding determination of precarious and other scarcity during the years 1971-72 to 1980-81.

PART-IV. Animal Husbandry, Forest and Fisheries. :-

(a) Animal Husbandry :-

Table No. 24.

This table gives Panchayat, Samiti-wise number of various types of livestock and poultry as enumerated in the livestock census 1978. This census was conducted throughout the country on an uniform basis. Precaution was also taken to enumerate Livestock in slaughter houses, stray animals and animals in transit during this census. The reference date and time livestock census was sunrise of 15th April, 1978. Sex and age-group-wise classification of livestock is also given in this table.

Table No. 25, 26 and 27.

These tables give Panchayat Samiti-wise veterinary statistics, disease-wise livestock mortality and number of slaughter houses and animals slaughtered for the year 1980-81.

(b) Forest :-

Table No. 23 (A).

The details of area under different types of forests in the district during the year 1980-81 are given in this table. The data regarding the forests under control of State Government both under Forest Department and Revenue Department, are shown separately. The area under forest is classified according to legal status i.e. reserved forests, protected forests and unclassed forests. The legal status refers to the classification of forests under the India Forests Act XVI of 1927. The reserved forests are intended mainly for timber production, wherein the rights of grazing and cultivation are seldom allowed. In case of protected forests, the restrictions are not so rigid. The unclassified forests refer to the inaccessible forests or unoccupied waste. The forest area shown in table No. 23 (A) may not tally with the area under forest shown

in the table No. 10. The two sets of figures differ due to following reasons.

1) In the India Forest Statistics returns the whole area including non-wooden area under the control of Forest Department is considered as an area under forests, while in Agricultural statistics, it is classified according to its actual utilisation.

2) The Forest Department returns are meant to serve a definite administrative purposes and indicate the ownership of the forest area and actual utilisation of these areas is not so important from the point of view of Forest Department as it is in land utilisation statistics under Agricultural Statistics.

3) Forest Department returns relate to the Financial year while Agricultural statistics relate to the agricultural year.
Table No. 23 (B).

This table gives data regarding major and minor forest produce in the district for the year 1980-81.

(c) Fisheries :-

Table No. 29 (A).

This table presents taluka-wise data regarding inland fisheries for the year 1980-81.

PART - V. Employment, Industry, Mining and Electricity :-

The annual factory statistics for the years 1979 and 1980 which cover the following type of factories registered under the Factory Act 1948 in the district are furnished in these tables.

Factories :-

- (1) those employing ten or more workers working with the aid of power (section 2 (1)).

- (2) those employing ten or more workers working with out aid of power (Section 2 (ii)).
- (3) those registered under section 85 of the Act under which the State Government make applicable the provision of the Act, eventhough the above conditions are not fulfilled.

Table No. 30.

This table gives the data regarding number of factories and average daily employment of workers in the factories in the district for the years 1979 and 1980.

Table No. 31.

This table indicates industry-wise distribution of working factories according to working strength in the district for the years 1979 and 1980.

Table No. 32.

The distribution of factories according to number of working days during the year 1979 and 1980 is given in this table for the district.

Table No. 33.

This table presents statistics relating to annual survey of industries for the year 1978-79 and 1979-80.

Table No. 34.

This table deals with registration vacancies notified and placements during the year 1980-81 with the employment exchange, Yavatmal.

Table No. 35.

This table gives occupational distribution of total registrations, placements in the employment exchange during the year 1980-81 in the district according to standard National Classifications.

Table No. 36.

This table gives taluka-wise data regarding works undertaken under Employment Guarantee Scheme during the year 1980-81.

Table No. 37.

The volume of employment in different industries in the district as on 31st March, 1980 and on 31st March, 1981 is indicated in this table.

Table No. 38 and 39.

These tables furnish data regarding consumption of electricity for different purposes during the year 1980-81 is given in table No. 38. The data pertaining to year-wise electrification of the towns and villages is furnished as on 31st March, 1961, 66, 70, 76, 79, 80 and 1981 in table No. 39.

PART - VI. Co-operation.

Table No. 40.

This table gives the Panchayat Samiti-wise total number of different types of co-operative societies functioning in the district during the co-operative year 1980-81 i.e. 30-6-1981.

Table No. 41.

This table presents the position of co-operative banks with regards to structure and business in the district for the year 1980-81.

Table No. 42.

This table gives Panchayat Samiti-wise number of primary agricultural credit societies, service co-operative societies, their membership, share capital, reserve and other funds, working capital, loans advanced and recovered, loans outstanding and overdues and percentage of recovery to total ^{loans} advanced during the year 1980-81. The term 'Working Capital' includes paid up share

capital, deposits and borrowings. Loan outstanding in respect of loans, cash credit and over drafts and the amount of outstanding bills purchased or discounted. Overdues refer to an amount of loans of instalments, which are due for collection but which were not actually collected and for the repayment of which no extension has been granted by the competent authority.

Table No. 43.

The data pertaining to other different types of co-operative societies except primary agricultural credit societies and banks in the district are furnished in this table for the year 1980-81.

Table No. 44.

The Panchayat Samiti-wise operational data of central and primary co-operative marketing societies for the year 1980-81 are presented in this table.

Table No. 45.

The operational data of other co-operative societies of different types for the year 1980-81 are furnished in this table for the district.

Table No. 46.

This table gives Panchayat Samiti-wise data regarding operations of regulated markets in the district during the year 1980-81.

Table No. 47.

This table presents Panchayat Samiti-wise number of registered money lenders and loans advanced by them during the year 1980-81. Separate figures of loans advanced to traders and non-traders are shown in this table. The transaction of money lending in the State are regulated under provisions of Bombay Money Lenders Act, 1964 as modified upto 15th August, 1976 vide Ref.No.A 1941-31.

As per provisions in the Act, no money lender shall carry on the business of money lending except in the area for which the licence is granted to him and except in accordance with the terms and conditions of such licence.

PART - VII. Medical and Public Health.

Table No. 48.

This table indicates the Panchayat Samiti-wise number of hospitals, dispensaries, maternity homes, primary health centres, doctors, vaidyas, nurses and the total number of indoor and out-door patients treated during the year 1930. All the State Government medical institutions as well as institutions run by the municipal councils and other local bodies are included. The private clinics, Hospitals run by private bodies or individuals are, however, not included in this table.

Table No. 49.

This table presents taluka-wise vital statistics such as number of registered and deaths and infant deaths in the district during the year 1930.

Table No. 50.

This table gives data regarding number of deaths due to important causes in the district during the year 1971 to 1930.

Table No. 51.

This table presents Panchayat Samiti-wise vaccinations statistics for the year 1930.

Table No. 52.

This table gives Panchayat Samiti-wise number of family planning centres in the district for the year 1930-31 and the number of sterilisation operations undertaken in these centres during the year mentioned above.

PART - VIII. Education.

Table No. 53.

This table presents sex-wise number of literates and percentage of literacy separately for rural and urban area of each tahsil according to 1971 census. A person was classified as a literate, if he was able to read or write a simple letter in any language.

Table No. 54 and 55.

Since the data regarding distribution of literates according to educational standards in rural and urban areas as per 1971 census are not available, the data for these two tables in this subject are given for 1961 census.

Table No. 56.

This table indicates the number of educational institutions according to types for the year 1980-81. Sex-wise enrolments and number of trained and un-trained teachers in these institutions are also given in this table. The classification of institutions according to 'Types' given in this table is slightly different from stages of education. There are, at present, many secondary schools which also impart education in primary courses, in this case the entire pupil enrolment of students is included under I secondary education. Primary institutions provide education for standards I to IV or standards I to VII/VIII or less and teach the curriculum approved by the Education Department. The secondary institutions coach the students for standards VIII to Xth or without lower standards. Higher education is the education after passing secondary school certificate examination which leads to a degree examination. The junior colleges imparting education for the standards XI th and XII th are included under secondary schools.

