Message from the Director

The Gokhale Institute of Politics and Economics was conceived in 1930 by the Late Shri Rao Bahadur R.R. Kale, M.L.C. , as a centre for higher learning and research in economics to commemorate the great Indian nationalist leader Shri Gopal Krishna Gokhale. The Servants of India Society is managing trust of the Institute. Since those days, it has evolved into a premier institute of advanced study in economics with of faculty and alumni who have distinguished themselves nationally and internationally as academicians, policy makers and consultants.

The Gokhale Institute has been widely recognized for its pioneering contributions in the subjects of Rural Development, Co-operation, Poverty Alleviation, Employment Guarantee, Crop Insurance, Planning, Federal Finance, Input-Output Economics, Agricultural Development, Irrigation and Demography and in several other areas related to the social and economic problems of India.

Our excellence as an Institute of higher learning has been recognized both in India and abroad. The Reserve Bank of India, the Ford Foundation, the Planning Commission and the Kamalnayan Bajaj Foundation have each instituted chairs for distinguished faculty in Finance,

International Economics, Planning and Development and in Industrial Economics respectively at the GIPE.

Although it is primarily a research Institute it was recognized, from its inception, as a teaching institute as well, and awarded the M.A. and Ph.D. degrees in economics of the University of Bombay and later the University of Pune. It received further recognition in 1993 when the University Grants Commission declared it to be a deemed University.

An important aspect of our evolution as an Institute of Economics is the increasingly interdisciplinary approach we now take to the subject. In accordance with this approach and to enhance our role as a Deemed University, we will launch from July 2011 two new masters programme in Financial Economics and Agribusiness Economics. In addition, the Institute has considerably expanded its Ph.D. programme to 32 registered students. The Institute has also initiated two student and faculty exchange programmes, one with the University of Goettingen and the other being the Ontario-Maharashtra-Goa programme with a consortium of seventeen Canadian Universities.

The Institute has pleasure in presenting, the Annual Report of its activities for the year 2009-2010.

Vision and Mission Statement

Vision

About the Institute

The Gokhale Institute of Politics and Economics is one of the oldest research and training institutes in economics in the country. It was founded on the 6th of June 1930 with an endowment offered to the Servants of India Society by the late Rao Bahadur R.R. Kale, Member of the Legislative Council from Satara. The Servants of India Society, founded by the late Shri Gopal Krishna Gokhale, are the Trustees of the Institute. The Institute is registered under the Societies Registration Act, 1860, and the Bombay Public Trusts Act, 1950.

The object of the Institute is to conduct research into the economic and political problems of India and to train research workers in these subjects. Under the pioneering leadership of the late Professor D.R. Gadgil, its first Director, the Institute set the highest standards for quality

research, teaching and training in a number of branches of economics.

Keeping in view the eminence of the faculty, the contribution the Institute has made in teaching, training and research in economics, the availability of physical infrastructure and the potential of the Institute, the Government of India, on the advice of the University Grants Commission, awarded to the Institute the status of a Deemed University on May 9, 1993, the birth anniversary of the late Shri Gopal Krishna Gokhale after whom the Institute is named. The National Assessment and Accreditation Council, after a review to satisfy itself of the merits of the Institute has, with effect from January 08, 2004, given its accreditation to the Institute with a grade of A+ (score 90-95%) for a period of five years.

Research

The main thrust areas of the Institute, which have developed over the years, through financial assistance from various sources, are agricultural economics and rural development, population studies, input-output studies for planning and development, microeconomics, macroeconomics, monetary economics and finance, public economics and international economics.

