From

MAJOR J. JACKSON, M.B., I.M.S.,  
Acting Inspector-General of Prisons,  
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,  
Judicial Department,  
Bombay.

*Inspector-General of Prisons' Office,  
Poona, 15th April 1905.*

SIR,

I have the honour to submit the Annual Administration Report, together with the usual statistical tables, on the Prisons and Jails of the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1904. From the 1st January to 12th May 1904, the office of the Inspector-General of Prisons was held by Mr. H. N. Alexander, who was granted privilege leave in combination with furlough for 22 months from the 13th May 1904, from which date I have been in administrative charge of the Department.

### JUDICIAL.

2. During the year under report, the number of Central, District, Special and Extra-mural Prisons has undergone no change. The arrangement of grouping together the statistics of all 3rd Class Subsidiary Jails with those of Lock-ups has been continued in this report. Owing to unavoidable delay in the printing of the revised 3rd Class Subsidiary Jail Forms (in the three languages) sanctioned by Government in their Resolution No. 6180, dated the 23rd November 1903, it was not possible to introduce the returns earlier than the month of March 1905. In this connection the attention of Government is solicited to this office No. 1463, dated the 16th February 1905. Once the working of the new Registers has been grasped, there should be no difficulty in correct figures being submitted to this office for incorporation in future Administration Reports.

3. From the General Summary, which precedes the statements in the appendices to this report, it will be seen that the total population of all classes of prisoners confined in Prisons, Subsidiary Jails, Lock-ups and Civil Jails during the year 1904 has been 93,615 as compared with 94,258 in the year 1903—a decrease of 643. The daily average population has been 9,058 as compared with 9,188 in the year previous—a fall of 130. The increase of 827 convicts in Prisons under admissions will hereafter be commented upon.

4. The following table, which compares the figures of the past two years, Statement No. 1.—Number refers to the admissions of convicts into Prisons and and disposal of convicts. 1st and 2nd Class Subsidiary Jails only:—

	1903.			1904.		
	Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year. { Prisons	8,922	270	9,192	7,326	209	7,535
{ Jails	838	21	859	374	21	395
Imprisoned during the year. { Prisons	12,468	926	13,394	13,289	932	14,221
{ Jails	2,236	259	2,495	2,020	203	2,223
Total ... { Prisons	21,390	1,196	22,586	20,615	1,141	21,756
{ Jails	2,574	280	2,854	2,394	224	2,618
Grand Total	23,964	1,476	25,440	23,009	1,365	24,374
Daily average number	7,702	213	7,915	7,678	229	7,907

5. The increase under admissions of convicts in Prisons referred to in the above table, can be ascribed to the Common Prison, Ahmedabad Central Prison, District Prison at Dhulia and Special Prison at Aden. The increase in the first named Prison may be attributed to two causes. In the first place the Police authorities have been taking stricter measures under Act IV of 1902. Secondly the newly appointed Honorary Magistrates in the City of Bombay have been sending prisoners under sentence of a day or even a few hours to the Common Prison; whereas the old practice was to detain such cases until the rising of the Court. The increase in Ahmedabad Central Prison was due to the failure of the monsoon. In the Dhulia Prison a larger number of convictions under Chapter VIII, Criminal Procedure Code, and under the Abkari Act, accounts for the increase in admissions. In the Aden Special Prison the increase was mainly due to a larger percentage of convictions.

6. The decrease is most marked in the Special Prison of Thána and the District Prisons of Karáchi and Dhárwár. In the case of the first named two prisons, the Superintendents are unable to assign any cause; while in the case of the Dhárwár Prison, the Superintendent explains that the decrease is partly due to a better harvest and to the fact that no prisoners were sent from Belgaum for three months.

7. With regard to the disposal of prisoners, the chief cause of decrease under "Releases by Government on other grounds" is the large number of Corona-

tion releases which took place during the year 1903. The head "Transferred beyond Seas" is blank, as transports were not deported to the Andamans during the year 1904, owing to a case of plague having occurred at the eleventh hour in the Thána Special Prison, where all fit transports were in readiness for deportation to Port Blair. The increase under "Releases under Remission Rules" is so small that it does not call for any comment. Of the 18 prisoners referred to in the marginally noted communications from Government and disposed of accordingly, 8 were ex-military convicts, 1 vagrant, 1 foreigner, 6 male and 2 female unfit life transports, and 1 male prisoner was released from the Ratnágiri Prison by the District Magistrate under the authority contained in Government Resolution, Judicial Department, No. 6, dated the 3rd January 1898. The number of Burmese prisoners at the close of the year under report was 7, and that of State prisoners was 2.

8. With reference to the figures appearing in the marginally noted statement it will be observed that with the exception of "Europeans" and "All other classes", all the other heads under religion show an increase due to the increase in admissions which has already been commented upon.

Statement No. II.—Religion, age, education and previous occupation of convicts.

9. The number of juveniles received during the year under report shows an increase of 38 over the figures for the year 1903. Of the 161 male and 49 female youthful offenders convicted during the year under report, 107 males and 37 females were sentenced to one month and under, 31 males and 9 females to above one month and under six months, 23 males and 3 females to over six months. Twenty of these juveniles had previous convictions. 137 male

and 33 female juveniles were admitted into Central and District Prisons. Of these 89 males and 19 females were received into the Common Prison, Bombay, and only two of this number had previous convictions: 22 males and 12 females were received into the Central Prison, Ahmedabad, of whom nine had previous convictions. 24 males and 16 females underwent imprisonment in Subsidiary Jails; 7 males and 4 females at Wadhwan; 5 males and 7 females at Sholapur. Special reasons may exist for the incarceration of such a large number of juveniles in Bombay and Gujarát, but the surest way to breed the adult habitual is to sentence the juvenile to terms of imprisonment. The increase under "15 to 40" and "above 60" does not call for any comment. Under the head "Education of convicts" the sub-head "Illiterate" shows an increase of 623 over the figures of the previous year, while the remaining two sub-heads show a decline. Under "Previous occupation of male prisoners" the sub-heads "Professional persons" "Persons in service or performing personal offices" and "Persons engaged in commerce or trade" show an increase; all the remaining sub-heads show a decline. All the sub-heads classed under "Females" have fallen except in the case of "Prostitutes" which shows an increase of 42 during the year under report. This is chiefly due to the larger admissions in H. M.'s Common Prison, Bombay. The percentage of the total number admitted to free population according to the census of 1901 is 0.160 in the year 1904 as compared with 0.153 in 1903.

