(1a.)
Prices of Wheat in India from the second half of July 1914.

1. Total area cropped in 1913-14.

Total Area cropped (the whole square) 247 million acres.
 Area under food crops (shaded) 203 million acres.
 Area under non-food crops (white) 44 million acres.

NOTE.—“Other food crops” are minor food-grains, condiments and spices, and miscellaneous food crops.
 “Other non-food crops” are oilseeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

2. Total livestock, divided between bovine, ovine and others in 1913-14, as compared with the year 1904-05.

NOTE.—“Bovine” includes bulls and bullocks, cows, buffaloes, calves, and buffalo calves.
 “Ovine” includes sheep and goats.
 “Others” include horses and ponies, mules, donkeys, and camels.

The total area of India is 1,800,000 square miles or 1,151,890,000 acres, with a population of 315 millions according to the census of 1911. This may be divided as follows :—

	Acre	Population.
(1) British Provinces (including Native States under the control of Local Governments and Administrations) .	749,528	267,164,000
(2) Native States having direct political relations with the Government of India	316,391	44,767,000
(3) Specially administered territories in Burma (Shan States) and in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	51,265	2,738,000
(4) British Baluchistan (including administered areas)	34,706	414,000
Total	1,151,890	315,083,000

No returns of agricultural statistics are prepared for (3) specially administered territories in Burma and in the North-West Frontier Province, nor for (4) British Baluchistan.

Table I.
Total area.

The total area of the British Provinces dealt in this volume—749,528,000 acres, or 1,171,000 square miles—includes 129,934,000 acres, with a population of some 26 millions, belonging to princely and Tributary States, which are under the control of Local Government and Administrations. These include in Burma the Móngmit State, the Hle Long State, and the Upper Chindwin States; in Assam, Manipur and Khasi and Jaintia Hill States; in Bengal, Cooch Bihar and Hill Tippera; in Bihar and Orissa, the Tributary States of Orissa and Chota Nagpur; in the United Provinces, Rampur, Tehri, and Benares; in the Punjab, the Phulk States, Bahawalpur, the Ambala and the Jalandhar Division States, and the Jhina Hill States; in the North-West Frontier Province, the Phulera and U Tanawal States; in Sind, the Khairpur State; in Bombay, the Guj States (excluding Baroda), the Konkan States, the Satara Jagirs, and Southern Mahratta States; in the Central Provinces, the Chhattisgarh State and in Madras, the States of Travancore, Cochin, Pudukkottai, Banganap, and Sandur. Of these States, Agricultural Statistics are prepared for most of the States in the Punjab and all the States in Madras; but they are dealt with in Volume II along with the States having direct political relations with the Government of India.

Thus, by deducting 129,934,000 acres belonging to princely and Tributary States from the total area of 749,528,000 acres included in British Provinces, a balance of 619,594,000 acres is left (as shown in Table I), which represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey Office in Northern India, and by the corresponding departments in the Southern Presidencies. The Agricultural Statistics are, however, prepared in a number of provinces or parts of provinces from "village papers", i.e., papers prepared by the village accountants for the purposes of assessment and collection of revenue. The area given in the village papers of the United Provinces, Central Provinces and Berar, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are: (a) while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) the system followed as regards inclusion or exclusion of areas covered by water, buildings, roads, and roads, is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 617,191,000 acres, or 961,000 square miles, as against 619,594,000 acres or 963,000 square miles according to professional survey.

This area is classified, for the purposes of Agricultural Statistics, as shown Table II.

	Thousand acres.	Per cent.
Forests	82,623	13
Not available for cultivation	147,169	24
Culturable waste other than fallow	115,587	19
Current fallows	52,620	8
Net area cropped	219,192	36
Total	617,191	100

in the margin. About 82,623,000 acres, or 13 per cent of the total, are occupied by forests; and land absolutely barren or unculturable or covered by buildings, water, and roads, or otherwise ap-

propriated to uses other than agriculture, amounts to 147,169,000 acres or 24 per cent. The balance, 387,399,000 acres or 63 per cent, represents the area available for cultivation. Of this, 115,587,000 acres, or 19 per cent of the total area, represent culturable waste other than fallow, i.e., land available for cultivation but not yet taken up, and 52,620,000 acres, or 8 per cent, were kept fallow in the year of report. The net area actually cropped in the year was

	Proportion of cropped to total area.	Population per 100 acres of cropped area.

British India	36 "	110

therefore 219,192,000 acres, or 36 per cent of the total area, as against 224,166,000 acres in the preceding year. The proportion of cropped to total area and the number of population per 100 acres of cropped area in each province are stated in the margin. The proportion of cropped to total area is highest in Bombay and lowest in Burma. This net cropped area of 219,192,000 acres, however, excludes areas cropped

more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 246,989,000 acres, as against 255,356,000 acres in the preceding year.

The term "forests" in the returns of Agricultural Statistics means "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded and entered in the column "net area cropped". The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons,* the chief amongst which are the following:—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods; (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers; (3) certain village lands worked by the Forest Department and returned as forest lands by that Department are not treated as forests in the returns of agricultural statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area returned in the agricultural statistics (82,623,000 acres in 1913-14), 23 per cent lies in Burma, 20 per cent in the Central Provinces and Berar, 16 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 20 per cent in other provinces.

As can naturally be expected, most of the barren and unculturable lands lie in the hilly tracts of Burma and of southern India and in the dry and deserty regions of north-western India. Of the total area "not available for cultivation" (147,169,000 acres in 1913-14) about 31 per cent lies in Burma, 16 per cent in the Madras Presidency, 10 per cent in Sind, and 8 per cent in the Punjab.

The head "culturable waste other than fallow" shows lands available for cultivation but not taken up. It includes areas such as groves not classed in the cropped area, and areas under bamboos and thatching grass when not

* For differences in respect of provinces, see notes at foot of Table II, Nos. 25 to 60.

forming parts of forest areas.* Of the total culturable waste lands (115,587,000 acres in 1913-14), 22 per cent is in Burma, 15 per cent in the Punjab, 13 per cent in Assam, 12 per cent in the Central Provinces and Berar 9 per cent in the Madras Presidency, and the remaining 29 per cent in the other provinces.

The maximum period for which land left uncultivated is reckoned as fallow varies in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency, according to local laws and customs. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste". Owing to this diversity of practice, the classification as between "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, 6 years, would be treated as fallow in the Bombay Presidency but as culturable waste in the Punjab. The total area returned as "current fallow" in 1913-14 was 52,620,000 acres, as against 48,760,000 acres in the preceding year, or an increase of 8 per cent.

The total area irrigated in 1913-14 was 46,836,000 acres, as against 45,539,000 acres in the preceding year. Of this, 18,271,000 acres were irrigated from Government canals, 2,175,000 acres from private canals, 6,304,000 acres from tanks, 13,867,000 acres from wells, and 6,219,000 acres from other sources of irrigation. In India irrigation on an extensive scale is ordinarily resorted to in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan),

where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1913-14, 24 per cent was in the Punjab, 21 per cent in the Madras Presidency, 25 per cent in the United Provinces, 9 per cent in Bihar and Orissa, 7 per cent in Sind, and the remaining 14 per cent in the other provinces. The proportion of irrigated to total cropped area in each province is stated in the margin.

The figures in the preceding paragraph do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas cropped more than once as separate areas for each crop, the gross area of irrigated crops was 50,562,000 acres in 1913-14, as against 49,222,000 acres in the preceding year. Of this area, 42,461,000 acres, or 84 per cent, were under food crops, and 8,065,000 acres or 16 per cent under non-food crops. Of the irrigated food-crop area, 9,706,000 acres were cropped with wheat, 28,675,000 acres with other cereals and pulses, and 4,080,000 acres with other food crops. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table II (pages 46-49).

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops; in such cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crops by the village accountant. In the same

* For details in provinces, see notes at foot of Table II, Nos. 26 to 40.

province this procedure is also followed in the case of oil seeds thinly sown in combination with food-grains; in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops was, as stated above, 217 million acres in 1913-14 as against 255 million acres in the preceding year, or a decrease of 8 million acres or 3 per cent. The different classes of crops and the area occupied by each are stated in the margin. Of the total cropped area, food-

	Thousand acres.	Per cent of total.
Food-grains	191,573	77.7
Condiments and spices	1,233	0.5
Sugar	2,703	1.1

Miscellaneous non-food crops	1,113	0.5
Total non-food crops	44,113	17.9

crops occupied about 202,406,000 acres or 82 per cent, and non-food crops about 44,113,000 acres or 18 per cent. Of the food-crops, food-grains (cereals and pulses) occupied as much as 191,573,000 acres or about 78 per cent of the total cropped area, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops * together) occupied some 10,633,000 acres or only 4 per cent of the total. Of non-food crops, fibres, such as cotton, jute, hemp, etc., occupied 19,895,000 acres or 8 per cent of the total cropped area, and oilseeds occupied 14,658,000 acres or 6 per cent. The other non-food crops *—dyes, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops—together occupied some 9,560,000 acres or about 4 per cent of the total.

The area under food-grains (191,573,000 acres) showed a net decrease of 9,800,000 acres or 5 per cent as compared with the preceding year. Food-grains

Rice	73,908	78,752	-1,844
Wheat	22,685	23,861	-1,176
Barley	7,306	7,420	-114
Jawar	21,405	20,968	+437
Bajra	15,385	16,289	-904
Ragi	4,371	4,458	-87
Maize	6,167	6,318	-151
Gram	9,237	12,423	-3,186
Other grains and pulses	33,149	30,908	+2,241

Food-grains
The actual increase or decrease under each kind of grain is stated in the marginal table. It will be seen that the area under all the grains except jawar showed a decrease. The monsoon of 1913 after the middle of July was irregular, and the rains in the United Provinces and Central India ceased in early September.

In parts of Bengal, Bihar and Orissa, and also in Madras, excessive rain resulted in heavy floods. The winter rains were also deficient in the United Provinces, Central India, and Rajputana. Of the total area shown in the table under food-grains (192 million acres in 1913-14), 17 per cent was in the United Provinces †, 15 per cent in the Madras Presidency, 14 per cent in Bihar and Orissa, 11 per cent in Bengal, 10 per cent each in the Punjab and the Bombay Presidency, 9 per cent in the Central Provinces and Berar, and the remaining 14 per cent in the other provinces.

The area under oilseeds (14,658,000 acres) showed a net decrease of 278,000 Oilseeds. acres or 2 per cent as compared with the preceding year. The actual increase or decrease under each kind of oilseeds is stated in the margin (in thousands of acres). While the area under sesamum and rape and mustard showed an increase, that under linseed and other oilseeds showed a decrease.

	THOUSAND ACRES.		
	1913-14	1912-13	Decrease
Linseed	2,269	3,125	-856
Sesamum	4,279	4,164	+115
Rape and mustard	4,083	3,555	+528
Other oilseeds	4,027	4,092	-65

* For a list of these crops, vide Appendix D.

† In the United Provinces, the whole of the area of the land sown with food-grains mixed with oilseeds is shown under food-grains in this table. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 3,000,000 acres in the whole province in 1913-14. Excluding this area of 3 million acres of oilseeds, the total area under food-grains in British India in 1913-14 would come to 189 million acres instead of 192 million acres stated above.

Of the total area under oilseeds shown in this table (15 million acres), 22 per cent was in the Madras Presidency, 15 per cent in the Central Provinces and Berar, 14 per cent in Bihar and Orissa, 12 per cent in Bengal, 10 per cent in Burma, 8 per cent in the Punjab, 7 per cent in the Bombay Presidency, 5 per cent in the United Provinces,* and the remaining 7 per cent in the smaller provinces.

Condiments and
spices.

The total area under condiments and spices in 1913-14 was 1,288,000 acres, as against 1,390,000 acres in the preceding year, or a decrease of 102,000 acres or 7 per cent. As is to be expected, spices are grown mostly in the southern parts of India: nearly half (47 per cent) of the total area under condiments and spices in 1913-14 was in the Madras Presidency and 13 per cent in the Bombay Presidency.

Sugar.

The total area under sugar in 1913-14 was 2,708,000 acres as against 2,712,000 acres in the preceding year, or a decrease of 4,000 acres or 0.1 per cent. Of this area, about 2,542,000 acres were occupied by sugarcane, as against 2,547,000 acres occupied by that crop in the preceding year. More than half (55 per cent) of the sugarcane area was in the United Provinces, 16 per cent in the Punjab, 10 per cent in Bihar and Orissa, 9 per cent in Bengal, and 3 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 166,000 acres as against 165,000 acres in the preceding year. About 47 per cent of this area was in the Madras Presidency and 36 per cent in Bengal.

Fibres.

The total area under fibre crops was 19,895,000 acres in 1913-14 as against 18,268,000 acres in the preceding year, or an increase of 1,627,000 acres or 9 per cent. The actual increase or decrease under the several kinds of fibre is

	THOUSAND ACRES		Increase (+) or Decrease (-)
	1913-14	1912-13	
Cotton	15,844	14,188	+1,706
Jute	3,186	3,324	-188
Other fibres	915	806	+109

shown in the marginal table.

The area under cotton showed an increase of 1,706,000 acres or 12 per cent. Of the total cotton area, 30 per cent was in the Central Provinces and Berar, 26 per cent in the Bombay Presidency, 17 per cent in the Madras Presidency, 12 per cent in the Punjab, and 10 per cent in the United Provinces. The area under jute showed a decrease of 188,000 acres or 6 per cent. About 87 per cent of the total jute area was in Bengal and the remaining 13 per cent in Bihar and Orissa and Assam. Other fibres also showed an increase of 109,000 acres or about 14 per cent as compared with the preceding year.

