ALL-INDIA INCOME-TAX STATISTICS, 1965-66

P R E F A C E

Introduction :

The All-India Income-tax Statistics brought out in this compilation are based on the assessments completed by the Income-tax Department during the financial year 1965-66. The compilation follows the traditional pattern of presentation of data in the form of All-India Statements as in earlier years.

Scope and coverage :

2. This compilation covers assessments completed during the financial year 1965-66, but such assessments relate to the assessment year 1965-66 as well as for earlier years. The old practice of referring to assessments as assessors has been maintained.

3. The statistics exhibited in the various All-India Statements appearing in this compilation relate to 1709254 assessments - 1652934 assessments resulting in tax demand and 56320 assessments resulting in tax refunds. Actually the Department completed 2389027 assessments during 1965-66 and the assessments which are not reflected in the statistics analysed in this compilation are those which did not result either in demand or refund i. e. (i) assessments of new industrial undertakings exempt under the Income-tax Act, (ii) assessments in which the entire income is absorbed by depreciation or development rebate or loss, (iii) assessments of Registered Firms with income less than Rs.25,000 and consequently not themselves liable to levy of tax and (iv) other 'No assessment' cases, where the assessable income is computed at a figure less than the taxable minimum.

3. The total gross demand from all the States (including Union Territories) is Rs. 396 crores, Maharashtra and West Bengal accounting for Rs. 140 crores and Rs. 97 crores respectively. The other leading States whose contribution to the gross demand is about Rs. 20 crores or more, and Delhi (Rs. 28 crores), Madras (Rs. 24 crores) and Gujarat (Rs. 20 crores). The following two tables give the comparative position of these five leading States in respect of number of assessments and sourcewise gross demand.
