No statistics are at present prepared by village or circle officers, except in the Sambalpur district. The figures for all other districts entered in this table are therefore merely estimates, except those for Patna, Shahabad, Saran, Champden, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Puri, Cuttack (exclusive of small permanently-settled areas), Balasore, Angul, the Southal Parganas, Hazaribagh, Ranchi, and Singhbhum in which the estimates are based on the figures collected during the cadastral survey.

In Cachar accurate statistics of the area under crops other than tea are available only for the cadastrally surveyed tracts, in Sylhet only for the Jaintia Parganas and Partabgarh, and in Goalpara only for the temporarily settled tracts. The figures for the permanently settled tracts in Sylhet and Goalpara and for the unsurveyed areas in Cachar are based on estimates. The figures for the five upper districts of the Assam valley represent the whole cropped area in these districts, with the exception of a small area cultivated by tribes paying house or polltax in Lakhimpur, Sibesar, and Kamrup. In the Garo Hills district the areas under different crops are available for the plains tracts only. The figures for the Khasi and Jaintia Hills and the Lushai Hills are rough estimates. Detailed statistics of the areas under different crops are not available for the ...

(a) For the general decrease in the figures for this year see footnote to table IV, No. 70

(b) In Coorg the table is prepared quinquennially on a census taken every five years. The last census was taken in March 1910 by the drake spanners, and the particulars entered in a register maintained under Rule 72 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in municipal towns are included

(c) An annual census is taken on the 15th March in Munpur.

(d) The figures in columns 7 to 12 include Bengal (see table IV, No. 56)

Table IV—continued

No. 58—LIVE-STOCK, PLOUGHS, AND CARTS IN EACH DISTRICT IN BENGAL

Figures for 1912-13 are based on a cattle census taken in that year. The census did not take into account the animals named in columns 7 to 11 nor ploughs and carts (columns 12 and 13). The figures for the years 1908-09 to 1910-11 for the districts of the Presidency and Burdwan Divisions and for Darjeeling are based on estimates. The figures for 1906-09 for Backerganj, for 1907-10 for Faridpur and for Chittagong for 1889-96 are based on information collected during survey operations conducted in those districts in the years mentioned.

Table IV—continued

No. 58—LIVE-STOCK, PLOUGHS, AND CARTS IN EACH DISTRICT IN BENGAL—continued

Note.—A census is taken every five years in Government (raiyatwari) villages. The last quinquennial census was taken in 1909-10. Inasmuch as there is no suitable agency for the work, and Collectors obtain information for these villages as best they can; it is not known to what extent any census is made in them. Previous to 1904-10, no information was available regarding live-stock in permanently settled (r zamindari) estates and in towns and cantonments which did not form part of any revenue village; but from that year estimates were prepared and included.

Table IV—continued

Note.—The figures are collected once in five years. The last quinquennial census was taken in 1909-10. All animals belonging to a family are entered against the name of the head of the family even though the animals are temporarily absent from the village. Animals belonging to other villages are excluded, and those belonging to a roving grazer who has no permanent residence are noted, but are not included in the village returns. The figures are regularly tested by circle inspectors (kanungoes). Stock statistics for the city of Bombay were collected for the first time in 1909-10.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The last census was taken in 1908-09 in all the districts, except Almorah and Garhwal, under the supervision of the supervisor kangroos and such members of the district and tahsil staff as could be spared. For Almorah and Garhwal the figures collected in the previous census of 1903-04 were retained.

Table IV--continued

No. 65—LIVE-STOCK, PLOUGHS, AND CARTS IN EACH DISTRICT IN THE PUNJAB—continued

| DISTRICT AND YEAR OF ENUMERATION | Bulls and bullocks | Cows      | BUFFALOES |           | Young stock (calves and buffalo calves) | Sheep     | Goats     | Horses and ponies | Mules and donkeys |         | Camels  | Ploughs   | Carts  |
|----------------------------------|--------------------|-----------|-----------|-----------|-----------------------------------------|-----------|-----------|-------------------|-------------------|---------|---------|-----------|--------|

A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Note.—The statistics are based on a cattle census taken every five years. The census is, however, not taken simultaneously in the different districts. In the Assam Valley districts (excluding the permanently-settled tracts of Goalpara) and in Sylhet (Jaintia parganas only) the census was taken in 1910. In Cochiar it was taken in 1912, and in the Garo Hills (plains portion only) in 1909. No statistics are available for the permanently-settled tracts in Goalpara, for tracts other than Jaintia parganas in Sylhet, and for the hill tracts (a) For Jaintia Parganas only. The figures for 1904-05 include estimates for other tracts also, but such estimates are not available for 1909-10