Dyes.

The total area under dyes was 588,000 acres in 1913-14. Of this, the area occupied by indigo was 169,000 acres as against 227,000 acres in the preceding year, or a decrease of 58,000 acres or 26 per cent. The cultivation of the indigo plant continued to decline, owing to the competition of the synthetic dye.† Of the total indigo area, 37 per cent was in Bihar and Orissa, 33 per cent in the Madras Presidency, 14 per cent each in the Punjab and the United Provinces. Other dyes occupied an aggregate area of 419,000 acres.

Drugs and narcotics.

The total area under drugs and narcotics was 1,949,000 acres in 1913-14 as against 1,931,000 acres in the preceding year. The actual increase or decrease

	THOUSAND ACRES		Increase (+) or Decrease (-)
	1913-14	1912-13	
Opium	170	197	-27
Coffee	86	92	-6
Tea	573	558	+14
Tobacco	1,002	965	+37
Cinchona	5	4	+1
Indian hemp	2	2	...

under each of the principal kinds of drugs and narcotics is stated in the margin. Of the four principal kinds of drugs and narcotics, namely, opium, coffee, tea, and tobacco, tea and tobacco showed an increase, while the other two showed a decrease. The area

* The figures for the several heads of oilseeds in this table against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1913-14 for the whole of the United Provinces to about 3 million acres. Including this area, the total area under oilseeds in British India in 1913-14 would come to 18 million acres instead of 15 million acres stated above.

† Cf. Review of Trade, 1913-14, under "Indigo," Chapter III, pages 20-21. Also Review of Trade, 1914-15, page 51.

under cinchona showed an increase of 1,000 acres, and that under Indian hemp (ganja) remained practically the same as in the preceding year. Other drugs and narcotics occupied an aggregate area of 119,000 acres.

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucern, fodder jawar, and carob or locust tree. The total area under fodder crops in 1913-14 was 5,910,000 acres as against 5,770,000 acres in the preceding year.

The total area occupied by fruits and vegetable crops in 1913-14 was 5,721,000 acres as against 5,466,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix D.]

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,229,000 acres. Of this, about 1,116,000 acres was occupied by miscellaneous food crops and about 1,113,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on page 119 and Appendix D.]

The total extent of land on which more than one crop was raised during the year was 27,797,000 acres as against 31,191,000 acres in the preceding year.

The statistics recorded in Table IV are based mainly on cattle censuses. The census is, however, not taken simultaneously in the different provinces, nor is it taken every year in all the provinces. In Burma, Manipur Pargana, and the Central Provinces and Berar, the census is taken annually, while in the United Provinces, Assam, Ajmer-Merwara, the Punjab, the North-West Frontier Province, the Bombay Presidency, the Madras Presidency, and Coorg, it is taken once in five years. The last quinquennial census was taken in 1909-10 in the Bombay Presidency, the Madras Presidency, Coorg, and Assam, in 1913-14 in the Punjab, the North-West Frontier Province, Delhi, and Ajmer-Merwara, and in 1914-15 in the United Provinces. In Bengal a cattle census was taken for the first time in 1912-13, which gave the numbers of bulls and bullocks, cows, buffaloes, and young stock. [Young stock represents oxen and buffaloes not old enough for work or to produce young.] In Bihar and Orissa a census was taken in 1913-14. The figures for Bihar and Orissa prior to 1913-14, as also those for Bengal for years prior to 1912-13, are based on estimates. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. In making up the totals for British India for each year, the figures last collected in the provinces where annual censuses are not taken are repeated year after year until the next census is taken. It would, therefore, serve no useful purpose to compare the total figures of one year with those of another, as the totals thus constituted do not really represent the number of stock in the year against which the figures are shown in the table. The animals may be divided into three classes, namely, (1) Bovine, comprising bulls and bullocks, cows, buffaloes, and young stock (i.e., calves and buffalo calves), (2) Ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. The total number of live-stock

	Number in thousands				
	Bovine	Ovine	Others	Ploughs	Carts
Bengal	25,324	Not available			
Madras	20,069	18,178	189	3,806	1,278
Bombay and Sind	9,677	5,397	491	1,247	686
United Provinces	30,423	10,008	837	4,948	783
Bihar and Orissa	20,119	6,576	203	3,224	459
Punjab	15,479	9,109	1,472	2,314	295
Burma	5,824	223	92	616	639
Central Provinces and Berar	11,712	2,082	192	1,421	674
Assam	2,723	597	11	468	28
North-West Frontier Province	1,271	1,147	211	226	5
Ajmer-Merwara	334	412	11	49	12
Delhi	145	32	13	14	8
Coorg	150	3	...	33	...
Manipur	6	1	...	1	...
Total	143,276	53,765	3,722	19,491	4,976

of each of these three classes in each province, together with the numbers of ploughs and carts, is stated in the margin (in thousands). Of the total number of live-stock of the bovine class (143 millions), which is cattle proper, the United Provinces account for 21 per cent, Bengal 18 per cent, the Madras Presidency and Bihar and Orissa 14 per cent each, the Punjab 11 per cent, the Central Provinces and Berar 8 per cent, the Bombay Presidency including Sind 7 per cent, and other provinces the remaining 7 per cent. In the case of ploughs also the United Provinces come first with 27 per cent of the total (excluding Bengal for which figures are not

available), followed by Madras (21 per cent), Bihar and Orissa (17 per cent), and the Punjab (13 per cent). In the case of stock of the ovine class (sheep and goats), however, Madras accounts for 34 per cent of the total (excluding Bengal), followed by the United Provinces (19 per cent), the Punjab (17 per cent), Bihar and Orissa (12 per cent), and the Bombay Presidency including Sind (10 per cent). In the case of carts also, Madras accounts for 26 per cent of the total (excluding Bengal), followed by the Central Provinces and Berar

	Number of cattle		The marginal table shows the number of live-stock of the bovine class (which is cattle proper) per 100 acres of cropped area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of cropped area ranges between 33 in the Bombay Presidency and 118 in Ajmer-Merwara, while the number per 100 of population ranges between 36 in Delhi and 98 in the Manipur Pargana. The average for British India, as a whole, is 65 per 100 acres of cropped area and 60 per 100 of the population.
	Per 100 acres of cropped area.	Per 100 of population.	
Bengal	104	57	
Madras	59	49

Manipur	91	98	

Table V
Land Revenue
Assessment.

The varieties of tenure in the different provinces are included in Table V and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari permanently settled. When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiya*t*wari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled*, i.e., where the land revenue has been fixed in perpetuity, or *temporarily settled*, i.e., where the land revenue is fixed for a period of years only. Village communities and raiyatwari tenures are as a rule temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure in 1913-14. The figures roughly indicate the extent to which the different systems prevail:—

Province.	In thousands of acres.			Total
	Raiyatwari.	Zamindari (individual proprietors or village communities).		
		Permanently settled	Temporarily settled	
Bengal	39,211	11,269	50,480
Madras	61,286	29,852	...	91,138
Bombay	44,876	...	3,753	48,629
Sind	30,257	30,257
United Provinces	7,542	60,793	68,335
Bihar and Orissa	41,452	11,760	53,212
Punjab	61,856	61,856
Burma	108,881	108,881
Central Provinces	12,142*	...	40,456	52,598
Berar	11,329*	11,329
Assam	25,844	3,930	1,532	31,306
North-West Frontier Province	8,433	8,433
Ajmer-Merwara	974	797	1,771
Delhi	338	338
Coorg	1,012	1,012
Manipur	31	31
Total	295,658	122,961	200,992	619,611

It will thus be seen that about 48 per cent of the total area is held by *raiya*t*wari* proprietors, while 20 per cent is held by permanently settled, and 32 per cent by temporarily settled, *Zamindari* proprietors.

* Including Government forests.

The statistics for this table are collected annually in Burma, Assam, Manipur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available the total revenue from land

	Total revenue from land (R1,000)	Total popula- tion (1,000)	Revenue per head R	a
Bengal	2,74.67	44,568	0	10
Madras	8,72.24	41,405	1	10
Bombay	3,09.23	15,134	2	1
Sind	90.90	3,513	2	9
United Provinces	6,57.68	47,190	1	6
Bihar and Orissa	1,57.13	34,490	0	7
Punjab	3,79.40	19,548	1	15
Upper Burma	1,58.74	4,112	3	14
Lower Burma	3,22.04	6,465	6	0
Central Provinces	1,04.65	10,873	0	15
Berar	87.29	3,065	2	14
Assam	77.83	6,714	1	3
North-West Frontier Province	26.90	3,255	1	3
Ajmer-Merwara	3.65	501	0	12
Delhi	4.00	397	1	0
Coorg	3.65	175	2	1
Manipur	16	7	2	6
Total	33,30.83	240,432	1	6

(excluding cesses) for the whole of British India amounts to about ₹33½ crores. This represents the actual realisable demand* for the year, no account being taken of the collection of arrears for past years, nor of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to the tables on pages 278 to 319.

The total number of transfers for 1913-14, as recorded in Table VI, was 879,200, of which 858,300 were by private contract or gift, and 20,900 by order of the court. The total area of the transfers by private contract or gift was 4,760,400 acres, and by order of the court 422,300 acres. These statistics are incomplete. They do not include transfers in Bengal (for which figures are not available), nor in Madras (for which the table has been discontinued from 1913-14); in Bihar and Orissa no information is available regarding transfers under orders of civil courts. As explained in the footnotes to Table VI, the figures for other provinces also are not always complete. It may be noted that voluntary transfers are those made by actual contract or gift, transfers by succession or inheritance not being taken into account: compulsory transfers are those effected through a court, civil or revenue. Transfers of land under the Land Acquisition Act and temporary transfers, such as leases, simple mortgages, and redemptions of mortgages, are excluded from the table. Mortgages with possession are treated as transfers and included in Table VI.

The Agricultural Department in each province maintains a statement of the average yield per acre of land of average quality, irrigated and unirrigated, for crops in each district. In order to test the accuracy of the standards of normal or average yield and to revise these, if necessary, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the provincial agricultural department. The results of the experiments are reported to the head of the provincial agricultural department, who revises the standards in the light of these returns. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table (appendix A) shows the figures as last revised with reference to the crop-cutting experiments made up to 1911-12. As time goes on the figures become more accurate, and it may be noted that the general trend of the changes made is in an upward direction. In Bengal the yield of sugarcane has been raised from 2,460 lbs to 2,905 lbs, and that of jute from 1,200 lbs to 1,271 lbs. Maize and rice in the United Provinces have been raised from 1,050 lbs and 850 lbs to 1,100 lbs and 900 lbs, respectively. In the Punjab rapeseed has been raised from 254 lbs to 396 lbs and cotton from 74 lbs to 118 lbs. In Sind cotton has been raised from 308 lbs to 380 lbs, due

* Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in Madras, the North-West Frontier Province, Sind and Burma; while such remissions only as are actually sanctioned within the year of report are excluded in the Central Provinces and Berar, the United Provinces, Bombay and the Punjab. No deduction for remissions is made in Bengal, Bihar and Orissa, Assam, Ajmer-Merwara, Coorg and Manipur.

mainly to the adoption of Egyptian seed, in Thar and Parkar and bajra from 776 lbs to 971 lbs. In Madras irrigated and unirrigated cotton is respectively 87 lbs and 55 lbs against 66 lbs and 41 lbs formerly, while irrigated jawar has been raised from 1,118 lbs to 1,379 lbs. In some instances the standards have decreased. In Bengal the average yield of winter rice has been put at 983 lbs; in the Punjab the yield of bajra at 379 lbs and of gram at 549 lbs; while the yield of maize in the North-West Frontier Province is now estimated at 1,202 lbs.

Territorial changes.

Vernacular terms and classification of crops.

Appendices B, C, and D perhaps require little or no comment. Appendix B, which shows changes that have been made from time to time in district or provincial boundaries, will explain the variations in total areas of districts and provinces in Table I, so far as they are due to territorial changes. Appendix C explains vernacular terms used in this volume, and Appendix D the classification in Table III of the various crops cultivated in India.

The charts and diagrams in the volume illustrate (1) total area cropped in 1913-14 with shares of food and non-food crops, and (2) live-stock divided between bovine, ovine, and others (3) total cultivable area, (4) uncultivable area and net area cropped, (5) culturable waste and current fallows, (6) area cropped and area under food crops, (7) area under non-food crops and irrigated area cropped, (8) and (9) areas under selected crops, (10) areas under selected crops in 1913-14 as compared with those in 1909-10, (11) shares of provinces in the areas under certain principal crops in 1913-14.

