

**ADMINISTRATION REPORT**  
OF THE  
**MUNICIPAL COMMISSIONER**  
FOR THE  
**CITY OF BOMBAY**  
FOR THE YEAR 1925-26.

---

BOMBAY.  
PRINTED AT THE TIMES PRESS

---

1926.

# Review by the Standing Committee of the Administration Report of the Municipal Commissioner for the City of Bombay for the Year 1925-26.

## Corporation and Standing Committee.

Mr. Joseph Baptista, L.C.E.(Bombay), B.A., L.L.B. (Cantab), Bar-at-law, M.L.A., was the President of the Corporation and Mr. C. W. E. Arbuthnot, B.E., B.A. (R.U.I.), was the Chairman of the Standing Committee for the year.

2. 123 meetings were held by the Corporation and 65 by the Standing Committee as against 138 and 61 held respectively in the preceding year. There were besides 144 meetings of Committees of the Corporation and 60 meetings of Sub-Committees of the Standing Committee as against 188 and 62 respectively in the year previous.

## Commissioner.

3. Mr. H. B. Clayton, C.I.E., I.C.S., held charge of the office of Municipal Commissioner throughout the year.

## Financial.

4. **INCOME.**—The income for the year aggregated Rs. 3,05,31,359 showing a net increase of Rs. 3,16,238 over that of the previous year, while the expenditure amounted to Rs. 2,90,87,636, being Rs. 9,69,460 less than that of the year preceding. The year's transactions thus resulted in a surplus of Rs. 14,43,723 the highest on record since the year 1865 as against Rs. 1,58,025 in the previous year. This surplus increased the Working Cash Balance of Rs. 78,61,424 at the commencement of the year to Rs. 93,05,147 at the end of the year. The real unhyponthecated Cash Balance at the end of the year stood at Rs. 26,52,334 against Rs. 21,71,780 in the preceding year. It will be observed that the estimated revenue for the year was Rs. 3,26,68,600 while the actual realizations amounted to Rs. 3,05,31,359 showing a net decrease of more than 21 lakhs. This large difference suggests the need of a scrutiny into the present procedure of preparing the estimates. The Auditors in paragraph 9 of their report say that more accurate estimates could be framed by the Chief Accountant by eliciting correct information from the departments concerned by frequent references and a close supervision of their work. The necessity of framing accurate estimates cannot be over-emphasized. It is hoped, therefore, that the Chief Accountant will adopt such measures as may suggest themselves to him to achieve the object. There was no variation in taxation except with regard to supply of water by meter measurement. The variation is shown in detail on page 19 of the Chief Accountant's Report.

5. **EXPENDITURE.**—It is gratifying to note that whereas the income increased by about Rs. 3 lakhs, the expenditure for the year decreased by more than 9½ lakhs. This improvement in the financial position may be attributed to the retrenchment proposals of Sir M. Visvesvaraya which materialised to a certain extent during the year under review. It has not yet been possible to calculate to the fullest extent how much of the savings of Rs. 11.25 lakhs effected last year by Sir M. Visvesva-

raya's retrenchment proposals in certain departments has been wiped off by increases in the expenditure in those departments and how far the expectations of ultimate savings of Rs. 20 lakhs have been realised. The executive are taking steps to follow up the line of investigation suggested by the Retrenchment Adviser in order to derive the fullest possible benefit in the shape of further savings. The expenditure in connection with the maintenance charges of the King Edward VII Memorial Hospital and the Seth Gordhandas Sunderdas Medical College as also in connection with the opening and maintenance of new Maternity Homes and the extension of Primary Education has been steadily growing. Owing to the prevailing all-round depression it will not be reasonable to expect that the income will be growing as hitherto. It seems, therefore, necessary that important items of expenditure should bear a fixed ratio to the annual income so that there may not be any undue preference shown to any particular item. The question of Government contribution towards Primary Education expenditure remains unsettled. The delay in the settlement of this question has considerably slowed down the progress of the introduction of free and compulsory primary education in the City. If the proposals submitted to Government, for substituting a light non-refundable Terminal Tax for the existing refundable Town Duties receive the sanction of Government, it is expected that about Rs. 18 lakhs more are likely to be realised under this head. Nothing is yet definitely known as to when Government propose to introduce legislation in the matter and remove the existing causes of annoyance and hardship to the mercantile community.

6. **INCIDENCE OF TAXATION.**—The following table shows the incidence of taxation per head of population for the three years ending 1925-26, calculated by the Chief Accountant on the basis of the estimated annual increase of 19,646·9 in the population of the city over the Census figure of 1921 :—

Year.	Incidence per head of Population.		
	Rs.	a.	p.
1923-24 .. .. .	20	6	3
1924-25 .. .. .	21	12	0
1925-26 — .. .	21	14	4

7. **OUTSTANDINGS.**—The outstandings on account of rates, taxes, etc., at the close of the year amounted to Rs. 15,77,797. Even if the sum of Rs. 2,74,081 due from Government for the difference in General Tax payable according to the old and new quinquennial award be deducted, the outstandings form 5·28 per cent. of the net demand. Although this compares favourably with the percentage of the previous two years it may be reasonably expected that greater vigilance in the matter will reduce this percentage.

8. **CAPITAL WORKS.**—In the year 1924-25 the amount provided for Capital Works in the Budget aggregated Rs. 2,78,35,758, which was increased in the revised estimates to Rs. 4,88,79,450, but the amount actually spent was Rs. 3,36,99,767, whereas in the year under report the amount as per original estimates was Rs. 1,85,26,059, which was increased to Rs. 2,25,16,585 in the revised estimates, but the actual amount spent was Rs. 1,62,35,789. There would have been the usual disparity between the revised estimates and the actuals but for the fact that the Commissioner himself cut down Rs. 40 lakhs from the original demand made by the departments and the Commissioner's estimates were further pruned to the extent of about Rs. 30 lakhs by the Standing Committee and the Corporation. It is notable that in spite of this cut of 70 lakhs the revised estimates still exceeded the actuals by about 28 per cent. It has been noticed that works which are not thought of in the Original Estimates are introduced in the Revised Estimates on the plea of urgency. The Revised Estimates are sanctioned by the Corporation every year either in January or February so that there is hardly any time for the Executive to complete the works by the end of the financial year, much less to obtain bills for the same and pay them off. Even if it be necessary to ask for grants for new works in the Revised Estimates the Executive should see that no more funds than are actually required to be spent before the end of the financial year and can be so spent are asked for. In this connection the suggestion made by the Chief Accountant in paragraph 14 of his report, *viz.*, that the Revised Estimates should not be sanctioned for an amount in excess of the Budget Estimates is worth considering.

9. LAPSED GRANTS.—In paragraph 26 of the Chief Accountant's Report are given comparative figures for the last 5 years of the gross grants sanctioned, grants renewed, expenditure booked against gross grants and savings effected on final grants sanctioned. It will be seen that the total lapsed grants required to be renewed in 1926-27 aggregate Rs. 15,68,726. Out of this, Rs. 1,56,269 are on account of interest charges on Municipal debentures due at the close of 1924-25 but not paid upto the end of 1925-26 and Rs. 3,67,341 are intended for meeting liabilities incurred upto the close of 1924-25 but not paid and these two items aggregating Rs. 5,23,610 form practically one-third of the amount to be renewed. According to strict principles of finance balances in grants sanctioned for expenditure during a particular year should lapse at the close of the year, due allowance however being made only for liabilities actually incurred but not paid before the end of the year. But the fact remains that two-thirds of these renewals are not of this nature. The Chief Accountant has pointedly remarked in his report that the present practice of allowing the renewal of grants for indefinite periods, without actual liabilities having been incurred is undesirable and should be stopped with a view to ensuring efficient control over expenditure. On the scrutiny of the lists of lapsed grants recently placed before them the Standing Committee have found that items for which no liability had been incurred have been included in the lists as requiring renewal and they have therefore disallowed the renewal of grants in respect of them. The Standing Committee have also noticed that even small minor works provided for in the Budget have not been completed by the departments concerned and paid for by the Chief Accountant even within a period of 12 months after the departments got intimation of sanction thereof. This state of things is not at all satisfactory and the Standing Committee have requested the Commissioner to ask all the Heads of Departments to surrender either wholly or partially any of the grants allotted to their respective departments no sooner they find it impossible for them to utilise those grants to any extent and that in future when works sanctioned in particular years are not undertaken in the course of those very years they should be treated entirely as new items of expenditure and embodied in the subsequent year's Budget estimates if the necessity for carrying out those works is made out by the Departments concerned.

10. LOAN LIABILITIES.—The total Loan liability of the Corporation has been stated to be Rs. 18,16,65,717. Out of this, borrowings from Government since 1921 amount to Rs. 8,01,00,000. These loans were obtained both for various City Services and Development Schemes, Rs. 6,06,26,000 being used for the former and Rs. 1,94,74,000 for the latter. It has been agreed that the repayment in respect of the former should be in 30 equated annual instalments and a lump sum repayment of Rs. 28,30,000 was made during the year with the sanction of the Corporation. With regard to the repayment of Development Loans it was agreed with Government in the first place to repay the same in 7 annual instalments. This programme of repayment was prepared on the basis of recouplements from the sales of land in the Hornby Road-Ballard Pier Scheme. It is doubtful whether that programme would be realised at all. Judging by the present conditions it would be safer to assume a longer period than 7 years. Under such circumstances it was deemed desirable to modify the original programme. The Standing Committee regret that the Corporation's request to consolidate the 3 loans taken at different rates of interest and to agree to a uniform rate of interest of 5 per cent. and to alter the programme of repayment by 30 equated annual instalments of Rs. 11,62,730, did not find favour with Government. Further attempts are being made by the Commissioner in that direction. In the meantime the Government of Bombay and the Government of India have agreed to receive on the 31st March 1927 in lump repayments of certain amounts due to them. The Standing Committee hope that some satisfactory agreement will be arrived at between the Corporation and Government in the matter.

11. DEVELOPMENT SCHEMES.—In regard to Development Schemes the Chief Accountant has been repeatedly emphasizing the desirability of drawing up a definite and well-thought-out programme for sales of Rs. land in order to enable the Municipality to pay the interest and repay the loans raised in this connection. The desirability of

sketching out such a programme has now become almost a necessity as Government insist on having a definite programme of repayment of their advances. The Standing Committee fully endorse the opinion of the Chief Accountant in the matter, viz., that it is absolutely necessary to arrange for the sale of surplus lands in the Schemes without undue delay as otherwise any possible gain that might accrue by waiting for an improvement in the land market would be converted into a sure and certain loss by the cost being increased with the interest charges in the meantime. Recently the Standing Committee enquired of the Commissioner whether in cases where land could not be disposed of outright by sale plots of surplus land in the Hornby Road and Ballard Pier Scheme should not be leased for a definite period. The Commissioner has reported that he proposes to advertise the available plots in the scheme for disposal on long leases as soon as the buildings standing thereon are demolished and a clear roadway is obtained. If this principle were extended to other schemes also the revenue derived from this source will lessen the burden of interest charges at least partially.

12. BORROWINGS.—The liabilities of the Corporation call for special attention. During the year the Corporation borrowed Rs. 90,00,000 from Government and Rs. 63,22,500 from the public in accordance with the loan programme previously sanctioned by them. Debt to an extent of Rs. 79,68,354 was paid off during the year. The total Capital Debt of the Corporation thus increased from Rs. 17,43,11,571 to Rs. 18,16,65,717. Against this debt, the total Sinking Fund Investments aggregated Rs. 2,64,31,256, leaving a net liability of Rs. 15,52,34,461 against Rs. 14,46,68,457 in the preceding year. The rateable value of properties was Rs. 11,84,20,386. Under the Municipal Act the borrowing powers of the Corporation are limited to double the rateable value. Accordingly the margin left as stated in para. 57 of the Chief Accountant's report is about 4.96 lakhs upto which further borrowing is permissible. This does not give cause for any optimism as it will be remembered that the Corporation is about to launch their drainage project at a capital cost of between 2 to 3 crores. A very scrupulous adherence to the Capital Works programme recommended by the Retrenchment Adviser and adopted by the Corporation under their Resolution No. 8893 of 17th November 1925, is therefore absolutely necessary.

13. ACCOUNTS.—One noticeable feature in this year's report of the Chief Accountant is that a classification, as suggested by the Retrenchment Adviser, of all loan works under distinctive groups, viz., (1) General Services, (2) Self-supporting works and (3) Development Schemes, has been made and the allocation of outstanding debt upto the end of the year and the debt charges involved under each head are shown on page 34 of the report. Other Account Reforms are under way. An Accounts Code has been prepared by the Municipal Auditors and is being examined by the Commissioner. Mr. T. H. Bird has also made thorough investigations and has submitted a comprehensive report on Account Reforms. Sir M. Visvesvaraya suggested that this should be submitted for criticism to a Board consisting of the Accountant-General, Bombay, one Chartered Accountant and the Chief Accountant. It was not possible to get the Accountant-General to pronounce his opinion on the report. Mr. S. B. Billimoria, one of the leading Chartered Accountants, was requested to make his own observations on the report. Both the report and the observations thereon referred to above are now under the consideration of a Sub-Committee of the Standing Committee. It is expected, that if these reforms are carried through, the accounts of the Municipality will be placed on sounder lines.

14. STORES BALANCES.—The stores in stock on the last day of the year were valued at Rs. 14,77,377 against Rs. 12,33,775 at the close of the preceding year, showing an increase of Rs. 2,43,601. Out of the balance, stores worth Rs. 5,55,667 inclusive of surplus and obsolete stores worth Rs. 229 are in charge of the Storekeeper. There is a difference of Rs. 68,796 between this figure and that shown by the Storekeeper and this, the Chief Accountant explains, is due to non-adjudgment in his books of the value of stores issued to the different departments worth

It is definitely stated that the adjustment will be made in the next year's account. The balance referred to above, compares with the balance of stores in charge of the same officer at the end of each of the preceding four years, as under:—

Year.						Rs.
1921-22	..	..	..	..	..	11,76,349
1922-23	..	..	..	..	..	13,83,670
1923-24	..	..	..	..	..	7,48,809
1924-25	..	..	..	..	..	6,17,838
1925-26	..	..	..	..	..	5,55,438

It will be observed, however, that though the balance in charge of the Storekeeper as shown above is much less than in the previous year or strictly speaking than in the previous four years, there has been a general increase in stock in hand to the extent of Rs. 2,43,601. This brings home forcibly the necessity of investigating the question of reducing stores balances on Revenue Account and suggesting ways and means for such reduction. Now that the Retrenchment work is almost complete the Test Audit officer who was so long on that work, will, it is hoped, pay serious attention to the matter and evolve some method of keeping down the stores balances.

#### Assessment and Collection of Taxes.

15. The rates of taxation were the same as in the year previous except the rates of water tax by meter measurement which were increased all round with the exception of the rate for water used for charitable purposes. The total amount collected under all heads exclusive of meter hire and miscellaneous receipts and fees was Rs. 2,33,34,649 against Rs. 2,25,19,519 in the preceding year showing an increase of Rs. 8,15,130. These figures are exclusive of the amount remaining to be collected at the end of the year. The number of registered properties on the Assessment Book on the last day of the year stood at 46,138 against 45,674 in the previous year. Exclusive of lands belonging to Government, the City Improvement Trust, the Port Trust and the Railways, which are separately assessed and specially treated in respect of this tax, the number of properties assessed to the General Tax was 37,507 against 37,219 in the preceding year. The rateable value of properties assessed in the City rose from Rs. 11,44,87,058 in the previous year to Rs. 11,84,20,386 in the year of report, showing an increase of 39.33 lakhs. This rise in the rateable value of properties is satisfactory when compared with the rise of only 6.73 lakhs in the previous year.

16. Inclusive of demands in respect of outstanding balances of previous years, the total net demand on account of property taxes amounted to Rs. 2,41,65,708 against Rs. 2,37,44,152 in the preceding year, showing an increase of Rs. 4,21,556. Of this, Rs. 2,26,75,708 were collected during the year against Rs. 2,18,73,491 in the year preceding, leaving an outstanding balance of Rs. 14,90,000 against Rs. 14,04,702 in the preceding twelve months. The total demand on account of the tax on vehicles and animals, including the demands in respect of previous years, aggregated Rs. 7,73,462 against Rs. 7,57,696 in the preceding year. Out of this, Rs. 6,58,940 were collected, Rs. 2,443 were written off as irrecoverable and bills for Rs. 29,141 were recalled and cancelled, leaving a balance of Rs. 82,936 outstanding at the end of the year. The total outstanding balance on account of property taxes and wheel tax at the end of March 1926, thus amounted to Rs. 12,98,847. Out of this large outstanding balance, bills for no less than Rs. 9,01,510 were issued during the last three months of the year in respect of new constructions, enlargements, water tax by meter measurement and wheel tax. A comparative statement of the total net demands and outstandings for the last three years is printed at page 147 of the report. It will be seen therefrom that the figures of outstandings are steadily decreasing. The balance of outstandings has been further reduced to Rs. 7,61,221 on the 30th June 1926. Much credit is due to the department for the efforts to bring down the figure of the outstandings, and it is hoped that this progress will be maintained so as to reduce the outstandings very appreciably in the

near future. The gross assessment at the beginning of the year stood at Rs. 13,38,88,705 against Rs. 12,88,46,070 of the year preceding.

17. IMPROVEMENTS IN THE SYSTEM OF ASSESSMENT.&c.—Various suggestions were made in the past for the improvement of the system of assessment of properties and of collection of taxes thereon and it was stated in the last year's review that the whole question of over-hauling the system of assessment and collection of Municipal taxes had been referred by the Commissioner to the Retrenchment Enquiry Officers for report. Mr. T. H. Bird, Secretary, Retrenchment Enquiry, examined the question thoroughly and has submitted a comprehensive report making various suggestions in the matter after comparing the systems prevailing in several Municipalities in India and abroad. This report is under the consideration of the Retrenchment Committee of the Corporation.

18. RIOT TAX—Recent discussions in the Legislative Council indicate that Government are not prepared to relieve the Municipality of collecting the Riot Tax. It has often been remarked that this work being an additional burden on the department hampers the ordinary duties required to be carried on by the department. It will be remembered that the Corporation during the year under report had represented to Government that in their opinion the imposition of the Tax was iniquitous and unjust and had recommended that the provisions of the Bombay Police Act empowering the Chief Presidency Magistrate to recover the tax should be repealed, suggesting at the same time an alternative, viz., that if Government insisted upon the retention of the tax in spite of their recommendation the Corporation and the Municipal Commissioner should be relieved of the odium of recovering the tax as a general tax under the provisions of the Municipal Act. Government however not agreeing with the Corporation's views have intimated that they regret they do not see their way to give effect to those suggestions. It is therefore now necessary for the Corporation to consider the desirability of asking Government to allow of some adequate fees being levied by the Municipality for the extra cost of collecting the Tax.

### Public Works.

19. SPECIAL BRANCH.—The year under review was one of good progress. Labour conditions and rates of building materials being more favourable than in the previous year, accelerated progress in all constructional works which were budgetted for during the year. Funds for several works of which plans and estimates were sanctioned by the Corporation could not be provided for in the Budget, while those for which funds have been provided are in progress but not completed at the end of the year. Large works requiring more than a year to complete are fully provided for in the Budget and the unexpended grants are renewed. This is responsible for many important works being held up. If a well thought-out programme of works to be undertaken and completed during 2 or 3 years is prepared and funds which can be spent during the year are provided for in the Budget, attention can be devoted to all the works alike. The preparation of such a programme and keeping the expenditure on capital works within reasonable bounds is essential in view of the huge expenditure that will have to be met at no distant date on Drainage and Sewerage Schemes which are overdue.

20. DRAINAGE.—Government have after all accorded their sanction to the new drainage scheme under which the City is divided into 3 sections, each with its separate outfall. It is proposed to undertake the drainage of the North of the Island first, where the need of drains and sewers is being most felt owing to the expansion of the City in that direction and the wide possibilities it opens up for a healthy habitation, thereby inducing the people to migrate towards the North. The Consulting Engineers have prepared preliminary estimates and designs for all the 3 outfalls. They are being considered by the Drainage Committee. The Special Engineer reports that a considerable amount of data has been furnished to the Consulting Engineers,

Messrs. Dodd & Watson, during the year to enable them to proceed with the detailed plans and estimates. So far as the preliminary estimates go the Kurla creek outfall serving the north zone which is proposed to be undertaken in the first instance is estimated to cost Rs. 1,14,68,000. It is hoped that this scheme will be pushed through and executed as early as possible, for in the absence of proper drainage arrangements development of the north is hampered. As already pointed out in the last year's review the question of the drainage of the North of the Island needs a speedy solution as an efficient drainage system is one of the main factors that contribute to the health of the population of a city.

21. PUMPING STATIONS.—The Love Grove Steam Pumping Station worked intermittently during the year except during the monsoon. The Electric Pumping Station installed in 1924, on the other hand, worked continuously. The electric plant proved to be both reliable and economical to run. But with the introduction of more water into the City and the drainage scheme in abeyance, the installation of a third electrically driven pumping station is becoming imperative to secure a reasonable margin of safety. Attention is also invited to the old air compressors at Love Grove which have been in use for over a quarter of a century. Either the Shone Ejector system will have to be abandoned or the age-worn plant will have to be renewed at no distant date as the present position is far from satisfactory. The condition of the storm-water sluices is reported to be poor. The Ejector Stations in the City are now dealing with the maximum amount of sewage for which they were originally designed. Hence with the larger quantity of sewage, consequent on increased water supply, it is possible that a new station may have to be opened in the near future. It is gratifying to note that the electric plant installed at the Colaba Air Compressor Station worked extremely well. The installation of the new Air Compressor there has been a great success inasmuch as there are now no complaints of surcharging. Other stations are doing solid work.

22. STREETS AND BUILDINGS.—The number of applications for the erection of new buildings was 717 and of those for additions and alterations to old ones was 762 as against 723 and 701 respectively in the year previous. A comparative statement of the cost of setbacks incurred during the last two decades is printed at pages 189 and 190 of the report. It shows that the expenditure in connection with set-backs during the year of report is Rs. 4,09,538 which is met out of Revenue. There is an outstanding liability of Rs. 19,56,213 for land sanctioned to be acquired for setbacks but still awaiting acquisition. Proposals for changing the regular lines of 7 more streets are afoot. Measures for the enforcement of Building regulations were pursued as usual though the summonses issued during the year were comparatively less. The number of buildings or portions thereof that fell during the year was 30 as against 36 of the year previous. Nevertheless the results have been more fatal. It seems therefore necessary that some means should be devised to strengthen or demolish in time buildings in dilapidated condition to prevent the occurrence of such a large number of collapses endangering the life of the occupants.

23. ROADS.—The area of roads resurfaced and patched during the year and the amount spent thereon together with the cost of maintenance of kutchra foot-paths and roadside trees is given in detail on page 181 of the report. The cost of repairing water-bound roads was annas 2 and pies 2 per sq. foot. The area of water-bound roads repaired and the expenditure incurred thereon is much less this year than in the last year. This is due to the maintenance grant being reduced as more area of Capital roads, with permanent construction, is being added on to the roadways. It might be stated in this connection that during the last 4 years no less than 30 miles of such roads have been laid resulting in a considerable cut in the cost of maintenance. In addition to these works, the reconstruction of several Capital Roads according to special methods such as laying sheet asphalt on cement concrete foundation and paving with sett-stones, etc., was also undertaken and completed. A list of these roads together with the cost thereof is printed

at pages 182 and 183 of the report. The usual dust preventive measures such as dressing the roads with tar and bitumen and road watering were continued during the year. The expenditure on the former operations amounted to Rs. 4,53,394 and on the latter Rs. 1,09,869. Of 197 miles of roads in the City  $41\frac{1}{2}$  miles were dug up in the year under review in connection with pipes and cables, etc., against  $40\frac{1}{2}$  out of a total of 190 miles in the year previous.

24. PRIVATE STREETS.—Forty-one private streets were dealt with in the report year under Section 305 of the Municipal Act as against 35 in the previous year, and 8 were declared public against 6 in the previous year. The number of roads and footpaths taken over from the Bombay Port Trust, the Bombay Improvement Trust and the Bombay Development Department was 15 against 102 in the previous year. These represent about 7 miles. Further more there has been an addition of about 5,560 square yards to the roads by way of set-backs at a cost of Rs. 44,362.

25. TRAMWAYS.—The year under report marks the settlement of a long standing dispute with regard to the enhancement of tram fares on the Gowalia Tank Road Extension. The Arbitrators appointed in the case gave an award against the Municipality and allowed the Company to charge half an anna extra for the extension. The general question of tramway fares to be charged on all extensions is now under the consideration of the Tramways Committee and it is proposed to negotiate with the Company so as to induce them to agree to charge one anna within a radius of  $2\frac{1}{2}$  to 3 miles from the Gowalia Tank Terminus. Two platforms were put up during the year for the use of passengers, one at Bori Bunder and another at Flora Fountain. The rolling stock of the Tramways Company remained the same as in the year previous, *i.e.*, 300 units with a carrying capacity of 23,912 at a time. The Bus system has now been introduced by the Company as a tentative measure in a portion of the City. But if this experiment works well there will be a gradual extension of this service all over the City. These buses will serve most the localities not within the easy reach of tramways or railways.

26. OVERBRIDGES.—During the year the DeLisle Road overbridge and the Dadar overbridge were completed, and thrown open to traffic. The overbridge at Victoria Road has also been completed. Certain works in connection with the Currey Road overbridge were also executed. Constructional work with regard to Mahaluxmi overbridge is in progress.

27. LIGHTING.—Lighting of streets has improved during the year. The net increase in the candle power is 81,170. This was effected by a reduction in the number of low pressure gas lamps and increase in the number of electric lamps. The latter have increased from 625 to 839. There was also an innovation with regard to the position of the lamps. On some of the most important roads the lamps are now suspended in the centre of the roads. By this method maximum amount of benefit is obtained inasmuch as all light is concentrated on the roadway and no light is wasted. Street lamps on the kerb line do not serve so useful a purpose as much light is wasted and there is no concentration of light on the roadway. It must be admitted that the suspension system is too costly to be pushed through at once. But it is hoped that it will be found possible to gradually extend it throughout the City. The gross expenditure on lighting during the year amounted to Rs. 9,92,066 against Rs. 9,12,858 in the preceding year. The cost of maintaining Alladin incandescent oil lamps has decreased by about Rs. 2,000, but the Standing Committee are of opinion that the expenditure on these lamps is too high to justify their continuance. The Committee had expressed a hope last year that in view of the

high cost these lamps might be abolished. Although there has been slight reduction in the cost, the Committee regret to note that no attempts seem to have been made to abolish them altogether. Of the 197 miles of roads in the City about 165 are lighted by gas, 23 by electricity and 9 by incandescent oil lamps. It appears from this that the newly constructed roads are being lighted by electricity as the number of miles lighted otherwise has remained the same.

28. **WORKSHOPS.**—The value of work turned out at the Workshops has been computed at Rs. 5,56,041 against Rs. 6,50,584 during the preceding year. This shows a decrease of Rs. 94,543 due to the reduced costs of materials and labour and also to the economy exercised by the other departments during the year which has reacted on the turn-over of the Workshops. The year's transactions show a profit of Rs. 9,196 against Rs. 26,449 in the year previous. If in calculating the profits the salary of the Deputy Executive Engineer, Mechanical Branch, interest and sinking fund charges on capital, and depreciation on buildings and machinery were taken into account, as suggested in the last year's review, the balance will be on the debit side. This defect, it is hoped, will be remedied when the new system of accounting is introduced by the newly appointed Accountant. The Mechanical Engineer again points out this year the urgent necessity of the provision of a garage to house the Municipal motor lorries. Land has already been acquired adjacent to the Workshops but the constructional work could not be undertaken for want of funds. Inspection of small workshops and factories coming within the purview of the Municipal Act was carried out as usual. In all 601 applications for licenses and 38 cases relating to smoke and other nuisances were dealt with during the year.

### Water Works.

29. The Water Works continued to be maintained efficiently during the year. The monsoon failed to replenish adequately the Vehar and Tulsi Lakes. Only the Tansa and Powai lakes overflowed during the monsoon. The total quantity of water received during the year from all sources amounted to 20,781 million gallons or an average of 57 million gallons per day, the corresponding figures for the preceding year being 18,305 million gallons or an average of 50 million gallons per day. The average daily supply in the City per head (for all purposes) increased from 39·12 during the previous year to 43·51 gallons during the year under report. This is no doubt satisfactory; although the increased supply may not have been solely utilised for the purposes of domestic requirements, it must have at least minimised the hardships of the people very considerably.

30. The average daily supply to the suburbs was 1·57 million gallons. The suburbs are rapidly developing and the progress of the development will be accelerated after the electrification of the B. B. & C. I. and the G. I. P. Railways is completed. It will, therefore, be necessary for Government or the local bodies concerned to arrange for independent sources of water-supply to the suburbs instead of depending upon the supply they are now getting from the sources from which Bombay is supplied.

31. In all 988 new water connections were given and 9 were cut off for various reasons but these were ultimately restored. There were thus 31,868 connections against 30,880 at the close of the preceding year. 13,059 underground and 13,254 aboveground leaks or defects were detected and remedied by the Waste Prevention Branch of the Water Department. The latter figure includes 2,650 taps found out of order and 73 taps left open. The net result of the remedial measures adopted by the Department was that water to an extent of about 2,350,888 gallons in the aggregate per hour was saved from running to waste against 2,486,131 in the previous year. During the year under review 10 miles of new water mains were laid

and 4 miles of old water mains replaced. The progress of these works was from time to time hampered as the staff employed thereon was taken off to attend to the departmental works connected with the construction of new Tansa mains and the diversion of mains on account of Grant Road Terminal Scheme.

32. The mechanical filter plant at Tulsi Lake was completed during the year but could not be brought into operation owing to the low level of water. The filter plant at Powai failed to give the guaranteed results and has therefore not been taken over by the Municipality. It is proposed to entrust to Messrs. The Paterson Engineering Company the whole work of putting the plant in order at the contractor's expense. The work of supplying engines and apparatus for chlorinating the water of Tansa lake has been entrusted to the same company and that of constructing a building to house the machinery to Mr. Walji Hirji. It is stated in the Special Engineer's report that progress was being made in this direction and that it was expected that chlorination of the whole of the water-supply from Tansa would be begun in May 1926. It is however understood that this work has not yet been completed, but out of 68 million gallons of water received from Tansa Lake 47 million gallons which is received through the old 48" mains is being chlorinated at Ghatkopar and only 21 million gallons of water which is being supplied to the City through the Vehar and Tulsi mains is not chlorinated at present.

#### TANSA COMPLETION WORKS.

33. The timely completion of the first section of the new Tansa mains between the Lake and Ghatkopar, averted a serious water famine which the City would have had to face during the year. Water from the new 72" mains was first introduced into Vehar Lake on the 2nd August 1925, and the lake was replenished to the extent of 1,365 million gallons. This, together with the quantity impounded in the lake, was conserved by the closing of the Vehar supply on 11th September 1925, and this helped the lake to overflow on 31st August 1926.

34. The mains were laid complete from Mahim to Elphinstone Road. It is stated that before the end of the next financial year (1926-27) the Tansa Completion Works will be handed over to the Water Department for maintenance. Since the works are drawing to a close it would be interesting to review the whole financial situation with regard to the scheme. The total cost sanctioned for the execution of the works amounted to Rs. 5,48,02,514. The total amount spent on the Tansa Completion Works upto the close of the year under review amounted to Rs. 4,74,19,235. This expenditure is exclusive of the amount spent out of the Government contribution of Rs. 13 lakhs for the roadway over the Kasheli Bridge.

35. The year under review has been one of remarkable progress in the history of the Tansa Completion Scheme and marks the closing chapter of a huge project carried out successfully by the Municipality. The Kasheli Bridge was completed and the last rivet driven on His Majesty the King's birthday, the 3rd June 1925. The Pipe Track outside Bombay was completed from Tansa to Mahim and the Bandra Sluice Valve Anchorage was finished. The laying of the 57" mains was completed from Powai to Bandra Sluice Valve with the exception of a short length just north of Bandra Valve which was left to permit transport of pipes to Bombay, and this length will be taken in hand immediately after transportation of pipes required to be laid in Bombay is finished. In Bombay Island itself approximately 42,000 feet of 57" pipes were laid upto the end of the year out of an estimated total of 68,900 feet.

#### FIRE BRIGADE.

36. The Fire Brigade was maintained in a state of high efficiency. Details of the number of calls received by the Brigade for attendance at fires and fallen houses, of the number of fires extinguished by the Brigade and of those extinguished before their arrival, and of the total damage done to property by fire, etc.,

are given at pages 213-218 of the Report and in the Commissioner's Summary at page 13. Out of 443 calls received by the Brigade, 118 were false alarms.

37. The Brigade inspected 256 premises in connection with dangerous trades etc., and made 41 inspections of theatres and cinemas. During the year two new Fire Brigade Stations were opened, one at Frere Road and the other at Sewree Cotton Depot. Plans and estimates for a Station at Naigaum Tank have been approved and the work is going to be put through soon. Nothing was, however, done during the year in connection with the proposed new Fort Station at Mint Road. The total number of fire alarms installed in the City amounted to 136, out of which 7 were established during the year. Four arrests were made for malicious interference with alarms, but in only three cases was prosecution resorted to.

38. **AMBULANCE SERVICE.**—The Motor Ambulance Service presented by Bai Jerbai N. Wadia for street and other accidents continued to be useful to the people as before. There were 627 accident calls for the motor ambulances and 1,098 cases of hire. The total number of persons conveyed by the ambulances was 1,710 and the distance run 16,182 miles. The amount of fees recovered in respect of the ambulances let on hire was Rs. 6,625 as against Rs. 4,915 in the year previous. The cost of maintenance of the ambulance service was Rs. 7,544 as against Rs. 10,581 in the previous year. From the figures as given in the report of persons conveyed by the ambulances, it appears that this service is not availed of by the public as much as it should be. It is possible that most of the people are not perhaps aware that such a conveyance for the use of the sick and disabled persons is maintained by the Municipality. It is yet possible that those who know of such a convenience may not be knowing how to procure it. It seems therefore necessary that some means should be devised by which the public may know how and where they can get the Municipal Ambulance for their requirements, so that this very useful service may be availed of by the people in a larger measure. Placards or such other advertisements as the Health Department may think proper may serve to popularise the service.

#### PUBLIC GARDENS.

39. In all 12 public gardens were maintained by the Municipality during the year (10 under the control of the Gardens Department and two under the control of the Engineering Department). One garden was dismantled and two were added. In spite of the shortage of labour all the gardens were maintained in perfect order and neatness as usual. Park-keepers, who were employed as an experimental measure for keeping off ruffians and rowdies, did efficient service in maintaining order and discipline. They were therefore brought on the permanent schedule.

40. **VICTORIA GARDENS.**—The number of visitors to the Victoria Gardens during the year under report was 1,888,243 as against 2,149,615 in the previous year, showing a decrease of 261,372. This fall in the number is attributed to the strike of millhands for over 2 months during which time they migrated to their native places in large numbers. But for a slight attack of plague in the case of some monkeys and a few cases of fowl cholera, the health of the menagerie was good. Owing to the widening of Parel Road the Clock Tower and the large fountain were removed and reconstructed within the precincts of the garden. Band performances and Indian musical concerts, which were arranged for the entertainment of the public visiting the gardens, were popular as ever. There were 140 band performances, 14 Indian musical concerts, and 13 wireless concerts arranged by the Radio Club, during the year. Owing to some defect in the apparatus or some disturbance in the air the wireless concerts were not quite successful from the audience's point of view. The report gives a list of animals presented to the gardens during the year together with the names of donors thereof to whom the thanks of the Corporation are due. The total expenditure on the various

gardens amounted to Rs. 2,15,290 during the year as compared with Rs. 1,84,473 in the previous year.

#### VICTORIA AND ALBERT MUSEUM.

41. The total number of visitors to the Museum was 950,806 against 970,426 in 1924-25. This small decrease is also attributed to the mill-hands' strike during the year. The Museum being open for 312 days the daily average works out to about 3,047 against 3,100 in the preceding year. An Industrial Section has been so fitted up as to show the specimens to the best possible advantage. A large number of specimens of horn and ivory work and of mother-of-pearl and of metals such as brass and copper and silver work were added during the year. Specimens of paper pulp mixed with clay, of textiles, of stone-work and of Indian Musical instruments were either presented or bought for exhibition. A collection of numismatics was presented by Mr. Greenwood to whom thanks are due. Carcasses of 44 specimens of birds and animals were received from the Victoria Gardens and of an Indian Bull from the Manager of the Bombay Garage to whom also thanks are due. A valuable addition was made to the Library by the purchase of several interesting books. The popularity of this Museum has in no way been lessened owing to the establishment of the Prince of Wales Museum of Western India.

#### MUNICIPAL STORES.

42. In spite of low rates, the total transactions of the Department amounted to about 17 lakhs. The balance of stores at the end of the year has increased by about 2 lakhs. This is attributed to a large number of C. I. Pipes remaining on hand. These are however expected to be utilized in the current year. The policy of preferring Indian goods to those of foreign manufacture has been maintained under the Standing Orders. During the year the annual schedules were further revised and the tenderers were allowed to be present at the time of opening the tenders. The introduction of the above system has resulted in creating very keen competition among tenderers. The Standing Committee are glad to find that their suggestions in connection with the system of inviting and accepting tenders have had their effect.

#### LICENSES.

43. During the year under report 13,334 licenses were issued for various licensable trades against 12,957 in the previous year, the amount of fees recovered being respectively Rs. 1,27,095 and Rs. 1,25,914. Though the figures do not show appreciable increase they are at all events encouraging, if the general trade depression be taken into account. The details of the licenses and of the fees received therefrom are given at pages 232-233 of the Report. 703 permits for exhibiting Sky signs and Advertisements were issued during the year of report under Sections 328 and 328-A of the Municipal Act, against 484 of the previous year, yielding Rs. 17,424 as fees against Rs. 13,171 in the previous year. This increase, in spite of the statutory exemption upto January 1927 of old sites, may be considered appreciable. The question of licensing the manufacture of *bidis* or indigenous cigarettes being under the consideration of the Executive Health Officer and the Collector of Bombay, no such places were licensed during the year. A scheme for licensing Ice Factories is also under consideration. It is also proposed to license all hawkers in the City. The work of recovering fees from squatters in the reserved areas and of removing encroachments on public streets has been now entrusted to this Department.

#### MARKETS.

44. Thirteen Municipal Markets were maintained during the year. The receipts from the Markets and Slaughter Houses were Rs. 11,61,085 as against Rs. 11,20,703 in the previous year, showing an increase of Rs. 40,383. This increase is due partly to Fair Ground Rent at Bandra being recovered departmentally, to an

increase in the revenue from the hawking trade, to recoveries during the year of certain arrears in respect of Dadar Private Market and to more money being realised by the auction sale of market rights. There has, on the other hand, been a decrease in the stall rents and the miscellaneous receipts. But in spite of this decrease the financial position is better than that of the last year. Owing to inadequate powers vested in the department under the Municipal Act, to recover arrears of license fees in case of private markets, it always finds it difficult to recover such dues from the owners thereof if they persistently refuse to pay them. Last year it was the case of Dadar Market and this year it is the case of Haines Road Market and the sooner this flaw is set right the better it will be for the Municipality and the easier for the Department to recover such dues. One noticeable feature of the year is the reduction in cases of dangerous meat trade from Kurla. This is due to a temporary arrangement made with that Municipality by which one of the slaughter houses there has been brought under the administrative control of this Municipality and meat from this only is imported into Bombay. Another fact that arrests attention in the Market Superintendent's Report is a steady decrease year by year in the number of cows and bullocks imported into the Bandra Slaughter Houses owing to the age restriction prescribed for slaughter. The Hawker's Branch which was under the control of the Market Department was at the beginning of the current year transferred to the License Department. In view of the fact that the city is rapidly growing the necessity of providing additional markets cannot be overlooked. The financial stringency has however tied down the hands of the Municipality and only gradual progress in this direction is possible. Nevertheless the year under review was not without any progress in this direction inasmuch as the Chowpatty and Gilder Tank Markets are well under way.

### Health Department.

45. The City's area is 23·54 sq. miles and the population of the City as enumerated at the census of 1921 was 1,175,914 : the estimated population in the middle of 1925 was 1,259,414. The Health Officer has in accordance with Government Resolution (General Department) No. 2547, dated the 4th July 1922, calculated the birth-rates and death-rates in his Report on the estimated population. The total number of live-births registered during the year was 20,268 and the birth-rate for the year under review was 16·10 per 1,000 living as against 17·61 in the preceding year. The total deaths numbered 31,968 as against 38,774 of the year previous, the death-rate being 25·4 per 1,000 living as against 31·5 in the preceding year. The Health Officer points out that the death-rate was the lowest since 1874, with the exception of the rate for 1915 (24·2). The percentage of certified deaths (inclusive of those certified by Hakims and Vaidyas) to the total mortality was 25·78 against 23·90 in 1924. It is a noticeable feature of the year that the usual epidemic diseases with the exception of Small pox did not assume epidemic proportions. Plague was responsible for 174 deaths as against 409 in the year previous. This plague mortality is the lowest on record since 1896 the year when plague first appeared and ravaged the City. Small pox assumed epidemic form for only 4 weeks from 21st March 1925 and caused 570 deaths against 1,242 in 1924. Cholera was responsible for only 12 deaths and influenza for 94. The mortality from Tuberculosis, *i.e.*, 1,404 was 485 less than the decennial average. The general health of the city during the year was therefore by far the best since 1874 excepting the year 1915.

46. MALARIA.—The rigor of some of the diseases like Malaria, Influenza and Tuberculosis which sap the vitality of the population by slow degrees cannot be judged by the number of deaths recorded. The duration of these diseases varies with their severity and the stamina of the persons suffering therefrom. It is only by collecting statistics from public and private hospitals and also from private practitioners as to the patients treated by them for various diseases that the condition of the City's health can be ascertained fairly approximately. It was therefore suggested in the last year's review that attempts might be made to collect such statistics.

Whether this has been done or not has not been mentioned in the report. But from the Commissioner's letter No. H. M. 2-A., dated the 5th August 1926, underlying Corporation Resolution No. 7184, dated the 7th October 1926, it appears that such information so far as Malaria cases are concerned has since been obtained in pursuance of Corporation Resolution No. 8875, dated the 17th November 1925. This letter shows that the number of Malaria cases treated at the private and public hospitals and by the medical practitioners in the City during the years 1924 and 1925 was 87,605 and 116,285 respectively. These figures indicate how the scourge of Malaria is increasing. It is hoped that the Health Department will furnish in future Reports such information in respect of these and other important or prevalent diseases.

47. Notwithstanding the considerable amount of money spent on anti-malarial measures and the joint efforts of Government and the Municipality for the reduction of Malaria in the City the progress has been slow as it is bound to be, owing to the difficulties in the way of removing the causes responsible for the breeding of mosquitoes. The measures which have been recommended and are now being carried out have therefore to be pushed through as finances permit. Active co-operation of the Mills and the Railways is necessary to achieve considerable success in this direction, for unless there is simultaneous action from all quarters interested in the well-being of the city any amount of money spent on one side is wasted owing to the existence of breeding places on the other. It is hoped that the Committee appointed by Government and also the Medical Relief Committee of the Corporation will be able to evolve a practicable scheme of active co-operation and suggest preventive measures.

48. INFANT MORTALITY.—The number of deaths among infants under one year of age was 7,212 being 1,944 less than in 1924, and 2,760 less than the decennial average of 1915-1924; of these 4,614 occurred among infants born in Bombay and 2,598 among those born elsewhere. The rate of infant mortality calculated per 1,000 of births registered was 356 as compared with 419 in 1924 and 481, the annual average in the decennium. The Health Officer points out, however, that the infantile death-rate, if calculated on the deaths of infants born and registered in Bombay in proportion to the registered births, would be reduced from 356 to 228. The infant population of the City is much in excess of the registered births, which are taken to represent the infant population on which the infant death-rate is cast. This may be accounted for by the custom prevalent among women, belonging to the city, of going to their homes in the country for confinement and returning to Bombay when the babies are two or three months old. The infant death-rate calculated by the usual method can be regarded as comparable with that of other cities on the assumption that in those cities similar wholesale immigration of infants takes place. It cannot be denied that the recorded rates for Bombay both absolutely and comparatively overstate considerably the magnitude of loss of infant life in Bombay. If the deaths elsewhere, of infants born and registered in Bombay, be set off against those occurring in Bombay among outborn infants a fair rate for comparison would probably approximate more closely to the lower figure of 228 than to the higher figure of 356 which represents the officially recorded rate for the year. A careful analysis of the statistics reveals the magnitude of the role played by debility, prematurity and respiratory diseases in infant mortality. The Health Officer is of opinion that the adverse factor which in addition to poverty and ignorance is responsible for the high rate of mortality in all communities is probably Malaria, while the practice of soothing babies by administering opium cannot but have deleterious effect and enhance the infant mortality among the more ignorant section of the population.

49. From the statement printed at page 11 of the Health Officer's report it will be observed that of the 20,268 live-births registered in the year under report, 12,049 or 59 per cent. occurred in the families living in a single room or sharing

it with others and the number of deaths in infants of this class of population was 6,061 or 84 per cent. of the total infant mortality. The statement further reveals that in single room tenements the death-rate among infants per 1,000 births during the year was 503 against 557 in 1924, and that the proportion of deaths to births varies inversely as the number of rooms occupied by the parents.

50. Measures for reducing infant mortality were continued as usual during the year. Efforts are continually being made by the Municipal Nurses, who are all qualified midwives, to educate and instruct the poor in the primary principles of health and hygiene and to advise the mothers on the care and nurture of children. These nurses serve as a medium through which the Free Municipal Maternity Homes are popularised among the poor and in cases these facilities are not availed of maternity relief is carried to their very doors, such as bedding for their confinement, food in the shape of milk and bread during the first days of the puerperal period. The number of women admitted in the 3 Municipal Maternity Homes were 1,676 as against 1,795. At the two Infant Milk Depots established at the Bellasis Road and Parel Maternity Homes, 28,712 seers of pure milk were distributed during the year free or at a nominal price for the benefit of children born in the homes or under the supervision of the Municipal Nurses. The Infant Welfare Society with their staff of trained nurses have been doing good samaritan work in this direction. At the nine centres established by the Society, 38,889 seers of milk were given free and 69,380 seers were distributed at a nominal price for the infants brought to them.

51. The frequent visits paid by these nurses to the localities and chawls occupied by the poor population help to bring to the Municipal Dispensaries sick persons who would otherwise either not know of the existence of the facilities provided by the Municipality or knowing would through indifference and negligence fail to take advantage of them. The Standing Committee are pleased to note that these visits are highly appreciated and welcomed by those for whose benefit they have been organized.

52. In the last year's review it was observed that the abnormal rate of infant mortality engaged the attention of the Corporation and resulted in the recommendation of remedial measures such as (1) the discouragement of the construction of one-room tenements, (2) the amendment of the Factory Law so as to excuse women from work six weeks prior and subsequent to delivery, etc., (3) the establishment of additional maternity homes in the City preferably in Development Department chawls, (4) the supply of milk, bread and clothing to women in confinement for about 3 weeks instead of 10 days as at present and (5) the registration of midwives and abolition of unqualified *dais*. Government on the other hand were considering a scheme for the grant of certain maternity benefits to women workers such as giving intervals of rest, work suitable to their constitution and intervals to go out to feed their children and for furnishing mills, etc., with creche accommodation for their children. The Corporation approved of this scheme. Since then creche accommodation has been started in many Mills. A great deal has been done and is being done in that direction and it may confidently be expected that these measures will go a long way to lessen the infant mortality in the City.

53. TUBERCULOSIS.--As stated above the total number of deaths from Tuberculosis was 1,404. This works out at 1.11 per 1,000 population. Page 20 of the Health Officer's Report shows how the incidence has been lessened these four years. The usual anti-tubercular measures were adopted during the year. The two out-patients dispensaries at Princess Street and on Foras Road worked well. The total number of patients treated at the Dispensaries was 1,327 against 1,302 in 1924. Domiciliary visits paid to see patients too ill to attend the Dispensaries numbered 2,661, as compared with 1,130 in 1924. The in-patients were treated in the Turner Sanitarium which accommodates 32 beds. The number of new patients admitted to

this Sanitarium was 133 against 126 in 1924 ; of these 38 were discharged improved, 72 were discharged at their own request, 28 died and 20 were under treatment at the end of the year. The Standing Committee having noticed that full advantage of the Turner Sanitarium is not being taken by the public, have requested the Commissioner under their Resolution No. 5251, dated the 18th August 1926, to suggest measures, in consultation with the Executive Health Officer, for popularising the Sanitarium. At present patients admitted into the Turner Sanitarium are more or less too advanced cases for sanitarium treatment and which should more appropriately have been sent to a hospital. Many a patient in the initial stages of the disease, who has been refused admission on account of want of accommodation has to remain at home and spread infection in the absence of facilities for admission into other Sanitariums out of Bombay. It would be, therefore, desirable that the Turner Sanitarium should be in touch with and co-ordinate with other Sanitariums in India and especially with those in the Bombay Presidency, so that any patients who after a short stay in the Turner Sanitarium be found to be suitable for sanitarium treatment could be recommended for admission into one of the Sanitariums outside the City by the Medical Officer in charge. In the interest of the health of the City the Health Department should submit definite proposals to the Corporation for effectively eradicating the ravages which tuberculosis is causing amongst the people.

54. INFECTIOUS DISEASES.—The Arthur Road and Maratha Hospitals had comparatively less work than last year. The Arthur Road Hospital with its accommodation of 216 beds had 518 patients admitted to it during 1925, against 1,126 in 1924. The total number of admissions to the Maratha Hospital which contains 106 beds was 549 as compared with 623 in 1924. The average daily number of patients treated in the former was 27 and in the latter 13·40, the average weekly cost per patient being Rs. 14-7-7 and Rs. 17-2-4 respectively, as compared with Rs. 14-6-7 and Rs. 18-10-1 in 1924. In the Arthur Road Hospital the mortality rate for all diseases was 23·7 per cent. as compared with 22·7 in 1924 and in the Maratha Hospital 21·10 per cent. as compared with 27·17 per cent. in 1924.

#### KING EDWARD VII MEMORIAL HOSPITAL AND SETH GORDHANDAS SUNDERDAS MEDICAL COLLEGE.

55. The year under report marks an important chapter in the history of the Corporation's achievements inasmuch as it witnessed the fruition of the long cherished aim of establishing a first class Hospital in the north of the Island. The King Edward VII Memorial Hospital with its present accommodation of 200 beds was opened on the 15th February 1926, and its sister institution the Seth Gordhandas Sunderdas Medical College on 1st June 1925, the formal opening ceremony of these institutions being performed on the 22nd January 1926 by His Excellency Sir Leslie Wilson, Governor of Bombay. The College was affiliated to the University from June 1925 for a period of 18 months in the first instance upto the course of Inter M.B.B.S. The College opened with 46 students of which 6 were lady students. The construction of the Hostel building was expedited so as to be in readiness to accommodate 100 students before the beginning of the academic year, that is, about the end of the financial year under report. An application was made on the 20th November 1925 for the permanent affiliation of the College for the full course of M.B.B.S. and the Inspection Committee of the University visited the College on the 30th January and the Hospital on the 13th March 1926. The Committee's report forms Appendix E to the Dean's Report. The University has since been pleased to affiliate the College under the conditions stated in the Committee's Report. The remark of the Inspection Committee that "the system of having Honorary Medical staff is quite the rule in the United Kingdom but it is quite new to India and the results of the working of the King Edward VII Memorial Hospital will be watched with interest by all" is significant and it is hoped that

this experiment will prove a success and serve as a model to all India. There have been in all 7 endowments and a donation of Rs. 20,000 and of 2 sets of books for the library. The Standing Committee wish to record here their grateful acknowledgments for the same. The Hospital did some solid work in spite of its nascent stage. The number of in-patients treated was 274 and that of out-patients 1,311. Police cases, roadside accidents or those involving Medico-legal work were not admitted but arrangements are being made to admit them. The Standing Committee take this opportunity of thanking the Honorary Staff for the valuable services rendered by them in carrying on humanitarian work in the Hospital with conspicuous zeal and success and hope this spirit will continue.

56. Considerable progress has been made with regard to the construction of the Nowrosjee Wadia Maternity Hospital. His Excellency Sir Leslie Wilson's efforts towards the amelioration of the condition of the sick by increasing the hospital accommodation in the City have so far been very successful. An influential Committee appointed by Government to collect funds for the purpose have made remarkable progress. Sir N. N. Wadia, K.B.E., C.I.E., and his brother Mr. C. N. Wadia, C.I.E., have offered to contribute Rs. 16 lakhs for a purely medical hospital in the vicinity of the Nowrosjee Wadia Maternity Hospital and the King Edward VII Memorial Hospital.

57. MUNICIPAL LABORATORY.—The total number of samples examined in the Municipal laboratory during the year was 7,568 as compared with 5,499 in 1924. Of these, 6,322 were examined chemically and 1,246 bacteriologically as against 4,486 and 1,013 respectively in the year previous. Of those chemically examined, 5,442 were samples of milk and 146 of other foodstuffs. Of the 5,396 milk samples examined for preservatives, 46 were found to contain Boric Acid and 15 Boric Acid and Formalin. Of the 5,442 samples of milk, 2,563 namely 47·4 per cent. were found to be not genuine. Though the Bombay Prevention of Adulteration Act was passed during the year it could not be put into operation as the rules thereunder have not been passed.

### Primary Education.

58. This year is an important landmark in the Educational history of this City inasmuch as the first beginnings of free and compulsory education in the City were made in F and G Wards. This involved much spade work to be done. A preliminary Census had to be taken and in order to effect economy, the Inspector of the Aided Schools was deputed to do the work which brought in a saving of Rs. 6,000. The census operations commenced in May 1925 and by the end of October everything was in readiness. Actual compulsion was brought into force on 2nd November 1925. Before this date the exact number of school-going children was 5,663. The preliminary census revealed that the total number of children liable to compulsion was 17,613. At the end of this year the actual number of children going to School was 12,001 as against 5,663 prior to the introduction of compulsion. Judging from these results of 5 months it may be hoped that the scheme will be complete in these wards before the end of the current year. 42 new schools were opened as a result of compulsion, 35 of them being Marathi. It is difficult to estimate the actual cost of compulsion on the data available at present. But for reasons explained in the report it may be estimated to be in the neighbourhood of Rs. 1,50,000 as against 9 lakhs as per estimates of 1923. Compulsion has not yet been applied to Mohammedan girls in the wards but the Municipality are in correspondence with Government in the matter. The number of Mohammedan girls attending schools at present is 400 and if compulsion is introduced about 900 more will have to be provided for. A scheme for the introduction of compulsion in the other wards of the City has since been submitted by the Schools Committee and is under the consideration of the Primary Education Committee of the Corporation. The recurring expenditure of the scheme is estimated at Rs. 13,44,600 and the non-recurring expenditure at Rs. 3,71,840. The abolition of fees in F and G Wards

from 1st November 1925 has resulted in a reduction of about of Rs. 10,000 in the income from this source and the abolition of fees in all other wards from 1st April 1926, will entirely eliminate this item of income from the next year. Although the introduction of compulsion in all wards may not be possible at once for financial and other reasons, the total abolition of fees is a step which will earn the gratitude of the poor.

59. **SCHOOL BUILDINGS.**—The construction of suitable sanitary buildings for the location of schools is a matter which requires serious consideration at the hands of the Corporation. Government having expressed their inability to promise any grant in excess of the 5 lakhs under the ten lakhs programme and that any claims under the Grant-in-aid Code would be dealt with in order of urgency as funds are available, the Schools Committee have recommended that the Corporation should proceed with the construction of school buildings, the funds required being provided for by the Corporation for the present. The question is under the consideration of the Primary Education Committee who have requested the Schools Committee to draw up a representation to Government in the matter. In the interest of the health of the school-going children this matter should be expedited. The present system of locating schools in hired buildings which in most cases are not suitable for the purpose is far from satisfactory both from the points of view of sanitation and expenditure on rent.

60. **EXPENDITURE.**—The total expenditure for the year (year of compulsion) amounted to Rs. 25,44,100 as against Rs. 23,46,350 in the preceding year (year before compulsion). The total receipts for the year amounted to Rs. 27,11,944 as against Rs. 25,31,252 in 1924-25. The Municipal grant during the year of report, i.e., of compulsion, amounted to Rs. 26,56,500 as against Rs. 24,26,090. The average expenditure per pupil during the year of report works out at Rs. 57-7-0 as against Rs. 57-9-0 in the year previous. There may be still further scope for retrenchment in the expenditure and it is hoped that the Schools Committee will continue their present policy and not slacken their efforts in that direction.

61. **SCOUT MOVEMENT.**—The Scout movement which was inaugurated last year has made a remarkable progress. About 32 teachers were trained as scout masters and the number of scouts and cubs on the roll by the end of the year was respectively 512 and 461. The advantages of this movement to the younger generation cannot be over-estimated and any amount of energy and money spent in furthering this activity cannot be considered as a waste. Among the other innovations introduced, visual instruction is by no means less important. Cinema Apparatus consisting of the Pathe Educational Model was purchased during the year. The total number of exhibitions was 12. The assistance received in this matter from the Government Deputy Educational Inspector is acknowledged with thanks.

62. The Schools Committee endeavoured during the year to lend an industrial bias to Primary Education on the suggestion of Government. A new vocational curriculum drawn up by the Committee has been approved by the Corporation and Government. Hitherto the number of schools equipped with this kind of instruction is 11. From these small beginnings the Standing Committee hope a great future can be built up, as these schools may help to turn out not only educated men, but skilled handicraftsmen.

63. It is to be very much regretted that the programme of introduction of free and compulsory education all over the City has been hampered by Government withholding their promised help. It may still be hoped that Government may reconsider their decision in the matter and save themselves and the Corporation needless expenditure on litigation.

THE MUNICIPAL AUDITORS.

64. The Auditors were as vigilant during the year as in the past and some of the irregularities pertaining to Municipal Accounts brought by them to the notice of the Standing Committee have been set right and others are being enquired into. The Auditors' report on the Municipal Accounts printed on pages 321-334 is a lucid exposition of the finances of the Municipality.

ACKNOWLEDGMENT.

65. Before concluding, the Standing Committee desire to place on record their high appreciation of the very able and successful administration of Municipal affairs by Mr. H. B. Clayton, C.I.E., I.C.S., during the year.

MUNICIPAL CORPORATION OFFICE, }  
BOMBAY, 17th November 1926. }

A. K. PAI,  
*Chairman, Standing Committee.*

# Annual Administration Report of the Municipal Commissioner for the City of Bombay for the year 1925-26.

## I.—Corporation and Standing Committee.

### CORPORATION.

1. Mr. Joseph Baptista, L.C.E. (Bombay), B.A., LL.B., (Cantab.), Bar.-at-Law, M.L.A., was elected President of the Corporation at the meeting held on the 6th April 1925, and held that office upto the end of the official year.

2. One hundred and twenty-three meetings of the Corporation and one hundred and forty-four meetings of Committees of the Corporation other than the Standing Committee were held.

3. The following changes took place during the year in the personnel of the Corporation:—

Mrs. Harry Hodgkinson died on the 20th May 1925, and in her place Mr. E. R. Hirjibehedin was elected by the ratepayers of A Ward on the 8th July 1925.

Sir Mahomed Hajeebhoy, Kt., died on the 24th February 1926.

4. The following Councillors were absent from the meetings of the Corporation for the periods shown below, under Section 17 (b) of the Municipal Act:—

NAME.	PERIOD.
Mr. H. J. Davis .. .. .	From 1st April upto 17th September 1925.
Major Cajetan Fernandes.. .. .	From 7th May upto 23rd December 1925.
Mr. Hormaji Maneji Chowna.. .. .	From 16th April upto 10th September 1925.
Dr. Jethalal Vasmalidas Vora .. .. .	From 11th May upto 21st December 1925.
Mr. Mathooradas Trioumji .. .. .	From 12th November 1925 upto 31st March 1926.
Dr. Nadirshaw H. E. Sukhia .. .. .	From 9th April 1925 upto 31st March 1926.
Dr. Ramakrishna H. Bhadkamkar .. .. .	From 8th June 1925 upto 31st March 1926.
Dr. Accacio G. Viegas .. .. .	From 1st April upto 31st May 1925.
The Hon'ble Mr. Vithalbai J. Patel .. .. .	From 16th November 1925 upto 25th March 1926.

### THE STANDING COMMITTEE.

5. Mr. C. W. E. Arbuthnot, B.E., B.A. (R.U.I.), was elected Chairman of the Standing Committee at the meeting held on the 1st April 1925, and held that appointment throughout the year.

6. There were fifty-three regular meetings and twelve special meetings of the Standing Committee and sixty meetings of its Sub-Committees.

7. There were fifty-one attendances of members for the Audit of Municipal Accounts and ninety-nine for signing Cheques.

8. The following changes took place during the year in the personnel of the Standing Committee:—

Mr. Behramji Navrosji Gamadia, B.A., was appointed by the Corporation on 9th July 1925 in place of Mr. Byramjee Jeejeebhoy who ceased to be a member of the Standing Committee.

Mrs. Harry Hodgkinson died on the 20th May 1925 and in her place Mr. Ramchandra S. Asavale was appointed by Government with effect from 26th June 1925.

9. The following is the list of Municipal Councillors who held office on the 31st March 1926 :—

MR. JOSEPH BAPTISTA, L.C.E. (Bombay), B.A., LL.B. (Cantab.), Bar.-at-Law, M.L.C., C.—President.

- ABDUR RAHIM DIMITKAR, Mr., J. P., G.  
 AHMAD HAJI SIDIK KHATRI, Mr., R (E Ward).  
 AMIRUDIN SALEBHAI TYEBJI, Mr., R (B Ward).  
 ANANTA KRISHNA PAI, RAO BAHADUR, B.A., J.P., R (D Ward).  
 ARBUTHNOT, C. W. E., Mr., B.E., B.A. (R. U. I.), J.P., G. (Chairman, Standing Committee).  
 AVANTIKABAI GOKHALE, Mrs., C.  
 BACHUBAI RANCHODDAS LOTEVALA, Miss, R (C Ward).

KT, C.B.E., J.P., M.L.C., G.  
VELJI LUKHAMSI, MR., B.A., LL.B., R (B Ward).  
VIEGAS. ACCACIO G., DR., L.M.&S., J.P., R (D  
Ward).  
VITHALDAS DAMODAR GOVINDJI, MR., R (C  
Ward).  
VITHALBHAI J. PATEL, THE HON'BLE MR., BAR-  
AT-LAW, M.L.A., R (B Ward).

Mr. H. B. CLAYTON, C.I.E., I.C.S., J. P. Municipal Commissioner,  
Mr. R. P. DESAI, Acting Municipal Secretary.

NOTE.—The letters against the names signify—R, that the Member was elected by the Ratepayers; C C, by the Chamber of Commerce; U, by the University; M.A., by the Millowners' Association; I.M.C., by the Indian Merchants' Chamber; C, by Co option; and G, appointed by Government.

10. Mr. H. B. Clayton, C.I.E., I.C.S., held charge of the office of Municipal Commissioner throughout the year.

11. Mr. R. P. Masani, M.A., was Deputy Municipal Commissioner upto 15th January 1925, when he proceeded on combined leave for 2 years. Mr. A. A. Moulvi, B.A., Ag. Municipal Secretary, who was appointed to act as Deputy Municipal Commissioner from 16th January 1925, died on 10th April 1925.

12. Mr. N. D. Mehta, B.A., was appointed Personal Assistant to Commissioner from 15th June 1925 to 20th October 1925 and as Deputy Municipal Commissioner from 21st October 1925. He held the office upto the end of the year.

13. Mr. S. A. Shete, B.A., held the appointment of Personal Assistant to Commissioner upto 13th April 1925, when he was appointed Acting Superintendent of Licenses. He held the latter appointment up to 2nd March 1926, when he proceeded on leave to join the appointment of Chief Officer, Ahmedabad Municipality. Mr. G. H. Gadsden, who was appointed Acting Personal Assistant to Commissioner from 14th April 1925, held the appointment upto 15th March 1926, when he was appointed Acting Superintendent of Licenses *vice* Mr. Shete.

## II.—Heads of Departments.

14. Mr. James W. Mackison, C.I.E., B.Sc., M.I.C.E., Special Engineer, Development Works, proceeded on combined leave for four months and a half from 30th March 1926 and Mr. T. K. Roddan, M. Inst. C.E., M.I. Mech. E., was in charge of the office of the Special Engineer, Development Works Department, during his absence on leave.

15. Mr. Nicholas Maughan, M.I.C.E., M.R.S.I., Deputy Executive Engineer, Drainage, who was on one year's combined leave from 19th January 1925, extended the leave by one year's furlough with effect from 19th January 1926. Mr. Dinshaw Dadabhoj Daruwalla, L.C.E., A.M.I.C.E., M.R.S.I., Senior Assistant Engineer, Drainage, continued to act as Deputy Executive Engineer, Drainage.

16. Mr. H. J. Trivess Smith, M.I.C.E., M.I.M.E., Special Engineer, Tansa Completion Works, was granted combined leave out of India from 17th July 1925 to 26th November 1925. During this period Mr. A. W. Stonebridge, A.M.I.C.E., A.M.I.M.E., Resident Engineer, Southern Division, conducted his duties in addition to his own work.

17. Mr. A. F. Macdonald Clark, M.A., B.Sc., M.I.C.E., M.I.M.E., Consulting Engineer, Kasheli Bridge Construction, was appointed as a wholtime officer from 1st April 1925. He left the Municipal service on 21st June 1925.

18. Mr. M. R. Tambe, B.A., L.C.E., F.S.A.A., A.I.A., was confirmed in the appointment of the Chief Accountant during the year. He was on privilege

leave for two months from 15th February 1926, and Mr. T. H. Bird, Test Audit Officer, acted for him.

19. Dr. J. E. Sandilands, M.A., M.D., D.P.H., Executive Health Officer, proceeded on combined leave for six months from 1st March 1926 and Dr. J. S. Nerurkar, B.Sc., L. M. & S., D.P.H., Deputy Executive Health Officer, was appointed to act for him.

20. Dr. Jivraj N. Mehta, M.D., M.R.C.P. (Lond.), was appointed Dean, King Edward VII Memorial Hospital and The Seth Gordhandas Sunderdas Medical College from 1st April 1925. He continued in the appointment throughout the year.

21. Mr. R. G. Robottom, Assessor and Collector, was on combined leave for one year from 14th April 1925 during which period Mr. H. Wald, Deputy Assessor and Town Duty Refund Officer, acted for him.

22. Mr. N. S. Kowshik, B.A., Superintendent of Licenses, acted as Town Duty Refund Officer from 14th April 1925 up to the end of the year, while Mr. H. Wald acted as Assessor and Collector.

23. The following officers continued in their respective appointments throughout the year:—

Mr. R. P. Desai, Acting Municipal Secretary.

Mr. T. K. Roddan, M. Inst. C.E., M. I. Mech. E., Executive Engineer.

Mr. W. A. Niven, A.M. Inst. C.E., Hydraulic Engineer.

Mr. E. Gordon Cameron, M.I.M.E., A.M.I.E.E., M.R.S.I., Dy. Executive Engineer, Mechanical Branch.

Mr. Ernest T. Annett, M.I.M.C.E., F.S.I., A.R.S.I., Senior Assistant Engineer, Roads.

Mr. T. C. Greenop, Chief Officer, Fire Brigade.

Captain C. M. Flanders, V.S.R., A.V.C., Superintendent of Markets.

Mr. Earnest R. Fern, Curator and Secretary, Victoria and Albert Museum.

Mr. J. M. Doctor, C.M.Z.S., Superintendent of Gardens.

