

WORKS OF THE LATE  
GEORGE CHANDLER WHIPPLE

PUBLISHED BY  
JOHN WILEY & SONS, INC.

The Microscopy of Drinking Water.

Revised by Gordon Maskew Fair, Assistant Professor of Sanitary Engineering, and Melville Conley Whipple, Assistant Professor of Sanitary Chemistry, Harvard University.

Fourth Edition, Rewritten and Enlarged.

586 pages. 6 by 9. 123 figures, 7 full-page plates in the text, and 19 plates of organisms in colors. Cloth.

Vital Statistics.

Second Edition. 579 pages. 4 $\frac{1}{2}$  by 7. 89 figures.  
Flexible binding.

BY HENRY BALDWIN WARD  
AND  
GEORGE CHANDLER WHIPPLE  
AND ASSOCIATES :

Fresh-Water Biology.

By Henry Baldwin Ward, Professor of Zoology in the University of Illinois, and the late George Chandler Whipple, with the Collaboration of a Staff of Specialists.  
1111 pages. 6 by 9. 1547 figures. Cloth.

# VITAL STATISTICS

## AN INTRODUCTION TO THE SCIENCE OF DEMOGRAPHY

BY

GEORGE CHANDLER WHIPPLE

*Late Gordon McKay Professor of Sanitary Engineering  
in Harvard University*

THE STUDENTS OF VITAL STATISTICS  
IN THE SCHOOL OF PUBLIC HEALTH  
OF HARVARD UNIVERSITY  
AND THE  
MASSACHUSETTS INSTITUTE OF TECHNOLOGY  
1918-1922

## PREFACE TO SECOND EDITION

Since the first edition of Vital Statistics was published a new census of the United States has been taken. New data are therefore available. The tables of population have been revised to include the data for 1920 and new tables have been added. Interest in the subject of the estimation of future population of cities has led to a new chapter on this subject, which includes diagrams showing population growth in different parts of the United States. Emphasis is placed on the use of semi-log plotting paper for predicting future population, — a subject which should prove of special interest to business men, city planners, and municipal engineers, as well as to health officers. The international list of the causes of death has been revised in accordance with changes made by the Congress which met at Paris Oct. 11-14, 1920.

No attempt has been made to amplify the questions and exercises at the end of each chapter. They were originally intended to be merely suggestive. Each instructor will obtain the best results by making up problems for his own classes based on local data. It will be noticed that Massachusetts statistics have been largely used throughout the book. This is because the book was prepared originally for use at Harvard University and the Massachusetts Institute of Technology, and the inclusion of data from other states would have made the book too large. It may not be out of place to call attention once more to the fact that this is an elementary book.

The author takes this occasion to express his gratification that the subject of vital statistics is rapidly accelerating in interest. The fact that the first edition of this book has

already been translated into the Japanese language and that Italian and Spanish translations are being made is proof that health officers the world over are more than ever appreciating the importance of the science of demography.

In making the changes in this second edition the author wishes to acknowledge the assistance of his secretary, Miss Mabel A. Spear, and of Mr. Dana E. Kepner, Assistant in Sanitary Engineering, Harvard Engineering School.

THE AUTHOR.

CAMBRIDGE, MASS.

*November, 1922*

## PREFACE

This book is written for students who are preparing themselves to be public health officials and for public health officials who are willing to be students. It makes no claim to be an exhaustive treatise or a compendium of facts; it is merely a guide to the study of vital statistics, an introduction to the great world-wide science of demography — a science yet in the magmatic stage, not yet crystallized. The Great War is bound to develop this science, because hereafter all the nations of the earth must know each other better, and this knowledge, in order to be usable, must be condensed into statistical forms.

Specifically the book tells what statistics are and what they are not; it shows how to express vital facts by figures, how to tabulate them and how to display them by diagrams; it shows how to compute birth-rates and death-rates and how to analyze a death-rate; it shows how to adjust and standardize death-rates and how to make life tables; it emphasizes the need of using vital statistics with truth, with imagination and with power.

For the convenience of school instruction, exercises and questions to incite further study are given in each chapter. Many subjects worthy of special study, however, are not even mentioned, loose ends have been left in every chapter, illustrations have been chosen as they came conveniently to hand, and the general arrangement has been informal as to its subject matter. The object in all this has been to stimulate the reader to critically analyze all vital statistics as they appear before him from day to day. Although the illustrations have been gathered in a haphazard way, an attempt has been made to set forth the elementary principles of the statistical method in a simple and orderly fashion.

The author wishes to confess that he is not an authority on vital statistics, much less an authority on demography; he is merely a student of the science. He has taken the student's privilege of quoting freely from many writers to whom he wishes to render acknowledgments and thanks. In particular he desires to express his obligations and personal regards to Dr. William H. Davis, Chief Statistician for Vital Statistics, United States Bureau of the Census, who has read the entire proof of this book and given the benefit of his careful criticism.

Just a personal word to the health officers of America. A new day is dawning for you. The care of the public health is becoming a distinct profession. The medical profession alone is not able to cope with it. The young men and women who are to be the executive health officers in the next generation are recognizing the need of special training, based on the principles of preventive medicine, hygiene and sanitation. Schools of public health are coming into existence and receiving warm-hearted support. The health administration of the future will be in the hands of full-time officials, who are adequately paid and protected in their tenure of office, but who in return for these advantages must be adequately trained for their work. The ability to use vital statistics in public health work is an important part of this training. Many of you have been in office for a long time, you have forgotten most of your arithmetic — not to mention algebra. You can see the new era coming and you dread the new methods founded on accurate statistical studies of accident, disease and death. There is no need of this fear. You can use statistics as well as any one, but you must study. This book has been prepared with your difficulties in mind.

GEORGE CHANDLER WHIPPLE

CAMBRIDGE, MASS.

## CONTENTS

### CHAPTER I

#### DEMOGRAPHY

	PAGE
Principal divisions of demography — Demography both old and new — History of statistics — Celebrated demographers — Section of Vital Statistics — The statistical method — Need of the statistical method — Why statistics are thought to be dry — Can you prove anything by statistics? — National bookkeeping — Statistics necessary for health officer — National vital statistics — Statistical induction — Choice of statistical data. . . . .	1

### CHAPTER II

#### STATISTICAL ARITHMETIC

Statistical processes — Collection of data — Statistical units — Errors of collection — Tally sheets — Tabulation — Inexact numbers — Precision and accuracy — Combinations of inexact numbers — Ratios — Rates — Misuse of rates — Index — Computation of rates — Logarithms — The slide-rule — Classification and generalization — Classes, groups, series and arrays — Generalizations of classes and groups — The array and its analysis — Groups — Group designations — Percentage grouping — Cumulative grouping — Averages — The moving average — Mechanical devices . . . . .	17
---	----

### CHAPTER III

#### STATISTICAL GRAPHICS

Use of graphic methods — Types of diagrams — The appeal to the eye — Graphical deceptions — Essential features of a diagram — One-scale diagrams — Diagrams with rectangular coördinates — Use of the horizontal scale — Plotting figures by groups —
---

