CHAPTER I
INTRODUCTION

LOCATION :

1.1 Ahmednagar district is located in the central part of Maharashtra between 18.2 to 19.9 north latitude and between 73.9 to 75.5 east longitude. The district is surrounded by Aurangabad and Nasik districts on the North, by Bhir and Osmanabad districts on the east, Pune and Thana districts on the south-west and by Solapur District on south, Ahmednagar district with an area of 17,035 Sq. Kms. ranks second in the Maharashtra State.

TOPOGRAPHY : (a) Soil :

1.2 The geographical foundation of soil prevailing in the district is mainly of Deccan trap of volcanic origin.

The district is situated on the Deccan plateau. Soil of the district is generally found responsive and fertile, except the hilly areas of Akola tahsil and some portion of the plains, which suffer from heavy soil erosion. The soil of Ahmednagar district can broadly be classified into the following five categories.

1. Deep black soil of Kopargaon, Shrirampur and Rahuri tahsils, with rich perennial irrigation system for which the area was selected for Mahatma Jyotiba Phule Agricultural University. Most of the Sugar Factories are also located in this area.

2. Red soil of western and hilly areas of Akola Tehsil.

3. Laterite.

4. 'Barad' or gray inferior quality soil.

5. White popularly known as 'Pandhari'.

(Contd)..

b) Rivers :

1.3 The Godavari and the Bhima are the major rivers of the Ahmednagar district. The Godavari flows along the north-eastern boundary of the district, through the tahsils of Shirampur Newasa and Shevgaon. The Pravara is the tributary of the Godavari passing through Akola, Sangamner, Shirampur, Kopergaon and Newasa tahsils. The Bhandardara dam which is masonry dam was constructed in the year 1936 and is a tourist place. The Mula, the Adhala and the Mhalungi are the important tributaries of the Pravara. The Southern part of the district consisting of Parner, Ahmednagar, Pathardi, Shrigonda and Karjat tahsil constitutes the Bhima basin with the tributaries of rivers Sina, Kukadi, and Ghod. The Bhima flows nearly 56 Kms. along the boundaries of Pune and Ahmednagar districts. Besides, the major rivers indicated above, Mhalungi Kalu, Kapari, Hanga, Mehkari, Ghod, Khanaguri, Dhor, Simphana, Deo, Redi, Kas are the minor rivers flowing seasonally in almost all tahsils except Pathardi.

1.4 (c) Hill Ranges : The main Sahyadri range touches Akola tahsil in the western areas of Ahmednagar district. From this main range, three spurs viz. Kalsubai, Baleshwar and Harishchandragad spur out. Kalsubai is the highest peak of Sahyadri (1654 meters) and serves as the watershed between Darna and Pravara and Mula rivers. Harishchandragad is 96 Kms. long and its branches run from Rantangad, serving the watershed between Pravara and Mula rivers. The Baleshwar is the largest range and demarcates the boundary of Pune and Ahmednagar districts. On entering into Parner tahsil the

Baleshwar forms two sub branches, one going through north of Nagar town and forms watershed between the Godawari and the Bhima and the other turning South wards across the north east corner of Shrigonda tahsil and enters into Karjat tahsil.

1.5 d)Minerals : There are no major mineral deposits located in Ahmednagar district except limestone in Parner tahsil. However sand, stone, murum etc. are found in abundance in all tahsils of the district.

1.6 Climate :

a)Rainfall : Ahmednagar district gets rain mainly from south-west monsoon but the distribution of rainfall is mostly uneven. The rainfall is adequate and concentrated in the western part of Akola tahsil and it is most erratic in the southern part which is known as scarcity tract. The normal rainfall at the tahsil head quarters varies from 500 to 700 m.m. approximately. During the year 1974, rainfall was maximum at Rahuri centre and minimum at Shevgaon centre in Ahmednagar district and generally found to be satisfactory. The district can be divided into following three zones according to rainfall. Zone I, consisting of northern part comprising of Kopergaon, Akola, Sanganner, Rahuri and Shrirampur tahsils with more or less assured rainfall. Zone II comprises of south-eastern part covering Shevgaon, Newasa Ahmednagar, Pathardi and Jamkhed tahsils and Zone III covering Karjat, Shrigonda and Parner Tahsils with very little rainfall.

1.7 FAMINE AND SCARCITY :

Due to good rains in the district in the period under review i.e. 1974-75, agricultural conditions improved considerably and as such in no village in the district

scarcity or famine was declared. However, one village was affected by flood conditions in the district.

1.8 ADMINISTRATIVE SET UP :

In Ahmednagar district at present there are 13 tahsils with four sub-divisions and 45 revenue circles, covering 1312 inhabited and five deserted villages according to 1971 population census. There are six towns in the district, two in Nagar tahsil, one in Sanganner, two in Kopargaon tahsil & one in Shrirampur tahsil. Of the above six urban areas there are five Municipal Councils, one Cantonment Board at Nagar and there is village panchayat at town Wari from Kopargaon tahsil. There is Municipal council at Rahuri but it is treated as 'Rural area' as per 1971 census concept.

2) In Ahmednagar district there are various State Government Offices and also few Central Government Offices viz. Income tax, Post and telegraph, Telephones, Central Excise etc. working at District Head Quarter Ahmednagar. There are Municipal Council Offices, Cantonment Board and also Zilla Parishad Office situated at Head quarter and offices of Panchayat samiti at tahsil head quarters. In addition to the above, there are other offices such as Life Insurance Corporation and Maharashtra State Electricity Board, State Transport etc. at Ahmednagar. Most of Banks both Nationalised and others, have also their offices in Ahmednagar district. During the year under review, office of the Executive Director, Drought Prone Areas programme started functioning.

1.9 DEMOGRAPHY : POPULATION

According to the population census of 1971 total

population of Ahmednagar district was 22,69,117 and rate of increase in the population was 27.77 percent during the decade 1961-1971 which was higher than that of Pune division and also that of Maharashtra, the respective figures being 25.64 and 27.45. The following table gives the tahsilwise percentage variation in population during the decade 1961-71.

