## LETTERS TO TELLICHERRY. 1746-47

(VOLUME IX)

[From August 1746 to June 1747.]

N<sup>o</sup>. 1

To GEORGE DUDLEY ESQ<sup>r</sup>.  
CHIEF & C<sup>a</sup>. FACTORS AT TELLICHERRY.

SIRS

We Wrote you last under the 6<sup>th</sup>. of May, by the way of Madrass (Duplicate of which is Enclosed) And on the 1<sup>st</sup>. & 9<sup>th</sup>. Instant received your Letters of the 1<sup>st</sup>. & 10<sup>th</sup>. of June last, with the several Papers Enclosed agreeable to their respective Lists.

Your refusing to let the Samorine have any Muskets was right as well because you were engaged in Warr yourselves, as because you know we have very few at present in Store, insomuch that we have none to send You, when any can be spared it will not be impolitick to Supply him, lest your refusals shou'd cause him to have recourse to the French, who on such occasion wou'd assume a Merit in doing it.

As the Hon<sup>ble</sup> Company have no business to interfere with the disputes, between the Samorine & Moors, The Chiefs Journey to Visit the Samorine at Callicut wou'd Create an unnecessary Expencc; his proposal of declining it is therefore Approved.

We observe the Achamars of Rhandoterra promised to discharge the last Years Interest on their Ola's in October next, but as the Principal of their Debt is large you will do well to Press them for that too.

The Price of Pepp<sup>r</sup> being reduc'd is very pleasing to us and we doubt not of your endeavour to bring it still lower, tho' we are sensible that the best way to Effect that, is by Degrees. We approve of your Adjusting with the Pepp<sup>r</sup> Merchants at the end of December, And admit that, that wou'd be the properest time, to make up their Accounts, & [take] Acknowledgements from them of their respective states. But the H<sup>o</sup>. Company having been pleas'd in their Commands of the 15<sup>th</sup>. March 1744/5  $\text{¶}$  Walpole, to direct that those Acknowledgments shou'd be taken upon Balancing the Books of their different Factorys Compliance is likewise due to the same.

And with regard to your Observations of the Pepper Merchants engaging in other sorts of Trade with the money Advanced them by the H<sup>o</sup>. Company for Purchasing Pepper, we fear indeed there is too much reason to apprehend it, tho' we despair for the reasons you give, and from endeavours heretofore used by your Predecessors of its being effectually prevented; upon the whole then we have only to remark that provided you use the utmost Caution the Nature of the thing will Admit, it is all that can be Expected from You.

We are glad to hear that the Country was restor'd to Tranquility after the Death of Prince Cuni Homo, which gives us hopes that the Settlement of the Government of Cannanore, will likewise Ensue. The occasion for which the Soldiers were sent you from hence being thus over, you may (unless you shou'd want them for any other Service) return them to us. But you must Pay that part of the Walpoles Detachment that are now with You, half their Pay for such time, as they may Continue at your Settlement, & the other half will be made good to their Families here.

By the first proper Conveyance We shall supply you with such Stores & Medicines, as you have Indented for, and we can Spare, And had there been a Probability of the Walpoles touching on the Coast, you wou'd have received some by her. Your Indenting to Bengall for Gunny Baggs was right.

Your converting the Old Treasury into a Rice Warehouse, and fitting up another Place instead of it for a Treasury, is Approv'd, as the Expencc is small.

By the help of the several Accounts you have Transmitted us, Our Account with Your Factory to the 31<sup>st</sup>. July 1745 can be Adjusted on the General Books for the precedeing Year.

We have recd of the Owners of the Elizabeth Rupees (23—2) for her second Mate Mr. Samburghs Maintainance at your Factory.

In consideration of the Good Character you give of Mr. Severack your Surgeons Mate, We have no Objection to your allowing him twenty four Rupees  $\text{₹}$  Month being the same Wages as used to be allow'd Persons in his Station.

Cacart Tupy has been long known to be a shuffling Fellow, but we doubt not your endeavours to recover his Debt, as well as Ballipy Cutiassems.

We shall supply you with a Chest of Fifths, & another of Quarters, when they can be Coined. By the means of which we judge you will be able to keep the French, and other base Fanhams out of your Treasury.

The 1<sup>st</sup>. King of Cotiote being dead, we hope you will be on better Terms with the second his successor. But as to their Pretensions to the Island of Durmapatam, We know of no just Ones they have to any part thereof.

Its not yet determin'd when the Pelham will leave this Port, however your Pepper must be kept in readiness for shipping off with the utmost Expedition, on board whatever Conveyance we may Order to take it.

This goes by an Express Boat, on receipt of which you must forward the enclos'd Packet to Anjengo, either by her or a Toney, you returning the Boat to us, when you may have any Advices of Consequence for us to know.

Let Mr. Robert Hunt prepare himself to come hither on the first proper Conveyance that may offer.

SIR. & SIRS

We have received Your sevrall Letters of the 10<sup>th</sup>. Ult<sup>o</sup>. & 12<sup>th</sup>. Instant, the former giving an Account of a French Ship which appeared off Mahie the 11<sup>th</sup>. June.

We have the same Advices from Madrass of the 5<sup>th</sup>. Ult<sup>o</sup>. of the Engagement between five of our Men of Warr & Nine French Ships Commanded by Mons<sup>r</sup>. L'Bourdinais, & impatiently wait to hear how the French have proceeded since they Landed their Treasure, Goods, & Sick and Wounded Men. We can hardly

think they will venture a second Engagement with Our Men of Warr, and as several of their Ships were Country Ships fitted out purely to relieve Pondicherry, We hope & believe those Ships must be return'd to their proper Owners, which must greatly Weaken that Squadron.

If the French can come round Ceylone again with a sufficient Force, it is not improbable they intend a Settlement at Coletchy, for we have too much reason to suspect that the King of Travencore is ready to receive them, whether they have any thoughts of attempting any of Our Settlements, we cant tell, but hope we shall be able to Defend them.

With concern we read the Account of the Capture of the Lorraine, especially as the Captain gave her up so tamely. She may prove a Mischievous Vessel, if our returning Bengallers are not Advis'd of her. Shou'd any of our Bombay Grabs come down the Coast, they will soon Clear us of these little Fellows.

We rejoice to hear that you are at Peace with the Mallabar Princes, and hope you will soon come to an Accommodation with the Moors. We do not find any Extraordinary hopes of Our Pepper Crop to the Southward.

SIR & SIRs

Your Letter of the 30<sup>th</sup>. Ult<sup>a</sup>. came to hand the 3<sup>d</sup>. Instant in the Evening with a Packet from the Presidency, as you proposed returning the Express Boat in five or six days, it is needless for us to Write to the Presidency till some other Conveyance offers.

With great pleasure we hear the Augusta Escaped the French ships, We make no doubt they came from France this Year, and hope that Our Men of Warr will have Cleared the other Coast of Mons<sup>r</sup>. L'Bourdinais Squadron, before they can arrive there, The season is far Elapsed for them to think of proceeding for Pondicherry.

Our former Letters from the Presidency Order'd us to apply to you Gentlemen for what Money we might want to carry on our Honble Masters Affairs, & we have now received a List of a Cloth Investment, which we shall Endeavour to provide, and must desire that you will Supply us with Twenty, or thirty thousand Rupees, by the first safe Conveyance that offers. Calculate of Tonnage Enclosed, the remainder of which being 360. 982 you must Compleat with the Carmania Wool returned by Captain Westcott, & Pepper, & after giving the Commander as much more of this last Article as he will Engage in behalf of his Owners to carry at half Freight, deliver him his final dispatches for Great Brittain.

