

RESOLUTION

REVIEWING THE

REPORTS ON MUNICIPAL TAXATION AND EXPENDITURE

IN THE

BOMBAY PRESIDENCY (INCLUDING SIND).

FOR THE YEAR 1905-1906.

(Including Statistical Statements Nos. I to IV prepared by the
Municipal Commissioner for the City of Bombay.)

READ—

The reports from the Commissioner in Sind and the Commissioners of Divisions on the working of Municipalities in the Bombay Presidency during the year 1905-06.

RESOLUTION.—During the year under review the Songir Municipality in the Khándesh District was abolished, and a new Municipality was established at Mátherán in the Kolába District. The Presidency thus contains 14 city and 148 town Municipalities and 5 notified areas.

2. The population of the Municipal Districts decreased by about 4,000 owing to the abolition of the Songir Municipality. The boundaries of the Municipal Districts of Belgaum, Lárkána and Kotri were extended during the year.

3. The constitution of the Vámbori Municipality in the Central Division was altered to bring it into conformity with the provisions of section 10 of Act III of 1901. Triennial elections were held at Kapadvanj and in six other Municipalities of the Kaira District, at Bhatkal and Honávar in the Kánara District and in several Municipalities in Sind, including all those in the Hyderabad District. It is reported that a by-election at Kaira was keenly contested. The polling at Bhatkal was only fair and that at Honávar very poor.

4. The main sources of revenue are octroi and direct taxes on property. The rates of octroi were revised in Taloda, Vengurla, Broach, Ankleshvar and in a few town Municipalities in Sind. At Mirpurkhás the octroi duty on wheat was abolished. The rates of house-tax were revised by the Máhim, Godhra, Malcolmpeeth and Rájápur Municipalities. At Pen the basis of house-tax was fixed on the annual letting value instead of on the value of buildings, and at Ránpur the basis was fixed on the valuation of houses instead of on the number of storeys. Revisions of the wheel-tax in Jalgaon, Taloda and Bársi, of the toll-tax in Jalgaon and Gadag-Bettigeri, and of the sanitary cess in Bársi were sanctioned during the year. Effect was also given to the revised rates of house, water and sanitary taxes at Jalgaon, and of the sanitary cess at Bhusával and Málegaon. The Karáchi Municipality imposed an additional water-rate, the revenue from which has been earmarked for the extension of the drainage system.

5. The aggregate gross income of the Municipalities during the year under review was 82½ lákhs compared with 84½ lákhs in the preceding year. Eliminating the receipts under "Extraordinary and Debt," the net revenue amounted to 70 lákhs compared with 68½ lákhs in 1904-05. The following table shows the noteworthy variations under each head of receipt:—

	1905-06.	1904-05.	Increase or Decrease.
	Rs. in thousands.	Rs. in thousands.	Rs. in thousands.
(1) Municipal rates and taxes—			
(a) Octroi	31,85	32,90	—1,05
(b) Tax on houses and lands ...	7,35	6,91	+44
(c) Water-rate	5,71	4,91	+80
(2) Revenue derived from Municipal property and powers apart from taxation ...	9,37	8,72	+65
(3) Grants and contributions for general and special purposes	5,69	5,08	+61
(4) Extraordinary and debt	12,44	15,98	—3,54

6. In the Northern Division Municipalities octroi receipts increased by a small sum. In the Central Division the increase was Rs. 43,000 due to the expansion of trade. In the Southern Division the fluctuations under this head were unimportant. The receipts in Sind were less by Rs. 81,700 than in previous years. This large decrease in Sind occurred chiefly in the Karáchi, Hyderabad and Upper Sind Frontier Districts. In the Karáchi District the falling off was due to smaller receipts under (a) food-grains and (b) cotton, wool, hides and skins, owing to a temporary decrease in exports, especially in food-grains. In Hyderabad it is attributed to the opening of the Hyderabad-Badin Railway and to the fact that traders are showing a preference for direct dealings with Karáchi and Bombay, and in Jacobabad to the evacuation of the town on account of plague. On the other hand, receipts advanced in Shikárpur (Rs. 26,800) owing to the revision of the octroi schedule and larger imports of grain.

7. The increase in the receipts from taxes on houses and lands in the Northern Division (Rs. 23,500) is contributed principally by the Ahmedabad, Sanand, Godhra, Dohad, Jambusar and Kalyán Municipalities. Ahmedabad collected Rs. 15,000 more than in the previous year partly on account of the increase in the number of dwelling houses in the suburbs, where only the house and property tax is levied, and partly on account of the better recovery of the tax during the year. The increase in the other Municipalities mentioned is due mostly to the recovery of arrears. The same reason is assigned for the increase in house-tax receipts in all districts of the Central Division, except Násik, and in some Municipalities in the Bijápur and Ratnágiri Districts of the Southern Division. Bándra in the Thána District showed a decrease of Rs. 3,300 owing to the defalcations on the part of three bill-collectors.

8. The income from water-rate increased by Rs. 80,000, to which Sind contributed Rs. 56,700. In the Northern Division the receipts exhibited an excess of Rs. 18,600, which is chiefly shared by Ahmedabad, Surat and Kurla Municipalities mainly as a result of new water connections and of the recovery of arrears generally. The increase of Rs. 3,200 in the Central Division was due to the increased demand for house connections in Pcona City and to the collection of arrears by the Talegaon-Dabháde Municipality. In the Southern Division there was an increase of Rs. 3,200, out of which Rs. 2,100 were contributed by Hubli. The large increase in Sind was chiefly due to the imposition by the Karáchi Municipality of a special water-rate with a view to extend the drainage system.

9. The revenue derived from Municipal property and powers apart from taxation rose from $8\frac{3}{4}$ lakhs to nearly $9\frac{1}{2}$ lakhs, the increase being participated in by all Divisions, but calling for no special comment except in the case of Sind. In Sind the revenue derived by the Karáchi Municipality from the sales of land and from the sewage farm amounted to Rs. 1,20,000 compared with Rs. 60,000 in the previous year. There was a decrease of Rs. 36,900 in Hyderabad due to the fact that with the exception of alignment land and land adjoining existing occupancies, no land was sold during the year on account of the revision of the building rules and by-laws being under consideration. Conservancy receipts, fees from markets and slaughter houses and from the sale of poudrette showed a normal advance in all Divisions.

