ANNUAL REPORT ON EDUCATION IN UTTAR PRADESH DURING 1954-55

CHAPTER I

GENERAL SURVEY

During the year under report (the fourth year of the First Five-Year Plan) important changes were introduced and significant progress made in different sectors of the educational field. The scheme for the Reorientation of Education in the Junior High stage which had been launched during the closing part of the previous year gained momentum and yielded commendable results. The scheme has been effectively instrumental in making the conception of the school being a community centre an integral part of the educational programme in the rural areas.

The programme for the expansion of primary education was started in 1947, and by March, 1953, the number of primary schools had risen by 12,275. Thereafter, the position was consolidated, and the plan for conversion of primary schools into basic schools already taken in hand, was completed. Compulsory Primary Education for boys is in force in 86 Municipalities of the State and in part areas of some District Boards. For the renovation and construction of school buildings local resources and efforts were organized through self-help squads of school children and Shramdan Drive. Grants amounting to Rs.2,87,500 were also sanctioned to the District Boards towards the construction of new primary school buildings.

Introduction of Agriculture or a local craft as the central subject in the curriculum of Junior High Schools has extended the basic pattern of Education to the age-group 11 to 14. A drive was initiated to secure land and money-gifts from the people for the agriculture-farms of the schools. More than 20,000 acres of land has been procured for 2,094 schools and Rs.30,85,982 were collected for the Scheme.

In consonance with the recommendations of the Secondary Education Reorganization Committee Report which had been received by Government in the previous year, the curriculum of higher secondary schools was modified by eliminating the distinction between main and subsidiary subjects. There was a further increase in the number of secondary schools and the candidates who took public Examinations. The number of candidates who took the High School and Intermediate Examination was 2,02,843 and 78,775 respectively.

The State is well-served by six universities and a number of colleges. The total number of students in the Universities and colleges rose from . 79,449 in 1953-54 to 81,632 in 1954-55. The Allahabad University Act was first promulgated in 1921. Government appointed an Enquiry Committee for the Allahabad University under the chairmanship of Mr. Justice Mootham. The committee made a detailed investigation into the affairs of the University. A bill was, therefore, prepared during the year under report to give effect to the recommendations of the committee and to amend the Act of 1921. The Act of the Lucknow University was drawn up on the lines of the Allahabad University Act. An amending bill was, therefore, prepared for the Lucknow University also.

A number of schemes sponsored by Government of India and designed to promote research and experiments in education were implemented in this State during the year under review. The Government Central Pedagogical Institute, Allahabad, has been equipped to undertake investigations in improved methods and techniques of teaching in the field of Basic Education. Three Junior Basic Training Colleges were set up at Muzaffarnagar, Allahabad and Lucknow to train under-graduate teachers for basic education. An experiment in the programme of the total education was undertaken in three blocks in these districts. Each Intensive Development Block covered the area of about 75 Junior Basic Schools. Community Centres and Integrated Library service has been provided. Three Janta Colleges have been established to train village leadership and promote social education. The Junior Basic Schools in the blocks have been improved in building and equipment. The programme has been designed as a pilot project to study impact of intensive educational development on the socio-economic condition of the people.

Under another scheme sponsored by Government of India, two Junior Basic Schools were taken in each district of the State for being converted into school-cum-community centres.

Provision was also made for giving aid to private institutions which were engaged on educational work of pioneering or significant experimental nature.

Social Education work is carried on mainly by the Planning Department, but the Education Department continued to maintain 1,317 Libraries and 3,600 Reading Rooms in the rural areas. Books and periodicals of the value of Rs.55,418 were supplied to them during the year.

Audio-visual aids to education received special attention. The State has a Film Production Unit for the preparation of audio-visual aids and particularly educational films and film strips. The Unit produced five films and one strip. Five publicity vans fitted with projectors moved extensively in the rural areas and gave 411 film shows. A well-illustrated edition of Ramayan written in simple language was published for the benefit of the neo-literates.

The Bureau of Psychology at Allahabad with Regional Psychological Centres gave vocational and personal guidance to students. During the year under review the Psychometrics Section of the Bureau took up Projects for standardization of space test (B. P. S. T. I.), revision of norms for the N. I. I. P. (London) Group Test No. 70/23 and preparation of norms for the N. I. I. P. (London) Form Relations Group Tests. The Bureau conducted a full session training of 10 Guidance Psychologists. It also rendered technical assistance in the selection tests for recruitment to the Police Department.

There were 39 special Anglo-Indian Schools of which 35 were aided and 4 unaided. These schools have made steady progress in adjusting themselves to the needs of the country. Hindi became a compulsory subject in the Anglo-Indian Schools and its teaching has received greater care and attention.

The educational welfare of the Harijans continued to have the close attention of the Government. Education for indigent Harijan students is free from the Primary Classes right up to University stage in all the institutions maintained or aided by Government or the Local Bodies. Seats were reserved for Harijan students in all schools and colleges. A large number of stipends ranging from Rs.1-8 in Primary Classes to Rs.30 permensem in Degree and Post-graduate classes were awarded in addition to monetary assistance for the purchase of books, examination fees, etc. Consequently the enrolment of Harijan boys has increased rapidly at different stages of education.

An Officer on Special Duty has been appointed to look after the educational welfare of displaced students. During the year under review 17,889 students were sanctioned free-ships amounting to Rs.4,28,165-10-6 and 11,386 students were sanctioned cash grants amounting to Rs.74,521. At the same time 757 students were sanctioned stipends amounting to Rs.2,39,005. During the year 1954-55, 19 Educational Institutions of this State which were catering largely to the educational needs of displaced students from Pakistan, were sanctioned grants-in-aid by the Government of India for construction of school buildings, and purchase of furniture and equipments, etc. The total amount sanctioned as grants-in-aid by the Government of India was Rs.3,14,500 out of which an amount of Rs.1,74,500 was paid to the institutions and the balance will be paid in the next financial year.

Sanskrit education continued to be encouraged. Hindi, which is a compulsory subject has a composite course in Sanskrit. There are 1,012 Sanskrit Pathshalas in the State, with an enrolment of 38,637. The number of aided Pathshalas increased from 391 in 1953-54 to 407 in the current year. Eight thousand and two hundred and one candidates appeared at the Sanskrit examination. The Sanskrit Pathshalas were supervised by the Inspector of Sanskrit Pathshalas and his staff of three Assistant Inspectors.

During the year under review the Government Archaeological Museum, Mathura, acquired 107 valuable antiquities consisting of stone sculptures, architectural pieces, niscriptions, terracottas, clay, sealings, pottery and bronzes. Seven hundred and fifty-three new coins were also added to the Museum Coin Cabinet. They include a lot of 354 copper coins of the Kushana Emperor of Mathura.

The Central Record Office was maintained at Allahabad under the supervision of the keeper of records. The records of Kanpur, Jalaun, Jhansi, Banda and Etawah districts were scrutinized and listed in connection with the material for History of Freedom Movement in India. One thousand and eighty pages of material were typed and sent to the Uttar Pradesh Committee of History of Freedom Movement in India. The pre-Mutiny Records of Azamgarh, Ghazipur, Kanpur, Farrúkhabad and Aligarh were checked, listed and transferred to the Uttar Pradesh, Central Record Office, Allahabad. A number of valuable books were also edited and published. The Uttar Pradesh Regional Record Survey Committee have purchased some rare manuscripts from individuals. Most of them are Farmans of Mughal period. They also include Ram Charitra Manas, Waq,-Alamgir and Tarikh-i-Kakori.

The quarterly educational journal of the Department Shiksha published a special number on 'Reorientation Scheme' of education in August, 1954. The journal was started in July, 1948 and up to this time 28 issues have been brought out. It contains the research contributions of the Central Pedagogical Institute and the Bureau of Psychology and important articles from other sources on educational problems.

A sum of Rs.49,950 was given as reward on 92 Hindi Books. Amounts given as reward on 7 Sanskrit Books and 6 Urdu Books were Rs.3,000 and Rs.2,750 respectively.

The Hindustani Academy, Allahabad, received a non-recurring grant of Rs.25,000 from Government. It published 5 Hindi and 1 Urdu Books on Literature and Art. Five more books were in the press which are expected to be out soon.

Youth Welfare activities have been a prominent feature of the Educational Programme in this State. District and Regional Rallies were followed by a State Rally held at Lucknow. The movement for the students participation in the construction work has taken a firm foothold and students and teachers have in their thousands participated enthusiastically in constructing village roads, school buildings and carrying out clean-up compaign.

Special atention was given to Physical Education both in the schools and the training institutions. It continued to be a Compulsory subject inthe Basic Primary and Junior High Schools. Short term courses for Primary School teachers were organized at centres like Bharat Seva Mandal and Kashi Vyayam Shala, Banaras and Laxmi Vyayam Shala and Laxmi Vyayam Mandir, Jhansi.

The National Cadet Corps has been making very satisfactory progress. During the year under review 3 companies in the Senior Division Army Wing and 30 Troops in the Junior Division have been sanctioned. Six troops of the Army Wing were converted into Air Wing at Kanpur and 6 new troops were sanctioned in Junior Division Air Wings at Lucknow. For girls, three new full troops were sanctioned in the Senior Wing and 4 new troops in the Junior Wing. Including the new Units the total number of officers and cadets was 268 and 9,496 respectively. The Senior Division was functioning in 9 districts and the Junior Division was functioning in 26 districts of the State.

The Combined Scheme of Compulsory Military Education and Social Service under the Provincial Education Corps continued to function in twenty districts of the Pradesh. There were 230 colleges with about 40,000 cadets on their rolls who received training under the Scheme. Four hundred and ninety-three cadets attended 30 days Annual Summer Camp held at Chakrata from 21st May to 10th June, 1954. A central Camp was held at Faizabad of a fortnight's duration which was attended by 2,493 students. 7 days camps were held in all the Centres mainly for Social Service work. The cadets were taken to various projects in batches where they rendered valuable Social Service.

The Scout, Girl Guides and Red Cross Movements have been making steady progress. Four thusand, three hundred and twelve Scout Masters and Cub Masters were trained in Camps organized by the Association in 48 districts of the State. One thousand and thirty-one Scouters participated in Refresher Training Camps held in various districts. Two thousand nine hundred and eighty-five Patrol Leaders were also trained through Patrol Leaders Training Camps held in 23 districts. The number of Scouts who participated in Camps organized in 20 districts was 5,545 as against 3,874 in the previous year. A State Rally was also held at Allahabad in which 1,500 Scouts and 565 Guides participated. One lakh, forty-one thousand, eight hundred and eighty-seven boys and 4,547 girls were members of the Junior Red Cross. St. John's Ambulance State Competitions were held at Varanasi in November, 1954. The scheme of detailed medical examination was in force in 14 big towns of the State where whole-time School Health Officers are in charge of the School Health Service. In other towns the scheme was operated by the Municipal and District Board Medical Officers. During the current year detailed examination was made of 39,768 Scholars. In addition the Municipal and District Board Medical Officers also examined 33,678 Scholars

Institutions

During the year under review there were 38,039 institutions in the State as compared to 37,361 in 1953-54. The following table gives the classification of the schools:

		Numb	1		
	. Kind of institutions	1953.54	1954-55	Variation	
1. 2. 3. 4. 5. 8. 9. 10. 11. 	Total	••	37,361	38,039	+678

The number of Higher Secondary Schools, Junior High Schools and Basic Primary Schools recorded an increase of 92 Schools, 177 Schools and 113 Schools, respectively over the previous year. The number of Schools for Special Education rose from 1,329 in 1953-54 to 1,592 in 1954-55 showing an increase of 263. As it is evident from the table given above the number of all other types of institutions has also increased during the year under review.

The table given below indicates the number of recognized institutions classified according to Managements for the years 1953-54 and 1954-55:

•		•
Institutions	(Management-wise)	

		.	195	3-54	1954-55		
Managen	ient	-	Number	Percentage	Number	Percentage

	•••	••	37,361	100.0	38,039	100.0	

(5)

(6)

Of the total of 38,039 institutions Government managed 1,512 institutions, Local Bodies managed 30,782 institutions mainly Junior and Senior Basic Schools and the remaining 5,745 were run by private agencies. 74.2 per cent of the total number were under the management of District Boards.

The number of institutions for boys and girls recognized and unrecognized is shown below:

Type of institutions	Number of institutions for boys		Num of insti for	tutions	To numb instit	Varia. tion	
	1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	
Recognized	34,064	, 34,633	3,297	3,406	37,361	38,039	+678
Unrecognized	513	522	11	16	524	538	+14

Of the total number of 38,039 recognized institutions, 34,633 were for boys and 3,406 for girls.

Pupils

The number of pupils in all types of institutions was 38,91,227 in 1954-55 as against 38,61,835 in 1953-54. There was thus an increase of 29,392 pupils in 1954-55 over the figures of 1953-54. The following, table shows the enrolment of recognized and unrecognized institutions:

Type of institutions	1953-54	1954-55	Variation	
Recognized institutions		38.23,626	38,54,503	+30,877
Unrecognized institutions		38,209	36,724	1,485
Total		38,61,835	38,91,227	+29,392

The number of pupils under instructions in various types of recognized institutions is given in the following • tables: , . .

Total	32,60,561	5,63,065	38,23,62	32,53,506	6,00,997	38,54,503	+ 30,877

-7

The number of pupils has decreased in Universities and Basic Primary Schools. The decrease of 584 pupils in Universities is balanced by an increase of 889 pupils in Degree Colleges for General Education. The general fall in agricultural prices resulting in deterioration in the financial condition of the village folk is the main cause of decrease in the number of pupils in Primary Schools. Parents of the lower income group want their children to assist them in earning their livelihood rather than go to school and incur expenditure on education. The number of pupils has increased in all other types of institutions.

The following table shows the enrolment of the institutions under different managements:

Institutio	ns managed by		Enrolment in 1953 54	Enrolment in 1954-55	Variation
•					
Government	· ·.		1,42,722	1,48,038	+5,316
District Bcard	· ·.		23,79,873	23,40,167	
Municipal Board	••		4,24,744	4,40,697	+15,95 3
Private	Aided		7.25,941	7,46,141	+20,200
	Unaided		1,50,346	1,79,460	+29,1]4
	Total		38,23,626	38,54,503	+30,87 7
		1		l	

The decrease of pupils in District Board Schools has already been explained above. The enrolment has increased in institutions managed by Government, Municipal Board and Private Bodies.

The following table shows the percentage of puils at the different stages of education :

	1953	-54	1954-55		
	Number of pupils	Percentage	Number of pupi	Percentage

Total	36,457	1,752	38,209	34.860	1,864	36,724	-1,485

The Degree Colleges referred to in the above statement are (i) the Gurukuls, and (ii) Kashi Vidyapitha, Varanasi. The former award the 'Alankar' and 'Shiromani' degrees while latter awards the Shastri degree. The colleges are of special character.

Expenditure

'The following table shows the expenditure as met from different sources. The percentage of expenditure from each source is also shown therein :

	1953-5	4	1954-55			
Sources		F x - penditure	Per- centage	Ex- penditure	Per- centage	
		Rs.		Rs.		
Government		9,83,86,822	45.9	10,97,26,944	47.4	
District Boards		1,15,29,183	5.4	1,23,86,636	5.4	
Municipal Boards		78,45,007	3.2	76,63.818	3.3	
Fees		6,64,77,258	31.0	6,88,05,174	29.7	
Endowments		51,54,290	2.4	43,53,814	I· 9	
Other sources		2,48,79,106	11.6	2,85,27,156	12.3	
Total	•• {	21,42,71,166	100.0	23,14,63,542	100.0	

(17)

The percentage of expenditure met from the District Board and Municipal Board funds taken up together and that of expenditure from Endowments decreased slightly while that from fees sources decreased by 1.3 per cent. These decreases were covered by the increases under head 'Government' and 'other sources' which were 1.5 per cent. and .6 per cent. respectively.

During the year under review the total revenue of the State was Rs.78,19,24,367. Of the total expenditure of Rs.10,97,26,944 from Government Fund an expenditure of Rs.9,47,15,467 was met by the State Government and the remaining expenditure of Rs.1,50,11,477 by the Central Government. The expenditure of the Central Government includes the amount spent on the centrally administered institutions e.g. the schools maintained by the Railway Administration, Defence Department, etc. the grants paid to the Universities and the expenditure on scholarships, stipends, etc. awarded by the Central Government.

CHAPTER II

EDUCATIONAL PERSONNEL AND ORGANIZATION

During the year under review Sri Hargovind Singh continued to hold the portfolio of Education. Sri B. N. Jha held the post of Director of Education till 22nd February, 1955. when he retired, and Sri C. N. Chak took over as Director of Education in the afternoon of 22nd February, 1955. Sri Raja Roy Singh, I.A.S. continued as Additional Director of Education. He was appointed on an ex-cadre post the year before. The Personal Assistant (Men) and Personal Assistant (Women) to the Director of Education worked at Lucknow while the Personal Assistant to Additional Director of Education, worked at the Headquarter. The last also held the post of Officer on Special Duty (Language) and supervised the implementation of Government's policy of imparting education im the primary schools through the mother tongue of the child.

The number of Deputy Directors working at the Headquarter was three as in the previous year. Assistant Director of Education (Women) also continued to work at the Headquarter.

During the year under report there was no change in the administrative set-up of the districts or the regions. The charge of the district was held by District Inspector of Schools. He was assisted by a Deputy Inspector of Schools and a number of Sub-Deputy Inspectors of Schools. These look after the Primary and Junior High School Education. As most of such schools are under the charge of the District Board, the officers are attached to the Education Office of the District Board. Thus they work under the dual control of the President, District Board and the District Inspector of Schools.

In Municipal areas one Superintendent of Education assisted by Attendance Officers (in some districts by Assistant Superintendents also) supervise the Municipal Board Schools. They are Municipal Board employees. The primary Schools in Municipalities are also inspected by the Deputy Inspector of Schools and Sub-Deputy Inspector of Schools.

Girls' education up to the Junior High School stage is supervised by the Assistant Inspectress of Girls' Schools. She is attached to the office of the District Inspector of Schools and works under the dual control of the District Inspector of Schools and the Regional Inspectress of Girls^{*} Schools. Girls education in Higher Secondary stage is under the direct control of the Regional Inspectress of Schools.

