SOCIO-ECONOMIC REVIEW

AMRAVATI DISTRICT

1964-65

INTRODUCTION

According to one belief, Amravati District has derived its name from the Temple of Amba Devi which is situated in the town of Amravati. According to another, the name 'Amravati' has its origin in Sanskrit which means the Abode of Immortality or the Eternal City. Amravati is considered to be one of the Ancient Towns in Maharashtra.

The District of Amravati lies between $21^{\circ} 46'$ and $20^{\circ} 32'$ N. & $76^{\circ} 38'$ and $78^{\circ} 27'$ E. It is surrounded on the north by the Districts of Nimar, Betul and Chindwara in Madhya Pradesh, on the East by the Districts of Nagpur & Wardha and on the South by Yeotmal District, whereas, Akola and Buldana Districts touch its boundary on the West.

The major part of the district is plain region with the exception of Melghat Taluka in which are extended some hills of the Satpura Range known as Melghat. The elevation of this range at Bairat Plateau is 3866 ft. The altitude of Chikhalda and Gawilgarh is slightly lower.

The largest river which flows through the district is the Purna. It rises in the southern slopes of Gawilgarh hills and flows through the districts of Akola, Buldana and then Jalgaon where it joins the River Tapi.

The river Chandrabhaga is the next in importance in Amravati District. It flows through Achalpur & Daryapur talukas and finally joins the River Purna at Dhamni Khurd in Daryapur taluka. The rivers Tapi & Wardha form the north-western and Eastern boundaries of the district respectively.

AMRAVATI DISTRICT

Amravati District possesses rich and fertile black cotton and alluvial soil. The richest tracts are found in the neighbourhood of the Rivers Purna & Wardha. Due to the presence of the fertile black cotton soil, Amravati District has become one of the important cotton-growing regions in Maharashtra State.

As Amravati District is in the interior, far away from both the eastern as well as the western Coast, its climate is dry and extreme. The winters are pretty cold and the summers are extremely hot. The highest temperature recorded in May, 1964 at Amravati Station was 43.1 degrees centigrade, whereas the lowest temperature was 14.9 degrees centigrade recorded in December, 1964. The district receives a moderate amount of rainfall. The rainfall recorded at Amravati Station during the calendar year 1964 was 888.6 Millimetres.

According to 1961 Census, there are 1968 Villages out of which 1609 villages are inhabited and 359 villages are un-inhabited. There are 13 towns in Amravati District. The district covers an area of 4691 Sq.miles or 12,150 Sq.Kilometres. The number of villages and towns and area in Sq.Kilometres according to each taluka is given below:-

Taluka	No. of Villages Inhabited.	No. of villages un-inhabited.	Total Villages.	Towns	Area in Sq. Kilometres.		
					Rural	Urban	Total

Source: Census of India 1961, Vol. X, Part II-A

The total number of forest villages in Maharashtra is 597. Out of 1968 villages (including un-inhabited or deserted villages) in Amravati district, 166 villages are forest villages. This means that about 28% of the total forest villages in Maharashtra are situated in Amravati District.

In respect of area, the district ranks twelfth in the State and third in Nagpur Division, next only to Chanda and Yeotmal Districts. According to 1961 Census, the population of Amravati District is 12,32,780 out of which the rural population is 9,10,586 and the urban population 3,22,194.

DISTRICT ADMINISTRATION

Amravati town is the district headquarters. It is also the divisional headquarters of some departments of the State Government. The Collector is the head of the district administration. He also acts as the District Magistrate. There are twelve Deputy Collectors working in the district. The senior one among them is posted at the district headquarters as Resident Deputy Collector who also has got the magisterial powers. Amravati district has been

divided into five sub-divisions - each taluka forming one sub-division with the exception of Achalpur and Melghat taluka which together form one sub-division. Each sub-division has a Deputy Collector, as its administrative head, who is designated as the Sub-Divisional Officer. The remaining six Deputy Collectors work at the district headquarters. Each sub-division is further divided into Revenue Circles. There are 26 Revenue Circles in the district, each one under the control of a separate Revenue Inspector. Below the Revenue Inspector are Talathis or Patwaris in charge of villages or groups of villages.

