CONTENTS

	PAGE
Introduction	5
Purpose and Procedure of the Study	6
Present Position of the Motor Truck	7
Receipts of Fruits and Vegetables in New York	11
Receipts on Farmers' Markets.....	11
Receipts in Jobbers' Markets.....	14
Receipts in Jobbers' Markets by Source of Production.....	16
Comparison of Receipts by Months.....	20
The Motor Truck as a Practical and Profitable Means of Transportation	20
Reasons for the Use of the Motor Truck.....	21
Reasons Against the Use of the Motor Truck.....	25
Cost of Transportation and Marketing	29
Cost by Railroad.....	30
Cost by Motor Truck.....	30
Cost by Express.....	32
Cost by Boat.....	32
Cost by Parcel Post.....	33
Cartage	33
Adjustment for Loss and Damage.....	34
Adjustment for Late Arrivals in the Market.....	36
Comparison of Marketing Costs for Two Methods of Motor Truck Transportation	36
Terminal Conditions and Requirements	41
Wholesale and Jobber Markets.....	43
Market Congestion and Its Causes.....	43
Evil Effects of Congestion.....	47
Suggestions for Relieving Congestion.....	48
Management Regulations of Farmers' Markets.....	50
Customs and Methods Followed in Farmers' Markets.....	51
Effect of Motor Trucks on Marketing	52
Immediate Market Outlets for Producers.....	52
Marketing Methods of Country Dealers, Associations and Exchanges..	58
Selling at the Farm by Growers.....	59
Effect Upon Commission Men.....	59
Effect Upon Stability of Markets.....	60
Influence of Motor Truck Upon Production	62
Importance of Adequate News Service	64
Advance News Service	66
Summary	67
Appendix	70

LIST OF TEXT TABLES

<i>Table</i>	PAGE
1. Percentage of Growers Reporting Improved Rail Service Since the Advent of the Motor Truck, 1928.....	8
2. Percentage of Fruit and Vegetable Production Moved by Motor Truck in the New York Motor Truck Area, 1928.....	9
3. Number of Growers Planning to Make Greater Use of the Motor Truck in the Area Supplying New York with Produce by Motor Truck, 1928.....	10
4. Comparison, by Months, of Receipts of Fruits and Vegetables by Motor Truck and by Rail and Boat on the New York Jobbing Markets, August, 1928-July, 1929	12
5. Receipts of Fruits and Vegetables by Motor Truck in New York, April-October, 1929	13
6. Comparative Receipts, by Months, of Fruits and Vegetables by Motor Truck and by Rail and Boat on New York Jobbing Markets, August, 1928-July, 1929	14
7. Comparison, by States and Sections, of Receipts by Motor Truck and by Rail and Boat on New York Jobbing Markets, August, 1928-July, 1929.....	16
8. Comparison, by States and Sections, of Receipts by Motor Truck and by Rail and Boat in New York Jobbing Markets, August, 1928-July, 1929.....	17
9. Comparison, by Months, of Receipts by Motor Truck and by Rail and Boat in New York Jobbing Markets, August, 1928-July, 1929.....	18
10. Comparison, by Months, of Receipts by Motor Truck and by Rail and Boat in the New York Jobbing Markets, from the Same Producing Areas, August, 1928-July, 1929	19
11. Comparative Condition on Arrival of Shipments by Motor Truck and by Rail from Same Points of Origin, 1928.....	35
12. Time Spent in Waiting and Unloading in Washington Market, New York, by 54 Commercial Truckmen Hauling Produce from the Areas Supplying New York by Motor Truck, 1928.....	45
13. Average Number of Consignees Per Truck Load of 38 Truckmen Hauling Fruits and Vegetables to New York from the Areas Supplying New York by Motor Truck, 1928.....	45
14. Maximum Number of Consignees per Truck Load of 73 Truckmen Hauling Fruits and Vegetables to New York from the Areas Supplying New York by Motor Truck, 1928.....	46
15. Market Outlets for Producers: Percentage of Total Production Passing Through Each from the Areas Supplying New York by Motor Truck, 1928...	53
16. Market Outlets Related to Distance of Farms from New York, 1928.....	54
17. Comparison, by Mileage, of Farms from New York, of Fruits and Vegetables Carried by Commercial Truckmen with the Total Amount Hauled by Motor Truck, 1928	55
18. Estimated Percentage of Total Production of Fruits and Vegetables Moved by Motor Truck to New York from the Principal Producing Areas, 1928.....	55
19. Variation, by Acreage of Farms, of Tonnage per Truck, Tonnage per Farm, and Trucks per Farm in the Area Supplying New York by Motor Truck, 1928	57
20. Comparison, by Mileage of Farms from New York, of Trucks per Grower, and Tonnage per Grower in the Territory Serving New York by Motor Truck, 1928	57
21. Comparison, by Mileage of Farms from New York, of Tonnage Per Truck Owned by Growers in the Territory Supplying New York with Produce by Motor Truck, 1928	57
22. Comparison, by Tonnage Capacity of Trucks, of Each Producing Area Supplying New York with Fruits and Vegetables by Motor Truck, 1928.....	58
23. Percentage of Fruit and Vegetable Production Sold at the Farm by Growers in the Territory from which Produce is Received in New York by Motor Truck, 1928 and 1926.....	59
24. Estimated Percentage Hauled by Truck of the Total Movement of the Principal Fruit and Vegetable Crops Grown in the Trucking Territory Serving New York, 1928.....	63

