

GOVERNMENT OF BOMBAY

HANDBOOK OF BASIC STATISTICS
OF
MAHARASHTRA STATE
1960

PUBLISHED BY
BUREAU OF ECONOMICS AND STATISTICS
GOVERNMENT OF BOMBAY
BOMBAY
1960

PREFACE

The main object of this Publication is to present the basic information relating to the various economic and social aspects of *Maharashtra*, consequent upon the bifurcation of the Bombay State. The statistics given in this publication have mostly been obtained from the various Departments and offices of the State Government and in a few cases compiled from the relevant All-India Publications. In some cases the statistics included here have not yet been published by the authorities concerned. These figures may therefore, be treated as provisional. The sources from which the statistics have been taken are indicated at the appropriate place in each statement. A short note is included in the publication giving the socio-economic conditions of the State. A map of the new State is also appended. The data except in the case of statements on Area and Population, relate to the unadjusted boundaries of Thana and West Khandesh districts.

I have to thank the various officers of the State Government concerned for having supplied at short notice the figures, that have made this publication possible.

M. A. TELANG,
Director,
Bureau of Economics and Statistics, Bombay.

20·1 Consumer Price Index Numbers	110
20·2 Index Number of Wholesale Prices	114

INTRODUCTION

1. Physical Setting :

1.0 : Maharashtra is situated on the west coast of India between 22·1 degrees and 16·4 degrees north latitude and 72·6 degrees and 80·9 degrees east longitude. The State is bounded by the Arabian sea on the west, Gujarat in the north-west, Madhya Pradesh in the north, Andhra Pradesh in the South-east and Mysore and Goa in the south. The region is drained by a number of rivers, big and small, most of them forming tributaries of Tapi, Godavari, Bhima, Krishna, Wardha and Wainganga.

The relief of the land shows high plateaus with plains on the Western Coast and along the river basins.

2. Area and Population :

2.0 : The total area of the State is 1,18,459 square miles which is about 10·07 per cent of the area of the Indian Union. Administratively, the State is divided into 26 districts, viz. West Khandesh, Nasik, Thana, Greater Bombay, Kolaba, Ratnagiri, Ahmednagar, Poona, Satara North, Satara South, Kolhapur, Sholapur, East Khandesh, Aurangabad, Parbhani, Bhir, Osmanabad, Nanded, Buldhana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Chanda and Bhandara.

2.1 : The population of the State according to the 1951 Census is 3,20,03,086 or approximately 3·20 crores which is roughly two-thirds of the population in bilingual Bombay State or 9·05 per cent of the population in the Indian Union. This population lives in 373 town groups and 35,526 villages, spread over 232 talukas of the State. 28·82 per cent of the population lives in urban areas while the corresponding figures for bilingual Bombay State and Indian Union are 28·28 and 17·34 respectively. If Greater Bombay is excluded, the urban population of the State would be 19·54 per cent. The State is the third largest State in the Indian Union, both in respect of area and population.

2.2 : The density of population in the State is 270 per square mile, whereas it is 253 in bilingual Bombay and 303 in the Indian Union. The density in Greater Bombay is 16,109 per square mile, while, in the remaining areas of Bombay Division, it is 285. The density per square mile in Poona, Aurangabad and Nagpur Divisions is 291, 228 and 206 respectively. The density of population is lowest in Chanda district being only 106 per square mile. The sex ratio in the State is 941 females per 1,000 males while in the Indian Union, the ratio is 947 to 1,000 males. The number of females per 1,000 males is greatest in Ratnagiri district, being 1,224 whereas, it is lowest in Greater Bombay, being 603.

2.3 : According to the Census of 1951, there are six cities, viz. Greater Bombay, Ahmednagar, Poona, Kolhapur, Sholapur and Nagpur having a population of one lakh and above. There are 15 towns with a population between 50,000 and 1 lakh. 20,028 villages or 55·76 per cent of the places have a population less than 500 as against a percentage of 67·73 in the Indian Union.

