(VOLUME No. 7)

N^o. 1.

To JOHN GEEKIE Esq^r.
CHIEF & C^a. FACTORS AT TELLICHERRY.

SIR AND SIRs,

Wee reced your Letter of the 15th. past the 2^d. Ins^t. and that of the 27th. yesterday if Gold had been procurable we should have been glad to have been supply'd with some, as Silver in General is so low and Rupees at such a rate in exchange for fanams as has not been known.

From a little supply we gott of money at Interest we are enabled to purchase the small quantity of Old Pepper that is now procurable and pay our Garrison till the Arrival of the Tyger Galevatt which wee shall expect some time next month.

Wee have not as yett reced any News from Fort S^t. George of the Arrival of any of Our Hon^{ble} Masters Ships from Europe.

SIR AND SIRs,

The impost of this sheweth that concerning repairing the Gallivatt I have reced every thing from the Linguist of Callicut which was proper for it and has Compleated all except the Paying of the Bottom for which I must wait till such time as I may have reced advice from you after which I shall make as much Expedition as possible I can and att the Breaking up of the Massoons [*sic*], as wind and weather may Permit shall make the best of my way to which you may please to order me.

As to what M^r. Jenkinson wrote concerning the Country People, I hope you will be so good as to excuse my not writing as I being there at the same time and having nothing else matterial thought his might do.

Concerning the three Europeans which went away the first of June last I hope the Linguist has acquainted you of itt as I desired him to do: I have reced three months pay for the People since I have been here.

To day I reced your Letter of the 7th. Instant and shall make as much dispatch as possible but I must wait now till the next Springs on the Account I cannot haul of now itt being too late in the Springs.

I am sorry the Linguist never Acquainted you of the Europeans running away as I Desiring him and likewise Discounted what provisions I had Reced for them at the same time.

As for the Charges I shall keep a just Account of as near as I can, as for what I could have att Beepore. I see Bought myself by his Assistant which I paid for, and he remitted the mony to me again but as to settling a price upon any thing I never did but left itt always to the Linguist or his Assistant which was always with me here upon these Occasions.

SIR & SIRs,

After closing the above in the Evening imported the Warwick Captain Robert Misenor from Great Brtain [*sic*]. She left Portsmouth the 7th. March when the Princess Louisa had also received her Dispatches, and the Princess of Wales would also sail in a few days. There was no War with France when this Ship sailed.

Such Paragraphs of the Honble Court of Directors their Commands as are necessary for your Notice shall be sent by the next oppertunity.

SIR & SIRS

By Pattamar from Goa we received on the 21st. Ult^o. yours of the 16th. of April and 28th. of May.

The Salisbury on whom you were necessitated to send the whole three Lack of Rupees designed for Bengall we are advised was arrived att Madrass. She also carried thither the twenty thousand Rupees (20000) which was to have been landed att Anjengo the Commander alledging the appearance of bad Weather prevented his calling at this place.

We observe you esteem your stock of Money sufficient till October at least if M^r. Crommelin should not draw upon you however to prevent any deficiency we

now for the present consign you twenty thousand Rupees (20000) on the Brillant as Invoice inclosed. She will afterwards proceed to Anjengo having a Supply of Treasure for that place.

As the Tyger Gallivatt will be of service to protect your part of the Coast from Piractical Boats we permit of your keeping her the next Season, but the service will not admit of another Gallivatt being spared: and as she will now be employed solely for the service of your settlement her expences ought to be carried to your Factory which you are henceforward to charge although in effect it is the same thing whether she appears on our or your Books.

The Mountague we are advised was arrived at Mocha from Great Britain but we have not received any Letter from the Honble Company, private advices say she is to remain Commodore Ship on this Coast for the ensuing Season and that three others are bound to this place. As we hope we shall be able to provide full Loadings for them within the time requisite for their dispatch we have considered whether it is proper to continue the purchase of Pepper att Callicut which doubtless you are sensible has an ill influence on the price att Tellicherry and therefore ought not to be practiced but when absolutely necessary. If a Sufficiency can be obtained without having recourse to Callicutt or other Ports contiguous to Tellicherry there will then be no occasion to buy up there, and if even a deficiency is apprehended it had better be provided at Cochin or other distant parts whereby the price will not be immediately effected above Tellicherry and the Merchants may from thence be induced to lower the prese[nt] [...] rate.

