## Notification.

### PUBLIC WORKS DEPARTMENT.

The following Rules relating to repairs of Public Works in this Presidency, and to Emergent Works, are published for general information :—

#### REPAIRS.

1. Repairs are distinguished as "Current" and "Special."
2. Current Repairs include all the usual periodical Repairs required for the maintenance of Public Works.
3. Special Repairs are such as are rendered necessary in consequence of unforeseen casualties, such as Fires, Floods, Storms, Epidemics, or from the effects of time, beyond what is provided for by Current Repairs.
4. No Repairs of any kind, unless emergent *vide* Rule 16, are to be undertaken, unless provision has been made for them in a sanctioned Budget.
5. Current Repairs are sub-divided into "Ordinary" and "Petty."
6. Petty Repairs consist of white-washing or colouring walls, oil painting, surface repairs of walls, floors, or roofs, adjustment of tiles, repair of ceilings and of fixtures and fastenings, and replacing panes of glass.
7. Petty Repairs of Civil Buildings shall be executed by the occupants, unless they and the Public Works Officers shall agree in any case that such repairs may be more conveniently and advantageously executed by the latter, who may in such case undertake them.
8. Petty Repairs of Military Buildings shall be executed by the Public Works Department; those occupied by Troops, on requisitions made by Barrack Masters; and Departmental Buildings, on requisitions by Heads of Departments.
9. Requisitions, by whomsoever made, shall not be deemed sufficient authority for executing Petty Repairs chargeable to the Public Works Department, with the exception of those specified in Rule 10, unless the Officer of that Department applied to concurs as to their necessity, and has funds at his disposal for defraying their cost. If, from either cause, the requisition cannot be attended to, the Public Works Officer must explain in writing to the applicant for the repairs the cause of the delay, and at the same time report his having done so to the Superintending Engineer.
10. Petty Repairs authorised by Government to be performed periodically, such as white-washing Hospitals, &c., should always be promptly undertaken on receipt of requisitions; Officers of the Public Works Department taking care always to reserve sufficient funds for the purpose.
11. Petty Repairs of fixtures and fastenings and cowl-dunging floors of Military buildings occupied by troops are Military not Public Works charges. They should be undertaken immediately requisitions by Barrack Masters, or at stations where there are no Barrack Masters, by Staff Officers, are received. Bills for the same, vouched by the requisition and completion certificate, when audited by the Auditor of Public Works Accounts, being paid for in cash by Military Paymasters.
12. Current repairs of Public Works other than Petty repairs will be executed by Officers of the Public Works Department, or, in the case of Civil district Buildings, either by the Public Works Department or by Civil Officers as may be determined by those Officers and Superintending Engineers, on estimates framed by the Officers entrusted with the duty of carrying out the repair and sanctioned by the Superintending Engineer.
13. Occupants of Public Buildings are expected to bring the necessity for repairs to notice; but Executive Engineers are required to ensure that each of the Public Works in his District be inspected as opportunity may occur at intervals, never in any case exceeding fourteen months, by a competent person of the Public Works Department, lest any substantial repairs necessary to the security of the Building be overlooked. The date and result of such inspection should be reported to the Executive Engineer, and noted by him briefly in a book kept for that purpose. This book will be subject to the inspection of the Superintending Engineer.
14. Current Repairs of irrigational works, of embankments, and of Government salt works are always to be treated as emergent, and executed as soon as known to be necessary by the Public Works

Department if possible, otherwise by the Revenue Department, under advice from the Public Works Department, if obtainable. This rule is not intended to prevent proper provision being made in current Repair Estimates for current repairs to the works referred to, but to ensure the immediate execution of any repairs that may be necessary whether provided for in a Budget or not.

15. The necessity of repairs to Irrigational works should be reported by the servant in charge, if any, otherwise by the village authorities, to the nearest Public Works Department Officer, and to the Mamlutdar and Sir-Caroon of the district, each of whom will report immediately to his superior, so that the earliest arrangements may be made for the execution of the repairs.