2.4 : *Livelihood classes.*—The following table gives the percentage distribution of population according to livelihood classes :—

TABLE 1.

Percentage distribution of population according to livelihood classes.

Category.	Percentage distribution of population in		
	Maharashtra.	Bilingual Bombay.	Indian Union.
1	2	3	4
I. Cultivators of land wholly or mainly owned and their dependents ..	39·58	39·49	46·91
II. Cultivators of land wholly or mainly unowned and their dependents ..	7·59	8·25	8·87
III. Cultivating labourers and their dependents	14·79	12·15	12·56
IV. Non-cultivating owners	2·02	2·01	1·49
Total Agricultural Classes ..	63·97	61·90	69·83

TABLE I—contd.

Category.	Percentage distribution of population in		
	Maharashtra.	Bilingual Bombay.	Indian Union.
1	2	3	4
V. Production (other than cultivation)	12.10	13.76	10.56
VI. Commerce	6.99	7.48	5.98
VII. Transport	2.25	2.14	1.58
VIII. Other services	13.68	14.72	12.05
Total Non-agricultural classes	36.03	38.10	30.17
Grand Total	100.00	100.00	100.00

2.5 : The percentage of cultivating labourers and their dependents is high being 14.79 whereas, it is only 12.56 in the Indian Union. The percentage of population dependent on agriculture is 63.98 in the State against a figure of 69.83 in the Indian Union. It is interesting to note that the percentage of owner-cultivators and their dependents is much smaller in the State than in the Indian Union. On the other hand, a larger proportion of the population is dependent on non-agricultural pursuits in this State as compared to that in the Indian Union.

2.6 : *Literacy*.—The following table gives the percentages of literacy in the State and Bilingual Bombay State according to 1951 Census :—

TABLE 2.

Percentage of literate population according to 1951 Census.

Category.	Maharashtra.						Bilingual Bombay.
	Greater Bombay.	Remaining Bombay Division.	Poona Division.	Aurangabad Division.	Nagpur Division.	State.	
1	2	3	4	5	6	7	8
Males	55.90	31.62	30.51	21.92	30.01	31.59	31.89
Females	38.30	10.04	7.86	4.82	7.78	9.51	10.92
All persons	49.30	20.71	19.36	13.96	19.00	20.96	21.70

2.7 : The literacy standards are naturally highest in Greater Bombay, while, they are lowest in Aurangabad Division. In the remaining divisions, the extent of literacy is more or less the same. The percentage of literates in the State is 20.96 as compared to 16.61 in the Indian Union.

3. Rainfall and Scarcity :

3.0 : On the basis of the average annual rainfall and the nature of rainy season, the regional features of the State can be summarised as follows :—

(a) Coastal areas—comprising of Thana, Kolaba, Ratnagiri and part of Kolhapur districts. The rainfall is above 80" and more than even 120" in places particularly in the hilly areas of Western ghats.

(b) Plateau area on the eastern side of ghats. The rainfall gradually decreases from 80 inches to 25 inches while mostly it is around 25 to 30 inches. In quite a few places, the rainfall is less than even 20 inches.

(c) Marathwada Districts—the rainfall varies from 30" to 40".

(d) Vidarbha Districts—the rainfall varies from 30" to 60" being around 50 inches in most places. It gradually increases towards the east, particularly towards the forest areas of Chanda District.

3.1: The areas of Shirur Taluka, Dhond Taluka, northern portion of Baramati Taluka, villages situated in the north of Mula-Mutha River up to the northern boundary of Haveli Taluka in Poona District, part of Khanapur Taluka in South Satara District, Karmala and Sangola Talukas in Sholapur District and Shrigonda Taluka in Ahmednagar District are liable to acute scarcity conditions, while the Vidarbha area is completely free from acute scarcity conditions.