Mr. K. N. R. Ranina, Storekeeper.

Mr. M. I. Farooqui, B.A., Secretary, Schools Committee.

### III.—Financial.

#### I. GENERAL.

24. The year's income showed an increase of Rs. 3,16,238 over that of the previous year, and the expenditure a decrease of Rs. 9,94 0. The net result of the transactions for the year disclosed a surplus as follows:—

	Rs.
Revenue .. .. .	3,05,31,359
Expenditure .. .. .	2,90,87,636
	<hr/>
Surplus .. .. .	14,43,723

The net surplus in 1924-25 was Rs. 1,58,025.

25. The working cash balance at the beginning of the year was Rs. 78,61,424 including Rs. 18,76,648 for renewal of grants for 1924-25 and previous years, Rs. 7,37,151 the value of stores in hand (excluding stores held on Capital account to the extent of Rs. 9,68,292), Rs. 1,00,000 the minimum required to be reserved under the Municipal Act, Rs. 22,28,471 the contribution payable to the City Improvement Trust in 1925-26 and Rs. 16,06,044 the amount advanced for the purchase of plant and machinery. At the close of the year the working

cash balance was Rs. 93,05,147, of which Rs. 15,68,726 were on account of grants for 1925-26 and previous years to be renewed, Rs. 7,02,074 the value of stores in hand (excluding stores held on capital account to the extent of Rs. 11,31,206), Rs. 1,00,000 the minimum required to be reserved by law, Rs. 22,39,225 the contribution payable to the City Improvement Trust in 1926-27 and Rs. 17,48,707 the amount advanced for the purchase of Plant and Machinery.

## II. INCOME.

26. During the year under report the only variation in the rates of taxation was in respect of the supply of water by meter measurement as shown below:—

	Rates for 1924-25.		Rates for 1925-26.	
		Ans.		Ans.
Development Department .. ..		4		5
Properties beyond 500 ft. from the main .. .. .		3		8
General and Domestic .. .. .	}	4	}	8
Gymkhanas, Lawns, Play grounds, and Race Course.				
Government properties .. .. .				
Municipal properties .. .. .	}	5	}	8
General and Domestic with gardens..				
Kurla .. .. .		8		12
				Re.
Building purposes .. .. .	}	8	}	1
Milch-cattle Stables .. .. .				
Railways .. .. .				
Port Trust .. .. .	}	12	}	1
Hotels .. .. .

Flour Mills .. .. .				
Bleaching Mills.. .. .				
Other Factories .. .. .				
Stables .. .. .				
Miscellaneous properties .. .. .				
Bandra station.. .. .				

The receipts for the year exceeded those of 1924-25 by Rs. 3,16,238. The principal increases and decreases are given below:—

	Rs.	Rs.
Increases under—General Tax .. ..	71,263	
Cotton duty .. ..	1,82,962	
Water works .. ..	7,26,110	
Education .. ..	1,40,087	
Building regulations .. ..	94,516	
		12,14,938
Decreases under—Town duties .. ..	4,22,549	
Interest and profit on investments .. ..	5,65,187	
		9,87,736

27. The incidence of taxation per head increased from Rs. 21-12-0 to Rs. 21-14-4 for the year on the basis of the estimated annual increase of 19,646.9 in the population of the City over the Census figure of 1921.

28. As compared with the revised estimates, the actual receipts showed a net decrease of Rs. 16,825.

## III. EXPENDITURE.

29. The expenditure for the year was Rs. 2,90,87,636, showing a decrease of Rs. 9,69,460 as compared with the previous year. The principal increases and decreases and the reasons thereof are given in para. 29 of the Chief Accountant's report.

30. The net unhyпотheated Surplus Cash Balance on 31st March 1926 was Rs. 26,52,334.

31. The total revised estimates for the year aggregated Rs. 3,23,37,545 and the expenditure amounted to Rs. 2,90,87,636, leaving an unexpended balance of Rs. 32,49,909 out of which grants aggregating Rs. 15,68,726 are required to be renewed for expenditure in 1926-27, the net savings being Rs. 16,81,183. The savings in expenditure and renewal of grants are dealt with in paras. 25 to 28 of the Chief Accountant's report.

32. Additional grants sanctioned during the year aggregated Rs. 4,83,309 against Rs. 6,96,732 in 1924-25.

#### IV. LOAN WORKS EXPENDITURE.

33. The expenditure on Capital works during the year amounted to Rs. 1,67,17,577 as under:—

	Rs.
Loan Works including Tansa Completion Scheme .. ..	1,03,43,546
Development Schemes .. .. .	57,80,739
Trust Funds .. .. .	1,11,504
Worn-out Water Mains Renewal Fund .. .. .	52,594
Land and Buildings Fund .. .. .	4,29,194
	1,67,17,577

#### V. CAPITAL DEBT.

34. During the year under report Rs. 90,00,000 were taken up by the Corporation from Government out of the loan of 2 Crores sanctioned to be raised in 1924-25 and out of the loan of Rs. 150 lakhs (1925-26).

The loans raised from the public amounted to Rs. 63,22,500 as under:—

Rs. 46,77,500 out of Rs. 160 lakhs loan raised for the improvement of the water supply.

„ 16,45,000 out of Rs. 50 lakhs loan for the acquisition of lands for roads and streets and other improvements.

Rs. 63,22,500

Reduction of the debt during the year amounted to Rs. 79,68,354.

35. The Loan liabilities of the Corporation at the close of the year including the advance of Rs. 31 lakhs received from Government for Mahim Development Schemes stood at Rs. 18,16,65,717. The total Sinking Fund investments made upto 31st March 1926 totalled Rs. 2,64,31,256. The classification of debt and debt charges and the portion regarding Sinking Fund investments have been shown in paras. 31 to 33 of the Chief Accountant's report.

36. The general financial position and the position in regard to the margin of borrowing powers have been explained in the Chief Accountant's report, para. 57.

#### VI. ASSETS AND LIABILITIES.

37. The revenue and capital assets of the Municipality at the close of the year as compared with 1924-25 will be seen from the following:—

	At the close of 1925-26.			At the close of 1924-25.			Increase.
	Revenue.	Capital.	Total.	Revenue.	Capital.	Total.	
	Ra.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Assets .. ..	1,90,04,057	25,34,59,988	27,24,64,043	1,87,86,498	24,38,91,402	26,26,77,900	97,86,143
Liabilities .. ..	1,35,06,860	20,04,55,296	21,39,62,156	1,50,30,193	19,43,04,390	20,93,94,592	45,67,564
Excess Assets over Liabilities .. ..	54,97,197	5,30,04,692	5,85,01,887	37,56,305	4,95,27,003	5,32,83,308	52,18,57

## STORES ACCOUNT.

38. The balance of stock including Surplus and Obsolete Stores on 31st March 1926 stood at Rs. 14,77,377 against Rs. 12,33,775 at the close of 1924-25, thus showing an increase of Rs. 2,43,602. The outstanding balances on account of asphalt, etc., purchased for Capital roads was Rs. 3,55,903.

## STREET IMPROVEMENTS.

39. The total liabilities after allowing for all ascertained time-barred claims on account of set-backs aggregated Rs. 15,97,634 upto 30th June 1926 against which sanctioned funds aggregate Rs. 4,86,627 (*vide* Chief Accountant's para. 55), leaving a net liability of Rs. 11,11,007.

## SPECIAL FUNDS.

40. The Municipal Fire and Accident Insurance Fund stood at Rs. 3,37,064 at the close of the year, the Worn-out Water Mains Renewal Fund at Rs. 3,64,487, the net Premia Fund at Rs. 5,94,055, the Land and Buildings Fund at Rs. 20,33,578, Plant and Machinery Depreciation Fund at Rs. 8,54,918, Fines Fund at Rs. 1,70,084 and Provident Fund at Rs. 8,60,019 (*vide* Appendix No. IV to the Chief Accountant's report).

## FIRE TAX.

41. The surplus in the account of the Fire Tax at the close of the year amounted to Rs. 1,64,020 (*vide* para. 56 of the Chief Accountant's report).

42. The comparison of the net revenue and the net expenditure for 1924-25 and 1925-26 is shown below in accordance with Standing Committee Resolution No. 12212, dated 3rd February 1892:—

Particulars.	1924-25.	1925-26.
<b>INCOME.</b>	<b>Rs. a p.</b>	<b>Rs. a p.</b>
<i>Net revenue after deducting refunds, drawbacks and charges in respect of Assessment and Collection and granting of refunds.</i>		
General Tax .. .. .	1,20,00,428 12 2	1,20,80,667 0 2

Net working balance available for the requirements of the following year .. .. .	70,02,436	75,33,527	80,83,081	74,89,760	93,14,218

#### IV.—Assessment and Collection of Revenue.

44. The rates of taxation were the same as in the preceding year, viz., General Tax (including Fire Tax) 11½ per cent., Water Tax 3½ per cent. and Halalkhore Tax 3 per cent. The charge for water by meter measurement was increased all round except in the case of water used for charitable purposes.

45. The total demand for the year was as follows :—

	Demand.	Increase over
	Lakhs.	1924-25.
	Rs.	Lakhs.
	Rs.	Rs.
General Tax .. .. .	131.41	4.16
Water Tax .. .. .	64.59	8.68
Halalkhore Tax .. .. .	31.78	.81
	227.78	13.65
Corresponding figures for 1924-25 .. .. .	214.12	2.13

46. The outstandings of all the taxes at the end of the year amounted to Rs. 15,72,036 against Rs. 15,01,615 in the preceding year. The amount includes Rs. 2,74,089 on account of the supplementary claim against Government; otherwise it shows a substantial decrease on the figures of 1923-24.

47. The total number of properties registered in the Assessment Book at the end of the year was as under :—

Buildings	.. .. .	35,826
Salt pans	.. .. .	79
Lands, including tanks, wells, &c.	.. .. .	10,233

48. The rateable value of properties increased from Rs. 11,44 lakhs to Rs. 11,84 lakhs showing an increase of Rs. 40 lakhs against Rs. 6 lakhs in 1924-25.

49. The total amount collected during the year on account of the tax on vehicles and animals was Rs. 6,58,940 against Rs. 6,46,028 in the preceding year.

50. Of the sum fixed by the Chief Presidency Magistrate under Section 45 (1) (b) of the City of Bombay Police Act, a balance of Rs. 21,538 remained outstanding at the close of the year.

#### TOWN DUTIES.

51. The rates of duties leviable during the year were the same as in the preceding year. The gross collection from refundable Town Duties amounted to Rs. 31,52,824 against Rs. 33,43,123 in 1924-25 and the refunds allowed in respect of goods exported during the year were Rs. 15,75,383 against Rs. 16,24,009 in the previous year. The net revenue, therefore, was Rs. 15,77,441 against Rs. 17,19,114 showing a decrease of Rs. 1,41,673.

52. The revenue derived from the non-refundable duty on cotton was Rs. 34,82,333, the Municipal share being Rs. 14,92,428 against Rs. 13,09,406 in 1924-25.

53. The total revenue during the year was Rs. 30,69,919 against Rs. 30,28,580 in the preceding year.

### V.—PUBLIC WORKS.

#### MUNICIPAL BUILDING CONSTRUCTION.

54. The general conditions as regards the prices of building materials and labour were more favourable than in the preceding year. The construction of a market at Chowpaty and of a market and a primary school on the reclaimed site of the Gilder Tank are in progress. The following are among the important works completed during the year:—(1) a Fire Brigade Station at the Cotton Depot, Sewree; (2) Dhobi Ghat and Quarters at the Maratha Hospital; (3) filling in the low-lying ground at the Bene Israel Cemetery; and (4) Quarters for the staff at Love Grove.

#### OVERBRIDGES.

55. The western approach to Curry Road Overbridge has been joined to the southern approach to DeLisle Road Overbridge. DeLisle Road and Dadar Overbridges have been completed and opened to traffic and the work of widening Victoria Road is finished. In the Mahaluxmi Overbridge Scheme, the Turf Club have handed over the land, pending negotiations and the construction of the approaches to the bridge has been started by the B. B. & C. I. Ry. Company.

#### ROADS.

56. In the Churchgate Street Scheme, the 20' road between Bruce Road and Tamarind Lane has been widened. The works at Dalal Street and Apollo Street have been completed. The widening of 1st Marine Street is held up for want of funds.

57. Properties in 29 new cases in the Hornby Road-Ballard Pier Scheme have been acquired at a cost of Rs. 25,12,295. 22 unsound buildings have been demolished, exclusive of the military properties already pulled down.

58. Sewers and storm water drains have been laid in Bhawanishankar Road and the road work has been completed. The lighting work is in progress. A portion of the road between Cadell Road and Mahim Kapad Bazaar has been taken in hand.

#### MAHIM DEVELOPMENT SCHEME.

59. The road from Lady Jamshedji Road to Mahim Station has been opened to traffic and the lighting arrangements were completed towards the end of the year. Acquisition work in respect of all properties except one in the Nardulla Tank Scheme has been completed. 6 properties remain to be acquired for the extension of DeLisle Road northwards to meet Lady Jamshedji Road. The new Tansa Mains have been laid.

60. Considerable progress has been made with the acquisition of properties required for the construction of the other roads in this Scheme.

61. The land for the Public Park at Mahim has been cleared and plots are being laid out and leased to different clubs. The Road work will be taken in hand shortly.

#### DRAINAGE.

62. 20 large works in connection with storm water drains, sewers, etc., were carried out at a cost of Rs. 5,37,268. Five works were carried out departmentally at a cost of Rs. 12,475 and 4 works costing Rs. 9,549 were carried out through the Petty Works Contractors.

63. New pattern storm water entrances were provided on various roads as an anti-malarial measure. About 70 miles of pipe sewers, 16 miles of main ovoid sewers and 26 miles of storm water drains were cleaned during the year; the amount of silt removed being 2,682, 1,035 and 12,066 tons respectively. 3,005 tons of silt were removed from catch pits on main and pipe sewers. During the year 221 sullage connections and 87 storm water connections were made.

#### MUNICIPAL WORKSHOPS.

64. The Municipal Workshops were fully employed during the year on the repair of plant and machinery and the manufacture of articles required by the various departments. The bills preferred against departments amounted to Rs. 5,64,552 against Rs. 6,84,247 in 1924-25; the net profit being Rs. 9,195 against Rs. 26,449.

65. The steam pumping plant at Love Grove Pumping Station worked only intermittently during the year. The electric plant was run continuously since its installation and has proved reliable and economical.

66. The storm water sluices are generally in a poor condition. Provision has been made for the construction of a second dam at Cleveland Bunder.

67. All the Ejector Stations are working at their maximum capacity. The renewal of the Rising Main from DeLisle Road to Fergusson Road has been taken in hand. All the air compressor stations have worked satisfactorily during the year.

68. A complete inspection of Workshops and Factories coming within the purview of the Municipal Act was carried out. 601 applications for Permits and licenses and 38 cases relating to smoke and other nuisances were disposed of.

## ROADS AND FOOTPATHS.

69. Action under Section 305 of the Municipal Act was taken in respect of 41 Private Streets and 8 Private Streets were declared Public under Section 306 of the Act. 49 roads and 2 footpaths were taken over from the City Improvement Trust, Bombay Port Trust, Bombay Development Department. About 5,560 square yards were added to roads in different parts of the City as set-backs.

70. The arbitrators having made their award in the long pending dispute about the enhancement of tramway fares, the Gowalia Tank Road extension was brought into use by the Tramway Co.

## PUBLIC LIGHTING.

71. 6,248 gas lamps, 839 electric, 161 alladin and 559 kerosene oil lamps were maintained during the year against 6,240, 625, 167 and 588 respectively in 1924-25. The total cost of Gas, Electric, Incandescent, Oil and Kerosene lighting amounted to Rs. 5,47,920, Rs. 1,98,846, Rs. 76,304 and Rs. 27,127 respectively.

## PRIVATE BUILDINGS.

72. The number of applications received for the erection of new buildings and for alteration to existing buildings was 2 938 against 3,277 in 1924-25. 1,118 summonses were issued against house-owners under the various sections of the Municipal Act. 627 notices were issued for the removal of unsafe structures, of which 441 were complied with and 186 were pending at the close of the year. 30 buildings, or portions thereof, fell down during the year. In 19 cases there were no casualties, but in the remaining 11 cases, 12 persons were unfortunately killed and 18 injured.

73. Action was taken in 68 cases for the removal of huts made of inflammable materials and of these 46 were complied with. Applications were made to the Standing Committee for the removal of unauthorised works in 14 cases. 78 notices were issued during the year to provide sufficient means of egress of which 55 were complied with.

## HEALTH CAMPS.

74. Health Camps consisting of 80 rooms were erected during the year in connection with Plague cases, in addition to the existing Health Camps comprising 177 rooms.

## HOUSE NUMBERING.

75. The revised House Numbering in D Ward was completed during the year. The plans for E Ward have been approved and the work has commenced.

## WATER WORKS.

76. The year 1925-26 was a memorable one inasmuch as the City was faced with the prospect of a serious water famine which was only averted by the timely completion of the first section of the New Tansa Mains from Tansa Lake to Ghatkoper. The completion of this work has resulted in a marked increase in the water supply to the City; the hours at which water is supplied have been extended and the pressure has improved.

77. The total quantity of water received during the year from all sources amounted to 20,781 million gallons on an average of 57 million gallons per day against 18,305 and 50 million gallons in 1924-25. The average daily supply per head for all purposes was 43.51 gallons against 39.12 gallons during the preceding year.

78. The total rainfall at Tansa, Vehar, Tulsi and Powai lakes was less than the average of the last five years by 3.5 per cent., 16.7 per cent., 21.3 per cent. and 21.5 per cent., respectively. Tansa and Powai lakes overflowed during the monsoon.

79. The Filter Plant at Tulsi was completed but could not be brought into use owing to the low level of the water in the lake.

80. The Filter Plant at Powai has again failed to fulfil the guarantee and arrangements are being made to entrust the whole work to Messrs. The Paterson Engineering Co. at the contractors' expense.

81. The supply of water from Vehar Lake was discontinued on 11th September 1925 as sufficient water was available from Tansa Lake through the new main to feed both the Vehar and old Tansa Mains.

82. Analyses of water from Tansa, Vehar and Tulsi Lakes were made fortnightly and the water was at all times found fit for potable purposes.

83. Various improvements have been made in the garden on the Malabar Hill Reservoir, which continues to be a popular public resort. The alterations to the John Hay Grant Reservoir have been completed. The three public tennis courts over the Reservoir have been well patronised.

#### TANSA COMPLETION WORKS.

84. The year under report has been one of extraordinary progress and marks the closing chapter of a mammoth project. On August 31st, 1925, two years after the start of the work, the new line from Tansa Lake to Bombay was opened by the President of the Corporation, Mr. J. Baptista. This marked the completion of the first stage and resulted in a material increase in the water supply to the City. During a period of 31 months, 104 miles of steel pipes have been manufactured and laid, leaving only a very short length of pipe line to be laid to complete the scheme. In spite of the fact that 3 monsoons were encountered during this period, which considerably hampered pipe laying operations, the completion of the biggest water supply pipe line in the world has been carried out successfully in record time.

85. Acquisition proceedings have in the main ended favourably for the Municipality. All the steel pipes have been completed and the quality of the work is excellent. The majority of the 57" pipes required to finish the work have been transported into Bombay.

86. Kasheli Bridge, South, was completed on June 3rd, 1925. A short length of embankment on each side of the Bridge has had to be constantly attended to, owing to the silty nature of the subsoil on which it is constructed. Government have paid a sum of Rs. 13,00,000 as their share of the cost of the roadway over the bridge; and the diversion of the Bombay Agra Road, so as to pass over the Bridge has been started by the Public Works Department. Kasheli Bridge, North, was completed and taken into use during the year.

87. The total sanctioned cost of the Tansa Completion Works amounts to Rs. 5,48,02,514. The total revised Budget grant sanctioned for the year amounted to Rs. 59,34,708 and the expenditure against this grant amounted to Rs. 48,15,869. The total amount spent since the commencement of the works amounts to Rs. 4,74,19,235.

88. A number of distinguished visitors inspected the Tansa Completion Works during the year and the works were visited by the President of the Corporation and the Chairman of the Standing Committee on several occasions.

89. Before the end of the next financial year, the Tansa Completion Works will be handed over to the Water Department for maintenance and the retention of the temporary staff employed on these works will no longer be necessary. The success of the whole scheme is mainly due to the enthusiasm and ability of the officers and men of the temporary staff, and the employees of Messrs. Braithwaite and Co. and the Tata Construction Company; and to the general feeling of harmony and co-operation which always existed between the contractors and the Municipal executive. A special mention must, however, be made of Mr. H. J. Trivess-Smith to whose lot it fell not only to design the works, but to carry them out almost to the last stage of completion before he proceeded in May last on leave preparatory to retirement. Mr. Smith's name will always remain associated with this great project which owes its success in a large measure to his zeal and perseverance.

#### GENERAL STORES.

90. The total value of general stores available for issue was Rs. 14,86,479 and that of stores issued Rs. 9,29,876 leaving a balance of Rs. 5,54,576 after the adjustment of small discrepancies.

91. Stores amounting to over 16 lakhs were purchased during the year from the annual and special contractors. Indian made articles were used in preference to foreign goods whenever procurable at reasonable rates and of fairly good qualities.

92. A large piece of land near the Arthur Road Depot has been obtained for stacking C. I. pipes and specials. Owing to the acquisition of a large portion of the Bellasis Bridge Pipe Depot, other arrangements are being made for the disposal of unserviceable stores.

#### FIRE BRIGADE.

93. The Brigade was maintained in a thoroughly efficient manner throughout the year.

94. The number of calls received during the year was 443, of which 118 were false alarms, against 606 and 231 respectively during the preceding year. There were 12 calls to fallen buildings and 2 to fires outside the jurisdiction of Bombay. The number of fires in the city was 224 against 259 in the previous year. Of these 111 were extinguished by the Brigade and 113 were extinguished before their arrival. The total damage by fires amounted to Rs. 9,83,089 against Rs. 15,25,610 in 1925-26.

95. The water supply was satisfactory and the attendance of the Water Department prompt.

96. Five persons lost their lives as a result of fires during the year and eleven persons received minor injuries.

97. Seven new Fire Alarms were established during the year and the number now totals 136. 71 per cent. of the total number of calls were given through these alarms.

98. All the appliances are in good condition. One Leyland 300/400 gallon motor pump with First Aid Appliances and 35 foot extension ladder has been ordered for the Sewree Cotton Depot Station.

99. The new Fire Brigade Stations at Frere Road and Sewree Cotton Depot were opened on 17th April 1925 and 15th December 1925 respectively. The plans and estimates for a new Station at Naigaum Tank have been approved. The construction of the new station at Mint Road has not yet been taken in hand.

100. On 23 occasions Brigade appliances turned out to fallen buildings. As a result of these collapses 12 persons were killed and 25 slightly injured.

101. The popularity of the Motor Ambulance Service is increasing and there were 627 calls to accidents and 1,098 private hire calls against 494 and 864 respectively in the preceding year. The amount of fees recovered for hire purposes was Rs. 6,615 showing an increase of Rs. 1,700 over the last year.

#### PUBLIC GARDENS.

102. Ten Public Gardens were maintained during the year. The number of visitors to the Victoria Gardens was 18,88,243 against 21,49,615 in the previous year. 140 band performances were given against 148 in 1924. There were 8 performances of Indian Music at the Victoria Gardens, 4 at the Hall of the Bombay Working Men's Institute Social Service League, Elphinstone Road, Parel, and 2 for the first time at the Sir Phirozshah Mehta Gardens. 13 Wireless Concerts were given alternatively at the Sir Phirozshah Mehta Gardens and the Victoria Gardens.

103. Several animals were presented to the Victoria Gardens during the year and a few purchases were made. No exchanges were made with any other garden or dealer.

104. Our best thanks are due to the Director and Assistant Director of the Haffkine Institute who carried out voluntary *Post Mortem* and bacteriological examinations of most of the animals that died in the Gardens.

#### VICTORIA AND ALBERT MUSEUM.

105. The number of visitors during the year was 9,50,806 against 9,70,426 in the previous year. Several interesting additions have been made to the Industrial section.

### VI.—PUBLIC HEALTH.

106. In accordance with the method of calculation approved by Government, the estimated population in the middle of the year 1925 was 12,59,414. The birth rates and death rates have been calculated on this figure.

107. The number of live births during the year was 20,268 against 21,838 in 1924. The birth rate per 1,000 persons was 16.10 against 17.61 in the preceding year.

108. The total deaths during the year numbered 31,968 being 6,806 less than in 1924. The death rate per 1,000 persons was 25.4 against 31.27 in 1924 and with the exception of the year 1915 (24.2) was the lowest on record since 1874.

109. The total mortality from Plague, Cholera and Small Pox was 174, 12 and 570 against 409, 34 and 1,242 respectively during the preceding year. The deaths from Plague and Cholera were the lowest since 1896 and 1898 respectively. The number of deaths from Tuberculosis was 1,404, being 485 less than the decennial average.

110. The mortality among infants was 7,212 as against 9,156 in 1925. The rate of Infant Mortality per 1,000 births was 356 as compared with 419 in the preceding year.

111. The usual measures for the reduction of Infant Mortality were taken during the year. Municipal nurses daily visited the localities and chawls inhabited by the poor and gave advice as to the care and up-bringing of infants and did much useful work in diffusing elementary knowledge of the principles of Health.

and Hygiene among ignorant people. Only 10 nurses were employed against 20 in 1925. During the year they paid 45,452 visits to houses and chawls against 54,543 in the preceding year. The number of cases admitted to the three maternity homes was 1,676 against 1,795 in 1924 and the number of cases confined was 1,534 against 1,626. Pure milk was distributed free or at a nominal price for the benefit of children born in the homes or under the supervision of Municipal Nurses. The work done by the Infant Welfare Society has increased considerably.

112. The scheme for creating a centre for the location of suburban milch cattle stable at Trombay had to be postponed pending legislation for the amendment of the Municipal Act to enable the Corporation to purchase land outside Municipal limits.

113. The total number of vaccine operations was 36,100 against 46,643 in 1924.

114. The quantity of refuse dealt with by the Conservancy staff amounted to 719,979 cart loads against 717,289 in the preceding year.

115. During the year 80,920 night-soil and cess-pool carts and 4,010,063 night-soil baskets were emptied at the several night-soil depots in the City against 116,687 and 4,252,234 in 1924, showing a decrease of 35,768 cart loads and 242,171 baskets. During the year 182 water-closets were substituted for basket privies against 108 in 1924.

#### LICENSES.

116. The total number of licenses issued and the fees recovered during the year were 13,334 and Rs. 1,27,095 against 12,957 and Rs. 1,25,914 during the preceding year. The loss of fees incidental to the demolition of old licensed places or their diversion to uses not requiring licenses amounted to Rs. 20,770 against Rs. 23,838 in 1924-25.

117. The total number of prosecutions instituted was 3,956 against 3,525, and the fines Rs. 3,210 against Rs. 3,568 in the preceding year.

118. The question of licensing the manufacture of bidies or indigenous cigarettes was still under consideration.

119. The total revenue derived from the control of sky-signs and advertisements in the City amounted to Rs. 17,424. 291 prosecutions were instituted for non-compliance with the provisions of the Municipal Act, resulting in 12 convictions and the imposition of fines amounting to Rs. 195. The prosecutions are usually not persisted in, if the parties concerned pay up the fees, etc., in respect of which the complaints are made.

120. Under a recent amendment of the Municipal Act, the manufacture of ice has become licensable and the question of fixing the conditions of the license is under consideration. Similarly hawkers are now required to take out licenses, and this work, together with that of removing encroachment from the public streets, has been entrusted to the License Department.

#### MARKETS.

121. The total revenue from Markets and Slaughter Houses amounted to Rs. 11,61,085 against Rs. 11,20,702 in the previous year. The increase of Rs. 40,383 is due to the receipt of fees from Squatters and Hawkers, Sale of Market Rights, and the collection of arrears outstanding from the year 1924-25.

122. License fees amounting to Rs. 24,455 were recovered on account of Private Markets against Rs. 23,085 in the preceding year.

123. The total quantity of unwholesome food destroyed amounted to 4,45,466 lbs. against 5,76,478 lbs. in 1924-25. The quantity of contraband meat seized and destroyed was 19,730½ lbs. against 36,361 lbs. in the previous year. The large decrease of 16,630½ lbs. is due to the strict measures adopted to check the illicit traffic, and to the transfer to this Municipality of the administrative control of one of the Slaughter Houses at Kurla. The number of buffaloes slaughtered at Bandra was 11,436, that of cows and bullocks 41,270 and of sheep and goats 8,13,900 against 11,233, 42,144 and 8,73,984 in 1924-25. 23 buffaloes, 350 cows and bullocks and 9,529 sheep and goats were rejected. The number of pigs and piglings brought for slaughter at the Arthur Rad Slaughter House was 1,722.

124. The fines inflicted by the Presidency Magistrates for infringement of the provisions of the Municipal Act and Bye-Laws amounted to Rs. 4,371 against Rs. 6,934 in the previous year. This amount includes fines for the importation of contraband meat into the City.

125. The Refrigerator plant worked satisfactorily throughout the year and a sum of Rs. 47,330 was realised from it on account of rents. The question of extending the Plant has had to be deferred for want of funds.

126. The work of constructing Chowpatty and Gilder Tank Markets was taken in hand and is well in progress.

#### KING EDWARD VII MEMORIAL HOSPITAL AND THE SETH GORDHANDAS SUNDERDAS MEDICAL COLLEGE.

127. The current year saw the opening of the King Edward VII Memorial Hospital on 15th February 1926 and its sister institution, the Seth Gordhandas Sunderdas Medical College, on 1st June 1925. The formal opening ceremony of both the institutions was performed by H. E. Sir Leslie Wilson, Governor of Bombay, on 22nd January 1926.

128. The College has been affiliated to the University of Bombay for a period of 18 months from the date of its opening and an application for the complete affiliation of the Hospital and College has since been made.

129. Considerable progress has been made with the work of equipping and organising the two institutions. The Hospital has a total accommodation for 300 beds and 100 beds are now fully equipped. It is expected that the remaining 200 will be equipped early in the ensuing year. 274 in-patients and 1,311 out-patients were treated during the period the Hospital was open during the year.

130. 43 students, including 6 lady students, joined the College on 1st June 1925. The Hostel building containing accommodation for 100 students has been constructed. 7 Endowments for Scholarships at the College and several donations for the Hospital were received during the year.

#### MUNICIPAL SERVANTS' ACT.

131. No circumstances arose in any department of the Municipality in which it was necessary to put into operation the provisions of the Municipal Servants' Act.

H. K. KIRPALANI,  
Ag. Municipal Commissioner.

# CHIEF ACCOUNTANTS REPORT

FOR 1925-26.

# FINANCIAL.

Report of Mr. M. R. Tambe, Chief Accountant, for the financial year 1925-26, forwarded with his No. A.E./C. <sup>535</sup> <sub>Annual Report</sub>, dated 29th July 1926.

I have the honour to submit my report on the accounts of the Municipality for the year 1925-26.

2. During the year under report the only variation in the rates of taxation was in respect of the supply of water by meter measurements as shown below :—

	Rates for 1921-25.		Rates for 1925-26.	
	As.		As.	
Development Department .. .. .	4		5	
Properties beyond 500 ft. from the main .. .. .	3		8	
General and Domestic .. .. .				
Gymkhanas, Lawns, Play Grounds and Race Course .. .. .	4		8	
Government Properties .. .. .				
Municipal Properties .. .. .				
General and Domestic with garden .. .. .	6		8	
Kurla .. .. .	8		12	
Building purposes .. .. .				Re.
Milch Cattle stables .. .. .	8			1
Railways .. .. .				
Port Trust .. .. .				
Hotels .. .. .				
Cotton and Other Mills .. .. .				
Flour Mills .. .. .				
Bleaching Mills .. .. .	12			1
Other Factories .. .. .				
Stables .. .. .				
Miscellaneous Properties .. .. .				
Bandra Station .. .. .				

3. The Income and Expenditure for the year compares with the original and Revised Estimates and the Actuals for the preceding year as follows :—

	Budget Estimates for 1925-1926.	Revised Estimates for 1925-1926.	Actuals for 1925-1926.	Actuals for 1924-1925.	Increase or Decrease.		
					As compared with the Budget Estimates.	As compared with the Revised Estimates.	As compared with the previous year.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Income ...	3,26,68,600	3,05,48,184	3,05,31,359	3,02,15,121	- 21,37,241	- 16,825	+ 3,16,238
Expenditure	3,19,95,983	3,08,00,025	2,90,87,636	3,00,57,096	- 29,08,347	- 17,12,369	- 9,69,460
Surplus ...	...	...	+ 14,43,723	+ 1,58,025	...	...	...

4. The opening and closing Working Cash Balances are as under :—

Opening Balance.	Surplus for the year.	Closing Balance.
Rs. 78,61,424	Rs. 14,43,723	Rs. 93,05,147

This closing balance comprises the following items:

(1) Surplus Revenue Fund ( <i>vide</i> Appendix No. 3) .....	Rs. 54,97,196
(2) Lapsed Grants for 1925-26 required to be renewed in 1926-27 ( <i>vide</i> Appendix No. 2) .....	15,68,726
(3) Contribution on 1st May 1926 to the City Improvement Trust—	
Paid on account pending the ascertainment of actuals for 1925-26 .....	Rs. 22,00,000

*Add—*

Balance due on the actual realisations of the General Tax in 1925-26 .....	Rs. 39,225	22,39,225
		<u>Total Rs. 93,05,147</u>

5. The opening and closing Reserve Stores (including Capital Stores) Balances are compared below:—

	1925-26.	1924-25.	Increase.
	Rs.	Rs.	Rs.
Serviceable Stores .....	18,33,051	17,05,194	+1,27,857
Surplus and Obsolete Stores .....	229	249	— 20
<b>Total Rs.</b> .....	<b>18,33,280</b>	<b>17,05,443</b>	<b>+1,27,837</b>

6. The subjoined statement contains the grants sanctioned for expenditure in 1925-26 outside the Budget Estimates and their comparison with the figures for the previous year:—

	1925-26.	1924-25.	Decrease.
	Rs.	Rs.	Rs.
Additional Grants .....	4,83,309	6,96,732	— 2,13,423
Renewed Grants .....	18,76,648	18,72,507	+ 4,141
<b>Total Rs.</b> .....	<b>23,59,957</b>	<b>25,69,239</b>	<b>— 2,09,282</b>

The grants requiring renewal in 1926-27 as compared with those renewed in 1925-26 are shown below:—

1926-27.	1925-26.	Decrease.
Rs.	Rs.	Rs.
15,68,726	18,76,648	3,07,922

7. The Surplus Revenue Fund as per Appendix No. 3 at the close of the year amounted to Rs. 54,97,196.

The subjoined statement shows the net unhypothecated Surplus Cash Balances on 31st March 1926 :—

LIABILITIES		ASSETS	
	Rs.		Rs.
Reserve Stock .. .. .	18,38,280		
Less—Rebata on account of Capital Stores ..	11,31,208		
<i>- Plant and Machinery—</i>			
Advance up to 31st March 1926:	17,48,707	Reserve Fund, Appendix No. 3 of the Chief Accountant's Administration Report (1925-26) ..	54,97,196
Amount required out of the provision for 1925-26 and previous years ..	1,27,000		
Advance for levelling and metal-ling private Streets and Roads and for Bicycles, Motors, etc., to Municipal employees, etc. ..	79,081		
Estimated excess to be included in Statement "D" .. .. .	88,000		
Minimum required by law ..	1,00,000		
Surplus Cash Balance .. .. .	26,52,334		
	54,97,196		54,97,196

8. The incidence of taxation per head calculated on the basis of the Census for 1911 (9,79,445) for the year 1920-21 and that for 1921-22 calculated on the basis of Census for 1921 (11,75,914) and that for 1922-23, 1923-24, 1924-25 and 1925-26 on the basis of the estimated annual increase of 19,646.9 in the population of the City over the Census figure of 1921 (*vide* Government Resolution, General Department, No. 2547 of the 4th July 1922) is given below :—

Year.	Amount.		
	Rs.	a.	p.
1920-1921	17	9	5
1921-1922	16	15	8
1922-1923	19	13	0
1923-1924	20	6	3
1924-1925	21	12	0
1925-1926	21	14	4

9. The outstanding of rates, taxes and meter hire at the close of the year 1925-1926 stood at Rs. 15,77,797 against Rs. 15,04,984 in the previous year showing an increase of Rs. 72,813 :—

Outstanding at	General Tax.	Water Tax.	Halalkhoru Tax.	Wheel Tax.	Meter Hire.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
31st March 1925	7,86,493	4,04,306	2,13,902	96,913	3,370	15,04,984
Do. 1926	*9,03,266	4,19,797	1,66,928	82,936	4,870	15,77,797
	1,16,773	15,491	53,026	13,977	1,500	72,813
	Increase	Increase	Decrease	Decrease	Increase	Increase

\* Includes Rs. 2,74,081 due from Government for difference in Old and New awards.

The amount outstanding on account of rates, taxes and meter hire at the close of each year during the last five years was as under :—

Year.	Outstanding.	Net Demand.	Percentage of Outstanding to Net Demand.
	Rs.	Rs.	
1921-22	6,57,621	1,57,67,908	4.17
1922-23	9,12,890	1,98,20,040	4.61
1923-24	22,52,188	2,26,82,083	9.93
1924-25	15,04,984	2,40,85,594	6.25
1925-26	15,77,797	2,49,77,230	6.31

The outstandings are still heavy. If, however, Rs. 2,74,081 due from Government for the difference in general tax payable according to the old and new quinquennial award is deducted from the outstanding and the net demand, the outstandings form only 5.28 per cent. of the net demand, showing thus the downward trend well maintained.

10. The receipts for the year were better than those of the previous year by Rs. 3,16,238. The principal variations have been shown under column Nos. 7 & 8 of Appendix No. 1.  
Comparison with Income for 1924-25.

11. The expenditure for the year as compared with that of the preceding year shows a net decrease of Rs. 9,69,460. The details of the principal variations have been shown under column Nos. 9 & 10 of Appendix No. 2.  
Comparison with expenditure for 1924-25.

12. The Loan liabilities at the beginning and at the end of the year were as under :—

Outstanding debt at 1st April 1925.	Loans raised during the year.	Repayment during the year.	Balance of Outstanding debt at 31st March 1926.
Rs.	Rs.	Rs.	Rs.
17,43,11,571	1,53,22,500	79,68,354	18,16,65,717

The state of the Sinking Fund is shown below :—

Amount of Fund at 1st April 1925.	Interest realizations.	Sinking Fund Instalments.	Total.	Withdrawn for repayment.	Amount of Fund at 31st March 1926.
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
2,96,43,114	10,25,670	22,92,739	3,29,61,523	65,30,267	2,64,31,256

Allowing for the Sinking Fund of Rs. 2,64,31,256 against the Outstanding debt of Rs. 18,16,65,717, the net liability is reduced to Rs. 15,52,34,461.

13. The rateable value of properties in the City at the end of the year stood at Rs. 11,84,20,386 and the loan liability at Rs. 18,16,65,717, so that the margin upto which further borrowing is permissible under Section 109 (b) of the Municipal Act is Rs. 5,51,75,055 always provided that the revenue required for the service of fresh loans will be forthcoming. The following statement shows the ratio of debt to the rateable value of properties from 1919-20 :—

Year.	Rateable value of properties.	Municipal Debt.	The ratio of the total amount of debt outstanding on the 31st March of each year to the rateable value of properties in the City as it stood at the same time.
1919-20	Rs. 7,72,47,429	Rs. 8,08,51,477	1:1.047
1920-21	8,39,21,642	8,48,28,042	1:1.011
1921-22	9,34,04,409	9,47,76,867	1:1.014
1922-23	10,12,68,976	11,13,37,850	1:1.099
1923-24	11,38,13,849	14,43,84,438	1:1.241
1924-25	11,44,87,058	17,43,11,571	1:1.522
1925-26	11,84,20,386	18,16,65,717	1:1.534

14. The following statement contrasts the expenditure on Capital Works with Loan Works. the Original and the Revised Estimates during the last five years :—

Year.	Loan and Development Funds and Trust Fund.			Percentage by which actuals fell short of Budget Estimates.	Percentage by which actuals fell short of Revised Estimates.
	Budget Estimates.	Revised Estimates.	Actuals.		
	Rs.	Rs.	Rs.		
1921-22.	1,02,38,000	1,45,20,252	76,92,016	25	47
1922-23.	2,58,68,100	3,55,09,601	2,31,11,023	11	35
1923-24.	4,13,22,344	5,79,38,505	3,38,19,953	18	42
1924-25.	2,78,35,758	4,88,79,450	3,36,99,767	-21	31
1925-26.	1,85,26,069	2,25,16,585	1,02,35,789	12	28
Total Rs.	12,37,90,261	17,93,64,593	11,45,58,548		

The disparity between the actuals and the Estimates has been commented upon by me almost every year, and attempts are made in the direction of cutting down the Budget provisions. Heads of departments must realize their personal responsibility in Budget matters. On their attention to actual needs depends the preparation of an efficient Budget programme and with the increasing expenditure of the Municipality and the complexity of financial problems, we have to realize that greater exactitude in Budget matters is essential to efficient and economic administration. The figures given above do not in fact give a correct idea of the optimism with which the heads of Departments estimate their expenditure during the year. For instance I may state that for the year under report the revised estimates as prepared by departments were far in excess of Rs. 2,25,16,585 as sanctioned by the Standing Committee and the Corporation. Unfortunately I have not got the total for the original demand made by them but it was cut down by the Commissioner by about Rs. 40 Lakhs and the Commissioner's estimate of Rs. 2,55,13,779 was cut down by the Standing Committee and Corporation to Rs. 2,25,16,585 and still the actual expenditure was less than this estimate by 28 per cent. as shown above. In view of the fact that the actual expenditure has, except for 1924-25, always been less than the Budget estimates I would suggest that the Revised Estimates should not be sanctioned for an amount in excess of the Budget Estimates.

## INCOME.

Actuals compared with the original Budget Estimates. 15. A detailed comparison between the Budget Estimates and the Actuals will be found in Appendix No. 1.

The increases in income aggregated Rs. 4,74,606 under certain heads and the decreases amounted to Rs. 26,11,847, in other heads, the result being a net decrease of Rs. 21,37,241.

The following are the main heads contributing to the increases and decreases:—

Budget Head.	Amount of Increase.	Amount of Decrease.	Reasons.
	Rs.	Rs.	
1. General Tax ... ..	.....	7,14,900	Due to rents not having increased as anticipated at the time of preparing the Budget.
2. Town Duties ... ..	.....	2,45,741	Due to less receipts principally of grain, and Sugar and increase in refunds.
3. Cotton Duty ... ..	.....	1,07,571	Due to less imports.
4. Land Conveyance and Music Licenses.	18,272	.....	Due to increase in the issue of licenses.
5. Tobacco Duty ... ..	.....	12,844	Due to less imports.
6. Interest and Profit on Investments of Surplus Land and other Balances.	.....	52,107	Due to instalments of loan from Government having been taken up later than originally intended.
7. Miscellaneous ... ..	.....	5,207	There was increase of Rs. 26,093 under miscellaneous receipts and decrease of Rs. 19,534 under fines for offences against the Law, of Rs. 5,804 under net profit on Muni. Workshops and of Rs. 9,344 under rent of buildings and lands.
8. Water Tax ... ..	.....	6,40,020	Due to less receipts as follows:— Rs. 24,225 on rateable value, Rs. 490,237 from meter measurements. Rs. 69,287 from compounded tax.
9. Education, Primary—	.....	3,62,962	Due to Govt. not having yet agreed to accept liability in excess of the original estimates of the cost of free and compulsory Primary education.
10. Hospitals—			
A. Interest realised on donations from the public.	.....	20,548	Due to transfer of the Securities to Trust Fund account.
E. Receipts from Seth Gordhandas Sunderdas Medical College.	14,154	.....	Due to the college having been opened during the year.
11. Street Cleansing and Conservancy—			
(a) Miscellaneous ... ..	.....	12,944	Due to less receipts from sale of rights.
12. Roads and Overbridges—			
(a) Wheel Tax and Government contribution in lieu of tolls.	.....	3,370	There was an increase of Rs. 14,178 under Public conveyances and a decrease of Rs. 17,548 under Private conveyances.
(b) Ground Rent ... ..	11,385	.....	Increased receipts from Telephone Company and private parties.
(c) Miscellaneous ... ..	6,722	.....	There were more receipts of Rs. 22,465 under Miscellaneous receipts and less receipts of Rs. 19,767 under Miscellaneous fees and Rs. 5,983 under rent of Buildings etc.
13. Drainage and Sewerage.			
A. Hafalkhore Tax ... ..	.....	5,227	There was an increase of Rs. 31,337 under Special service and decrease of Rs. 36,564 under rateable value.
14. Fire Brigade			
A. Fire Tax ... ..	.....	27,555	See remark against item No. 1 above.

## OCTROI DUTIES.

18. The various articles on which duty was levied at the time of import under the provisions of Section 192 (1) of the Municipal Act, the amount levied and refunds allowed thereon under Section 192 (2) on their export are shown in Appendix No. 15.

The gross collections for the year were estimated at Rs. 33,25,000, the refunds at Rs. 16,25,000 and the net revenue at Rs. 17,00,000. The actual gross realizations by the Port Trust and the two Railways were Rs. 31,52,824 and the refunds paid aggregated Rs. 16,81,830. While the gross receipts are less than the estimates by Rs. 1,72,176 the refunds are more by Rs. 56,830 and the reasons for this are to be found, in the opinion of the Town Duty Refund Officer, in the facilities granted to the exporters of grain by rail by dispensing with the submission of Import Town Duty Bills in support of claims.

The net revenue collected and paid into the Municipal Treasury in the year amounted to Rs. 14,54,259 showing a decrease of Rs. 4,22,549 as compared with the actuals of the previous year, viz., Rs. 18,76,808.

The net realizations after deducting the cost of collection amounted to Rs. 12,31,895 against Rs. 16,39,720 in the previous year.

19. Appendix No. 16 shows the net revenue derived from each dutiable article during the ten years ending 1925-26, Appendix No. 17 the actual collections, the refunds admitted, and the net revenue during the five years ending 1925-26, and Appendix No. 18 the gross collections for the year from each dutiable article month by month from each source with the total refunds admitted as compared with the figures of the preceding year.

## COTTON DUTY.

20. Under Bombay Act XX of 1920, the net proceeds of the duty after deducting cost of collection are divisible between Government and the Municipality in the proportion of 4 to 3. The net total collections by the two Railways and the Port Trust for the year under report amounted to Rs. 31,82,333-6-8 as against Rs. 30,55,422-1-3 of the previous year. Rs. 19,89,904-12-11 represent the share of Government and Rs. 14,92,428-3-9 that of the Municipality. There is thus an increase of Rs. 1,82,962-0-1 as compared with the actuals of the previous year, viz., Rs. 13,09,466-9-8 (Vide Appendix No. 18 A).

## REVENUE EXPENDITURE.

21. The final sanctioned grants amounted in the aggregate to Rs. 3,23,37,545 as follows:—

Budget grants ... ..	Rs.	3,19,95,983
Lapsed grants ... ..	„	18,76,648
Additional grants ... ..	„	4,83,309
Final sanctioned grants ... ..	„	3,13,55,940
Savings as per revised estimate ... ..	„	20,18,395
Estimated expenditure as per revised estimates.	Rs.	3,23,37,545

22. The transfers from one Budget head to another without in any way affecting the total Budget provision for the year amounted to Rs. 3,64,815.

23. The total expenditure actually incurred against the aggregate final sanctioned grant, the amount of unexpended balances renewed and the savings are shown below:—

Revised Estimates.	Expenditure.	Balance.	Amount to be renewed.	Net savings.	Percentage of savings on the revised estimates <i>minus</i> renewals.	Percentage of savings in 1924-25.
Rs.	Rs.	Rs.	Rs.	Rs.		
3,23,37,545	2,90,87,636	32,49,909	15,68,726	16,81,133	5.46	3.3

24. The following figures show the percentage of savings to sanctioned grants for the last five years making no allowance for the renewals :—

Year.	Final sanctioned grants after deducting savings taken credit for in the Revised Estimates.	Unappropriated net savings.	Percentage.
	Rs.	Rs.	
1921-22 ... ..	2,46,03,389	3,43,328	1.39
1922-23 ... ..	2,92,77,069	10,04,323	3.43
1923-24 ... ..	3,16,19,512	7,96,952	2.52
1924-25 ... ..	3,29,62,165	10,28,421	3.12
1925-26 ... ..	3,23,37,545	16,81,183	5.20

25. The following table shows the results in regard to total savings for each year from 1921-22 to 1925-26 :—

	1921-22.	1922-23.	1923-24.	1924-25.	1925-26.
	Rs.	Rs.	Rs.	Rs.	Rs.
Savings as estimated in the Revised Estimates ... ..	7,11,287	12,63,000	7,77,000	6,98,974	20,18,395
Further savings accrued in final accounts ... ..	3,34,327	10,04,323	7,96,952	10,28,421	16,81,183
Total Rs. ... ..	10,45,614	22,67,323	15,73,952	17,27,395	36,99,578

26. In the following statement the gross grants sanctioned from 1921-22 are compared with the lapses year by year :—

	Gross grants sanctioned.	Grants to be renewed.	Expenditure booked against gross grants.	Savings on final grants sanctioned.
	Rs.	Rs.	Rs.	Rs.
1921-22 ... ..	2,53,14,676	17,95,108	2,24,64,954	10,54,614
1922-23 ... ..	3,05,40,069	21,11,307	2,61,61,439	22,67,323
1923-24 ... ..	3,23,96,512	18,72,507	2,89,50,053	15,73,952
1924-25 ... ..	3,36,61,139	18,76,648	3,00,57,096	17,27,395
1925-26 ... ..	3,43,53,940	15,68,726	2,90,87,636	36,99,578

The total lapsed grants required to be renewed in 1926-27 aggregate Rs. 15,68,726 against Rs. 18,76,648 in 1925-26.

27. The heads under which the renewals are required will be found in Appendix No. 2.

The more important renewals over Rs. 10,000 and the percentage of renewed grants to grants allotted are shown in the following table :—

Percentage of renewals to total sanctioned grants.	Departments and Service Heads.	Total Renewals.
		Rs.
	I—General Supervision, Collection of Revenue, etc:—	
5.07	A—General Superintendence ... ..	32,516
15.33	C—Upkeep of Municipal Buildings ... ..	13,195
7.46	F—Miscellaneous charges ... ..	37,864
2.16	Debt charges ... ..	1,33,586
4.37	II—Water Works ... ..	2,65,934
24.68	IV—Education, Secondary ... ..	29,550
6.25	V—Public Health ... ..	58,729
11.96	VI—Hospitals and Medical Relief ... ..	1,43,824
7.46	VII—Street Cleansing and Conservancy including Road Watering.	2,54,183
8.27	VIII—Roads and Overbridges ... ..	1,64,278
3.52	IX—Public Lighting ... ..	39,366
7.75	X—Drainage and Sewerage including Halalkhore Branch.	1,93,407
10.46	XI—Fire Brigade ... ..	49,531
23.26	XIII—Gardens and Open Spaces ... ..	57,930
11.04	XIV—Markets and Slaughter Houses ... ..	61,102
31.92	Retrenchment Enquiry ... ..	10,950

28. Against the figure of lapsed grants of Rs. 14,11,582 shown in the Revised Estimates, the actual figure on account of lapsed grants now works out at Rs. 15,68,726 showing an increase of Rs. 1,57,144 over the former figure.

This figure of Rs. 15,68,726 is made up of (1) Rs. 10,45,116 on account of unexpended balances in grants for 1925-26 requiring renewal during 1926-27 and (2) Rs. 5,23,610 being balances in grants for 1924-25 and previous years. Out of Rs. 5,23,610, Rs. 1,56,269 are on account of interest charges on Municipal debentures due but not paid up to the end of 1925-26 and the balance of Rs. 3,67,341 is intended for meeting liabilities incurred but not paid for. Strictly speaking balances in grants sanctioned for expenditure during a particular year should lapse at the close of the year after making due allowance only for charges *actually incurred before the close of that year.*

The present practice of allowing the renewal of grants for indefinite periods without actual liabilities having been incurred is, in my opinion, undesirable and should be stopped, with a view to ensuring efficient control over expenditure. From para 6 above it will be seen that there is a decrease of Rs. 3,07,922 in the amount of grants requiring renewal during 1926-27 as compared with those for the preceding year. There would be a further reduction in renewals if the above proposals are adopted.

Comparison between the actual expenditure during 1924-25 and 1925-26.

29. A detailed comparison between the actual expenditure during 1924-25 and 1925-26 will be found in Appendix No. 2.

The increases in expenditure aggregated Rs. 14,97,220 under certain heads and the decreases amounted to Rs. 24,66,680 in other heads resulting in a net decrease of Rs. 9,69,460.

The following were the main factors contributing to the Increases and Decreases—

Budget Head	Amount of Increase.	Amount of Decrease.	Reasons.
	Rs.	Rs.	
<b>I. General Supervision—</b>			
<b>A. General Superintendence</b>			
(a) Corporation and Standing Committee.	14,295	.....	Due to additional printing and advertisement charges.
(b) Municipal Commissioner's Personal and General Office.	57,829	.....	Due to printing Voters' list and election expenses.
<b>B. Collection of Revenue—</b>			
(b) Town Duty Collection.	.....	10,804	Due to less Commission charges being required to be paid.
<b>F. Miscellaneous charges ..</b>	25,873	.....	Due to increased pension charges payable to the employees who retired in consequence of the retrenchment in the Establishment.
<b>Debt charges .. ..</b>	.....	8,98,127	Owing to reallocation of the loans between General and for Development purposes interest that was charged to revenue on account of General loans became debitable to Development Schemes.
<b>II. Water Works—</b>			
<b>A. Establishment and Labour.</b>	.....	11,226	Decrease in labour.
<b>D. Miscellaneous .. ..</b>	50,863	.....	Due to the working of the chlorinating plant for the full year.
<b>Debt charges .. ..</b>	4,76,137	.....	Due to increased interest and Sinking Fund charges on the proportions of new loans of Rs. 140, 150 and 200 lakhs, raised during the year.
<b>New Works .. ..</b>	.....	23,125	Less expenditure on New Works.
<b>III. Education—</b>			
<b>A. Primary .. ..</b>	2,18,590	.....	Increase due chiefly to the policy of extending Primary education in the City and Preliminary census and to the introduction of free and compulsory Primary education in F and G Wards.
<b>V. Public Health—</b>			
<b>A. General Supervision ..</b>	.....	60,082	Due to less expenditure chiefly under Establishment on account of retrenchment and under printing and Stationery and net destruction.
<b>VI. Hospitals and Medical Relief—</b>			
<b>A. Hospitals and Dispensaries.</b>			
<b>II. Arthur Road Hospital.</b>	.....	43,757	Due to reduced expenditure under Establishment, diets, contingencies and maintenance of Motor Ambulances.
<b>D. Grants-in-aid to Public Medical Institutions.</b>	.....	21,355	Due to less expenditure over Acworth Leper Asylum and to the contribution of Rs. 15,000 towards Infant Welfare Centre not having been drawn during the year.
<b>F. League for Combating Venereal Diseases.</b>	21,187	.....	The Institution was taken over during the year.
<b>G. K. E. M. Hospital ..</b>	51,809	.....	The Hospital and the College were opened during the year.
<b>H. G. S. M. College ..</b>	82,826	.....	

Budget Head.	Amount of Increase.	Amount of Decrease.	Reasons.
VII. Street Cleansing and Sanitation—	Rs.	Rs.	
A. Street Cleansing and Conservancy—			
(a) Superintendence and Inspection.	....	28,623	Due to less expenditure under Establishment on account of retrenchment.
(c) Street Cleansing ..	....	1,35,784	Mainly due to reduced expenditure under labour on account of retrenchment.
(e) Removal of Town Refuse.	....	1,93,663	Due to reduced expenditure under Motor traction, Bullock traction and repairs and maintenance of Loading sidings.
B. Transport of refuse to Deonar.	....	42,060	Due to the arrears of haulage charges not required to be paid in 1925-26 as in 1924-25.
C. Road Watering ..	....	26,917	Due to less charges incurred on labour, hire of bullocks pairs and repairs and renewals in view of the roads having been treated with Asphalt.
VIII. Roads and Overbridges—			
A. Roads, Overbridges and Footpaths ..	....	4,58,993	Due to the recommendations of the Retrenchment Adviser.
IX. Public Lighting .. ..	1,33,125	....	Due mainly to the increase in consumption of electricity on account of the erection of new electric lamps on various roads.
X. Drainage and Sewerage—			
B. Pumping and Compressor stations—			
(b) Compressor station, Colaba.	....	28,091	The actuals for the last year included charges for the work of dismantling the then existing air compressor station at Colaba and installing new one and for renewal of pipe line of air mains at Hotel Majestic.
(c) Pumping station, Love Grove.	....	53,204	The expenditure incurred during 1925-26 on special works was less than that incurred during 1924-25.
(d) Compressor station, Love Grove.	80,624	....	Due to more expenditure on purchase of coal and renewal of crankshaft and other spares of the compressor station.
C. Halalkhore Branch—			
(b) Bullock Traction ..	....	41,141	Due to the policy of replacing Bullock traction by Motor traction.
(e) Motor Traction ..	15,955	....	
XII. Building Regulations, etc—			
A. Executive Engineer's General Office Establishment.	....	16,382	Due chiefly to the acting allowances granted in the leave arrangement of the Executive Engineer and to more expenditure on establishment for inspection and supervision of private buildings incurred during 1924-25.
B. Inspection and supervision of private buildings.	....	45,632	
XIV. Markets and Slaughter Houses—			
(b) Municipal Markets..	....	19,164	Due to reduced expenditure under establishment.
(c) Slaughter Houses ..	....	22,090	Due to less expenditure under feed of cattle, lighting, repairs and maintenance, etc.
(f) Removal of encroachments.	16,611	....	The establishment was maintained for the first time during the year.
XV. Contribution to the City Improvement Trust.	2,07,496	....	Increased contribution was required to be paid on increased realizations of the Municipal taxes.
Contribution to Provident Fund by the Municipal Corporation.	16,858	....	Due to the increase in the number of contributors.
Retrenchment Enquiry ..	....	35,618	

## LOANS RAISED.

## DEBT AND SINKING FUNDS.

31. In the year 1924-25 the Municipal Corporation and Government sanctioned the raising of a short dated loan of Rs. 50 Lakhs for meeting payment of Land Acquisition claims in connection with the Municipal Development Schemes and debentures of the face value of Rs. 49,94,000 were issued to the owners of such lands from time to time, the parties having the option of demanding repayment of the principal amount by giving three months' notice to the Corporation, such notice not to be given earlier than six months after the date of issue of debentures. In accordance with this condition debentures to the extent of Rs. 11,58,500 were surrendered for repayment of Capital during the year under report. The Standing Committee in view of the heavy unexpended loan balances decided upon the reduction of the loan liability and sanctioned the cancellation of the debentures so repaid to the extent of Rs. 10 Lakhs (*vide* their resolution No. 9434 of 25th November 1925). The outstanding liability on account of this loan has thus been reduced from Rs. 49,94,000 to Rs. 39,94,000.

Since the year 1921 the Municipal Corporation borrowed from Government Rs. 8,01 Lakhs from time to time for the following purposes and Government orders regarding the method of repayment were awaited :—

Particulars of Loan.	For different City services.	For Development Schemes.	Total.
	Rs.	Rs.	Rs.
2nd instalment of Rs. 75 Lakhs out of 1½ Crores Loan ... ..	75,00,000	.....	75,00,000
140 Lakhs Loan ... ..	1,40,00,000	.....	1,40,00,000
2½ Crores Loan ... ..	1,08,26,000	1,41,74,000	2,50,00,000
65 Lakhs Loan ... ..	65,00,000	.....	65,00,000
2 Crores Loan ... ..	1,78,00,000	22,00,000	2,00,00,000
150 Lakhs Loan 1925-26 ... ..	40,00,000	.....	40,00,000
Loan for Mahim Development Scheme. ....	.....	31,00,000	31,00,000
Total Rs. ...	6,06,26,000	1,94,74,000	8,01,00,000

The Government requested the Corporation to submit a programme of repayment on the basis of 30 equated payments and as sanctioned under Corporation Resolution No. 9292 of 24th November 1925, a lump sum repayment of Rs. 28,30,000 was made during the year so far as loans for general purposes were concerned, it being further agreed that subsequent yearly repayments be made on 31st March of each year.

In regard to loans raised for development schemes it was originally agreed that repayments be made out of the recoveries on account of the sale of surplus lands. Government however desired us to frame a definite programme of repayment in respect of these loans and the proposals framed by the Municipal Corporation are now under the consideration of Government.

The following statement summarises the state of the Municipal debt as at 31st March 1926:—

	Due to Government.			Due to Public.			Total.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Balance at 1st April 1925 ...	8,55,08,070	15	9	8,88,03,500	0	0	17,43,11,570	15	9
<i>Add—</i>									
Loans raised during 1925-26 ...	90,00,000	0	0	63,22,500	0	0	1,53,22,500	0	0
	9,45,08,070	15	9	9,51,26,000	0	0	18,96,34,070	15	9
Repayment in 1925-26 ..	28,68,353	11	0	51,00,000	0	0	79,68,353	11	0
Balance at 31st March 1926 ...	9,16,39,717	4	9	9,00,26,000	0	0	18,16,65,717	4	9
<i>Less—</i>									
Amount of Invested Sinking Fund at 31st March 1926 ...	.....			.....			2,64,31,255	18	0
	.....			.....			15,52,34,461	7	9

For the purpose of apprising the distinctive character and value to the City in relation to the outlay, Sir M. Visvesvaraya suggested the classification of all loan works under three distinctive groups, *viz.*, (1) General Services, (2) Self Supporting Works and (3) Development Schemes, and in the following statement will be found the allocation of outstanding debt as at 31st March 1926 and the debt charges involved in accordance with this classification :—

Particulars of City Services.	Amount of loan outstanding on 31st March 1926.	Debt Interest.	Sinking Fund.	Interest accrued but not paid.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
General Services ...	7,67,71,121	41,10,695	12,39,134	93,000	54,42,829
Self-Supporting Services—					
Water Works ...	7,63,02,199	36,82,093	10,06,962	17,500	49,06,555
Markets and Slaughter Houses ..	51,24,397	3,08,480	84,997	2,000	3,95,477
Total Rs. ...	8,14,26,596	41,90,573	10,91,959	19,500	53,02,032
Development Schemes..	2,34,68,000	16,24,526	...	....	16,24,526
Grand Total Rs. ..	18,16,65,717	99,25,794	23,31,093	1,12,500	1,23,69,387

32. From Appendix No. 10 it will be seen that including interest due, but not collected, the invested balance of the Sinking Funds on 31st March 1926 amounted to Rs. 2,67,82,981-4-0 which was Rs. 22,036-4-0 in excess of what should have accumulated for the purpose for which the funds have been created.

33. The subjoined statement shows the various kinds of paper with the amounts held in the Sinking Funds at 31st March 1926 :—

Name of Sinking Fund.	5 per cent. Municipal Debentures.	4 per cent. Municipal Debentures.	5 per cent. Tax Free Loan, 1914-25.	5 per cent. War Loan, 1924-47.	4 per cent. Bombay Port Trust Debentures.	4 per cent. Bombay Improvement Trust Debentures.	6 per cent. Mon. Debentures 1929.	6 1/2 per cent. Bombay Dev. Loan.	4 per cent. Municipal Debentures, 1921-25.	4 per cent. Bombay Imp. Trust Sinking Loan.	Grand Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
5 per cent. Municipal Loans Sinking Fund 3 1/2 % basis	49,52,000	19,23,900	20,93,200	..	16,500	3,74,400	48,000	3,37,600	..	3,75,000	1,01,51,600
4 per cent. Municipal Loans Sinking Fund, 4 1/2 per cent basis.	..	38,06,900	4,73,100	..	..	16,36,300	..	42,500	..	..	59,58,700
4 per cent. Municipal Loans Sinking Fund 3 per cent. basis.	..	56,45,000	5,02,200	62,100	32,500	8,28,500	..	2,69,000	..	..	67,99,300
5 per cent. Municipal Loans Sinking Fund, 4 & 1/2 per cent.	..	3,56,000	19,000	..	1,75,500	..	..	19,500	..	..	5,70,000
4 per cent. Municipal Loans Sinking Fund, 4 per cent. basis.	40,000	18,66,200	3,68,000	..	..	..	1,10,500	..	5,00,000	..	99,50,700
	80,28,000	1,54,65,000	31,55,500	62,100	2,23,500	24,01,300	1,58,500	6,66,600	5,00,000	3,75,000	2,64,30,600

The Sinking Fund accounts are audited annually by the Government Examiner, Outside Audit and during the year under report that officer raised the question regarding the inadequacy of the Sinking Fund accumulations formed for the repayment of the loans on the basis of the market values of the investments held in Sinking Funds on 31st March 1925. Valuing the Municipal Debentures held in Sinking Funds at par and calculating the values of Securities other than Municipal debentures on the basis of Market Value as at 31st March 1926, the Sinking Fund investments may be valued at 2,60,23,798-14-0 against the book value of Rs. 2,64,30,500 leaving a deficit of Rs. 4,06,701-2-0. This deficit is amply covered by the investments of the Net Premia Fund which is in the nature of Investment Reserve Account. The Market Value of securities held under that fund on 31st March 1926 is Rs. 7,31,415-3-0.

As the investments held in the Net Premia Fund do not form part of the investments held in the Sinking Funds, the question of transferring the investments representing the Net Premia Fund to the Sinking Funds as required by Government has been submitted to the Standing Committee and the Corporation for orders.

## EXPENDITURE ON LOAN WORKS.

## Appendix No. 8.

34. The sub-joined statement shows the figures of the Revised Estimates and the Actuals under the Major Heads :—

	Revised Estimate.			Expenditure.		
	Rs.	a.	p.	Rs.	a.	p.
<b>LOAN WORKS.</b>						
I. General Supervision, Collection of Revenue, &c. ...	1,45,267	0	0	79,536	0	0

<b>LAND AND BUILDINGS FUND.</b>						
Land acquired and Buildings purchased ...	5,03,000	0	0	4,39,194	0	0

(exclusive of the credit of Rs. 9,30,102 in account of recoupment of temporary advance from Loan Funds.)

## LIABILITIES AND ASSETS.

## Appendices Nos. 5 and 6.

35. It will be seen that the gross revenue liabilities of the Corporation stood at Rs. 1,35,06,860-6-10, the assets being Rs. 1,90,04,056-12-6. The difference of Rs. 54,97,196-5-8 represents the Surplus Revenue Funds as shown in Appendix No. 3.

36. The gross capital liabilities of the Corporation stood at Rs. 20,04,55,296 at the close of the year under report and the assets at Rs. 25,34,59,936 resulting in a surplus of Rs. 5,30,04,690, the details of which are shown in Appendix No. 6.

## INVESTMENTS AND INVESTED BALANCES.

37. Inclusive of investments on account of Sinking, Insurance, Worn out Water Mains Renewal, Net Premia, Land and Buildings, Plant and Machinery Depreciation, Fines and Provident Funds, the total sum of investment and reinvestment arranged for by this department during the year aggregated Rs. 8,43,59,875.