(b) No information

Table IV—concluded

## No. 71—LIVE-STOCK, PLOUGHS, AND CARTS IN EACH DISTRICT IN THE NORTH-WEST FRONTIER PROVINCE

| DISTRICT AND YEAR OF ENUMERATION | Bulls and bullocks | Cows    | BUFFALOES |         | Young stock (calves and buffalo calves) | Sheep   | Goats   | Horses and ponies | Mules and donkeys |         | Camels | Ploughs | Carts |
|----------------------------------|--------------------|---------|-----------|---------|-----------------------------------------|---------|---------|-------------------|-------------------|---------|--------|---------|-------|

Note.—The varieties of tenure is included, as far as possible, under one or other of the following heads, namely, (1) raiyatwari (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province except in C. P. & Berar.

Entry 2 (a)—Areas held revenue-free or at privileged rates is deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purpose of this head as "area not fully assessed." Areas should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3.—This head is subdivided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net cropped area as shown in column 6 of table II.

Entry 4.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, not those due by raiyats to the zamindars. The actual realisable demand for the year is entered after excluding arrears for past years. Sums remitted on account of unoccupied lands, short crops, etc., is excluded. This column includes all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 5.—The population is that of the last General Census.

(4) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year

The table is prepared quinquennially, and the figures were last collected in 1912-13

Column 1.—The following classification of estates has been adopted:—

- (1) Zamindari (permanently settled) including estates managed for proprietors by Government
- (2) Zamindari (temporarily settled) comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor

Column 4 (b) includes in certain cases fully assessed current fallows

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

| Land revenue assessed on fully assessed area (col. 4(a)). | INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4) |                         | Population of fully assessed area | Land revenue assessment per head of population of fully assessed area (columns 8 and 11). | TOWNS OF OVER 10,000 INHABITANTS |                      | DISTRICT AND NATURE OF TENURE                                                                                              |

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pvt inams and the like scattered areas which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, plus the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

Table V—continued

No. 77—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN SIND IN 1911-12

| DISTRICT AND NATURE OF TENURE             | Total area (in acres) by survey, less feudatories [col. 3 of table No. 1, minus col. 3 of same table] | DEDUCT                             |                                                                                 | BALANCE, THAT IS, FULLY ASSESSED AREA (IN ACRES) FOR WHICH FIGURES ARE AVAILABLE |                  | Total revenue from land (excluding cesses) of district (col. 2) | Population of district (col. 3) |

No figures have been entered in columns 9 to 12 opposite "Lucknow, permanently settled," as no portion of the permanently settled area has been fully assessed to land revenue.

Columns 13 and 14.—The figures are taken from the census reports of 1911.

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12.

Table V—continued

No. 50—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN OUDH IN 1911-12

The table is prepared quinquennially, and the figures were last collected in 1910-11. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas  
Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamarai areas as "Zamindari (permanently settled)"  
Column 2 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows  
Column 3 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

| Total revenue from land per head of population (cols. 5 and 6) | Land revenue assessed on fully assessed area [col. 4 (a)] | INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4) |                     | Population of fully assessed area | Land revenue assessed per head of population of fully assessed area (cols. 8 and 11) | TOWNS OF OVER 10,000 INHABITANTS |                      | DISTRICT AND NATURE OF TENURE                  |

The table is prepared quinquennially, and the figures were last collected in 1911-12

Column 1.—The following classification of estates has been adopted:—

(1) Zamindari (permanently settled) including estates managed for proprietors by Government

(2) Zamindari (temporarily settled) comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, as estates leased to farmers for periods; and (b) all estates owned by Government as proprietor

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

| Land revenue assessed on fully assessed area (col. 4 (a)) | INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4) |                              | Population of fully assessed area | Land revenue assessment per head of population of fully assessed area (columns 8 and 11) | TOWNS OF OVER 10,000 INHABITANTS |                      | DISTRICT AND NATURE OF TOWNS                                                                              |