10. There has been a marked increase under the heads "Not exceeding one month", "Prisoners sentenced to transportation for life" and to "Death," a slight increase under the heads "Above 3 and not exceeding 6 months," "Above 6 months and not exceeding 1 year," "Above 1 year and not exceeding 2 years," while the other heads show a decline. The increase under the head "Not exceeding one month" is entirely due to increased admissions at the Common Prison. The increase under "Transportation for life" is chiefly due to the larger admissions in the Prisons of Yerávida and Dhárwár, while the Prisons of Hyderabad and Shikárpur are mainly responsible for the increase under "Prisoners sentenced to death." Prisoners sentenced to simple imprisonment have nearly doubled. The number sentenced to rigorous imprisonment and rigorous imprisonment with whipping has fallen during the year under report, whereas imprisonment with solitary confinement shows a rise of 7 as compared with the year 1903. The Common Prison, Bombay, and the Subsidiary Jail, Sátára, are mainly responsible for the increase under "Prisoners sentenced to simple imprisonment."

11. The number of habituais identified by the Jail officials after arrival in Jail has fallen from 521 in 1903 to 448 in the year under report. 1,181 prisoners were classified as habituais out of a total of 2,408 previously convicted prisoners against 1,288 out of 2,509 in the year 1903:—

1903 ...		13,394	1,948	521	40	2,509	1,288
1902 ...		16,090	2,873	655	74	3,102	1,302

12. It appears from the information supplied by the Inspector-General of Police that there has been an increase of 96 in the number of prisoners identified in the Bombay Presidency, exclusive of Sind, by means of finger tip impressions. Of the total number of 628 persons thus identified, 127 were identified in Bombay, 88 in Ahmedabad, 53 in Dhulia, 60 in Yerávdá, 45 in Thána, 38 in Ahmednagar, 37 in Násik and the rest in other parts of the Presidency.

13. There is an increase of 827 in the total admissions and a diminution of 107 in the total of habituals classed. My inspection of many of the Prisons showed me that many prisoners were not classified as habituals who should have been so classed, *e.g.*, men sentenced under section 75, Indian Penal Code, and men with numerous previous convictions. The attention of Superintendents has been directed to Rule 454, Bombay Jail Manual, and so far from the slight decrease shown in this year's return continuing, I anticipate a marked increase. Means of segregating habituals from first conviction men are deficient or faulty in most Bombay Prisons. Another desideratum is the isolation of recidivists at night in cells. The Superintendent, Dhulia Prison, reports that the complete segregation of habituals in the new habitual yard at that Prison has had a most excellent effect.

14. Five prisoners escaped from within the walls during the year under report against seven in the year 1903. Of the 5 escapes, 2 got away from the Ahmedabad Central Prison, and 1 each from the Sind Gang, the Prison of Karáchi and Common Prison, Bombay. The escape from Ahmedabad was rendered possible by the connivance of a convict officer who betrayed the trust reposed in him, and by the assistance of a third prisoner. Both these

Statement No. V.—Escapes and recaptures.

men were prosecuted under sections 222, Indian Penal Code, and 109, Indian Penal Code, respectively, the convict officer being sentenced to one year's rigorous imprisonment and the prisoner to six months' rigorous imprisonment. In all other cases the warders and convict officers in fault were prosecuted or dealt with departmentally.

15. Seven prisoners escaped from outside the Prison and Subsidiary Jails against nine in the year 1903. Of the 7 prisoners, 1 escaped from Dhárwár, 1 from Ahmedabad, 1 from Karáchi and 1 from Shikárpur Prisons, one each from the Subsidiary Jails of Godhra, Bhusáwal and Sátára. Of the 12 prisoners who got away during the year under report, 6 have been recaptured. Two prisoners who had escaped during the previous 10 years were also recaptured during 1904.

16. The statement noted in the margin relates to the offences committed by, and the punishments awarded to, convicts confined in the Prisons and Subsidiary Jails of the First and Second Class. The offences dealt with by Criminal Courts have fallen from 36 in 1903 to 23 in the year under report, as will be

<i>Section 52, Prisons Act.</i>		1903.	1904.

All other breaches of prison rules	...	2,532	677	3,378	787
Total	...	7,191	2,106	10,200	2,778

18. The following table shows the nature of the punishments inflicted during the year 1904 as compared with the figures of the year previous. From this statement it would appear that the total number of minor and major punishments awarded by Superintendents was 13,121, and the total number of offences was 12,978. The difference is due to 143 offences having been dealt with during the year under report by the award of combined punishments :—

Punishments inflicted—						1903.	1904.
<i>By Criminal Courts</i>						36	23
<i>By Superintendents.</i>

19. The subjoined table furnishes particulars as to the number of stripes inflicted on convicts confined in Prisons during the year 1904 as compared with the figures for the year 1903 :—

	1	2	3						4	5	6			
			Total number of prisoners punished by whipping.								Percentage of column 3 to column 1	Percentage of column 3 to column 2	Number of prisoners in whose case (a) death or (b) illness was directly or indirectly the effect of corporal punishment.	
			5 to 10 stripes.	Above 10 to 15.	Above 15 to 20.	Above 20 to 25.	Above 25 to 30.	Grand Total.					(a) Death.	(b) Illness.
Total ... { 1903 ... 21,437 1904 ... 20,795	...	9,152 13,807	9 19	7 25	21 23	15 23	26 16	78 106	0.4 0.5	0.8 0.8	1	3		

\* The figures exclude the number of prisoners moved from prison to prison within the Department.