10. The absence of plague and consequent improved attendance of students led to an increase in the fees and revenue from Educational Institutions in Ahmedabad, Viramgám, Nadiád and Surat. A similar improvement in school-fees is noticeable in the municipal schools in the Central Division. In the Southern Division, the increase of Rs. 6,600 under this head is shared in by all Municipalities, except Athni and Honávar. The decrease of Rs. 7,080 under fees and revenues derived from Medical Institutions is nominal, as in the previous year a sum of Rs. 7,000 which had been spent by the Hubli Municipality out of the Plague Hospital Fund was recredited to it. Under other fees there was a substantial decrease of Rs. 8,350 in bandar fees in Sukkur on account of a decline in the river-borne imports of produce.

11. Grants and contributions for general and special purposes increased by about Rs. 80,000 in the Presidency Proper, but decreased by about Rs. 18,000 in Sind. The Northern Division was responsible for an increase of Rs. 35,000.

Grants and contributions for special purposes.

In that Division grants and contributions from Government for educational purposes exceeded those in the preceding year by Rs. 12,000, Dhandhuka receiving Rs. 2,000 more towards a Government Building grant for the New Girls' School, and Bándra Rs. 15,000 more as grants and contributions. Contributions from other sources for (a) Educational and (b) Medical purposes also showed an increase of Rs. 16,000 over those of the previous year, Rs. 700 and Rs. 5,500 respectively being contributed by private donors for a Girls' School at Anand and a Dispensary at Umreth, and Rs. 10,000 for educational purposes at Bándra. The increase of Rs. 43,000 in the Southern Division was due principally to the transfer of the Mátherán Station Fund to the newly created municipality at that place. The large decrease in Sind was due chiefly to no arrear contributions being recovered by Municipalities as in the previous year.

12. Of the total income, Rs. 53,81,000 were realised from Municipal rates and taxes against Rs. 53,55,000 in the previous year, indirect taxation yielding Rs. 31,85,000 or 59 per cent. and direct taxation Rs. 21,96,000 or nearly 41 per cent. compared with 61 and 38 per cent. respectively in the previous year. The incidence of taxation per head of population increased from Rs. 1-11-6 to Rs. 1-12-3, while the incidence of income decreased from Rs. 3-1-0 to Rs. 2-15-7. As in previous years, Karáchi has the highest rate of taxation (Rs. 5-13-5) and Ashta the lowest (Re. 0-1-5).

Nature of income and incidence per head of population.

13. The aggregate gross receipts from octroi duty amounted to Rs. 31,85,000 compared with Rs. 32,90,000 in the preceding year, while the net receipts amounted to Rs. 19,80,000 against Rs. 20,05,000. The octroi system worked satisfactorily, and refunds are reported to have been promptly paid by the majority of the Municipalities. It is noticeable that the Belgaum Municipality refunded Rs. 1-4-0 out of the total collection of Rs. 25,000. The refund system in Belgaum seems to require examination. The Commissioner, Southern Division, has drawn the attention of the Collectors in his Division to the suggestion made by the Collector of Dhárwár that delay in the disposals of claims for refunds will be brought down to a minimum if export *nakas* are established as contemplated by the model refund rules issued by Government. The drawback system in the Karáchi Municipality worked smoothly and no complaints were received. Statement No. IV appended to this Resolution shows the classes in which the standards of consumption prescribed by Government were exceeded. The Municipalities in which there was an appreciable excess are those mentioned in the *margin, the number of defaulting Boards in the Northern Division being as before very small. In several cases, notably in the Sind Municipalities, the deduced average consumption exceeded double the maximum Government standard. As usual the reasons assigned for the excess are the consumption of commodities by the inhabitants of villages in the vicinity of market-towns without claiming refunds, the exportation of imported articles in an altered

Special remarks on octroi.

* *Grain*.—Broach, Ahmednagar, Jalgaon, Nandurbár, Násik, Sholápur, Bársi, Karmála, Pandharpur, Bijápur, Sirsi, Tando Allahyár, Tando Mahomed Khán, Shikárpur, Garhi Yásin, Ráto-dero, Jacobabad, Mirpurkhás and Umámkot.

Sugar.—Dholka, Broach, Ankleshvar, Bassein, Taloda, Násik, Bársimati, Ilkal, Dhárwár, Hubli, Panvel, Vengurla, Tatta, Tando Allahyár, Tando Mahomed Khán, Sukkur, Lárkána, Kambar, Ráto-dero, Umámkot and Mirpurkhás.

Ghee.—Pandharpur, Tando Allahyár, Tando Adam, Hyderabad, Sukkur, Shikárpur and Mirpurkhás.

Oils.—Sangámmner, Shirpur, Jalgaon, Dhulia, Málagaon, Sásvad, Jejuri, Bársimati, Indápur, Talegaon-Dábháde, Junnar, Wál, Bársi, Karmála, Belgaum, Nipáni, Athni, Gokák, Bijápur, Kumta, Sirsi, Alibág, Mábád, Panvel, Vengurla, Chiplun, Kotri and Tando Mahomed Khán.

Drugs.—Jalgaon, Dhulia, Nandurbár, Sirsi, Sholápur, Bársi, Pandharpur, Hubli, Navalgund, Halyál, Mábád, Vengurla, Rájápur, Tando Mahomed Khán and Sukkur.

Tobacco.—Bassein, Pandharpur, Nipáni, Kambar, Ráto-dero, Bubsak and Jacobabad.

Cloth.—Ahmedabad, Broach, Ankleshvar, Jalgaon, Sátára City, Karád, Karmála, Belgaum, Gokák, Tatta, Tando Allahyár, Hála, Tando Adam, Matyár, Tando Mahomed Khán, Hyderabad, Garhi Yásin, Ghotki, Lárkána, Kambar, Ráto-dero, Umámkot and Mirpurkhás.

Metal.—Broach, Jalgaon, Dhulia, Násik, Sátára City, Pandharpur, Hubli, Tando Adam, Tando Mahomed Khán, Hyderabad, Lárkána and Mirpurkhás.

form, larger imports on account of marriages and the impossibility of disposing of the goods imported during the same year. His Excellency the Governor in Council is aware that local circumstances frequently render a strict compliance with the orders of the Government of India difficult; but he trusts that the standards laid down will not be lost sight of. The Commissioners will be separately addressed on the subject.