Enclosed is Copy of the 4<sup>th</sup>. 5<sup>th</sup>. & 11<sup>th</sup>. Paragraphs of the Hon<sup>ble</sup> Companys Commands to this Presidency ☞ Ship received here the 31<sup>st</sup>. Ult<sup>o</sup>. by the Essex from Mocho. by the last of which you will perceive their Orders, with regard to Pepper, concerning which we shall Write the necessary directions by another Opportunity.

The Severn imported from England at Mocho so late as the 27<sup>th</sup>. July which Place she was to leave about the 22<sup>nd</sup>. Ultimo and if she had arrived here in time was to have been sent to Bengall At present we think of dispatching her hence to your Port for filling up for England but it cannot be amiss that you hold as much Pepper in readiness to be shipt off as you conveniently can. The Essex arrived here from Mocho the 31<sup>st</sup>. Ultimo fully loaded with Coffee and now sails for Great Britain.

The Salt Petre ☞ Essex having been consigned to you from Bengall we have received no Account thereof from that Presidency. As we are at a Loss therefore to bring it on our Books, you must send us by the first Opportunity a Copy of the Invoice you received by that Ship.

We have sent you by this Ship only five Chests of Treasury in order to lessen the Risque of what must be transmitted you by the Grabs or some other proper and timely Conveyance amounting with Stores for your Factory and Anjengo to Rupees 61675. 1. 62. as ☞ Invoice and Bill of Lading in the Packett.

M<sup>r</sup>. Robert Hunt being order'd in our last to repair hither M<sup>r</sup>. Hugh Symmons now proceeds to the assistance of your Factory. He commenced Senior Merchant the 26<sup>th</sup>. December last and must take his Place at your Board accordingly. His salary has been paid to the 1<sup>st</sup>. July last inclusive and Diet Money to the End of this Month.

Mess<sup>rs</sup>. Fowke and Hatton being likewise appointed to the Assistance of Anjengo Factory proceed on this Ship to your Settlement: you will furnish them therefore with a proper Conveyance to carry them and their Necessaries, sending at the same time the several Stores now consign'd you with our Packett directed to the Chief and Factors there.

We have now sent about half your annual Supply of Stationary Ware being all we can spare till the Ships arrive from England.

The H<sup>o</sup>. Company for this Season only have allowed an Advance of one Penny a Rupee for all Bills drawn on them, Which you may observe in Case you should have Occasion to make any Remittances from your Settlement [*sic*]. If the Commander of this Ship or his Officers want to pay in any Money into your Treasury you may grant them Certificates as usual.

Some of the Natives that Came from Jaffuapatam the 3<sup>rd</sup>. Inst<sup>t</sup>. give an Acco<sup>t</sup>. that they heard the Gunns of an Engagement between our Men of Warr and the French for Several Days but as these are the Black fellows Reports, there is no Relying on them.

TO THE WORSHIPFULL GEORGE DUDLEY ESQ<sup>R</sup>.  
CHIEF & C<sup>A</sup>. FACTORS.

SIR AND SIRs

AGREEABLE to your directions on my Arrival here, I enquir'd of the Linguist what necessaries he had in readiness, which will appear by the accompanying List of Sundries which I now forward, and you may be Assur'd of the remainders being sent up, from time, as fast as procurable.

In regard to the Wheat recommended to be purchased. On enquiring of Captain Southcott he says there is not more than 80 Baggs, on board his Ship, which the Owners ask so exorbitant a Price for as 13 Rupees ☞ Bagg Q<sup>ts</sup>. five Surat Maunds therefore, as the Price was so very extraordinary and the Ship will not be going before I may receive your Orders, I request your directions concerning it.

Pedro Lewis has provided and will be able to send up the quantity of Country Arrack Ordered, as fast as Casks can be sent for that purpose from Tellicherry as none can be made, or are procurable here, the five he has now filld he desires may be return'd. my best endeavours shall be used, to prevent its being Adulterated and that now sent is esteem'd good. Casks for the Vinegar will be likewise wanted.

There is a prospect of being able to provide most of the Necessaries, inserted in the List delivered (and that I hope with dispatch) except the Ghee, and Biscuit the formers being brought from Inland only at certain times and then in small Quantities renders it scarce, though you may be Assur'd no Method shall be left

---

untried to get it immediately. A Provision of the latter depends on your further Commands, as part of the Wheat must be put to that use, as there is really no such thing here.

Carpenters will set about making Powder Chests to Morrow Morning as well Smiths in making Iron Lamps, as there is none to be had ready made.

Cooleys and Stone Cutters to the Number of 102 are Agreed with and will set out for Tellicherry to morrow Morning when I shall acquaint you with the Terms.

I now return the Toney loaded I came hither in, and hope you will not disapprove of my detaining the Corporal and Soldiers who are so much fatigued, by reason of the bad Weather we met with and their Ammunition Damaged, that they wou'd scarce be able to proceed.

I must beg leave to defer Replying to your directions relating to Mr. Platt, as I have not yet seen him.

The Corporal of the Toney that is gone to Anjengo, representing that through his hurry in leaving Tellicherry he had not had time to apply for Provision desired I wou'd get him some Ghee and other Necessarys for his Passage there. I accordingly did which I hope you will not be displeas'd at.

SIR AND SIRs

By 5 Toneyes you will receive fifty Stone Cutters and as many Coolies, which you Ordered, with One Tivee who is their Head, and without whom they would not go. The stone Cutters, for some time insisted on five Rupees ☞ Month, exclusive of their Diet and with much Difficulty have been brought to take the same as the Coolies, which is three Rupees ☞ Month pay and three Quarters of a Bale of Rice two fanams for fish and 60 Billets of Wood each but with this Proviso, that on Trial if they shou'd not find it sufficient; they are to be at Liberty to Cut Stones, and be paid for them according to the Custom of Tellicherry without any further Allowance, Theyr [*sic*] pay is to Commence from the time of their Arrival. And having requested a Months pay; I have been Obliged to Comply with it. Their Diet to be made good to them on their arrival, shou'd they request it And as but few of the Stone Cutters have instruments and judging these [*sic*] might be none to Spare at Tellicherry I have purchased 29 Machadoes, which is now sent with them. Their Head Tivee allowed six Rupees Monthly, with an Allowance of One Bale of Rice two Fanams for Fish 100 Billets of Wood, which I am enformed, is Customary, on such Occasions.

A Merchant is Agreed with for 100 thousand of Fire Wood (part of which will be sent to Morrow) at 2 $\frac{1}{4}$  ☞ Mill to be deliverd in Tellicherry free of all Charges, but as the Moors Feast continues three days more; I fear it cant be sent up with that Expedition I cou'd Wish, as all the Munchuaes are hauled up Ashore & will not be launched till it is over; which renders Conveyances very scarce..

There is such a Call for Chunam at present from the French who have for some past buying up all they can get, that there is none immediately procurable, most of that now sent is what was Landed from the Expedition Munchua last year, as She was not able to proceed on Accot<sup>t</sup>. of the Weather, which as it was much damaged; has taken some time in Re-Embaling. The Call for Chunam being so great, has raised the Price of Charcoal considerably as there is much used in making it. a Thousand Soops are agreed for and will be sent with all Expedition.

Of the six Toneyes you ordered to be kept in pay, One went Yester Night, and five now who is to be paid 10 Fanams each Mucqua ☞ Month.

By Five Toney's your W<sup>o</sup>. &c<sup>a</sup>. will receive Sundry Necessaries agreeable to the Enclosed List.