I have the honour to be,

SIR,

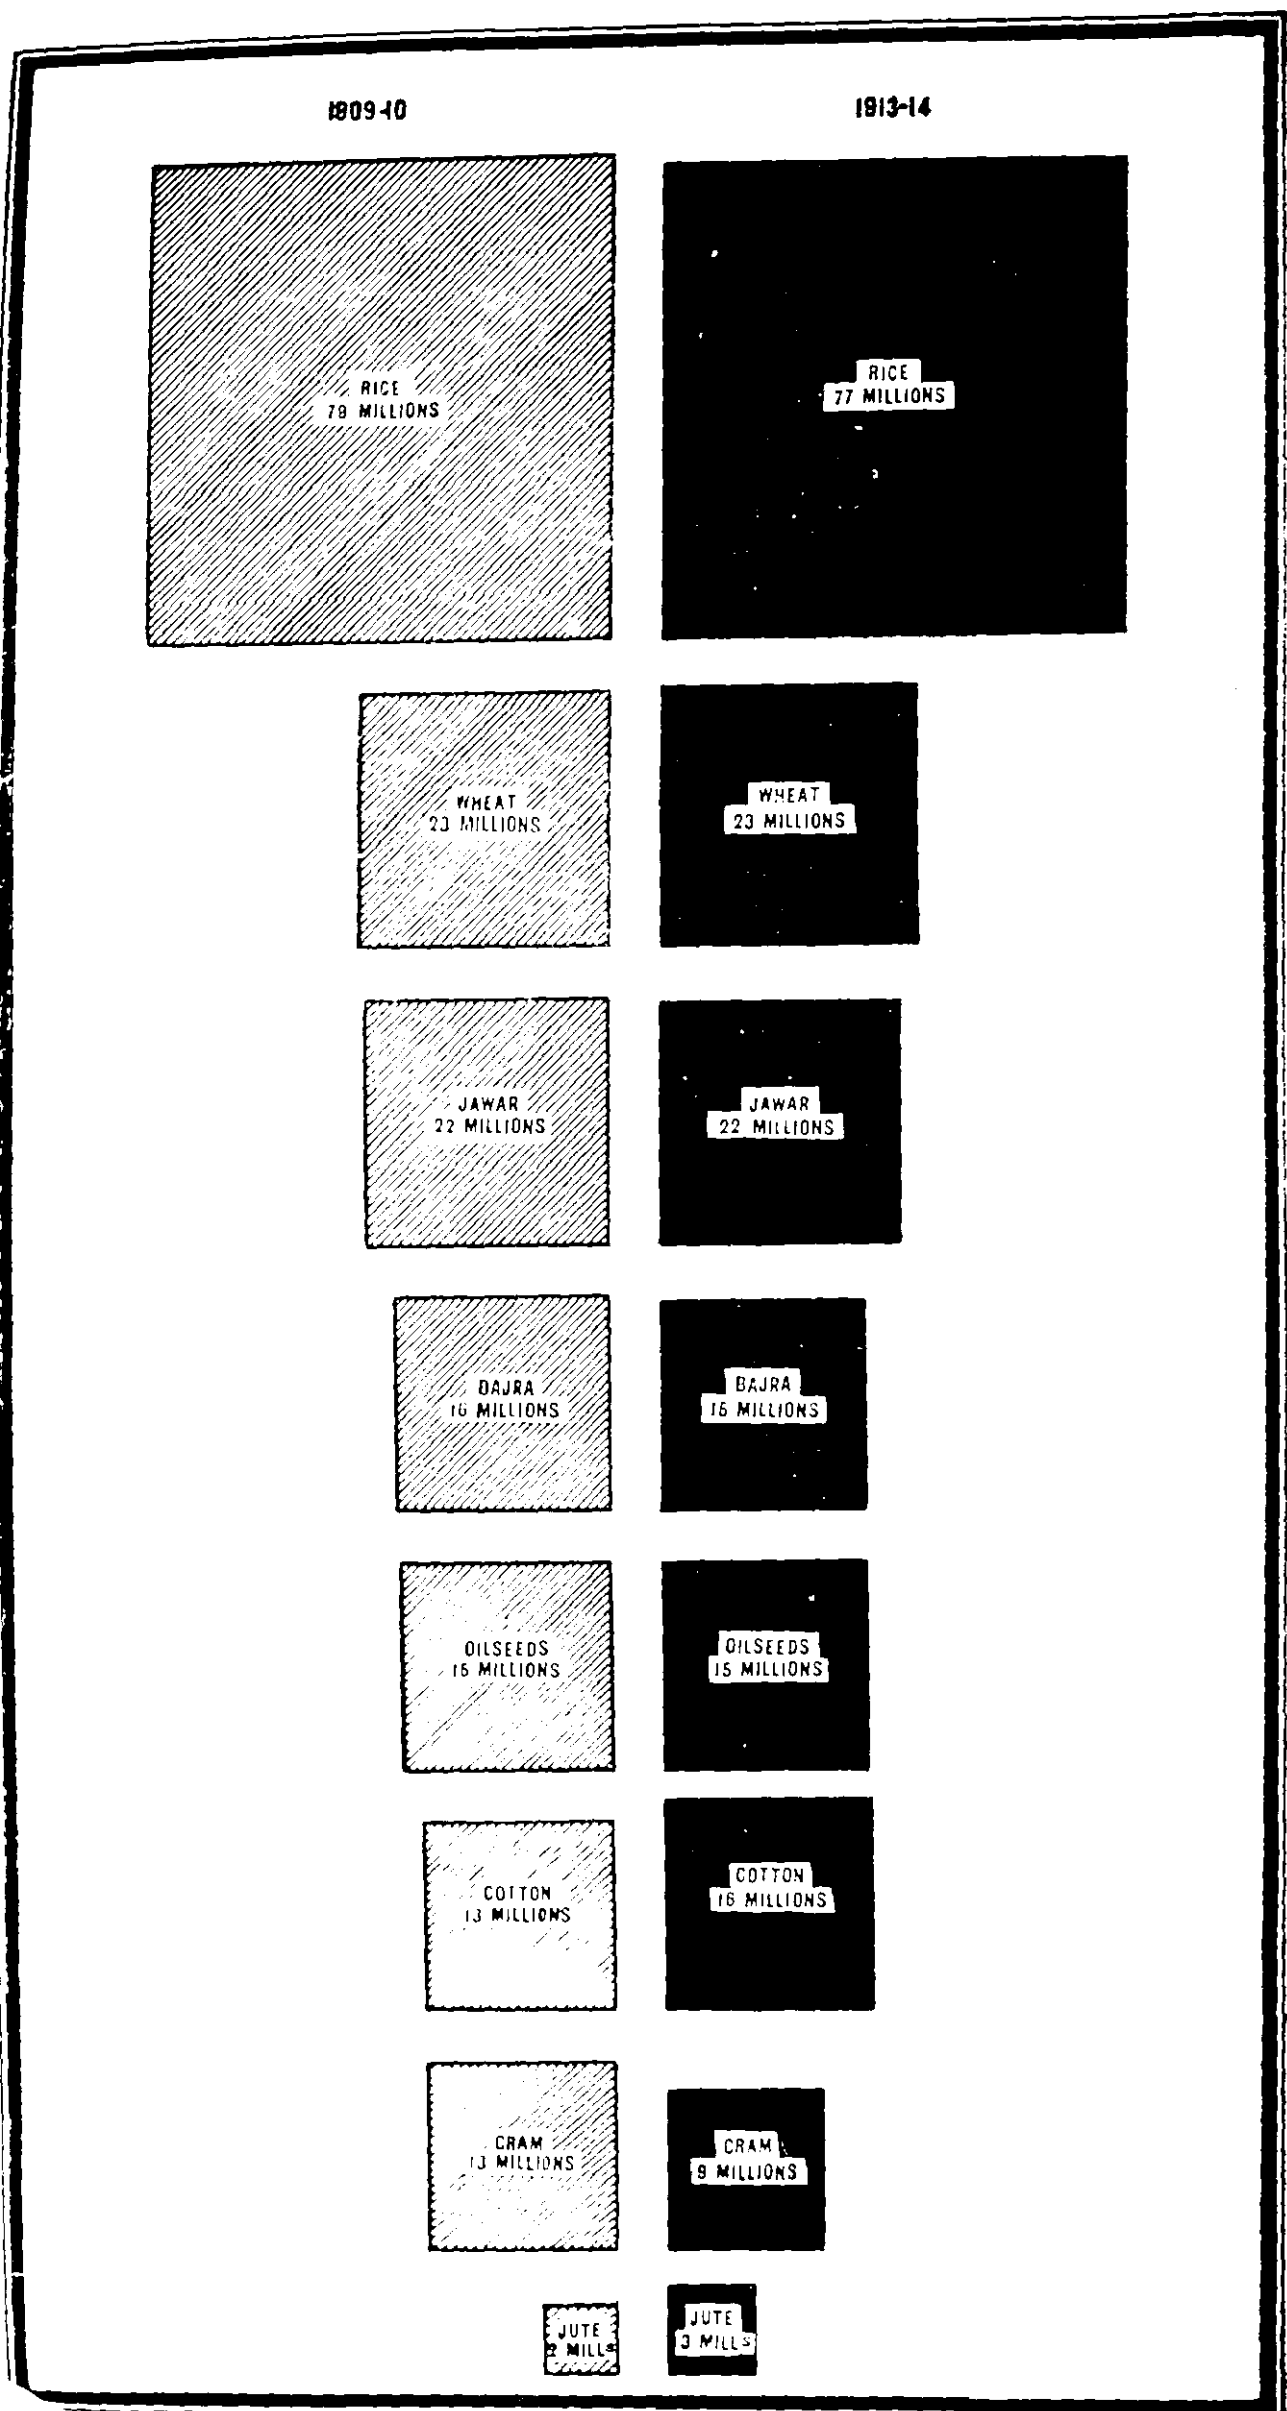

Your most obedient servant,

G. FINDLAY SHIRRAS,

Director of Statistics.

DEPARTMENT OF STATISTICS,
Calcutta, March 22, 1916.