We observe your several Contracts for Pepper and the quantity You had remaining [*sic*] in Warehouse with the reasons why you only advanced to two of the Merchants. The Pepper Merchants have generally been in Arrears and formerly the Ballances due from them were more than what they now owe: we are apprehensive a too hasty demand might endanger the whole and denying them an advance might affect their Credit therefore while they perform their promises of delivering Pepper for what money you advance and withall lesser their old Ballances by Degrees it seems most adviseable to continue advancing them as customary but as you on the spot must be proper Judges of their circumstances and intentions of performing their Engagements we shall leave itt to you to act in this affair as you think most consistent with our Employers Interest.

We are pleased with the success that attended the assistance you afforded the Prince against Ockoos Rebellious Gang and that he was so sensible of itt as to make an acknowledgment. Our fortifying the mouth of Ramatilly River will not answer the Expence and therefore decline itt in a complaisant manner.

As the Disappointment of Cardamoms was not to be remedied (according to Cunhisieus representation of the matter) we must submit to itt, and you will use your endeavours that he clears off the amount of what had been advanced according to his Agreement.

The Samorine notwithstanding his former promises we find evades complying with the payment of his Debt in the manner stipulated we would therefore have some proper person again sent to him, but should it then prove fruitless and the Debt not be fixed in a Course of Payment you may refuse Certificates to the Calicut Vessels and consequently deferr rebuilding the Factory there.

Your several Indents shall as far as in our power be complied with when a proper Conveyance offers.

The Will of Arthur Julep although not executed according to the exactness required in such cases yet as the Effects bequeathed are but trifling and the want of Form (as you observe proceeded) from the Partys ignorance We have no objection to their being deliverd to the Executor the other Witnesses first making Oath before the Chief of the Testators executing the Will.

The Salamander Ketch losing her Passa[ge] to Gombroon [.....] have you demand from the Master our Packet to the Agent and Council which open and the inclosed one to the Hoñble Court of Directors forward by this Vessel to the President and Council att Madrass and the for Gombroon send thither by the first opportunity that offers.

When the Europe Ships arrive we shall send you a Supply of Treasure and at the same time give you some directions with respect to the Convoys that will be appointed to secure the ships expected from the other Coast at present we propose one shall be at your Port early in Dec^r. and for such Ships as are not there to take the benefit of that convoy another will be sent to be with you in February, the time of their departure we shall leave to you according to the advices you receive of the Ships on the Coast and the time the others may be expected.

Let the inclosed Indents for the use of our Marine be complied with.

SIR AND SIRS,

Wee was in great hopes to have seen the Gallivat before this especially as the Weather this way has proved ever since the beginning of this month so exceeding good, as all our Hoñble Masters Money is quite expended as well as what private we had is used for their service. We now send this express to desire your imediate assistance with some Treasure, should it suit your Conveniency we should be glad of twenty thousand Rupees instead of tenn as this Month we always make some advances towards our Pepper Merchants, but if you cant spare so much we rely on you for tenn thousand to defray our Expences & c^a. with such Expedition as the Weather will permitt of being quite out and must wait for a further supply from our Superiors whom we fully advised of our necessitys in the Month of May.

We have now in our Warehouse here and at Eddova four hundred Candys of Pepper.

The 18 of July we were advised that two of our Hoñble Masters Ships were Arrived at Fort St. George who left England last February. We are

SIR AND SIRS,

The 8 Instant the Tyger Gallevat imported with Your Letter of the 3^d. with the inclosed packet from the Presidency who has been pleased to send us twenty thousand Rupees, 20000.

In Our last by Pattamar we inform'd you we had four hundred Candys Pepper in Warehouse which is all of this Comodity we have any hopes to gett before January but the beginning of next month, we will send you a Just Calculate of what Tonnage may be by us as by that time we hope to gett up what Cloth we have ready from the Southward, but we shall be disappointed in the quantity as our rupees are so exceeding low in exchange for fanams as well as Cotton Yarn greatly encreased in the price.

Wee now return the Tyger Gallevat to you but are apprehensive she will be tedious in getting up as the winds and Currant at this Season of the Year are against her.

GENTLEMEN

We have received your severals of the 3^d. and 7th. September: The first by the Brilliant which arrived the 17th. and the inclosed Packet for the Honble Court of Directors was forwarded by the Salisbury which sail'd the 27th.

The 22^d. of August arrived here our Hoñble Master Ship the Heathcot, as did the Exeter the 29th. The first of these left Portsmouth the 16th. of April in Company with the Colchester for Benjir St. George for Benjir, and the Princess of Wales for Bombay. Our last Advices from the Bay tell us the safe arrival there of the Duke Princess Amelia Montfort Winchelsea and St. George. The three last

passed by without calling in here. The Winchester and Princess Louisa left land we believe about the middle of March: as we have not seen the Winc here We shall be glad to hear she is safe arrived in the Bay.