20. The following table shows at a glance the Prisons principally responsible for the actual increase in offences and the remark column shows the reason thereof :—

Name of Prison.	Minor.	Major.	Remarks.
Common Prison	113	115	Change of Superintendents; stricter exaction of task.
Yeránda	1,298	119	Stricter exaction of task and change of Superintendents.
Dhulia	124	41	Stricter exaction of task and better discipline; transfer of Bombay habituals.
Dhárwár	208	126	Stricter exaction of task and insistence on better discipline.
Ratnágiri	50	11	Change of Superintendents.
Thána	91	15	Change of Superintendents.
Ahmedabad	849	285	Proper task exacted; good quality of work insisted on; the introduction of parades and a general tightening of discipline which was much needed.
Karáchi	53	16	Stricter tasking.
Shikárpur	200	137	Change of Superintendents; stricter discipline.
Sind Gang	225	12	Tasking more feasible at stone breaking and the Gang healthier and more settled down, better discipline.
Aden	38	6	Increase in daily average.

21. The actual number of convicts who passed through the Central and District Prisons was 24,378. Of this number only 5,634 incurred any punishment and in many cases the only record against a prisoner was one minor punishment. No less than 10,246 of the total number of punishments were minor and of these 1,729 were formal warnings and 4,820 such punishments as forfeiture of small amounts of remission, temporary reduction in grade, temporary loss of grade privileges and change of labour. Offences relating to work have risen from 3,995 in 1903 to 6,514 in 1904. This is due to an attempt to exact a proper task from all prisoners throughout the Presidency. During 1903 and 1904 the number of prisoners sentenced to rigorous imprisonment with solitary confinement has been exceedingly large as compared with previous years. The execution of these sentences has necessarily kept the solitary cells full. As a result of this, and owing to the frequent use of these cells for segregation purposes, Superintendents have been greatly hampered and have been unable to resort in any degree to those most useful forms of punishment—separate, cellular and solitary confinement. This is also a contributory cause to the increase in the total punishments. For when a prisoner becomes sulky or defiant there is no punishment so useful at the beginning as a term in a cell. There is then no association with other prisoners, no encouragement to persist in his misconduct, and no gallery to play to; whereas the reverse often occurs when other punishments are inflicted, and too frequently the culmination is some serious offence incurring the severest penalty. Plans and estimates have been called for the provision of the additional punishment cells required. I have dealt fully with the subject of corporal punishments in my letters Nos. 7235 and 1239, dated respectively 1st September 1904 and 11th February 1905. The increase at Ahmedabad is due to a determined attempt on the part of the prisoners to resist the exaction of the task of work laid down in the Prison Manual. In some industries they were not doing half task and were doing that badly. I am confident that there will be a normal proportion of floggings at Ahmedabad during the present year. It is my assured conviction that floggings will steadily diminish with the provision of sufficient punishment cells. 1,191 habituals accounted for 3,360 punishments or 2·8 punishments per man; so that of non-habitual prisoners only 4,443 were punished giving to each one 2·1 punishments. The genuine habitual is, in my opinion, generally badly behaved and is always a centre for tobacco and other illicit articles, and the worst specimen of all is the habitual from Bombay itself. Although Yerávida Central Prison and Ahmedabad Central Prison show such a large increase on the punishments recorded in these Institutions in 1903, yet a brief glance will show that the ratio of punishments to population is not larger in these Prisons than in many Jails in other Presidencies. The returns of punishments made by some Subsidiary Jails are ridiculous, and show that no real discipline exists in them. For the theory that the Prison recording few punishments is necessarily one in which the discipline is good, is most erroneous.

22. During the year under report, 4,891 prisoners wore fetters compared with 5,321 in the year 1903.

### MARK SYSTEM.

23. A reference to the figures appearing in Statement C, appended to this report, shows that 2,267 prisoners were released during the year 1904 under the Remission Rules as compared with 2,227 in the year 1903. The increase being small does not call for any remarks. The percentage during the year 1904 of those released under the mark system to the total number who might have been released under that system if of average good conduct up to the date of release was 98·7 against 98·6 in 1903. The practice of mustering all prisoners and reading and explaining to them the benefits of the mark rules has been continued during the year under report. The report referred to in paragraph 2 of Government Resolution, Judicial Department, No. 6460, dated the 12th December 1904, regarding the submission of revised rules on the mark and remission system has already been submitted to Government with this office No. 324, dated the 12th January 1905, and I, therefore, do not comment further on the mark system.

24. The average number employed as Prison officers during the year under report in our Prisons and 1st and 2nd Class Subsidiary Jails was 1,008 males and 12 females against 883 males and 9 females during the year 1903. For this large increase the Central Prison of Ahmedabad and the District Prison of Dhulia are mainly responsible. The average number of this class of officers was during previous years much below the sanctioned scale in these Prisons, and consequently an additional number had to be employed to make up the required strength. The explanation given also holds good for the increase in the "Total number employed as convict officers" during the year under report. The number of punishments awarded to this class of prisoners shows an increase of 449 over the figure of the year previous, and this increase is most marked in the Prisons of Dhárwár, Thána and Ahmedabad due apparently to stricter discipline being enforced.

25. The marginally noted statement shows the different diet scales in use in the Prisons and Subsidiary Jails of the 1st and 2nd Class in this Presidency. These scales have been found to work satisfactorily. Such changes as have been made during the year 1904 have been noted in the 5th column of the statement.

26. The statistics of undertrial prisoners confined in Prisons, Subsidiary Jails and Lock-ups are given in the marginally noted statement. The number of prisoners admitted during the year 1904 shows an increase of 535, both sexes, the figures for 1904 being 64,427 against 63,892 in the year 1903. The above increase is due entirely to larger admissions into 3rd Class Subsidiary Jails and Lock-ups.

27. The number of escapes during the year 1904 has been 13 males and 1 female as detailed below against 27 males in the year previous :—

Third Class Subsidiary Jails.