4. State Income .

4.0: The total income of the State is estimated at Rs. 941.89 crores in the year 1954-55 as against National Income of Rs. 9610 crores of the whole country during the same year. Thus, 9.8 per cent of the National Income is generated in Bombay State which covers 9.0 per cent population of the Indian Union. The *per-capita* income of Maharashtra which has been worked out at Rs. 278 compares very favourably with the *per-capita* income of Rs. 254 in the Indian Union. Though the Maharashtra State is well advanced as regards industries and commerce as well as borne out by the figures of contribution to the State Income from various sectors of economy given in table 3 below, it may be noted that most of the income occurs in Greater Bombay. In the year 1954-55, agriculture, animal husbandry and allied activities contributed 33 per cent of the income of the State, while 45 per cent of the income in India originated in this sector. On the other hand, mining and industries accounted for more than 1/4 of the State income as against 19 per cent in India as a whole. Commerce, trade and transport activities in the State contributed 22 per cent to the income of the State, whereas 19 per cent of the income in India is generated in this sector. Table 3 below gives, in brief, break-up of income by broad sectors of economic activities.

TABLE 3.

Income during 1954-55 (in crores of Rs.)

Category.	Maha- rashtra.	Bilingual Bombay.	Indian Union.
1	2	3	4
1. Agriculture, animal husbandry and ancillary activities	311.5 (33.1)	521.0 (37.0)	4350 (45.3)
2. Mining, manufacturing and small enterprises	242.7 (25.8)	349.3 (24.8)	1866 (19.7)
3. Commerce, transport and communications	209.5 (22.2)	290.5 (20.6)	1816 (18.8)
4. Other services	178.2 (18.9)	247.1 (17.6)	1650 (17.2)
Total	941.9 (100.0)	1407.8 (100.0)	9610 (100.0)
Per Capital Income (in Rs.)	278	276	254

N. B.—Figures in brackets show percentages to the total.

5. Agriculture :

5.0: *Land utilisation.*—The following table gives the land utilisation data for the year 1956-57 for the State, bilingual Bombay State and Indian Union.

TABLE 4.

Land utilisation in 1956-57 (in percentages to total area).

Item.	Maharashtra	Bilingual Bombay.	Indian Union (Provisional).
1	2	3	4
Forests	17.49	12.81	17.48
Barren and unculturable land	6.03	14.12	11.84
Land put to non-agricultural use	2.21	1.81	4.53
Culturable waste	3.01	2.90	7.45
Land under tree crops and groves	4.88	4.97	1.94
Permanent pastures and grass lands	0.70	1.42	4.09
Current fallows	3.15	2.91	4.09
Other fallows	4.61	3.44	4.07
Net area sown	57.92	55.62	44.56
Total area	100.00	100.00	100.00

5.1 : The percentage of area under barren and unculturable land is low being only 6.03. The percentage of area under permanent pastures and grasslands is also poor, being only 0.70, whereas, the same figure in bilingual Bombay State is 1.42. However, the percentage of net area sown is high, the figure being 57.92 as against 44.56 per cent in the Indian Union.

5.2 : *Regional characteristics of land utilisation.*—The cultivated and uncultivated land of the State show several regional features :—

(a) *Coastal districts of Thana, Kolaba, Ratnagiri and Greater Bombay.*—The proportion of cultivated area is less than one-third of the total area. Roughly, one-fifth of the area is under fallows. The area has some forest wealth except in Greater Bombay and to a certain extent in Ratnagiri. The area under fodder crops is fairly large. The districts are noted for paddy cultivation.

(b) *Plateau districts of Nasik, Ahmednagar, Poona, Satara North and South, Kolhapur and Solapur.*—The proportion of cultivated area is fairly high. The districts have considerable area under forests especially in the ghats. Area under fallows is high in Poona, Satara North and Satara South and Sholapur Districts. The districts have a significant area under oilseeds and a sizable area under fodder crops. The Districts of Kolhapur, Sholapur and Nasik have good permanent pastures and grazing lands. The area under drugs and narcotics is sizable. The districts are noted for bajri, jowar and sugarcane cultivation.