With this you will receive a packet of Letter that came this morning by from Anjengo the people whereof the Linguist has advanced one Rupee to.

Mr. Croes informs me that he wants Iron for the use of the Factory as v Nails of all sorts. The Iron that was here he has used and thinks for the p two Candys will be sufficient and of Nails fifty Pounds.

The Pepper Merchants were here last night and they Promise to deli what they owe by the 15 of Next month.

Your Commands of the 31st. Ult^o. I received the next afternoon with the Iron and Nails. The Timber for the Foundation of the Factory were laid today and Mr. Croes is in great hopes he shall now go on very fast with the work.

The Masons complain very much of the smallness of their allowance for Diet Rice being here at three Rupees and one Fanam ₹ Bale. I have consulted Mr. Croes and the Linguist about itt and they both think two Rupees and a half ₹ Man is little enough but may satisfy them when they built the Fort on Durmapatam they had a Bale of Rice and two Fanams Each. I told them I could do nothing in this affair of myself but would write to You about itt.

The 23^d. past we forwarded you by Boat express our Packet to the Honble President and Council of Bombay which we hope you have had an oppertunity before now of forwarding up to them enclosed is our Duplicate which we beg you will likewise forward.

This is by our Honble Masters Smack and a Munchua Captain Lawrence has hired to carry up himself and People to you in order to be in a Readiness for the Earliest Conveyance to Bombay.

About Six Days ago the French sent down here a Tony with Letters to any french Ship that they may meet with open & c^a. ₹ ticular one to a Ship of force Coming this way and to stay here a few days till they are past, they mention Angria to be to the Southward of Your Port and that they had Lodged a Command of 50 soldiers at Panany for their Ship to take in. We presume as we have not heard from you there can be no truth in itt, but only some other idle meaning in this report for we have examined the boat People who say they hear Angria is at Mangalore.

Please to order the Smack and Munchua to be returned as soon as possible.

TO JOHN GEEKIE ESQ^R.
CHIEF & C^A. FACTORS AT TELL^R.

SIR AND SIRS

Since our last by the Brilliant we have reced yours of the 10th. of June.

The Warwick whose Charter party Tonnage is (498) Tons We now dispatch to You having put on board 476 Bales of Surat Goods as ☞ the enclosed Calculate of the Tonnage the remaining she is to receive on the Coast which we leave to You to put on board at your Settlement or order her to Callicut or Anjengo as you shall think most proper giving her as Quick a Dispatch as you can and so as no Demorage may be incurrd which Commences the 17th. of next Month.

The Stock of Pepper will not Afford any Considerable Quantity of Surplus Tonnage to be spar^d. however you may if the Comm^r. requests it put on board to the Amount of Five Tons more than his Charter party Tonnage.

The Mountague Accompanys her to your Port to be returned in Company with such Ships as are ready to take the benifet [*sic*] of Convoy by the 20th. of December longer than which we would not willingly have her detaind except you have reason to expect the Speedy Arrival of some of the Country Shipping when in such case we Leave her dispatch to your Discretion.

They are orderd to call at Onore for Land^{ing} a Supply of Gold and M^r. Cromelin has permission to take what he further wants out of what is design'd for you of which he will give you the Necessary Advices.

On the Mountague we have Laden 280 Bales of Cotton design'd for part of her Cargoe to Bengall which is to be Landed and kept with you till she proceeds thither as we would have her a Clear Ship for Convoing the Ships down the Coast.

We enclose you such Paragraphs of the Honble Court of Directors their Commands reced this Season as Relate to your Factory to which you will shew due regard Also Copys of their Answer to a Letter from the French Company and Agreeable to their directions you must send Annually home a few Hogsheads of Beepore Arrack.

In our last we observ'd the ill Effect Purchasing att Callicut had on the price att Tellicherry and therefore recommended not to purchase there if Possible to be avoided We shall be Glad to receive advice how you have proceeded in that matter of which you must also particularly acquaint the Honble Company.

Your several Indents are as nearly Complied with as Our Stock will admit Except the Article of Country Gun Powder which will be sent you from Anjengo as they have a large Quantity which is not requird for the Service itt was Indented.

You must permit Mr. Ainsworth your Gunner to come up hither by the first Conveyance and in his place we have sent you Mr. Charles Garden who is paid to the End of Last Month.

Let the enclosed Indent be Complied with.

From the Good Character you give of Mr. William Worrell we enclose you the presidents Commission appointing him an Ensign.