	Rs.
(1) Current Account Deposits .. .. .	82,86,575
(2) Fixed Deposits .. .. .	3,92,00,000
(3) Deposits at Call .. .. .	3,30,00,000
(4) Sinking Fund, Special Funds .. .. .	38,73,300
<b>Total Rs. ..</b>	<b>8,43,59,875</b>

The interest and profit earned during the year amounts to Rs. 9,41,610 of which Rs. 5,93,717 is credited to Development Fund and the balance of Rs. 3,47,893 to Revenue. The details of Rs. 9,41,610 are as follows :—

	Rs.
(1) On current account deposits at a rate between 2 per cent. and 3 per cent. .. .. .	26,466
(2) On Fixed Deposits .. .. .	6,52,753
(3) Deposits at Call .. .. .	78,938
(4) On investments in Government and other Securities .. .. .	1,83,453
	Rs. 9,41,610

The average rate of interest on fixed deposits was 4.98 per cent. against 4.91 per cent. in the preceding year and in deposit at call was 5.43 per cent. against 5.75 per cent. in the preceding year. The rate realised for fixed deposits ranged from 2½ per cent. to 6½ per cent. and on deposits at call from 1½ per cent. to 6½ per cent. The maximum rates realised in the preceding year were 6½ per cent. on fixed deposits and 9 per cent. on deposits at call.

The average rate of interest in current account deposits was 2.51 per cent. against 2.50 per cent. in the preceding year.

#### SPECIAL FUNDS.

##### *Appendices Nos. 4 and 5.*

38. The opening and closing balances to the credit of the different Special Funds, the additions made thereto and the withdrawals made therefrom during the year are shown in Appendix No. 4. The details of the different investments and the current market values are shown in Appendix No. 5 A., while Appendix No. 5 contains the total amount of paper held in each fund and the cash balance to its credit in the Imperial Bank of India.

The Municipal Land and Buildings Fund and the Development Fund will be found in Appendices Nos. 4 and 4-A.

#### WATER WORKS ACCOUNT.

##### *Appendix No. 12.*

#### INCOME AND EXPENDITURE ACCOUNT.

39. The following statement shows the Income and Expenditure for the year as contrasted with the original estimates and the figures for the preceding year :—

	Budget Estimates for 1925-26.	Actuals for 1925-26.	Actuals for 1924-25.	Increase or Decrease.	
				As compared with the Budget Estimates.	As compared with the previous year.
	Rs.	Rs.	Rs.	Rs.	Rs.
Income ...	71,46,500	65,06,480	57,80,371	- 6,40,020	+ 7,26,109 (a)
Expenditure...	71,67,764	57,38,739	52,69,595	-14,29,025	+ 4,69,144 (b)
	...	+ 7,67,741	+ 5,10,776	plus	2,56,965

(a) Due to increased rates for water by meter and also more consumption of water by measurement.

(b) Increases principally due to the payment of Interest and Sinking Fund instalments in respect of 2 Crores Loan, 160 Lakhs Loan and 150 Lakhs Loan (1925-26).

40. As required by the Corporation Resolution No. 6570 of the 15th February 1912, a detailed statement of income realised under the heads specified therein for the year under report as compared with the preceding five years is attached to Appendix No. 12.

## ASSETS AND LIABILITIES.

41. The liabilities at the beginning of the year stood at Rs. 6,55,95,072-8-8. They were increased at the close of the year to Rs. 7,63,02,199-9-0, being an increase of Rs. 1,07,07,127-0-4 as under:—

*Loans raised during the year.*

			Rs.	a.	p.	Rs.	a.	p.
2 Crores Loan	...	...	50,00,000	0	0			
160 Lakhs Loan	...	...	46,77,500	0	0			
150 Lakhs Loan	...	...(1925-26)	40,00,000	0	0			
						1,36,77,500	0	0

*Less—Loans repaid during the year.*

Vehar Water works debt	...	...	38,853	11	0			
44 Lakhs Loan	...	...	19,39,365	4	8			
1½ Crores Loan	...	...	4,11,200	0	0			
2½ Crores Loan	...	...	9,200	0	0			
65 Lakhs Loan	...	...	3,80,400	0	0			
2 Crores Loan	...	...	1,99,900	0	0			
						29,78,418	15	8

1,06,99,081 0 4

*Add—Loans matured for repayment but remaining unpaid (water works portion)—*

4½ Lakhs Loan	...	...	4	0	0			
42 Lakhs Loan	...	...	8,042	0	0			
						8,046	0	0

1,07,07,127 0 4

The assets aggregated Rs. 10,05,92,402-10-8 against Rs. 9,66,83,775-1-1 at the close of the previous year, showing an increase of Rs. 39,08,627-9-7 and were made up of (1) Works executed out of Loan and Special Funds, (2) Sinking Fund Investments, (3) Works met out of (a) the contribution from the G. I. P. Railway for removing and relaying 32" Vehar Main at Kurla, and (b) Worn-out Water Mains Renewal Fund Investments, and (4) Investment on account of Net Premia Fund.

From Appendix No. 13 it will be seen that the excess of assets over liabilities amounted to Rs. 1,16,28,807-10-9 after providing Rs. 87,93,600 for Sinking Fund and Rs. 6,59,727-0-10 for Special Funds.

42. As required by the Standing Committee Resolution No. 13092 of 3rd February 1926, details showing receipts and disbursements respectively credited and debited to the Municipal Fund during the year and the balance to the credit of the Fund at the close of the year are given in Appendix No. 14.

## SUSPENSE ACCOUNT.

## A.—Deposits.

43. The Cash Deposits outstanding at the close of the year aggregated Rs. 26,51,288-5-0 against Rs. 33,50,995-2-1 at the end of the year 1924-25 and were made up of:—

			Rs.	a.	p.
(1) Cash Deposits from Tenderers	...	...	1,66,886	4	0
(2) " " " Contractors	...	...	5,08,104	0	0
(3) " " received through Departmental Officers	...	...	8,07,105	4	11
(4) Other Cash Deposits	...	...	11,12,964	12	3
(5) Deposits on account of work performed for private parties	...	...	56,727	15	10
Total Rs.			26,51,288	5	0

In addition to this, balances of Miscellaneous Cash Deposits amounted to Rs. 1,09,381-8-7. This figure is made up of Government Taxes, profit on sale of stores made during February and March and adjusted during 1926-27, donations from the Public for relief to sufferers during epidemic, and additional General Tax on account of the riots of 1921 and 1924 to be remitted to the Chief Presidency Magistrate, Bombay, for distribution among the sufferers.

**B.—Inter-Departmental Charges.***Workshops.*

44. The opening balance was Rs. 1,11,487-13-2 or Rs. 83,075-12-9 less than in the preceding year.

The cost of labour and supervision staff employed and of stores used on the works turned out in the shops during the year amounted to Rs. 5,53,424-13-9 against Rs. 6,54,470-6-4 in the previous year. The total outlay in the Workshops during the year together with the opening balances aggregated Rs. 6,64,912-10-11. The net recoveries during the year amounted to Rs. 5,58,679-10-2 (Gross Rs. 5,67,875-5-1 minus profit Rs. 9,195-10-11) and the outstanding at the end of the year including incomplete jobs aggregated Rs. 1,06,237-14-9.

The outstandings are made up of the following items :—

<i>Debit items—</i>	Rs.	a.	p.
Outstanding bills ... ..	86,154	3	9
Incomplete jobs ... ..	3,456	8	0
Expenditure for 1926-27 charged to the accounts for 1925-26 ... ..	17,150	15	0
Credit shown in the balance sheet for 1924-25 and 1925-26 but not booked ... ..	2	0	0
	4	15	0
<b>Total Rs.</b>	<b>1,06,768</b>	<b>9</b>	<b>9</b>
<i>Credit items—</i>	Rs.	a.	p.
Credit booked in 1924-25 and 1925-26 but taken in Balance Sheet in 1926-27 ... ..	335	12	0
Charges for 1925-26 and previous years remaining unpaid and hence not booked ... ..	194	15	0
<b>Total Credit Rs.</b>	<b>530</b>	<b>11</b>	<b>0</b>
<b>Net Outstanding Rs.</b>	<b>1,06,237</b>	<b>14</b>	<b>9</b>

45. The supervision charges on all jobs at 25 per cent. amounted to Rs. 1,08,545-12-3. Adding Rs. 7,212-2-0 (Rs. 6,457-1-0 on account of sale of unserviceable articles and Rs. 755-1-0 realised by hire of plant, &c.), the gross earning of the shops aggregated Rs. 1,15,757-14-3 from which the following shop and supervision, &c., charges amounting to Rs. 1,06,562-3-4 had to be met.

	Rs.	a.	p.
(1) Supervising Estt. and Contingencies ... ..	61,080	15	8
(2) Shop charges ... ..	45,481	3	8
<b>Total Rs.</b>	<b>1,06,562</b>	<b>3</b>	<b>4</b>

The excess of supervision charges at 25 per cent. over the actual Supervision, Establishment, Contingencies and shop charges was thus Rs. 9,195-10-11 against Rs. 23,936-10-5 for the last year.

Adding a proportion of the salary of the Deputy Executive Engineer, Mechanical Branch, amounting to say Rs. 6,000 and interest and Sinking Fund charges on Capital amounting to Rs. 39,000, the net result would show a loss of Rs. 35,804 instead of a profit of Rs. 9,195-10-11.

## Other Works.

46. The outstanding balances on 31st March 1926, in respect of Departmental and Private Works executed by different branches of the Executive Engineer's Department (excluding Workshops) and the Health Department are contrasted below with those on 31st March 1925:—

	Balance on 31st March 1925.	Balance on 31st March 1926.	More.	Less.	REMARKS.
<b>A.—DEPARTMENTAL WORKS.</b>					
(1) Drainage ... ..	Rs. a. p. 17,627 5 0	(a) Rs. a. p. 5,971 10 0	.....	12,555 11 0	(a) Out of this Rs. 2,311-14-0 represent the value of stores issued in March 1926, bills for which are to be adjusted in 1926-27.
(2) Roads and Buildings Branch.	66,037 0 7	77,683 6 8	11,645 6 1	.....	
(3) Water Works ... ..	17,979 10 0	(b) 40,599 15 1	22,620 5 1	.....	(b) Out of this Rs. 26,363-11-7 represent the value of stores issued in March 1926, bills for which are to be adjusted in 1926-27.
(4) Nowrojee Hill Quarry.	55,022 2 6	(c) 41,533 10 5	.....	14,388 8 1	(c) This amount represents the expenditure incurred on these quarries which will be adjusted against the grants for the works on which the materials will be used.
(5) Sewri Hill Quarry.	14,283 15 0	(e) 52,634 1 2	18,350 2 2	.....	
(6) D. E. Works, Love Groves.	5,800 4 8	(c) 8,805 2 5	3,004 13 9	.....	
Total Rs. ...	1,77,050 5 9	2,06,326 13 9	55,620 11 1	36,944 3 1	
<b>B.—PRIVATE WORKS.</b>					
Drainage ... ..	11,359 1 6	(d) 1,046 5 0	.....	10,312 12 6	(d) Out of this Rs. 126-15-0 represent the value of stores issued in March 1926, bills for which are to be adjusted in 1926-27.
Roads and Buildings Branch.	67,848 3 1	45,863 12 2	.....	21,984 6 11	
Leveling and Metalling Private Roads.	14,067 2 7	6,441 13 3	.....	7,625 5 4	
Water Works Branch ...	31,534 3 9	(e) 50,314 0 2	18,779 12 5	.....	(e) Out of this Rs. 11,503-15-8 represent the value of labour and stores issued in March 1926, bills for which are to be adjusted in 1926-27.
Government of Bombay working of the Lethal chamber for the destruction of stray dogs.	8,569 5 3	9,991 6 11	1,422 3 3	.....	
Health Department (removing chokers).	1,933 0 9	1,927 10 6	.....	5 6 3	
Total Rs. ...	1,35,310 15 4	1,15,585 0 0	20,201 15 8	39,977 15 0	

47. The outstandings in respect of Nowroji Hill Quarry are due to bills for metal, etc., supplied for different works remaining unadjusted till 31st March 1926. The outstandings in respect of Private Works, Roads and Buildings Branch, are due to bills against public bodies, public utility companies, and private parties and to bills against the house owners of private streets not having been fully recovered before the close of the year. The outstandings in respect of Private Works, Drainage Branch are due to bills against house owners for providing Drainage arrangements in private streets in the case of which no deposit can be recovered in Advance.

*Advances to Municipal Officers.*

48. The outstandings on 31st March 1926 aggregated Rs. 72,246-11-9 against Rs. 90,275-9-3 on 31st March 1925 ; Rs. 15,369-9-6 represent the sum allotted to the different Heads of Departments as standing advances for contingent expenses ; Rs. 18,747-15-8 represent the Law charges incurred in connection with the purchase of land for City Development works and Rs. 36,488-5-11 represent the amount of dishonoured cheques which have since been mostly recovered and adjusted. The remaining balance is comprised of small items which call for no remarks.

*Advances to Contractors.*

49. The outstandings at the close of the year amounted to Rs. 7,823-4-3 against Rs. 6,549-11-1 at the end of 1924-25.

*Miscellaneous.*

50. Out of the outstandings of Rs. 79,081-0-11 the following are the principal items:—

	Rs.	a.	p.
(1) Levelling, metalling, etc., Wanzawadi ... ..	13,227	5	2
(2) Advances to Railway Companies for freight etc., charges for cement ... ..	15,000	0	0
(3) Cost of filling in the Framji Cawasji Tank to be subsequently adjusted against the sale proceeds of the reclaimed land.	2,380	6	2
(4) Metalling, levelling, etc., Chinchpokli Cross Lane ...	235	0	0
(5) Advances to Municipal Officers and servants for the purchase of Motors, Motor Cycles, etc. ... ..	28,784	7	3
(6) Advance for constructing 4 European Wards in Arthur Road Hospital ... ..	4,748	9	3
(7) Cost of repair charges for damage done to the Gas Lamps by rioters ... ..	1,004	4	4
(8) Diverting storm-water drain from Government land at Charni Road Station ... ..	588	12	5
(9) Diverting storm-water drain at Esplanade Road... ..	2,584	11	6

Necessary steps are being taken to recover and adjust these outstandings.

*Reserve Stock.*

51. The receipts of General Stores during the year, as per my books, aggregated Rs. 8,65,828-14-2 and the issues Rs. 9,28,229-5-4, thus resulting in a decrease of Rs. 62,400-7-2 in the balance of current stores. There was a reduction during the year in the balances of Surplus and Obsolete Stores from Rs. 248-15-1 to Rs. 229-0-1.

52. The work of verification of Stock during the year at the Central Stores, the Bellasis Bridge Pipe Depot, and the Municipal Workshops and Line Suspense stores in charge of the Hydraulic Engineer was entrusted to Mr. D. T. Williams. The result was a net excess of Rs. 1,625 and it was reported to the Corporation (*vide* Corporation Resolution No. 1343 of 6th May 1926).

53. The balances of general, *i.e.*, current serviceable stores in charge of the Storekeeper are compared below for the last five years:—

	Rs.	a.	p.
Balance at the close of 1921-22 ... ..	11,76,349	6	9
Do. do. 1922-23 ... ..	13,83,670	5	2
Do. do. 1923-24 ... ..	7,48,809	13	4
Do. do. 1924-25 ... ..	6,17,838	7	5
Do. do. 1925-26 ... ..	5,55,438	0	3

*Capital Stores.*

The receipts of Capital Stores aggregated Rs. 9,41,256-15-0 and the issues Rs. 6,62,578-1-11 thus resulting in an increase of Rs. 2,78,678-13-1 in the balance of Capital Stores.

The outstanding balance at the close of the year on account of Asphalt, etc., purchased for Capital Roads stood at Rs. 3,55,903-1-10.

54. The balances of Reserve Stock in hand in all departments at the close of the year as per the General Books of this office amounted to Rs. 14,77,377-0-6 against Rs. 12,33,775-8-2 at the close of the preceding year, showing an increase of Rs. 2,43,601-8-4 as detailed below :—

The non-adjustment of items of stock amounting to Rs. 68,796-3-9 alluded to below is due principally to want of grants.

DEPARTMENTS.	1924-1925.			1925-1926.			Increase or Decrease.
	Serviceable Stores.	Surplus and Obsolete Stores.	Total.	Serviceable Stores.	Surplus and Obsolete Stores.	Total.	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1. General Stores Department.	6,17,838 7 5	248 15 1	6,18,087 6 6	(a) 5,55,438 0 3	229 0 1	5,55,667 0 4	— 62,420 6 2
2. Water Works ... ..	5,897 0 11	.....	5,807 0 11	5,452 8 3	.....	5,452 8 3	— 354 8 8
3. Executive Engineer's Department (Purchase of Kerosine Oil) ... ..	130 14 9	.....	130 14 9	1,230 8 0	.....	1,230 8 0	+ 1,099 9 3
4. Executive Engineer's Department (Purchase of Stores for Roads) ... ..	5,771 2 11	.....	5,771 2 11	45,586 11 9	.....	45,586 11 9	+ 39,815 8 10
5. Line Suspense Account ... ..	86,535 9 7	.....	86,535 9 7	91,986 12 7	.....	91,986 12 7	+ 5,451 3 0
6. Mechanical Engineer's Department ... ..	18,668 11 0	.....	18,668 11 0	.....	.....	.....	— 18,668 11 0
7. Stores in charge of the Drainage Engineer ... ..	2,150 0 0	.....	2,150 0 0	2,150 0 0	.....	2,150 0 0	.....
8. Capital Stores ... ..	4,96,624 10 6	.....	4,96,624 10 6	7,75,303 7 7(a)	.....	7,75,303 7 7	+ 2,78,678 13 1
Total Rs. ...	12,33,526 9 1	248 15 1	12,33,775 8 2	14,77,148 0 5	229 0 1	14,77,377 0 6	+ 2,43,601 8 4

A. R.—This office is not aware of what system of account keeping is adopted for items 3, 6 and 7.

(a) The difference between this amount and that shown by the Storekeeper is Rs. 68,796-3-9 which is due to non-adjustment in the books of the Chief Accountant of the value of stores issued to the different Departments. This will be adjusted in the next year's account.

## STREET IMPROVEMENTS.

55. The provision made in the revised Loan Works Budget for meeting claims on account of acquisition of set-backs was Rs. 6,78,000 (Rs. 2,00,000 out of Loan Fund and Rs. 4,78,000 out of Land and Buildings Fund), the expenditure booked being Rs. 4,07,402 out of the Land and Buildings Fund.

After allowing for all ascertained time-barred claims, the undischarged commitments upto 30th June 1926 in regard to set-backs already acquired and sanctioned to be acquired amounted to Rs. 15,97,634 against which we have funds aggregating Rs. 4,86,627 as under:—

Unexpended balance in the provisions for 1925-26 renewed for expenditure during 1926-27:—

				Rs.	a.	p.
Loan Funds	...	...	...	2,00,000	0	0
Land and Buildings Fund	...	...	...	70,598	0	0
				<u>2,70,598</u>	<u>0</u>	<u>0</u>
Provision during 1926-27 from Loan Funds	...	...	...	3,00,000	0	0
				<u>5,70,598</u>	<u>0</u>	<u>0</u>
<i>Deduct</i> —Expenditure upto 30-6-26—			Rs.			
Loan Funds	...	...	22,854			
Land and Buildings Fund	...	...	<u>61,117</u>	83,971	0	0
Balance available	...	...	...	Rs. <u>4,86,627</u>	<u>0</u>	<u>0</u>

The excess of liabilities over funds available on 30th June 1926 thus amounts to Rs. 11,11,007. In addition to this, further liabilities may be expected on account of increase in rates when the time for payment of claims actually matures, and on account of further acquisition of set-backs that will be sanctioned during the remainder of the year 1926-27.

## FIRE BRIGADE.

56. During the year the Fire Tax was levied at  $\frac{1}{2}$  per cent. The following statement shows the Income and Expenditure for the year as contrasted with the figures for the preceding year:—

	Actuals for 1925-26.			Actuals for 1924-25.			Difference.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Income	5,53,444	15	0	5,62,870	9	9	—9,425	10	9
Expenditure including New Works and the Interest and Sinking Fund charges on different Loans raised	4,06,704	3	1	4,06,181	11	6	—522	7	7
Surplus Rs.	1,46,740	11	11	...	...	...	...	...	...

The following statement shows the surplus from Fire Tax upto 31st March 1926:—

	Rs.	a.	p.
Surplus on 1st April 1925	66,809	15	0
<i>Deduct</i> —			
Amount to be renewed in 1926-27 on account of outstanding liabilities	49,531	0	0
			17,278 15 0
<i>Add</i> —			
Surplus for the year 1925-26 as shown above	1,46,740	11	11
Net surplus on 31st March 1926	Rs. 1,64,019	10	11

## GENERAL FINANCIAL POSITION.

57. Owing to continued increase in Revenue expenditure the Municipal Corporation finally decided in the year 1924-25 to obtain outside advice for the purpose of investigating the system of administration in the various departments of the Corporation and suggesting means of securing greater efficiency and economy and appointed Sir M. Visvesvaraya as Retrenchment Adviser to help them in the matter. The chief problems that engaged his attention among other things were the reduction of overgrown Municipal expenditure and the measures required for keeping the rapidly growing Municipal debt within safe limits. As a result of detailed investigations made he recommended savings in revenue expenditure to the extent of Rs. 11,22,886 and the Standing Committee and the Corporation accepted the various recommendations except the retrenchment proposed under the grant for Malaria. While these proposals for reduction in expenditure were under consideration the Corporation had already committed themselves to additional liabilities on account of King Edward Memorial Hospital (Rs. 8,49,614) and Gordhandas Sunderdas Medical College (Rs. 1,92,005) and the extension of Primary Education (Rs. 8,90,950). The savings thus effected enabled us to meet these additional liabilities without increasing the rates of taxation.

In regard to Capital expenditure the Retrenchment Adviser recommended the adoption of the restricted scale of expenditure for the six years commencing from 1925-26, whereby the total outlay to be incurred on Capital works was to be limited to Rs 4 Crores and the Corporation under their Resolution No. 8893 of 17th November 1925 have accepted his suggestions.

The position in regard to Development Schemes is far from satisfactory. In para. 61 of the Financial Report for the year 1924-25, I have suggested the desirability of drawing up a well considered and definite programme for sales of land for purposes of payment of interest and repayment of the Development Loans. The necessity of this has been more forcibly brought home by the Government of Bombay insisting on having a definite programme for repayment of their advances for Development Schemes aggregating Rs. 1,78,74,000. It is satisfactory to note that at the time of writing this report definite proposals for repayment of this have been submitted to Government and it is to be hoped Government will accept them. This will not, however, set right the whole thing. Besides the amount of Rs. 1,78,74,000 we have to arrange for the payment of interest and repayment of Capital in respect of our borrowings aggregating Rs. 55,94,000 on account of Development Schemes. It is therefore absolutely necessary to arrange for the sale of Surplus lands in the schemes without undue delay as otherwise any possible gain that might accrue by our waiting for an improvement in the land market would be converted into a sure and certain loss by the cost being increased with the interest charges in the meantime.

In making out a programme for repayment of Rs. 1,78,74,000 to Government we have realized that the sales of land even when effected as estimated will not suffice to meet the annual instalments of interest and principal and we shall have to find from revenue the balance of instalments required. Such burden on the revenue will be by no means small. In addition to this we have to face the additional burden of interest and Sinking Fund charges on the loan that will have to be raised for financing the Capital expenditure on the Main Drainage Scheme. What reduction in the ordinary revenue expenditure retrenchment could effect has been given effect to and if we are to avoid any embarrassment by way of increased taxation it must be by keeping our additional borrowings to the absolute minimum by a really thorough examination of the departmental estimates of the Loan Works. Year after year we see that the actual expenditure falls far short of the Budget estimates and, what is worse, the Revised estimates instead of being nearer to the actuals are further than the Budget Estimates. At the time of considering the revised estimates for the year under report very considerable reductions were made both by the Municipal Commissioner and the Standing Committee in the departmental estimates and still the actual expenditure fell short by Rs. 62,80,796 of the revised estimates of Rs. 2,25,16,585.

The present method of examining the Loan Works Budget and revised estimates by merely considering the necessity of each proposed work by itself is defective, and fails to achieve the object of cutting down the programme within probable limits of execution. It is not difficult to show that each work is important and must necessarily be executed. This is easily done and the result is a programme of works all important and incapable of postponement—but too heavy to be carried out within a year as evidenced by the comparative figures of the Budget estimates and the actual expenditure for each year in the past. In my opinion such examination falls short of one further step. Having considered

the merits of works individually the total programme ought to be examined on the basis of past experience as to the practicability of its being executed within the year and should be cut down in total accordingly and the heads of departments concerned called upon to delete the works to the required extent according to their relative importance. After these remarks were made it was gratifying to find from a report in the *Times of India* of 28th July 1926 that this divergence between the actual expenditure and the estimates was also engaging the attention of the Public Accounts Committee of the Government of India and so also of the Committee in England where too there was over-estimating in respect of practically all public works and the suggestion made was exactly the same, namely, a lump sum cut for Budget purposes. In regard to revised estimates I would repeat the suggestion made in para. 14 of this report of not allowing the revised estimates to exceed the Budget estimates in the aggregate and I would further suggest that except for good reasons shown any cut in the revised estimates should not be merely in the nature of a transfer of that amount from the revised estimates of the year to the Budget estimates for the next year as such a transfer does not reduce the amount of loan as required by the departments, and no saving is effected in the amount of interest and Sinking Fund charges.

The position regarding borrowing powers will be seen from the following :—The limit of borrowing powers under Section 109 (A) of the Municipal Act is double the rateable value of the premises in the City liable to General Tax and the legal position regarding borrowing powers is as follows :—

	Rs.
With the rateable value standing at the close of the year at Rs. 11,84,20,386 the City can raise capital to the extent of ... ..	23,68,40,772
Against this the liabilities are :—	
Debt outstanding on 1st April 1926 ...	18,16,65,717
Loan to be raised in 1926-27 ... ..	70,60,000
	18,86,65,717
<i>Deduct.</i> —Repayment of the following loans :—	
	Rs.
Vehar Water Works Debt. ... ..	39,910
Loans already matured for repayment...	85,300
7½ Lakhs Loan ... ..	5,90,000
2nd instalment of 75 Lakhs out of 1½ Crores loan ... ..	1,00,615
140 Lakhs Loan ... ..	1,92,171
2½ Crores Loan ... ..	1,48,733
65 Lakhs Loan ... ..	89,301
2 Crores Loan ... ..	1,74,705
	14,21,935
	18,72,44,782
Balance of borrowing powers...	4,95,95,990

## QUARTERLY STATEMENT OF BILLS OUTSTANDING.

58. In the year under report the balances of outstanding bills at different Ward Offices examined at the end of each quarter totalled 95,395 representing Rs. 1,49,21,800-1-7 as shown in the subjoined statement. They were duly checked in detail with the Ward Collection Books (Form XVI) and the Head Office Accounts (Forms 8 and 9) :—

<b>Total ... ..</b>	<b>1,10,77,917 7 3</b>	<b>5,04,414 11 6</b>	<b>1,15,82,332 2 9</b>	

## REFUND ON ACCOUNT OF VACANCIES, &amp;c.

60. The number of claims for refund on account of vacancy and over-collection which was scrutinized and sanctioned during the year totalled 2,429, representing Rs. 2,60,477-3-7. In the previous year, the claims numbered 2,169, representing Rs. 2,81,531-15-11.

## DRAWBACK CLAIMS.

61. The number of claims to one-fifth drawback on the general tax scrutinized during the year was 3,747, out of which 2,158 were admitted. In the previous year the claims received aggregated 2,430 and those admitted were 1,204.

## ASSESSMENT BOOK.

62. The Assessment Book was subjected to scrutiny and it was ascertained that bills have been preferred in respect of all properties liable to pay any authorized tax or charge leviable in lieu thereof.

## VEHICLE AND ANIMAL TAX BOOK.

63. The Register of Vehicle and Animal Tax (Form IV) was examined and the entries therein were checked with the Ward Superintendent's quarterly reports and the owners' returns. The number of entries scrutinised during the year were 37,021. In the previous year they totalled 26,233.

## PUBLIC LAND CONVEYANCES.

64. The revenue derived during the calendar year 1925 from the tax on Public Land Conveyances licensed by the Police under Bombay Act VI of 1863 and the taxi cabs during the official year under report was audited. The total number of vouchers was 12,660 which were duly checked with the Registers maintained in this office.

## AMENDMENT IN VALUATIONS.

65. The subsequent changes during the course of the year in the rateable value of properties and alteration in demands made through Increase and Decrease Registers (Form XI XI-B and X-C) were duly checked with the Tabulated Ward Reports.

## OTHER DEPARTMENTS.

66. The revenue books maintained in the Executive Engineer's Department (including General, Roads and Buildings and Drainage Departments), Health Department (including the offices of the Deputy Health Officers and Conservancy Superintendent), Vaccination Department, Markets and Slaughter Houses, License Department, Victoria Gardens and the Fire Brigade Department were checked monthly with the permits, the counterfoils of receipts and the licenses and with other papers produced in support of the vouchers and the collection paid into the Municipal Treasury was duly verified. The number of vouchers examined was 123,890, representing Rs. 32,56,144-3-10.

## PERMITS ISSUED UNDER SECTION 390 OF THE MUNICIPAL ACT.

67. The permits issued under Section 390 of the Municipal Act in respect of newly established factories totalled 232 and brought in a revenue of Rs. 5,850.

## RENT BILLS AGAINST THE BOMBAY TELEPHONE COMPANY.

68. The proposal to change the mode of charging ground rent has been sanctioned by the Corporation under their Resolution No. 5187 of 31st October 1918 and the Company now pay the rental due to the Municipality every month. In the year under report the Company have paid Rs. 60,972-2-10 as rent.

**RENT BILLS AGAINST THE BOMBAY TRAMWAYS COMPANY.**

69. The two bills for the period from 1st April 1925 to 31st March 1926 amounting to Rs. 63,508-12-10 were checked by this office in the year under report and have been duly paid up by the Company and credited to the Municipal Fund.

**FINES LEVIED BY THE PRESIDENCY MAGISTRATE.**

70. The total amount of fines recovered during the year under report in respect of offences committed against the several provisions of the Municipal Act was Rs. 46,268-14-0 which was duly paid into the Municipal Treasury.

**COST OF DEPARTMENT.**

71. The actual cost of establishment including Temporary and Loan Works Staff and the total receipts and disbursements from 1921-22 to 1925-26 together with the percentage of cost to receipts and disbursements are compared below :—

YEAR.	Actual cost of Estt. including the Temporary and Loan Works Staff.	Total Receipts.	Total Disbursements.	Percentage of cost of Staff to receipts.	Percentage of cost of Staff to disbursements.
	Rs.	Rs.	Rs.		
1921-22 ... ..	1,57,624	14,55,45,196	14,32,79,180	.10	.11
1922-23 ... ..	1,81,277	20,94,94,304	21,88,87,444	.09	.08
1923-24 ... ..	1,87,844	33,92,53,583	28,85,93,436	.065	.065
1924-25 ... ..	1,75,886	29,96,86,262	29,89,89,640	.059	.059
1925-26 ... ..	1,84,159	24,11,89,705	24,22,74,539	.076	.070

In the year under report Mr. B. K. Wagle was appointed to the post of the Second Deputy Accountant and thereby the department got the relief it so badly required.

In conclusion, I would thank my staff for their hearty co-operation.

76. The following are the appendices attached to my report :—

- No. 1.—Statement showing the Income realized during 1925-26, as compared with estimates for the year as also with the actuals for the preceding year.
- No. 2.—Statement showing the Expenditure during 1925-26, as compared with the final sanctioned grants and the actuals for the preceding year.
- No. 3.—Statement of Surplus Reserve Fund.
- No. 4.—Statement of Special Funds for 1925-26.
- No. 4-A.—Statement showing details of Development Fund, Receipts and Expenditure upto 31st March 1926.
- No. 5.—Balance Sheet (Revenue) as at 31st March 1926.
- No. 5-A.—Comparison of Face, Purchase and Market Values at 31st March 1926 of the different securities held in the Special Funds.
- No. 6.—Balance Sheet (Capital Funds) as at 31st March 1926.
- No. 6-A.—Comparison of Face, Purchase and Market Values at 31st March 1926 of the different securities held in the Sinking Funds.
- No. 7.—Statement showing (1) outstanding Municipal Loans, (2) the expenditure incurred against each of them, (3) the amounts withdrawn temporarily from their unexpended balances to meet the cost of new works, etc., and (4) invested balances of the loans on 31st March 1926.
- No. 8.—Block Account, showing details of Capital Expenditure up to 31st March 1926.
- No. 9.—Statement showing the outstanding Loans due by the Municipality on 31st March 1926.
- No. 10.—Statement showing the amounts which should have accumulated in the Sinking Fund, on the basis of the fixed instalments and the amounts actually invested up to 31st March 1926.
- No. 11.—Statement showing the interest outstanding on different Municipal Loans on 31st March 1926.
- No. 12.—Water Works, Income and Expenditure Account, including statement of income realizations for 1925-26, and preceding five years from Water Supply through meters.
- No. 13.—Water Works Assets and Liabilities.
- No. 14.—Statement of the amounts of receipts and disbursements respectively credited and debited to the Municipal Fund during the year 1925-26 and the balance at the credit of the Fund at the close of the year 1925-26 (i.e., 31st March 1926).
- No. 15.—Statement of Town Duties collected and refunds allowed in 1925-26.
- No. 16.—Statement of Net Town Duties collected during the ten years ending 1925-26.
- No. 17.—Statement of gross Town Duties levied during the five years ending 31st March 1926, refunds allowed, and the net income realized during that period.
- No. 18.—Statement showing Town Duty Collection from each source month by month with the refunds admitted for the year 1925-26, as contrasted with those for the year 1924-25.
- No. 18-A.—Statement of net proceeds of Cotton Duty during 1925-26 and the share of the Government and the Municipality.
- No. 19.—Statement of the Income of the Bombay Municipality from 1865 to the close of the financial year 1925-26.
- No. 20.—Statement of the Expenditure of the Bombay Municipality from 1865 to the close of the financial year 1925-26.
- No. 21.—Contrasted statement of Income and Expenditure from the year 1865 to the financial year 1925-26.

I have the honour to be,

Sir,

Your most obedient servant,

M. H. TAMBE,

Chief Accountant,

Bombay Municipality.

A.—The loan is payable in monthly instalments of Rs. 9,498 (Principal and Interest) out of Revenue. No Sinking Fund has been created for this loan.

B.—These loans are raised for development purposes. These portions of the loans are short dated and are repayable by realisation of surplus land. Interest is to be met out of rent, etc., receipts under Development Fund.

C.—Debentures in respect of these Loans have remained unpaid owing to their not having been surrendered for repayment upto 31st March 1925. The debentures do not carry any interest from and after the due dates and will be paid when surrendered for repayment by the holders out of the Sinking Fund Investments.

(a) As under the terms of these loans the bonds cannot be repaid to the holders before the dates stipulated in the debentures, the sinking Fund has been invested as shown in detail.

(b) These loans are repayable out of revenue in annual equal instalments including principal and interest based on the amortisation of the Loans within a period of 30 years. No Sinking Fund has been created for these loans.

Acting Municipal Commissioner.

# REVENUE.

No. A & C/D 1780 OF 1926-27.

FROM

R. G. ROBOTOM, ESQUIRE,  
Assessor and Collector.

BOMBAY, 10th July 1926.

TO

H. K. KIRPALANI, ESQUIRE, M.A., I.C.S.,  
Municipal Commissioner for the City of Bombay.

SIR,

I have the honour to submit the Annual Report on the working of the Assessment and Collection Department for the year 1925-26.

I was on combined leave for one year from 14th April 1925. Deputy Assessor and Town Duty Refund Officer, Mr. H. Wald, who acted for me, was in charge of the department, practically throughout the year.

The rates of taxation were the same as in the preceding year, except the rates of Water Tax by Measurement which were increased all round, with the exception of the rate for water used for charitable purposes.

### Main Figures for the year.

<b>Total number of properties</b> ... ..						46,138
<b>Assessment—</b>						Rs.
Gross opening value on 1st April 1925 ... ..						12,88,46,070
Rateable " " " " ... ..						11,59,73,099
Gross closing " 31st March 1926 ... ..						13,15,65,275
Rateable " " " " ... ..						11,84,20,386
<b>Total demand for property taxes—</b>					Rs.	a. p.
For 1925-26 ... ..					2,27,79,953	6 4
<b>Add—</b>

Grand total of outstandings				15,72,936	11	2*

Annexed are comparative statements for 1925-26 and 1924-25 as under :—

## Statement A—Rateable values.

- „ B—General tax.
- „ C—Water tax.
- „ D—Halalkhor tax.
- „ E—Total demands, collections, and outstandings including wheel tax.

The total amount collected under all heads, exclusive of Meter Hire, miscellaneous receipts and fees for the year under report was Rs. 2,33,34,649-13-2. The total collection for 1924-1925 was Rs. 2,25,19,519-4-10. There was thus an increase of Rs. 8,15,130-8-4. As against the total estimated collection of Rs. 2,44,51,000, there is a decrease of Rs. 11,16,350-2-10 as under :—

Taxes.	Estimate.	Actual collections including adjustments.		Increase or decrease.	
		Rs.	a. p.	Rs.	a. p.
General Tax including Fire-Tax ... ..	1,36,18,000	1,30,11,865	4 4	—6,06,134	11 8
Water Tax ... ..	69,73,000	64,31,992	13 10	—5,41,007	2 2
Halalkhore Tax ... ..	31,85,000	32,31,850	12 8	+ 46,850	12 8
Wheel Tax ... ..	6,75,000	6,58,940	14 4	— 16,059	1 8
Total ...	2,44,51,000	2,33,34,649	13 2†	—11,16,350	2 10†

† The deficit is due to the balance of Rs. 6,29,184-9-8 on account of General Tax, Rs. 4,19,797-9-11 on account of Water Tax, and Rs. 82,936-11-8 on account of Wheel Tax having remained uncollected when the year closed.

‡ A sum of Rs. 102-0-0 being Water Tax by Meter Measurement was adjusted in Chief Accountant's books in 1924-25, but as no intimation of this adjustment was received in this Department before the close of that year, the amount was credited in the books of this Department during the year 1925-26.

\* The grand total of outstandings exclusive of supplementary claim against Government amounting to Rs. 2,74,080-5-2 is Rs. 12,98,847-6-0.

The total number of properties registered in the Assessment Book on 31st March 1926 was 46,138 classified as under:—

Buildings .. .. .	35,826
Salt Pans .. .. .	79
Lands, including tanks, wells, etc. . . . .	10,233
Total ..	46,138

as against 45,674 on 31st March 1925. Of the number registered, 37,507 were assessed to General Tax, 1,447 were exempted under Section 143 (1) (a) and (b) of the Municipal Act, and 1,626 were not charged General tax, being small plots of waste lands, etc. The latter do not, however, include lands belonging to Government, the City Improvement Trust, the Port Trust and the Railways, which are separately assessed and specially treated. The number of Municipal properties exempted from General Tax during the year, under the Section above quoted was 1,086.

The number of buildings newly erected, demolished and enlarged in 1925-26 was 996, 1,215, and 549, the corresponding numbers for the year 1924-25 being 1,209, 1,232 and 536 respectively.

There were 569 complaints against assessments fixed during the currency of the year under Section 167 of the Act, and 4,703 complaints under Section 163 against original assessments amounting to Rs. 3,17,77,191. This amount, after investigation of the complaints was modified to Rs. 2,75,27,102 resulting in a decrease of Rs. 42,50,089 or 13.37 per cent.

The amount of General Tax on properties exempted under Section 143 (1) (a) and (b) was Rs. 4,75,612-3-0 against Rs. 4,39,519-9-0 in 1924-25.

The total number of claims for one-fifth drawback during the year was 3,766, the number for the preceding year being 2,420.

The following figures indicate the number of vehicles and animals taxed during the year:—

	No.
Four-wheeled vehicles .. .. .	2,068
Two-wheeled vehicles .. .. .	1,079
Vehicles not drawn by horses. . . . .	1,071
Motor vehicles (including motor lorries and excluding taxis licensed under the Public Land Conveyance Act) .. .. .	4,875
Motor cycles .. .. .	235
Motor cycles with side cars .. .. .	277
Horses (including those in Commission Stables) .. .. .	2,192
Ponies .. .. .	98
Bullocks .. .. .	1,689
Buffaloes and donkeys .. .. .	19

Receipts realized from Notices of demand, Distress Warrants, Battaki fees, Inspection fees and other miscellaneous items amounted to Rs. 7,554-2-7 against Rs. 7,319-7-4 in the preceding year. Receipts from Meter Hire were Rs. 62,333-8-0 as against Rs. 59,285-8-2 for the previous year, Rs. 4,870-12-0 remaining uncollected at the end of the year.

Certificates issued for refund of taxes for the year under report, and for previous years were as under:—

	Rs.	a.	p.
General Tax .. .. .	1,52,950	13	9
Water Tax on rateable value .. .. .	45,642	12	11
Water by Meter Measurement .. .. .	419	0	0
Halalkhore Tax on value .. .. .	56,374	7	11
Special Halalkhore Tax .. .. .	435	13	0
Wheel Tax .. .. .	1,611	10	0
Meter Hire .. .. .	33	8	0
Notice fee .. .. .	5	14	0
Street No. Plate charges .. .. .	1	12	0
Total Rs. ..	2,57,475	11	7

There were 32 appeals against valuations fixed for 1925-26 and 10 for 1926-27 under Section 162 (2) of the Municipal Act. Of these, 29 appeals were settled out of Court, 4 were dismissed by the Court, 3 were settled by the Court, 1 withdrawn and 5 are pending.

*Additional General (Riot) Tax No. 2.*

Out of the sum of Rs. 6,87,775-6-8 (*vide* Chief Presidency Magistrate's order No. 7793, dated 23rd June 1922, under Section 45 (1) (b) of the City of Bombay Police Act) to compensate 222 claimants for loss, damage, death or grievous hurt caused by rioters on November 17th and subsequent days in 1921, a balance of Rs. 14,540-10-8 still remains outstanding on 31st March 1926.

*Additional General (Riot) Tax No. 3.*

During the year under report the Department was burdened afresh with the work of preparing and collecting bills for Additional General (Riot) Tax (*vide* Chief Presidency Magistrate's order No. 5253, dated 30th October 1924, under Section 45 (1) (b) of the City of Bombay Police Act) to compensate 7 claimants for loss, damage, death or grievous hurt caused by rioters in February and March 1924. This additional work involved the issue of no less than 9,630 bills for Rs. 1,02,519-12-6. Rs. 79,574-2-6 were recovered and Rs. 1,407-8-0 were recalled and cancelled, leaving a balance of Rs. 21,538-2-0 at the end of the year.

*Street Number Plates.*

The balance of Street Number Plates bills outstanding on 31st March 1925 aggregated Rs. 15,257 and 3,418 bills for Rs. 14,682-8-0 were issued during the year making a total of Rs. 29,939-8-0 of which Rs. 21,380-6-0 were collected during the year, and bills for Rs. 521-12-0 were cancelled, leaving a balance of Rs. 8,037-6-0 outstanding on 31st March 1926.

Of the balance of Rs. 12,98,847-6-0, excluding the claim for Rs. 2,74,089-5-2 against the Government outstanding at the end of the year, bills for no less than Rs. 9,01,510-3-5 were issued during the last three months.

Outstandings at the close of the past three years are compared below :—

Year.	Outstanding on 31st March.	Total Net Demand.
	Rs.	Rs.
1923-24	22,48,733	2,26,25,748
1924-25	15,01,615	2,40,21,135
1925-26	12,98,847	2,49,07,587

The balance outstanding on 30th June 1926 is Rs. 7,61,221-5-6 only, Rs. 5,01,661-10-4 having been recovered and bills amounting to Rs. 35,964-6-2 recalled and cancelled.

On 1st April 1926 the gross assessment was Rs. 13,38,88,705 against Rs. 12,88,46,070 on 1st April 1925.

I have the honour to be,

Sir,

Your most obedient servant,

R. G. ROBOTOM,

Assessor and Collector.

No. T. D./67/A OF 1926-27.

BOMBAY, 23rd June 1926.

FROM

THE DEPUTY ASSESSOR AND TOWN DUTY REFUND OFFICER.

TO

H. K. KIRPALANI, Esq., M.A., I.C.S.,

Acting MUNICIPAL COMMISSIONER FOR THE CITY OF BOMBAY.

SIR,

I have the honour to submit my Annual Report on the working of the Town Duty Refund Branch of the Assessment and Collection Department for the year 1925-1926.

Mr. H. Wald was appointed to act as Assessor and Collector *vice* Mr. R. G. Robottom who proceeded on leave from 14th April 1925, and I acted for Mr. Wald from that date to the close of the year under report.

The rates of duty leviable during the year under report were the same as in previous years.

The gross collections from refundable Town Duties during the year under report amounted to Rs. 31,52,824-7-11 against Rs. 33,43,123-9-3 in the previous year. The refunds allowed in respect of goods exported during the year amounted to Rs. 15,75,383-1-0 against Rs. 16,24,009-3-0 in 1924-25. The net revenue therefore was Rs. 15,77,441-6-11 against Rs. 17,19,114-6-3 in the previous year, resulting in a decrease of Rs. 1,41,672-15-4 as shown below :—

Name of Article.	Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.
Grain and Flour ... ..	.....			79,516	1	5
Sugar ... ..	.....			69,463	9	0
Wines and Spirits ... ..	.....			18,585	6	5
Beer ... ..	2,595	13	6	.....		
Ghee ... ..	..	...		14,413	14	4
Timber ... ..	39,319	4	3	.....		
Firewood ... ..	.....			1,609	1	11
Total ... ..	41,915	1	9	1,83,588	1	1
				—41,915	1	9
				Decrease ..	1,41,672	15 4

The increased revenue under the heads of beer and timber is due to an increase in imports as well as a decrease in exports (*vide* Statement A attached).

The net revenue from grain and flour was Rs. 4,67,336, being Rs. 79,516 less than in the preceding year and Rs. 82,607 less than the annual average of the preceding five years (1920-25). Such reduction of revenue was anticipated as consequence of the relaxation of Town Duty Refund Rules sanctioned under Corporation Resolution No. 5781 of 4th September 1924 (*vide* Municipal Commissioner's letter No. TD/54/A of 25th August 1924 underlying the Resolution).

The decreases in net revenue from sugar, and wines and spirits are due to reduced imports (*vide* Statement A).

In the case of ghee and firewood, the decreases are due to the continued operation of the causes mentioned in the Annual Report for 1924-1925, namely, the imports of vegetable ghee or butter and the substitution for firewood of other kinds of fuel such as charcoal, coke, &c.

The total revenue derived from the non-refundable duty on raw cotton amounted to Rs. 34,82,333-6-8 against Rs. 30,55,422-1-3 in the previous year. The Municipal share of 3/7th of this revenue after deducting 4/7th payable to Government was Rs. 14,92,428-9-9 against Rs. 13,09,466-9-8 in the year 1924-25.

The total number of claims for refund of town duties dealt with during the year was 56,608 against 60,330 in the previous year.

Statement A gives details, for the year under report, of the gross collection, the refund allowed and the net revenue derived from each dutiable article as compared with the preceding year.

Statement B compares the imports, exports and the balance of dutiable articles for the year under report with those for 1924-25.

The total number of sugar bags marked with the Municipal stamp during the year was 14,14,966 against 17,73,825 in the previous year.

The Municipal Commissioner's proposal to substitute a non-refundable terminal tax for refundable town duties was considered and approved by the Corporation during the year under report and is now being considered by Government.

I would mention that the Department continued to be administered during the year with a strict eye to economy and the total savings effected in consequence amounted to Rs. 8,000 approximately, under the different Budget heads as under:—

	Rs.
(1) Establishment (excluding a reappropriation of Rs. 1,900 from this grant by the Chief Accountant for the purposes of another Department) .. .. .	6,026
(2) Printing and Stationery .. .. .	657
(3) Contingencies (including marking ink) .. .. .	1,312
	Rs. 7,995

I would take this opportunity of placing on record my appreciation of the work done by the staff in general and particularly the willing and loyal assistance rendered to me by the Head Clerk, Mr. Ferreira.

I have the honour to be,

Sir,

Your most obedient servant,

N. S. KOWSHIK,

*Ag Deputy Assessor and Town Duty Refund Officer.*

# PUBLIC WORKS.

No. M.C. 1/A. of 1926-27.

BOMBAY, 4th/7th June 1926.

FROM

THE SPECIAL ENGINEER,

TO

THE MUNICIPAL COMMISSIONER FOR THE CITY OF BOMBAY.

SIR,

*Subject:* Administration Report for the year 1925-26.

I have the honour to forward the Administration Report of the Special Branch for 1925-26.

2. The report is divided under the following heads :—

	Paragraph Nos.
Municipal Building Construction .. .. .	1—53
Schemes—Overbridges, Roads, etc. ... .. .	54—89
Miscellaneous Works ... .. .	90—113

## MUNICIPAL BUILDING CONSTRUCTION.

3. The general conditions as regards building materials and labour were more favourable than in the previous year and almost all the works budgetted for, were undertaken during the year.

### Bathing Places.

4. The cost of constructing a bathing place at Fergusson Road has been included in the estimates for constructing latrines, urinals and bathing places at Fergusson Road and tenders for the work will be invited very shortly.

### Markets.

5. Detailed plans and estimates for the construction of a Market at Chowpatty have been approved under Corporation Resolution No. 2159 of 11th June 1925. Tenders for the work were invited and the lowest one of Messrs. Shirali & Joshi amounting to Rs. 3,72,450 was accepted under Standing Committee Resolution No. 9764 of 2nd December 1925. A provision of Rs. 25,000 has been made in the Revised Loan Works Budget for the year 1925-26 and of Rs. 3,00,000 in the Budget for the year 1926-27 to carry out the work. The work is in progress.

6. The appeal made against the decision of the High Court as regards the ownership of the reclaimed site of Gilder Tank, was also decided in favour of the Municipality. Detailed plans and estimates for the construction of a market and a Primary School were approved under Corporation Resolution No. 4391 of 24th July 1925. The Standing Committee under their Resolution No. 48 of 7th April 1926 have also sanctioned the variation of the contract so as to include the cost of the school under this contract. The work is now in progress.

7. No provision could be made in the budget for the construction of a Market at Matunga.

8.— No provision could be made in the budget for the construction of a semi-permanent screen wall of Galvanised C. I. Sheets with W. I. frames for screening the Bandra Slaughter Houses.

### Latrines and Urinals.

9. The cost of constructing underground conveniences at Bhatia Baug amounted to Rs. 1,05,910-11-5.

10. The cost of constructing water-closets and urinals at Reay Road near Victoria Road Overbridge amounted to Rs. 9,553-0-7.

11. A provision of Rs. 17,890 has been made in the Loan Works Budget for the year 1926-27, for the construction of additional latrines and urinals at Arthur Crawford Markets and tenders for the work will be invited very shortly.

12. No provision could be made in the budget to carry out the work of constructing water-closets, bath rooms and dust-bin Shed at 1st Marine Street.

13. Tenders for the work of constructing latrines, urinals and bathing places at Carnac Road near the Lightning Crushers, were invited and the lowest one of Messrs. The Bombay Building Construction Company, amounting to Rs. 18,733 was accepted under Standing Committee Resolution No. 3374 of 8th July 1925. The work has been completed at a cost of Rs. 14,222-4-6.

14. Tenders for the work of constructing latrines urinals, and bathing places at Guzar Street, were invited and the lowest one of Messrs. D. R. Simpson and Company, amounting to Rs. 15,783 was accepted under Standing Committee Resolution No. 3113 of 1st July 1925. The work has been completed.

15. A provision of Rs. 20,196 has been made in the Loan Works Budget for the year 1926-27 for constructing a combined latrines and urinals at Siri Road, and tender for the work will be invited very shortly.

16. Tenders for the work of constructing latrines and urinals under the steps leading from DeLisle Road Overbridge to the Fergusson Low Level Road, were invited and the lowest one of Messrs. The Bombay Building Construction Company, amounting to Rs. 7,843 was accepted under Standing Committee Resolution No. 3373 of 8th July 1925. The work has been completed at a cost of Rs. 5,359-3-10.

#### Cemeteries.

17. The cost of filling in a portion of the low lying ground at the Bene Israel Cemetery at Haines Road amounted to Rs. 14,566-14-5.

18. The lowest tender of Mr. K. G. Kermani amounting to Rs. 61,451 for filling in the remaining portion of the Bene Israel Cemetery at Haines Road was accepted under Standing Committee Resolution No. 1739 of 29th May 1925. The work has been completed.

19. It was proposed to construct a Compound Wall with a Gate in front of the Bene Israel Cemetery at Haines Road and trellis fencing on the remaining three sides. Plans and estimates for the work were approved under Corporation Resolution No. 2787 of 24th June 1925. The work of the compound wall and gate has been entrusted to the Annual Repair and Petty Works Contractors and that of the trellis fencing will be entrusted to them very shortly.

20. The work of filling in a further portion of the low-lying ground at the Haines Road Hindu Cemetery was completed at a cost of Rs. 9,165-1-2.

21. No provision could be made in the budget for constructing a compound wall on the south side of the Haines Road Hindu Cemetery.

22. On further consideration it was found that the filling in work already carried out at the Christian Cemetery at Sewri was sufficient and no further filling in was required. Detailed plans and estimates for constructing a pucca compound wall with a railing in front were prepared which were approved by the Corporation under their Resolution No. 4504 of 27th July 1925. Tenders for the work were invited and the lowest one of Messrs. Shirali and Joshi amounting to Rs. 25,137 was accepted under Standing Committee Resolution No. 8442 of 11th November 1925. The work has been completed.

23. Tenders for filling in a further portion of the low lying ground at the Haines Road Hindu Cemetery, were invited and the lowest one of Mr. K. G. Kermani amounting to Rs. 10,005 was accepted under Standing Committee Resolution No. 3114 of 1st July 1925. The work has been completed.

#### Refuse Destructors.

24. The cost of fitting machinery for the Lightning Crushers at Carnac Bridge amounted to Rs. 53,242-4-1. The Railway siding has not yet been provided by the Railway Company.

## Stables.

25. Detailed plans and estimates for the construction of Stables and Offices for "D" Ward Bullocks at Annesley Road have been approved under Corporation Resolution No. 8889 of 17th November 1925. Funds for carrying out this work could not be provided in the budget.

26. Tenders for the work of constructing Chawls, Stables and Offices at Agripada were invited and the lowest one of Mr. K. G. Kermani amounting to Rs. 3,42,655 was accepted under Standing Committee Resolution No. 6305 of 16th September 1925. The work is in progress.

27. Separate tenders for the Drainage and Water-fittings work in connection with the stables, offices and chawls at Agripada were invited and the lowest one of Messrs. Gagrat Marker and Co. amounting to Rs. 23,949 was accepted under Standing Committee Resolution No. 6305 of 16th September 1925. The work is in progress.

28. Tenders for the work of constructing a stable in the N.-W. corner of the stable compound at Dadar were invited and the lowest one of Messrs. Anna Balvant and Co. amounting to Rs. 16,680 was accepted under Standing Committee Resolution No. 2071 of 11th June 1925. The work has been completed at a cost of Rs. 13,582-15-11.

## Chawls.

29. The cost of constructing a chawl for the Unloading Staff at Kurla-Deonar amounted to Rs. 28,881-5-10.

30. The work of constructing Quarters for Oilmen, Coalmen, Engine Drivers, Fitters, etc., at Love Grove has been completed with the exception of block No. 4 which could not be constructed as a portion of the ground on which it was proposed to be built, belonged to Government. The Collector of Bombay has now agreed to sell the land to the Municipality at the rate of Rs. 8 per square yard. The work has now been proceeded with.

31. The Standing Committee under their Resolution No. 2480 of 19th June 1925 accepted the lowest tender of Mr. K. G. Kermani amounting to Rs. 58,125-5-1 for constructing a chawl at Cochin Street in brick masonry and this proposal was also approved under Corporation Resolution No. 3979 of 16th July 1925. The work is in progress.

32. It was proposed to construct chawls at Arthur Road for housing the Health Department beggary who were displaced owing to the Grant Road Terminal Station Scheme of the B.B. & C.I. Ry. Detailed plans and estimates for the work were approved under Corporation Resolution No. 7602 of 26th October 1925 and a provision of Rs. 2,39,420 was made in the Loan Works Budget for the year 1926-27. Tenders for the work were invited and the lowest one of Mr. F. E. Cooper amounting to Rs. 2,04,996 was accepted under Standing Committee Resolution No. 13069 of 3rd February 1926. The work will shortly be commenced.

## Offices.

33. The construction of Ward Offices and Quarters for the various Departments has been kept in abeyance for want of funds.

The cost of providing additional office accommodation for the Municipal Secretary's Office amounted to Rs. 72,039-15-4.

## Hospitals.

34. The revised estimates for the work of constructing Four European Wards, Mortuary, Kitchen, Stores, etc., at the Arthur Road Hospital were approved by the Corporation under their Resolution No. 3285 of 6th July 1925 and by Government under Government Resolution (General Department) No. 1615 of 12th January 1926.

35. The idea of constructing a vegetarian kitchen, cooks' quarters and a store room at the Arthur Road Hospital has been abandoned.

36. The lowest tender of Messrs. Anna Balvant & Co. amounting to Rs. 7,822 for the construction of a Dhobi Ghat and Quarters for dhobies at the Maratha Hospital was accepted under Standing Committee Resolution No. 1738 of 29th May 1925. The work has been completed at a cost of Rs. 7,055-1-8.

37. No provision could be made in the budget to construct the Central Medical Stores at the Arthur Road Hospital.

38. No provision could be made in the budget to construct a Charitable Dispensary at the junction of Haines Road and Fergusson Road.

39. It was proposed to construct a Maternity Home at Cadell Road, Mahim. Detailed plans and estimates for the work were approved under Corporation Resolution No. 8178 of 5th November 1925 and a provision of Rs. 25,000 was made in the Revised Loan Works Budget for the year 1925-26 and of Rs. 1,50,000 in the budget for the year 1926-27. Tenders for the work were invited and the lowest one of Messrs. Ramji Keshavji & Co. amounting to Rs. 1,78,756 was accepted under Standing Committee Resolution No. 15463 of 24th March 1926. The work will be started by the contractors very shortly.

40. It was proposed to construct a semi-permanent chawl for sweepers at the Maratha Hospital. Detailed plans and estimates for the work were approved under Corporation Resolution No. 7230 of 2nd November 1923 and a provision of Rs. 20,000 was made in the Revised Loan Works Budget for the year 1925-26. Tenders for the work were invited and the lowest one of Messrs. B. Manekji & Co. amounting to Rs. 14,070 was accepted under Standing Committee Resolution No. 9763 of 2nd December 1925. The work is in progress.

#### Primary Schools.

41. The question as regards Government contribution towards the construction of the primary schools in the city is still under the consideration of the Corporation and the works of constructing Primary School at Mustan Tank, Soparibag Road and Valpakhady have, therefore, been kept in abeyance, pending the decision of the Corporation in the matter.

42. The cost of constructing a Primary School at DeLisle Road amounted to Rs. 2,49,340-7-6.

#### Gardens

43. It was proposed to construct Quarters for Malis and Caretakers, and Public Conveniences for Males and Females and to provide wrought iron railing round the Willingdon Memorial Play Ground at the junction of Moreland Road and Souter Street. Detailed plans and estimates for the work were approved under Corporation Resolution No. 8308 of 9th November 1925 and a provision of Rs. 20,000 was made in the Revised Loan Works Budget for the year 1925-26 and of Rs. 23,629 in the budget for the year 1926-27. Tenders for the work were invited and the lowest one of Messrs. Anna Balvant & Co. amounting to Rs. 37,436 was accepted under Standing Committee Resolution No. 14389 of 3rd March 1926. The work is in progress.

#### Fire Brigade.

44. The cost of constructing a Fire Brigade Station at Frere Road amounted to Rs. 2,63,653-12-9.

45. The work of constructing semi-permanent Quarters for Laskars at Mahim Fire Brigade Station has still to be kept pending as the sanction of the High Court to utilise the site for the purpose, which has already been applied for, has not yet been received.

46. The work of constructing a Fire Brigade Station at New Cotton Depot, Sewree, has been completed at a cost of Rs. 1,13,785-11-3.

47. It was proposed to construct a Fire Brigade Station on the reclaimed site of Nigaum Tank. Detailed plans and estimates for the work were approved under Corporation Resolution No. 15701 of 29th March 1926. A provision of Rs. 1,00,000 has been made in the Loan Works Budget for the year 1926-27 and tenders for the work will be invited very shortly.

#### Miscellaneous.

48. The work of constructing a Fountain at the junction of Sandhurst Road and Dongri Street will shortly be entrusted to the Petty Works Contractors.

49. The cost of constructing a Compound wall with wrought iron railing around the Recreation Ground at Gilder Tank amounted to Rs. 9,400-1-0.

50. The cost of constructing a Fountain at the junction of Carnao Road and Frere Road amounted to Rs. 4,953-14-5.

51. The cost of renewing the FLOORING AND THE TEAK WOOD CORNICE OF THE TERRACE over the shops on the north side of the Arthur Crawford Markets amounted to Rs. 15,531-12-8.

52. The work of constructing a semi-permanent corrugated iron shed consisting of 8 rooms at Colaba has been completed at a cost of Rs. 6,192-5-1.

53. The work of constructing a semi-permanent shed of 24 rooms for housing the coolies working on the Asphalt Plant at Love Grove has been completed at a cost of Rs. 9,478-4-11.

## SCHEMES—OVERBRIDGES, ROADS, &c.

### Overbridges.

54. *Currey Road Overbridge*.—The western approach is joined on to the southern approach of DeLisle Road Overbridge.

55. *DeLisle Road Overbridge*.—The bridge with all its approaches has been completed, tested and opened to public traffic from 25th December 1925. Various works will, however, have to be carried out before the same can be taken over for maintenance.

56. A certain amount of work was also carried on DeLisle Road Overbridge and on Bellasis Road Overbridge by this Department on behalf of and at the cost of the Railway Company.

57. *Dadar Overbridge*.—The bridge is completed, tested and opened to public traffic from 10th September 1925. The level crossings across the two Railways have been closed to vehicular traffic though temporarily kept open to pedestrians pending the construction of a foot-bridge over this site. The work of this foot-bridge has been commenced. The construction of the four roads in the Scheme is also commenced. Four plots of surplus land have been sold and one given on a 20 years' lease. Various works, however, will have to be carried out before the bridge can be taken over for maintenance.

58. *Mahalaxmi Overbridge Scheme*.—Out of the 14 main cases notified for acquisition, 12 cases have been awarded and compensation to the extent of 11·3 lakhs has been paid. The remaining two cases are closed for award.

59. Auction sales of the materials in the awarded cases fetched about Rs. 26,276.

60. The Turf Club have now handed over the land pending negotiations of settlement of their claim.

61. Construction of the north and south approaches has been started by the Railway Company.

62. *Victoria Road Overbridge*.—The work of widening Victoria Road has been completed.

### Special Road Schemes.

63. *Church Gate Street Scheme*.—The 20 ft. road between the new 45 ft. Bruce Road and Tamarind Lane opposite Dean Lane, has been widened.

64. *Dalal Street Scheme*.—Dalal Street is complete with underground works and asphalt surface.

65. *Widening of Apollo Street*.—The widening of Apollo Street between Dalal Street and Hummum Street is complete.

66. *Golanji Hill Road Scheme*.—Two cases are still pending before the Land Acquisition Officer. Arrangements are being made to cut the 40 ft. strip of the 80 ft. Tripartite Road through Port Trust Agency.

67. *Golanji Hill Road Extension*.—The Port Trust have constructed the 80 ft. road. A reference is filed by the claimants in the High Court which is still pending.

68. *Widening of 1st Marine Street*.—The work is for the present held up for want of funds, but being urgent will have to be taken up in the near future.

69. *Widening of Samuel Street and Masjid Bunder Road Junction.*—Both the cases are settled, one is acquired and the other is still pending before the Land Acquisition Officer for Court's order.

70. *Acquisition of Properties at Pydhoni.*—All the parties have finally come to a settlement. Two properties have been notified for acquisition. Enquiry in these two cases is pending before the Land Acquisition Officer.

71. *Bapukhote Street Scheme.*—The scheme is kept in abeyance for want of funds.

72. Negotiations for improving the dangerous corner at *Null Bazar at its junction with Bapukhote Street* have been concluded with the Receiver of the High Court, and the sethack will shortly be added to the road as soon as the old structure is demolished.

#### Hornby Road-Ballard Pier Scheme.

73. Further 29 cases have been acquired at a cost of Rs. 25,12,295. A heavy reference in the High Court has been dismissed with cost. Six more references have been added which brings the total list of High Court references to 22 in number. 22 unsound buildings have been demolished in all; these are exclusive of the Military properties already pulled down.

74. *Widening of Ghellabhoy Street.*—The land is acquired and added to the road.

75. *Dadar-Kumbharwada Road otherwise Bhawanishankar Road.*—All the properties except one (now settled for a nominal compensation of Re. 1 and closed for award) have been acquired and taken possession of. Sewers and storm-water drains have been laid. The roadwork has been completed but not the footpaths. The lighting work is in progress. The total expenditure upto 31st March 1926 amounts to Rs. 6,91,252. Recoveries by way of settlements amount to Rs. 3,21,498, out of which Rs. 1,62,694 have been received. The surplus land available for sale is about 35,462 square yards. In two settled cases land is being acquired with corresponding reduction in cash recoupment. 22 cases have been referred to Municipal Solicitors as the parties were evading payment, and in the end 5 recovery suits were filed in the High Court. 7 conveyances were executed during the year under report, 8 are yet to be prepared, while in two cases charge receipts were accepted in lieu of conveyances. The income by way of rents from trees and structures amounts to Rs. 8,576 per annum.

76. *Improvement of Love Grove Pumping Station Road.*—Acquisition work is completed and the road is thrown open to traffic. The total expenditure upto 31st March 1926 amounts to Rs. 4,23,139, and the surplus area available for sale is about 8,649 square yards. One conveyance was executed in this scheme.

77. *Road between Cadell Road and Mahim Kapad Bazar Road.*—Although all the properties have been acquired and taken possession of, the roadwork could not be taken in hand for want of funds. The total expenditure upto 31st March 1926 amounts to Rs. 31,428, and recoveries by way of settlements amount to Rs. 3,000, out of which Rs. 750 have been received. The surplus area available for sale is about 152 square yards. One case was referred to Municipal Solicitors for recovery and it is now settled.

#### Mahim Development Schemes

78. *Road from Lady Jamsetji Road to Mahim Station.*—Out of 23 cases in this scheme 22 have been acquired and taken possession of, Settlement in one has fallen through by the death of the claimant and the case has been re-opened, Sewers and storm-water drains have been laid and the roads are constructed and opened to traffic. Lighting work was also completed towards the end of the year. The total expenditure upto 31st March 1926 amounts to Rs. 4,14,497. Recoveries due to settlements amount to Rs. 2,27,767, out of which Rs. 1,40,542 have been received. Surplus land available for sale is about 20,956 square yards. Two cases were referred to Municipal Solicitors as the parties were evading payments, and in the end one recovery suit was filed in the High Court. Eight conveyances have been executed and five are yet to be prepared, while in three cases charge receipts were accepted in lieu of conveyances. The income by way of rents from trees and structures amount to Rs. 1,636 per annum. An area admeasuring 327 has been sold for Rs. 6,222.

79. *Nardulla Tank Scheme.*—Acquisition work in respect of all the properties except one has been completed and properties taken possession of. Owing to the death of one party one settled case is re-opened and additional land is being acquired with corresponding reduction in cash recoupment. Sewers and storm-water drains have been laid. One of the two main roads is completed and thrown open to traffic and the other main road and cross roads are nearing completion. Lighting work is in progress. The total expenditure upto 31st March

1926 amounts to Rs. 7,73,903. Recoveries by way of settlements amount to Rs. 3,05,857, out of which Rs. 2,89,917 have been received. The surplus area available for sale is 12,500 square yards. Five cases were referred to Municipal Solicitors for recovery of Municipal dues. Six conveyances have been executed and three more are yet to be prepared. In one case land is let on lease for a period of five years after which a conveyance will be executed for the same. The income by way of rents of trees and structures amounts to Rs. 2,620 per annum.