TABLE NO. 1

Tahsilwise decadal variation in population in 1971 over 1961

Name of Tahsil	Percentage variation	POPULATION	
		1961	1971
1	2	3	4
District	27.77	17,75,369	22,69,117
<u>Tahsils</u>			
1. Ahmednagar	23.63	2,45,581	3,03,606
2. Rahuri	35.35	1,17,728	1,59,343
3. Shrirampur	38.94	1,72,171	2,47,551
4. Nevasa	27.77	1,17,736	1,50,293
5. Khevgao	23.64	1,04,297	1,28,841
6. Pathardi	21.96	1,10,905	1,33,530
7. Jankhed	18.37	79,183	86,592
8. Karjat	22.49	99,232	1,23,612
9. Shrigonda	23.89	1,18,313	1,46,581
10. Parner	13.20	1,31,069	1,51,890
11. Akola	25.39	1,17,795	1,47,702
12. Sanganner	32.96	1,64,564	2,18,797
13. Kopergaon	32.96	1,97,512	2,62,619

From the above table, it will be seen that decadal variation in the district in 1971 over 1961 comes to 27.77 percent. Kopergaon, Sanganner, Shrirampur, Rahuri Tahsils are above district variation. Parner tahsil shows the minimum percentage increase amongst all and then comes Jankhed tahsil.

1.10 SPECIAL FEATURES :

Ahmednagar, since ancient times is known for its rich historical and religious heritage and the area is termed as 'Land of Saints of all the Religions'. In ancient times, it was the main centre of Administration of Southern India. The famous fort of Ahmednagar was associated with 'quit India Movement of 1942'. This district is on the forefront of Co-operative movement, especially in respect of Sugar factories. There are in all 16 Sugar Factories, 12 being co-operative with five lakh tonnage of sugar production in the district. This is main contribution of principal Cash Crop of Maharashtra State. At the instance of Government of India, two districts in Maharashtra have been selected under Drought Prone Area Programme which has been implemented with the assistance of the world Bank. Ahmednagar is one of them. There are nine water-sheds, having ¹¹³~~110~~ villages covered under the programme.

CHAPTER NO. II
EXPLANATORY NOTES

2.1 The District Statistical Abstract for the year 1974-75 presents statistics on various topics, such as population, Climate, Agriculture, Animal Husbandry and Forest, Employment, Industries, Co-operation Medical and Public Health, Education Transport and Communication, Community Development and Plan etc. The data presented in various tables are collected from the concerned agencies. The footnotes to the tables indicate the source from which data are collected. For the tables pertaining to Agriculture and Co-operation the reference years are respectively agriculture or co-operative years. Whenever data are not available for the reference year, that for the latest available year is given in the abstract. In each table district totals are given at the beginning and Tahsilwise break-up follows next. The concepts, sources and limitations adopted while preparing the abstract are explained in the following paragraphs.

2.2 In the beginning of the Socio-Economic Review, the important items of each sector of the tables, published in part II have been displayed under " District at a glance". The information of the district with corresponding information of Maharashtra State is given in the glance, for the reference years mentioned against each item. This serves as gist of the publication.

2.3 AREA AND POPULATION : Under this head seven tables based on the final figures of 1971 population census are prepared on various topics such as rural and urban area, houses, decadal...

variation since 1951, tahsilwise villages and towns according to population ranges, classification of workers and non workers, distribution of population according to age group, religion. Also tahsilwise data on scheduled caste and scheduled tribes is prepared.

2.4 While referring the data on urban areas, it should be noted that a Town or Urban area is a place which satisfies the following items of characteristics.

1) The civic administration of such places is required to be governed by Municipality or Cantonment Board or civil line or

2) Minimum estimated population for 1971 should be 5000.

3) Density of such place should be 400 persons per Square Kilometer.

4) 75 percent of male working population should be engaged in occupation other than Agriculture.

5) The place should have pronounced urban characteristics as per Director of Census Operations.

2.5 According to 1971 census definition of workers, all those persons who had worked in the current or last working season for greater part of the season were treated as workers. Thus 1971 census instructions stipulated that a person primarily engaged in household duties or those who are students and helped in the family economic activity, but not on a full time scale, should be treated as 'Non-workers' in respect of their main activity and the economic activity in which they were marginally engaged might be considered as their secondary work. Due to this changed concept, decrease in the proportion of workers is observed as compared to 1961 census data.

2.6 Climate and Rainfall : Two tables under this category

normal rainfall and temperature. Table No. 8 presents normal rainfall and number of rainy days and actual rainfall

at various stations for the calendar year 1974 in the Ahmednagar district. Normal rainfall means average rainfall over a long period upto 80 years. The data are obtained from the Statistician, Department of Agriculture. Table No. 9 presents maximum, minimum temperature at Ahmednagar station.

2.7 AGRICULTURE : Under this head, important statistics pertaining to land utilisation, area under different crops, irrigation, yield rates per hectare and out-turn of principal crops and agricultural wage rates, minor medium and major irrigation works etc. are prepared. Information regarding area affected by famine and scarcity is also presented under this head. The data relates to the years 1972-73 and 1973-74 and the same is provisional.

2.8 Table No. 10 gives Tahasilwise figures of land utilisation under different heads of utilisation. Against each tahsil the break-up of the total geographical area according to different types of land-use, such as area under forest, non-agricultural use, current and other fallow land, permanent pasture and grazing land etc. is shown. Area under forest includes all actually forested areas or lands classed or administered as forests under the legal enactment dealing with forests whether owned by State or private. Lands put to non-agricultural uses covers land occupied by buildings, roads, railways etc. Barren land and unculturable land covers area under mountains, deserts, river beds and areas of lands which can not be brought under cultivation, unless at a very high cost.

Culturable waste includes all land available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during current year and last five (Contd).

-years

Or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. Permanent pastures and grazing lands cover all grazing lands whether they are permanent pastures and meadows or not and village common grazing lands within forest areas. Miscellaneous tree crops and groves not included in the net are sown cover lands under casurina trees, thatching grass, bamboo bushes and other trees used for fuel etc. Lands which are not included under 'Orchards' are classified under this category. Current fallows comprise cropped areas which are kept fallow during the current year. If any seedlings area is not cropped again during the same year, it is also treated as current fallow. Other fallow land includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than 5 years. The net area sown consists of net area sown with crops and orchards, area sown more than once being counted only once. The gross cropped area represents the sum of area under all crops. The difference between total cropped area and net area sown is accounted for by the area sown more than once on the same land during the same year with same or different crops. The data on

upto 250 acres is entrusted to Zilla Parishad and works above 250 acres area implemented by the Irrigation Department of State Government.