					Males.	Females.
Karáchi	...	...	...	...	1	...
Lárhána	...	...	...	...	1	...
Ahmedabad	...	...	...	...	2	...
Belgaum	...	...	...	...	6	...
Kánara	...	...	...	...	1	...
Ahmednagar	...	...	...	...	1	...
Násik	...	...	...	...	1	...
Khándesh	...	...	...	...	...	1
					13	1

Twenty-six males and 2 females died during the year under report against 23 males and 1 female during the year 1903. Of the 28 deaths, 3 (2 males and 1 female) occurred in the District and Central Prisons, 5 (4 males and 1 female) occurred in the 1st and 2nd Class Subsidiary Jails, and 20 males in the 3rd Class Subsidiary Jails and Lock-ups. One male and 1 female died in the Common Prison, Bombay, 1 male in the Hyderabad Central Prison, 1 female in the 1st Class Subsidiary Jail of Násik, 1 male in each of the Subsidiary Jails of Ahmednagar and Sátára and 2 in the Subsidiary Jail at Belgaum. Of the remaining 20 deaths which took place in the 3rd Class Subsidiary Jails and Lock-ups, 5 males died in the Subsidiary Jail at Karáchi, 1 in Sukkur District, 1 in Thar and Párkar District, 1 in the Ahmedabad District, 1 in the Thána District, 1 in the Kánara District, 1 in the Khándesh District, 1 in the Sátára District, and 2 in the Sholápur District. Among the Lock-ups, 2 deaths occurred in the Lock-ups situate in the Poona District, 1 each in the Ahmedabad and Surat Districts and 1 in the City of Bombay and 1 in Aden.

28. The number remaining on the 31st December 1904 was 165 males and 8 females in Prisons, 127 males and 10 females in the 1st and 2nd Class Subsidiary Jails and 707 males and 87 females in the 3rd Class Subsidiary Jails and Lock-ups, thus making a total of 999 males and 105 females.

## CIVIL PRISONERS.

29. In the beginning of the year 1904, there were 93 male and 1 female prisoners, 1,098 males and 3 females received during the year, 1,112 males and 3 females were released, 1 male prisoner died in the Civil Jail of Surat, thus leaving a balance of 78 males and 1 female at the close of the year under report. The total cost and cost per head have fallen from Rs. 6,187-15-6 and Rs. 84-12-3 in 1903 to Rs. 5,909-9-11 and Rs. 71-3-2 in 1904 respectively. The above decrease in both the total cost and cost per head is due chiefly to the Common Prison, Bombay, where the lighting charges have fallen from Rs. 378-0-3 in 1903 to Rs. 188-14-0 in the year under report.

## FINANCIAL.

30. The marginally noted statements refer to the gross expenditure incurred in the Central, District and Extra-mural Prisons and the Subsidiary Jails and Lock-ups on account of convicted and undertrial prisoners. As usual the cost of Police Guard has been omitted and the realization from the sale-proceeds of garden produce deducted from the total charges. The gross expenditure during the year 1904 has been Rs. 6,49,685 and the cost per head Rs. 72-6-2 as compared with Rs. 6,76,356 and Rs. 74-3-3 in the year 1903.

31. Although the total cost in the Central and District Prisons shows a decline of Rs. 1,026, still the increase under (1) Subsidiary Jails of the 1st and 2nd Class and (2) Subsidiary Jails of the 3rd Class and Lock-ups has, in a measure, contributed to swell the grand total cost under "Establishment". The rise under the first head is partly due to the appointment of a clerk for the Wadhwan Jail during the year, *vide* Government Resolution, Financial Department, No. 4130, dated 21st December 1903, and partly to increments given to the Jailors of certain Institutions; while that under 3rd Class Subsidiary Jails and Lock-ups is due to the appointment of a Jailor on Rs. 25 per mensem in the Subsidiary Jail at Ahmedabad, *vide* Government Resolution, Financial Department, No. 462, dated 5th February 1904. The increase under "Inspection and general superintendence" is chiefly due to privilege leave allowances having been drawn by Mr. H. N. Alexander. The fall under Central and District Prisons is partly due to reduced charge allowances given to Superintendents and partly to the exclusion of allowances paid to the Superintendent, H. M.'s House of Correction as Governor of the Government Male Work House and which were, up to the past year, erroneously included under this head.

32. The total cost and cost per head under dietary charges have fallen from Rs. 2,79,370 and Rs. 30-10-5 in 1903 to Rs. 2,64,777 and Rs. 29-8-0 respectively during the year 1904. All the Institutions show a decline under cost per head except in the case of 3rd Class Subsidiary Jails and Lock-ups in which it has risen by annas 6 and pie 1. The decline under Prisons and 1st and 2nd Class Subsidiary Jails is due generally to more favourable contract rates having been secured in 1904.

33. The value of vegetables and other supplies have fallen from Rs. 17,310-9-8 in 1903 to Rs. 16,767-6-6 in 1904. This decline is chiefly due to the Central Prisons of Yeravda and Ahmedabad where the tanks and wells ran dry owing to scanty rainfall. It is, however, satisfactory to note that the gardens attached to the Dhulia, Dhárwár, Kárwár and Thána Prisons and the Deccan Gang have all done better as compared with last year. With the exception of the Bhusával Subsidiary Jail all the 1st and 2nd Class Subsidiary Jails also show better results.

34. Both the total cost and cost per head have risen owing to the increased expenditure on extras and medicine at Yeravda, Hyderabad and the Sind Gang. The increase is also due to the value of quinine purchased during the past year for the Sind Gang having been adjusted during the year under report.

35. The expenditure under this head shows an increase of Rs. 1,869. The cost per prisoner has risen from Rs. 3-3-8 in 1903 to Rs. 3-7-9 during the year under report. The

increase is partly due to the renewal and partly to the supply of extra woollen clothing in some of our Prisons and the Sind Gang on medical recommendation.

36. The expenditure under the marginally noted heading exhibits a decline both in the total cost and the cost per head; the figures for 1904 being Rs. 17,862 and Rs. 1-15-10 against Rs. 25,925 and Rs. 2-13-6 in the year previous. This large decrease is due principally to the payment to the Bombay Municipality in 1903 of charges for the treatment of sick prisoners sent from the two Bombay Prisons to the Mahratta and Arthur Road Hospitals. It is also, in a measure, due to the great reduction on account of Halalcore charges in H. M.'s House of Correction, Bombay, during the year under report.

37. Both the total cost and cost per head have respectively fallen from Rs. 23,553 and Rs. 2-9-4 in 1903 to Rs. 15,714 and Rs. 1-12-0 during the year under report. The large fall under this head is due mainly to Coronation releases and to deportation of convicts to the Andamans during 1903 against none in the year 1904.