LIST OF APPENDIX TABLES

<i>Table</i>	PAGE
1-A. Comparative Receipts of Fruits and Vegetables by Motor Truck and by Rail and Boat in the New York Jobbing Markets, August, 1928, to February, 1929	70-71
1-B. Comparative Receipts of Fruits and Vegetables by Motor Truck and by Rail and Boat in the New York Jobbing Markets, March to July, 1929, and Total for Year.....	72-73
2. Comparison of Motor Truck Receipts with Foreign and Domestic Receipts of the Same Commodities by Rail and Boat in the New York Jobbing Markets, August-December, 1929	74-75
3. Comparison, by States and Sections, of Motor Truck with Rail and Boat Receipts on New York Jobbing Markets, August, 1928-July, 1929.....	76-77
4. Comparison, by States and Sections, of Motor Truck with Rail and Boat Receipts on New York Jobbing Markets, August-December, 1929.....	78-79
5. Fruit and Vegetable Rates of Public Carriers to New York from Specific Shipping Points, 1928	80-81-82
6. Receipts of Fruits and Vegetables in New York by Type of Carrier, April-October, 1929	83
7. Combined Receipts of Fruits and Vegetables in Wallabout and Gansevoort Farmers' Markets, April-October, 1929.....	83
8. Percentage Distribution, by Markets, of Fruits and Vegetable Production by Growers in the New York Motor Truck Area, 1928.....	84
9. Market Outlets for Producers: Percentage of Total Production Passing Through Each from the Producing Areas Supplying New York by Motor Truck, 1928	85
10. Estimated Percentage of Total Production of Fruits and Vegetables Moved by Motor Truck to New York from the Principal Producing Areas, 1928..	85
11. Number and Tonnage of Trucks per Grower in Sections Shipping Produce to New York by Motor Truck, 1928.....	86
12. Percentage Distribution of Growers' Trucks by Tonnage and by Average Mileage from Markets, 1928.....	87
13. Percentage Distribution of Growers' Trucks by Tonnage and by Acreage of Farm, 1928	87

Acknowledgment

This is a cooperative study made by the Division of Fruits and Vegetables of the U. S. Bureau of Agricultural Economics, the New Jersey State Agricultural College and Experiment Station, the New Jersey State Department of Agriculture, and the New York Food Marketing Research Council which served as the headquarters during the survey.

Acknowledgement is due the following for their valuable assistance in making this study possible: Allen G. Waller, chief, department of Agricultural economics, New Jersey State Agricultural Experiment Station; Earl R. French, executive secretary, New York Food Marketing Research Council; Wells A. Sherman, chief marketing specialist, R. R. Pailthorp, assistant chief marketing specialist, J. W. Park, associate marketing specialist, E. R. Biddle, senior marketing specialist, Brice Edwards, assistant marketing specialist, division of fruits and vegetables, U. S. Bureau of Agricultural Economics; Commissioner Thomas F. Dwyer, New York City Department of Public Markets, and members of the staff of The Port of New York Authority.

Many county agents, growers, merchants, commercial truckmen, and other transportation agencies were generous in supplying information from records and personal experience.