Various ministries and public funding agencies, including the Government of Maharashtra and private foundations like Sir Dorabjee Tata Trust, financed the research activities of the Institute in its early years. Subsequently, in 1954, the Union Ministry of Food and Agriculture established, and has supported since then, the Agro-Economic Research Centre of the Institute. During the early fifties, the Rockefeller Foundation made a substantial grant, spread over several years, for the conduct of a research programme in rural demography. By the time this grant period came to an end, the Union Ministry of Health, which had given grants for conducting some specific demographic studies in 1954-57, decided in 1964 to strengthen and expand the research work on population by financing, on a continuing basis, a Population Research Centre as an integral part of

the Institute. The Ford Foundation gave very generous financial assistance for more than a decade beginning in the year 1956. Later, the Ford Foundation, in collaboration with the Planning Commission, provided a separate grant for research and training in the areas of planning and development, mainly devoted to input-output studies. The Planning Commission has also given an endowment grant to the Institute to establish a chair and a unit at the Institute for promoting teaching, research and informed debate on all issues relating to Planning and Development. The above-mentioned chair is named the 'Professor D.R. Gadgil Chair of Planning and Development'.

In 1962, the University Grants Commission recognised the Institute as a Centre of Advanced Study in Agricultural Economics, and later, in 1964, as a Centre of Advanced Study in Economics. In 1977, the UGC, as a part of its Area Studies Programme, established at the Institute a Centre of Study of the Economies of East European Countries. In the same year, the Reserve Bank of India instituted a chair of finance at the Institute. In 1989, the Ford Foundation gave a generous endowment grant to the Institute to fund a chair and to establish a section in international

economics to carry out research activities in international economics and related subjects. The Ford Foundation grant also included support for the post of a Librarian and for acquisition of books and journals. Similarly, in 2005, the Kamalnayan Bajaj Trust has given a generous grant to fund a chair of economics at the Institute.

Teaching

The Institute was affiliated to the University of Bombay, conducted the M.A. Programme in economics and supervised the work of students working towards research degrees of that University. In 1949, with the establishment of the University of Poona, the Institute became a constituent recognised institute of the University of Poona. Till some years ago, the Institute functioned, for all academic purposes, as the Department of Economics of Poona University. With the decision of the University of Poona to establish a separate department of economics at its campus, the Institute, as a Centre of Advanced Study in Economics, was granted effective autonomy by the University of Poona in 1986 in designing courses and in teaching and examination of the M.A. courses in economics. As stated earlier, the Institute has been granted the status of a Deemed University by the Government of India

Recently, the University Grants Commission, New Delhi, has sanctioned the Centre for Study of Social Exclusion and Inclusive Policy (CSSE & IP) in 2008 for a period of five years (coinciding with the Eleventh Five Year Plan Period) to carry out research and teaching in the areas of social exclusion, discrimination and inclusive policy.

with effect from May 9, 1993. With the grant of this status, the Institute now awards its own M.A. and Ph.D. degrees in economics. After acquiring the status of a Deemed University, the syllabi of the courses offered at the Institute were thoroughly revised on the basis of the recommendations of a committee constituted for the purpose. The courses in the M.A. programmes of the Institute are being regularly revised and updated on the recommendations of the Board of Studies and the Academic Council of the Institute.

The year 2011-12 will witness a significant broadening in the educational activities of the GIPE. This will be in the form of two new post-graduate programmes that will commence in July 2011, namely, the Master's Programme in Financial Economics and the Master's Programme in Agribusiness Economics.

Training

In April 1989, the University Grants Commission selected the Institute and extended assistance to it for conducting refresher courses in economics for in-service university and college teachers from the western region of the country. In 1994, a year after the grant of Deemed University status to the Institute, the UGC extended the

catchment area of the Institute for its refresher courses to the entire country. Since the inception of this scheme by the UGC, the Institute has been regularly conducting UGC - sponsored refresher courses for university and college teachers from across the country.

Research Centres at the Institute

The Institute has three research centres established by the Central Government.

Agro-Economic Research Centre (AERC)

The Agro Economic Research Centre (AERC, GIPE), Pune, was established by the Union Ministry of Food and Agriculture in 1954 and has now completed 56 years of its existence. The AER Centre has been a fully integrated part of the Institute right since its inception.

In 1962, on the basis of the quality and extent of work done by the GIPE, its professional reputation and contribution to research in agricultural economics and its potentiality for further development, the University Grants Commission selected the Institute as a Centre of Advanced Study in Agricultural Economics. Two years later the field of study of the centre was expanded and it was re-designed as the Centre for Advanced Study in Economics.