The five regional administrative units continued as during the previous year, each under a Deputy Director of Education who looks after the Boys' institutions. A Deputy Inspector of Mohammaden Schools is attached to the Office of the Deputy Director of every region to carry out inspections of Arabic Madarsas and Maktabs.

Sanskrit Pathshalas were supervised by the Inspector of Sanskrit Pathshalas and his staff of three Assistant Inspectors. During the year under review the State has been divided into three Zones, and the Assistant Inspectors of Sanskrit Pathshalas have their offices in the zones. The Zonal Head-quarters are Varanasi, Lucknow and Meerut. The Education Services consist of the following main classes :

(1) Uttar Pradesh Educational Service (Senior Scale 500-50-1,000 -E.B.-50-1,200) with a special pay of Rs.100. This includes the Deputy Directors of Education, Assistant Director of Education (Women) and Principals of Government Degree Colleges at Naini Tal and Gyanpur. During the year under review there were 12 posts of which 8 were permanent and 4 temporary.

(2) Uttar Pradesh Educational Service (Senior Scale) Rs.500-50-1,000-EB-50-1,200. This includes the District Inspector of Schools of eight big districts, the Principal of Sanskrit College, Varanasi, Secretary, Board of High School and Intermediate Education, Uttar Pradesh, Director of Social Services and Military Education, Officer on Special Duty (Secondary) and certain professors in the Government Degree Colleges, Naini Tal and Gyanpur. The total number of posts in Uttar Pradesh Educational Service. Senior Scale was 59, as against 58 of the previous year. During the year under report the combined temporary post of District Inspector of Schools, Naini Tal and Inspector, Anglo-Indian Schools, Uttar Pradesh was created in this scale.

(3) Uttar Pradesh Education Service (Junior Scale) Rs.250-25-400 E.B.-30-700 E.B.-50-850. This includes all District Inspectors of Schools (other than those of eight big districts), Regional Inspectresses of Girls' Schools, Principals of Government Inter. Colleges and Assistant Professors of Government Degree Colleges at Naini Tal and Gyanpur. There were 185 posts which includes 29 posts of Assistant Professors of Government Degree Colleges which were created during the year under report.

(4) Subordinate Educational Service (gazetted) Rs.250-25-500. It includes Head Mistresses and Headmasters of Government Normal Schools and High Schools and the Professors of the Central Pedagogical Institute, Allahabad. There were 153 posts of which 130 were permanent and 23 temporary. 118 posts were in the Men's branch and 35 in the Women's Branch.

(5) Special Subordinate Educational Service (gazetted) Rs.200-10-310-EB-14-450. This includes Deputy Inspectors of Schools, Deputy Inspectors of Mohammaden Schools and Assistant Inspectors of Sanskrit Pathshalas. There are 51 Deputy Inspectors of Schools, 5 Deputy Inspectors of Mohammaden Schools and 3 Assistant Inspectors of Sanskrit Pathshalas in this grade.

(6) Special Subordinate Educational Service (non-gazetted) Rs.200-10-310-EB-14-450. It includes Lecturers in Government Intermediate Colleges and Training Colleges.

(7) The Sub-Deputy Inspectors and Trained Graduate teachers are in the scale of Rs.120-8-200-EB-10-300. There were 378 Sub-Deputy Inspectors, 51 Assistant Inspectresses of Girl's Schools and 1,105 teachers in the above scale of pay.

(8) The trained under graduates (C. T.) are in the scale of Rs.75-5-120-EB-8-200 and are appointed to teach Junior High Sections of the High School and as Head Teachers in the Junior High Schools.

(20)

The following statement shows the number of various types of posts in the State Educational Service in 1954-55 as compared to 1953-54:

CHAPŢER III

PRIMARY EDUCATION

(i) Administration and control-The administration and control of Primary Education is vested in the local bodies. The District Boards are responsible for Primary Education in the rural areas. The management of all the District Board schools is under the President of the District Board. He is assisted in this work by the Education Committee, the Deputy Inspector of Schools and Sub-Deputy Inspectors of Schools. The teachers drawing salary up to Rs.40 per mensem are under the control of the Deputy Inspector of Schools, while those getting salary above Rs.40 per mensem are controlled by the President. The Deputy Inspector of Schools and the Sub-Deputy Inspector of Schools are Government employees. Their main duties beside making regular inspections and offering technical advice to the President, District Board are the proper running of the schools, maintenance of discipline and enforcement of Departmental Rules. The Deputy Inspector of Schools is responsible both to the President, District Board and the District Inspector of Schools. Thus the dual administration and supervisory control of the local boards as well as of the State Government continued this year as in previous years.

In towns and cities the Primary education is administered by Municipal Boards. They appoint their own Education Superintendents and attendance officers to assist the chairman and to inspect the schools. The District Inspecting Staff also makes regular inspection of Municipal Board schools under the orders of the department to ensure that the prescribed courses of studies are taught in these schools and Departmental Rules regarding the administration of education are followed by the Municipal authorities.

The District Board and Municipal Board girls schools are inspected by the Assistant Inspectress of Girls' schools attached to the office of the District Inspector of Schools. Through him she also offers technical advice for the better running of these schools to the Board's authorities.

There is also a small number of Primary Schools attached as the model schools to the Government Training institutions or in some of the merged states controlled directly by the State Government. A few aided or unaided Primary Schools are also controlled by private agencies. If they fulfil the necessary conditions they are recognized by the Education Department and inspected by the District Inspecting Staff.

(ii) Scheme of school classes—Primary Education aims at educating the boys and girls ranging from the age of 6 to 11. There are two types of Primary Schools in the State (1) The lower Primary Schools having classes I to III and (2) Primary schools having classes I to V. In the schools of the first type one teacher takes all the subjects in all the classes single handed. The most common pattern is the 3 teacher and the 2 teacher schools. Thus in almost all primary schools one teacher is incharge of more than one class and he teaches all the subjects. One teacher is provided for an enrolment of every 35 or 40 children. There are some primary schools with an enrolment of 200 or more, with a separate teacher for every class and section, but such institutions are only exceptions, and they are located in areas where the primary education is compulsory.

(iii) Schools—The total number of recognized Primary schools was 31,232 as against 31,119 in the previous year. These include 28,691 schools for boys and 2,541 schools for girls. The distribution of the schools according to the management was as follows:

			ŗ	195	3-54	195	4-55
	-		·	Number	Percentage	Number	Percentage
Governmer	nt		 ••	856	28	880	2.8
District Board		• •		26.012	_ 83 [.] 6	26,155	83.8
Municipal I	unicipal Board		••	2,254	7 · 2	2,261	7.2
Aided		••	••	1,785	5.2	1,756	5.6
Unsi ded	••	••	••	212	• 7	180	· 6
		Total		31.119	100 0	31,232	100 0

The number of primary schools under the management of Education Department, District Board, and Municipal Board have registered a small increase. Some of the aided and unaided primary schools were taken over by the local bodies and some being uneconomic were abolished. This explains the decline in numbers of aided and unaided primary schools. However, the total number registered an increase of 113 schools.

The following table gives the number of Primary schools for boys and girls :

					1953-54	1954-55	Variation
Boys		••	••		23,595	28,691	+96
Girls	••	••			2,5.24	2,541	+17

(iv) Students—The comparative enrolment during the year 1953-54 and 1954-55 is given below :

		_		In schools for boys	In , echools for girls	Total	Variajion
1953-54				24,78,634	2,15,911	26,94,515	
1954-55	••	, · •	••	24,49,572	2,11,830	° 6,61,4 02	
				·	l		

(23)

Although there has been a small increase in the number of schools, the enrolment has decreased by 33,143. The general fall in agricultural prices resulting in deterioration in the financial condition of the village folk is the main cause of this decrease in enrolment. Parents of the lower income group want their children to assist them in earning their livelihood rather than go to school and incur expenditure on education.

(v) Wastage-In 1950-51 the enrolment in class I was 10,61,936 out of these only 3,37,335 students reached class V in 1954-55. Thus only 32 per cent of children enrolled in class I in 1950-51 reached class V in 1954-55 showing a wastage of 68 per cent. Although inadequate staff, school buildings and equipment are responsible for this wastage to some extent, the main causes, however, are the general apathy of village people towards education and withdrawals by parents before the completion of the full school period on account of economic reasons. In urban areas the condition is slightly better.

(vi) Compulsion-There are 120 Municipalities in the State. During the year under review compulsory education was in force in all the old 86 Municipal Boards. Compulsion has not been enforced so far in 34 newly created Municipalities. As in the previous year Compulsory Education was in force in 1,687 villages also. The total number of schools in compulsory areas increased from 2,062 to 2,141 in urban areas. This increase in the number of schools has also been reflected in enrolment which increased from 3,41,954 to 3,52,130. In rural areas although the number of schools decreased from 577 to 573, the enrolment increased from 60,065 to 60,770. The following table gives the comparative figures for 1953-54 and 1954-55 of notices issued, attendance orders passed, prosecutions for violating regulations of Compulsory Education Act and the amount realized as fines in urban areas:

			Number	Number	Prose	Fines	
		of of notices attendan issued orders passed		For non-enrol- ment	For non-atten- dance	realized	
	_						Rs.
1953-54	••	••	1,22,880	30,694	4,620	5,427	6,233
1954-55	••	••	1,33 593	32,863	4,532	4,189	5,666

One hundred and fifty-nine attendance officers were employed to enforce the Compulsory Education Act. The percentage of attendance in the rural area increased from 73.3 in 1953-54 to 77.5 in 1954-55.

Compulsion for girls did not record any progress. In 1953-54 it was in force in one village of Etawah and two villages of Lucknow districts and the whole areas of seven municipalities and part areas of Kanpur, Mirzapur and Tanda (Faizabad) Municipalities. During the year under review it continued to be the same.

On the whole the progress made in this sphere cannot be called satisfactory. In the case of boys the area of compulsion continued to be the same as during the previous year. The percentage of attendance has shown some progress but much remains to be done in this respect also. Paucity of funds at the disposal of local bodies and the financial condition of the people in rural and urban areas are the main hurdle. The standard of teaching and the conditions of schools in respect of building and equipment in compulsory areas is also as unsatisfactory as in case of other primary schools.

(vii) Teachers Number, Scales of Pay, etc.—During the year under report the number of teachers in Primary schools for boys and girls was 69,719 (men) and 6,529 (women) as against 69,993 (men) and 6,559 (women) in the previous year. Although the total number of teachers decreased by 304 the number of trained teachers (men) increased from 54,090 to 56,937 and trained teachers (Women) from 3,091 to 3,154.

The minimum qualification for a primary school teacher is class VIII pass but he is absorbed in permanent cadre only after receiving professional training for a year leading to Hindustani Teachers' Certificate. Up to 1947 the training course for these teachers was of two years. In 1948 it was reduced to one year. It is now felt that this reduction in training period has affected adversely the efficiency of teaching in primary schools. The question of extending it again to two years is under consideration. With a two year training course it would be possible to give the trainees a thorough grounding in subject matter also.

The proportion of untrained teachers is larger in case of girls institutions. On account of the non-availability of well qualified lady teachers in District Board schools they had to continue to employ teachers who had passed only the Primary School Examination.

The scales of pay of Primary school teachers are as follows:

Trained Head teachers-Rs.45-1-50-EB-1-55-EB-1-60. Trained Assistants-Rs.35-1-40-EB-1-45-EB-1-50. Untrained teachers-Rs.30 fixed.

Dearness allowance is given at Rs.12 per month to those drawing up to Rs.40 as salary and Rs.13 per mensem to others.

Considering the present high cost of living the emoluments cannot be called adequate. Some of the District Boards are not able to pay the salaries to their teachers regularly which causes additional hardship to them. All these economic factors affect the standard of teaching. During the year under review important changes have been made in the curriculum of primary schools. The reorientation scheme launched during the year under review is an important step in the direction of changing the conception of primary education to make it more useful for the country. Under such circumstances the need of refresher courses of short duration organized at the district level has become all the more pressing.

(viii) Size of classes—The average size of classes in I to III generally ranges between 30 and 40 pupils, the enrolment in class I being often greater than in the other two classes. The size of classes IV and V tends to be thinner as some of the pupils discontinue their study after the lower primary stage. The average enrolment in these two classes ranges between 20 and 30.

Generally one teacher is given charge of 40 boys with an average attendance of 35. However due to financial stringency some schools continued to be under-staffed. (ix) Expenditure—The total expenditure on primary Education during the year under review was Rs.5,07,47,728 as against Rs.4,98,04,399 during 1953-54. 66.6 per cent of it was contributed by the Government. Contribution by Local Boards was 26.1 per cent and fees 6.1 per cent. Contribution by Endowments and other sources was nominal.

The following table gives a break up of direct expenditure on primary schools according to the sources :

		1953-1	54	1954-		
	i		Percen- tage	Amount	Percen- tage	Variation
		Rs.		Rs.		
Government Fund		3,34,12,063	67·1	3,38,16,431	66 [.] 6	+404.368
Local Board	•••	1,29,39 778	25 9	1,32,33,081	26.1	+2 93 303
Fees	••	29 87 075	6.0	30,86,068	6 · 1	+ 98,993
Endowments	••	24,746	0.1	39,723	•1	+14 977
Other sources	••	4,40 737	0-9	5,72.425	1.1	+1 31,688
Total		4 98,04,399	100 0	5,07,47,728	100.0	+9,43,329

The break up of direct expenditure on Primary Schools according to management is shown in the following table :

	١	1953-6	54	1954-		
		Amount	Percen- tage	Amount	Percen- tage	Variation
			`	Rs.		
Government	••	10,76,305	2.1	11,12,537	2.2	+36,232
District Board	••	3,75,29,939	75-5	3,82,76,051	75.6	+7,46,112
Municipal Board	••	97 01,050	19-4	97,90,606	19-3	+89,556
Aided		13 46,657	2.7	13 91 3 53	2.7	+44,696
Un-aided		1,50,448	• 3	1 77,181	3	+26 733
Total	••	4,98,04 399	100.0	5,07,47,728	100.0	+9,43,329

Thus it is evident from the above table that 75.5 per cent of the total amount was spent on primary schools managed by District Boards and 19.3 per cent on Municipal Board schools. On Government aided and unaided schools it was only 2.2, 2.7 and .3 per cent respectively.

(x) Single teacher schools—Although the enrolment in single teacher schools decreased from 1,68,965 in 1953-54 to 1,34,003 in 1954-55 their number rose from 3,668 to 4,016 during the period. The number of

(27)

new single teacher schools exceeded the number of old single teacher schools which were converted to multiple teacher schools. The comparative figures of number of schools and enrolment are given below:

		1953-54			1954-55			
	Boys	Girls	Total	Boys	Gir' s	Total	Variation	
Number of institu- tions.	2,987	688	3,668	3,277	,	4 016	+348	
Enrolment	1,42,357	£6,608	1,68,965	1,11,594	22,409	1,34,003	- 34,962	

Notwithstanding their defects these schools act as feeder institutions for other schools and serve the villages which are unable to provide sufficient enrolment for a full primary school.

(xi) School Buildings and Equipment—The condition of the Primary School buildings continued to be almost as unsatisfactory during the year under report as it had been in the previous years. In case of Municipal Boards most of the schools are housed in rented buildings. These buildings are nothing better than ill ventilated cheap residential houses situated often in thickly populated mohallas. In such localities land for gardening or P. T. exercises is out of question. In some of these schools even the accommodation is inadequate and the children are crowded up in small rooms. Commodious and airy school buildings with play grounds and plots for gardening attached to them are very few.

A large number of District Board Schools are run in the village chaupals and borrowed buildings. Due to the paucity of funds the District Boards have not been able to maintain properly their own school buildings or those of the ex-Government Primary schools which were transferred to their charge a tew years back.

During the year under review grants amounting to Rs.2,87,000 were sanctioned to the District Boards towards the construction of new Primary school buildings. Repairs to a large number of buildings and in some cases even construction of new ones were undertaken under the 'Shramdan Drive' by local people and self help squads of school children. The local interest and initiative is gradually increasing in rural areas. Some very good buildings have been constructed by the villagers with subsidy from the Planning Department or with the help of Gram Sabhas and Gram Panchayats.

The Government of India Educational development schemes has also given impetus in this direction. New buildings were constructed and repaired under this scheme.

The supply of equipment too has suffered for want of sufficient funds. In rural areas the supply of black boards, maps and tat patties has not been adequate. The Municipal Board Schools are usually better equipped than the District Board schools, yet they also require more attention in this respect.

(xii) Methods and Standards of Teaching-The Basic system of education was adopted in 1948. It aims at promoting the alround development of the child through self activity. The standard of teaching in schools which have adequate buildings and equipment and trained staff was satisfactory. But unfortunately the number of such schools is not large. The revised Basic Curriculum was followed in all the Primary schools and self-activity was also provided through various crafts but inadequate buildings, non supply of the books of references, lack of teaching apparatus and other necessary equipment and the large proportion of untrained teachers have tended to depress teaching standards.

(xiii) Re-Organization and New Developments-During the year under report the curriculum of primary schools has been revised. From July, 1954 the new curriculum was adopted. Agriculture was introduced as a compulsory subject for all the classes in schools where land for agricultural operations is available. With a view to reducing the multiplicity of books lessons on social studies were incorporated in the language book.

Efforts were made to procure five acres of land for each primary school. Where land has been acquired the school has been attached to the neighbouring Junior High School so that the extension teacher who is trained in agriculture may be able to integrate as far as possible the two stages of education, primary and junior high.

In schools where it has not been possible to procure land for agriculture Crafts and other productive activities have been provided. Two hours per day have been allotted for agriculture or other main craft activities. Instructions have been given to increase or decrease this time according to the agricultural needs in different seasons. Spinning and some other local craft get four periods of 40 minutes each per week. Thus children now get more time for productive activities.

From July 1954 books printed in revised Deva Nagri script were introduced in classes I to III.

A systematic drive was undertaken for the beautification of the schools and in a large number of schools, class rooms were decorated with pictures, charts, designs, maps and posters prepared by the children.

Very good work was done by children under the self-help scheme and "shramdan drive". They undertook the work of repairing kachcha buildings and white washing the pucca ones. At some places they even assisted in the construction of new buildings.

(28)

CHAPTER IV

BASIC EDUCATION

(i) Types of schools-There are three types of schools in this State, which are imparting education according to the Basic pattern, the Junior Basic or the Primary Schools, Senior Basic or the Junior High Schools and the Normal Schools and other Basic training institutions.

