## I N T R O D U C T I O N

This Report gives an account of the development of educational facilities for children belonging to Scheduled Castes and Scheduled Tribes in India during 1974-75. This report is based mainly on the statistical data supplied by the State Governments and Administrations of Union Territories in a prescribed form.

2. Since the Third Educational Survey was conducted during 1973-74, it was decided to utilise the data contained in the survey for the compilation of 1973-74 edition of this publication. The detailed reports are, however, now yet published. But in the meantime the final data for 1974-75 has become available and it has been decided to bring out this edition of the publication. In this publication, therefore, a comparative picture has been drawn with the position in the year 1972-73, the last year for which this data has been brought out.

3. The proposed publication covers mainly the enrolment of children belonging to Scheduled Castes and Scheduled Tribes at different levels of education beginning from pre-primary education upto the highest stage of education with all the possible bifurcation into different standards of education. Sex-wise and State-wise comparisons of progress of education among the children belonging to these communities have also been made. The coefficient of equality at different levels of education in respect of these communities has also been worked out.

4. The population statistics included in this Report are estimated on the basis of 1971 Census figures. No attempt has been made to draw any inference of insinuation based upon the factual data depicted in the report, although some analysis of the data has been given wherever desirable in order to highlight the progress of education among the children of various age-groups belonging to these communities.

5. The State wise details of progress made in providing educational facilities to the Scheduled Caste and Scheduled Tribe communities are presented in Appendices 'A' and 'B' respectively.

6. The Ministry of Education & Social Welfare highly appreciates the assistance of all the State Governments and Administrations of Union Territories who supplied the basic statistics for the preparation of this report. Suggestions for making the report more useful in future may please be addressed to the Deputy Secretary(Planning) in this Ministry.

SUMMARY

There has been a tremendous expansion in the provision of educational facilities in India. Remarkable increases have been noticed in the number of institutions of different types, enrolment therein, number of teachers employed and the educational expenditure incurred thereon. Table I below, which gives the percentage of coverage of the population of all communities of different school-going age-groups, indicates at a glance the significant developments that have taken place in the field of education since 1960-61 :

Table 1 - Enrolment as percentage of the population of relevant age-groups by stages of Central School Education.

3.	High/Higher Secondary Classes IX-XI	11.4	16.2	18.5	18.7	20.9

\* Figures are provisional.

2. Although all-round expansion of education has been witnessed yet it has not spread over uniformly in the country. There still remain certain areas and social communities as well as some groups of population which lag far behind others in the development of education. Special efforts are, therefore, required to be made to accelerate the pace of educational development in such backward areas, special groups of population like girls, Scheduled Castes, Scheduled Tribes, backward classes and other communities living in hill areas.

3. The percentage of enrolment of Scheduled Castes and Scheduled Tribes to the enrolment of all communities increased from 10.8 and 4.5 in 1972-73 to 11.1 and 4.6 in 1974-75 respectively. In terms of Coefficient of equality, the overall position improved slightly from 74.0% to 76.0%, in the case of Scheduled Castes and from 65.2% to 66.7% in the case of Scheduled Tribes during this period.

Table 2 below gives a comparative position of enrolment of Scheduled Castes and Scheduled Tribes in various types of institutions in India for the years 1972-73 and 1974-75 and also brings out the improvements in the coefficient of equality\* in different types of institutions in 1974-75 as compared to 1972-73.

of SC/ST  
to total  
enrolment

4. Accepting equality of opportunities for children belonging to all communities the coefficient of equality for Scheduled Castes/Scheduled Tribes children should be 100. In other words the proportion of the enrolment should be equal to the proportion of population of Scheduled Castes/Scheduled Tribes to total population and its percentage equal to 100. An index greater than 100 implies that the educational advance of Scheduled Castes/Tribes is more than that of the total population and thereby shows that there are some other social groups in the general population whose condition is even worse than that of the Scheduled Castes/Scheduled Tribes. If this index is less than 100 it indicates that the Scheduled Castes/Tribes have still some lee-way to make. In such cases, special efforts are needed to be made to improve their enrolment. The smaller the coefficient of equality, the greater the need for making such efforts. The Coefficient of equality of 76.0% in case of Scheduled Castes and only 66.7% in case of Scheduled Tribes indicates the extent to which educational facilities were availed of by these communities in 1974-75. This index also highlights the effort that is required to improve conditions which may attract children of these communities to educational institutions.

