## PREFACE

The Report of the National Commission on Agriculture comprises 69 chapters in 15 parts. A complete list of chapters and parts is given in pages (iii) and (iv). The Terms of Reference of the Commission and its composition are given in Part I—Chapter 1—Introduction.

This volume, entitled 'inputs', is Part X of the Report and is divided into the following five chapters:

47. Seeds
48. Fertilisers and Manures
49. Plant Protection Chemicals
50. Farm Power
51. Implements and Machinery

# **REPORT OF THE NATIONAL COMMISSION ON AGRICULTURE**

## **PART I—REVIEW AND PROGRESS**

1. Introduction.
2. Historical Review.
3. Progress of Agricultural Development.
4. Some Economic Aspects.

## **PART II—POLICY AND STRATEGY**

5. Agriculture in Economic Development.
6. Growth with Social Justice.
7. Policy and Strategy.
8. Centre-State Relations in Agricultural Development.
9. Nutrition.

## **PART III—DEMAND & SUPPLY**

10. Demand Projections.
11. Supply Possibilities.
12. Export Possibilities and Import Substitution.

## **PART IV—CLIMATE AND AGRICULTURE**

13. Climate and Agriculture.
14. Rainfall and Cropping Patterns.

## **PART V—RESOURCE DEVELOPMENT**

15. Irrigation.
16. Command Area Development.
17. Land Reclamation and Development.
18. Soil and Moisture Conservation.
19. Electricity in Rural Development.

## **PART VI—CROP PRODUCTION, SERICULTURE AND APICULTURE**

20. Reorientation of Cropping Systems
21. Foodgrain Crops.
22. Commercial Crops.
23. Horticultural Crops.
24. Plantation Crops.
25. Fodder Crops.
26. Sericulture.
27. Apiculture.

## **PART VII—ANIMAL HUSBANDRY**

28. Cattle and Buffaloes.
29. Dairy Development.
30. Sheep and Goats.
31. Poultry.
32. Other Livestock.

(iii)

33. Mixed Farming.
34. Livestock Feeding.
35. Animal Health.
36. Meat Production and Animal Byproducts.

#### **PART VIII—FISHERIES**

37. Inland Fisheries and Aquaculture.
38. Marine Fisheries.
39. Crustacean Fisheries and their Utilisation.
40. Marketing of Fish and Fishery Products.

#### **PART IX—FORESTRY**

41. Forest Policy.
42. Production and Social Forestry.
43. Minor Forest Produce.
44. Forest Ecology and Wild Life Management.
45. Forest Protection and Law.
46. Forest Planning, Research and Education.

#### **PART X—INPUTS**

47. Seeds.
48. Fertilisers and Manures.
49. Plant Protection Chemicals.
50. Farm Power.
51. Implements and Machinery.

#### **PART XI—RESEARCH, EDUCATION AND EXTENSION**

52. Research.
53. Education.
54. Extension.

#### **PART XII—SUPPORTING SERVICES AND INCENTIVES**

55. Credit and Incentives.
56. Marketing, Transport and Storage.
57. Processing and Agro-Industries.

#### **PART XIII—RURAL EMPLOYMENT AND SPECIAL AREA PROGRAMMES**

58. Rural Employment.
59. Special Area Development Programmes.

#### **PART XIV—PLANNING, STATISTICS AND ADMINISTRATION**

60. Planning.
61. Statistics.
62. Administration.
63. Farmers' Organisation.
64. International Cooperation.

#### **PART XV—AGRARIAN REFORMS**

65. Land Reforms Policy.
66. Land Reforms Legislation and Implementation.
67. Agrarian Structure and Perspective.
68. Consolidation of Holdings.
69. Agricultural Labour.