	PAGE
Plotting irregular groups — Summation diagrams — Choice of scales — Diagrams with polar coördinates — Double coördinate paper — Ratio cross-section paper — Semi-logarithmic and Logarithmic cross-section paper — Ruled paper — Mechanics of diagram making — Lettering — Wall charts — Use of color in diagrams — Component part diagrams — Statistical maps — Blue prints and other prints — Reproduction of diagrams — Equation of curves.....	58

## CHAPTER IV ENUMERATION AND REGISTRATION

United States census — The census date — Civil divisions — Enumeration schedule of 1920 — Bowley's rules for enumeration — Credibility of census returns — Registration and notification — Registration of births — Advantages of birth registration — Evidences of incomplete registration — Enforcement of registration law — Registration of deaths — Uses of death registration — Marriage registration — Morbidity registration — Notifiable diseases — Incompleteness of morbidity statistics — Morbidity from non-reportable diseases — Reporting venereal diseases — Sickness surveys — Other methods of securing data — United States registration area for deaths — United States registration area for births — Need of national statistics — Registration in other countries — Swiss system — Statistics dependent on registration. 102

## CHAPTER V POPULATION

Estimation of population — Arithmetical increase — Adjustment of population to mid-year — Geometrical increase — Formula for geometrical increase — Rate of increase — Decreasing rate of growth — Difference between estimate and fact. Revised estimates — Estimation of population from accessions and losses — Immigration — Accuracy of state censuses — Urban and rural population — Density of population — Population of United States cities — Metropolitan districts — Classification of population — Color, race, nativity, parentage — Sex distribution — Dwellings and families — Age distribution — Census meaning of age — Errors in ages of children — Errors due to use of round

numbers — Other sources of error — Age-groups — Persons of unknown age — Redistribution of population — Redistribution for non-censal years — Progressive character of age distribution — Types of age distribution — Ratio of deaths to births — Standards of age distribution — Age distribution of people of United States — Demographic view of population — Movement of population.....	139
--	-----

## CHAPTER VI

### PREDICTION OF FUTURE POPULATION

Methods commonly used — Example of graphical method — Best graphical method of estimating future population — World conditions — Population of United States — Population of the several States — Biological factors — Economic factors — Effect of immigration — Law of diminishing rate — Saturation — Effect of emigration — Expansion of Area — Method of forecasting — High and low estimates.....	199
---	-----

## CHAPTER VII

### GENERAL DEATH-RATES, BIRTH-RATES, MARRIAGE-RATES

Gross, or general, death-rates — Precision of death-rates — Corrected death-rates — Revised death-rates — Variations in death-rates in places of different size — Errors in published death-rates — Rates for short periods — Birth-rates — Relation between birth-rates and death-rates — Fecundity — Illegitimate births — Marriage-rates — Divorce-rates — Natural rate of increase — Comparison of general rates — Marriage-rates, birth-rates and death-rates in Sweden — Downward trend in birth-rates and death-rates — Variations due to population estimates — Birth-rates and death-rates in Massachusetts — Monthly death-rates in Massachusetts — Marriage-rates in Massachusetts — Divorce-rates in Massachusetts — Limited use of gross death-rates — Birth-death ratio — The ideal death-rate.....	237
---	-----

## CHAPTER VIII

### SPECIFIC DEATH-RATES

Restriction of death-rates — Ages of Man — The vision of Mirza — Computation of specific death-rates — Specific death-rates by ages and sex — Specific death-rates as affected by mari-	
---	--

	PAGE
tal condition — Specific death-rates and nationality — Influence of age composition of population on death-rate — Influence of racial composition on death-rates — Chronological changes in specific death-rates — Fallacy of concealed classification — Use of specific death-rates — Death-rates adjusted to a standard population — Examples of adjusted death-rates — Adjustment of racial differences — Death-rates for particular diseases — Special death-rates.....	274

## CHAPTER IX CAUSES OF DEATH

Nosography — Nosology — Purpose of Nosology — History of nosography — International list of causes of death — Classification of diseases in 1850 — International list of 1920 — Suggestions to physicians — Undesirable terms — Synonyms of typhoid fever — Joint causes of death — Classification of occupations — Nosology not an exact science.....	306
--	-----

## CHAPTER X ANALYSIS OF DEATH-RATES

Reasons for analyzing death-rates — Two methods of analysis — Useful sub-divisions — Analysis of the death-rate of a state — Comparison of death-rates of two cities — Rates not the only methods of comparison.....	351
--	-----

## CHAPTER XI STATISTICS OF PARTICULAR DISEASES

Mortality rate — Proportionate mortality — Morbidity-rate — Fatality — Inaccuracies of morbidity and fatality-rates — Causes of death in Massachusetts — Study of tuberculosis by age and sex in Cambridge, Mass. — Seasonal distribution of deaths from tuberculosis — Chronological study of tuberculosis — Tuberculosis and occupation — Tuberculosis and racial composition of population — Diphtheria in Cambridge, Mass. — Age susceptibility to diphtheria — Fatality of diphtheria — Chronological study of diphtheria — Urban and rural distribution of diphtheria — Statistical study of typhoid fever — Age distribu-	
--	--

## CONTENTS

xiii

PAGE

tion of typhoid fever — Seasonal distribution of typhoid fever — Chronological reduction in typhoid fever — Statistics of cancer — Further studies of particular diseases.....	360
--	-----

## CHAPTER XII

## STUDIES OF DEATHS BY AGE PERIODS

Infant mortality — Some definitions — Pre-natal deaths — Infant mortality and specific death-rates of infants — First-year death-rate — Methods of stating infant mortality — Chronological reduction in infant mortality — Reasons for the decreasing infant mortality — Infant mortality in different places — Infant mortality and climate — Deaths of infants at different ages — Specific death-rates of infants at different ages — Expectation of life at different ages — Infant mortality by age periods — Seasonal distribution of infant deaths by ages — Causes of infant deaths — The Johnstown studies — Other studies of the Children's Bureau — Infant mortality problems — Maternal mortality — Childhood mortality — Diseases of early childhood — Proportionate mortalities during school age — Proportionate mortalities at higher ages — Average age of persons living — Median age of persons living — Average age at death.....	393
--	-----

## CHAPTER XIII

## PROBABILITY

Natural frequency — Coin tossing — Chance — Binomial theorem — Chance and natural phenomena — Frequency curves, including skew curves — Deviation from the mean — Standard deviation — Coefficient of variation — Computation of coefficient from grouped data — Most probable error — Doubtful observations — The probability scale — Probability cross-section paper — Another use of probability — The frequency curve as a conception.....	432
--	-----

## CHAPTER XIV

## CORRELATION

Correlation — Causal relations — Correlation and causality — Laws of causation — Methods of correlation — Galton's coefficient of correlation — Example of low correlation — Correlation table	
--	--