(c) *Deccan tract comprising of West Khandesh, East Khandesh, and Marathwada Districts.*—The tract has considerable area under oilseeds and cotton and other fibres. The proportion of cultivated area varies from 60 to 75 per cent. The tract has some forest wealth and considerable fallows. The area grows mainly jowar and bajri among foodcrops.

(d) *Vidarbha Districts.*—The proportion of cultivated area varies from 50 per cent to 70 per cent. The area under forests is high, particularly, in Chanda District. The tract has considerable area under cotton and oilseeds. The main foodcrops are rice in the east and wheat in the west.

5.3: *Irrigation.*—Out of a gross cropped area of 463.8 lakhs of acres in the State, 26.0 lakhs of acres or 5.6 per cent. were irrigated in 1956-57. The corresponding figure in bilingual Bombay State was 5.8 per cent. Among cereals and pulses, the area irrigated under wheat and jowar was significant in Poona and Aurangabad districts while area irrigated under rice was significant in Bhandara, Chanda and Nagpur districts. Among other crops, area irrigated under sugarcane is sizable in Poona division.

5.4: The distribution of area irrigated by sources given in the following table shows that half the area is irrigated by wells, while, nearly one-fourth by canals and one-fifth by tanks.

TABLE 5.

Area irrigated in 1956-57 (in percentage to total area irrigated) by sources.

Source.	Percentages of area irrigated in		
	Maharashtra	Bilingual Bombay.	Indian Union.
1	2	3	4
Government canals	21.82	17.26	35.32
Private canals	2.83	1.80	5.98
Wells	51.79	63.59	29.63
Tanks	19.90	14.36	19.38
Others	3.66	2.99	9.69
<i>Total</i> ..	100.00	100.00	100.00

5.5. The following table gives the percentages of area under major groups of crops in this State and bilingual Bombay.

TABLE 6.

Area under groups of crops in 1956-57.

(In percentages to total area under crops).

Groups of crops.	Maharashtra.	Bilingual Bombay.
1	2	3
Cereals and pulses	67.90	63.27
Sugarcane	0.55	0.42
Fruits and vegetables	0.68	0.64
Condiments and spices	1.04	0.88
Other food-crops	0.01	0.04
<i>Total food-crops</i> ..	70.18	65.25
Oilseeds	10.57	12.51
Cotton and other fibres	14.47	16.02
Drugs and narcotics	0.19	0.40
Fodder crops	4.55	5.62
Miscellaneous food-crops	0.04	0.20
<i>Total non-food-crops</i> ..	29.82	34.75
<i>Total area under crops</i> ..	100.00	100.00

5.6: About one-sixth of the area under oilseeds and one-fourth of the area under cotton in Indian Union are in the State. The above table shows that among non-food crops, these two crops account for most of the area. Among food-crops most of the area is under cereals and pulses. The total area under foodgrains is very high, the percentage being 67.90.

5.7: Paddy is grown abundantly in the coastal districts of Thana, Kolaba, Ratnagiri and districts of Chanda and Bhandara while millets are grown abundantly in Deccan, Vidarbha and Marathwada districts. On the whole, jowar is the major cereals of the State and accounts for half the production of the cereals and pulses in the State. Rice accounts for one-fifth of foodgrains' production while wheat accounts for only about one-twentieth of foodgrains' production.

5.8: In 1956-57 which was a good crop year, the production of foodgrains in the State was 61.6 lakhs or about 62 lakhs tons, which was only 16.61 ozs. per capita per day. Among non-food crops, the production of cotton and groundnut are sizable, their production being 26.1 per cent and 17.9 per cent of the production in the Indian Union. The State also grows considerable amount of sugarcane.