38. There has been a decrease of Rs. 941 in the total cost and of Re. 0-1-1 in the cost per head as compared with the previous year. This fall is due to diminished expenditure under "Money payments, etc.," owing to the Coronation releases in 1903 which necessitated the payment of large sums as gratuity to our convict officers. But there was an increased disbursement under "Annual expenses for uniforms, etc.," this charge being a biennial one.

39. The total expenditure under the head noted in the margin has risen from Rs. 3,787 to Rs. 3,849. Although the increase is small in the total expenditure, still the "Central and District Prisons" exhibit a great rise, and this is chiefly due to the travelling allowance drawn by the Jailor of the Aden Special Prison, to which Institution he was transferred from the Prison of Dhulia. The fall in the year under report against the head "Inspection and general superintendence" is due to Mr. H. N. Alexander's inspection of the Aden Special Prison in 1903.

40. The total cost and cost per head have respectively fallen from Rs. 9,280 and Rs. 1-0-4 in 1903 to Rs. 8,329 and Re. 0-14-10 in 1904. The decrease is chiefly due to less charges in the Yeránda Central Prison under "Current Office Expenses" during the year 1904.

41. There is an increase of Rs. 953 during the year under report and the cause of this increase is attributed to the purchase of cooking-pots, bel-chains, alarm-bells, and other articles of Dead Stock in the Sind Gang and the Prisons of Dhulia, Dhárwár, and Ahmedabad.

42. In Prisons the average number of convicts sentenced to labour has increased by 24 as compared with the past year, while that of the 1st and 2nd Class Subsidiary Jails has declined by 34. The average number of sick and convalescents in Prisons shows a decrease of 19, while in the 1st and 2nd Class Subsidiary Jails it has increased by 2. There is an increase in the average number "Not employed for other reasons" due to the necessity of quarantining new admissions owing to the prevalence of plague and small-pox. There has been a great fall in the average number of prisoners employed in our Prisons on "Unremunerative Labour" from 173 in 1903 to 22 in the year under report, due principally to suitable employment having been found for prisoners in the two Bombay Prisons. The number of Prison officers in both Prisons and Subsidiary Jails has increased and the cause of this has already been explained in paragraph 24 of this report. There is a slight increase in our Prisons under the head "Prison Servants" which is due to the Prisons of Ahmedabad and Dhulia, while the Subsidiary Jails of the 1st and 2nd Class show a decline of 7 under this head. The number employed on "Gardening" as well as on "Grinding Grain, etc." in Prisons has fallen. This is mainly attributable to the Central Prisons of Yeránda and Ahmedabad. The remaining sub-heads call for no remarks.

43. The marginally noted statement shows the net cash earnings of convicts sentenced to labour. The cash earnings during the year under report have been Rs. 2,08,791-11-0 in 1904 against Rs. 62,506-5-0 in 1903. Deducting Rs. 1,13,430-14-0 on account of the value of the books and forms that were in stock at the end of June 1904 in the Yerávda Printing Press, and which was under instructions contained in Government letter, Judicial Department, No. 3099, dated the 16th June 1904, adjusted during the year under report, the actual cash profits for the year amount to Rs. 95,360-13-0, or in other words the cash earnings of the year under report exceed by Rs. 32,854-8-0 those of the year 1903. On examination it is found that the Prisons of Yerávda, Dhulia, Dhárwár, Hyderabad, Aden and Sind Gang have shown better results, whereas the Deccan Gang and the Prisons of Kárwár, Thána, Ahmedabad and Shikárpur have shown less earnings than those of the year 1903. The fall in the earnings of the Deccan Gang will be explained subsequently. The chief cause of diminished earnings in the Prisons of Kárwár and Thána is to be attributed partly to the larger stock of raw materials allowed to remain on hand and partly to the larger amount of outstanding debts due to those Prisons at the close of the year under report. With regard to the smaller earnings in the Ahmedabad Central Prison, the Superintendent explains that the cause of this large decrease was mainly due to the increased rate of twist, and to the manufacture of Prison clothing valued at Rs. 2,600 having remained on hand at the close of the year; and which, it is anticipated, will be sold and the profits credited to the current year's account. The earnings of the Shikárpur Prison have fallen owing to the employment of a smaller number of prisoners in the factory during the year under report, prisoners being constantly drafted to the Sind Gang. Out of the above sum of Rs. 2,08,791, Rs. 1,70,176 represent the profits of our prison factories, Rs. 36,782 of extra-mural labour and Rs. 1,833 the earnings of the 1st and 2nd Class Subsidiary Jails; the last named amount being less by Rs. 178 than in the past year owing to the lack of demand for road metal at Sátára and Belgaum. The average cash earning per head of those sentenced to labour and of those employed on jail manufactures has, in the case of Prisons and 1st and 2nd Class Subsidiary Jails, risen respectively from Rs. 8 and Rs. 22-14-0 in 1903 to Rs. 26-13-0 and Rs. 74-14-0 in the year under report.

44. During 1904 Jail-made articles valued at Rs. 15,778 were sold to Government Departments against Rs. 11,550 in the year 1903. Articles sold to the Public Works, Telegraph, Commissariat and Civil Departments show an increase, whereas the Marine and Military Departments have shown a slight fall. The figures for 1904 are:—Public Works Department Rs. 3,847, Telegraph Rs. 1,074, Civil Rs. 7,029, Commissariat Rs. 228, Marine Rs. 2,711 and Military Rs. 884. This is a very small figure indeed. There is the greatest difficulty in finding suitable and profitable employment for our prisoners; there is no desire on the part of the Prison Department to compete with private enterprise or industry, but surely we might look on the supplying of the wants of other public departments as a legitimate aspiration. These departments must annually require a quantity of articles that could be manufactured in our Prisons. Such a definite demand would give constant suitable employment for prisoners; an employment that might possibly have a reforming influence, and would at any rate reduce the cost of maintenance and so indirectly spare the tax-payers' pockets.

