NOTIFICATION.

Bombay Castle, 4th August 1831.

GENERAL DEPARTMENT.

The Right Hon'ble the Governor in Council having sanctioned the publication of a weekly paper, to be styled the "BOMBAY GOVERNMENT GAZETTE," notice is hereby given, that after this day all advertisements and other public papers of the Government will be printed in the BOMBAY GOVERNMENT GAZETTE only; and all orders or other public notices appearing in that paper, under the signature of the Secretaries, or other public officers of the Government, are hereby ordered and directed to be conformed to and obeyed accordingly.

Bombay Castle, 18th January 1832.

When official notifications from the Government are inserted in the BOMBAY GOVERNMENT GAZETTE, no communication on the same subject will be made in writing to any department concerned; but all public officers are required to take notice of such official notifications in the same manner as if they had been directly communicated to them by letter from the Secretary's office, and as heads of offices alone will be furnished by Government with the BOMBAY GOVERNMENT GAZETTE, they will be expected to communicate to their subordinate officers all orders which may in any manner concern them.

The Bombay Government Gazettes furnished by Government to public offices are to be lodged with the records, and are not to be removed from the office.

Published by order of the Right Hon'ble the Governor in Council,
JOHN BAX, Secy. to Govt.

NOTICE.

The Government Printing and Lithographing Departments having been transferred to the BOMBAY EDUCATION SOCIETY, all Printing and Lithographing required by any Department should be sent to the Office at Byculla.

BOMBAY HARBOUR.

Notice is hereby given, that a fixed Green Light will be shown on the Dolphin Rock on and after the night of the 1st January 1857.

From high-water mark of spring-tides the height will be 20½ feet to the centre of the Light, and 36½ feet at low-water mark of spring-tides.

It will bear from the Sunken Rock Floating Light N. 4½° E., distant 1'89" miles. Pilots or others, after rounding the Rock Light Vessel at a cable's length, should steer so as to pass the Dolphin Light at the same distance, keeping it on the Port side.

DIRECTIONS

FOR APPROACHING THE SAND HEADS
IN BOTH MONSOONS.

SOUTH-WEST MONSOON.

The South-West Monsoon may be considered to commence on the 15th March, on which date the Pilot Vessels take up their station near the buoy on the Pilot's Ridge as described below. The South-West Monsoon is over by the end of September.

2nd.—False Point Light House is in latitude 20° 19½' north, and longitude 86° 47' east; and a buoy is placed in 21½ fathoms on the Pilot's Ridge, in latitude 20° 49½' north, and longitude 87° 42' east: the buoy therefore bears from False

Point Light House north 59° 49' east, true, and distant 59½ miles.

3rd.—A vessel, therefore, after making the Light House at False Point (in passing which she ought not to go into less than 10 fathoms) should bring it to bear about west-south-west 10 or 15 miles distant, when she will be in 11 or 12 fathoms; then steer east-north-eastward, when the soundings will gradually increase to 23 fathoms on the eastern edge of the Pilot's Ridge: she should then regulate her course so as to keep between the Ridge and 27 fathoms, when, by attention to the lead and nature of the soundings, course and distance run from the Light House, it is almost impossible to avoid making the Pilot Vessels, as their cruising ground is immediately to the north-east of the Light Vessel stationed during the South-West Monsoon in close proximity to the buoy on the Ridge.

4th.—The soundings to seaward of the Pilot's Ridge are, in general, a greenish or olive-coloured mud, with occasionally a few bits of broken shells mixed with it; whilst those on the Ridge are of a shelly sand, or minute gravel, of a reddish or rusty brown colour.

5th.—Vessels approaching the station are earnestly warned to be careful in avoiding collision when communicating with either the Light, or supplying Pilot Vessels; and, on making the former at night, they are strongly recommended to heave to, at a proper distance, till day-light, by which measure they will avoid the probability of passing the supplying Pilot Vessels in the darkness of the night.

6th.—The Eastern Channel Light Vessel is in latitude 21° 4' north, and longitude 88½° 14' east,

and therefore bears from the buoy on the Pilot's Ridge north 63° 26' east, true; and distant 3 1/2 miles. The Eastern Channel Light Vessel, from the 15th March to the 15th September, burns a blue light every half hour and a maroon every quarter hour during the night, commencing at 7 P. M.; and her standing light is a plain light.

7th.—The Pilot's Ridge Light Vessel shows from the 15th March to the 15th September a plain standing light, and burns a blue light every hour, and a maroon at the intermediate half hours.

8th.—It is important to observe the difference as to the blue lights and maroons shown by the Eastern Channel and the Ridge Light respectively, as, if this is attended to, a vessel, out in her reckoning, or uncertain of her position, cannot possibly mistake one for the other.