YOUR Commands of the 1<sup>st</sup>. Instant I reced this Morning by Protocarem Pacqiy, whom I shall hasten to send up as much Firewood as he can get with all Expedition, as likewise the Chunam he may be able to provide, and as I Agreed Yesterday with another Merchant for some Firewood, A Munchua Load of which is dispatched I doubt not of being able to send up between them both as much as Y<sup>r</sup>. Worship &c<sup>a</sup>. may want shortly after the Moors Fast is over when Conveyances will be plenty. As I judged it wou'd be making more dispatch to have the Wood Counted at Tellicherry your Worship &c<sup>a</sup>. will be pleased to let me know on its Arrival the Number of Billets deliver'd according to which it will be paid for, at R<sup>s</sup>.

2. 1 ☞ Mill.

I received this Morning 8 Casks four Europe and four Goa those that are fit for use are fill'd and now sent, and with one I have purchased the rest is repairing as they were very leaky.

I wrote your Worship &c<sup>a</sup>. Yesterday that in five Toney's went 101 Stone Cutters and Coolies, but as they could not be got together for Embarking till late, two or three (I know not exactly) has found means to Abscond, thō the whole Number was Counted at the sea side. The Money they have been Advanced (if they cannot be found) their Head Tivee is Obliged to make good.

Herewith comes Account of Sundries now sent in three Toney's with their Amount.

Mr. Plat has been with me this Morning, who expresses an Earnest desire of serving the Hoñble Company but as he says the Samorine is in the utmost necessity for him at present and that he is actually preparing Necessaries with all Expedition, to go against the Moors for that reasons, a[s] I apprehended that Encouraging him to leave the Samorine at this juncture might be attended with the ill Consequences you have directed me to avoid therefore shall wait for your further Orders before I give him an Answer.

The Toney sent to descry the Ships I yesterday. Advis'd you was Reported to be off Penany is not yet returned which I impute to the bad Weather, which has also prevented these Toneys setting out sooner.

YOUR Commands of the 4<sup>th</sup>. Instant with Account Short delivery of Sundries I recd.

The Difference of the Dungaree the Linguist (who says he Measured it) imputes to the Tellicherry Covits, being longer than that here, for which reason I now send a Covit of this Place, with which he desires it may be Re-measur'd.

The Charcoal Deficient is judged to be owing to its having been much Watted by Rain, the day it was embarked which has Occasioned its breaking in small Pieces and thereby a larger Quantity was requisite to fill the Measure, when delivered than when received here.

The Persons who Weighd the Ghee assert that the Quantity mention'd in the Acco<sup>t</sup>. was delivered from this Place. but your Worship &c<sup>a</sup>. may be Assured that Strict Enquiry will be made how it has happened as well as the rest and due Satisfaction be made where the fault is found.

Your directions shall be duly Observed in giving a seperate Chit to each Toney inserting the Sorts, and Quantities of Goods sent in her and an Invoice of the whole Quantity of Stores sent daily.

The Samorine has sent Sucma Putterah to request your Worship &c<sup>a</sup>. wou'd supply him, as soon as possible with 20 Maunds of Iron which on its arrival Sucamy Putterah, will pay the Amo<sup>t</sup>. of.

SIR AND SIRs

SOME days ago the Chief received a Letter from Ezequiel Raby informing him of a Report from Mahie that the French had taken Fort S<sup>t</sup>. George which we did not Regard Coming from that Quarter, but with the utmost Concern we inform you that this Morning he received an Ola from the King of Travancores prime Minister advising that the Nabob of Arcott had Confirmed this Report, how true God knows but we thought proper to send you this information, which we shall be greatly Rejoiced if you can Covetradict [sic] as we have no advices from Madrass since 27<sup>th</sup>. of June.

We shall be glad to know whether you Can Supply us with the Money we Wrote for, or have advised the Presidency to the Contrary, as we shall be in want of Money very soon. If you can spare us Six or Eight Guns 12. 9. or 6 Pounders with their Carriages &c<sup>a</sup>. we must desire that you will send them and advise the Presidency as we have wrote them to supply us.

SIR AND SIRs

YOUR Letters of the 29<sup>th</sup>. and 30<sup>th</sup>. Ultimo and Duplicate of the former came safe to hand, Our Boat with the Iron arrived the 7<sup>th</sup>. and your Toney with the Treasury (which left Callicut with her) did not Arrive till Yesterday Evening which has given us a good deal of uneasiness, and Obliged us to send a Boat to look after her Corporal lays the fault on the Marcar, which we hope you will enquire into, and punish those who deserve it for we understand that had they landed but a very little to the Northward of the Dutch Factory, they had lost both the Treasure, and their own Lives.

We have no manner of advice about Fort St. George since our last, which gives us some hopes it may be false, or we think that we shou'd have heard of it by the Dutch from Tootacorine, nor have we any advice of the French from any part.

Our General Letter from the Presidency we have received and hope soon to see Mess<sup>rs</sup>. Fowke and Hatton with our Stores, which we are in great want of.

We now return your Tony which Arrived Yesterday afternoon, Enclosed comes the Paymasters Account for what She has been supplied with. If you have any advice of any French ships on the Coast we hope you will Communicate it or any thing with Certainty from the other Coast.

TO GEORGE DUDLEY ESQ<sup>r</sup>.  
CHIEF &CA. FACTORS AT TELlichERRY.

SIRs

THE 27<sup>th</sup>. Ultimo we received ☞ Express Boat yours of the 4<sup>th</sup>. with Duplicate of that of the 20<sup>th</sup>. August and as it is necessary you should have about proper to send hither on any Emergency or necessary Occasion we now return you the said Express Boat for such Purpose.

We are concerned to find, that the Canarees are likely to occasion fresh Trouble to the Prince of Tellicherry, more especially at this Time when your uncertain Situation with Respect to your Neighbours the French makes it absolutely necessary for you to be on good Terms with all the Country Powers and calls for your whole Force to be station'd in such manner as to frustrate the Designs of the French, should they make any Attempt upon y<sup>r</sup>. Settlement and in such Case you will do well to get the Prince to join with you against them.

As no Hostilities have been yet commenced by the French against your Settlement you may give the Prince such suitable Assistance against his Enimies as from time to time your own Circumstances will permit; altho in such manner as you can recall your forces so soon as you apprehend you may have Occasion for them in your own defence, or upon the arrival of any considerable sea force at Mihie Such Assistance may probably be convenient for you to give for keep<sup>g</sup>. him in your Interest and letting his Enimies see that you do not intend to be neuter in Case he is attack [sic], but to be a principal in their Quarrells as in the former Cannaree War must by no means be so much as tho<sup>t</sup>. of nor must you be at any considerable Expencc but in your own Defence.

Should the French quarrell with Bayanore you may supply him with Ammunition and such Necessaries as he may want and you can spare he paying you for the same or giving you Notes for the Amount, and this we judge will be proper for you to insinuate to Bayanore in a timely and proper manner as likewise to the Nombiers &c<sup>a</sup>. and if possible to get them to prepare, or make a shew at least of Preparation, before the arrival of the French, which may be in November, but with what Force is uncertain, Some of our Men of War may probably come upon this Coast therefore so soon as you are informed of the Force of such French Ships as may be upon it send immediate Advices of their force to Anjengo for the Information of the Comm<sup>r</sup>. in Chief of the English Ships of War. These are such Hints as occur to us at present to give you, but as Circumstances are so liable to vary we must very [*sic*] upon your Prudence and Discretion to act on all sudden and emergent Occasions as appears to you most rational and for the Interest of Our H<sup>o</sup>. Employers.