**PART X  
INPUTS  
CONTENTS**

CHAPTER 47—SEEDS	PAGE
<b>SECTION</b>	
1 INTRODUCTION . . . . .	1
2 REVIEW . . . . .	3
3 MEASURES TO MAKE SEED BUSINESS ATTRACTIVE . . . . .	10
Seed Crop Insurance . . . . .	10
Remissions . . . . .	11
Discontinuance of Detrimental Practices . . . . .	11
Processing, Packaging and Storage . . . . .	12
Processing	
Packaging	
Storage	
Transport . . . . .	15
4 MEASURES FOR QUALITY IMPROVEMENT . . . . .	16
Provision of Grow-out Tests in Seed Testing Laboratories . . . . .	17
Compulsory Certification of Hybrids and Seed Material of Vegetatively Propagated Crops . . . . .	18
Indication of Minimum Renewal Period in Certificates . . . . .	19
5 SEED RESEARCH, EDUCATION, TRAINING AND ORGANISATION . . . . .	20
Sugarcane . . . . .	22
Fodder Crops . . . . .	22
Horticultural Crops . . . . .	23
Research and Education . . . . .	27
Organisational Set up . . . . .	27
6 SUMMARY OF RECOMMENDATIONS . . . . .	28
<b>APPENDIX</b>	
47-1 Magnitude of Seed Industry . . . . .	35
Statement I—Basic Data for Calculating Area and Production Pertaining to Seed Crops as in 2000 AD . . . . .	41
Statement II—Area and Production of Seed Crops as in 2000 AD . . . . .	43
Statement III—Basic Data for Calculating Area and Production Pertaining to Seed Crop as in 1985 . . . . .	44
Statement IV—Area and Production of Seed Crops in 1985 . . . . .	46
<b>CHAPTER 48—FERTILISERS AND MANURES</b>	
<b>SECTION</b>	
1 ROLE OF FERTILISERS IN CROP PRODUCTION . . . . .	47
Introduction . . . . .	47
Fertiliser Consumption . . . . .	47
Enhanced Foodgrain Production per Unit Area . . . . .	50
Increasing Pressure on Land . . . . .	50

SECTION	PAGE
2 PLANT NUTRIENTS . . . . .	54
Removal of Nutrients from Soils by Crops . . . . .	54
Natural Recuperation . . . . .	55
Fertilisers in the Farming System . . . . .	57
Need for Nutrient Balance . . . . .	58
3 ASSESSMENT OF FERTILISER REQUIREMENT . . . . .	61
Methodology . . . . .	61
Consumption Trend in Fertilisers . . . . .	71
Extensive vs. Intensive Use . . . . .	78
Consumption Target . . . . .	79
4 FACTORS AFFECTING EFFICIENT USE OF FERTILISERS . . . . .	79
Nitrogenous Fertilisers . . . . .	82
Anhydrous Ammonia . . . . .	83
Aqua Ammonia . . . . .	84
Slow Release Nitrogenous Fertilisers . . . . .	85
Phosphatic Fertilisers . . . . .	85
Potassic Fertilisers . . . . .	87
Micronutrients . . . . .	88
Application of Fertilisers . . . . .	88
5 SOIL ORGANIC MATTER AND ORGANIC MANURES . . . . .	89
Sources of Organic Matter . . . . .	91
6 CHEMICAL FERTILISERS AND SOIL AMENDMENTS . . . . .	94
Availability of Fertilisers . . . . .	94
Raw Materials and Feedstock . . . . .	95
Nitrogen . . . . .	95
Phosphorus . . . . .	96
Potassium . . . . .	99
Fertiliser Analysis . . . . .	100
Classification of Fertilisers . . . . .	101
Physical Condition of Fertilisers . . . . .	102
Fertiliser Grades . . . . .	103
Quality Control and Legislation . . . . .	103
Mixed Fertilisers . . . . .	106
Soil Amendments . . . . .	107
7 FERTILISER DOSE . . . . .	119
Economics of Fertiliser Use . . . . .	110
8 SOIL TESTING AS A GUIDE TO EFFICIENT USE OF FERTILISERS . . . . .	114
Present Status of Soil Testing . . . . .	115
Evaluation of Soil Test Work . . . . .	120
Soil Test—Crop Response Correlation . . . . .	121
Soil Fertility Maps . . . . .	124
9 SUMMARY OF RECOMMENDATIONS . . . . .	125
Plant Nutrients . . . . .	125
Factors Affecting Efficient Use of Fertilisers . . . . .	126
Soil Organic Matter and Organic Manures . . . . .	126
Chemical Fertilisers and Soil Amendments . . . . .	127
Fertiliser Dose . . . . .	128
Soil Testing as a Guide to Efficient Use of Fertilisers . . . . .	129