Junior Basic Schools-In 1948 all the primary schools in the State were converted to the basic pattern and since then they have been running according to the Basic Scheme formulated by the Primary and Secondary Education Re-organization Committee appointed by Government in 1938, with Acharya Narendra Deva as its Chairman. A craft chosen with due regard to the environment of the child is the medium of education on the principles of activity methods.

The number of schools, their enrolment, teachers, the size of classes and expenditure on the Junior stage have been dealt with in Chapter III.

Senior Basic Schools—During the year under review an effort has been made to extend the pattern of basic education to the junior high schools. The changes in curriculum etc. are dealt in this chapter under the heading 'Reorganization and New Developments'.

Basic Training Institutions—The teachers for the Junior Basic Schools are trained in the Normal Schools. The minimum qualification required for admission to them as pupil teachers is the Junior High School Examination.

Teachers for Senior Basic Schools are trained in Junior Training Colleges. The minimum qualification for admission to them is High School. The trained teachers from Junior Basic Schools are also promoted to Senior Basic Schools.

The Government Constructive Training College and the Government Basic Training College are post graduate institutions. Candidates trained in them serve on the terching staff of the Normal Schools and the Junior Training Colleges. They are the employed as Sub-Deputy Inspector of Schools for the inspection of the Junior Basic and Senior Basic Schools.

The different types of Basic Training institutions have been dealt in detail in Chapter VII on training of teachers.

(ii) Methods and Standards of Teaching—Teaching methods in the system of basic education call for, from the teacher a high degree of imaginative handling of material. Correlation through the basic craft and the social environment has to be presented in a natural process, withour correlation being forced artificially. Activity for the child should itself generate the motive power for learning. In actual practice, it has not been easy for the primary schools teacher, in spite of the professional training given to him, to break away from the traditional methods through which he himself got his education. Added to this are the handicaps sunder which he has to work-unsuitable and inadequate buildings and lack of equipment. The standard of teaching cannot, therefore, be considered as satisfactory on all counts. But there is a steady urge for improvement. The very fact that the basic pattern of education covers all the primary schools in the State has tended to make the primary school teachers more receptive to the demands of the new teaching techniques than would perhaps have been possible if a few selected schools were developed into Basic Schools as isolated islands.

(iii) Economic Aspects of Basic Education-The Primary and Secondary Education Reorganization Committee which formulated the Basic system of Education for this state observed that the education of a child through craft and productive work is a psychologically sound method, for it stresses the co-ordination of training in the use of the hand and the eye, training in practical skill and observation. In the report it was laid down as one of the fundamental principles that as far as possible basic education be "carried on through concrete life-situation and should be correlated with one or more forms of manual and productive work and with the social and physical environment of the child. The choice of the craft or crafts should be made with due regard to their educational value and to the environment of the child".

Thus the main object of introducing productive activities in basic schools are educational and psychological. Productivity in the sense of marketable value is secondary to the educational object. In some basic schools students prepared such articles as toys, file-covers, festival-cards, albums, envelopes, letter-pads, ropes, tat-patties, etc.

REORGANIZATION AND NEW DEVELOPMENTS

The Scheme known as the "Reorientation Scheme of Education" may well be considered as a significant land-mark in the history of rural education in the state. It is an attempt to extend the basic pattern of education to the Junior High School stage with suitable modifications for the age-group 11-14. Government of India had offered financial assistance to the State Governments in providing employment to the educated unemployed. Advantage was taken of this offer to introduce this scheme which not only gave immediate employment to the educated unemployed but was also designed to make a permanent change in the pattern of education in the Junior High School stage. The following are the main objectives of the scheme for the Re-orientation of Education:

(a) The Junior High Schools in the rural areas should be equipped with an agriculture farm and Agriculture should become the central subject in the Junior High School Curriculum.

(b) The school should be developed as a community centre for the people of the area which it serves.

(c) Community participation programme and extension work. should be woven as a main strand in the school life.

(d) The school itself should be organized as a community.

(e) Agriculture or a related craft should be used to develop in the students a healthy attitude towards manual work and as a medium for the cultivation of manual skills.

The Scheme was to be introduced in the Junior High Schools of the state as well as in the Junior High School sections of the Higher Secondary schools situated in the rural areas. The Junior, High Schools in the urban areas had necessarily to be left out of the scope of the Scheme because of the difficulties of acquiring land in the urban areas.

It was considered highly important that the scheme should be able to engage the full co-operation of the people and that it should be looked upon as a means for the people to take an active part in the improvement and of management of their schools.

PROCUREMENT OF LAND

A State-wide drive was initiated early in March, 1954 to obtain land gifts from the people and the local Gaon Sabhas and Panchayats. A committee was formed in every district which is in over all charge of the Scheme in the district. The President of the District Board is the Chairman of the Committee and local heads of the Development Departments and the representatives of the District Planning Committee are members. The success in the procurement of land was spectacular. Two thousand and ninty four Junior High Schools (including Higher Secondary Schools with Junior High School sections) were able to get 20,562 acres of land. The land was of course, of varying quality and it was, therefore, necessary that a detailed survey should be made, plot by plot, to determine the programme for the future development of the school farms. The survey was made by the officers of the Agriculture Department in co-operation with the Education Department. The land was classified into 4 categories according to the time that the land would take for development into a well established farm. Category 'A' consisted of land which was of the best quality, Category 'B' of land which was uncultivated at the moment but which could be brought under cultivation within two agricultural seasons; Category 'C' was land of a comparatively inferior quality which would require 4 agricultural seasons to develop and Category 'D' was land which was totally unserviceable for agriculture purposes. As a result of the survey it was found that 16,495 acres of land belonged to Categories 'A', . 'B' and 'C' and 20 per cent of the land was unserviceable and was, therefore, abandoned.

Collection of money

Besides land donations, an appeal was also made for cash contributions. from the people. The response was again remarkable. Up to the end of the year a sum of Rs.30,86,982-11-9 had been collected. This formed the Chief Minister's Education Fund and was earmarked to supplement the State assistance in developing the school farms and the implementation of the scheme.

RECRUITMENT OF PERSONNEL AND THEIR TRAINING

It was proposed that each reoriented school should have a teacher for Agriculture and extension work. To emphasise the nature of these community schools, the teacher has been called 'Extension Teacher'. Applications were invited and a Selection Board carefully screened the candidates, selecting those who had rural background or special aptitude for work in the rural areas. Two thousand, nine hundred and two posts of Extension Teachers were sanctioned. In the initial selection 2,784 candidates were selected, of whom 950 were graduates and 1,834 under graduates. Their training was arranged in 9 different centres. Those who were qualified in Agriculture being Agriculture graduates or undergraduates were given a special short term course in Pedagogies in 8 Junior **1**raining Colleges. Those who were not qualified in Agriculture were given a special short term training course in the State Farm at Rudrapur. The preliminary training in pedagogy or Agriculture was of 3 months duration. These centres were organized as special training centres with the main emphasis on community living and community participation. The trainees managed their own centres, did all the work on the centres and were completely independent of any servants or other extraneous help. At the end of the preliminary training period they were subjected to special tests devised by the Bureau of Psychology to test their aptitudes and attainments. This was supplemented by written tests and the record of work maintained in the form of cumulative record cards. On the basis of this material the trainees were placed in Categories 'A', 'B' and 'C'.

The training programme is conceived as a continuous process and the training centres are working throughout the year. On completing the first term of the training programme the extension teachers were posted to the various reoriented schools. They are brought back in batches to the training centres for a special training of 6 months duration, those in Category 'C' being called back first and others later. In this manner the training has been arranged to enable an extension teacher to come back to the training centre periodically to refresh his knowledge, equip himself better with the technical knowledge of Agriculture, and Extension work. It has been found that a training programme thus arranged ensures a continuous inter connection between the field work with its attendant practical difficulties and the theoretical work at the training centre.

SUPERVISION AND CONTROL

Each reoriented Junior High School has an extension teacher. There are 2,094 extension teachers working in the State. There is an Extension Guide for every 10 Extension teachers. The Extension Guides are attached to the Office of the District Inspectors of Schools. He is constantly inspecting the reoriented schools, giving guidance to Extension teachers and co-ordinating the work of the school farm with the Agriculture and the Development Departments. Once a month all Extension teachers come to the district headquarters for 3 days conference with the inspecting staff. Advantage is taken of this monthly meeting to arrange for special discussion groups and seminars. The over all supervision of the school farm is done by a school committee which consists of the representatives of the neighbouring villages and the village headmen. At the district level the supervision vests in the District Executive Committee to which a reference has already been made earlier. The District Inspector of Schools is the Secretary of this Committee. The District Executive Committee has also been given certain financial powers to sanction money to the school's farms according to their needs.

At the headquarters of the Director of Education, an officer on Special Duty has been appointed on the senior scale of U. P. E. S. assisted by an Officer on Special Duty in the Junior Scale. For technical assistance 5 Agriculture Supervisors in the gazetted grade have been appointed.

Necessary changes in the Curriculum have also been made. In the School time table 18 periods per week have been allotted to Agriculture. This may be increased or decreased according to the seasonable requirements.

INTRODUCTION OF CRAFTS

As a supplement to the reoriented Junior High Schools with agriculture as the central subject, craft has been introduced in a limited number of Junior High Schools in the urban areas. There are 98 such Junior High Schools. Crafts have been selected according to the local needs.-Each such school has been provided with a craft teacher in the Under-Graduate grade of Rs.75-200. The craft teachers were given a special course of training in the Government Constructive Training College at Lucknow.

The normal training schools have been specially equipped for teaching of Crafts and Agriculture and their staff has been increased by addition of 2 teachers.

The produce of the school farm is distributed to the school children in the form of free text-books and stationery and to the teachers after meeting the current requirements of the farm. It can also be used for other needs of the school, e.g. uniform to the children, midday meal, for the purchase of school band, etc. The distribution is made with the advice of the school committees.

CONCLUSION

The measures that have been taken for enriching the Junior High School stage of Education through the reorientation scheme open out promising prospects. The scheme has worked extremely well. There are no doubt some practical difficulties which have yet to be overcome. The school farms will take some time develop into a stable source of income for the schools. The extension teachers need more training in the methods and techniques of extension work. On the whole, however, a very promising beginning has been made and we can look forward to further improvements.

(33)

CHAPTER V

SECONDARY EDUCATION

(i) Administration and control-Secondary Schools are under the control of private bodies or local tranaging bodies or the Government. Secondary Schools include Junior High Schools comprising of classes VI to VIII. The rural areas are served mainly by the Junior High Schools maintained by the District Boards, and the urban by the Junior High School section of the Higher Secondary Schools with 2 few Junior High Schools maintained by the Municipal Boards. Some of the Junior High Schools in rural areas, run by private managing bodies. receive aid from District Boards. The Education Department of the State regulates their recognition and inspection and also prescribes the curriculum.

The Higher Secondary Schools are mostly under the management of private bodies. There are 87 Boys and 43 Girls Higher Secondary Schools maintained and managed directly by Government. A few Higher Secondary Schools are managed by local bodies also. The courses and the curriculum are prescribed by the Board of High School and Intermediate Education which also regulates their recognition.

Private managed Higher Secondary Schools receive recurring maintenance grant-in-aid from Government which is equal to the difference between the expenditure and the income. About 60 institutions are brought on the grant-in-aid list every year. In according grant-in-aid special consideration is given to Girls Institutions and other institutions situated in the educationally backward areas of the State. In such cases, grant-in-aid is given to Junior High Schools.

The following tables give the number of Junior High Schools and Higher Secondary Schools according to management:

	1953-5 4]]	Varia- tion		
	Boys	Girls	Total	Boys	Girls	Total	in total
Government	112	57	169	115	55	170	+1

Higher Secondary Schools

There is a steady increase in the number of Junior High Schools in the State. The increase particularly is in the sector of private un aided initiative. There is a similar increase in the number of Higher Secondary Schools.

(ii) Scheme of School classes-The scheme of school classes continued as before. A full fledged Higher Secondary School provides instruction from class VI to XII. Higher Secondary Schools which have not developed fully have the terminal class at X. The Junior High School Sections comprising of classes VI to VIII are either contained in separate units which terminate in class VIII (Junior High Schools) or form part of a Higher Secondary School. Similarly class XI and XII either form the terminal classes in a Higher Secondary School or form part of a Degree College. With amendment of the Agra University Act, it is proposed to detach classes XI and XII from a Degree College. The full secondary course covers a period of seven years from 11 to 18 with two public examinations conducted by the Board of High School and Intermediate, Education, the first to pass class X and the second to pass class XII. A public examination is also conducted by the District Examination Committee (of which the District Inspector of Schools is the President and the Deputy Inspector of Schools is the Secretary) for the students of class VIII of those Junior High Schools which do not have as Head Masters trained graduates or under graduates. The Registrar, Departmental Examinations makes arrangements for the setting of papers; which are common for all the districts. With effect from July, 1954 diversified courses in six groups are provided from class IX onwards the groups being Literary, Scientific, Commerce. Constructive or Pre-Technical, Aesthetic and Agriculture. The number of Higher Secondary Schools which provide facilities for studies in two groups or more is steadily increasing.

(iii) Schools—The following statement shows group-wise number. of institutions recognized for the Board's High School and Intermediate Examinations in 1954-55:

2	H i	igh Schoo	51	נ	Grand		
Greup-wise	Boys	Girls	Total	Воуз	Girls	Total	total
One group	321	111	432	313	76	389	821
Two groups	323	55	378	182	24	206	584
Three groups	247	.17	264	109	10	119	383
Four groups	191	8	199	33	2	35	234
Five groups	79		79	6		6	85
Six groups	8		8	·;	[8

(1v) Students—Corresponding to the increase in the number of Secondary institutions there is also an increase in the number of students. During the year under review, the total number of scholars enrolled in recognized Secondary classes of Junior and Higher Secondary Schools rose from 9,83,168 to 10,29,709.

The distribution of scholars in Junior and Higher Secondary Schools in the institutions managed by different agencies was as under:

		1953-54	4	1954-55	v	
Agencies		Number	Percentage	Number	Percentage	
Government	 ••	81,945	8-3	82,922	8.0	+ 977

(v) Teachers-number scale of pay etc.-During the year under review the number of teachers rose from 43,638 to 46,918 showing an increase of 3,280.

In the Junior High Schools maintained by local bodies, the percentage of trained teachers is much higher than the percentage of trained teachers in privately managed Junior and Higher Secondary Schools.

Number and percentage of trained and untrained teachers working in Junior High Schools managed by local bodies (District Board and Municipal Board) and private bodies (Aided and Un-aided) for 1953-54 and 1954-55:

			Local t	odies			_ <u>.</u>		Private	bodies	,		
Year	Trai	ned	Unirs	ined	Tot	al	Trai	ned	Untra	ined	To	tal	
1001	Number	Percentage	Number	Percentage	.Number	Percentage	Number	Percentage	Number	Percenta e	Number	Percentage	
1953-54	9,500	85.9	1,555	14 · 1	11,055	100	2,789	51·7	2,60'3	48·3	5,395	100	
1954-5 ⁵	10,252	85 9	1,681	14-1	11,933	100	3,088	54	2,634	46	5,722	100	

In the Higher Secondary Schools training qualification for teachers is nécessary except for certain special subjects like Commerce, Music, Art, etc. Though there has been an increase in the percentage of trained teachers during the year under report, there are still a fairly large number of untrained teachers in privately managed Higher Secondary Schools. Many of these untrained teachers have put in long service as teachers: A programme for giving them in-service training is under consideration. The supply of trained teachers is satisfactory now, and special efforts are being made to ensure that untrained and unqualified persons are not appointed as teachers in private institutions. The present position is shown in the following table :

Mer	n	, Won	۹°D	Percentage teachers number of	to total
I				Higher Seco	ndary Schools
1953-54	1954-55	1953-54	1954-55	1953-51	1954-55
22,297	23 842	3,583	3 941	55.9	57.3

(40)

(41)

Teacher pupil ratio

The teacher pupil ratio remained almost the same as it was during the previous year—the increase in the number of teachers being offset by the increase in the number of scholars.

Jun or I	High School	Higher Sec	ondary School
1953-54	1954-55	1953-54	- 1954-55
23	22	22	22

Pay scale of teachers

The pay scale of teachers of different categories of Secondary Schools are given below:

Junior High Schools:

Head Master-55-2-57-3-60-E.B.-4-80. Assistant Master (J. T. C.)-45-2-65-E.B.-3-80. Assistant Master (H. T. C.)-40-2-50-E.B.-3-65.

Government Higher Secondary School:

Principal-250-25-400-E.B.-30-700-E.B.-50-850.

Head Master-250-25-500.

M.A. or M.Sc. (Teaching Classes XI and XII)-200-10-250-E.B. 10-310-E.B.-14-450.

Trained Graduates-120-8-200-E.B.-10-300.

Trained Under Graduate-75-5-120-E.B.-8-200.

Aided. Higher Secondary Schools:

Principals-250-20-450-25-500.

Head Master-200-10-350.

M.A. or M. Sc. (Teaching Class XI and XII)-150-10-190-15-250.

Trained Graduates-120-6-168-E.B.-8-200.

Trained Under Graduate-75-5-110-E.B.-6-140-E.B.-7-175.

The scales of pay are mandatory. The terms of service in a private school are determined by a written agreement btween the Management and the Teacher. Breaches of the agreement are referred to an Arbitration Board.

(vi) Siže of Classes

The permissible limit for admission to Class VI to VIII is 35; for classes IX and X 40 and for classes XI and XII is 50. The minimum space allowed' is 10 sq. ft. per scholar. Inspite of the new schools and additional sectionsin existing institutions, the classes generally remained over crowded. Provision for accommodation, qualified staff and equipment could not keep pacewith the increase in the number of students.

(vii) Expenditure

The total direct expenditure on the Secondary Schools for boys and girls rose from Rs.7,46,26,440 in 1953-54 to Rs.8,02,02,497 in 1954-55. It includes an expenditure of Rs 1,47,32,133 for Boys' Junior High Schools. and Rs.32,17,427 for Girls Junior High Schools. The following table gives the details of the above expenditure—

On school	s for boys	On schools for girls		Total		V eristion
1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	
6,21,52,656	6,71,94,020	1,24,73,784	1,30,08,477	7,46,26,440	8,02,02,497	55,76,057

Direct Expenditure on Secondary Schools

The increase in the number of scholars and teachers and the rise in the percentage of trained teachers account for the rise in expenditure.