Altho purchasing the Essex's Pepper at Callicut is said to be occasion'd by a Misinterpretation of our Orders by the Gentlemen then of Council, it is to be observed that when the SupraCargoes of that Ship acquainted you that they could dispose of the greatest Part thereof and desired to be supplied with the like Quantity out of your own Warehouse their Request was refused as appears by their Letter to us of the 4<sup>th</sup>. March last (as  $\text{¶}$  Copy enclosed) and your Consultation of the 20<sup>th</sup>. February at which the present Chief and M<sup>r</sup>. Douglas were present.

As that Part of the Walpole's Detachment which remains at your Settlement have no Families here your allowing their full Pay was right.

The Severn not being yet arriv'd from Mocho we cannot now say at what time you may expect the Stores you have indented for, and such further Supplies as will be sent you.

We are concerned to find such long Disputes, Dissents and Remarks on so small a Subject as twenty three Candies of Pepper seiz'd by the King of Cotiote. It is certain it must be the Merchants Loss, if it is irrecoverable, when in such Case, they must make the H<sup>o</sup>. Company the best Restitution they can for such Deficiency in their Contract. Such Accidents as this have heretofore frequently happened, when the Chief always gave the Merchants such Assistance for the Recovery of their Pepper as he could, by writing Olas or otherwise interceeding in their Behalf with such as had injured them.

We admire you should write to us to know how to adjust an Account of so little Intricacy as that of Ticandy Cuniallys and should be sorry if you did not know how to do it in an equitable manner as well as we can direct you for in case he or other Merchants will not at any time comply with reasonable Terms you undoubtedly know it is your Duty to use the most suitable Endeavours to oblige them to it.

We have not had time to read over the tedious Arguments on both Sides altho from the Nature of your Disputes we perceive that if a little Calmness and Prudence had been made use of there would have been no occasion for them but to prevent all further Disputes for the present we order that Mess<sup>rs</sup>. Stonestreet and Robinson do not sit in Council, but that the Burthen of the Business may not lye on the other Servants we likewise order that M<sup>r</sup>. Nicholas Stonestreet continue in the Offices of Storekeeper and Steward And that M<sup>r</sup>. John Robinson be reinstated in the Office of Sercretary and Continue Collector of Durmapatam; And in Case they do not behave in a diligent and siutable manner you are to suspend them till Our further Orders.

If you cannot get ninety Rupees or more  $\text{¶}$  Surat Candy for the Cotton we would not have you dispose of it till Our further Orders.

The Indent for Plank and Timber for Gombroon Factory sent you by the Prince of Orange was an exact Copy of that we received from Gombroon But as the Agent will be here in a few days we expect he will give us the true Dimensions, which shall be transmitted to you by the Conveyance.

The Chief having represented to the President that Mr. John Edgerton, who has acted for several Years as Serjeant Major at Yr. Settlement and behaved gallantly on many particular Occasions is very deserving of Promotion; an Ensigns Commission goes enclosed for him.

The Charges of the War with Ally Rajah must remain a Debt on your Books.

YOUR Letters of the 11<sup>th</sup>. and 12<sup>th</sup>. did not come to hand till the 19<sup>th</sup>. bad Weather having retarded their passages Mess<sup>rs</sup>. Fowke and Hatton are Arrived and we have received all the Stores agreeable to the Invoice sent us, and shall be glad to have the Anchors when you can get a Conveyance for them.

With great pleasure we hear of the safe arrival of our Hon<sup>ble</sup> Masters Ships Dragon, and Somersett in the Streights of Sunda and with impatience expect an Account of the Arrival of Commodore Griffin with the Coast and Bay Ships under his Convoy, which we hope will put an Effectual stop to the French Insolence on the Cormondell Coast, and every where else in India.

We have received all the Papers from Mr. Hinde and the Examination of the Puttera all the Room we have to hope that the French Accounts of the Surrender of Madrass is false, is from their Repeating to Often, with out Confirming any of their former Advices, as to the time when it Surrendered.

We wish it was in our power to assist Mr. Hinde in his Laudable Resolution of maintaining Fort St. Davids to the last but we much fear it will be impracticable for the Presidency to do it at this Season of the Year Shou'd Commodore Griffin Arrive before the Monsoon setts in, he can do it Effectually, or the Bengall Gentlemen may do it in Dec<sup>r</sup>.

We hope you will able to Supply us with the Gunns mentioned in our former as they may be of Singular Service if the French shou'd Attack this Place. The four Rup<sup>s</sup>. ninety four Reas (4. —. 94) supplied our Boat shall be duly brought to the Credit of your Factory. Enclosed you will Receive our Paym<sup>rs</sup>. WE wrote you last by an Express Boat under the 3<sup>rd</sup>. Instant Duplicate whereof is enclosed. That Boat we sent chiefly to give you a quick Opportunity of communicating to us any important Advices you may have; And as it is necessary you shou'd have another for the like Purpose we dispatch this Boat to be returned when you judge requisite.

By Advices from various Parts there is too much reason to apprehend that the News of the French having taken Madrass, as the Chief wrote the President, is true. It is reported that their next Designs are against the Hoñible Companys Pepper Settlements and this Place, Which whether true or not it behoves you as well as us to be on Guard ag<sup>st</sup>. them. As to Men and Ammunition you are supplied as fully as our own Circumstances will permit. And with regard to the Small Arms mentioned in the Storekeepers Cap<sup>t</sup>. Commandants and Gunner's Indent which ought also to have been sign'd by you all we find on comp<sup>ar</sup>e. In Indents to England with what has been rec<sup>d</sup>. that Our Supplies from thence are very far short of Our repeated Demands; in so much that we are very bare Ourselves, owing Perhaps to Our Europe Ships not being arriv'd.

In Order to strengthen your Garrison You may enlist such a number of Topasses as you may judge proper And as we recommended it to You in our last to be on good Terms with all the Country Powers and especially to get the Prince to join with you against the French, should they make any Attempt against your Settlement, as likewise the Part we judged proper for you to act with Respect to Boyanore the Nombiers & c<sup>a</sup>. we now repeat the same, not doubting of your making a good Defence in case of being attackt by the French.

As we do not think it prudent to send Our Grabs your Way, In Case any of Our Europe ships bound hither should call at your Port you must Send on board them as much Pepper as they can take in, and provided any good Country Ships offer for this Place or Surat You may freight some on board them at as reasonable Terms as you can in Case you should have no News of any French Ships of Force being on this Coast to the Northward of you. And as it appears by your Advices of the 20<sup>th</sup>. August that you are in Expectation of an uncommon plentiful Crop of Pepper this Year which probably may be purchased at a Cheaper Rate than heretofore we would have only such a Quantity of this Article reserved as with what you may send hither will make three thousand (3000) Candies at the 20<sup>th</sup>. April next, you Selling the Remainder on the best Terms You can. And with regard to Your Money we referr you to a Letter the President now writes the Chief.

Mr. Withwell informing us that Gombroon Factory does not stand in need of the Plank and Joices mentioned in ours to the Prince of Orange, You need not provide them but if they are already purchased let them remain at Callicut as they may be of Use here.

Let the enclosed Packet for Anjengo be forwarded as soon as possible to Ezekiel Rabby at Cochín, for whom is a Letter in this Packet from the President.