APPENDIX	PAGE
48·1 Nutrients Removed by Foodgrain Crops—Actual and Projected Production . . . . .	131
48·2 Nutrients Removed by Non-foodgrain Crops—Actual and Projected Production . . . . .	132
48·3 Removal of Nutrients by Foodgrain and Non-foodgrain Crops—Actual and Projected Production . . . . .	133
48·4 Cropwise Fertiliser Requirement . . . . .	134
48·5 Fertiliser Requirement for Total Cropped Area Based on Doses Recommended Following Fertiliser Trials . . . . .	135
48·6 Estimated Fertiliser Requirement by 1978-79 . . . . .	137
48·7 Production, Imports and Consumption of Chemical Fertilisers in India—1961-74 . . . . .	140
48·8 Estimates of Some of the Waste Products Available in the Country Annually . . . . .	141
48·9 Pattern of Feed Stock Utilisation for Nitrogen Capacity (Installed and Planned) . . . . .	142
48·10 Equivalent Acidity and Basicity of Different Fertiliser Materials . . . . .	147
48·11 Number of Soil Testing Laboratories in India and Their Capacity . . . . .	149

## CHAPTER 49—PLANT PROTECTION CHEMICALS

### SECTION

1 INTRODUCTION . . . . .	151
2 ROLE OF CHEMICALS IN PEST CONTROL FOR ENHANCED CROP PRODUCTION . . . . .	154
3 EXTENT OF CROP LOSS DUE TO INSECT PESTS AND DISEASES . . . . .	159
Guidelines for the Future . . . . .	159
Serious and Moderate Insect Pest and Diseases . . . . .	161
4 EFFICIENCY OF CHEMICALS IN PEST CONTROL AND INCREASING CROPS PRODUCTION . . . . .	163
Pest Resistant Varieties and Pesticide Use . . . . .	164
Potentiality of Chemicals . . . . .	165
Application Methods . . . . .	166
5 CHEMICALS IN FARMING SYSTEM : SURVEILLANCE AND WARNING . . . . .	166
Surveillance in the Indian Scene . . . . .	167
General Plan . . . . .	167
Main Findings . . . . .	168
Plant Pests and Diseases Surveillance Service . . . . .	169
Method and Training . . . . .	171
Quarantine Operations . . . . .	172
6 ECONOMICS OF THE USE OF AGRICULTURAL CHEMICALS . . . . .	173
Benefit-cost Ratio . . . . .	174
Impact on Cultivators . . . . .	176

SECTION	PAGE
7 ASSESSMENT OF REQUIREMENTS OF AGRICULTURAL CHEMICALS . . . . .	177
Requirement of Chemicals . . . . .	186
8 BASIC RAW MATERIALS, KNOWHOW AND INDIGENOUS AVAILABILITY . . . . .	190
Chlorinated Hydrocarbons . . . . .	190
Organophosphates . . . . .	191
Carbamates . . . . .	192
Fungicides . . . . .	193
Weedicides . . . . .	194
Acaricides . . . . .	195
Nematicides . . . . .	196
Plant Growth Regulators . . . . .	196
Natural Sources of Pesticides . . . . .	197
9 FERTILISER PESTICIDE MIXTURE . . . . .	198
Method and Time of Application . . . . .	199
10 RESIDUAL TOXICITY AND HAZARDS OF PESTICIDES . . . . .	200
Pesticides and Soil Microorganisms . . . . .	204
Integrated Pest Control . . . . .	205
Storage Pesticides . . . . .	206
11 QUALITY CONTROL OF PESTICIDES . . . . .	207
Complaints about Quality . . . . .	207
Factors Determining Quality Deterioration . . . . .	208
Arrangements for Pesticide Analysis . . . . .	209
Methods of Sampling and Analysis . . . . .	211
Rapid Testing . . . . .	212
Adequacy of the Insecticide Act . . . . .	212
Testing and Certifying Authorities . . . . .	213
Extension Education on Quality . . . . .	213
Central Pesticide Release Committee . . . . .	214
12 PLANT PROTECTION SERVICES . . . . .	215
Timely Supply . . . . .	218
Sale Points . . . . .	219
Storage . . . . .	219
Custom Service . . . . .	220
Subsidy . . . . .	220
Promotional Work . . . . .	221
Plant Protection Organisations . . . . .	222
Setup in States . . . . .	222
13 SUMMARY OF RECOMMENDATIONS . . . . .	223
APPENDIX	
49-1 Questionnaire . . . . .	229
49-2 Some Records of Felt Loss Due to Diseases in India . . . . .	233
49-3 Some Records of Felt Loss Due to Insect Pests in India . . . . .	237
49-4 Some Records of Felt Loss and Loss Estimation Due to Nematodes in India . . . . .	239
49-5 Some Loss Estimations Due to Diseases Carried Out in India . . . . .	240
49-6 Some Loss Estimation Due to Insect Pests Carried Out in India . . . . .	243