80. *Extension of Delisle Road northwards to meet Lady Jamsetji Road.*—Fifty-three properties have been acquired and taken possession of. Out of remaining 6 cases, five require a nominal compensation of rupee one. In one case only Rs. 40,000 remain to be paid. The ground has been cleared of trees and structures for a width of 100 ft. from Delisle Road to Bombay Woollen Mills. The New Tansa Mains have been laid. Sewers are being laid and the storm-water drains are completed on the south side upto Portuguese Church Street. The total expenditure upto 31st March 1926 amounts to Rs. 13,20,886. Recoveries by way of settlements amount to Rs. 1,10,207, out of which Rs. 92,338 have been received. The surplus area available for sale admeasures 87,897 square yards. Fourteen cases have been referred to Municipal Solicitors for the recovery of Municipal claims and 3 recovery suits have been filed in the High Court. Five conveyances have been executed and fourteen are yet to be prepared. In one case charge receipt was accepted in lieu of conveyance. The total income by way of rents of trees and structures is Rs. 15,902 per annum.

81. *Widening and improving of Lady Jamsetji Road from Bombay Woollen Mills to Bandra Causeway.*—All the properties except one have been acquired and taken possession of. Proceedings in one case are going on before the Land Acquisition Officer. The ground for the main 100 ft. avenue has been cleared throughout. The New Tansa Mains have been laid. Sewers have been laid and the work of storm-water drain will be taken in hand shortly. The total expenditure upto 31st March 1926 amounts to Rs. 28,38,850. Recoveries by way of settlements amount to Rs. 2,67,549 out of which Rs. 1,79,196 have been received. The surplus area admeasuring 120,705 square yards is available for sale. Eleven cases have been referred to Municipal Solicitors for the recovery of Municipal claims and in the end seven recovery suits have been filed in the High Court. Three conveyances have been executed and 6 are yet to be prepared. In two cases charge receipts were accepted in lieu of conveyances. The total income by way of rents from trees and structures amounts to Rs. 35,428 per annum.

82. *Mahim Bazar Cross Road Extension.*—Out of 11 properties in this scheme, 7 have been awarded and taken possession of, 3 are likely to be settled for a nominal compensation of rupee one each, and one is closed for award. Storm-water drains are laid and the sewers are being laid. The road work will be taken in hand as soon as the underground works are completed. The total expenditure upto 31st March 1926 amounts to Rs. 2,08,711. Recoveries by way of settlements amount to Rs. 13,708 out of which Rs. 4,570 have been received. Owing to the failure of payment in one settled case some additional land was taken over with corresponding reduction in cash recoupment. In one case conveyance is to be executed. This road will facilitate the drainage in the Mahim District. The surplus area available for sale if settlements materialise will be about 25,401 square yards. The income by way of rents from trees and structures amounts to Rs. 3,144 per annum.

83. *Road between Lady Jamshedji Road and Tulsi Pipe Line between Dadar and Matunga.*—Two cases have been awarded and taken possession of and two are closed for award. Out of the remaining five cases, four are likely to be settled, and only one is pending before the Land Acquisition Officer. The expenditure booked upto 31st March 1926 amounts to Rs. 53,845. The area available for sale is expected to be about 33,036 square yards, if all the settlements materialise.

84. *Roads between Scheme No. VI and Dadar Bridge Scheme.*—The total number of properties under acquisition is 47, out of which 28 have been awarded and taken possession of, 5 are closed for award, 10 are likely to be settled and the remaining 4 are pending before the Land Acquisition Officer. The total expenditure upto 31st March 1926 amounts to Rs. 2,28,939, Rs. 4,304 are to be received in settled cases. If all the 10 cases are settled as expected, the area available for sale will be about 58,757 square yards. In two cases conveyances are yet to be executed. This scheme was principally designed for the outlets of drainage from the central area of Mahim. The income by way of rents from trees and structures amounts to Rs. 5,966 per annum including that of Scheme No. VI.

85. *Roads from Cadell Road to Mahim Bay to the North and South of Turkey Red Dye Works.*—Out of 11 properties in this scheme, 8 have been acquired and taken possession of, two have been settled and closed for award and only one is pending before the Land Acquisition Officer. Storm-water outfall No. 2 passes through southern road of the scheme and is nearly completed. The total expenditure upto 31st March 1926 amounts to Rs. 1,76,633. Recoveries by way of

settlements amount to Rs. 56,250, out of which Rs. 40,500 have been received. The area available for sale is about 12,425 square yards. Three conveyances have to be executed. The total income by way of rents from trees and structures amounts to Rs. 2,751 per annum. One case was referred to Municipal Solicitors for the recovery of Municipal claim.

86. *Public Park at Mahim.*—All the 65 properties have been acquired and possession taken. Four references were made to High Court, out of which 3 were dismissed with costs and in one compensation was increased by Rs. 18,000. An appeal is being filed in the latter case. One reference is still pending. The total expenditure upto 31st March 1926 amounts to Rs. 57,99,811. Recoveries by way of settlements amount to Rs. 71,190, out of which Rs. 17,562 have been received. Surplus area available for sale admeasures about 130,552 square yards. Only one conveyance has been executed and three more are yet to be prepared. The work of cutting down trees and levelling the ground, of the park area, for recreation purposes has been completed and plots are being laid out and leased to different public clubs. Road work will be taken in hand shortly. Three conveyances are to be prepared. The income by way of rents from trees and structures amounts to Rs. 64,291 per annum.

#### Grant Road Terminal Scheme.

87. The reinstatement of assets disturbed on the Tardeo Flats is in hand. The old rubbish siding at Tardeo Flats has been reinstated by the Railway Company, and working has begun on the new siding at Mahaluxmi. Numerous inspections of the work were made during the year in order to ensure that Municipal requirements were being carried out.

#### Tulsi Pipe Line Scheme (from Haines Road to Dadar).

88. The modified Tulsi Pipe Line Scheme to accommodate main sewers, main drains, water mains, and other municipal underground works having been approved by the Corporation under Corporation Resolution No. 6509 of 21st September 1925, the original scheme was withdrawn. Out of the six urgent cases notified, one is awarded and possession of the land taken and the rest are closed for award.

#### Proposed Road from Haines Road to the junction of Tulsi Pipe Line and Fergusson Road.

89. The negotiations for the acquisition of the properties are proceeding.

#### Miscellaneous Works.

90. *Land for the extension of Arthur Road Hospital.*—The Privy Council has dismissed the appeal made by the owner.

91. *Primary School at Valpakhady.*—The land is lying vacant and as such it is available for the school.

92. *School and Staff Quarters at Mingalwadi, Mazagon.*—The appeal filed by the Municipality against the order of Mr. Justice Shah has been decided in favour of the Municipality and the order changed. The matter is before the Corporation as to whether the Municipality should go on with the acquisition wholly or in part.

93. *Extension of Municipal Workshops at Foras Road.*—The two properties are still leased to the same party.

94. *Byculla Bridge and Market.*—The work of widening the bridge is in full progress. The property is still leased as funds are not yet available for the construction of the market.

95. *Primary school at Mustan Tank.*—The properties are still rented.

96. *Jewish Cemetery at Haines Road.*—Three properties have been acquired and taken possession of and one is likely to be settled. The low lying ground is filled in. The total expenditure up to 31st March 1926 amounts to Rs. 2,43,512.

#### Special Road Schemes.

97. *Extension of the Hindu Cemetery at Wadala.*—All the cases have been closed for award and Government decision in the matter of Toka claim is awaited.

98. *Hindu Cemetery at Worli.*—The old scheme has been considerably modified under Corporation Resolution No. 14935 of 11th March 1926 by which only the area required actually for the Cemetery is to be acquired and steps are being taken to acquire the same.

99. *Cattle Pound at Gardens Bridge.*—About 1,003 square yards of Municipal land at Gardens Bridge was acquired under the Land Acquisition Act by Government for a cattle pound. The amount of award received was Rs. 20,060.

100. *Acquisition of Municipal land at Palton Road.*—About 524 square yards of Municipal land at Palton Road was acquired under the Land Acquisition Act by the G. I. P. Railway in connection with the Railway Electrification Scheme and the award for Rs. 52,441 has been received by the Municipality.

101. *Market Sidings at Carnac Road.*—The construction of the necessary sidings at Carnac Road will be taken in hand after the Railway Company submit the estimates.

102. *Site for a urinal at Girgaum Tram Terminus.*—The negotiations with the owners having failed, other suitable site in the locality is being looked for.

103. *50' Road connecting the Delisle Road Extension to the Tulsi Pipe Line.*—The cases are closed for award.

104. *Bellasis Road Maternity Home.*—The existing Maternity Home at Bellasis Road being insufficiently lighted and ventilated and incapable of any further extension, the Corporation sanctioned acquisition under C.R. No. 14950 of 11th March 1926 of the property belonging to the late Mr. Suleman Abdul Wahed situated at Bellasis Road. The property is now notified under Section 4 of the Land Acquisition Act.

105. *Love Grove Outfall Construction.*—During the year under report no work has been done towards the construction of the Outfall.

106. *Filling in Southern Portion of Storm-water Reservoir.*—The area which was finished last year and handed over to the Turf Club has been laid out by them and racing took place over it for the first time during the past season.

107. In the portion of the area set apart for a recreation ground certain depressions which had occurred due to settlement were brought up to their proper level and the area has since been ploughed over by the Western India Turf Club in course of its preparation for planting.

108. *Main Drainage and Sewerage Scheme.*—A considerable amount of data has been furnished to the Consulting Engineers during the year to assist them in getting out designs and estimates, etc.

109. The staff of this Department has also been engaged largely in preparing designs, drawings and estimates in the same connection and good progress has been made.

110. *Proposed Groynes on Mahim Bay Foreshore.*—In the Mahim district with an area of 1,243 acres the storm drainage of 277 acres has been permanently provided for and further areas are being rapidly dealt with.

111. Designs have been got out for these groynes but before final proposals are submitted a careful study of the effect on the foreshore of the portions of outfalls already constructed, these being virtually the initial lengths of the groynes, is being made.

112. *Love Grove Quarry.*—A considerable quantity of rock was obtained from the excavation of Worli Hill in connection with the work of filling in of Storm Water Reservoir. This stone together with a quantity purchased from the City Improvement Trust was crushed and issued as chips, etc., some to the Road Department and other to various works under my charge as also to private parties, the total quantities issued during the year being 379,103 c.ft.

113. The following is a note of new works in course of construction, the general progress of which has been quite satisfactory :—

## ROAD WORKS.

Name of work.	How being carried out.	State of works as at March 1926.	REMARKS.
Victoria Road Overbridge (Road construction).	Departmentally ..	Completed ..	Handed over for maintenance. Accounts awaiting adjustment.
Mahim Station Road	Do. ..	In progress ..	Main road with 6 cross roads are completed and handed over for maintenance. The remaining roads are under construction.

Name of work.	How being carried out.	State of works as at March 1926.	REMARKS.

Carrying out the work of cutting down trees, demolishing walls and structures, filling in and levelling the ground and ploughing and planting with grass the area surrounding Jambli Tank and abutting on Cadell Road.	Do. ..	Do. ..	The rainy season is being awaited before certain of the works is being proceeded with.

I have the honour to be,  
 Sir,  
 Your most obedient servant,  
 T. K. RODDAN,  
 For *Special Engineer*,  
 Development Works.

No. M.-C. 1-A. of 1926-27.

BOMBAY, 31st May 1926.

FROM

THE EXECUTIVE ENGINEER.

To

THE ACTING MUNICIPAL COMMISSIONER.

SIR,

I have the honour to forward the Administration Report of the Departments under my control for the year 1925-26.

2. The report is divided under the following heads:—

	Para. Nos.
Disposal of Town Sweepings ... ..	3—11
Drainage ... ..	12—51
Mechanical Branch... ..	52—98
Roads ... ..	99—133
Footpaths ... ..	134—135
Tramways ... ..	136—138
Public Lighting ... ..	139—148
Private Building Construction (including Set-backs)...	149—170
Repairs to Municipal Buildings, Plague Measures, and House Numbering, etc. ...	171—178

## DISPOSAL OF TOWN SWEEPINGS.

### Kutchra Reclamation Works at Deonar.

3. The work of putting up a Chord Bund across the Khajan at Deonar sanctioned under Corporation Resolution No. 10337 of 7th February 1924, which was only half finished last year, was completed this year at an estimated cost of Rs. 32,000. The length of this Bund is nearly a mile.

4. Five new kutchra wagons of the steel wood compo type and seven old kutchra wagons rebuilt on the same type were received from the B. B. & C. I. Ry. Co. during the year under report at the cost of Rs. 24,000 and Rs. 30,800 respectively.

5. New coir mat covers for 128 kutchra wagons and 21 canvas tarpaulin covers for drain wagons were prepared during the year under report at a cost of Rs. 3,434.

### Area Reclaimed.

6. The area reclaimed with town sweepings during the year was four acres bringing the total to 254 acres.

### Income.

7. The rights of cultivating the reclaimed land and of fishing in the Khajan for the year ending 31st March 1926 were sold for Rs. 25,000 and Rs. 800 respectively.

### Fires and Accidents.

8. There was no accident during the year but fire continued to rage on the reclaimed land almost throughout the year necessitating the constant shifting of the train from siding to siding.

### Detention to Kutchra Trains.

9. Engine detention charge at Rs. 5 per hour per trip had to be paid throughout and occasionally even Rs. 10, the length of the temporary siding being too long to allow the shunting operations being performed within the stipulated time of thirty minutes.

## Sickness.

10. There was no epidemic of any sort in the Municipal camp. The Sub-Registrar visited the camp regularly thrice a week throughout the year and attended the sick; medicines, &c., were administered free to the staff at Municipal expense. During the year there were four deaths in the camp consisting of over 500 persons.

11. The elementary vernacular school, established 18 years back by the Depressed Classes Mission for the low caste children within the Municipal compound, continued to be well attended, the average attendance being about forty.

## Construction of Sewers, Drains and Public Conveniences.

12. The first, second, third and fourth sections of the Ovoid Sewer in connection with the Duplication of the Tansa Main worked very satisfactorily during the year.

13. No further claims for the Extension of the Low Level Channel No. II from DeLisle Road to Dadar Road, through which the channel was constructed under the powers reserved to the Municipal Commissioner under Section 222 of the Municipal Act, were preferred during the year.

14. 20 works shewn in the Statement marked "A" were carried out by contracts.

15. The following five works were carried out departmentally at the cost noted against each:—

	Rs.	a.	p.
1. Providing storm water drainage arrangements in the Compound of Seth Gordhandas Sunderdas Medical College.. ..	7,433	2	0
2. Providing drainage connections for the proposed quarters with water-closets and washing-place at Bhandarwada Hill .. ..	2,421	11	0
3. Shifting 30 water entrances in Bhuleshwar Road .. ..	1,735	8	0
4. Diverting the existing 6" pipe drain in Tulsi Pipe Road .. ..	172	9	0
			(part cost)
5. Lowering the existing 6" pipe chamber and providing 7 new chambers in Chakla Street .. ..	712	11	0

**A.**

*Works done by Contract during the year 1924-25.*

Serial No.	Names of Works.	Names of Contractors as per Standing Committee Resolution No.	Contract Amount.	Actual expenditure including establishment upto 31st March 1926.	Contract date of completion.	Actual date of completion.	Remarks as regards progress.
				Rs.    dec.			
1	Constructing a S. W. arched drain from the junction of Frere Road and Carnac Road to the outfall at Carnac Bunder.	Messrs Tejoo-Kaya & Co., Standing Committee Resolution No. 8818, 3rd December 1924.	1,80,503·64	1,90,204 12 10	5th June 1925 ..	2nd June 1925 ..	Work completed and accounts adjusted.
2	Construction of the portions of Main Sewer in Vincent Road and at Matunga.	Messrs. Gannon Dunkerley & Co., Ltd., Standing Committee Resolution No. 823 of 29th April 1925.	28,256·25	24,273 1 1	24th Dec. 1925 ..	19th Feb. 1925 ..	Work completed and accounts to be adjusted.
3	Constructing a covered masonry drain with water entrances in place of old dhapa drain on each side of the portion of Duncan Road between Grant Road and the junction of Falkland Road and Erskine Road.	Messrs. Gannon Dunkerley & Co., Ltd., Standing Committee Resolution No. 1131 of 6th May 1925.	37,446·49	33,479 2 2	17th Aug. 1925 ..	7th Dec. 1925 ..	Do. do.
4	Constructing a covered S. W. Drain in Doctor Street ..	Mr. Dayalal Chaku Mistry, Standing Committee Resolution No. 1330 of 13th May 1925.	25,619·20	23,035 0 8	20th Dec. 1925 ..	7th Feb. 1925 ..	Do. do.
5	Constructing a S. W. Drain in a portion of Arthur Road between the Level Crossing and Lamington Road.	Messrs. Chandishah & Bros., Standing Committee Resolution No. 1132 of 6th May 1925.	13,221·52	14,039 11 9	18th June 1925 ..	24th June 1925 ..	Work completed and accounts adjusted.
6	Constructing a S. W. Drain in Girgaum Back Road between Thakurdwar Road and C. P. Tank Road.	Messrs. Vartak and Bhat, Standing Committee Resolution No. 12032 of 4th March 1925.	7,729·45	8,072 1 0	29th April 1925 ..	9th May 1925 ..	Do. do.
7	Providing a 15" S. W. Pipe Drain with water entrances at Girgaum Road between Kennedy Bridge and Gowalia Tank Road.	Messrs. Vartak & Bhat, Standing Committee Resolution No. 12033 of 4th March 1925.	10,535·22	10,032 14 6	29th April 1925 ..	7th May 1925 ..	Do. do.
8	Constructing S. W. Drains in Dock Yard Road, Mazagon Road and Belveders Road.	Messrs. Ramji Keshavji & Co., Standing Committee Resolution No. 1332 of 13th May 1925.	27,235·70	25,011 12 5	21st Jan. 1926 ..	20th Dec. 1925 ..	Work completed. accounts to be adjusted.
9	Providing a 12" S. W. Pipe Drain in Dalal Street ..	} Messrs. Ramji Keshavji & Co., Standing Committee Resolution No. 1333 of 13th May 1925.	20,902·05	6,432 3 8	} 25th July 1925..	10th Aug. 1925 ..	Work completed and accounts adjusted.
10	Providing a S. W. Drain in Apollo Street. .. ..			12,510 7 0

				Rs. dec.	Rs.	s.			
11	Constructing S. W. Drains in Girgaum Back Road and C. P. Tank Road.	Mr. A. C. Varma, Standing Committee Resolution No. 7255 of 14th October 1925.	21,560.38	23,329	0	8	5th Jan. 1926 ..	24th Dec. 1925 ..	Work completed and accounts to be adjusted.
12	Constructing a S. W. Drain and diverting a short length of 12" Pipe Sewer in Love Lane.	Messrs. Chandishah and Bros., Standing Committee Resolution No. 7253 of 14th October 1925.	44,510.67	35,014	7	9	1st Feb. 1926 ..	10th Jan. 1926 ..	Do. do.
13	Constructing an Ovoid Sewer from the junction of Sandhurst Road and Parsi Road to Chunam Kiln Road.	Mr. Jivaji Kasamji, Standing Committee Resolution No. 7251 of 14th October 1925.	54,914.75	28,556	1	5	1st April 1926 ..	....	The work was in progress at the close of the year.
14	Constructing an Ovoid Sewer from Chunam Kiln Road to 250' South of Paidhoni Road.	Mr. Jivaji Kasamji, Standing Committee Resolution No. 7252 of 14th October 1925.	40,962.27	17,981	3	4	1st Feb. 1926 ..	....	Do. do.
15	Constructing a S. W. Drain with five full sized and 12 half sized water entrances in Kambeker Street between Paidhoni Road and Masjid Bunder Road.	Mr. Balkrishna Panduj Banker, Standing Committee Resolution No. 7254 of 14th October 1925.	10,412.40	10,305	10	8	8th Dec. 1925 ..	19th Dec. 1925 ..	Work completed and accounts to be adjusted.
16	Providing a covered S. W. Drain with water entrances in Khoja Street.	Mr. T. C. Varma, Standing Committee Resolution No. 7256 of 14th October 1925.	28,546.20	29,472	0	7	4th Jan. 1926 ..	19th Dec. 1925 ..	Do. do.
17	Providing 15" and 12" S. W. Pipe Drains in Rose Cottage Lane and Matarpakhady Road.	Messrs. Baburao Balwant-rao & Co., Standing Committee Resolution No. 9074 of 18th Nov. 1925.	18,347.32	16,811	1	0	31st Jan. 1926 ..	31st Jan. 1926 ..	Do. do.
18	Providing S. W. Drains in portions of Matarpakhady Road, Mount Road and Mazagon Road.	Messrs. Tejoo Kaya & Co., Standing Committee Resolution No. 9075 of 18th November 1925.	21,385.71	15,380	7	1	3rd Feb. 1926 ..	15th Jan. 1926 ..	Do. do.
19	Laying a 33" C. I. pipe S. W. Drain in the G. I. P. Railway premises at Currey Road, and covering up the open drains in Gas Coy.'s property, &c.	Messrs. Tejoo Kaya & Co., Standing Committee Resolution No. 10836, of 23rd December 1925.	15,737.29	6,627	14	4	30th April 1926 ..	10th April 1926 ..	Work was in progress at the close of the year.
20	Providing a corrugated steel pale fencing on the site of the Low Level Channel from Worli Sluice Gate to a distance of 1,268 ft. southwards.	Messrs. The Nansi Iron and Steel Works, Standing Committee Resolution No. 8074 of 4th November 1925.	6,889.27	6,698	14	10	2nd Jan. 1926 ..	16th Jan. 1926 ..	Work completed and accounts adjusted.

16. The following 4 works were carried out through the agency of the Petty Works Contractors at the cost noted against each :—

	Rs.	a.	p.
1. Providing water entrances in Kika Street... ..	5,315	11	3
2. Providing 2 fullsized water entrances and 2 manholes over the existing storm water drain, raising up the existing dhapa chambers giving new 6" connections to the main sewer in place of the existing vertical connections and constructing a manhole on the 9" sewer in Bhuleshwar Road .. .. .	157	0	4 (part cost)
3. Remodelling the channel drains in Arthur Crawford Market ..	1,096	6	3
4. Providing 6" and 9" pipe drains with inspection chambers in the house-gully between Undria Street and Huzria Street .. ..	3,980	10	1

17. The last work was carried out to enable the Health Department to take action for the conversion of the existing privies on the basket system into water-closets on the full flushing system in respect of the premises abutting on these streets and with a view to improve the general sanitary condition of the district.

18. Following 3 works entrusted to the Petty Works Contractors at the close of the year 1924-25 were completed during the year of report at the cost noted against each :—

	Rs.	a.	p.
1. Providing 14 zinc vent shafts in the different portions of the storm water drain running from Gilder Lane near the Railway compound to the Junction of Carnac Road and Abdul Rehman Street .. .. .	4,339	14	1
2. Providing a 6" pipe drain with inspection chambers, gully-traps, etc., in the common house-gully between 10th and 11th Kamatipura Streets .. .. .	2,906	13	3
3. Providing a 6" pipe drain with inspection chambers, gully-traps, etc., in the common house-gully between 11th and 12th Kamatipura Streets .. .. .	3,119	1	7

19. The work of providing new pattern storm water entrances with C. I. gratings and frames in Ardeshir Dady Street, Erskine Road, Borah Street, Fort Street, Falkland Road between Sandhurst Road and Sindhi Lane, Kolsa Street between Nakhoda Street and Pydhownie Road and Sleater Road Low Level Road, South, was carried out as an anti-malarial measure through the agency of the Petty Works Contractors.

20. The total certified expenditure upto the end of the year amounted to Rs. 9,645-8-1.

21. 21 small drainage works were carried out through the agency of the Petty Works Contractors and 4 works departmentally out of the grant of Rs. 18,000 provided in the Budget under New Works, Drainage.

22. The total certified expenditure upto the end of the year amounted to Rs. 13,767-10-3.

23. A provision of Rs. 3,000 was made in the Budget for the year under report under New Works for providing permanent manholes over storm water drains. 2 manholes were provided at Clive Road, 4 at Sleater Road, Low Level Road, South, 4 at Borah Street and 9 at Ardeshir Dady Street. The work was done departmentally.

24. The total certified expenditure upto the end of the year amounted to Rs. 2,257-1-5.

#### Alterations to Drains.

25. 43 small works of repairs and alterations to drains and gutters were carried out departmentally or through the agency of the Petty Works Contractors.

26. The total certified expenditure upto the end of the year amounted to Rs. 24,557-6-11.

### Maintenance of Drains.

27. No damage of any kind was done either to the sea walls or to the Biological Installation in connection with the Malabar Hill Sectional Sewerage Works during the last rains.

28. The large storm water drains in Reay Road, Connaught Road, Parel Road and Supari Baug Road worked satisfactorily during the year.

29. There are about 136.84 miles of pipe sewers and the systematic cleaning of these sewers was carried out throughout the fair season. Double disc and cleaning rods were passed through 70.20 miles of these sewers and the silt removed therefrom amounted to 2,682.86 tons or 68,291 c.ft.

30. There are 14.36 miles of main ovoid sewers including the duplication. Scrapers were passed through 16.46 miles of these sewers—some portions of the sewers having been scraped twice—and the silt removed therefrom amounted to 1,035.33 tons or 26,354 c.ft.

31. There are about 182.18 miles of storm water drains, out of which 25.90 miles were cleaned and 12,066.12 tons or 307,137 c.ft. of silt removed therefrom.

32. An extra grant of Rs. 34,000 for cleaning storm water drains, water-courses and ovoid sewers was provided for in the Budget for the year under report and the work of cleaning large storm water drains, water-courses and ovoid sewers was done at the following places:—

- (a) Storm water drains in Erskine Road, Clive Road, Parel, Bhendi Bazar, Falkland Road, Bapty Road, Khetwady Main Road, Khoja Street, Kika Street, Duncan Road, Reay Road, Argyle Road, Gilder Lane were cleaned at a total cost of Rs. 19,369-13-0.
- (b) Water-courses in Elphinstone Road, DeLisle Road, Narayan Dabholkar Road, Naigaum Road, Arthur Road, Mahaluxmi, Tardeo Flats, Haines Road, Currey Road, Anjirwady, Wadala Road, Mahim Causeway, Warden Road and Sewree Cemetery were cleaned at a total cost of Rs. 5,931-11-0.
- (c) The work of cleaning ovoid sewers was carried out at a total cost of Rs. 7,901-9-0.

33. There are 32 catchpits on pipe sewers and 9 on main sewers. The silt removed therefrom during the year amounted to 3,005.20 tons or 76,496 c.ft.

34. There are 411 underground flushing chambers to flush pipe sewers and 693 vent-shafts to ventilate the sewers.

35. The work of cleaning open main drains at Worlee was carried out departmentally at a total cost of Rs. 4,953-9-0 out of the grant of Rs. 5,000 provided for the purpose and the silt removed therefrom amounted to 196,400 c.ft.

36. The expenditure on the maintenance and upkeep of the open main drains and the Low Level Channels amounted to Rs. 4,972-14-0 against the grant of Rs. 5,000 provided for the purpose.

37. A provision of Rs. 9,000 having been made in the Budget for cleaning the Low Level Channels, the work was carried out during the year at a total cost of Rs. 8,075-6-3 and the silt removed therefrom amounted to 154,170 c.ft.

38. The work of constructing Relieving Arches for strengthening the old main drain at Falkland Road was carried out departmentally and completed during the year upto the limit of the funds provided in the Budget. The total certified expenditure upto the end of the year amounted to Rs. 4,167-13-7.

### Ejectors.

39. The new ejectors in the Colaba Sub-Districts Nos. 3, 4 and 5 worked satisfactorily.

### Latrines, Urinals and Night-soil Depots.

40. The following 7 works of constructing latrines and urinals were carried out either departmentally or through the agency of the Petty Works Contractors:—

	Rs.	a.	p.
1. Reconstructing a 20-seated latrine on the flushing system at the Halalkhores' Chawl at Purbhadevi .. .. .	6,904	15	2
2. Demolishing the existing 6-seated Torfit pattern urinal opposite the Manockjee Petit Mills at Tardeo Road and constructing a 6-seated Trough pattern one in lieu thereof .. . . .	2,054	0	0

	Rs.	a.	p.
3. Removing the Torfit pattern urinal at Grant Road Cross Lane and constructing a 9-seated Trough pattern one instead .. ..	2,746	0	0
4. Providing a 5-seated water-closet on the full flushing system in the compound of Municipal premises No. 41, Victoria Road, Narielwady .. .. .	2,990	0	0
5. Providing a 3-seated water-closet on the full flushing system on Gibbs Road near the existing urinal .. .. .	1,700	14	11
6. Providing 2 water-closets on the full flushing system in the compound of Bandra Slaughter House .. .. .	1,552	13	2
7. Removing the existing privies, and constructing one European pattern and three Native pattern, water-closets on the full flushing system at the Acworth Leper Asylum .. ..	2,522	13	0

#### Street and House Connections.

41. The street portions of the house-drain connection works in the City were carried out departmentally. During the year 221 sullage connections were made at a total cost of Rs. 19,116-11-11. These connections served 329 premises, all of which are drained on the closed system.

42. In addition to the above, 87 storm water connections were made at a total cost of Rs. 9,594-10-4.

43. Several branch drains were laid for bringing certain undrained premises within 100 ft. of the Municipal sewers as required by Section 231 of the Municipal Act.

44. About 20 estimates and 254 plans were prepared for the issue of Notices under Sections 230, 231 and 238 of the Municipal Act.

#### Miscellaneous.

45. Works to the extent of Rs. 2,56,280 including repairs and alterations to, and cleaning of sewers and drains generally, making minor additions thereto and the drainage arrangements of the various Health Camps, etc., as also all new Drainage Works provided for in the Budget for 1925-1926 were carried out during the year.

46. Out of these, works costing Rs. 1,49,200 were carried out departmentally and the rest were executed through the agency of the Petty Works Contractors.

47. A new type of improved concrete cover for water entrances was introduced 11 years ago. It has not only proved satisfactory for the effectual closing of the water entrances during the fair season, but has also prevented the escape of foul gases and the breeding of mosquitoes.

48. The total number of such covers fixed during the year under report, was as under the cost having been met out of the Miscellaneous grant :—

Ward.	Nos.
A .. .. .	803
B .. .. .	111
C .. .. .	140
D .. .. .	135
E .. .. .	142
F .. .. .	1,043
G .. .. .	32
	2,406

49. Other water entrances were covered over with closable gratings in C. I. frames which are a further improvement on the above, and are now used for all new water entrances.

50. 1,945 Notices were issued under different Sections of the Municipal Act against the owners of premises for remedying the defects in the drainage arrangements. 772 Summonses were issued for not complying with the requisitions.

51. Fines amounting to Rs. 918 were inflicted on the owners of premises for non-compliance of the requisitions.

## MECHANICAL BRANCH.

### Municipal Workshops.

1925-26

52. The total expenditure incurred during the year for works executed at the Municipal Workshops aggregated Rs. 5,56,040-13-2 as under :—

	Rs.	a.	p.
For Departmental works .. .. .	4,38,382	6	9
For castings manufactured in the shops .. .. .	11,096	3	1
For Establishment, &c., charges—			
(a) Shop .. .. .	45,481	3	8
(b) Office .. .. .	61,080	15	8
Total ..	5,56,040	13	2

53. The total amount of bills preferred by the Workshops during the year 1925-26 aggregated Rs. 5,64,552-14-1 as under :—

	Rs.	a.	p.
Amount chargeable on different jobs during the year .. .. .	5,58,779	7	1
Add—Amount of incomplete jobs at the beginning of the year .. .. .	9,229	15	0
	5,68,009	6	1
Deduct—Amount of incomplete jobs at the end of the year 1925-26 .. .. .	3,456	8	0
Total amount of bills preferred by the Workshops during the year 1925-26 ..	5,64,552	14	1

54. The working of the shops resulted in a profit of Rs. 9,195-10-11 as under :—

The actual charges are as follows :—

	Rs.	a.	p.		Rs.	a.	p.
General working of the shops (Establishment, &c., charges) .. .. .	1,06,562	3	4		....		
Amount of supervision, &c., charges by charging fixed percentage of 25 per cent. on the cost of works executed at the shops .. .. .					1,08,545	12	3
Profit on account of hire of pumping plant to private parties, &c. .. .. .					755	1	0
Profit on account of sale of coal ashes, waste paper, un-serviceable stores, etc. .. .. .					6,457	1	0
Net profit in the working of the shops .. .. .	9,195	10	11		....		
	1,15,757	14	3		1,15,757	14	3

55. In addition to the abovementioned work the Workshops have continued to keep in repair the Love Grove Pumping and Compressor Stations, Steam Rollers, Municipal Quarry Machinery and Tar Mixing Plant, Fire Engines, Municipal Motor Transport, Refrigerator at the Arthur Crawford Markets and Air Compressor Stations at Arthur Road and Bhandarwada, also a new Refuse Municipal Depot has been erected and machinery installed at Carnac Bridge. This Department also supervises electrical installations at the New King Edward Memorial Hospital and Gordhandas Sunderdas Medical College including various additions and alterations that are being executed and, the new Compressor Station that is being erected at Warden Road.

56. The effective Retrenchments in the various departments have re-acted on the turn over of the Municipal Workshops which shows a further decrease of Rs. 94,543 during the year.

57. The following comparative statement shows the turn over and profit during the last three years :—

	1923-24.	1924-25.	1925-26.
Turnover .. .. .	7,10,265	6,50,583	5,56,040
Profit .. .. .	20,310	26,449	9,195

58. The foundry at the Municipal Workshops has worked satisfactorily throughout the year.

59. It is desirable again to draw the attention to the fact that none of the Municipal motor lorries is housed and the provision of a garage is a very urgent necessity.

60. During the course of the year the Corporation sanctioned the creation of a post of an Accountant. The Officer appointed will commence his duty from the beginning of the New Financial Year on the New System of Accounting.

#### Love Grove Pumping and Compressor Stations, Love Grove Pumping Station.

61. The Steam Pumping Station has only worked intermittently during the course of the year except during the monsoon period. The pumps are all in sound condition. Additional water supplies have been brought into the City during the year and it is extremely unfortunate that the whole of the additional water supply has been received at the Love Grove Pumping Station during the hours of maximum flow ; thus demanding a much larger reserve of pumping power and neutralising the margin of safety provided by the new Electrically driven pumps. The position will be materially worse when further supplies of water are received in the City. The installation of further pumping plant is imperative.

62. The coal consumed during the year was 1,368 tons.

63. Bengal coal was in use throughout the year, the cost per ton being Rs. 19-13-0.

64. The screening plant and dredgers have been maintained in good working condition.

65. The dumping ground for this silt is now so far removed from the screening chamber that extra labour has to be provided.

66. The average height of sewage for the year in the detritus chamber was 6'-2" and the amount of detritus removed was 8,214 tons.

67. It will be noticed that this latter figure has been enormously increased since the electric pumps were installed, so that more silt is now being removed from the sewage in the detritus chamber before being pumped out to sea.

68. The total sewage pumped shows a large increase over the records in previous year due to the additional water supply to the extent of 15 million gallons per day now brought into the City.

69. As in previous monsoon a considerable amount of storm water was pumped and no serious flooding took place in the City. At all times the sewage and storm water were under perfect control.

#### Electric Pumping Station.

70. The Electric Pumping Station installed in July 1924 has run continuously since that date. The plant has proved to be extremely reliable and economical to run. The number of units consumed during the year amounted to 3,165,300, the total cost being Rs. 1,43,427-10-6 against 1,785,200 units consumed at a total cost of Rs.80,891-14 in the previous year.

71. As further additional supplies of water are likely to be brought into the City at an early date and owing to the slow progress of the General Drainage Scheme I strongly recommend the installation of a third electrically driven pumping station to secure a reasonable pumping margin of safety as the experience of the last six months has shown that all additional water coming into the City is received at the Pumping Station at the time of the peak-load of pumping. It may be stated that the cost of pumping one million gallon of sewage to the sea is less now than in 1913-14.

### Love Grove Compressor Station.

72. I again draw attention to the air compressors at Love Grove. These have now been running continuously for 26 or 27 years. It is probable that in the next year's budget provision may have to be made for the renewal of a great deal of this plant as the present position is extremely unsatisfactory, it not being known how long the present plant will have to run. Its life cannot be prolonged indefinitely.

73. The coal consumed in the Compressor Station amounted to a total of 6,337 tons 10 Cwts. 2 qrs.

74. The compressors continued to work at their maximum capacity throughout the year.

75. The new quarters for Engineers and men at Love Grove are completed and are ready for occupation.

### Storm-Water Sluices.

76. The storm water sluices are generally in a very poor condition.

77. At Cleveland Bunder a dam was constructed owing to the bad condition of the gate. The second gate is now in a very bad condition and provision has been made in the Loan Works Budget for the construction of another dam. It must not be forgotten that these gates are extremely important as in the case of failing of any of them a large area in the Northern part of the City would become flooded from the sea.

78. The old gates at Dharavi are still in operation.

79. The storm water gates at Love Grove are in fair condition.

80. The automatic sluice gates and spill weir erected between the storm water channel and Reservoir worked successfully during the year. The reduced area of the storm water reservoir should be counter-balanced at an early date by the provision of a storm water pumping station.

### Ejector Stations.

81. All the Ejector Stations in the City are now dealing with practically the maximum amount of sewage that they are designed for. It is possible that in the near future the provision of a further ejector station will be necessary.

82. The New Ejector Station at the Junction of DeLisle Road and Fergusson Road has worked satisfactorily during the year and considerably improved the drainage conditions of the District.

83. The renewal of the Rising Main from DeLisle Road to Fergusson Road has been taken in hand.

### Colaba Air Compressor Station.

84. The electrical plant at Colaba has worked uninterruptedly during the course of the year. It is now proposed to remove the old chimney and dispose of the boilers which it will not be possible to use in the future.

85. The installation of the new air compressor has considerably improved the air pressure and consequently complaints of surcharging, which were at one time very frequent, have decreased.

86. The auxiliary air compressor on the Military Land was utilized only during the monsoon period.

87. During the year 202,141 units were consumed at a total cost of Rs. 23,651-6-8.

88. The total quantity of sewage pumped in the Colaba District during the year is as follows:—

Ejector No. 1	Colaba	..	..	..	..	..	..	..	197,654,500	gallons.
"	" 2	"	..	..	..	..	..	..	161,407,000	"
"	" 3	"	..	..	..	..	..	..	157,497,000	"
"	" 4	"	..	..	..	..	..	..	64,772,500	"
"	" 5	"	..	..	..	..	..	..	26,716,250	"
									<u>608,047,250</u>	
Total gallons									..	608,047,250

89. No trouble has been experienced in the Rising Main from Colaba during the year.

#### Bhandarwada Air Compressor Station.

90. The Bhandarwada Air Compressor Station continued to run successfully during the year. This station has been effective in considerably improving the drainage in the Tank Bunder District.

#### Arthur Road Air Compressor Station.

91. This station has also run without trouble and many of the complaints formerly received regarding the surcharging of sewers in the DeLisle Road and Fergusson Road Districts have disappeared.

#### Auxiliary Air Compressor Station at Mahaluxmi.

92. This is to be put in hand at once to assist the overworked ejectors in Warden and Setalwad Roads. The work, it is hoped, will be completed before the monsoon of 1926.

#### Inspection Motor Cars.

93. As recommended by The Retrenchment Officer most of the Municipal Inspection cars have been disposed of. The cars in use are in a satisfactory condition.

#### Inspection of Factories and Workplaces.

Total	410	191	409	191	13	15	10

95. The total number of Permit and License cases inspected and disposed of during the year 1925-26 was 601.

96. Nuisance cases were attended to. Factories reported working without permits. Actions under Section 392 of the Municipal Act were taken against the Proprietors of the Factories in cases wherever the requirements were infringed.

97. The total number of cases inspected during the year 1925-26 was 639.

98. Each factory and work-place was inspected more than three times.

### ROADS.

99. The Stone Crushers installed at Nowroji Hill and Sewri worked satisfactorily throughout the year. Rubble stone required for the Nowroji Hill Crusher was purchased from the City Improvement Trust at Rs. 8 per brass. Sewri Crushers were supplied with the rubble obtained from Messrs. McKenzies Ltd. out of the Municipal ridge at Sewri, which they had contracted to quarry at Rs. 5 per brass. There was also some balance out of the stock of rubble purchased from the City Improvement Trust last year.

100. The working expenses and the cost of the materials produced by these Crushers are given below:—

	Working cost.		Value of materials produced.	
	Rs.	a. p.	Rs.	a. p.
Nowroji Hill Crusher	34,167	0 0	46,901	13 0
Sewri Crushers	65,399	0 0	83,375	5 0

## Improvement of Private Streets.

101. Action under Section 305 of the Municipal Act was taken in respect of 41 private streets and the following streets were declared public after improvement under Section 306 of the Municipal Act.

Name of the Street.	Area in sq. yards.
1. Street off Frere Bridge low level road, South. . . . .	721
2. Benham Hall Cross Lane, off Benham Hall Lane. . . . .	553
3. Nicdavri Oart, off Girgaum Road . . . . .	526
4. Laxmi Narayen Lane. . . . .	1,111
5. Topiwala Lane, off Lamington Road. . . . .	608
6. Hathibag Lane No. 1, off Love Lane. . . . .	924
"    "    2    "    "    . . . . .	2,123
"    "    3    "    "    . . . . .	822
"    "    4    "    "    . . . . .	521
7. Dubash Lanes between Sandhurst Road and Girgaum Back Road . . . . .	1,587
8. Duarte's Oart, off Girgaum Back Road . . . . .	471
Total . . . . .	9,967

102. The private street known as New Wady off Dadyseth Agiary Street was similarly improved under Section 305, but could not be declared public owing to objections from the owners of houses abutting on it.

103. Two lanes were dealt with under Section 377 (1-A).

104. In addition to the above roads the following roads and footpaths were taken over from the Bombay Port Trust, Bombay Improvement Trust and the Bombay Development Department.

Name of road and footpath.	Area in sq. ft.	From whom taken over.
1. Carriageway in front of the Gateway of India.	54,929-00	Bombay Port Trust.
2. Footpath . . . . .	28,133-00	
3. Bhendy Bazar Road junction with Sandhurst Road.	10,926-00	Bombay Improvement Trust.
4. Footpath at Victoria Gardens Road between Byculla Bridge and the J. J. Hospital.	1,02,085-00	
5. Victoria Gardens Road from Connaught Road to Chinchpokli.	96,800-00	
6. Roads Nos. 3, 4, 5 & 6 between Nowland Road and Hospital Lane.	10,761-00	Bombay Port Trust.
<i>Dadar-Matunga Estate.</i>		
7. Roads Nos. 23, 25, 26A, 27, 28A, 39, 48 & 49.	1,54,414-00	Bombay Improvement Trust.
8. Eastern roadway of the King's Way between Elphinstone Road and Naigaum Cross Road.	1,49,710-00	

Name of road or footpath.	Area in sq. ft.	From whom taken over.
9. Matunga Roads Nos. 2, 6, 8, 9, 13, 14, 15, 26, 30, and 40 (portion).	1,05,658-00	Bombay Improvement Trust.
10. Road between Matunga foot-bridge and 60 ft. Road No. 7.	4,155-00	
11. 80 ft. King Edward Road from Suparibag Road to the Hospital Avenue.	79,320	
12. Western Carriageway of the King's Way to the northern boundary of Scheme No. V.	50,220	
13. Roads Nos. 1, 2, 3, 4, 5, 7, 11, 12A, 14, 15, 16, 17, 19A, B, C, 23, 29 & 31.	1,70,194	
14. Western Carriageway of King's Way between the boundary of Scheme No. 5 & 6 and the Mahim Loop Railway Bridge.	24,480	
15. Roads in the Development Directorate's DeLisle Road Chawl area.	1,20,870	Bombay Development Department.

105. This represents about 7 miles of the new roads taken over by the Municipality during this year.

#### Street Widening consequent upon adding Set-Backs.

106. About 5,560 sq. yards of land were added to the roads in different wards as set-backs at a cost of Rs. 44,362.

107. The total area of ordinary macadam roads repaired and maintained during the year and the expenditure incurred thereon are given in the following table.

Kind of work.	Area in sq. ft.	Cost dec.
		Rs.
Resurfacing .. .. .	18,56,028	2,47,445-10
Patch Repairs .. .. .	54,98,357	2,40,784-21
Maintenance of kutcha footpaths .. .. .	....	11,901-98
Maintenance of roadside trees .. .. .	....	14,608-32

108. The average cost of repairing water-bound roads works out to Rs. 13-5-3 per 100 sq. ft. or annas 2 and pies 2 per sq. ft.

109. The average cost last year was Rs. 13-6-5 per 100 sq. ft. and annas 2 and pies 2 per sq. ft.

110. It will be noticed that the area of water-bound roads repaired and the expenditure incurred thereon during the year under report are considerably less than the corresponding figures of the last year. This is due to the fact that the grant for the maintenance of macadam roads were considerably reduced in view of the increase in the area of Capital Roads that is being constructed every year. During the last 4 years nearly 30 miles of the main and heavy trafficked roads in the City have been laid with permanent construction, which has enabled considerable reduction in the annual maintenance cost being effected and greater attention being paid to smaller roads.

#### Motor Transport.

111. The 21 motor lorries in possession of the Road Department continued to work satisfactorily during the year. These lorries also worked for some time for the Market, Water Works and Development Departments.

112. Out of the 17 Albion lorries, two have been converted into water tank lorries and one transferred to the Market Department.

113. The Albion lorries have passed their serviceable life and will have soon to be replaced by new ones.

#### Steam Rollers.

114. There are 45 road rollers in the possession of the Department, most of which continued to work satisfactorily. 4 of these were working in the Special Engineer's Department.

115. Two rear wheels for steam roller No. 22 were purchased from Messrs. Turner Hoare and Company at a cost of Rs. 905.

116. Some of the rollers have passed their useful life and will have to be scrapped.

#### CAPITAL ROADS.

117. The following roads were reconstructed during the year:—

Name of road.	Area in square yards.	Total expenditure booked up to 28th February 1926.	Rate per square yard.	REMARKS.
		Rs.	Rs.	
<i>6" cement concrete road.</i>				
1. Masjid Bunder Road.	6,694	58,936	8.8	The major portion of the work was carried out during 1924-25.
<i>3" Sheet asphalt on 6" cement concrete foundation.</i>				
1. Girgaum Road from Thakurdwar Road to Charni Road.	5,033	61,264	12.01	Part of the work was done during 1924-25.
2. Clare Road from Parsi Statue to Sankli Street.	9,270	1,03,258	11.14	
3. Shaik Memon Street from Princess Street to Kalbadevi Road.	5,806	68,863	11.88	
4. Fort Street, north side from Hornby Road to Nicol Road.	9,472	1,09,044	11.50	
5. Grant Road from Falkland Road to Parel Road.	11,550	1,42,225	12.31	
6. Falkland Road from Sandhurst Road to 2nd Carpenter Street.	2,254	28,220	12.52	
7. Victoria Road, north side.	6,188	70,786	11.44	
8. Dalal Street.	1,302	15,336	11.75	Out of the grant for widening and extension of Dalal Street.
9. Span of the Carnac Bridge (1" sheet asphalt on 2" concrete bedding).	352	3,030	8.61	
Total Rs. . .		6,02,026		

Name of road.	Area in sq. yds.	Total expenditure booked upto 28th February 1926.	Rate per sq. yd.	REMARKS.
<i>Sett-stone pavement on 9" cement concrete foundation.</i>				
1. Reay Road from Dock yard Road to Kalashowki Road .. .. .	2,528	39,687	15.74	
2. Approaches to the Carnac Bridge from Kazi Syed Street to Frere Road .. .. .	5,413	41,279	7.62	This difference is due to the very cheap rates offered by the Contractors.
Total Rs. ..		80,966		

118. The following roads were paved with asphaltic concrete on existing surface out of the provision made in revenue budget under extraordinary repairs.

Name of road.	Area in sq. yds.	Expenditure booked upto 28th February 1926.	Rate per sq. yd.	REMARKS.
1. Love Grove Road from Hornby Vellard to Pumping Station .. .. .	17,805	76,385	4.30	
2. Bhuleshwar Road from Kalbadevi Road to Thakurdwar Road .. .. .	4,655	22,369	4.08	
Total Rs. ..		98,754		

119. In addition to the above-mentioned roads the following works were carried out through outside agencies.

Name of road.	Area in sq. yds.	Expenditure booked upto 28th February 1926.	Rate per sq. yd.	REMARKS.
<i>3" sheet asphalt on 6" cement concrete foundation.</i>				
1. Love Grove Road from Pumping Station to Haines Road .. .. .	8,889	1,18,853	13.37	Work done by City Improvement Trust.
2. A small width of Palton Road falling beyond the centre line of the future road. .. .. .	637	9,205	14.60	
3. A strip of roadway of Jakaria Bunder Road 1'-6" in width and 1,000 ft. in length between the tram margin and the proposed widening on the east side of tram-tracks .. .. .	172	3,021	17.50	Work done by Bombay Port Trust.
Total Rs. ..		1,31,079		

#### Other Special Works.

120. The work of making new roads, lawns, gardens, tennis courts, etc., in the compound of the King Edward Memorial Hospital and the Seth Gordhandas Sunderdas Medical College was entrusted to this Department, which was pushed on vigorously and a greater portion of the work was completed before the opening ceremony of these Institutions in January 1926. Some minor works remained incomplete at the close of the year.

## Road Excavation.

121. The following lengths of roads were opened by various departments and utility companies:--

	R. Ft.
1. Water Department .. .. .	88,515
2. Drainage Department .. .. .	53,867
3. Bombay Gas Company, Ltd. .. .. .	21,772
4. Bombay Telephone Co., Ltd. .. .. .	879
5. B. E. S. & Tramways Co., Ltd. .. .. .	41,117
6. The Tata Hydro-Electric Power Supply Co. .. .. .	6
7. Government Telegraph Dept. .. .. .	160
8. Miscellaneous .. .. .	11,793
Total ..	2,18,109

122. This is equivalent to about  $41\frac{1}{2}$  miles of roads out of about 197 miles of roads in the City.

123. The cost of repairing these excavations including those of other Departmental and Private Works carried out by this Department amounts to Rs. 6,77,065-14-0. This includes a sum of Rs. 28,000 charged in the bills for supervision.

124. Action under Section 322 (b) of the Municipal Act is taken by this Department to prevent occupation of roads with building materials without permits. It is gratifying to note that building contractors and architects have realised their responsibility in this matter and in the majority of cases parties ask for permission of their own accord. Still the Road Department had to issue no less than 500 notices for contravening the provisions of Section 322 of the Municipal Act. The amount of fees recovered for permission granted under this Section was Rs. 31,113.

## Road Watering.

125. The total expenditure on watering roads in the City amounts to Rs. 1,09,869.

126. 19 new hydrants were fixed during the year.

## Road Materials.

127. Road materials purchased during the year 1925-26.

Name of Material.	Quantity purchased.	Rate	Per	Amount.	Name of supplier.
1	2	3	4	5	6
		Ra. a.		Ra. a. p.

			Total ...Rs.	4,92,827 5 6	

\* The actual rates for materials bracketted are 14½ per cent. below the rates quoted in column 4 therefor.

#### Dust Preventive Measures.

128. Surface dressing of roads with tar and bitumen comprising an area of 51,09,17½ square feet was carried out and 1,85,600 square feet of roads were treated with tar macadam and 98,000 square feet with asphalt macadam.

129. As bitumen could be procured at practically the same price as tar which will be seen from the figures given below, in the surface dressing of roads tar and bitumen was mixed in equal proportion. This is expected to give better results than the ordinary tar painting. The quantities of tar and bitumen were purchased during the year :—

Coal Tar .. .. . 731 tons at Rs. 135 per ton (including haulage from Gas Works to sites of works.

Spramex .. .. . 471 tons 8 cwts. at Rs. 140 per ton.

130. The total expenditure on carrying out these operations amounted to Rs. 4,53,394.

131. The tar macadam plant were working satisfactorily throughout the year.

132. 2 bitumen boilers were purchased from Messrs. John Fowler and Company for Rs. 4,100.

#### Road-side Trees.

133. 361 new trees were planted on different roads in the City during the year. The young trees were obtained from the Nursery (at Siri Road) which is maintained at an annual cost of Rs. 1,500.

134.

## Footpaths Paved or Formed.

Name of Road.	Area in sq. ft.	Remarks.
1. Apollo Street .. .. .	14,510	} New footpaths formed.
2. Tamarind Lane .. .. .	500	
3. Broach Street .. .. .	3,000	
4. Duncan Road .. .. .	40	
5. Kalbadevi Road .. .. .	537	
6. Tardeo Road .. .. .	2,256	
7. French Road .. .. .	950	
8. Girgaum Road .. .. .	9	
9. Love Lane.. .. .	500	
10. Fergusson Road .. .. .	5,686	
11. Clare Road .. .. .	43,474	Paved.
12. Reay Road .. .. .	16,500	"
13. Low-level Road at DeLisle Road .. .. .	39,093	"

135. In addition to these, certain footpaths were sanctioned to be paved with Shahabad stone slabs under Corporation Resolution No. 3031 of 30th June 1925 and a provision of Rs. 40,000 was made in the revised Loan Works Budget for the year 1925-26, but the work could not be taken in hand during the year.

## Tramways.

136. The long protracted dispute about the enhancement of tram fares having been satisfactorily settled by arbitration, the double track of tram lines 2,566 feet in length and 100 feet of single track laid along Gowalia Tank Road was brought into use by the Company on 11th February 1926.

137. Two platforms for the use of passengers were constructed by the Company, one near Bori Bunder and the other at the Flora Fountain.

138. In accordance with the Corporation Resolution No. 4313 of 7th October 1915, the following information regarding the rolling stock has been obtained from the B. E. S. and Tramways Company for the year under report :—

Q.—The number of cars running in the City, A.—300 units consisting of :—

classified according to the different types with the total carrying capacity of each.	58 double deck bogie cars each seating 104 passengers.
	10 bogie trains each seating 98 passengers.
	40 bogie trains each seating 94 passengers.
	7 single truck cars each seating 32 passengers.
	15 single truck cars double deck each seating 64 passengers.
	97 single truck cars double deck coupled as trains each seating 78 passengers.
	73 single truck cars double deck coupled as trains each seating 70 passengers.

Total .. 300

## Public Lighting.

139. The street lighting of the City is done by 6,248 gas lamps, 839 electric, 161 Aladdin (Incandescent kerosene oil) and 559 kerosene oil lamps. The amount spent on each is given below :—

	Rs.
Gas .. .. .	5,47,920
Electric .. .. .	1,98,846
Aladdin .. .. .	76,304
Kerosene oil lamps .. .. .	27,127
Total ..	8,50,197

140. A sum of Rs. 1,30,384 was spent on erecting new lamps to improve the lighting arrangement and to increase the candle power of the existing gas lamps by means of Conversion Sets and a sum of Rs. 11,485 on repairs, etc. The expenditure on lighting thus amounts to Rs. 9,92,066.

141. New electric and gas lamps as shown below were provided on the following roads :—

Gowalia Tank Road .. .. .	Gas .. .. .	18, 5-lt. & 1, 10-lt.
Falkland Road .. .. .	Do. .. .. .	{ 2, 4-lt. & 23, 5-lt. 9, 6-lt. & 1, 10-lt.
Duncan Road .. .. .	Electric .. .. .	{ 13, 300-watt. 2, 200-watt.
Ripon Road .. .. .	Do. .. .. .	{ 40, 200-watt. 2, 300-watt.
Carnac Road .. .. .	Do. .. .. .	{ 9, 500-watt. 6, 300-watt.
Cruikshank Road .. .. .	Do. .. .. .	17, 300-watt.
Esplanade Road (Queen's Statue to Dhobi Talao).	Do. .. .. .	{ 17, 200-watt. 5, 300-watt.
Babula Tank Road (Mazagaon Road)	Do. .. .. .	22, 300-watt.
Balaram Street .. .. .	Do. .. .. .	3, 200-watt.
Clare Road .. .. .	Do. .. .. .	8, 200-watt.
Love Grove Road .. .. .	Do. .. .. .	11, 300-watt.
Fort Street .. .. .	Gas .. .. .	6, 4-lt. Littleton.
Ballard Road .. .. .	Do. .. .. .	4, 4-lt. do.
French Bridge and Dammer Lane .. .. .	Do. .. .. .	8, 2-lt. Hexagonal.
Pedder Road .. .. .	Do. .. .. .	3, 4-lt. do.
Altamont Road .. .. .	Do. .. .. .	6, 2-lt. do.
Warden Road .. .. .	Do. .. .. .	{ 11, 2-lt. do. 6, 4-lt. do. 2, 6-lt. Rochester.
Ghogari Moholla .. .. .	Do. .. .. .	11, 2-lt. Hexagonal.
Morland Road .. .. .	Do. .. .. .	8, 3-lt. do.
Gibbs Road .. .. .	Do. .. .. .	{ 6, 2-lt. do. 8, 3-lt. do.
Area near Nawab Tank Bridge (3 streets).	Do. .. .. .	14, 2-lt. do.
Kika Street .. .. .	Do. .. .. .	2, 2-lt. do.
Souter Street .. .. .	Do. .. .. .	{ 1, 4-lt. do. 3, 5-lt. Littleton.

142. The total candle power on the roads as compared with that of the previous year is as shown below :—

	1925-26.	1924-25.
Gas .. .. .	931,440	901,270
Electric .. .. .	345,000	294,000

*Conversion Sets.*

143. 566 conversion sets were provided during the year.  
144. The number of gas and electric lamps are given below :—

*Low Pressure.*

Hexagonal.					Bombay Lamps.					
O	2-lt.	3-lt.	4-lt.	Total.	1-lt.	2-lt.	Total.	No. 2.		Total.

## Electric Lamps.

49+9=58, 300-watt. (Taken over from Bombay Improvement Trust).

## Kerosene Oil Lamps.

147. The kerosene oil lamps are principally used in lighting a number of passages and by-lanes and some of these that were displaced by gas have been provided in the through passages in G Ward.

148. Out of 197 miles of roads 165 miles are lighted by gas, about 23 by electric and 9 by incandescent oil lamps.

## PRIVATE BUILDING CONSTRUCTION.

(Including Set-backs.)

149. The number of applications received under Section 337 for the erection of new buildings and under Section 342 for additions and alterations to existing buildings, during the year under report, as compared with those received during the preceding four years is as follows:—

Year.	Under Section 337.	Under Section 342.	Total number of buildings dealt with.	Total number of applications.
1921-22	935	592	1,527	3,211
1922-23	891	597	1,488	3,294
1923-24	635	758	1,393	3,184
1924-25	723	701	1,424	3,277
1925-26	717	762	1,479	2,938

150. Two or more modified proposals are generally received in connection with one and the same building, hence the difference between the figures in the last two columns in the above table.

151. The majority of the plans were conditionally approved.

## Set-backs.

152. The following is a comparative statement of the amounts expended on set-backs from 1906-07 to 1925-26:—

Year.	Paid from Capital.	Paid from Revenue.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1906-07	1,90,118 7 11	1,18,347 2 8	3,08,465 10 7
1907-08	1,58,791 11 10	1,00,000 0 0	2,58,791 11 10
1908-09	3,98,188 1 5	1,00,000 0 0	4,98,188 1 5
1909-10	2,92,501 2 2	1,00,000 0 0	3,92,501 2 2
1910-11	1,54,672 1 10	1,00,000 0 0	2,54,672 1 10
1911-12	2,41,054 1 2	1,11,813 0 0	3,52,867 1 2

Year.	Paid from Capital.			Paid from Revenue.			Total.			
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	
1912-13	2,10,729	9	1	1,14,894	0	0	3,25,623	9	1	
1913-14	2,21,745	13	7	1,01,663	1	9	3,23,408	15	4	
1914-15	4,34,918	10	5	1,09,149	10	1	5,44,118	4	6	
1915-16	*6,08,819	0	4	1,05,684	8	1	7,09,503	8	5	
1916-17	96,173	3	11	1,22,699	8	2	2,18,872	12	1	
1917-18	19,277	8	8	1,59,595	15	9	1,78,873	7	11

1922-23	3,99,887	12	4	1,00,083	11	11	4,99,971	8	3	
1923-24	5,99,056	0	3	.....			5,99,056	0	3	
				Paid up from Loan Works.			Paid from Land and Building Fund.			
1924-25	5,50,150	0	0		2,71,376	3	3	8,21,526	3	3
1925-26	.....				4,09,538	2	9	4,09,538	2	9

\*Inclusive of Rs. 3,57,682-2-3 on account of the unadjusted charges for 1915-16 and previous years.

153. The liability outstanding for land sanctioned to be acquired for set-backs amounted to Rs. 19,56,212-9-8.

154. Proposals were submitted for changing the regular lines of the following streets :—

- (1) Colaba Road from Arthur Bunder to Sassoon Dock.
- (2) Ghogari Moholla from Banian Road to Ghogari Moholla Cross Lane.
- (3) Laying out for the first time regular line at Zaoba's Oart from Girgaon Road towards East upto public passage.
- (4) Narayan Dhuru Street between Pydhownie Road and Nakhoda Street.
- (5) Laying out for the first time regular line at Victoria Road 3rd Cross Lane from Victoria Road to the wall of Victoria Gardens.
- (6) Parel Government Gate Road at its junction with Suparibang Road near Lowjee Wadia's Dispensary.
- (7) Cavel Street between Kalbadevi Road and Cavel Church.

## Enforcement of Building Regulations.

155. 1,118 summonses were issued against house-owners under various sections of the Municipal Act with the result shown in the following statement :—

Sections of the Municipal Act.	Number of prosecutions.	Number of cases withdrawn on compliance with the requirements.	Number of cases in which parties were warned and discharged.	Number of convictions.	Number of postponements falling during the year 1925-26.	Fines. Rs. a. p.

156. No notice was issued under Section 378 for the improvement of insanitary buildings during the year under report.

157. 627 notices were issued under Section 354 of the Municipal Act for the removal of unsafe structures. Out of these 441 were complied with and the remaining 186 were pending at the close of the year.

158. Out of 337 notices under Section 354 that were pending at the close of the previous year, 294 were complied with and the remaining 43 were still pending at the close of the year.

159. 30 buildings or portions thereof fell during the year. There were no casualties in 19 cases and in the remaining 11 cases 18 persons were injured and 12 killed.

160. Action was taken under Section 349 of the Municipal Act in 68 cases for the summary removal of huts or walls thereof made of inflammable materials. Out of these 46 were complied with and the remaining 22 were pending at the close of the year.

161. The 12 cases under Section 349 of the Municipal Act which were pending at the close of the previous year were complied with.

162. Applications were made to the Standing Committee for the removal of unauthorized works in 14 cases. In 5 out of these the work was removed by the parties, in 3 cases the work was allowed to be retained and the remaining 6 cases were pending at the close of the year.

163. Out of the 7 cases which were pending at the close of the previous year, in 2 cases the work was removed by the parties, in 1 case the work was removed by the Municipality, in 3 cases the work was allowed to be retained and the remaining 1 case was still pending at the close of the year.

#### Floor Area of Tenements.

164. During the year under report, 1,479 buildings were surveyed by the Ward Inspectors with a view to registering their floor area. The following statement shows the increase or decrease in the floor area of tenements in new and altered buildings in the City :—

165. Statement showing the Increase or Decrease in the class and floor area of tenements in new and altered buildings completed during the year 1925-26.

### Repairs to Municipal Buildings, Plague Measures, House-numbering, &c.

171. The building and repairs works entrusted to the Annual Repairs and Petty Works contractors during the year amounted to Rs. 1,73,048-3-2.

172. The painting work entrusted to the Painting Contractor amounted to Rs. 61,974-14-3.

173. Plague Measures taken during the year 1925-26 :—

The following Health Camps were erected on the Municipal land at a cost of Rs. 2,700 and were provided with latrines and water supply at Municipal expense :—

	Number of rooms.
Gun Carriage Street, Colaba .. .. .	15
Dadar-Kumbharwada near Station Choki .. .. .	20
Parel Tank site on Parel Tank Road .. .. .	45
	80

174. The Health Camps which existed at the undermentioned place in the previous years were maintained at the Municipal expense during the year under report :—

175. Semi-Permanent Health Camps.

	Number of rooms.
2nd Koli Lane, Colaba .. .. .	20
Suklaji Street .. .. .	20
Chinchpokli .. .. .	100
Mahim Station .. .. .	37

Total No. of rooms .. 177

176. The total cost of repairing and maintaining these camps amounted to Rs. 2,605.

177. The Municipal properties which are attended to for repairs and maintenance number about 475 and the properties acquired in connection with several schemes which also require to be similarly attended to number about 250. During the year under report the chief additions to the Municipal properties consist of the K. E. M. Hospital and G. S. M. College in particular.

#### House Numbering.

178. Revised house numbering of D Ward was completed during the year 1925-26, the work of A, B, & C Wards having been finished in the previous years. During this year plans of E Ward were approved by the Corporation and the number of Plates for that Ward got ready; the fixing of revised house numbers in E Ward has just been commenced.

I have the honour to be,

Sir,

Your most Obedient Servant,

T. K. RODDAN,

*Executive Engineer.*

## WATER WORKS.

### REPORT OF THE HYDRAULIC ENGINEER, 1925-26.

The year 1925-26 was a memorable one in the annals of the Water Supply inasmuch as the City was faced with the prospect of a serious water famine which was averted by the timely completion of the first section of the New Tansa Mains between the Lake and Ghatkopar.

The Monsoon of 1925 failed adequately to replenish the Vehar and Tulsi Lakes which supply the City with 16 million gallons of water per day, and with the early cessation of the rains an unusually long dry period had to be provided for which meant that the water supply would have to be cut down from 16 to 7 million gallons per day in order to eke out the supply from these sources. In anticipation however of the new Tansa Mains being laid and brought into use as far as Powai and Ghatkopar, the normal supply from Tulsi and Vehar was continued and the City suffered no curtailment.

On 1st August 1925 the charging of the new 72" diameter mains between Tansa and Powai was undertaken by the Hydraulic Engineer at the request of the Municipal Commissioner and by 6 p.m. on Sunday 2nd August, the water over-topped the Bhandup Bank and commenced to discharge into the Vehar Lake through the scour Valves provided for the purpose. On 4th August 1925 and 5th August 1925 the two main sluice Valves at Kasheli gave way and the supply had to be temporarily shut down and the valves replaced. The re-charging of the mains was commenced on 22nd August 1925 and water from Tansa again turned into the Vehar Lake on 23rd August 1925.

On 11th September 1925 the supply from the new 72" main was turned into the 48" Vehar Main at Powai and the supply from Vehar was entirely shut down on 11th September 1925. A further extension of the new Tansa supply was effected on 3rd September 1925 through the new 60" Branch Line which connects the 72" mains with the old 48" Tansa at Ghatkopar.

On the 17th September 1925, the President of the Corporation accompanied by the Chairman of the Standing Committee, the Municipal Commissioner, representatives of the contractors and the Municipal Officers concerned proceeded to Ghatkopar where the President performed the rite of opening the main sluice valve which admits water from the New Tansa Mains into the Old Tansa Mains leading to the City.

The effect of these important events was one of the greatest blessings to the City. The supply from Tansa was increased from 32 to 62 million gallons per day and extended to those parts of the City which were hitherto supplied from Vehar. The Vehar Lake was replenished from Tansa to the extent of 1,365 million gallons which together with the quantity impounded in the lake has been conserved by the closing of the Vehar supply and will aid considerably to the filling up of this lake during the next monsoon. The hours at which water was supplied to the inhabitants of the City were extended and the pressure under which the supply was received has much improved.