2.10 ANIMAL HUSBANDRY AND FOREST : Under this group, information regarding quinquennial live-stock census, veterinary statistics recognised slaughter houses and forest statistics is presented. Table No. 22 gives number of various types of live-stock, poultry etc. as enumerated in the quinquennial live-stock census of 1972. Table No. 23 gives the information regarding veterinary statistics in each tahsil, while table number 24 give disease-wise live-stock mortality. The information regarding animals slaughtered in recognised slaughter houses is presented in table No. 25. The details of animals slaughtered by butchers in rural area is not available. Table No. 26 (A) gives figures of area under forest in the district. The figures of forest areas in this table are different from the figures given in the table on land utilisation. The concept of classifying areas is different for the two departments. Table No. 26 (b) gives the information regarding production and value of major and minor forest products in Ahmednagar district.

2.11 Employment, Industry, Mining and Electricity :

Under this section, information on various items like factory statistics, data furnished by Employment Exchange, Consumption of Electricity and number of towns and villages electrified is presented. Regarding factory statistics, it may be stated that the data covers factories registered under 'Factory act - 1948' viz. those employing 10 or more workers and working without aid of power. The results of the Annual Survey of Industries are given in Table No. 30. The term productive capital...

used in that table consists of fixed and working capital. The gross out-put represents value of products and by products manufactured for sale, work done for customers and sale value of goods sold in the same condition as purchased and is adjusted for the difference in stock of semi-finished goods at the beginning and at the end of year under survey. Value added by manufacture is computed by deducting from gross ex-factory value of out-put, the gross value of input. Value added is net of depreciation. In the tables relating to electricity, information regarding villages and towns electrified and type of generation and electricity consumed for different purposes is given, as collected from Sugar Factories, Mula pravara Co-operative Electric Society and Maharashtra State Electricity Board.

2.12 Co-operation : Comprehensive data on this subject are displayed in tables (36 to 43) which include number of different types of societies, statistics relating to co-operative banks, primary agricultural credit societies etc. alongwith their membership share capital etc. for the cooperative year ending June-1975.

2.13 Medical and Public Health : Under this head information regarding medical and public health facilities, showing hospitals, dispensaries, primary Health Centres etc. is collected. Table No. 44 shows the medical facilities available through public and public aided bodies in the district. Table No. 45 indicates the data about registered births, deaths and infant deaths. The figures of infant death relate to the death of children below one year. In table no. 46 data on number of deaths due to important diseases is shown. Table No. 47 gives information regarding primary vaccination, revaccination and cholera inoculation in the district. The data in respect of family planning....

(Contd).

centres operating in the district is presented in table No. 48.

2.14 Education : Under this category information regarding progress of education in Ahmednagar district is collected and presented in 7 different tables. Talukawise literacy data is given in table No. 49. In table No. 50 Education in rural area is given. Table No. 51 shows education in urban areas. The data in table No. 50 and 51 is based on 1961 census. Data as per 1971 census is still not available. Table No. 52 shows the number of different types of educational institutions, pupils and teachers for each type in the district. The number of institutions relate to academic year ending June and number of pupils as on 31st March. In the table No. 53, the total number of beneficiaries (Backward classes) at each level of education is shown. Table No. 54 gives the information regarding total number of students taking benefits as Economically backward classes and total value of concessions given to them at different educational levels for the district as a whole. Table No. 55 gives information about expenditure on primary education by Zilla Parishad and Municipal Councils.

2.15. Transport and Communication : Under this head information pertaining to the length of railway route, (Table No. 56) road length according to different categories and surface classification, (Table No. 57) operational statistics of Nationalised Road transport, traffic census, postal statistics etc. is presented.

2.16 Table No. 58 presents data about motor vehicles in operation as on 31st March 1975 in the Pune region, comprising of Pune, Ahmednagar, Satara and Solapur districts. Table No. 62 gives information regarding community radio sets installed in

rural area of the district.

2.17 Local Bodies : Under this head information regarding income and expenditure of various Local Bodies viz. Village Panchayats, Zilla Parishad and Municipalities in the district is presented for the year 1974-75 indicating their progress.

2.18 Plan and Community Development : Under this section five tables are presented. The first two tables No. 67 and 68 give important plan statistics viz. plan expenditure under different heads, sub-heads of development and important physical achievements for the year 1974-75. The other three tables give data regarding Community Development Programme and expenditure incurred in different stages of blocks and physical achievements on selected items in all blocks, during the year 1974-75.

2.19 Prices : Under this group, wholesale prices of certain Agricultural commodities at regulated markets, average retail prices of selected commodities prevailing at Ahmednagar during the year 1974 and Consumer Price Index Nos. for working class at centres Solapur and Pune for 1974-75 are presented. As regards wholesale prices, the district average of only important commodities are given, while for the average retail prices, the information collected for the given commodities are restricted to only one quotation and that too from the selected shop at district head quarter. The average of individual commodities can not be said to be fully representative but data may prove useful as broad indicator of trend of changes in retail prices.

2.20 Miscellaneous : The statistics relating to police force, Crime statistics, work disposed in Civil and Criminal courts, Cinema statistics, Banking Offices, Joint-stock Companies, Insurance business, Collection of Small Savings, Land Revenue Collection and News papers and periodicals published in the district are presented in 10 different tables under this section.

CHAPTER III

Analytical Review of Sectorial Trends

3.1 In this chapter, trends in the various statistical data presented in part II viz., District Statistical Abstract in various sectors of development such as Agriculture, Animal Husbandry, Co-operation, Education, Electricity, Public Health etc. are analysed.

AGRICULTURE

3.2 Agriculture and allied activities, being the principal means of livelihood, naturally find predominant place in our economy at all levels. To get better idea of the progress in this important sector, some major indicators such as percentage of gross cropped area to the net sown area, and gross and net area irrigated to the net sown area, cropping pattern, yield per hectare of principal crops of Ahmednagar District are discussed. The data for the two last agricultural years 1972-73 and 1973-74 is compared with the year 1960-61.