14. The total expenditure of the Municipalities in the Presidency was 80 $\frac{3}{4}$ lakhs against 77 $\frac{3}{4}$ lakhs in the previous year. Excluding "Extraordinary and Debt," the expenditure amounted to 70 lakhs, showing an increase of 2 lakhs over the figures of the preceding year. The important fluctuations in the various heads of expenditure are shown in the following table:—

	1905-06.	1904-05.	Increase or decrease.
	Rs. in thousands.	Rs. in thousands.	Rs. in thousands.
General Administration and Collection Charges	17,92	18,55	—63
Public Health and Convenience	35,40	33,29	+2,11
Public Instruction	9,72	9,18	+54
Extraordinary and Debt	10,85	9,88	+97

15. There was a small and normal increase in expenditure on account of general administration and collection charges in the Presidency Proper amounting to Rs. 28,000, while there was a considerable decrease of about Rs. 91,000 in Sind. This decrease was due principally to the fact that the expenditure on refunds decreased in the year by Rs. 97,000. In the Central Division a special increase in establishment charges was incurred in connection with more complete arrangements made by the Pandharpur Municipality for the collection of the pilgrim tax. The increase of Rs. 3,500 under General Administration in the Kolaba District is nominal and due to the fact that in the previous year no figure was shown against Máhád as its records were burnt.

16. Under this head some special expenditure was incurred on improved street lighting in Poona, and on fire engines in Sholápur; but the variations are otherwise unimportant.

17. The total expenditure under Public Health and Convenience rose from 33 $\frac{1}{4}$ lakhs to 35 $\frac{1}{2}$, showing an increase of over 2 lakhs, which was due mainly to the additional expenditure on Drainage (Rs. 3,34,000), Roads (Rs. 83,000), Conservancy (Rs. 39,000) and Hospitals and Dispensaries (Rs. 30,000). The principal decrease was under plague expenditure (Rs. 2,93,000).

18. There was an insignificant net decrease under this head due to an increase of Rs. 30,100 in capital outlay counterbalanced by a decrease of Rs. 30,700 in establishment and repairs charges. In the Central Division the expenditure under this head showed an increase of Rs. 55,000 in capital outlay and a decrease of Rs. 27,000 in establishment and repairs charges. The increase under the former head is chiefly due to the improvement by the Jalgaon and Karmála Municipalities of their water-supply, and to increased expenditure by the Sholápur Municipality on a Worthington Steam Engine for its water-works. The decrease under the establishment and repairs charges is only nominal, as the figures of the previous year were swelled by the inclusion under this head of the cost of a new pumping engine purchased by the Sholápur Municipality. In the Southern Division the increases occurred in the Bijápur, Dhárwár, Navalgund and Gudgudápur Municipalities. In Dhárwár there was a water famine, and three large wells were constructed. The Hubli Municipality has under consideration two large alternative schemes for additional water-works and filtration. There was a decrease in capital outlay on account of water-works in

Karachi, Hyderabad and Sukkur, while the recurring expenditure of these Municipalities was stationary.

19. The increase of 3½ lakhs under this head was in capital outlay and is chiefly accounted for by a portion of the new drainage works laid down in Karachi during the year. The amounts spent by the Hyderabad and Shikarpur Municipalities in constructing new drains amounted to about Rs. 4,400 while the Sukkur Municipality spent Rs. 7,500 in repairs and recurring charges. In the Central Division the rise of Rs. 8,000 is accounted for by the construction of new gutters and repairs to the existing ones by the Poona City Municipality, and by the extension of the existing drains by the Sholapur and Pandharpur Municipalities. In the Ahmedabad Municipality the amount spent on capital outlay increased by Rs. 5,170, but this increase was counter-balanced by a decrease of Rs. 4,800 in the expenditure on drainage establishment, which was due to the reduction in the consumption of fuel owing to the introduction of pumping engines of a superior kind at the drainage pumping station.

20. Slight and normal additions were made in most Municipalities to the conservancy staff to keep pace with requirements, and a Sanitary Inspector entertained at Belgaum. The large number of servants employed in the latter Municipality in this department seems to require explanation.

21. The expenditure under this head showed a total increase of Rs. 30,000 in the whole Presidency, due to normal increases in medical charges. The increase of Rs. 7,000 in the Kaira District is owing to the Umreth Municipality having undertaken to construct a dispensary building.

22. Only a few buildings of minor importance were undertaken during the year. Kambar and Rander constructed new municipal offices, Nandurbár purchased a building for the same purpose, and Ahmedabad spent Rs. 4,280 on additions and alterations to the Ripon Municipal Hall.

23. The expenditure under this head rose from 5½ lakhs to 6½. The additional expenditure was mainly incurred in the Central Division and Sind. The Ahmedabad Municipality derived a revenue of Rs. 50,230 from tolls and tax on animals and vehicles, but appears to have spent only Rs. 39,220 on roads. In view of the fact that the condition of roads in Ahmedabad is unsatisfactory; the entire proceeds of tolls and wheel-tax ought to have been devoted to the repairs and maintenance of roads. Since the close of the year the Municipality have submitted proposals for strengthening the establishment dealing with the maintenance of the roads. In Surat the amount spent on the upkeep of roads was 67 per cent. of the revenue realised from tolls and wheel-tax. The attention of Municipalities concerned should be invited to the necessity of adhering to the principle that the proceeds of tolls and wheel-taxes are to be devoted exclusively to the maintenance of roads.

24. There was a heavy decrease of Rs. 2,93,000 in the expenditure under "Plague and Epidemic charges" owing to the fact that the plague loan (Rs. 2,69,660) granted by Government to the Poona Municipality was adjusted in the accounts of 1904-05. The decrease of Rs. 11,500 in the Northern Division occurred chiefly in the Ahmedabad and Surat Districts and was due to the absence of Plague.

25. The cost of Public Instruction rose from Rs. 9,18,000 to Rs. 9,72,000, showing a net increase of Rs. 54,000. The increase under the sub-head "Schools and Colleges" was Rs. 69,000 and was provided by the Central Division (Rs. 40,000) and the Northern Division (Rs. 31,000) in the form of normal additions to school accommodation, scholarships, equipment, etc. The large decrease of Rs. 12,600 in Bijapur is only nominal, Rs. 10,410 having been spent in the previous year for the construction of the Victoria Memorial Girls' School while no similar expenditure was incurred during the year under review.