The table given below shows the expenditure on Secondary Schools according to different sources of income.

		1953-54	<u>4</u>	1954-5	5	1
Sources		Amount	Per- cent- age	Amount	Per- ceut- age	Variation
		Rs.]	Rs.		
Government Fund Local Fund Fees Endowment Other sources	 	2,38,37,561 29,42,779 4,11,52,410 10,31,312 56,62,378	32 0 4.0 55·1 1·3 7·6	2,66,43,937 31,39,323 4,30,28,380 12,29,820 61,61.037	33·2 3·9 53·7 1·5 7·7	+28,06,376 +1,96,544 +18,75,970 +1,98,508 +4,98,659
Total	••	7,46,26,440	100.0	8,02,02,497	100 0	+55,76,057

Thus during the year under review the Government Funds and fees met 33.2 and 53.7 per cent. of the total expenditure respectively. Income from endowments contributed only 1.5 per cent of the total expenditure.

The average annual cost per pupil receiving education in the Secondary Schools rose from Rs.75 in 1953-54 to Rs.77 in 1954-55.

The following table shows the comparative expenditure according to the managements for the years 1953-54 and 1954-55:

		1953-54	4	1954-5	5	
		Amount	Per- cent. age	Amount	Per- cent- age	Variation
Government Local Bodies Private Bodies Aided Un-Aided	•••	Rs. 1,12,79,920 1,15,72,669 4,53,53,912 - 64,19,939	15·1 15·5 60 8 8 6	Rs. 1,21,85,789 1,24,01,796 4,73,27,679 82,87,233	15·2 15·5 59 0 10·3	Rs. +9,05,869 +8,29,127 +19,73,767 +18,67,294
Total	••	7,46,26,440	100.0	8,02,02,497	100-0	+55,76,057

(42)

Thus 59.0 per cent of the total amount was spent on institutions managed by private aided bodies. The expenditure on institutions managed directly by the Government and the local bodies was 15.2 per cent and 15.5 per cent of the total amount respectively.

VIII-Scholarship, stipends and free places

Different kinds of scholarships are awarded by the State in Higher Secondary institutions.

Forty-eight scholarships for boys and six for girls of the value of Rs.16 per mensem each and tenable for two years are awarded annually for precedence in the High School Examination of the Intermediate Board.

One hundred and seventy State Scholarships for boys and 75 for girls of Rs.10 per mensem each for 24 months in class IX and X of the recognized Higher Secondary Schools are awarded annually for precedence at the scholarship examination of class VIII conducted by the Registerar, Departmental Examination.

One stipend, tenable for two years is awarded annually to a poor and meritorious student in each Higher Secondary School.

Special scholarships are awarded to the poor students belongings to the Scheduled Castes, Backward Classes, Momins and Ansars and Indian Christian of the rural areas. There are separate scholarships for sons and daughters of Indian Soldiers.

Scholarships for destitute students and students belonging to poor middle class families have been added recently. Sons and dependents of political sufferers and displaced persons also get separate scholarship.

To encourage the study of Sanskrit provision of Anglo-Sanskrit scholarships has been made at the Government Sanskrit College, Varanasi for Class VII, VIII, IX and X.

The provision of scholarships, stipends etc. was Rs.9,47,500 in 1954-55 as against Rs.7,75,000 in 1953-54.

Freeships up to a limit of 10 per cent. of the number of scholars on roll and half free ships up to a limit of 15 per cent of the number of scholars on roll are also allowed under para. 115 and 116 of Education Code to poor and meritorious students. Students belonging to the Scheduled Castes are exempted from payment of fees. The wards of the staff of educational institutions drawing less than Rs.200 per month are also granted full freeship in both Government and aided institutions.

IX—Methods and Standards of Teaching

During the year under review important changes have been introduced in the curriculum of Junior High Schools. The six groups in the curricula of the Higher Secondary scheme represent 6 types of Higher Secondary Schools, each catering for a particular class of students having special aptitude therefor. At the High School stage, weightage of two subjects has been given to the subjects of Commerce, Constructive of Pre-technical, Aesthetic and Agriculture Groups. In the Inter, while the same weightage is given to Commerce, Aesthetic and Constructive Groups, weightage of 3 subjects has been given to the subjects like Industrial Chemistry and Ceramics, and Agriculture Examination has been split up into two parts, to provide intensive coaching in these subjects to enable them to prove use-ful citizens.

Besides the above two public examinations conducted by the Board of High School and Intermediate Education, it also conducts the High School and Intermediate Technical Examination of institutions managed' by the Industries Department of the State. The curricula of these technical examinations comprise general and technical education. The central place which has been given to Agriculture and crafts in the curriculum of class VI to VIII is likely to provide a more realistic background for the teaching of theoretical subjects. Generally however, the standards oſ teaching cannot be considered to be very satisfactory. There is too much dependence on text-books, and not enough creative teaching to evoke the interest of the pupils. In Higher Secondary Schools also, the picture is not any brighter. The standards of teaching Science, English and Mathematics are particuarly in need of attention. The teaching of English has suffered mainly because there has not yet taken place the adjustment in out-look which the changed political situation makes necessary. The In-Service Training Programme, it is hoped will do much to remove the present deficiencies.

(X) Medium of Instruction

Medium of instruction from Junior High School right upto class XII is Hindi in Deonagri script. English is still used as medium of instructions in European and Anglo-Indian Schools.

(XI) Teaching of Hindi

Hindi continued to be a compulsory subject in Junior High Schools and Higher Secondary Schools. Formerly there were two courses in Hindi, Advanced and Elementary. The elementary course has now been abolished in the first two years' course. Elementary course in Hindi continues up to the Intermediate Examination of 1957 for all groups and for Intermediate Examination with Agricultural Group and Technical Examinations for 1957 onwards. Hindi with Sanskrit is now the compulsory subject. The progress of Hindi and the teaching of Hindi in the schools have been making very satisfactory and rapid progress.

(XII) Examination Results

A Junior High School Examination is conducted in each district by a Committee with the District Inspector of Schools as its Chairman. The question papers are set centrally and supplied to the districts by the Registrar, Department Examinations, Uttar Pradesh. Junior High Schools with a trained graduate or Inter. C. T. Headmaster and Junior High Sections attached to a Higher Secondary School have their own home examination's for class VIII.

The High School (class X) and Intermediate (class XII) Examinations are conducted by the Board of High School and Intermediate Education. During the year under review the Board revised the Regulations contained in Chapters XII, XIII and XIV with effect from the Examinations of 1956, and restrictions have been imposed on the admission of private candidates to the Board's High School Examination. Concessions formerly available to the candidates to take the examination in parts have been withdrawn. Women candidates are now required to pay the full prescribed fee with effect from the examination of 1956. The total number of candidates, régular as well as private who appeared in the terminal examinations of the Board and the Junior High Schools are given below :

		_	1953-	64			195	1-55

45

XIII School Building and Equipment

The condition of buildings and equipment generally has not shown any marked improvement. One of the items of the programme of the Reorientation Scheme was the beautification of school buildings and environs. This has resulted in considerable attention being paid to and impromement being affected in the Junior High School buildings in the rural areas.

The Government Higher Secondary Schools have their own well planned pucca buildings. But only a few privately managed Higher Secondary Schools, buildings are adequate and suitable. Considerable leeway has to be covered. During the year under report Government increased the provision for building grant to private institutions from 2.5 lakh to 3.0 lakh.

There is a general shortage of equipment and furniture in almost all the schools except a few aided institutions and Government institutions. The most urgent need is for the provision of libraries and science equipment.

During the year under report Government sanctioned Rs.49,000 to Boys and Rs.36,000 to Girls private institutions for furniture and equipment and Rs.60,000 to Girls institutions for purchase of buses.

XIV Reorganisation and New Developments

During the year under review some important changes were made in the curriculum of Higher Secondary Schools.

In 1948 the Board of High School and Intermediate Education, Uttar Pradesh for the first time introduced four groups of Courses, i.e. Literary, Scientific, Constructive and Aesthetic. The subjects for the High School and Intermediate Examinations were classified under three heads Compulsory, Main and Subsidiary. Under each of the above four groups, Hindi being the State language was compulsory for all groups. There were courses in Advanced and Elementary Hindi and also in Advanced and Elementary English. Elementary courses were meant for those who had not read these subjects at an earlier stage and was a measure designed for the transitional stage. A special group of subjects was prescribed for girls with Home Science as a compulsory and main subject for the High School Examination with Home Economics for the Intermediate Examination. In the course for girls, English was optional. Mathematics was compulsory only for the High School Scientific Group and for candidates taking Agriculture or Industrial Chemistry or Ceramics for the Intermediate Examination. Instruction and Examination in General knowledge and Physical Culture were compulsory in addition to five subjects prescribed under each group which a candidate was required to take for the High School or Intermediate Examination. The Examination in Physical culture, however remained in abeyance. Moral education was also introduced as a non-examination subject in classes IX to XII.

The same subject existing as compulsory, main and subsidiary led to a lot of confusion and complication. In March, 1952 Government appointed a Committee under the Chairmanship of the late Acharya Narendra Deva to examine the working of the Secondary Education in the State. It submitted its report to Government in May, 1953. Important changes in consonance with the recommendations of the Committee have been introduced from July, 1954. In the new curriculum the confusion and complication caused by the existence of the same subjects as compulsory, main and subsidiary has been done away with. Now there are six types of courses for higher secondary schools i.e. Literary, Scientific, Agriculture, Commerce, Constructive or Pretechnical and Aesthetic. Hindi with Sanskrit as one subject with in dependent emphasis on both of them and a Modern Indian Language other than Hindi, alternated with a Modern Foreign Language have been made compulsory throughout the four years' course (class IX to XII) General Knowledge has been taken out from the curriculum. For Classes IX and X, Mathematics for boys and Home Science for Girls have been made compulsory. Thus for classes IX and X the following three subjects have been made compulsory :

(i) Hindi with Sanskrit.

(ii) A Modern Indian Language other than Hindi as given in (viii) Schedule of the Indian constitution.

or

A Modern Foreign Language (English, French, German, Nepali or Sindhi.)

(iii) Mathematics (for boys only)

or

Home Science (for girls only)

In addition to the 3 compulsory subjects, every candidate has to offer 3. Optionals. Instruction in Physical Training is also compulsory although there is no examination in it for the present.

For the Intermediate Examination the following subjects have been made compulsory in all Groups excluding Agricultural Group.

(1) Hindi with Sanskrit.

(2) An Indian Language other than Hindi as given in Schedule VIII of the Indian Constitution.

or

A Modern Foreign Language (English, French, German, Russian, Nepali, or Sindhi).

In addition to these a candidate has to offer 3 optionals. Provision has also been made throughout the four years' course to offer an Indian Language other than Hindi or a Modern Foreign Language as an optional provided it is not offered as a compulsory subjects. Weigtage of two subjects has been given to subjects prescribed under constructive or Pre-Technical Group. The policy of the Board with regard to the introduction of vocational subjects in all through the four years' course is to group the subjects offered for its examinations in such a way-that while providing for a sound general education suitable as an introduction to University studies, they should also fit students to enter upon higher specialised courses in technical and professional institutions.

Intermediate Examination in Agriculture has been split up into two parts. There is separate public examination after part I and II. This has been done with a view to decrease the load of composite subjects taught in Agritulture to enable candidates to acquire more thorough knowledge of each subject.

During the year under review a confidential Section has also been created in the office of the Board of High School and Intermediate Education.

CHAPTER VI

UNIVERSITY AND COLLEGIATE EDUCATION

There are six Universities in the State, Allahabad Lucknow, Banaras, Aligarh, Agra and the Roorkee Engineering University. The Banaras Hindu University and the Aligarh Muslim University are Central institutions. Allahabad, Lucknow, Banaras and Aligarh Universities are mainly residential and teaching universities, though they affiliate colleges within their immediate jurisdictional areas.

The Agra University is an affiliating and examining body. The total number of colleges affiliated by Agra University of this State was 49.

The Engineering University at Roorkee is a unitary teaching and residential institution with a single faculty (Engineering).

Institutions

The number of colleges in the state during the current year as compared with 1953-54, is given below:

Arts and	Arte and Science Professional colleges			Colle for Spec cat	ial Edu-	To	Variation	
.1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	1953-54	1954.55	
56	59	17	37	6	6	79	102	+23

Number of Colleges in Uttar Pradesh

The main increase has occured in the number of professional colleges which include Teachers Training Colleges, Medical Colleges and Agriculture Colleges. (from 17 in 1953-54 to 37 in 1954-55).

It is due to addition of the following colleges:

. . .

(1) Ayurvedic Colleges	9
(2) Government Junior Basic Training Colleges	3
(3) Extension Teachers Training Centre, Partabgarh	1
(4) Civil Aviation Training Centre, Bamrauli	1
(5) Training College for teachers for Deaf and Dumb	1
• (6) Government Nursery Training College, Allahabad	1
* (7) St. Mary Training, College, Allahabad	1
(8) Kishori Raman Training College for Women, Mathura	I
• (9) Government College for Physical Education, Rampur	1
(10) Kishori Raman Training College for men, Mathura	1

Colleges marked with an asterisk have been included in this category "because of Statistical reclassification. The number of Arts and Science colleges have also recorded an increase from 56 to 59.

(49)

	Arts and Science Colleges		Colleg	es for	Coll	eges	Tetal			
Manage. ment			professional Education		for Special Education		1953.54		1954-55	
	1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	Number	Percentage	Number	Percentage
Government	3	3	11	19	3	2	17	22	24	:4
Aided	48	50	6	18	2	3	56	71	71	69
Un-aided	5	8	••		1	1	6	7	7	7
Total	56	59	17	37	6	6	79	100.0	102	100.0

The following table shows the number of colleges according to management :

The decrease in the number of Government Colleges for special education by 1 is due to satistical reclassification. The number of professional colleges maintained directly by the Government rose from 11 in 1953-54 to 19 in the current year. The number of colleges aided by Government also rose from 56 in 1953-54 to 71. There are now only 7 Un-aided Colleges in the State. The number of institutions of higher learning in rural areas is very small at present.

Students

The table below shows the number of pupils in Universities and colleges. There has been an increase by 2,174 scholars.

Bo	ys	Gır	·ls	Total	Variation	
1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	1
72,346	73,639	6,867	7,748	79,213	81,387	+2,17 4

Number of students in Universities and Colleges

The number of students in the B.A. and B.Sc. classes rose from 29,374 in 1953-54 to 30,093 in the current year. In the post-graduate classes the number was 7,945 as against 7,847 of the previous year. The number of research scholars also increased from 701 of the previous year to 787 in the current year. There were 16,991 students during the current year against. 16,720 of the previous year in Inter. classes attached to Degree Colleges. The number of boys and girls in the Degree and Post-graduate classes receiving general education is given in the following table :

	Boys		Girls		Tot		
General Education	1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	Variation
B.A.,/B.Sc	26,786	27,064	2,588	3,029	29,374	30,093	+719
M.A./M.Sc	7,050	7,058	797	887	7,847	7,945	+98
Research	613	708	88	79	701	787	+86
Intermediate	14,980	15,041	1,740	1,950	16,720	16,991	+271

Distribution of pupils both boys and girls at the university stage receiving professional and special education is given below:

	В	ys	G	rla	To	tal	
	1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	Variation
Professional educa- tion							
Agriculture and Forestry.	1,542	1,679 °		20	1,562	1,699	+137
Commerce	8,011	8,104			8,011	8,104	+93
Engineering. and Technology	1,940	2,020	1	1	1,941	2,021	+80
Law	4,274	4,088	46	41	4,320	4,129	<u>—191</u>
Medicine and Veterinary.	2,488	3,496	254	301	2,742	3,797	+1,055
Special Education							
Music, Dancing and other Fine Arts.	264	287	327	295	591	582	9
Oriental Studies	1,234	1,369	1	1	1,235	1,370	+135
Other Subjects	453	549	59	58	512	607	+95

The figures given in the above tables show a progressive increase in the number of students receiving general higher education but a slight decrease in Engineering and Technology, and Law. The number of students in the institutions of Oriental Learning has increased, but that in the institutions of Fine Arts remained nearly the same. The number of girls entering the institutions of higher learning is also steadily increasing. Out of a total of 6,575 girls in colleges of general education as many as 4,243 girls were receiving education in boys colleges as against 2,329 in girls colleges. The percentage of girls in boys colleges of general education to the total number of girls was 64.

In the colleges for Professional and special education the number of girls in boys colleges was 711 as against 465 girls in girls colleges. Out of a total number of 1,176 girls receiving Professional and special Education 60 per cent. were receiving education in boys colleges. During the previous year the total number of girls who received Professional and Special Education was only 990 and 66.1 per cent of them had received education in boys institutions.

Teachers

During the current year the number of teachers in the universities and colleges was 3,957 Men and 345 Women as against 3,652 Men and 302 women in 1953.54. They are classified as under :

Year	In Un ^{iver} t ing Dep	artment	Iı affiliated		Total		
	Men	Women	Мер	Women	Men	Women	
1954-55	1,307	108	2,650	237	3,957	345	

Number of Teachers in Universities and Colleges

Of the total number of teachers nearly 67 per cent. are engaged in affiliated colleges, and the rest 33 per cent. in the University teaching Departments.

Pay scale of teachers

The pay scales continued to be the same as during the previous year. The universities of Allahabad and Lucknow have the following payscales:

						Re.
Professors	••	••	••		••	80050-1,250.
Reader ⁸	.• •		••	••	••	500-25-800.
Lecturers	••		••	• •	••	300-20-500.
	_				••	

Pay scale in Government degree colleges

Professors Rs.500-50-1,000-E.B.-1200 plus special pay of Rs.100 for Principal.

Assistant professors

Rs.250-25-400-E.B.-30-700-E.B.-50-850 Pay scales in private Degree colleges affiliated to Agra University. A For Principal-

1.	Rs.700-40-900-50-1000.	Principal of a college in which teaching is conducted for Masters- degree in not less than three subjects.
2.	Rs.600-30-750.	Principal other than those en- titled to scale 1.

(51)

B. Scales for Head of Deptt.-

3.	Rs.300-20-500-EB-20-600.	Head of a Department in which teaching is conducted for a Master's degree of the University.
4.	Rs.250-15-400-EB-20-500	Head of a Department in which teaching for a degree of the Univer- sity is conducted but not for a Mas- ter's degree.
С.	Scale for teachers other than th	e Head of the Department-
5.	Rs.200-15-350-EB-20-450.	Every teacher of a subject which is taught in the college for a Mas- ters degree.
6.	Rs.200–10–300–EB–20–400.	Every teacher of a subject which is taught in the college for a Bache- lor's degree.

