In addition to the questions to which the Health Organisation devotes a great part of its activities (epidemiology, malaria, biological standardisation, housing, nutrition, cancer, tuberculosis, rabies and rural hygiene), this periodical contains articles by the leading authorities on all branches of health and social medicine.

The prices of single numbers vary from 2/6 to 6/- \$0.65 to \$1.50

WEEKLY EPIDEMIOLOGICAL RECORD

Intended mainly for national and health authorities, the *Weekly Epidemiological Record* informs them of the outbreak and progress of epidemics of plague, cholera, smallpox, etc., so that they can take the necessary quarantine measures.

It also keeps them posted on the trend of the main communicable diseases: diphtheria, enteric fever, cerebro-spinal meningitis, scarlet fever, typhus, etc., which are from time to time the subject of special notes accompanied by tables and comments.

TREATY SERIES

Treaties and International Engagements registered with the Secretariat of the League of Nations

Under the terms of Article 18 of the Covenant of the League of Nations: "Every treaty or international engagement entered into hereafter by any Member of the League shall be forthwith registered with the Secretariat and shall as soon as possible be published by it. No such treaty or international engagement shall be binding until so registered". The publication of the *Treaty Series* fulfils this condition of the Covenant.

This is the most complete collection in existence. The authenticity of the instruments reproduced is beyond dispute. In accordance with No. 6 of the Memorandum approved by the League Council at Rome on May 19th, 1920, they must be accompanied by a statement that they contain the complete text of the agreement concluded by the parties.

Treaties are published in the languages in which they were signed, but, in order to make reference to them easier and more general, the Secretariat provides a French and English translation whenever the treaty registered has not been published in those two languages. This translation is attached to the treaty.

In an annex which is inserted at the end of every hundred treaties published, all useful information is brought up to date and published as to the extension or amendment of engagements, accessions, ratifications, denunciations, etc. These annexes therefore show the exact position of the treaty relations between States.

The *Treaty Series* includes the treaties of major importance concluded during the past few years. It also contains all the Conventions concluded under the auspices of the League which have come into operation.

Up to July 31st, 1946, the League Secretariat had registered 4,834 treaties or international engagements of all kinds: Treaties of Peace, Treaties of Commerce, International Conventions, accessions to these Conventions, prolongations of treaties, denunciations of treaties, etc.

Two hundred and five volumes and eight general indexes have been published.

Per volume. 15/- \$ 3.75

Special price for any series of 12 consecutive volumes £7 10s. \$37.50

(The General Indexes are not included in this special price.)

The Records of the Assembly of the League of Nations (First to Twenty-first Sessions) are published in separate volumes at prices that vary according to the size of the volume. From the Fourth to the Nineteenth Session, the Records of the Assembly were issued as Special Supplements to the *Official Journal*.