	PAGE
— Use of mathematical formulae — Secondary correlation — The lag — Coefficient of correlation and the lag — Other secondary correlations — The epidemiologist's use of correlation.....	460
<b>CHAPTER XV</b>	
<b>LIFE TABLES</b>	
Life tables — Probability of living a year — Mortality tables — Most probable lifetime — "Vie probable" — Expectation of life — Comparison of the three methods — Life tables based on living populations — Mathematical formulæ — Early history of life tables — Recent life tables — United States Life Tables: 1910 — A few comparisons.....	479
<b>CHAPTER XVI</b>	
<b>A COMMENCEMENT CHAPTER</b>	
The day after commencement — Military statistics — Army diseases — Effect of the war on demography — Hospital statistics — Statistics of industrial disease — List of occupations — Economic conditions and health — Accidents — Age distribution of poliomyelitis — The Mills-Reincke phenomenon — The sanitary index — Current use of vital statistics — Publication of reports — Need of international standards.....	494
<b>APPENDIX I</b>	
<b>REFERENCES</b>	
General text-books — Periodicals — Reports — Demography — Arithmetic — Graphics — Census — Population — Death-rates — Probability — Correlation — Life tables.....	519
<b>APPENDIX II</b>	
<b>THE MODEL STATE LAW FOR MORBIDITY REPORTS.....</b>	<b>525</b>
<b>APPENDIX III</b>	
<b>THE MODEL STATE LAW FOR THE REGISTRATION OF BIRTHS AND DEATHS.....</b>	<b>532</b>
<b>APPENDIX IV</b>	
<b>TABLE OF LOGARITHMS OF NUMBERS.....</b>	<b>551</b>

## APPENDIX I

### REFERENCES

To study demography, or even vital statistics, seriously one must have at hand several of the standard textbooks on the statistical method, and certain of the more recent federal, state and municipal reports. One must also have access to files of certain periodicals. The following is a list of some of the more important of these references. It is far from being complete, and is intended merely to pave the way for further searches in the library.

A complete list of references to books and articles on the many phases of the subject would be overwhelming. The most recent writings on vital statistics are not necessarily the best for the beginner to study, as some of the soundest and most logical monographs were written many years ago. Of course, the most recent data are the most interesting — but that is another matter.

Many references to particular articles will be found scattered through the footnotes of this book and printed in connection with the Exercises and Questions.

#### GENERAL TEXTBOOKS.

NEWSHOLME, ARTHUR. Elements of Vital Statistics. Macmillan Co., 1899.

BOWLEY, ARTHUR L. Elements of Statistics. New York, Scribners, 1907.

BOWLEY, ARTHUR L. An Elementary Manual of Statistics. London, MacDonald and Evans, 1910.

## APPENDIX II

### THE MODEL STATE LAW FOR MORBIDITY REPORTS

ADOPTED BY THE ELEVENTH ANNUAL CONFERENCE OF STATE AND TERRITORIAL HEALTH AUTHORITIES WITH THE UNITED STATES PUBLIC HEALTH SERVICE, MINNEAPOLIS, JUNE 16, 1913.

A Bill To provide for the notification of the occurrence and prevalence of certain diseases.

*Be it enacted by the Senate and General Assembly of the State of ——:*

SECTION 1. It shall be, and is hereby, made the duty of the State department of health (or commissioner or board of health) to keep currently informed of the occurrence, geographic distribution, and prevalence of the preventable diseases throughout the State, and for this purpose there shall be established in the State department of health a bureau (or division) of sanitary reports which shall, under the direction of the State commissioner of health (State health officer or secretary of the State board of health), be in charge of an assistant commissioner of health who shall receive an annual salary of —— dollars and the necessary expenses incurred in the performance of his duties. The State department of health shall provide such clerical and other assistance as may be necessary for the establishment and maintenance of said bureau.

SEC. 2. The following-named diseases and disabilities are hereby made notifiable and the occurrence of cases shall be reported as herein provided:

#### GROUP I. — INFECTIOUS DISEASES

Actinomycosis.	Dengue.
Anthrax.	Diphtheria.
Chicken-pox.	Dysentery:
Cholera. Asiatic (also cholera nostras when Asiatic cholera is present or its importation threatened).	(a) Amebic. (b) Bacillary.
Continued fever lasting seven days.	Favus. German measles.

**GROUP I. — INFECTIOUS DISEASES — *Continued***

Glanders.

Hookworm disease.

Leprosy.

Malaria.

Measles.

Meningitis:

(a) Epidemic cerebrospinal.

(b) Tuberculous.

Mumps.

Ophthalmia neonatorum (conjunctivitis of new born infants).

Paragonimiasis (endemic hemoptysis).

Paratyphoid fever.

Plague.

Pneumonia.

Poliomyelitis (acute infectious).

Rabies.

Rocky Mountain spotted, or tick, fever.

Scarlet fever.

Septic sore throat.

Smallpox.

Tetanus.

Trachoma.

Trichinosis.

Tuberculosis (all forms, the organ or part affected in each case to be specified).

Typhoid fever.

Typhus fever.

Whooping cough.

Yellow fever.

**GROUP II. — OCCUPATIONAL DISEASES AND INJURIES.**

Arsenic poisoning.

Brass poisoning.

Carbon monoxide poisoning.

Lead poisoning.

Mercury poisoning.

Natural gas poisoning.

Phosphorous poisoning.

Wood alcohol poisoning.

Naphtha poisoning.

Bisulphide of carbon poisoning.

Dinitrobenzine poisoning.

Caisson disease (compressed-air illness).

Any other disease or disability contracted as a result of the nature of the person's employment.

**GROUP III. — VENEREAL DISEASES**

Gonococcus infection.

Syphilis.

**GROUP IV. — DISEASES OF UNKNOWN ORIGIN.**

Pellagra.

Cancer.

*Provided,* That the State department of health (or board of health) may from time to time, in its discretion, declare additional diseases notifiable and subject to the provisions of this act.

**Sec. 3.** Each and every physician practicing in the State of — who treats or examines any person suffering from or afflicted with, or suspected to be suffering from or afflicted with, any one of the notifiable diseases shall immediately report such case of notifiable disease in writing to the local health authority having jurisdiction. Said report shall

be forwarded either by mail or by special messenger and shall give the following information:

1. The date when the report is made.
2. The name of the disease or suspected disease.
3. The name, age, sex, color, occupation, address, and school attended or place of employment of patient.
4. Number of adults and children in the household.
5. Source or probable source of infection or the origin or probable origin of the disease.
6. Name and address of the reporting physician.

*Provided*, That if the disease is, or is suspected to be, smallpox the report shall, in addition, show whether the disease is of the mild or virulent type and whether the patient has ever been successively vaccinated, and, if the patient has been successfully vaccinated, the number of times and dates or approximate dates of such vaccination; and if the disease is, or is suspected to be, cholera, diphtheria, plague, scarlet fever, smallpox, or yellow fever, the physician shall, in addition to the written report, give immediate notice of the case to the local health authority in the most expeditious manner available; and if the disease is, or is suspected to be, typhoid fever, scarlet fever, diphtheria or septic sore throat the report shall also show whether the patient has been, or any member of the household in which the patient resides is, engaged or employed in the handling of milk for sale or preliminary to sale: *And provided further*, That in the reports of cases of the venereal diseases the name and address of the patient need not be given.