Expenditure

The Expenditure on the universities, Arts and Science colleges and Professional and special institutions of 1953-54 and 1954-55 is given below:

	Universities		Arts and Science Colleges		Colleges for profes- sional education		Clieges for specia oeducation		Total	
1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	
1	2	3	4	5	6	7	8	9	10	
2,04,24,838	.,52,78,367	97,77,020	1,07,09,313	28,22,699	53,04,515	3,12,239	3,12,286	3,33,36,796	4,16,04, 4 81	

Direct expenditure on Universities and Colleges in Uttar Pradesh

The distribution of expenditure on Universities and colleges by sources is given in the following table :

Direct expenditure on Universities and Colleges by sources

			1953-54	1954 55	Variation	
Government			1 37,05,950	1,79,26,450	+42,20,500	
Loc al Bo dies	••	••	79,885	12,474	-67,411	
Fees	••	••	1,14,24,756	1,21,13,653	+6,88,897	
Endowment	••		4,55,125	5,81,502	+1,26,677	
Other			76,71,080	1,09,70,102	+32.99,022	
	Total		3,33,36,796	4,16,04,481	+82,67,685	

(53)

There was an increase of Rs.82,67,685 in the expenditure of Universities and Colleges during the year under report. It was partly due to the addition of twenty Professional colleges and three Arts and Science colleges and partly due to increase in the expenditure of Universities.

Scholarships stipends and free places

All the universities of the state make provision for Research scholarships. The open metit scholarships on the basis of university examinations are awarded to meritorious scholars and freeships to the extent of about 20 per cent were available for poor and deserving pupils. Liberal stipends and freeships were awarded to students of the Scheduled Castes, Scheduled Tribes and other Backward classes receiving higher education in the universities and degree colleges. The financial assistance given in the shape of scholarships, stipends and other financial concessions amounted to Rs.28,26,066.

Method and standard of teaching

Teaching standard in Universities have continued to be handicapped by crowded classes. Tuitorial classes and seminars do not occupy as much time as they should. Library facilities cannot be considered as adequate and there is little time left for individual guidance. In affiliated Degree Colleges the pressure of enrolment varies over a wide range. The enrolment in the newly established Degree Colleges is not high but the teaching suffers because of the lack of experienced teachers.

There is general anxiety and concern about the fall in standards and the Universities and the Degree Colleges are taking steps to halt the decline. The most urgent needs however of the Universities and the Degree Colleges are for more accommodation, better equipment and library facilities.

Medium of instruction

English continues to be the medium of instruction in post-graduate classes. In graduate classes particularly in the faculty of Arts Hindi is being increasingly used as the medium of instruction.

Examination results

The result of the University Examinations is shown in the table given below :

		Number	appeared	Number	passed	Percentage		
Examinatio	ons	1953-54	1954-55	1953-54	1954-55	195 3 -54	1954-55

Buildings

The Universities and the degree colleges are short of accommodation, as the enrolment during the last few years has overflowed the capacity for which their buildings, were originally designed. Lack of funds and building material has hampered expansion at the rate that is necessary to overtake the needs arising out of increased enrolment. Building activity during the year under report has been much more satisfactory than in the previous year.

Roorkee University

The new Electrical Engineering Block which was started in 1954 is almost complete and equipment from the old Electrical Engineering Laboratories has been shifted to this new building. The following new constructions for which funds are available are projected for next year, and a beginning has been made on some of them :

						Rs.
1.	Overseers hostel		••			6,05,000
2.	Refiesher course Tra	inces hostel	• •		••	5,00,000
3.	Hostel for Water Rea	sources Devel	lopmen	t Training Coi	atre	5,36,000
4 .	Residences for the ab	ove centre	••			4,10,000
5.	Auditorium		••	••		1,00,000
6.	Laboratory space	••	• •	- •		3,35,000
7.	Overscers school		••	۰.		1,30,000
				$\mathbf{T}_{\mathbf{o}}\mathbf{t}_{\mathbf{d}}\mathbf{l}$	••	26,16,000

Construction of bulidings No. 1, 2, and 3 has already begun.

An Olympic Swimming Pool measuring $165' \times 48' \times 16'$ has been constructed. The robing rooms for the swimming pool as well as for the open Air Theatre are being constructed exclusively by the supervisory, technical and manual labour of the staff and students. The students are also going ahead with the completion of the extension to the Engineer students club building. A total of Rs.80,000 has been sanctioned for these projects taken up under the sharamdan scheme.

'Agra College, Agra

A sum of Rs.19,915 was spent on the construction of the Hostel boundry wall, painting roads with asphalt, and for fittings and furniture for Arts Block and Chemistry Department.

Amar Singh Jat College, Lakhoti

Four class-rooms and the library hall were re-roofed and their floors were relaid with concrete and cement. The Kachcha roofs of other rooms and verandah of the main block were made Pacca with concrete and cement. A projection of about four feet wide was constructed over the entire building. The Government gave Rs.5,000 as non-recurring grant.

A Pathology Laborotory $40' \times 20'$ was also constructed at an estimated cost of Rs.4,000.

M. M. H. College, Ghaziabad

The college has two impressive buildings and a third building is nearing completion.

Tilak Dhari College, Jaunpur

Three big rooms are under construction to house the library and the reading room.

Jat Vedic College, Baraut

A new Zoology block has been completed.

M. P. College, Gorakhpur

A separate building with a big compound has been purchased to accommodate the Women's section of the college.

S. S. V. Degree College, Hapur

Four new class-rooms have been completed.

D. S. B. Government College, Naini Tal

During the year under review extensions were made to the chemistry block at a cost of Rs.52,000. A sum of Rs.68,000 was also provided for fittings and furniture but only Rs.20,000 could be utilized. Government have also sanctioned Rs.1,64,000 for two lecture theatres one for physics and the other for chemistry. The work is to be taken up next year.

Research in Universities

Research in the universities and the degree colleges was encouraged through special Research Scholarships and grants. The grants are made by Government on the recommendation of the Scientific Research Committee, Uttar Pradesh. A special allowance of Rs.100 is given to the Professors of the Degree colleges affiliated to the Agra University who guide research work. A sum of Rs.1,79,500 was given as grant-in-aid to the Universities and Degree colleges for research work. 708 boys and 79 girls (Exclusive of research workers in Professional colleges) were engaged on research work at the various universities and colleges.

Reserch works are specially encouraged at the following four colleges for Professional Education:

- (1) Indian Institute of Sugar Technology, Kanpur.
- (2) Harcourt Butler Technological Institute, Kanpur.
- (3) Indian Veterinary Research Institute, Izatnagar.
- (4) Indian Veterinary Research Institute, Mukteshwar.

The enrolment of these Research institutions was 231 and an expenditure of Rs.41,23,732 was incurred on their maintenance during the current year.

University Grants Committee, Uttar Pradesh

The Committee's term which was due to expire on November 24, 1954 was extended by a year. It continued to function during the year under report with Dr. (Sir) Sita Ram as its Chairman.

In modification of the Committee's earlier decision it was decided that hence forward grants instead of loans should be recommended for the construction of hostels for men students in degree colleges.

The development plans of the six degree colleges in the State which have post-graduate teaching in science were recommended to the Central Government.

Re-organization and new developments

The various Acts which established the Universities in this State were promulgated nearly decade ago. The Agra University Act was passed 27 years ago and the Allahabad University Act was passed in 1921. Vast changes had occurred since these Acts were promulgated. New problems and urgencies had entered the field of University Education. The problems relating to higher education had been investigated by the University Education Commission undr the chairmanship of Dr. Radha Krishnan and its weighty recommendations had been put before the Government and the public. The urgent need was to redesign the legislative basis of the Universities, by appropriate amending Acts.

The Agra University

The Agra University Act was first promulgated over 27 years ago. An amending act called the Agra University (Amendment) Act came into force with effect from December 30, 1953.

The amending Act has made provision for the constitution of the Senate, the Executive Council and for the appointment of the Vice-Chancellor generally in accordance with the recommendation of the University Education Commission. Powers have also been assumed to secure better supervision over the affiliated colleges and particularly to prescribe the conditions of service of the teachers in affiliated colleges. The amending Act further contemplates that the Intermediate classes should be detached from the Degree classes and that a Degree College should either the first degree classes with post-graduate class or Inter. classes with first degree classes but without post-graduate classes. The reorganization in the pattern will be brought into effect gradually and the colleges will exercise their option either to retain the Inter. classes and forego postgraduate classes or to forego Inter. classes and keep the post-graduate classes.

The B.A. and B.Sc Examinations under the New Scheme, having two examinations one at the end of each year, were held during this year for the first time. It is expected that this step will have a good effect upon the students in the matter of discipline and their studies.

Allahabad University

The Allahabad University Act was first promulgated in 1921.

Government appointed an Enquiry Committee for the Allahabad University under the Chairmanship of Mr. Justice Mootham. The Committee

(57)

made a detailed investigation into the affairs of the University. A bill was, therefore, prepared during the year under report to give effect to the recommendations of the Committee and for the purpoes to amend the Act of 1921. The bill had not passed into legislation during the year under report.

Lucknow University

The Act of the Lucknow University was drawn up on the lines of the Allahabad University Act. An amending bill was therefore prepared for the Lucknow University also. It had not passed into legislation during the year under report.

, 58)

CHAPTER VII

TRAINING OF TEACHERS

Normal and Training Schools

Teachers for primary schools are trained in Normal Schools. Due tovast expansion in Primary education during the post independence period, untrained teachers had to be employed in large numbers in almost every district. Consequently steps were taken to provide for the training of teachers for primary schools in most of the districts. The comparative figures for 1953-54 and 1954-55 about the number of boys and girls Normal Schools are given in the table below :

			1953-54		1954-55			
		Boys	Girls	Total	Boys	Girls	Total	
Government	•••	43	10	53	40	10	50	
Private	••	3	8	11	3	8	11	
Total	••	46	18	64	43	18	61	

Government Normal School for boys at Pratapgarh, Bara Banki and Hardwar (Saharanpur) have been converted in Janta Colleges. This explains the decrease in the number of boys Government Normal Schools from 43 in 1953-54 to 40 in 1954-55.

The minimum qualification for admission to a Normal School is Junior High School or class VIII of a higher secondary school. Age-limit for admission has been reduced from 18-27 years to 17-26 years. During the year under report, powers to pass final orders in respect of candidates to be admitted to Government Normal School for boys in the District and to decide the award of stipends amongst them have vested in the district Inspector of Schools. Formerly these powers were exercised by the Deputy Director of the region.

Formerly the period of training was two years, but in 1949 this was reduced to one year. It is now felt that this reduction in training period has adversely affected the efficiency of training. The question of again extending it to two years is under consideration.

During the year under review 5,465 men and 989 women candidates appeared for the H. T. C. examination. The number of successful candidates was 3,785 and 604, respectively.

Teachers for Junior High Schools and for classes VI, VII, and VIII of Higher Secondary Schools are trained in the Junior Training Colleges. The minimum qualification for admission to these is High School. The period of training is one year.

(59)

		1953-5‡			1954-55			
9994 (an 19-201) a fair a fair an 19-20 (a fair a fair	Вруя	Gırls	Tot 1	B>js	G rls	Total		
Government	 		 9	• 5	 	6		
Private	 21	1	23	28	••	28		
Tot 1	 29	2	31	33	 1	34		

The comparative figures for 1953-54, 1954-55 about the number of boys and girls Junior training colleges are given in the following table :

Junior training colleges for boys at Allahabad, Lucknow and Muzaffarnagar have been converted into Junior Basic Training Colleges. Thus the number of Government Junior Training Colleges for boys decreased from '8 in 1953-54 to 5 in 1954-55.

During the year under review 2,675 men and 110 women candidates appeared for the Junior Teachers Certificate Examination. The number of successful candidates was 1907 and 84 respectively.

In the Normal Schools as well as Junior Training Colleges candidates are trained in the basic system of education. They learn at least two basic crafts, Agriculture, Horticulture and Spinning and Weaving. Women candidates learn house craft in place of Agriculture or Horticulture. The candidates are required to do practical community work in villages, and are also taught the theoretical aspects of community organization work.

Expenditure

The total direct expenditure on Normal schools and Junior Teaching Certificate institutions amounted to Rs.23,69,990 during the year under review as against Rs.27,14,707 in the previous year.

The table given below shows the distribution of expenditure according to different sources :

	Source	3		1953-54 amount	1954-55 amount	Variation
		· ·		Rs.	Rs	Rs.
Government				25,10,473	21,27,615	-3,82,858
Local Boards				1 <i>5</i> ,673	11,094	-4,579
Fees				1,48,627	1,79,888	+31,196
Endowment	••	••		11,327	17,745	+6,418
Others	••	••		28,607	33,648	+5,041
		Total		27,14,707	23,69,990	- 3,44,782

As already pointed out, during the year under review three normal schools have been converted into Janta colleges and three junior training colleges into Junior Basic Training colleges. This explains the decrease in Government expenditure by Rs.3,82,858. About 90 per cent of the expenditure was met from Government funds. In the training institutions maintained by the Government no fee of any kind is charged and the candidate teachers get stipends. Fees are, however, charged in the training institutions which are maintained by private bodies.

The comparative figures of direct expenditure on the teachers training institutions both for men and women for the current and the preceding year is given in the following statement:

On Institut	on for Men	On Instit Wor		Tote	Total		
1953-54	1954-55	1953-54	1954-55	1953-64	1 9 54+55	Variatio	
21,81,745	19.08,387	5,32,962	4,61,603	27,14,707	22,69,990	3,44,817	

The average annual cost per pupil was Rs.348.4 as against Rs.391.5 of the preceding year.

Training Colleges

The year under report saw the revival of C. T. course for boys, which was abolished in the year 1949-50. Under Government of India's Intensive Educational Development Scheme No. 1 of the Ist Five-Year Plan, the three Government Training institutions for Junior Teaching Certificate at Allahabad, Lucknow and Muzaffarnagar were with effect from July, 1954, converted into Junior Basic Training colleges. These institutions were given a revised syllabus on the lines of Basic Education with special emphasis and adequate provision for training in Agriculture, Crafts, and Community Work. These colleges impart one year C. T. (Basic) training to 60 under-graduate candidates. Minimum qualification for admission to the colleges is Intermediate II Division. The pupil teachers are given stipends at Rs.30 per mensem each.

A C. T. Training college for women was also maintained by Government at Lucknow. House craft, Practical community work and community organization are compulsory parts of the training. Student teachers are required to go to villages to actively participate in village life and community development work.

Four Government Training colleges of post-graduate level continued to be maintained. Two of these i.e. the Basic Training College and the Constructive Training College were at Lucknow and the other two at Ailahabad.

During the year under report the syllabus of the Basic Training College was reorganized. According to the new syllabus each candidate has to offer one main craft and one subsidiary craft out of the following :

- (i) Main Craft-Agriculture or Spinning and Weaving.
- (ii) Subsidiary Craft-Vegetable gardening, Tat Patti Weaving,

Toy (Clay and Paper Machine) making and Fruit preservation.

Practical examination are conducted in Practice of Teaching, Community Work and the main and subsidary crafts.

There were 73 pupil teachers on roll of whom 22 were women. All women pupil teachers were stipendiary. Stipend is paid at Rs.30 per month for ten months. The course is of one year's duration. The graduate teachers trained at the Basic Training College are appointed on the staff of the Normal Schools and the Junior Training Colleges and as Sub-Deputy Inspectors of Schools.

The Constructive Training College train teachers for Crafts in the Higher Secondary Schools. In addition to general theory of pedagogy candidates get specialised training in one of the following Crafts:

 (1) Agriculture (2) Industrial Chemistry (3) Ceramics 	One Year's course. One-year's course for B.Sc. (Tech). and 2 year's course for B. Sc. (pure)
(4) Book-craft	Two years' course.
(5) Metal craft	. Two years' course.
(6) Spinning and Weaving	Two years' course.
(7) Wood-craft	Two years' course.

Only graduates are admitted to the college. The duration of training is as noted above against the particular subject.

Number of pupil teachers on roll in the first year was 28 and in the second year 46. All of them were stipendiary. Stipend was at the rate of Rs.30 per month for 10 months.

Of the two Government L. T. Colleges at Allahabad one is for Men and the other for Women. The L. T. Training College for Men is part of the Government Central Pedagogical Institute, which in addition to conducting this training also takes up research in educational problems. The Government Training College for women is maintained separately.

A-During the year under review the Government Central Pedagogical Institute carried on the following investigations and experiments:

(1) An Experiment in the Teaching of English in class VI. The aim of the experiment was to test the efficacy of the structural approach to English in the Senior High School. The preparation of a detailed syllabus in English on structural basis for the first three years was started.

(2) An investigation on the Current Practices in the use of Excursions as a part of General Science Programme in the Senior High School was undertaken.

(3) In Mathematics, a study was made of the general nature of errors in Arithmetic committed by students offering Mathematics at the Higher Secondary stage.

(4) A Reading Readiness Test in Hindi was prepared and preliminary selection of Reading Vocabulary for the primary classes made.

(5) Criteria for preparation of text-books for Junior High Schools were prepared.

B-The following workshops and courses were organized :

(1) A workshop of teachers of English of the local training colleges and practising schools.

(2) A two-week course in the Teaching of English was organized in collaboration with the British Council. About 100 teachers from all over the State attended it. (3) A svorkshop in the teaching of Science was organized.

(4) A convention of about 80 teachers of Hindi from the Allababad region was organized, at which ways and means to improve the quality of the work of teachers and students were discussed. A follow-up programme was also gone through 10 articles bearing on the above researches were published in the "Shiksha" U. P. Education Depirtment Journal, and 3 handbooks of suggestions for teachers were published.

Since July, 1954 the women's section of the College of Physical Training has also been attached to the Government Training College for Women at Allahabad. Intermediate passed candidates are admitted to this section. The duration of this course is one year. Prior to 1954-55 this section was attached to the Government College of Physical Education for Boys at Allahabad and High School passed candidates were admitted.