6. Forests:

6.0: The State is abundant in Forest wealth. The total forest area in the State is 157.15 lakhs acres or 20.7 per cent or one-fifth of the geographical area, against 16.0 per cent in 1956-57 in the bilingual Bombay State. Out of the 157.15 lakhs acres under forests, nearly two-thirds, i. e. 102.63 lakhs acres constitute reserved forests. The forest areas exist in all districts but are thickly concentrated mainly in Chanda, Amravati, Yeotmal, Bhandara, Nagpur, West Khandesh, Thana and Nasik districts. The forests abound in various types of timber, teak and other minor produce.

7. Livestock:

7.0: Out of a total livestock population of 238 lakhs in the State as per livestock Census, 1956, nearly 70.95 per cent or 169 lakhs belong to the bovine population. The following table gives the female and male estimated population per thousand population and per 100 acres of cultivated area.

TABLE 7.

Distribution of livestock (As per livestock Census 1956.)

Category.	Unit.	Maharashtra	Bilingual Bombay.	Indian Union.
1	2	3	4	5
<i>Males over three years.</i>				
Cattle	Per 100 acres of cropped area	12.6	12.2	17.7
Buffaloes	Do. do.	0.6	0.5	1.8
<i>Females over three years.</i>				
Cows	Per 1,000 population (as per 1951 Census).	134.8	122.7	132.4
Buffaloes	Do. do.	45.5	59.8	62.6

7.1: The male bovine population above three years of age per 100 acres of cropped area in the State is greater than in bilingual Bombay, but far less than in Indian Union. Among females, the State has about 180 animals per 1,000 population. The cow population over three years of age for 1,000 population is greater than in bilingual Bombay State, as well as in the Indian Union, while the female buffalo population over three years of age per 1,000 population is far less than in bilingual Bombay State as well as in Indian Union.

7.2: The density of livestock per 100 acres of sown area is only 51 in the State whereas the same is 85 in bilingual Bombay and 84 in the Indian Union. The proportion of cattle population is greater in the State than obtained in bilingual Bombay State. The camel population is negligible. The State has 83.5 per cent or more than four-fifths of poultry population in bilingual Bombay State.

7.3: Regionally, in Kolhapur and Greater Bombay districts alone, the milk yielding buffalo population is greater than the milk yielding cattle population. In all other districts, the milk yielding cattle population is by far greater than the milk yielding buffalo population. The sheep and goat abound in all districts, but particularly more in Nasik, West Khandesh, Ahmednagar and Sholapur districts. The concentration of horses and ponies is greater in Marathawada districts, West Khandesh and Ahmednagar.

7.4: On an average, a plough is used for about 20 acres of cultivated area in the State as against 19 acres in bilingual Bombay and 9.6 acres in the Indian Union.

8. Co-operation:

8.0: The co-operative movement has been steadily expanding in the State in the period 1954-55 to 1958-59. The number of societies increased from about 18 thousands in 1954-55 to 25 thousands in 1958-59 and membership from 21 lakhs in 1954-55 to 33 lakhs in 1958-59. The working capital and advances of societies are about Rs. 189.37 crores and Rs. 155.43 crores in 1958-59 as against Rs. 279.83 and Rs. 228.70 crores in the bilingual Bombay State.

8.1: The following table gives the societies, memberships, working capital, advances and population covered in the State and in bilingual Bombay State in 1958-59.

TABLE 8.

Number, membership, working capital, advances and population covered by co-operative societies including co-operative banks, Insurance Societies Unions and Boards in 1958-59.

Item 1	Maharashtra 2	Bilingual Bombay. 3
1. Number	24,896	36,001
2. Membership (in '000)	3,203	4,784
3. Working Capital (in crores of Rs.)	189.4	279.8
4. Advances (in crores of Rs.)	155.4	228.7
5. Percentage of population covered	45.1	48.7

8.2: The State has roughly two-thirds of the number of societies in bilingual Bombay. The percentage of population covered in the State is slightly greater than that in bilingual Bombay State.