10. Areas (in acres) under certain principal crops in 1913-14, as compared with 1909-10 (five years ago).

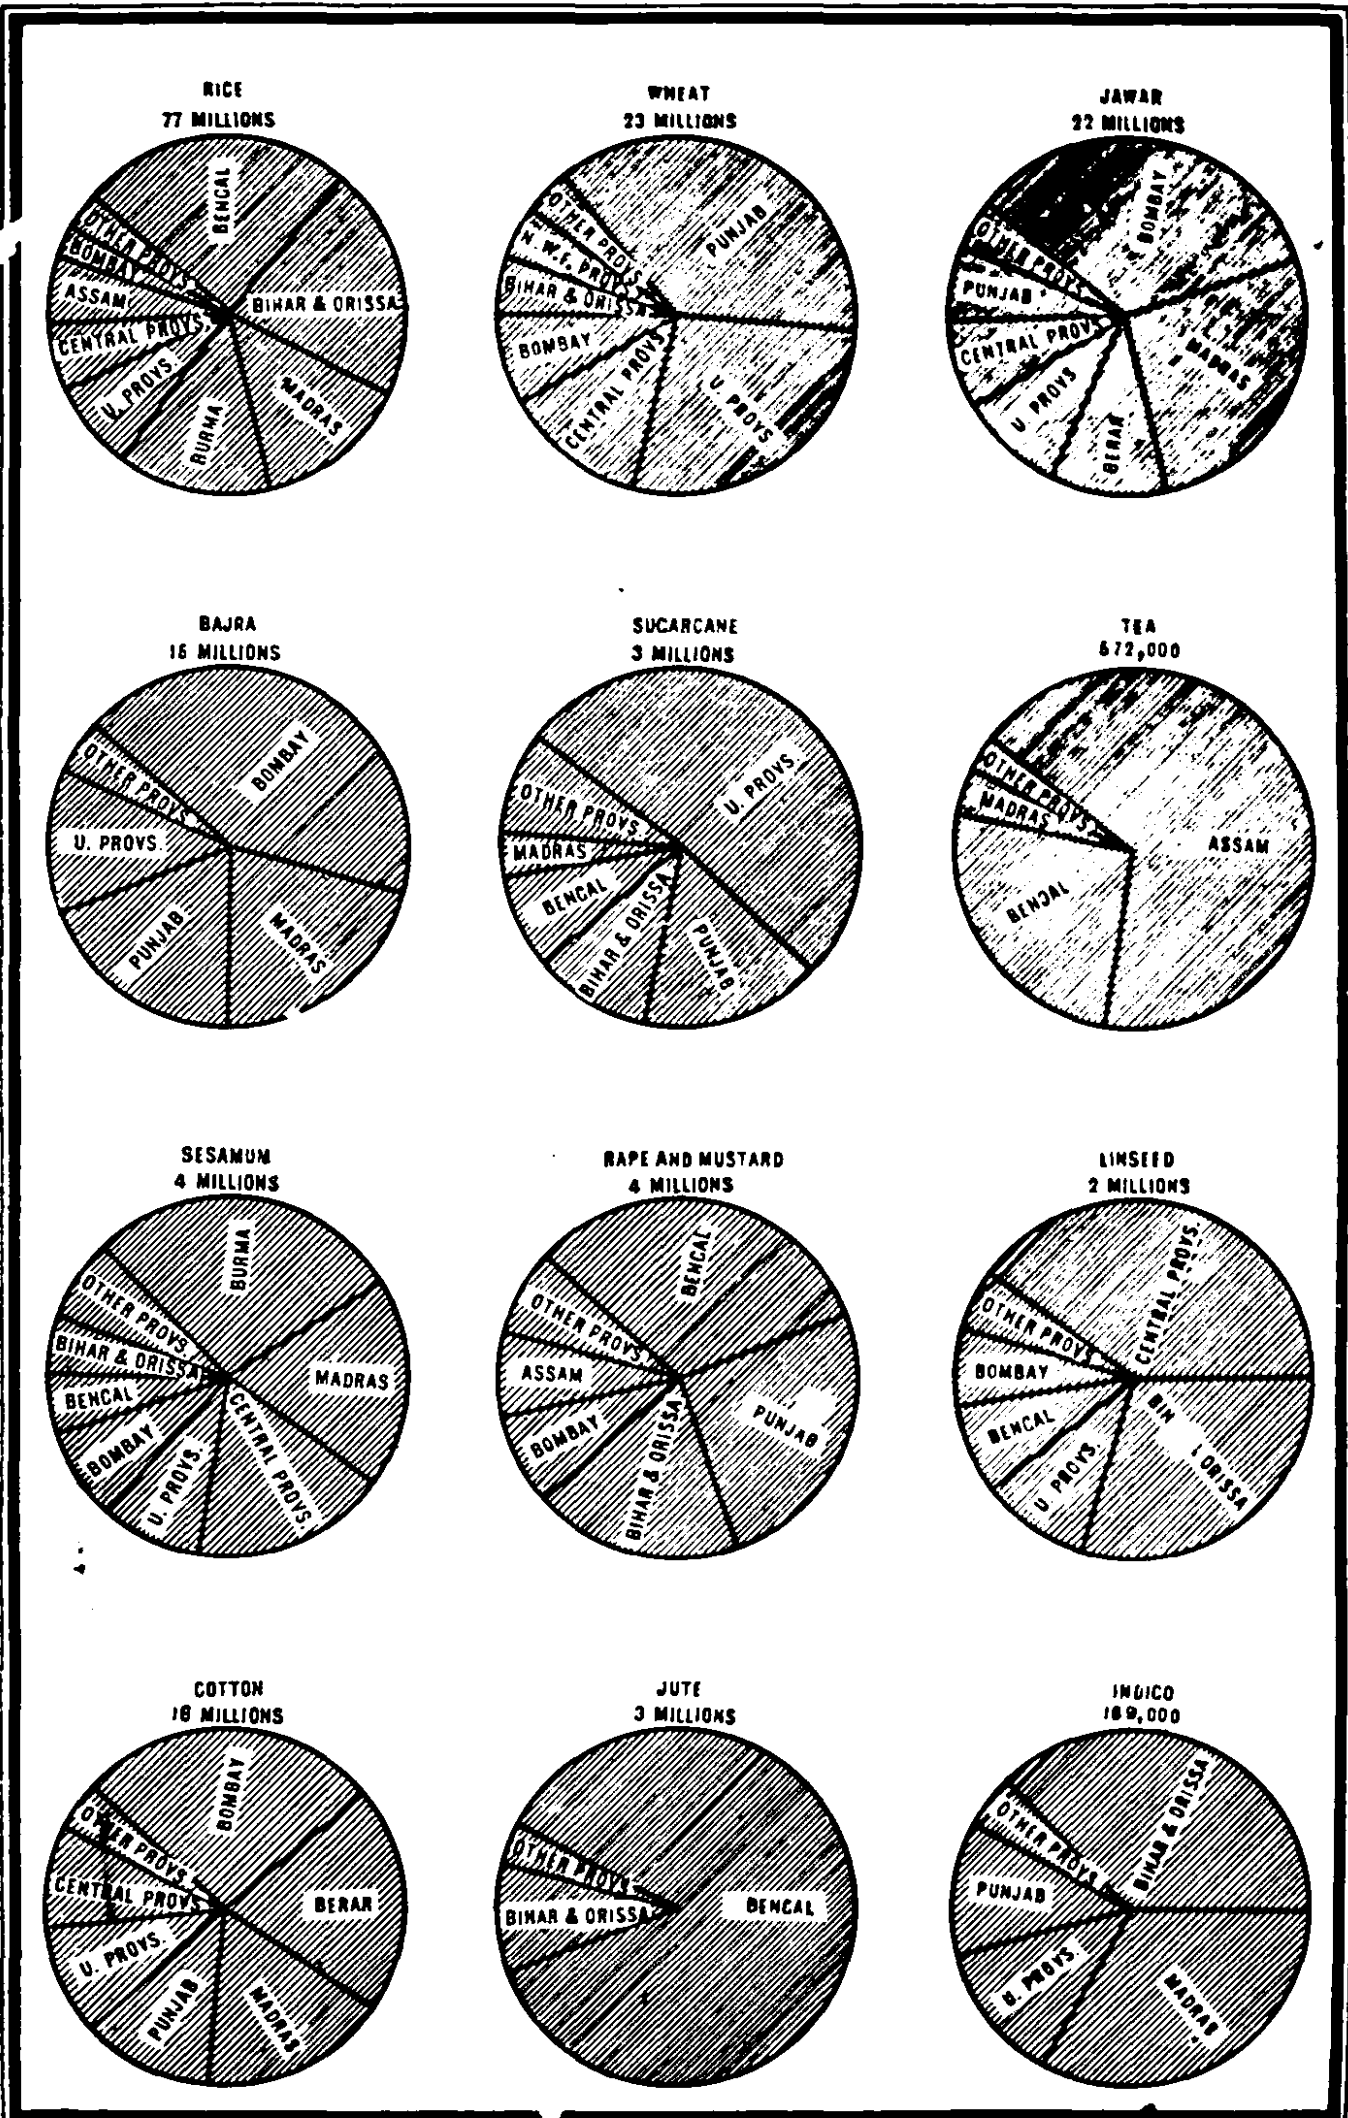

AREAS
(In millions of acres)

NOTE:—"Other crops" are barley, maize, gram, minor food-grains, condiments and spices, fibres other than cotton and jute, dyes, drugs and narcotics, fodder crops, fruits and vegetables, and miscellaneous crops.
Statistics for years prior to 1907-08 exclude certain areas for which returns were not available.

11. Shares of provinces in the total area (in acres) under certain crops in 1913-14.

NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

TABLES

Summary Tables

No. 1—GENERAL SUMMARY 1904-05 TO 1913-14

Classification of area (thousand acres)

(a) Including Croatia and Slavonia

(c) Excluding Croatia-Slavonia

(e) Includes Sorghum

(g) Not including the (c) invaded regions

(i) Not available

(b) Excluding Isle of Man and Channel Islands

(d) Late-sown Maize only

(f) For 10 Govts. only

(h) Area sown up to 31st March

(j) Winter wheat only

^a Including figures for Native States, namely, 2,518,400 acres for rice, 5,977,000 acres for wheat, 853,500 acres for barley, 1,059,000 acres for maize, and 9,331,000 acres for cotton. The figures for rice, barley, and maize for Native States are, however, not complete, as returns for those crops are not furnished by a number of States.

Note.—The figures for foreign countries have been taken partly from the Year Book of the Department of Agriculture, United States of America, 1914, and partly from the Bulletin of Agricultural and Commercial Statistics published by the International Institute of Agriculture, Rome.

1913-14					15,477,896

(a) Increase due to adoption of the latest census figures

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The provincial areas in this column exclude Native States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Shan States in Burma and the Tribal areas in the North-West Frontier Province.

Column 3.—In this column is entered the area of any Feudatory or Tributary States included in column 2.

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Native States) for which the statistics required for tables II and III were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 3 to 6 of Table II.

Note.—(1) The variations in the figures for 1912-13 for certain districts are due to adoption of the latest census figures. The area cadastrally surveyed up to 1913-14 comprises 16,415,394 acres or about 33 per cent of the total area of the province (exclusive of Native States). The figures for the remaining area of the province are based more or less on estimates.

(2) For explanations of all material changes in area according to professional survey, in this as well as in the succeeding sections of Table I, reference is invited to the table stating changes made in boundaries, Appendix P.

1913-14	4,299,968	4,299,968	4,276,851

Column 2 states the area as ascertained by the provincial survey department supplemented, for tracts which have not come under the operations of that department, by areas obtained with the computing scale from the Survey of India atlas sheets of the localities concerned.

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,556,226 acres) entered in column 6 for 1913-14 (page 20), 66,873,595 are based on actual returns and 22,682,671 on estimates.

Column 2 states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (45,512,731 acres) entered in columns 5 and 6 for 1913-14 (page 22), 44,516,378 acres are based on actual returns and 9,996,353 acres on estimates.

Column 2 states the area as returned by the provincial revenue survey and settlement department, supplemented in the case of Native States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts plus the estimated area of unsurveyed tracts.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the area in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,278,264 acres) entered in these columns for 1913-14, 30,153,356 acres are based on actual returns and 124,908 acres on estimates.

(a) Constructed in 1912-13 out of the Hyderabad and Thar and Parkar districts.

(a) Rampore, Tehri, and Benares. In 1910-11 the area of the Family Domains of the Maharaja of Benares situated in the Mirzapur district was constituted as the State of Benares. This area has therefore been excluded from that year from the area of the Mirzapur district and included under the head "Feudatory and Tributary States not included in the area of any British district." The portion of the Maharaja's domains situated in the Benares district remains British Territory.

Columns 5 and 6—For tracts which possess no agency for collecting statistics, the figures are based on estimates. Of the total area (52,821,663 acres) entered in column 6 for 1913-14 for the Province of Agra, 46,430,663 acres are based on actual returns and 7,391,000 acres on estimates.

Columns 2, 5 and 6.—Where there has been no professional survey of the district, estimates framed in the best manner possible are accepted, subject to revision from time to time as surveys extend. Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Mystikina, and Katha districts) have been included from 1906-07 and for the Paokko Hill Tracts from 1907-08. Of the total area (53,973,231 acres) entered in columns 5 and 6 for 1913-14 for Upper Burma (page 26), 16,672,708 acres are based on actual survey and 37,130,523 acres on estimates.

(a) Decrease due to revision of estimate

The variations in the areas shown in different years under the same item in the same province or district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change

Column 2.—“Forests” mean “any land classed or administered as forest under any legal enactment dealing with forests.” Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the forest administration reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned as forests by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture

Column 4 includes groves not classed in the cropped area. Areas under bamboo and thatching grass, when not forming parts of forest areas, are included in this column

Columns 9 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only
 Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13) is thus due to the inclusion in column 18 of the area irrigated at both harvests

(a) Includes 1,700 acres in Kajsabali for which details are not available

(b) Includes 85,900 acres in Naini-Tal, Almora, and Garhwal for which details are not available

(c) Includes 26,777 acres in Purnea for which details are not available

* See explanations given in the footnotes (page 46)

(a) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the area of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different

(b) Includes unculturable Government waste and unculturable *bands*

(c) States the estimated area of culturable Government waste

(d) Shows (1) the estimated area of culturable *bands*, and (2) the difference between the net area cropped and the gross area of the actual holdings (exclusive of *bands*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained

Column 2.—Includes the area cultivated within forests, and excludes the area of forests in the Native State of Sandur, in Bellary, not included in the village papers. As the latter is included in the forest administration report, it accounts partly for the disagreement of its figures with those in this table.

Column 4.—Includes from 1911-12 areas occupied by *babul* and *casuarina* trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in table III.

Column 5.—Includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

Column 6.—Of the total net cropped area for 1913-14 (34,182,658 acres) stated in this column (page 60), 23,259,562 acres are based on actual returns, and 10,923,096 acres on estimates.

Col. 10.—The term "tanks" refers to a particular kind of dammed reservoirs. These reservoirs are formed by throwing dams across the alleys of small rivulets and streams to intercept water during the rains.

Col. 13.—Of the total area irrigated in 1913-14 (9,853,452 acres, page 61) 7,574,151 acres are based on actual returns, and 2,279,301 on estimates.

Table II—continued

NOTE.—Figures for unsurveyed villages are based on estimates.

Column 2.—Includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest returns, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3.—Includes all land recorded at the survey and settlement as unculturable, though at times a very small quantity of this land is cultivated.

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net cropped area (26,34,926 acres) entered in this column for 1913-14 (page 64), 23,813,007 acres are based on actual returns, and 1,571,919 acres on estimates.

(a) Variations due to bad season.

(a) See note on page 23

Column 2.—The figures do not agree with those in the forest administration report, because the revenue records do not state the most recent alterations of area due to erosion by the plus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do.

Column 6.—(Of the total net cropped area (4,321,471 acres) entered in this column for 1913-14, 4,319,616 acres are based on actual returns and 1,835 acres on estimates)

NOTE.—From 1906-07 estimates have been prepared and included for Almora, Garhwal, the hill portion of Naini Tal and of pargana Kera Mangraur in Mirzapur, for which complete figures were not available before. From 1910-11 the estimated area of the hill portion of pargana Kera Mangraur in Mirzapur has been omitted owing to its inclusion in the Benares State.

Column 2.—Includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report which exclude these areas. This column also includes the Siwalik Range in the Dehra Dun district.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Column 6.—Of the total net cropped area (24,317,463 acres, page 74) entered in this column for 1913-14 for the Province of Agra, 23,713,483 acres are based on actual returns and 604,000 acres on estimates.

(a) Increase in current fallows is due to decrease in cropped area owing to drought.

Columns 8 to 13.—Government canals include private canals except in Naini Tal, for which district separate figures for private canals have been obtained. From 1903-04 however, the areas irrigated from certain private canals in Budaun and Beas, from 1907-08 such areas in Gorakhpur, and from 1911-12 those in Dehra Dun, which were formerly included under "other sources," have been shown under the proper head "private canals." There are very few private canals in the United Provinces.

Of the total area irrigated in the Province of Agra in 1913-14 (5,327,800 acres, page 75), 6,792,990 acres are based on actual returns and 35,900 acres on estimates.

Column 2.—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,300 acres of mountain tracts in Kangra, 15,998,900 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates

Column 4.—Includes large areas of Government waste not allotted for cultivation

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually

(a) See note (a) given at foot of page 32. For statistics for the new Province of Delhi, see Table II, No. 25
(b) Variations due to unfavourable season

NOTE.—For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible.
 Column 2.—The area entered in this column is that given in the forest administration report, and includes reserved forests and fuel reserves. From 1906-07 estimates of the forest areas in certain hill tracts have also been included. The forest areas in the Shan States, which are included in the Forest Administration Report, are excluded from this table, no returns of agricultural statistics being prepared for those States.
 Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.
 Column 4.—Includes land thrown out of cultivation and abandoned. Groves, not classed in the cropped area, and bamboos, when not grown in forest areas, are also included in this column.
 Column 5.—Includes only such land left uncultivated as is actually in possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on and left uncultivated.