For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible  
 Column 1.—No areas are classed as zamindari, as no system of communal assessment prevails  
 Column 3 (a) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation.  
 Column 3 (b) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thatamede* rates have not yet been adjusted  
 Column 4 (a) shows figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity  
 Column 5 states ordinary land revenue, *thatamede*, water rate, rents of fisheries, and items under "Miscellaneous Land Revenue," in the Civil Accounts

| Total revenue from land per head of population (cols. 5 and 6) | Land revenue assessed on fully assessed area (col. 4(a)) | INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4) |                     | Population of fully assessed area | Land revenue assessment per head of population of fully assessed area (cols. 8 and 11) | TOWNS OF OVER 10,000 INHABITANTS |                      | DISTRICT AND NATURE OF TENURE |                        |

For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible  
 Column 1.—No areas are now classed as zamindari, as no system of communal assessment prevails  
 Column 3 (a) includes special grants which are not yet fully assessed  
 Column 3 (b) includes old grants exempt from the payment of revenue under special terms  
 Column 4 (a) states the areas of occupied lands, cultivated or left fallow; it also includes the areas of waste land grants of which the rates have been fixed in perpetuity  
 Column 4 (b) excludes current fallows  
 Column 5 shows ordinary land revenue, rents of fisheries, and the items under "Miscellaneous Land Revenue," appearing in the Civil Accounts

| Total revenue from land per head of population (cols. 5 and 6) | Land revenue assessed on fully assessed area (col. 4(a)) | INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4) |                     | Population of fully assessed area | Land revenue assessment per head of population of fully assessed area (cols. 8 and 11) | TOWNS OF OVER 10,000 INHABITANTS |                      | DISTRICT AND NATURE OF TOWNS |                 |

Column 1—Zamindari (temporarily settled) includes malgunari and thekadari

Column 2 states the area by village papers (column 6 of table I, No. 20)

Column 3(a)—Zamindari estates properly so-called (that is, excluding malgunari) are classed as not fully assessed

Column 4(b) excludes fallows

Column 5—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province

Column 3(a)—This column shows jagir, iskra, and palampat villages, all unassessed land, forest areas, village sites, roads, rivers, etc.  
Column 4(a)—Pat khadd lands are excluded from this column, which includes only occupied lands available for cultivation  
Column 4(b) states the cultivated area in khales villages only

Column 5—The figures include the revenue derived from jagir, palampat, and iskra villages. As regards the items of land revenue included, the practice has not been uniform, different districts having entered different items

| Total revenue from land per head of population (cols. 5 and 6) | Land revenue assessed on fully assessed area (col. 4(a)) | INCIDENCE PER ACRE OF LAND REVENUE (COL. 9) ON FULLY ASSESSED AREA (COL. 4) |                     | Population of fully assessed area | Land revenue assessment per head of population of fully assessed area (cols. 8 and 11) | TOWNS OF OVER 10,000 INHABITANTS |                      | DISTRICT AND NATURE OF TOWNS |          |

Column 8 shows assessment on occupied lands only, as stated in column 4(a)

Column 10—The incidence has been calculated on the area entered in column 4(b), that is, the cultivated area in khairi villages only

Column 11 excludes population of jagir and ulani villages

Table V—concluded

No. 88.—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN ASSAM IN 1912-13

| DISTRICT AND NATURE OF TENURE | Total area (in acres) by survey, less feudatories (col. 2 of table No. 1, minus col. 3 of same table) | DEDUCT                             |                                                                                 | BALANCE, THAT IS, FULLY ASSESSED AREA (IN ACRES) FOR WHICH FIGURES ARE AVAILABLE |            | Total revenue from land (excluding cesses) of district (col. 2) | Population of district (col. 3) | Total revenue from land per head of population (cols. 5 and 6) |                      |

Column 1—Raiyatwari includes, besides raiyatwari tenures, all unsettled Government waste and forest lands and areas in which no tax or poll-tax is levied; it also includes certain temporarily settled estates in Sylhet which were formerly (before 1902-03) included under Zamindari (temporarily settled). Zamindari (temporarily settled) includes, besides temporarily settled Zamindari estates, fee-simple grants, wholly or part revenue-free tenures, and grants under progressive assessment

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Notes—It is optional with local Governments to enter or omit transfers of lands held by tenants. The entries under "by order of court" state not merely the transfers occasioned by debt, but all forms of transfer effected through the medium of a court. The word "court" in the entry "by order of court" should be held to include a revenue court. Changes of entry due to succession, partitions, or simple mortgages, are not really transfers, and are excluded from the table, as are redemptions of mortgage. All temporary transfers such as leases are also excluded, but mortgage with possession is treated as a transfer as entered in the table.