Table No. 57.

This table gives the number of beneficiaries among backward classes such as scheduled castes, scheduled tribes and other backward classes in different types of educational institutions during the years 1929-30 and 1930-31. The pupils who get concessions of either types such as scholarships, free ships etc. are treated as beneficiaries.

Table No. 58.

This table indicates the number of beneficiaries under economically backward class concessions and the amount of concessions granted during the year 1930-31.

Table No. 59.

This table gives the information regarding expenditure on primary education by different agencies like Zilla Parishad, Municipal Councils etc., during the year 1930-31 plan and non-plan expenditure is shown separately.

PART - II. Transport and Communications.

Table No. 60.

This table gives total railway length in the district as on 31st March, 1931 according to types of routes i.e. broad gauge, metre gauge and narrow gauge. The railway length is measured between the first and last stations within the district boundary. The figures of length of each type of route are therefore approximate and not accurate.

Table No. 61.

This table indicates the road length in district according to category of roads and surface classification as on 31st March, 1931.

Table No. 62.

This table gives the number of motor vehicles in operation as on 31-3-31 in this district.

Table No. 63.

This table deals with the operational statistics of Nationalised Road Transport in Yavatmal Division as on 31-3-1981. The State Transport Division, Yavatmal comprises of Yavatmal district only.

Table No. 64.

This table presents the results of traffic census of important roads conducted by Building and communication Department, Government of Maharashtra as on December, 1980 traffic census. The data regarding the number of vehicles are according to categories and location of count-posts.

Table No. 65.

The information regarding number of post offices, telegraphs offices, letter boxes, postmen, Telephones and Radio licenses issued and renewed in the district during the years 1961-62, 1965-66, 1970-71, 1973-74, 1974-75, 1975-76, 1976-77, 1978-79, 1979-80 and 1980-81 is furnished in this table. This indicates year-wise progress achieved on the above items.

Table No. 66.

This table gives Panchayat Samiti-wise data regarding the number of villages in which community receiving sets are installed, rural population covered and total number of radio farm forums as on 31.3.1981.

PART - X. Local Bodies.

This table gives an abstract of income and expenditure of local bodies such as Zilla Parishad, Municipal Councils and village Panchayats for the financial year 1965-66, 1968-69 to 1980-81. An independent as well as group village panchayat are included in the number of village Panchayats.

Table No. 68.

This table indicates head-wise income and expenditure of village Panchayats in each Panchayat Samiti during the year 1980-81 excluding opening and closing balances.

Table No. 69.

This table is divided into three parts viz. (A), (B) and (C). The table No. 69(A) gives the total receipts of Zilla Parishad derived from self raised resources, Government grants loans and advances deposits and remittances. The table No. 69(B) indicates the receipt of Zilla Parishad from different Government grants, while Table No. 69(C) gives the total expenditure incurred by Zilla Parishad. The expenditure is further divided into two parts i.e. (1) Revenue expenditure and (2) Debt section including remittances. Data regarding actuals for the years 1979-80 and revised Estimates for 1980-81 and Estimates for 1981-82 are given in this table.

Table No. 70.

This table indicates income and expenditure of Municipal Councils in the district during the Year 1980-81. The opening and closing balances are however not considered while giving income and expenditure figures for the said years.

PART - XI. Plan and Community Development.

Table No. 71.

This table presents data regarding plan expenditure during the period of 1979-80 and 1980-81 according to sub-head of development.

Table No. 72.

This table gives sub-head-wise physical achievements on important items during the period of Annual Plan 1979-80 and 1980-81.

Table No. 73, 74 and 75.

The statistics relating to Community Development Programme are presented in these tables. The position of Community Development Block as on 31-3-1980 is shown in Table No. 73, while the expenditure incurred under different stages of blocks upto end of 1979-80 is given in Table No. 74. The Table No. 75 gives block-wise physical achievements on selected items during the year 1979-80.

Table No. 76.

This table deals with the monthly wholesale prices of important agricultural commodities at regulated market centres in the district during the year 1980. Price averages for the year are worked out by simple arithmetic mean.

Table No. 77.

Monthly average retail prices of various commodities for the month of January to December of the Year 1980 are given in this table alongwith varieties. The average prices for the year are also given in this table for all commodities. As the data collected for the given commodities is restricted to only one shop at District Headquarters, the average price of the each individual commodity can not be said to be fully representative but this data may prove useful as a broad indicator of the trend of changes in retail prices over the period of time.

Table No. 78.

This table gives data regarding consumer price index number (revised series) for working class (for the year 1960 of Nagpur centre published by the Commissioner of Labour, Bombay for the year 1980-81).

PART - XIII. Miscellaneous.

Table No. 79 and 80.

These tables present the data regarding strength of police force and crime statistics for the district during the calendar year 1980.

Table No. 81.

This table gives data regarding work disposed off in Civil and Criminal Courts in the district during the year 1980.

Table No. 82.

This table gives Panchayat Samiti-wise cinema statistics for the year 1980-81.

Table No. 83.

The data pertaining to banking facilities in the district are given in this table for the period as on 31-12-1979.

Table No. 84.

The data relating to scheduled Bank etc. are furnished in this table for the period as on 31-12-1979.

Table No. 85.

The statistical regarding Joint stock Companies is presented in this table for the year 1979-80 (31-3-1980).

Table No. 86.

This table gives Life Insurance statistics in the district for the year 1980-81.

Table No. 87.

This table furnishes the data regarding small savings collections in the district during the years 1980-81 in respect of gross collections withdrawal and net collections during this year and details under different kinds of savings are also given in this table.

collections during the year 1980-81.

Table No. 89.

This table gives Panchayat, Saniti-wise number of presses and number of newspapers and periodicals published in the district as on 31st March, 1981.

Table No. 90 and 91.

quantity of Rice, Wheat and Sugar issued to Fair

Price shops in the district during the years 1971 to 1981 is furnished in Table No. 90, while demand and procurement of levy of

paddy, wheat, jowar, bajra and other cereals are given in Table

No. 91 for the year 1970-71 to 1980-81.

Table No. 92.

Results of the General Elections to the Lok Sabha

for the year 1980 and those of to the Maharashtra Legislative

Assembly for the year 1973 are furnished in this table. The Yavatm

Lok Sabha Constituency consists of six legislative assembly consti-

tencies in this district, i.e. Wani, Balgaon, Kelapur, Yavatmal,

Darwha and Digras out of eight Legislative Assembly Constituencies.

The Legislative Assembly Constituencies viz. Pusad and Umarkhed in

this district are included in Washim Constituency in Akola District

Table No. 93.

This table shows the trends in selected indicators

for the year 1950-51, 1960-61, 1966-67, 1970-71, 1974-75, 1977-78

to 1980-81 in this district.

CHAPTER NO. -III.

Indicators of Development :-

The main object of publication of the booklet of District Statistical Abstract of this district is to present a comprehensive Statistical Note on the Development of the district at particular period of reference. In presenting such note, the development of the District as a whole and development of its tahsils in a comparative manner is put forth wherever required. It is useful in deciding the developments of tahsils and remove the regional imbalance if any in respect of any items of developments.

The Statistical data on various traditional items has been presented in Part-II of this publication. While presenting the comparative picture of the tahsils in the district the years 1960-61, 1970-71 and 1980-81 are taken in to consideration on persual of the figures on various items. It will be clear that how the development of the district took place and space of the same in respect of various items of development.

