# IMPERIAL TABLE I.

## AREA, HOUSES AND POPULATION.

*Notes.*—1. The number of units in this and the other Imperial Tables differs appreciably from the number for which statistics were compiled in 1921. In 1921, the territory now known as the Western India States Agency, was included in the Bombay Report, whereas on this occasion it has been decided to exclude it and to prepare a separate Report for the Agency. In consequence the volume of statistics accompanying the General Report for 1931 contains details only for

(a) British Districts.

(b) Those States and Agencies which are under the control of the Government of Bombay.

(c) Aden.

Nevertheless, the gross figures for the Western India States Agency have been inserted, in order to facilitate comparison. Further, in dealing with the units comprising (b) above, individual figures have been given for a larger number than in 1921. In consequence the number of units in Table I has increased from 62 to 75.

2. The area of the Thana District has been further depleted by the transfer to the Bombay Suburban District, of seven villages which have been formed into a new Taluka known as the Ambernath Taluka. The Bombay Suburban District therefore, now, comprises the two talukas of South Salsette and Ambernath and the Thana District itself has been transferred from the jurisdiction of the Commissioner, Bombay Suburban Division, to that of the Commissioner, Central Division.

3. The figure of population of Ahmedabad District given in Tables I, II and III differs from that of other Tables in consequence of the fact, that in the first four Tables, the population of the Ahmedabad Municipal Area has been estimated at 310,000 whereas in the remaining Tables, the figure shown is the one obtained by enumeration on the night of the Final Count.

4. The area shown in this Table for (i) British Territory, (ii) The Bombay States and Agencies is 151,593 square miles as against 151,523 in 1921—a net gain of 70 square miles. The details of this increase are given below:—

<i>Gain.</i>			<i>Loss.</i>		
District or Agency.	Extent in square miles.	Cause.	District or Agency.	Extent in square miles.	Cause.
Satara	143	Due to survey settlement.	Karachi	124	Due to action of the Indus river.
Ahmedabad	22	Do.	Sukkur	4	Do.
Sholapur	13	Do.	Nawabshah	1	Do.
Bombay Suburban District.	12	Transferred from Thana District.	Poona	25	Due to survey corrections.
Nasik	5	Due to survey corrections.	Kolaba	3	Introduction of survey settlement.
Ahmednagar	1	Do.			
Bijapur	3	Do.	Thana	12	Transferred to the Bombay Suburban District.
Upper Sind Frontier	1	Do.			
Kaira	24	Do.			
Panch-Mahals	2	Do.			
Belgaum	1	Do.			
Bewakantha Agency	12	Do.			
	230	Net gain—70 square miles.		169	

5. The object of this Table is to specify for each named territorial unit, the number of Towns and Villages, the number of Occupied Houses, and the total Urban and Rural population in the unit.

6. In column 3 the word "Cause" means pl-

7. In column 4 the term "Village" means a Revenue Village other than (i) those which are merged in Cities and Towns and (ii) those which on the night of the Census were uninhabited.

8. In columns 5, 6 and 7 "Occupied Houses" means Census houses. House is variously defined according to local conditions. But the tendency is to define a House as the residence of a commensal family. But any building which contained a single individual on the Census night was reckoned as an "Occupied House".

9. The term "Urban" has been applied to persons enumerated in those places treated as Cities or Towns for the purposes of Imperial Tables IV and V. "Rural" connotes population enumerated in all other places.

10. Every Cantonment area has been treated as a separate Town.

11. The details of the population by Talukas are given in Provincial Tables I and II.

## IMPERIAL TABLE II.

### VARIATION IN POPULATION SINCE 1881.

*Note 1.*—The figures of population of Ahmedabad District given in this Table and Tables I, III and IV differs from that of other Tables in consequence of the fact, that in the first four Imperial Tables, the population of the Ahmedabad Municipal area has been estimated at 310,000, whereas in the remaining Imperial Tables, the figure shown is the one obtained by enumeration on the night of the final count.

*Note 2.*—The units affected by the transfer of villages from one district to another are the Thana, Sātara, Sholapur and the Bombay Suburban Districts and in these four cases, the population for previous decenniums has been adjusted, so as to represent the population of the area of the district, as it stood on the 26th February 1931 i.e. the population of a village transferred from one District to another, has been deducted from the figures of the District which has lost the village and has been added to the population of the District which has gained by the transfer. Alterations in area owing to survey correction have been ignored.

