APPENDIX B—continued

Table II.

Column 2 states the areas of State and district forests and of plantations.

Mysore
(Page 15)

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.

Statistics of *Jagir* and unsurveyed villages are not included.

Bikaner
(Page 17)

Column 2 includes hills only.

Bharatpur
(Page 17)

Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*).

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

Table III.

Statistics of *Jagir* and unsurveyed villages are not included.

Bikaner
(Pages 26—27)

Column 2 includes area irrigated from the Barota Bund constructed by the State Public Works Department.

Bharatpur
(Page 26)

Table IV.

The areas under mixed crops are distinguished and entered under the respective crops of which they are composed.

Gwalior
(Pages 26—27)

Statistics of *Jagir* villages are not included.

Bikaner
(Pages 28—29)

Table V.

Until 1898-99 statistics were collected every year by the *shanbog* and *patel* of each village by enquiry or inspection. Since that year a census has been taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in 1925. Live-stock in municipalities are included.

Mysore

APPENDIX B—concluded

Table VI.

Mysore
(Pages 70, 74)

Column 3 (b) states the area actually sown (column 6 of Table II).

Column 4 states the total realisable land revenue, including miscellaneous land revenue.

Column 7 states the total raiyatwari demand, plus the quit-rent due on minor inams in Government villages.

Column 10 includes population of area not fully assessed which cannot be separated from that of fully assessed area.

Marwar

Column 3 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table IV.

Columns 4 and 5 relate only to khalsa area, as statistics for these columns are not available for the whole area of the State.

Bharatpur
(Pages 78, 76)

The State area leased to cultivators for a fixed term is returned as *raiayatwari*. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as *zamindari-temporarily settled*; and the rest of the area (*i.e.*, the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area) is entered as *zamindari-permanently settled*.

Column 2 includes muafi, chauth, and istamrar areas.

Column 5.—The population stated is that of the last census.

Column 10 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

Tonk
(Page 72)

Column 1 states the net area by survey (column 4 of Table I).

Kotah
(Page 72)

Column 1 states the area by village papers (column 5 of Table I).

Column 5 includes population of the muafi and jagir villages excluded from column 2.