The total quantity of water received during the year from all sources amounted to 20,781 million gallons or an average of 57 million gallons per day. The corresponding figures for the preceding year being 18,305 million gallons or an average of 50 million gallons per day.

The average daily supply to the suburbs was 1.57 million gallons per day leaving a balance of 55.43 million gallons per day for distribution in the City. Taking the population according to the Census Report of 1921 at 11,75,914 and allowing an interim increase of 98,235 the average daily supply per head of population was 43.51 gallons for all purposes as compared with 39.12 gallons during the preceding year.

#### Tansa Lake:

The total rainfall for the year measured at the lake was 87.80 inches or 3½ per cent. below the average of the preceding five years.

Rain fell on 97 different occasions and exceeded one inch per day on 31 occasions, two inches per day on 17 occasions and 3 inches per day on 3 occasions. The maximum rainfall recorded in a day being 5.73 inches.

The lake commenced to overflow at R. L. 420 T. H. D. on the 30th June 1925 when the rainfall amounted to 40 inches and continued to overflow until the 12th September 1925. The total quantity of water that passed over the waste weir was estimated to be 16,564 million gallons.

The total quantity of water impounded in the lake during the year was 11,262 million gallons which together with the quantity lost over the waste weir and that drawn off from the lake is equivalent to 75 per cent. of the rainfall.

The total quantity of water discharged from the lake into the outlet well was 22,785 million gallons, equal to an average of 62½ million gallons per day out of which 17,164 million gallons or an average of 47 million gallons per day was received in the City. 1,365 million gallons were put into the Vehar Lake and the balance of 4,036 million gallons was lost by evaporation and leaking *en route*.

The loss of water from the lake through supply, evaporation, leakage and absorption between 1st April 1925 to 27th May 1925 was 3,407 million gallons and between 1st November 1925 and 31st March 1926 was 13,690 million gallons making a total of 17,097 million gallons for 208 days or an average of 82.19 million gallons per day.

The average loss of water by evaporation measured during the dry months was .16" per day, equivalent to an average of 14 million gallons per day.

The lowest level to which the water was drawn before the break of monsoon was 407.56 feet above T. H. D. leaving 27.56 feet of 21,402 million gallons above the level of the lowest outlet.

The total visible leakage along the Duct between Tansa and Ghatkopar measured at the close of the year was 1½ million gallons per day.

There was one burst on the 48" Tansa Main North of the Venturi meter at Kurla during the year.

Analysis of the Tansa Water were made fortnightly throughout the year and the result of all the analysis showed that the water was at all times free from dangerous pollution and fit for potable purposes.

The water supply from Tansa was chlorinated at Ghatkopar during the Monsoon period.

Chlorination was commenced on 12th May 1925 and continued until 11th September 1925, the average dose of chlorine administered being .6 part per million. The whole operation of chlorinating the Tansa supply and testing samples for free chlorine at regular intervals both day and night was, as usual, very ably and successfully carried out by the staff of the Water Department.

#### Vehar Lake.

The total rainfall for the year measured near the outlet from the lake was 68.76 inches or 16.7 per cent. below the average of the preceding 5 years.

Rain fell on 96 different days and exceeded one inch per day on 23 occasions, 2 inches per day on 9 occasions and 4 inches per day on 4 occasions. The maximum rainfall recorded in a day being 4.88 inches.

The lake did not overflow during the year. The highest level to which it rose by the monsoon was 246.51 T. H. D. or 17.99 feet below the overflow level. This level was reached on 15th October 1925 when the rainfall amounted to 57.16 inches. The new 72" Tansa Mains were brought into use on 23rd August 1925 and 1,365 million gallons of Tansa Water was put into Vehar Lake between that date and 21st November 1925, thereby

raising the water level to 247.67 T. H. D. or 16.83 feet below overflow level. The lake at this level contains 3710 million gallons or about  $\frac{1}{3}$  of its contents when full. The total quantity of water impounded in the lake was 4832 million gallons which (excluding 1365 million gallons put into the lake from the Tansa) over a catchment area of 6 square miles is equivalent to 58 per cent. of the rainfall.

The total quantity of water discharged from the lake and received in the City and suburbs was 1998 million gallons or an average of  $5\frac{1}{2}$  million gallons per day.

The loss of water through supply, evaporation, leakage and absorption between 1st April 1925 to 27th May 1925 was 907 million gallons for 57 days or an average of 16 million gallons per day while the loss due to evaporation, leakage and absorption during this period was 252 million gallons which is equivalent to an average of  $4\frac{1}{2}$  million gallons per day.

The supply from this lake was discontinued from 11th September 1925 as sufficient water was available from Tansa Lake through the New Tansa Main to feed both the Vehar and Old Tansa Mains.

The average loss of water by evaporation measured during the dry months was .15 inches per day equivalent to 3.31 million gallons per day.

The lowest level to which the water was drawn before the break of the monsoon was 235.54 feet T. H. D. leaving 5.04 feet or 812 million gallons above the level of the lowest outlet.

There were 2 bursts on the Vehar Main outside the City during the year.

Analysis of the Vehar water were made fortnightly throughout the year and the result of all the analysis showed that water was at all times free from dangerous pollution and fit for potable purposes.

#### Tulsi Lake.

The total rain-fall for the year measured near the outlet from the lake was 74.09 inches or  $21\frac{1}{2}$  per cent. below the average for the preceding five years.

Rain fell on 107 days and exceeded one inch per day on 24 occasions, 2 inches per day on 8 occasions and 4 inches per day on 5 occasions, the maximum rain-fall per day recorded being 6.20 inches.

The lake did not over-flow during the year. The highest level was 443.62 T. H. D. or 12.88 feet below over-flow level. This level was reached on 31st August 1925 when the rain-fall amounted to 68.59 inches; the lake at this level contains 1,276 million gallons or about  $\frac{3}{5}$  of the contents when full.

The total quantity of water impounded in the lake during the year was 1,544 million gallons which over a catchment of 2.6 square miles is equivalent to 55 per cent. of the rain-fall.

The total quantity of water discharged from the lake and received in the City and Suburbs was 1,619 million gallons or an average of  $4\frac{1}{2}$  million gallons per day.

The loss of water from the lake through supply, evaporation, leakage and absorption between 1st April and 27th May was 327 million gallons and between 1st November and 31st March 1925 was 817 million gallons, making a total of 1,144 million gallons for 208 days or an average of  $5\frac{1}{2}$  million gallons per day.

The average loss of water by evaporation, measured during the dry months, was .16 inch per day equivalent to 0.52 million gallons per day.

The lowest level to which the water was drawn before the break of the monsoon was 426.19 feet above T. H. D., leaving 28.44 feet or 382 million gallons above the level of the lowest outlet.

There were no bursts or interruptions in the Tulsi Supply during the year.

Analysis of the Tulsi Water were made fortnightly throughout the year and the result of all the analysis showed that the water was at all times free from dangerous pollution and fit for potable purposes.

The Filter Plant at Tulsi was completed during the year but could not be brought into use owing to the low level of the water in the lake.

#### **Powai Lake.**

The rain-fall for the year measured near the out-let from the lake was 62.12 inches or 21½ per cent. below the average of the preceding 5 years.

Rain fell on 88 days and exceeded one inch per day on 20 occasions, two inches per day on 8 occasions and four inches per day on 2 occasions. The maximum rain-fall per day recorded being 4.70 inches.

The lake commenced to over-flow at R. L. 195 T. H. D. on the 5th August 1925 when the rainfall amounted to 57.94 inches and continued to overflow until the 1st September 1925. The total quantity of water which overflowed the dam was 304 million gallons.

The total quantity of water impounded during the year was 304 million gallons which including that lost over the waste weir is equivalent to 47 per cent. of the rainfall over a catchment area of 1,650 acres.

The Filter Plant at Powai has again failed to fulfill the guarantee. The Plant was thoroughly overhauled and thereafter run for a period of 3 months by the contractors at their own expenses but although the quality of water obtained from this was much improved and occasionally came within the guaranteed standard of purity the quantity of chemicals and wash water used to obtain these results was in excess of the guarantee. The Plant has therefore not been taken over by the Municipality and arrangements are being made to entrust the whole work to Messrs. The Paterson Engineering Co. to put right at the Contractor's expense.

#### **Service Reservoirs:**

##### **Malabar Hill Reservoir.**

New Quarters for the Sluicemen at the Malabar Hill Reservoir were built during the year comprising a ground-floor structure of seven double room tenements with detached water closets and a bathing place. The work was carried out under a contract entered into with Messrs. Vartak & Bhat and was commenced from 1st October 1925 and completed on 1st January 1926 at a cost of Rs. 10,776. Six additional swings have been provided in the garden and the old swings and children playground transferred to the south west corner of the garden in accordance with the wishes of the Corporation. Five additional high powered electric lights have also been provided in the garden which continues to be a popular public resort. The Hanging Garden along the Eastern Slope of the Hill was handed over to the care of the Water Department on 1st March 1924 and has been well maintained. The public latrine in one corner of the garden has been extended, new paths have been formed and a large area planted out.

##### **John Hay Grant Reservoir.**

The work of extending and altering the John Hay Grant Reservoir at Mazgaon sanctioned under Corporation Resolution No. 10846 of 13th March 1922 and commenced the 20th August 1923 was completed on 19th May 1925, 3 months before the expiry of the contract period. The Contractors for the work, Messrs. Teju Kaya & Co. having carried out the work in a very satisfactory and expeditious manner.

The three public Tennis Courts provided over the reservoirs have been well patronized by the public.

The courts were opened to the public on 14th November 1925 and the total receipts therefrom up to the close of the year amounted to Rs. 312.

The work of constructing a block of seven two-room tenements with detached W. C's and washing place for the use of the labour staff at the Reservoir was commenced on 26th March 1925 by the contractor Mr. Khushaldas Bhudurji and was completed on 25th August 1925 at a cost of Rs. 14,209.

#### Maintenance Works.

There were 76 bursts during the year, viz. :—

3"	28
4"	24
5"	4
6"	5
7"	1
8"	1
9"	3
12"	4
24"	1
32"	3
48"	2

The number of water connections made during the year was 988. The number of connections cut off for various reasons was 9 which were all subsequently restored. The net increase in the number of connections is therefore 988. The total number of connections now stands at 31,868.

The total number of Municipal meters at present in use is 2,409.

The number of disconnection orders submitted to the Standing Committee through the Municipal Commissioner from time to time during the year was 138 against 90 last year. All these works were authorized by the Municipal Commissioner and the Standing Committee and have been dealt with as follows :—

(1) Disconnections not enforced owing to the requirements having been complied with	129
(2) Disconnection enforced	9
(3) Connections restored on compliance with Municipal requirements	9
(4) Connections remaining unrestored	<i>Nil.</i>

#### Waste Prevention.

Waste prevention operations were continued throughout the year with the result that 26,313 defects were found and repaired; of these 13,059 were underground and 13,254 aboveground defects.

The total length of water mains tested for leakage by Deacon's Meter was 208 miles and 2,117 feet.

The total length of water mains of all sizes tested by sound during the year was 159 miles and 2,738 feet.

The number of defect notices issued during the year was 4,370.

Particulars of defects detected and remedied, the number of diagrams taken and wastage checked during the year are given in the attached statement.

Statement of Defects found on Mains and Service Pipes during the year 1925-26.

### New Works.

In connection with the laying of new water mains and replacing old worn out water mains about 10 miles of new water mains were laid and 4 miles of old water mains replaced. The progress of these works was however hampered from time to time by the staff employed thereon having to be taken off the works to attend the Departmental works to be done in connection with the laying of the new Tansa Mains and works in connection with the diversion of water mains affected by the Grant Road Terminal Scheme and other schemes of the City Improvement Trust and Mahim Development works. In connection with the Tansa Completion Works the following were carried out by the Hydraulic Engineer's Department during the year :—

- (1) Connecting the new 60" main with the old 48" Tansa Mains at Ghatkoper and fixing 36" Sluice valves on the Old Tansa Mains at Ghatkoper.
- (2) Connecting the 48" Vehar main with the new 72" main at Powai and fixing valves, pipes and castings in connection therewith.
- (3) Fixing one 60" Venturi Meter at Powai.
- (4) Erecting and fixing ten sets of hydraulic operated valves at Tansa, Jamboli, Pogaon, Kapurbawdi and Powai.
- (5) Fixing 20 hand operated 36" valves on the new 72" and 57" mains and 23" hand operated valve on cross connection.
- (6) Cross connecting the new 57" main and the new 24" Tulsi Main at Marol.
- (7) Cross connecting the 57" mains and fixing valves, pipes and special castings at Grant Road (Nana's Chowk) and Fergusson Road.
- (8) Diverting 650 r. ft. of 24" Tulsi main at Santa Cruz.
- (9) Removing about 7,000 ft. of the 24" Tulsi main between Haines Road and Delisle Road and substituting a temporary 12" main in place thereof.
- (10) Fixing 34 Air valves and 23 scour valves along the new 72" and 57" mains between Tansa and Grant Road.
- (11) Replacing damaged sluice valves at Keshali and Powai and removing and substituting damaged throat piece of 60" Venturi meter at Powai.

In connection with the Grant Road Terminal Scheme about 2,000 r. ft. of the 24" Tulsi Main was diverted clear of the new Railway Track and the old main removed together with several incidental works in connection therewith.

The following table shows in detail the various pipe laying works carried out during the year :—

## FINANCIAL.

The Budget grant for the maintenance of the Water Department for the year 1925-26 was Rs. 10,29,647 which with the lapsed grants renewed and with the transfer and additional grants sanctioned amounted to Rs. 12,02,785. The total expenditure incurred against this sum and paid for during the year amounted to Rs. 8,22,722 leaving an unexpended balance, of Rs. 3,80,063 a portion of which will be renewed in 1926-27 to meet the liabilities incurred during the year :—

The number of cases disposed of .. .. .	4,700
The number of vouchers received and passed ... ..	2,945
The number of Departmental and Private bills prepared and forwarded .. .. .	751
The number of references made to Inspectors for certificate of vouchers .. .. .	2,600
The number of reports and certificates received from Inspectors .. .. .	4,600
The number of requisitions received and forwarded .. ..	2,593
The number of Notices issued in connection with the defective pipes and fittings .. .. .	4,370
The number of contracts executed .. .. .	4
The number of advices sent to the Chief Accountant .. ..	2,916

Mr. H. J. Trives-Smith, M. I. C. E., M. I. M. E.; continued to hold the Office of the Special Engineer, Tansa Completion Works, and Mr. W. A. Niven, A. M. I. C. E., M. I. E., as *sub-protem* Hydraulic Engineer during the period under review.

BOMBAY! July 1926.

# TANSA COMPLETION WORKS.

## TANSA COMPLETION WORKS.

*Annual Report, 1925-1926.*

1. *Introduction*—The year under report has been one of extraordinary progress in all sections of the Tansa Completion Scheme and marks the closing chapter of a mammoth project which has been carried out rapidly and successfully by the Municipality for the progress of the City of Bombay and the betterment of its citizens. I beg to draw attention to para. 6 of my Annual Report for 1923-24 in which I stated,

“The first 6 pipes were despatched from the factory on August 16th.”

This was in 1923. On August 31st, 1925, only 2 years later, the President of the Corporation, Mr. Joseph Baptista, opened a valve at Ghatkoper which allowed water to pass through the New pipes from Tansa Lake to Bombay. This turning on of the water at Ghatkoper marked the completion of the first stage of the project and gave a much needed relief to the City by a material increase in its water supply.

Between the 16th August 1923 and 31st March 1926, a period of 31 months no less than 104 miles of steel pipes have been manufactured and laid, leaving to-day only a very short length in Tulsi pipe Road, Sleater Road and Harvey Road to complete the Scheme. When consideration is given to the fact that during this period there have been three monsoons, in which pipe laying operations are slowed up considerably and only carried out with very great difficulty it speaks well for the ability, enthusiasm and determination of all officers concerned, those on the staffs of Messrs. Braithwaite and Company and The Tata construction Company, as well as those of the Municipality, in having accomplished the completion of the biggest water supply pipe line in the world successfully and in world's record time.

2. Details of the work connected with land acquisition have been given in the four quarterly progress reports submitted during the year. Several reference cases have been filed in Court against the Awards of the Land Acquisition Officer, most of them being in the Thana District. In some cases it was deemed advisable to engage the services of Counsel and of the Consulting Surveyor to Government. In the cases disposed of, judgment has generally been not unfavourable to the Municipality. The Land Acquisition Officer in many cases, in making his award, ordered additional facilities to be made for drainage and for access across the pipe line by the construction of culverts or overbridges much in excess of those originally contemplated and estimated for.

3. The following tenders have been accepted during the year,  
Tenders. *viz* :—

	Rs.	a.	p.
For the supply of chlorinating apparatus for Tansa Water .. .. .	96,141	0	0
Contract for making and erecting steel supports for the Tansa 72" steel pipes on the earthen embankment forming the South Approach to Kasheli South Bridge .. .. .	45,600	0	0
For the supply of steel rails .. .. .	4,171	4	9
For the supply of 12-ton Hydraulic Jacks ..	2,700	0	0
For the supply of flanged plates drilled in works including drilling and rivetting at site ... ..	14,950	0	0

	Rs.	a.	p.
For the supply of Sluice Valves and air Valves.	23,933	0	0
For the supply of C. I. Pipes and Specials ..	24,241	15	6
Constructing a building for accommodating Chlorinating Apparatus at Powai .. ..	14,817	5	0
For the supply of C. I. Pipes and Castings ..	2,990	9	0

4. The whole length of the pipe track outside Bombay was taken into use before June 1925.

Pipe Track. A short length of embankment each side of Kasheli Bridge South has had to be carefully watched and constantly attended to owing to the silty nature of the sub-soil on which it is constructed. More than half of the work inside Bombay Island is completed and no difficulty is anticipated in completing the remainder. The length between Grant Road through Harvey Road to Babulnath Road will however be necessarily slow, but this will not prevent the full quantity from Tansa Lake being given, as soon as the work north of Grant Road is completed, which is expected to be about the end of May 1926.

5. The good progress made last year in fabricating and laying the steel pipes was maintained throughout the year under report. All the steel pipes for the Steel Pipes. Tansa Completion Works have been completed, and the quality of the work done is excellent. With the exception of a length of only a few feet, all the 57" pipes required to finish the contract have been transported into Bombay.

The following figures give the lengths in feet of pipes fabricated, and laid complete at site month by month, from the transport of the first pipe from the Pipe factory at Mulund in August 1923 to date, viz:—

	72" pipes fabricated and transported to site.	72" pipes rivetted at site.	57" pipes fabricated and transported to site.	57" pipes rivetted at site.	60" pipes fabricated and transported to site.	60" pipes rivetted at site.

Length remaining to be done* ..	Nil.	Nil.	12,001	39,323	Nil.	Nil.

\* Subject to final check, Notice is drawn to the short-length of work remaining to be done.

† Attention is drawn to the amount of work done in the months of March 1924, January 1925 and November 1925, in which months nearly 7 miles of 72" pipes and 8 miles of 57" pipes were fabricated and transported to site and 11 miles of 72" pipes were rivetted at site. I am not aware that this record has ever been equalled in any part of the world.

The Contract for supplying and laying the steel pipes was signed by Messrs. Braithwaite and Co. Engineers, Ltd., on 10th February 1926 and for constructing Kasheli Bridges on 26th November 1925. As the Contractor still does not approve of the wording of Clause 46, permission has been given to state a case jointly with the Municipality for the opinion of the High Court on this clause.

6. This bridge was completed and the last rivet driven by the Municipal Commissioner in the presence of the President of the Corporation and the Chairman of the Standing Committee on the King-Emperor's Birthday, Kasheli South Bridge. June 3rd 1925. Negotiations between the Executive and Government continued in connection with the apportionment of the cost of constructing a roadway over the bridge. Eventually Government agreed to and paid to the Corporation a sum of Rs 13,00,000 as their share of the cost. The diversion of the Bombay Agra Road so as to pass over the bridge has now been started by the Public Works Department and will be of great benefit to all road users.

7. This bridge was completed and taken into use during the year, with the exception of surfacing the width to be occupied by the roadway. This width Kasheli North Bridge. on both the Kasheli Bridges will be left for asphaltting and will not be completed until Government has constructed the approach roads to the north and south ends of the bridges.

8. The tenders of the Paterson Engineering Company for the supply of Engines and Apparatus for chlorinating the water of Tansa lake and of Tansa Purification. Mr. Walji Hirji for the construction of a building to house the machinery for chlorination were accepted by the Standing Committee during the year. The construction of the building is making slow progress. Much of the machinery and Apparatus has been delivered. Chlorination of the whole of the water-supply from Tansa is therefore expected to be begun in May 1926.

9. Although the proposal to construct a reservoir on Sion Hill has now been before the Corporation for the last 15 years, the question of determining the conditions to be imposed relative to the preservation of the old fort and watch tower on the Hill has not yet been settled and is now pending the examination of the site by Mr. K. N. Dikshit, M. A., Superintendent, Archæological Survey, Western Circle. Sion Reservoir.

10. The total cost sanctioned for the execution of the Tansa Completion Works amounts to Rs. 5,48,02,514. During the year of Report, Government have paid the last instalment of Rs. 2 lakhs on account of their contribution of Rs. 13 lakhs for the construction of a roadway over the Kasheli Bridges. The total revised Budget grant sanctioned for the year by the Corporation for the Tansa Completion Works amounted to Rs. 59,34,078 and the expenditure incurred against this during the period amounted to Rs. 48,15,869. Financial.

The total amount spent on the Tansa Completion Works from the commencement to the close of the year under Report amounted to Rs. 4,74,19,235 in round figures.

The above-mentioned figures of expenditure are exclusive of the amount of Rs. 8,46,799 spent out of the Government Contribution of Rs. 13 lakhs for the construction of the Roadway.

11. With the completion of the Kasheli Bridge the advice and supervision of Supervising Staff. Mr. A. F. Macdonald Clark, M. Inst. C. E., (Consulting Engineer for the Kasheli Bridges) were no longer necessary, and his services were terminated in the middle of June 1925. As section by section the Tansa Completion Works approached completion, the services of the following supervising Officers were dispensed with, viz., Messrs. M. R. Salder, Resident Engineer, W. D. Hughes, Hydraulic Testing Officer, P. A. Midha, Senior Assistant Mechanical Engineer, T. V. Sundaresan, A. G. Ablitt, A. G. Raffin, Din Dayal, H. S. Blaine and D. Y. Gadkari, Assistant Engineers. The Special Engineer, Mr. H. J. Trivess-Smith, was allowed short leave out of India during the monsoon.

14. A number of distinguished visitors inspected the Tansa Completion Works, during the year, notably Sir Alexander Gibb on 23rd December 1925; Visitors. the President of the Corporation and the Chairman of the Standing Committee visited the works on several occasions.

15. By the end of the next financial year it is anticipated that the Tansa Completion Works will be handed over to the Water Department for maintenance, and that the retention of the Temporary Department created for the construction of these works will no longer be necessary. I therefore beg leave to record my thanks to the Municipal Commissioner for the ready help, patience, and unfailing support he has extended to all the staff engaged on the Tansa Completion Works at all times, and especially in times of great difficulty—of which there have been many. I also beg leave to record my appreciation of the work done by the staff under me, their zeal in pressing forward to rapid and successful completion one of the biggest engineering works accomplished in India, their devotion to duty, and their loyalty to the Corporation and myself.

I would also draw attention to the general harmony and co-operation which prevailed among contractors and Municipal executive alike, which reduced the amount of contentious and controversial matters to a minimum. The many operations involved in executing this work have been carried out with great care and I am pleased to report that the loss of life on this work from accident has been very small. The number of casualties from Malaria was large, as was anticipated; but everything practicable was done to ameliorate the suffering and to prevent the labour difficulties caused thereby.

H. J. T. SMITH,

M. INST. C. E., M. I. MECH. E.,

Special Engineer,

Tansa Completion Works.

31st March 1926.

# FIRE BRIGADE.

I have the honour to submit my Annual Report on the working of the Brigade for the year 1925-26.

The year generally has been a quiet one.

*Calls.*—The number of calls to fires or supposed fires totalled 443 as against 606 the previous year and resulted in 224 fires, 118 false alarms, 12 to fallen buildings and 2 to fires outside the jurisdiction of Bombay. Compared with the last year the number of fires shows a decrease of 35. Thirty-one of the 118 false alarms were returned as malicious, 26, it is presumed, were given with good intent and 61 were caused by electrical defects.

*Fires.*—One hundred and eleven fires were extinguished by the Brigade and 118 before our arrival. Only four serious fires occurred during the year, brief details of which are given in Appendix III.

*Fire Loss.*—As a result of the smaller number of fires, the estimated fire loss has only amounted to Rs.9,83,089, showing a decrease of Rs.5,42,521 over the previous year and Rs.14,68,800 below the average of the last three years. Of the year's loss Rs.8,21,878 represented insured and Rs. 1,61,211 uninsured property, whilst the total property at risk has been rated at approximately Rs.1,88,52,054.

*Water Supply.*—Except at the fire at Quay Road, Darukhana, on February 13th in the Port Trust area when a shortage occurred due to the supply passing through a meter, the supply was satisfactory and the attendance of the Water Department prompt. The disadvantage of a metered water supply for fire purposes has been pointed out to the Bombay Port Trust and it is hoped that this defect will shortly be remedied.

The approximate quantity of water used at fires was 25,335 tons, 9,810 of which were drawn from mains and 15,525 from the sea, tanks and wells. The improved water supply has been particularly noticeable.

*Lives Lost, etc.*—Five persons lost their lives as a result of fires during the year. Eleven persons received minor injuries from which they have since recovered and First Aid was rendered on eight occasions.

*Fire Alarms.*—Seven new alarms were established during the year and the number now totals 136. Seventy-one per cent. of the total number of calls for the year were received through the system.

Four arrests were made for malicious interference with alarms but in only three cases was prosecution resorted to.

*Appliances.*—All the appliances are in good condition.

One Leyland 300/400 gallon motor pump with 1st aid appliance and 35 feet extension ladder is on order for the new Sewree Cotton Depot Station and expected to be delivered in the course of a few weeks.

Two of the three old horsed fire engines offered for sale have been disposed of and the remaining one will be sold as soon as a reasonable offer is made for it. The last of the horses passed out of the service in the latter part of the year.

*Stations.*—The new Fire Brigade Station at Frere Road for the protection of the Docks area and the one at Sewree Cotton Depot were completed and opened on 17th April and 15th December respectively.

A new station at Naigaum Tank for the protection of the North of the Island was sanctioned in the Loan Works Budget and plans and estimates prepared and approved. It is expected that the work will be taken in hand at once.

I regret nothing was done in connection with the proposed new Fort Station at Min Road during the year.

*General.*—On twenty-three occasions Brigade appliances responded to fallen buildings. As a result of these collapses 12 persons lost their lives and 25 others received slight injuries. The services of the Brigade were also requisitioned on seven occasions to other accidents and emergencies and assistance was rendered.

Forty-one inspections of theatres and cinemas were carried out and two hundred and fifty-six of premises in connection with dangerous trades. In addition to these inspection surprise visits have been made during the year.

Hydrant inspection throughout the Island was regularly carried out.

The distance run by the appliances to and from the 443 calls to fires totalled 3,481 miles. An underground petrol storage tank system of 1,000 gallons capacity was installed at Head Quarters and the can system abolished.

The general health of the staff has been satisfactory and the complement was practically at full strength throughout the year. Several men received slight injuries at fires but none proved serious. Thirty-five men were invalided, resigned or left the service.

*Ambulance Service.*—For the 12 months 627 accident calls and 1,098 cases of hire were responded to as against 694 and 864 respectively during the previous year. 1,710 persons were carried and the distance run by the ambulances has been 16,182 miles. Receipts from hire has amounted to Rs. 6,625, an increase of Rs. 1,710 over last year.

First Aid to the injured was rendered on 45 occasions.

In conclusion I wish to express my thanks to the officers of the Water Department, Police and Salvage Corps, for their assistance on all occasions.

I have the honour to be

Sir,

Your most obedient servant,

T. C. GREENOP,

Chief Officer, Fire Brigade.

## Budgetted Strength and Equipment of the Brigade on 31st March 1926 :—

*Strength.*

1 Chief Officer.	23 Motor Drivers.
1 2nd Officer.	27 Tindals.
11 Station Officers.	208 Firemen, etc.
1 Motor Mechanic.	4 Turncocks.
1 Sub-Officer.	1 Carpenter.
9 Engineers and Fitters.	

Office Staff :—4 Clerks.

Ambulance Staff :—6 Motor Drivers and 15 Attendants.

*Equipment.*

10 Motor Pumps.	13 Hose Reels.
4 Steam Motor Engines.	5 Smoke Helmets.
3 Motor Escape and 1st Aid Tenders.	1 Oxy-Acetylene Cutting Plant.
1 Motor Turntable Ladder.	1 Motor Car.
1 Motor Emergency Van.	2 Motor Lorries.
1 Hose and Ladder Truck.	40,000 feet of hose and other small appliances.
8 Hand Fire Escapes.	

5 Ambulances.

## APPENDIX III.

## BRIEF DETAILS OF THE MOST SERIOUS FIRES OF THE YEAR 1925-26.

Date.	Time.	Place.	Business.	Extinguished by	Damage.	Estimated loss.
						Rs.
1925.						
14th May ...	4-1 P.M.	No. 253-257 Abdul Rehman Street.	Cutlery, Silk and Fancy goods Importers.	Firemen with 3 Motor Pumps and 8 Motor Steamers.	A building of 3 floors 25 x 75 feet used as godowns and show rooms etc., two upper floors and contents comprising cutlery and fancy goods etc., severely damaged by fire and part of roof off. Lower part of building and contents by water, dirt and breakage and about one half of top floor of a building of two floors 75 x 25 feet adjoining used as shops and store rooms over and contents severely by fire, rest of building and contents by heat, smoke, water, dirt and breakage.	2,08,000
26th May ...	8-4 P.M.	Dadysnet Street, Chowpatti.	Automobile Engineers.	Firemen with 3 Motor Pumps and 2 Motor Steamers.	A ground floor corrugated iron building 300 x 80 feet used as workshops and garage and contents consisting of motor vehicles, machinery and motor accessories etc., severely damaged by fire, most part of roof off and partly fallen down.	1,64,000
						1926.
13th Feb. ...	11-48 P.M.	Quay Road, Darukhana.	Charcoal Merchants.	Firemen with 4 Motor Pumps, and 1 Motor Steamer.	Several ranges of bamboo and corrugated iron structures covering an area of 600 x 300 feet used for charcoal storage and contents severely damaged by fire, heat, water and breakage.	3,25,000
20th Feb. ...	6-15 P.M.	Presidency Mill, Ferguson Road.	Spinners and Weavers,	Firemen with 1 Motor Pump and mill staff with private appliances.	A ground floor building 150 x 150 feet used as bleaching and dyeing department. About one-fourth and contents comprising piece-goods severely damaged by fire and part of roof off. Rest of building and contents slightly by heat, smoke and water.	1,18,000

## APPENDIX IV.

Summary of lives lost at fires during the year and of persons who received such injuries that death subsequently ensued.

Date.	Time.	Place.	REMARKS.
1925.			
5th April ..	11-35 A.M.	Khetwadi Back Road, 8th Lane.	Nilkanth Wasudeo Mandlik, aged 28 years, and Laxman Krishna, aged 40 years, both severely burned on body and legs. Removed to hospital by Police before the arrival of the Brigade. Both since dead.
12th August ..	7-44 P.M.	No. 322, Duncan Road.	Nazaralli Duraj, aged 25 years, severely burned all over body. Removed to hospital by Police before the arrival of the Brigade. Since dead.
1926.			
11th January ..	6-50 P.M.	Grant Road ..	Abdul Hamid, aged 30 years, severely burned on body. Removed to hospital by Police. Since dead.
27th February ..	2-20 P.M.	No. 113, Bazar Gate Street, Fort.	Ujamabai, aged 23 years, severely burned all over body. First Aid rendered by the Brigade. Removed to hospital by the Brigade Ambulance. Since dead.

## APPENDIX V.

MONTHLY SUMMARY OF FIRES AND ANNUAL LOSSES FOR THE PERIOD 1916-17 TO 1925-26.

YEAR	April.	May.	June.	July.	August.	September.	October.	November.	December.	January.	February.	March.	Total.	Estimated Loss.

# PUBLIC GARDENS.

No. G./205/A. of 1926-27.

BOMBAY, 31st May 1926.

FROM

THE SUPERINTENDENT,  
MUNICIPAL GARDENS,

TO

THE MUNICIPAL COMMISSIONER,  
FOR THE CITY OF BOMBAY.

SIR,

I have the honour to submit the Annual Report on the working of the Municipal Gardens under my charge for the year 1925-26.

2. I was in charge of the gardens throughout the year. Mr. S. N. Ranina, the Assistant Superintendent of the Zoological Collection, was retired on pension on 1st July 1925 after serving the Municipality for 36 years and Mr. D. S. Laud was appointed to succeed him. I think it but right to place on record Mr. Ranina's faithful and meritorious services to the Municipality which he discharged up to the last most zealously and with tact and ability. Except the last six years of his service, which he devoted to the Gardens Department, the whole period of his service was confined to the Health Department where he served in many capacities and earned for himself the encomiums of the present and all the past Health Officers by his assiduity and honesty.

3. The following gardens were maintained during the year under report:—

- (a) Victoria Gardens.
- (b) Elphinstone Circle Garden.
- (c) Falkland Road Garden.
- (d) Northbrook Garden.
- (e) Victoria Square (Bhatia Bagh).
- (f) Esplanade Bandstand.
- (g) Chowpatty Bandstand.
- (h) Flora and Wellington Fountains and the Queen's Statue.
- (i) Dayam Baugh.
- (j) King's Circle Garden (Matunga).

4. The Dayam Baugh was at first a piece of vacant land given by the Municipality to Khan Bahadur Hakim Mahomed Dayam to be laid out and maintained by him as a public garden. The garden remained in his charge for 24 years and was retransferred to us at his request on 11th September 1925. The King's Circle Garden was laid out and hitherto maintained by the City Improvement Trust but at their request we assumed charge of it under Section 45 (3) of the City of Bombay Improvement Trust Act on 1st December 1925.

5. The Sir Cawasji Jehangir Garden at Mahim was dismantled and given over to the Health and Engineering Departments for various public purposes.

6. The water supply of the garden improved during the year owing to the duplication of the Tansa Mains. It will not be continuous, however, until after the completion of the whole scheme. The shortage of labour was felt just as before but all the gardens were maintained in their usual standard of order and tidiness. The work of renovating some of the lawns, shrubberies and flower beds was continued during the year and the usual display of flowers, both in the cold weather, as well as during the rains, in all parts of the garden, presented a blaze of variegated and delightful colours.

7. The provision of a grant for the proposed railings round the Bhatia Baugh (Victoria Square) was made in the new Budget, but owing to financial stringency it was expunged by the Standing Committee.

8. The Park-keepers, who were employed in the different gardens, as an experimental measure, being found efficient in preserving order and discipline, were brought on the schedule permanently.

9. The number of visitors to the Victoria Gardens during the year under report was 1,888,243 showing a decrease of 261,372 on the previous year. This can be attributed to the strike of millhands, lasting more than 2 months, when the millhands departed to their native places in large numbers.

10. 152 new plants were added to the collection during the year. A collection of rare and hybrid Orchids, comprised mostly of Cattleyas and Laeliocattleyas, was imported from Messrs. Sanders of St. Albans. A few of these have flowered since their arrival and the whole lot will make a very delightful show when in full bloom. Some live plants and seeds were exchanged with the Edinburgh Royal Botanical Gardens, through the kindness of Professor William Wright Smith, the Regius Professor, and the friendly co-operation of Sir Stewart Samuel, Bart. The latter gentleman who visited the Victoria Gardens during the year was instrumental in bringing us in touch with Professor Smith and he was also good enough to defray the freight and other expenses for the plants sent to us from Edinburgh. Plants and seeds were also received in exchange from the gardens at Bangalore, Madras and Peradenya and Messrs. Vilmorin Andrieux & Co. of Paris.

11. All the usual minor repairs to cages and buildings were carried out during the year and some important alterations were made therein. Three annexes comprised of open iron enclosures, each measuring 11'x8'x10' were added to the Monkey House. These will provide the animals with means of ample exercise in natural surroundings and will conduce to their improved health. As funds permit all the compartments of this House will be provided with similar annexes. Two permanent new sheds were built in the Sambar Enclosures and new platforms were constructed for the convenience of riders on the Elephant and Camel. A big glass and brickwork frame, 19'x10', was also constructed during the year for the protection of delicate plants which could not bear much rain and wet. All the above mentioned works were carried out from the usual Repair grants provided in the Budget.

12. The removal of the Clock Tower and the large Fountain, following on the set-back of part of the frontage of the Victoria Gardens, acquired by the City Improvement Trust for the widening of the Parel Road, was undertaken by the Trust and both structures were re-erected within the precincts of the garden by them at their own expense. The fountain was re-erected on the main avenue in the centre of the garden. The new site being far away, it was found too expensive and therefore impracticable to prolong the old 9" water main up to the new fountain. It will not play therefore to its original height of nearly 100 feet which is much to be regretted.

13. A grant of Rs. 20,000 for improvements in the gardens was provided in the Budget as per Corporation Resolution No. 11097, dated 26th February 1924, and proposals were submitted for utilizing it, but they had not materialised up to the end of the year, owing to the delay in preparing estimates for a house for Manlike Apes, which was one of the works proposed to be carried out from the grant. It is hoped that the proposals will be submitted to the Corporation in the near future.

14. The Elephant and Camel rides were as popular as ever and continued to be given during the year under report. The Elephant however suffered off and on from her old foot trouble, and consequently had to be used sparingly and mostly for children's rides. The total receipts were Rs. 394 against Rs. 508 in the year before. The total receipts from Camel rides were Rs. 406 against Rs. 370 during the previous year.

15. The usual Band performances were given at all the Municipal Bandstands. There were 16 performances at the Victoria Gardens; 72 at the Esplanade Bandstand; 14 at the Sir Phirozeshah Mehta Gardens; and 25 at the Chowpatty Bandstand. In addition to the above 13 fortnightly band performances were, for the first time, given at the Dadar Parsi Colony and the King's Circle Garden. There were also 8 performances of Indian Music at the Victoria Gardens; 4 at the Working Men's Institute at Parel and 2, for the first time, at the Sir Phirozeshah Mehta Gardens. There were 13 Wireless concerts, arranged by the Radio Club which were given alternately at the Victoria Gardens and the

Sir Phirozeshah Mehta Gardens, but it is to be regretted that owing to some defect in the apparatus or some disturbance in the air they were not quite successful from the audiences' point of view.

16. Amongst distinguished persons who honoured the garden with a visit during the year were Her Excellency Lady Wilson, C. I., and Miss Wilson; H. H. Nawab Saheb and Begum Saheb of Rampur; Their Highnesses the Maharaja and Maharani of Kotah; H. H. the Maharaja of Bikaner and H. H. the Nawab Saheb of Palanpur. The two latter noblemen made purchases of many plants for their States.

17. The following were amongst the animals presented to the garden during the year:—

A Malabar Squirrel by Miss B. Allan; Rib-faced Deer by H. H. the Maharaja Saheb of Dharampur; Mouse Deer by Mr. Ramji Rawji; Indian Crocodile by the Bombay Natural History Society; 8 Indian Antelopes, one by Mr. William Besthe, 5 by Mr. F. B. Plunkett, one by Mr. Pir Syed Abdul Razak, and one by Prince Natwarsinghi Saheb of Gondal; 1 Indian Gazelle by Mr. Ardeshir Nusserwanji; Four-horned Antelope by Mr. G. V. Vichare; 2 Pairs Sacred Pigeons (from Baghdad) by Mr. David Ezra; 19 Abyssinian Baboons by the Secretary, Bombay Pinjarapole; Indian Fox cub by Miss Porritt; Mouse Deer by Mrs. B. O'Rorke; 1 Leopard cub (6 months old) by Prince Natwarsinghi of Gondal; 1 Pied Hornbill by Mr. Charles Mc'Cann and 2 Wild Boars by the Secretary, Bombay Pinjarapole.

18. The following animals were born in the garden during the year under report:—

4 Tiger cubs, 7 Spotted Deer, 3 Sambar Deer, 5 Indian Antelopes, 1 Hog Deer and 5 Lion cubs. The tiger cubs were born on 9th April 1925. One died the next day, and another on 17th October 1925, but the other two are growing into fine specimens. This makes a total record of two pairs of tigers born and bred and living in the gardens during the last 5 years.

19. The following animals were amongst those purchased:—2 pairs of Gold Pheasants; 2 pairs of yellow Crested Cockatoo; 2 Argus Pheasants; 4 Red Billed Blue Magpies; 1 Ceylon Langur Monkey; 7 Impeyan Pheasants; 2 Red Cat Bears or (Pandas); 1 pair of Wild Donkeys and other smaller birds and Mammals.

20. There were no exchanges made with any other garden or dealer during the year but arrangements were made to exchange a collection of animals worth about Rs. 3,000 with Mr. Bistany of New York for rare American or African Animals of equal value.

21. The following were amongst those that died during the year:—

1 Lion of old age and Dysentery; 1 Tiger cub died 3 days after birth, 1 Beatrix Antelope of Malignant form of foot and mouth disease; 4 Canadian Geese. 1 White Swan and 2 Black Swans of Fowl Cholera; 2 Baboons of old age and Plague respectively; 1 Curassow died suddenly; 1 Burmese Peafowl of injuries received from the male bird; 4 Lion cubs of severe form of Distemper; 1 Hog Deer of Hæmorrhagic Septicæmia; 1 Sloth Bear of Epilepsy; 1 Kalij Pheasant of Putrifactive organisms in liver and heart blood; 1 Ostrich of obstruction of the Pylorus by foreign bodies; 2 Mandarin Ducks, 2 Cockatoo Crested, 1 Wild Ass, 1 Rib-faced Deer, 1 Common Crowned Pigeon, 1 Young Pelican and 1 Sambar Deer of causes which could not be ascertained by *post-mortem* examination at the Haffkine Institute, Parel.

22. There was not much damage by outbreak of any infectious or contagious disease except a few cases of Fowl Cholera amongst the Aquatic Birds, one case of Hæmorrhagic Septicæmia in a Hog Deer, and two cases of Plague amongst the Monkeys. All the usual precautionary measures of disinfection, &c. of the houses and enclosures were adopted, and as a safeguard against the further spread of the diseases, amongst the other animals, most of them were segregated and inoculated with their respective prophylactic sera.

23. Our usual best thanks are due to the Director and Assistants of the Haffkine Institute for their kindness and voluntary help in making *post-mortem* and bacteriological examination of most of our dead animals.

24. The British India Steam Navigation Company and the B. B. & C. I. Ry. Company carried some of our animals at concession rates for which our thanks are also due to them.

25. The budgetted grants and the actual expenditure of the various Gardens during the year under report were as follows :—

Name of Garden.	Budget Grants.	Expenditure.	
	Rs. a. p.	Rs. a. p.	
		1,23,087 2 11	Actually spent.
		27,017 14 8	Liabilities incurred.
(a) Victoria Gardens ... ..	1,62,359 0 0	1,50,105 1 7	
		1,500 1 0	Actually spent.

Total Rs. ...	2,38,379 0 0	2,15,289 11 8	

I have the honour to be,

Sir,

Your most obedient servant,

JAMSHED M. DOCTOR,

*Superintendent, Municipal Gardens.*

# VICTORIA AND ALBERT MUSEUM.

REPORT OF THE CURATOR AND SECRETARY, VICTORIA AND ALBERT MUSEUM, RECEIVED UNDER HIS No. C.M. 52 of 1926-1927, DATED BOMBAY, 5TH MAY 1925.

Sir,

I have the honour to submit the following annual report of work done in the Victoria and Albert Museum for the year ending 31st March 1926.

*Museum Building.*—As reported last year owing to the sudden collapse of a portion of the ceiling over the North-East room containing the collection of prints of Old Bombay, the room had to be cleared of its contents and kept closed to the public. During the course of the year under report, a portion of the ornamental decoration to the ceiling over the eastern gallery fell down. In consequence of the damage to the building having occurred on the same side, the Executive Engineer was requested to examine the condition of the building, and works of repairs under his instructions are now being carried out.

The building was fitted with electric installation thus affording ample facility to the Night-Watchmen to do their work.

*Number of Visitors.*—The Museum was open to the public for 312 days during the year, and the number of visitors was 950,806 against 970,426 for the year 1924-25. The small decrease of 19,620 should be attributed to the prevalence of mill strikes in Bombay during the month of September last, for during the other months of the year the average attendance of visitors appears to have been normal.

### *Natural History Section.*

*Specimens received.*—The carcasses of forty-four specimens of birds and animals that died in the Victoria Garden were sent to the Museum. Out of these nineteen were found to be fit for Museum purposes. These were skinned, and the most of them have been set up and mounted.

*Specimens presented.*—One stuffed specimen of an Indian Bull from Guzerath was presented to the Museum by the Manager of the Bombay Garage. As this required some attention, the specimen was renovated by treating the skin with preservatives and carrying out other details of work. It is now exhibited in the case containing the specimen of the American Bison.

The specimens of Snakes and other venomous reptiles reported last year to have been presented by the late Superintendent of Victoria Garden were cleaned and preserved in fresh methylated spirits. These are now exhibited in a small show case.

The following new specimens were purchased and added to the collection. One male and female Naga and one Adhela.

In consequence of the decaying nature of the materials employed in the making of artificial scenery in the show cases, an experiment was made during the course of the year to substitute a material of a more durable nature for making the fore-ground, rocks, etc., in the pictorial show cases in the Natural History Section of the Museum. This enabled us to do away with the use of dried leaves and shrubs, and to exhibit the specimen in plain and simple setting. The advantage resulting by adopting this course will be, that the specimen exhibited will be shown to better advantage, that it can be kept in a better state of preservation than is possible in the present arrangement, and the cases better cleaned and freed from the attacks of vermin and other insects that breed in dust and decaying vegetation.

### *Industrial Section.*

The four cases reported last year to have been ordered from Messrs. E. Wimbridge & Company for the reception of specimens of Industries were duly received. These have been arranged in the upper gallery. The cases have been so designed as to enable them to be placed against the wall, thus enabling us to make use of all the available wall space. They are fitted with glass shelves, thus allowing the light to penetrate, and to show up the specimens to the best possible advantage.

*Specimens of Horn and Ivory Work.*—The following specimens were purchased and added to the collection. Image of Sri Krisna on the Serpant, Image of Maruti carrying the Dronagiri, Carved ivory ball in nine pieces, set of elephants, model of a sparrow on a branch of a tree made of bone, Carved photo-frame, imitation vegetable fruits of bone, an egg showing a hatched chicken, eight pieces of ivory paintings of old Persian kings.

*Specimens made of Mother-of-Pearl.*—Painting in enamel of Zoroaster set in silver, model of a ship, money-purse, barometer, fish and a glass mirror.

*Specimens of Brass and Copper.*—Brass Budha temple from Ceylon, Tanjore Inlaid bowl, two Bidree Hukhas, one aftaba from Bokhara.

*Specimens of Silver Work.*—One silver tray from Cashmere, one perforated tumbler from Cutch, one cup in Swami Style, one box in enamel of German manufacture, one box in enamel of Swiss manufacture, Tea-kettle in Cutch style of workmanship, and one flower basket, one tray and one bowl of Italian manufacture in imitation of Cuttock style of workmanship.

*Specimens of Paper pulp mixed with clay.*—Thirty-two specimens of different birds and animals found in India and made in Jaipur, together with twenty-three models of imitation fruits made in Japan were purchased and exhibited in a case.

*Specimens of Textiles.*—Thirty specimens of old turbans made of printed cloths and collected mostly at Surat and Ahmedabad were purchased for the Museum. These possess more of ethnological interest than any commercial value, as the use of these has now been discarded in favour of modern head-gear.

*Specimens of Stone-work.*—One model in alabaster of an old Rajput Warrior riding a camel was presented to the Museum by Mrs. Avantikabai Gokhale. The piece of sculpture is rather interesting as showing the manner and dress of the old Rajputs. My thanks are due to the donor.

*Specimens of Indian Musical Instruments.*—One Indian musical instrument called the Dilruba was purchased for the collection.

*Numismatics.*—Twenty-eight coins in Silver, Copper and Brass from Japan, Italy, France, Denmark, United States, Great Britain, Canada, Belgium, China, Germany and Switzerland were presented by Mr. Greenwood. These, it is proposed to exhibit in a small case with those received in previous years. My thanks are due to Mr. Greenwood for presenting the collection. This, it is hoped, would prove to be a nucleus of a collection of coins to be made at the Museum, which in course of time would prove to be valuable and interesting.

#### Library.

The following books were purchased during the year under report :—

The Influence of Indian Art, specimens of Ornamental Metal Works, Dyan Kosh Vol. 12 to 17, Language of the hand, Guide to the hand, My pilgrimage to Ajanta and India, Conference of Birds, English-Marathi Dictionary, pts. 1-3, British Government of India by Lord Curzon, History of the Marathas by Kincaid and Paransis, Vol. III, Vivashotari Dashas, Four Manuals, published by the Theosophical Society, Orion by Tilak, Origin of Phallic worship, Omar Khayum, Life of the late Mr. J. N. Tata, Vedic India, The Yoga of Patanjali, Madhya-ugin Bharat Vol. III, Sind tiles, Rosicrucians, and the Indian Antiquary for 1925. One volume on Coleoptera of the Fauna of British India series was presented by the Government of Bombay.

It gives me great pleasure to record my thanks to the Municipal Commissioner for according his sanction and obtaining from the Corporation sufficient funds to print the Catalogue of specimens in the Industrial section of the Museum. The manuscript has been duly approved by him, and it will be put in the hands of the printers within the next few months.

I have the honour to be,

Sir,

Your most obedient servant,

ERNEST R. FERN,

Curator and Secretary,

Victoria and Albert Museum.

No. S/1/A of 1926-27.

BOMBAY, 12th June 1926.

From

THE STOREKEEPER,

BOMBAY MUNICIPALITY.

To

THE MUNICIPAL COMMISSIONER.

FOR THE CITY OF BOMBAY.

Sir,

I have the honour to submit the 21st Annual Report of the Stores Department for the year ending 31st March 1926. During the whole year, Mr. K. N. R. Ranina was in charge of the Department.

As the market was easy, almost all articles were received promptly except in a few cases, such as galvanized pipes and fittings, brass water works fittings, &c., which had to be rejected several times on account of light weights, absence of marks, &c. It is necessary to standardize these articles and to alter the Water Works' Bye-Laws accordingly. There were troubles in respect of local-made castings, as this year, a new practice was enforced of allowing only calculated weights in lieu of actual weights. It is not clear what is meant by calculated weights, which defer materially from the British Standard Specification weights.

The Arthur Road Depot used for stacking C. I. Pipes and Specials was found insufficient. Another large piece of land—close by—was obtained from Health Department. A major portion of the Bellasis Bridge Pipe Depot having been acquired in connection with Railway Terminal Scheme, the space now available is small and other arrangement will have to be made to hold unserviceable stores, &c.

The annual schedules were further revised during the year and the tenderers were allowed to be present at the time of opening the tenders, thus creating keenest competition among the merchants. This year, even small purchases were made by inviting quotation from several known dealers, which enabled us to get very favourable rates.

Indian articles were given preference over foreign goods and we have now been using Indian C. I. Pipes and Specials, Hydrants, Cement, Lead Pig, Clothing, Boots, S. W. Pipes and Fittings, Bolts and Nuts, Paints, Brushes, Buckets, Globes, Lanterns, Leather and Leather Goods, Locks, Turpentine, Linseed Oil, Ropes Cotton and Line, Soap, Yarn, Waste, Umbrellas, Cumbles, &c., &c.

Notwithstanding low rates, the turnover of the Department amounted to over 16 Lacs; important purchases being C. I. Pipes and Specials, Valves and Hydrants, Meters, Galvanized Pipes and Fittings, S. W. Pipes and Fittings, Drainage Castings, Cement, Iron and Steel, Clothing, Oils, Disinfectants, &c., &c.

The verification of Central Stores and Depots, as also of articles on Lines Suspense was done by an outsider, and the result was reported satisfactory, notwithstanding the fact that about 4,500 different articles were handled.

Lighting arrangements of the Yard at the Central Stores have been much improved and we have provided good Patromax Lamps for the purpose, as no electric light is available in the vicinity.

The balance of the stores at the end of the year has increased by about 2 Lacs on account of larger number of C. I. Pipes remaining in hand, but which are expected to be utilized during the current year.

I take this opportunity of recording the loyal assistance rendered by the staff,<sup>2</sup> notwithstanding the great increase in work on account of opening of the King Edward VII Memorial Hospital and the Seth Gordhandas Sunderdas Medical College, Tansa Completion Works, &c.

I have the honour to be,

Sir,

Your most obedient servant,

D. E. MAVJI,

*Storekeeper.*

# LICENSE DEPARTMENT.

No. L.-8-A of 1926-27.

BOMBAY, 2nd June 1926.

FROM

THE SUPERINTENDENT OF LICENSES,

TO

Bombay Municipality,

THE MUNICIPAL COMMISSIONER

For the City of Bombay.

Subject: *Annual Report for 1925-26.*

SIR,

I have the honour to submit the Annual Report on the working of the License Department during the year 1925-26.

## 1. *Change in the Staff.*

Mr. N. S. Kowshik held the Office of the Superintendent of Licenses, from 1st April 1925 to 13th April 1925 when he was transferred to act as Town Duty Officer. Mr. S. A. Shete acted in his place from 14th April 1925 to 1st March 1926 when he was relieved on his being appointed as the Chief Officer, Ahmedabad Municipality, Assistant Superintendent, Mr. M. T. Khan, acted in his place from 2nd March 1926 to 14th March 1926 and Mr. G. H. Gadesden from 15th March 1926 to 31st March 1926.

## 2. *Licenses under Section 394.*

The total number of licenses issued during the year under report was 13,334 and the total amount of license fees collected, was Rs. 1,27,095-4-0.

Comparative figures for previous years are as under :—

Year.	No. of licenses issued.	Amount of license fees collected.		
		Rs.	a.	p.
1922-23	13,320	1,33,725	0	0
1923-24	13,563	1,33,018	4	0
1924-25	12,957	1,25,914	4	0
1925-26	13,334	1,27,095	4	0

The increase is not unsatisfactory looking to the trade depression in general. The license fees outstanding on 31st March 1926 amounted to Rs. 2,678-12-0 in respect of 305 licenses as against Rs. 2,633-4-0 in respect of 276 licenses on the 31st March 1925.

Miscellaneous receipts amounted to Rs. 196-3-0 against Rs. 166-10-0 in the preceding year. License fees amounting to Rs. 394-12-0 were refunded in respect of 32 cases as against Rs. 641-4-0 in respect of 34 cases in the preceding year. The loss of fees incidental to the demolition of the old licensed places or their diversion to uses not requiring a license during the year under report amounted to Rs. 20,770-4-0 against Rs. 23,888 in the preceding year. It may be mentioned that in respect of aerated water factories, bakeries, firewood depots, stables, timber depots and sweetmeat shops, the total number of licenses issued was less by 235 than the preceding year.

3. *Prosecutions.*

The total number of prosecutions instituted, exclusive of those for exhibiting sky-signs and advertisements without permission from the Municipal Commissioner under Sections 328 and 328-A., was 3,956 against 3,525 in 1924-25, the total amount of fines being Rs. 3,210-4-0 against 3,568 in the preceding year.

Of the 3,956 cases, 3,127 were for non-payment of license fees against 2,779 in 1924-25 and the remaining 1,167 against 746 in 1924-25, were for carrying on licensable trades without licenses and for infringement of license conditions. In two cases the accused were acquitted.

4. The question of manufacturing Biddies or indigenous cigarettes was under consideration of the Executive Health Officer and the Collector of Bombay. No such places were therefore licensed during the year.

5. *Permits under Sections 328 and 328 A.*

The total revenue derived from the controlling of sky-signs and advertisements under Sections 328 and 328 A., and the total number of permissions issued under those Sections during the year under report, were as under as compared with those for the past two years:—

Particulars.	No. of Permits issued.			Amount of Fees recovered.								
	1923-24.	1924-25.	1925-26.	1923-24.		1924-25.		1925-26.				
				Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Wall-posters and hoardings.	56	164	243	2,715	0	0	3,042	8	0	3,190	0	0
Moveable boards, hand-carts, &c.	151	229	328	2,290	0	0	2,535	0	0	3,135	0	0
Illuminated sky-signs	14	53	89	421	0	0	1,992	0	0	1,482	0	0
Non-illuminated sky-signs.	2	9	8	440	0	0	850	0	0	720	0	0
(a) Non-illuminated (Kiosk) 1,644	..	..	3	....			....			4,110	0	0
Wall-paintings	5	17	25	250	0	0	2,120	0	0	2,600	0	0
Auctioneers	3	12	7	300	0	0	1,015	0	0	700	0	6
Ground rent	..	..	..	1,404	10	10	1,617	0	0	1,487	0	0
Total	231	484	703	7,820	10	10	13,171	8	0	17,424	0	0

Two Hundred and ninety-one prosecutions were instituted for non-compliance with the provisions of these two Sections of the Act. Of these 12 resulted in conviction and imposition of fines which totalled Rs. 195, and others withdrawn on receipt of fees. In one prosecution, regarding the wall-poster, the accused was acquitted. Under the proviso to Section 328A (1) temporary exemption from the provisions of the Section upto January 1927 has been allowed in respect of all the old sites that were in use for advertisement purposes on the 1st September 1919. The work of controlling advertisements in the city which are ever on the increase, has increased the work of inspection, entailing thereby additional work of accounts, correspondence and prosecutions.

6. *Amendment in the Bombay Municipal Act.*

Under Act No. I of 1925 published in the *Government Gazette* on the 3rd October 1925, manufacturing of Ice has become licensable and a scheme for licensing of Ice Factories is under the consideration of the Executive Health Officer. Under this Act, a new Section (313A) has been inserted for licensing the hawkers. The scheme is under consideration. This work as well as the work of removing Encroachments on public streets and recovery of fees from the squatters in the reserved area has been entrusted to this Department from 1st April 1926.

I have the honour to be,

Sir,

Your most obedient servant,

S. N. THOSAR, B.A., LL.B.

*Ag. Superintendent of Licenses.*

# MARKETS.

BOMBAY, 12th June 1926.

FROM

THE SUPERINTENDENT OF MARKETS,

Bombay Municipality.

TO

THE MUNICIPAL COMMISSIONER

FOR THE CITY OF BOMBAY.

SIR,

I have the honour to submit the Annual Report of the Markets and Slaughter Houses Department for the year 1925-26.

2. The total receipts from Markets and Slaughter Houses during the year under review amounted to Rs. 11,61,085-6-11 as against Rs. 11,20,702-14-3 in the previous year showing an increase of Rs. 40,382-8-8.

3. The increase of Rs. 40,382-8-8 is constituted by increases under various items of revenue, the chief among which are:—firstly, the sum of Rs. 15,419-3-3 in respect of the right to collect Fair Ground Rent at Bandra which was collected departmentally in March 1925 and which had been held in deposit during 1924-25 and which is referred to in paragraph 3 of my last year's report was adjusted during the year under review; secondly, there was an increase in the revenue of Rs. 4,319-15-11 in the Squatters and Hawkers Branch; thirdly, the license fee amounting to Rs. 5,102 of Dadar Private Market which was in arrear and which is referred to in detail in paragraph 7 of my report for the year 1924-25 was recovered and adjusted during the year under review; fourthly, the market rights, when sold by auction, realised Rs. 14,450 more than the preceding year; fifthly, there was an increase of Rs. 2,210-11-0 in the fines levied on stall holders for the late payment of stall rents.

There has been a decrease of Rs. 7,658-12-11 in the stall rents and further on there has been a steady decrease in the miscellaneous revenue of the Department. In spite of the increases and decreases the financial position shows an actual increase of Rs. 24,963-5-5 over the previous year's receipts.

4. During the year there were in all 13 Municipal Markets which are enumerated below with the revenues derived during 1925-26 and 1924-25 respectively from each. Besides the total number of stalls and the average number of stalls that remained vacant during both the years is given for sake of comparison. Furthermore the increases and decreases in the revenues of each market during 1925-26 and 1924-25 are given for sake of ascertaining the financial result of each market in respect of stall rents.

Name of Market.	Total No. of stalls.		Average No. of stalls vacant per quarter.		Stall rents. 1925-26.	Squatters' fees collected departmentally. 1925-26.	Total for 1925-26.	Total for 1924-25.	Increase or decrease during 1925-26.
	1925-26.	1924-25.	1925-26.	1924-25.

Total .. .. .	2,611	2,607	356	268	8,24,238 11 6	1,181 12 0	8,26,420 7 6	8,38,079 4 5	-7,658 12 11

During the year 4 new stalls were provided in the markets shown below :—

Name of Market.	No. of Stalls.
Erskine Road Heads and Livers.. .. .	1
Elphinstone Road.. .. .	3

There has been an increase of Rs. 774-14-6 in respect of certain markets whereas there has been a decrease of Rs. 8,430-11-5 in respect of others so the net financial position in respect of stall rents and squatters' fees is that there has been a decrease of Rs. 7,658-12-11 during the year when compared with the preceding year.

The large decrease of Rs. 4,687-2-11 in case of Arthur Crawford Market is due to a Hindu tea-shop fetching Rs. 6,000 per annum having remained vacant throughout the year.

The decrease of Rs. 1,234-1-3 in case of Erskine Road Market is due to the accommodation of squatters dealing in vegetables, etc., on the Erskine Road. [The accommodation of squatters on this road has resulted in a number of stalls in the Erskine Road Market falling vacant.]

In case of DeLisle Road Sheep Market the decrease of Rs. 711-4-0 is due to slackness in the business on account of labour strike in Bombay Mills and consequently some pens were vacated by the holders. It must be remembered that mill labour classes form the majority of customers of this market for live sheep.

As regards the decrease of Rs. 703-12-0 in Musjid Bunder Market, I am of opinion that the construction of the Railway bridge has materially affected the customers of this market and consequently more stalls have become vacant than the preceding year. The decreases or increases in the case of other markets are negligible and do not call for any special explanation. Most of the decreases are due to a large number of stalls having fallen vacant during the year on account of financial stringency.

5. As usual the rights of collecting fees from squatters in Municipal Markets and scale fees in Arthur Crawford Markets were sold by public auction and realised Rs. 1,26,450 against Rs. 1,12,000 of the preceding year, showing an increase of Rs. 14,450 when compared with the year 1924-25. The increase of Rs. 14,450 was due to keen competition between rival parties.

6. The markets were well kept and careful supervision was exercised by the Market staff as to cleanliness, sanitary condition and wholesomeness of articles offered for sale.

7. The license fees during the year from Private Markets amounted to Rs. 24,455-8-0. Further the license fees amounting to Rs. 740 were recovered from butchers having stalls in private markets. A sum amounting to Rs. 7,373 in respect of license fees was recovered from meat shop keepers in the city.

I have already mentioned in paragraph 7 of my last year's report that the Municipal Act does not give sufficient power to the Municipality to recover the arrears of license fees in case of private markets if the owners persist in refusing to pay the fees. During the current year also the license fee in respect of the Haines Road Market remained in arrears in spite of attempts made by this Department towards its recovery.

8. The Market staff exercised strict supervision on the articles offered for sale in the Markets. A large quantity of unwholesome articles, viz., meat, fish, fruits and vegetables, etc., from different markets weighing 445,466 lbs. in the aggregate was destroyed during the year.

9. The contraband meat seized and destroyed was 19,730½ lbs. against 36,561 lbs. in the previous year. The large decrease of 16,830½ lbs. is due to the reduced number of buffaloes being slaughtered at Kurla on account of the slackness of fat trade and strict measures adopted to check the illicit traffic. The buffaloes at Kurla are principally slaughtered for fat trade and the meat which is a bye-product is sold at a ridiculously cheap rate. The margin of profit is so great that contrabandists attempt to bring it in spite of prosecutions under Section 412 of the Municipal Act. I have

already referred in my last year's report to the correspondence that was in progress to reach a mutual arrangement with the Kurla Municipality to put an end to this dangerous traffic in buffalo meat and after a considerable correspondence an arrangement was arrived at temporarily with the Kurla Municipality by which one of the slaughter houses at Kurla is under the administrative control of this Municipality and the meat of buffaloes slaughtered in this slaughter house only is being imported into Bombay. This arrangement has come into force from 1st April 1926. As was expected this arrangement has greatly reduced this dangerous meat trade.

10. 11,459 buffaloes, 41,644 cows and bullocks, 823,539 sheep and goats were brought on the Fair Ground of Bandra Slaughter Houses against 11,248 buffaloes, 42,538 cows and bullocks and 879,278 sheep and goats during the preceding year out of which 23 buffaloes, 350 cows and bullocks, 9,529 sheep and goats being found underage or diseased or otherwise unfit for human consumption were rejected on ante-mortem inspection.

The principal causes of *post-mortem* condemnation were wounds, abscesses, Jaundice and cysticercus Bovis. It will be seen that there has been a marked decrease in the number of cows and bullocks and sheep and goats. This is due to scarcity of animals in the breeding districts of ages prescribed under Corporation Resolution No. 11840 of 3rd March 1921. It may be mentioned that since the date of the Corporation Resolution No. 11840 of 3rd March 1921 there has been a steady decrease year by year in the number of cows and bullocks imported into the Bandra Slaughter Houses.

11. The slaughter fees realised at the Bandra Slaughter Houses was Rs. 4,02,058-13-0 against Rs. 4,05,300 of the last year. The decrease of Rs. 3,241-3-0 is mostly due to the reasons mentioned in the preceding paragraph. A sum of Rs. 65 and 5 were realised for sheep and goats and horned cattle respectively for permits for private slaughter in Bombay on occasions of festivals.

12. 1,669 pigs and 53 piglings were brought for slaughter at the Arthur Road Slaughter House of which 1,643 pigs, and 31 piglings were slaughtered. The fee received for slaughtering these animals at the Pork Slaughter House amounted to Rs. 1,651-12-0. Permits to import two slaughtered pigs and 118 piglings were given during the year and the fees recovered for granting such permits amounted to Rs. 33-8-0.

Note :—The details of animals slaughtered, etc., and the fees realised have been given in Appendix 'A' to this report.

13. The approximate weight of meat of buffaloes, cows and bullocks was 6,187 tons and that of sheep and goats 6,648 tons. The condemned quantity out of the former was 21.3 tons and out of the latter 8.9 tons which gives .35 and .13 percentage respectively.

14. Out of 66 tons of Pork meat slaughtered, 3.3 tons had been rejected being found unfit for human food and was destroyed mostly due to tuberculosis. The percentage of the quantity destroyed comes to .5.

15. The principal causes of meat condemnation at Bandra were debility, emaciation, bad sores, abscesses, bruised condition, and cysticercus bovis. The affections of tuberculosis were confined to pigs only. [It may be of interest to note that Dr. P. Soparkar a Government of India tuberculosis expert came to Bombay direct from the Punjab where he had found all the cattle there showing affections in about 5 per cent. of cases. He was very sure of finding it here but failed as predicted by the Municipal staff. He was most complimentary in regard to our Inspection Service.]

16. The sum realised from the contractor for the right of collecting fair ground fees, etc., at Bandra was Rs. 1,31,500 against Rs. 1,30,000 derived in the preceding year showing an increase of Rs. 1,500.