Sec. 4. The requirements of the preceding section shall be applicable to physicians attending patients ill with any of the notifiable diseases in hospitals, asylums, or other institutions, public or private: *Provided*, That the superintendent or other person in charge of any such hospital, asylum, or other institution in which the sick are cared for may, with the written consent of the local health officer (or board of health) having jurisdiction, report in the place of the attending physician or physicians the cases of notifiable diseases and disabilities occurring in or admitted to said hospital, asylum, or other institution in the same manner as that prescribed by physicians.

Sec. 5. Whenever a person is known, or is suspected, to be afflicted with a notifiable disease, or whenever the eyes of an infant under two weeks of age become reddened, inflamed, or swollen, or contain an unnatural discharge, and no physician is in attendance, an immediate report of the existence of the case shall be made to the local health officer

by the midwife, nurse, attendant, or other person in charge of the patient.

SEC. 6. Teachers or other persons employed in, or in charge of, public or private schools, including Sunday Schools, shall report immediately to the local health officer each and every known or suspected case of a notifiable disease in persons attending or employed in their respective schools.

SEC. 7. The written reports of cases of the notifiable disease required by this act of physicians shall be made upon blanks supplied for the purpose, through the local health authorities, by the State department of health. These blanks shall conform to that adopted and approved by the State and Territorial health authorities in conference with the United States Public Health Service.

SEC. 8. Local health officers or boards of health shall within seven days after the receipt by them of reports of cases of the notifiable diseases forward by mail to the State department of health the original written reports made by physicians, after first having transcribed the information given in the respective reports in a book or other form of record for the permanent files of the local health office. On each report thus forwarded the local health officer shall state whether the case to which the report pertains was visited or otherwise investigated by a representative of the local health office and whether measures were taken to prevent the spread of the disease or the occurrence of additional cases.

SEC. 9. Local health officers or boards of health shall, in addition to the provisions of section 8, report to the State department of health in such manner and at such times as the State department of health may require by regulation the number of new cases of each of the notifiable diseases reported to said local health officers or boards of health.

SEC. 10. Whenever there occurs within the jurisdiction of a local health officer or board of health an epidemic of a notifiable disease, the local health officer or board of health shall, within 30 days after the epidemic shall have subsided, make a report to the State department of health of the number of cases occurring in the epidemic, the number of cases terminating fatally, the origin of the epidemic, and the means by which the disease was spread: *Provided*, That whenever the State department of health has taken charge of the control and suppression or undertaken the investigation of the epidemic, the local health authority having jurisdiction need not make the report otherwise required.

SEC. 11. No person shall be appointed to the position of local health

officer in any city, town, or county until after the qualifications of said person have been approved by the State department of health.

SEC. 12. In localities in which there are no local health officers or boards of health, and in localities in which, although there are health officers or boards of health, adequate provision has not, in the opinion of the State department of health, been made for the proper notification, investigation, and control of notifiable disease, and in localities in which the local health authorities fail to carry out the provisions of this act, the State department of health shall appoint properly qualified sanitary officers to act as local health officers and to prevent the spread of disease in and from such localities and to enforce the provisions of this act: *Provided*, That salaries and other expenses incurred under the provisions of this section shall be paid by the local authorities.

SEC. 13. Any physician or other person or persons who shall fail, neglect or refuse to comply with, or who shall violate any of the provisions of this act shall be guilty of a misdemeanor, and upon conviction thereof shall be sentenced to pay a fine of not less than —— dollars nor more than —— dollars or to imprisonment for not less than —— days nor more than —— days for each offense: *Provided*, That in the case of a physician his license to practice medicine within the State may be revoked in accordance with existing statutory provisions.

SEC. 14. No license to practice medicine shall be issued to any person until after the applicant shall have filed with the State licensing board a statement, signed and sworn to before a notary or other officer qualified to administer oaths, that said applicant has familiarized himself with the requirements of this act, a copy of which sworn statement shall be forwarded to the State department of health.

SEC. 15. Each and every person engaged in the practice of medicine shall display in a prominent place in his or her office a card upon which sections 2, 3, 4, 7, 13, 14, and 15 of this act have been printed with type not smaller than 10-point. A similar card shall be displayed in a prominent place in the office of each and every hospital, asylum, or other public or private institution for the treatment of the sick. These cards shall each be not less than 1 square foot in size and shall be furnished to institutions and licensed physicians without cost by the State department of health.

SEC. 16. The sum of —— dollars is hereby appropriated from any money in the State treasury not otherwise appropriated for carrying out the provisions of this act.

SEC. 17. This act shall take effect immediately, and all acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

## THE STANDARD MORBIDITY NOTIFICATION BLANK

The following model notification blank was also adopted by the conference of state and territorial health authorities with the United States Public Health Service, June 16, 1913, as the standard notification blank referred to in section 7 of the Model Law as the one to be used in the reporting of cases of the notifiable diseases. This blank is intended to be printed on a post card:

[Face of card.]

191.....

(Date.)

Disease or suspected disease.....  
 Patient's name....., age....., sex....., color.....  
 Patient's address....., occupation.....  
 School attended or place of employment.....  
 Number in household: Adults....., children.....  
 Probable source of infection or origin of disease.....  
 If disease is smallpox, type....., number of times  
     successfully vaccinated and approximate date.....  
 If typhoid fever, scarlet fever, diphtheria, or septic sore throat, was patient, or is any  
     member of household engaged in the production of handling of milk.....  
 Address of reporting physician.....  
 Signature of physician .....

[Reverse of card.]

For use of local health department.

..... 191.....  
 (Date.)  
 Was case investigated by health department?  
 .....  
 Was nature of disease verified?  
 .....  
 What measures were taken to prevent the  
 spread or the occurrence of additional cases  
 from same origin?  
 .....

Health Department,  
 (City).....  
 (State).....

## HOSPITAL DISCHARGE CERTIFICATE

House Physician — Surgeon.

## APPENDIX III

### THE MODEL STATE LAW FOR THE REGISTRATION OF BIRTHS AND DEATHS

A Bill<sup>1</sup> To provide for the registration of all births and deaths in the State of ——.

NOTE.—After the bill has been prepared for presentation to the legislature of a State, the title should be carefully revised by competent legal authority.

*Be it enacted by the legislature of the State of ——*

SECTION 1. That the State board of health shall have charge of the registration of births and deaths; shall prepare the necessary instructions, forms, and blanks for obtaining and preserving such records and shall procure the faithful registration of the same in each primary registration district as constituted in section 3 of this act, and in the central bureau of vital statistics at the capital of the State. The said board shall be charged with the uniform and thorough enforcement of the law throughout the State, and shall from time to time recommend any additional legislation<sup>2</sup> that may be necessary for this purpose.

Sec. 2. That the secretary of the State board of health shall have general supervision over the central bureau of vital statistics, which is hereby authorized to be established by said board, and which shall be under the immediate direction of the State registrar of vital statistics, whom the State board of health shall appoint within thirty days after the taking effect of this law, and who shall be a medical practitioner of not less than five years' practice in his profession, and a competent vital statistician. The State registrar of vital statistics shall hold office for four years and until his successor has been appointed and has qualified, unless such office shall sooner become vacant by death, disqualification,

<sup>1</sup> Before introducing this bill in any legislature it should be carefully redrafted by a competent lawyer and submitted to the Bureau of the Census for criticism.