Details of various indicators of development are given below :-

(1) Indicator No. 1

Percentage of gross cropped area to net sown area :-

Sr. No.	Tahsil.	Percentage of gross cropped area to net area sown for the years.		
		1960-61	1970-71	1979-80
1.	2.	3.	4.	5.
1.	Yavatmal.	100.92	101.32	101.93
2.	Kelapur.	100.97	101.45	101.82
3.	Wani.	101.03	101.05	101.41
4.	Pusad.	100.45	101.34	103.56
5.	Darwha.	100.42	101.04	102.54
Total for the Distt.		100.72	101.24	102.32

It is seen from the above table that there is marginal increase in the percentage of the gross sown areas to respective net sown areas in respect of five tahsils taking into consideration the base year 1960-61. The maximum percentage of increase in gross cropped area is in Pusad tahsil. This appears due to mainly completion of Pus Project. Some increase is also seen in other tahsils also.

(2) Indicator No. 2.

Percentage of distribution of gross area under important crops to total gross cropped area is given below in the format. Cropping pattern followed in this district and indicates the trends in cultivation from 1960-61 to 1979-80.

Percentage distribution of gross area under important crops to total gross cropped area.

Sr. No.:	Crop.	Percentage.		
		1960-61	1970-71	1979-80
1.	2.	3.	4.	5.
1.	Rice.	1.44	1.50	1.62
2.	Wheat.	2.78	1.97	3.74
3.	Jowar.	36.01	32.26	32.96
4.	Total cereals.	41.71	37.49	39.33
5.	Grams.	1.12	0.90	0.57
6.	Total pulses.	12.24	12.13	12.49
7.	Total food grains.	53.95	49.52	51.82
8.	Sugarcane.	0.04	0.06	0.18
9.	Total food crops.	54.77	50.56	52.83
10.	Groundnut.	2.90	4.13	3.72
11.	Cotton.	39.63	42.99	41.00
12.	Total non-food crops.	45.23	49.44	47.17
13.	Total cropped area.	100.00	100.00	100.00

It appears from the above table that the total area under food crops and non food crops is fluctuating from year to year. This happens mainly due to experience of the farmers for the last year and their expectations for the current year crops based on rains and climate.

The total area under food crops during 1960-61 was 54.77 % and the same was 52.83 % in the year 1979-80 on the other hand area under non food crops indicates the trends of increase i.e. 45.23 % in the year 1960-61 and 47.17 % in the year 1979-80. Though total area under food and non food crop is slightly fluctuating, it is time prove fact that the farmers of this district are inclined to cultivate the high yielding and hybrid varieties of Jowar (4), Cotton and of other crops also. This point is more clear on perusal of the below mentioned indicator No. 3.

(3) Indicator No. 3.

Yield rates and outturn of principal crops. :-

The yield rates and outturn of the agricultural production depends upon various factors and favourable combination of all factors results in higher yield rate and outturn for factor or otherwise it functions adversely.

Timely well spread up rains, favourable natural conditions timely use of inputs pesticides and availability of credit as and when needed accelerates the rate of yield and outturn. But in case of Iratic and Scattered rains, unfavourable natural conditions and timely non availability of credits effects the agricultural production very adversely. The data given below shown the yield rate and outturn of some important

crops in the district for the year 1960-61, 1970-71 and 1979-80.

Sr. No.	Crop.	Yield per Hect. in Kg.			Outturn in '00' M.Tonnes.		
		1960-61	1970-71	1979-80	1960-61	1970-71	1979-80
1.	2.	3.	4.	5.	6.	7.	8.
1.	Rice.	573	400	744	61	62	122
2.	Wheat.	412	528	919	85	86	238
3.	Jowar.	789	314	1150	2105	837	2358
4.	Gram.	300	267	292	25	20	21
5.	Tur.	625	733	933	670	333	457
6.	Groundnut.	683	510	458	147	174	149
7.	Cotton('00'bales)	102	33	669	17	659	2449
8.	Sugarcane.	2504	6800	5929	8	31	83

In comparasion of the year 1960-61 and 1970-71 yield per hect. is appears to be increased considerably. Substantial increase seems for the Rice, Jowar, Wheat and Cotton crops. This increase seems due to inclination of farmers for use of hybrid and high yielding varieties of above crops. Yield rate for Groundnut has been decreased.

Likewise total outturn of some principle crops have been introduced above and the same shown groundnut increase with out of important crops. Particularly Hybrid Jowar and H4 Cotton has shown better results compared to traditional varietie. Outturn of wheat and sugarcane is also increased but the outturn of groundnut appears to have been decreased to same extent and marginal increase is in pulses crops.

(4) Indicator No. 4.

Percentage of net irrigated area to net sown area. :-

Below table indicates the percentage of net irrigated area to net sown area for the year 1960-61, 1970-71 and 1975-76 onward till 1979-80.

(area in '00' hect.)

Sr. No.	Year.	Net area Irrigated.	Net area Sown.	Percentage of net area irrigated to net area sown.
1.	2.	3.	4.	5.
1.	1960-61	29	7359	0.40
2.	1970-71	73	8164	0.90
3.	1975-76	163	8421	1.94
4.	1976-77	211	8477	2.49
5.	1977-78	209	8470	2.47
6.	1978-79	233	8545	2.79
7.	1979-80	215	8278	2.60

From above table it will be seen that there is steady growth in the irrigation in this district. Now, during 1979-80 total net area irrigated is 21510 hectares when this was 2944 hectares in 1960-61. Percentage of net irrigated area to net sown area is 2.60 % for the year 1979-80 and it is increasing steadily but the same is not satisfactory when compared to state percentage. In view of the medium projects in hand the percentage of the same is likely to increase substantially. In respect of source of irrigation, lions share goes to wells (12994 hecets.) followed by canals (7060 hecets.).

In respect of net irrigated and net sown area for tahsils of this district is given below for the year 1979-80.

(Area in '00' Hectares)				
Sr. No.	Name of Tahsil.	Net area Sown.	Net area Irrigated.	Percentage of net irrigated area to net sown area.
1.	2.	3.	4.	5.
1.	Yavatmal	1502	30	2.00
2.	Kelapur	1702	21	1.23
3.	Wani	1348	24	1.78
4.	Pusad	1797	85	4.73
5.	Darwha	1929	56	2.90

Above data indicates that highest percentage i.e. 4.73 % is in Pusad tahsil followed by Darwha 2.90 % lowest percentage of irrigation is in Kelapur tahsil i.e. 1.23 %. In Pusad tahsil surface irrigation is highest and in Darwha well irrigation is on higher side. In view of the Medium, Major & Minor works in hand the percentage of irrigation is found to increase in case in near future the cultivators are motivated suitably.

(5) Indicator No. 5.

Percentage of area under different Irrigated Crops to Gross Irrigated Area. :-

The table given below indicates the percentage of area irrigated under different crops to gross Irrigated area in this district.

Sr. No.	Name of Crop.	Years			
		1960-61	1970-71	1978-79	1979-80
1.	Rice.	2.62	2.45	2.45	1.16
2.	Wheat.	7.50	35.98	58.21	58.63
3.	Jowar.	--	--	--	--
4.	Total Cereals.	11.61	38.85	59.62	59.83
5.	Gram.	--	0.49	0.42	0.20
6.	Total Pulses.	--	0.69	1.19	1.34
7.	Sugarcane.	10.41	5.82	8.50	6.38
8.	Total food crops.	89.11	89.56	86.31	82.98
9.	Cotton.	9.44	10.20	12.21	8.12
10.	Groundnut.	--	--	1.47	8.90
11.	Total non food crops.	10.89	10.44	13.69	17.02
12.	Total.	100.00	100.00	100.00	100.00

Overall 2.60 % area out of total sown area is irrigated from this district through various irrigation measures. Cropwise area distribution of irrigation is indicated in above table. During 1978-79, 86.31 % area was irrigated from food crops and 13.69 % from non food crops. During the year 1979-80, 82.98% ^{and 17.20%} area was brought under irrigation from food and non food crops.