5. For analysis of this subject in details separately for Scheduled Castes and Scheduled Tribes, this report has been divided into two parts. Part I relates to the educational development of Scheduled Castes and Part II deals with the educational development of Scheduled Tribes.

It will be seen that the highest percentage of population of Scheduled Castes (24.7 per cent) was found in Punjab followed by Himachal Pradesh (22.2%) and Uttar Pradesh (21.0%). The smallest proportion of Scheduled Caste population (0.03%) was reported in Mizoram. The States/U.T.'s of Nagaland, A & N Islands and Lakshadweep had no/negligible Scheduled Caste population.

7. The population of Scheduled Castes for the year 1975 is not available but for the purpose of this report it has been assumed that the proportion of Scheduled Caste population to the total population of each State and Union Territory as recorded in 1971 census holds good for 1975 as well.

(xi) Institutions for Professional, Special and Other Education (Colleges and Schools)

A composite picture of State-wise enrolment, percentages and co-efficient of equality of Scheduled Caste Students in institutions for Professional, Special and Other Education (both Colleges and Schools) during the years 1972-73 and 1974-75 has been shown in Table 18 below. Total number of students enrolled in these colleges and schools was 17.40 lakhs in 1972-73 and it increased to 19.25 lakhs in 1974-75. Of the total, the number of Scheduled Caste students were 1.43 lakhs in 1972-73 and 1.40 lakhs in 1974-75. Percentage enrolment of Scheduled Caste students to the total enrolment was 8.2 and 7.3 during the years 1972-73 and 1974-75 respectively. Consequently, co-efficient of equality of Scheduled Caste students decreased from 56.2% in 1972-73 to 50.0% in 1974-75.

G. Enrolment of Scheduled Castes by Stages of Education

15. So far, the progress in enrolment of Scheduled Caste students by type of institutions only has been discussed. Comparative picture of enrolment and co-efficient of equality for the year 1972-73 and 1974-75 has been shown in respect of different categories of institutions. However, the correct idea about the progress of enrolment of scheduled caste students can be had only from the stage-wise position of enrolment as discussed in the following paragraphs.

Table 20 indicates the enrolment of all communities as well as of scheduled caste students alone by stages of education for the year 1974-75. Enrolment of scheduled castes as percentage to the total enrolment for different stages of education is a good indicator of position of enrolment of Scheduled caste in comparison of other communities. The Scheduled Castes form about 14.6 percent of the total population and the difference between this percentage and the percentage of scheduled caste enrolment to total enrolment indicates the lee-way which needs to be made up to bring the Scheduled Castes at par with other communities.

(i) Primary Stage

The number of classes constituting the primary stage of education varied from State to State. For the sake of uniformity the first five classes of schools have been taken to constitute the primary stage in all States/Union Territories of India. Total enrolment of Scheduled Castes in Classes I-V increased from 73,97,302 in 1972-73 to 79,00,121 in 1974-75. The number of Girl students during 1972-73 and 1974-75 was 23,43,102 and 25,23,295 respectively. Percentage enrolment of Scheduled Castes to total enrolment showed an increase from 11.9 in 1972-73 to 12.2 in 1974-75 and consequently the co-efficient of equality also increased from 81.5% in 1972-73 to 83.6% in 1974-75. Educational wastage among Scheduled Caste students at Primary Stage was 68.5 per cent in 1974-75, as compared to 71.2 per cent in 1972-73. Maximum wastage in Education at Primary Stage was in Assam (91.3%) and minimum in Jammu & Kashmir (almost negligible). Figures relating to enrolment of Scheduled Castes' percentage to the total enrolment, co-efficient of equality and percentage of wastage at Primary stage for the year 1974-75 in respect of each State/Union Territory of India have been indicated in Table 21 below. Enrolment by classes at Primary stage and by States is given in Statement X of Appendix 'A'.

Number of classes constituting Middle stage too is not the same in all the States and Union Territories. But in most of the States and Union Territories Classes VI, VII and VIII are treated as the Middle stage of school education. Hence, for the sake of uniformity, Classes VI-VIII (3 classes) are taken under Middle stage for all the States and Union Territories. In 1972-73 Scheduled Caste students enrolled at Middle stage were 12,99,630 of whom 2,93,535 were Girls. Scheduled Caste students formed 9.1 per cent of the total enrolment in 1972-73. Corresponding Scheduled Caste enrolment was 14,13,348 (including 3,39,352 girls) in 1974-75. The students of Scheduled Caste community formed 9.2 per cent of the total enrolment at this stage during this year. The Co-efficient of equality of scheduled castes under this stage of education was 63.0% in 1974-75. Table 22 depicts the position of the number enrolled, enrolment percentage and coefficient of equality at Middle stage in various States and Union Territories. Class-wise enrolment at Middle stage is given in Statement XI of Appendix 'A'.