POLICE

.201, 22, 2

The functions of the Police Department are prevention, detection and investigation of crimes and preservation of law and order. In Amravati district, there is a Superintendent of Police in charge of police functions. He is assisted by Deputy Superintendents of Police who have territorial jurisdiction. He has the assistance of the Home Inspector and a small ministerial establishment.

Legal practitioners are employed as Police Prosecutors or Special Police Prosecutors to conduct court proceedings and to give legal advice in the investigation of crimes.

JUDICIARY

Every district is constituted as a judicial district for the purpose of administration of civil and criminal laws. There is a District Court for each district which is presided over by the District Judge.

For each district, there is also a Sessions Judge who tries criminal cases which are committed to him by Judicial Magistrates. Under the District Judge are Assistant Judges who are also additional Sessions Judges. As Additional Sessions Judges they try criminal cases which are entrusted to them by the Sessions Judge. Below the courts of the District Judges and Assistant Judges, are the Courts of Civil Judges (Senior Divisions) and Civil Judges (Junior Divisions).

For every district, the Collector is also appointed as District Magistrate for performing the duties under the Criminal Procedure Code. He performs no judicial functions. Only a few quasi-judicial functions mainly concerned with prevention of disturbances of peace continue with him. The Resident Deputy Collector is usually empowered as Additional District Magistrate. The Sub-Divisional Officers function as Sub-Divisional Magistrates for their respective Revenue Sub-Divisions. Tahsildars are empowered to act as Taluka Magistrates for their respective charges.

ZILLA PARISHAD AND PANCHAYAT SAMITIS.

Amravati Zilla Parishad came into existence on 1/5/1962. There are 47 members elected to the Parishad from 47 electoral divisions in addition to which, there are 13 -Ex-Officio and 5 Associate Members. The Chief Executive Officer and the Deputy Chief Executive Officer of the Zilla Parishad are appointed by the State Government. The Zilla Parishad is responsible for the development activities in the district.

Below the Zilla Parishad are the Panchayat Samitis. There are thirteen panchayat samitis in Amravati District each covering a Community Development Block except Daryapur and Amravati Panchayat Samitis which cover two blocks each. The executive responsibility rests with the Block Development Officer. All elected Zilla Parishad Members from a particular Community Development Block area automatically become members of the Panchayat Samiti of that block. In addition to this, two members are elected from each electoral division within the block from among the Sarpanchas of the village panchayats. The Chairman of the Panchayat Samiti is known as Sabhapati. The Block Development Officer is assisted by several Extension Officers in carrying out different development activities.

The village panchayat is the lowest administrative unit in the three-tier system of the Panchayat Raj. The members of a village panchayat are directly elected, who, in turn, elect the Sarpanch of the Panchayat. Generally, there is one Panchayat for one village. However, there are some group gram Panchayats each covering a group of villages. There are 725 village & group Village Panchayats in Amravati District.

7
CHAPTER II

The preceding chapter has dealt with the geography & administrative set-up in Amravati District. The Statistical data presented in this Abstract are divided into 13 groups. An attempt is made in the following paragraphs to give a brief summary of these tables and to bring into bold relief some of the salient features of the data presented.

1. CLIMATE

The climate of Amravati District is dry and extreme, Amravati town is the only meteorological observatory maintained by the Regional Meteorological Centre, Nagpur, and therefore, the temperature recorded at Amravati town is reported. The district receives a moderate amount of rainfall; average rainfall at Amravati is 852.0 mms.

2. AREA & POPULATION

The district covers an area of 4,691 Sq. Miles or 12150 Sq. Kilometres. In respect of area, the district ranks twelfth in the State and Third in Nagpur Division, next only to Chanda & Yeotmal. In respect of population as per 1961 Census, Amravati is the seventeenth district in Maharashtra in descending order of population. In Nagpur Division, Amravati District occupies the fourth place in respect of population - the first three places being occupied by Nagpur, Bhandara and Chanda respectively. During the last 10 years i.e. 1951 to 1961, the population of this district rose by 19.55 % while during the last 60 years, i.e. from 1901 to 1961 it rose by 52.79 %. While the average density of population per Sq. Mile for the district as a whole is 263, it is 459 in Amravati taluka (due mainly to location of Amravati & Badnera towns) and only 47 in Melghat Taluka.

