

**COMMITTEE
ON
TRANSPORT POLICY AND COORDINATION**

Preliminary Report

**VERNMENT OF INDIA
PLANNING COMMISSION
NEW DELHI**

February, 1961

Explanatory Note

The expressions 'lakh' and 'crore' signify 100,000
and 10,000,000 respectively.

SUMMARY OF CONTENTS

	PAGE
CHAPTER I. Introduction	1
CHAPTER II. Development and Regulation of the Indian Railways— A Historical Retrospect	7
CHAPTER III. The Role of Railways as a Public Enterprise	16
CHAPTER IV. Administrative Organisation of the Indian Railways	23
CHAPTER V. Development and Regulation of Road Transport	31
CHAPTER VI. Licensing Policies Pertaining to Commercial Road Transport	42
CHAPTER VII. Existing State of Organisation of Road Transport Industry and its capacity to undertake Public Service Obligations	50
CHAPTER VIII. Recent Trends in the Distribution of Traffic between Road Transport and Railways—A Factual Assessment	55
CHAPTER IX. Recent Trends in Railway Finances	62
CHAPTER X. Inherent Advantages of Road and Railway Transport and their Comparative Costs	71
CHAPTER XI. More Important Methods of Coordination and their Applicability in India	81
CHAPTER XII. Road-rail Coordination in respect of Passenger Traffic	103
CHAPTER XIII. Requirements in regard to the future development of Railways and Road Transport	108
CHAPTER XIV. Main Questions at Issue	126
APPENDICES	135

CONTENTS

	PAGE
CHAPTER I. INTRODUCTION	
Composition of the Committee	1
Paucity of Data	1
The Type of Information Required	2
Factual Surveys Organised by the Committee	3
Other Sources of Information	4
Enquiry into Cost of Haulage by Road	4
Experience of Foreign Countries	4
Discussions with the Interests Concerned	4
Study of Problems of the Means of Transport other than Railways and Road Transport	5
The Character of the Preliminary Report	5
Acknowledgements	6
 CHAPTER II. DEVELOPMENT AND REGULATION OF THE INDIAN RAILWAYS—A HISTORICAL RETROSPECT	
<i>A Brief History of Growth of the Railways</i>	
Early Development under Guarantee System	7
Considerations Underlying the Rapid Expansion of railways	7
<i>The Relationship between the Railway Finances and the General Exchequer</i>	
Separation of railway finances from the general finances	9
The Railway Finances Since 1924 Convention	9
<i>Developments in Railway Rate Making</i>	
Basic Rate Structure from the Earliest Times to the Present Day	11
The Contribution of Railway Rates to Industrial Development	13
General Policy in the Past Regarding Freight Rates	14
 CHAPTER III. THE ROLE OF RAILWAYS AS A PUBLIC ENTERPRISE	
Social Aspects of Railway Working	16
<i>The Influence of Social Considerations on Railway Rating Structure.</i>	
The General Principle of Railway Rate Making	16
Non-commercial considerations in railway rate making	17
Equality and Undue Preference Restrictions in respect of Railway Rates	18
Adjustment of Rates on the Basis of Costs	18
<i>The Social Obligations of the Railways</i>	
The Obligation of a Common Carrier	19
Uneconomic Branch Lines	20

	PAGE
Non-paying Suburban Passenger Services	21
Certain Special Concessions and Facilities Provided by the Railways	21
Amenities for Passenger Travel	22
Obligation in Respect of Staff	22
Preference for Certain Types of Traffic under Govern- ment Directions	22
 CHAPTER IV. ADMINISTRATIVE ORGANISATION OF THE INDIAN RAILWAYS	
Central Administrative Organisation	23
Organisational Set-up at the Zonal and Divisional level and Size of Zones	26
Size of Zones	26
Organisational Set-up at the Zonal Level	29
Organisational Set-up in the Divisions and Districts	29
Questions for Consideration	30
 CHAPTER V. DEVELOPMENT AND REGULATION OF ROAD TRANSPORT	
Growth of Mechanised Road Transport in India	31
The Constitutional Position in regard to Roads and Road Transport	31
Early Legislation to Regulate Motor Transport	32
Road-Rail Competition	33
Mitchell-Kirkness Report on Road-Rail Coordination	33
Post-war Developments in Road-Rail Coordination	35
The Code of Principles and Practice	37
The Study Group on Transport Planning	38
Mussoorie Conference	39
The Recommendations of the Road Transport Re- organisation Committee (1959)	40
 CHAPTER VI. LICENSING POLICIES PERTAINING TO COM- MERCIAL ROAD TRANSPORT	
State and Regional Transport Authorities	42
Permits for Intra-Regional and Inter-Regional Operations	43
Permits for Inter-State Operations	43
Temporary Permits	43
Inter-State Transport Commission	44
Licensing Policies being followed by the State Governments	44
Distance Limits in regard to Grant of Permits	45
Inter-State Operations	45
Grant of Temporary Permits	45
 CHAPTER VII. EXISTING STATE OF ORGANISATION OF ROAD TRANSPORT INDUSTRY AND ITS CAPACITY TO UNDERTAKE PUBLIC SERVICE OBLIGATIONS	
Possibility of Extension of Social Obligations to Road transport	50

