TABLE I.

Area, Houses and Population.

This table shows for each district the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female. Similar figures are given for the Feudatory States.

2. The difference between some of the areas here shown and those in the corresponding Table of 1911 is due to inter-district transfers and recalculation of areas ; as explained on the title-page of Table II.

3. For the purpose of column 3 [number of towns] cantonments have been treated as forming part of the Municipalities which they adjoin.

4. The main statistics for Tahsils or Taluks will be found in Provincial Tables I and II at the end of the volume.

TABLE II.

Variation in Population since 1872.

The table compares the population of each district and State in the C. P. and Berar as ascertained at the Census of 1921 with that of the five previous censuses. The figures for the latter differ from those shown in the previous Census Reports. This is due to subsequent transfers of territory from one district or State to another within the Province and also to the recalculation of areas. The effect of these changes on the population of the districts or States concerned has been calculated and the figures have been adjusted accordingly.

2. The following are the Districts and States of which transfers of territory have taken place :—

Between 1872 and 1881.

Seoni, Balaghat, Betul, Hoshangabad, Chanda, Chhindwara.

Between 1881 and 1891.

Mandla, Balaghat, Seoni.

Between 1891 and 1901.

Nagpur, Seoni, Chhindwara, Hoshangabad, Nimar, Betul, Mandla, Balaghat.

Between 1901 and 1911.

Saugor, Narsinghpur, Mandla, Balaghat, Hoshangabad, Nimar, Betul, Chhindwara, Chanda, Drug, Raipur, Bilaspur, Amraoti, Akola, Buldana, Yeotmal.

Between 1911 and 1921.

Damoh, Seoni, Hoshangabad, Chhindwara, Wardha, Nagpur, Bhandara, Balaghat, Raipur, Amraoti, Akola, Buldana, Yeotmal, Kanker State.

Between 1872 and 1881 the Bhadrachalam and Rakapalli talukas were transferred to the Madras Presidency while between 1901 and 1911 Berar and the Chhota Nagpur States (Changbhakar, Korea, Surguja, Udaipur and Jashpur) were added to the Province and almost the whole of the Sambalpur district and the Oriya States (Bamra, Rairakhol, Sonpur, Patna and Kalahandi) were transferred to Bengal and a portion of Chanda to Madras.

3. The first census of Berar was taken in 1867. The figures given under 1872 in this and other subsequent tables are those of the 1867 census.

TABLE IV.

Population of Towns with Variation since 1872.

The population of Cantonments has been added to that of the Municipalities or towns which they adjoin. The Cantonment population is shown below separately:—

Cantonment.	Municipality or town with which included.	1921.			1911.		
		Persons.	Males.	Females.	Persons.	Males.	Females.

Pachmarhi ...	Pachmarhi ...	4,114	2,339	1,775	3,287	1,842	1,445

The population of the Harda Municipality was affected by plague. At a re-census later in the year the population was found to be 13,138.

2. As this table is intended to show the Urban population, the population of the towns has not been adjusted so as to allow for changes of area since the Census of 1911. Figures for places not previously classed as towns have been taken from the printed village tables of the last Census.

3. Panagar in Jubbulpore and Telhara in the Akola district which were treated as towns at the last Census have been omitted as they are no longer large enough to be so treated, while Champa in Bilaspur, Armori in Chanda and Bhatapara in the Raipur districts have been added to the list of towns owing to their increased importance. Khairagarh and Kanker which are the capitals of Feudatory States have also been treated as towns since the last Census. The subjoined tables show the increase and decrease in the area and population owing to these changes. Information regarding the area and population of the Kanker and Khairagarh towns previously is not available.

TABLE VII.

Age, Sex and Civil Condition.

This table is divided into three parts. Part A (pp. 38 to 42) shows the distribution for the Province as a whole of the total population and of each religion by age, sex and civil condition. Part B (pp. 42 to 57) shows the distribution in Districts and States of the total population and of the main religions by age, sex and civil condition, but in this part the age statistics have been given in less detail than in the Provincial Summary. Part C (pp. 57 and 58) gives similar details for cities.

