THIS is the second issue of the Statistical Abstract of the Maharashtra State. The issue is a combined one for the two years 1961-62 and 1962-63. The Abstract is prepared on the lines similar to those of the Statistical Abstract of India prepared by the Central Statistical Organisation, Government of India. It contains detailed districtwise statistics relating to socio-economic aspects of the Maharashtra State. For a proper understanding, an explanatory note on the sources and limitations of the statistics included herein is given in the appendix.

I wish to thank the various departments and offices of the State Government, of Government of India and Local Organisations which have supplied the necessary material and permitted us to publish the same. It is hoped that this publication will serve as an adequately detailed reference for those interested on the socio-economic problems of Maharashtra State.