Irrigation of area under food crops is being decreased and area under non food crops is steadily increasing. Substantial increase is seen in the irrigated area under Groundnut. This change has been noticed due to inclination of farmers taking summer Groundnut Crop particularly in the command of Irrigation projects in Pusad and to some extent in Darwha tahsil. By the year 1978-79 only 1.45% area was irrigated under Groundnut and the same reaches 8.90% during the year 1979-80. Percentage of Area Irrigated under Wheat is slightly increased.

Percentage of area irrigated is decreased in respect of cotton and sugarcane. The main reason for decrease in percentage of area under Sugarcane was reasonable rates of Sugarcane in comparison of the cost of cultivation.

However, there is vast scope for increase in area under Irrigation in this district in near future in view of major, medium projects completed and in progress.

(6) Indicator No.-6.

Sourcewise Net Irrigated Area. :-

Net area irrigated by different sources in Yavatmal District during the year 1960-61, 1970-71, 1978-79 and 1979-80 is briefed as below :-

Sr. No.:	Source Irrigation.	Net area Irrigated in hectares.			
		1960-61	1970-71	1978-79	1979-80
1.	2.	3.	4.	5.	6.
1.	Govt. Canals.	78	506	6205	7060
2.	Private Canals.	--	--	--	--
3.	Wells.	2828	6350	17576	12994
4.	Others.	39	460	--	1456
TOTAL.		2945	7325	23781	21510

Above table indicates increase in net irrigated area in comparison of the base year 1960-61. Irrigation through Government Canals and other sources is increasing and it is likely to increase gradually since the medium irrigation project works are in progress & nearing completion. Area irrigated through wells is slightly reduced.

(7) Indicator No. 7.

Increase in Agricultural Credit Societies and

Outstanding dues. :-

In spite of branch expansion programme of Nationalised banks, Cultivators mainly rely on the credit provided by the Agricultural Credit Societies and such Societies play key role to cater the credit needs of farmers. Major part of their credit needs for short & medium term loans are met from the co-operative sector through Agricultural Credit Societies. Under short term loans, seeds, fertilizers and pesticides are supplied to the farmers with same position of loan in cash. In some cases the loans for supply of milk animals, she-goats etc., are advanced to the small and marginal farmers and landless labourers under I.R.D.P. Programme implemented in this district.

Below table highlights some points in respect of Agricultural Credit Societies for the year 1960-61, 1970-71, 1979-80 and 1980-81.

		(Rs. in lakhs.)			
Sr. No.:	Items.	Years.			
		1960-61	1970-71	1979-80	1980-81
1.	2.	3.	4.	5.	6.
1.	No. of Agril. credit societies.	604	602	534	537
2.	Membership (No.)	58989	111995	213526	214038
3.	Working Capital.	141	947	2665	3090
4.	Loans advanced.	108	605	962	1337
5.	Loans overdue.	--	289	792	764
6.	Loans outstanding.	660	735	1802	2052

In comparison of the base year 1960-61 the number of Agriculture Credit Societies is reduced but their business alongwith membership is tremendously increased. The net work of Agril. Credit Societies is spread up all over the district, but credit advanced by them is not fully sufficient to cater the needs of cultivators of short term loans. There is much scope for increase in the number of societies and their business. Main set back for spread up of Agril. Credit Societies is of having outstanding dues and cultivators are reluctant for repayment which has created nervousness in co-operative sector and created obstacle in further development and advance of loans. By the end of the year 1980-81 the loans of Rs. 2052 lakhs are outstanding. Some corrective measures needs to be take for efficient recovery to advance credit to needy persons.

(8) Indicator No. 8.

The data on Agricultural wage rates is collected since 1963 in three centres :-

(i) Ner, tahsil Darwha, (ii) Kalamb, tahsil Yavatmal & (iii) Navargaon (Maregaon), tahsil Wani.

The average rates worked out for the years 1963, 1979 and 1980 are given below which indicates comparative rise of fall in wage rates of male/female agricultural workers.
(in Rs.)

Sr. No.:	Centre	Male			Females		
		1963	1979	1980	1963	1979	1980
1.	2.	3.	4.	5.	6.	7.	8.
1.	Ner	1.53	4.33	5.00	0.62	2.56	3.12
2.	Kalamb.	1.99	4.40	4.89	0.86	2.25	2.35
3.	Maregaon.	1.65	3.50	4.20	0.89	2.12	2.67
District,		1.71	4.08	4.70	0.79	2.31	2.71

Average wage rate for unskilled Agril. field labourers is found increased for both males & femals in compa-
rasion to the last year i.e. 1979. The wage rates of female
workers appears on lower side because full time work i.e. 7
hours is not done by female workers but their working hours
are some what different.

Wage rates in respect of skilled workers such
as carpenters, Blechsmith, and Cobbler etc. are as below :-

(Wages in Rs.)

St. No.:	Type of Labour.	Year & Centre.							
		Ner		Kalamb		Maregaon		District.	
		1979	1980	1979	1980	1979	1980	1979	1980
1.	2.	3.	4.	5.	6.	7.	8.	9.	10.
1.	Carpenter.	12.04	13.92	8.58	9.37	7.58	8.50	9.37	10.60
2.	Black smith.	6.41	6.00	7.04	8.42	7.20	8.17	6.88	7.53
3.	Cobbler.	5.00	6.00	4.83	5.00	4.75	5.04	4.86	5.35

In respect of skilled labourers as cited above,
there is average increase in their wage rates for the District
as a whole, but there is a slight decrease in wage rate of
black smith in individual centre Ner.

(9) Indicator No. 9.

Livestock Population (Bovine & Ovine) per 100 hectares
of cultivable Land. :-

The agricultural operations are mainly carried
out through livestock and manually. Mechanicall cultivation
is yet for away in this diestric. Healthy and quality breed
is absolutely necessary for efficient and timely operations
of agriculture. This ultimately helps in increase in agriculture
production and production of milk.

I In this district agriculture and livestock are complimentary to each other and livestock rearing is mainly done as a subsidiary to agriculture. Livestock is such a activity which contributes substantially to rural economy by creating employment potential and accelerates food production.

Livestock Census was carried out all over country during 1978 and the same data is used for this indicator.

The table produced below indicates taluka wise details of livestock per 100 hectares of cultivable land in this district.

Sr. No.	Name of Tahsil.	Cultivable Land during 1979-80	Bovine & Ovine Population in 1978	Bovine & Ovine per 100 hg. of cultivable Land.
1.	2.	3.	4.	5.
1.	Yavatmal.	151900	192471	119
2.	Kelapur.	180800	232907	129
3.	Wani.	151900	217143	143
4.	Pusad.	197800	294588	149
5.	Darwha.	206100	251804	122
District Total.		898500	1188913	132

It appears from the above table that the population of bivine & Ovine livestock per 100 hg. of cultivable land is highest in Pusad Tahsil i.e. 149 and lowest in Yavatmal tahsil as 119. The same figure for the District as a whole comes to 132.

Though the population of livestock seems on a higher side but all population is not of a quality breed but most of the same can be catagorised as "Bhakad" which did not help in production of milk or efficent working of agricultural operations

In view of this, during annual plans the systematic efforts are being made to improve the breed of livestock population and some high milking breeds such as Jersey cow or Hariyana cows are being developed through various schemes of Annual Plans which will ultimately help in substantial increase in milk supply.