Should the Warwick not be sent to Anjengo you are to receive the Treasure and Stores design'd for that place according to the enclosed Invoice and forward them by some other Conveyance tho if the Commr. intends to touch there and will Land them without any Demands for his Owners they may be continued on board.

Mr. Bouchier who is appointed by our Honble Masters Chief att Anjengo has intimated in a Private Letter to the President his design in coming up hither but as no such License is given by them therefore shoud he Arrive at your Place we woud have him return to Anjengo.

The Person detain'd for being concern'd in the murder Committed att Durmatam you may send hither on the Mountague.

You will perceive by the 95th. Paragh. of the Honble Companys Commands by the Warwick there was a mistake of Six hundred Rup^s. (600) between the Certificates given the late Captain Robert Jenkins on the 3^d. March 1739 And the Sum Specified in the General Letter home and Books of Accounts which from some Circumstances recollected here by Mr. Broughton there must have arose from Mr. William Jeynson his paying to Cap^t. Jenkins his Order Six hundred Rupees (600) Instead of Paying itt into the Treasury which Mistake he might easily have prevented as he was accomptant Signed the Letter and Certificates and Books of Accounts Examine this affair and receive the Amount of the Chief into the Treasury with 9 $\frac{1}{2}$ C^t. Interest thereon till the day of Payment and upon your Advice hither Mr. Geekie shall be repaid as the Estate of Captain Jenkins is under the care of the President Advise the Honble Company of the payment as Likewise of any Necessary Circumstances relating thereto and be particular in respect to the Investment and other their Affairs which we cannot for want of Later Advices from you than those Abovementioned Also Acquaint our Honble Masters with such Advices as you may receive from Mr. Charles Crommelin.

A Commission and its Duplicate having been Issued out of Chancery for the examination of Witnesses in a cause wherein the Heirs of Sr. Robert Cowan are Plaintiffs and the Honble Company and Mr. Henry Lowther Defendants directed to your Settlement in case there should happen to be any person who can speak of the matters in Dispute. The said Commissions are deliverd to Captain Misenor from whom you will receive them.

If Captain Misenor offers to pay any Money into your Cash you may receive itt giving him Certificates for the amount.

As we have not a Standing Mast in Store for our Vessells shoud they meet with any Accident let as many of those that are lying at your place as the Mountague can take in be put on board as also the Timber &c^a. for Gombroon but so as not to Lumber her.

If the Warwick is dispatched by you for Great Britain call upon the Comm^r. for a Manifest of all Private trade he has on Board transmitting the same to the Honble Company or if she proceeds to Anjengo let the Chief and Factors be Acquainted herewith that they may Execute what above directed.

This I dispatch by Toney express to acquaint you that Yesterday Night Mangat Acham the Samorines Head Minister sent to ours and the French and Portugueze Linguists to attend him this morning which accordingly they did when he told them that he had an order from his King to acquaint them that from the 1st. of this present month a Duty would be laid upon Timber planks cables and Cordage that might be exported out of Callicut by the above Companys as they were formerly wont to do tho have not since the erecting of Tellicherry Fort: the materials for which Mr. Adams had a grant should be custom free: and no others wherefore itt is time now itt should be collected as the French and Portugueze made a handle of this Grant to the English and have paid nothing neither — an easy Compliance herewith may make the Samorine lay a large Duty on these Articles as well as hereafter to make you pay Customs on Chunam Firewood and Bamboos. A Toney is gone express to Mahie to advice the French of this affair to which I must desire your speedy Answer as Mangat Acham waits for it and the French.

Herewith you have Invoice of the pepper that was in Warehouse and outstanding here amot^g. to Rupees 7297. 3. 5 and I have laden itt all on the Dolphin Munchua as She had room enough for itt. She Likewise has on board of her 70 Corge of Matts and ten maunds of Ghee as List enclosed.

Some few days ago itt was reported that Angrias Fleet where [sic] seen at Anchor in 18 Fathom in the offing but having since heard nothing of them I imagine itt was a false Report.

I have reced your order of the 24th. Inst. by the former I did not apprehend I was to repair to Tellicherry till the Arrack was to be Shipped off and to bring a Cooper to see the cask was in good condition also to prove itt at the same time.