26. The charges under "Extraordinary and Debt" increased by Rs. 97,000. In the Northern Division there was an increase of Extraordinary and Debt. Rs. 21,000 under "Investment in securities" in Ahmedabad, Broach, Kurla and Bándra and of Rs. 8,400 under "Payment to Sinking Fund" in Ahmedabad. Kurla alone invested Rs. 5,000 in the Savings Bank. Small decreases occurred under other sub-heads such as Repayment of Loans (Rs. 11,000) and Advances (Rs. 34,000). The amounts of advance were reduced in Ahmedabad, Godhra, Surat and Thána principally. In Surat the reduction is explained as the result of the heavy adjustment made in the preceding year on account of the liquidation of the loans borrowed for the purchase of lands in the Nawapura Golwad Division. In the Central Division the sub-head "Investment in securities" showed an increase of Rs. 97,000, due to the purchase by the Jalgaon and Dhulia Municipalities of promissory notes and to the investment by the Pandharpur Municipality of Rs. 50,750 in the Bank of Bombay as a fixed deposit for one year. The decrease of Rs. 20,000 under "Repayment of Loans" occurred in the Khándesh District and was due to the fact that the Dhulia Municipality paid in 1904-05 Rs. 30,000 in advance in liquidation of its water-works loan. In Sind there was a net increase of Rs. 36,000. The increase under "Investments" (Rs. 32,000) was due to the fact that the Hyderabad Municipality credited Rs. 40,000 to its Reserve Fund.

27. The result of the year's operation is an increase of Rs. 1,64,000 in the total of closing balances which increased in the Central and Southern Divisions and in Sind, but decreased in the Northern Division.

28. The net aggregate liabilities of the several Municipalities in the Presidency on account of loans amounted to Rs. 50,22,000, distributed in the several Divisions as follows:—

				Rs. in thousands.
Northern Division	23,74
Central do.	9,62
Southern do.	3,24
Sind	13,61

The following amounts were paid off during the year:—

				Rs. in thousands.
Northern Division	60
Central do.	64
Southern do.	20
Sind	57

29. The accounts of all Municipalities in Sind, of the Malcolmpeth Municipality in the Central Division, and of eleven Municipalities in the Northern Division were audited by the Accountant General. In the remaining Municipalities in the Central Division the amounts were examined either by paid Auditors or Municipal Councillors and in the Northern Division, in addition to such officers, by the Mámlatdárs' and Maháلكaris' kárkúns. In the Central Division the accounts of the Kharda, Betawad, Junnar, Wái and Talegaon Municipalities, and in the Southern Division of the Ilkal and Kárwár Municipalities remained unaudited at the close of the year and the Presidents of those Municipalities have been asked to arrange for their early audit. Arrangements have been made for the audit by the Accountant General of the accounts of all Municipalities.

30. The chief municipal wants are better water-supply, improved drainage, public latrines, school houses, dispensary buildings, etc., but progress is delayed by the want of adequate funds on the part of the Municipalities concerned. Government have under consideration proposals for facilitating the execution of schemes of drainage and water-supply by grants-in-aid. In Surat the introduction of a complete system of underground drainage has been strongly urged by the Sanitary Engineer. Steps are taken for a new contour survey of the city as a preliminary measure. In Ahmedabad the drained area now covers about 45 per cent. of the total extent of the City. His Excellency the Governor in

Council concurs with the Commissioner, Northern Division, in his opinion that the drainage system should be extended so as to embrace the whole city area. The Commissioner should be asked to communicate to the Ahmedabad Municipality the remarks made in paragraph 70 of his report.

31. The following remarks are made by the Commissioner in Sind and the Commissioners, N. D. and S. D., on the working of the Municipalities in their respective charges :—

SIND.

Karachi.—The Municipality sustained a serious loss by the death of their President, Mr. Tahilram Khemchand, C. I. E., in October 1905. The services rendered to the Municipality by this gentleman have been acknowledged in previous reviews. The Commissioner fully endorses what the present President of the Municipality has said about the loss to Karachi and the Province. The Municipality is an exceptionally efficient and public-spirited body, which has done much useful work during the year and is fully alive to the needs of the City. The drainage system is now being extended to various quarters of the town, and it is hoped that it will not be long before the Municipality can embark upon its scheme for the improvement of the Runchore quarter. The desirability of a first class hotel in Karachi is unquestionable. The concessions which the Municipality are prepared to offer to capitalists willing to establish one are under consideration. The Commissioner desires to record his appreciation of the energy, tact and public spirit with which Mr. T. L. F. Beaumont, the new President of the Municipality, has guided the municipality since he was appointed as its head, and of the remarkable zeal and capacity with which Mr. J. Forest Brunton, the Chief Officer and Engineer, has carried out the executive duties. The town municipalities in the Karachi District worked as well as is to be expected, and call for no special remarks.

Hyderabad.—The attendance of meetings was good in the Town Municipalities, but poor in the City Municipality of Hyderabad, where 16 out of 24 members failed to attend two-thirds of the meetings. Twelve of these members were officials who were prevented by their other duties from attending regularly. The state of things in this Municipality was well described by the late Collector, Mr. Mules, in his remarks quoted *in extenso* in last year's review. The individual Councillors appear, speaking generally, to be above the average both in ability and in their sense of public requirements. Collectively, their corporate action seems to have been all along impeded by factious jealousies and intrigues, resulting in a state of general inertia and stagnation. One non-official President after another has failed,—how far in each case through his own fault and how far through that of his colleagues need not be here discussed,—to carry the Municipality along the path of sorely-needed reform and progress. Matters have culminated, since the close of the year under report, in the resignation of the last of these gentlemen, Mr. Thakurdas Khemchand, who has been succeeded in office by the Collector. The appointment of the Collector as President is a step which has long been under consideration, and has hitherto been with difficulty averted. It has naturally evoked some adverse criticism; but the Commissioner is glad to believe that its absolute necessity under present conditions is fully recognized by all the best and most enlightened local opinion. He is unwilling for all reasons to impose this duty on the Collector for a day longer than may be necessary. But before there can be any question of appointing another non-official President, two conditions must have been fulfilled. The administration of Municipal affairs must have been placed on a thoroughly sound and businesslike footing, and there must be some adequate guarantee against a relapse into the old state of things.

Sukkur.—The Sukkur Municipality is financially prosperous, and there is no real falling off in the trade, though the failure of crops in the rabi of 1904-05 temporarily depressed it. The octroi figures are satisfactory, but the great increase in refunds is not so, as it is probable that some of the refunds have been fraudulently obtained. It has lately been discovered that certain merchants of the town have for some time past been in conspiracy with the members of the municipal establishment to defraud the municipality. The offenders are being prosecuted, and it is hoped that more vigilance will prevent the recurrence of such offences. The water-supply of the town is unsatisfactory. A sum of

money has been put at the disposal of the Executive Engineer for experiments, and his latest reports justify a hope that the present supply will shortly be supplemented. This is the chief need of the town. The adulteration of ghi still continues to be a scandal, and there are frequent complaints on the part of the townspeople concerning it. There is however no hope that it will be stopped by the force of public opinion, and no acceptable means of stopping it otherwise has yet been discovered. The attendance of members at meetings has been good on the whole.