We have a General Letter also from Mr. Hinde and his Council informing us that Fort St. George was surrendered to the French on the 10<sup>th</sup>. of September, and that the French did intend to attack Fort St. Davids, had not a providential Storm prevented them which happen'd on the 2<sup>nd</sup>. and 3<sup>d</sup>. of October in which two of their Ships founder'd and disabled the Rest that Madrass was to have been Ransom'd, but they dont know on what terms, nor was that agreement Ratified by Monsieur Dupleix, who has put a Governour and Council into Madrass which place is now besieged by the Nabab's Son of Arcott, which has Reduced both the English and French in the Place to great Streights—That Monsieur De La Bourdonois with the three Ships from this Coast and the four with Jury Masts sail'd to the Southward from Madrass on the 18<sup>th</sup>. Your Letter of the 7<sup>th</sup>. Inst<sup>t</sup>. came to hand Yesterday and observe that you will bring to the Credit of this Factory the Eight Rupees advanced the Munchuas.

Our Packet from the President and Council is recd. and as Mr. Lane and Family embarqued on the Ilchester the 9<sup>th</sup>. Inst<sup>t</sup>. We now return the Hoñble Comp<sup>s</sup>. Barge.

The Thirty Shells are received which are exactly fit for our Mortar, the Amount of Rup<sup>s</sup>. Forty four, two Quarters and twenty One Raes (44. 2. 21) shall be brought to the Credit of your Factory. We now send you Four hundred Shells amounting as Invoice to Rup<sup>s</sup>. three hundred Eighty Nine two Quarters, Thirty three Raes, (Rup<sup>s</sup>. 389. 2. 33) which we hope may be of service to you shou'd you have occasion to use them. We have sufficient left for we have but one Mortar and some Cohorns.

Several Moors who belonged to Parrs and Munchuas of this Coast, which were lost on the Cormondell Coast the 2<sup>nd</sup>. and 3<sup>rd</sup>. Ultimo all confirm what Mr. Hinde wrote to Mr. Bouchier about the loss of part of Mons<sup>r</sup>. La Bourdinays squadron; they affirm that two Ships founder'd at Anchor, two drove ashore and that all the rest had cut away all their Masts but their Bowsprits, so we think we need not be under any apprehensions from them for some time. None of the others have yet appeared on this part of the Coast, but as we had repeated accounts of three large Ships seen to the Northward, we dispatched a boat after Cap<sup>t</sup>. Tede to advise him of those reports, which boat we hope overtook him.

The Severn imported here from Mocho the 27<sup>th</sup>. Inst<sup>t</sup>. as did the Warwick Cap<sup>t</sup>. Robert Misenor on the 19<sup>th</sup>. from Great Brittain, which she left about the 9 of April in Company of four more Ships belonging to the Hoñble Company under Convoy of the Princess Mary Commodore Griffin two of which were bound directly to China, and the others for Madrass with the Princess Mary and Pearl Men of War, the last of which was to join them at the Madeiras but when our latter Shipping were to sail, or with what Number of Men of War, we do not know.

The several Paragraphs of the Hoñble Companys Commands of the 2<sup>nd</sup>. April 1745 with such Part of the List of Investment as relates to your Factory are enclosed; to which due Obedience must be paid.

We approve of your sending home the Pelham as also of the Measures you have taken for the defence of the Settlement, and doubt not of your best Endeavours to render fruitless any Attempts the French may make against you.

We observe what you write in regard to Money and shall devise a method of getting some conveyed to you to answer your Curr<sup>t</sup>. SIRs

By the Ilchester, which arrived here the 9<sup>th</sup>. Ultimo in Company of the Fakhiro Mirakhib, (neither of them having received any Damage from Futajee Angrias Fleet) (altho Engaged with them for Six hours). We received your Letter

of the 25<sup>th</sup>. Nov<sup>r</sup>. and on the 28<sup>th</sup>. following yours of the 12<sup>th</sup>. came to Hand by the Futtee Mombarrack Express Boat, which now returns with these Advices in Order to be occasionally dispatched hither as Events may fall out.

We are pleased that the Young Prince was so ready in furnishing you with a considerable Number of Nairs, and as you had an opportunity of d'liging [*sic*] him at so small a Rate as presenting him with y<sup>r</sup>. two Ad Honycomb Guns you mention your Anticipating his Request for them was doub[t]less very right; and you will do well, when it best Suits with your Own Circumstances occasionally to assist him in preventing his Enemies committing any Deperdations [*sic*] in his Country; more Especially during the time his Own People are Actually Serving the Hoñble Company.

Your Supplying the Young Boyanore with an Horse was well. And if the Second King of Cotiote agrees to the Proposal you made his Tiriumbo we shall approve thereof, as you say, his is a Prince whose Faith is more to be Relied on than any other of the Mallabar Powers.

The two hundred Candy's of Pepper you sold for the Portuguezè Frigatas must be duely delivered them. But the Circumstances of affairs being somewhat altered since we gave you directions for disposing of this Article we hereby Revoke the same. And would have an additional Quantity of two thousand Candy's laid in on the best terms procurable exclusive of what is in Warehouse and outstanding In former Contracts To provide which we shall supply you with Rupees as soon as Possible, and when we are acquainted with the Price you may give for that, as also at what rate any larger Quantity may be Contracted for We shall transmitt you Directions in regard thereto.

Enclosed is Copy of such Par<sup>as</sup>. of the Hoñble Companys Commands of the 17<sup>th</sup>. May last ~~of~~ Ship Ilchester as relatè to your Factory, to which due Obedience must be paid. You will likewise receive the Account of what you took Out of that Ship amounting to Rup<sup>s</sup>. 80523. —. 97 for which this Presidency must be Credited on your Books.

In Case the Exeter and Lynn should leave your Port in their Passage hither by such time as You judge they may be able to touch there again in their Way to China before the End of April, We would have you provide the like quantity of Sandall Wood as ordered last Year Viz<sup>t</sup>. one hundred Candy's of the first Sort and One hundred and fifty of the Second which with One thousand Candy's of Pepper must be kept in readiness to be Equally divided on them; and with regard to the Cotton lying at your Factory, unless an advantagious Offer should be made you for it before the China Ships arrive with you from Europe, it must be kept as it may be wanted for that Marked [*sic*].

When either of more Ships arrive with you outward bound we wailed [*sic*] have immediate Notice sent Us thereof by One of the Express Boats; and you may open the said Ships Packet Box directed to this Presidency for your Private L<sup>res</sup> reserv- ing, Entire, the Packet of Papers therein directed to Us, which must be putt again into the Box and returned to the Commander in Order to be delivered to Us.

We would have you remember to send up by such Conveyances as may offer all the masts Yards and Tithber of Sorts in readiness, particularly the sheathing Plank being immediately wanted for the Augusta, with the Cables Hausers and Cordage. But the two stànding Masts must be sent up upon the first Europe Ship that may call at your Port, and in Case the Com<sup>r</sup>. should refuse to take them in you must Protest against him as formerly order'd. THIS Comes Chiefly to Enclose the Accompanying Orders for Captain Somner of the Britannia, who put into Madrass the 5<sup>th</sup>. Nov<sup>r</sup>. Not knowing it was taken, and was Fired out of that Road, and we hear Since has been at Galle, where we have sent to him as we now do to you last [*sic*] he should Come upon Your Coast before ours reaches that Place.