## 17. The other miscellaneous revenues were as follows :—

Particulars.	Amount.			
	1925-26.		1924-25.	
	Rs.	a. p.	Rs.	a. p.
(1) Amount recovered from the contractor for the right of removing blood .. .. .	3,000	0 0	4,261	0 0

18. The fines inflicted by the Presidency Magistrates for infringements of the provisions of the Municipal Act and Bye-laws pertaining to markets during the year under report amounted to Rs. 4,371 against Rs. 6,934 in the previous year. This amount includes fines for importation of contraband meat (Section 412 (1) of the Municipal Act. The decrease of Rs. 2,563 is due to the smaller number of cases of seizures of contraband meat, and reduced quantity of meat being brought into the City which is referred to in paragraph 9 of this report.

19. A staff for stamping weights and measures was maintained throughout the year.

20. The Refrigerator Plant in Arthur Crawford Market worked satisfactorily throughout the year. Though it is under contemplation to extend the present Refrigerator Plant as a safeguard against breakdown, etc., the question had to be deferred for want of funds.

21. The Hawkers' Branch was separated from the Market Department and transferred to the License Department from 1st April 1926.

22. During the year meat inspection was rigid and all meat that was offered for sale in the Markets which had become unfit for human consumption was caused to be destroyed. The total quantity so destroyed in markets amounted to 4,743 lbs.

23. I have already pointed out in my previous year's report that owing to rapid improvement in the City it has become necessary to build additional Municipal markets and I reiterate that funds need to be provided early to build markets at least on the sites already acquired and on which we are losing interest charges.

24. During the year the work of construction of Chowpatty and Gilder Tank Markets was taken in hand and was well in progress.

25. I continued to hold charge of the Markets and Slaughter Houses Establishment throughout the year. My staff worked satisfactorily.

26. In the following statement is shown the financial results of Municipal Markets for the year 1925-26 :—

Names of Markets.	Total cost upto 31st March 1925.	Additions if any made during the year.	Total Cost.	Gross Receipts.	Expenditure.	Net Receipts.	Percent- age of profit on the cost.	REMARKS.

C. M. FLANDERS, v. s. (Toronto),  
 Superintendent of Markets and Slaughter Houses, etc.

No. E. H./95-B. of 1926-1927.

BOMBAY, 9th July 1926.

FROM

THE DEAN,

KING EDWARD VII MEMORIAL HOSPITAL and the

SETH GORDHANDAS SUNDERDAS MEDICAL COLLEGE,

Bombay (12).

To

THE MUNICIPAL COMMISSIONER

FOR THE CITY OF BOMBAY.

SIR,

I have the honour to submit this the first annual Administration Report on the working of the Seth Gordhandas Sunderdas Medical College and the King Edward VII Memorial Hospital.

During the year under report, the Corporation made the appointments of the Dean the four full-time Professors of the College and the Honorary Staff at the College and Hospital. The Appendix 'A' shows the names of the persons appointed and the dates on which they took over the charge of their duties at the Hospital and College.

I continued to be the Dean during the year under report from 1st April 1925.

The year has been memorable in the history of the Corporation inasmuch as the long-thought-of Hospital and its allied Medical College commenced work. The College was opened on 1st June 1925 and the Hospital on 15th February 1926. The formal Opening Ceremony of both the College and the Hospital was performed on 22nd January 1926 by His Excellency the Governor of Bombay.

On my taking up my duties on 1st April 1925, I found that though the building of the College was ready, much of the equipment that was needed for the several departments of the College had not arrived though orders were placed for it.

An application for the affiliation of the College with the University of Bombay was made on 25th March 1925. The Senate after having a report from their Committee of Inspection, recommended to Government in July 1925 the affiliation of the College provisionally, subject to certain conditions, for a period of 18 months from June 1925 in the Faculty of Medicine for the course of study prescribed for the Intermediate M.B., B.S. Examination. Government were pleased to notify their sanction to the Senate's recommendation by Government Resolution No. 3732, dated 3rd September 1925.

Appendix 'B' shows the several endowments for Scholarships, which were announced at the Opening Ceremony of the College and Hospital. The College began work on 1st June 1925, the beginning of the Monsoon Term, with very scanty apparatus, furniture and almost with no Library and Gymkhana. 46 students, including 6 Lady students joined the College at its opening. The construction of the Hostel buildings with an accommodation for about 100 students was taken up during the year and the work was done as expeditiously as possible with a view to make it available for occupation by June 1926.

On my appointment as Dean, a small separate office was formed and the work of equipping and management of the College and the Hospital which had hitherto been done through the Health Department was taken up by me. The main work, throughout the year for me and my office, was the equipment and organisation of the King Edward VII Memorial Hospital and Seth Gordhandas Sunderdas Medical College. The estimates for the various kinds of equipment for the Hospital, which were prepared after frequent consultations with the Honorary Staff, were got through the Corporation and the majority of the equipment necessary for the opening of the Hospital was obtained from abroad with as much expedition as possible. Though much yet remains to be done towards the equipment and management of such a large general hospital, the work already done by my office and the other technical staff under me was much creditable, especially as the work

is wholly new and of a highly technical nature. The Hospital was opened for the reception of patients on 15th February 1926 and Appendix 'C' shows the number of In-patients treated till the end of the year under report with the usual details as regards age, religion, sex and disease. All the branches in the Out-patient Department were opened with the exception of the X-Ray and the Orthopaedic. The total number of patients treated in the Out-patient Department was 1,311. The details are shown in Appendix 'D.' Police cases, road-side accidents or those involving medico-legal work were not admitted and arrangements for their admission will shortly be made.

The apparatus ordered for the Hospital and the College was found, on actual working, to be inadequate and additional apparatus and furniture for some of the departments at least was felt necessary. This has been ordered after consultation with the staff concerned and it is expected that during the next year, the Hospital and the College will be fairly well equipped.

I take this opportunity of sincerely thanking the Honorary Staff and the four full-time Professors of the College for the valuable services rendered by them in getting up the lists of equipment and apparatus for their respective departments and for the assistance given by them in every possible way in the initial organisation of both the institutions.

The application for the complete affiliation of the College and Hospital was made on 20th November 1925 and the Inspection Committee of the University made their inspection of the College and the Hospital on 30th January 1926 and 13th March 1926. I attach herewith a copy of their report (*vide* Appendix E) to the Senate of the University and it is hoped that the College and the Hospital will be affiliated to the University for the full courses of studies for its degrees of M.B., B.S. The Hostel, Gymkhana and a well equipped Library, which are the main concomitant conditions of the affiliation of a College, are well in hand and are supposed to be fairly fulfilled during the next year.

I have the honour to be,

Sir,

Your most obedient servant,

JIVRAJ N. MEHTA,

M. D., M. R. C. P. (Lond.),

Dean.

## APPENDIX "B."

## Donations, &amp;c.

1. An anonymous donation of Rs. 28,000 through Messrs. Ardeshir Hormusji Dinshaw & Co., Solicitors, to supply warm clothing annually out of the accrued interest to the patients of the Hospital.
2. Endowment from Mr. Chaturbhuj Gordhandas Sunderdas for a Scholarship to be called " Bai Gangabai Gordhandas Sunderdas Scholarship " of Rs. 20 per mensem to a student entering this College with the highest number of marks at the Intermediate Examination of the University of Bombay.
3. Endowment from Mr. Chaturbhuj Gordhandas Sunderdas for a scholarship to be called " Chaturbhuj Gordhandas Sunderdas Scholarship " of Rs. 20 per mensem to the student of this College who stands highest in Anatomy at the Intermediate M.B., B. S. Examination of the University of Bombay.
4. Endowment from Mr. Lalji Naranji for a scholarship to be called " Lalji Naranji Scholarship " of Rs. 20 per mensem to the student of this College who stands highest in Physiology in the Intermediate M.B., B.S. Examination of the University of Bombay.
5. Endowment from Mr. Tulsidas H. Parekh for a Scholarship to be called " Bai Bachoo bai Thakoredas Entrance Scholarship " of Rs. 15 per mensem to a Gujerati Hindu Lady Student of this College who secures the highest number of marks at the Intermediate Science Examination of the University of Bombay.
6. Endowment from Mr. Jehangir Ratanshaw Dadabhoy for a scholarship of Rs. 15 per mensem to be called " Ratanshaw Dadabhoy Scholarship " to the student of this College who stands highest in Medicine at the College Competitive Examination in the 4th year's course of studies.
7. Endowment from Dr. (Mrs.) Dossibai Jehangir Ratanshaw Dadabhoy for a Scholarship of Rs. 15 per mensem to be called " Awabai Ratanshaw Dadabhoy Scholarship " to the Lady Student of this College who stands highest in Midwifery at the College Competitive Examination in the 4th year's course of studies.
8. Endowment by the Honorary Staff and whole-time Professors of the College and Hospital for a scholarship of Rs. 15 per mensem in commemoration of the late Dr. K. N. Bahadurji and to be named after him.
9. From Dr. Rukhmabai of Zenana Hospital, Rajkot, a set of 60 bound volumes of British Medical Journal in cabinet.
10. From Mrs. Bardi a set of Medical Books belonging to her husband, the late Dr. Bardi.

## APPENDIX " E . "

REPORT OF THE COMMITTEE APPOINTED BY THE SYNDICATE TO  
 MAKE THE LOCAL INQUIRY PRESCRIBED BY THE INDIAN  
 UNIVERSITIES ACT IN RESPECT OF THE  
 APPLICATION FOR AFFILIATION OF  
 THE SETH GORDHANDAS SUN-  
 DERDAS MEDICAL  
 COLLEGE.

We visited the Seth Gordhandas Sunderdas Medical College on Saturday, January 30th, and the King Edward VII Memorial Hospital on March 13th. On both the occasions we were met by the Dean and several members of the staff, who took us round, showed us the records, and discussed with us the questions relating to the organisation and equipment of the College and Hospital, and the number of students to be trained there.

At the time of our first inspection in June 1925, the hospital was still under construction, the equipment of the Library and the laboratories was not complete as the books and the apparatus had not arrived and the number of bodies available for dissection was uncertain. Since then very rapid progress has been made. The Hospital building is now complete and ready for occupation; the College Library contains a good number of reference and text books; the laboratories are thoroughly equipped, and an adequate supply of dead bodies for dissection has been ensured.

The Hospital has a total accommodation for 300 beds. Out of these 100 are now equipped and available for patients. The remaining 200 beds are also being equipped and the Dean assured us that they will be ready before June this year.

The buildings are palatial, well-ventilated and well-kept. The sanitary arrangements are satisfactory. There are separate Operation Theatres for Surgical, Obstetrical, Gynaecological, Ophthalmic, Septic and Minor Surgery cases. With the exception of the X-Ray Department, all the departments of the Hospital have commenced to work. The X-Ray Department is expected to start work at an early date.

While discussing the question of the number of students to be trained at the institution, the Dean told us that he was prepared to admit students for Hospital training from June next, as all the departments were practically in working order. By that time there will be enough clinical material for the training of about 60 students and we recommend that the Dean may be permitted to admit students who have passed the Intermediate M.B., B.S. Examination for their hospital training. This step will materially help to relieve the congestion at the J. J. Hospital and more clinical material will be available for individual students.

The hospital staff consists of a large number of well qualified medical men, who have agreed to work on an honorary basis. An adequate staff of paid assistants has been entertained to help the Honorary Medical Officers in their work. The system of having Honorary Medical Staff is quite the rule in the United Kingdom but it is quite new to India and the results of the working of the King Edward VII Memorial Hospital will be watched with interest by all.

We are satisfied that the Gordhandas Sunderdas Medical College fulfills all the requirements of the Indian Universities Act and we recommend that it may be permanently affiliated to the Bombay University for the purposes of all the Examinations of the M.B., B.S., degrees subject to the following conditions:—

- (1) The number of fresh students to be admitted to the First Year Class should not exceed 60 annually.
- (2) The number of admissions to the Third Year Class should not exceed 30.

- (3) The number of casual students attending the Hospital for clinical training should be limited to 30 this year.
- (4) The total number of regular students attending the final M.B., B.S. classes should not exceed 120 at any time.

As regards the recognition of the institution for Post-graduate training for the higher degrees and diplomas, we are of opinion that this question may be considered at a later date when the Institution has been in full working order for some time. A special inspection should be held for that purpose.

THE SCHOOLS COMMITTEE

OF

THE BOMBAY MUNICIPALITY.

ADMINISTRATION REPORT FOR THE YEAR 1925-26.

## I.—THE COMMITTEE.

1. The Schools Committee as it stood at the beginning of the Official Year 1925-26, was composed of the following sixteen Members :—

Dr. Moreshwar Chintaman Javle, J. P.,  
 Fazal Ibrahim Rahimtulla, Esquire, B.A.,  
 B. N. Motiwala, Esquire, B.A., LL.B., *Chairman*,  
 \*Dr. Kashibai Nowrange, B.A., L.M. & S., J. P.,  
 \*Miss B.A. Engineer, M.B.E., M.A., LL.B., J. P.,  
 \*M. R. Jayakar, Esquire, M.A., LL.B., Bar.-at-Law, M. L. C.,  
 Rao Bahadur A. K. Pai, B.A., J. P.,  
 Jamnadas M. Mehta, Esquire, M.A., LL.B., Bar.-at-Law, M. L. A.,  
 A. R. Dimtimkar, Esquire, J. P.,  
 \*Mrs. Shuffi C. Tyabjee, J. P.,  
 Kanji Karamsey Master, Esquire,  
 Dr. D. A. D'Monte, M.D., L.R.C.P. (London), M.R.C.S., J. P.,  
 Jehangir B. Baman-Behram, Esquire, B.A., LL.B., J. P.,  
 F. W. Petch, Esquire, M.L.C., J. P.,  
 R. S. Asavale, Esquire, J. P.,  
 Mia Mahomed Haji Jan Mahomed Chhotani, Esquire.,  
*Members.*  
 M. I. Farooqui, Esquire, B.A.,  
*Secretary.*

2. The term of the Chairmanship of Mr. B. N. Motiwala came to an end with the calendar year 1925 and so the Committee at their meeting held on the 8th January 1926 elected Mr. Fazal Ibrahim Rahimtulla, B.A., to be their Chairman for the calendar year 1926.

3. The following Members, who under the Act retired from the end of the calendar year 1925, were all re-elected by the Corporation :—

Dr. M. C. Javle, J. P.,  
 B. N. Motiwala, Esquire, B.A., LL.B.,  
 Rao Bahadur A. K. Pai, B.A., J. P.,  
 Mrs. Shuffi C. Tyabjee, J. P.

There was no other change in the personnel of the Committee.

4. The total number of Committee Meetings held during the year was 34; of these 11 were ordinary monthly meetings, 14 adjourned meetings and 9 special ones. The total number of items disposed of at these meetings was 700 as against 446 of the previous year.

\* These four Members were the non-Councillor Members appointed by the Corporation as per Section 19 of the City of Bombay Primary Education Act, Bombay Act No. XV of 1920.

The following statement shows the attendance of Members at the Committee's meetings :—

Names of Members.	No. of Meetings attended.	REMARKS.
Dr. Moreshwar Chintaman Javle, J. P. ..	29	Chairman, from 8th January 1926. Chairman upto 31st December 1925.
Fazal Ibrahim Rahimtulla, Esquire, B.A. ..	24	
B. N. Motiwala, Esquire, B.A., LL.B. ..	31	
Dr. Kashibai Nowrange, B.A., L.M. & S., J.P.	28	
Miss B. A. Engineer, M.B.E., M.A., LL.B., J.P.	27	
M. R. Jayakar, Esquire, M.A., LL.B., Bar.-at-Law., M.L.C.	<i>Nil.</i>	
Rao Bahadur A. K. Pai, B.A., J. P. ...	29	
Jammadas M. Mehta, Esquire, M.A., LL.B., Bar.-at-Law., M.L.A.	14	
A. R. Dimtimkar, Esquire, J. P. ..	34	
Mrs. Shuffi C. Tyabjee, J. P. ..	31	
Kanji Karamsey Master, Esquire ..	32	
Dr. D. A. D'Monte, M.D., L.R.C.P. (London) M.R.C.S., J. P.	31	
Jehangir B. Baman-Behram, Esquire, B.A., LL.B., J. P.	26	
F. W. Petch, Esquire, M.L.C., J. P. ..	7	
R. S. Asavale, Esquire, J. P. ...	32	
Mia Mahomed Haji Jan Mahomed Chhotani, Esquire.	17	

5. Lately the number of references to Sub-Committees had been constantly increasing and at the beginning of the year under report it was found necessary to lay down a system of Sub-Committees for the efficient and speedy despatch of business. Until last year it was the custom to appoint a new Sub-Committee for every new reference. This led to an enormous increase in the number of Sub-Committees and also in the amount of work. The Committee therefore thought it advisable to appoint a number of permanent Sub-Committees for different subjects. The following nine Sub-Committees were, therefore, appointed from the 17th April 1925 :—

*Names of Sub-Committees.*

1. The Finance and Retrenchment Sub-Committee.
2. The New Schools and Rent Control Sub-Committee.
3. The Establishment Sub-Committee.
4. The General Instruction Sub-Committee.
5. The Special Instruction and Library Matters Sub-Committee.
6. The Medical Inspection and Sanitation Sub-Committee.
7. The Discipline Sub-Committee.
8. The Grants-in-Aid and Prize Distribution Sub-Committee.
9. The Miscellaneous Matters Sub-Committee.

To these nine Sub-Committees, a tenth one called "The Text Books Revision Sub-Committee" was added from the 17th February 1926, to deal with all matters regarding text-books. The total number of meetings held by these various Sub-Committees, during the whole official year, was 116 and the number of references disposed of at these meetings was 158.

6. Mr. M. I. Farooqui, B.A., continued to be the Secretary throughout the whole year. Mr. The Secretary and the Shamrao Narayan Chachad, the Committee's Chief Clerk, who had Office Staff. served the Committee from the very beginning retired from 4th December 1925 after 37 years' long and approved service, and in his place was appointed Mr. Rattan-shaw A. Contractor, the next senior clerk in the Committee's Office. Mr. Ramrao Narayan Chachad, the Committee's Accountant and Cashier, who had also put in more than 29 years' hard service, retired from 8th February 1926 and the vacancy was filled up by the appointment of Mr. S. M. Palekar, B. Ag., G.D.A., a qualified applicant, from outside.

## II.—GENERAL PROGRESS.

7. The year under report was a year of all round progress on the one hand and all round economy on the other. It was also an important year as laying the actual foundation of the many innovations and novel activities foreshadowed in the report of the previous year. The subject of Free and Compulsory Education which forms the most prominent feature of the year has been dealt with in a separate chapter in the forthcoming pages. The following paragraphs briefly summarise the other principal features of the year.

8A.—The ground had been already prepared in the previous year for the introduction of the Boy Scouts System in the Bombay Municipal Schools on a large scale; 32 teachers had been trained as Scoutmasters and a total expense of Rs. 7,000 sanctioned for the year 1925-26. The year under report saw the actual starting of the Troops. Owing to the peculiar circumstances of each school and the children attending it, there was great difference of time in the starting of the troops. Some troops were started as early as in March 1925, while others took shape only in December 1925. Owing to the large extent of the scheme, it was thought necessary at the very beginning to have an independent Officer to look to Scout-work only and hence Mr. D. B. Gopalrao, B.A., was appointed from 11th November 1925, on Rs. 150 per mensem to supervise and guide the Scoutmasters in their work and to take all necessary steps for the proper management of the Troops.

B.—As the Municipal Scouts numbered sufficiently strong to form a Scout District by themselves, the Provincial Headquarters at the request and recommendation of the Schools Committee, issued a Warrant of District Commissionership from 1st September 1925 to Rao Bahadur A. K. Pai, B.A., J.P., a Member of the Schools Committee, who had already some years' previous experience of Scout matters. The Municipal Scouts were also registered by the Headquarters as an independent Local Association.

C.—The total number of Troops of Boy Scouts and Cubs as they stood on 31st March 1926, together with other statistics in regard to them, is given below :—

Schools.	Number of Scout Troops.	Number of Cub Packs.	Number of Mixed Troops.	Number of Scouts.	Number of Cubs.
Marathi.. .. .	3	8	5	225	357
Gujarati.. .. .	3	.....	3	80	36
Urdu .. .. .	7	2	1	207	68
Total .. .. .	13	10	9	512	461

It will be seen from the above table that at the end of the year there were 512 Scouts and 461 Cubs in 32 Troops and Packs, each under one Scoutmaster or Cub-master as the case may be.

D.—In spite of the fact that most of the Scout Troops were very recently formed, the Municipal Scouts have shown good work during the year. Not less than 14 Troops were out for camping at various places like the Borivli Caves, the Elephanta Caves, Bassein Fort and Lonavla. Some of the Troops had the privilege of presenting, under the command of Rao Bahadur Pai, the District Commissioner, a Guard-of-Honour to His Excellency Sir Leslie Wilson, once on the occasion of the opening ceremony of the King Edward VII Memorial Hospital and the Seth Goverdhan-las Sunderdas Medical College and again at the time of the opening of the Released Prisoners' Aid Society. A third occasion, on which the majority of our Scout Troops distinguished themselves, was the celebration of the Baby Week both at Parel and Girgaum. On all these occasions the work done by the Troops was much appreciated.

E.—Mention must also be made of the occasional valuable help and advice received from Prof. M. V. Vyankateshwaran, the Provincial Secretary, who took a keen interest in the development and growth of the Municipal Scouts and was also good enough on one occasion to give a general lecture on Scout Organisation to Municipal Scouters.

F.—The Committee are also preparing for introducing the Girl Guides Movement in their schools on a large scale. Six lady teachers from the Gujarati Schools and eight from the Marathi Schools were trained in the month of January under Miss Richards, the Provincial Trainer. It is intended to start in the near future about half a dozen Girl Guide Companies and Blue Bird Flocks. At present there are 8 companies with 197 guides in them.

9A.—In the previous year's report it was mentioned that the Committee had for the first time begun to give education in Tamil and had taken over two Tamil Schools, one a day school and the other a night school, at Dharavi. During the year under report two more Tamil day schools, one at Lower Parel and the other at Poibavdi, were added to the list, thus bringing the total number to 4. The pupils receiving education in these four schools at the end of the year numbered 351. With the introduction of Tamil in the Municipal Schools, Telegu the other South Indian language, spoken in Bombay, also came forward to claim its recognition and as a result of a request made in that behalf by the Telegu speaking community, arrangements for the teaching of Telegu have been sanctioned by the Committee.

B.—In July 1925 the Committee received from some Christian residents of the Byculla locality, a request for starting there, an English-teaching\* primary school for their children. The Committee after satisfying themselves that a real need for such a school did exist in the locality, started it from 1st March 1926. The school, which is the first of its kind under the Bombay Municipality, is named the Sankli Street English School and had 31 pupils on roll at the close of the year.

10. The six Free Reading Rooms and Libraries, which were opened by the Committee last year for the benefit of the public and which are located at Tardeo Bridge, Dadar Kumbharwada, Grant Road, Nalbazaar, Poibavdi and Parel, made fair progress during the year under review. The average daily number of visitors to these libraries was more than 130. Each of the Libraries has been supplied with about 1,000 Marathi, Gujarati and Urdu books and about 20 periodicals. The average number of books issued from each Library during the year reached above 1,000.

11. The Free Reading Room and Library for ladies was opened in the month of May 1925, in rooms adjoining the Gujarati Hindu Stree Mandal at Girgaum Back Road. During the year under report (i.e., from May 1925 to April 1926) the staff consisted of a Lady Librarian, a lady clerk and a peon. The working hours of the Library are 7-30 to 10 a.m. and 2 to 5-30 p.m. The Library contains 1,486 books of which 638 are Gujarati, 457 Marathi and 391 English, 29 Magazines (8 Gujarati, 7 Marathi, 6 English and 8 Urdu), 13 Weeklies (2 Gujarati, 5 Marathi, 3 English and 3 Urdu) and 8 Dailies (3 Gujarati, 3 English, 1 Marathi and 1 Urdu) are subscribed for. Daily visitors to the Library numbered 2,015 for the year; the number of books issued was 2,034; the number of ladies who issued books was 102. On an average from 20 to 25 ladies attended the Library to read books and papers (mostly Vernacular) and from 15 to 20 ladies issued books daily. The Osmania University Council showed their sympathy with the Ladies Library by placing it on the free list of the University for the supply of all its future publications and by supplying it with a full set of the publications already out. This kind gift of books was accompanied by a donation of Rs. 225 by Khan Saheb Alladin of Secundrabad for purchasing book cases. The Committee's best thanks are due to the University Council and also to Khan Saheb Alladin.

As a supplement to the ladies' library, a circulating library was started in the middle of March for the use of Mahommedan ladies, who owing to the purdah cannot take advantage of the ladies' library. Four boxes each stocked with 25 to 30 Urdu books have been provided for this circulating library. These boxes have been placed in charge of four respectable Muslim ladies at Madanpura, Telli Moholla, Phoolgally and J. J. Hospital, respectively, and a number of ladies took advantage of them. Mrs. Shuffi C. Tyabjee, J.P., Member of the Schools Committee, and Mr. Syed Munawar, B.A., of the Social Service League, rendered good help in this connection.

12. The Central Library and Museum, which is maintained in the Buddhivardhak Gujarati Boys' School premises for the use of teachers had in the year 458 visitors. The number of books and magazines issued for reading at home was 420. It is intended shortly to split up this library into three sections, Marathi, Guja-

\* An English teaching primary school means a school which teaches all subjects through the medium of English from the very first. In India such schools are generally maintained for communities which do not acknowledge any of the recognised Indian Vernaculars for their mother tongue and prefer to have their children taught in English from the first.

rati and Urdu, and to locate them in different places according to the convenience of the teachers on each side; it is hoped by this arrangement to attract a larger number of readers and to render the Library more useful.

13. Amongst the various innovations recently introduced, a prominent place might be assigned to Visual Instruction in which a beginning was made during the year. Cinema apparatus consisting of the Pathe Educational Model, combining a Cinema Projector and a Magic Lantern was purchased in May 1925 and Mr. A. A. Noorbhoy, B.A., Deputy Superintendent of the Urdu Schools, was entrusted, with the operation of the machine. From the Superintending Staff, Miss Dallas, Mrs. Kashalkar and Messrs. Noorbhoy and Ghanekar were specially trained for a week by the Pathes. In August three educational films were purchased and these in some sets of slides bearing on the same subject and lent by the Government Deputy Educational Inspector for Visual Instruction and by the Social Service League, were exhibited first to the teachers and a number of times to the school children in different localities. The total number of such exhibitions during the year came to 12. Much help was received in this connection from the Government Deputy Educational Inspector for Visual Instruction and the Social Service League, to both of whom the Committee's best thanks are due.

14. Another new feature of the year was the celebration in a number of schools of the "Educational Weeks". These Educational Weeks were celebrated generally after the stress of the annual examination was over. They vary in duration and are devoted to the exhibition of school-work, to lectures and concerts, and to the opening of all Educational institutions to visits by the public. The object of the Educational Weeks is to arouse public interest in primary schools by affording opportunity to the parents, guardians and other interested persons of familiarising themselves with the teaching, management and discipline of schools in the locality.

15. From the year 1915-16, there were in existence, what were called the Teachers' Training Classes. These classes were meant for coaching up unqualified teachers, especially in the art of teaching and were intended to supplement the Government Training Colleges. The teachers who attended these classes were required to appear at an examination, and if successful they were given a certificate called the Qualified Teachers' Certificate and were also given a special grade of pay. However as this certificate received no recognition whatsoever from Government and the net result was an award of a graded salary to a number of teachers, the majority of whom had studied only upto the Sixth or Seventh Vernacular Standard, the Training Classes were considered to be an unnecessary item of expenditure. They were all abolished. Owing to the paucity, however, of trained Urdu lady teachers, the Urdu Female Teachers' Training Class was retained and raised to the status of a 1st Year Training College and was named "The Municipal Urdu Training Institution for Women." It has now been recognised by Government. The course was revised and two classes were started; the first called the Preparatory Class which coaches up students for the Vernacular Final Examination and the second the 1st Year Training Class which prepares the pupils for the 1st Year Certificate Examination. At the end of the year, there were six pupils studying in the Preparatory Class, and twelve pupils studying in the 1st Year Class. All the 6 pupils in the Preparatory Class were sent up for the Urdu Vernacular Final Examination for girls this year and they were all successful.

16-A. One of the most noteworthy events of the year was the donation of an amount of one lakh of rupees received, for the purpose of establishing an Industrial School, from Sir Currimbhoy Ebrahim, Bart. The late Mr. Rahimtulla Currimboy, B.A., who was President of the Bombay Municipal Corporation in 1918-19, had by his Will set aside a sum of of Rs. 1,00,000 (Rupees one lakh), to be given to any educational body, as a donation to conduct in his name, a school giving Primary, Secondary and Industrial Education. Sir Currimbhoy Ebrahim, Chief Executor of the Will, offered the amount to the Corporation, and through them the Schools Committee were able to get it on certain conditions. The donation was received by the Schools Committee in February 1926 and steps are being taken to establish a school in the name of the late Mr. Rahimtulla Currimbhoy. The Schools Committee's best thanks are due to Sir Currimbhoy Ebrahim for his generous gift.

B.—The Committee took steps during the year under report to give what is called an "Industrial Bias" to primary education. The idea originated with the Fiscal Commission and was at the suggestion of Government taken up by the Committee seriously. The number of old Manual Training and Sloyd Classes was at once raised from 4 to 11 and placed under qualified teachers. A new prevocational curri-

culum which has been drawn up by the Schools Committee has been approved of by the Corporation and Government. The following schools have now been equipped with necessary tools and furniture for the introduction of the handicraft :—

1. The Umarkhadi Urdu Boys' School.
2. „ Khetwadi A. V. Marathi Boys' School.
3. „ Dongri A. V. Marathi Boys' School.
4. „ Madhavrao Rokde Marathi Boys' School.
5. „ Byculla Marathi Boys' School.
6. „ Foras Road Marathi Boys' School.
7. „ Chinchpugli Marathi Boys' School.
8. „ Bhuleshwar A. V. Gujarati Boys' School.
9. „ Madanpura Urdu Boys' School.
10. „ Lord Harris Marathi Boys' School.
11. „ Matunga Gujarati Boys' School.

Para. 2 of Government Resolution, Educational Department, No. 2377 of 4th January 1926, relating to this subject concludes as under :—

“As regards Bombay City the Millowners consulted do not consider that any action can be taken in the direction suggested by the Fiscal Commission and the Collector generally agrees with this view remarking *inter alia* that ‘until primary education is more diffused it appears to be extremely difficult to make much progress.’ On the other hand the Bombay Municipality propose to take action and make a beginning more or less on the lines of the proposals made by the Secretary, Schools Committee, in his memoranda, dated the 9th and 13th February 1925. In the opinion of Government the scheme proposed to be adopted by the Bombay Municipality, is one on the right lines, though perhaps some of the details may require further consideration. Government are accordingly pleased to accept the action proposed to be taken by the Bombay Municipality as likely to serve as a fair beginning in the direction suggested by the Fiscal Commission.”

C.—In February 1926, Mr. Haji Karim Baksh Banarsi, a merchant of the Madanpura locality, was good enough to present a few hand-loom to the Committee for teaching hand-weaving to the pupils. The Committee accepted his gift with thanks and the hand-loom are now being worked in the Madanpura Urdu Boys' and Girls' Schools; a part-time paid teacher has also been subsequently appointed to impart instruction in the subject.

D.—A new cookery class at the Matunga Gujarathi Girls' School was added to the already existing three cookery classes in (1) the S. S. Bengali Gujarati Girls' School, (2) the Kalbadevi Gujarati Girls' School, and (3) the Thakurwar Marathi Girls' School.

E.—The Committee decided in the year to develop three Boys' and three Girls' Schools one on each side, into model schools. Steps are being taken to give effect to the Committee's decision.

17. For a long time there were complaints from various quarters that some of the Special Teachers did not possess adequate qualifications and that some standard was necessary to be put down for recruiting new candidates. The Committee therefore took up the subject in right earnest and have now laid down the following as the necessary minimum qualifications to be required of the special teachers in the different subjects except in the cases of teachers who possess certificates which the Committee may consider adequate :—

Drawing Teachers :—Teachers' Certificate of the J. J. School of Art.

Drill Teachers :—Certificate of having completed the 1st, 2nd and 3rd Year Courses of Sir Dinshaw Manekji Petit Institute.

Sewing Teachers :—Certificate of the Seva Sadan Society.

English Lady Teachers :—Matriculation or School Final Examination *plus* the S. T. C. Certificate.

The teaching of Knitting has been altogether abolished. In the case of Music Teachers it was a difficult task to lay down the standard of qualification. There was also no definite curriculum for Music for being followed in the Schools. Both these difficulties however were got over with the kind help of Prof. V. N. Bhatkande, who, not only helped the Committee in laying

down a systematic curriculum in Music for their schools, but has also taken up, in an honorary capacity, the work of coaching our Music Teachers and making them more efficient. The Committee's best thanks are due to Prof. Bhatkhande for his help and co-operation.

### III.—FREE AND COMPULSORY EDUCATION.

18. The introduction of Free and Compulsory Education in the whole city of Bombay was a topic of general public interest for many years past and the first scheme for it was prepared in the year 1917-18. That scheme outlined a plan for a gradual increase in the number of schools for a period of ten years, the actual enforcement of the Free and Compulsory Education Act being left for the eleventh year. Under that scheme it was expected that the necessity for the enforcement of compulsion would be only nominal and that most of the pupils of school-going age would be voluntarily attending schools by the time compulsion would be introduced.

The beginning. /

19. Before the Schools Committee could give effect to the Scheme which was sanctioned by Government, the after effects of the recent war were felt. The rents became very exorbitant and the salaries of the teachers had to be increased to a large extent; it was therefore necessary to revise the Scheme in the light of the circumstances. This was pointed out to Government when they took objection to these revised figures. But they held that the Scheme submitted to them could not be revised and if the Committee did so, a fresh sanction would be required. The Corporation however held a different view and maintained that the Agreement of 1919 with Government did not specifically mention any estimates but agreed to give 50 per cent. of the expenditure on Primary Education.

Difficulties in the fructification of the original scheme.

20. The Corporation, however, was persistent and decided to make a beginning at once, although they resolved that in order to minimise the difficulty about expenditure, only the two most backward Wards, viz., the F & G Wards, should be first chosen for the enforcement of compulsion. A new scheme was accordingly drafted which was approved of by Government. As regards the question of the proportion of cost to be borne by Government the Corporation have passed a Resolution to institute legal proceedings to enforce the Corporation's claim under the agreement of 1919.

The difficulties got over.

21. The necessary Government sanction for the introduction of Free and Compulsory Education, having been obtained, the Committee set about to make the preliminary arrangements. Instead of appointing a separate officer for the supervision of the Preliminary Census Work, they placed the Superintendent of Aided Schools and his Assistant in charge of the Census Operations and were thereby able to effect an approximate saving of Rs. 6,000. The Superintendent of Aided Schools was thus also designated Special Attendance Officer and under him was given a staff of one Junior Census Officer with six clerks and a number of enumerators for taking the Census.

The preliminary arrangement.

22. The above arrangements came into force from May 1925. The F and G Wards cover an area of 13.2 square miles out of the total area of 24 square miles covered by the Town and Island of Bombay. Throughout this whole area the staff had to go from house to house, nay, from room to room and to register the names and other requisite information about the children. By dint of hard work, the staff was able to complete the work and to print and publish Census Registers on the 2nd September 1925. The date of commencement was notified to the public. New schools were opened where necessary and the fees were abolished so far as the F & G Wards were concerned. On 2nd November 1925, Free and Compulsory Education came into being and the foundation of a new era in the Educational history of Bombay was laid.

The Census Work.

23. Before the introduction of compulsion, the total number of pupils (of compulsory age) attending the Municipal and Aided Schools in the F & G Wards was 5,663. The results of the preliminary census revealed that the total number of children, that could be brought under compulsion, in that area, was 17,613. The census thus proved that the total number of children attending schools was only 32 per cent. of the number of children who were of school-going age in that area. Had it not been for the timely introduction of Free and Compulsory Education, considerable time would have elapsed before the remaining 68 per cent. would have received Primary Education.

Statistics re: Pupils.

24. When the year closed it was only five months since compulsion was introduced and the staff was able to bring to schools a total number of more than five-thousand pupils so that out of the total number of 17,613 children of school going age, 12,001 were attending schools at the end of the years, as against 5,663 that were attending before compulsion. It is hoped that the next year will see the completion of the work thus successfully begun.

25. Most of the population in the F and G Wards being Marathi speaking, by far the largest number of pupils to be provided for was on the Marathi side and so the number of new Marathi schools opened was naturally very great. The number of new schools opened before the end of the year in the F and G Wards was as follows :—

Marathi.	Gujarati.	Tamil.	Urdu.	Total.
35	3	2	2	42

Most of these schools are mixed schools, i.e., attended by both boys and girls. As the number of girls in each school increases, arrangements will be made to start a separate girls' school for that particular area.

26. It is very difficult to estimate exactly the extra expenditure that the Schools Committee had to incur on account of Free and Compulsory Education. Owing to a policy of watchful restraint on every item of expenditure, large savings were effected in all directions in the year under report; so the mere comparison of the figures of expenditure for the year under report and those for the previous year will not give a correct idea of the additional expenditure incurred for compulsion. Besides, a large number of the new pupils brought to school, was absorbed by the already-existing schools and the extra expenditure incurred on their account cannot with any accuracy be calculated. However, the following figures will throw much light on the economic method by which the whole scheme was carried out :—

Item.	Expenditure for 1924-25.	Expenditure for 1925-26.	Excess for 1925-26.
	Rs.	Rs.	Rs.
(i) Salaries of Teachers and Servants .. .. .	16,08,063	16,08,746	683
(ii) Rent .. .. .	4,08,386	4,67,961	59,575
(iii) Miscellaneous .. .. .	1,78,789	2,58,940	80,151
(iv) Census Establishment .. .. .	.. .. .	21,837	21,837
(v) Grants-in-Aid to Private Schools .. .. .	1,51,112	1,86,616	35,504
Total .. .. .	23,46,350	25,44,100	1,97,750

From an inspection of the above figures it will be seen that the expenditure for the year 1925-26 exceeded that for the year 1924-25 by an amount which was less than two lacs of rupees. Even these two lacs cannot be set down as the price of compulsion, for they include large amounts on the items (i) Increase of rents due to the partial abolition of the Rent Act, (ii) increase of Miscellaneous Expenditure due to the various innovations mentioned in the foregoing pages in chapter II and (iii) increase of Grants-in-Aid due to a more liberal scale of assessment. Of these two lacs therefore only one lac can be reasonably put down to the account of Free and Compulsory Education. To this must be added the expenditure that was incurred on the salaries of the staff employed in the new schools opened in the compulsory area, which was probably somewhere near fifty thousand rupees. It can thus be said, although as remarked at the beginning of the paragraph the exact figure cannot be made available, that the actual cost of compulsion for five months has been somewhere near Rs. 1,50,000, while the estimate submitted in the scheme proposed in 1923 had put it down as nine lacs of rupees for one year.

SERVANTS OF INDIA SOCIETY'S  
 BRANCH LIBRARY  
 BOMBAY

SCALE 2400 FT. TO AN INCH

27. The public would like to know when the scheme of compulsion will be introduced in the whole of the City. Even in the F. and G. Wards the Mahommedan girls have been still exempted from the operation of the Act and in the remaining Wards there is no compulsion at all. However, it appears that it will not be long before these too are brought under the Act. The Corporation have already under their consideration a scheme for the remaining Wards, recently submitted by the Committee, and correspondence with Government is going on in the matter of bringing the Mahommedan girls of the F. and G Wards under the operation of the Act; the Corporation have decided that compulsion for Mahommedan girls should be upto ten years of age.

#### IV.—FINANCE.

28. The year 1925-26 was a very busy year, full of many innovations and new activities, the more important of which have been mentioned in Chapters II and III. One would naturally conclude that large amounts must have been spent having regard to these and to the introduction of Free and Compulsory Education. But the Committee having adopted a policy of retrenchment keeping at the same time in view the question of efficiency, the increase in the expenditure was only Rs. 1,97,750 as shown in paragraph 26.

29. The Committee's main efforts during the year were directed towards looking out for all sources of curtailment of unnecessary expenditure. From the comparative table given in paragraph 26 above, it will be seen that there was little or no excess expenditure incurred during the year on the head of "salaries of teachers and servants." This was due to the following measures :—

- (i) The abolition of poorly attended schools.
- (ii) The amalgamation of schools situated in close proximity to each other.
- (iii) The laying down of new fixed rules for governing the proportion between pupils and teachers and directing the excess staff to the schools newly opened in the F. and G Wards.

The figures of Income and Expenditure in Appendix A, when compared with the figures in the previous year's report, will show that there has been a reduction of nearly seven thousand rupees in the expenditure on the item of "Furniture." This was due to two reasons; early in the year the Committee started a workshop on a small scale in the compound of the Lord Harris School Building and gave orders that all broken furniture should be brought there and repaired if possible, they also laid down certain rules regarding the items of furniture to be kept in each school and directed that all surplus furniture should be immediately removed to the central workshop, whence it might be supplied where necessary. These two steps had the desired effect and resulted in a saving of about seven thousand rupees as mentioned above.

30A. Under the Free and Compulsory Education Act it is necessary to make education free as soon as compulsion is introduced. Accordingly the Committee had to make all primary schools free within the limits of the F and G Wards from the 1st November 1925. As a preliminary step for the introduction of compulsion in the other Wards, the Committee have also resolved to stop taking fees in all the remaining primary schools from 1st April 1926. This has been the cause of a reduction of about Rs. 10,000 in the item of fees from schools, on the Income Side, this year and will lead to the dropping of that item altogether from next year.

B. The abolition of fees necessitated also the abolition of water fees. Formerly it was the custom in certain schools to collect monthly from the pupils a fee from one anna to two annas per head for defraying the expenses required for providing the pupils with water. The Committee stopped the collection of this amount from the 1st of February 1926 and sanctioned an adequate grant to each school for water expenses. This arrangement is calculated to add to the expenses by a large amount from the next year.

C. From this year it was decided to supply printed copies of the Committee's proceedings to Members of the Corporation, instead of sending excerpts to the Corporation as heretofore. This has also put the Committee to an expense of nearly four to five thousand rupees.

31. The Government Grant for Primary Education received by the Municipality in any particular year is generally received on the expenditure of the previous year. The grant received during the year 1925-26 was therefore the grant assessed on the expenditure for the year 1924-25. It came to Rs. 5,08,333. In addition to this grant the Government gave an extra grant of Rs. 77,705 on the additional expenditure incurred for compulsory education during the year 1925-26.

Government Grant.

32. A number of donations were received by the Schools Committee during the year. Mention has already been made of the Rahimtulla Currimbhoy Donation in para 16 B. A list of the other prominent donors and the particulars about the amounts of the donations are given below :—

Donations.

Name of the donor.	Amount of the Donation.	The way in which the donation is to be utilised or was utilised.
	Rs. as. p.	
Seth Dwarkadas Tribhowandas ..	2,500 0 0 (Govt. Pro. Notes.) 150 0 0 Cheque.	Interest to be spent in distributing prizes in the Walkeshwar group of schools. Spent for the first prize ceremony.
Do. do. ..	2,500 0 0 (Municipal Debentures). 150 0 0 Cheque.	Interest to be spent in distributing Lahani to girls in the two Gujarathi Girls' Schools at Bhulchwar. Spent for the first Lahani distribution ceremony.
The late Mr. Ruttonsi Mulji ..	10,000 0 0 (Port Trust Bonds) 1,000 0 0 (Port Trust Bonds.)	Interest to be spent in scholarships for the Walkeshwar Gujarathi Boys' School now named as the Ruttonsi Mulji School. Interest to be spent in giving prizes in the same school but in the name of Bai Manekbai Ruttonsi Mulji.
Late pupils and sympathisers of the S. S. Bengalee Gujarathi Girls' Schools ..	3,350 11 0 (Cash.)	Interest to be spent in giving a scholarship and prizes and medals, etc., in the S. S. Bengali Gujarathi Girls' School.
Bai Khorshedbanu Bengalee and Mr. N. S. Bengalee. ..	2,100 0 0 (Port Trust Bonds of the face value of Rs. 2,000 and a cheque for Rs. 100).	Interest on the bonds with the amount of the cheque to be utilised in starting and maintaining a cooking class at the S. S. Bengali Gujarathi Girls' School.
Mr. K. G. Parekh ..	250 0 0 (Cheque.)	Spent for furniture and books for the Ladies' Library at Girgaum.

33. In considering the average expenditure per pupil, so far as the Municipal Schools only are concerned, only such of the expenditure as can be said to have been incurred directly or indirectly on the Municipal Schools should be taken into consideration. We have thus to leave out of consideration those amounts (*vide* Appendix A) which were spent in Grant-in-Aid, and Public Libraries; subtracting these from the total expenditure for the year we get Rs. 23,35,131 as the total expenditure on the Municipal Schools for the year. Dividing this amount by the total average number of pupils which was 40,496 the expenditure per pupil for the whole year comes to Rs. 57-7.

34. The opening and closing balances for the year were respectively Rs. 2,04,859-12-9 and Rs. 3,72,703-7-4. The total expenditure for the year was Rs. 25,44,099-2-2 and the total receipts were Rs. 27,11,943-12-9, out of which the Municipal Grant alone amounted to Rs. 26,56,500-0-0. The details of income and expenditure are given in Appendix A. For the sake of comparison the following figures for the year 1924-25 are reproduced from the previous year's report :—

Opening Balance.	Closing Balance.	Total Expenditure.	Total Receipts.	Municipal Grant.
Rs. as. p. 19,956 13 6	Rs. as. p. 2,04,858 12 9	Rs. as. p. 23,46,350 4 11	Rs. as. p. 25,31,252 4 2	Rs. as. p. 24,26,090 0 0

There is one item which will not be found in Appendix A, *viz.*, the expenditure on the Schools Committee's Head Office. This expenditure is not included in the Statements because it is debited to the General Municipal Fund directly and not to the School Fund. However for the sake of information, it may be stated here that the expenditure on this item came to Rs. 42,566-7-2 for the year under report.

35. One cannot conclude this Chapter without putting on record the result of the watchful economy, accompanied by general progress all round, exercised by the Schools Committee, during the year under report, the result of which has been a net saving of Rs. 3,72,703-7-4, which one should be glad to note is a satisfactory feature of the Administration.

Conclusion.

V—Municipal and Aided Schools and Pupils.

36. A large number of schools were either closed or amalgamated with others, and many of the schools were shifted from one place to another, for various reasons. Some schools were very poorly attended and the Committee, thinking it a waste of money to maintain them, either closed them or amalgamated them with others in the vicinity. There were again the landlords, who on account of the abolition of the Rent Act, so far as it was applicable to "Business Premises" thinking that their premises would fetch more rent, asked for the vacation of the premises or payment of more rent. In some cases the Committee had to yield for want of suitable accommodation in the vicinity, whilst in other they were able to secure new premises even better than the former ones and for lower rent. The change of premises led to a change of locality and also to a change in the name of the school itself. Consequently the school list has undergone a large number of changes, too numerous to be given here. It needs also to be mentioned here that the term Nirashrit Schools which was used for a number of schools, mostly attended by Depressed Class pupils was abolished this year. The number of schools and schools closed, etc., can be seen from the following table:—

Class of Schools.	Total Number of Schools on 31-3-1925.	Number of Schools closed during the year 1925-1926.	Number of Schools amalgamated with others during the year 1925-26.	Number of Schools newly opened during the year 1925-26.	Total Number of Schools at the end of the year 1925-26.

37. Owing to the introduction of Free and Compulsory Education in the F & G Wards there was a large increase in the number of pupils during the latter part of the year; however, as has been previously remarked elsewhere, the increase is mainly in the number of Marathi-speaking boys and the increase in the number of other pupils is not very striking. The comparative figures for the year under report and the previous year are given below:—

Class of schools.	Number of (on 31st March 1926.)		Number of (on 31st March 1925.)	
	Schools.	Pupils.	Schools.	Pupils.
Marathi Middle Schools .. .. .	3	226	3	166

Marathi Night Schools .. .. .	10	411	21	628
Total Marathi Schools .. .. .	167	26,097	150	20,570

Class of schools.	Number of (on 31st March 1926.)		Number of (on 31st March 1925).	
	Schools.	Pupils.	Schools.	Pupils.
Gujarathi Middle Schools .. .. .	2	135	2	93
Gujarathi Boys' Schools.. .. .	41	5,071	41	4,896
Gujarathi Girls' Schools.. .. .	28	3,437	29	3,175
Gujarathi Night Schools.. .. .	1	14	2	62
<b>Total Gujarathi Schools ..</b>	<b>72</b>	<b>8,657</b>	<b>74</b>	<b>8,226</b>
Urdu Boys' Schools .. .. .	55	4,884	57	5,186
Urdu Girls' Schools .. .. .	34	2,739	34	3,175
Urdu Night Schools .. .. .	11	335	20	563
<b>Total Urdu Schools.. ..</b>	<b>100</b>	<b>7,958</b>	<b>111</b>	<b>8,924</b>
Tamil Boys' Schools .. .. .	3	219	1	55
Tamil Night Schools .. .. .	1	132	1	41
<b>Total Tamil Schools .. ..</b>	<b>4</b>	<b>351</b>	<b>2</b>	<b>96</b>
<b>Total Municipal Schools ..</b>	<b>343</b>	<b>43,063</b>	<b>337</b>	<b>37,816</b>

One is at first surprised to note the decrease of the number of pupils in Urdu Schools from the above table whilst there is an increase of 6,000 in Marathi Schools. But when one studies the figures closely one finds that the increase of pupils in Marathi Schools is entirely due to the introduction of Free and Compulsory Education because the depressed classes pupils alone show an increase from 900 to 2,500. The main reason why there is a decrease is due to the fact that the Committee discovered that the attendance on the rolls maintained by the different Head Masters was more or less artificial and they have been now revised which has amounted to a considerable decrease. The second point is the closing of the Schools which had not sufficient pupils to maintain them and naturally those boys have joined the other schools, viz., the aided or those conducted by the private Associations. The third reason was due to the recent introduction of amalgamation of schools. The Mohamedan residents being to a large extent illiterate do not yet appreciate the benefit of education and are very reluctant to send their boys and girls to schools unless they are in the vicinities. All these facts combined together have led to a decrease in the number of pupils.

38A. The two principal examinations which mark the close of the Lower Primary Course and the Upper Primary Course respectively are the IV Standard Examination and the Vernacular Final Examination. The IV Standard Examination was conducted by the Schools Committee's Superintending Staff while the V. F. Examination was conducted by the Government Officers. The results are given below in a tabulated form:—

	Marathi Schools.				Gujarathi Schools.				Urdu School.			
	Pupils appeared.		Pupils passed.		Pupils appeared.		Pupils passed.		Pupils appeared.		Pupils passed.	
	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.
Vernacular IVth Standard Examination .. .. .	1,342	391	1,124	210	608	..	534	..	184	51	163	23
Vernacular Final .. .. .	43	15	35	8	..	3	..	3	14	6	10	6

The above results are on the whole satisfactory and need no further remarks.

B. Syllabus—Two new subjects, *viz.*, History and Handicraft, were added to the old curriculum from this year. Syllabus in Music, Physical exercises and Handicraft were got ready and approved by the Committee. The syllabus in other subjects is also under consideration.

39. No new Municipal owned school building was added to the already existing 14 ones. The number of schools accommodated in these buildings is 24 Day Schools and 4 Night Schools. The high cost of building has been for many years a great obstruction in the way of erecting new buildings. The Corporation is however contemplating a progressive scheme for having Municipal owned school buildings erected and negotiations with Government for a promise to give adequate Building-grant will be shortly taken in hand.

40. As regards the Aided Schools we find that though the number of schools have decreased from 155 to 148 there is a fairly good increase in the number of pupils from 15,555 to 16,243 and so the decrease in the number of schools is not much to be deplored. The decrease is mainly due to the tendency on the part of the persons conducting these schools to hand them over to the Municipality owing to their not being able to make both ends meet as the Schools Committee are not in a position to give them more than 1/3rd of their admissible expenditure, as Grant-in-Aid. The decrease of 7 in the number of schools was the result of the abolition of 2 schools from the Grants-in-Aid Register, the closing of 9 schools, the amalgamation of 1 school with another and the registration of 5 new schools for Grants-in-Aid. The figures of schools and pupils for the year under report and the previous year are given in the following table:

Class of schools.	Number of (on 31st March 1925).		Number of (on 31st March 1926).	
	Schools.	Pupils.	Schools.	Pupils.
Marathi Boys' Schools .. .. .	44	4,142	48	3,945

Hindi Boys' School .. .. .	1	159	1	126
<b>Total Aided Schools .. .. .</b>	<b>148</b>	<b>16,243</b>	<b>155</b>	<b>15,555</b>

41. As will be seen from Appendix A, the total amount paid to private Aided Schools as Grants-in-Aid, reached Rs. 1,86,615. With a view to encourage the Amounts of Grants-in-Aid. Aided Schools to raise the standard of efficiency, the Committee have been of late assessing the grants in as liberal a way as is possible within the limits prescribed by the Grants-in-Aid Code. This was not found sufficient to

establish the Aided Schools on a permanent basis. The Corporation have therefore passed a scheme which would enable the Schools Committee to give grants upto 50 per cent. of the expenditure to these Schools. It is a matter of regret that Government have not so far accorded their sanction to the scheme. Recently the Committee have also sanctioned an arrangement whereby needy schools will be paid grants by two half-yearly instalments from next year.

42. The Schools Committee made education free from the date of introduction of Free and Compulsory Education; three of the Aided Schools also followed the Schools Committee's example. Out of 26 Aided Schools in the F and G Wards, 15 schools were giving free education already; of the remaining 11 schools, three have made it free now and it is expected that other eight will also soon follow suit. In order that the three schools, where fees were discontinued, may not suffer in their income, the Schools Committee gave them an amount called "Remission of Fees" adequate to recompense them for the loss of fees. This amount came to Rs. 447 and is included in the total figure of Grants-in-Aid, stated in the last para.

#### VI.—MEDICAL INSPECTION OF SCHOOLS.

43. The two Medical Inspectors and the Medical Inspectress with their assistants visited during the year 164 boys' schools and 76 girls' schools, the total number of pupils examined in those schools being 22,165, out of which 15,635 were boys and 6,530 were girls. Of the 15,635 boys, 10,450 were examined for the first time and 5,185 were cases of re-examination, having been noted down for some physical ailment in the previous year. So also the 6,530 girls, 4,187 were cases of first examination and 2,343 of re-examination.

44. The results of the examination of pupils for the first time showed that on an average 30.5 per cent. of the girls and 39.5 per cent. of the boys were quite healthy and the remaining were affected with some sort of disease or another. The following table gives the percentages of pupils affected with diseases:—

Names of diseases.	Percentage of Boys.	Percentage of Girls.
1. Malnutrition .. .. .	29	34
2. Diseases of the Teeth .. .. .	29	30
3. Do. do. Throat .. .. .	9	13
4. Do. do. Nose .. .. .	5	7
5. Do. do. Eye .. .. .	12	16
6. Defective Vision .. .. .	3	7
7. Lymphatic glands .. .. .	6	1
8. Diseases of the Heart and Anæmia .. .. .	1	01
9. Do. do. Lungs .. .. .	6	10
10. Do. do. Skin .. .. .	3	39
11. Spleen (enlarged) .. .. .	7	13
12. Rickets .. .. .	1	3
13. Tuberculosis (suspected) .. .. .	1	8
14. Deformities .. .. .	5	5
15. Diseases of the Ear .. .. .	1	1

45. The number of pupils re-weighed and re-examined during the year was 7,528. There were four different classes in these, some of the pupils had completely got rid of the disease for which they had been noted down last year, others had made a good improvement but were not completely free from the disease, there was a third class of those who had made no improvement; and the fourth and last class was of those who had not only not improved but had contracted some quite new disease. The statistics were as follows:—

	Boys.	Girls.
Number of pupils examined .. .. .	1,185	2,343
Number of pupils found to be quite healthy .. .. .	28%	22%
Number of pupils improved .. .. .	21%	20%
Number of pupils not improved .. .. .	35%	39%
Number of pupils affected with other ailment .. .. .	17%	20%

46. An attempt was made during the year to distribute medicines free to needy defective children mostly belonging to the backward classes. The Health Officer was kind enough to supply the Committee's Medical Inspectors with the necessary stock of medicines free of cost. The result of the small experiment thus begun is quite hopeful. Of the 184 children who were supplied with medicines 70 were completely cured and 48 were found improving. The Committee also supplied 45 poor and deserving pupils with spectacles, free of charge.

47. With a view to ensure sanitation in the school premises the Medical Inspectors were this year also required to bring to the notice of the Secretary and the Officers of the Health Department any serious defects they came across in point of sanitation of the schools they visited. However, most of the school buildings being hired buildings, the Committee's efforts in this direction are sometimes likely to give practically no beneficial effect owing to slackness on the part of landlords to improve the sanitation of their premises in spite of repeated letters to them. Where possible many sanitary premises were secured during the year under report.

The Medical Inspectress and the two Medical Inspectors with their Assistants visited 286 schools during the year and at the end of the year submitted their detailed reports on the premises of each and every school visited. The premises of 68 schools were found to be unsatisfactory and their cases were reported by the Committee to the Corporation and also to the Municipal Executive Engineer and the Health Officer, for such action as might be within their powers. It must however be mentioned, that it will not be possible to approach a quite satisfactory condition in respect of school premises unless and until the Municipality have their own buildings built for school purposes. Generally, all buildings are built in Bombay primarily for residential purposes and they cannot be expected to satisfy the requirements of a school. The difficulties in the way are many and they can be imagined from the fact that in certain areas, where on account of the compulsory education scheme, the Committee had to provide for a number of children but could not find any premises except indifferently erected huts. The Committee, it must be mentioned, loses no opportunity to give up a bad building and hire a new one. The fact that since the beginning of the year there has been a Special Sub-Committee for this purpose, which is always busy visiting new premises, is sufficient proof that the Committee are taking all possible care in the matter.

The Committee have read a good deal of criticism in the press and outside and have also heard from many Members of the Corporation about the insanitary premises of the schools. They therefore take this opportunity of placing their views at some length in order that the public may be satisfied that the Committee is doing its utmost to get rid of insanitary premises. It is very easy to criticise but it is very difficult to find solutions of the various difficulties, some of them quite insurmountable, that confront the Committee. There is no doubt that every body would like to have ideal buildings with large compounds for schools and if wishes alone could fetch these things the matter could be quite satisfactory. But unfortunately it is not so and therefore one has got to be content with whatever he has in his power to minimise the conditions, unfortunately prevailing in the City. Much of the criticism which is levelled against the Committee is misdirected in view of the fact that the Committee is not directly responsible for the health of the city. The real solution will be found when the Corporation have their own buildings. But unfortunately Government do not see their way to give half the grant towards this expenditure and therefore the Committee have to slacken their work in this direction very considerably.

There is a pertinent paragraph on "Schools and Housing" in the Education Outlook of May 1926, which reads as follows:—

"Not long ago a teacher in a London Elementary School told to his pupils the story of Alladin's Lamp. Later he asked them to write a composition exercise on the theme :

"If you had Alladin's lamp and rubbed it, what would you wish for?"

Among the essays received were a score in which the writers said they would wish for a nice dinner, and some half-dozen said that they would ask for a comfortable bed. Needless to say, the school in a crowded district with many slum tenements, but these answers shed a painful light on the conditions which surround the lives of the children. For the more fortunate of our young citizens, satisfying dinners and comfortable sleeping quarters are taken for granted, but many elementary school teachers know only too well that their pupils are not fortunate enough in these normal requirements of healthy childhood. Hence the National Union of Teachers did well to pass a Resolution calling attention to existing housing conditions. Critics of elementary education should always take into their reckoning the every-day home-

surroundings of the children. It is folly to suppose that a few hours in school can make good the handicap of an overcrowded and insanitary home.

48. As usual each of the Medical Inspectors gave twelve lectures on the different aspects of hygiene, such as personal cleanliness, dental hygiene, and hygiene of the home. Some of these lectures were also supplemented by magic lantern demonstrations. The attendance at these lectures, of the guardians as well as of the pupils and teachers, was more satisfactory than in previous years.

49. Dr. Khambatta, the Dental Surgeon, visited 16 schools and treated 530 cases of bad teeth, 399 of them being boys and 131 girls. These children had to undergo a total number of 2,664 operations out of which 507 were fillings of teeth, 1,075 extractions and 1,082 general treatments.

#### VII—THE STAFF.

50. The retirements of the Chief Clerk and the Accountant and Cashier and the arrangements consequent on them have been previously noted in para. 6. Owing to the abnormal increase of work in the Office there was an addition of 6 clerks and 2 peons to the Office Staff.

51. The Superintending Staff was strengthened by the addition of 3 posts, one that of the Junior Census Officer and two those of the Educational Supervisors, all in the grade of Rs. 130-10-180. Mr. V. M. Rane, B.A., was appointed to the post of the Junior Census Officer and Messrs. V. E. Desai and S. B. Pendurkar, two senior Headmasters from the Marathi Side, were given their posts of Educational Supervisors. Messrs. B. K. Ghanekar, B.A., L.T. and A. Noorbhoy, B.A., respectively Headmasters of the Marathi and Urdu Teachers' Training Classes, were appointed to the vacant posts of the Deputy Superintendents on the Marathi and Urdu Sides (*vide* last year's report). Miss Shahar Bano, who was appointed Asstt. Lady Superintendent of the Municipal Urdu Schools last year, resigned her post from 18th November 1925. Applications have been invited for the post thus fallen vacant and a new person will be shortly appointed to it. The clerical work of the Superintendent's Offices, especially on the Marathi Side, increased heavily and that Office had therefore to be strengthened by the appointment of two additional clerks. The creation of the Census Office and its staff has been mentioned already in Chapter III. The Medical Inspection Staff continued without any change.

52. The following table gives the number of visits paid by the Superintendents and their Inspection and Supervision Staff to the Schools respectively under their charge :—

Name of Officer.	Designation.	Number of Visits paid.	Remarks.
1. Mr. K. B. Padgaokar, B.A. . . . .	Supdt., Marathi Boys' Schools . . . . .	204	
2. Mr. N. G. Limaye, B.A., L.T. . . . .	Asstt. Supdt., Marathi Boys' Schools . . . . .	296	On leave for 2 months and 7 days.
3. Mr. D. K. Ghanekar, B.A., L.T. . . . .	Dy. Supdt., Marathi Boys' Schools . . . . .	265	On leave for 1 month and 20 days.
4. Mr. V. A. Desai . . . . .	Educational Supervisor, Marathi Boy's Schools.	537	
5. Mr. S. B. Pendurkar . . . . .	Do. do. do.	375	
1. Mrs. Shantabai Kashalkar, B.A. . . . .	Asstt. Lady Supdt., Marathi Girls' Schools.	165	On leave for 6 months.
1. Mr. H. G. Anjaria, M.A., LL.B. . . . .	Supdt., Gujarati Boys' Schools . . . . .	284	
1. Miss S. Dallas, M.A. . . . .	Asstt. Lady Superintendent, Gujarathi Schools.	294	
1. Mr. A. R. Bhajji, B.A. . . . .	Supdt., Municipal Urdu Boys' Schools . . . . .	262	
2. Mr. A. A. Noorbhoy, B.A. . . . .	Deputy Supdt., Municipal Urdu Boys' Schools.	368	On leave for 1 month and 4 days.
1. Miss Shahar Bano . . . . .	Asstt. Lady Supdt., Municipal Urdu Schools.	245	On leave for 1 month and 8 days. Resigned from 18th November 1925.
1. Mr. B. R. Manerikar, B.A. . . . .	Superintendent, Municipal Aided Schools.	135	On leave for 2 months and 28 days.
2. Mr. C. L. Bakshi, B.A., L.T. . . . .	Asstt. Superintendent, Municipal Aided Schools.	166	

Provision for the inspection of Tamil Schools was made by asking Mr. D. B. Gopalrao B.A., the Scout Organiser, who knows Tamil, Telegu and Canerese also, to look to the work.

53. The total number of ordinary teachers rose from 1,702 to 1,723 during the year. The increase is almost negligible, when compared with the large increase in the number of pupils. At the end of the year there were on roll 43,063 pupils. The following table gives the number of the teachers :—

The Teachers.

Number of Teachers on 31st March 1926.

	Trained.			Untrained.			Total.		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.
Marathi .. ..	347	176	523	344	83	427	691	259	950

The above tables will amply testify to the high percentage of trained teachers in the Municipal Schools except, of course, on the Urdu Girls' Side. The number of Special Teachers and their classification is given in the following table :—

Subject.	Marathi Schools.		Gujarati Schools.		Urdu Schools.		Total.	
	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.
Drawing .. .. .	7	5	6	1	5	..	18	6
Drill.. .. .	11	1	7	3	5	..	23	4
Music .. .. .	11	2	7	..	..	..	18	2
Sewing and Knitting .. .. .	..	19	..	8	1	9	1	36
English .. .. .	..	13	2	6	..	..	2	19
Koran Teaching .. .. .	..	..	..	2	4	..	4	2
Hindi .. .. .	1	(He teaches in Gujarati Schools also.)			..	..	1	..
Charkha .. .. .	..	1	..	1	..	..	..	2
Manual Training .. .. .	..	..	1	..	1	..	2	..
Weaving .. .. .	..	..	..	..	1	..	1	..
Montessori .. .. .	..	..	..	1	..	..	..	1
<b>Total ..</b>	<b>30</b>	<b>41</b>	<b>23</b>	<b>22</b>	<b>17</b>	<b>9</b>	<b>70</b>	<b>72</b>

54. The total number of the menial staff employed in the schools consisting of peons, hamals and call boys, etc., was 252 on 31st March 1926.

55. The total staff under the Schools Committee on 31st March 1926 was therefore as follows :—

					Number of Persons.
The Secretary .. .. .	..	..	..	..	1
The Superintending Staff .. .. .	..	..	..	..	14
The Medical Inspection Staff .. .. .	..	..	..	..	7
The Staff in the various Offices. } Clerical.. .. .	..	..	..	..	42
.. .. .. } Menial .. .. .	..	..	..	..	30
The Staff in the Schools. { Teachers. } Ordinary .. .. .	..	..	..	..	1,723
.. .. .. } Special .. .. .	..	..	..	..	142
.. .. .. } Menials .. .. .	..	..	..	..	252
<b>Grand Total ..</b>	<b>..</b>	<b>..</b>	<b>..</b>	<b>..</b>	<b>2,211</b>

56. Thirty-three teachers retired during the year. Most of them had put in a long and faithful service and had risen to be heads of schools. There were 26 cases of death and they were due mostly to fevers, pneumonia and chest diseases.

57. Lastly it would not be out of place to mention the valuable work done by the Committee's Office Staff, the Superintending and the Medical Inspection staff and the teachers. The Committee appreciate very much the co-operation of the Executive in matters of Administration which were brought before them from time to time.

THE SCHOOLS COMMITTEE'S OFFICE,  
BOMBAY, 7th August 1926.

M. I. FAROOQUI,  
Secretary, Schools Committee.

M. I. FAROOQUI,  
Secretary, Schools Committee, Bombay.

MUNICIPAL OFFICES,  
BOMBAY, 26th June 1926.

From

THE MUNICIPAL AUDITORS,  
BOMBAY.

To

THE MUNICIPAL SECRETARY,  
BOMBAY.

SIR,

In accordance with Section 137 of the Municipal Act, and orders of the Town Council No. 1455, dated 6th October 1879, we have the honour to forward herewith six appendices marked A, B, C, D, E, F, containing the result of the scrutiny of the outstanding bills of rates and taxes which were in the hands of the ward clerks and in the office of the Assessor and Collector on the 31st March 1926.