Poultry in comparison of the population :-

In livestock Census 1978, the poultry population in the district is recorded as 497905. As per 1971 population census the population of this district is 1423677. Poultry for 100 persons in each tahsil is given as below :-

Sr. No.	Tahsil.	Poultry per 100 persons (1971 Census)	
		1966	1978 (Livestock Census.)
1.	2.	3.	4.
1.	Yavatmal.	20	29
2.	Kelapur	22	47
3.	Wani	33	50
4.	Pusad	15	28
5.	Darwha	17	28
District Total.		21	35

It appears from the above table that the number of poultry birds per 100 souls is increased for all tahsils in comparison of the year 1966. But the same is more noticeable in respect Kalapur tahsil since the increase in poultry population is more than double. A district as a whole average poultry birds for 100 souls is increased from 21 to 35 by the year 1966 to 1978.

(10) Indicator No. 10.

Electricity is the boon of the modern times and it is the main source of energy for agriculture and industries. Development without energy could not be thought even and therefore its demand is increasing continuously. By the year 1980-81 out of total 1931 villages (populated and unpopulated) 1382 villages were electrified and percentage there of comes to 72%.

Total consumption of electricity during 1980-81 was reported 41590 thousand KWH out of this 13748 thousand KWH (33%) utilised for domestic purposes, 5325 thousand KWH (13%) for commercial light and small power, 12755 thousand KWH (31%) for industrial power, 2305 thousand KWH (6%) for public light and 6584 thousand KWH (17%) for agriculture.

Total electric consumption appears to have been decreased by 24320 thousand KWH by the end of year 1980-81 i.e. 37% incomparision of the year 1979-80.

Tahsilwise progress of electrification in respect of electrification of villages and energisation of pump sets is given below for the year 1980-81 in comparison of the year 1960-61.

Sr. No.	Name of tahsil	No. of villages & Towns electrified with percentage		Energisation of pump sets		Per Capita consumption of Electricity	
		1960-61	1980-81	1960-61	1980-81	1960-61	1980-81
1.	Yavatmal	8	268	77	2789	NA	
2.	Kelapur	6	279	5	2526	NA	
3.	Wani	5	230	7	816	NA	
4.	Pusad	5	303	20	6260	NA	
5.	Darwaha	23	310	123	6914	NA	
District Total		47	1390	232	19305	NA	

It is evident from the above table that by 30-6-1981 total 1392 villages & 8 Towns were electrified and percentage there of comes to 72% and 100% respectively. The demand for electrical energy for agricultural pump sets is incessantly increasing and by 30-6-1981, 19305 pump sets were energised.

In respect of tahsilwise performance of electrification in above two items it seems that in respect of electrification of villages Pusad tahsil is leading with total percentage 83% (electrified village/ total number of villages) likewise in case of energisation of pump sets Darwaha tahsil is on the top in the district and it is followed by Pusad tahsil.

On the lower side 70% of villages were electrified in Yavatmal and Kelapur tahsil and only 816 pump sets were provided power in Wani tahsil and this is lowest in the district. In respect of performance of Electricity in comparison of the year 1960-61 the progress made by 1980-81 appears to have been as a land mark in the development of the district and the demand of power is increasing constantly.

(11) Indicator No. 11.

Number of Candidates enrolled in employment Exchanges and Vacancies Notified. :-

The Office of the District Employment Officer, is situated at Yavatmal and details of registration, vacancies notified are produced below :-

Sr. No.	Items	Years			
		1960-61	1970-71	1979-80	1980-81
1.	2.	3.	4.	5.	6.
1.	No. of registrations during the year.	6189	5060	9818	11069
2.	No. of vacancies notified.	926	572	697	524
3.	Placement of vacancies	546	368	267	355
4.	% of placement of registration.	9	7	3	3
5.	Candidates on the live register at the end of the year.	1923	4628	17886	22210

Above table indicates at a glance that (1) the number of candidates registered during the year and number of candidates on the live register by the end of year is increasing with galloping speed-

(2) Rate of notification of vacancies in comparison of the fresh enrollment and candidates on live register is not matching to the rate of registration.

(3) Percentage of placement of vacancies to registration is very low and number of persons remain on register as unemployed. This feature is not pleasant.

The number of registration during 1980-81 was 11069 and this number increased enormously in comparison of the year 1960-61. By the end of 1980-81, 22210 candidates were on live register out of these 355 persons only were provided employment and percentage there of comes to 1.60 % only.

(12) Indicator No. 12.

Medical Facilities.

Increase in indoor and outdoor patients treated :-

The benefit of public medical facilities is severally availed by the low and poor class of society which were actually from weaker sections. Since they could not pay

heavy charges of private dispensaries and hospitals, the number of patients using public medical facilities is continuously increasing years to year and number of medical institutions is mostly remained uncharged.

The information of patients treated indoor, outdoor and number of medical ~~xxx~~ institutions available in the district is given below :-

Sr. No.	Items	Years			
		1960-61	1970-71	1979-80	1980-81
1.	2.	3.	4.	5.	6.
1.	No. of Hospitals.	11	11	14	13
2.	No. of Dispensaries.	41	58	61	49
3.	Indoor patients treated.	11904	25546	104000	54000
4.	Outdoor patients treated.	586755	437574	1024000	949000

It is evident from the above table that the number of persons taking benefit of the public medical institution is treamandously increasly but the number of medical institutions and doctors is not added proportionately. Heavy rush may affect the quality of treatment. Therefore, increase in number of medical institutions and doctors is the need of the time and especially this is must in view of the tribal population of the district who are residing in remote areas of the district without any facilities of health care. Above table enlightens the matter at a glance in respect of number of medical institutions, and patients treated indoor and outdoor for the year 1960-61, 1970-71, 1979-80 and the same has been decreased during 1980-81 to some extent. Also the heavy concentration of medical facilities at urban centres needs patient thinking.

(13) Indicator No. 13. Education.

No. of Educational Institutions, Enrolment and
Number of Teachers. :-

The educational facilities are considerably increased during last 10 to 15 years. By the end of 1980-81 mostly all villages have been provided primary schools.

Percentage of literacy was 31.60% in 1971 population census and the same increased in the 1981 population census to 39.18%. In 1971 population census the percentage of literacy was 43.43% and 19.88% for male and female respectively but by 1981 census the same was provisionally reported as 51.12% and 26.73% for male and female respectively. We are lagging behind the State percentage in respect of literacy during both 1971 and 1981 population census.

In below table the details of primary, secondary and higher education are given ~~xxx~~ for the year 1960-61, 1970-71, 1979-80 and 1980-81. In each item the details of number of institutions their enrolments and number of teachers are given.

Sr. No.	Items	Years			
		1960-61	1970-71	1979-80	1980-81
1.	2.	3.	4.	5.	6.
<u>1. Primary Education.</u>					
a)	Institutions.	1168	1681	1856	1845
b)	Enrolments.	82939	1363537	223004	224074
c)	Teachers.	3909	5120	5704	5700
<u>2. Secondary Education.</u>					
a)	Institutions.	59	155	168	173
b)	Enrolments.	17748	37394	66140	70580
c)	Teachers.	827	1801	2357	2445
<u>3. Higher Education.</u>					
a)	Institutions.	4	11	13	13
b)	Enrolments.	805	5776	5961	7118
c)	Teachers.	N.A.	290	308	329

Careful examination of the data furnished in above table it seems that there is continuous increase in the number of educational institutions, enrolments and teachers of all category such as Primary, Secondary and higher education except a slight decrease in number of institutions of primary education & steady number of institution of higher education in 1980-81.

By the 1980-81, 1845 primary schools are reported with 224074 enrolment and 2145 teachers and 5700 teachers.

In the same manner 173 secondary schools were reported with 70580 enrolment and 2445 teachers.