(a) Transfers of property in land are not permitted in Manipur, except by sale and that only under special conditions.  
(b) Table discontinued.

(a) No transfers

(b) The statement includes all legal transfers of property (1) by voluntary action of the owners and (2) by virtue of decrees of civil orders of revenue courts. Transfers ordered by courts in cases of disputed succession, and those occasioned by debt incurred by the judgment debtors, are included under the heading "by order of court." This heading also includes transfers ordered by civil courts from registered holders to decree-holders, of lands sold by civil courts in satisfaction of decrees and of holdings sold by the revenue authorities for arrears of revenue

*Notes*—Only permanent transfers, as by sale or gift, are included, when the parties concerned apply for and obtain transfers of revenue registry. Those are entered under "private contract or gift." Cases in which lands are sold for arrears of revenue due to Government are also included if the lands are purchased by private parties, but excluded if the lands are purchased by Government. Transfers of tenant-right are not entered, the information not being available. The entry under the head "revenue-paying" includes raiyatwari holdings paying full assessments and permanently-settled estates paying *pradhak*; and the entry under the head "wholly or partially revenue-free" relates to minor inams and white inam villages.

(a) Constituted in 1910-11 out of Cuddapah and North Arcot

Note.—Transfers by inheritance or non-permanent transfers, such as leases or usufructuary mortgages for short periods, are excluded but mortgages with possession are included, as also all transfers made under order of a court.  
Transfers of *malikana* rights, that is, rights to receive a portion of the profits of an estate, not amounting to proprietary rights, have been excluded.  
Statistics of transfers of tenant-right are not given. Transfers by gift have been included.

Note.—Transfers of property in land are not as yet regularly registered in Upper Burma; the information is collected by revenue officers. The statement includes cases in which land has been permanently transferred by gift, sale, or other transaction, for valuable consideration. The term "court" includes a revenue office as well as a civil court.

Note.—The figures against "proprietors" are filled up from returns compiled on the basis of mutation proceedings. Those against "tenants" are based on statements furnished by patwaris in which all transfers are entered, including transfers by mortgage with possession as well as transfers by sale but excluding transfers by inheritance. The statement does not include leases or mortgages without possession.

Note.—The information is obtained from the Registration Department. The table includes all transfers effected by sale of fields under decree of a court (including a revenue court) either in execution of the decree or for recovery of arrears of land revenue. Private sales or reconversions of fields necessitating a change in the name of the registered occupant are entered under "by private contract or gift," as also are mortgages with possession. Transfers due to succession, by inheritance, simple mortgages, and leases are omitted.

**APPENDICES.**

## APPENDIX A

*Average yield in pounds per acre of the principal cultivated crops, revised with reference to the results of experiments made up to the year 1911-12.*

A provisional return of the yield of the principal crops cultivated in India was first compiled in 1892, from various statistical publications, such as, agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc., and to provide for the periodical revision of the estimates a system of experimental crop cuttings was prescribed by the Government of India, the results of which were to be reported in quinquennial returns.

The instructions for the preparation of these returns are that the estimate given should be that of the average outturn on average soil in a year of average character as deduced from a consideration of the information obtained or experiments made during the years under review; so that when multiplied by the average area cropped, it may give as near an approximation as possible to the outturn of the crop in an average year. The Agricultural Department of each Province has at its disposal a provisional estimate of the average yield of land of average quality (under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments annually made is to test the accuracy of these estimates, and to enable the head of the Agricultural Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions which have affected the experiments reported, this would not necessarily involve the reduction of the standard estimates for the district or for the province, unless there were other reasons for thinking that, as estimates of yield in average years, they had been pitched too high.

As a result of the experiments made during the preceding quinquennium (1901-02 to 1906-07), considerable modification of the standard averages for several of the crops was made in all provinces except Bombay and Bengal. Some three or four provinces have made a few revisions of this character on the results of the experiments conducted in the quinquennium 1907-08 to 1911-12; but, on the whole, the distrust in the results of the experiments as conducted by the district staff, to which expression was given by Bombay and Bengal on the last occasion, is growing. In the Bombay Presidency a system of more scientifically conducted experiments by officers of the Agricultural Department has been substituted for the system of experiments conducted by the district staff. In the Punjab and Sind the estimates framed by settlement officers at the time of revenue settlement have been preferred where these are available, while in certain other provinces the figures of the settlement officers have been freely referred to in checking the averages. In Bengal and Bihar and Orissa, though no change has been made in the system, the results of experiments made during the last twenty years have not been considered sufficiently reliable to justify any material change in the provisional estimates framed in 1892. In Burma the system has been condemned; but the provincial authorities do not consider any change feasible for the present. [Instructions have since been issued by the Government of India for improving these returns and employing the agency of the Agricultural Department for the investigation of average crop outturns as far as possible, in all provinces.]