The Houghton Captain Worth arrived here the 5<sup>th</sup>. Inst<sup>t</sup>. who though Consigned to this Coast and had Possitive Orders from M<sup>r</sup>. Hinde to Send his Pacquet and Treasury ashoar and Orders from our Board in Boats on the Way for that Purpose, went away at 11 at Night, We Fereing Guns Shot and all to bring him Back and has Carried away all our Supplys and Disheartned the Garrison Ex-treamly. This and the Total Neglect the Bengall Gentlemen have shewn us by neither Writeing to us, Or Sending us any Supplies has reduced us to great Necessity, and Encouraged our Enemy's to Come against us the 8<sup>th</sup>. Inst<sup>t</sup>. with all their Force from Pondicherry: when Providence was as Indulgent to us As our Friends were Negligent of us and we gained a Compleat Victory and took all their ammuni-tion and Camp Equipage from them, and Killed and Wounded near 200 with very little Loss on our side. We request you will omit no Opportunity of adviseing us of all Material Occurrences and particularly of any of our Enemy's Shipping of which None yet appears on this Coast. If you think it Necessary to Place Tappy Peons on the Road you will please to do so half Way and Advise us of it with your Opinion where we Should Place them the other half Way.

We hear from Ingeram that our Masters Ships the Malbrough, Mountford, and Salisbury, are Arrived at Bengall, and that Captain Paytons Squadron may be Expected Dayly here on the Coast.

CONFORMABLE to your Orders I proceeded for this place where I arrived yesterday, and the directions you gave me shall be punctually observed.

I sent for the principal Merchants this day to enquire the price of Surat Cotton, they offer Rup<sup>s</sup>. Seventy five ₤ Callicut Candy to be weighed here the Charges of landing and Customs to be on their account, but the risque and freight hither on the Hoñble Companys account, and in Order to prevent disputes I told them that in Case you agreed to Sell at that price that then they should sent two Men to Tellicherry to see that the Cotton was good and the Bales well Conditioned which they agreed to and say they will wait till an answer arrives, they say the B<sup>as</sup>. must be Surat and not Bombay Package.

I am using all the diligence possible in order to gett the Number of Lascars you directed, and in case there should be any to be gott (which I shall know to morrow) I am affraid by what I can learn they will not go unless I advance them two Months pay thò nothing on my part shall be wanting to bring them to as easy Terms as possible.

Pepper is to be bought at present for Rupees seventy three ₤ Candy.

Francisco Dias tells me he has no money of the Hoñble Company in his hands, therefore desire you will be pleased to Send me for the present Rupees One thousand, and in case you should order any Stores to be provided either for Bombay or Tellicherry that then you will be pleased to send more in proportion to the quantity of Stores ordered.

SIR AND SIRs

We have reced your several Letters of the 27<sup>th</sup>. Ultimo and the 7<sup>th</sup>. and 10<sup>th</sup>. Inst<sup>t</sup>. with pleasure we hear of the Portugueze Success against Wrempsant.

The 13<sup>th</sup>. Inst<sup>t</sup>. Mr. Debounais arrived here with another European and thirteen Lascars for the use of Ship Brittannia which we shou'd have forwarded Directly, had we not received advice by Cap<sup>t</sup>. Hugh Daucett (who came from

Galle) that Cap<sup>t</sup>. Somner had a great many of his Men recovered and that he had ninety working Men on Deck when he left him, so we thought it needless to put our Hoñble Masters to any furthen Expence, it being doubtfull whether that Ship will come to this Coast Espreccally [*sic*] as he is bound to the other.

With great Concern we hear of Angrias Insolence and Success, but hope he will not make any more attempts ashore nor on any Ship in your Road.

Our Packett from the Presidency and Mr. Hindes Letters for Cap<sup>t</sup>. Somner are both came to hand the latter we forwarded directly to Columbo, and hope he will Reezeve [*sic*] it.

As the Season Draws nigh for to Expect our Hoñble Masters Ships for their Dispatch home we thought it proper to inform you that we have in Warehouse a thousand Candy of Pepper and Six thousand two Hundred pieces of Cloth, which we Compute at Twenty five Tons, for which you will please to leave Room in the Ship you send us to fill up.

By enclosed Calculates of these Ships their respective Tonnage you will observe how much remains to be compleated according to their Charter Partys. But as the Ilchester has Stores and Treasure for Anjengo and is design'd to be fill'd up at that Port we would have you load on board immediately on her Arrival, such a Quantity of Pepper as with the Cloth and Pepper lying at Anjengo (of which you must be acquainted) will fill up her including what Surplus Tonnage the Commander may request: Which being done you must transmit the Chief and Factors at Anjengo a Calculate of her Tonnage and dispatch her without Loss of Time to that Settlement (except there is any danger from the Enemy when you must use your own Discretion advising to Anjengo accordingly) where a like Expedition will be used in taking out their Treasure and Stores and fillng her up in Order to join the Severn and Warwick on their Appearance off that Port Enclosed is Copy of the Ilchesters Invoice to Anjengo.

When your Treasure and Stores are landed from the two last mentioned Ships you are to compleat their Charterparty Tonnages ordering the Commander of the Severn to stow the Pepper seperate from the Coffee conformable to the Hon<sup>ble</sup> Companys Direction and after loading on board them as much Surplus Pepper as their respective Commanders will engage in behalf of their Owners to carry Home at half-Freight deliver them their Final Dispatches for Great Britain directing them to call at Anjengo in their Passage for the Ilchester (having regard as above-mentioned to the Enemy) which Ship having joined them they must all proceed in Company to Great Britain.

In case the Commanders or Officers of these Ships want to pay any Money into your Cash you may grant them Certificates on the Hoñble Companys as Usual for the same.

Provide and send hither by the first proper Conveyance 10 Chests of Wax Candles for the Use of Our Garrison.

In Our Letter of the 2<sup>d</sup>. Ultimo we gave you Provisional Directions for purchasing Sandall Wood for the China Ships founded on a Supposition that they would arrive in time to come hither. But as that is very uncertain it is probable the Hoñble Company may Order those Ships to proceed directly from your Port to China we would have you therefore (as Sandall Wood is an unperishable Comodity) provide the Quantity we then directed, in Order to be in readiness as Occasion may require.

So soon as we hear from you we shall know what further Directions may be necessary to send to your Settlement.

Late last Night we received the Accompanying General Letter for the Presidency, and another for you from Fort St. David, which we thought proper to dispatch with the utmost Expedition as they may be of great Consequence.

Mr. Hinde advises Mr. Bouchier that four French Ships arrived on that Coast the 26<sup>th</sup>. Dec<sup>r</sup>. and at Pondicherry the 1<sup>st</sup>. Ult<sup>o</sup>. Named the Centaur, Mars, Brilliant and St. Louis which are four of the Ships, which left that Coast the 18<sup>th</sup>. October last, that on the 20<sup>th</sup>. Ult<sup>o</sup>. he had Recieved no manner of Succour nor a Line from Bengall but that he had heard by a French Sloop which arrived the 16<sup>th</sup>. Ult<sup>o</sup>. at Pondicherry from Bengall, that Commodore Griffin with Eight Sail of Men of Warr

lay Ready to Sail at Hingelee with two of our Hoñble Masters Ships. We suppose the above four Ships may be the Ships Expected on this Coast for provision for we can't think they will stay in Pondicherry Road to Receive Mr. Griffins Squadron. We are

Last Night at Sunsett the Seven Sail of Ships which we supposed to be all French were abreast of the Fort but having a favourable breeze of wind they held on their Course and this Morning were quite out of sight we have since reced intelligence from some Fisherman who were on board them that Six of them were French and one a Moors Ship from Bengall which they Obliged to keep them Company they did not hoist their Colours thō they were the whole Day in Sight of our Flag.

Should Cap<sup>t</sup>. Tedd be Arrived Tellicherry we think it will be very practicable for him to put off shore out of their way and to halt in for this place where he can soon Recieve what Goods we have Ready for him.