In July last I Contracted with a man of Goa for six Soudas of Double disstilld Goa Arrack which I have not heard to this day and was to have been deliverd here in September last As to the Arrack I spoke of in August last was thus. I had att that time Arrack enough to have made up my whole contract in the rains June and July I drew my Arrack 4 times over in order to make that of twice D^o. up to the muster sent me, the Months of Aug^t. and September proving dry our Toddy fell of at once that I could not fill one still in ten days. and continues so at this time I have money at Parpangada also at Tannore to purchase Toddy but every where has the same complaint of this I have vouchers the rains in October and this month have taken no Effect of the Trees yet. in Dec^r. and Jañry we Expect an encrease if I had got the quantity of Goa Arrack or my own as the other Years I have had at this time I could have sent up my Contract at once.

The 40 Hhd^s. of Arrack I have sent up pays that 1000 Rup^s. I received in August by which I Loose near the same sum by not having Arrack of quality to incorporate the 1000 Rup^s. advanced in May if required in one month I am ready to pay principall and Interest.

Gentlemen I hope itt will be consider'd that itt is not to my Interest to be att the expence and risque to send to all Parts to buy Arrack or Toddy if I could get it at home nor woud I take the trouble if I was not desirous of Performing my contract which I hope to do before the Febry Ships go up, in the mean time I will be industrious to get what Arrack I can to Tellicherry against the first conveyance and when itt is to be Shipp^d. of will be there myself. I Expect some Soudas quickly down from the North if I shoud go to Tellicherry before the Arrack is ready to go I shall be wanted at home.

as follows viz. Pepper 18. 12. at 100 Rup^s. Candy. 92. 1. 22. Deficient in weight 14 15. at ditto 02. 2. 78.

Captain Misenor has kept four empty Pepper bags for which you will please to receive of him two Rup^s.

I have no prospect of Proccurring more than one hundred Candies of Pepper between this and the Month of April, tho as itt is uncertain what effect the new Crop may have upon the price I cannot even of this advise with any Certainty.

By the Last advices from Carwar the price of Pepper was there Forty Sonaree Pagodas Candy exclusive of two and an half Pagodas charges which being so very high gives me no hopes of Proccuring any from thence.

The Treasure received from the Honble the President and Council being sufficient for Purchasing such Pepper as I have a prospect of proccuring. I have not therefore taken any of the Treasure design'd for your Settlement.

Enclosed is a bill of Lading for the Pepper Laden on the Somerset.

Since Our last we have reced yours of the 14th. of November.

We now dispatch the Princess of Wales having put on board what goods were in readiness here as you will perceive by the enclosed Calculate of the Tonnage laden here and the remainder which is to be made up by you.

This Ships Demorage you are to observe commences on the 2^d. of next month and as you Cannot have pepper by that time to Compleat her Charter Party Tonnage this very Disagreeable expence must unavoidably ensue but as the Princess Louisa must be a late Ship and you are likely to have such a large quantity of Pepper we would have you give her what you think you can spare upon the low frieght, in which be as expeditious as possible, as every day will be a charge to the Company

£ s. d.
of 18. 2. 3 which when done give the Commander his final Dispatches.

In Company with this ship we send the Bombay Grab on whom we have Laden 200000 Rupees equally divided as you will perceive by the Invoice and Bills of Lading Enclosed.

As you will have some of the Honble Companys Ships with you keep the Grab so as she may be of service to them in their Passage up the Coast and likewise to the Country Ships and Vessels but as you will be best able to Judge from what Ships are expected how she may most properly and Beneficialy be employed we do not limet [*sic*] you to any Certain time for her dispatch but leave it to your Descretion with this Caution that in Case some Ships of good force do not come up with her order the Com^r. to put off with those under his Convoy.

We are extreemly glad to find by your advices the Crop of Pepper is like to prove so plentyful and with the agreements made with the French to fix a price, you hope to reduce the Exorbitant one which you were obliged to give last year. We doubt not but you will take all proper measures in the provision of that Article as it is of such great emportance [*sic*] to the Honble Company.

We observe your having obtained new Olas from the Samorine for his debt which is now put in a Course of Payment and that you had thereupon begun Rebuilding the Factory at Callicut which we approve of and have only to recommend that the greatest care be had in the performance of the work and frugality in the Expence in which good looking after and workmen is the main point.

Agreeable to your request for another assistant we now send you Mr. William De La Garde Writer he has reced his Salary to the 2^d. Instant and Diet money to the last of this month. We also permitt Mr. Thomas Benton to remain at your Place.

When you Consider the state of your revenue you will find they Cannot admitt of an Allowance of thirty Rupees a month for only collecting the small sum that arrives.

If Captain Harry requests to pay any money into your Cash you may receive the same giving him Certificates for the Amount.

You must Remember to call upon Cap^t. Harry for a manifest of what Private Trade he has on board as he has deliverd none at this place choosing to give an Exact Acco^t. at your Settlement which must be sent to the Honble Company in your packet by this Ship.