45. This Gang was located at Ganja Takar in the Hyderabad District throughout the year. The earnings of the Gang have risen from Rs. 9,350 in the year 1903 to Rs. 21,459 with an average of 362 prisoners during the year 1904. This increase is partly due to the larger number of prisoners employed; there was no move of the Gang and the work they were employed on was more profitable and a better task was taken.

46. This Gang did not move its Camp from Visápur, Ahmednagar District, during the year under report. With an average population of 808 prisoners the Gang has earned Rs. 12,316 in 1904 against Rs. 17,555 with an average population of 766 prisoners in 1903. The cause of decrease is attributable to the further revision of rates

made by the Public Works Department and which came into force from April 1904.

47. The total cash earnings of the Central Prison, Yeránda, for 1904 are Rs. 1,38,884-7-5. This is made up of the following items :—

			Rs.	a.	p.
Factory	...	...	7,542	3	5
Press	...	...	1,43,213	0	0
Extra-mural	...	...	92	6	7
Total			1,50,847	10	0

Owing to the payment in 1904 for quinine received during 1903 the cash earnings of quinine show a loss of Rs. 11,963-2-7, thus reducing the cash profits to Rs. 1,38,884-7-5. Excluding the forms, etc., brought to book as explained in paragraph 43, the actual profit of the Press during the year was Rs. 29,782-2-0. The factory profits show a decrease; the cane factory has now been transferred to Thána and during 1905 some of the weaving industries will be removed to Ahmedabad.

48. The net profits in the year under report of the quinine industry in the Central Prisons of Yeránda and Hyderabad amounted to Rs. 2,299 against Rs. 1,757 in 1903; of this figure Yeránda accounts for Rs. 1,493 and Hyderabad Rs. 806. The value of quinine and packing materials during the year 1904 was Rs. 15,040 against Rs. 13,713 in the year 1903 and the amount paid into the Treasury in the year under report was Rs. 14,632 against Rs. 17,402 in 1903. For nearly five months no quinine could be obtained owing to the strike in the Government Press, Madras. This of course adversely affected the quinine sales.

49. The Yeránda Printing Press has, during the year under report, executed the following works in addition to supplying all requirements for the Jail Department:—

Magisterial and Police and Judicial Forms printed in four languages	...	...	17,635,852
Magisterial and Police and Judicial Books printed and bound in four languages	...	...	32,442
Stock envelopes printed for supply	...	...	5,908,725
Special envelopes	...	...	806,200
Deccan Agricultural Relief Act Forms	...	...	404,250
<i>Registration Department.</i>			
Forms printed in four languages	...	...	56,920
Books printed in four languages and bound	...	...	2,419
Guard Books	...	...	1,101
<i>Stationery Department.</i>			
Guard Books	...	...	600
Blank Books	...	...	650
Miscellaneous Forms printed in four languages	...	...	380,716
Do. Books	do.	do.	1,857

The above figures show that the work at the Press continues to increase.

50. The marginally noted statement shows the total cost of maintenance of all Prisons, Subsidiary Jails and Lock-ups. The total expenditure excluding inspection and general superintendence has amounted to Rs. 6,12,682 in 1904 against Rs. 6,40,954 in the preceding year—a decline of Rs. 28,272. The total cash earnings have been Rs. 2,08,792 against Rs. 62,506 in the year 1903. The average net cost to Government per prisoner during the year 1904 has been Rs. 45 against Rs. 63-7-0 or a decrease of Rs. 18-7-0 on the figures of the preceding year. This satisfactory result is due partly to less cost of maintenance, but principally to the earnings of the Yeránda Printing Press.

### VITAL.

51. The marginally noted statement shows the sickness and mortality amongst prisoners of all classes during the year. Dealing with prisoners confined in Central, District, Special and Extra-mural Prisons, Subsidiary and

Statement No. XIV.—  
Sickness and Mortality.

Civil Jails and Lock-ups the subjoined table compares the figures for 1903 and 1904:—

Year.	Daily average strength.	Admissions into Hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1903	9,188	4,865	204.0	237	25.8
1904	9,058	5,285	202.4	183	20.2

52. The capacity of the Central, District and Special Prisons and the daily average and the maximum population confined therein on any one day are shown in the following table. The accommodation of the Dhulia District Prison has been increased by 216:—

Prisons.	Capacity inclusive of hospital and cell accommodation.	Daily average.	Maximum Population.
Common Prison	180	387	491
House of Correction	262	234	293
Yeránda	1,580	1,447	1,604
Dhulia	450	441	559
Bijápur	294	307	372
Dhárwár	336	341	439
Kárwár	252	173	202
Ratnágiri	228	117	131
Thána	730	675	827
Ahmedabad	920	949	1,039
Rájkot	102	93	106
Karáchi	412	247	304
Hyderabad	865	689	761
Shikárpur	433	410	484
Aden	84	53	140
Total	7,137	6,563	7,752

53. Serious overcrowding occurred in the Common Prison, the House of Correction, and the Special Prison, Thána. In the Common Prison the evil was alleviated by the use of open sheds and by constant transfers to the Deccan Gang. The House of Correction and the Special Prison, Thána, have, in the past, been calculated as having accommodation exclusive of Hospital for 236 and 674 prisoners respectively. The real accommodation is for the former Prison about 185 and for the latter about 584. These Prisons have both been relieved by drafting.

54. The daily average strength in 1903 and 1904 was practically the same, but there were 620 more admissions to Hospital in 1904. In Prisons the following diseases show an increase:—Ague 331, Dysentery 56, Anæmia and Debility 30, Diarrhœa 32. Yeránda accounts for 28 of the Dysentery and 45 of the Diarrhœa cases. This increase may be attributed to the abnormal season; abdominal complaints were rife in Poona. A subsidiary cause was the rank growth of vegetables caused by the late rains. The Central Prison, Ahmedabad, accounts for 29 of the cases of Anæmia and Debility. These were cases of men sent to Hospital by the Medical Officer as being a little off colour and needing a rest; no death is credited to these diseases at Ahmedabad. The increase in Ague is chiefly at Dhulia, Ahmedabad, Deccan Gang, Yeránda and the Common Prison. The cases were almost all relapses and not due to infection in Prison.