In respect of higher education 13 institutions were recorded with 7118 enrolment with 329 teaching personnel.

Following table indicates some important ratios in Education Sector for the years 1960-61, 1970-71, 1979-80 and 1980-81.

Sr. No.	Item.	Years			
		1960-61	1970-71	1979-80	1980-81
1.	2.	3.	4.	5.	6.

	c) Higher.	N.A.	1:29	1:19	1:22

(14) Indicator No. 14.
Increase in Banking facilities :-

Banking facilities are very important for expeditious development of rural area. Close setting of Bank branches

in rural areas keeps the flow of credit constant for catering the need of the people from rural areas. In view of early availability of credit, the Govt. has undertaken the programme of Bank Branch expansion in unbanked areas of the district under Lead Bank Scheme. As per directives of Govt., the clusters of villages have been formed and they are distributed among certain bank for advancing credits.

Central Bank of India is a Lead Bank of this district and all above actions have been taken in this district under the leadership of above bank.

Some information in respect of banking facilities is given below :-

Sr. No.	Item.	Years.		
		1960-61	1970-71	1980-81
1.	2.	3.	4.	5.
1.	Total no. of banking offices.	24	44	93
2.	No. of population served per banking office.	43983	32068	14531

By the end of the year 1980-81, 47 Scheduled banks 51 Co-operative banks were in operation in this district. As per 1981 population the ratio of Scheduled banks to population comes to 1 to 3523 population. The ratio of the banks for population including co-operative banks and their branches comes to 17729 persons per banks.

(15) Indicator No. 15.

Increase in Road Length :-

Roads are the main means communication and is important part of infrastructure. Availability of all weather roads is symbol of development and regional prosperity.

However, this being a tribal district is backward in respect of all weather roads and the condition of the present roads is not upto mark. Moreover, the topography 1/3 portion of the same being covered under tribal sub-plan and there is a communication gap of all weather roads for remote and interior villages.

Negligible portion of traffic is tackled by railway and as such coins share of the same is being covered by roadlines.

There is a narrow guage line from Yavatmal to Murtizapur and another broad guage line from Wani and Majari. Total length of Railway line in the district is 82 Km.

By the end of 1980-81, total length of National Highways was 65.40 Km., State Highways 602.94 Km., Major District Roads 1048.93 Km., Other District Roads 813.58 Km., and village road & others 1912.88 Km. making total road length in this district of all type 4443.73 Km. (in which 203.96 Km. Municipal Roads are not included).

The table given below give the comparative picture of development of roads in the plan of reference years 1960-61, 1970-71, 1979-80 and 1980-81.

Sr. No.	Item.	Years.			
		1960-61	1970-71	1979-80	1980-81
1.	2.	3.	4.	5.	6.
1.	Villages connected by all weather roads.	331	331	340	340
2.	Villages connected by other roads.	269	269	295	295
3.	Road length per 100 Sq.Km.	9.90	16.97	31.04	33.38

The length of black topped roads was 972.51 Km. and Municipal Roads was 82.32 Km. percentage of black topped roads to total length of roads come to 22.70%.

It will be seen from the above table that the length of roads is considerably increased in comparasion of the year 1960-61, but it appears that on some roads C.D.Works, Minor bridges, drainages and major bridges are yet to be completed and therefore, the utility of such roads is restricted isolating such villages from other areas of district particularly in rainy season.

The Road length per 100 Sq.Km. is increasing steadily and by 1980-81 the same is 33.38%Km. which was 27.46 Km. in 1979-80. Categorywise road length in the district as on 31-3-1980 and 31-3-1981.

Sr. No.	Category	Road length in Km.								Road length per 100 Sq. Km.	
		Building & Communication Deptt.		Zilla Parishad.	Municipal Council.		Total		79-80	80-81	
1.	2.	3.	4.	5.	6.	7.	8.	9.	10.	11.	12.
1.	National Highways.	65.40	65.40	--	--	--	--	65.40	65.40	0.47	0.47
2.	State Highways.	602.94	602.94	--	--	--	--	602.94	602.94	4.33	4.33
3.	Major Distt. Roads.	106.33	207.53	923.73	841.40	--	--	1030.26	1048.93	7.40	7.53
4.	Other Distt. Roads.	11.00	11.00	791.68	802.58	--	--	802.68	813.58	5.76	5.84
5.	Village Roads.	174.46	191.01	944.81	972.96	--	--	1119.27	1163.97	8.04	8.36
6.	Others.	--	--	--	748.91	203.96	203.96	203.96	952.87	1.46	6.84
Total.		960.63	1077.88	2659.92	3365.85	203.96	203.96	3824.51	4647.69	27.46	33.38

To sum up, it is very clear that considering the vast area and backwardness of the district there is too much scope for road development in the District.

(16) Indicator No. 16. - Prices.

The prices of some important commodities have been collected by the price enumerators on every Friday under supervision of this Office at Head Quarter Place. Such prices are collected from certain related shops and fluctuation there of indicates the mode of change in prices.

The table given below indicates the average prices of some important commodities collected at Head Quarter Place i.e. Yavatmal town for the year 1963, 1970 and 1980.

Sr. No.	Name of Commodity.	Unit	Years.		
			1963	1970	1980
1.	2.	3.	4.	5.	6.
1.	Rice (Medium)	Kg.	0.70	1.60	2.65
2.	Wheat (Medium)	Kg.	0.59	1.10	2.18
3.	Jawar (White)	Kg.	0.38	0.89	1.38
4.	Gram dal.	Kg.	0.58	1.25	4.13
5.	Tur dal.	Kg.	0.76	1.92	4.75
6.	Sugar (Open Market)	Kg.	1.22	2.04	6.81
7.	Gur.	Kg.	1.04	1.55	4.45
8.	Groundnut Oil.	Kg.	1.98	4.55	11.59
9.	Vanspati (200se)	Kg.	3.08	5.64	12.94
10.	Potatoes.	Kg.	0.59	0.98	1.89
11.	Dry Chillies.	Kg.	2.77	5.67	9.04
12.	Tea leaf.	Kg.	7.13	12.27	24.00
13.	Kerosene.	Litre	0.49	0.62	1.49
14.	Shirting.	Metre	1.47	2.91	7.53
15.	Cigarettes.	10 Nos.	0.34	0.66	1.60
16.	Washing Soap.	50l Bar	2.10	3.04	3.57

Above table indicates the trend of overall increase in prices of all commodities when compared to the base year 1963 and 1970. However, the prices of some commodities showed the trend of increase in their prices much faster.

CHAPTER IV.

Annual Plan - 1980-81.

Introduction :-

After independence of India, for balanced and all round development in all fields, the need of financial planning was felt. It was stressed that without planning and phasing of development programmes, there could not be substantial achievement in catering the needs of people and improvement in the living standard of Indian masses neglected since so many years. In view of the benefit of the neglected weaker section of society and availability of resources the methodology of planning in various sectors of development was adopted and 5th Five Year Plans were completed.

This has helped the integrated development in all fields of activities and living standard of people is improved with a sound base of stable developing economy.

The work of preparation of Five Year Plans and Annual Plans is entrusted to the Planning Commission of India. This work is undertaken and done as per directives of Government of India, taking into considering the needs of the particular time. Accordingly, states are directed to prepare their plans in light of directives of Government of India and Planning Commission. These plans are discussed and finalised at Government of India level.