Column 2.—Shows the areas administered by the Forest Department; but the figures differ from those in the forest administration report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases riyatwari villages settled, thekadari villages surveyed, clearances and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

Column 3.—States areas covered with water, hill, or rock, and land occupied by buildings and roads

Column 4.—States (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow

Column 2.—Includes the forest area administered by the Forest Department, but excludes a large area of cultivated land in the Melghat taluk in Amrtdoti shown as forest in the forest report
 Column 3.—Includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; also includes unculturable portions of culturable fields
 Column 4.—Includes land available for cultivation but not given out
 Column 5.—Includes occupied culturable land left fallow for private reasons, such as grazing, rotation, etc.

1913-14 . . .	148,060	50,200	1,911,468	38,417	286,430	2,434,560		

Column 2—The figures represent reserved forests, but from 1909-10 the areas of forest villages within the reserves have been excluded from this column and entered under the appropriate heads of this table.
 Columns 3 and 4—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good.
 Column 5—Includes generally all lands which are thrown out of cultivation or not cultivated, but which remain in the occupation of leaseholders. Figures for the Naga and the Lushai Hills are rough estimates.
 Column 6—The figures are obtained from the district crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill district are estimates.
 (a) Variations due to revised classification.
 (b) Decrease due to extension of cultivation.

Column 2—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hasara administered by the district officer and other waste lands in Peshawar
 Column 3—Includes large areas of Government waste not allotted for cultivation
 Column 4—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year

This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant or is subsequently determined on formulae prescribed by the provincial authorities.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change. **Column 10 (Other food-grains including pulses).**—Arhar (pigeon pea), barbati lobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, choick (job's Tear), lentils, chana (common millet), kangni (Italian millet), kodo or varagu, kutki (littih millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wadalu or barti.

Column 28 (other dyes).—Aratto, chayroot, divi divi, henna, madder, morinda, safflower, saffron

Column 31.—In certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 35 (other drugs and narcotics).—Aloe, arcanut, sweet basil, betel-vine, country borage, bogoda brinjaf or nela mulaka dhatura, purple Bee-bane, isafgul, kolinj or rompali, sannr, soap nut, sweet flag

(a) Increase due to revised classification of crops

The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, and cotton and arhar, for which separate headings are provided in the crop statements are distributed in accordance with prescribed formulae and entered under the crops of which they are composed.

Columns 3, 4, 9, and 11.—The whole of the area of the land planted with food-grains wheat, barley, gram, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,371,000 acres in the whole of the United Provinces of Agra and Oudh in 1913-14.

OILSEEDS						Condiments and spices	SUGAR		FIBRES				District

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1913-14 (for the whole of the United Provinces of Agra and Oudh) to 267,000 acres of linseed, 550,000 acres of sesamum, and 2,154,000 acres of rapeseed.

No statistics are at present prepared by village or circle officers, except in the Sambalpur district. The figures for all other districts entered in this table are therefore merely estimates, except those for Patna, Gaya, Shahabad, Saran, Champaran, Muzaffarpur, Santhal Parganas, Hazaribagh, Ranchi, and Singhbhum in which the estimates are based on the figures collected during the cadastral survey.

In Cachar accurate statistics of the area under crops other than tea are available only for the cadastrally surveyed tracts, in Sylhet only for the Jaintia Parganas and Partabgarh, and in Goalpara only for the temporarily settled tracts. The figures for the permanently settled tracts in Sylhet and Goalpara and for the unsurveyed areas in Cachar are based on estimates. The figures for the five upper districts of the Assam valley represent the whole cropped area in these districts, with the exception of a small area cultivated by tribes paying house or poll tax in Lakhimpur, Sibsaagar, and Kamrup. In the Garo Hills district returns of areas under different crops are available for the plains tracts only, while those for the hill portions are estimates. The figures for the Khasi and Jaintia Hills and the Lushai Hills are rough estimates. Detailed statistics of the areas under different crops are not available for the Naga Hills

(a) Includes gram for 1913-14

(a) In Coorg the table is prepared quinquennially on a census taken every five years. The last census was taken in March 1910 by the dircs shanbógs, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in municipal towns are included.

(b) An annual census is taken on the 15th March in Manpur.

(c) The figures in columns 7 to 14 exclude Bengal (see table IV, No. 53)

Note.—Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts, in columns 2 and 3 have however, been revised since the publication of the previous issue of this volume. The census did not take into account the animals named in columns 7 to 11 nor ploughs and carts (columns 12 and 13). The figures for the years 1909-10 and 1910-11 for the districts of the Presidency and Burdwan Divisions and for Darjeeling are based on estimates. The figures for 1907-10 for Faridpur are based on information collected during survey operations conducted in that district in the period mentioned.

Note.—A census is taken every five years in Government (riyatwari) villages. The last quinquennial census was taken in 1909-10. In inam villages, there is no suitable agency for the work, and Collectors obtain information for these villages as best they can; it is not known to what extent any census is made in them. Previous to 1909-10, no information was available regarding live-stock in permanently settled (ramindari) estates and in towns and cantonments which did not form part of any revenue village; but from that year estimates for all these tracts have been prepared and included.

Note.—The figures are collected once in five years. The last quinquennial census was taken in 1909-10. All animals belonging to a family are entered against the name of the head of the family even though the animals are temporarily absent from the village. Animals belonging to other villages are excluded, and those belonging to a roving grazer who has no permanent residence are noted, but are not included in the village returns. The figures are regularly tested by circle inspectors (kanungoes). Stock statistics for the city of Bombay were collected for the first time in 1909-10.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The last census, which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts except Almorah, Garhwal and the hill tracts of Naini Tal. In these latter districts the last census was taken in 1912.

Note.—A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1914. All cattle in cantonments and municipalities as also those belonging to Government are included.

(a) Owing to redistribution of territories consequent on the formation of the province of Delhi (vide footnote (a) on page 32) the figures for Rohtak and Gurgaon were revised in 1912-13.

(b) See footnote on page 32.

Note.—Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *saikathayis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

Note—A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Note.—The statistics are based on a cattle census taken every five years. The census is, however, not taken simultaneously in the different districts. In the Assam Valley districts (excluding the permanently-settled tracts of Goalpara) and in Sylhet (Jaintia parganas only) the last census was taken in 1910. In Cachar it was taken in 1913, and in the Garó Hills (plains portion only) in 1913. No statistics are available for the permanently-settled tracts in Goalpara, for tracts other than Jaintia parganas in Sylhet, and for the hill tracts (a) For Jaintia Parganas only. The figures for 1904-05 inclusive estimates for other tracts also, but such estimates are not available for 1909-10

1912-13	*44,588,115	27,216,418	8,501,411	2,491,607	38,209,43
1913-14	*44,588,115	29,468,100	9,472,905	2,464,399	41,405,40

Notes.—The varieties of tenure are included, as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the provinces except in the Central Provinces and Berar.

Entry 2 (a).—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this head as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3.—This head is subdivided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net cropped area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year

* No details

† Includes 1,300,500 acres (in Dinaipur) for which details are not available

Entry 4.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, not those due by raiyats to the zamindars. The actual realisable demand for the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyan tax (Burma); (2) sale of Government estates, (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) motarpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, buccoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1966, capitation tax (Burma), petroleum well revenue, jade and amber revenue, thahameda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands.

Entry 5.—The population is that of the last general census.

* No detail.

The table is prepared quinquennially. The figures were last collected in 1913-14
Column 3 (a).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed poramboke, of minor inam lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, poramboke, and minor inams are entered. The entire area of whole inam villages is deducted in this column
Column 3 (b).—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers

Column 4 (a) - Raiyatwari; states the total occupied area as stated in village papers
 Column 4 (b) - For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column
 Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts
 Column 8 - Shows only the "ordinary revenue," as defined in the Civil Accounts, on area fully assessed
 Column 10 - The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (a)
 Column 11 states the entire population of raiyatwari and zamindari villages, respectively

Table V—continued

No. 76—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN BOMBAY IN 1911-12

DISTRICT AND NATURE OF TENURE	Total area (in acres) by survey, less feudatories [col. 2 of table I minus col. 3 of same table]	DEDUCT		BALANCE, THAT IS, FULLY ASSESSED AREA (IN ACRES) FOR WHICH FIGURES ARE AVAILABLE		Total revenue from land (excluding cesses) of district (col. 2)	Population of district (col. 2)	
		Area (in acres) not fully assessed	Area (in acres) for which the figures required for this table are not available	Total	Cultivated

This return has up to 1911-12 been prepared annually; in future it will be prepared quinquennially
 Column 1.—Lands held under special tenures, such as talukdari, mehwas, udhad-jambandi, narvadari, and bhagdari in Gujarat and khoti and imfat in the Konkan, are classed as "zamindari and village communities (temporarily settled)"
 Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area
 Column 3 (b) includes land not available for cultivation or unassessed
 Column 4 includes land under temporary cultivation, also pot inams paying full assessment
 Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

Total revenue from land or head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		DISTRICT AND NATURE OF TENURE

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purpose of this table, and the assessment on that area.

Column 11 includes population of pot ináms and the like scattered areas which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, plus the amount of full assessment on leased lands held in fully assessed villages at less than that assessment.

Table V—continued

No figures have been entered in columns 8 to 12 opposite "Lucknow, permanently settled," (page 303) as no portion of the permanently settled area has been fully assessed to land revenue

Columns 13 and 14.—The figures are taken from the census reports of 1911

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12

Table V—continued

	Permanently "	973,695	154,321	...	819,374	131,034	1,18,897	
GRAND TOTAL		1,770,921	154,321	...	1,616,600	322,598	3,65,067	501,395

The table is prepared quinquennially, and the figures were last collected in 1910-11. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istemrari areas as "Zamindari (permanently settled)"

Column 2 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows

Column 3 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

* Included under Ajmer

Column 1—Zamindari (temporarily settled) includes malguzari and thekadari

Column 2 states the area by village papers (column 6 of table I, No. 20)

Column 3(a)—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed

Column 4(b) excludes fallows

Column 5—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		DISTRICT AND NATURE OF TENURE

Column 1—Raiyatwari includes, besides raiyatwari tenures, all unsettled Government waste and forest lands and areas in which house-tax or poll-tax is levied; it also includes certain temporarily settled estates in Sylhet which were formerly (before 1902-03) included under Zamindari (temporarily settled). Zamindari (temporarily settled) includes, besides temporarily settled Zamindari estates, fee-simple grants wholly or partially revenue-free tenures, and grants under progressive assessment

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Notes—It is optional with local Governments to enter or omit transfers of lands held by tenants. The entries under "by order of court" state not merely the transfers occasioned by debt, but all forms of transfer effected through the medium of a court. The word "court" in the entry "by order of court" should be held to include a revenue court. Changes of entry due to succession, partitions, or simple mortgages, are not really transfers, and are excluded from the table, as also are redemptions of mortgages. All temporary transfers such as leases are also excluded, but mortgage with possession is treated as a transfer and entered in the table.

(a) No transfers

(b) The statement includes all legal transfers of property (1) by voluntary action of the owners and (2) by virtue of decrees of civil, and orders of revenue, courts. Transfers ordered by courts in cases of disputed succession, and those occasioned by debt incurred by the judgment-debtors, are included under the heading "by order of court." This heading also includes transfers ordered by civil courts from registered holders to decree-holders, of lands sold by civil courts in satisfaction of decrees, and of holdings sold by the revenue authorities for arrears of revenue

(c) Transfers of property in land are not permitted in Manpur, except by sale and that only under special conditions.

Proprietors { revenue-paying	1	701	632	641	603	
Proprietors { wholly or partially revenue-free	

Note.—Only permanent transfers, as by sale or gift, are included, when the parties concerned apply for and obtain transfers of revenue registry. These are entered under "private contract or gift." Cases in which lands are sold for arrears of revenue due to Government are also included if the lands are purchased by private parties, but excluded if the lands are purchased by Government. Transfers of tenant-right are not entered, the information not being available. The entry under the head "revenue-paying" includes raiyatwari holdings paying full assessment, and permanently-settled estates paying *peskash*; and the entry under the head "wholly or partially revenue-free" relates to minor inams and whole inam villages. The table has been discontinued from 1913-14.

(a) Constituted in 1910-11 out of the Cuddapah and North Arcot districts

Note.—Transfers by inheritance or non-permanent transfers, such as leases or usufructuary mortgages for short periods, are excluded, but mortgages with possession are included, as also all transfers made under order of a court. Transfers of *malikana* rights, that is, rights to receive a portion of the profits of an estate not amounting to proprietary rights, have been excluded. Statistics of transfers of tenant-right are not given. Transfers by gift have been included.

Note.—Transfers of property in land were not regularly registered in Upper Burma until 1st January 1914; the information is collected by revenue officers. The statement includes cases in which land has been permanently transferred by gift, sale, or other transaction, for valuable consideration. The term "court" includes a revenue office as well as a civil court.

Note.—The figures against "proprietors" are filled up from returns compiled on the basis of mutation proceedings. Those against "tenants" are based on statements furnished by patwaris in which all transfers are entered, including transfers by mortgage with possession as well as transfers by sale, but excluding transfers by inheritance. The statement does not include leases or transfers by gift.