TABLE NO. 1

Percentage of Gross cropped area to net sown area

Sr. No.	Tahsil	1960-61	1972-73	1973-74
1	2	3	4	5
	District Total	105.16	103.18	106.92
1.	Ahmednagar	103.39	108.30	111.56
2.	Rahuri	104.05	103.54	105.10
3.	Shrirampur	102.60	103.54	111.38
4.	Newasa	119.13	102.83	107.14
5.	Shevgaon	106.11	103.64	110.95
6.	Pathardi	104.81	100.48	103.43
7.	Jamkhed	105.02	101.54	104.15
8.	Karjat	110.87	102.53	108.00
9.	Shrigonda	106.47	101.94	106.15
10.	Paner	104.22	103.37	109.06
11.	Akola	102.46	103.48	103.88
12.	Sangamner	108.75	102.83	105.00
13.	Kopergaon	104.74	103.04	102.76

3.3 From the above table, it would be seen that the extent of double cropping is very small in Ahmednagar district. The percentage of gross cropped area to the net cropped area has declined in the year 1972-73 with reference to the year 1960-61 though during 1973-74 it shows increase in some tahsils. During the year 1973-74 the tahsils Ahmednagar, Shrirampur, Newasa, Shevgaon, Karjat and Parner were above the district average and the remaining tahsils remained, below the district average. When compared in the two years 1972-73 & 1973-74, all tahsils except Kopargaoon showed more percentage of gross cropped to the net sown area. Irrigation helps to increase double cropping, if it is not used for perennial crops. In the district, it will be observed that irrigated area in Kopargaoon, Shrirampur, Rahuri etc. pertained to Sugarcane which resulted in the insignificant double cropped area.

IRRIGATION

3.4 Agriculture is a gamble in Monsoon and hence lack of reliable irrigation facilities hamper agricultural development. It will be seen from the following table that well irrigation occupies a significant place (more than 73%) in the district though flow irrigation is recently developing the canal areas of the district.

TABLE NO. 2

Source-wise area irrigated in AHMEDNAGAR DISTRICT

Sr. No.	Source	Net area irrigated in hectares		
		1960-61	1972-73	1973-74
1	2	3	4	5
1.	Govt. Canals	43,510	41,584	39,786
2.	Private Canals	1,745	34	214
3.	Wells	89,452	93,702	1,11,993
4.	Tanks	787	-	-
5.	Other sources	382	-	-
6.	TOTAL	1,35,876	1,35,320	1,51,993

3.5 During the reference year of 1973-74 it will be seen that irrigated area is increased by ^{12.32}~~12.32~~ percent over the previous year and also raised by ^{11.86}~~11.86~~ percent, when compared to year 1960-61. As compared ^{to} 1972-73, Gross irrigated area increased in ^{Nagar Rahuri,} Newasa, Shevgaon, Pathardi, Karjat, Shrigonda and ^{Akola, Sangamner} Parner, considerably while in Shrirampur and Kopargaon same is decreased. In other ~~the~~ tehsils gross irrigated area remained constant or slightly increased.

3.6 In the following table tehsil-wise percentages of gross to net irrigated area and percentages of net irrigated to net sown area for the year 1960-61, 1972-73 & 1973-74 are given.

TABLE NO. 3

Percentage of Gross Irrigated Area to Net Irrigated area and
Net Irrigated area to Net Sown area, in AHMEDNAGAR DISTRICT

Sr. No.	Tahsil	1960-61		1972-73		1973-74	
		% of gross irri. area to net irri. area	% of net irri. area to net sown area	% of gross irri. area to net irri. area	% of net irri. area to net sown area	% of gross irri. area to net irri. area	% of net irri. area to net sown area
1	2	3	4	5	6	7	8
1.	Ahmednagar	104.21	11.40	106.24	6.63	106.76	7.39
2.	Rahuri	108.02	18.58	160.08	23.50	110.41	24.07
3.	Shrirampur	103.66	33.05	105.40	45.85	111.18	41.11
4.	Newasa	121.48	5.56	110.55	11.20	112.93	13.01
5.	Shevgaon	121.74	4.26	113.04	4.22	155.86	3.68
6.	Pathardi	130.92	6.46	124.51	1.95	136.87	5.38
7.	Jamshed	117.56	8.16	119.02	3.45	116.08	3.74
8.	Karjat	117.20	8.09	178.51	3.23	119.23	8.72
9.	Shrigonda	116.33	10.36	110.46	9.29	118.98	11.19
10.	Parner	141.48	6.38	118.69	2.21	132.54	3.57
11.	Akola	136.95	1.28	118.93	1.36	118.50	2.29
12.	Sangamner	124.11	7.42	114.54	13.48	124.06	18.30
13.	Kopargaon	107.06	31.76	106.47	48.79	111.60	39.48
	Dist. Total	113.68	10.79	110.46	11.62	116.42	12.63

3.7 From the above table, it will be ^{revealed} ~~revealed~~ that overall percentage of gross irrigated to the net irrigated area in the year 1973-74 was increased by 5 percent than the previous year and also as compared to the year 1960-61, within the district the percentage was more in 1973-74 in Nagar, Rahuri, Shrirampur, ~~Newasa~~ ^{Newasa} when compared to the year 1972-73.

The percentage of net irrigated to the net area sown in 1973-74 was slightly more than that in 1972-73, and also when compared to the year 1960-61. The tahsil Kopergaon, Sangamner, Shrirampur, Rahuri, showed ^{Newasa higher %} over district average while in respect of other tahsils the percentage was lower. This further reveals the extent of double cropping in the irrigated areas of the district.

3.8 Productivity of Important Crops :

Rice, Jowar, Bajara, Sugarcane, Groundnut, safflower and Cotton are the principal Crops of the Ahmednagar district. In the following table, comparative position showing yield rate and out-turn of principal crops of the district is given.

