P R E F A C E

The 'Handbook of Basic Statistics of Maharashtra State' seeks to present in a concise form the latest available social and economic statistics relating to Maharashtra State. The opening table gives certain important comparative statistics for the State and India. The last series of tables presents data on trends in some selected indicators.

In the present issue, tables giving districtwise data on education, livestock, and public sector employment, consumer price index numbers of agricultural labourers and consumer price index numbers of non-manual employees are introduced.

In attempting to give up-to-date information, provisional data have sometimes been presented. Such data are likely to be revised when the final figures become available.