<sup>2</sup> The words "and shall promulgate any additional rules or regulations" may be inserted in bills prepared for States in which the State board of health has power to make rules and regulations having the effect of law.

operation of law, or other causes. Any vacancy occurring in such office shall be filled for the unexpired term by the State board of health. At least ten days before the expiration of the term of office of the State registrar of vital statistics, his successor shall be appointed by the State board of health. The State registrar of vital statistics shall receive an annual salary at the rate of —— dollars from the date of his entering upon the discharge of the duties of his office. The State board of health shall provide for such clerical and other assistants as may be necessary for the purposes of this act, who shall serve during the pleasure of the board, and shall fix the compensation of persons thus employed within the amount appropriated therefor by the legislature. The custodian of the capitol shall provide for the bureau of vital statistics in the State capitol at —— suitable offices, which shall be properly equipped with fireproof vault and filing cases for the permanent and safe preservation of all official records made and returned under this act.

Sec. 3. That for the purposes of this act the State shall be divided into registration districts as follows: Each city, each incorporated town, and each township<sup>1</sup> shall constitute a primary registration district: *Provided*, That the State board of health may combine two or more primary registration districts when necessary to facilitate registration.

Sec. 4. That within ninety days after the taking effect of this act, or as soon thereafter as possible, the State board of health shall appoint a local registrar of vital statistics for each registration district in the State.<sup>2</sup> The term of office of each local registrar so appointed shall be

<sup>1</sup> Or other primary political unit, as "town," "precinct," "civil district," "hundred," etc. When there are no such units available, the following substitutes for section 3 may be employed: Section 3. That for the purposes of this act the State shall be divided into registration districts as follows: Each city and each incorporated town shall constitute a primary registration district; and for that portion of each county outside of the cities and incorporated towns therein the State board of health shall define and designate the boundaries of a sufficient number of rural registration districts, which districts it may change or combine from time to time as may be necessary to insure the convenience and completeness of registration.

<sup>2</sup> This method of appointment of local registrars by the State board of health — or perhaps by the State registrar or upon his nomination — with a reasonably long term of service and subject to removal for neglect of duty, is the preferable one for efficient service. Should there be objection, however, to the creation of new offices, the section may be redrafted so that it will provide that township, village, or city clerks, or other suitable officials, shall be the local registrars.

four years, and until his successor has been appointed and has qualified, unless such office shall sooner become vacant by death, disqualification, operation of law, or other causes: *Provided*, That in cities where health officers or other officials are, in the judgment of the State board of health, conducting effective registration of births and deaths under local ordinances at the time of the taking effect of this act such officials may be appointed as registrars in and for such cities, and shall be subject to the rules and regulations of the State registrar and to all of the provisions of this act. Any vacancy occurring in the office of local registrar of vital statistics shall be filled for the unexpired term by the State board of health. At least ten days before the expiration of the term of office of any such local registrar his successor shall be appointed by the State board of health.

Any local registrar who, in the judgment of the State board of health, fails or neglects to discharge efficiently the duties of his office as set forth in this act, or to make prompt and complete returns of births and deaths as required thereby, shall be forthwith removed by the State board of health, and such other penalties may be imposed as are provided under section 22 of this act.

Each local registrar shall, immediately upon his acceptance of appointment as such, appoint a deputy, whose duty it shall be to act in his stead in case of his absence or disability; and such deputy shall in writing accept such appointment and be subject to all rules and regulations governing local registrars. And when it appears necessary for the convenience of the people in any rural district the local registrar is hereby authorized, with the approval of the State registrar, to appoint one or more suitable persons to act as subregistrars, who shall be authorized to receive certificates and to issue burial or removal permits in and for such portions of the district as may be designated; and each sub-registrar shall note on each certificate, over his signature, the date of filing, and shall forward all certificates to the local registrar of the district within ten days, and in all cases before the third day of the following month: *Provided*, That each subregistrar shall be subject to the supervision and control of the State registrar and may be by him removed for neglect or failure to perform his duty in accordance with the provisions of this act or the rules and regulations of the State registrar, and shall be subject to the same penalties for neglect of duty as the local registrar.

SEC. 5. That the body of any person whose death occurs in this State, or which shall be found dead therein, shall not be interred, deposited in a vault or tomb, cremated or otherwise disposed of, or re-

moved from or into any registration district, or be temporarily held pending further disposition more than seventy-two hours after death, unless a permit for burial, removal, or other disposition thereof shall have been properly issued by the local registrar of the registration district in which the death occurred or the body was found.<sup>1</sup> And no such burial or removal permit shall be issued by any registrar until, wherever practicable, a complete and satisfactory certificate of death has been filed with him as hereinafter provided: *Provided*, That when a dead body is transported from outside the State into a registration district in \_\_\_\_\_ for burial, the transit or removal permit, issued in accordance with the law and health regulations of the place where the death occurred, shall be accepted by the local registrar of the district into which the body has been transported for burial or other disposition, as a basis upon which he may issue a local burial permit; he shall note upon the face of the burial permit the fact that it was a body shipped in for interment, and give the actual place of death; and no local registrar shall receive any fee for the issuance of burial or removal permits under this act other than the compensation provided in section 20.

Sec. 6. That a stillborn child shall be registered as a birth and also as a death, and separate certificates of both the birth and the death shall be filed with the local registrar, in the usual form and manner, the certificate of birth to contain in place of the name of the child, the word "stillbirth": *Provided*, That a certificate of birth and a certificate of death shall not be required for a child that has not advanced to the fifth month of uterogestation. The medical certificate of the cause of death shall be signed by the attending physician, if any, and shall state the cause of death as "stillborn," with the cause of the stillbirth, if known, whether a premature birth, and, if born prematurely, the period of uterogestation, in months, if known; and a burial or removal permit of the prescribed form shall be required. Midwives shall not sign certificates of death for stillborn children; but such cases, and stillbirths occurring without attendance of either physician or midwife, shall be treated as deaths without medical attendance, as provided for in section 8 of this act.

Sec. 7. That the certificate of death shall contain the following items, which are hereby declared necessary for the legal, social, and sanitary purposes subserved by registration records:<sup>2</sup>

<sup>1</sup> A special proviso may be required for sparsely settled portions of a State.

<sup>2</sup> The following items are those of the United States standard certificate of death, approved by the Bureau of the Census.