TABLE NO. 4

Yield Rates of Principal Crops and their out-turn in

AHMEDNAGAR DISTRICT				
Ahmednagar district				
Sr. No.	C R O P S	Y E A R	Yield rate in Kg. per hectare	Out-turn in '00' metric Tonnes.
1	2	3	4	5
1.	Rice	1961-62	✓ 1,119	116
		1972-73	✓ 172	10
		1973-74	✓ 1,050	63
2.	Jowar (Kharip & Rabi)	1961-62	✓ 277	1,785
		1972-73	✓ 87	620
		1973-74	✓ 409	2,411
3.	Safflower	1961-62	N.A.	N.A.
		1972-73	N.A.	N.A.
		1973-74	N.A.	N.A.

TABLE NO. 4 (CONTD)

1	2	3	4	5
4.	Bajara	1961-62	186	481
		1972-73	147	236
		1973-74	453	1,736
5.	Sugarcane (in terms of Gur)	1961-62	11,207	3,994
		1972-73	6,884	3,318
		1973-74	6,851	3,453
5.	Groundnut	1961-62	418	130
		1972-73	275	22
		1973-74	870	94
7.	Cotton *	1961-62	71	31
		1972-73	233	84
		1973-74	174	29

* Out-turn in terms of hundred bales of 180 Kg. each.

3.9 It will be seen from the the above table that there is rise in case of yield rates of Rice, Jowar, Bajra and Groundnut while the yield rates have gone down in case of Sugarcane and Cotton, when compared to the previous year.

CROPPING PATTERN

3.10 Perusal of the data indicating cropping pattern in the following table will show that percentage of area under cereals to the gross cropped area decreased while percentage of ^{area} under pulses increased in the year 1973-74, over previous year.

The percentage of area under cash crops like Sugar-Cane and Cotton has gone down but the area under groundnut slightly increased. However while comparing the area percentage of the year ^{under} reference to 1960-61 it will be seen that area under cereals reduced while ^{that} under pulses, Sugarcane increased. Overall there is down-ward trend in area under total food crops and upward trend in non-food crops as compared to 1960-61.

(Contd)...

TABLE NO. 5

Percentages of Areas under Various Crops in AHMEDNAGAR DISTRICT

Sr. No.	C R O P S	Percentage distribution of area		
		1960-61	1972-73	1973-74
1	2	3	4	5
1.	Total Cereals	73.76	77.76	71.16
2.	Total Pulses	7.75	2.64	9.13
3.	Total Food-grains	81.51	80.40	80.29
4.	Sugarcane	2.73	4.01	3.89
5.	Total food crops	85.15	85.07	85.09
6.	Cotton	2.45	0.54	0.33
7.	Groundnut	2.37	0.67	0.92
8.	Total Non-Food crops.	14.85	14.93	14.91
9.	Total food crops & Non-Food crops.	100.00	100.00	100.00
	GROSS CROPPED AREA IN HECTARES.	1323643	1201770	1286366

3.11 Agricultural Credit and Outstanding dues :

The position given in the following table in this respect gives idea about the co-operative credit structure in Ahmednagar District, for the years 1961-62, 1973-74 and 1974-75. During the year 1974-75, No. of societies and loans advanced are less than the year 1973-74. However the position of outstanding loans is worsening. Increasing overdues and declining percentage of recovery of loans is rather an unhealthy indicator of co-operative movement in this district.

TABLE NO. 6

Agricultural Credit Facilities in AHMEDNAGAR DISTRICT during 1961-62, 1973-74 & 1974-75

Sr.No.	I T E M S	1961-62	1973-74	1974-75
1	2	3	4	5
1.	No. of Agril. Credit Societies.	1,040	1,099	1,094

TABLE NO. 6
(Contd)...

1	2	3	4	5
2.	Loans advanced (Rs. in lakh)	513.61	2052.91	1653.90
3.	Out-standing Loans (Rs. in lakhs)	566.29	2314.43	2387.76
4.	Overdues (Rs. in lakhs)	71.43	555.86	1089.95
5.	Percentage of recovery to the outstanding loans.	66.7	71.88	59.21

3.12 AGRICULTURAL WAGE RATES

The data on the subject is collected every fortnight from the representative agriculturist of the selected centres Akola, Belapur and Karjat from Ahmednagar district. In the following table average annual wage rates paid by the selected cultivators of the above centres to the wage earners (Male and Female) in the year 1973 & 1974 ^{are} shown.

TABLE NO. 7

Agricultural Wage Rates (Per day) in the selected centres of
AHMEDNAGAR DISTRICT during 1973 and 1974

Centre	Wage Earners	Average Wage Rates in	
		1973 (Rs.)	1974 (Rs.)
1	2	3	4
1. Akola	Male	2.92	3.00
	Female	2.17	2.00
2. Belapur	Male	3.00	3.00
	Female	2.00	2.00
3. Karjat	Male	2.38	3.00
	Female	1.88	2.00

3.13 It is seen from the above table that wage rates in all the three centres are same for male and female and also show increasing trend as compared to alst year. This increase may be due to the decision taken by Govt., in respect of wage rates....

(Contd)

of Agricultural labour .. The wage rate paid to skilled labour viz. Cabbler was Rs. 5/- and for Carpenter and Blacksmith was Rs. 6/- during the year under reference. The wages to these labourers are generally paid in kind.

3.14 Animal Husbandry : As Cattle rearing is subsidiary occupation to Agriculture development, Live-stock, Poultry etc. form important part of our economy. The data for certain important items from the quinquennial Live-stock census of 1966 and 1972 for AHMEDNAGAR DISTRICT is given below :-

TABLE No. 8

Live-stock in AHMEDNAGAR DISTRICT as per 1966 and 1972 Live-stock Census (Figures in lakhs)

Sr.No.:	Category	1966	1972	Percentage (In - increase of decrease)
1	2	3	4	5
1.	Cattle	8.76	8.16	(-) 7
2.	Buffaloes	0.80	0.88	(+) 10
3.	Total Bovine	9.56	9.04	(-) 5
4.	Total Live-stock	17.66	17.73	(+) 0.4
5.	Poultry	6.90	7.73	(+) 12

It will be seen from the above table that total live-stock Poultry and Buffaloes in 1972 have increased over 1966 whereas total bovine population has declined. In respect of no. of live-stock to the cultivable area in the year 1966 it was 134 per hundred hectares. For 1972 census it is 135 for Ahmednagar district Gross cropped area per pair of working bullocks in 1965-66 was 8.1 and now as per 1972 census it is 6.90. Further analysing Live-stock data of 1972 census shows that live-stock has increased as compared to the year 1966 in tahsils Akola, Sanganner, Shrirampur,

Nawasa, Shrigonda, Karjat and Jamkhed, while the same has declined in other tahsils. Poultry population per 1000 human population of 1971 census is 340 as per 1972 census, as against 388 in 1966 census.