We leave to your Descretion whether to detain the Surplus Tonnage which you will be guided in by the time of the season that her passage is not endangered.

SIR AND SIRs,

This Morning about seven o' Clock arrived Engin [sic] Worrall with the party of Men you were pleased to send to the protection of the Honble Companys Factory here and by him I recd your Commands of Yesterdays date.

About Noon as you will perceive by the accompanying letter I wrote the Cap^t. of the Portugueze Frigat some of the Samorines Ministers came to our Factory to desire that I would write to him to suspend his Hostilities till tomorrow night as by that time they believed they should hear from their King and possibly in a favourable manner in regard to the portugueze but if not they of themselves would endeavour to pacify them. I accordingly complyd with their request but before the Toney could get on board the Frigat Grab and another small Vessel begun to fire on the Town. However so soon as the Cap^t. of the Frigat received my Letter he made a sign to the other Vessells to leave of firing and sent me the Enclosed letter in answer to mine which as soon as I had read I advised the Samorines Ministers of the purport and desired they would give orders on their part that no body should fire from the shore: so that between four and five this afternoon the Cessation begun. That the Samorines Ministers will prove ingratefull I make no doubt of they having made prisoners of the Toney people that carried my letter at their request: They pretend that the French and English spur on the portugueze and perhap[s] by and by will espouse their part and this notion they have and do Continue to propagate wherever they go. To morrow they are to meet again and give me their answer which I am to send to the Cap^t. of the Frigat which is all that I have at present to advise you of excepting which I had almost forgot to acquaint you that a Ship came to an anchor this evening off of Baypore.

SIR AND SIRs,

The foregoing I intended to have sent you the Time that I wrote it: but the Government people would not suffer any Toney to be put into the Water and it was with the Greatest Difficulty that Leave was yesterday given for the Linguists wife and Family to retire to Tellicherry.

Last night by my appointment the Samorine Minesters met me at the French Factory but nothing could be done with them in behalf of the portuguez whom I find they are determine[d] shall pay or give security for the Customs before they will grant it to be shipt of. However we are to have another meeting there this morning which I believe will be to as little purpose as that of last nights the Portugueze the day before yesterday by all their firing from their Frigat and other Vessels having done not the least Damage to the Town or Vessels in the road which has so much animated the Country people that they bid defiance to all Europeans.

As we can get none of these Country Toney's for any use whatever: please to send three or four from Tellicherry to be ready upon all occasions for should the Government continue to Molest the Company in their Affairs the withdrawing of their Servants (who having not power enough to defend their Right) for the present may make the Samorine and his Ministry sensible of their ill Treatment of a Company that never gave him the least cause of Complaint: and invite it to resettle at Callicut upon a better and more secure footing than heretofore. I mean not that the English should steal away or fly from the place no: a memorial should first be presented to the Samorine setting forth that they quit not their pretensions to the Factory, but his undeservedly ill Usage of denying of them now the Exercise of their Commerce here oblige them to return to Tellicherry.

The Ship that was at anchor off of Baypore the other night is a Surat Moor Ship but from whence she came I cannot tell a French Ship is now coming in, and to the southward of Baypore a large Ship has just now dropt her Anchor the wind being far to the Northward and against her.

SIR AND SIRs

Last night I received your Commands of the 16th. and herewith I send you an Ola from the Samorine in answer to the Chiefs last letter to him.

The Samorine having order'd Swamy Putterah to pay the Honble Company the sum of six thousand fanams in part of his first Ola. he yesterday desired as he was to sett out early this morning that it might be transferd to Mangat Acham the Samorines first Minester who agreeing thereto and the Linguist telling me that he should certainly pay it the next month I also consented to itt as for the remaining sum of forty four thousand I have not yet heard in what manner it is to be discharged tho I am well informed orders will come about it.

I have kept open this Letter ever since five o Clock when I sent off a Toney to two Ships that appeared in the offing and standing to the Northw^d. but the wind being far northerly they were obliged to come to an Anchor. The headmost has English Colours and a large pend^t. and seems designd for the northward which I take to be the hardwick especially as she has this moment fired a Gun which I desird the Comm^r. would do if it was her the Southermost Ship has no pend^t. but her colours I could not destinguish.

OUR CHIEF AND COUNCIL
AT TELlichERRY.

1. We send this by our Ship Hardwicke Captain John Hallett Commander bound to Bombay and China.

2. The Commander is ordered to call first at your Place to land twenty five Chests of Treasure that the risque up the Coast may be avoided and fifty Bales of long Ells to prevent the Moth getting into them for which you must give him a Receipt and on her coming down the Coast the said long Ells must be Reshipt on board.