The leading features in the different provinces are stated in the following paragraphs:—

*Bengal.*—Owing to the administrative changes of 1912, by which Bihar and Orissa have been formed into a separate province, certain crops which are important in that area but hardly grown at all in Bengal as now constituted, have been omitted from the present report. The results of the experiments made in the quinquennium under review do not warrant any general conclusions as to the average yields of the various crops, nor do they, except in the cases of rice, sugarcane, and jute, afford grounds for modifying the provisional estimates hitherto adopted by the Agricultural Department (which are practically a reproduction of the estimates of 1892). The average yield of winter rice has been reduced from 1,234 lbs. to 983 lbs.; on the other hand, the yield of sugarcane has been raised from 2,460 to 2,905 lbs. and that of jute from 1,200 lbs. (3 bales) to 1,271 lbs. (3·1 bales). In the consolidated tables for British India, the provisional estimates therefore continue to appear with these modifications in the statement of provincial averages, but in the detailed table the average outturn based upon the experiments of the quinquennial period under review are shown for each district.

*Madras.*—The experiments accepted as unobjectionable during the quinquennium were 3,385 in number as against 3,348 in the previous quinquennium. The average assessment of the plots of land selected for experiment is in excess of the average assessment of the province; in many cases, therefore, the land selected is apparently superior to average class of land. The yield of the majority of crops has been raised, especially in the case of cotton and irrigated jawar: the yield of irrigated cotton has been raised from 66 to 87 lbs. of unirrigated cotton from 44 to 55 lbs., and of irrigated jawar from 1,118 to 1,379 lbs. The only decreases relate to sesamum and unirrigated rice. The reported yield of paddy (unhusked rice) has been reduced by 38 per cent to obtain the yield of rice (husked).

**Bombay.**—The estimates of 1897 were prepared with great care and the results of the experiments made in the two quinquennia ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. With the sanction of the Government of India, the system of crop cutting experiments conducted by the district staff was abolished in the quinquennium under review, and a system of more scientifically conducted experiments on Government farms by the officers of the Agricultural Department was substituted. But the results as yet obtained from the experiments on Government farms are too meagre to justify a general revision of the estimates. A few changes considered to be necessary by the Provincial Director have, however, been made with great caution in the figures for certain districts.

**Sind.**—In many cases figures taken from the previous report have been repeated, while in several instances figures have been taken from the settlement reports. Of the experiments selected as giving results typical of an average crop during the present quinquennium three were on wheat, one on jawar, two on bajra, one on gram, and one on cotton. As a result, the provincial average has been raised in the case of wheat, jawar, bajra, gram, rapeseed and cotton, while it has been reduced in the case of sesamum; the most important changes being the increase of the average yield of cotton from 308 to 380 lbs. and that of bajra from 776 to 971 lbs.

**United Provinces.**—The experiments made during the quinquennium under review have not necessitated any change in the provincial averages except for rice and maize. The yield of rice has been raised from 850 to 900 lbs. and that of maize from 1,050 to 1,100 lbs.

**Bihar and Orissa.**—The present return relates to the province of Bihar and Orissa as constituted in 1912. Owing to carelessness in the selection of representative fields and to various other defects in the conduct of the experiments made in the quinquennium under review, the results arrived at do not afford any reliable information or justify any modification of the provisional estimates previously adopted by the Agricultural Department of the old province of Bengal on the basis of the estimates of 1892. In the consolidated tables for British India, these unrevised provisional estimates have therefore been retained in the statement of provincial averages, but in the detailed statement of district figures the average outturn based upon the experiments conducted during the quinquennium under review have been shown for each district, irrigated and unirrigated crops being classified separately.