2. From appendix C attached, it will be seen that the outstandings under ordinary property taxes on 31st March 1926 amounted to Rs. 13,03,718-2-0 against Rs. 15,04,985-4-5 on the same date last year, showing a decrease of Rs. 2,01,267-2-9. The total number of bills outstanding was 9,278 on 31st March 1926 against 10,661 on 31st March of the previous year.

3. Appendices D & E show the number and amount of bills outstanding on 31st March 1926 on account of additional general tax Nos. 2 and 3. Appendix F gives the number and amount of bills outstanding on account of street number plates.

4. These appendices form part of the annual report on the Municipal accounts for the year 1925-26 now under preparation.

5. We beg to add that some of the bills included in the appendices were certified by the Assessment Department to have been paid on and after 1st April 1926 and were therefore not placed before us for scrutiny. Some bills though not paid were not shown to us and on enquiry we were given to understand that the parties concerned had kept them with them. In this connection we beg to state that this procedure of parting with the bills before they are paid is seriously objectionable and will some day lead to the commission of fraud by the ward clerk. We would therefore suggest that an office order should be laid down that in no case any bill should be handed over to the party before the amount is already received by the ward clerk.

6. In the case of additional general tax we beg to observe that though these taxes are recovered by us on behalf of Government the charges for stationery and printing of the bills and the stamp charges on the bills above Rs. 20 are borne by the Municipality. We are, however of opinion, that these charges which are pretty large should be recovered from Government.

We have the honour to be,

Sir,

Your most obedient servants,

H. S. KATRAK,

T. M. BHUKHANWALA,

*Municipal Auditors.*

No. of 192 -192 .

BOMBAY, 1st September 1926.

FROM

THE MUNICIPAL AUDITORS,  
BOMBAY MUNICIPALITY, Bombay.

TO

THE MUNICIPAL SECRETARY,  
BOMBAY MUNICIPALITY, Bombay.

SIR,

We have the honour to forward herewith our Report on the accounts of the Schools Committee for the year 1925-26 with a view to the same being printed with the Administration Report.

We have the honour to be,

Sir,

Your most obedient servants,

H. S. KATRAK,

T. M. BHUKHANWALA,

*Municipal Auditors.*

REPORT ON THE ACCOUNTS OF THE SCHOOLS COMMITTEE  
FOR THE YEAR 1925-26.

Agreeably to Bye-law No. 14 of the Schools Committee, we beg to report that we have examined all account books and vouchers relating to the receipts and disbursements of the School Fund in charge of the Schools Committee from 1st April 1925 to 31st March 1926 (with the exception of pay bills which are in course of examination). The accounts for the year under review were maintained almost in the same style and methods as followed in previous years without any of the suggestions of the Auditors or the Test Audit Officer having been given effect to. The only change carried out was that payments of rents to landlords for hired school buildings were made from the Committee's office and not through the Head Masters as in previous years. Payments over Rs. 100 were not made by cheques as contemplated with a view to follow the provisions of the Municipal Act but a consolidated cheque for the total amount payable to landlords of all the different sections of Schools was drawn and payments made in cash to each. The system of individual payments to Head Masters and teachers for the introduction of which several members of the Committee were keen, has not been adopted. The opening of Audit Registers for the Schools to ensure efficient audit of establishment charges has not been undertaken and before this system of opening registers and fixing the scale of establishment for each school was formally introduced, the quarterly statements giving the scale for each school were discontinued. The method of individual payment system not having been understood by the Accounts Department, there has been a regular muddle in the payment of the establishments; changes after changes were made and finally the old method is resorted to. Some serious effort requires to be made to put this work on a systematic basis. The opening of Audit Registers for each school with its scale of establishment revised and sanctioned by the Committee is essentially necessary as without it the audit of establishment charges is simply perfunctory. There seems to be some gradual improvement in the method of keeping books and accounts, but to ensure efficient audit check, the opening of several registers suggested by the Auditors seems essential. Several petty irregularities were noticed in the course of audit of contingent bills. These were pointed out to the office, and the bills returned for completion. These are now being set right.

In our last year's report we had given a detailed report of the fraud committed by one of the clerks of the Committee's office in which we had pointed out that there was still a sum of Rs. 250 remaining to be recovered. This sum has not yet been made good and from inquiries we learn that a suit is being filed for the recovery of the amount.

2. The total receipts of the School Fund during the year of report amounted to Rs. 27,11,943-12-9 against Rs. 25,31,252-4-2 for the year 1924-25. The increase of Rs. 1,80,691-8-7 is mainly under contribution from the Municipal General Fund partially counterbalanced by a falling off under school fees, interest on Endowment and miscellaneous and to the absence of the special contribution of Rs. 25,100 from the Municipal Fund in the last year for free reading rooms and libraries. Under school fees there is a falling off of over Rs. 11,000 during the year under review due to the introduction of free and compulsory education in the F and G Wards from 1st November 1925 under the Free and Compulsory Education Act.

3. The total expenditure during the year 1925-26 amounted to Rs. 25,44,099-2-2 against Rs. 23,46,350-4-11 in the previous year 1924-25 thus showing an increase of Rs. 1,97,748-13-3. The increase is distributed amongst several heads, but is chiefly under Rents, Grants-in-aid to Primary Schools, Library and Museum, Scholarships and Repairs to Municipal Buildings enhanced by new charges for census establishments and Boy Scouts. The increase under rents is mainly due to revision of rents of several premises and to the hire of new buildings on the opening of new schools. The increase under Grants-in-aid is due to grants having been made on a liberal scale to encourage the establishment of more aided institutions.

4. The total Budget grant sanctioned for 1925-26 was Rs. 26,20,648. During the year additional grants were sanctioned by the Corporation for the opening of new schools (Rs. 75,000), for census charges (Rs. 14,500) and for Boy Scouts (Rs. 7,000) thus raising the total sanctioned grant for the year to Rs. 27,17,148. The total expenditure booked against this grant has amounted to Rs. 25,44,099-2-2. Though the total grant is not exceeded, the grants for several sub-heads have been exceeded for which no proper re-appropriation or additional grants covering these excesses are sanctioned by the Committee. We have already pointed out in our previous reports that these irregularities

should be avoided by making it a defined rule not to incur expenditure in excess of a grant without previously supplementing the grant either by re-appropriation or by an additional grant.

5. The total assets and working balance of the School Fund on the 31st March were Rs. 7,97,869-6-1 and Rs. 3,72,703-7-4 respectively as shown below :—

	Rs.	a.	p.
Advances recoverable .. .. .	355	0	0
Government Promissory Notes and other securities belonging to Prize and other funds with the Imperial Bank of India for safe custody nominal value .. .. .	1,41,100	0	0
Government Promissory Notes (nominal value Rs. 11,200 on account of the surplus cash balances belonging to the School Fund) kept with the Imperial Bank of India for safe custody (actual value) .. .. .	10,801	0	0
	Rs. a. p.		
Cash Balance—			
(a) With the Imperial Bank of India .. .. .	6,45,418	5	7
(b) In Office Treasury .. .. .	195	0	6
	<hr/>		
	6,45,613	6	1
	<hr/>		
	Total Rs.	7,97,869	6 1.
<i>Deduct—</i>			
Total Liabilities.			
		Rs.	a. p.
(a) Amount of Prize Fund .. .. .	2,60,506	0	6
(b) Amount of Deposits .. .. .	14,768	14	1
(c) Pension Fund .. .. .	38,141	14	6
(d) Provident Fund .. .. .	1,11,749	1	8
	<hr/>		
		4,25,165	14 9
		<hr/>	
	Rs.	3,72,703	7 4
	<hr/>		

The cash balance in Office Treasury was counted and found correct. The balance in the Bank Pass Book differs from that shown in the Ledger by Rs. 4,936-13-2. The difference is due to cheque No. 85,666 for this amount drawn on 31st March 1926 was cashed at the Bank on 1st April 1926.

The safety receipts for Government Promissory Notes and other securities lodged with the Imperial Bank of India for safe custody, were examined by us and found to be in order.

H. S. KATRAK,

T. M. BHOOKHANWALA,

*Municipal Auditors.*

BOMBAY, 17th September 1926.

From

THE MUNICIPAL AUDITORS,  
BOMBAY MUNICIPALITY.

To

THE MUNICIPAL SECRETARY,  
BOMBAY MUNICIPALITY.

SIR,

We have the honour to forward herewith our report on the Municipal Accounts for the year 1925-26, with a view to the same being printed and submitted to the Corporation as usual.

We have the honour to be,

Sir,

Your most obedient servants,

H. S. KATRAK,

T. M. BHOOKHANWALA,

*Municipal Auditors.*

**REPORT OF THE AUDITORS OF THE MUNICIPAL ACCOUNTS FOR THE  
YEAR 1925-1926.**

For the audit of the accounts under report Khan Saheb H. S. Katrak and Mr. T. M. Atmaram Bhukhanvala were appointed auditors under Corporation Resolution No. 12434, dated 12th March 1925.

2. As usual all vouchers and papers relating to both receipts and disbursements for the year 1925-26 were examined and the postings in the day books were checked with the vouchers and those in the ledgers were also checked with the entries in the Day Books and Journal.

3. The weekly statements of accounts were regularly examined as they were prepared prior to their publication in the *Government Gazette*.

4. The number of vouchers relating to the accounts for the year under review compares with those of the previous year as follows :—

		1925-26.	1924-25.
Receipt Vouchers	-- -- -- --	59,173	55,146
Disbursement Vouchers	.. -- -- --	1,03,022	97,555
	Total ..	1,62,195	1,52,701

There was increase of a little over 6 per cent. in the number of bills.

5. During the year under report there was no change in the classification of charges and in the method of keeping the accounts. In our last year's report, we had referred to the question of the closing of the accounts and had mentioned that the orders of the Standing Committee were awaited in the matter of fixing the date. The Standing Committee, however, did not think it advisable to put down a hard and fast rule by fixing the date, but allowed the existing practice to continue (Standing Committee Resolution No. 7265, dated 14th October 1925).

*General Fund.*

6. The results of the year compared with the Budget and the Revised Estimates for the year and the actuals of the previous year were as follows :—

	1924-25.		1925-26.	
	Actuals.	Budget.	Revised.	Actuals.
	Rs.	Rs.	Rs.	Rs.
Revenue and receipts .. .. .	3,02,15,121	3,26,68,600	3,05,48,184	3,05,31,359
Expenditure .. .. .	3,00,57,096	3,19,95,983	3,08,00,025	2,90,87,636
Surplus + .. .. .	+1,58,025	+6,72,617	....	+14,43,723
Deficit— .. .. .	....	.....	—2,51,841	....
Unexpended Budget grant renewed in the next year .. .. .	18,76,648	....	....	15,68,726

*Comparison of Accounts.*

7. The total receipts for the year under review exceeded those of the previous year by Rs. 3,16,238, the noticeable increases being under General Tax, Water and Halalkhore Tax, Wheel Tax, Cotton Import duty, contribution from Government for Primary education, Hospitals and Medical relief due to new receipts from the Gordhandas Sunderdas Medical College and to a contribution from Government for combating venereal diseases, miscellaneous fees subordinate to 12 Building Regulations and Market receipts, partially counter-balanced by a falling off largely under Town duties to the extent of 4 lakhs and Interest receipts to the extent of over five lacs.

8. The total expenditure for the year under review amounted to Rs. 2,90,87,636 against Rs. 3,00,57,096 in the previous year, indicating a decrease of Rs. 9,69,460. The principal items contributing to the decrease were Debt charges under I General Supervision and Public Health Department, Conservancy Department, Roads and Overbridges, Drainage, Building Regulations and Markets and Slaughter Houses, partially counterbalanced by increases under Education Primary, due to increased Municipal Contribution, Hospitals and Medical Relief due to new charges during the year on the opening of the King Edward Memorial Hospital and the Gordhandas Sunderdas Medical College, Public Lighting and contribution to the City Improvement Trust. The decreases under several major heads mentioned above are due to retrenchments effected in the several departments agreeably to the recommendations of Retrenchment Enquiry Committee.

*Comparison of Accounts for the year with the Budget and the Revised Estimates.*

9. Against the estimated revenue of Rs. 3,26,68,600 in the Budget for 1925-26 the actuals for the year, viz., Rs. 3,05,31,359, have resulted in a decrease of Rs. 21,37,241 which is mainly distributed as under:—General tax (over 7 lacs), Town duties (2½ lacs), Cotton duty (over 1 lakh), Water Tax (over 6 lacs), Education (over 3½ lacs) and interest receipts (1½ lac). From the above figures it is quite apparent that the figures under all the principal heads of revenue were over-estimated and that our present procedure of preparing the estimates requires a radical change. Correct information should be elicited by the Account office from the Departments concerned by frequent references and a close supervision on their work by the account office will ensure better results. The estimates for one of our main sources of revenue, viz., the General Tax, are not carefully prepared as well as will be seen from the following figures:—

	Budget Estimate.	Actuals (in thousands).	Difference
1923-24 .. ..	1,20,26	1,11,11	9,15
1924-25 .. ..	1,28,00	1,22,50	5,50
1925-26 .. ..	1,30,37	1,23,22	7,15

The above figures clearly indicate that the estimates do not receive careful attention and some definite plan should be adopted in making up the figures to ensure accuracy. The actuals for the year closely follow the Revised estimates and call for no special remarks.

10. The expenditure for the year under review was estimated at Rs. 3,19,95,983 against which the actuals have amounted to Rs. 2,90,87,636 thus resulting in a large saving of Rs. 29,08,347. The savings were mainly due to overestimates under Debt charges both under General Supervision and Water works owing to the amount of the loans not having been borrowed up to the extent estimated while preparing the Budget, under VI Hospitals and Medical Relief due to Provisions for King Edward Memorial Hospital and Gordhandas Sunderdas Medical College not having been utilised in full and to large savings, under the Public Health, Conservancy and Drainage, etc., on account of retrenchments, partially counterbalanced by increases under Primary Education and Public Lighting. Against revised estimate of Rs. 3,08,00,025, the actuals (2,90,87,636) have resulted in savings of Rs. 17,12,389 which are distributed chiefly against Debt charges, Public Health, Hospitals and Medical Relief and Conservancy.

11. The Budget of the year anticipated a surplus of Rs. 6,72,617 which was converted into a deficit of Rs. 2,51,841 in the Revised, due chiefly to a large falling off in the anticipated revenue and receipts and to saving under expenditure. It is, however, gratifying to note that the actuals have resulted in a large surplus of Rs. 14,43,723 ever recorded the highest since the year 1865, during a period of 60 years. The year might be reckoned a record year in the history of Municipal finances, the better result as compared with the Budget and the Revised is due chiefly to savings in expenditure as explained above. Taking into account, however, the increase in the outstanding liabilities, viz., Rs. 10,754-4-5 and a decrease of Rs. 3,07,922 in the amount of renewed grants, the net surplus for the year amounts to Rs. 17,40,891-2-4 (*vide* Appendix 3 of the Chief Accountant's report).

12. The outstanding charges (unexpended Budget grants required to be renewed) for the year 1925-26 and previous years amounted to Rs. 15,66,726 against Rs. 18,76,648 or a

decrease of Rs. 3,07,922. Compared with the actuals of the last seven years, the outstanding charges were as follows:—

Year.	Outstanding charges.	Total expenditure.	Percentage of outstanding charges to total expenditure.
	Rs.	Rs.	Rs.
1919-20 .. .. .	17,65,008	1,83,09,277	9.6
1920-21 .. .. .	13,53,550	2,02,02,301	6.7
1921-22 .. .. .	17,95,107	2,24,64,954	8.0
1922-23 .. .. .	22,11,307	2,61,61,439	8.4
1923-24 .. .. .	18,72,507	2,89,50,053	6.4
1924-25 .. .. .	18,76,648	3,00,57,096	6.2
1925-26 .. .. .	15,68,726	2,90,87,636	5.4

The percentage in the year under review is the lowest during the period of last seven years due to savings in expenditure, the result of retrenchments.

### 13. Loan Funds.

	1924-25.	1925-26.		
	Actuals.	Budget.	Revised.	Actuals.
	Rs.	Rs.	Rs.	Rs.
(1) Loan Works. ..	2,28,56,177	1,36,89,657	1,55,93,960	1,03,43,546
(2) Development Works.	98,78,691	48,36,402	69,22,625	57,80,739
(3) Trust Funds Works.	9,64,899	(a)	(a)	1,11,504
	3,36,99,767	1,85,26,059	2,25,16,585	1,62,35,789

(a) Provision included under (1) Loan Work.

The actuals, *viz.*, 1,62,35,789, fell short of the Budget estimates by Rs. 22,90,270 and the Revised estimates by Rs. 62,80,796; in other words, both the Budget and the Revised estimates were grossly overestimated. It is quite apparent that our executive officers do not pay close attention in the matter of preparing their estimates which even though passing through the several cuts from the Commissioner, the Standing Committee and the Corporation, ultimately turn out false. It is at the source that close supervision and scrutiny is essentially necessary. The main object of preparing the Revised estimates for a year is to make a close forecast of the actual transactions of the year. Our executive officers are, however, working almost in the opposite directions. The Revised estimates prepared by them are always higher than the original Budget estimates (as will be seen from the statement given in para. 14 of the Chief Accountant's report) with the result that the actuals turn out extremely low. The Heads of Departments do not realize their responsibility in the matter of finances. It is owing to their erroneous estimates for works that we raise loans according to their programme and incur debts to the detriment of Municipal finances. From the figures on page 4 of the Loan Works Budget estimate for 1925-26 it will be seen that the Commissioner anticipated a closing balance for 1925-26 of 23 lacs only under loan funds, whereas the actual closing balance amounts to nearly 107 lacs (loan works 25 lacs, and development works 82 lacs). Our present methods of preparing the loan works estimates require a radical change and Heads of Departments should very closely scrutinize the progress of works under them while framing the Revised estimates and surrender grants if not actually required for expenditure during the year.

14. *Loans.*—During the year under review it was intended to raise a loan of Rs. 1½ crores from Government, 30 lacs for general purposes, and 120 lacs for water works in addition to the balances remaining to be received out of the 160 lacs raised

in the open market and Rs. 50 lacs short dated loan for land acquisition. In view however of large accumulated balances of loan funds in hand it was resolved to borrow only Rs. 40 lacs out of the proposed loan of Rs. 150 lacs deferring the receipt of Rs. 110 lacs to next year, i.e., 1926-27. The amounts actually raised during the year were as follows:—

*From Government.*

	Rs.
Last instalment of the loan of 2 crores from Government provided for in 1924-25 .. .. .	50,00,000
Amount received from Government out of the amount of Rs. 1½ crores provided in the Budget for 1925-26.. .. .	40,00,000
	90,00,000

*From Public.*

	Rs.
Balance of 160 lakhs loan raised in the open market in 1924-25.	46,77,500
Balance out of 50 lakhs short, dated loan for land acquisition (only Rs. 49,94,000 raised against 50 lacs) .. .. .	16,45,000
	63,22,500
Grand Total ..	Rs. 1,53,22,500

In addition to the above sum, the accounts for the year show a further credit of Rs. 31 lacs to this head. This amount which was advanced by Government from 1919 to 1923 for the Mahim Development Schemes 1 to 4 and which was credited to the head "Deposits" in the accounts has now been transferred to this head under the orders of the Standing Committee and treated as an outstanding debt due to Government by the Municipality.

During the year under report repayments of loans to the extent of Rs. 79,68,353-11-0 were made of which Rs. 28,63,353-11-0 to Government (Rs. 28,30,000 being the instalment of equated payment in the liquidation of the loans raised from Government since 1921 and Rs. 38,353-11-0, on account of the Water Works Department) and Rs. 51,00,000 to the Public, Rs. 36,63,500 out of the loan of 44 lakhs repayable on 1st July 1928 and Rs. 36,500 out of the unpaid balances of 4½ and 42 lakhs loan, 4 lacs repaid to the Imperial Bank of India on account of 12 months' bill loan for levelling and metalling private streets and Rs. 10 lacs out of the 50 lakhs short dated loan for the acquisition of lands for roads, streets, etc., under Corporation Resolution No. 9434, dated 25th November 1925.

*Suspense Heads.*

15. Upto 1925-26 no regular estimates of receipts and payments of the several suspense and deposit heads were made, but the Corporation placed at the disposal of the Commissioner certain sums for some heads up to which cheques were to be signed and expenditure to be incurred. It is gratifying to note, however, that after frequent references from the auditors good beginning has been made from 1926-27 by the Commissioner in preparing and submitting a regular estimate for these heads for sanction of the Corporation.

*Advances recoverable.*

16. *Advances to Municipal officers*:—The balance outstanding on 31st March 1926 was Rs. 72,246-11-9 against Rs. 90,275-9-3 on the same date last year. The former sum includes Rs. 15,369-9-6 on account of permanent advances to Municipal officers for contingent expenses, Rs. 18,747-15-8 on account of law charges incurred in connection with the purchase of land for the Development Works in the city and Rs. 36,488-5-11 on account of dishonoured cheques. The last item has however been mostly recovered and adjusted. The remaining amount is made up of small items debited to this head pending adjustment in the accounts of the next year.

17. *Advances to Municipal Contractor*:—The balance on 31st March 1926 outstanding under this head was Rs. 7,823-4-3 against Rs. 6,549-11-1 on the same date last year

The balances on 31st March 1926 under the following heads compare with those on the same date of the preceding year as under:—

	1924-25			1925-26.		
	Rs.	a.	p.	Rs.	a.	p.
Development Work ...	1,77,650	5	9	2,06,826	13	9
Private Works...	1,38,328	5	4	1,19,214	5	8
Workshops ...	1,11,487	13	2	1,06,237	14	9
	4,27,466-8-3			4,31,779-2-2		

18. *Other Miscellaneous Advances*:—The balance on 31st March 1926 was Rs. 1,15,518-13-8 against Rs. 4,25,723-5-5 on the same date last year. The items making up the former amount are as under:—

	Rs.	a.	p.
(1) Miscellaneous Advances .. .. .	79,081	0	11
(2) Printing and Stamping, Building and Repair certificate forms .. .. .	20	4	3
(3) War Measures Rent Relief .. .. .	123	5	6
(4) Provident Fund .. .. .	16,075	15	0
(5) Chief Auditor and Accountant, G. I. P. Railway .. .. .	8	12	0
(6) Purchase of Petrol .. .. .	7,796	15	6
(7) Do. of Coal .. .. .	12,412	8	6
Total Rs. - ..	1,15,518	13	8

Compared with the outstanding balance on the 31st March 1925 there is a decrease of Rs. 3,10,204-7-9 chiefly under Miscellaneous Advances, Rent Relief, Works establishment and purchase of petrol counterbalanced by increases under Provident Fund and purchase of coal. The sum of Rs. 79,081-0-11 under Miscellaneous Advances includes Rs. 28,784-7-3 on account of advances to Municipal officers and servants for the purchase of motors, motor cycles, cycles, etc., Rs. 15,000 on account of advances to Railway Company for freight, etc., charges for cement and Rs. 13,227-5-2 on account of levelling and metalling private streets.

19. *Reserve Stock*:—The balances of stock in hand on the 31st of March 1926 as per Books of Chief Accountant's office compared with that on the same date of the previous year were as follows:—

Department.	Balance on 31st March 1925.	Balance on 31st March 1926.
	Rs. a. p.	Rs. a. p.
<i>Executive Engineer's Department—</i>		
Kerosine Oil ... .. .	180 14 9	1,230 8 0
Stores in-charge of Drainage Engineer ... .. .	2,150 0 0	2,150 0 0
Do. do. Mechanical Engineer... .. .	18,668 11 0	...
Do. do. Ex. Engr.'s Dept. ... .. .	5,771 2 11	45,586 11 9
Total Rs. ...	26,720 12 8	48,967 8 9
<i>General Stores Department.</i>		
General Stores ... .. .	6,17,838 7 5	5,55,438 0 3
Surplus and Obsolete Stores ... .. .	248 15 1	229 0 1
Line Suspense Amount ... .. .	86,535 9 7	91,986 12 7
Capital Stores ... .. .	4,96,624 10 6	7,75,803 7 7
Asphalt for Capital Roads ... .. .	4,71,667 7 6	3,55,903 1 10
Total Rs. ...	16,72,915 2 1	17,78,860 6 4
Stores (Sale) ... .. .	20,229 15 0	19,728 12 0
Water Works Improvement ... .. .	5,807 0 11	5,452 8 3
Stock Adjustment Account ... .. .	—12,539 6 5	—26,674 13 5
Total Rs. ...	13,497 9 6	—1,493 9 2
Grand Total Rs. ...	17,13,133 8 3	18,26,534 0 11

The increase over last year's balance is chiefly under Capital Stores stock.

20. In accordance with the instructions contained in para XXIX of the Store Audit Manual, a Balance Sheet of the General Stores Department has been prepared in the form prescribed in Appendix 'O' of the Manual wherein two sets of figures have been given, one set from the Books of the Chief Accountant's office and the other from the Balance Sheet of the Store-keeper. The difference in the balance as shown in the two sets of figures has been explained by a foot-note in the statement annexed hereto.

21. *Deposits*:—The amount outstanding on 31st March 1926, under the head "Deposits" in cash and papers, etc., Rs. 40,65,173-13-8 against Rs. 47,47,694-1-0, on the same date last year. The large decrease is mainly under "Cash Deposits"—Cash Deposits from Tenderers and other Cash deposits.

22. *Cheques payable*:—The balance outstanding on 31st March 1926, under this head amounted to Rs. 3,75,372-14-3 against Rs. 1,95,689-6-0 on the same date last year. The increase is due to a large number of cheques drawn during the year having remained in hand and not delivered to the parties.

The opening cash balance on the 1st April 1925 was Rs. 25,09,136. This together with the total receipts, for the year under review including debt deposits, advances, (Rs. 24,11,89,705) amounted to Rs. 24,36,98,841. The gross payments during the year amounted to Rs. 24,22,74,539, thus leaving a balance of Rs. 14,24,302 on 31st March 1926. The total transactions during the year (48,35 lacs) compared with those of the previous year (59,83 lacs) show a falling off of 11 crores due chiefly to a large decrease in Municipal expenditure both under General Fund and Loan Funds and to a falling off in the transactions under suspense heads.

23. A list of charges sanctioned by the Municipal Commissioner and paid during the year 1925-26 out of his Discretionary Contingent Grant is appended as usual. From the list it will appear that the actual payments aggregated to Rs. 1,166-6-4 against which Rs. 489-1-10 were recovered leaving a net debit of Rs. 677-4-6. With regard to items Nos. 7 and 8, we are of opinion that such charges being of a special nature should have been debited in the accounts to a special separate heading as is usually done. With regard to item No. 9, we are of opinion that fines inflicted on Municipal servants by Magistrates are not legally payable out of the Municipal Fund. On a reference to last year's list it will also be seen (item No. 26) that an amount of Rs. 200 was paid under similar circumstances out of the Municipal fund pending final orders of the High Court in the matter. Though the sums are paid out of the Discretionary contingencies it is open to the Corporation to pass some definite orders in the matter of such payments.

#### *Sinking Funds.*

24. Agreeably to the instructions contained in Corporation Resolution No. 5294, dated the 19th November 1888, all investments made during the year under report on account of Sinking Funds, pertaining to the several loans due by the Municipality were examined and found to agree with the amounts provided in the Budget estimates for the year. The total accumulated balances on account of Sinking Funds amounted to Rs. 2,64,31,255-13-0 on the 31st of March 1926 in securities of the nominal value of Rs. 2,64,30,500 and Rs. 755-13-0 in cash as shewn below against Rs. 2,96,43,113-10-10 on 31st March 1925.

<i>Particulars of Securities.</i>	<i>Nominal Value.</i>	
	Rs.	a. p.
6½ per cent. Bombay Development Loan .. .. .	6,68,600	0 0
5 per cent. Government of India tax free Loan of 1945-55 ..	34,55,500	0 0
5 per cent. War Loan, 1929-47 .. .. .	62,100	0 0
6 per cent. Municipal Debentures, 1929-49 .. .. .	5,60,000	0 0
6 per cent. do. do. 1929.. .. .	1,58,500	0 0
5 per cent. do. do. .. .. .	50,28,000	0 0
4 per cent. do. do. .. .. .	1,34,98,000	0 0
4 per cent. Improvement Trust Bonds .. .. .	24,01,300	0 0
4 per cent. " " Sterling Bonds of £ 25,000 ..	3,75,000	0 0
4 per cent. Bombay Port Trust Bonds .. .. .	2,23,500	0 0
<b>Total Rs. ..</b>	<b>2,64,30,500</b>	<b>0 0</b>
Amount in Current Account with the Imperial Bank of India Rs.	755	13 0
<b>Grand Total Rs. ..</b>	<b>2,64,31,255</b>	<b>13 0</b>

The decrease in the accumulated balance as compared with that of the previous year is chiefly due to the repayment on 1st July 1925 of the last instalment of the 44 lakhs Sanitary Works Loan.

25. The Safety receipts given by the Imperial Bank of India for the above securities in its custody were examined and found to be in order and the cash balance on account of the said Sinking funds as shown in the Bank's Pass Book was also verified and found correct.

26. The adequacy or insufficiency of the accumulated balances of Sinking funds of all loans were examined by us every year, and also by an officer of the Outside Audit Department of the Accountant-General's Office, who submitted every year a certificate of the correction of these balances to the Local Government under Art. 1418/B of the Civil Account Code, Vol. II. This article was revised in 1920, as follows :—

As a rule securities of Sinking funds should be valued at the market rate and in submitting the certificate to the Local Government the Accountant-General should bring to the notice any unusual depreciation that may have occurred in the investments of a Sinking fund, but it is not necessary to insist on the depreciation being made good until it exceeds the margin of safety, i.e., the amount which the Local Body concerned can easily make good when the discharge of the Loan falls due."

27. The procedure of rating securities of the Sinking funds at their par value, was discussed by us with Mr. Waite, the late Chief Accountant, who was of opinion and we agreed with him that so long as we had ample reserve with us in our Net Premia Fund to meet any loss required to be made good at the time of the redemption of a loan, there was no objection to allow the existing procedure to continue so long as the balances of accumulations were certified as correct. During the year under report, however, the Accountant-General on the authority of Art. 291 of the Account Code (revised) reported to Government the deficiency in our Sinking fund accumulations calculated at the market rates of the securities held under Sinking funds. As Government have asked us to make good the deficiency, the matter has been submitted to the Standing Committee and Corporation for their orders (*vide* para 33 of the Chief Accountant's Report). In this connection we humbly beg to point out that under the revised Art. 1418 B of the Civil Account Code quoted above it does not seem necessary to make good the whole amount of depreciation, since the Municipality has got sufficient reserve with it in the Net Premia Fund to meet any deficiency that may arise at the time of liquidation of a particular Loan. This fund has been specially created with the object of meeting losses in Loans, &c., and it is not open to the Corporation to utilize it for any other purpose (Section 121. of the Municipal Act). Moreover it is probable that the prices of the securities held by us in Sinking Funds will rise in the near future, when the securities bearing higher rates of interest become extinct, and thus there will not then arise any occasion for making good any deficiency. To be on the safe side however these securities might be rated at their market value in future.

28. *Balances* :—Cash balances in office and in the Bank.

The details are as follows :—

	Rs.	a.	p.
(a) Cash in Office Treasury .. .. .	931	7	3
(b) Securities in hand in the Office Treasury .. .. .	1,78,800	0	0
Total (i) .. .. .	1,79,731	7	3
(c) Balance as per Bank's Pass Book .. .. .	12,35,629	9	0
<i>Add</i> —Amount paid into the Bank on 31st March 1926 to be accepted on the 1st April 1926 .. .. .	44,522	0	10
	12,80,151	9	10
<i>Deduct</i> —Amount of uncashed cheques .. .. .	35,581	0	4
Total (ii) .. .. .	12,44,570	9	6
Grand Total (i) and (ii) .. .. .	14,24,302	0	9

The cash balance in hand on 1st April 1926 was actually counted by us and found correct. The securities in office treasury in charge of the Senior Accountant were also examined and found to agree with the balance in hand shown above.

The balance in the Current Account with the Imperial Bank of India and the details of the remittances to the Bank on 31st March 1926 and the outstanding cheques were verified by us and found to agree with the amounts shown above.

#### INVESTED BALANCES.

29. *Surplus Revenue Funds.*—The surplus fund investments on the 31st March 1926 were Rs. 90,71,847-15-6 against Rs. 78,58,991-9-8 on the same date last year as per following details:—

(a) In Government, &c., securities with the Imperial Bank of India (face value Rs. 70,62,100) .. .. .	Rs. a. p.
	64,11,565 0 0
In cash with the Imperial Bank of India .. .. .	335 9 8
Total Rs. ..	<u>64,11,900 9 8</u>
(b) In Current Accounts with the following Banks:—	Rs. a. p.
The Mercantile Bank of India, Ltd. .. .. .	3,370 3 0
The Chartered Bank of India, Australia and China .. .. .	1,531 15 11
The Hongkong and Shanghai Banking Corporation .. .. .	1,403 9 0
The National Bank of India, Ltd. .. .. .	71 1 0
The Comptoir National D'Escompte de Paris.. .. .	570 10 0
The Yokohama Specie Bank, Ltd. .. .. .	477 12 0
The International Banking Corporation .. .. .	21,057 3 0
The Bank of India, Ltd. .. .. .	2,268 12 0
The Eastern Bank, Ltd. .. .. .	12,678 15 1
The Central Bank of India, Ltd. . . . .	6,04,868 13 0
The P. & O. Banking Corporation .. .. .	10,442 5 10
The Lloyds Bank, Ltd. .. .. .	1,206 2 0
Total Rs. ..	<u>6,59,947 5 10</u>
(c) In fixed deposits with the following Banks:—	
The International Banking Corporation .. .. .	5,00,000 0 0
The Lloyds Bank .. .. .	11,00,000 0 0
Total Rs. ..	<u>16,00,000 0 0</u>
(d) In Deposits at Call:—	
The Mercantile Bank of India, Ltd. .. .. .	2,00,000 0 0
The Comptoir National D'Escompte de Paris.. .. .	2,00,000 0 0
Total Rs. ..	<u>4,00,000 0 0</u>
Grand Total ..	<u>90,71,847 15 6</u>

The amount of Rs. 90,71,847-15-6 under Surplus Funds includes Rs. 1,37,526-11-3 on account of Trust Funds which have been held temporarily under Surplus Revenue Funds (*vide* Appendix 5 of the Chief Accountant's Report).

30. *Surplus Loan Funds*.—The balance of invested amounts of the several Loan Funds on the 31st March 1926 amounted to Rs. 1,06,82,719-14-10 against Rs. 1,19,92,719-4-5 on the same date last year as per following details :—

	Rs.	a.	p.
(a) In Government securities with the Imperial Bank of India (face value Rs. 19,34,500) .. .. .	18,50,230	0	0
In cash with Imperial Bank of India .. .. .	100	0	0
Total Rs. .. .. .	18,50,330	0	0
(b) In investments Sterling Exchange Accounts .. .. .	1,65,719	14	9
(c) In investments bearing <i>Current Account</i> with the following banks :—			
The Chartered Bank of India, Australia and China .. .. .	670	0	1
The National Bank of India, Ltd. .. .. .	1,000	0	0
The Comptoir National D'Escompte de Paris .. .. .	1,000	0	0
The Yokohama Specie Bank, Ltd. .. .. .	1,000	0	0
The International Banking Corporation .. .. .	1,000	0	0
The Eastern Bank, Ltd. .. .. .	1,000	0	0
The Central Bank of India, Ltd. .. .. .	1,60,000	0	0
The Lloyds Bank, Ltd. .. .. .	1,000	0	0
Total Rs. .. .. .	1,66,670	0	1
(d) In <i>Fixed Deposits</i> with the following banks :—

32. The state of the Development Fund opened under Corporation Resolution No. 6159, dated 12th October 1922, was as under:—

	Rs.	a.	p.
Balance on 1st April 1925 .. .. .	1,19,92,719	4	5
Balance of 50 lakhs temporary loan for land acquisition raised during 1925-26 .. .. .	16,45,000	0	0
Rent of properties acquired and rented out .. .. .	2,98,999	15	4
Sale of surplus land .. .. .	1,24,188	9	4
Total Rs, ..	1,40,60,907	13	1
Expenditure during the year .. .. .	48,50,636	14	4
Redemption of debentures of 10 lacs .. .. .	10,00,000	0	0
Total Rs ..	58,50,636	14	4
Balance on 31st March 1926 .. .. .	82,10,270	14	9
Total Rs. ..	1,40,60,907	13	1

The safety receipts given by the Imperial Bank of India for the above securities in its custody were examined and found to be in order. The cash balances in current account with the several Banks have been compared with the Pass Books and found correct.

33. The safety receipts for Government and other securities aggregating Rs. 12,35,800 received from the contractors and Municipal employees and those belonging to the several memorial funds and lodged with the Imperial Bank of India were examined and found to be in order. The securities other than Government paper furnished by the Municipal employees were also examined with the Registers maintained in the office of the Chief Accountant.

34. For the scrutiny of the outstanding bills of rates and taxes for the year 1925-26, a reference is requested to the auditors' letter, dated 26th June 1926 and to the appendices attached to the letter from which it will be seen that the total number of outstanding bills on 31st March 1926 was 13,924 of the total value of Rs. 13,47,834-4-8 against Rs. 15,165 of the total value of Rs. 15,56,719-2-2 on 31st March 1925.

**VITAL STATISTICS**

# PUBLIC HEALTH.

## Annual Report of the EXECUTIVE HEALTH OFFICER for 1925.

I have the honour to present my Annual Report on the sanitary state of the City of Bombay during the year 1925 and the action taken for the prevention of disease.

**Review of the Year.**—The total deaths during the year under review numbered 31,968, being 6,806 less than in 1924, 10,728 less than the average of the preceding quinquennium (1920-1924) and 10,844 less than the average of the last ten years (1915-1924). The death-rate in the year per 1,000 persons living was 25.4 and was lower than any previous annual record since 1874 with the exception of the rate for 1915 (24.2).

The number of deaths from Plague during the year was 174 and was the lowest on record since 1896 when Plague first appeared in the City.

Small-pox was epidemic for 4 weeks from 14th February 1925 and caused 570 deaths, as against 1,242 in 1924 and 594, the average of the decennium (1915-1924).

The number of deaths attributed to Cholera was 12, being the lowest on record since 1848.

Influenza was prevalent in a mild form throughout the year and caused 94 deaths, this being the lowest mortality recorded since 1918.

The deaths from diseases of the Respiratory System numbered 12,151 as against 14,410 in 1924, 16,568, the average for the five years 1920-1924 and 15,803 that of the preceding decennium (1915-1924).

The number of deaths from Tuberculosis (1,404) was 485 less than the decennial average.

Malaria caused 581 deaths and Ague and Remittent Fever 2,337 deaths as against 488 and 2,679 deaths respectively in 1924. The average number of deaths for the five years 1920-1924 from Malaria was 446 and from Ague and Remittent Fever 3,105.

The number of live-births registered during the year was 20,268, as against 21,838 in 1924, 20,428, the average for 1920-1924 and 20,749 that for the last decennium (1915-1924).

The deaths among infants under one year of age numbered 7,212 during the year under review as against 9,156 in 1924 and 9,972, the average for the ten years 1915-1924. The rate of infant deaths per 1,000 of births registered was 35.6 as against 41.9 in 1924 and 48.1, the average rate for the preceding decennium (1915-1924).

Compared with the decennial averages (1915-1924), the total number of deaths shows a decrease of 10,844, the principal decreases in the mortality being 786 under Plague, 1,064 under Cholera, 887 under Influenza, 696 under Ague and Remittent Fever, 24 under Small-pox, 84 under Measles, 485 under Tuberculosis, 1,033 under Diarrhoea, Enteritis and Dysentery and 3,652 under diseases of the Respiratory System. Increases were registered under Enteric Fever (12) and Malaria (241).

**Area and Population.**—The area of the City is 23.54 square miles and the population at the Census of 1921 numbered 1,175,914.

The estimated population in the middle of the year 1925 was 1,259,414 and on this estimated population the birth-rates and death-rates in this Report have been calculated, *vide* Government Resolution No. 2547 of the 4th July 1922 in the General Department.

The method adopted for estimating the population was explained in the Annual Report for 1922.

The estimated population in the middle of the year 1925 by sexes and sections and by castes together with the Census population of 1921 is shown in Table No. 1 appended to this Report.

### BIRTHS AND BIRTH-RATES.

Excluding 1,716 still-born children, the number of births registered during the year was 20,268 and was less by 1,570 than in 1924 and by 481 than the annual mean number of births registered in the ten years, 1915-1924.

The birth-rate calculated on the estimated population for 1925 was equivalent to 16.1 births per 1,000. Calculated on the Census population for 1921, the birth-rate was 17.2.

Of the children whose births were registered, 10,391 were males and 9,877 females, the proportion of males to females being 1,052 to 1,000.

The low birth-rate recorded year by year for the City is partly due to the custom whereby married women leave the City for their confinement and register their children in the mofussil districts where they are born. In part it is due to the fact that a certain number of births in the City are not registered.

As a check on the work of the staff engaged in the registration of births, the death certificate of every child dying under the age of 12 months is endorsed with the number of its birth certificate if the birth has been registered and if not is marked "unregistered." From Table No. 32 (Appendix), it will be seen that the births of more than 95 per cent. of infants dying after the age of 6 months have been registered before death and that less than 5 per cent. of infants in the same age period die unregistered.

There does not appear to be any reason why the same proportion should not hold good among infants over the age of 6 months who survive, and if it does then the loss of births in the records through failure on the part of parents to register is limited to a figure between 1 and 4 per cent. (see Table 32).

Were the whole of this loss more than made good by an increase of 5 per cent. in the registered births, the recorded birth-rate would only be raised from 16.1 to 16.9 per 1,000 and would still be far below the rates recorded elsewhere in India.

Further information in regard to births is furnished in the death registers under the return which gives for every person dying the place where he was born. The records show that out of 7,212 infants dying in the year, 2,598 or 36 per cent. were born outside the City and the same proportion may be assumed to hold good amongst the infants who survive. In many cases these out-born infants and their mothers are immigrants coming to Bombay for the first time but owing to the custom referred to above there is no doubt that a substantial proportion of the out-born who die or survive in the City are the children of mothers whose permanent place of residence is Bombay and who go to their homes in the mofussil for their confinement and bring their babies back at the age of two or three months to their residences in the City. Such births are registered in the District where they occur and not in Bombay and so the City records understate and cannot be taken as a fair representation of the fertility of Bombay women as indicated by the official birth-rate.

**Births by Months.**—The following table shows the number of births registered in each month of 1925 and the two preceding years. The noteworthy feature of the table is that the number of births registered is considerably higher from August to January than in the remaining six months of the year:—

Year.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.
1923 .. ..	1,903	1,557	1,588	1,485	1,534	1,485	1,569	1,697	1,786	2,029	2,076	2,286	20,995
1924 .. ..	2,066	1,881	1,608	1,511	1,560	1,474	1,648	1,787	1,886	2,125	2,204	2,088	21,838
1925 .. ..	1,871	1,624	1,524	1,417	1,543	1,367	1,514	1,680	1,814	1,974	1,999	1,941	20,268

# A DIAGRAM

## ANNUAL DEATH-RATE IN BOMBAY 1876 - 1925.

**Birth-rate by Races.**—From Table No. 3 appended to this Report, it will be seen that among the different communities inhabiting the City, Lingaits (112), Hindus Low Caste (21), Parsees (25), Jews (37), Indian Christians (23), Anglo-Indians (29) and Mussalmans (19) showed birth-rates higher than the rate for the whole population. The lowest birth-rate, namely 6·67, was recorded for the Jain community as in the preceding year.

The impossible rate of 112 recorded for Lingaits is obviously due to an understatement of the Lingait population in the Census Returns.

**Still-Births.**—The number of infants certified as still-born was 1,716 as against 1,821 in 1924 and the decennial average 1,883. Still-births are excluded in this Report from all figures relating to deaths and to births not expressly defined as still-births.

### DEATHS AND DEATH-RATES.

The total number of deaths registered from all causes during the year was 31,968 being 6,806 less than in 1924. It was 10,728 less than the average annual mortality of 1920-1924 and 10,844 less than the average annual mortality of the preceding 10 years (1915-1924). The death-rate per 1,000 of persons living was 25 and was lower than that for any year since 1874 with the exception of 1915. The death-rate (like the birth-rate) is invariably high amongst the poorer classes; and as an unduly large proportion of the population of the City belongs to the most poorly paid sections of society, the general death-rate is raised by that of the unusually large proportion of the very poor. The Census of 1921 showed that 66 per cent. of the population live in one-room tenements.

The annual death-rates during the last fifty years are indicated in diagram "A" inserted in this section of the Report, facing p. 2.

Of the 31,968 deaths registered during the year, 846 including none among the inmates of Military Hospitals, occurred in persons who had resided in the City for less than ten days.

**Mortality by Sex and Age.**—Of the total number of 31,968 deaths in the year, 17,722 were among males and 14,246 among females; the number of deaths among males was thus in the proportion of 124 to 100 deaths among females. The larger number of deaths among males is due to the preponderance of males who form nearly two-thirds of the population, the actual death-rate being higher among females. Thus the male death-rate was 21 and the female death-rate 32 as against 27 and 40 respectively in 1924.

The following table shows the proportional contribution to the total deaths of each age-group in the two sexes:—

TABLE OF PERCENTAGES TO THE TOTAL MORTALITY BY AGE-PERIOD IN 1923, 1924 AND 1925.

Age-period.	1923.		1924.		1925.					
	Total Mor-tality.	Percent-age.	Total Mor-tality.	Percent-age.	MALES.		FEMALES.		PERSONS.

50 to 60 „ ...	2,297	6·1	2,320	6·2	1,357	7·6	691	4·9	2,048	6·4
60 years and upwards.	4,430	11·7	4,627	11·9	2,086	11·8	1,963	13·8	4,049	12·7
Unspecified ages ...	.....	.....	.....	.....	.....	.....	.....	.....	.....	.....
Total ...	37,969	100·0	39,774	100·0	17,722	100·0	14,246	100·0	31,968	100·0

It will be seen from the table that the percentage of deaths among infants under one year of age to the total mortality in the year under notice was higher, as in the past, than in the case of any other age-group.

### CAUSES OF DEATHS.

As explained in the Annual Report for 1920, page 5, the tabulation of deaths by causes is carried out in accordance with the "Manual of the International List of Causes of Death as adapted for use in England and Wales." Table No. 22 (Appendix) includes the full list of causes of death by months. All other abstracts of the cause of death are arranged in the form of the Short List of Causes adopted by the Registrar-General for England and Wales and the Local Government Board with certain sub-divisions which were found important for tabulation purposes in the City of Bombay.

**Certification of Cause of Death.**—The total number of certificates of the cause of death received during the year was 8,241 against 9,267 in 1924; of these, 3,066 were from private qualified medical practitioners, 17 from Hakims and Vaidyas and 4,128 from the Medical Officers of various Hospitals; the cause of death in 444 cases was certified by the Commissioner of Police and in 586 cases by the Coroner of Bombay.

The percentage of certified deaths including those certified by Hakims and Vaidyas was 26.

The percentages of deaths certified to the total number of deaths in 1925 and the preceding five years are shown in the following table :—

Year.	Number of Certificates of the Cause of Death received from						Percentage of Total Certificates received to the Total Mortality.
	Medical Officers of Hospitals.	Private Medical Practitioners.	Hakims and Vaidyas.	Commissioner of Police.	Coroner of Bombay.	Total.	
1920 ..	4,936	4,553	127	915	485	11,016	24.03
1921 ..	5,417	4,203	150	1,233	678	11,681	21.78
1922 ..	4,175	3,274	49	696	579	8,773	23.52
1923 ..	4,459	3,883	13	616	605	9,576	25.22
1924 ..	4,556	3,553	15	545	598	9,267	23.90
1925 ..	4,128	3,066	17	444	586	8,241	25.78

The District Registrars certified the cause of 32 deaths in persons seen during their last illness and verified the cause of death in 23,685 cases on the information gathered from the relatives of the deceased and in 10 cases after seeing the dead bodies.

**Copies of Certificates Issued.**—During the year, 1,670 copies of certificates of registry of death, 336 copies of certificates of birth and 34 true copies of birth and death report and medical certificates were issued. The total fees received for copies of certificates and reports, for searches of birth and death registers for various periods and for producing registers in Courts of Law amounted to Rs. 2,609 as against Rs. 2,509 in 1924.

Total ... ..	31,968	25.38	33,774	31.27	42,812	39.94

It will be seen from the table and the diagram 'B' facing p. 4 that diseases of the Respiratory System caused, as usual, a higher death-rate (10) than any other group. Congenital Debility and Diseases of early Infancy constituted the next most fatal group giving a death-rate of 2 per 1,000 persons living. The group coming next on the list for the year under report with a death-rate of 2 comprises the deaths attributed to Malaria, Ague and Remittent Fever.

Scarlet Fever, Whooping Cough and Diphtheria have been omitted from the above short table of principal causes. Scarlet Fever has not been registered as a cause of any death during the last 10 years and the average annual number of deaths from the other two diseases is only 9.

Tables Nos. 6 to 28 appended to the Report give detailed information regarding deaths by sections, months, age, caste, sex, cause and occupation.

The mortality from Plague, Small-pox, Cholera, Influenza, Tuberculosis and Fevers in 1925 is discussed on pp. 17 to 30.

**Mortality by Races.**—As has been explained in previous reports the excessive rates recorded for Lingaits would, if they were real, lead to the extinction of this small community numbering 866 persons according to the Census of 1921, in 3 years. Large numbers of Lingaits were evidently included by the Census enumerators in other Hindu castes, and in these circumstances figures for calculating a reliable death-rate are not available.

If the rate for Lingaits be disregarded, it will be seen from Table 25 appended to this Report that the highest death-rate 37 was recorded for Mussalmans and the next highest 31 for Anglo-Indians as compared with 43 and 32 respectively in 1924. The lowest death-rate 10 was recorded for Europeans and the next lowest 12 for Banias as against 10 for Banias and 13 for Europeans in the last year.

Indian Christians and Hindus of Other Castes with death-rates of 0.98 and 0.53 respectively suffered more heavily from Small-pox than any other community while Plague was more fatal to Jains and Brahmins (0.23). Enteric Fever was most fatal to Anglo-Indians (1.41), Jews (0.75), Europeans (0.62) and Parsees (0.54); the comparatively high incidence of Enteric Fever on Anglo-Indians, Jews, Europeans and Parsees is probably more apparent than real and in some measure due to the more accurate diagnosis of fevers in members of these communities. Anglo-Indians and Indian Christians with death-rates of 2.02 and 1.04 respectively suffered most heavily from Malaria while for Mussalmans (3.03) and Hindus, Low Castes (2.49) high death-rates from Ague and Remittent Fevers were recorded. Influenza was more fatal to Parsees (0.24) and Jews (0.12). From Diseases of the Respiratory System a death rate of 14.52 was registered among Mussalmans, of 11.57 among Hindus, Low Castes and of 9.66 among Jains. Anglo-Indians (2.62), Mussalmans (2.41) and Indian Christians (2.15), suffered more from Tuberculosis than any other community. The lowest death-rate from Enteric Fever (0.06) was registered among Mussalmans and from Tuberculosis (0.31) and from diseases of the Respiratory System (1.25) among Europeans.

Table No. 8 shows deaths by Race and Age.

**Mortality by Months.**—The following table shows the total number of deaths registered on each day and in each month of the year. The number of monthly total deaths in 1924 is added to the table for comparison :—

TABLE SHOWING THE DAILY AND MONTHLY TOTAL DEATHS IN 1925.

31 ...	113	...	114	...	69	...	76	89	...	64	...	73
Total ...	3,204	2,772	3,169	2,843	2,828	2,244	2,470	2,676	2,480	2,653	2,317	2,308
Deaths by Months in 1924 ...	3,572	3,469	3,841	3,359	2,956	2,600	2,688	3,351	3,884	3,734	3,128	2,942

The high mortality experienced in the first four months of the year was due to the comparatively higher numbers of deaths from Small-pox, Plague and diseases of the Respiratory System. From May to the middle of July lower death-rates prevailed. The rise recorded thereafter was chiefly due to Malaria and diseases of the Respiratory System.

The incidence of deaths from principal causes in different months is shown in Tables Nos. 9 to 19 appended to the Report.

**Mortality by Sections.**—It will be seen from Table No. 6 (Appendix), which gives total deaths by months and death-rates in each Section in 1925 with the quinquennial averages for 1920-1924, that rates higher than the general death-rate were recorded in 2nd Nagpada (34), Khara Talao (32), Mazagon (31), Umarkhadi (31), Kamatipura (29), Byculla (29), Bhuleshwar (28), Tarwadi (28), Chukla (28), Tardeo (28), 1st Nagpada (27), Sion (27) and Mahim (27).

The sections of Tarwadi, Upper Colaba, Esplanade and Byculla contain hospitals and would exhibit a much lower rate, but for the fact that for want of the residential addresses of many of the patients who die in these institutions, the deaths have to be referred to the sections containing the hospitals instead of to those where the patients resided before admission. Upper Colaba contains the Colaba Station (Military) Hospital; and Esplanade, St. George's, the Cama and Albless, Gokuldas Tejpal, the Parsee Lying-in and Indian Station (Military) Hospitals. The Sir Jamsetjee Jeejeebhoy, Bai Motlabai and Sir D. M. Petit and Maratha Hospitals are in Tarwadi and St. Joseph's Foundling Home, the Arthur Road Infectious Diseases Hospital and the Adams Wylie Memorial Hospital are in Byculla Section. The lowest rate 12 was returned for Fort South and the next lowest (15) for Walkeshwar Sections as against 13 for Fort South and 17 for Walkeshwar in 1924.

**Deaths by Occupation.**—The death-rates recorded for persons following different occupations will be found in Table No. 28 in the Appendix.

The significance of these rates lies in their difference from one another and not in the variation from year to year of the rates for the same class of workers.

Epidemic outbreaks are likely to raise the death-rates in all occupations to an approximately equal extent, the rise having nothing to do with the occupation. Further should a marked rise in the death-rate among mill hands for example be recorded year by year, the rise would be more likely to be due to a steady increase in the mill hand population than to increasingly unhealthy conditions of employment.

There is accordingly little to be gained by a detailed consideration of occupational death-rates in inter-censal years remote from the year of the Census Returns.

Such rates are usually cast from the combined deaths for the triennial period in which the Census year occupies a central position or on the deaths for a decennium.

Comment will accordingly not be made on occupational death-rates year by year and for information on the effect of occupation on the death-rate, reference should be made to the Annual Report for the year 1922 when the Census returns were comparatively recent.

### INFANT MORTALITY.

The number of deaths among infants under one year of age was 7,212 being 1,944 less than in 1924 and 2,760 less than the annual average in the ten years 1915-1924.

The infant mortality rate expressed as the number of deaths in infants per 1,000 registered births was 356 as compared with a rate of 419 in 1924 and of 481, the annual average in the decennium (1915-1924).

Of the total deaths 4,614 occurred among infants born in Bombay (see Table 32) and 2,598 in infants born elsewhere.

Were the rate to be calculated only on the deaths of infants born and registered in Bombay in proportion to the registered births it would be reduced from 356 to 228.

The fact that of the infants dying in the City nearly one-third come from other places implies, when allowance is made for the still larger number of those who come from other places to Bombay and survive, the existence in the City of an infant population much in excess of the registered births which are taken to represent the infant population on which the infant death-rate is cast.

The same facts indicate an immigration of infants on a scale which is probably very much greater than in other cities and which is probably in a large measure accounted for by the custom already referred to whereby women belonging to the City go to their homes in the country for confinement. The births of their children who are brought back to the City at the age of two or three months thus come to be registered in the place where they occur and are not shown in the City registers, although such children in number amount to nearly one-third of the total infant population.

The infant death-rate calculated by the usual method can thus only be regarded as comparable with that of other cities on the assumption that in those other cities the same wholesale immigration of infants takes place.

On the whole it seems probable that the recorded rates for Bombay both absolutely and comparatively overstate considerably the magnitude of the rate of loss of infant life.

On the other hand the rate is understated by the alternative method of rejecting all deaths in out-born infants, because their rejection could only be justified by an allowance for, or the actual addition of, the deaths elsewhere of infants born and registered in the City. The balance would no doubt be much in favour of the City rates, but in the absence of the necessary data, it can only be suggested that a fair rate for comparative purposes would probably approximate more closely to the lower figure 228 than to the higher figure 356 which represents the officially recorded rate for the year.

**Causes of Death.**—It will be seen from Table No. 23 (Appendix) that 5,307 or nearly 74 per cent. of the total deaths in infants were due to diseases of the Respiratory System, Infantile Debility and Premature Birth against 72 per cent. (6,638 deaths) in 1924. Diarrhoea and Enteritis caused 480 deaths, Malaria, Ague and Remittent Fevers 88 deaths and Convulsions 827 deaths. The deaths from Small-pox and Measles numbered 105 and 45 respectively.

#### INFANT MORTALITY FROM PRINCIPAL CAUSES FROM 1920 TO 1925.

Cause of Death,	1920.	1921.	1922.	1923.	1924.	Average (1920 to 1924).	1925.	More or Less.
Small-pox ... ..	48	77	3	87	218	88	105	+ 17

Malarial Fever ... ..	20	25	24	19	17	21	23	+ 2
Ague and Remittent Fever and Fever not defined.	286	229	122	181	122	178	103	— 75
Diarrhoea and Enteritis ... ..	683	981	657	602	674	731	480	— 251
Dysentery ... ..	66	78	33	47	58	56	34	— 22
Infantile Debility and Malforma- tion including Premature Birth.	3,549	4,395	3,681	3,767	3,953	3,869	3,129	— 740
Diseases of the Respiratory System.	3,873	4,507	2,154	2,388	2,685	3,121	2,178	— 943
Convulsions ... ..	...	...	1,086	1,106	1,016	...	827	...
All Causes ... ..	10,896	12,751	8,236	8,682	9,156	9,934	7,212	— 2,722

**Quinquennial Averages.**—Compared with the averages of the preceding five years, the total number of deaths shows a decrease of 2,722, the principal decreases in the mortality being 943 under diseases of the Respiratory System, 75 under Ague and Remittent Fever and Fever not defined, 251 under Diarrhoea and Enteritis, 740 under Infantile Debility and Premature Birth and 22 under Dysentery. On the other hand increases were registered under Small-pox (17), Measles (6) and Malarial Fever (2).

**Age at Death.**—The following table classifies the infantile deaths from principal causes in 1925 under the age groups, under 1 week, 1—4 weeks, 1—6 months and 6—12 months:—

#### TABLE OF DEATHS AMONG INFANTS FROM PRINCIPAL CAUSES BY AGE-PERIODS IN 1925.

Age-Period.	Small-pox.	Measles.	Malarial Fever.	Ague and Remittent Fever and Fever not defined.	Diarrhoea and Enteritis	Dysentery.	Infantile Debility & Malformation In- cluding Premature Birth.	Diseases of the Respiratory Sys- tem.	Convulsions.	All Causes.	Percentage of deaths in each age-period to total deaths under 1 year of age.
Under 1 week ... ..	...	...	1	...	6	...	1,440	6	40	1,553	21.53
1 to 4 weeks ... ..	1	...	1	...	48	1	830	19	57	967	13.41
Total under 1 month...	1	...	2	...	48	1	2,270	25	97	2,520	34.94
1 to 6 months ... ..	36	9	7	20	211	6	616	713	406	2,119	29.38
6 to 12 months ... ..	68	37	14	45	221	27	243	1,440	324	2,573	35.68
Total ... ..	105	46	23	65	480	34	3,129	2,178	827	7,212	100.00

Of the total deaths among infants, 1,553 or 22 per cent. took place in the first week of life and 967 or 13 per cent. in the age-period 1 to 4 weeks.

The mortality among infants who had not completed the first month of life was thus 2,520 or 35 per cent. of the total infant deaths. The number of deaths in the age-groups 1 to 6 months and 6 to 12 months was 2,119 and 2,573, being respectively 29 and 36 per cent. of the total infant mortality.

TABLE OF PERCENTAGES OF INFANT DEATHS FROM PRINCIPAL CAUSES AT SEVERAL AGE-PERIODS IN 1925.

Age-Period.	Small-pox.	Measles.	Malarial Fever.	Ague and Remittent Fever and Fever not defined.	Diarrhoea and Enteritis.	Dysentery.	Infantile Debility & malformation including premature birth.	Diseases of the Respiratory System.	Convulsions.	Other Causes.	All Causes.
Under 1 week ...	..	..	0.06	..	0.32	..	92.72	0.39	2.58	8.93	100.00
1 to 4 weeks ...	0.10	..	0.10	..	4.45	0.10	85.63	1.96	5.89	1.57	100.00
1 to 6 months ...	1.70	0.42	0.33	0.94	9.96	0.28	29.07	33.65	19.16	4.49	100.00
6 to 12 months ...	2.64	1.44	0.50	1.75	8.59	1.05	9.44	55.97	12.59	5.99	100.00
Total ...	1.46	0.64	0.33	0.62	6.66	0.47	43.39	30.20	11.47	4.51	100.00

The salient features of the above table are the magnitude of the role played by debility and prematurity in the causation of death in the first 4 weeks of life and the large proportion of deaths from Respiratory diseases during the remaining 11 months of infancy.

**Infant Mortality by Months.**—The subjoined table shows the number of deaths among infants in each month of the year and for comparison the monthly total number of deaths at all ages is also inserted.

AGE-PERIOD.	NUMBER OF DEATHS.												Total.
	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	
Under 1 year ..	650	533	571	634	663	549	636	735	592	616	515	518	7,212
All Ages ..	3,204	2,772	3,169	2,843	2,828	2,244	2,479	2,676	2,480	2,653	2,317	2,303	31,968

Table No. 23 appended to the Report shows the number of deaths among infants under one year of age by causes and months.

**Infant Mortality by Races.**—The following table gives the death-rate among infants of the several races of the population calculated per 1,000 of births registered in the particular race or caste :—

INFANT MORTALITY BY CASTE AND INFANTILE DEATH-RATE PER 1,000  
OF BIRTHS REGISTERED IN EACH CASTE IN 1925.

RACE OR CASTE.		Deaths Under 1 Year.	Number of Births Registered.	Infant Mortality per 1,000 of Births Registered.
Hindus.	Jains ... ..	125	169	740
	Brahmins ... ..	303	554	547
	Lingaits ... ..	62	97	639
	Bhatias ... ..	53	135	392
	Banias ... ..	182	388	469
	Hindus of other Castes ... ..	3,091	8,591	360
	Hindus, Low Caste ... ..	1,347	3,630	370
Mussalmans (including Negro-Africans) ... ..	1,293	8,533	361	
Parsees ... ..	202	1,295	156	
Jews ... ..	48	298	160	
Indian Christians ... ..	437	1,172	373	
Anglo-Indians ... ..	20	146	205	
Europeans ... ..	21	178	118	
Buddhists ... ..	1	18	55	
Other and unknown Castes ... ..	17	5	.....	
Total ... ..		7,212	20,268	356

A number of the figures in this table for castes which appear to habitually evade the registration of the births of their children, are valueless and where the calculation of the death-rate would produce the impossible figure of 1,000 or more the rate has been omitted.

Among Europeans and Parsees the registration of births may be assumed to be carried out in almost all cases. Nevertheless their recorded rates exceed 110 as compared with rates of less than 100 in England in spite of the fact that the proportion of the poor and very poor in these communities is insignificant compared with that of most of the other communities in Bombay.

The high rates recorded in all communities suggest the presence in Bombay of some adverse factor in addition to the poverty and ignorance which are chiefly responsible for high rates in western countries. The added factor affecting all classes is probably Malaria; another factor which can hardly fail to enhance the infant mortality among the more ignorant portions of the population is the practice of soothing babies by the administration of opium.

**Infant Mortality by Sections.**—The death-rates among infants under one year of age in the several Sections of the City will be found in the last column of Table No. 2, appended.

**INFANT MORTALITY BY THE NUMBER OF ROOMS OCCUPIED IN 1925.**

	Births.		Deaths in Infants.		Infant mortality per 1,000 births registered.	
	Number.	Percentage.	Number.	Percentage.	1925.	1924.
1 Room and under ..	12,049	59·45	6,061	84·04	503	557
2 Rooms .. .. .	1,555	7·67	377	5·23	242	313
3 Rooms .. .. .	516	2·55	122	1·69	236	271
4 or more rooms ..	280	1·38	44	0·61	157	125
Road-side .. .. .	20	0·10	25	0·35	..	518
Hospitals .. .. .	5,848	28·85	583	8·08	100	134
<b>Total ..</b>	<b>20,268</b>	<b>100·00</b>	<b>7,212</b>	<b>100·00</b>	<b>356</b>	<b>419</b>

The percentage of population occupying tenements of one room and under to the total number of occupants in all classes of tenements in the City by the Census of 1921 was 66. Of the 20,268 births registered in the year, 12,049 or 59 per cent. occurred in families living alone in a single room or sharing it with others, and the number of deaths in infants in this class of population was 6,061 or 84 per cent. of the total infant mortality.

It will be observed from the statement that the rate of deaths among infants in single room tenements per 1,000 births in such tenements during the year was 503 against 557 in 1924 and that the proportion of deaths to births varies inversely as the number of rooms occupied by the parents.

**Prevention of Infantile Mortality.**

The work which is being done in Bombay for the reduction of infant mortality may be described under the following heads :—

- (i) Visits by the Municipal District Nurses for the purpose of getting into touch with prospective mothers and for discovering cases of sickness especially among women and children and unvaccinated children ; for inquiry into the condition of new-born infants ; and for giving instruction by homely talks as to the care and rearing of children.
- (ii) Attendance on confinements.
- (iii) Provision of necessaries and comforts during the lying-in period.
- (iv) Maternity Homes.
- (v) Infant Milk Depots.
- (vi) Infant Welfare Centres.

**Municipal Nurses.**—The number of Municipal Nurses employed is ten, one being attached to each of the ten District Registrars' Offices. They are all qualified midwives and visit daily the localities and the chawls inhabited by the poor and help to diffuse and popularise elementary knowledge of the principles of health and hygiene and to carry such knowledge into the homes and lives of the ignorant ; they give advice on the prevention of diseases and the care and up-bringing of infants and bring to the notice of the authorities unregistered births, unvaccinated children and cases of sickness ; they also persuade prospective mothers to go to the Maternity Homes provided for them free. Where this provision is not taken advantage of, they attend on the women in their own houses providing them with bedding for their confinement, and with food in the shape of milk and bread during the first days of the puerperal period. The visits of the Nurses are frequently the means of bringing to the Municipal Dispensaries sick persons who would otherwise either not know of the existence of the facilities

provided or knowing would through indifference and stupidity neglect to benefit by them. These visits are doing much good and are welcomed and appreciated by those for whose benefit they are paid.

**Summary of Work.**—During the year the Municipal Nurses paid 45,452 visits to houses, chawls and huts (against 54,543 in 1924), inquired into 3,695 cases of ordinary sickness, and reported 288 cases of infectious diseases and 596 deaths in the female population of the City. They also attended on 1,455 confinements (against 1,842 in 1924) and verified the reports of the Birth Karkuns on 5,426 births. Of the women confined 1,868 were primiparæ.