8.3: The average non-agricultural society has more membership, share capital and working capital in the State when compared to the society in bilingual Bombay. The size of societies in the remaining three categories is smaller in the State than that obtained in bilingual Bombay. The non-agricultural societies are concentrated more in Bombay and Poona Divisions.

9. Banks :

9.0: The number of banking offices has risen from 721 in 1954 to 810 in 1957. Out of these 810, 206 are in Greater Bombay alone. On the whole, each banking office serves a population of about 40,000, while in the bilingual Bombay State, it serves a population of about 37,000. The banking facilities are little in the five Marathawada districts in which, each banking office serves a population of 1.36 lakhs. In Greater Bombay, each banking office serves a population of about 14,000.

10. Joint Stock Companies :

10·0 : There were about 4,316 joint stock companies with a total paid-up capital of Rs. 314 crores on 1st March, 1956 in the State, against a figure of 5,059 companies with a paid-up capital of Rs. 356 crores in bilingual Bombay State. If figures for companies in Greater Bombay are excluded, there are only 823 companies with a paid-up capital of about 18 crores only. In Greater Bombay alone, there are 3,493 concerns with a paid-up capital of Rs. 296 crores.

10·1 : Out of the 4,316 concerns, more than one-third, i.e., 35·75 per cent belong to commerce and about one-fifth belong to processing and manufacture of metals, chemicals and products thereof. These two categories alone account for Rs. 136 crores of paid-up capital. The details regarding the distribution of number of companies by types are given in the following table :—

TABLE 9.

Distribution of joint stock companies by types.
(in percentages to total.)

Category.	Maharashtra	Bilingual Bombay.
1	2	3
1. Agricultural and allied Activities	2·46	2·22
2. Mining and quarrying	1·76	1·84
3. Processing and manufacture of foodstuffs, textiles, leather and their products	11·19	12·72
4. Processing and manufacture of metals, chemicals and products thereof	20·46	19·58
5. Processing and manufacture not elsewhere classified	12·28	11·44
6. Construction and utilities	3·38	3·36
7. Commerce	35·75	35·90
8. Transport and communication	3·38	3·50
9. Community and business services	2·46	2·89
10. Personnel and other services	6·88	6·14
<i>Total</i>	100·00	100·00
11. Authorised paid-up capital per co. (in lakhs of Rs.)	17·70	17·08
12. Paid up-capital per co. (in lakhs of Rs.)	7·27	7·05
13. Paid-up capital per capital (in Rs.)	98	74

10·2: The paid-up capital per capita is Rs. 98 in the entire State, while if Greater Bombay is excluded it is only Rs. 7 in remaining areas of the State. This shows the extent of high commercialisation in Greater Bombay district.

11. Minerals:

11·0: The State is rich in minerals like manganese and salt. Salt is produced in the coastal districts, while manganese is mined in Vidarbha districts and to some extent in Ratnagiri districts. Some iron ore is mined in Ratnagiri and Chanda districts. It is expected that Vidarbha and to some extent Marathawada areas have deposits of china clay, limestone, coal, etc. Excluding these areas, the mineral production is conspicuous by its absence in the remaining districts.

11.1: The total value of mineral production in 1956 was Rs. 5.19 crores out of which manganese and salt account for Rs. 3.42 crores and Rs. 1.07 crores respectively. The per capita mineral production in 1956 was Rs. 1.61 against a figure of Rs. 1.79 in bilingual Bombay State and Rs. 2.82 in the Indian Union.

12. Industries :

12.0: The important industries of the State are cotton textiles, general and electrical engineering, chemicals, sugar, vegetable oils (including hydrogenated oils), paper and paper boards., soap, etc. According to the information available for 1957, there were 8,036 registered factories in the State, employing about 7 lakhs of workers daily. Out of these, nearly half the number, i.e., 3,539 factories, employing about 4½ lakhs of workers daily, are in Greater Bombay alone. The factories in the remaining areas are concentrated in Sholapur, Nagpur, Bhandara, Poona, Ahmednagar and Thana districts. In the Marathwada districts, the concentration is very poor.