Shikárpur.—The Municipality is financially in a satisfactory condition and is profiting considerably by the revised rates of octroi recently adopted. The amount of trade is undiminished, if it has not increased. The most noticeable point is undoubtedly the death-rate which has increased in a most formidable manner. This was partly due to a severe outbreak of small-pox, but far more to malarial fever which was rife at the fall of the inundation in 1905. The river was exceedingly high last year, and the whole country side suffered from malaria. Shikárpur itself is surrounded by cultivation and liberally supplied with canal water. It is not to be wondered at that it was severely attacked, and there is little doubt that the report has correctly ascribed the large death-rate to this cause. The municipality are attempting to cope with the danger and have recently organised a mosquito brigade to clear out and disinfect the numerous drains and pools. It is hoped that the coming year will show good results. The attendance at meetings of certain members appears to be poor. Nevertheless the townspeople take great interest in the Municipality and evinced it by the excitement which they displayed at the recent election. The Municipality is not always judicious or considerate in its actions and has a tendency to exceed its powers.

Lárkána.—The administration of the four town Municipalities in this district was satisfactory. The death-rate was uniformly heavy in all the Municipalities. The amount of water standing everywhere during the inundation season was so large that no steps to treat stagnant pools with kerosine oil could be usefully undertaken during the year.

Thor and Párkar.—The attendance at meetings of the two Municipalities in this district, Mirpurkhás and Umarkot, was good. The former has a substantial balance which is being judiciously applied to the needs of the town. The financial condition of the Umarkot Municipality has much improved since last year.

Upper Sind Frontier.—The Jacobabad Municipality have a balance of Rs. 35,900 and are in a prosperous condition. The town is well provided with schools, street lighting, wells and road-side trees.

NORTHERN DIVISION.

Nearly one-half of the area of the city of Ahmedabad containing the most thickly peopled sub-divisions and streets has been brought under the operation of the Drainage System at a cost of about 14 lacs of rupees, but its extension in due course to the rest of the city is desirable. About 6 miles of side gutters of masonry have been constructed, and about 4 miles still remain to be built. The pools of festering stagnant sewage at the side of the streets is not only an eyesore but a danger to the city. They should be drained off. A storm-water drainage system is also an urgent need. The water-works require expansion, and in particular a new water tower is desirable: the city depends on one, and if the machinery of this gets out of order, the city will suffer most serious inconvenience. The whole city wants opening up to meet its growth and importance. In a city full of money, with a population of 225,000 people, a system of electric lighting may be expected, and an electric tram to enable the very large mill population to be housed in the suburbs and come in to work instead of choking the city with chawls often of very insanitary design. Modása is in need of more latrines and better arrangement for the disposal of sullage water. In Dholera a dispensary building and a better water-supply are required. The provision of a pure water-supply is also a need of the Virangám and Prántij Municipalities, and Dholka requires draining and better roads, but funds are deficient. Most of the Municipalities of the Kaira District have made a beginning of surface drainage, and Nadiad has a comprehensive scheme which includes

a circular drain all round the town. Metalled streets should be one of the urgent improvements to be first taken in hand by the Municipalities which levy taxes to that special end. Kapadvanj badly needs water-works. A survey is considered a matter of urgency in Godhra and Dohad. The beginning of this work is delayed in Godhra, as the Collector of Ahmedabad is unable to put the services of an expert at the disposal of the Municipality. It is, however, hoped that the work will be undertaken without undue delay. Sanitary improvement of the town also requires the Godhra Municipality's attention. In Broach the Khatpore slope, the Khatpore Bazar and road-side drains are much in need of improvement. The Anklesvar Municipality has purchased land for school-houses, and steps are being taken for building quarters for the Hospital Assistant. Metalling of roads is the most urgent want of the Jambusar Municipality, but metal cannot be easily procured. The President of the Jambusar Municipality has drawn up a scheme for the revision of taxation, which is under the Municipality's consideration. Metalled roads and better lighting are the most important needs of the Municipalities of Amod and Hansot, but there is a paucity of funds. Educational and Dispensary expenses are reported to be falling heavily on their funds. In Surat a complete system of underground drainage has been strongly urged by the Sanitary Engineer to Government, but there is little likelihood of the want being supplied for years to come, in view of the large amount of money that would be needed. Steps are taken for a new contour survey of the city as a preliminary measure. But in view of the enormous expenditure an attempt at surface drainage for storm-water and sullage is at present impossible. The Collector places as first amongst practical improvements the metalling of side roads and the construction of impervious side drains which might eventually be combined with a system of underground drainage along the main arteries of the town. The Municipality has spent large sums already for the widening of streets, but Surat being an ancient city has still got numerous narrow streets which require improvement. Many years have elapsed since the introduction of the first survey, and a re-survey is necessary. Open spaces are required at certain places in the town for carts coming from surrounding villages. The present Municipal building does not afford sufficient accommodation for offices, &c., and additional accommodation is therefore necessary. To supply the want of a school-building for girls, Bulsar has set aside in the current year's budget a contribution of Rs. 2,000. There is no hope of the other wants, such as masonry drains, slaughter-house, &c., being satisfied in Bulsar and Mandvi on account of the funds being insufficient. Kalyan, Kurla, Mahim, and Bhiwadi are in need of good water-supply and a drainage system. Thana also requires an extension of its water-supply and a drainage scheme and school-buildings. Markets and slaughter-houses have still to be provided in Kalyan and Bassein. Kurla requires a slaughter-house, and markets are wanted in Mahim, Bandra and Bhiwadi.

In Ahmedabad fresh trees were planted in the course of the last monsoon on the side of the main roads outside the city wall. In Surat some additional mango, nimb, cocoanut, almond and other trees were planted during the year at Varachha. Some of the Municipalities report their inability to carry on the work of tree-plantation owing to the peculiarly irregular and sudden rainfall in July and its subsequent partial failure last year.