55. Admissions and deaths from Tubercle remain practically the same. A Tubercle ward has been arranged for at Thána, and if necessary, further accommodation in this direction will be provided elsewhere. Jails with a high admission rate of Tubercle shall be kept as free as possible from overcrowding. To render possible that early diagnosis which is so essential in dealing with this disease, microscopes are being supplied to the three Central Prisons, and as regards some other Prisons, the Director of the Plague Laboratory, Parel, has

very kindly consented to carry out the microscopical examination when necessary. There is a very satisfactory decrease in both the admissions and mortality under Pneumonia and other Respiratory diseases. In Central and District Prisons there were no admissions for Cholera; in Násik Subsidiary Jail there were three admissions but no deaths. There were six cases of Small-pox (including one undertrial) in Central and District Prisons with two deaths. All these were new admissions and the disease had been contracted outside. Small-pox was prevalent all over the Bombay Presidency. There were six admissions for Plague with 3 deaths. Of these cases 4 occurred in the Common Prison, 1 at Yeránda and 1 at Thána. All save the one at Thána contracted the disease outside the Prison. No source of infection could be traced at Thána; all prisoners were inoculated and no more cases occurred. The immunity of the Prisons and Jails from Plague and Small-pox is the strongest testimony to the efficacy of inoculation and vaccination and to the careful supervision exercised by Superintendents and Medical Officers. Inoculation was carried out at Bijápur, Common Prison, Karáchi, Dhárwár, Dhulia, Deccan Gang, Thána, Yeránda, Ahmednagar, Násik, Sátára and Surat. The death-rate of these Prisons is a complete answer to people who aver that inoculation with Haffkine's serum is in some way prejudicial to one's general health.

56. The death-rate is the lowest since the year 1887 and for Central, Special, District and Extra-mural Prisons is 19·2. In the following remarks on individual Prisons, I only comment on those the death-rate of which exceeds 20 per mille of daily average strength.

*His Majesty's Common Prison.*—Death-rate per mille 23·3. Nine deaths; of these six (Plague, Cardiac Disease 2, Pneumonia, Phthisis, Acute Enteritis) were admitted into Prison suffering from the disease they died of. Considering the general health of the prisoners admitted, the overcrowding, and the structural defects of this Prison, this is a wonderful record of health and reflects the greatest credit on the Medical Officer and Superintendent.

*His Majesty's House of Correction.*—Death-rate per mille 55·6. A Prison structurally defective and has been overcrowded. There were 13 deaths—7 Tubercle of Lungs, Heart Disease 2, Meningitis 1, Ulceration of Rectum 1, Pleurisy with effusion 1, Sprue 1. I agree with the opinion of the Medical Officer, House of Correction, that most of these cases of tubercle are not attributable to confinement in Jail.

*Dhárwár.*—Death-rate per mille 20·5. This Prison is just over the limit I selected. There were 7 deaths—Pneumonia 3, Meningitis 1, Bright's disease 1, Enteric fever 1, Cerebral Hæmorrhage 1. Of these 6 deaths occurred in the first 5 months of the year, there has been only one death in the Prison since May 1904.

*Batnágiri.*—Death-rate per mille 25·6. Three deaths, of these only 1 was admitted in good health. Bronchitis 2, Dysentery 1.

*Hyderabad.*—Death-rate per mille 33·4. The health of this Prison has been unsatisfactory and yet site and buildings are excellent. 23 deaths—Pneumonia 7, Chronic Nephritis 2, Tubercle Lungs 3, Tubercle Peritoneum 1, Remittent fever 1, Diarrhœa 1, Bronchitis 1, Erysipelas 1, Ague 1, Pleurisy 1, Dysentery 2, Leprosy 1, Valve disease of heart 1. The Pneumonia was probably started by infection from some transfers from the Sind Gang in December 1903. Of the above deaths 1 from Pneumonia, 1 from Diarrhœa and 1 from Dysentery were transferred from the Sind Gang in bad health. The prisoners who died from Leprosy and Valvular disease of the Heart were admitted suffering from these diseases. Deducing these 5 deaths the death-rate for the Hyderabad Jail would be 26·1 per mille. I hope for a healthier year during 1905.

*Shikárpur.*—Death-rate 29·3. This Prison is being abandoned this year. The ventilation of all the buildings is very bad. Deaths were 12 in number—Pneumonia 4, Dysentery 2, Abscess 1, Caries 1, Diarrhœa 1, Tubercle 1, Scurvy 2. The deaths from Scurvy are hard to explain as there is a first rate garden at Shikárpur. But both men were Pathans, and Pathans do not take kindly to the vegetable ration; one of them admitted to me that he had persistently thrown it away.

*Sind Gang.*—Death-rate 33·1. Twelve deaths; of these 7 are due to Pneumonia, 6 a legacy from the epidemic of 1903; 9 of the 12 deaths occurred in January. Only one death has occurred at the Gang since July 1904. The improvement of the ventilation of the existing barracks, the provision of additional accommodation and other measures adopted to prevent the recurrence of Pneumonia have been reported in my No. 9128, dated the 14th November 1904, to the Secretary to Government, Judicial Department.

*Thána.*—Death-rate 23·7. Sixteen deaths, of these 10 are due to Tubercle. The climate is damp and enervating and the Prison was overcrowded. This Prison has been classed as having (exclusive of Hospital) accommodation for 674. Its real accommodation is 584. The following measures have been adopted to prevent the occurrence of Tubercle. Reduction of population to under 600; provision of a Tubercle ward; transfer of weakly prisoners. Looking however on the past history of the Thána Prison, the death-rate is actually a great improvement and testifies in this improvement to the pains taken by the Medical Officer and Superintendent.

57. 16,467 prisoners were released during the year, of whom 8,972 or in other words 54·5 gained weight against 54·3 in the year previous. 3,026 prisoners lost weight equal to a percentage of 18·4 against 21·9 in the year 1903. The number who remained stationary has risen from 23·8 in 1903 to 27·1 in the year under report.

58. As directed in Government Resolution, Judicial Department, No. 9115, dated the 29th December 1896, the measures adopted for the improvement of the prisoners are specified below:—

1. Issue of wheat and rice in lieu of coarser grains when necessary.
2. Issue of extra rations to weakly and infirm prisoners.
3. Issue of 2 ozs. extra flour to working prisoners in the Deccan Gang.
4. Issue of quinine as a prophylactic.
5. Issue of potatoes and onions in lieu of green vegetables.
6. Inoculation with Haffkine's serum.
7. Issue of extra warm clothing whenever considered necessary.