In addition to the above Government Training Colleges, a number of training colleges are maintained by private bodies, generally as a Department of education of the respective Degree Colleges. Students of the Government as well as the private Training Colleges take the L. T. Diploma Examination of the Uttar Pradesh Education Department. In addition to the above, the universities of Allahabad, Aligarh, Lucknow and Banaras have their own departments of Education. These universities confer the degrees of B. Ed., B. T., L. T. and M. Ed. The Allahabad University confers the M. Ed. degree only. The Agra University also confers B. T. on candidates under training in colleges affiliated to it.

The following table gives the number of training colleges maintained by Government or recognized by it :

		1953-8	54		1954-55			
	Numb of institu tions	u- ment	Number Fassed	Number of institu- tions	Eprol- ment	Number pissed		
Government (men)	. 3	233		3	 246	ו ו		
Government (women) .	. 1	82	} J,305 √	1	136	} J,361		
Private (recognized) .	. 15	1,193	Jι	16	1,395	J		
Total .	. 19	1,508		21	1,777 -	· · ·		

The Government College of Home Science and Government Nursery Training College were two other important training institutions for women maintained at Allahabad. In the College of Home Science, prior to 1954-55 two courses were run, one of two years' duration for High School passed candidates and the other of three years' for Intermediate passed candidates leading to a Diploma. During the year under review the three years' course (Diploma) was abolished and two years' course for High School passed candidates was replaced by one year course for Intermediate passed candidates with Home Science as one of their subjects in the High School.

The Government Nursery Training College was made permanent in 1954-55. Twenty candidates are admitted to it every year for a two years' course. Minimum qualification for admission is High School.

The following table shows the total number of candidates under training in the State during the years 1953-54 and 1954-55.

Number of Pupils in Teachers Training Colleges and in B. Ed. and M. Ed. classes of Universities :

Men		Wor	nen	Т	otal		Output		
1953-54	1954-55	1953- 54	1954- 55	1953-54	1954-55	Varia- tion		Women	Total
					- 		[Degree		
1,600	2,030	566	851	2,166	2,881	+715	4,521	712	223

Expenditure

The total direct expenditure on the Teachers Training Colleges by sources is shown below:

Source	9		1 95 3-54	1954-55	Variation
Government	••		4,13,418	8,82,436	
Fees	••		55,124	94,314	+39,190
Endowments			4,580		-4,580
Other sources	••		38,614	39,999	+1,385
Т	otal		5,11,736	10,16,749	+5,05013

N.B.—These expenditure figures do not include the expenditure on the Training Department of Degree colleges or Universities.

Increase in expenditure from Government funds is mainly due to the opening of three Junior Basic Training Colleges at Allahabad, Lucknow and Muzaffarnagar and Extension Teachers Training Centre at Pratapgarh. The main burden of the Training Colleges was borne by Government accounting for about 87 per cent. Income from endowments was nil while proportion of income from fees was about 9 per cent. Fees are charged in only private institutions. No fees are charged in college maintained by Government.

The direct expenditure on Teachers' Training Colleges both for men and women during the current year and the previous year is given below (in Rupees):

(63)

Me	Men		n0n	То	Variation	
1953-54	1954-55	1953-54	1954-55	1953-54	1954-55	
3,02,588	6,44,265	2,09,148	3,72,484	5,11,736	10,16,749	+ 5,05,013

Direct Expenditure on Teachers Training College

The increase in expenditure is due to the opening of 4 new Government institutions as mentioned above and two new recognised private institutions.

Training of Extension Teachers

Under the scheme of Reorientation of Education (discussed in detail in Chapter IV), 2897 candidates were selected for the post of extension teachers. In order to train them for their new jobs, 9 training centres were initially started at the Government State Farm, Rudrapur, and Government Normal Schools at Faizabad, Allahabad, Lucknow, Gorakhpur, Jhansi, Almora, Agra and Muzaffarnagar. All the selected candidates were put through a special course of training for a period of three months at these training centres. The non-agricultural candidates were sent to Rudrapur to learn agricultural methods, while those with agricultural qualifications were trained in the theory and practice of teaching at the 8 Government Normal Schools. The Bureau of Psychology, Allahabad, conducted a comprehensive testing of these candidates on the basis of which they were graded into three categories A, B and C. After the scheme was launched with these trained extension teachers, a chain of refresher courses was started at 6 centres in the plains and one centre in the hills to continue further training. Arrangements were also made for refresher courses in Agriculture and Horticulture.

Out of a total of 2,897 candidates under the reorientation scheme, 113 were selected for appointment as craft teachers. Of these, 41 received their first term of training of a three months' duration at the Government Constructive Training College, Lucknow.

Re-organization and New Developments

The conversion of Junior Training Colleges at Allahabad, Lucknow and Muzaffarnagar into Junior Basic Training Colleges has been an important step taken to strengthen Basic Education in the State. In these institutions, out of a minimum of 60 lessons required, a pupil teacher is required to teach 35 correlated lessons and 10 project lessons. He is also required to undergo training in Basic Crafts and Allied Art as detailed below:

(A) Main-(I) Spinning and Weaving and Allied Art.

(2) Agriculture and Allied Art.

(3) House Craft (for women only) and Allied Art.

or

(65)

(B) and one of the following subsidiary crafts :

(1) Spinning and Weaving of *tat patti, durrie*, etc. for those who do not offer Spinning and Weaving as Mancraft.

(2) Gardening and Vegetable Culture (for those who do not offer Agriculture as Main Crafts).

(3) Tailoring (for those who do not offer House Craft as Main Craft).

- (4) Toy-making and Pottery.
- (5) Fruit Preservation and Soap-making.
- (6) Raffia Basketry and Cane Work.
- (7) Leather Work.
- (8) Wood Work.

The pupil teachers do intensive practical work in community development, and also study the theoretical aspect of community organization.

CHAPTER VIII

PROFESSIONAL AND TECHNICAL EDUCATION

Technical Education in the State is mainly under the control of the Industries Department. The number of institutions and scholars during the current year as compared to the previous year is given in the following chart :

		Boys institutions				Girls institutions				
				19	1954-55		1953-54		1954-55	
		Number	Scholars	Number	Scholars	Number	Scholars	Number	Scholars	
Engineering		14	1,750	10	1,867		. .			
Technical		5	321	10	584			1	106	
Industrial	••	29	1,098	30	2,061	22	1,120	27	1,668	
Arts and Crafts		1	17	••		1	354	••		
Total		49	3,186	50	4,512	23	1,474	28	1,774	

During the current year 2,248 students received training in various trades in the Government Institutions as compared to 1952 in 1953-54.

Fees

No fee is charged for imparting Technical Education in the institutionsmaintained by Government. A nominal fee varying from Re.1 to Rs.3 per mensem is charged for lodging in the Hostels, including lighting and servants' charges. Capitation fee from non-Uttar Pradesh Students has also been withdrawn.

Stipends and Scholarships.....

Deserving students are awarded stipends and scholarships which vary trom Rs.5 to Rs.25 per month. Government of India are awarding a number of apprenticeship and factory training scholarships ranging from Rs.75 to Rs.100 per month. Under the scheme for Relief of Unemployment among Educated Youngmen, the Department is paying stipends at the rate of Rs.25 per month to 450 students in various institutions. Six scholarships of the value of Rs.150 per month each have been granted by the Uttar Pradesh Research Committee to the students who have taken up research problems for fellowship courses of study at the Harcourt Butler Technological Institute, Kanpur. Apart from these facilities such students as are desirous of receiving advanced training outside the State are awarded stipends of Rs.50 per month so as to enable them to meet a part of their expenses. Nineteen students were in receipt of these stipends during 1954-55.

(67)

Examinations

During the current year 617 students from Government institutions appeared at the final examinations and 542 were declared successful. 327 students from aided institutions also appeared at the examinations, and 293 were successful. Fellowship Diploma (F. H. B. T. I.) was also awarded to two candidates at the Harcourt Butler Technological Institute, Kanpur.

Evening Classes

With a view to increasing efficiency of the workers a scheme for starting evening classes at Government Central Textile Institute, Kanpur, has been sanctioned by the Government for a specialised course of training to skilled workmen in Textile Mills of Kanpur. Evening classes at the Government Leather Working School, Kanpur and Government Technical Institute, Gorakhpur, Jhansi and Lucknow are also functioning successfully.

Re-organization

(i) The recommendations of Dr. J. G. Ghosh committee appointed by the Government to examine the possibilities of converting the Harcourt Butler Technological Institute, Kanpur and other institutions into a Technological University, have partly been accepted by the Government and as a result of this a new section of Chemical Engineering has been opened at the Institute. A sum of Rs.8.25 lakhs for the construction of new building and other recurring and non-recurring expenditure and equipment has been sanctioned for this section.

(ii) Government have also sanctioned Rs.3,41,600 for the establishment of a Polytechnic at Jhansi. Equipment and other accessories are being purchased. It is expected that the Polytechnic will start functioning next year.

(iii) The committee appointed by Government for re-organizing the Government School of Arts and Crafts, Lucknow, has submitted its report, Government have placed Rs.5 lakhs at the disposal of the Industries Department for construction of buildings, equipment and other recurring expenditure for the school.

(iv) The names of Government Technical and Industrial Institutions for which additional non-recurring grants for the purchase of equipment, construction of building, etc. have been sanctioned are given below:

Rs.

1.	Chaudhry Mukhtar Singh, Government Polytechnic,	
	Mee. ut (Daurala)	2,00,000
2.	Government Polytochnic, Jaunpur	1,60,000
	Government Letther Working School, Kanpar	48,000
4	Government Technical Institute, Lucknew	2,55,000

Technical Education under the Universities

Banaras Hindu University maintained the College of Mining and Metallurgy, and Departments of Industrial Chemistry, Chemical Engineering, Glass Technology, Ceramics and Pharmaceutics under the College of Technology. It also maintained Departments of Mechanical and Electrical Engineering and Civil Engineering section under the Engineering College. Aligarh Muslim University also maintained Departments of Electrical Engineering, Mechanical Engineering, Civil Engineering and University Polytechnic under the faculty of Engineering and Technology.

Medical Education

As during the previous year medical education was imparted by the medical colleges maintained by the Universities of Lucknow, Banaras and Aligarh and the Government Medical College, Agra. Steady progress in this sphere is evident from the number of students given below for the years 1952-53, 1953-54 and 1954-55:

1952-53	••	••	••		• •	••	1,918
1953-54	••	••	••	••	••	••	2,352
1954-55	••	••		••	••	••	3,317

In pursuance of their policy to meet the medical needs of the State during the Second Five-Year Plan, the State Government decided to open a medical college at Kanpur and to have it affiliated to the Lucknow University. The University accorded necessary affiliation to the proposed college. It would have the status of a constituent college under the new Act.

Agriculture

The Department of Agriculture maintained the following three schools of Agriculture :

- (1) Government Agriculture School, Bulandshahr.
- (2) Government Agriculture School, Gorakhpur.
- (3) Government Agriculture School, Chirgaon (Jhansi).

The enrolment and expenditure on these schools was-

				En	rolment	Expenditure (direct)
1953-54	••				302	1,94,801
1954-55	••	••	••	••	335	2,21,455

Agriculture colleges of post-graduate standard are the Government Agriculture College at Kanpur and the Agricultural Institute, Naini (Allahabad). They had 668 scholars on roll in 1954-55 as against 713 in 1953-54. During the current year a sum of Rs.10,06,626 was spent on their maintenance as against 9,96,502 in 1953-54.

Banaras Hindu University also maintained its college of Agriculture. The enrolment of various classes on the 31st March, 1951, was as given below:

					s	tudents
B.Sc. (Ag.) Part I	••		••			37
B.Sc. (Ag.) Part II	••		••			62
B.Sc. (Ag.) Part III	••	••	••		••	47
M.Sc. (Ag.) Part pre-	vious		••	••	••	30
M Sc. (Ag.) Final	••	••	••	••	••	38
Ph. D .	••		••		••	10

(68)

(69)

The Post-graduate courses were in the following four subjects :

- (1) Plant Physiology.
- (2) Plant Pathology.
- (3) Agronomy.

•

(4) Agricultural Economics.

Commerce and Law

Commerce and Law continued to be popular subjects in degree colleges and universities as the following figures show:

		Yea	r		Number of students in commerce classes	Number of students in Law classes
1953-54	••				 8,011	4,320
1954-55	••	••	••	••	 8,104	4,129

(70)

CHAPTER IX

SOCIAL EDUCATION

Adult Schools

During the year under review 437 Schools were run by official and nonofficial agencies, of which 360 were for men with an enrolment of 9,859 and 77 for women with an enrolment of 1562. A total sum of Rs.81,735 was spent on them. Comparative figures for 1953-54 and 1954-55 according to management are given in the following tables :

Tables

1953-54

	Number	of school		Enrol	ment		
	Boys	Girls	Total	Boys	Girls	Total	Expen- diture

Total	360	77	437	9,859	1,562	10,921	81,735

The number of Adult Schools run by the Government 10se from 56 in 1953-54 to 200 in 1954-55, with consequent increase of expenditure from Rs.9,727 to 33,119. 145 centres with an enrolment of 3,605 adults, were run by private agencies.

- Libraries and Reading Rooms

The Education Expansion Department of the State maintained 1,317 Government Libraries (including 40 exclusively for women) and 3,600 Reading Rooms situated in the rural areas of the State. Books, Magazines and Periodicals were supplied to these institutions. A sum of Rs.26,615/1/- was spent on the purchase of books and Rs.28,803/6/- on the supply of 12 weeklies and 27 monthlies and the Departmental Magazine Naw Joyti.

The number of books issued from the Libraries and the number of persons who visited the Reading Rooms during 1954-55 was 7,99,462 and 12,86,127, respectively.

In addition to these rural libraries maintained by the Government, the department also gave grants-in-aid amounting to Rs.7,632 to 208 private libraries.

There is also a library at the Headquarters of the Education Expansion Department which contains books on Educational subjects including Social Education and Audio Visual aids to Education, which are issued to the field workers of the department.

Social Education Week

The Social Education Week is organized in the State every year. During the year under review it was celebrated with great enthusiasm and success throughout the State from January 6 to 8, 1955. The department brought out special publications, placards and posters, for the occasion.

Magh Mela Camp

With a view to focussing public attention on the value and urgency of Social Education in the State, the department organized a social education Camp in Magh Mela in the months of January and February, 1955. In addition to an adult school, a well equipped Reading Room was also set up in the Camp. Exhibitions of Educative, Cultural and Recreational films were also given regularly.

Production of Literature and Audio Visual Aids for Adults

Considering the importance of the Audio Visual aids in class room, the U. P. Government had established a Film Section in the Education Expansion Department in 1950 for the production of visual aids. During the year under report this section produced the following five 35 m.m. films and one film strip of Educational, informative and cultural value for the rural masses as well as school and college students:

Films

- 1. The Kumbh Mela, 1954.
- 2. The Pine.
- 3. Re-orientation in Education.
- 4. Folk Dances of U. P.
- 5. Toys Exhibition.

(72)

Film Strip

1. Prachin Mandir Aur Stup.

35 m.m. films are reduced to 16 m.m. for projection in schools and colleges on 16 m.m. projectors.

Organization of Film Shows

The department has 5 Vans fully equipped with projectors, radios, gramophones, loud speakers and other audio-visual material. These Vans go out into the rural areas and schools. During the year under report 411 film shows were given by the Vans.

Training of Staff

Two officers of the department were deputed by the Government this year to attend the Audio-Visual Education Seminar organized by the Government of India, Ministry of Education in May and June, 1954 at Delhi.

Audio Visual Education Board

During the year under report the Government set up a State Board of Audio Visual Education. The Board held two meetings during the year to draw up its programme of work.

Publications

The Education Expansion Department brought out a specially prepared version of "Ramayan" for neo-literates. The Departmental Magazine "Deepak" was regularly published this year as well and was supplied free of cost to all Government libraries of the Department. With effect from October, 1954 it is called "Nav Jyoti" and has been re-designed to meet the needs of neo-literates and for use in the rural schools.

Establishment of Janta Colleges

During the year under review three Janta Colleges were established in the Intensive Education Development Blocks of Muzaffarnagar, Allahabad and Lucknow by way of pilot projects under the scheme sponsored by Government of India. The main aim of the scheme is to train village leadership and to organise village youth for Socio-cultural awakening in the areas. The Janta Colleges conduct re-orientation courses for village school teachers to develop them into nuclei of leadership in the rural areas.

Twenty selected teachers from the Junior Basic Primary Schools and thirty young village leaders are admitted to each Janta College for a period of six months. They are given a stipend of Rs.30 per mensem each.

These colleges have been equipped to impart vocational training in Agriculture or Horticulture and a number of crafts such as Tailoring, Dyeing and Printing, Spining and Weaving and Wood Work. Besides the training programme includes Physical Education, Extension Methods and Cultural and Recreational Activities.

It is too early to assess the impact of Janta Colleges on rural life. But it is no doubt an experiment which holds exceptionally promising possibilities.

A sum of Rs.1,33,446 was spent on all the three Janta Colleges during the year.

CHAPTER X (i)

MISCELLANEOUS

Pre-Primary Education

Institutions for pre-primary education are of comparatively recent origin in this State, but the demand for such institution is growing rapidly. The comparative figures for 1953-54 and 1954-55 are given in the following table :

		Year			Number	Enrolment
1953-54				 		1,388
1954-55		••	•••	 •••	19	1,950
Variation	••			 	+ 6	+.562

Most of these schools are maintained either by the Municipal Boards or by private bodies. Besides these regular nursery schools, there were a number of nursery classes attached to primary schools. The number of nursery institutions is too small for the needs of the State, and they are generally too expensive. To encourage the opening of new pre-primary schools by private bodies and to improve the existing ones the question of giving more liberal Government aid is under consideration. During the year under report private nursery schools were given grants out of a provision of Rs.10,000 made in the budget for the purpose.

Total expenditure on these schools was Rs.1,84,687 in 1954-55 as against Rs.1,19,714 in 1953-54. Its break-up according to sources is as-follows:

Re

						115.
Government	••		••	••		42,825
Municipal Boar	d		••		••	3,279
Fees	••		••	••		1,17,819
Endowment	••	• •	••	••	••	500
Other sources	••	••	••	••	••	20,264
				Total		1,84,687
						<u> </u>

The number of teachers in pre-primary schools was 123 in 1954-55 as against 102 in 1953-54 showing an increase of 21 teachers.