If you have Recieved any Treasure from Bombay we hope you will find some means of sending us a Supply or we shall be in the utmost distress and must stop both our Cloth and Pepper Investment.

As there is no depending on the Reports we Reciev'd from the Mallabars we Cannot pretend to say on what Expedition this French Ships are Destined it being first told us that they intended to Attack this Place and Since we have heard that they intend to Attack you but we hope the one is as false as the other and that they are only agoing to Succour Mahie and Carry off what Pepper might be there. GENTLEMEN

YOUR favour of the 15<sup>th</sup>. Ult<sup>o</sup>. arrived the 1<sup>st</sup>. Inst<sup>t</sup>. and we thank you for your Congratulations on the success we met with over our Enemies and are at the same time sorry to observe we are again reduced to our former melancholy Situation the Moors having been prevailed upon by the French to abandon us and three days ago in spite of all arguments to the Contrary they decamped alledging they had spent 5 Lack of Rupees in our defence and that if our Friends did not think proper to assist us at all it was highly unreasonable to expect they should at such an expence They were offered 2000 Rup<sup>s</sup>. ☞ day if they would stay ten days but the French promised the whole 5 Lack, and had we even engaged for that Sum which was impossible they would yet have bid more having the advantage of us that if they do not perform What they promise they can be but upon the same bad terms they then were with the Government, whereas had we acted in that manner we must have made them our Enemies instead of their being as they say our friends though they will not go such lengths as we would have them upon the whole we had nothing in our Power but to let them act as they thought proper and secure from them as much protection as we could, and accordingly they have

promised the French shall not molest us in Case they do they will come to our assistance, and we are mustering all our force and putting them in the best posture we can to defend Our Selves in case they should fail in their promise which you must be sensible is a very precarious dependance, though the best we can procure for the interest of our Masters or Our Selves in our present unhappy Circumstances not having yet received a line or any promise of Succours from Bengall though we hear of their Shipping being sent all over India but this Coast and the French have had advices 4 times by Sea from Chardenagore and say they know all the Gentlemns designs at Calcutta one of which they pretend to assure us is that we shall have no Ship to take in our Goods for Europe, though we have now about 2500 Bales and no room to stow them in, nor in a Capacity to defend them and they so much wanted in Europe and would him so much to the Credit and Convenience of our Masters Affairs there at this critical juncture besides which we are deprived of the means of letting our Honble Masters know the Situation of our affairs here which in common Justice we have a right to.

Mr. Hinde wrote to Mr. Dudley the 20<sup>th</sup>. YOUR Letter of the 24<sup>th</sup>. Ultimo has been Received with the Indent that accompanied it, and agreeable to your orders I have contracted with Manacaddem Cojagee for the Masts and Yards to be delivered the begining of October next, he not being able to bring them from Inland Sooner The Masts and Yards will amount to Rup<sup>s</sup>. Two thousand One hundred and five Rup<sup>s</sup>. (Rs. 2105) and the Merchant at present wants an advance of Rup<sup>s</sup>. One thousand three hundred (Rs. 1300) in the Month of May Rup<sup>s</sup>. Six hundred more and in August will want the full amount to be paid him which I desire to know whether I may comply with.

I am now to acquaint you that the two standing Masts are delivered one of which is twenty four In<sup>s</sup>. diameter, and the other twenty five In<sup>s</sup>. and a half Diameter, so that one of them is an Inch less than it should be, and the other half an Inch more. The Merchant has delivered short of the quantity the Linguist contracted for One Mast of 60 f<sup>t</sup>. long and 12 In<sup>s</sup>. Diameter, Two Masts 46 foot long and 14 In<sup>s</sup>. Diameter and two Yards 55 foot long and 12 In<sup>s</sup>. Diameter, and the reason he assigns for not delivering them is owing to there being but little Water in the River and the vast trouble it is to bring them by Land, he promises to deliver the Masts and Yards now deficient at the Same time he delivers the eighteen Masts and Yards I have contracted with him for.

As the Flag belonging to this Factory is quite worn out desire you will be pleased to Send a new one.

On my arrival here I found nothing belonging to the Factory but one pair of Stilliards and one maund weight And as on Tellicherry Books this Factory stands debted for Sundry Chairs a Looking Glass &c<sup>a</sup>. and there being none of those articles now here therefore desire your permission to make or purchase two Tables a Cup board and some Chairs, with a Couch or two.

WE wrote you last under the 13<sup>th</sup>. January ☿ Ship Futtee Buckus.

This you will receive by the Bombay Grab who with the Restoration we now send to your Port for bringing up the Cordage & c<sup>a</sup>. Stores formerly indented for if they can take them in or particularly those specified in the accompanying Account signed by the Marinepaymaster being such as are more immediately wanted. In their Company proceeds likewise the Daddaly on whom you are to lade as much Pepper as may be in Warehouse we having settled the Freight thereof with her Owners at five Rup<sup>s</sup>. for what is shot loose and Six Rup<sup>s</sup>. in Robins ☿ Tellicherry Candy which is less than the usual Rates of Freight You are also to Ship on her such of the Stores as the Grabs can't take in So soon therefore as these Vessels are loaded you are to dispatch them hither without Loss of Time, ordering Cap<sup>t</sup>. Hough to give Convoy to Such Ships and Vessels with English Pass and Colours as may be bound this Way.

We approve of your seizing Mirouts Pepper that being conformable to our Grants from the Prince of Colastria. When Cap<sup>t</sup>. Norton arrives we shall treat him in a suitable manner in order to prevent his committing such like Disturbances at any of the Hon<sup>ble</sup> Companys Settlements as you represent.

We observe what you write concerning your New Contracts for Pepper with regard to which we have only to refer you the Directions the Hon<sup>ble</sup> Company have been pleased to lay down in their last Commands to this Presidency, Copies of which have been duly transmitted you.

We have sent you by the Daddaly the two Pieces of Blue Board Cloth you indented for amounting to Rupees eighty eight three quarters and thirty three reas We have also put on board that Ship some Gunpowder Flints and Lead for the Service of Anjengo Factory amount<sup>g</sup>. to Rup<sup>s</sup>. two thousand seven hundred fifty eight and Seventy eight reas as ☿ Invoice and Bill of Lading enclosed which with Our Packet for that Settlement you are to Send thither before the Rains in the best manner you can.

As it may be expected that the two China Ships will arrive with you before these Vessels sail for this Port you will be best able to judge from the Hon<sup>ble</sup> Companys Orders by them whether it will be necessary to keep the Foreign Silver for those Ships. In Case therefore you find that they should not stand in need of it you may send it up on the Grabs in order to be coined here. When you may likewise advise us what Money you further want to be supplied with this Season.

We apprehend that the four thousand five hundred Covits of Sheathing Plank mentioned in your Account Remains under the 3<sup>d</sup>. September last to be for the Kings Ships must have been indented for to your Settlement from Madrass as no such Indent has been sent from hence. You must therefore advise the Deputy and Council of Fort St. David of what you have in readiness for them and acquaint us the Amount thereof as your Factory Books by the Augusta are not yet come to hand. If any of the Men of War touch at your Port you must inform the Commanders of what Stores have been provided for his Majestys Use, and particularly that there are two lower Masts of Eighty Feet long and from twenty four to twenty five Inches Diameter which should they stand in need of they must bring up themselves as they are too large for the Daddaly to take on board.

Mr. Cox now takes Passage on one of the Grabs for Recovery of his Health he must therefore return on her.