In April 1989, the University Grants Commission selected the Institute and extended assistance to it for conducting Refresher courses in Economics for University and college teachers. The Institute has been regularly conducting UGC

sponsored refresher courses and the course on Agricultural Economics is particularly popular.

The Centre also conducts studies allotted to the Institute by various agencies such as the Government of Maharashtra, NABARD and the Planning Commission, Government of India.

The AERC has completed about 160 studies since its inception. The major activities of the AERC are Farm Business surveys, and studies related to Irrigation, Watershed Management, Rural Electrification, Village Surveys, Rural Credit, Agricultural Tenancy, Co-operation, Droughts and Famines, Crop Insurance, Agricultural Marketing, Agricultural Exports, Poverty Alleviation, etc.

A large number of these studies have made significant contributions to the field of agricultural economics and the agricultural development of the country. These studies have been widely recognized by policy makers and academicians even today and serve as benchmarks of excellence in their respective fields.

Population Research Centre (PRC)

The research activities in 'Population Studies' at the Institute predate the formulation of population policy, the establishment of the family planning programme by the Government of India and the founding of Population Research Centres. The Institute has played a pioneering role in conducting demographic surveys in India.

A demographic survey of Kolhapur city in 1945 made a lasting contribution towards evolving and establishing a standardized methodology of demographic surveys. A research centre in demography was set up at the Institute in 1949. This was the first of its kind in the country. The Union Ministry of Health and Family Welfare had given

grants to the Institute for conducting specific studies during 1954-57. In 1964, the Ministry decided to strengthen and extend the research work on population by establishing a Demographic Research Centre as a part of the Institute. In 1978-79, in pursuance of the recommendations of the Demography Advisory Committee, the centre was re-designated as a Population Research Centre for the State of Maharashtra. It has earned the distinction of being included in the category of 'fully developed' centres according to the norms of the Ministry of Health and Family Welfare.

In the 'fifties, when no information on demographic events was available, the Centre started its work by conducting demographic surveys and thus contributed in a major way to the area of survey methodology. After the launch of the family planning programme at the official level, the Centre had contributed by actively participating in the implementation of the sterilisation programme and by undertaking communication-cum-action studies. Studies on the after-effects of vasectomy camps and on the acceptance of the loop as an IUD gave valuable inputs about the methods of family planning.

Various dimensions of the family planning programme at its different stages, starting with its communication methods and including several of

its other aspects such as compulsion during emergency, the adoption of spacing methods, maternal and child health, the withdrawal of the targets, the RCH approach of the programme, RTI/STI, client satisfaction, and unwanted pregnancies have all been studied by the Centre. The work of NGOs in the field of family welfare has also been evaluated. In recent years, evaluations of the sterilisation bed reservation scheme and of the functioning of family welfare training institutions, ultrasound sonography centres and urban health posts have also been carried out.

In the area of data collection on a wide scale, the Institute has independently carried out or participated in major surveys in the 1980s and 1990s (NFMS, 1980; NFHS, 1992-93; and RCH Baseline Survey, 1998). Apart from evaluative and fact-finding surveys, many analytical studies are carried out in the PRC. Recently, a study on the cost of health care in public hospitals in Maharashtra has been completed at the Centre. The Centre has also just completed two rounds of a World Bank-sponsored research study on quality of health care (client and provider satisfaction) in India/Maharashtra. The demography of India's tribal population is another recently completed research project at the Centre.

Centre for the Study of Social Exclusion and Inclusive Policy (CSSE&IP)

CSSE&IP is a multi-disciplinary research centre established under the UGC in the year 2008 (as part of the Eleventh Plan) to carry out research and teaching in the areas of social exclusion, discrimination and inclusive policy. The key objective of the Centre is to conceptualize and

define problems related to discrimination, exclusion and inclusion based on caste, ethnicity and religion. The Centre proposes to focus on developing an understanding of the nature and dynamics of exclusion and discrimination at both theoretical and empirical levels.