## APPENDIX III

- (1) Place of death, including State, county, township, village, or city. If in a city, the ward, street, and house number; if in a hospital or other institution, the name of the same to be given instead of the street and house number. If in an industrial camp, the name of the camp to be given.
- (2) Full name of decedent. If an unnamed child, the surname preceded by "Unnamed."
- (3) Sex.
- (4) Color or race, as white, black, mulatto (or other negro descent), Indian, Chinese, Japanese, or other.
- (5) Conjugal condition, as single, married, widowed, or divorced.
- (6) Date of birth, including the year, month, and day.
- (7) Age, in years, months, and days. If less than one day, the hours or minutes.
- (8) Occupation. The occupation to be reported of any person, male or female, who had any remunerative employment, with the statement of (a) trade, profession or particular kind of work; (b) general nature of industry, business, or establishment in which employed (or employer).
- (9) Birthplace; at least State or foreign country, if known.
- (10) Name of father.
- (11) Birthplace of father; at least State or foreign country, if known.
- (12) Maiden name of mother.
- (13) Birthplace of mother; at least State or foreign country, if known.
- (14) Signature and address of informant.
- (15) Official signature of registrar, with the date when certificate was filed, and registered number.
- (16) Date of death, year, month, and day.
- (17) Certification as to medical attendance on decedent, fact and time of death, time last seen alive, and the cause of death, with contributory (secondary) cause of complication, if any, and duration of each, and whether attributed to dangerous or insanitary conditions of employment; signature and address of physician or official making the medical certificate.
- (18) Length of residence (for inmates of hospitals and other institutions; transients or recent residents) at place of death and in the State, together with the place where disease was contracted, if not at place of death, and former or usual residence.
- (19) Place of burial or removal; date of burial.
- (20) Signature and address of undertaker or person acting as such.

The personal and statistical particulars (items 1 to 13) shall be authenticated by the signature of the informant, who may be any competent person acquainted with the facts.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive, and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in the death, giving first the name of the disease causing death (primary cause), and the contributory (secondary) cause, if any, and the duration of each. Indefinite and unsatisfactory terms, denoting only symptoms of disease or conditions resulting from disease, will not be held sufficient for the issuance of a burial or removal permit; and any certificate containing only such terms as defined by the State Registrar shall be returned to the physician or person making the medical certificate for correction and more definite statement. Causes of death which may be the result of either disease or violence shall be carefully defined; and if from violence, the means of injury shall be stated and whether (probably) accidental, suicidal, or homicidal.<sup>1</sup> And for deaths in hospitals, institutions, or of nonresidents the physician shall supply the information required under this head (item 18), if he is able to do so, and may state where, in his opinion, the disease was contracted.

SEC. 8. That in case of any death occurring without medical attendance it shall be the duty of the undertaker to notify the local registrar of such death, and when so notified the registrar shall, prior to the issuance of the permit, inform the local health officer and refer the case to him for immediate investigation and certification: *Provided*, That when the local health officer is not a physician, or when there is no such official, and in such cases only, the registrar is authorized to make the certificate and return from the statement of relatives or other persons having adequate knowledge of the facts: *Provided further*, That if the registrar has reason to believe that the death may have been due to unlawful act or neglect he shall then refer the case to the coroner or other proper officer for his investigation and certification. And the coroner or other proper officer whose duty it is to hold an inquest on the

<sup>1</sup> In some States the question whether a death was accidental, suicidal, or homicidal must be determined by the coroner or medical examiner and the registration law must be framed to harmonize.

body of any deceased person and to make the certificate of death required for a burial permit shall state in his certificate the name of the disease causing death, or if from external causes, (1) the means of death and (2) whether (probably) accidental, suicidal, or homicidal, and shall in any case furnish such information as may be required by the State Registrar in order properly to classify the death.

SEC. 9. That the undertaker or person acting as undertaker shall file the certificate of death with the local registrar of the district in which the death occurred and obtain a burial or removal permit prior to any disposition of the body. He shall obtain the required personal and statistical particulars from the person best qualified to supply them, over the signature and address of his informant. He shall then present the certificate to the attending physician, if any, or to the health officer or coroner, as directed by the local registrar, for the medical certificate of the cause of death and other particulars necessary to complete the record, as specified in sections 7 and 8. And he shall then state the facts required relative to the date and place of burial or removal, over his signature and with his address, and present the completed certificate to the local registrar in order to obtain a permit for burial, removal, or other disposition of the body. The undertaker shall deliver the burial permit to the person in charge of the place of burial before interring or otherwise disposing of the body, or shall attach the removal permit to the box containing the corpse, when shipped by any transportation company, said permit to accompany the corpse to its destination, where, if within the State of —, it shall be delivered to the person in charge of the place of burial.

[Every person, firm, or corporation selling a casket shall keep a record showing the name of the purchaser, purchaser's post-office address, name of deceased, date of death, and place of death of deceased, which record shall be open to inspection of the State Registrar at all times. On the first day of each month the person, firm, or corporation selling caskets shall report to the State Registrar each sale for the preceding month, on a blank, provided for that purpose: *Provided, however,* That no person, firm, or corporation selling caskets to dealers or undertakers only shall be required to keep such record, nor shall such report be required from undertakers when they have direct charge of the disposition of a dead body.

Every person, firm, or corporation selling a casket at retail, and not having charge of the disposition of the body, shall inclose within the casket a notice furnished by the State Registrar calling attention to the requirements of the law, a blank certificate of death, and the rules

and regulations of the State board of health concerning the burial or other disposition of a dead body.)<sup>1</sup>

SEC. 10. That if the interment or other disposition of the body is to be made within the State, the wording of the burial or removal permit may be limited to a statement by the registrar, and over his signature, that a satisfactory certificate of death having been filed with him, as required by law, permission is granted to inter, remove, or dispose otherwise of the body, stating the name, age, sex, cause of death, and other necessary details upon the form prescribed by the State registrar.

SEC. 11. That no person in charge of any premises on which interments are made shall inter or permit the interment or other disposition of any body unless it is accompanied by a burial, removal, or transit permit, as herein provided. And such person shall indorse upon the permit the date of interment, over his signature, and shall return all permits so indorsed to the local registrar of his district within ten days from the date of interment, or within the time fixed by the local board of health. He shall keep a record of all bodies interred or otherwise disposed of on the premises under his charge, in each case stating the name of each deceased person, place of death, date of burial or disposal, and name and address of the undertaker; which record shall at all times be open to official inspection: *Provided*, That the undertaker, or person acting as such, when burying a body in a cemetery or burial ground having no person in charge, shall sign the burial or removal permit, giving the date of burial, and shall write across the face of the permit the words "No person in charge," and file the burial or removal permit within ten days with the registrar of the district in which the cemetery is located.

SEC. 12. That the birth of each and every child born in this State shall be registered as hereinafter provided.

SEC. 13. That within ten days after the date of each birth there shall be filed with the local registrar of the district in which the birth occurs a certificate of such birth, which certificate shall be upon the form adopted by the State board of health with a view to procuring a full and accurate report with respect to each item of information enumerated in section 14 of this act.<sup>2</sup>

In each case where a physician, midwife, or person acting as midwife was in attendance upon the birth, it shall be the duty of such physician

<sup>1</sup> The provisions in brackets may be useful in States in which many funerals are conducted without regular undertakers.

<sup>2</sup> A proviso may be added that shall require the registration, or notification, at a shorter interval than ten days, of births that occur in cases

midwife, or person acting as midwife to file in accordance herewith the certificate herein contemplated.

In each case where there was no physician, midwife, or person acting as midwife in attendance upon the birth, it shall be the duty of the father or mother of the child, the householder or owner of the premises where the birth occurred, or the manager or superintendent of the public or private institution where the birth occurred, each in the order named, within ten days after the date of such birth, to report to the local registrar the fact of such birth. In such case and in case the physician, midwife, or person acting as midwife, in attendance upon the birth is unable, by diligent inquiry, to obtain any item or items of information contemplated in section 14 of this act, it shall then be the duty of the local registrar to secure from the person so reporting, or from any other person having the required knowledge, such information as will enable him to prepare the certificate of birth herein contemplated, and it shall be the duty of the person reporting the birth, or who may be interrogated in relation thereto, to answer correctly and to the best of his knowledge all questions put to him by the local registrar which may be calculated to elicit any information needed to make a complete record of the birth as contemplated by said section 14, and it shall be the duty of the informant as to any statement made in accordance herewith to verify such statement by his signature, when requested so to do by the local registrar.