I AM now to acknowledge the receipt of your Letters of the 14<sup>th</sup>. and 20<sup>th</sup>. Inst<sup>t</sup>. and conformable to your orders I enquired of the Linguist what was become of the Old House Furniture, in answer to which he tells me that he never rec<sup>d</sup> charge of any and therefore can give no Account of what is become of it.

I informed the Linguist of the error committed in his Account of Cordage sent to Tellicherry in Oct<sup>r</sup>. last and asked him how so great a blunder could be made, he acquaints me that in that Month he was indisposed and left the Acco<sup>ts</sup>. to Manuel Netto by whom the Mistake was made and he thinks it arose from the hurry they were then in, in Sending necess<sup>s</sup>. to Tellicherry. The difference the Linguist will pay.

Such Stores as are provided for the Presidency shall be kept in readiness to Ship off should any conveyances offer before the rains and regard shall be had to the List you enclosed me, but I must acquainted [sic] You that the eighteen Masts

and Yards wanted for the Sloops can't be gott till the beginning of October next as You may see by my Letter of the 6<sup>th</sup>. Inst<sup>t</sup>. when your orders arrived for the purchasing them there were none to be got in the placé nor is the Merchant able to bring them from Inland till October.

There are no Candles remaining here the Linguist informs me that the whole quantity directed to be provided have been sent up to Tellicherry.

Should any of the Men of War call here I shall take care to advise the Comm<sup>rs</sup>. of what Stores have been provided here for his Majestys Service which are two Lower Masts and 4500 Covits of Sheathing Plank, and desire to know whether the Comm<sup>rs</sup>. are to pay for these two articles here, or whether a receipt for them is only to be taken.

The Linguist is not able as yet to give me the particulars you want of the Timber and Plank provided on Account of Gov<sup>r</sup>. Morse, so soon as I can gett an acco<sup>t</sup>. from him will draw one out for your Inspection.

To day I dispatched the two Peons to Fort St. Davids and sent a Bramine with them.

## No. 85

To WILLIAM WEST ESQ<sup>r</sup>.  
PROVISIONAL CHIEF &C<sup>a</sup>. FACTORS AT TELlichERRY.

SIRs

THE General advices from your Factory of the 28<sup>th</sup>. U[1]timo came to hand the 22<sup>d</sup>. Instant ☞ Salamaty Express Boat.

Mr. Dudley having requested by Letter of the 28<sup>th</sup>. Ultimo to be relieved on Account of his ill State of Health and the Ho<sup>ble</sup> Companys Commands for displacing him being arrived here since he wrote that Letter we have thought proper to direct that Mr. West who is now a member of our Board by their said Orders should on Receipt hereof receive the Charge of the Chiefship from him and to hold the Same Provisionally untill good Opportunity offers after the Rains for our sending one of his superiours from hence Enclosed is Copy of a Letter we now write Mr. Dudley on this Occasion by which you will, perceive we have desired him to Assist

you with his advice if requested during his Stay at your Settlement. And as we doubt not of his Willingness therein we recommend that you consult him on all difficult Points, treating him on all Occasions with that Respect due to the Station he has bore in our Honble Masters service.

We observe you have paid off to Mr. Geekies Attorney the Amount Principal of the Plank which Mr. Morse some time ago ordered to be provided at Callicut, And as the Gentlemen at Fort St. David have desired you to make good the Interest likewise we would have you do it accordingly sending the Plank thither by the Warwicke or P<sup>rs</sup>. Augusta as either or both may be able to take it in.

We approve of Your not advancing money to the Pepper Merchants till the French Ships are sailed As likewise of the Allowance you made the Widow Butler on Account of her necessitys and her late Husbands long and good Services to the Honble Company.

We well approve the Agreement you have entered into with the 1<sup>st</sup>. King of Cotiote and doubt not your best Endeavours to cultivate a Friendship with all the Country Powers round you.

As it is extreamly probable the French ships must have left Mahie are [sic] this time on Account of the Season of the Year, we have Determined on the Dispatch of the Severn and Ilchester to Great Brittain the latter of which now proceeds in Company of the Warwick and Princess Augusta to Your Port to be sent away from thence with the utmost Expedition as we shall here after direct.

But the Severn being compleatly loaded here we have given Captain Collier his final Dispatches for Great Britain and in lieu of the thirty Men he left at your Settlement we have Shipt the like Number of good Topasses leaving it to himself to touch at your Port for his own Men which should he do you must send them off instantly, when he will return the Topasses to You.

On the Ilchester we have laden only two thousand (2000) Bags of Salt Petre at low Freight her Tonnage therefore remains to be entirely compleated by you which being done and the Commander having received as much surplus Pepper as he will engage in behalf of his Owners to carry at half Freight (or at least as much as time will permit of taking on board) as also the Men he left at your Settlement you are to deliver him his final Dispatches for Great Britain and although it is some what late in the Season yet as Country Ships that have sailed hence much later especially one on the 4<sup>th</sup>. of May have been known to take in their Loadings and get safe off the Coast we doubt Your utmost Endeavours will be exerted to fill up this Ship and hasten her away as above directed Should She however not be able either through Badness of the Weather or Danger from the Enemy to take in her full Loading, you are to order the Commander to make the best of his Way to Fort St. David consigned what Pepper you may have put on board in part of her Cargoe with the Sandall Wood provided for the China Ships to the Dep: Gov<sup>r</sup>. & Council there forwarding thither our Packet enclosed But should either of the above Obstacles prevent her receiving any Goods at your Port or taking in her Men she is to be dispatched in like manner to Fort St. Davids you ordering her Men to Anjengo by some proper Conveyance before the Rains.

On the Warwick we have loaden [*lacuna*] Bales of Cotton for the Bay you are therefore on her arrival to Ship on board her the eight Chests of Foreign Silver you have remaining should not the Exeter have had Occasion for them and consigning the same to the President and Council at Bengal Ordering Cap<sup>t</sup>. Misenor his Men being previously returned him to proceed in Company of the P<sup>rs</sup>. Augusta to Fort St. David there to follow such Orders as he may receive from the Deputy Gov<sup>r</sup>. and Council for his further Proceedings.

Mess<sup>rs</sup>. Stonestreet and Robinson having by Letter to the President promised to be extreamly diligent for the future in our Honble Masters Service we hereby direct that they be reinstated and take their Seats at your Board accordingly.

Since writing the foregoing your advices of the 4<sup>th</sup>. Inst<sup>t</sup>. are come to hand p<sup>r</sup>. Futtee Mombarrack Express Boat.

On the Ilchester we have put on board one hundred Topass Soldiers for the Service of Fort St<sup>t</sup>. David, but should you have a Prospect of filling her up for Europe they are to be sent to that Settlement on the Warwick and P<sup>rs</sup>. Augusta.

Enclosed is a Packet from the President to Captain Tedd, which is to be delivered him provided you dispatch his Ship to Europe otherwise it must be forwarded on that Ship to the Deputy Governour and Council of Fort St<sup>t</sup>. David.

BOMBAY CASTLE  
THE 28<sup>TH</sup>. OF APRIL 1747.

P.S.

Let the four hundred fifty five Bags of Peas you landed from the Wake be sent on the Warwick or P<sup>rs</sup>. Augusta to Fort St<sup>t</sup>. David there to be delivered to the Commander in Chief of his Majestys Squadron.

Enclosed is the Ilchesters Charter Party, which is to be forwarded on her to Fort St<sup>t</sup>. David provided you dispatch her thither.

Should you dispatch the Ilchester to Europe the Sandall Wood is to be sent to Fort St<sup>t</sup>. David on the Warwick or P<sup>rs</sup>. Augusta which can best take it in.