**Punjab.**—The revisions of 1902 and 1907 were made on the basis of very unscientifically selected and inadequately supervised experiments carried out by the district staff without reference to the very careful estimates framed by the settlement officers at the time of revenue settlement. The present revision has been made in consultation with settlement officers in the case of districts of which the settlement is in the early stages, while in other cases the average yield has been worked out mainly from the areas and yields given in the assessment reports, and where the results differed materially from the yields fixed in 1907 without any change in agricultural conditions having taken place, the settlement officers' estimates have been preferred. There is no doubt that the yields now fixed, based as they are on the over-cautious estimates of Settlement Officers, are too low, but they are at any rate placed on a uniform basis. The result of the revision is a reduction of the yields of all the crops except rapeseed, and sugarcane the averages for which have been raised. The most important changes are the reduction of the yield of bajra from 462 to 379 lbs. and of that of gram from 701 to 549 lbs., and the increase of the yield of rapeseed from 254 to 396 lbs.

**Burma.**—The number of experiments made in the quinquennium ending 1911-12 was on the whole larger than in the previous quinquennium, and, as in the past, the majority of the experiments were conducted by sub-divisional and township officers. The Provincial Director of Agriculture remarks that this arrangement is far from satisfactory, that the improvement of the system was considered, but that no change appears to be feasible for the present. In order to show the main product only, the following deductions have been made from the gross outturn of the crops, namely, for rice and jawar 33 per cent, and for cotton 70 per cent. The estimates of average outturn of rice, wheat, jawar, and gram have been lowered, while those of cotton and sesamum have been raised. The figures for the pea crop now discriminate between *Pegyi* (*Dolichos lablab*) and *Pegya* (*Phaseolus lunatus*) which are the most important varieties exported.

**Central Provinces and Berar.**—Experiments have been selected with greater care in the present quinquennium than in the past, and due attention has been given to seasonal peculiarities and to classes of soil. The average yield has been raised in the case of rice, jawar, gram, linseed and sugarcane, and lowered in the case of sesamum and cotton. In order to show the yield of the main product a deduction of 38 per cent has been made in the case of rice and of 70 per cent in the case of cotton.

**Assam.**—In the previous quinquennium figures for Assam were not shown separately, but they were combined with those for the districts of Eastern Bengal to give the average for the province of Eastern Bengal and Assam. The present return has been prepared for the province of Assam since its re-constitution on 1st April 1912. Detailed figures for each district are not available except for winter rice, rape and mustard, sugarcane, and cotton; these show a general increase over the previous estimates. In the case of cotton a deduction varying between 50 and 60 per cent has been made to obtain the yield of cleaned cotton. In almost all districts the number of experiments conducted during the period under review fell short of that made in any of the previous periods. The results, however, are stated to have been generally

reliable and to have tallied for the most part with the estimates made by settlement officers in some of the districts where important settlement operations were in progress.

*North-West Frontier Province.*—In the five years under review experiments were made by the district staff in only two districts and the figures for those districts have been checked and modified where necessary on the basis of those experiments. For the other districts the averages previously adopted on the basis of estimates framed by settlement officers have been repeated. The Provincial averages have been raised slightly for all the crops except maize for which the figure has been reduced from 1,342 to 1,292 lbs.

*Ajmer-Merwara.*—The figures reported appear to be merely averages of the results of the experiments conducted during the five years of the period without any consideration as to whether any of those years was of an average character or not. The yield of barley, maize, and cotton has been raised and that of jawar lowered, the most important change being the reduction of the yield of jawar from 424 lbs. to 137 lbs. A reduction of 70 per cent has been made, as before, to obtain the yield of cleaned cotton.

*Coorg.*—The only experiments made have as usual been on rice. The average yield has been lowered from 1,507 to 1,483 lbs., which is still very high in comparison with the reported yield of other provinces, but is ascribed partly to increased attention being paid to rice cultivation since the decline of the coffee industry and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. [From experiments since made the average outturn comes to 1,316 lbs.]

*Mysore.*—The rainfall in the quinquennium under review is stated to have been generally erratic. The average yield of rice has been reduced from 879 to 841 lbs., of sesamum from 215 to 199 lbs., of sugarcane from 3,279 to 3,138 lbs. and of cotton from 89 to 70 lbs., while that of ragi has been raised from 562 to 581 lbs. and of horse gram from 229 to 257 lbs.