The population in rural areas is 73.9 % of the total population whereas, in urban areas, it comes to 26.1 % of the total which is comparable with 71.8 % and 28.2 % respectively for the State as a whole. Out of the total population, 46.89 % of the population is classified as economically active or workers, while the remaining 53.11 % of the population is classified as non-workers. Workers engaged in agriculture form 79.24 % of the population of workers. This clearly shows that agriculture is the major occupation of people in Amravati District.

As regards sex ratio, there are 933 female persons for every 1,000 male persons in Amravati district which is comparable with 936 females for every 1,000 males for the State as a whole.

3. AGRICULTURE

The area figures in the various agricultural tables are shown in hectares. One acre is equal to 0.4047 hectare. Out of the total geographical area in the district, 57.1 % of the area was under cultivation in 1963-64 while the area under forests was 28.2 %. Out of the total gross cropped area of 7,01,100 hectares in 1963-64, 44.3 % was under food crops while 55.7 % was under non-food crops. Among food crops, Jowar, Wheat and Tur are important. In 1963-64, the area under Jowar accounted for 25.1 % of the total gross cropped area while the area under Wheat and Tur was 5.7 % each respectively. Cotton is the most important non-food crop in Amravati District. The area under cotton in 1963-64 was 50.5 % of the total gross cropped area of 7,01,100 hectares. The area under oil seeds was 4.7 % of the total gross cropped area.

While production of cotton and tur increased considerably and that of Jowar slightly in 1963-64 as compared to the previous year, production of Wheat and Gram (Rabi Crops) fell considerably during the same year.

The area under irrigation in Amravati district is negligible being only 1.27 % of the total gross cropped area. This is due to absence of large rivers and lakes in the district. Out of 8,938 hectares of irrigated area in 1963-64, 46 % of the area lies in Morshi taluka alone which is famous for Orange Orchards, Bahana Plantations and other fruit trees. Irrigation is done mainly by wells which irrigate 98 % of the total irrigated area.

4. ANIMAL HUSBANDRY, FOREST & FISHERIES

The total cattle population in Amravati district according to 1961 livestock census was 5,13,051 which included 36.50 % males over 3 years, 30.46 % females over 3 years and 33.04 % Young Stock. While the number of working bullocks was 1,78,288, the total net cultivated area in 1961-62 was 6,84,506 Hectares. Thus, on an average there was one working bullock for an area of 3.8 Hectares.

In Amravati District more than a quarter, i.e. 28.2 % of the geographical area is under Forests. This shows that forests play an important role in the district economy. Melghat Taluka alone covers more than 80 % of the area under Forests. The Forest Area under the control of the Forest Department is divided into two divisions and one sub-division, namely, East Melghat and West Melghat Divisions and Amravati Sub-Division. The total value of forest produce in 1964-65 amounted to Rs. 87.00 Lakhs. During the Third Five Year Plan, one wood sawing and seasoning plant has been set-up at Paratwada (Integrated Unit, Paratwada) under the scheme 'Development of substitute for teak'.

5. EMPLOYMENT, INDUSTRY, MINING & ELECTRICITY.

The total number of registered factories in Amravati District increased from 82 in 1963 to 92 in 1964. There are mainly agriculture-based industries in Amravati District. Out of 92 factories, about 62 % cover three industries, namely Cotton Ginning & Pressing (33), Dal Mills (7) and Edible Oil Mills (17).

Table No.5.1 shows employment in factories submitting returns and factories not submitting returns separately. Taken together, there were 7,826 factory workers in Amravati district in 1964 which means, for every 1,00,000 population in the district, there were 635 factory workers in Amravati district.

With a view to avoid heavy concentration of industries at some places and to encourage balanced regional development the Government of Maharashtra has established a number of industrial estates at various important centres in the State. Government Industrial Estate, Amravati comprising of 29 sheds was constructed at a cost of Rs.8.50 lakhs in 1962 on Amravati Badnera Road. Some of the important cottage industries in Amravati district include handloom weaving, leather products and tanning, bricks and tile making, textile dyeing and printing and oil manufacturing.

Amravati district has made great strides in the rural electrification programme as by the end of 1964-65 there were 324 electrified villages. This means, over 20% of the inhabited villages in Amravati district have been electrified. Amravati district receives its power supply from Khaparkheda and Paras grid system. However, electricity is generated at Dharni as it is found to be more economical to have a power house there. Per capita consumption of electricity in Amravati district in 1964-65 was 30 Killowatt hours on the basis of 1961 population.