The administration of the smaller Municipalities in the Ahmedabad District was satisfactory under their official Presidents and Vice-Presidents. In Ahmedabad Mr. Motilal Lalbhai, the late President, died in April 1905 and the Vice-President Mr. Keshavlal Motilal carried on the duties of the office of President till 1st September 1905, when Mr. Keshavlal Hirani, an experienced retired Deputy Collector, was appointed. There is reason to believe that under his care and guidance the Municipal administrative machine is working smoothly. The arrears in Ahmedabad have been collected to a great extent through the exertions of the Secretary, Mr. Bhailal Purshotam. Mr. Bhailal Purshotam has now received the increased executive authority necessary for the efficient discharge of his duties as Secretary. The Municipality is beginning to understand its opportunities with reference to its large sewage farm, and it is hoped that they will promptly take measures to secure adequate supervision and efficient management. There is still a large outstanding balance on account of arrears of house-tax in Ranpur and Mandal Municipalities, which

require prompt collection. There is a want of men of education or standing in Sánaud to take much interest in Municipal affairs. The insanitary condition of Sánaud requires careful improvement. In Gogha also, though there had been some lack of interest on the part of the Councillors, the Municipality is reported to have, on the whole, worked smoothly. Some of the Councillors of the Viramgám and Dholka Municipalities are taking interest in the Municipal affairs which will be greatly improved if such interest continues and is shown by other Councillors. Most of the Municipalities in the Kaira District had schemes for revision of House-Tax but have dropped them on reconsideration. The Collector considers the principle on which the House-Tax is levied in some of the Municipalities to be inequitable and alludes to the maximum rate being Rs. 10 only in Nadiád. He considers that Nadiád runs its Municipality on too narrow principles with a view to getting its revenue as far as possible from outsiders and minimising for the wealthy the burden of taxation. The Kapadvanj Municipality works well under its non-official Vice-President, Ráo Sáheb Maganlal Jaychand. Dákor and Od receive constant attention and frequent visits from their official President, Mr. Heblikar, who has succeeded to some extent in mitigating the evils resulting in the past from the dissensions which disfigured Municipal affairs in Dákor. Od does not seem now to desire to abolish its Municipality; but the people of Mahudha have expressed to the Collector of Kaira a similar desire, being dissatisfied with the enormous cost of Rs. 17,000 towards a Public-Works-built school-house. But the feeling may disappear if the house-tax assessments are revised and road-metalling and other useful improvements are effected. Conservancy has received attention in Godhra, but much remains to be done. On a large space, which will become available after the completion of the Ambli Falia Bridge, a new and model quarter of the town should be gradually formed. The preparation of Rules and By-laws is in abeyance; but the Model Rules and By-laws have been approved by Government as per Government Resolution No. 3771, dated 26th June 1906, and the Municipality will adopt them as far as possible. The defalcations made by the collecting Kárkún in the Dohad Municipality in 1903-1904 were determined, and Rs. 1,796-13-0 were written off at the end of the year. The Commissioner notes with regret the very heavy loss suffered by the Broach Municipality by the death of Ráo Bahádur Chunilal Venilal, C. I. E., who presided over the affairs of the Municipality with tact and ability. He is succeeded by his son, Ráo Bahádur Motilal Chunilal, also a retired Deputy Collector, as President of the Municipality. He is reported to have been discharging his duties satisfactorily, though he does not perhaps as yet receive the same hearty and unanimous co-operation from the Councillors as was accorded to his father. The Municipality is prosperous and may well consider the question of building school-houses of its own with good light, ventilation and sanitation. Many of the wealthier portion of the people of Jambusar are reported to have given stubborn opposition to the Municipal administration; but the spirit of opposition is said to be passing away. In Surat all the roads of the improved Navapura Golwad have been duly metalled, and the locality is now in a far more sanitary condition than before. It is contemplated to introduce a system of mono-rail traction in place of the present night-soil carts to carry the accumulation more expeditiously and economically than at present. Endeavours were made to keep the water in Surat sweet by restricting the pumping at the water-works to the time of low tides, but the expedient failed. At Surat there were 17 fires during the year, causing a total loss of Rs. 3,199-8-0. A charitable Borah gentleman, Mr. Shaikh Abdul Tyab Ismailji Muskati, presented the Municipality with a steam fire-engine. The Municipality has received another gift of an engine from Mr. Moola Issabhai Moola Motabhai in the name of the late Mullaji Saheb. At Ránder considerable interest was displayed by the Councillors in the affairs of the Municipality, though it was somewhat marred by excess of party spirit. The Municipality of Mándvi is poor and unprogressive, and the people have applied to the Collector of Surat for the abolition of the Municipality owing to the alleged heaviness of the house-tax. The Municipal Board are reported to be unanimously in favour of abolition, and the Board as well as the people have agreed to the substitution of a Sanitary Committee, to which a contribution of Rs. 800 has been promised. The papers have since reached the Commissioner and are under consideration. The Commissioner

will be sorry on sentimental grounds to see the abolition of one of the oldest Municipalities of Gujarát. The Collector of Thána, Mr. Wales, agrees with Mr. Anderson, his predecessor, who is dissatisfied with the condition of all the Municipalities of the Thána District, most of which are paralysed for any useful work by factions. This is very much the case in Kalyán. Mr. Turner has ably conducted the affairs of Bándra, though Bándra is a Municipality most hampered by faction. The town is much improved in respect to roads and sanitation. There is little public spirit in the Thána Municipality. Máhim is a very backward Municipality, and Bassein has had to be suspended. Both Municipalities are too poor to be really useful.

SOUTHERN DIVISION.

Belgaum.—The Municipalities of this district have worked fairly well during the year. As might be expected, those which work at the District or Taluka Head-quarters under the immediate eye of Government officers do the best work, while Municipalities at more remote places such as Nipáni and Yamkanmardi are more under the influence of party spirit. All are hampered by chronic want of funds, which prevents the undertaking of comprehensive water-supply and drainage schemes.

Bijápur.—The average attendance at the general meetings was 83 per cent. of the full complement of councillors in Bijápur and Guledgudd, 66 per cent. in Bágalkot and 58 per cent. in Ilkal. The percentage of attendance was again lowest in Ilkal and indicates want of interest in the affairs of the Municipality on the part of the councillors. During the year of report a special Sanitary Committee consisting of four members was appointed by the Bijápur Municipality for the first time.

Owing to the prevalence of famine conditions the regular grant of dole to the poor was commenced by the Bijápur Municipality in February and by the Bágalkot and Ilkal Municipalities in the latter half of the month of March last. The amounts spent by them up to 30th June 1906 are given below:—

					Rs.
Bijápur	1,054
Ilkal	73
Bágalkot	726

Out of the loan of Rs. 3,500 taken by the Ilkal Municipality from Government in 1898 for plague expenditure only Rs. 536 remain to be paid. When the loan is fully liquidated, the Municipality will have some money left on hand to provide for some of their pressing wants. On the whole the Municipal Administration in the Bijápur District, though not eventful, has made satisfactory progress.

Dhárwár.—Average attendance at the meetings was good. The registration of births is unsatisfactory, judging by the district figures. There was not a single prosecution for failure to report births and deaths. There is a tendency even on the part of influential Councillors to let the by-laws remain a dead letter. Plague was very mild during the year.