3.15 Electricity : Progress in the field of electrification is a meaningful indicator of development. At the end of 31-3-75 as per 1971 census all the six towns and 943 out of 1317 villages (viz. 72 percent) were electrified and 83 percent of rural population was covered. The per capita consumption of electricity during 1974-75 was 100.65 K.W.H.

3.16 Employment Exchange Statistics :

Problem of educated and uneducated unemployment is becoming severe day by day in spite of attempts on the part of the State and Public Sector employers to provide jobs to the unemployed. The present available data regarding registration notified vacancies, placement etc. with employment exchange office is having certain limitation that a fair idea about un-educated un-employed is not available. During the year 1974-75, no. of registration was 9018 and 14885 persons were on the live-register of Ahmednagar employment exchange, ^{at the end of the year.} As compared to 1973-74 the registration is decreased by 15 percent but no. of persons on live-register is increased by 9 percent. During the reference year 1974-75 total placement is 365 which is 37.5 percentage of last year. This down-ward trend is due to ban on new recruitment in public sector by Govt. Out of the total employees 76,086 in different industries as on 31-3-75 more than 54 percent related to the Govt. 8 percent to quasi Government sector, and the rest to the private sector.

3.17 Medical and Public Health : Data regarding medical and public health facilities available through public and public aided bodies in Ahmednagar District in the year 1961, 1973 and 1974^{is} described in the following table.

TABLE NO. 10

Medical Facilities and Patients treated in the year 1961, 1973, 1974, in AHMEDNAGAR DISTRICT

Sr. No.	I T E M	Position in the year		
		1961	1973	1974
1	2	3	4	5
1.	Hospitals	2	4	9
2.	Primary Health Centres & Sub-Centres.	13	46	73
3.	Doctors and vaidyas	27	110	145
4.	No. of Beds	274	769	758
5.	No. of patients treated			
	a) Indoor	16,607	80,995	86,557
	b) Out-door	221502	555976	667670

3.18 From the above statistics, it will be observed that there is considerable increase in the medical facilities available in Ahmednagar district in the year 1974 as compared to the year 1961. It will be seen from the above data that though the no. of Beds are decreased, the no. of indoor and out-door patients treated, are increased in comparison with 1973.

3.19 Education : As compared to the year 1972-73, during the year 1973-74 Primary schools decreased by 2 ^{while} the secondary schools increased by 1 and higher institutions increased by 2, in Ahmednagar district. So also increase in no. of pupils and teachers in all the categories of institutions is noticed.

The ratio of students per teacher in the primary, Secondary and higher institutions was respectively, 32, 25, 27 during year under reference, as against 37, 25, & 27 respectively for 1972-73.

3.20 Transport and Communication :

Rail length in the District viz. 197 Kms. on broad guage remained unchanged on 31-3-75 with 18 railway stations in AHMEDNAGAR District. The following table shows surface classification of road length in the district as on 31.3.61 and 31-3-75.

TABLE NO. 11

Surface Classification of Road Length in Kms. as on 31.3.61 & 31-3-75 in AHMEDNAGAR DISTRICT

Sr. No.	Type of Surface	Road Length in Kms. as on	
		31-3-61	31-3-75
1	2	3	4
1.	Cement Concrete	108	112
2.	Black Topped	106	646
3.	Water bound macadam	1,658	1,735
4.	Others	1,152	8,154
5.	Total	3,024	10,647

3.21 From the above, it will be seen that the total road length in the district has increased by more than three times as compared to the year 1961. The Road Length per 100 Sq. Kms. area was only 18 Kms. as on 31-3-61 same is 63 Kms, as on 31-3-75.

3.22 Banking : Development of Sound Banking system is indicator of development. In the year 1961-62 there were only 2 banking offices per lakh of population in the district which rose to 7 in 1974 as per 1971 population census. During the year banking offices, increased by 4 total being 153 of which 49 were scheduled banks and 104 co-operative banks.

3.23 : Prices : Rising prices and increased cost of living are the phenomena, which a common man is required to face these days. The cost of living index is compiled at Pune and Solapur centres with base years 1961 and 1960 respectively. The general index at Pune rose to 281 in the year 1974-75 where as Solapur general index stood at 325. At both the centres food group index has gone up over previous year. Even the same observation holds good in respect of the average prices of most of the commodities collected in the selected shops at the district head-quarters every week. Significant rise in prices of medium rice, Wheat, Edible Oils, Vanspati, Clothing items etc. is noticed in the average prices of the year 1974 when compared to 1973.

CHAPTER IV

ANNUAL PLAN 1974-75

4.1 As per guidelines and policy of Govt. of Maharashtra to formulate the draft Fifth Five Year Plan for the period 1974-1979 by treating the district^{as} a unit of Planning, the District Planning Board of Ahmednagar district formulated the draft Fifth Five Year Plan for Rs. 55.16 crores. Govt. indicated to formulate plan to the ceiling of Rs. 45.81 crores, however, in view of special peculiar problems of Nagar district such as share for the Drought Prone Area Programme with the world bank assistance, previous commitments on continuing major irrigation projects like Kukadi, stress on employment guarantee scheme etc. the District Fifth Plan had to be formulated for the excess amount. So also the first years Annual Plan for the year 1974-75 was required to be formed for Rs. 9.18 crores as against the Govt. indication of Rs. 5.14 crores and approval of Govt. for Rs. 6.58 crores. Actually in the year 1974-75 an amount of Rs. 8.79 crores was spent on the various programmes as shown in the table No. 1.:

4.2 While reviewing the progress of expenditure and physical achievements of the year 1974-75, slight change in the planning process, due to formation of the District Planning Board is to be noted. Unlike in the past, Third, Fourth and Annual Plans in this Annual Plan, progress of the district level schemes and also the state and division level projects and programmes is reviewed and hence classification of state and local sector schemes as shown in the table No. 1 and elsewhere relates to the basis of actual operation of schemes...

in the concerned offices and hence the same is tentative.