Besides these three centers the Institute also houses four prestigious Chair Professorships.

- RBI Chair Professor of Finance whose unit conducts research and teaching in Monetary and Financial Economics. (Funded by Reserve Bank of India)
- D.R.Gadgil Professor of Planning and Development. (Funded by Planning Commission of India)
- Ford Foundation Professor of International Economics. (Funded by Ford Foundation)
- Kamalnayan Bajaj Chair Professor of Industrial Economics. (Funded by Kamalnayan Bajaj Foundation)

Library Services

The Institute shares the Servants of India Society's Dhananjayarao Gadgil Library and has been mainly responsible for building up the library during the last eight decades. This library is considered to be one of the foremost specialised libraries in India in the fields of economics and other related social sciences. The library now has 2,71,861 books and 370 journals and periodicals received on subscription, exchange, gift, and depository basis. The library has a microfilm camera, microfilm and micro-fiche readers, and a documentation section. With a view to making known the addition of books to the library and the contents of the latest journals newly received in the library, two fortnightly lists, namely, Fortnightly List of Additions and Fortnightly List of Articles on India are brought out regularly and circulated in mimeograph form. A monthly Current Awareness Bulletin is brought out by the Library in mimeograph form. The Library has recently completed its automation programme and has Web OPAC linked to the Institute website.

The Dhananjayarao Gadgil Library of the Institute had organised a one day workshop on 'The Future of the Information Profession: Embedded Librarians and Beyond' with SLA Asian Chapter, the Pune University Library and the Information Science Alumni Association (PULISAA) on 12 Oct 2009. The workshop was attended by more than 80 participants.

During the year 2009-10, the library initiated the digitization of two lecture series, starting with the R.B.R.R. Kale Memorial Lecture delivered this year by Shri C.B. Bhawe, Chairman, Security Exchange Board of India and the P.R. Dubashi Public Lecture, given this year by Prof. Jayant Lele, Prof. Emeritus, Queen's University, Kingston, Canada.

The library also organized the display of publications of various speakers and committee members during their visit to the Institute, viz. display of publications of Dr. Meena Radhakrishna, Prof. Jayant Lele, Prof. C.P. Chandrasekhar, Prof. R.S. Deshpande and photographs and video clips of Shri C.B. Bhawe.

A collaborative digitization project between Gokhale Institute of Politics and Economics and the Institute for Social Economic Change, Bangalore was initiated and by March 2010, around 500 books had been digitised. This will help in easy electronic access and preservation.

The library had also initiated the process of bar-coding and pasting spine labels to the books in August 2009 and by March 2010 about 75 percent of the bar-coding of the library collection had been completed.

Other services offered by the Library during the year were:

- (i) Fortnightly List of Articles on India with Annual Index
- (ii) Fortnightly List of Additions
- (iii) Current Awareness Bulletin

New books purchased and journals subscribed to:

During the academic year 2009-2010, the library subscribed to 370 periodicals which include 190 Indian journals and 180 foreign journals. The details are given below:

Subscribed	: 165
Exchange	: 140
Gifts	: 51
Depository	: 14

The Library also added 1,652 books to its collection in 2009-2010. The value of the books and journals purchased/subscribed to are given below:

Expenditure on books	: Rs 1,09,122.00
Expenditure on journals	: Rs 14,14,760.25
Total expenditure.	: Rs 15,23,882.25

Computer Centre

The Statistical Department:

The statistical department plays to the statistical research team at GIPE, which aids faculty members, researchers and students alike with their data analysis tasks.

The Computer Centre housed in the statistical department is well-equipped with hardware and software to support the research, teaching and training programmes of the Institute. A one-year Certificate Course on Computer Applications for Economic Analysis has been introduced for the past and present M.A. and Ph.D. students of the Institute to complement the training in economics received by them at the Institute. The Students are equipped with the latest analysis/analytical tools such as STATA, EViews, SPSS, MATHEMATICA, in a specially designed diploma course which adds value and insight to theoretical learning.