Hubli.—The Municipality is well managed and is doing good work. The amount realized from Hospital stoppages is not satisfactory, being Rs. 350 against Rs. 591. The Collector regrets the Sanitary Engineer's inability to visit Hubli.

Gadag.—Numerous applications for permission to build received by the Collector show that the town is rapidly growing. The Collector considers the administration is too conservative in the worst sense of the word.

Navalgund.—The attendance has improved. The Municipality is doing what it can in an unambitious way to be of use to the public. The Vice-President promises to spend Rs. 500 on roads during the current year, and the Collector has asked the President to see that the promise is fulfilled.

Yamnur.—The Collector visited this town in the middle of March last just after the fair and found the place in excellent order, and he is of opinion that the Municipality would have done better, if, as it happened this year, they had

not farmed out the poll-tax. Mr. Hudson does not think that so much money should be spent on the road which is used only by the Navalgund contingent and only while the fair lasts. The Vice-President proposes the amalgamation of Yamnur with Navalgund Municipality. The Collector states that he is unable to see how this proposal can be supported, because the accounts must be kept separate, but it does not differ from the Saundatti-Yellama Municipality in the Belgaum District. The distance between Navalgund and Yamnur is the same as that between Saundatti and the Yellama Hill, *i. e.*, about four miles. The Collector will be requested to give his further consideration to this proposal.

Nargund.—The Collector writes :—

“There is a good natural drainage and the gutters are adequate. The roads are none too good. A few street corners have been improved. The schools are well looked after.

“The President says that the Vice-President is being asked to grant remissions of previous arrears very sparingly. I am unable to agree. Individual inquiry is of course necessary; and if it can best be made by a special arrears Sub-Committee, and once it is found that arrears are irrecoverable, it is far better to write them off promptly than to keep them uselessly hanging over peoples' heads.

“The President should satisfy himself that the whole of the income derived from toll and wheel tax is expended on the roads every year.”

Haveri.—Registration of births and deaths seems very defective. The Collector thinks that the expenditure of Rs. 500 a year in the poor circumstances of the Municipality on the Anglo-Vernacular School is open to question.

One noticeable feature of the year under report, as observed by Mr. Hudson, is that plague, which for 6 years ravaged all the Municipalities, was very mild during the greater part of the year.

KANARA.—*Kumta.*—This Municipality has given satisfaction generally. The Vice-President with other members has done all that could be done for its better management. A bench of III Class Magistrates has been established in the town with jurisdiction over the Municipal District. At first only Municipal cases were entrusted to this Bench, and after satisfying himself of the good work of the Bench the District Magistrate has ordered all 3rd Class cases to be tried by it.

Sirsi.—In point of income this Municipality takes the lead in the District. The Collector writes that the administration is ably conducted by Mr. Pandit who has travelled over a part of India and has seen Continental and English Municipalities. His varied experience will assist the Municipality materially. The Municipality has taken up the suggestion of the Collector to provide dust bins in the town, but the people are still averse to abandon their insanitary habits. The Municipality should take in hand conservancy arrangements on a more expensive scale, and this is especially necessary in a populous town like Sirsi. A Bench of Magistrates has also been established here and it is working well.

Haliyal.—This town suffered from deficient rainfall during the year under report. There was an alarming water scarcity, but the joint efforts both of the Municipality and of Government resulted in averting what would otherwise have been a water famine. As was anticipated, the transfer of the Haliyal timber depôt to Tavargatti perceptibly reduced the Municipal income.

Honawar.—The Collector observes that this Municipality is progressing favourably, and the factious feeling among Municipal members is gradually disappearing.

Bhatkal.—The income of this body is insufficient to meet the increasing demands. The sanitation, especially in the Navayat quarters, is far from satisfactory. The Collector has induced the Municipal body to do the needful in the matter and to try its best to increase the income.

Gokarn.—There was a larger attendance of pilgrims to the shrine during the last Mahashivaratri fair. The arrangements, it is reported, were excellent.

Uvi.—This is the smallest temporary Municipality in the District, and the Collector reports that he has no reason to be dissatisfied with its work.

Karwar.—The visit in December last to Karwar of His Excellency the Governor was the event of the year. Intense enthusiasm was displayed by people of all classes. In the addresses that were presented to His Excellency the Railway project was touched upon, and the Collector states that "he is gratified to find that the Special Engineer, who was sent to sketch the *pros* and *cons* of this idea, has reported favourably." The Bombay Steam Navigation Company have constructed a Dharamshala at the Bandar to afford shelter to passengers.

KOLA'BA.—Mr. Chuckerbutty remarks :—

"The most striking feature of Municipal wants in this District, as in others, is either their lack of any water-supply system or the state of total disrepair into which their costly water-works have fallen.

"Plague loans have generally speaking diminished any chance that might have existed of their being able to find funds for the inauguration of a new system or for the proper repair of an old system of water-supply. In almost every case where there is an old system in complete disrepair, estimates have been called for from the Public Works Department and have proved to be wholly beyond the means of the Municipalities concerned."

Pen.—Mr. MacMillan remarks that many of the Councillors have taken a keen interest in Municipal affairs and that the Vice-President, Mr. Dharkar, has taken an immense amount of trouble over the preparation of a revised octroi scheme besides being generally a keen man in Municipal matters. There are however factions among the Municipal Councillors.

As regards the Panvel Municipality I have to remark that I can discover very few satisfactory features in the administration beyond the fact that the President and Vice-President and the Chairman are making strenuous endeavours to improve it.

A complete and studied want of system prevailed until two years ago, when Mr. Mountford first concerned himself about the Municipality, the object of some very influential Councillors being to thereby render Municipal administration a means of increasing their own profits and influence.

There were large arrears of octroi collections, most of which will now have to be remitted, and very numerous applications for refunds, most of which were granted by the Bench Magistrates.

A system of letting Municipal work out to contract was in vogue, and certain influential Municipal Councillors secured these through men of straw, taking care to cover up their traces and preclude the possibility of reliable proof of it being brought against them.

Local factions by means of anonymous petitions endeavour to interfere with all branches of the administration, and there is only too much reason to believe that these factions are engineered by certain influential Councillors.

This cannot however be proved.

The official Councillors are, as remarked, doing their best to remedy these evils, but their task is difficult of accomplishment.

The President and Vice-President have been loyally supported in their endeavours by Mr. Kazi, the Chairman, who is also the Hospital Assistant.

An examination of two years accounts by the Assistant Collector showed them to be in a confused state and favourable to the commission of petty frauds though none were actually brought to light.