12.1: The following table gives certain information relating to factories coming under the Census of Manufacturing Industries Rules, during 1956, in the State and in bilingual Bombay State. It may be mentioned that only 29 groups of industries out of 63 are covered under the Census of Manufacturing Industries Act.

TABLE 10.

Statistics of Factories coming under C. M. I. in 1956. (29 Groups of Industries).

Industry group.	Total production capital (in crores of Rs.)		Value of output per employee (in '000 Rs.)		Total employment (in lakhs).		Salaries and wages paid per employee per annum.

(m) Ceramics ..	0.6	1.7	2.7	2.8	0.01	0.04	819	768

12.2 : Out of Rs. 197·7 crores of productive capital, the textile industry alone accounts for nearly fifty per cent., i.e. Rs. 97·1 crores. This industry gives employment to a significant number of persons. The large soap and sugar factories, i.e. those coming under the Census of Manufacturing Industries rules, existed only in Maharashtra in the bilingual Bombay State.

13. Power :

13.0: Power generation in the State increased from 149·3 crores of KWH. in 1951 to 224·8 crores of KWH. in 1956, i.e. nearly one-and a half times. Full details regarding per capita generation and consumption are given in the following table.

TABLE 11.
Per capita (in KWH) generation and consumption of electricity in 1956.

Item.	Maharashtra.			Indian Union.
	Greater Bombay.	Remaining areas.	State as a whole.	
1	2	3	4	5
Power generated	485·7	27·3	71·1	27·1
<i>Power consumed—</i>				
(a) Sold to public—				
(1) Domestic consumption	39·9	1·6	5·1	2·6
(2) Commercial light and small power	33·4	1·1	4·1	1·5
(3) Industrial power	358·5	17·4	49·1	14·8
(b) Public lighting	1·8	0·3	0·5	0·3
(c) Other purposes	4·0	0·9	1·1	2·9
Total	437·6	21·2	59·9	22·1

13.1 The above table shows the extent of high power generation and consumption in Greater Bombay. The per capita generation and consumption are very small in the State, if Greater Bombay is excluded. But, however, they are more or less same as those in the Indian Union. All places having a population of 50,000 and above in the State have electricity facilities. About 40 per cent. of the towns in the State are electrified on 31st March, 1958.

14. Transport and Communications :

14.0 : (a) *Roads.*—The figures of extra-municipal road mileage in the State as on 31st March, 1958 show that there are 17·5 miles of Government and district local boards roads per 100 square miles of area or 64·7 miles of roads per lakhs of population. It is highest in Ratnagiri district in which district, it is 46·7 miles per 100 square miles of the area. The road mileage is comparatively poor in Marathwada and to a certain extent in Vidarbha districts.

14.1 : (b) *Railways.*—The total railway mileage of the State is 2656·12 miles out of which nearly two-thirds or 1558·56 miles are broad guage. This works out to 2·2 miles per 100 square miles of the area. Sholapur district has the highest railway milege of 280·60 while Ratnagiri district has no railway mileage at all.

14.2 : (c) *Motor vehicles.*—There were about 84,000 vehicles in operation in the State during 1958. Out of these, 43,619 are motor cars, i.e. each motor car is owned by at least 700 persons in the State. One tax-cab exists for at least 6,900 persons in the State.

14.3 : (d) *Public Motor Transport*.—The nationalised public motor transport system operates on 1,424 routes covering 47,261 miles or 39.8 route miles per 100 square miles of the area carrying on an average 4.1 lakhs of passengers every day and earning about Rs. 3.1 lakhs per day.