*Note 3.*—Owing to the fact that the details of all States in the Bombay Presidency have been given individually for the first time in 1931, separate figures for each State are not in some cases available.

### IMPERIAL TABLE III.

#### CITIES, TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

For the meaning of "Towns and Villages" in column 2 of this Table see remarks on Imperial Table I.

(1) Persons enumerated in encampments, boats, running trains, etc., have been excluded from the total population before grouping the towns and villages into classes.

(2) Residents of Station premises and persons enumerated on platforms are included in the population of the village or town in which the station is situated.

(3) In the cases of the towns of Bombay and Karachi, the floating population viz.: persons enumerated on board of vessels in the harbour, has been merged in the population of the City. Elsewhere the floating population viz.: persons enumerated on small boats, on rivers, and along the coast, has been shown separately (column 22).

(4) Encampment means a cluster of huts or tents occupied by members of wandering tribes, who normally do not reside within the limits of a village.

(5) At this Census all cantonment areas have been treated as separate towns.

(6) The figures of population for Northern Division and Ahmedabad District in this Table, will correspond with the figures in Imperial Tables, I, II & IV only as the population of Ahmedabad City has been estimated at 310,000 for the purposes of Tables I, II, III & IV and taken at the figure obtained by actual enumeration for other Tables.

## IMPERIAL TABLE V.

### CITIES AND TOWNS ARRANGED TERRITORIALLY, WITH POPULATION BY RELIGION.

(1) The figures of population for the Northern Division, the Ahmedabad District and Ahmedabad Town will not correspond with the population in Imperial Table IV and with the "Urban" population in Imperial Table I for Northern Division and Ahmedabad District as the population of Ahmedabd City has been estimated at 310,000 for the purposes of Tables I and IV and taken at the figures obtained by actual enumeration for this Table.

(2) Certain places treated as Towns in 1921 have been omitted from this Table on this occasion and other places have been added (*vide* remarks on the fly-leaf of Table IV).

(3) Purandhar Cantonment is omitted owing to its abolition.

The Cantonment areas at Ahmedabad, Ahmednagar, Poona, Kirkee, Belgaum, Hyderabad (Sind), Karachi and Kolhapur have been treated as separate towns.

(4) The term "Suburb" means an area possessing urban characteristics in direct proximity to, but actually outside any Municipal area. The population of a "Suburb" although actually within the boundaries of a revenue village, is nevertheless shown as urban and not rural population in Tables I, IV and V.

The column "Others" consists of the following:—

### IMPERIAL TABLE X—OCCUPATION

*Note 1.*—The arrangement of this Table is based on the scheme of classification of occupation prescribed by the Census Commissioner for India.

*Note 2.*—The Table gives the figures of earners and working dependents only for each group. It also shows for each group the number of persons who follow it as subsidiary occupation. Non-working dependents are not shown separately for each occupational group but their total number has been shown at the top for the whole Presidency.

*Note 3.*—The figures of the total population in the General Table for the Presidency including States and Agencies and that of British Districts will not correspond with the figures of the total population in Imperial Tables I, II and III as the population of Ahmedabad City has been estimated at 310,000 for the purpose of Tables I, II and III and taken at the figures obtained by actual enumeration for this Table.

*Note 4.*—There are no entries in the case of group No. 12, Order 1 (b), Sub-class I—Ganja cultivation.

*Note 5.*—The figures of total population of Bombay City, British Districts and Bombay Presidency in Part II of this Table falls short by 3,116, as in the case of Bombay City 3,116 persons (Males 2,521, Females 595), returned themselves as "Earners" without specifying the occupation they followed.

*Note 6.*—The unusual number of female earners and working dependents recorded against Thana below group 17 (Forest Officers, Rangers, Guards etc.) seems to be due to incorrect classification in the Abstraction Office. Presumably these must be wood-cutters and charcoal burners (Group 18) or Collectors of forest produce (Group 19).

## PROVINCIAL TABLE I.

### AREA AND POPULATION OF TALUKAS AND MAHALS.

---

*Notes.*—1. For definitions of "Town," "Village" and "House" see notes to Imperial Table I.

2. The figures of population of Ahmedabad District given in this table agrees with that in Imperial Tables I, II and III but differs from that of other Tables in consequence of the fact that in this as well as in Imperial Tables I, II and III, the population of Ahmedabad Municipal Area has been estimated at 310,000 whereas in the remaining Tables, the figure shown is the one obtained by enumeration on the night of the Final Count.

3. As the information for individual States is already contained in Imperial Tables I and XX, it has not been repeated in this Table.