District Planning and Development Councils. :-

4th Five Year Plans and 3rd Annual Plans were finalised and executed at State level. This was centralised planning which has given very little voice for the local representative and experts in various fields for preparation of plans. This has also created to some extent regional level imbalance and disinte-

grations. It is also not expected from the Central Body to have clear ideas of the problems and difficulties of particular district or area. To overcome this lacuna, the planning process was decentralised and plans are finalised at District level since beginning of the 5th Five Year Plan. District Body consists of the people's representatives, i.e. M.P. and MLAs and some non-official members appointed by Government from various fields of activities. The plans are prepared for removal of regional imbalance if any and integrated development in all sections of activities is achieved. This has helped for preparation of "Need Based Planning". The priority of core and non-core sectors is arranged as per need of the district and plans are finalised in the series of discussions with officers, people's representatives and non-official members as per guide lines and ceiling limit indicated by the Government.

Collector of the District is member Secretary of D.P.D.C. and District Minister is Chairman. These plans prepared at district level are discussed and finalised at State level.

The implementation of the plan is also closely watched by the D.P.D.C. in its monthly meetings and difficulties encountered if any are resolved efficiently by the district level unit under control of Collector assisted by District Planning Officer and his crew.

In view of the experience and achievements of 5th Five Year Plans it could be stated that the methodology of district level planning is successful and it has functioned very effectively in implementation of plans and integrated Development of the District is achieved by removing regional level imbalance.

Tribal Sub-Plan. :-

In this District 474 villages and one town is included in the area of " Tribal Sub-Plan ". These villages are from Kelapur, Wani, Yavatmal and Pusad tahsils of the District.

These communities are isolated and backward. It was noticed that the benefits of General Plan could not reach to them and derived by the tribals. They remain neglected and backward since long. It was felt necessary to adopt some new methods for their speedy and versatile development an idea of Tribal Sub-Plan crept in. During the period of 5th Five Year Plan the " Tribal Sub-Plan" was introduced. In the year 1976-77, outlay of Tribal Sub-Plan was curved out from General Plan-outlay and from 1977-78 onward the outlays are earmarked and no Tribal Sub-Plan funds could be utilised in the General Sector. In Tribal Sub-Plan, stress is laid on taking up the schemes of individual benefit of the tribals and are development approach is also kept in view to some extent. Government has created a post of project Officer with Head Quarters at Pandharkawada to implement and watch progress of Tribal Sub-Plan. He is working under control of the Collector and Deputy Commissioner of Tribal Sub-Plan.

Government is very keen about speedy and all round development of tribals. In view of this, Special Executive Committee is constituted for preparation and effective implementation of tribal sub-plans in the district. The meetings of the Special Executive Committee are called periodically under Chairmanship who of Vice Chairman who is elected tribal representative from district.

While preparation of Tribal Sub-Plan the main objectives are kept in view as below :-

(A) Long Term Objectives :-

- (i) To remove or narrow the gaps of development between tribals and other area people of the district.
- (ii) To accelerate the living standard of tribals to match with other area people of the district.

(B) Immediate Objectives :-

- (i) Elimination of exploitation of tribals.
- (ii) Speeding up of Socio-Economic Development.
- (iii) Building up of the moral strength of the tribals.
- (iv) Ensure ^{social} justice to tribals.
- (v) Equal participation of tribals in the task of Development and Production.
- (vi) Create sense of self-reliance in the tribals.
- (vii) To remove fear and create self-confidence in the tribals for equal participation in developmental programmes in various sectors.

A Annual Plan 1980-81.

Annual Plan 1980-81 is prepared as a part of sixth Five Year Plans.

The plan of the year is prepared and finalised by the D.P.D.C. in its meeting after discussion with elected people's representatives, non-officials members are Officers. The table given below enlightens the financial achievements of the year.

(Rs. in lakhs 0.00)

Sr. No.	Head of Development.	Modified Outlay.	Actual Expenditure.	Percentage of Expenditure.	
				To modified outlay.	To total expenditure.
1.	2.	3.	4.	5.	6.
1.	Agriculture Programme C.D.	142.65	255.00	178	22
2.	Irrigation (Medium).	176.80	293.58	166	26
3.	Power Development.	34.50	35.12	101	3
4.	Industry & Mining.	12.22	12.58	102	1
5.	Transport & Communication.	76.23	74.20	97	7
6.	Social Services.	234.97	232.02	98	20
7.	Employment Guarantee Scheme.	84.45	236.32	279	21
TOTAL.		761.82	1138.82	149	100

The analysis of the above performance during the year 1980-81 indicated that overall expenditure exceeds the budget provision. This happened because much excess expenditure is incurred under E.G.S. followed by Agriculture Programme & Medium Irrigation.

As regards the percentage of expenditure to total modified provision, highest percentage comes to Medium Irrigation 26%, Followed by Agriculture & C.D. Programmes 22%, Employment Guarantee Scheme 21%, Social Services 20%.

Since this District is much lagging behind in Irrigation the emphasis was laid on increasing Irrigation Potential in the District. In view of this the D.P.D.C. had provided

funds for irrigation projects very liberally and the work of medium Irrigation Projects such as Adan, Waghadi, Gokhi, Sakhali Nala, Lower Pus were in full swing and the work of Borgaon, Antargaon, Deogaon & Takali were also taken up.

Major Head of Development-wise description of financial and physical achievements are given below :-

(I) Agriculture Programme :-

Under this sector subsidy for pesticides and recticides is granted worth Rs. 0.28 lakhs. Total coverage for mig-fly (1606 Hectrs.) rate control (10321 hectrs.) and Shoot fly 69 (hectrs.). Amount of Rs. 0.74 lakhs is spent under scheme of H-4 Cotton production scheme. Rs. 11.73 lakhs are incurred under programme of intensive cotton cultivation in Pusad, Digras & Mahagaon Panchayat Samitis. Financial assistance of Rs. 0.51 lakhs is given as subsidy for seeds & fertilisers under tribal sub-plant 288 beneficiaries for 142 hectares in Kharif Season. Resettlement of 114 beneficiaries on forest lands is done for which Rs. 1.24 lakhs are incurred. Financial Assistance of Rs. 0.24 lakhs as loan & subsidy is given to 209 beneficiaries to tribal tenants of lands.

Under minor irrigation financial assistance of Rs. 1.20 lakhs is given to 124 beneficiaries for irrigation wells. Rs. 4.07 lakhs are incurred for subsidy for minor irrigation. Soil Conservation is very important programme for stoppage of land erosion under which Rs. 35.64 lakhs are spent & area of 20268 is covered for bunding.

Ayacut Development Programme covers land levelling for facilitation of flow of irrigation water. Expenditure of Rs. 29.19 lakhs is incurred and 2002 hectares area is covered.

Animal Husbandry is very important sector in view of the animal health and increase in Milk potential and quality breed in the district. Most of the programme is implemented by Zilla Parishad Animal Husbandry Officer. Rs. 0.58 lakhs were spent for supply of medicines to 77 dispensaries/institutions. Rs. 2.50 lakhs are spent for construction of veterinary dispensaries & quarters at Korata, Chikhali, Botony, Adegaon & Jamb. For foot & mouth disease control Rs. 0.17 lakhs were spent.

Dairy Development is very important activity in the district and as such suitable priority was given to this programme. Under tribal sub-plan Rs. 0.97 lakhs are spent by supplying the milched cows to weaker 102 beneficiaries in Yavatmal, Kalamb, Pandharkawada & Pusad Blocks. Rs. 1.83 lakhs are spent for purchasing of implements etc. for dairy development business. In tribal sub-plan, Rs. 0.76 lakhs is spent as subsidy for marketing & transporting facilities. Under tribal sub-plan, Rs. 5.17 lakhs are spent for Pandharkawada & Maregaon Co-operatives of dairy.

Under fishery development, Rs. 2.51 lakhs are spent for fishery seed production centre at Saikheda and 8 fishermen were given training. For stocking of carp fish & incentive for fishery development, Rs. 0.71 lakhs are spent.