THE NORTH-EAST MONSOON.

9th.—This monsoon, which constitutes the fine season in the head of the Bay of Bengal, is considered to commence in October and end in the beginning of March. During this season the Pilot Station is about the Outer Floating Light situated in the Eastern Channel as above, and vessels coming in should make directly for that mark. The Pilot Vessels cruise in the day-time spreading east and west of, sometimes a little to the southward of, the Light Vessel; and at night anchor in positions not far from her. At this season she shows a maroon or torch-light every half hour and a blue light every hour.

Master Attendant.

NOTICE TO MARINERS.

KURRACHEE BAR.

Notice is hereby given, that the Bar off Kurrachee Harbour has been entirely re-surveyed since the close of the South-West Monsoon, and that the deepest channel over the East extreme of the Bar has been again buoyed with the same buoys as heretofore used.

These two large buoys in one line show the deep water-track into the inner harbour; but to the left of these buoys (sailing inwards) there is a smaller buoy painted red, and surmounted with a staff and white ball, which indicates a patch having only nine feet on it at low-water spring-tides. Sailing ships should pass to the eastward of it, giving it a berth of from 50 to 100 yards before hauling up for the inner channel buoy.

By order of the Commander in Chief Indian Navy,
E. F. T. FERGUSSON, Lieut. I. N.,
Indian Naval Draftsman.

In all complaints of overcharge, or unnecessary delay in delivering Letters, Papers, or Parcels, the covers or envelopes bearing the Post Office Stamp must be presented for inspection; and when any complaints are preferred against any Peon, the number on his Badge should be specified.

Clause XXIII.—The servants at the several Post Offices are prohibited from giving change to parties sending or receiving Letters in any case.

NOTICE.

The present system of addressing letters in the Native languages being excessively inconvenient, and not affording in most cases the information most desired by the Post Office, viz. particulars regarding the Addressee, which has been ascertained to be a most frequent cause of the non-delivery of Native letters, the Public, and especially the Native portion of it, are recommended to omit from the superscription of their letters all compliments, and to write simply the full name of the person addressed, the name of the town or village, and the street or quarter in which he resides. These should occupy separate lines; but in all cases the name of the Post Town should be written by itself, in large characters, to prevent mis-sending and delay in sorting.

A model of address is given for guidance :—

To

Sheik Hingum,

Sahib Nazir of the Collector's Court,

Moozuffer Khan's Kuttra,

In the quarter Shahazadee Munde,

AHMEDABAD.

If the sender wishes the letter returned in the event of the Addressee not being found, he should write his own name and address on the *back*, not on the front of the letter.

Deputy Post Masters and all Subordinates are instructed to explain, and, as far as lies in their power, to induce the general adoption of the above practice.

Bombay Post Master General's Office, 3rd May 1856.

NOTIFICATION.

No. 1348.

FORT WILLIAM, HOME DEPARTMENT—POST OFFICE,

The 9th September 1856.

In modification of the List published by order of the Government of India, in this Department, dated the 29th September 1854, it is hereby declared that Secretaries to Municipal Boards, Commissions, or Committees, are not authorised to send Letters, Packets, or Parcels by Post, on the Public Service, without payment of Postage.

Bombay Post Master General's Office, 1st October 1856.

NOTICE.

The following Rules, which, under the orders of the Government of India, have been issued for the guidance of the Officers of the Post Office, are published for general information:—

I. Letters arriving at the Presidency towns by Mail Steamers will be immediately sorted for delivery, without any reference to instructions which may have been received regarding change of address. Such changes will be left to be discovered by the Delivery Officers, and be corrected in the Forward and Unclaimed Departments of the Office.

II. A separate instruction will be required for every change of address, and no instruction will be attended to for more than three months after its receipt.

III. Under Section XXIII. of Act XVII. of 1854, Forward Postage will be charged, in addition to all other Postage due or paid thereon, upon every letter without exception which may be re-directed in any Post Office. For example, if a letter posted in Calcutta, and addressed to Hooghly, is, under instructions which may have been received from the addressee, re-directed in the Calcutta Post Office, and sent to Barrackpore, Forward Postage will be charged in addition to the Postage which would have been due had the letter been despatched to Hooghly according to its' original address.

IV. The practice of giving instructions to the Officers of the Post Office to intercept and re-direct letters not only imposes much labour upon them, but, in large Offices, seriously retards the delivery and despatch of the Mails. A Register of instructions regarding changes of address will be kept in every Post Office but it must be understood that it is impossible to guarantee that they shall be attended to, except in the case of letters received for delivery.

Director General of the Post Office in India.
