AN INITIAL DONATION

Message from the Director

Gokhale Institute of Politics and Economics (GIPE) was established in 1930 by the Late Rao Bahadur R.R. Kale, M.L.C., as a centre for higher learning and research in economics in remembrance of the great Indian nationalist leader Shri Gopal Krishna Gokhale. The Servants of India Society is the managing trust of the Institute. Since those days, it has evolved into a premier institute of advanced study in economics and allied subjects with faculties and alumni who have distinguished themselves nationally and internationally as academicians, policy-makers and consultants.

Gokhale Institute of Politics and Economics has been widely recognized for its pioneering contributions in the subjects of Rural Development, Co-operation, Poverty Alleviation, Employment Guarantee, Crop Insurance, Planning, Federal Finance, Input-Output Economics, Agricultural Development, Irrigation and Demography and in several other areas related to the social and economic problems of India.

Our excellence as an Institute of higher learning has been recognized both in India and abroad. The Reserve Bank of India, Ford Foundation, Planning Commission and Kamalnayan Bajaj Foundation have each instituted Chairs for distinguished faculties in Finance,

International Economics, Planning and Development, and Industrial Economics respectively at the GIPE.

Although primarily a research Institute, GIPE is also renowned for the robust teaching programme leading to award of M.A./M.Sc., and Ph.D. degrees in Economics, initially of University of Bombay and later of University of Pune. In 1993, the Institute was recognised by University Grant Commission as a Deemed to be University.

An important aspect of our evolution as an Institute of Economics is the increasingly interdisciplinary approach to the subject. In accordance with this approach and to enhance our role as a Deemed University, the Institute has launched two new masters programmes in Financial Economics and Agribusiness Economics from July 2011. In addition, the Institute has considerably expanded its Ph.D. programme to 52 registered students. The Institute has also initiated two student and faculty exchange programmes, one with the University of Goettingen and the other with a consortium of Canadian Universities under the Ontario-Maharashtra-Goa (OMG) initiative.

The Institute has pleasure in presenting the Annual Report of its activities for the year 2014-2015.

About the Institute

Gokhale Institute of Politics and Economics is one of the oldest research and training institutes in economics in the country. It was founded on the 6th of June 1930 with an endowment offered to the Servants of India Society by the late Rao Bahadur R.R. Kale, Member of the Legislative Council from Satara. The Servants of India Society, founded by the late Shri Gopal Krishna Gokhale, is the Trustee of the Institute. The Institute is registered under the Societies Registration Act, 1860, and the Bombay Public Trusts Act, 1950.

The object of the Institute has been to conduct research into the economic and political problems of India and to train research workers in these subjects. Under the pioneering leadership of the late Professor D.R. Gadgil, its first Director, the

Institute set the highest standards for quality research, teaching and training in a number of branches of economics.

Keeping in view the eminence of the faculty, the contribution the Institute has made in teaching, training and research in economics, availability of physical infrastructure and potential of the Institute, the Government of India, on the advice of the University Grants Commission, awarded the Institute the status of a Deemed to be University on May 9, 1993, the birth anniversary of the late Shri Gopal Krishna Gokhale after whom the Institute is named. The National Assessment and Accreditation Council has accredited the Institute with grade A+.

Research

The main thrust areas of the Institute, which have developed over the years through financial assistance from various sources, are agricultural economics and rural development, population studies, input-output studies for planning and development, microeconomics, macroeconomics, monetary economics and finance, public economics and international economics.

Various ministries and public funding agencies, including the Government of Maharashtra and private foundations such as Sir Dorabjee Tata Trust, financed the research activities of the Institute in its early years. Subsequently, in 1954, the Union Ministry of Food and Agriculture

established, and has supported since then, the Agro-Economic Research Centre of the Institute. During the early fifties, the Rockefeller Foundation made a substantial grant, spread over several years, for the conduct of a research programme in rural demography. By the time this grant period came to an end, the Union Ministry of Health, which had given grants for conducting some specific demographic studies in 1954-57, decided in 1964 to strengthen and expand the research work on population by financing, on a continuing basis, a Population Research Centre as an integral part of the Institute. The Ford Foundation gave very generous financial assistance for more than a

decade beginning in the year 1956. Later, the Foundation, in collaboration with the Planning Commission, provided a separate grant for research and training in the areas of planning and development, mainly devoted to input-output studies. The Planning Commission has also given an endowment grant to the Institute to establish a chair and a unit for promoting teaching, research and informed debate on all issues relating to planning and development. The above-mentioned chair is named the 'Professor D.R. Gadgil Chair of Planning and Development'.