3. In case this Ship should not be able [to] reach Bombay and the Supra Cargoes Messieurs Hide Hadly and Pinnell should judge proper to land at your place any of the Cargo designd for Bombay You must take Charge of and give receipts for the same Advising the president and Council thereof by the first Oppertunity and forwarding the Goods to them by all proper Conveyances as they are designed for that Market.

4. You are in that Case to open the Packet for Bombay in the Supra Cargoes presence and have Recourse to the Invoice Bill of Loading and other Papers for your mutual Guidance but our said Packet must afterwards be forwarded to Bombay by the first proper oppertunity: and in that case

5. You must put on board this Ship what Pepper can be spared after reserving sufficient for the Loading of Our other Ships and in case no Country Ship goes from Bombay to China some Sandall wood if any is on hand with any other Article proper for Canton Market Consigning the same upon Our Account to the Supra Cargoes.

6. We are informd that some Foreign Ships are coming out with a design to Procure a Load in Pepper on your Coast. We doubt not of your Buying all the Pepper Procurable at our Settlements but We recommend it to you to Purchase what you

can on all other Parts of the Coast either for Us or Your own Country Trade that so they may be discouraged from Attempting that Trade in future.

To JOHN GEEKIE Esq^r.

CHIEF & C^A. FACTORS AT TELLICHERRY.

SIR AND SIRS

We received your Letters of the 28th. of December 29th. January 17th. and 29th. of February 4th. and 7th. of March but the Bombay Grab had a tedious Passage not arriving here till the 4th. Instant.

The Mountague and Pultney returned from Mangalore the 30th. Ultimo but did not bring above half the Quantity of Rice ordered as it was not procurable within the time necessary limited for their Stay. The Former now proceeds to your Port and on her we have laden such stores as could be spared in part of your Indents. as ☞ Invoice and Bill of Laden Enclosed she will also call at Onore for receiving what peper Mr. Crommelin has provided which will be consigned to you, and he with Mr. Cox have our permission to proceed on her to your place.

We have Laden on the Mountague two hundred and twenty Bales of Cotton and in case you are assured of having an overplus of Pepper after Loading six hundred Candys upon the Hardwicke and reserving three thousand Candies for the next Years Shipping, We would have you send it to the Bay on the Mountague in lieu of the two hundred and Eighty Bales of Cotton formerly lodged with you or such a Quantity as you can spare reserving a proportional part of the Cotton if it cannot be taken in advising the President and Council of Fort William accordingly to whom you are to Consign the Ship.

The Hardwicke Captain John Hallet Mess^{rs}. Hide Hadly and Pinnell Supra Cargoes arrived here from England the 31st. Ult^o. And agreeable to the Hon^{ble} Companys orders is to proceed to China. We inclose you Invoice and Bill of Lading and you are to put on board six hundred Candies of Pepper to pay for which with Charges and allowance for loss in weight. We have Laden 55800 new Bombay Rupees which you are to receive shoud any Sandall Wood be procurable & the Supra Cargoes approve of the Comodity let such a Quantity as they desire be laden on board. which must be paid for in Dollars, you and those Gentlemen agreeing for the rate of them use the greatest Expedition and Dispatch the Commander to China.

there to follow his Supra Cargoes Orders. At the Supra cargoes request we have increased the Hardwicks Stock which by the Invoice you will observe to be two hundred and sixty thousand Rupees (260000) but when you Draw out the Invoice You need not confine yourselves exactly to that sum as a few Rupees in or over will make but little Difference. Enclosed you will receive a Packet from the Honble Court of Directors for your settlement by that Ship.

On Settling the Short delivery of Ship Mountague from your place. Captain Freeman alleges that three Coils of Coir Cordage were lost by the Toney's over setting but as you must be the best Judges of this matter we have referred him to you and have made a proper Indorsment on the Bill of Lading which comes enclosed.

We are glad the plentifulness of the Crop of Pepper affords you hopes of so considerable a quantity. Your proceeding in regard thereto and mutually fixing a price with the French we approve the orders of the Honble Company for procuring all that is possible. You will observe in their Letter now sent you to which pay a due regard and by the Mountague advise the President and Council of Fort William what quantity you expect to have the ensuing season after reserving three thousand Candys as above ordered.

As We are sensible of the difficulty you often meet with in getting down Rice from Mangalore and the Contract you have made with your Linguist will in the end be as Cheap as any other method we approve of that proceeding.