Training of Teachers for Pre-Primary Schools

The State Government maintains a Nursery Training College at Allahabad to train women teachers for pre-primary schools and classes. During the year under report twenty trainees are admitted in this college to a two years' course. The minimum qualification for admission is High School Examination. A practising nursery school is also attached to the College. It admits children of 2½ years to 6 years' age.

A well planned scheme of pre-primary education is under consideration of the Education Department which will minimise the wastage in primary schools.

CHAPTER X (ii)

AESTHETIC EDUCATION (ART, MUSIC, DANCING, ETC.)

The teaching of A1t and Craft is compulsory in class I to VIII. In the higher secondary stage, aesthetic subjects form an independent group of optionals.

Allahabad University provides facilities for the diploma course in Painting and Music and Banaras Hindu University for Painting and Sculpture. There were 287 boys and 295 girls in the higher secondary schools who had taken up music, dancing and other fine arts subjects of study during the year under review.

Government School of Arts and Crafts at Lucknow imparts instruction in fine arts as well as commercial arts, architectural designs and draftmanship. The course leading to art teachers certificates is of two years duration, while the other courses are of 5 years' duration. The courses in crafts comprise of wood craft, gold smithy, casting, clay modelling, engraving and enamelling and are of three years, duration.

Marris College of Hindustani Music, Lucknow now known as Bathkhanday College of Hindustani Music has rendered valuable service in the renaissance of classical Indian music not only in Uttar Pradesh but for the whole country. It attracts students not only from the States in India but also from Ceylon and Mauritious. During the year under report the college had an enrolment of 149 boys and 141 girls.

The college provides the following courses :

- (1) Sangeet Madhyama-Intermediate standard.
- (2) Sangeet Visharad–Degree standard.
- (3) Sangeet Nipun—Post-graduate standard.

The medium of instruction is Hindi.

The expenditure on the college in 1954-55 was Rs.67,581 (as against Rs.65,141 in the previous year) of which Rs.41,900 (as against Rs.22,480 in the previous year) were met from Government Fund.

Prayag Sangeet Samiti, Allahabad, is another important centre where music is taught in this State. A new building of the Sangeet Samiti is being constructed in the Alfred Park on Kamla Nehru Road, Allahabad, with the funds provided by Government of India.

Besides two premier institutions there are a number of other organisations for music and dancing in the different districts of the State. They are doing very useful work in this field.

(75)

CHAPTER X (III)

EDUCATION OF HANDICAPPED CHILDREN

Education for handicapped children continued to be provided in schools managed by Government and non-official agencies. The following statement shows the number and enrolment of these schools:

			Nur	nber	Ecrolment		
	-		1953-54	1954-55	1953-54	1954-55	
Government	••	•••	2	2	191	201	
Non-Government	••	••	13	13	319	309	
	Total	••	15	15	510	510	

The number of teachers working in these schools was 62 including 6 women teachers in 1954-55 as against 60 in the previous year.

The following statement shows the expenditure incurred on these schools during the year under report as compared with the previous year:

Schools	1953-54	1954-55	Variation		
Government Schools	•••		2,11,435	2,9 3 ,782	+82,347
Non-Government Schools	••	•••	1,18,487	1,36,501	+18,014
	Total	••	3,29,922	4,30,283	+1,00,361

The major portion of the expenditure is met by Government.

A number of non-Government schools are in receipt of grant-in-aid from the department. The grant is assessed liberally and covers nearly two-thirds of approved expenditure. In special cases it is allowed to the extent of three-fourths of the approved expenditure. Following is the list of aided schools and the amount of maintenance grant received by each during the year under report :

]	Rs.
(1) U. P. Deaf and Dumb School, Allahabad	•	10,	056
(2) Deaf and Dumb School, Lucknow	•	14,4	100
(3) Deaf and Dumb School, Pilibhit	•	:	300
(4) Deaf and Dumb School, Varanasi	•	2,0	000
(5) Sharp Memorial Blind School, Rajapur, Dehra D	un .	. 3,4	180
(6) Blind School, Sitapur		. 2,	280
(7) School and Home for Blind, Naini, (Allahabad)		. 2,3	714
(8) Kashi Seva Samiti Orphanege and Blind School	, Varanasi	2,0	000

(76)

In addition to the above Blind School, Bhadaini (Varanasi) and Rashtriya Andha Vidyalaya, Kanpur also received financial assistance from Government.

A training institution at Lucknow trains teachers for the Deaf and Dumb schools. A grant of Rs.12,000 was given to it in 1954-55.

CHAPTER X (IV)

171 ,

EDUCATION OF DELINQUENT CHILDREN

The Reformatory School, Lucknow is maintained by Government for the delinquent children. There were 62 children in the institution during the year under report. The cost of maintenance of the institution was Rs.54,585 which was wholly met from Government funds.

The Juvenile Jail, Bareilly also does useful work for the education of delinquent children. During the year under report there were 117 children in it. The cost of maintenance was Rs.8,184 which was wholly met from Government funds.

A special study was made by the Bureau of Psychology, Allahabad of six cases of delinquent children within the age range 11 plus to 14 plus from among the probationers at Allahabad. The study included a detailed diagnostic of all the six cases. It was the first attempt of its kind in this State to apply psychological findings on delinquent children for remedial purposes.

CHAPTER X (V)

EDUCATION OF THE SCHEDULED CASTES, SCHEDULED TRIBES AND OTHER BACKWARD COMMUNITIES

Scheduled Castes and Backward communities continued to get first priority of attention. Education is free for Harijans. No fees, e.g. tuition, games, library, medical or hostel are charged from the Harijan students in any school or college maintained by or receiving grant from the State. This facility is also provided in the schools maintained by the District Boards and Municipal Boards. The loss in the fee income to non-Government schools is reimbursed by the Government. During the year under review 3,69,500 students received the benefit of the scheme. Seats have also been reserved by Government for Harijan students in all schools and colleges in the ratio of one Harijan boy for every six boys of other communities. A large number of stipends ranging from Re.1-8 in primary classes to Rs.30 per mensem in degree and post-graduate classes are awarded besides monetary assistance for purchase of books, examination fees, etc. Students of Scheduled castes, Backward classes and Momin-Ansar communities are eligible for the stipends. The result is reflected in increased enrolment as shown in the following statement:

Type of Schools	Enrol: of boys be Schejule and other commu	l nging to d castes backward	Entolment of girls bell nging to schedull d castes and other backward communities		
	1953-54	1954-55	1953-54	1954-35	
Primary schools	7,75,017	7,78,040	51,876	64,093	
Junior High Schools	85,203	89,023	5,754	4,398	
Higher Secondary Schools	68,877	82,610	1,284	1,805	

There is a substantial increase in the number of boys and girls, at all stages of education, except for a slight decline in the enrolment of girls in the Junior High Schools.

The following table shows the number and the value of stipends and other financial concessions allowed to the students of scheduled castes and of other backward communities in 1954-55:

	B	р у 9	Gırl∝		
	Number	Amount	Number	Amount Rs.	
	-	Rs.		Rs.	
Primary Schools	40,009	3,03,967	2.429	26,870	
Junior High Schools	12 580	4,34,107	690	23,708	
Higher Secondary Schools	21 947	16,92,615	708	45,485	

(79)

Vocational Training

Special facilities have also been provided for the entrance of Harijans and other members of the backward communities in the learned professions such as Teachers' Training, Law, Medicine and Engineering. Seatsin such institutions have been reserved and stipends and cost of books have been awarded. There were 853 men and 39 women under training in the Teachers' Training Schools in 1954-55. Stipends and other financial concessions were awarded to 610 men and 11 women, to the extent of Rs.1,20,571.

CHAPTER X (VI)

EDUCATION OF GIRLS AND WOMEN

There has been no charge in the organization and control of Girls' Education. The Assistant Director of Education for Women is the Chief Education Officer for Womans' Education. Each region is under the charge of a Regional Inspectress of Girls' Schools. In every district an Assistant Inspectress of Girls' Schools is attached to the office of the District Inspector of Schools. She supervises girls' education up to the Junior High School stage. Higher Secondary Schools for girls are directly under the control of the Regional Inspectress.

A large number of Primary Schools for girls are maintained by District Boards and Municipal Boards. Primary classes are also attached to most of the Junior High Schools for girls maintained by Government and Private Bodies. In the Primary stage quite a large number of girls read in boys' schools. In the Junior High School and Higher Secondary School stage girls and boys attend separate institutions. In some districts there are separate Degree Colleges for girls, but in the University stage coeducation is more popular.

Compulsory Primary Education for girls in the Municipal Board areas is not as extensive as compulsory primary education for boys. There was compulsory education for girls in the whole areas of seven municipalities and in•a few selected areas of three Municipal Boards.

In 1954-55 there were 2,541 Primary Schools for girls and 496 Junior High Schools, as against 2,524 and 477 in 1953-54, with an enrolment of 2,11,830 girls in Primary Schools and 68,283 in Junior High Schools.

The number of Higher Secondary Schools for girls was 197 in 1953-54 which rose to 214 in 1954-55. Most of these Higher Secondary Schools are situated in urban areas. The enrolment of girls in Higher Secondary Schools was 74,908 in 1953-54 which rose to 83,189 in 1954-55. The enrolment of girls in the various classes of educational institutions, and the number of such institutions are given in the following table:

Туре	Numb ^o r of	institutions	Enrol	Variations

Isabella Thoburn College, Lucknow and Mahila Vidyalaya College, Lucknow also have Training Departments attached to the institution. As Domestic Science has been made compulsory for girls up to the X Class, the importance of the College of Home Science at Allahabad maintained by the State has considerably increased. The question of improving the quality of the staft and equipment is under the active consideration of the Department. It is also proposed to train graduate teachers to teach. Home Science to the Intermediate classes in the same college.

The number of successful candidates at the various training examinations is given below. It also includes the number of candidates who appeared at these examinations privately.

CHAPTER X (VII)

PHYSICAL TRAINING, GAMES, SPORTS, ETC

Physical Training continued to be a compulsory subject in the Basic Primary and Junior High Schools. Boys of the Junior High Schools preparing for the Junior High School Examination are required to pass a practical examination in Physical Training before they are allowed to appear for the examination in other subjects of the curriculum. Running, jumping, marching, rhythmic exercises including lezim, and action songs. recreational activities including various games and agility exercises form the syllabus of Physical Training for Junior High Schools. The teachers in charge of physical activities in Primary and Junior High Schools receive their training in the subject in normal schools and Junior Training colleges. Short term courses are also organized for them at centres like Bharat Seva Mandal, Varanasi. Kashi Vyayamshala and Laxmi Vyayamshala and Laxmi Vyayam Mandir, Jhansi. Each year local and zonal competitions are held in each district.

There are trained P. T. teachers in Higher Secondary Schools. Educational gymnastics, major games, athletics and cultural activities form the major part of the programme at this stage. Most of the institutions are provided with play apparatus and agility exercise appliances. Some schools run their own annual tournaments, while others participate in Inter-School tournaments held at the district level. The annual district and regional youth rallies were organized as usual

State Youth Rally

One of the outstanding feature during the year under report was the organization of a Youth Rally at State Headquarters. About 500 boys and girls took part in this festival. Provision in the budget has been made to hold Youth Rallies every year.

Training Facilities

The Christian College of Physical Education, Lucknow, is the oldest institution of its kind in this State and has been functioning as an important centre of training for the teachers of Physical Education. The Government College of Physical Education at Allahabad has been made permanent with effect from 1st April, 1954. The budget of the college for the year under report was Rs 53,600. It has been attracting students from other States also. Besides giving training to its regular students the college of Physical Education has been giving technical aid to other departments such as the Police, the P. R D. and the Roadways. Both these colleges have been training sixty students each year and have by now turned out about 1,200 trained teachers of Physical Education for schools and colleges.

The training of lady teachers which used to be done in the Men's college of Physical Education, Allahabad now been arranged separately and it is hoped that a full fledged college of Physical Education for women will

(84)

soon be established in Allahabad. It will have a suitable building of its own and the entire staff will consist of women teachers.

The training colleges at Lucknow and Allahabad could not cope with the increasing demand of trained teachers of Physical Education. A new college of Physical Education at Samodhpur (Jaunpur) has been recognized since July, 1954. It has admitted 50 under-graduates for the current session.

There is no specific provision in the syllabus for specialization in Physical education in other Training Colleges, but every pupil teacher is given general training on the subject and for this purpose the Government Training Colleges have been provided with Superintendent of Physical Education on the regular staff.

(85)

CHAPTER X (VIII)

YOUTH WELFARE

- Youth Welfare work has been discussed in the relevant chapters relating to Boy Scouts and Girl Guide, N. C. C. and P. E. C., and Extra Curricular Activities. Particular mention may be made here of the organization of Youth Clubs in the rural areas under the Reorientation Scheme. This has been undertaken on an experimental scale. The Extension Teachers organize Youth Clubs, on the lines of Four-H Clubs of America and the members undertake individual and group projects, community service and programmes of cultural and recreational value. The results have been very satisfactory, and the Youth Clubs are particularly useful in providing a link between the school and the rural community.

CHAPTER X (IX)

BOY SCOUTS AND GIRL GUIDES

The Bharat Scouts and Guides Organization made steady progress during the year. The Association organized training camps for scout masters and cub masters in 48 districts of the State. In all 4,312 scout masters and cub masters were trained in these camps.

Retresher Training Camps were held at Meerut, Bijnor, Naini Tal, Lucknow, Bahraich, Faizabad, Sitapur, Basti and Jaunpur in which about 1.031 scouters were trained.

Patrol Leaders Training Camps were held at Allahabad, Farrukhabad, Banda, Kanpur, Hamirpur, Dehra Dun, Meerut, Agra, Rampur, Budaun, Moradabad, Bijnor, Naini Tal, Almora, Pilibhit, Lucknow, Bahraich, Unnao, Lakhimpur, Sitapur, Bara Banki, Basti and Jaunpur. In all 2,985 patrol leaders were trained as against 1,031 in the previous year.

Scout camps were organized in about 20 districts. In these camps 5,546 scouts participated as against 3,874 in the year before.

Instructions were issued from the Headquarters, Allahabad to all the District Associations to participate in community development projects. Useful work was done in this respect in various districts.

Social service was rendered by the scouts as usual on the occasion of local fairs. A hike to Kashmir for three weeks was organized in May and June, 1954. Ten persons participated in it.

Guiding gained in popularity during the year under review. Many new guide companies were registered and guiding was started at a number of new places.

Patrol Leaders Training Camps for guides were held at Lucknow, Ranikhet, Budaun, Mathura, Allahabad and Sitapur. Four patrol leaders training camps were also held in district Etawah. In all 296 patrol leaders were trained in these camps.

A State Rally was held at Allahabad from November 19 to 23, 1954. About 200 guides and guiders of Allahabad and 502 guiders from other districts of the State participated in this rally.

(86)

(87)

CHAPTER X (X)

NATIONAL CADET CORPS

The N. C. C. Scheme of the Government of India was launched in the State in July, 1948 to replace the old U. O. T. C. The old U. O. T. C. was financed entirely by the Government of India while the N. C. C. Scheme is being partly financed by the State Government. During the year under review the Government of India undertook to share 50 per cent of Camp expenditure and 100 per cent expenditure on clothing.

The N. C. C. is divided into three divisions, the Senior, Junior and the Girls Division. A Girl's Division has also been started during the current year.

The N. C. C. Scheme is being run under the supervision and control of Regular Army Officers posted at various centres.

During the year under review the following new units have been sanctioned.

(a) Senior Division Anny Wing

Two Independent Infantry Companies at Bareilly and Jaunpur. One Infantry Company at Meerut.

(b) Junior Division

Thirty Troops at Saharanpur, Bulandshahr, Khurja, Shikohabad, Gyanpur, Ballia, Jaunpur, Naini Tal Bareilly, Dehra Dun, Lucknow, Muzaffarnagar, Jhansi, Almora, Moradabad, Faizabad and Gorakhpur, etc.

(c) Junior Division Air Wing

Six troops at Lucknow in addition to conversion of 6 troops of the Army Wing into Air Wing at Kanpur.

(d) Girls Division Senior Wing

Three full troops at Allahabad, Lucknow and Meerut.

(e) Girls Division Junior Wing

Four troops at Lucknow, Allahabad, Bareilly and Mathura.

The total strength of the N. C. C. in this State including the new units which have been raised is as under :

1. Senior Division

Twenty-two infantry companies and 3 Technical Units with the trength of 90 officers and 3,643 cadets.

2. Junior Division including Air Wing

One hundred and seventy-one troops with the strength of 171 officers and 5,643 cadets.

(88)

3. Girls Senior Division

One Full troop with the strength of 3 officers and 90 cadets.

4. Girls Junior Division

Four Troops with the strength of 4 officers and 120 cadets.

The total number of officers and cadets was 268 and 9,496, respectively. The Senior Division was functioning in 9 districts and the Junior Division was functioning in 26 districts of the State.

The Director of Education exercises financial control over the scheme. The budget sanctioned by the State Government is distributed to the Officers Commanding by the Director of Education Uttar Pradesh in consultation with the Circle Commander No. 6 Circle N. C. C., Uttar Pradesh, Lucknow, according to the needs and the prescribed rates. From April 1, 1954, 50 per cent of the Civilian establishment has been made permanent.

Training to cadets is imparted throughout the year in addition to cadre and Annual Camps. This year the most important feature was the holding of combined cadre and social service camp of N. C. C. units of this State at the following places:

- (1) Amarkantak (Vindhya Pradesh).
- (2) Ranikhet. .

The Amarkantak camp was organized with the help of Vindhya Pradesh Government, and 120 cadets of the 2nd Bn., N. C. C., Varanasi participated in it.

In the Camp at Ranikhet besides intensive military training the officers and cadets of the N. C. C. constructed an open level ground for public meetings, *melas* and sports for the citizens of Ranikhet.

The cadets of 5th Bn. N. C. C., Aligarh in an Annual Camp held at Rampur constructed a Kacha Road adjoining Ajitpur village in Rampur District.

The N. C. C. Day December 19, was celebrated all over the State with great enthusiasm and keenness.

Provincial Education Corps

In July, 1953 the scheme of Social Service was merged with the scheme of compulsory Military Education. The combined scheme was introduced in 20 districts of the State. 40,000 cadets of 230 colleges in 20 districts are receiving training under this Scheme.