APPENDIX A—continued

No. 1.—AVERAGE OUTTURNS (LB PER ACRE) OF PRINCIPAL CROPS IN EACH PROVINCE OF BRITISH INDIA AND IN MYSORE, REVISED WITH REFERENCE TO CROP EXPERIMENTS MADE UP TO THE YEAR 1911-12

| PROVINCE                    | Rice (husked)                                      | Wheat                  | Barley                | Jawar             | Bajra             | Ragi              | Maize                 | Pean                   |

NOTE.—The average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped, adding the yield of unirrigated land multiplied by the unirrigated area cropped, and dividing the sum of these products by the total area cropped.  
\* The estimates for Bihar and Orissa are the standards, adopted provisionally by the Agricultural Department of the province, which are partly based on the information collected in 1892. The results of the experiments for the period ending 1911-12, as recorded in Appendix A—No. 6 are not considered sufficiently reliable to justify a revision of the provisional estimates.

(a) Not given effect to in the year 1911-12

## APPENDIX C

## Vernacular terms used in the Volume

- Ajmod* (*Carum Roxburghianum*).—A kind of spice.
- Ajwan* (*Carum copticum*).—A kind of spice, "Bishop's weed."
- Arhar* (*Cajanus indicus*).—The pigeon pea.
- Bajra* (*Pennisetum typhoidesum*).—The spiked millet.
- Band* (Coorg).—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.
- Barbati* (*Vigna catjang*).—Asparagus, a food grain.
- Bel* (*Ægle marmelos*).—A fruit.
- Bhagdari*.—See *Narvadari*.
- Bilimbi* (*Averrhoa bilimbi*).—A fruit.
- Bimb* (*Cephalandra indica*).—A fruit.
- Chaplask* (*Artocarpus chaplaska*).—A tree grown mainly for timber.
- Cheena* (*Panicum miliaceum*).—The common millet.
- Cheik* (*Coix lachryma*).—A food grain.
- Cholam* (see jawar).
- Chowli* (see Barbati).
- Cumbu* (see Bajra).
- Dani* (*Nipa fruticans*).—A socaliferous palm, the leaves of which are used for thatching purposes, also for matting.
- Dhaincha* (*Sesbania aculeata*).—A plant cultivated mainly for green manure.
- Dhatara* (*Datura alba*).—A drug.
- Garmal* (*Colens barbatus*).—A fruit.
- Gondli* (see kutki).
- Gorait* (United Provinces).—Village watchman.
- Henna* (*Lawsonia alba*).—A dye.
- Indam* (Madras).—*Whole indam* villages are *entire* villages held on such tenure; *maner indams* are portions of villages, generally a number of fields, held on *indam* tenure.
- Iefagul* (*Plantago ovata*).—A drug.
- Isamrari* (Punjab, Ajmer-Merwara).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
- Izafat* (Bombay).—A form of service tenure.
- Isdra* (Berar).—Land leased under the waste-land rules on stipulated terms.
- Jagir* (Berar).—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.
- (Ajmer-Merwara).—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Bombay).—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.
- (Coorg).—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.
- Jamma* (Coorg).—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government, if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.
- Jawar* (*Sorghum vulgare*).—The great millet.
- Jinjili* (*Sesamum indicum*).—An oilseed.
- Jodi* (Madras).—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, minus the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.
- Kangni* (*Panicum Italicum*).—Italian millet.
- Kamranga* (*Averrhoa carambola*).—A fruit.
- Karola* (*Momordica charantia*).—A vegetable crop.
- Kodo* (*Paspalum Scrobiculatum*).—A kind of millet.