APPENDIX	PAGE
49·7 Some Loss Estimation Due to Weeds Carried Out in India . . . . .	245
49·8 I—Some Loss Estimations Due to Rats under Field Conditions Carried Out in India . . . . .	248
II—Damage Caused by Rodents to Various Foodgrains Under Field Conditions in Uttar Pradesh . . . . .	249
49·9 Cropwise Average Yields and Percentage Losses Due to Insect Pests and Diseases of High Yielding Varieties during Kharif 1967 and 1968 . . . . .	250
49·10 Cropwise Average Yields And Percentage Losses Due to Insect Pests and Diseases of High Yielding Varieties During Rabi, 1967-68 and 1968-69 . . . . .	252
49·11 Percentage Loss in Yield Due to Different Insect Pests and Diseases . . . . .	253
49·12 Cropwise Losses Due to Insect Pests And Diseases as Reported by States . . . . .	255
49·13 I—Serious and Moderate Insect Pests of Paddy Crop . . . . .	256
II—Serious and Moderate Diseases of Paddy Crop . . . . .	257
49·14 I—Serious and Moderate Insect Pests of Jowar, Maize, Bajra and Lesser Millets Crops . . . . .	258
II—Serious and Moderate Diseases of Jowar, Maize, Bajra and Lesser Millets Crops . . . . .	259
49·15 I—Serious and Moderate Insect Pests of Wheat, Barley and Oats Crops . . . . .	260
II—Serious and Moderate Diseases of Wheat, Barley and Oat Crops . . . . .	261
49·16 I—Serious and Moderate Insect Pests of Cotton Crop . . . . .	262
II—Serious and Moderate Diseases of Cotton Crop . . . . .	263
49·17 I—Serious and Moderate Insect Pests of Jute and Sugarcane Crops . . . . .	264
II—Serious and Moderate Diseases of Jute and Sugarcane Crops . . . . .	265
49·18 I—Serious and Moderate Insect Pests of Pulses (Black and Green Gram, Gram, Pigeon Pea, Pea) . . . . .	266
II—Serious and Moderate Diseases of Pulses (Black and Green Gram, Gram, Pigeon Pea, Pea) . . . . .	267
49·19 I—Serious and Moderate Insect Pests of Oilseeds (Groundnut, Mustard, Castor, Til, Linseed) . . . . .	268
II—Serious and Moderate Diseases of Oilseeds (Groundnut, Mustard, Castor, Til, Linseed) . . . . .	269
49·20 I—Serious and Moderate Insect Pests of Plantation Crops . . . . .	270
II—Serious and Moderate Diseases of Plantation Crops . . . . .	271
49·21 I—Serious and Moderate Insect Pests of Tobacco, Pepper, Turmeric, Ginger, Cumin, Coriander, Cardamom and Chilli Crops . . . . .	272
II—Serious and Moderate Diseases of Tobacco, Pepper, Turmeric, Ginger, Cumin, Coriander, Cardamom and Chilli Crops . . . . .	273