6. CO-OPERATION.

The Co-operative movement has made considerable progress in Amravati District. There were 1110 cooperative societies in the district at the end of June, 1965, out of which 62 % of the societies were cooperative credit societies. The cooperative credit societies perform the vital function of providing cheap credit to the cultivators. Apart from this, some of the important types of cooperative started in this district include agricultural marketing, consumers' cooperative, farming, housing, industrial processing and cooperative dairy societies.

An important event during the year was the registration of first cooperative spinning mill in the district called the 'Sahakari Soot Wa Kapad Girni' Ltd. Amravati. The membership of the society consists of 241 individuals, 506 societies and the State Government with paid-up capital contribution of Rs. 31,345; Rs. 13.72 lakhs and Rs. 14.00 lakhs respectively.

7. MEDICAL AND PUBLIC HEALTH

Amravati is one of the districts in Vidarbha Region which has fairly good number of hospitals and dispensaries so that the public both in rural and urban areas get the benefit of medical facilities without much trouble. The various public and public-aided medical institutions functioning in the district include hospitals, dispensaries, maternity homes, primary health centres and ayurvedic dispensaries.

There are 57 beds for every one lakh population in Amravati district. According to 1961 census, there are 1,120 persons in Amravati District engaged in medical profession as physicians, surgeons & dentists. This means that for every 1100 population, there is one person engaged in medical profession in the district.

8. EDUCATION

Amravati district has made all-round progress in the field of education. Amravati district stands sixth among all the districts of Maharashtra in respect of literacy - the percentage of literacy being 33.68 as compared to 29.18 % for the state as a whole. Out of 1609 inhabited villages in Amravati district, 995 villages or about 62 % of the total villages have schools in them. There is one primary school in Amravati district for every 1010 population. In 1964-65 there were 358 students taking secondary education in Amravati district for every 1000 students taking primary education.

Under the category of special education, following types of institutions are included such as polytechnic, industrial training institute, gram sevak training centre, nursing and mid-wifery, ayurvedic, homeopathic, music and dancing, etc. The Government College of Engineering was opened at Amravati in 1964-65.

9. TRANSPORT AND COMMUNICATIONS

Amravati district has a well-developed transport and communication system. The road network has been well laid out in Amravati District. The total length of all types of roads at the end of 1964-65 is 1464 Km. which means that for every 1,00,000 population in the district the length of roads is 118.8 kilometres. One kilometre of road serves an area of 8.3 Sq. Kilometres.

With the inauguration of Zilla Parishad in 1962-63 the national highways and state highways were retained under the control of the Building & Communications Department and other types of roads such as district roads, village roads, etc. were transferred to the Zilla Parishad. Considered surface-wise, 31.3 % of the total road length is of black-topped surface while 48.7 % is water bound macadam type.

Amravati District is well served in respect of Postal Facilities also. Out of 1609 inhabited villages 17% villages have post offices within the village; 34% villages have post offices within a distance of 3 Kms., 22% villages within a distance of 3 - 6 Kms. and 27% villages have post office at a distance above 6 Kms.

10. LOCAL BODIES

A Village Panchayat represents local self government at the village level. All the revenue villages are covered by the village panchayats. Forest villages are, however, excluded. There are 725 village panchayats in Amravati

District. 46% of the total income of all village panchayats is in the form of Grants-in-aid while 30% of the income is derived by way of taxes and fees and the remaining 24% of the income consists of contributions, donations and other sources.

Amravati Zilla Parishad came into existence on 1/5/1962. Out of the total income of Rs. 5,38,87,863, in 1964-65, income in the form of self-raised resources is 4% (such as local fund cess, taxes, fees, etc.) while 41% of the income is by way of Government Grants including grants for agency schemes and 28% income by way of loans, advances, deposits, etc. In respect of expenditure, out of the total expenditure of Rs. 5,34,87,083, revenue expenditure is 44%; out of which 49% was spent on education and 10% on community development programme.

There are 13 Municipal Towns in Amravati District. 58% of the total income of all municipalities in 1964-65 is raised through rates and taxes, 32% through grants, 5% income from municipal property and 5% through other sources. In case of expenditure for the same year, 37% of expenditure is incurred on public health and convenience and 28% on Public Instruction.