Cam ps

The following camps were held under the Scheme :

Thirty Days Annual Summer Camp

This camp was held at Chakrata from May 21 to June 10, 1954. 493. cadets who attended the camp were given intensive training in P. T. Drill including ceremonial drill, Riffe training, Map reading and field craft. Sri Mahabir Tyagi, Minister for Defence Organization visited the Camp. Government have spent approximately Rs.36,000 on the training of these cadets.

(89)

Fourteen Day N. C. O's Camp at Faizabad

Two thousand and five hundred cadets and N. C. Os. from all over the State are selected to attend the Faizabad Camp each year. Seven Camps with approximately 350 cadets in each camp are held in succession for a period of 14 days. These camps start from the middle of September and conclude by the first week of February. In the Camp the cadets are provided free boarding and lodging, including medical attendance. Railway concession vouchers are issued to the cadets for performing the journey to and from the Camp. In all 2,493 cadets from all over the State attended the Camps,

Seven Days Local Camps in the Districts

Local Social Service Camps of seven days duration were held in all the Centres. The cadets under took various projects of community service.

(90)

CHAPTER X (XI)

EXTRA CURRICULAR ACTIVITIES

There was considerable expansion in the work and activities of the St. John Ambulance Brigade during the year under review. 18 new Brigade divisions were formed during the year raising the total number of divisions to 198 from 180 in the previous year. The total membership was 4,727 as against 4,320 in 1953-54.

During the year 5 Ambulance, 7 Cadet Ambulance, 5 Cadet Nursing and one Nursing Division were formed. At the end of the year the total strength of the divisions was 396 Officers and 4,727 other ranks. The comparative figures for 1953-54 and 1954-55 are given below:

	Numbers		Offi	cers	Members		
	1953-54	1954-55	1953-5+	1954-55	1953-54	1954-55	
Ambulance Divisions	 52	57	104	114	1.336	1,498	
Nursing Divisions	19	20	38	40	444	477	
Cadet Ambulance	90	97	180	194	2,148	2,290	
Cadet Nursing	 19	24	38	-48	* 392	462	
Tot 1	180	198	360	396	4.320	4,727	

The members were assigned Ambulance duties at big gatherings, fairs and *melas*. In Garhwal First Aid Posts were established on the pilgrim route to Badri Nath and Kedar Nath and members of the Brigade rendered valuable aid to more than 1,000 cases of injuries and sickness and saved lives by guarding dangerous deep ditches day and might.

During the year the members attended 7,391 cases when on public duty and 910 cases when not on public duty.

Junior Red Cross

During the year under report Junior Red Cross had a membership of 1,41,887 boys and 4,547 girls. The Juniors have helped considerably in promoting health consciousness among masses. They also participated in various epidemic control programmes, viz. spraying of D. D. T., disinfection of wells, etc. They rendered, First Aid in cases of accidents and also rendered Social Service in local fairs. (91)

CHAPTER X (XII)

SCHOOL MEALS

The Scheme of Mid-day Meals has had to be given up in most of the schools because of high prices of food stuffs.

A few schools particularly the Girls Schools, are bravely continuing it with gram, sprouted or parched and seasonal fruits.

A hopeful beginning to provide mid-day meals has been made in the Junior High Schools in the rural areas under the Reorientation Scheme. The school farm products are being used for provision of mid-day meals.

CHAPTER X (XIII)

SCHOOL MEDICAL SERVICE

Organization and Control

The scheme of detailed medical examination is in force in 14 big towns of the State where whole-time School Health Officers are inchargeof school medical inspections. In other towns the School Health Service was operated by the Municipal Health Officers. The District Medical Officers of Health carried out medical inspection of children in the District Board Schools. The over-all administrative and technical control over the School Health Officers whole-time as well as *ex-officio* was exercised by the Director of Medical Service and Public Health, Lucknow.

The details of the work done by these officers during the year under review are given below:

	Number of institu- tions in which detailed Medical Inspection was required	Number of institu tions in which detailed medical inspection was done	Total enrolment of scholars	Number of scholars examined	
1	2	3	4	5	
1954	1954	1954	1954	1954

(93)

School Clinics

There is a Central School Dispensary under the School Health Officer with a compounder, and an office clerk.

The total attendance at these clinics for the year under report as compared to that of the previous year is given below :

						1953	1954
New	••					43 3 29	36,061
Old	••	••	••	•	••	44.489	44 157
				Total		87,818	80,218

Dental and eye cases requiring special treatment were attended to by the Honorary Dentists and Ophthalmologists, respectively, attached to these Dispensaries. The total number of refraction cases examined was 1,523 as compared to 1,369 in 1953-54 and that of Dental cases was 4,445 as compared to 5,289 in 1953-54. Free supply of spectacles was made to 394 poor boys suffering from defective vision.

Milk Supply

Seven thousand nine hundred and sixty ill-nourished and under nourished boys were given milk free of cost in 368 schools on the recommendations of the school health officer.

Health Education

Health Education was imparted by means of lectures, Magic lantern demonstrations and cinema shows. The agency of the Junior Red Cross was also fully utilized for the purpose.

Anti-epidemic Work

The whole-time School Health Officers performed 1,152 inoculations against cholera and 1,818 T. A. B. inoculations. Besides these 84,122 vaccination and re-vaccinations were performed under their supervision.

CHAPTER X (XIV)

LIBRARIES

All Higher Secondary Schools, Training Colleges and Degree Colleges have their own libraries under a full time librarian or one of the members of the staff. They are replenished from year to year by the addition of new books.

Apart from these there were other classes public libraries :

(1) Public Libraries at Allahabad and Lucknow: They are managed by committees consisting of Government officials and non-officials and are aided by Government.

(2) Public Libraries maintained by private bodies : Some of these are aided by Government.

(3) Libraries maintained by the Education Expansion Department are mostly in rural areas. Some of these libraries have reading rooms attached to them.

Saraswati Bhawan Library of Varanasi is a unique institution, with a vast collection of Sanskrit books and rare and valuable manuscripts. It is one of the best Sanskrit libraries in the world.

Raza Library, Rampur is managed and controlled by a Trust which was constituted by the Nawab of Rampur. It is an outstanding library for Persian manuscripts and paintings.

The Government Central State Libiary was established in December, 1949 at Allahabad. The Library consists of two sections, Copyright Section and Education Section.

Copyright Section

Books in this collection are received according to the Press and Book Registration Act of 1867. The total number of books received in this section from the Sueprintendent, Government Press, Allahabad, so far is 1,50,000. During the year under review 2,146 books were received from the various districts and added to the Section.

Education Section

This section contains books on Education, Psychology and allied subjects which are made available for reference in the library and are also lent out to the staff members of Training Colleges, the Central Pedagogical Institute, the Bureau of Psychology and other local educational institutions.

Number of books at the commencement of the year was 992. 303 books have been added during the year. Thus the total number of books in the section is 1,295.

The Central State Library has been enrolled as an institutional member of the Indian Library Association, Calcutta.

The State Government have a proposal under consideration to send a copy of all Government publications to this library free of cost regularly so as to make this library a Central Store House for Government publications. The total number of publications registered under the Press and Book Registration Act during the year under review was 1,953 showing an increase of 318 over last year's total of 1,635. The largest number of publications were in Hindi language (1,213 as against 1,123 of the previous year); 35,1 books were in English, 150 in Sanskrit, 135 in Urdu, 12 in Bengali, 11 in Nepali and 2 in Gujerati. Publications subject-wise were as follows:

Language and Literature 471, Religion 235, Poetry 234, Fiction 201, Mathematics 85, Drama 79, Science 79, Law 61, Economics 49, Geography 41, Miscellaneous 40, Philosophy 40, Commerce 38, Medicine 35, History 33, Civics 31, Agriculture 30, Biography 29, Education 26, Sociology 24, Political Science 21, Health and Hygiene 20, Astronomy and Astrology 18, Travel 11.

The number of publications on 6 subjects was less than 10, while no publications in Games Sports, Nature Study and War were registered.

(95)

CHAPTER X (XV)

FACILITIES FOR EDUCATION OF DISPLACED STUDENTS

Educational Concessions

The scheme for grant of financial assistance to displaced students and trainees from Pakistan, as it was in force during 1953-54, was continued in 1954-55 for West Pakistan students, with the modification that displaced students whose parents/guardians had received compensation under the interim compensation scheme were not given any assistance during 1954-55. An exception to this was made in the cases of those who were already receiving assistance previously and had not concluded their studies.

The displaced students from East Pakistan were given financial assistance according to the more liberal scheme which was in force in 1951-52. Thus all deserving displaced students from East Pakistan were free in Primary classes (i.e. classes I to V) and 50 per cent of them could be given a cash grant of Rs.5 subject to an income limit of Rs.100 whereas 50 per cent of the students in classes VI to VIII and 40 per cent in classes IX and X could be given treeship and cash grants subject to an income limit of Rs.100 and Rs.150, respectively. The maximum limit of cash grant was Rs.20 in class VI, Rs.30 in classes VII and VIII and Rs.40 in classes IX and X.

Displaced students from West Pakistan were given financial assistance in accordance with the scheme revised by the Government of India in August, 1953. Under the revised scheme the freeship and cash grant were reduced to 35 per cent of the total enrolment of displaced persons in the Primary classes and the income limit was fixed at Rs.60 per mensem. The amount of cash grant was also reduced to Rs.2. In classes VI to VIII the percentage for freeship and cash grant was reduced to 20 whereas another 20 per cent were allowed hali-rateship subject to an income limit of Rs.70 per mensem. The amount of cash grant was reduced to Rs.10. Similarly in classes IX and X, 20 per cent of total number enrolled were allowed freeship and another 10 per cent half-rateship, whereas 15 per cent could be given cash grant subject to an income limit of Rs.120 per mensem.

Stipends

All deserving displaced students from Pakistan who had secured admission in recognized technical and non-technical institutions of this .State and who applied for stipends through the heads of institutions were given stipends of the value of Rs.20 per month to Rs.60 per month according to the courses of studies pursued by them. Displaced students from East Pakistan were treated more liberally in the matter of grant of stipends for pursuing non-technical courses of study. The displaced students (boys) from East and West Pakistan pursuing courses of studies in Inter Science, Agriculture and Veterinary Science were eligible for assistance subject to their having secured a certain minimum of marks in their High School Examination. Stipends were admissible to East Pakistan displaced students for Post Graduate Courses of study also. (97)

The girl students from East Pakistan and West Pakistan were assisted in Intermediate and Degree Courses of study also. Stipends were also admissible in 1954-55 for the following additional courses of study at the Delhi Polytechnic:

(1) Diploma in Chemical Engineering or Chemical Technology.

(2) Diploma in Architecture.

(3) Diploma in Civil, Mechanical Electrical, Metallurgical and Mining Engineering.

(4) Diploma in Textile Technology.

Students pursuing a course in Dairying at the Indian Dairy Institution, Bangalore and degree or diploma courses in Ayurvedic System of Medicine entitling them to registration were also given stipends.

About 17,889 students were sanctioned freeships amounting to Rs.4,28,165-10-6 and 11,836 students were sanctioned cash grants amounting to Rs.74,521. At the same time 757 students were sanctioned stipends amounting to Rs.2,39,005 during 1954-55.

During the year 1954-55, 19 educational institutions of this State which were catering largely to the educational needs of displaced students from Pakistan, were sanctioned grants-in-aid by the Government of India for construction of school buildings, and purchase of furniture and equipments, etc. The total amount sanctioned as grants-in-aid by the Government of India, Ministry of Relief and Rehabilitation last year was Rs.3,14,500 out of which an amount of Rs.1,74,500 only was paid to the institutions in the last year and the balance will be sanctioned in the current financial year.

CHAPTER X (XVI)

INDIAN STUDENTS ABROAD

The State Students Advisory Committee with Director of Education as its chairman continued to give advice and guidance in matters of admission to foreign Universities. There is also an advisory committee in each university of the State.

There were 112 scholars studying in foreign countries during the year under report. Their country-wise distribution is given below:

	Men	Womeu					
U. S. A.	••	••				56	14
United King	gdom	••		••		33	2
Canada	••		••	••		2	
Germany		••	••		••	4	
Ireland	••	••	••	••		I	
				Total		96	16

The foregoing table shows that the largest number of students goes to U. S. A. and U. K.

Subjectwise distribution of these students is given below :

		Subje	ct		Men	Women	
Arte subjects		••		••		8	1
Science		••	••	••	••	23	1
Education	••	-	••	••		7	8
Engineering	••	••	••			20	
Technology a	nd Ind	ustry	••	••		5	
Medicine and	Veteri	nary Science	••	••		18	1
Agriculture a	nd For	etry	••	••		9	
Commerce	6 29	••				2	· · ·
Fine Act	••	••	••	••		1	1
Nursing	••	••	••	••		••	1
Library Scien	ICO	••	••	••	••	••	1
Other subjec	ts	••	••	••		2	2
				Total		95*	16

The preceding table shows that Science, Engineering and Medicine are the most popular subjects with the Indian Students abroad.

* Course of study of one Scholar not known.

(99)

CHAPTER XI

CRITICAL REVIEW OF EDUCATION-TENDENCIES AND DEVELOPMENTS

As the First Five Year Plan draws towards its closing years it is as well to review the achievements under the Plan in the Educational field.

The outstanding fact that emerges from such a review is the general stir and eagerness for educational reconstruction. In spite of the handicaps created by the shortage of funds the awareness has grown that education is a vital agency in national reconstruction.

The leeway of deficiencies which has to be covered is still very long. In Primary Education the weakest spot is organization. The Local Bodies have not been able to discharge their responsibilities. A new organizational pattern appears to be called for which should combine efficiency with the capacity to mobilize local resources and enthusiasm. Lack of buildings and suitable equipment for the Primary schools emphasises the truth of the statement that education cannot be had on the cheap.

The programme of Basic Education has made satisfactory progress in the State, and with the conversion of all Primary Schools into Junior Basic Schools the pattern of basic education has been accepted not only in policy but also in practice as the national system of education at the elementary stage.

In Higher Secondary Schools the main problem continues to be lack of equipment, library facilities and building. In 1948 the State started on a programme of re-organization with a view to converting all High Schools into Higher Secondary schools with an integrated course of four years covering classes IX to XII. So far nearly 50 per cent of the schools have been converted into Higher Secondary Schools. The pace of conversion has been slowed down because of lack of finances. At the same time diversification of courses was taken up as an essential part of the programme for the reorganization of Secondary Education. This has made considerable headway.

For higher education the urgent need is for liberal staffing, better equipment and more library facilities. With the rapid growth in enrolment in all Degree classes it is essential that the staff-student ratio should be such as to ensure opportunities of personal contact between the students and their teachers. Absence of such contact has been one of the main factors contributing to student indiscipline.

The Teacher-Training Programme needs very careful re-examination. Professional training to teachers for Secondary schools is at present imparted by the Departments of Education in the Universities as well as by the Education Department through its Training Colleges. There is very little co-ordination between these two agencies. The Teacher-Training Programme has to be looked upon as an integral whole so that the teachers in the Secondary Schools may be equipped with the latest techniques and

(100)

practices of their profession. It must also be admitted that the Training Colleges and the Departments of Education of the Universities have not so far done any substantial amount of educational research work.

Youth welfare work has now come to be recognized as one of the most potentinstruments for the promotion of creative discipline. The encouraging feature is that an increasing number of students and teachers are now taking part in works of village reconstruction. Much more organization and money need to be given to encourage these projects and promote participation of students on a large scale.

C. N. CHAK,

Director of Education,

Uttar Pradesh.

(105)

EXPLANATIONS

1. Academic Year—For the sake of uniformity the academic year in these tables is taken to coincide with the financial year, i.e. from 1st April of one year to 31st March of the next.

2. Current Year—For the sake of clarity, it may be mentioned that the current year, wherever it occurs in these tables, means the year for which the statistics are being furnished, and *not* the year in which the form is being filled.

3. Recognized Institutions—Are those in which the course of study followed is that which is prescribed or recognized by the Department of Education or by a University or by a Board of Secondary and Intermediate Education constituted by law and which satisfy one or more of these authorities, as the case may be, that they attain to a reasonable standard of efficiency. They are open to inspection and their pupils are ordinarily eligible for admission to public examination and tests held by the Department or the University or the Board.

4. Unrecognised Institutions—Are those which do not come under the above definition of Recognized Institutions.

5. General, Professional and Special Education—The types of institutions to be included under these categories, as stated in Tables I and II, are enumerated under similar headings in Table III.

6. Nursery School/Classes-Include all Pre-primary, Infant, Kindergarten and other such schools/classes.

7. Higher Secondary Schools—Are those schools after passing which the student can be admitted in Degree Classes of Universities.

8. Engineering Schools—Include Survey Schools.

9. Schools for Oriental Studies—Include Tols, Madarsas, Arabic, Sanskrit and Vedic Schools, Sanskirt Pathshalas and other such schools.

10. Schools for Physical Education—Include Gymnasia.

11. District Boards-Include District School Boards.

12. Municipal Boards—Include Cantonment Boards and Towan Area Committees.

13. Local Boards—Include District, Municipal, Cantonment Boards and Town Area Committees.

14. Enrolment—For definiteness, Scholars on rolls in the institutions or hostels on 31st March of the academic year in question are taken. If, however, 31st March falls within a vacation at the end of the session then the scholars onrolls on the date before 31st of March and nearest to it should be given.

(106)

15. Expenditure—(a) In calculating the expenditure from Government, District Board or Minicipal Board Funds entered in Tables V-A and V-B and other expenditure tables all payments or contributions from fees endowments, etc. and other sources, which are credited to such funds, are deducted.

(b) Endowments, etc.—Include subscriptions, contributions and income from endowments.

(c) Buildings—Any expenditure on furniture or apparatus, if incurred as an indirect expenditure, may be included under Buildings.

16. Certified Teachers—Are those who have obtained any form of Teachers' Certificate other than the one granted on the basis of Public Examination of a Teachers' Training Institution.

17. Examination Results—Refer to those students who were educated during the current year, i.e., the year for which the statistics $a_r e$ being given in this form.

18. Free Studentships—In stating the number of free studentships required in these tables, the number of half and other fractional, free-student-ships, if any, should be converted into full free-studentships and then stated.

19. Government—Includes both Central and State Governments, unless otherwise provided for.

20. THE STATISTICS GIVEN IN THESE TABLES INCLUDE STA-TISTICS OF CENTRALLY ADMINISTERED EDUCATIONAL OR RESEARCH INSTITUTIONS.