APPENDIX	PAGE
49-22 I—Serious and Moderate Insect Pests of Mango, Apple, Banana, Grapes and Citrus Crops . . . . .	274
II—Serious and Moderate Diseases of Mango, Apple, Banana, Grapes and Citrus Crops . . . . .	276
49-23 I—Serious and Moderate Insect Pests of Vegetable Crops (a, b & c) . . . . .	277
II—Serious and Moderate Diseases of Vegetable Crops . . . . .	280
49-24 Abbreviations Used for Insect Pests and Diseases . . . . .	281
49-25 Maximum Protection Trial For Chemical Control of Insects . . . . .	286
I—Incidence of Neck Infection and Yield of Rice in Blast Control Trial with Foliar Sprays of Fungicides, Kharif, 1969 . . . . .	289
II—Effect of Fungicides and Antibiotic on Control of Blast Diseases of Rice (Variety ADT 27) . . . . .	290
49-26 I—Effect of Fungicides in Controlling Rusts of Wheat (Variety S227) . . . . .	291
II—Effect of Fungicides on Control of Rust (1965-66) of Wheat Variety Agra Local) . . . . .	292
III—Effect of Fungicides on the Control of Wheat Rust, 1966-67 . . . . .	293
IV—Effect of Fungicides in Controlling <i>Alternaria</i> Leaf Blight of Wheat (Variety K 25) . . . . .	294
V—Effect of Fungicides on Control of Leaf Blight of Wheat (Variety Kenphad 25) . . . . .	295
49-27 Variation in the Use of Chemicals and Their Dosages for Rice Crop . . . . .	296
49-28 Benefit-Cost Ratio with Chemical Plant Protection Measures in Different Crops . . . . .	300
49-29 Benefit-Cost Ratio of Chemicals Used for Plant Protection . . . . .	304
49-30 Categorywise and Cropwise Breakup of 100 Million Hectares—Level to be Reached by 1978-79 . . . . .	305
49-31 Summary of Information obtained on the Requirement of Chemicals by States . . . . .	307
49-32 Summary of Information obtained on the Basis of which Annual Targets for Chemicals and Evaluation of Achievements made by States . . . . .	308
49-33 Estimated Requirement of Pesticides Cropwise by 1978-79 . . . . .	310
49-34 Raw Materials for 1000 Kg. of Insecticides . . . . .	316
49-35 Classification of Chemicals Based on Physical Condition and Grades . . . . .	319
49-36 Names of Plant Protection Chemicals . . . . .	326
<b>CHAPTER 50—FARM POWER</b>	
<b>SECTION</b>	
1 INTRODUCTION . . . . .	340
2 FARM POWER AND PRODUCTIVITY . . . . .	341
Source of Farm Power in Different Countries . . . . .	341

SECTION	PAGE
Indian Farm Power Spectrum . . . . .	342
Crop Yields and Power . . . . .	345
<b>3 REQUIREMENTS OF FARM POWER . . . . .</b>	<b>346</b>
District Level Studies . . . . .	346
Draught Animals . . . . .	347
Human Labour . . . . .	348
Need for Selective Mechanisation . . . . .	348
Non-Repetitive Needs . . . . .	350
Tractor Needs in Crop Production . . . . .	351
Pumps for Irrigation . . . . .	352
Electrical Motors for Other Purposes . . . . .	353
Plant Protection Equipment . . . . .	354
Harvesting and Threshing Combines . . . . .	354
Power Position in 2000 AD . . . . .	355
<b>4 MANUFACTURE, QUALITY CONTROL, SUPPLY AND SERVICES . . . . .</b>	<b>356</b>
Production Capacity . . . . .	357
Testing and Quality Control . . . . .	358
Sale and Service . . . . .	359
Agro-Industries in Supply and Services . . . . .	360
Future Role of Agro-Industries Corporations . . . . .	364
<b>5 ORGANISATION, EDUCATION AND RESEARCH . . . . .</b>	<b>366</b>
Manpower Requirements . . . . .	366
Education and Training . . . . .	367
Research . . . . .	370
<b>6 SUMMARY OF RECOMMENDATIONS . . . . .</b>	<b>371</b>
<b>APPENDIX</b>	
50.1 Horse Power Equivalents of Various Power Components as Collected from Certain Sources . . . . .	375
50.2 Existing Power Availability . . . . .	377
Statement I—Power for Agricultural Operations Available in 1971 . . . . .	377
Statement II—Number of Districts (Statewise) in different Ranges of Horse Power Representing the Total Animate (Human and Draught Animals) and Inanimate Power Available for Crop Production . . . . .	378
Statement III—Number of Districts (Statewise) in Different Ranges of Horse Power Representing the Inanimate Power (Electrical and Mechanical) Available for Crop Production . . . . .	379
50.3 Power Needs . . . . .	380
Statement I—Monthly Power Needs for Crop Production in Hissar and Karnal Districts of Haryana (if these are to be met fully from Biological Sources) . . . . .	380
Statement II—Monthly Power Needs for Crop Production in Bijapur and Kolar Districts of Karnataka (if these are to be met fully from Biological Sources) . . . . .	381

APPENDIX		PAGE
	Statement III—Monthly Power Needs for Crop Production in Burdwan District of West Bengal (if these are to be met from Biological Sources)	382
53.4	Requirements of Agricultural Tractors for Crop Production in 2000 AD . . . . .	383
50.5	Maps . . . . .	
	Map I—Total Availability of Power from Animate and Inanimates sources (HP/ha) . . . . .	} Facing 386