In the computer laboratory, students have access to the internet both for reference work and communication. The most up-to-date resources for these purposes are at hand as the Institute subscribes to superior resource websites such as Britannica, JSTOR, Indiatat, Springer link etc.

Consultancy and guidance services in data processing in collaboration with the Indian Council of Social Science Research (ICSSR)

In the Computer Section, facilities for data processing are available to researchers. The Institute offers consultancy and guidance services in data processing in collaboration with the Indian Council of Social Science Research.

Publications

The Institute has been regularly publishing a quarterly journal of economics in English, *Artha Vijnana*, since March 1959. This journal publishes results of research work carried out in the Institute as well as works of scholars from outside the Institute after a rigorous refereeing process. The journal achieved an important milestone in 2008 by completing its 50th year of continuous publishing. To celebrate the occasion, the Institute

brought out a Golden Jubilee Special Issue of the Journal (Vol. 50, No. 4, December 2008). The Institute also publishes research works in the form of working papers, books and mimeograph series. The R.B.R.R. Kale Memorial Lecture, organised by the Institute every year on the occasion of the Founder's Day, is published under the Kale Memorial Lecture Series.

Staff Quarters and Hostels

The Institute has its own residential campus, about 700 meters away on the same BMCC road on which the Institute is located, with staff quarters for accommodating both teaching and non-teaching members of the staff of the Institute. It also has hostel facilities for male as well as female MA / Ph. D. students of the Institute.

Its strategic location with respect to the Institute and the city ensures minimum wastage of time and resources and provides the faculty members and students a peaceful environment in which to pursue their research or class work. However, the

importance of recreation is also fully recognized and on-campus provisions are made for several sports such as volleyball, table tennis, cricket, badminton, etc. The hostels have an adjoining dining hall and also TV rooms. The proximity of the hostels to the staff quarters allows students' interaction with the faculty on a personal basis which also enhances the chances for faculty-student interaction and creates opportunities for discussions outside the class on issues of current economic importance.

Student Activities

GIPE has consciously aimed to provide its students with an environment conducive to their all round development. GIPE not only encourages students to excel academically but also inspires them to pursue their hobbies in sports, dance, music, quiz competitions and other activities. Active participation and a tremendous amount of enthusiasm is seen among the students in the annual cultural event 'PULSE' and the annual sports week 'Utsaah' to name few . The quiet ambience of the campus is rather deceptive as, actually, it is always teeming with activity.

- **Pulse-** is an intra-university cultural event, which is held in the month of August, that calls for healthy competition and teamwork among students. Held over a period two days, the events are divided broadly into literary arts, performing arts and fine arts. It is witness to everything from creativity, music, intellect and wit to light –hearted comedy.
 - **'Utsaah'**- This is an intra-university sports meet organized in the month of February and is a weeklong event. It builds team spirit and sponsorship and brings out the best in people as there is participation from all the enthusiastic students. The events include badminton, table tennis, cricket, throw ball, chess and carom.
 - **The Annual Trek** is another eagerly awaited activity and a completely enthralling experience. A trek to the Lohagad fort is organized in the monsoon, which is an 18 km walk uphill and downhill.
 - **The Film Club** aims to foster an interest in the students in cinema of various genres. There are screenings every weekend, which are free of charge for GIPE students and faculty. It enables an exchange of ideas and discussions beyond the syllabus.
 - **The Cultural Club** encourages students to participate in various inter-collegiate events held in institutions around the country. GIPE students have participated in WALLSTREET at Fergusson College, Pune, MANTHAN at the National Insurance Academy, Pune, TALK-ATHON at the College of Engineering, Pune, etc. in the past and have won coveted awards.
 - **Reminiscence-** Reminiscence is an alumni focused event. The main objective of this annual alumni meet is to bridge the generation gap between different batches of students and to ensure that alumni stay in touch with their alma mater. It also enables students to seek appropriate guidance from their experienced seniors with regard to developing their career.
- Apart from all these activities, festivals like *Ganesha Chaturthi, Janmashtami, Laxmi Puja* and so on are celebrated with much fervor and enthusiasm.