Sec. 14. That the certificate of birth shall contain the following items, which are hereby declared necessary for the legal, social, and sanitary purposes subserved by registration records:<sup>1</sup>

(1) Place of birth, including State, county, township or town, village, or city. If in a city, the ward, street, and house number; if in a hospital or other institution, the name of the same to be given, instead of the street and house number.

(2) Full name of child. If the child dies without a name, before the certificate is filed, enter the words "Died unnamed." If the living child is not yet been named at the date of filing certificate of birth, the space in "Full name of child" is to be left blank, to be filled out subsequently on a supplemental report, as hereinafter provided.

(3) Sex of child.

(4) Whether a twin, triplet, or other plural birth. A separate certificate shall be required for each child in case of plural births.

he

ce The following items are those of the United States standard certificate of birth, approved by the Bureau of the Census.

- (5) For plural births, number of each child in order of birth.
- (6) Whether legitimate or illegitimate.<sup>1</sup>
- (7) Date of birth, including the year, month, and day.
- (8) Full name of father.
- (9) Residence of father.
- (10) Color or race of father.
- (11) Age of father at last birthday, in years.
- (12) Birthplace of father; at least State or foreign country, if known.
- (13) Occupation of father. The occupation to be reported if engaged in any remunerative employment, with the statement of (a) trade, profession, or particular kind of work; (b) general nature of industry, business, or establishment in which employed (or employer).
- (14) Maiden name of mother.
- (15) Residence of mother.
- (16) Color or race of mother.
- (17) Age of mother at last birthday, in years.
- (18) Birthplace of mother; at least State or foreign country, if known.
- (19) Occupation of mother. The occupation to be reported if engaged in any remunerative employment, with the statement of (a) trade, profession, or particular kind of work; (b) general nature of industry, business, or establishment in which employed (or employer).
- (20) Number of children born to this mother, including present birth.
- (21) Number of children of this mother living.
- (22) The certification of attending physician or midwife as to attendance at birth, including statement of year, month, day (as given in item 7), and hour of birth, and whether the child was born alive or stillborn. This certification shall be signed by the attending physician or midwife, with date of signature and address; if there is not physician or midwife in attendance, then by the father or mother of the child, householder, owner of the premises, or manager or superintendent of public or private institution where the birth occurred, or other competent person, whose duty it shall be to notify the local registrar of such birth, as required by section 13 of this act.
- (23) Exact date of filing in office of local registrar, attested by his official signature, and registered number of birth, as hereinafter provided.

Sac. 15. That when any certificate of birth of a living child is presented without the statement of the given name, then the local registrar

<sup>1</sup> This question may be omitted if desired, or provision may be made so that the identity of parents will not be disclosed.

shall make out and deliver to the parents of the child a special blank for the supplemental report of the given name of the child, which shall be filled out as directed, and returned to the local registrar as soon as the child shall have been named.

SEC. 16. That every physician, midwife, and undertaker shall, without delay, register his or her name, address, and occupation with the local registrar of the district in which he or she resides, or may hereafter establish a residence; and shall thereupon be supplied by the local registrar with a copy of this act, together with such rules and regulations as may be prepared by the State registrar relative to its enforcement. Within thirty days after the close of each calendar year each local registrar shall make a return to the State registrar of all physicians, midwives, or undertakers who have been registered in his district during the whole or any part of the preceding calendar year: *Provided*, That no fee or other compensation shall be charged by local registrars to physicians, midwives, or undertakers for registering their names under this section or making returns thereof to the State registrar.<sup>1</sup>

SEC. 17. That all superintendents or managers, or other persons in charge of hospitals, almshouses, lying-in, or other institutions, public or private, to which persons resort for treatment of diseases, confinement, or are committed by process of law, shall make a record of all the personal and statistical particulars relative to the inmates in their institutions at the date of approval of this act, which are required in the forms of the certificates provided for by this act, as directed by the State registrar; and thereafter such record shall be, by them, made for all future inmates at the time of their admittance. And in case of persons admitted or committed for treatment of disease, the physician in charge shall specify for entry in the record, the nature of the disease, and where, in his opinion, it was contracted. The personal particulars and information required by this section shall be obtained from the individual himself if it is practicable to do so; and when they can not be so obtained, they shall be obtained in as complete a manner as possible from relatives, friends, or other persons acquainted with the facts.

SEC. 18. That the State registrar shall prepare, print, and supply to all registrars all blanks and forms used in registering, recording, and preserving the returns, or in otherwise carrying out the purposes of this act; and shall prepare and issue such detailed instructions as may be required to procure the uniform observance of its provisions and the

<sup>1</sup> This section may be omitted if deemed expedient and the duty of supplying instructions may be assumed by the State officer.

maintenance of a perfect system of registration; and no other blanks shall be used than those supplied by the State registrar. He shall carefully examine the certificates received monthly from the local registrars, and if any such are incomplete or unsatisfactory he shall require such further information to be supplied as may be necessary to make the record complete and satisfactory. And all physicians, midwives, informants, or undertakers, and all other persons having knowledge of the facts, are hereby required to supply, upon a form provided by the State registrar or upon the original certificate, such information as they may possess regarding any birth or death upon demand of the State registrar, in person, by mail, or through the local registrar: *Provided*, That no certificate of birth or death, after its acceptance for registration by the local registrar, and no other record made in pursuance of this act, shall be altered or changed in any respect otherwise than by amendments properly dated, signed, and witnessed. The State registrar shall further arrange, bind, and permanently preserve the certificates in a systematic manner, and shall prepare and maintain a comprehensive and continuous card index of all births and deaths registered; said index to be arranged alphabetically, in the case of deaths, by the names of decedents, and in the case of births, by the names of fathers and mothers. He shall inform all registrars what diseases are to be considered infectious, contagious, or communicable and dangerous to the public health, as decided by the State board of health, in order that when deaths occur from such diseases proper precautions may be taken to prevent their spread.

If any cemetery company or association, or any church or historical society or association, or any other company, society, or association, or any individual, is in possession of any record of births or deaths which may be of value in establishing the genealogy of any resident of this State, such company, society, association, or individual may file such record or a duly authenticated transcript thereof with the State registrar, and it shall be the duty of the State registrar to preserve such record or transcript and to make a record and index thereof in such form as to facilitate the finding of any information contained therein. Such record and index shall be open to inspection by the public, subject to such reasonable conditions as the State registrar may prescribe. If any person desires a transcript of any record filed in accordance herewith, the State registrar shall furnish the same upon application, together with a certificate that it is a true copy of such record, as filed in his office, and for his services in so furnishing such transcript and certificate he shall be entitled to a fee of (ten cents per folio) (fifty cents

per hour or fraction of an hour necessarily consumed in making such transcript) and to a fee of twenty-five cents for the certificate, which fees shall be paid by the applicant.