TABLE NO. 1

Expenditure incurred in the year 1974-75 and during the Fourth Five Year Plan in the State and Local Sectors of

AHMEDNAGAR DISTRICT						(Rs. in lakhs)	
Sr. No.	Head of Development	Budget provision	Expenditure 74-75			% of the bud: get.	Fourth Five Year Plan : expr.
1	2	3	4	5	6	7	8
			State	Local	Total		
1.	Agril. Programmes	198.51	170.54	28.97	199.51	101	695.58
2.	Co-operation & Community Development.	78.19	68.25	9.90	78.15	100	61.50
3.	Irrigation & Power	274.97	271.55	--	271.55	99	87.27
4.	Industry & Mining	15.31	18.34	--	18.34	120	12.45
5.	Transport & Communications.	16.91	3.95	12.69	16.64	98	74.79
6.	Social Services	102.01	72.44	25.91	98.35	96	616.67
7.	Miscellaneous	232.10	196.92	--	196.92	85	16.26
8.	Total State Plan	918.00	801.66	77.80	879.46	96	1567.52
<u>Centrally Sponsored Programme</u>							
1.	Agril. Programmes	0.47	0.45	--	0.45	96	179.93
2.	Co-operation & C.D.	--	--	--	--	--	7.35
3.	Social Services	35.87	16.72	21.62	38.34	107	142.25
4.	Miscellaneous	--	--	--	--	--	36.42
	Total Centrally Sponsored Programme.	36.34	17.17	21.62	38.79	107	365.95
	GRAND TOTAL OF STATE + C.S.P.	954.34	819.16	99.09	918.25	96	1930.47

4.3 From the above position, it will be revealed that except under 'Miscellaneous Programme' progress of expenditure is good as almost all allotted provisions were fully utilised and in the case of Industry and Mining and Agril. Programmes expenditure was in excess of sanctioned grants. On an average it can---

(Contd)...

be seen that during the year under review expenditure was more than double ^{the} average annual expenditure in Fourth Plan period.

State Plan Scheme : (I) Agricultural Programmes :

4.4 As in the past, Govt. ^{has} given more emphasis on the implementation of various programmes under this head of development ^{due to} Govt. policy to increase production in Agriculture and allied sectors. In the following table sub-head-wise expenditure in the state, & Local sector for the years 1973-74 & 1974-75 is given.

TABLE NO. 2

Expenditure under various sub-heads of development under Agril. Programmes in the year-1973-74 & 1974-75 of Ahmednagar dist.

(Rs. in lakhs)

Sr. No.	Sub-Head	Expenditure					
		1973-74			1974-75		
		State	Local	Total	State	Local	Total
1	2	3	4	5	6	7	8
1.	Agril. Production	1.70	4.99	6.69	3.01	3.27	6.28
2.	Minor Irrigation	29.44	73.00	102.44	27.26	25.70	52.96
3.	Soil Conservation	21.40	--	21.40	41.18	--	41.18
4.	Ayacut Development	40.55	--	40.55	43.90	--	43.90
5.	Drought Prone Area programme.	--	--	--	50.40	--	50.40
6.	Animal Husbandry	--	0.25	0.25	--	--	--
7.	Dairy Development	0.11	--	0.11	2.22	--	2.22
8.	Forest	1.21	--	1.21	1.33	--	1.33
9.	Fisheries	0.57	--	0.57	0.72	--	0.72
10.	Ware Housing & Marketing.	0.82	--	0.82	0.52	--	0.52
	TOTAL	95.80	78.24	174.04	170.54	28.97	199.51

4.5 Analysing the above table, it will be seen that, as compared to the year 1973-74, less expenditure was made under Agril.

(Contd)...

production, Minor Irrigation, Warehousing, Animal Husbandry (with no expenditure) whereas in the remaining sub-heads more expenditure was made. As indicated earlier, with the World Bank assistance drought prone area programme was implemented in Nagar district in ^{nine} watershed comprising of 113 villages, in the sector of Dry Land Farming, Minor Irrigation, Soil Conservation, Forests etc. an amount of Rs. 50.40 lakhs was spent.

4.6 In the following statement progress of physical achievements and targets for the year 1974-75 under important items under different sub-heads under Agril. Programmes is given.

TABLE NO. 3

Important Physical Achievements in the year 1974-75 Ahmednagar District

Sr.No.	Items	Unit	Target	Achievement
1	2	3	4	5
1.	Improved Seeds distributed	Qtl.	Not fixed	14,646
2.	Area bunded (foodgrains)	hect.	--	3,145
3.	Compost Prepared	M.T.	41,000	45,080

12.	Drought Prone Area Programme.			
	a) Agricultural Demonstrations. No.		149	149
	b) bunding	hect.	1,444	1,444
	c) Afforestation	"	440	440

4.7 II) Co-operation and Community Development :

Under co-operation the schemes of coop. credit and marketing (78 societies) assistance to 4 coop. Sugar factories, Coop. farming, consumers stores (One rural and Urban) etc. were executed in the state sector and expenditure of Rs. 68.25 lakhs was made. So also, under the C.D. programme, an amount of Rs. 9.90 lakhs was spent on the different blocks of 23 C.P.A. size, ^{towards} Bhangi - Mukti Gram Safai programme, Tribal blocks of Rajur and Waki from Akola taluka, applied nutrition and special nutrition programme in Nagar, Karjat, Pathardi, Akola, Jamkhed, Sangamner etc.

4.8 III) Irrigation & Power : From this year onward in the district Plan state and division level schemes have been included and as such more than 25 percent of the district budget i.e. Rs. 2.45 crores was earmarked for continuing major and medium irrigation projects such as Kukadi, Mula, Jayakwadi, Upper Godawari, Sina, Adhala Pragaon Ghatshil and Takalibhan projects, from Nagar district and an amount of Rs. 2.43 crores was spent on the above projects in the year 1974-75. ^{10 Crores drawn} ~~110 Community Development~~ works, 22 buildings and canal of 20 Km. of Mula were completed.