Note.—The information is obtained from the Registration Department. The table includes all transfers effected by sale of fields under decree of a court (including a revenue court) either in execution of the decree or for recovery of arrears of land revenue. Private sales or recognised divisions of fields necessitating a change in the name of the registered occupant are entered under "by private contract or gift," as also are mortgages with possession. Transfers due to succession, by inheritance, simple mortgages, and leases are omitted.

APPENDICES

APPENDIX A

Average yield in pounds per acre of the principal cultivated crops, revised with reference to the results of experiments made up to the year 1911-12.

A provisional return of the yield of the principal crops cultivated in India was first compiled in 1892, from various statistical publications, such as, agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc., and to provide for the periodical revision of the estimates a system of experimental crop outtings was prescribed by the Government of India, the results of which were to be reported in quinquennial returns.

The instructions for the preparation of these returns are that the estimate given should be that of the average outturn on average soil in a year of average character as deduced from a consideration of the information obtained or experiments made during the years under review; so that when multiplied by the average area cropped, it may give as near an approximation as possible to the outturn of the crop in an average year. The Agricultural Department of each Province has at its disposal a provisional estimate of the average yield of land of average quality (under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments annually made is to test the accuracy of these estimates, and to enable the head of the Agricultural Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions which have affected the experiments reported, this would not necessarily involve the reduction of the standard estimates for the district or for the province, unless there were other reasons for thinking that, as estimates of yield in average years, they had been pitched too high.

As a result of the experiments made during the preceding quinquennium (1901-02 to 1906-07), considerable modification of the standard averages for several of the crops was made in all the provinces except Bombay and Bengal. Some three or four provinces have made a few revisions of this character on the results of the experiments conducted in the quinquennium 1907-08 to 1911-12; but, on the whole, the distrust in the results of the experiments as conducted by the district staff, to which expression was given by Bombay and Bengal on the last occasion, is growing. In the Bombay Presidency a system of more scientifically conducted experiments by officers of the Agricultural Department has been substituted for the system of experiments conducted by the district staff. In the Punjab and Sind the estimates framed by settlement officers at the time of revenue settlement have been preferred where those are available, while in certain other provinces the figures of the settlement officers have been freely referred to in checking the averages. In Bengal and Bihar and Orissa, though no change has been made in the system, the results of experiments made during the last twenty years have not been considered sufficiently reliable to justify any material change in the provisional estimates framed in 1892. In Burma the system has been condemned; but the provincial authorities do not consider any change feasible for the present. [Instructions have since been issued by the Government of India for improving these returns and employing the agency of the Agricultural Department for the investigation of average crop outturns as far as possible, in all provinces.]

The leading features in the different provinces are stated in the following paragraphs:—

Bengal.—Owing to the administrative changes of 1912, by which Bihar and Orissa have been formed into a separate province, certain crops, which are important in that area but hardly grown at all in Bengal as now constituted, have been omitted from the present report. The results of the experiments made in the quinquennium under review do not warrant any general conclusions as to the average yields of the various crops, nor do they, except in the case of rice, sugarcane, and jute, afford grounds for modifying the provisional estimates hitherto adopted by the Agricultural Department (which are practically a reproduction of the estimates of 1892). The average yield of winter rice has been reduced from 1,234 lbs to 983 lbs; on the other hand, the yield of sugarcane has been raised from 2,460 lbs to 2,905 lbs and that of jute from 1,200 lbs (3 bales) to 1,271 lbs (3·1 bales). In the consolidated tables for British India, the provisional estimates therefore continue to appear with these modifications in the statement of provincial averages, but in the detailed table the average outturn based upon the experiments of the quinquennial period under review is shown for each district.

Madras.—The experiments accepted as unobjectionable during the quinquennium were 3,385 in number as against 3,348 in the previous quinquennium. The average assessment of the plots of land selected for experiment is in excess of the average assessment of the province; in many cases, therefore, the land selected is apparently superior to average class of land. The yield of the majority of crops has been raised, especially in the case of cotton and irrigated jawar: the yield of irrigated cotton has been raised from 66 lbs to 87 lbs and of unirrigated cotton from 44 lbs to 55 lbs., and of irrigated jawar from 1,118 lbs to 1,379 lbs. The only decreases relate to sesamum and unirrigated rice. The reported yield of paddy (unhusked rice) has been reduced by 38 per cent to obtain the yield of rice (husked).

Bombay.—The estimates of 1897 were prepared with great care and the results of the experiments made in the two quinquennia ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. With the sanction of the Government of India, the system of crop cutting experiments conducted by the district staff was abolished in the quinquennium under review, and a system of more scientifically conducted experiments on Government farms by the officers of the Agricultural Department was substituted. But the results as yet obtained from the experiments on Government farms are too meagre to justify a general revision of the estimates. A few changes considered to be necessary by the Provincial Director have, however, been made with great caution in the figures for certain districts.

Sind.—In many cases figures taken from the previous report have been repeated, while in several instances figures have been taken from the settlement reports. Of the experiments selected as giving results typical of an average crop during the present quinquennium three were on wheat, one on jawar, two on bajra, one on gram, and one on cotton. As a result, the provincial average has been raised in the case of wheat, jawar, bajra, gram, rapeseed and cotton, while it has been reduced in the case of sesamum; the most important changes being the increase of the average yield of cotton from 308 lbs to 380 lbs, and that of bajra from 776 lbs to 971 lbs.

United Provinces.—The experiments made during the quinquennium under review have not necessitated any change in the provincial averages except for rice and maize. The yield of rice has been raised from 850 lbs to 900 lbs and that of maize from 1,050 lbs to 1,100 lbs.

Bihar and Orissa.—The present return relates to the province of Bihar and Orissa as constituted in 1912. Owing to carelessness in the selection of representative fields and to various other defects in the conduct of the experiments made in the quinquennium under review, the results arrived at do not afford any reliable information or justify any modification of the provisional estimates previously adopted by the Agricultural Department of the old province of Bengal on the basis of the estimates of 1892. In the consolidated tables for British India, these unrevised provisional estimates have therefore been retained in the statement of provincial averages, but in the detailed statement of district figures the average outturn based upon the experiments conducted during the quinquennium under review has been shown for each district, irrigated and unirrigated crops being classified separately.

Punjab.—The revisions of 1902 and 1907 were made on the basis of very unscientifically selected and inadequately supervised experiments carried out by the district staff without reference to the very careful estimates framed by the settlement officers at the time of revenue settlement. The present revision has been made in consultation with settlement officers in the case of districts of which the settlement is in the early stages, while in other cases the average yield has been worked out mainly from the areas and yields given in the assessment reports, and where the results differed materially from the yields fixed in 1907 without any change in agricultural conditions having taken place, the settlement officers' estimates have been preferred. There is no doubt that the yields now fixed, based as they are on the over-cautious estimates of settlement officers, are too low, but they are at any rate placed on a uniform basis. The result of the revision is a reduction of the yields of all the crops except rapeseed and sugarcane the averages for which have been raised. The most important changes are the reduction of the yield of bajra from 462 lbs to 379 lbs and of that of gram from 701 lbs to 549 lbs, and the increase of the yield of rapeseed from 254 lbs to 396 lbs.

Burma.—The number of experiments made in the quinquennium ending 1911-12 was on the whole larger than in the previous quinquennium, and, as in the past, the majority of the experiments were conducted by sub-divisional and township officers. The Provincial Director of Agriculture remarks that this arrangement is far from satisfactory, that the improvement of the system was considered, but that no change appears to be feasible for the present. In order to show the main product only, the following deductions have been made from the gross outturn of the crops, namely, for rice and jawar 33 per cent, and for cotton 70 per cent. The estimates of average outturn of rice, wheat, jawar, and gram have been lowered while those of cotton and sesamum have been raised. The figures for the pea crop now discriminate between *Pegyi* (*Dolichos lablab*) and *Pegya* (*Phaseolus lunatus*) which are the most important varieties exported.

Central Provinces and Berar.—Experiments have been selected with greater care in the present quinquennium than in the past, and due attention has been given to seasonal peculiarities and to classes of soil. The average yield has been raised in the case of rice, jawar, gram, linseed, and sugarcane, and lowered in the case of sesamum and cotton. In order to show the yield of the main product a deduction of 33 per cent has been made in the case of rice and of 70 per cent in the case of cotton.

Assam.—In the previous quinquennium figures for Assam were not shown separately, but they were combined with those for the districts of Eastern Bengal to give the average for the province of Eastern Bengal and Assam. The present return has been prepared for the province of Assam since its re-constitution on 1st April 1912. Detailed figures for each district are not available except for winter rice, rape and mustard, sugarcane, and cotton; these show a general increase over the previous estimates. In the case of cotton a deduction varying between 50 and 60 per cent has been made to obtain the yield of cleaned cotton. In almost all districts the number of experiments conducted during the period under review fell short of that made in any of the previous periods. The results, however, are stated to have been generally

reliable and to have tallied for the most part with the estimates made by settlement officers in some of the districts where important settlement operations were in progress.

North-West Frontier Province.—In the five years under review experiments were made by the district staff in only two districts, and the figures for those districts have been checked and modified where necessary on the basis of those experiments. For the other districts the averages previously adopted on the basis of estimates framed by settlement officers have been repeated. The Provincial averages have been raised slightly for all the crops except maize for which the figure has been reduced from 1,342 lbs to 1,292 lbs.

Ajmer-Merwara.—The figures reported appear to be merely averages of the results of the experiments conducted during the five years of the period without any consideration as to whether any of those years was of an average character or not. The yield of barley, maize, and cotton has been raised and that of jawar lowered, the most important change being the reduction of the yield of jawar from 424 lbs to 137 lbs. A reduction of 70 per cent has been made, as before, to obtain the yield of cleaned cotton.

Coorg.—The only experiments made have as usual been on rice. The average yield has been lowered from 1,507 lbs to 1,483 lbs, which is still very high in comparison with the reported yield of other provinces, but is ascribed partly to increased attention being paid to rice cultivation since the decline of the coffee industry and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. [From experiments since made the average outturn comes to 1,316 lbs.]

Mysore.—The rainfall in the quinquennium under review is stated to have been generally erratic. The average yield of rice has been reduced from 879 lbs to 841 lbs, of sesamum from 215 lbs to 199 lbs, of sugarcane from 3,279 lbs to 3,138 lbs and of cotton from 89 lbs to 79 lbs, while that of ragi has been raised from 562 lbs to 581 lbs, and of horse gram from 229 lbs to 257 lbs.

Average for British India		1,005	814	877	904	566	1,147	986	833
Mysore	{ Irrigated Unirrigated }	{ 841	581

NOTE.—The average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped, and that of unirrigated land by the unirrigated area cropped, and dividing the sum of these two products by the total area cropped.

* The estimates for Bihar and Orissa are the standards, adopted provisionally by the Agricultural Department of the province, which are partly based on the information collected in 1893. The results of the experiments for the period ending 1911-12, regarded in Appendix A—No. 6, are not considered sufficiently reliable to justify a revision of the provisional estimates.

APPENDIX C
VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA

- Agasi, agati, or arati* (*Sesbania grandiflora*)—A vegetable crop.
- Ajmud* (*Carum Roxburghianum*)—A kind of spice.
- Ajwan* (*Carum copticum*)—A kind of spice, "Bishop's weed."
- Akurkura or jecandi* (*Chrysanthemum coronarium*)—A non-food crop.
- Amada or mamidi allam* (*Curcuma amala*)—A condiment.
- Ampasham* (*spondias magnifera*)—The hog plum.
- Arhar* (*Cajanus indicus*)—The pigeon pea.
- Arunelli* (*Phyllanthus distichus*)—Country star, gooseberry.
- Bajra* (*Pennisetum typhoides*)—The spiked millet.
- Bané* (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.
- Barbati* (*Figna catjang*)—Asparagus, a food grain.
- Barti* (see Wudalu).
- Bel* (*Egle Marmelos*)—A fruit.
- Bhagdari* (see Narvadari).
- Bilimbi* (*Azerrhoa Bilimbi*)—A fruit.
- Bimb* (*Cephalandra indica*)—A fruit.
- Chaplash* (*Artocarpus Chaplasha*)—A tree grown mainly for timber.
- Chayroot* (*Oldenlandia umbellata*)—A dye.
- Cheena* (*Panicum miliaceum*)—The common millet.
- Cheik* (*Coix lachryma-jobi*)—A food grain, "Job's Tear."
- Chikkudukayulu* (*Dolichos lablab*)—The Indian or popat bean.
- Cholam* (see jawar).
- Cholanathu* (*Andropogon sorghum*)—Fodder jawar.
- Chowli* (see Barbati).
- Cumbu* (see Bajra).
- Dani* (*Nipa fruticans*)—A socaliferous palm, the leaves of which are used for thatching purposes, also for matting.
- Dhaincha* (*Sesbania aculeata*)—A plant cultivated mainly for green manure.
- Dhatara* (*Datura alba*)—A drug.
- Dividivi* (*Cesalpinia coriaria*)—A dye.
- Gajar*—Carrot.
- Garmal* (*Coleus barbatus*)—A fruit.
- Gondli* (see Kutki).
- Gorait* (United Provinces)—Village watchman.
- Henna* (*Lawsonia alba*)—A dye.
- Inám* (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are entire villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.
- Isfagul* (*Plantago ovata*)—A drug.
- Itamrári* (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
- Izdáfat* (Bombay)—A form of service tenure.
- Isára* (Berar)—Land leased under the waste-land rules on stipulated terms.
- Jagír* (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.
- (Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.
- (Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.
- Jambo or naval*—Black plum.
- Jamma* (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government, if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX C—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued

- Jawar* (*Sorghum vulgare*)—The great millet.
- Jenugulu*—Asparagus.
- Jinjili* (*Sesamum indicum*)—An oilseed.
- Jira*—Caraway.
- Jodi* (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, minus the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.
- Kalpayaru*—Kidney bean.
- Kangni* (*Panicum Italicum*)—Italian millet.
- Kamranga* (*Averrhoa Carambola*)—A fruit.
- Kanda* (*Dracontium*)—A vegetable crop.
- Kankrol* (*Momordica cochinchinensis*)—A vegetable crop.
- Karola* (*Momordica Charantia*)—A vegetable crop.
- Karuvapilai* (*Murraya Konigii*)—A condiment.
- Kavali* (*Sterculia urens*)—The Indian katura, a fruit.
- Kavathu* (*Dioscorea alata*)—A tuber used as a food stuff.
- Kodo* (*Paspalum Scrobiculatum*)—A kind of millet.
- Khdlsa* (Bombay)—Government occupancy or raiyatwari tenure.
- (Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.
- (Berar, Ajmer-Merwara)—Land paying full revenue to Government.
- Khatedar* (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.
- Khiraj* (Assam)—Land assessed to full revenue.
- Khoti* (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.
- Kirni* (*Mimusops hexandra*)—A large tree cultivated chiefly in North-West India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.
- Korai*—The Indian matting sedge.
- Kolinji* (*Tephrosia purpurea*)—A drug.
- Koorka* (*Strobilanthes*)—A vegetable crop.
- Kuhudi* (*Panicum trypheron*)—A food grain.
- Kulthi* (*Dolichos biflorus*)—Horse gram.
- Kutki* (see Kodo).
- Kwin* (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.
- Lakhiraj* (Assam)—Revenue-free land.
- Lobia* (see Barbati).
- Madder* (*Rubia tinctorum* and *R. cordifolia*)—A dye.
- Mahalkari* (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.
- Makhan sim*—The sword bean.
- Malgusari* (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.
- Mamlatdar* (Bombay)—The chief revenue and police officer (native) in charge of a taluk.
- Mankachu* (*Alocasia indica*)—A root crop.
- Marua* (*Elusine coracana*)—A kind of millet.
- Marukkolundu* (*Artemisia vulgaris*)—The Indian worm wood.
- Mekwasi* (Bombay)—A proprietary tenure assessable to revenue at a lump sum.
- Muaf* (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.
- Mung* (*Phaseolus Mungo*)—Green gram.

APPENDIX C—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—contd.

- Muusariw* (Berar).—A head native revenue officer.
- Narsadari, Bhagdari* (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump, and in the latter distributed by rates over fields.
- Neerali* (*Gynocordia odorata*).—An oilseed.
- Neem or Margosa* (*Melia azadirachta*).—A non-food crop.
- Nela mulaka* (*Solanum xanthocarpum*).—The bogoda brinjal, a drug.
- Nisfkkiraj* (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.
- Palampat* (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.
- Odamula* (*Ochlandra Rheedii*).—A reed.
- Ol or zaminkand*.—A root crop.
- Panchayat* (Bengal).—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.
- Papay* (*Carica papaya*).—A fruit.
- Parpatligar* (Coorg).—A revenue officer in charge of a sub-division of a taluk.
- Parvar* (see Patol).
- Patel* (Coorg).—Village headman appointed by Government.
- Patol* (*Trichosanthes dioica*).—A vegetable crop.
- Peshkash* (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.
- Pimakottai or pouna*.—The mast wood.
- Pounagantikura* (*Alternanthera sessilis*).—A vegetable crop.
- Poramboke* (Madras).—Lands reserved for public or village communal purposes.
- Pbt inams* (Bombay).—Lands sub-alienated in alienated villages.
- Pbt khardb* (Berar).—The unculturable area included in a survey number.
- Puliyavara* (*Oxalis corniculata*).—A vegetable crop.
- Ragi* (see Marua).
- Rayatwari*.—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.
- Randhuni* (see Ajmud).
- Sabai grass* (*Ischaemum Augustifolium*).—A fibre plant.
- Sank-alu* (*Pachyrhizus angulatus*).—A root crop.
- Sapodilla* (*Achras Sapota*).—A fruit.
- Sebestan* (*Cordia Myxa*).—A fruit.
- Shanbóg* (Coorg).—A village accountant appointed by Government.
- Shrotriem* (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.
- Siris tree or vagai* (*Albizia Lebbek*).—A non-food crop.
- Sorrell* (*Rumex vesicarius*).—A vegetable crop.
- Sother*.—Radish.
- Swank* (*Panicum frumentaceum*).—A food grain.
- Talukdari* (Bombay).—A form of proprietary right in force in the northern districts of Bombay.
- Tejpat* (*Cinnamomum Tamala* and *C. obtusifolium*).—A spice.
- Thathamedä* (Upper Burma).—Household tax.
- Thattan payara* (see Barbat).
- Thekadar* (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.
- Thugyi* (Burma).—A village headman.
- Thetke grass* (*Imperata arundinacea*).—A small perennial grass used chiefly for thatching purposes.

APPENDIX C—concluded**VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—concl'd.**

- Til (sesamum indicum)*.—An oilseed.
- Uchhe (Momordica muricata)*.—A vegetable crop.
- Udai (Acacia eburnea)*.—A thorny tree used as fuel or for fencing purposes.
- Udhad-jamabandi* (Bombay).—A proprietary tenure subject to fixed assessment.
- Umblī* (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.
- Unla (Pongamia glabra)*.—An oil seed.
- Urad (Phaseolus radiatus)*.—Black gram.
- Wudulu or barti (Panicum flavidum)*.—A food grain.
- Zamindar* (Central Provinces).—A chief of minor importance who, while usually held a large and compact estate on privileged tenure, has been restricted to the rank of ordinary subject.
- Zamindari*.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

APPENDIX D

ALPHABETICAL LIST OF CROPS CULTIVATED IN INDIA AND THEIR CLASSIFICATION
IN TABLE III.

NAME OF CROP		Heads of classification in Table III
English or Vernacular	Botanical	
Agasi, agati or avati	<i>Sesbania grandiflora</i>	33. Fruits and Vegetables including root crops.
Agave	<i>Agave</i> spp.	23. Fibres—others.
Ajmod or Randhuni	<i>Carum Roxburghianum</i>	18. Condiments and spices.
Ajwan or Bishop's weed	<i>Carum Copticum</i>	18. " " "
Akurkura (<i>see</i> Chrysanthemum)
Al (<i>see</i> Morinda)
Aloes	<i>Aloe vera</i>	35. Drugs and Narcotics— others.
Alya (<i>see</i> Cress)
Amada or Mamidi allam	<i>Curcuma Amada</i>	18. Condiments and spices.
Amaranths	<i>Amarantus</i>	30. Misc. food crops.
Ampazham (<i>see</i> Plum)
Anise seed	<i>Pimpinella Anisum</i>	18. Condiments and spices.
Apple, wood	<i>Feronia elephantum</i>	33. Fruits and Vegetables including root crops.
" Rose	<i>Eugenia Jambos</i>	33. " " "
" Custard	<i>Anona squamosa</i> and <i>A. reticulata</i> .	33. " " "
Areca nut or Betel nut	<i>Areca Catechu</i>	35. Drugs and Narcotics— others.
Arhar or pigeon pea	<i>Cajanus indicus</i>	10. Other food grains, etc.
Arnatto or Arnotto	<i>Bixa Orellana</i>	28. Dyes—others.
Arrowroot, West Indian	<i>Maranta arundinacea</i>	30. Misc. food crops.
" Wild or East Indian	<i>Curcuma angustifolia</i>	30. " " "
Artichoke	<i>Cynara Scolymus</i> or <i>Centaurea Cardunculus</i> .	33. Fruits and Vegetables including root crops.
Arum (edible), Kachu or Kachalu	<i>Colocasia Antiquorum</i>	33. " " "
Arunelli (<i>see</i> Gooseberry, country star)
Bajra (<i>see</i> Millet)
Barbati, Lobia, Jungulu, Thattan-payara or Chowli (Asparagus).	<i>Vigna Catjang</i>	10. Other food grains, etc.
Barley	<i>Hordeum vulgare</i>	4. Barley.
Barti (<i>see</i> Wudalu)
Basil, sweet	<i>Ocimum Basilicum</i>	35. Drugs and Narcotics— others.
Beans	<i>Phaseolus lunatus</i>	33. Fruits and Vegetables including root crops.
" Asparagus (<i>see</i> Barbati)
" Sword or Makhan Sim	<i>Canavalia ensiformis</i> , <i>C. gladiata</i> .	33. Fruits and Vegetables including root crops.
" French	<i>Phaseolus vulgaris</i>	33. " " "
" Goa	<i>Psophocarpus tetragonolobus</i>	33. " " "
" Indian, Chikkudikayalu, or Popat	<i>Dolichos lablab</i>	33. " " "
" Kidney, Moth, or Kalpayaru	<i>Phaseolus aconitifolius</i>	33. " " "
" Soy	<i>Glycine hispida</i>	33. " " "
Beetroot	<i>Beta vulgaris</i>	33. " " "
Bel	<i>Egle Marmelos</i>	33. " " "
Betel vine	<i>Piper Betle</i>	35. Drugs and Narcotics— others.
" nut (<i>see</i> Arecanut)
Bhindi (<i>see</i> Hibiscus, edible)
Bilimbi	<i>Averrhoa Bilimbi</i>	33. Fruits and Vegetables including root crops.
Bimb	<i>Cephalandra indica</i>	33. " " "
Bishop's weed (<i>see</i> Ajwan)
Borage, country	<i>Coleus aromaticus</i>	35. Drugs and Narcotics— others.
Brinjal	<i>Solanum Melongena</i> , <i>S. longum</i> .	33. Fruits and Vegetables including root crops.
" bogoda or nela mulaka	<i>Solanum xanthocarpum</i>	35. Drugs and Narcotics— others.
Buck wheat (<i>see</i> Wheat)

APPENDIX D—*continued*ALPHABETICAL LIST OF CROPS—*contd.*

NAME OF CROP		Heads of classification in Table III
English or Vernacular	Botanical	
Cabbage	<i>Brassica oleracea</i>	38. Fruits and Vegetables including root crops.
Caraway or Jira	<i>Carum Carui</i>	18. Condiments and spices.
" Black or Shahjira	<i>Carum Bulbocastanum</i>	18. " " "
Cardamom Aromatic	<i>Amomum aromaticum</i>	18. " " "
" greater	<i>" subulatum</i>	18. " " "
" lesser	<i>Elettaria Cardamomum</i>	18. " " "
Carob or Locust tree	<i>Ceratonia Siliqua</i>	37. Fodder crops.
Carrot or Gajar	<i>Daucus Carota</i>	38. Fruits and Vegetables including root crops.
Cashew nut	<i>Anacardium occidentale</i>	38. " " "
Cassava	<i>Manihot utilisissima</i> and <i>M. palmata</i> .	38. " " "
Castor	<i>Ricinus communis</i>	16. Oilseeds—others.
Cauliflower	<i>Brassica oleracea</i>	38. Fruits and Vegetables including root crops.
Celery	<i>Apium graveolens</i>	38. " " "
Chaplasi (<i>see</i> Sam tree)
Chayroot	<i>Oldenlandia umbellata</i>	28. Dyes—others.
Cheena (<i>see</i> Millet)
Cheik (<i>see</i> Job's Tear)
Chicory	<i>Cichorium Intybus</i>	38. Fruits and Vegetables including root crops.
Chickling Vetch (<i>see</i> Vetch)
Chillies	<i>Capsicum sp.</i>	18. Condiments and spices.
Chikkudukayalu (<i>see</i> Beans, Indian)
Cholum (<i>see</i> Millet)
Cholanathu (fodder Cholum)	<i>Andropogon Sorghum</i>	37. Fodder crops.
Chowli (<i>see</i> Barbati)
Chrysanthemum, Akurkura, or Jevandi	<i>Chrysanthemum coronarium</i> .	40. Miscellaneous non-food crops.
Cinchona	<i>Cinchona sp.</i>	33. Cinchona.
Cinnamon	<i>Cinnamomum zeylanicum</i>	18. Condiments and spices.
Citron or lime or lemon	<i>Citrus medica</i>	38. Fruits and Vegetables including root crops.
Cloves	<i>Eugenia caryophyllata</i> or <i>Caryophyllus aromaticus</i> .	18. Condiments and spices.
Coconut	<i>Cocos nucifera</i>	38. Fruits and Vegetables including root crops.
Coffee	<i>Coffea arabica</i>	30. Coffee.
Coriander	<i>Coriandrum sativum</i>	18. Condiments and spices.
Cotton	<i>Gossypium sp.</i>	21. Cotton.
Cress	<i>Lepidium sativum</i>	38. Fruits and Vegetables including root crops.
Cucumber	<i>Cucumis sativus</i>	38. " " "
Cumbu (<i>see</i> Millet)
Cumin	<i>Cuminum Cyminum</i>	18. Condiments and spices.
Custard Apple (<i>see</i> Apple)
Dani	<i>Nipa fruticans</i>	40. Miscellaneous non-food crops.
Date palm (<i>see</i> Palm)
Dhaincha	<i>Sesbania aculeata</i>	40. Miscellaneous non-food crops.
Dhatara	<i>Datura alba</i>	35. Drugs and Narcotics—others.
Dill or Sowa	<i>Peucedanum graveolens</i>	16. Oilseeds—others.
Dividivi	<i>Cesalpinia coriara</i>	28. Dyes—others.
Drumsticks or Horse-radish	<i>Moringa pterygosperma</i>	38. Fruits and Vegetables including root crops.
Elephant foot, Zaminkand or Ol	<i>Amorphophallus campanulatus</i> .	38. " " "
Elephant yam	<i>Tryphonium trilobatum</i>	38. " " "
Fennel	<i>Feniculum vulgare</i>	18. Condiments and spices.