	PAGE
CHAPTER VIII. RECENT TRENDS IN THE DISTRIBUTION OF TRAFFIC BETWEEN ROAD TRANSPORT AND RAILWAYS—A FACTUAL ASSESSMENT	
Estimates of Traffic Carried by Road Transport	55
The Information supplied by the Chambers of Commerce on the Extent of Diversion of Traffic from Rail to Road	58
Changes in the Pattern of Traffic Carried by the Railways	59
The Influence of Five Year Plans on the Pattern of Rail Traffic	59
Changing Pattern of Rail Traffic in Foreign Countries	60
CHAPTER IX. RECENT TRENDS IN RAILWAY FINANCES	
Economics of Haulage of Low-rated Commodities	62
The Recent Trends in Railway Finances	63
Contributions to and Withdrawals from the Development and Depreciation Funds	65
Financial Position of the Zonal Railways	67
The Financial Prospects for the Third Five Year Plan	68
Principal Recommendations of the Convention Committee (1960)	68
Long-term Trends in Railway Finances—Need for Careful Examination	69
CHAPTER X. INHERENT ADVANTAGES OF ROAD AND RAILWAY TRANSPORT AND THEIR COMPARATIVE COSTS	
Inherent Advantages of Road Transport	71
Limitations of Road Transport	72
Inherent Advantages of Rail Transport	47
Comparative Costs of Railway and Road Transport	75
CHAPTER XI. MORE IMPORTANT METHODS OF COORDINATION AND THEIR APPLICABILITY IN INDIA	
Adjustment of Freight Rates on the Basis of Costs	81
Neutrality of Fiscal Legislation and Elimination of Subsidies	83
Reimbursement to Transport Undertakings of the Cost of Unremunerative Services and other Public Service Obligations	89
Integration of Transport Services	91
Coordination through Suitable Organisation and Regulation of Road Transport	93
<i>United States of America</i>	94
<i>United Kingdom</i>	96
<i>West Germany</i>	97
<i>France</i>	98
<i>Italy</i>	98
<i>Australia</i>	99
Special Problems in Regard to Regulation of Transport Agencies in India	100

	PAGE
CHAPTER XII. ROAD-RAIL COORDINATION IN RESPECT OF PASSENGER TRAFFIC	103
CHAPTER XIII. REQUIREMENTS IN REGARD TO THE FUTURE DEVELOPMENT OF RAILWAYS AND ROAD TRANSPORT	
The Trends in Transportation Demand in India over the Period of the First Two Plans	103
The Experience of 10 Years in Retrospect—the Relationship between Transport Requirements and Economic Growth	110
Estimates of Traffic Requirements in the Third Five Year Plan	113
Targets in regard to Commercial Road Transport	114
Element of Uncertainty in the Estimates of Traffic for the Third Plan	115
Projections of Traffic Requirements in Future	116
The Difficulties Involved in the Allocation of Future Traffic between Railways and Road Transport	118
<i>Considerations relating to the Extension of Railway and Road Network in Future</i>	119
Considerations relating to Opening up of New Lines	119
Considerations Relating to Road Development Programme	123
CHAPTER XIV. MAIN QUESTIONS AT ISSUE	
Questions	129
APPENDICES	
1. Government of India Resolution, dated the 22nd July, 1959, regarding the appointment of the Committee	137
2. Progress of railway mileage opened since the introduction of Railways in India	139
3. Number of commercial vehicles registered in India	140
4. Extracts from the Seventh Schedule of the Constitution of India	141
5. The position of reciprocal agreements between States regarding the issue of public carrier permits for inter-State operations	143
6. Number of long distance temporary permits (<i>i.e.</i> permits for distances over 300 miles) issued in different States from January to June, 1960	146
7. Distribution of road transport industry according to the size of the unit	148
8. Assumptions made for estimating the volume of goods traffic carried by road transport	150
9. Percentage share of passenger traffic (passenger miles) carried by Railways and Commercial Motor Transport in India.	151
10. 1. Statement showing the movement of vehicles according to different distance zones	152
10. 2. Statement showing the tonnage of important commodities moved according to different distance zones.	154
11. A round-up of replies from some firms in India regarding the mode of transport employed by them	157
12. Statement showing trends in low and high-rated traffic on Government Railways	172

	PAGE
13. Recent trends in the distribution of rail traffic between principal commodities	178
14. Statement showing average earnings per ton mile of various commodities carried by railways	179
15. Statement showing the average rate charged by the Government railways, average cost per employee and index of wholesale prices	181
16. Statement showing capital-at-charge, earnings and working expenses on Government Railways	182
17. Summary of the principal recommendations of the Railway Convention Committee, 1960	186
18. A note on the facilities provided by the Indian Railways with a view to improving the quality of their service	188
19. Average tonnage, annual mileage performed and cost per ton mile of various categories of vehicles in Australia	191
20. Statement showing outstanding registrations on the railways at the end of months of March, June, September and December each year from 1950 to 1959 and for each month of 1960 and the average daily loadings of wagons during these months	195
21. A note on the future forecasts of volume of rail and road traffic in India	198
22. Statement showing changes in the distribution of freight traffic (ton-kilometres) between various modes of transport in foreign countries	209
23. Statement showing average annual rate of increase or decrease in rail track for different countries during the period 1946-56	210
24. A Statement showing the capacity and the volume of traffic on the new railway lines constructed and the dismantled lines restored during the First Plan which have been opened to traffic	211