In 1962, the University Grants Commission recognised the Institute as a Centre of Advanced Study in Agricultural Economics, and later, in 1964 as a Centre of Advanced Study in Economics. In 1977 the UGC, as a part of its Area Studies

Programme, established a Centre of Study of the Economies of East European Countries. In the same year, the Reserve Bank of India instituted a chair of finance. In 1989, the Ford Foundation gave a generous endowment grant to fund a chair and to establish a section in international economics to carry out research activities in international economics and related subjects. This grant also included support for the post of a Librarian and for acquisition of books and journals. Similarly, in 2005 the Kamalnayan Bajaj Trust gave a generous grant to fund a chair of Industrial Economics.

The University Grants Commission, New Delhi, has sanctioned the Centre for Study of Social Exclusion and Inclusive Policy (CSSE & IP) in 2008 to carry out research and teaching in the areas of social exclusion, discrimination and inclusive policy.

Teaching

The Institute was initially affiliated to the University of Bombay, conducting the M.A. Programme in economics and supervising the work of students working towards research degrees of that University. In 1949, with the establishment of the University of Poona, the Institute became a constituent recognised institute of the new University. Till 1993 the Institute functioned, for all academic purposes, as the Department of Economics of this University. With the decision of the University to establish a separate Department of Economics at its campus, the Institute, as a Centre of Advanced Study in Economics, was granted effective autonomy in 1986 in designing courses, teaching and examination of the M.A. degree in economics. As stated earlier, the Institute has been granted the status of a Deemed to be University by the Government of India with effect from May 9,

1993 awarding its own M.A. and Ph.D. degrees in economics and its allied subjects. After acquiring the new status, the syllabi of the courses offered at the Institute were thoroughly revised on the basis of the recommendations of a committee constituted for the purpose. Courses in the M.A. programmes of the Institute are being regularly updated on the recommendations of Board of Studies and Academic Council. At present the Institute offers three post-graduate programmes, viz., M.Sc. (Economics), M.Sc. (Financial Economics) and M.Sc. (Agribusiness Economics). From the current academic year (2014-15), the Institute has converted its MA programmes to M.Sc. programmes, comprising an increased number of papers with upgraded syllabus and focus on quantitative techniques and their applications.

Training

In April 1989 the University Grants Commission selected the Institute and extended assistance to it for conducting refresher courses in economics for in-service university and college teachers from the western region of the country. In 1994, a year after the grant of Deemed to be University status to the Institute, the UGC

extended the catchment area of the Institute for its refresher courses to the entire country. Since the inception of this scheme by the UGC, the Institute had conducted several UGC - sponsored refresher courses for university and college teachers as well as workshops for government servants and others from across the country from time to time.

Research Centres at the Institute

The Institute has three research centres established by the Central Government and University Grants Commission.

Agro-Economic Research Centre (AERC)

The Agro-Economic Research Centre (AERC), Pune was established by the Union Ministry of Food and Agriculture in 1954. It has been an integral part of the Institute since its inception.

In 1962, on the basis of the quality and extent of work done by GIPE, its professional reputation, its contribution to research in agricultural economics and its potential for further development, the University Grants Commission selected it as a Centre of Advanced Study in Agricultural Economics. Two years later the field of study of the Centre was expanded and it was re-designated as the Centre for Advanced Study in Economics.

The Centre also conducts studies allotted to the Institute by various agencies such as the Government of Maharashtra, NABARD and

Planning Commission, Government of India.

The AERC has completed about 160 studies since its inception. Its activities cover Farm Business Surveys, Studies related to Irrigation, Watershed Management, Rural Electrification, Village Surveys, Rural Credit, Agricultural Tenancy, Co-operation, Droughts and Famines, Crop Insurance, Agricultural Marketing, Agricultural Exports, Poverty Alleviation, etc.

A large number of these studies have made significant contributions to the field of agricultural economics and agricultural development of the country. These studies have been widely recognized by policy-makers and academicians and serve as benchmarks of excellence in their respective fields.

Population Research Centre (PRC)

'Population Studies' at the Institute predate the formulation of population policy, establishment of the family planning programme by the Government of India and founding of Population Research Centres. The Institute has played a pioneering role in conducting demographic surveys in India.