APPENDIX D—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table III
English or Vernacular	Botanical	
Fenugreek	<i>Trigonella foenum graecum</i>	18. Condiments and spices.
Field Vetch (<i>see</i> Vetch)
Fig	<i>Ficus Carica</i>	38. Fruits and Vegetables including root crops.
Flea-bane, purple	<i>Vernonia anthelmintica</i>	35. Drugs and Narcotics— others.
Flowers	40. Miscellaneous non-food crops.
Gajar (<i>see</i> Carrot)
Garlic	<i>Allium sativum</i>	18. Condiments and spices.
Garmal	<i>Coleus barbatus</i>	38. Fruits and Vegetables including root crops.
Gawar (<i>see</i> Vetch)
Ginger	<i>Zingiber officinale</i>	18. Condiments and spices.
Goa bean (<i>see</i> Bean)
Gondli (<i>see</i> Millet)
Gooseberry, Cape—or teperi	<i>Physalis peruviana</i>	38. Fruits and Vegetables including root crops.
Country star or Arunelli	<i>Phyllanthus distichus</i>	38. " " "
Goose foot	<i>Chenopodium album</i>	38. Fruits and Vegetables including root crops.
Gourd, Snake	<i>Trichosanthes anguina</i>	38. " " "
" Bottle	<i>Lagenaria vulgaris</i>	38. " " "
" Towel	<i>Luffa acutangula</i>	38. " " "
Gourd, Red or melon pumpkin	<i>Cucurbita maxima</i>	38. " " "
Gourd Melon, white	<i>Benincasa cerifera</i>	38. " " "
Gram	<i>Cicer aristinum</i>	9. Gram.
" Field	<i>Phaseolus trilobus</i>	10. Other food grains, etc.
" Green or Mung	<i>Phaseolus Mungo</i>	10. " " "
" Horse or Kulthi	<i>Dolichos biflorus</i>	10. " " "
" Black or Urad	<i>Phaseolus radiatus</i>	10. " " "
Grape	<i>Vitis vinifera</i>	38. Fruits and Vegetables including root crops.
Groundnut	<i>Arachis hypogaea</i>	18. Groundnut.
Guava	<i>Psidium Guajava</i>	38. Fruits and Vegetables including root crops.
Guinea grass	<i>Panicum maximum</i>	37. Fodder crops.
Gumberry	<i>Cordia Rothii</i>	38. Fruits and Vegetables including root crops.
Hemp, Indian, or Ganja	<i>Cannabis sativa</i>	34. Indian Hemp.
" Sunn	<i>Crotalaria juncea</i>	23. Fibres—others.
" Deccan	<i>Hibiscus cannabinus</i>	23. " "
" Sisal	<i>Agave sisalana</i>	23. " "
Henna	<i>Lawsonia alba</i>	28. Dyes—others.
Hibiscus, edible or bhindi	<i>Hibiscus esculentus</i>	38. Fruits and Vegetables including root crops.
Horse-radish (<i>see</i> Drumsticks)
Indian Hemp (<i>see</i> Hemp)
Indian worm wood (<i>see</i> Marukkolundu)
Indigo	<i>Indigofera sumatrana</i> and <i>I. arrecta.</i>	27. Indigo.
Isfagul	<i>Plantago ovata</i>	35. Drugs and Narcotics— others.
Jack fruit	<i>Artocarpus integrifolia</i>	38. Fruits and Vegetables including root crops.
Jambotree (<i>see</i> Plum, black)
Jawar (<i>see</i> Millet)
Jengulu (<i>see</i> Barbat)
Jevandi (<i>see</i> Chrysanthemum)
Jinjili (<i>see</i> Sesamum)
Jira (<i>see</i> Caraway)
Job's Tear or Cheik	<i>Coix lachryma-jobi</i>	10. Other food grains, etc.

APPENDIX D—*continued*ALPHABETICAL LIST OF CROPS—*contd.*

NAME OF CROP		Heads of classification in Table III
English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	38. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	22. Jute.
Kachu or Kachalu (<i>see</i> Arum)
Kakri (<i>see</i> Melon)
Kalpayaru (<i>see</i> Beans, Kidney)
Kamranga	Averrhoa Carambola	38. Fruits and Vegetables including root crops.
Kanda	Dracontium	38. Ditto. ditto.
Kangui (<i>see</i> Millet)
Kaukrol	Momordica cochinchinensis	38. Fruits and Vegetables including root crops.
Kaon (<i>see</i> Millet)
Kapok	Eriodendron anfractuosum	23. Fibres—others.
Karola	Momordica Charantia	38. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	18. Condiments and spices.
Kavali or Indian Katara	Sterculia urens	38. Fruits and Vegetable including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	38. Ditto. ditto.
Kharbuja (<i>see</i> Melon)
Khesari (<i>see</i> Vetch)
Khurfa (<i>see</i> Puralane)
Kidney bean (<i>see</i> Bean)
Kirni	Mimusops hexandra	39. Miscellaneous food crops.
Kodo (<i>see</i> Millet)
Korai (<i>see</i> Matting sedge, Indian)
Kokam (<i>see</i> Mangosteen)
Kolinji or vompali	Tephrosia purpurea	35. Drugs and Narcotics—others.
Koorka	Strobilanthes	38. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (<i>see</i> Gram)
Kutki (<i>see</i> Millet)
Lemon (<i>see</i> Citron)
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	38. Fruits and Vegetables including root crops.
Limo (<i>see</i> Citron)
Linseed	Linum usitatissimum	12. Linseed.
Lobia (<i>see</i> Barbat)
Locust tree (<i>see</i> Carob)
Lucerne	Medicago sativa	37. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	28. Dyes—others
Mahua	Bassia latifolia and B. longifolia.	39. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makhan Sim (<i>see</i> Beans, Swori)
Mango	Mangifera indica	38. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	38. " " "
Mankachu	Alocasia indica	38. " " "
Margosa or Neem tree	Melia azadirachta	40. Miscellaneous non-food crops.
Marians	Bouea burmanica	38. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	18. Condiments and spices.
Marua (<i>see</i> Millet)
Marukkolundu or Indian wormwood	Artemisia vulgaris	40. Miscellaneous non-food crops.

APPENDIX D—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table III
English or Vernacular	Botanical	
Mast wood	<i>Calophyllum inophyllum</i>	18. Oilseeds—others.
Matting sedge, Indian or Korai	<i>Cyperus corymbosus</i> , C. tegetum.	23. Fibres—others.
Medlar, Indian	<i>Vangueria edulis</i>	38. Fruits and Vegetables including root crops.
Melon, Kharbuja	<i>Cucumis Melo</i>	38. " " "
" Kakri	<i>Cucumis Melo</i> var. <i>momordica</i> .	38. " " "
" Musk	<i>Cucurbita moschata</i>	38. " " "
" Water	<i>Citrullus vulgaris</i>	38. " " "
" White Gourd (see Gourd)
Metha (Fenugreek)	<i>Trigonella fenugrum-græcum</i>	18. Condiments and spices.
Millet, Common or Cheena	<i>Panicum miliaceum</i>	10. Other food grains, etc.
" Great or jawar or cholam	<i>Sorghum vulgare</i>	5. Cholam or Jawar.
" Italian, Kangni, or Kaon	<i>Panicum Italicum</i> or <i>Setaria italica</i>	10. Other food grains, etc.
" Kodo or Varagu	<i>Paspalum scrobiculatum</i>	10. " "
" Little, Kutki, or Gondli	<i>Panicum miliare</i>	10. " "
" Marua or Ragi	<i>Eloisine Coracana</i>	7. Ragi or marua.
" Spiked, Bajra or Cumbu	<i>Pennisetum typhoideum</i>	6. Cumbu or Bajra.
Mint or Pudina	<i>Mentha arvensis</i>	18. Condiments and spices.
Morinda or Al	<i>Morinda tinctoria</i>	28. Dyes—others.
Moth (see Bean)
Mulberry	<i>Morus indica</i>	40. Miscellaneous non-food crops.
Mung (see Gram)
Mustard	<i>Brassica</i> sp.	14. Rape and Mustard.
Naval (see Plum, black)
Neerali	<i>Gynocordia odorata</i>	16. Oilseeds—others.
Neem tree (see Margosa)
Niger Seed or Sorguja	<i>Guizotia abyssinica</i>	16. Oilseeds—others.
Nutmeg	<i>Myristica fragrans</i>	18. Condiments and spices.
Oats	<i>Avena sativa</i>	37. Fodder crops.
Odamula (reeds)	<i>Ochlandra Rheedii</i>	40. Miscellaneous non-food crops.
Ol (see Elephant foot)
Onion	<i>Allium Ceps</i>	18. Condiments and spices.
Opium	<i>Papaver somniferum</i>	29. Opium.
Orache, garden (see spinach)
Oranges	<i>Citrus Aurantium</i>	38. Fruits and Vegetables including root crops.
Palm, Date	<i>Phoenix sylvestris</i>	20. Sugar—others.
" Palmyra	<i>Borassus flabellifer</i>	20. " " "
Papay	<i>Carica papaya</i>	38. Fruits and Vegetables including root crops.
Parvar or Patol	<i>Trichosanthes dioica</i>	38. " " "
Peach	<i>Prunus persica</i>	38. " " "
Peas	<i>Pisum sativum</i> or <i>Pisum arvense</i> .	10. Other food grains, etc.
Peanut (see Groundnut)
Pepper	<i>Piper</i> or <i>Capsicum</i>	18. Condiments and spices.
" Black	<i>Piper nigrum</i>	18. " " "
" Long	<i>Piper longum</i>	19. " " "
Pigeon or bottle grass	<i>Setaria glauca</i>	10. Other food grains, etc.
Pigeon pea (see Arhar)
Pimakottai, Pouna (see Mastwood)
Pine apple	<i>Ananas sativa</i>	38. Fruits and Vegetables including root crops.
Plantain	<i>Musa sapientum</i>	38. " " "
Plum, black, Jambo tree or Naval	<i>Eugenia Jambolana</i>	38. " " "
" Hog, or Ampazham	<i>Spondias mangifera</i>	38. " " "
Poi (see Spinach)

Sugarcane	<i>Saccharum officinarum</i>	19. Sugarcane.

APPENDIX D—concluded

ALPHABETICAL LIST OF CROPS—concl'd.

NAME OF CROP		Heads of classification in Table III
English or Vernacular	Botanical	
Sunflower	<i>Helianthus Annuus</i>	16. Oilseeds—others.
Swallow-wort	<i>Calotropis</i> sp.	27. Fibres—others.
Swank, Sawan, or Shama	<i>Panicum frumentaceum</i>	10. Other food grains, etc.
Sweet flag	<i>Acorus Calamus</i>	35. Drugs and Narcotics—others.
Sweet potato (<i>see</i> Potato)
Tamarind	<i>Tamarindus indica</i>	18. Condiments and spices.
„ Manila	<i>Pithecolobium dulce</i>	38. Fruits and Vegetables including root crops.
Taramira	<i>Eruca sativa</i>	14. Rape and Mustard.
Tea	<i>Camellia Thea</i>	31. Tea.
Tejpat	<i>Cinnamomum Tamala</i> and <i>C. obtusifolium</i> .	18. Condiments and spices.
Tenari (<i>see</i> Gooseberry)
Thattan-payara (<i>see</i> Barbati)
Thetkè (grass)	<i>Imperata arundinacea</i>	40. Miscellaneous non-food crops.
Til (<i>see</i> sesamum)
Tobacco	<i>Nicotiana Tabacum</i> and <i>N. Rustica</i> .	32. Tobacco.
Tomato	<i>Lycopersicum esculentum</i>	38. Fruits and Vegetables including root crops.
Tori, Toria	<i>Brassica Napus</i>	14. Rape and Mustard.
Turmeric	<i>Curcuma longa</i>	18. Condiments and spices.
Turnip	<i>Brassica Rapa</i>	38. Fruits and Vegetables including root crops.
Uchhe	<i>Momordica muricata</i>	38. " " "
Udai	<i>Acacia eburnea</i>	40. Miscellaneous non-food crops.
Unda	<i>Pongamia glabra</i>	16. Oilseeds—others.
Urad (<i>see</i> Gram)
Varagu (<i>see</i> Millet)
Vagai (<i>see</i> Siris tree)
Vempali (<i>see</i> Kolinji)
Vetch, Field or gawar	<i>Cyamopsis psoralioides</i>	37. Fodder crops.
„ Chickling or khesari	<i>Lathyrus sativus</i>	10. Other food grains, etc.
Water caltrop (<i>see</i> Singhara)
„ melon (<i>see</i> Melon)
Wheat	<i>Triticum sativum</i>	3. Wheat.
„ Buck	<i>Fagopyrum esculentum</i>	10. Other food grains, etc.
„ Spelt	<i>Triticum sativum</i> var <i>Spelta</i> .	3. Wheat.
Wood apple (<i>see</i> Apple)
Wudalu or barti	<i>Panicum flavidum</i>	10. Other food grains, etc.
Yams	<i>Dioscorea</i> sp.	38. Fruits and Vegetables including root crops.
Zaminkand (<i>see</i> Elephant foot)