15. Social Services :

15.0 : (a) *Education*.—The number of educational institutions rose from 39,160 in 1953-54 to 45,124 in 1957-58, i.e. by 15.2 per cent and pupils from 34 lakhs in 1953-54 to 44 lakhs in 1957-58, i.e. by 33.3 per cent. The increase is considerable in the sector relating to higher education in which sector the number of institutions increased by 50 per cent. The following tables give the number of institutions and pupils per lakh of population in the State and in bilingual Bombay State :—

TABLE 12-A.

Number of Institutions per lakh of population in 1957-58.

Category.	Maharashtra.						Bilingual Bombay State.
	Greater Bombay.	Bombay division excluding Greater Bombay.	Nagpur division.	Poona division.	Aurangabad division.	State as a whole.	
1	2	3	4	5	6	7	8

TABLE 12-C.

Number of Students per 1,000 of population.

Category.	Maharashtra.		Bilingual Bombay State.
	Greater Bombay.	State as a whole.	
1	2	3	4
Primary education	131.9	107.8	111.1
Secondary education	62.6	18.3	18.1
Higher education	17.2	2.7	2.6
Other education	29.9	8.9	9.6
Total	241.6	137.7	141.4

15.1: Nearly one-fourth of the population in Greater Bombay is attending educational institutions, the number of which per lakh of population is less than that in the entire State. In Vidarbha and Aurangabad divisions also, the number of educational institutions per lakh of population is low. In the State as a whole, about one-eighth of the population is attending educational institutions. Among districts, Ratnagiri has a higher number of educational institutions. The number of teachers per thousand population in the State is 4, while in Greater Bombay, it is 7 per thousand population.

15.2: (b) *Medical*.—Each Government dispensary or hospital in the State serves a population of about 37,000 in the year 1957 (according to the Census 1951) while in bilingual Bombay State, it serves a population of about 28,000. Regionally, the Marathwada districts have poor medical facilities, each Government hospital or dispensary serving a population of 80,000. Each bed serves a population of about 2,700 in the State.

15.3: (c) *Employment Exchanges*.—On an average, about 24,018 persons registered every month for employment with the Employment Exchanges during the period April to December, 1959, and of these 2,343 or nearly one-tenth was placed in jobs every month by the exchanges.

16. Local Bodies :

16.0: The number of village panchayats has risen from 5,771 in 1951-52 to 13,138 on 28th February 1959, i.e. nearly thrice. The percentage of rural population covered in 1958-59 was 78.21. The coverage is much smaller in Marathawada district, the lowest figure of 17.74 per cent being in Nanded district. All the districts in Poona division have been almost fully covered.

17. Community Development :

17.0: The community development programme covered about 22,518 villages with an area of 61,058 square miles and 1.4 crores of population upto 31st March, 1959. In terms of percentages, the percentages of villages, area and population covered are 62.99, 51.35 and 75.6 as against the corresponding figures of 61.98, 50.31 and 75.5 in the bilingual Bombay State.

18. Plan Outlay :

18.0: The Second Plan outlay of the State is Rs. 204.40 crores or Rs. 64 per capita 24.9 per cent of the allocation is on Agriculture and Community Development while 38.6 per cent on development of irrigation and power. Thus, these two sectors thus constitute 63.5 per cent or 129.85 crores. The expenditure on social services is Rs. 47.87 crores or 23.4 per cent of the Plan allocation, while the distribution of the remaining is 4.1 per cent on schemes for development of industry and mining, 6.1 per cent on schemes for development of transport and communication and 2.9 per cent on schemes included in the development head Scientific and Industrial Research.

19. Small Savings :

19.0: The target fixed in 1958-59 for small savings' collections was Rs. 18.60 crores while the net collections amounted to Rs. 14.14 crores or 76.0 per cent of the target. The target for 1959-60 was Rs. 18.45 crores, while the net collection upto the end of November 1959 was Rs. 9.36 crores or 50.7 per cent. In 1958-59, the target was exceeded in the districts of West Khandesh, Ahmednagar, Parbhani, Bhir, Osmanabad, Nanded, Akola, Amravati, Chanda and Bhandara districts.