Work of medium project at Adhala is nearing completion and that of Sina is in preliminary stage. Work of Paragaon Ghatshil and Takalibhan is in progress.

4.9 Under the schemes of Rural electrification and Normal development Rs. 28.13 lakhs were spent in the year 1974-75 by the M.S.E.B. and thereby 50 villages were electrified and 255 agricultural pumps were energised. So far 72 percent of villages from Nagar district have been electrified.

4.10 IV : Industry and Mining :

Under this programme, amount of Rs. 18.34 lakhs has been spent, (20 percent in excess of the allotment) on the S.I. Co. Ms' package scheme of incentives, for assistance of Block level artisan societies, Industrial estate at Kopargaon.

4.11 V. Transport and Communication :

Road development is specially important in view of the fact there is only rail link from Dhond to Manmad. Under the Road development schemes in the state and local sectors, Rs. 16.64 lakhs were spent in the year 1974-75 ^{on} as the District Roads. Roads in hilly ^{and} inaccessible areas for completing 1.2 Kms. of road, 10 culverts in Ahmednagar district. Work of diversion road on Nagar-Pune road near the rail-way gate is completed.

4.12 VI) Social Services :

Schemes and programmes under this head are also important with special reference to the states ' 15 point minimum need. Programmes and hence budget of Rs. 102.01 ^{lakhs} was provided in the Annual Plan of 1974-75 of which Rs. 98.35 lakhs were spent on the various sub-heads in the state and Local sector as shown on next page...

(Contd)...

TABLE NO. 4

Sub-Head-wise expenditure Under 'Social Services' in the
years 1973-74 & 1974-75 (Rs. in lakhs)

Sr. No.	Sub-Head	Expenditure					
		1973-74			1974-75		
		State	Local	Total	State	Local	Total
1	2	3	4	5	6	7	8
1.	General Education	56.10	15.46	71.56	1.07	17.45	18.52
2.	Public Health	3.45	--	3.45	--	1.80	1.80
3.	Applied Nutrition programme.	--	--	--	--	1.71	1.71
4.	Water supply & drainage.	29.61	5.58	35.19	68.93	3.30	72.23
5.	Housing	--	0.85	0.85	0.48	0.83	1.31
6.	Welfare of Backward classes.	--	2.41	2.41	0.74	0.82	1.56
7.	Social Welfare	--	--	--	0.13	--	0.13
8.	Labour & Labour welfare.	1.26	--	1.26	1.09	--	1.09
9.	Urban Development	--	--	--	--	--	--
	TOTAL	90.42	24.30	114.72	72.44	25.91	98.35

4.13 From the above table, it will be seen that, as compared to the previous year, total expenditure in the year under review was less under the sub-heads of 'General Education' and welfare of B.C.s 'Public Health' where as, it was more under 'Water Supply', 'Housing' etc.

4.14 In the following table important physical targets and achievements for the year 1974-75 are shown for all sub-heads under 'Social Services' programme.

TABLE NO. 5

Important Physical Target and Achievements Under
'Social Services' in 1974-75, DISTRICT AHMEDNAGAR

Sr.No.	Item	Unit	Target	Achievement
1	2	3	4	5
1.	Concession to E.B.C. Pupils.	No.	8,674	8,674

TABLE NO. 5

1	2	3	4	5
2.	Concession to sons & daughters of primary teachers.	No.	1,586	1,580
3.	Rural pipe-water supply schemes.	"	28	10
4.	Beneficiaries under 'Thatched roofs' schemes.	"	64	64
5.	Tuition fees scholarships to B.C. Pupils.	"	435	435
6.	Loan-cum-subsidy to industrial units of SC/ST/OBC.	"	162	162
7.	Rural electrification in Tribal areas (farmers)	"	21	21
8.	Drinking water wells	"	--	82

4.15 VII)Miscellaneous : Under this programme, Rs. 0.11 lakhs were spent in the year 1974-75 on the scheme of Rural Broadcasting by supplying 62 rural radio and 4 T.V. sets. Employment Guarantee scheme is very much significant for Ahmednagar district due to irregular and erratic nature of rain fall and as the whole district is declared as drought prone area. Nagar is one of two or three districts in the State where expenditure on this scheme is maximum. During the year under review expenditure of Rs. 196.81 lakhs was incurred on the various 186 percolation tanks, 9 village tanks, 7 afforestation works, 8 Road works, 70 canal works etc. most of which were located in in the dry areas of the district. By creating the above Community productive assets, employment to about 40,000 unskilled manual labourers on these works was provided in the Agril. off season.

4.16 Centrally Sponsored Programme :

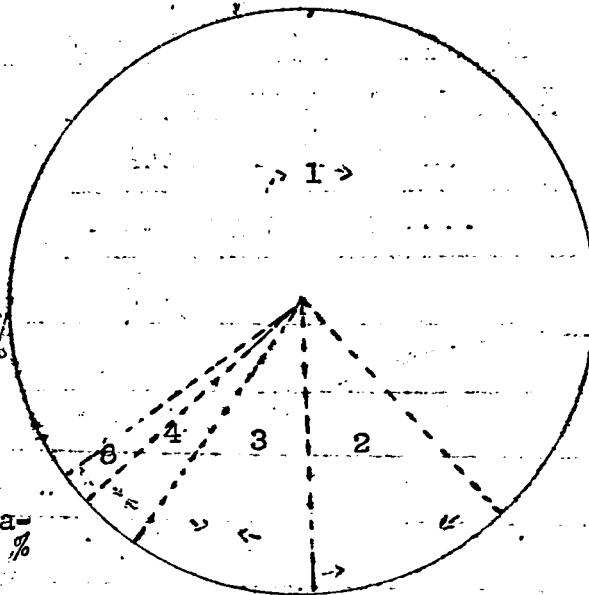

As shown in the table No. 1 earlier during the year amount of Rs. 38.79 lakhs, 7 percent in excess of allotment, was spent on Agricultural Programmes and Social Services. Under family planning programme, 7653 sterilisation operations were performed. Vaccination(24154) and revaccination (128067) against Small pox, Cholera diseases were done. Under Agril. Production demonstrations for sunflower in 17 hectares and H-4 Cotton in 1409 hectares and soyabin in 157 hectares were organised.