Messrs. Macmillan, Koreishi and Patankar have all tried to get the Municipal Councillors of their Municipalities to realize the necessity for their

taking more than a passive interest in Municipal affairs, but it has not been possible so far to assign particular duties to each Councillor.

On the whole, taking an average it appears that the Councillors are not as apathetic as might be supposed, but there is room for vast improvement.

BATNA'GIRI.—*Vengurla.*—The Municipality is financially in a good condition. The supply of water is abundant and the town is kept fairly clean. The Councillors and the townspeople in general appear to take considerable interest in Municipal affairs; unfortunately, however, this spirit is sadly marred by faction. The Collector endeavours from time to time, without much avail, to mitigate this evil by prudent advice.

Rájápur.—This Municipality is almost powerless to effect any improvement as its income is barely sufficient to meet its current ordinary expenditure. One satisfactory feature was that out of the debt of Rs. 10,500 outstanding at the beginning of the year the Municipality managed, by effecting all possible economies, to pay off Rs. 500 in addition to interest up to date. The Councillors take some interest in the work, but they are too often opposed to progress.

Ratnágiri.—The financial embarrassment of this Municipality is too well known to Government to need any further description here. The whole question is before Government, and the Collector thinks that if Government be pleased to accept his recent proposals in regard to the water-works, the situation will be improved and the Municipality will be free to attend to many reforms which are so urgently needed.

Chiplán.—The administration of this Municipality was on the whole satisfactory and its financial condition is good. Much credit is due to the non-official President, Rao Saheb Patki, for the smooth and businesslike manner in which this Municipality does its work.

32. The Commissioner, C. D., has not similarly reviewed the working of the leading Municipalities in his Division. It is desirable that he should do so in future reports.

33. Government desire to place on record their regret at the loss sustained by the Karáchi and Broach Municipalities in the death of their Presidents, Mr. Tahliram Khemchand, C.I.E., and Ráo Babádur Chunilal Venilal, C.I.E., who had for a number of years presided over the affairs of those Municipalities with marked tact and ability.

• 34. Government are glad to note that the administration of the Municipalities has on the whole been satisfactory. Though there was a decrease of a little over 2 lákhs of rupees in the gross revenue, the net revenue showed an increase of nearly a lákhs and a half over that of the preceding year, while the expenditure fell short of the Revenues collected during the year by nearly 1½ lákhs. The expenditure on plague is no longer a prominent feature in the reports. The receipts and expenditure under Education show an appreciable increase and much attention seems to have been bestowed on the improvement of schools. Although factious jealousies and intrigues are reported to retard progress in some Municipalities, the Governor in Council considers that good work has been accomplished.

35. Copies of the Resolution should be submitted to the Secretary of State and the Government of India and should be forwarded to the Commissioners and Collectors and other Officers and Departments as usual.

R. E. ENTHOVEN,
Acting Secretary to Government.

9,88,490	9	0	24,55,769	6	3	1,02,34,346	10	31

As the deposit account of the Karachi Municipality is a suspense one and a separate account in the Bank of Bombay, the liabilities on this account should not be added to this. Therefore the net debt is Rs. 11,76,300.

Rs. a. p.
 † Government Promissory Notes ... 1,51,000 0 0
 Cash ... 342 11 5
 Total ... 1,52,243 11 5

* In addition to this, Government Promissory Notes worth Rs. 16,500 stand to the credit of the Municipality, and Rs. 1,61,000 worth to the credit of the Sinking Fund for repayment of loans. Rs. 342-11-5 in cash, also due to the Sinking Fund, are included in the Municipal Cash Balance.

Statement A showing the Income and Expenditure of the notified Areas in the Bombay

Name of District.	Serial number of notified area.	Name of notified area.	Population.	Closing balance of last year.	Income.		
					From Taxes.	From other sources.	Total income, excluding opening balance.
1	2	3	4	5	6	7	8
<i>Northern Division.</i>				Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Thána ...	1	Andheri ...	4,200*†
	2	Sánta Cruz ...	1,700*†
	3	Ghátkopar and Kirol ...	2,000*†
	Total ...		7,900
<i>Southern Division.</i>							
Dhárwár ..	4	Haragal ...	6,853	561 3 0	...	561 3 0
Ratnágiri ...	5	Dápoli ...	2,602	446 12 5	977 4 0	193 11 1	1,170 15 1
Total ...		9,455	446 12 5	1,538 7 0	193 11 1	1,732 2 1	
Grand Total ...		17,355	446 12 5	1,538 7 0	193 11 1	1,732 2 1	

Grand Total for 1904-05 is not given as all the notified areas, except Dápoli, began then work in the year under report.

* No regular census of the area has been taken, hence the figures are only approximate.

† In the notified areas of the Northern Division the Committees commenced to levy taxes from August 1905; but this was protested against and on legal opinion the Committees agreed to levy taxes from 1st April 1906; Rs. 639-8-0 in Andheri, Rs. 531-13-4 in Sánta Cruz, and Rs. 365-5-4 in Ghátkopar and Kirol, were collected during the year, but then sums were taken to the credit of the year 1906-07. This means that there was no income during 1905-06.

Presidency during the year ending 31st March 1906.

Extraordinary.	Total receipts, excluding opening balance.	Total receipts, including opening balance.	Incidence of taxation (column 6) per head of population.	Incidence of income (column 8) per head of population.	Expenditure.			Closing balance.

‡ In the notified areas in the Northern Division, before the recovery of the taxes was declared illegal, a Secretary had been appointed and arrangements made for lighting and sweeping public roads and hence the expenditure, which will be taken against the income of the year 1906-07. For the same reason, the closing balances are shown as *minus*.

11	Total Income of year (excluding opening balance).	3,96,91,530 7 8									
12	Total Income of year (including opening balance).	3,97,99,569 4 4									
13	Incidence of Taxation (total of Groups, per head of population).	As per Old Census of 1901			10 0 6						
		Do. Special do. 1906			7 15 5						
14	Incidence of Income (column 11) per head of population.	As per Old Census of 1901			51 2 5						
		Do. Special do. 1906			40 9 6						
15	Remarks.	*Excluding the items of column 10 (with the exception of loans) the incidence of income per head of population amounts to Rs. 13-4-3 as per the old census of 1901 and Rs. 10-8-5 as per the Special Census of 1906. Sale-proceeds of Government securities and withdrawals from Bank, Contractors' Deposits and Advances recovered during the year, amounting in the case of this Municipality to about two crores and ninety-four lakhs, have not been treated as income. The totals of columns 5, 6, 7 and 9 plus loans should complete the income figures.									

FORM No. III.

Statement showing the Expenditure of the Bombay Municipality for the year ending 31st March 1905.