A demographic survey of Kolhapur city in 1945 made a lasting contribution towards evolving and establishing a standardized methodology of demographic surveys. A research centre in demography was set up at the Institute in 1949. This was the first of its kind in the country. The Union Ministry of Health and Family Welfare had given grants to the Institute for conducting specific studies during 1954-57. In 1964, the Ministry decided to strengthen and extend the research work on population by establishing a Demographic Research Centre as a part of the Institute. In 1978-79, in pursuance of the recommendations of the Demography Advisory Committee, the Centre was re-designated as a Population Research Centre for the State of Maharashtra. It has earned the distinction of being included in the category of 'fully

developed' centres according to the norms of the Ministry of Health and Family Welfare.

In the fifties, when no information on demographic issues was available, the Centre started its work by conducting demographic surveys and thus contributed in a major way to the area of survey methodology. After the launch of the family planning programme at the official level, the Centre contributed by actively participating in the implementation of the sterilisation programme and by undertaking communication-cum-action studies. Evaluation of the after-effects of vasectomy camps and acceptance of the loop as an IUD gave valuable inputs about the methods of family planning.

Various dimensions of the family planning programme at its different stages, starting with its communication methods and including several of its other aspects such as compulsion during the emergency, adoption of spacing methods, maternal and child health, withdrawal of the targets, RCH approach of the programme, RTI/STI, client satisfaction and unwanted pregnancies have been

studied by the Centre. The work of NGOs in the field of family welfare has also been evaluated. In recent years, evaluation of the sterilisation bed reservation scheme, functioning of family welfare training institutions, ultrasound sonography centres and urban health posts has been carried out.

In the area of data collection on a wide scale, the Institute has independently carried out or participated in major surveys in 1980s and 1990s (NFMS, 1980; NFHS, 1992-93; and RCH Baseline Survey, 1998). Apart from evaluative and fact-finding surveys, many analytical studies are carried out. Recently a study on the cost of health care in

public hospitals in Maharashtra was completed. The Centre has just completed two rounds of a World Bank-sponsored research study on the quality of health care (client and provider satisfaction) in India/Maharashtra. The demography of India's tribal population is another recently completed research project. Currently, the Centre is involved in activities related to the strengthening of the Health Management Information System (HMIS), a new initiative of the Ministry to collect the district and facility level health data on a monthly basis.

Centre for the Study of Social Exclusion and Inclusive Policy (CSSE&IP)

CSSE&IP is a multi-disciplinary research centre established by the UGC in the year 2008 (as part of the Eleventh Plan) to carry out research and teaching in the areas of social exclusion, discrimination and inclusive policy. Its key objective is to conceptualize and define problems

related to discrimination, exclusion and inclusion based on caste, ethnicity and religion. It focuses on developing an understanding of the nature and dynamics of exclusion and discrimination at both theoretical and empirical levels.

Besides these three centres, the Institute also houses four prestigious Chair Professorships, viz.,

1. RBI Chair Professor of Finance whose unit conducts research and teaching in Monetary and Financial Economics (funded by Reserve Bank of India).
2. D.R. Gadgil Chair Professor of Planning and Development (funded by Planning Commission of India).
3. Ford Foundation Chair Professor of International Economics (funded by Ford Foundation).
4. Kamalnayan Bajaj Chair Professor of Industrial Economics (funded by Kamalnayan Bajaj Foundation).

The Computer Centre housed in the Statistical Department is well-equipped with hardware and software to support research, teaching and training programmes of the Institute. A one-year Certificate Course on Computer Applications for Economic Analysis has been introduced for the past and present M.A./M.Sc. and Ph.D. students of the Institute to complement the training in economics received by them at the Institute. The students are equipped with the latest analysis/analytical tools such as STATA, EVIEWS, SPSS, MATHEMATICA, etc., in a specially designed certificate course which adds value and insight to theoretical learning.

In the computer laboratory, students have access to the internet both for reference work and communication. The most up-to-date resources for these purposes are at hand as the Institute subscribes to superior resource websites such as Britannica, JSTOR, Indiatat, Springer link, etc.

Consultancy and guidance services in data processing in collaboration with the Indian Council of Social Science Research

In the Computer Section, facilities for data processing are available to researchers. The Institute offers consultancy and guidance services in data processing in collaboration with the Indian Council of Social Science Research.

Publications

The Institute has been regularly publishing a quarterly journal of economics in English, *Artha Vijnana* since March 1959. It publishes results of research work carried out in the Institute as well as works of scholars from outside the Institute after a rigorous refereeing process. The journal achieved an important milestone in 2008 by completing its 50th year of continuous publishing. To celebrate the occasion, the Institute published a Golden Jubilee Special Issue of the Journal (Vol. 50, No. 4, December 2008). Besides, from 2012 onwards, a

multidisciplinary international refereed journal *International Journal of Development and Conflict* which was earlier being published by World Scientific, is also being published by the Institute. The Institute also publishes research works in the form of working papers, books and mimeograph series. The R.B.R.R. Kale Memorial Lecture, organised by the Institute every year on the occasion of the Founder's Day, is published under the Kale Memorial Lecture Series.