Sec. 19. That each local registrar shall supply blank forms of certificates to such persons as require them. Each local registrar shall carefully examine each certificate of birth or death when presented for record in order to ascertain whether or not it has been made out in accordance with the provisions of this act and the instructions of the State registrar; and if any certificate of death is incomplete or unsatisfactory, it shall be his duty to call attention to the defects in the return, and to withhold the burial or removal permit until such defects are corrected. All certificates, either of birth or of death, shall be written legibly, in durable black ink, and no certificate shall be held to be complete and correct that does not supply all of the items of information called for therein, or satisfactorily account for their omission. If the certificate of death is properly executed and complete, he shall then issue a burial or removal permit to the undertaker; provided, that in case the death occurred from some disease which is held by the State board of health to be infectious, contagious, or communicable and dangerous to the public health, no permit for the removal or other disposition of the body shall be issued by the registrar, except under such conditions as may be prescribed by the State board of health. If a certificate of birth is incomplete, the local registrar shall immediately notify the informant and require him to supply the missing items of information if they can be obtained. He shall number consecutively the certificates of birth and death, in two separate series, beginning with number 1 for the first birth and the first death in each calendar year, and sign his name as registrar in attest of the date of filing in his office. He shall also make a complete and accurate copy of each birth and each death certificate registered by him in a record book supplied by the State registrar, to be preserved permanently in his office as the local record, in such manner as directed by the State registrar. And he shall, on the tenth day of each month, transmit to the State registrar all original certificates registered by him for the preceding month. And if no births or no deaths occurred in any month, he shall, on the tenth day of the following month, report that fact to the State registrar, on a card provided for such purpose.

Sec. 20. That each local registrar shall be paid the sum of twenty-five cents for each birth certificate and each death certificate properly and completely made out and registered with him, and correctly recorded and promptly returned by him to the State registrar, as required by

this act.<sup>1</sup> And in case no births or no deaths were registered during any month, the local registrar shall be entitled to be paid the sum of twenty-five cents for each report to that effect, but only if such report be made promptly as required by this act. All amounts payable to a local registrar under the provisions of this section shall be paid by the treasurer of the county in which the registration district is located, upon certification by the State registrar. And the State registrar shall annually certify to the treasurers of the several counties the number of births and deaths properly registered, with the names of the local registrars and the amounts due each at the rates fixed herein.<sup>2</sup>

SEC. 21. That the State registrar shall, upon request, supply to any applicant a certified copy of the record of any birth or death registered under provisions of this act, for the making and certification of which he shall be entitled to a fee of fifty cents, to be paid by the applicant. And any such copy of the record of a birth or death, when properly certified by the State registrar, shall be *prima facie* evidence in all courts and places of the facts therein stated. For any search of the files and records when no certified copy is made, the State registrar shall be entitled to a fee of fifty cents for each hour or fractional part of an hour of time of search, said fee to be paid by the applicant. And the State registrar shall keep a true and correct account of all fees by him received under these provisions, and turn the same over to the State treasurer: *Provided*, That the State registrar shall, upon request of any parent or guardian, supply, without fee, a certificate limited to a statement as to the date of birth of any child when the same shall be necessary for admission to school, or for the purpose of securing employment: *And provided further*, That the United States Census Bureau may obtain, without expense to the State, transcripts, or certified copies of births and deaths without payment of the fees herein prescribed.

SEC. 22. That any person, who for himself or as an officer, agent, or employee of any other person, or of any corporation or partnership (a) shall inter, cremate, or otherwise finally dispose of the dead body of a human being, or permit the same to be done, or shall remove said body from the primary registration district in which the death occurred or

<sup>1</sup> A proviso may be inserted at this point relative to fees of city registrars who are already compensated by salary for their services. See laws of Missouri, Ohio, and Pennsylvania.

<sup>2</sup> Provision may be made in this section for the payment of sub-registrars and also, if desired, for the payment of physicians and midwives. See Kentucky law.

the body was found without the authority of a burial or removal permit issued by the local registrar of the district in which the death occurred or in which the body was found; or (b) shall refuse or fail to furnish correctly any information in his possession, or shall furnish false information affecting any certificate or record, required by this act; or (c) shall willfully alter, otherwise than is provided by section 18 of this act, or shall falsify any certificate of birth or death, or any record established by this act; or (d) being required by this act to fill out a certificate of birth or death and file the same with the local registrar, or deliver it, upon request, to any person charged with the duty of filling the same, shall fail, neglect, or refuse to perform such duty in the manner required by this act; or (e) being a local registrar, deputy registrar, or subregistrar, shall fail, neglect, or refuse to perform his duty as required by this act and by the instructions and direction of the State registrar thereunder, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall for the first offense be fined not less than five dollars (\$5) nor more than fifty dollars (\$50), and for each subsequent offense not less than ten dollars (\$10) nor more than one hundred dollars (\$100), or be imprisoned in the county jail not more than sixty days, or be both fined and imprisoned in the discretion of the court.<sup>1</sup>

SEC. 23. That each local registrar is hereby charged with the strict and thorough enforcement of the provisions of this act in his registration district, under the supervision and direction of the State registrar. And he shall make an immediate report to the State registrar of any violation of this law coming to his knowledge, by observation or upon complaint of any person or otherwise.

The State registrar is hereby charged with the thorough and efficient execution of the provisions of this act in every part of the State, and is hereby granted supervisory power over local registrars, deputy local registrars, and subregistrars to the end that all of its requirements shall be uniformly complied with. The State registrar, either personally or by an accredited representative, shall have authority to investigate cases of irregularity or violation of law, and all registrars shall aid him upon request, in such investigations. When he shall deem it necessary he shall report cases of violation of any of the provisions of this act to the prosecuting attorney of the county, with a statement of the facts

<sup>1</sup> Provision may be made whereby compliance with this act shall constitute a condition of granting licenses to physicians, midwives, and embalmers.

and circumstances; and when any such case is reported to him by the State registrar the prosecuting attorney shall forthwith initiate and promptly follow up the necessary court proceedings against the person or corporation responsible for the alleged violation of law. And upon request of the State registrar, the attorney general shall assist in the enforcement of the provisions of this act.

**Note.** — Other sections should be added giving the date on which the act is to go into effect, if not determined by constitutional provisions of the State; providing for the financial support of the law; and repealing prior statutes inconsistent with the present act.

It is desirable that the entire bill should be reviewed by competent legal authority for the purpose of discovering whether it can be made more consistent in any respect with the general form of legislation of the State in which the bill is to be introduced, without material change or injury to the effectiveness of registration.

#### **THE STANDARD BIRTH AND DEATH CERTIFICATES**

The following are facsimile reproductions of the standard birth and death certificates. They have been reduced in size to meet the requirements of the printed page. The size of the birth certificate is 6½ by 7½ inches, and of the death certificate 7½ by 8½ inches. Copies can be obtained from the Director of the Census upon request.

8-346  
V.S. No. 110(Instructions on certain points may be printed on the back.  
Size of certificate, 64 x 7½ in.)