11. PLAN & COMMUNITY DEVELOPMENT

The Third Five Year Plan which commenced from 1/4/1961 was over by 31/3/1966. The Plan was split up into three types of schemes, namely, State Level, Division Level and District level schemes. The total revised Plan Provision for district level schemes implemented in Amravati District was Rs.4.72 crores out of which 52% was for schemes in the State Sector and 48% for schemes in the Local Sector. This means that the per capita outlay, under district level schemes only, in Amravati district is Rs.38.32 on the basis of 1961 population.

The total expenditure incurred on District Level schemes during the Five Years is Rs.4.71 crores, i.e. 99.7% of the revised Plan Provision. Year-wise expenditure incurred under each scheme and some important items of physical achievements are shown in Table No.11.1 and 11.2 respectively.

The entire rural area is covered by the Community Development Programme. 24% of the rural population is covered by Stage I Blocks, another 24% by Stage II Blocks, 44% by Post Stage II Blocks and 8% by T.D.(Tribal Development) Blocks. Physical Achievements of certain selected items are given in Table No.11.3.

12. PRICES

The Bureau of Economics and Statistics, collects prices of some important commodities every week at the district headquarters and every fortnight at the selected rural centres. Commodities are selected from each group like, Cereals, Pulses, Sugar & Gur, Edible Oils, Hydrogenated Oils, Meat, fish, etc., condiments & spices, vegetables and fruits, fuel, clothing and several other miscellaneous items of consumption.

Varieties of each particular commodity are fixed and prices of those particular varieties only are collected in order to get a comparable picture of the price situation.

During the year 1964-65, the prices of almost all commodities under various groups such as Cereals, Pulses, Edible oils, Spices, etc. showed rising tendency in the latter half of the year due to scarce supply. Some of the cereals like Rice and Jowar disappeared from the market in the last 2-3 months.

There are 11 regulated markets in the district, out of which 6 are cotton markets and 5 grain markets. They are governed by the Central Provinces & Berar Cotton Market Act of 1932 and the Agricultural Produce Market Act of 1935. Cotton is the most important commodity handled by the regulated markets as, about 74 % of the total quantity handled by all the markets taken together in 1964-65 is cotton. Next in importance are groundnut, tur and wheat.

13. MISCELLANEOUS

Amravati is an important educational, commercial and cultural centre in Vidarbha Region. Amravati is also famous as an important Film Distribution Centre. There are several Film Exchanges at Amravati which cater to the needs of a very wide area. There are 10 Cinema Theatres at the district headquarters which means there is one Cinema Theatre for every 13780 population in Amravati town on the basis of 1961 Census.

There are 20 towns and villages in Amravati district having banking offices in them. These include Amravati, Achalpur, Anjangaon, Badnera, Chandur Rly, Chikhalda, Daryapur, Dhamangaon, Dharni, GurudevNagar(Mozari), Karajgaon, Kholapur, Kurha, Morshi, Nandgaon, Nerpinglai, Pathrot, Teosa, Warud & Yeoda. Amravati is one of the advanced districts in Maharashtra in respect of trade, commerce and industry.

PART - II-

C O N T E N T S

A-STATISTICAL ABSTRACT FOR THE YEAR 1964-65

Sr. No.	Table No.	S u b j e c t s	Page No.
1. Climate			
1.	1.1	No. of Rainy days & total rainfall at selected centres.	100
2.	1.2	Mean, Mean Maximum, Mean Minimum Temperature at selected centres	400
2. Area & Population			
3.	2.1	Talukawise rural and urban population according to 1961 census and variations with 1951 census.	503
4.	2.2	Talukawise classification of villages according to population ranges in 1961 Census.	630
5.	2.3	Talukawise classification of towns to population ranges in 1961	708
6.	2.4	No. of workers in each taluka, according to 1961 census.	8
7.	2.5	No. of non-workers in each taluka, according to 1961 census.	900
8.	2.6	Scheduled caste and scheduled tribes	1010
9.	2.7	Population in Urban areas according to 1961 census.	11
3. Agriculture			
10.	3.1	Land Utilisation	12
11.	3.2	Area under different crops in each taluka.	1300
12.	3.3	Yield per Hectare and Outturn of principal crops.	1500
13.	3.4	Area irrigated by different sources in each taluka.	1600
14.	3.5	Area irrigated under different crops in each taluka.	1700
15.	3.6(a)	No. of irrigation wells in each taluka.	2000
	(b)	Minor Irrigation works	21
	(c)	Major & Midium projects	2200
16.	3.7	Percentage distribution of households engaged in cultivation classified by interest in land and size of land cultivated (Based on 20 percent sample households.)	23
17.	3.8	Agricultural Wage Rates	25
18.	3.9	Agricultural Implements in each taluka in 1961	27
19.	3.10	Famines, Scarcity & Akin to scarcity data.	28
20.	3.11	Progress under Soil Conservation and Land Reclamation.	30