Staff Quarters and Hostels

The Institute has its own residential campus, about 700 meters away from the academic campus, with quarters for both teaching and non-teaching members of the staff. The residential campus also houses hostel facilities for male and female students.

Its strategic location with respect to the Institute and the city ensures minimum wastage of time and resources in commuting, and provides the faculty members and students a peaceful environment in which to pursue their research or class work.

However, the importance of recreation is fully recognized and on-campus provisions are made for several sports such as volleyball, table tennis, cricket, badminton, etc. The hostels have an adjoining dining hall and a TV room. The proximity of the hostels to the staff quarters allows students' interaction with the faculty members on a personal basis which also enhances faculty-student interaction and creates opportunities for discussions outside the class on issues of current economic importance.

Student Activities

GIPE has consciously aimed to provide its students with an environment conducive to their all round development. It not only encourages students to excel academically, but also inspires them to pursue their hobbies in sports, dance, music, quiz competitions and other activities. Active participation and a tremendous amount of enthusiasm is seen among the students in the annual cultural event 'PULSE' and the annual sports week 'Utsaah', to name a few.

Pulse, an intra-university cultural event held in the month of August promotes healthy competition and teamwork among students. Held over a period of two days, the events are divided broadly into literary arts, performing arts and fine arts. Pulse provides a platform to the students to display their creativity, music, intellect and wit.

Equilibria, In the year 2014-15, the students have started this new initiative, an in-house students' magazine that captures the independent view of the students. It has now become a regular mouthpiece of the students containing brief articles, views, interviews, etc. of not only GIPE students and faculty but also of outside faculties and economists. It also focuses on content provided by the students as well as faculty members on various economic issues and even topics related to Politics and Sociology.

Veritas is the annual magazine for Gokhale Institute. The first edition came out in the year 2014-15 and was released by the Director of Institute. Veritas focuses on long format essays and articles on a host of topics such as Economics, Finance, International issues and Politics. It also features a Cover story written by the Editorial board. For the first edition, the Cover Story was about the history of Gokhale Institute, the impact of its namesake, Gopal Krishna Gokhale, and the development of the city of Pune especially of its education institutions such as this Institute, Pune University, Fergusson College etc.

Manan is the annual Economics festival hosted at Gokhale Institute. Last year it conducted a wide variety of events aimed to test the intellectual as well as practical ability of students through Debate, Case studies etc. This event was held in January and received participation from various institutes of Pune. The flagship event for Manan was the Paper Presentation held to give students an opportunity to present their research work in front of an esteemed panel of faculty members.

Utsaah is the annual intra-college sports event organized to promote sports activities on campus. The event is a weeklong meet covering sports such as Table Tennis, Badminton, Football, Volleyball, Throwball, Athletics, Chess, Carrom and Cricket. The event attracts immense participation from the student body and hopes to build sportsmanship and team spirit.

Annual Economics Conclave is a two-day academic event provides a platform for students and faculty of the Institute to engage economists, professionals, policy-makers and researchers in dialogue, debate and discussion on concurrent economic issues in India. Economics Conclave 2014 was graced by the participation of eminent economists and policy-makers including Dr. C. Rangarajan (then Chairman, Prime Minister's Economic Advisory Council), Prof. Arun Kumar (JNU, New Delhi), Ms. Chitra Ramakrishnan (MD and CEO, National Stock Exchange, Mumbai), Dr. Deepak Mohanty (Executive Director, Reserve Bank of India, Mumbai), among others.

Reminiscence, the alumni committee holds the annual alumni meet in the name of Reminiscence wherein the alumni fraternity of the institute is invited for lunch or dinner. The main objective is to keep the alumni connected to their alma mater and give an opportunity to the present students to benefit from the experiences of those in various industries. The event in the year 2014-15 involved a lecture by an alumnus, Sanjay Jha who has made his presence in politics followed by various other formal events. Post the events there was lunch and an interaction session with the present students.

The Cultural Committee organizes festival celebrations and events where students of our institute can showcase their talents. The students of GIPE are encouraged to participate in annual cultural evening 'Sangam' which is held every year in the month of September. Last year the committee organized 'Pulse' an intra-college fest where every student of GIPE participates in various competitions such as singing, group dance, scrabble, JAM, think and link, treasure hunt etc.