From Mr. Jenkinsons representation how great a sufferer he must be if obliged to perform his Contract for Arrack. At his request we are willing it should cease. We observe the quantity deliverd amounts to a small matter more than he has been advanced money for.

We should be very unwilling to be the first European nation that submitted to paying Customs on plank and Timber at Callicut. but as the last Instance of the Portuguese shows it as a point the Government will not give up and that they have been obliged to Comply. It is not to be expected we alone should be exempted however try what can be done by Expostulation and any success you meet with will be very agreeable.

In hopes the Collector you have appointed for receiving the Revenues of Durmapatam will diligently perform the office and Our Hon Masters thereby experience an encrease We agree to the allowance of twenty Rup^a. ₹ Month. We permit you also to make such an allowance to Pedro Vagues pay as you think reasonable but not to exceed six Rupees ₹ Month.

We approve the method proposed of keeping your Books of Accounts in Rup^a. q^{rs}. & raes.

We shall remember your request for a Doctor after the rains if a proper one can be meet with.

By the Mountagu we consign you to the amount of three hundred thousand Raes (300000) which is the whole we could get ready also two Chests of Sevillian Dollars. We expected from Surat by the Restoration Grab fifty thousand Rupees more a part thereof in Gold but as she does not yet appear and the Season is so late. We do not choose to detain the Ships therefore we shall if possible [sic] it by one of the latter Ships.

As it is of Great Consequence to the Honble Company the Hardwicks getting early of this Coast that her Arrival may be speedy at China We recommend to You the greatest Expedition and on no Account delay her a moment longer than necessary.

Mr. Rawden who remained here on Account of his indisposition now proceeds for Anjengo but if the Mountague will not touch there you must assist him in procuring a Conveyance and in that Case the Treasure must be landed from the Mountague and sent with him.

We send on the Pultney Felix Castell Serjeant and by the Mountagu Lemuel Palmer Corporal Zachariah Silvester and Ivachim Figurado Topasses who are all paid to the last of this month.

The Land paymasters Indent enclosed Let be complied with.

We mentioned in the former part of this Letter that the Mountagu would call at Onore but the Commodore thinking it unsafe to remain there a single Ship. We have ordered him to proceed with the Hardwicke directly to your Port.

Herewith I deliver you the daily Account of the Workmen employed in building the New Factory at Callicut with their pay and the Cost of the sundry Materials signed by Mr. Peter Croes the Overseer of this Work.

Saving part of the Stones which cost more time and Chunam in the Working and laying than new ones would have done had they been ready provided none of the Materials of the old Factory were fit for use again which with the necessity we were under of making a Timber foundation the soil being very soft and sandy together with the Dearness of Cooley hire Artificers work Stones and Timber has made the sum already laid out upon this building so much exceed the Calculate. Notwithstanding no Care was wanting on my part or that of Mr. Croes.

SIR AND SIRs

I received yours Just now wherein you desire to know my reasons for not taking in the six hundred Candys of Pepper orderd by the President and Council of Bombay.

When I was at Bombay by the best information I could get there I could not expect to take in any sandall wood here therefore to make my Ship Capable of going to Sea I took in one hundred Tonns of Bombay Ballast and on my Arrival here 300 Candys of Sandal wood, being ordered on board me, I was obliged to break up every bale of Cotton to put the Sandal Wood underneath, which with the bad weather we have had every afternoon, has render'd it a very tedious piece of Work to forward which I have been every day on board, I have now also four hundred Candys of Pepper on board which with the sandall wood is much more Tonnage than six hundred Candys of Pepper notwithstanding there is fifteen boats of sandall wood to go on board tomorrow morning the weather proving to bad to send the[m] off this afternoon. Notwithstanding I am able to take in [more] Pepper but as the weather has for several days proved very [bad and] dubious and the Monsoon may be Expected to set in every day, and as I was strictly enjoyned by the President and Council of Bombay, to get of the Coast if the weather proved as it now doth. I hope you will not detain me to take in more. I am

The 25th. of last Month imported here Our Honble Masters Ships Lapwing and Prince William as did the Prince of Wales the 28th. the two last left England the 2^d. of December and in their way called at the Cape. The Edgebaston Captain Cobham was there bound for Mocha, as was the Salisbury for England. And the Captains of these Ships inform us that the Hardwicke had been there also but are not Certain of the time of her leaving itt.

Enclosed we send you list of the Ships Arrived in England 174[4] as also of those designed out the Present Year. The War with Spain yet continues and it was uncertain what turn affairs would take in the spring in regard to us and France. There are two Ships arrived at Pondicherry this last month.