Sr. No.	Table No.	S u b j e c t s	Page No.
4. Animal Husbandary, Forest & Fisheries			
21.	4.1.	Summary of Live Stock Census	31
22.	4.2.	Live Stock in each Taluka	32
23.	4.3.	Veterinary Statistics in each Taluka	34
24.	4.4.	Disease-wise Livestock Mortality	35
25.	4.5.	No. of Recognised Slaughter Houses and Animal slaughtered in each Slaughter House.	37
26.	4.6.	Rangewise Forest Area	38
27.	4.7.	Major & Minor Forest Products	39
28.	4.8.	Miscellaneous statistics relating to Fisheries.	40
29.	4.9.	Quantities of Fish brought for curing, salt issued and Fish removed.	41
5. Employment, Industry, Mining and Electricity			
30.	5.1.	Employment in Factories	42
31.	5.2.	Distribution of working factories according to product and their working strength.	44
32.	5.3.	Distribution of Factories according to numbers of days worked.	46
33.	5.4.	Important Industrial & Mineral Production.	48
34.	5.5.	Statistics relating to Handlooms & Powerlooms for the years 1963-64 and 1964-65.	49
35.	5.6.	Employment Exchange Statistics	50
36.	5.7.	Occupational distribution of total Registration of Employment, Vacancies notified and placements etc.	51
37.	5.8.	Changes in the volume of employment in different industries.	52
38.	5.9.	Statistics relating to Annual Survey of Industries.	53
39.	5.10.	Generation and Consumption of Electricity.	54
40.	5.11.	No. of Towns and Villages Electrified and population covered.	55
41.	5.12.	Installed Capacity and Electricity generated.	56

Sr. No.	Table No.	S u b j e c t s	Page No.
<u>6. Co-operation</u>			
42.	6.1	Statistics relating to District central Co-operative Bank, District Industrial Co-operative Bank, District Development Bank.	57
43.	6.2	Co-operative Societies of each type	58
44.	6.3	Agricultural Co-operative Societies in each Taluka.	60
45.	6.4	Agricultural Co-operative Marketing society (Marketing & Distribution) in each taluka.	61
46.	6.5	Number of Registered Money Lenders and Loans advanced by them.	63
<u>7. Medical & Public Health</u>			
47.	7.1	Number of persons engaged in Medical and public health professions according to 1961 census.	64
48.	7.2	Medical facilities available through public and public aided bodies in each taluka.	65
49.	7.3	No. of Patient (in-door, Out-door) treated	67
50.	7.4	No. of Births & Deaths registered	68
51.	7.5	No. of Deaths due to important causes	69
52.	7.6	Vaccination statistics & cholera inoculation.	70
53.	7.7	Statistics of B.C.G. Vaccination	71
54.	7.8	Hygenic Drinking Water Supply sources in rural areas.	72
<u>8. Education.</u>			
55.	8.1	Literacy in each taluka according to 1961 census.	73
56.	8.2	Education in Rural Areas in each taluka, according to 1961 census.	74
57.	8.3	Education in Urban areas of the district according to 1961 census.	75
58.	8.4	No. of Institutions, Pupils and teachers	76
59.	8.5	Enrolment Beneficiaries and concessions to economically backward classes.	77
60.	8.6	Economically-backward class concessions of Free Education.	78
61.	8.7	Expenditure on primary education by way of grants-in-aid to local bodies.	79
62.	8.8	Classification of towns and villages with & without primary school by population ranges.	80

Sr. No.	Table No.	S u b j e c t s	Page No.
