The following information was prepared in the Secretariat of the League of Nations on the basis of official and unofficial information there available, at the request of the Institute of Pacific Relations (Pacific Ocean), and was printed in August 1929 under the authority of the Institute. Since then, it has been submitted to the members of the Financial Committee, and it has been decided to make the report available to the general public.

The members of the Financial Committee, without being responsible for every detail in the report, have authorised the statement to be made that it gives a fair account of the history and policy of the Committee's work during the past decade.