The following table summarises the information obtained by the Nurses in attendance on confinements and in visits to infants and young children :—

**SUMMARY OF INQUIRIES AND OF WORK OF MUNICIPAL NURSES AND MIDWIVES, 1920-1925.**

	1920.	1921.	1922.	1923.	1924.	1925.
Total number of births (including still-born) registered	21,609	21,207	22,368	22,937	23,659	21,984
Percentage of still-births to the total number of births registered ... ..	8.6	9.8	8.5	8.4	7.7	7.8
Number verified by the Nurses ... ..	12,903	12,819	13,365	14,517	12,601	9,961
Percentage of the number verified to the total ... ..	59.7	60.4	59.8	63.1	53.3	45.3
Percentage of the confinements unattended ... ..	3.3	4.1	6.1	5.7	6.5	5.8
Percentage of the confinements attended by unskilled women ... ..	61.0	56.8	59.9	51.7	50.9	44.1
Percentage of the confinements attended by qualified Nurses (other than Municipal) ... ..	4.5	5.1	6.7	7.8	7.2	8.8
Percentage of the confinements attended by Municipal Nurses ... ..	9.7	9.5	9.4	13.3	14.6	14.6
Percentage of children born in Hospitals ... ..	22.1	24.4	17.9	21.5	20.8	26.7
Percentage of children born in healthy condition ... ..	71.4	67.3	71.6	63.9	69.2	71.5
Percentage of children fed on breast ... ..	69.3	66.0	62.0	64.2	73.7	71.9
Percentage of children dying within 30 days ... ..	12.4	12.0	11.7	14.1	12.3	13.9
Percentage of the cases where the mothers left home for work ... ..	32.4	30.8	33.5	28.8	33.5	30.4

It will be seen from the foregoing table that of the total number of 21,984 births (including 1,716 still-births) registered in the City during the year, 9,961 or 45 per cent. were verified by the Municipal Nurses against 53 per cent. in 1924 and 63 per cent. in 1923.

Among the cases wherein enquiries were made, the proportion of births wholly unattended was 6 per cent. and that of confinements attended by unskilled women 44 as against 6 and 51 respectively in 1924.

The percentage of confinements attended by qualified midwives (other than Municipal) was 9 against 7 in 1924 and that of confinements attended by Municipal midwives was 15 as in the preceding year; the percentage of children born in Hospitals (27) showed an increase of 5.9.

The percentage of children born in healthy condition was 71 as against 69 in the previous year and that of children fed on breast was 72 as against 74 in 1924.

The proportion of children dying within 30 days of birth was 14 against 12 per cent. in 1924.

The percentage of mothers who left home for work leaving their children to the care of others shows a decrease of 3.1.

Relief to poor women during confinement in the shape of necessaries and comforts such as milk, bread, bed, blankets, charpoys and linen was continued during the year and dispensed in 426 cases against 448 in 1924 and 466 in 1923.

**Municipal Maternity Homes.**—The number of women admitted to the three Municipal Maternity Homes and the number of beds in each home was as follows :—

	Number of Cases.		No. of Beds.
	1924.	1925.	
Bellasis Road Home .. .. .	740	753	21
Parel Road Home .. .. .	438	300	14
Imamwada Home .. .. .	617	623	16
Total ..	1,795	1,676	51

Thus the total number of women admitted in all the three Municipal Maternity Homes during the year was 1,676 against 1,795 in 1924. The number of cases confined in the three Homes was 1,535 against 1,626 in 1924. Of the women confined, 366 were primiparæ.

**Infant Milk Depots.**—Two Infant Milk Depots have been established, one at the Bellasis Road and the other at the Parel Road Maternity Home for distributing daily pure milk free or at a nominal price; for the benefit of children born in the Homes or under the supervision of the Municipal Nurses, 28,712 seers were distributed at these depots during the year.

**Voluntary Welfare Centres.**—The Maternity and Child Welfare Scheme of the Infant Welfare Society has made much progress. At the end of the year the centres established numbered nine. The Society provides through them (1) advice and instruction to mothers as to infant management, (2) medical aid to infants and (3) a staff of trained nurses for visiting the homes of infants. Each centre is in charge of a Supervisor who is a trained nurse and a midwife. She supervises the milk distribution and assists the Lady Doctor in charge in attending on babies and advising mothers on infant management. There is also a Health Visitor, who is a trained nurse midwife attached to each Centre. She visits the babies in the district and persuades their mothers to take advantage of the Infant Welfare Scheme.

During the year, 38,889 seers of milk were given free, 20,811 seers were sold at 1 anna a seer and 48,569 seers at 2 annas a seer. The number of new admissions at the nine centres was 4,024 and that of attendances for milk, medicine, treatment and advice 306,221.

The number of confinements attended by the Midwives of the Society was 736. A crèche is attached to the Tardeo Centre and now contains 43 children.

### METEOROLOGY OF 1925.

Table No. 34 appended to the Report gives the Meteorological data of 1925.

**Rainfall.**—The total rainfall recorded at the Colaba Government Observatory during 1925 was 50.79 against 52.19 in 1924 and 77.56 in 1923 and was 19.81 inches below the normal (70.60). Rain fell on 65 days during the year against 69 days in 1924 and 90 days in 1923; 2.76 inches on 3 days in May, 27.86 inches on 20 days in June, 8.38 inches on 16 days in July, 7.71 inches on 15 days in August and 3.52 inches on 8 days in September. The rainfalls in October and November were each below 1 inch.

The maximum monthly rainfall was 27.86 inches in June against 16.73 inches in July 1924.

**EPIDEMIC AND OTHER DISEASES.**

C  
**DIAGRAM.**  
**NUMBER OF DEATHS FROM PLAGUE**  
**IN BOMBAY CITY.**  
**DURING**  
**1896 - 1925.**

## EPIDEMIC AND OTHER DISEASES.

**Notification of Infectious Diseases.**—The total number of cases of infectious disease registered during the year was 2,791. Under Section 421 of the Municipal Act, 524 were notified by Medical practitioners, as against 770 in 1924. No cases were notified by Hakims and Vaidyas, who are not required by law to notify. 2,267 cases or 81 per cent. of the total number were found and reported by the District Registrars.

\* Since fees are not paid to the Municipal Registrars for the cases they find and report and since such cases are not certified on the official form of certificate, they are not included in the number of cases notified under Section 421 of the Act.

The diseases to which the notifications received related are set out by Sections in Table No. 4 ( Appendix ).

Year.	Number of Notifications received from			Reported by Municipal Registrars.	Percentage of total Notifications to total number of Cases Registered.
	Medical Practitioners.	Hakims and Vaidyas.	Total.		
1921 ... ..	1,075	8	1,083	3,280	24·8
1922 ... ..	691	5	696	2,439	22·2
1923 ... ..	1,136	14	1,150	3,439	24·8
1924 ... ..	770	2	772	3,753	17·0
1925 ... ..	524	...	524	2,267	18·8

**Plague.**—Plague did not assume epidemic proportions at any time during the year. The number of Plague attacks was 192 against 450 in 1924. The disease caused 174 deaths in the year against 409 in 1924 and 786, the average for 1915-1924. The mortality among reported cases was 90 per cent. as in the previous year.

It will be seen from diagram 'C' facing p. 17, that the number of Plague deaths 174 in 1925 was the lowest since 1896.

The death-rate from Plague during the year was 0·14 per 1,000 among males, 0·11 among females and 0·13 per 1,000 of both sexes.

The incidence of fatal Plague on the two sexes at different age-periods is shown in Table No. 27 (Appendix).

The distribution of deaths among different castes during the year is shown in Table No. 24 and the death-rate in Table No. 25 (Appendix).

The highest death-rate (0·68) was returned for Mazgaon Section while no death from Plague was registered for 7 Sections of the City (*vide* Table No. 13 appended).

**Plague Measures.**—The usual preventive and precautionary measures such as (i) Inoculation, (ii) Rat Destruction, (iii) Evacuation and (iv) Disinfection were continued during the year.

## (i) Inoculation :—

The number of inoculations performed during the year was 5,850 against 6,689 in 1924 as shown in the following table :—

Months.	Inoculations performed by			Total.
	H. M.'s Common Prison.	Bombay Bacteriological Laboratory.	District Registrars.	
January ... ..	489	12	.....	501
February .. ...	475	8	.....	483
March .. ...	501	4	...	505
April ... ..	570	66	100	736
May ... ..	476	59	4	533
June ... ..	535	47	37	619
July ... ..	528	1	.....	529
August ... ..	412	.....	1	413
September ... ..	441	2	.....	443
October ... ..	382	2	.....	384
November ... ..	356	3	.....	359
December... ..	344	.....	1	345
Total .. ..	5,503	204	143	5,850

## (ii) Rat Destruction :—

The total number of rats collected and destroyed during the year was 642,405 against 701,657 in 1924. It will be seen from the following statement that of the 642,405 rats collected and sent to the Parel Laboratory, 315,185 were examined and 2,319 were found infected, giving a ratio of 0.74 infected rats per 100 rats examined as compared with a ratio of 1.16 in 1924 :—

STATEMENT SHOWING THE NUMBER OF RATS SENT TO THE PAREL LABORATORY,  
THE NUMBER EXAMINED AND THE NUMBER FOUND INFECTED IN 1925.

Months.	Number of Rats sent to the Parel Laboratory.	Number of Rats Examined. Total.	Number of Rats found Infected.	Ratio per cent.
January ... ..	62,089	30,652	93	0.30
February ... ..	53,535	27,192	274	1.00
March ... ..	53,419	25,140	477	1.89
April ... ..	52,137	24,417	441	1.80
May ... ..	49,327	26,100	360	1.37
June ... ..	44,825	22,106	177	0.80
July ... ..	48,266	26,122	112	0.42
August ... ..	48,049	22,203	102	0.45
September ... ..	61,253	29,322	86	0.29
October ... ..	60,327	28,201	82	0.29
November ... ..	53,323	25,427	53	0.21
December ... ..	55,855	28,303	62	0.21
Total ... ..	642,405	315,185	2,319	0.74

The percentage of infected rats rose from 0.30 in January to 1.89 in March and then declined gradually to 0.21 in December.

## (iii) Evacuation :—

For the reception of contacts from infected dwellings, temporary Municipal Health Camps were established, as in previous years, at Colaba (1st Koli Lane), Agripada, Parel Tank Road, Annealey Road, Chinchpogli, Arthur Road, Mahim Gardens and near Mahim Railway Station. The semi-permanent Health Camps at Koli Lane (Colaba), Suklaji Street, Tardeo, Arthur Road, Chinchpogli (at the junction of DeLisle Road and Arthur Road) and Mahim Station were maintained in a state of repair during the monsoon months.

## (iv) Disinfection :—

For the destruction of fleas, all rooms in which cases of Plague either in rats or in men had occurred were disinfested with Pesterine. Infected bedding is disinfected by steam.

**Small-pox.**—Small-pox was prevalent in the City throughout the year and caused 570 deaths against 1,242 in 1924 and 594, the average for the preceding ten years (1915-1924). The number of attacks from Small-pox registered during the year was 975 (including 23 imported cases) against 2,097 attacks in 1924.

The death-rate from Small-pox during the year was 0·45 against 1·00 in 1924, and 0·55, the average during the preceding decennium.

As usual, the death-rate from Small-pox attained its maximum between March and May and fell to a low figure in the subsequent months of the year, *vide* Table 11 (Appendix). The disease assumed epidemic proportions for 4 weeks from 21st March.

Of the total number of 570 deaths from Small-pox, 336 occurred in males and 234 in females; the death-rate was 0·40 among males and 0·53 among females.

One hundred and five deaths from Small-pox occurred in children under one year of age and 164 in children aged 1—5 years. Of the total deaths, 269 or 47 per cent. thus occurred in the first five years of life against 48 per cent. in 1924.

The highest number of deaths from Small-pox (114) was recorded in Worli Section.

**Vaccination.**—There are 19 Vaccination Stations in the City. Three stations are open in the morning on every Monday, Wednesday, Friday and Saturday and two on every morning during the rest of the week. The station at Princess Street is open every Sunday and Wednesday morning and when Small-pox is prevalent in the City, during the afternoon hours on working days.

The total number of primary vaccinations and of re-vaccinations performed during the year was 20,400 and 15,220 respectively as against 20,135 and 26,508 in 1924. Further particulars are shown in the report of the Superintendent of Vaccination and in Tables Nos. 29, 30 and 31 appended to this Report.

The proportion of primary vaccination (13,544) in children under one year of age to the total number of births (20,268) registered during the year was 67 per cent.

Of the 105 infants under one year of age who died of Small-pox during the year, 72 were not vaccinated and 5 were vaccinated during the incubation period. In the remaining 28 cases, the vaccinal condition was not ascertained.

The manufacture of vaccine at the Municipal Central Vaccine Depot was discontinued in January 1923 and lymph has since been obtained from the Director of the Vaccine Institute, Belgaum, *vide* Corporation Resolution No. 7843 of 4th December 1922.

**Cholera.**—There were 18 attacks and 12 deaths from Cholera during the year as against 57 attacks and 34 deaths in 1924. Of the total number of cases 2 were imported.

The death-rate from Cholera was 0·01 as against 0·02 in 1924, and 1·00 the average for the preceding decennium.

All the 12 deaths from Cholera were among males.

The number of deaths and the death-rate from Cholera in each Section of the City are set out in Table No. 10 and the incidence by age-periods in Table No. 27 (Appendix).

The water from Tansa Lake was chlorinated from 12th May to 2nd September 1925, as a precautionary measure.

**Influenza.**—The number of deaths registered as due to Influenza during the year was 94. Diseases of the Respiratory System to which deaths from Influenza are frequently attributed were registered as the cause of death in 12,151 cases as against 118 and 14,410 respectively in 1924. The number of deaths (94) from Influenza in 1925 was 684 less than the average of the last five years (1920-1924).

Of the 94 deaths from Influenza, 66 were among males and 28 among females; the death-rates per 1,000 of the sex population was 0·08 for males and 0·06 for females.

**Tuberculosis.**—The number of deaths from Tuberculosis was 1,404 and the death-rate 1·11 per 1,000 of the population. Of these, 1,202 were due to Phthisis (Pulmonary Tuberculosis) and 202 to other Tuberculous Diseases. The annual death-rates in previous years from Tuberculosis have been as follows :—

Period.	Annual Death-rate from Tuberculosis.		
	Pulmonary.	Other Forms.	All Forms.
1915-1924 .. .. .	1·56	0·20	1·76
1920-1924 .. .. .	1·22	0·13	1·35
1924 .. .. .	1·15	0·11	1·26
1925 .. .. .	0·95	0·16	1·11

There were 745 deaths among males and 659 among females. The disease caused a greater number of deaths among persons in the age-group of 20 to 40 years than in any other age period, *vide* Table No. 27 (Appendix).

The monthly variation in the number of deaths in each Section together with the death-rate from Tuberculosis is set out in Table No. 18 and the death-rate among different castes in Table No. 25 (Appendix).

#### The Anti-Tuberculosis Measures.

There are two dispensaries for Out-patients suffering from Tuberculosis—one at the Sanitary Institute, Princess Street, and the other in Foras Road and the "Turner Sanatorium" containing 32 beds for In-patients on Bhoiwada Hill, Parel.

Each dispensary is in charge of a Medical Officer and three nurses are employed for visiting the patients who attend, reporting on their house conditions and seeing that they follow in their homes the advice which they receive. Of the three nurses, two are employed at Princess Street and one at Foras Road.

During the year under report the total number of Tuberculous patients treated at the two Dispensaries was 1,327; the number treated in 1924 was 1,302.

The racial and sex distribution of these cases was as under :—

Castes.	Males.	Females.	Total.
Hindus .. .. .	318	197	515
Mussalmans .. .. .	203	274	477
Parsees .. .. .	45	51	96
Christians .. .. .	130	89	219
Jews .. .. .	12	8	20
Total .. .. .	708	619	1,327

Of the 1,327 cases, 1,105 were cases of Pulmonary Tuberculosis and 222 cases of Surgical Tuberculosis. The total attendances numbered 14,841.

The Medical Officers paid 2,661 domiciliary visits to see patients too ill to attend the Dispensary.

During the year, 133 new patients were admitted to the Sanatorium and 25 remained over from the previous year. Of these, 38 were discharged improved or much improved, 72 were discharged at their own request, 28 died and 20 were under treatment at the end of the year.

The racial distribution of the 133 new + 25 old patients was as follows :—

Hindus	..	..	..	..	..	..	..	..	44
Mussalmans	..	..	..	..	..	..	..	..	38
Parsees	..	..	..	..	..	..	..	..	16
Christians	..	..	..	..	..	..	..	..	65
Europeans	..	..	..	..	..	..	..	..	...
Total									158

Owing to the inadequate provision of hospital accommodation for advanced cases in the City a number of such cases were admitted into the Sanatorium with a view to preventing the spread of infection at home and to affording the unfortunate patients a cheerful and comfortable spot where they could pass their last days under skilled supervision.

In the Sanatorium a judicious regulation of rest and exercise is observed. A few parlour games and a small library are provided for the inmates. Exercise is provided by light physical drill, the cleaning and repairing of furniture, gardening, etc., under the orders of the Resident Medical Officer and of the Honorary Consulting Physician. The X-Ray Apparatus for the early diagnosis of Pulmonary Tuberculosis and the treatment of tuberculous glands has given excellent results in the hands of the operator Dr. Chiriaieff, under the supervision of Dr. Desai.

At Princess Street, the headquarters of the Anti-Tuberculosis organisation there is a Tuberculosis Museum of exhibits open to the public for their instruction and a stock of literature which is supplied to visitors and also distributed by the nurses on their visits to the patients under treatment at the dispensaries.

### Malaria

Malaria was registered as the cause of 581 deaths. 2,337 deaths were registered as due to Ague and Remittent Fevers. Under the last two heads a number of deaths are no doubt included which were due not to Malaria but to one or the other of the various diseases such as Typhoid, Tuberculosis and influenza in which fever may be a prominent symptom.

**Average number of deaths.**—The numbers of deaths from Malaria and from Ague and Remittent Fever in 1925 were 581 and 2,337 and the annual average in the ten years 1915-1924 as shown in Table No. 21 were 340 and 3,033 respectively.

Out of the total number of deaths due to Malaria—

- 135 were certified by Medical Practitioners ;
- 163 were certified by Hospitals ;
- 43 Road-side cases were certified by the Police ; and
- 240 were verified by the Staff after making inquiries from the relatives.

**Malaria in Military Hospitals.**—The following table shows the number of cases admitted and the deaths from Malaria in the different Military Hospitals in the City during the last 5 years :—

	1921.	1922.	1923.	1924.	1925.
Attacks	2,474	793	391	481	390
Deaths	16	2	1	3	Nil.

**Anti-Malarial Measures.**—Measures for gauging the incidence of Malaria were continued during the year.

## SPLEEN EXAMINATION BY SECTIONS AND WARDS, 1925.

Children of the poorer classes were examined for enlargement of the spleen in dwelling houses and chawls and in Charitable Institutions with the following results :—

Ward.	Sections.	Total No. of children examined.	Total No. with enlarged spleen.	Percentage.	Remarks.
A	Upper Colaba...	359	41	11.43	
	Middle and Lower Colaba ...

**Spleen Rate.**—The spleen rate for the whole City was 7.60 against 8.13 in 1924 and 7.80 in 1922.

The spleen rate was higher than the mean of the whole City in 11 Sections of the City.

The following table shows the comparative spleen rate for Fort, North and Esplanade Sections:—

Sections—	1922.	1923.	1924.	1925.
Fort North .. .. .	10.96	14.88	7.60	9.19
Esplanade .. .. .	11.13	9.73	6.61	5.69

The following table shows the spleen rates by castes in 1925 as compared with the preceding three years:—

Castes.	1925			Percentage.		
	Total number of children examined.	Number found with enlarged spleen.	Percentage.	1924.	1923.	1922.
Hindus .. .. .	6,756	501	7.41	8.25	8.64	8.10
Mussalmans .. .. .	730	65	8.90	7.75	9.13	10.22

Total	..	..	..	..	..	..	..	..	485	403	488	581

**Prosecutions.**—The following table shows the number of prosecutions instituted during the year 1925 with their results:—

Number of prosecutions .. .. .	1,022
Requirements of Notice completed	791
Before service of Summons .. .. .	334
After service of Summons .. .. .	457
Penalties inflicted .. .. .	89
Cases dismissed .. .. .	82
Cases pending .. .. .	30
Total .. .. .	1,022

**Quinine and Cinchona.**—The amount of Quinine and Cinchona Febrifuge supplied to patients and others free of charge through the 12 Municipal Dispensaries and other Municipal Agencies and at the Municipal Maternity and Infectious Diseases Hospitals were as follows:—

Grains per Tablet.	Number of Tablets.	Weight of Quinine or C. F. Powder in lbs. lb. oz.
Quinine gr. 2 .. .. .	11,650	3 0
"  "  4 .. .. .	10,500	2 11
"  "  5 .. .. .	350	0 3
Cinchona Febrifuge 3 gr. .. .. .	29,850	11 10
"  "  4 gr. .. .. .	17,704	9 3
Total .. .. .	....	26 11
Quinine Sulphate Powder .. .. .	....	75 11
Cinchona Febrifuge Powder .. .. .	....	51 1
Total weight of Quinine and Cinchona .. .. .		155 7

**Cinchona Febrifuge.**—The following mixture was recommended for use in the dispensaries in suitable cases of simple tertian fevers:—

Pul. Cinchona Febrifuge .. .. .	gr. X.
Pul. Acid Citrici .. .. .	gr. XX.
Mag. Sulphates .. .. .	gr. XXX.
Ext. Glycyrrhiza Liq. .. .. .	oz. i.
Spirit Chloroform .. .. .	ms. X.
Aqua .. .. .	oz. 1.

Mixture oz. 1. thrice a day for adults.

The whole of the Quinine Sulphate Powder and Cinchona Febrifuge and 57,204 Tablets were administered in Medical Institutions to patients suffering or suspected to be suffering from Malaria. 12,850 Tablets were distributed by Municipal Inspectors and others partly for treatment and partly for prophylactic purposes.

**Wells.**—The following table shows the number of Wells by Wards and Sections filled in, protected and examined for larvæ during the year 1925 :—

Ward.	Sections.	Total in the locality.	Dealt with during the year.			Examined for Larvæ.		
			Filled in.	Covered.		Total.	Breeding.	Not breeding.
				Completely.	With trap door.

These wells have been filled in from 1913 to 1925.

**Deaths in Institutions.**—The following table shows the number of cases and deaths in the different institutions in the City from Malaria during the year 1925 :—

Name of the Institution.	Admissions.	Deaths.
Colaba British Station Hospital .. ..	139	..
Marine Lines Indian Station Hospital .. ..	251	..
St. George's Hospital .. ..	1,238	15
Goculdas Tejpal Hospital .. ..	3,202	26
Cama and Albles Hospitals .. ..	282	..
Sir J. J. Hospital .. ..	4,767	101
Northcote Police Hospital .. ..	5,321	6
G. I. P. Ry. Infirmary .. ..	3,949	..
Dr. Masina's Hospital .. ..	330	3
Adam's Wylie Hospital .. ..	687	..

**Legal Powers.**—An amendment of Section 381 of the Bombay Municipal Act giving adequate legal powers is now before the Government.

**Storm-Water Entrances.**—Systematic treatment of storm-water entrances was carried out as usual during the rainy season.

**Fire Buckets.**—In all Mills there are a large number of buckets of water kept in the working rooms as precautionary measure against fire in accordance with the Fire Insurance rules. These buckets breed larvæ of *Stegomyia* mosquitoes and require constant attention.

**Tubs in Bullock and Horse Stables.**—In spite of repeated action these tubs continued breeding and vigorous action had to be repeatedly taken.

**Cisterns.**—Defective non-mosquito-proof manhole covers were, in response to letters or Notices, replaced by the new hinged iron standard caps under lock and key in 1,604 cases during the year.

**Road watering Hydrants.**—The attention of the Engineers had been drawn to the large number of road watering Hydrants found either leaking or tampered with by the public who draw water from them and frequently leave them open.

**Malabar Hill Reservoir.**—Adequate drainage has been provided on the East—that on the West is under consideration.

**Victoria Gardens**—Condition is the same.

**Foreshore at Nepean Sea and Warden Roads.**—Condition is the same, but they are regularly treated.

**Clerk Road Basin.**—This has been filled in. Considerable improvement has taken place re: mosquito nuisance in the neighbourhood.

**Quarry holes, etc.**—A large number of low-lying plots of land and quarry holes, mostly in F & G Wards, were filled in during the year.

**Cellars on Ballard Estate:**—Out of 5 one No. 30 has been filled in. The work in respect of plot No. 35 is in progress. Nothing has been done in respect of plots Nos. 20, 45 and 46.

**Tanks.**—Naigaum Tank has been partly filled in.

**Bhuleshwar Tank:**—It has been decided, *vide* Corporation Resolution No. 13902 of 18th February 1926, to carry out the following works :—

1. The tank to be filled in by the Municipality.
2. The portion of the reclaimed area to be thrown into the road way without compensation.
3. The rest to be converted into garden reserved for the use of Hindus only.
4. The garden to be maintained at Municipal expense.
5. The garden to be named by any name suggested by the Trustees.
6. A tank of adequate size for bathing to be provided by the Municipality.

**Royal Dockyard, Naval Yard and Arsenal.**—There has been a great improvement in these areas, which are regularly attended to by the Military Staff during the rains.

**B. B. & C. I. Railway and G. I. P. Railway.**—The attention of the Railway authorities was frequently drawn to the breeding places in their area.

**Indian Ports Act.**—Rules and regulations for preventing the breeding of mosquitoes in vessels of all classes are still under the consideration of Government.

**Buildings under Construction.**—Concrete buildings under construction continue to give a great deal of trouble. Constant references have to be made to the owners either to treat the water with disinfectants or to drain it off.

**St. George's Hospital.**—All the cisterns are now in a mosquito-proof condition.

**Development Department Chawls in F & G Wards.**—The cisterns on the terraces of these chawls were constantly found open and breeding larvæ of mosquitoes. Many references were made to the Engineers in charge to close up the lids of the iron cisterns and to provide new covers to the cement ones. The work is in progress.

A spleen census of the children of the labourers working in these chawls was taken with the following result :—

Section.	No. of children		Per cent.
	Examined.	Having enlarged spleen.	
Worli .. .. .	1,473	104	7.06

**Back Bay Reclamation.**—Reclamation of the area in Colaba was in hand and the dredger was working upto the middle of May. It again commenced to work in November. The Medical Officer of the Development Department is looking after this area and treating the pools and puddles with crude oil. Small larvæ of Anopheles mosquitoes were found to breed in these pools but they were not allowed to reach maturity as they were killed by the oil. A spleen census and examination of the blood of the children in the labourers camp in Colaba were carried out in 1925 by the Special Medical Officer with the following result :—

No. examined.	No. with enlarged spleen.	Percentage.
75	2	2.6

**Parasite Rate.**

No. examined.	No. found with parasites.	Percentage.
75	2	2.6
..	..	..

This area is under the constant observation of the Sanitary Committee of the Development Department which includes in its numbers the Executive Health Officer.

**Orphanages in Tarwady Section.**—These are situated in a low-lying area surrounded by Mills and stables. The spleen index in these Institutions is generally high. The following shows the spleen rate during the year 1925 :—

	1925. Spleen Rate.
Mahomedan Orphanage .. .. .	24.48
Hindu Orphanage .. .. .	27.27

**Blood Slides.**—In addition to Random Sampling the District Registrars were requested to take blood specimens of patients attending the Municipal Dispensaries for fevers. In all 629 slides were received and examined by the Municipal Analyst in the Municipal Laboratory. Out of these 327 showed parasites of Malaria giving a percentage of 39.44, the highest percentage being in Nos. 9 and 10 Districts. Out of 327 positive blood films examined 48 showed malignant types of the parasite. The remaining 279 showed parasites of the Benign Tertian type.

**Propaganda.**—Big placards on "What to do to prevent Malaria" were posted in conspicuous parts of the City and leaflets on the same subject are being continuously distributed in different localities.

**Summary of the work done in 1925.**—The following table shows the summary of work done in the year 1925 :—

Number of wells filled in .. .. .	64
"    "    hermetically covered .. .. .	34
"    "    covered with trap doors .. .. .	25
"    inspections of buildings .. .. .	108,467
"    notices issued for wells .. .. .	667
"    "    "    cisterns, etc. .. .. .	2,394
"    cisterns made mosquito-proof .. .. .	2,641
"    "    provided with standard covers .. .. .	1,604
"    children examined for enlargement of the spleen .. .. .	9,500
"    blood slides (random sampling) examined .. .. .	1,146
"    blood slides of dispensary patients .. .. .	829
"    Quinine pills distributed 2 grs. .. .. .	11,650
"    "    "    4 " .. .. .	10,500
"    "    "    5 " .. .. .	350
"    Cinchona Febrifuge tablets distributed .. .. .	47,554
"    Pools treated with pesterine or kerosine emulsion .. .. .	2,248
"    odd receptacles removed .. .. .	6,264
"    low-lying areas filled in .. .. .	143
"    big tanks filled in .. .. .	..
"    correspondence papers (new cases) dealt with .. .. .	2,026

Few realise the debt owed by the public to Dr. K. B. Shroff for the work he has organised and carried out by his own personal endeavours and those of the staff under him.

This branch of the Department has always been unpopular. The measures called for are resented as is the expense which they involve whilst the malaria and the prevalence of mosquitoes resulting from failure to comply with necessary requirements are resented in an equal degree.

In the face of opposition Dr. K. B. Shroff has carried on and in twelve years has brought about a complete transformation of the position as it existed when he was appointed.

In those days there were in the southern half of the Island some three thousand odd open wells and at least five times that number of non-mosquitoproof cisterns all actual or potential breeding grounds for the carriers of malaria. More than three thousand wells have been covered in in the face of strenuous opposition and of 27,000 cisterns in the City at the present time some 25,000 are provided with mosquitoproof covers.

The prevalence of mosquitoes has been reduced to a level probably below that of any other large City in India and his successor will have good grounds for gratitude to Dr. Shroff for the lasting results which he has achieved.

The work done is not of a class to be noticed by the casual observer, but its magnitude and thoroughness would be appreciated by any expert who had seen the City as it was and who sees the conditions as they now are.

#### Venereal Diseases.

The number of deaths ascribed to Venereal Diseases during the year was 41 against 45 in 1924. Of the 41 deaths, 39 were due to Syphilis.

**League for Combating Venereal Diseases.**—Early in the year 1918, a League for Combating Venereal Diseases was established in Bombay under voluntary management, with the Head Office, Information Bureau and an Outdoor Dispensary at No. 66, Lamington Road. The management has been taken over by the Bombay Municipality from 1st April 1925. At the Information Bureau, information and advice are given to the public and

educational literature in English and the Vernaculars is distributed. The Dispensary is well equipped with all the necessaries for the free diagnosis and treatment of Venereal Diseases by modern methods. The Staff of the Dispensary consists of a Medical Officer in charge, a Lady Physician, a Nurse and Dispensary and Laboratory Assistants.

**Post Graduate Course.**—A post-graduate course of training for qualified medical practitioners is held three times a year. It is conducted by the Medical Officer in charge, at the Dispensary, where provision is made for laboratory instruction and ample facilities are available for clinical work. During 1925-1926 twelve post-graduate students have received training and completed their courses.

**Registration and Racial Distribution.**—During the year ending 31st January 1926, the number of patients registered in the Dispensary was 2,284—1,744 males and 540 females. The racial distribution of these cases was as follows:—

	Males.	Females.
Europeans .. .. .	41	14
Anglo-Indians .. .. .	62	19
Indian Christians .. .. .	256	91
Hindus .. .. .	768	195
Mussalmans .. .. .	492	164
Parsees .. .. .	79	35
Jews .. .. .	20	13
Japanese, Chinese and other castes ..	26	9
<b>Total ..</b>	<b>1,744</b>	<b>540</b>

The average daily attendance of patients was as follows:—

Males.		Females.		Total.
New.	Old.	New.	Old.	
7	56	2	32	97.

During the year under report 707 injections of Neo-Salvarsan were given and 341 Wassermann Tests were made, besides a very large number of other injections and tests.

Out of the 2,284 cases registered during the year, 186 ceased attending before the diagnosis was completed and 242 (192 males and 50 females) were diagnosed as non-venereal. The remaining 1,856 with the addition of 265 cases carried over from last year give a total of 2,121 (1,676 males and 445 females) venereal cases which are classified as follows:—

	Males.	Females.	Total
Syphilis .. .. .	689	144	833
Gonorrhœa .. .. .	727	242	969
Soft Chancre .. .. .	260	59	319
<b>Total ..</b>	<b>1,676</b>	<b>445</b>	<b>2,121</b>

**RESULT OF TREATMENT.**

**MEDICAL RELIEF.**

**Municipal Dispensaries.**—The thirteen Municipal Dispensaries were open throughout the year to administer, as in the past, free medical relief to the sick poor of the City.

The number of new cases treated at the dispensaries during the year was 78,665 (55,284 males and 23,381 females) as against 80,748 in 1924. The total attendances numbered 326,780 as against 392,763 in 1924. These figures include 1,783 visits by the Dispensary Medical Officers to patients in their homes.

The diseases treated at each dispensary are shown in Table No. 5 (Appendix).

In addition, 9,062 new cases (7,608 women and 1,454 children) were treated at the two dispensaries opened on the 16th February 1925 at No. 4 and No. 7 District Offices for women and children; the total number of attendances at these dispensaries was 60,001.

The free dispensary for the treatment of eye diseases opened and maintained in the Sanitary Institute, Princess Street, under Corporation Resolution No. 12,677 of 5th February 1920, was removed in June 1924 to the Bai Lingubai Building in Kamathipura and named "Rajanna Jalooji charitable Eye dispensary." It was attended throughout the year gratuitously by Dr. D. D. Sathaye, Dr. C. R. Athavle and Dr. D. S. Sardesai. The dispensary is fully equipped and is open every day from 8-30 a.m. to 9-30 a.m. except on Sundays. The total number of new cases treated in 1925 at this dispensary was 601.

I have much pleasure in bringing to the notice of the Municipal Commissioner and the Corporation the valuable honorary services rendered by these gentlemen.

### **PUBLIC HEALTH ADMINISTRATION.**

For administrative purposes, the City has been divided into seven wards A to G, each under the charge of an Assistant Health Officer who is responsible for the sanitary work in his ward. A & B Wards and C & D Wards constitute two combined charges each under one Assistant Health Officer. There are thus five Assistant Health Officers respectively in charge of the five main divisions of the City and the posts of the two Deputy Health Officers formerly appointed to assist respectively in the Divisions which included two Wards within their boundaries have been abolished since 1st April 1925. The Assistant Health Officers are under the direct control of the Executive Health Officer and of the Deputy Executive Health Officer who form part of the central administration.

The Island has been further sub-divided into 50 Sections in charge of Inspectors styled Medical Assistants and each Inspector in the District to which he is appointed is required to undertake the work incidental to Registration and Sanitation as well. As a necessary corollary, all the newly appointed Inspectors are required to be qualified Medical Practitioners and to pass the Sanitary Surveyor's Examination.

The 50 Sections have been arranged in groups to form 10 Registration and Sanitary Districts, the work in each of the 10 Districts being supervised by a Senior and Junior Medical Inspector. There are thus 10 Senior and 10 Junior Medical Inspectors who are required to be Medical Graduates and to work under the orders of the Assistant Health Officers of the Wards in which their respective Districts are situated. An exception in the rule as to the possession of a medical qualification is made in favour of the old grade Sanitary and Assistant Sanitary Inspectors.

In addition to the 49 Medical Assistants in charge of Sections, there are 13 Medical Assistants in charge of the 13 Municipal Dispensaries. Their duty is to provide free medical relief to the sick poor of the City. Each of the ten Registration Offices has one trained nurse who is also a qualified midwife. Her duty is to advise mothers of the poorer classes in the care of their children and to attend women of the poorer classes in their confinement.

For the prevention of adulteration, 5 Sub-Inspectors are employed to take samples of milk offered for sale and to submit them for examination to the Municipal Analyst. Sampling is also carried out by the 20 Senior and Junior Medical Inspectors.

The Malaria Branch was re-opened on 8th January 1923 and anti-malarial measures during the year were carried out by a staff consisting of 5 Medical Inspectors, 38 Sub-Inspectors, 4 mucedams and 76 coolies, under the direct control of the Deputy Executive Health Officer.

The analysis of samples of food and of samples of the Municipal water-supply is carried out by the Municipal Analyst in a laboratory attached to the Health Department.

The Veterinary staff includes 1 Senior Inspector, 1 Assistant Senior Inspector and 3 Inspectors who are all qualified Veterinary Surgeons and inspect the milch-cattle stables in the City and the Municipal bullocks and are in charge of the Municipal Bullock Hospital and of the Segregation sheds at Tardeo Flats. In addition to this staff, there are 12 Veterinary Overseers who are responsible under the Conservancy Supervisors for the health of the bullocks in the eleven Health Department Stables.

The Vaccination staff includes besides the Superintendent and the Assistant Superintendent, 1 Head Vaccinator and 9 other Vaccinators.

**Conservancy.**—The Conservancy staff consisted in 1925 of:—

1	Conservancy Superintendent.
3	Supervisors.
10	Assistant Supervisors.
7	Senior Overseers.
59	Overseers.
20	Depot Attendants.
2,197	Halalkhores.
4,089	Scavengers.
918	Cart Drivers.

The average strength of bullocks provided for the scavenging and cesspool carts was 1,150 pairs. The Municipal bullock stables in the City number eleven.

The number of carts of catchra, drain silt and other refuse emptied at the Tardeo Flats and other Depots in the City during the year was 719,979 against 717,289 in the preceding year; of these, 547,116 were departmental and 172,863 private.

During the year 80,920 night-soil and cesspool cart-loads and 4,010,063 night-soil baskets were emptied at the several night-soil depots in the City as compared with 116,687 night-soil and cesspool cart-loads and 4,252,234 night-soil baskets in 1924. As compared with the preceding year, there is a decrease of 35,767 night-soil and cesspool cart-loads and of 242,171 baskets. During the year, 182 water-closets were substituted for basket privies as against 108 in the preceding year.

**Stray and ownerless Dogs.**—In the year under review, 9,246 stray dogs were caught; out of this number, 9,221 ownerless dogs were destroyed by carbonic acid gas at the Lethal Chamber provided for the purpose on Tardeo Flats and 25 were returned to their respective owners.

**Milk Supply.**—The inquiries made and the reports submitted by the Dairy Superintendent show that the present sources of the milk consumed in Bombay are approximately as follows:—

Source.	Distance in Miles.	Hours.	Quantity in gallons.
93 Stables in the City—			
Buffaloes 4,250	....	....	18,000
Cows 760	....	....	
B. B. & C. I. Railway—			
Nadiad	281	10½	2,890
Palghar	58	2	
G. I. P. Railway—			
Kirkeo	115	4½	200
Other Stations	....	....	1,765
Ghatkopar, Bandra, etc., by Road	....	....	145
Total Number of gallons per day	....	....	23,000

Number of Milkshops in the City 540.

The total quantity of 23,000 gallons per day is equivalent to 3.1 ounces per head of the population, an amount which must be regarded as insufficient for the consumers of whom a majority are vegetarians.

In the non-vegetarian diet of a healthy adult efficient substitutes for milk can no doubt be provided, but for children upto the age 12 or 14 years and for vegetarians milk may be regarded as essential.

Of the milk consumed 78 per cent. is produced in milch cattle stables within the City, and 1 per cent. is brought in from the suburbs by road. Twenty-one per cent. comes by rail.

During the year 1,112 hawkers importing milk by train were inspected. Three hundred and seventy-six were found to have no license and 352 were carrying the milk in open cans without covers.

Prosecutions were instituted in 340 cases of hawkers found selling milk in the streets without a license. Details in regard to the adulteration of milk and the number of prosecutions (1,858) for the sale of adulterated milk, will be found in the report of the Municipal Analyst.

The total number of prosecutions for the sale of milk by unlicensed persons and for breaches of the license regulations was 2,225.

The scheme for the abolition of stables in the City and their transfer to the rural areas outside Bombay has unfortunately been suspended owing to legal difficulties which prevent the Corporation from purchasing land outside the Municipal limits and from subsidizing private dairy enterprise on condition that they should be conducted on sanitary and modern lines.

In these circumstances the post of Dairy Superintendent was abolished in November 1925.

**Unwholesome Food.**—The following list shows the articles of unsound food seized and destroyed under Sections 415 and 416 of the Municipal Act :—

Fruits (Fresh) .. .. .	No.	3,994	Condensed Milk .. .. .	tins	634
Fruits (Dry) .. .. .	lbs.	800	Biscuits .. .. .	lbs.	2,037

Number of summonses in 1924 .. .. .	7,879	1,714

## SANITARY STATE OF THE CITY.

The principal causes of the insanitary conditions which maintain the death-rate at a high level even in non-epidemic periods are the insufficiency of the water supply, the insufficiency of the sewers, the continuance of the basket privy system of conservancy, the density of houses and persons per acre and overcrowding of persons in rooms and tenements.

**Water Supply.**—The quantity of water available throughout the year has been well above the average, but the supply is intermittent and the pressure insufficient in many cases to fill the storage cisterns on the roofs of high buildings. Serious nuisance thus arises through the failure of the supply to the flushing tanks of water-closets.

From the month of July with the completion of the greater part of the new pipe lines from Tansa Lake, the water supply of the City has been ample for the needs of the consumer, but has not yet been made constant.

At present the supply is unfiltered, but all water from Tansa Lake was chlorinated during the monsoon months.

No relief will be obtained until the third pipe line from Tansa Lake has been completed. The construction of the pipe line is progressing rapidly.

**Drainage.**—Reference was made in some detail in my Report for 1920 to the gravity of the insanitary conditions which result from the inadequacy of the present sewer system and the continuance of the old insanitary basket privies. The scheme for remodelling and enlarging the whole system is still under consideration and no progress has been made except in the construction of new sewers to be used when the location of the outfall has been decided upon.

## HOUSING.

**Insanitary Dwellings.**—The routine inspection of dwellings and premises presenting or likely to present sanitary defects has been systematised under a scheme whereby each one of the 50 Medical Assistants and 20 Medical Inspectors is required to devote not less than two afternoons a week to the inspection of houses in streets or areas definitely allotted for the purpose by the Assistant Health Officers. The scheme aims at the inspection of not less than 10 houses per week by each member of the inspectorial staff or 35,000 houses in all in the year. Were inspection the single object in view, these numbers could be doubled or trebled. Since however the primary inspections are only the first step in securing the remedy of the sanitary defects discovered, their number is strictly limited by the number of secondary visits which the enforcement of the requirements of the Department entails.

Six hundred and eighty-five insanitary dwellings were evacuated during the year, the great majority being insanitary kutcha huts.

**Sanitary Inspection.**—In Table 33 (Appendix) will be found a summary of the inspections (176,533) made by the Medical Inspectors and Medical Assistants during the year and of the sanitary works (13,281) carried in response to their orders.

**Insanitary Areas.**—The action taken by the City Improvement Trust in regard to insanitary areas represented by the Municipal Commissioner under Section 24 of the Bombay Improvement Trust Act, 1898, was described in some detail on pp. 34 and 35 of my Annual Report for 1921.

Financial considerations and the difficulty experienced in preserving a balance between the number of insanitary dwellings demolished and the number of new tenements provided to take their place have led to the postponement of action in a number of the areas which have been represented.

The second obstacle has now been removed by the Development Directorate Scheme for the construction of 50,000 new tenements for the working classes and it is to be hoped that funds will shortly be found for dealing with the remainder of the slum areas which have been represented.

**Provision of New Dwellings.**—Since the year 1898, the City Improvement Trust has provided 42,780 new tenements as against 29,975 tenements demolished.

During the year 1924-25, 11,341 new tenements were provided and 1,421 only were demolished, the net gain to the City being 9,920 new tenements.

Progress has been made in pursuance of the policy of the Corporation which aims at the provision of 8,000 tenements in all for their employees.

Under the Development Directorate Scheme, 50,000 new tenements will ultimately be provided. Of this number, 16,864 had been completed at the end of the year 1924-1925.

PUBLIC HEALTH DEPARTMENT,

**APPENDIX,**

## REPORT OF THE ARTHUR ROAD HOSPITAL FOR THE YEAR 1925.

### I.—STAFF.

I was in continuous charge of the Hospital throughout the year.

The present staff of the Hospital comprises the Medical Superintendent, two Medical Assistants, one Matron, one Sister, three Senior Nurses and three Junior Nurses.

### II.—GENERAL STATISTICS.

TABLE I.

	Small-pox.	Chicken-pox.	Measles.	Cholera.	Influenza.	Other diseases.	Total.
Patients remaining in the Hospital on 31st December 1924, at 8 p.m.	8	...	...	...	...	...	8
Admitted from 1st January to 31st December 1925.	452	1	1	2	1	61	518

Mortality rate per cent. ... ..	25.2	...	...	50.0	...	13.1	23.7
Patients remaining in the Hospital on the 31st December 1925, at 8 p.m.	10	...	...	...	...	...	10

The following table shows the distribution of Admissions throughout the year, 1925.

TABLE II.

Month.	Small-pox.	Chicken-pox.	Measles.	Cholera.	Influenza.	Other diseases.	Total.	Discharged.	Deaths.	Daily average No. of patients in the Hospital.
January	38	..	..	..	..	2	40	31	9	16
February	94	1	1	..	..	2	98	74	24	49
March	162	..	..	..	..	6	168	132	36	93
April	68	..	..	..	..	6	74	55	19	89
May	33	..	..	..	..	3	36	22	14	29
June	13	..	..	..	1	2	16	11	5	20
July	4	..	..	2	..	10	16	14	2	14
August	2	..	..	..	..	8	10	10	..	5
September	7	..	..	..	..	2	9	8	1	5
October	7	..	..	..	..	10	17	16	1	9
November	7	..	..	..	..	5	12	7	5	6
December	17	..	..	..	..	5	22	14	8	6
Total	452	1	1	2	1	61	518	394	124	27

The total number of admissions during the year was 518 as compared with 1,126 in the year 1924. The total average daily number of patients was 27. The average weekly cost per patient was Rs. 14-7-7 as shown below :—

	Rs.	a.	p.
Diets .. .. .	6	9	7
Medicines .. .. .	3	1	0
Clothing .. .. .	1	12	0
Disinfectants .. .. .	1	8	0
Stores .. .. .	1	9	0
<b>Total Rs.</b> ..	<b>14</b>	<b>7</b>	<b>7</b>

**Death Rate.**—The fatality rate for all diseases was 23·7 as compared with 22·7 per cent. last year.

**European and Anglo-Indian patients.**—The total number of admissions among European and Anglo-Indian patients was 20 as compared with 37 in the previous year.

They were distributed as follows :—

17 Small-pox, 2 Cholera, 1 Other Diseases. Out of 17 Small-pox cases 5 were unvaccinated cases with 4 deaths and 12 vaccinated cases with 2 deaths.

**Military Patients.**—Military admissions totalled one only as compared to two last year.

**Accommodation.**—The following table shows the total number of beds in the Hospital in normal times :—

TABLE III.

Sections.	Number of wards.	Beds per ward.	Total beds.
Indian ... .. .	6	22	132
European (old) ... .. .	2	14	28
„ (new) ... .. .	4	14	56
<b>Total ...</b>	<b>12</b>	<b>...</b>	<b>216</b>

These figures are calculated on an allowance of 100 square feet of floor space per bed. In an emergency the number of beds can be increased.

### III.—DISEASES.

**Small-pox.**—Small-pox prevailed throughout the year. The highest number of admissions was 162 in March.

**Vaccination.**—There were 452 Small-pox patients of whom 276 were unvaccinated and 176 vaccinated.

The following table compares the vaccinal condition of patients at all ages admitted during this year.

TABLE IV.

Age.	Vaccinated.		Unvaccinated.

Total ... ..	8	...	8	...	68	20	48	29.4

The following table shows the complications of Small-Pox :—

TABLE VII.

Complications.	No. of cases.
Total number of completed cases .. .. .	452
Local Complications—	
Boils and small abscesses .. .. .	42
Otitis .. .. .	18
Nephritis .. .. .	13
Conjunctivitis .. .. .	25
Corneal Ulcer .. .. .	18
Orchitis .. .. .	7
Parotitis .. .. .	9
General Complications—	
Bronchitis .. .. .	28
Laryngitis .. .. .	17
Oedema of Glottis .. .. .	15
Septicæmia .. .. .	66

**The Treatment of Small-Pox.**—The treatment of Small-pox still remains unsatisfactory in Hæmorrhagic and Septic Cases. The same routine treatment was adopted for the former, but a determined effort was made in the latter class of cases to combat sepsis in all stages. In the vesicular stage prophylactic doses of combined Staphylococcus stock vaccines (Aureus and Albus) were given. 1st of 500 millions on the 5th day and the

other of 1,000 millions on the 7th day, if there was no reaction. These did not have much influence on the subsequent course of the disease, and the incidence of Septicæmia and Pyæmia (Abscesses) due to Staphylococci, has been about the same. Later on during the course of the septic stage 20 c. c. of Anti-staphylococcus or Anti-streptococcus serum were given daily, according to the infecting organisms found in the smear from pustules. This had definite influence on the temperature and symptoms of sepsis which were all lessened leading in the recovery of the patients.

**Cholera.**—There were only two admissions of Cholera as in the last year, one of which was an imported case and died.

**Bacteriological Examinations.**—The following table shows the number of bacteriological examinations made for the Arthur Road and Maratha Hospitals at the Arthur Road Hospital Laboratory :—

TABLE VIII.

Medical Superintendent, Arthur Road Hospital.

## REPORT OF THE MARATHA PLAGUE HOSPITAL FOR THE YEAR 1925.

### I.—THE STAFF.

I was in continuous charge of the Hospital throughout the year.

The permanent staff of the Hospital comprised the Medical Superintendent, 2 Medical Assistants, 1 Sister-in-Charge and 3 Nurses.

### II.—GENERAL STATISTICS.

TABLE No. 1.

	Plague.	Influenza.	Cerebro-spinal Meningitis.	Measles.	Chicken-pox.	Diphtheria.	Ethiols.	Erysipelas.	Mumps.	Encephalitis Lethargica.	Malaria.	Dysentery Amoebic.	Other Diseases.	Total.
Patients remained in the Hospital on 31st December 1924 at 8 p.m. ... ..	..	3	1	..	..	..	5	..	..	..	..	..	6	15
Admitted from 1st January to 31st December 1925 .. .. .	56	55	18	59	78	1	34	4	26	8	164	5	46	549
Total treated .. .. .	56	58	19	59	78	1	39	4	26	8	164	5	52	564
Discharged .. .. .	8	40	6	51	77	1	18	1	26	1	163	2	47	440
Died .. .. .	48	18	13	8	..	..	20	2	..	2	1	3	4	119
Mortality per cent. .. .. .	85.71	31.8	68.42	13.55	..	..	51.28	50	..	66.67	61	60	8.51	21.10
Patients remaining in the Hospital on the 31st December 1925 at 8 p.m. .. .. .	..	..	1	..	1	..	1	1	..	..	..	..	1	5

The total number of admissions during the year was 549 as compared with 584 and 623 in the years 1923 and 1924, respectively.

The total daily average number of patients was 13.40. The average weekly cost per patient was Rs. 17-2-4 as shown below :—

	Rs. a. p.
Medicine .. .. .	4 12 9
Diet .. .. .	6 15 8
Clothing .. .. .	2 5 3
Disinfectants .. .. .	1 7 4
Stores .. .. .	1 9 4
<b>Total .. .. .</b>	<b>17 2 4</b>

**Death-rate.**—The fatality rate of all diseases was 21.10 per cent. as compared with 48.1 and 27.17 per cent. in 1923 and 1924 respectively.

### DISTRIBUTIONS OF ADMISSIONS THROUGHOUT THE YEAR 1925.

Table No. 2.

1925	Plague.	Influenza.	Cerebro-Spinal Meningitis.	Measles.	Chicken Pox.	Erysipelas.	Diphtheria.	Mumps.	Encephalitis Lethargica.	Pittuias.	Dysentery Amoebic.	Malaria.	Other Diseases.	Total.	Discharged.	Died.	Daily average Number of Patients in the Hospital.

**Post-mortem Examinations.**—Four post-mortem examinations were performed as compared with 4 in 1924 and 8 in 1923. The results were as follows:—

TABLE No. 3.

Sent to the Hospital as	Diagnosed at the Hospital as	Condition found P. M.
1 Cerebro-S p i n a l Meningitis.	Cerebro-Spinal Meningitis..	Large amount of pus in the ventricles of the brain and the surrounding tissues were softened.
1 Plague .. ..	Plague .. ..	Lungs congested, heart dilated and spleen enlarged.
1 Cerebro-S p i n a l Meningitis.	Cerebro-Spinal Meningitis.	Pus on the surface of the brain and in the pulmonary tissues. Serous fluid in the pleuratic cavity. Spleen enlarged.
1 Do. do. ..	Do. .. ..	Scattered patches of consolidation in the lungs, pus on the surface of the brain and the spinal cord. Spleen enlarged.

**European and Anglo-Indian Patients.**—The total number of admissions of Europeans and Anglo-Indians was 3. Of these 1 suffered from Mumps, 1 from Diphtheria and 1 from Malaria. All recovered.

**Employees from Police and Marine Forces, Convicts and Government Servants.**—Admissions among these numbered 23, and the charges recoverable from Government for their treatment amounted to Rs. 377-4-0.

**Accommodation.**—The following table shows the total number of beds in the Hospital in normal times:—

TABLE No. 4.

Section.	Number of Wards.	Beds per Ward.	Total Beds.	Remarks.
Permanent .. ..	5	16	80	Counted on basis of 100 sq. feet of floor space per bed.
Temporary (corrugated iron wards practically unfit for use).	2	13	26	
Total ..	7	.....	106	

### III.—DISEASES.

**Plague.**—There were 56 admissions of patients suffering from Plague during the year. The highest number of admissions was in the months of March, April and May. The total number of cases admitted during the year was very low as compared with 120 in 1924 and 343 in 1923. This number comprises 10·02 per cent. of the total admissions in comparison with 19·2 per cent. and 50·8 per cent. in 1924 and 1923 respec-

tively. The plague mortality was 85.71 per cent. and was more by 4.88 per cent. than in the previous year. Among the Plague cases the following complications were noticed :—

TABLE No. 5.

Complications.	Number.	Percentage Incidence.
Total number of completed cases .. ..	56	....
Secondary Pneumonia .. .. .	13	23.21
Convulsions .. .. .	4	7.14
Tympanites .. .. .	6	10.71
Coffee Ground Vomiting .. .. .	2	3.57

*List of Minor Operations.*

TABLE No 6.

Blood Smears .. .. .	46	1	45
Blood Culture .. .. .	16	5	11
Smears Local focus .. .. .	2	1	1
Total ..	115	34	81

**Treatment:**—Besides the routine symptomatic treatment the following antiseptics were exhibited in the treatment of plague and their effects observed :—

1. *Liq. Iodine Terchloride* ms 5 to 20 with  $\frac{1}{2}$  oz. of water was given three times a day by mouth to 32 patients out of which 4 recovered.

2. *Mercurochrome* (220 soluble)—A powerful mercurial introduced by Young first as a local antiseptic; Piper, later on demonstrated that the intra-venous use of mercurochrome is a safe method of treatment for Septicemia and can safely be given in sufficient doses to sterilize the blood. He made a number of tests on animals to determine the least concentration in which the drug acts as a germicide and the range of its toxicity. It was determined that it can be given safely to adults in large doses from 20—30 c.c. of 1 per cent. Sol. In a recent symposium about its value in the Therapeutic Gazette various authorities report favourably after 4 to 5 years of its use in different septic conditions. Andrew Balfour recently suggested its use in plague. Mercurochrome was tried here on six cases in  $\frac{1}{2}$  to 1 per cent. Sol. 5 to 10 c.c. of it being injected intravenously once daily. There were severe reactions in some cases and all the patients died. These patients had also 40 c.c. of Anti-Plague Serum daily in addition. The cases were too few to draw any conclusions. On surveying the whole literature and from my experience of last five years with various antiseptics in the treatment of plague, the following conclusions can be drawn :—

- i. The Chemo-Therapy of Plague—with Iodine and its preparations, Carbolic Acid, Mercurochrome, Salvarsan preparations and Protein Shock by means of the milk has not been found to have any effect on the course and the mortality of the disease.
- ii. Looking to the analogy of other similar infectious diseases, the only rational treatment would be a powerful and concentrated anti-toxic serum prepared from the local strains and given early and in large doses.

**Cerebro-Spinal Meningitis:**—18 cases of Cerebro-Spinal Meningitis were admitted in the whole year with 13 deaths. 4 cases were in a moribund condition and died within 12 hours of admission. 55 Lumber punctures were performed for diagnosis and treatment. 8 were early and suitable cases for the full course of serum treatment out of them 5 recovered. 49 specimens of C. S. Fluid were examined at Parel and at Arthur Road Hospital Laboratories of which 33 were found positive. The following table will show the complications and their percentage incidence.

Table No. 8.

Complications.	Number of cases.	Percentage incidence.
Total number of completed cases	18	
Secondary Pneumonia	7	38.88
Tympanitis	3	16.66
Hiccough	1	5.55
Convulsions	3	16.66

**Measles.**—There were 59 admissions of cases suffering from measles out of which 32 developed Secondary Complications and 8 died.

Table No. 9.

Total .. .. .	164	163	1	95	119	39	23.78	128	78.5

**Treatment.**—The total number of Malaria cases treated during the year was 164, out of which 1 died with cerebral symptoms.

1. In the majority of cases the routine treatment given was Cinchona febrifuge grs. 10 three times per day in mixture with Subcutaneous Injections of Sodii Caco-dylate grs. 5 every alternate day. The treatment with Cinchona febrifuge was quite suitable but some cases got gastric disturbances, *e.g.*, Vomiting. The total number of cases treated with Cinchona was 107 and there were only 9 relapses, the percentage being 8.41 which is much lower than that with ordinary Quinine treatment which is generally higher.

**Municipal Fire Brigade.**—The following table indicates the number of employees who received treatment as in-door patients for various diseases during the year 1925 :—

Table No. 11.

Diseases.	Number.	Died.	Recovered.	Mortality per cent.
Malaria ... ..	97	...	97	...
Influenza ... ..	3	1	2	33.33
Syphilis ... ..	1	...	1	...
Dysentery ... ..	1	...	1	...
Injury ... ..	13	...	13	...
Other Diseases ... ..	12	...	12	...
Total ... ..	127	1	126	00.78

Besides the above 693 patients were treated as out-patients as compared with 920 in the previous year. 56.42 per cent. of these cases suffered from Malaria and were chiefly from Byculla, Carnac Bunder and Babula Tank Stations

**REPORT OF WORK DONE IN THE MUNICIPAL LABORATORY  
DURING 1925.**

I have the honour to forward herewith, for your information, a report of the work done at the Municipal Laboratory during the year ending 31st December 1925.

The total number of samples examined during the period under report was 7,568 as compared with 5,499 in 1924. Of the above 6,322 samples were examined Chemically and 1,246 Bacteriologically. In 1924 the total number of Chemical samples was 4,486 and of Bacteriological 1,013.

**Chemical.**

Out of 6,322 samples examined Chemically, the following were food-stuffs:—

Milk .. .. .	5,442
Other food-stuffs .. .. .	146
<b>Total .. .. .</b>	<b>5,588.</b>

**Milk.**

Of the 5,442 samples of milk examined, 5,396 were sent by the Assistant Health Officers for legal purposes. 2,563 samples were found to be *not* genuine, and the proportion of adulterated samples of milk thus amounted to 47·4 per cent. of the total number of samples submitted as shown in the statement below:—

**No. of Milk samples submitted under Section 412A of the Municipal Act:—**

Received from	Total.	Genuine.	Not genuine	Percentage of adulteration.
				Per cent.
Assistant Health Officer, A & B Wards.. ..	1,526	934	592	38·7
Do. do. C & D .. ..	1,783	1,071	712	39·9

**Bacteriological.**

1,246 samples were examined bacteriologically.

**Milk.**

12 samples of milk were sent by the Assistant Health Officers for Pathogenic Micro-organisms.

**Waters.**

294 samples of waters were examined, 160 being from the Public Water Supply and 134 from other sources.

The 294 samples of waters were examined for the total number of Microbes per c.c., for Lactose Fermenters, and B. Coli (Houston) in various dilutions ranging from 0.0001 to 50 c.c., B. Enteritides Sporogenes and Cholera Vibrios with the following results:—

Number containing Lactose Fermenters and B. Coli (Houston) in from 0.01 to 50 c.c. . . . .	294
Number containing B. Enteritides Sporogenes and Cholera Vibrios . . . . .	Nil.
Samples examined for the total number of Bacteria . . . . .	294

**Disinfectants.**

45 samples were examined to determine the Rideal Walker's Carbolio Acid Coefficient.

**Samples for Diagnostic Purposes.**

## THE ANNUAL REPORT OF THE SUPERINTENDENT OF VACCINATION FOR THE YEAR 1925.

During the year under report Dr. B. B. Darabsett held the Office of the Superintendent of Vaccination, from 1st January to 31st May, Dr. K. Y. Sanzgiri from 1st June to 22nd June and again from 12th September to 31st December, for the remaining period I was in charge.

(1) **Establishment.**—Besides the Superintendent and one Assistant Superintendent, there were 10 vaccinators, 6 clerks, 14 karkuns, 3 peons, 12 coolies and one watchman.

(2) **Vaccine Operations with Results.**—The following statement gives the number of persons primarily vaccinated and re-vaccinated during 1925, and the preceding 9 years with the percentage of successful operations:—

YEAR.	Primary Vaccinations.			Re-vaccina- tions.	Total Number of persons vacci- nated.
	Number of persons vacci- nated.	Number succes- ful.	Per- centage of suc- cess.	Number of per- sons re- vacci- nated.	
1916	19,215	16,529	86·02	31,746	50,961
1917	18,958	17,330	91·41	19,659	38,617
1918	18,100	16,036	88·59	45,171	63,271
1919	14,669	12,820	87·39	16,949	31,618
1920	14,468	12,713	87·89	21,825	36,288
1921	18,387	15,399	84·30	20,341	38,608
1922	18,886	16,315	86·39	8,908	27,799
1923	20,293	16,558	81·59	21,153	41,446
1924	20,136	17,683	87·82	26,508	46,643
1925	20,400	18,848	92·40	15,320	35,620

Out of the persons primarily vaccinated 12,285 were born in Bombay and 8,115 were born out of the City as compared with 12,749 and 7,386 respectively in the previous year.

Out of the Primary Vaccinations 18,848 were ascertained to have been successful, the percentage of known successes being 92·40. This percentage would be raised to 99·06 by the exclusion of 1,372 cases, the result of which was not ascertained.

(3) **Result of Vaccination by Ages.**—The following table shows the results of Primary Vaccinations by age periods:—

Results.	Under 1 year.	1 to 6 years.	6 years and upwards.	Total.
Successful	12,633	6,104	111	18,848
Unsuccessful	103	75	2	180
Unknown	796	545	31	1,372
<b>Total</b>	<b>13,532</b>	<b>6,724</b>	<b>144</b>	<b>20,400</b>

(4) **Inspection of Results.**—The reports of the Vaccinators were checked in 4,915 cases by the Superintendent and in 7,505 cases by the Assistant Superintendent and Head Vaccinator with the following results:—

### Return of the Inspecting Officers.

Inspection.	Superintendent.	Assistant Superin- tendent and Head Vaccinator.
Number of cases Inspected	4,915	7,505
"    Successful	4,879	7,446
"    Unsuccessful	36	59
Number successful per 100 inspected	99·27	99·21
Number inspected per 100 vaccinated	24·13	36·76

The Percentage success as ascertained by the Inspecting Officers thus corresponds closely with the success reported by the Vaccinators.

(5) **Income.**—The following statement shows the proceeds from the sale of Lymph and the fees realized from Vaccination at private places, etc., during the year under report :

Amount realised by the sale of lymph.	Municipal moiety of the fees from private vaccination.	Municipal fees (moiety only) for vaccination instructions to medical students.	Municipal fees for giving vaccination extracts, etc.	Total.
Rs.	Rs.	Rs.	Rs.	Rs.
1,840	1,594	1,275	74	4,783

(6) **Cost of Single Operation.**—The cost of each successful vaccine operation including all charges was Rs. 2-9-2 against Rs. 2-8-7 in the preceding year; if the amount realized by the sale of lymph, by fees for private vaccination, &c., (Rs. 4,783-8-0) be deducted from the total expenditure, the cost works out at Rs. 2-5-1 against Rs. 2-4-9 for the last year. If calculated on the total number of vaccine operations the cost of each operation after deducting the proceeds from the sale of lymph, from private vaccination, &c., comes to Rs. 1-3-6 against Rs. 0-13-11 for the last year.

(7) **The Postponement Certificates.**—During the year under report 27 certificates of postponement were granted.

(8) **Prosecutions.**—There was no prosecution during the year, either for failure to bring infants for vaccination or for failure to present them for inspection seven days after the operations.

(9) **Ill-effects from Vaccination.**—No serious ill-effects following vaccination were observed or reported during the year under report.

(10) **Instruction to Students.**—During the year under report 246 Civil Medical Pupils, and 9 other private students from mofussil attended the different Public Vaccination Stations for instructions in vaccination.

(11) **Vaccination of Pilgrims.**—One thousand six hundred and seventy-five pilgrims were vaccinated before embarkation during the year; out of these, 1,586 or 94 per cent. left Bombay for the Haj.

The following table shows the number of males and females and the number of primary vaccinations and re-vaccinations performed amongst the pilgrims by the special staff engaged for the work :—

	Males	Females	Total
Primary Vaccinations ... ..	1	2	3
Re-vaccinations ... ..	1,467	205	1,672
Total ... ..	1,468	207	1,675

(12) The vaccine lymph used is obtained from the Director Vaccine Institute at Belgaum.

(Sd.) B. H. MADAN,  
M.B.B.S., D.P.H.,

Ag. Superintendent of Vaccination,  
Bombay.

BOMBAY 10th April 1926.

SUMMARY of Sanitary Inspections made and Sanitary Improvements secured by the  
S. M. Is., J. M. Is. and Medical Assistants in 1925.

	No. of Inspections, etc., by	
	S. M. Is. and J. M. Is.	Medical Assistants.
<i>A—Nature of Inspection or premises visited.</i>		
1. Dwelling Houses .. .. .	13,997	25,258
2. Milch Cattle Stables .. .. .	2,403	3,220
3. Other Stables .. .. .	2,473	3,773
4. Dairies and Milkshops .. .. .	4,567	2,762
5. Eating Houses .. .. .	10,246	16,424
6. Markets .. .. .	60	88
7. Other premises where food is sold .. .. .	3,602	3,677
8. Aerated Water Works .. .. .	313	198
9. Other Workshops and Factories .. .. .	4,773	4,879
10. Accumulations of Refuse .. .. .	2,741	3,722
11. Building Works .. .. .	96	58
12. Drains and Fittings .. .. .	9,083	11,168
13. Other Inspections and Inquiries .. .. .	6,980	40,972
Total No. of Inspections .. .. .	60,334	1,16,199
<i>B—Works, etc., completed.</i>		
1. Dwellings—		
(a) Limewashed .. .. .	1,591	2,147
(b) Water supply provided .. .. .	23	18
(c) Overcrowding abated .. .. .	8	5
(d) Insanitary dwellings evacuated .. .. .	357	572
2. Stables—		
(a) Paved and drained .. .. .	116	72
(b) Cleaned and refuse removed .. .. .	289	293
(c) Licenses cancelled .. .. .	10	25
3. Eating Houses, Dairies, etc.—		
(a) Regulations enforced .. .. .	1,926	2,022
(b) License cancelled .. .. .	22	18
4. Factories and Workshops—		
Limewashing, etc., carried out .. .. .	124	91
5. Drains, etc., repaired .. .. .	4,529	5,460
6. Privies abolished .. .. .	46	12
7. New W.C.'s provided .. .. .	214	86
8. Accumulation of Refuse removed .. .. .	2,009	2,163
9. Other works completed .. .. .	2,017	1,938
Total Sanitary work completed .. .. .	13,281	14,862