16. An Executive Engineer on receiving a requisition from a Divisional or Station Commanding Officer or Head of a Department, Civil or Military, or other person holding analogous authority, for the immediate execution of any repair on the specific ground of emergency, the nature of which should be explained in the requisition, is authorised to commence the work at once, provided the estimated cost does not exceed Rupees 50, or, if in excess of that sum, provided that he concur in deeming the work so urgent that the delay of a reference to higher authority would be decidedly detrimental to the interests of Government; and provided also that he makes an immediate report of the case, accompanied by a copy of the requisition and a rough estimate of the probable cost, to the Chief Engineer and Secretary to Government.

17. The above rule is to be held applicable likewise to any new work, addition, or alteration, deemed emergent.

18. If the cost of the emergent repair can be met by the "Special Repair" Fund, it may be sanctioned by the Chief Engineer, but if it be necessary to debit the Reserve Fund with the amount, the case must be laid before Government.

19. The administration of the amount sanctioned for Current Repairs is vested in Superintending Engineers, who will first allot to each Officer entrusted with the execution of Petty Repairs in their circles the sum they may deem necessary to cover the necessary expenditure on that account, and then distribute the balance, or such portion thereof as may appear to them to be necessary in sanctions for current repairs on Estimates framed by the Officers to whom the duty of carrying them out may be entrusted.

20. The administration of the amount sanctioned for Special Repairs is vested in the Chief Engineer; it will be available to meet expenditure on sanctioned estimates for work of the description specified in Rule 3, and on Emergent Repairs as provided in Rule 16.

21. All portions of sanctions for Repairs unexpended at the close of any official year lapse.

N.B.—This table is an extract from a more extensive yearly Return that is prepared for statistical purposes, and chiefly for the detection of any removable sources of disease, with a view to improving the healthiness of the Island. As the principal object cannot be fully attained unless the true causes of death be recorded, persons of all stations are requested, in each case of death occurring in their circle, to obtain, in writing, from the Medical Attendants the name of the fatal disease, that it may be delivered to the Policeman at the funeral place. Medical Practitioners particularly, are requested to aid the registration. Blank forms of Death Reports, to keep by them in readiness, are given gratuitously on application at the Office of the Deputy Commissioner of Police.

It is thought that some withhold their assistance through the notion that reports of the single casualties coming now and then under their observation could but little affect the Returns; but it ought rather to be borne in mind, that the accuracy of the Returns depends on the correct reporting of all single cases, for of such only the aggregate is made up.

No. 818.

The following Notice, dated 27th February 1862, by the Accountant General to the Government of India, is republished for the information and guidance of Officers in charge of Civil Treasuries under the Presidency of Bombay :—

"All Officers in charge of Treasuries are requested to take notice that exemptions from Income Tax under Section CXXXIII. of Act XXXII. of 1860, allowed by the Local Government, require the approval of the Supreme Government, and in exhibiting such exemptions in the Interest Registers furnished to this Office, the orders of the Financial Department only should be specified in the column of remarks."

## NOTIFICATION BY THE CIVIL PAYMASTER.

No. 33.

With reference to Notification from this Department No. 29, dated 12th February 1862, and in accordance with paragraph 1 of printed Circular No. 1309, dated 12th September 1860, the following Notification of the Government of India, just issued, is republished for general information, and all Staff Officers in Civil employ are requested to abstain from forwarding to this office Abstracts for Military net pay already passed to them in the Military Department since 1st May 1861, as nothing more than an adjustment of the amounts paid them is necessary between the Civil and Military Departments in their respective Books. It is to be understood, however, that all Staff Corps pay which has not as yet been disbursed in the Military Department to Staff Corps Officers in Civil employ must be audited by this Office, and therefore this pay should be drawn in a lump sum with the other allowances of such officers in the regular abstracts of their establishments.

Thus, if a Staff Corps Officer in Civil employ has been paid his Staff Corps pay in the Military Department up to the end of February 1862, it will not be necessary to repay to that Department the amount disbursed to him from the date on which he entered the Staff Corps, and afterwards to submit abstracts for the said pay to this Office, but from March he will have to draw his whole allowances from the Civil Department.