E. Progress of Enrolment by type of institutions

21. A general review of the progress of enrolment of scheduled tribes during the years 1972-73 and 1974-75 shows an increase in the enrolment in various types of educational institutions except in the state of Madhya Pradesh and Union Territory of Delhi. As a matter of fact, there are no Scheduled Tribes in Union Territory of Delhi except their small migratory population where children study in the schools of this territory. Statements II to XVI in Appendix 'B' indicate State-wise position of the enrolment of scheduled tribes in various types of educational institutions.

22. A comparative review of the progress of enrolment of scheduled tribes as per centage to the total enrolment and the coefficient of equality for the years 1972-73 and 1974-75 in various types of educational institutions is given in the following paragraphs :-

(1) Pre-Primary Schools

Similarly, enrolment of scheduled tribe girls showed an increase from 8,762 in 1972-73 to 14,058 in 1974-75. Corresponding percentage of the coefficient of equality of scheduled tribe students was 73.9 and 111.6 in 1972-73 and 1974-75 respectively. (iv) High/Higer Secondary Schools

While the total number of students belonging to all communities enrolled in High and Higher Secondary Schools increased from 170.19 lakhs in 1972-73 to 185.47 lakhs in 1974-75 the corresponding enrolment of scheduled tribes increased only from 3.53 lakhs to 3.73 lakhs during this period. In the case of

the former the rate of increase was 9.0%, it was 5.7% in the latter case. Comparative picture of State-wise enrolment for these two years is given in Statement V in Appendix 'B'. The coverage of enrolment of scheduled tribe students as percentage of the total enrolment showed a slight fall from 2.1% in 1972-73 to 2.0% in 1974-75. Consequently, co-efficient of equality of scheduled tribes decreased from 30.4% to 29.0% during this period. G. Enrolment of Scheduled Tribes by Stage of Education

24. So far the progress in enrolment of scheduled tribe students by type of institutions only has been discussed. Comparative picture of enrolment and co-efficient of equality for the years 1972-73 and 1974-75 has been shown in respect of different categories of institutions. However, the better picture of the progress of enrolment of scheduled tribe students can be had only from the stage-wise position of enrolment discussed in the following paragraphs.

Table 48 below indicates the enrolment of all communities as well as of scheduled tribe students by stages of education for the year 1974-75. Enrolment of scheduled tribes as percentage to the total enrolment for different stages of education has also been indicated.

General School Education

(1) Primary Stage

As already stated, the number of classes constituting the Primary stage varies from State to State. But for the sake of uniformity, Classes I-V has been taken to form Primary stage in all States/Union Territories for the purpose of this report. Total enrolment of scheduled tribes at the Primary stage in the country as a whole increased from 32.85 lakhs in 1972-73 to 34.67 lakhs in 1974-75. Correspondingly, the girls enrolment of these communities increased from 10.14 lakhs to 10.79 lakhs. Percentage enrolment/scheduled of tribes to the total enrolment at this stage also showed an increase from 5.3 in 1972-73 to 6.4 in 1974-75. Consequently, coefficient of equality increases from 76.8% to 78.3% during this period. Educational wastage among Scheduled tribes at Primary Stage was 77.7 per cent. Among States, educational wastage in Orissa (87.2%), Assam (85.5%), Manipur (81.8%), Maharashtra (81.2%), Rajasthan (80.2%), Meghalaya (79.9%), Bihar (78.6%), West Bengal (78.0%) and Madhya Pradesh (77.9%) was more than that of the national average of educational wastage at Primary Stage during 1974-75. Among Union Territories, maximum wastage at Primary stage was in Dadra & Nagar Haveli (89.3%). Figures relating to enrolment of scheduled tribes, percentage to the total enrolment, coefficient of equality and percentage of wastage at primary stage in respect of each State/Union Territory ~~max~~ of India have been delineated in Table 49 below. State-wise enrolment at Primary stage in respect of each class is given in Statement A in Appendix 'B'.