Under forest the expenditure of Rs. 9.25 lakhs was incurred, out of which Rs. 7.36 lakhs were spent on elimination of forest contractors, Rs. 0.51 lakhs for establishment of central nurseries, Rs. 0.69 lakhs for establishing flying sward for forest protection, and Rs. 0.66 lakhs for welfare & facilities of forest labourers.

Under I.R.D.P. Rs. 65.55 lakhs are spent and Rs. 2.28 lakhs are spent on I.R.D.P. Programme by Mafatlal and Bharatiya Krishi Udyoga.

(II) Medium Irrigation. :-

-62-

As explained in earlier paragraph Medium Irrigation Projects play an important role in the development of the district. Since the rains are irregular and unevenly distributed, the fortune of the farmers is tied with uncertainty. Irrigation projects ameliorate their troubles to some extent. The work of Adan, Sakhali Nala Lower Pus, Waghadi, Gokhi, Deogan, Borgaon & Antargaon Projects were in progress. Total expenditure of Rs. 293.58 lakhs was incurred on these projects and canals works.

(III) Power. :-

In view of the modern production technology and Industrial and Agricultural Development, Power is very important item. Electric Power is very convenient type of power & hence it is given high priority. By the end of 1980-81, 1323 villages 17289 pump sets were energised. During, 1980-81, 55 pump sets in TSP area and 37 pump sets in non-TSP area were provided power and 6 villages in non-TSP area and 13 villages in TSP area are energised.

(IV) Industry and Mining. :-

Expenditure under this head was of Rs. 12.58 lakhs, which covers schemes of financial assistance to small scale industries, development of handmade occupations, financial assistance & training to educated unemployed, training to industrialists and financial assistance to industrial Co-operatives.

(V) Transport and Communication. :-

Communication is very important item in respect of development and progress of the area. It is main item of infrastructure. The development of rural area starts with road works. The net work of roads is very essential for development of the district

The position in respect of roads for this district is not satisfactory and it is lagging behind. The road works undertaken in the city from time to time are in incomplete stage since long. During 1980-81, expenditure of Rs. 74.20 lakhs was incurred by state & local sectors.

The work of granular material roads were completed for 15.50 Kms., water-bound macadam roads were completed for 84.13 Kms., 124 C.D. works & block topping of 1.00 Km.

(VI) Social Services. :-

General Education.

Under this head of development the expenditure of Rs. 20.47 lakhs was incurred i.e. Rs. 16.50 lakhs in Non-TSP and Rs. 3.97 in TSP area on the various schemes of Education Department.

Technical Education.

Under technical education the expenditure of Rs. 8.55 lakhs covers the various schemes such as development of library in Government Polytechnic, Yavatmal, establishment of books banks in Government Polytechnic, Yavatmal, deplome Courses, Courses for Urban Engineering Assistant other Mechanical Courses.

Health.

Under this state and local programmes are considered. The expenditure of Rs. 15.87 lakhs is incurred. Out of this, in TS Plan was Rs. 3.28.lakhs.

Water Supply and Sewerage.

The expenditure of Rs. 68.88 lakhs was incurred under this head which includes the expenditure of Rs. 14.66 lakhs in TS Plan.

The work of Govt. Piped Water Supply Schemes, Municipal Water Supply Schemes, Rural Water Supply, Dug wells and Bore Wells were covered.

The work of construction of one additional water reservoir is completed. Digras, Ghatanji and Umarked water supply schemes and Wani drainage system scheme are completed. Regional water supply scheme for all villages in Ralegaon Panchayat Samiti, Regional water supply scheme for 6 villages in Babhulgaon P.S., Regional water supply scheme for 8 villages in Umarked & Mahagaon P.S., Regional water supply scheme for 25 villages in Pusad P.S., Regional water supply scheme for 13 villages in Yavatmal & Digras P.S., Ner-Nababpur Rural Water Supply Scheme, Dhanaki, Chinchghat, Tiwasa & Rui village water supply schemes are completed in non-Tribal Sub-Plan area; and Rural Water Supply Scheme at Belori & Tiwasa were in progress in Tribal Sub-Plan area.

Urban Development.

The expenditure of Rs. 12.07 lakhs was incurred for financial assistance to 8 Municipal Councils for implementation of various urban development schemes.

Housing.

The expenditure under this head of development was incurred of Rs. 71.78 lakhs. Out of this Rs. 15.82 lakhs were spent on TSP area.

Nutrition.

Under nutrition the expenditure of Rs. 6.80 lakhs was incurred which includes expenditure of Rs. 5.36 lakhs under TSP area; covering 7070 and 9000 beneficiaries in Non-TSP and TSP areas respectively.

Welfare of Backward Classes.

Expenditure in Non-TSP area was incurred of Rs. 15.64 lakhs and in TSP area of Rs. 7.96 lakhs. Under this head of

development the schemes for benefit of backward classes in the form of subsidy or free supply of education and economic uplift.

The scheme of Ashram Shala Complex was included under this 59 pump sets and 5 oil engines were supplied to Adiwasi on 100% subsidy.

Social Welfare.

Under this, Rs. 0.25 lakhs are spent in Non-TSP area which included expenditure of Rs. 0.16 lakhs spent for opening of orphan for Children at Umarked.

Labour & Labour Welfare.

Under this head expenditure of Rs. 3.41 is incurred in Non-TSP area only for the scheme of I.T.I. and assistance to educated unemployed.

Information and Publicity.

The expenditure of Rs. 0.44 lakhs was incurred under this head of development out of which Rs. 0.25 lakhs in Non-TSP area and Rs. 0.19 lakhs in TSP area.

Employment Guarantee Scheme-

Under Employment Guarantee Scheme (E.G.S.) Rs. 236.32 lakhs are spent and different 637 works were in progress in which the total number of labourers were 50437. The E.G.S. is the unique programme which gives guarantee of work to all able bodies persons willing for manual work from rural areas and who are desirous to do so. This consists only unskilled work or component of work. During the year 1980-81, Rs. 209.32 lakhs were spent in TSP area on ^{different 462 works} and Rs. 27.00 lakhs in TSP area on 175 works.

- 65 -

Under E.G.S. work of major, minor irrigation tanks, perlocation tanks, road works, forest works, Ayacut works, flood protection works & soil conservation works were undertaken.

This programme has given guarantee of work to the rural people especially when they are not employed in agricultural operations. This programme is most popular and its demand is increasing.

This programme is covered under " Food for work " which gives nutritious food to the workers at very nominal rate. This is main attraction of the programme. Community assests are built up under this programme.

Difficulties and bottle necks experienced in the implementation of various schemes during the year 1980-81.

(1) The budget provisions under most of the schemes were received late. In case of new works/items/ schemes the provisions as proposed by the D.P.D.C. were remained unbudgeted for want of Administrative or Technical sanction.

(2) In case of continued schemes the administrative approvals and orders to continue the schemes were abnormally delayed by various heads of Departments. Even in case of the budgeted schemes orders to release budget grants were considerably delayed by the heads of departments resulting in failure to achieve the targets in the plan year.

(3) The schemes are formulated without any study or survey but on the basis of the schemes implemented in other district and without studying the feasibility of the schemes in the district.

(4) Roads were proposed without studying whether the land would have to be acquired or not. Normally, the land acquisition process takes its own time. The provision under such works remained un-spent under such circumstances.

(5) The preliminaries required to be completed before implementation of such programme were never completed before hand and those steps were taken after a major period was lapsed.

(6) Planning of programme is most of the schemes was not done which resulted in not achieving the desired targets.
 done on the basis of the schemes implemented in other district
 and without studying the feasibility of the schemes in the district.