59. Reviewing the health statistics of Subsidiary Jails and Lock-ups, it will be observed that the daily average strength and daily average sick have respectively fallen from 1,377 and 15·3 to 1,242 and 11·7. The ratio of deaths per mille of average strength has, however, risen from 22·5 to 25·8.

#### OFFICIAL AND NON-OFFICIAL VISITORS.

60. For 17 Prisons and 13 Subsidiary Jails of the 1st and 2nd Class there were 293 visitors during the year under report. Seventy-two quarterly meetings were held and all were well attended. 860 visits were paid to our Prisons and Jails by official visitors and 242 by non-official visitors.

#### BUILDINGS.

61. The following allotments were sanctioned by Government during the year:—

Rs. 15,000 for constructing quarters for warder guards at Thána Special Prison.

Rs. 14,000 for constructing new Prison at Sukkur.

Rs. 8,000 for constructing quarters for warder guards at Central Prison, Yeránda.

Rs. 4,000 for improving quarters at the Dhulia Prison.

Rs. 3,500 for additions and alterations to the Hospital of H. M.'s Common Prison, Bombay.

Rs. 1,800 for erecting latrines in H. M.'s House of Correction, Bombay.

In addition to the above, a sum of Rs. 8,000 was allotted for discretionary grant of this Department, out of which Rs. 7,999 have been expended.

### MISCELLANEOUS REMARKS.

62. The following Prisons, Gangs and Subsidiary Jails were inspected during the year under report either by Mr. Alexander or by myself :—

Central Prisons.	District Prisons.	Subsidiary Jails of 1st and 2nd Class.	Gangs.
Yeránda. Ahmedabad.* Hyderabad.*	Shikárpur.* Karáchi.* Dhulia.* Kárwár. Bijápur. Dhárwár. Rájkot.	Belgaum.* Bhusával.* Umerkot. Alibág. Násik. Sholápur. Godhra. Surat. Broach. Wadhván. Ahmednagar. Sátára.	Sind Gang.* Deccan Gang.*

\* Inspected twice during the year.

63. The Deccan Gang has accommodated a daily average of 808 prisoners. The site of the Camp is a very healthy one and the arrangements hygienic and disciplinary are first rate. All the prisoners are now housed in tiled barracks and there is a very fine garden in full cultivation. It is to be hoped that the Gang may be allowed to remain on at Visápur.

64. The Sind Gang has been engaged in breaking ballast for the Hyderabad-Badin Railway extension. This Gang has done most excellent work; there has been a daily average of 362 prisoners, and since January the health has been very good. Their present contracts will be completed by the end of April 1905, and I have been endeavouring to secure further suitable employment for this Gang, but so far have obtained no definite assurance of work.

65. It would seem only natural to expect that Government Departments should always employ these Extra-mural Gangs. The prisoners must be fed and clothed; and they should be enabled to pay for the cost of their maintenance by their own labour. The work—dam building, stone breaking, canal digging, etc.—is decidedly deterrent; with reasonable care and proper medical supervision it is healthy enough. Extra-mural Gangs form a cheap and fairly efficient means of relieving overcrowding; the prisoners can do very good work of the kinds mentioned; and as the rates are paper ones, there should never be any difficulty about them.

66. The new Prisons at Karáchi and Sukkur will be occupied during the current year.

67. During the year under report, Mr. O. H. Brierley has discharged the duties of Personal Assistant to the entire satisfaction of Mr. Alexander and myself.

I have the honour to be,

Sir,

Your most obedient servant,

J. JACKSON, M.B., Major, I.M.S.,  
Acting Inspector-General of Prisons,  
Bombay Presidency.

**STATEMENT No. VIII.**

---

## STATEMENT No.

Showing the Scale of Diet in the Prisons and

1		2									
For Natives.		DIET SCALE OF LABOURING PRISONERS.									
		Wheat, Bājri, Jowāri or Nāgli Flour.	Dāl.	Vegetables.	Salt.	Curry stuff.	Cokum or Tamarind.	Onions.	Oil.	Animal Food.	Fire-wood.
		Lbs. ozs.	Ozs.	Ozs.	Drs.	Drs.	Drs.	Drs.	Drs.	Ozs.	Lbs.
Prisoners on <i>bonā fide</i> hard labour...		1 8	5	8	8	4	4	4	6	4	1
Prisoners on intra-mural or medium labour.		1 6	4	8	8	4	4	4	6	4	1
Burmese prisoners	Rice. Ozs. ... 20	0 2	5	8	8	4	4	4	6	4	1

Animal food is issued once a week to Natives and three times a week to Burmese prisoners in lieu of dāl. The issue of oil to Natives and Burmese prisoners was increased to 10 and 8 drs. respectively, and that of tamarind reduced to 2 drs. during cold season. 4 drs. Ngapi is allowed daily to Burmese prisoners.

		PUBLIC									
		DECCAN GANG.									
		Wheat, Bājri or Jowāri Flour.	Dāl.	Vegetables.	Salt.	Curry stuff.	Cokum or Tamarind.	Onions.	Oil.	Animal Food.	Fire-wood.

Shikarpur.—Four ozs. curds were issued to each prisoner twice a week in lieu of dal from 17th May to 31st August 1904.

Karwar.—Rice is issued to all ordinary prisoners on Mondays, Wednesdays and Fridays, and Jowari on the remaining days of the week.

Ahmedabad.—The early morning meal was increased by 2 ozs. and the midday and evening meal reduced by 1 oz. each.

Deccan Gang.—Two ozs. extra jowari flour was issued to all working prisoners during the whole year.

Yerava.—Convict overseers in this prison are given meat on Wednesdays along with convict warders.

(a) This scale was in force in all the subsidiary Jails except Wadhwan in which prisoners up to 2 years' sentence are confined and who were therefore allowed from 1st July 1904 the scales appearing in this statement for Native prisoners in District prisons.