Detailed information for the age periods not shown in Parts B and C, can be obtained from the manuscript Compilation Registers which have been preserved.

FABLE VIII.

Education by Religion and Age.

This table, like Table VII, is divided into three parts. Part A (p.p. 60 and 61) shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned. Part B (pp. 62 to 71) gives details for districts for the total district population and for each main religion, and Part C (p. 72) gives similar details for cities.

Columns 6, 7 and 8 of the table show the number of persons literate in their vernacular. The number of persons literate in English has also been shown. Some of these have returned English as their only language, while others are also literate in a vernacular, and have accordingly been entered twice—once in the column referring to the vernacular, and again in the columns "Literate in English." The latter columns must, therefore, be left out of account in calculating the total number of literate persons.

TABLE IX.

Education by Selected Castes, Tribes or Races.

This table repeats the information given in Table VIII in respect of education with this difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover in Table VIII the whole population is dealt with, while this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space figures have been given not for each district separately but for groups of districts the local conditions of which may be presumed to be fairly uniform. These groups as a rule correspond to the Natural Divisions whose constitution is explained in Chapter I of the Report Volume. Thus the Divisions for purposes of this table are as follows:—

Nerbudda Valley.—Saugor, Damoh, Jubbulpore, Narsinghpur, Hoshangabad and Nimar.

Maratha Division.—Nagpur, Wardha, Bhandara, Chanda and the Berar Districts.

Plateau Division.—Mandla, Seoni, Betul, Chhindwara and Balaghat.

Chhattisgarh Division.—Raipur, Bilaspur and Drug.

Chota Nagpur States.—Changbhakar, Korea, Surguja, Udaipur and Jashpur.

The district strength of Ahirs, Baniyas, Banjaras, Malis, Dhimars and Rajputs does not tally with that of Table XIII, as the latter includes figures added in the course of classification.

TABLE X.

Language.

In this table, the languages and dialects have been arranged according to their family affinity, the classification having been based on Sir George A. Grierson's scheme. The principal vernaculars of the Province are :—

Hindi	Columns	5—7
Marathi	"	26—28
Gondi	"	62—64

Only the more important dialects have been included in the table, and the rest have been shown in the appendix.

As the present classification is based on Sir George Grierson's scheme, it differs in many respects from the last census classification. For example, a new group of languages, *i.e.*, Rajasthani has been shown in the table, and Marwari and other dialects which had previously been included in Hindi have now been taken under Rajasthani to which they properly belong.

TABLE XIII.

Caste, Tribe, Race or Nationality.

This table shows caste and the religion to which a caste belongs. In cases where large numbers of the caste profess various religions, separate figures have been given for each. Where figures for other religions than the main religion were very small, they have been added to those for the main religion and the number so added has been noted in the column of remarks.

Sub-divisions of castes were returned in the case of Banias and Rajputs only and have been duly entered. As far as possible groups that are not true castes have been added to the castes to which they appeared to belong with reference to Appendix C of the Administration Report of 1911.

On this occasion no appendix giving details of the Minor castes has been prepared as was done at the previous census.

PROVINCIAL TABLE—I.

**Area and Population of Tahsils, Cities and Large
Towns.**

In this Table the area and population of the Tahsils of the Central Provinces, the Taluks of Berar, and of two cities and twelve large towns are shown. The figures for Zamindaris are given separately under the Tahsil to which they belong. The figures of the cities and towns are shown above the Tahsil to which they belong and are not included in the Tahsil figures.

PROVINCIAL TABLE II.

Population of Tahsils, Cities and large Towns by Religion and Education.

In this Table the population of the Tahsils of the Central Provinces and the Taluks of Berar and of two cities and twelve large towns is shown by the four principal religions. The figures for Zamindari areas are given separately under the Tahsils to which they belong. The figures of the cities and towns are shown above the Tahsil to which they belong, and are not included in the Tahsil figures. Literacy is shown for the same areas for certain main age periods, but the Tahsil figures include only Hindu, Animist and Muhammadan literates, as literacy for the Christian and minor religions was not sorted for smaller units than the District.