## APPENDIX C—continued

## Vernacular terms used in the Volume—continued

- Khdlsa* (Bombay).—Government occupancy or raiyatwari tenure.
- (Central Provinces).—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.
- (Berar, Ajmer-Merwara).—Land paying full revenue to Government.
- Khatadar* (Berar).—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.
- Khiroj* (Assam).—Land assessed to full revenue.
- Khoti* (Bombay).—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.
- Kirni* (*Mimusops hexandra*).—A large tree cultivated chiefly in North-West India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.
- Kulthi* (*Dolichos biflorus*).—Horse gram.
- Kutki* (see Kodo).
- Kwin* (Burma).—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.
- Lakhiraj* (Assam).—Revenue-free land.
- Lobia* (see barbati).
- Madder* (*Rubia tinctorum*).—A dye.
- Mahalkari* (Bombay).—A revenue and police officer in charge of a sub-division of a taluk.
- Malguzari* (Central Provinces).—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.
- Mamiatdar* (Bombay).—The chief revenue and police officer (native) in charge of a taluk.
- Marua* (*Elusine coracana*).—A kind of millet.
- Mehwasi* (Bombay).—A proprietary tenure assessable to revenue at a lump sum.
- Muaf* (Manpur).—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.
- Mung* (*Phaseolus Mungo*).—Green gram.
- Munsarim* (Berar).—A head native revenue officer.
- Naroadari, Bhagdari* (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump, and in the latter distributed by rates over fields.
- Nisfkhiraj* (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.
- Palampat* (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.
- Panchayat* (Bengal).—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.
- Papay* (*Carica papaya*).—A fruit.
- Parpattigar* (Coorg).—A revenue officer in charge of a sub-division of a taluk.
- Parvar* (see Patol).
- Patol* (Coorg).—Village headman appointed by Government.
- Patol* (*Trichosanthes dioica*).—A vegetable crop.
- Peshkash* (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.
- Perambok* (Madras).—Lands reserved for public or village communal purposes.
- Poti inams* (Bombay).—Lands sub-alienated in alienated villages.
- Poti kharab* (Berar).—The unculturable area included in a survey number.
- Ragi* (see Marua).
- Randhuni* (see Ajmud).
- Sabai grass* (*Ischaemum Augustifolium*).—A fibre plant.
- Sapodilla* (*Achras Sapota*).—A fruit.
- Sebestan* (*Cordia myca*).—A fruit.
- Shantog* (Coorg).—A village accountant appointed by Government.

## APPENDIX C.—concluded.

## Vernacular terms used in the Volume.—concluded.

- Shrotriam* (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.
- Swank* (*Panicum frumentaceum*).—A food grain.
- Talukdari* (Bombay).—A form of proprietary right in force in the northern districts of Bombay.
- Thathameda* (Upper Burma).—Household tax.
- Thekadar* (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.
- Thuggi* (Burma).—A village headman.
- Theiké grass* (*Imperata arundinacea*).—A small perennial grass used chiefly for thatching purposes.
- Til* (*Sesamum indicum*).—An oilseed.
- Udhad-jamabandi* (Bombay).—A proprietary tenure subject to fixed assessment.
- Umblí* (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.
- Urād* (*Phaseolus radiatus*).—Black gram.
- Zamindar* (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

## Appendix D

*Alphabetical List of Crops cultivated in India and their classification in Table III.*

| NAME OF CROP                                            |                                       | Heads of classification<br>in table III            |
|---------------------------------------------------------|---------------------------------------|----------------------------------------------------|
| English or Vernacular                                   | Botanical                             |                                                    |
| Agave . . . . .                                         | Agave Vivipara . . . . .              | 23. Fibres—others.                                 |
| Ajmud or Randhuni . . . . .                             | Carum Roxburghianum . . . . .         | 18. Condiments and spices.                         |
| Ajwan or Bishop's weed . . . . .                        | Carum Copticum . . . . .              | 18. " " "                                          |
| Al ( <i>see</i> Morinda) . . . . .                      | .....                                 | .....                                              |
| Alya ( <i>see</i> Cress) . . . . .                      | .....                                 | .....                                              |
| Amaranthus . . . . .                                    | Amarantus . . . . .                   | 39. Misc. food crop.                               |
| Anise seed . . . . .                                    | Pimpinella Anisum . . . . .           | 18. Condiments and spices.                         |
| Apple, wood . . . . .                                   | Feronia elephantum . . . . .          | 38. Fruits and Vegetables<br>including root crops. |
| „ Rose . . . . .                                        | Eugenia Jambos . . . . .              | 38. " " "                                          |
| „ Custard . . . . .                                     | Anona squamosa . . . . .              | 38. " " "                                          |
| Arhar or pigeon pea . . . . .                           | Cajanus indicus . . . . .             | 10. Other food grains, etc.                        |
| Arnatto or Arnotto . . . . .                            | Bixa Orellana . . . . .               | 28. Dyes—others.                                   |
| Arrowroot, West Indian . . . . .                        | Maranta arundinacea . . . . .         | 39. Misc. food crops.                              |
| „ Wild or East Indian . . . . .                         | Curcuma angustifolia . . . . .        | 39. " " "                                          |
| Artichoke . . . . .                                     | Cynara Scolymus . . . . .             | 38. Fruits and Vegetables<br>including root crops. |
