INTRODUCTION

The SIS Library is one of the prime libraries in the country specialising in the field of economics and as such has a rich collection in certain sections such as periodical holdings, serials and reports of the Committees and Commissions, both Government and Ad hoc. The reports of the Committees and Commissions certainly constitute a special feature of the Library and are of great use to the researchers. To help the researcher to locate the reports, a list of the Library's holdings in this particular area was prepared in 1967 as a key to these resources for the benefit of the users, subsequently followed by a supplement in 1977. This List included all the reports from various countries available in the Library. It is now almost 15 years that this List has not been updated. There is a constant demand for Government and other ad hoc reports, and hence, we have undertaken this longstanding work, keeping in view the readers and their requirements. The demand is almost invariably for reports on India. Almost 95% of the reports added to the Library are government of India reports.

To make the List of Reports of Committees and Commissions a useful ready reference tool, a few features are added to this edition of the List without disturbing the overall general pattern. Over the years, the reader's requirements were studied and it was noticed that a majority of the queries pertain to the Government of India reports or reports in India.

Hence, in this edition, we have included only reports pertaining to India prepared by Committees and Commissions appointed by the East India Company, Govt. of India, study groups, working groups, missions, delegations etc. of the Central and State governments. The various missions and working groups are listed separately. However, as this List deals with ad hoc reports, the reports of permanent or standing committees are not included. Also, the previous list did not give the classification number given to each report by the Library. We have given this information below each entry so that the reader will be able to go straight to the shelves to locate the required report. Sometimes, specially in case of old reports, the report is bound with some other publications and forms a part of a composite book. In such cases, we have also given the classification number of the book with which the report is bound, in addition to the classification number of the particular report.

The overall arrangement of entries is according to the Colon Classification Scheme so that all reports on the same subject will be found together. A Subject-Chairman index is provided at the end for easy reference.

A specimen entry is given below :

India. Planning Commission.
Committee on Plan Projects.
Buildings Projects Team.
Panel for National Water
Supply and Sanitation Schemes,
1961 :
Report
(N. V. Modak)

D8.2.N6t K1 77230

In some places, especially in Education (T) and Law (Z) we have brought the reports with slightly varying classification numbers. on the same subject under one heading for the convenience of the readers. In such cases, the entries will not follow a strict classification order.

We would like to acknowledge the contribution of all the Library Staff in the checking of the reports and verification of their classification numbers.
